## Humber Bay Claims Nine Victims Young Men of Toronto Junction Swamped by Giant Waves in Night

Only One of the Ten Passengers of Gasoline Launch Dalvine Survives After Hanging on Bottom of Battered Craft for Hours.

### CREW ON WAY HOME FROM NIGHT AT ISLAND

The hand of Death stretched out across the Humber Bay in the early hours of yesterday morning. Its cold fingers closed about nine young men in the black darkness and sorrow entered into eight homes in Toronto Junction.

Just as the 18-foot gasoline launch Dalvine, bearing its human freight of ten young men, entered the Humber Bay, the blinding storm struck her and her engine, which had been repaired but a week before, gave out.

The night, which had been dark, became darker; the wind rose to a gale and the little boat, heavily overpowered and with her engine stopped, drifted into the trough of the waves.

Panic reigned on board and in a moment a wave greater than the others swamped the little boat and the ten were struggling in the water.

Six Gained a Hold. When the half-drowned lads clambered back upon the overturned boat, they numbered but six.

The boat was tossed about. From time to time this one or that was dashed from his hold by the waves.

Again a greater wave rolled the boat over and this time but three returned. These were George Shields, J. C. Irvine and Walter Dundin.

From this on the battle for life was desperate indeed. The exhausted men clung to the trembling craft, dashed this way and that by the fury of the storm.

At last the battered boat was cast upon the wind-tracked shore opposite the Sunnyside Boat Works, but only two of the men were with her, and one lay buried in the sand inert and lifeless. This was Walter Dundin.

Safe on Shore. This man, dazed by his frightful ordeal and chilled to the bone, looked about him for his comrades. He thought himself the last to land and called aloud for the two who had been clinging to the boat with him.

He called, weakly at first, then louder, but received no response. Then, weakened and sore from his long struggle and crushed by the knowledge of the doom which had overtaken his companions, he gradually settled into his dulled senses, he took up his painful way to the High Park to his home.

## Shields, Battered by Waves, Fights Death Three Hours

### Only Survivor of Party of Ten Tells Thrilling Story of Struggle—Completely Exhausted When Launch Came on Shore.

Many were the sad houses in Toronto Junction yesterday. Many were the mothers beyond consolation, weeping and praying for the return of a beloved son. But amid the gloom there was one mother shedding tears of joy, after a restless, heart-breaking night of worry—it was the mother of George Shields, the sole survivor of the terrible disaster of Sunnyside yesterday morning.

On George Shields alone rests the sad duty of relating the story of the terrific struggle he and his nine companions had with the fatal waters of the bay.

He alone of the ten young men who, Thursday night, started out for a pleasure trip in a gasoline launch, returned with the tidings of the worst drowning accident Toronto has known in years.

Shields' Own Story. He escaped the death which his companions met, but how he does not know—no body knows.

"It was a miracle, and nothing else," said the young man. "I don't know; I cannot explain how the others were drowned and I was saved. I am alive and that to me is all I care for. It is awful to come thru such an experience."

Thus spoke to a World reporter the sole survivor of the catastrophe, at his home, 45 VanHorne-street, while his mother sat beside him, thanking Providence that her prayers for the safety of her loved one had been heard.

Most pathetic was the scene in the Shields home. The only ones at the house were the mother, her son and a neighbor, who remained with Mrs. Shields Thursday night while she waited and watched for her boy to return. The young man was more composed than during the earlier part of the day, when he was suffering from a severe nervous shock, and was still dazed by his thrilling experience.

"The Trip to Hanan's." "It was a fine time," said Shields, "that I had been out in the launch Dalvine, and went out for a ride at the evening's pleasure. I was with a couple of the boys were singing on the way back. Everybody was orderly, however, and there was no scuffling or moving about in the boat which would cause its overturning."

### ENGINE BLOWS UP TWO KILLED DYING

## A Railway Accident at Simcoe Results Disastrously to Crew of St. Thomas Men.

ST. THOMAS, July 26.—(Special).—Two men were killed and a third will die as a result of the explosion of a boiler of a locomotive attached to a Wabash freight train near Simcoe. The dead are Dennis Patterson, aged 28, and Louis Norton, brakeman, aged 35. Fred Calvert, the fireman, will die. All three men belong to this city.

The freight eastbound, left Simcoe at 8:40 p.m., and was passing under the Schuyler bridge when the explosion occurred. The bridge was demolished. Patterson was blown a considerable distance, and was terribly disfigured. He was killed instantly.

Norton, who was riding on the engine cab, was so fearfully scalded that he died half an hour after being brought to the hospital here by a special train. Dr. Stanton of Simcoe accompanied the train. Calvert, who was also brought here, has both legs broken and is badly scalded. He also inhaled so much steam that little hope is held out for his recovery.

The engine was wrecked and two cars of provisions were burned. The cause of the accident is not known. Coroner McIntosh will conduct an inquest.

### BIG CROWD IN COURT FOR FINAL ARGUMENT

## Senator Borah Concludes His Address—Judge Gives His Charge To-Day.

BOISE, Idaho, July 26.—Senator Borah concluded his address at 7:20 p.m., and Judge Wood announced that he would charge the jury in the Haywood case at 10 a.m. to-morrow.

As early at 7 o'clock this morning the court house doors were besieged by hundreds seeking admittance to the courtroom.

Inside the court, as the next to the last day of the trial began, Haywood sat, surrounded by his family. His invalid wife, whose helpless condition and pallid face have attracted so much attention and sympathy, sat immediately at his right, and next to her was the gray-haired mother, who, yesterday, could not restrain the tears which welled to her eyes as Clarence Darrow called the last plea for the life of her son. The prisoner's daughter and sister were also in the family circle.

Mrs. Frank Steunenberg, the wife of the murdered governor, and her stalwart son, Julian, were early in the courtroom, and when they had been shown to seats inside the attorney's rail found themselves within seven or eight feet of Haywood himself. Attorneys from many cities in the west crowded the gallery.

Senator Borah began by reviewing briefly the points made in the opening hour of his address to the jury last night. He said he would go briefly over the trail of blood left by Harry Orchard, taking first the murder of Governor Steunenberg and harping on the fact that he was the most important incident developed in the testimony.

"I hardly need to tell you sensible men," declared the speaker, "that the Oregon detectives had nothing to do with the assassination of Frank Steunenberg. That is one of the most assured of the many absurd things brought into this case by the learned counsel of the defense."

## ENGINE BLOWS UP TWO KILLED DYING

## Five Children TACKLED BY "RIPPER"

Berlin is Stirred by Series of Fiendish Outrages on Little Girls During One Afternoon.

BERLIN, Germany, July 25.—A series of cold-blooded crimes, singularly resembling the "Jack the Ripper" murders, but for the fact that instead of women the victims were little girls, occurred with remarkable celerity this afternoon, almost in the centre of the city, and aroused the most intense excitement and indignation.

Within a short space of time the assassin successively enticed three girls, the oldest only five years old, into doorways of houses and stabbed them several times in the abdomen with a sharp instrument. As a result, one of the children is dead, another is dying and the third is dangerously wounded.

The first knowledge that the crimes had been committed came when an occupant of a house at the corner of Ryke and Belforter-streets found the body of Margaritha Prazitz, aged four, lying in the doorway, bathed in blood, her bowels protruding, and the lower part of her body horribly gashed.

This was immediately reported to the police, who were about to investigate the case when reports came that Bertha Lenz, aged three, and Ely Kuesper, aged two, had been found similarly outraged, but still alive, in Fraunhofer Alley and Henseler-Orfer-street.

The news soon spread through the vicinity, which magnified the number of the victims and the inhumanity of the neighborhood became intensely excited. Mothers sought their children in the street and made them return indoors for fear that they might meet a similar fate.

Crowds gathered about the police station shouting vengeance against the murderer. In the meantime the two victims who still lived were taken to a hospital. They condition is extremely precarious, and they are not expected to survive the night.

Some time later his prayer was answered. He reached a stream and came across a canoe belonging to a part of prospectors of the Buffalo Development Co. Bedeck then showed his real mettle by promptly stumbling back thru the bush.

Development Co. Bedeck then showed his real mettle by promptly stumbling back thru the bush. He was carried on his back to the stream. Then, guided by the noise of blating, he crawled down stream to the camp. There the party, consisting of J. Joyce, C. W. Evans, P. J. Dwyer and J. McGregor, took care of them.

They were sleeping without food they were a large bear close to them digging about for food. Landreau, who saw several moose, Landreau threw away his pack of clothes worth \$15.

Had Bedeck not come across the prospecting party Landreau would never have gotten out of the woods alive.

## NO CASE AGAINST MILLER

### FOUR OTHERS SENTENCED

Lindsay Counterfeiters Fare Easily Before the Magistrates—Crowd Cheers the Acquittal of Young Prisoner.

LINDSAY, July 26.—(Staff Special).—The Lindsay counterfeiters, and those accused with them, found their final to-day, as follows: Burke—Three years in the penitentiary. Logic—Two years in the penitentiary.

Boyveau and Wynn—One month in jail, each. Eitelberg, released upon his own recognizance. Miller—Acquitted upon the evidence.

The crown had already withdrawn the information against Goslin. The speeches by counsel for the various defendants, and the remarks from the bench occupied precisely one hour and a half.

Promptly at 10 o'clock the magistrates ascended the bench and called the case of George Miller.

They are law partners, the two magistrates. Mr. Moore, whose jurisdiction covers the county, recalls, in appearance, the worshipful mayor of Toronto. He presides, with great state, and his periods are well rounded. In his appearance, of gentle voice, and kindly manner.

Mr. Miller's case fell under Magistrate Moore's jurisdiction. It had been enlarged from Tuesday last, and little doubt existed as to how it would be disposed of. Nevertheless, his worship read a long opinion, in which he scored the testimony given by Burke and Logic as "faint evidence." They had offered before themselves, he pointed out, as to the date of the "money-making" at which they claimed young Miller had assisted.

Information lodged by the crown had charged Miller with having counterfeited bills in his possession on Jan. 25, 1906. Logic's testimony fixed the time at March or April, 1904. Burke's recollection was still more astray. He had located the crime as being committed in the autumn, and he was uncertain about the year. The magistrate held that these discrepancies were fatal.

The charge laid the crime committed on Jan. 25, 1906. No witness could recall that date. But, apart from that, the court held that he could not convict upon the uncorroborated evidence of two accomplices.

Henry Miller was discharged, amid loud applause, entirely untroubled, followed by handshakings and general congratulations.

It is not yet explained why the crown selected this particular day in January in drawing the information. It happens to be the day of the last provincial general election. No other reason can be assigned, as the crown must have known from the statements of Burke and Logic that this was not the date which they would swear to.

Miller's case disposed of, Burke was called for sentence. The press reports may have given one the impression of a rattling devil-only-care-I'm-him, presumably red-haired, freckle-faced and blue-eyed, with legs impossibly dangle a fig, and a round face dimpling with laughter. In fact, Burke is a lank, lean French-Canadian apparition.

## LOST TWO DAYS IN COBALT BUSH

### Two French-Canadians Have a Nasty Time—One Lay Down to Die.

COBALT, July 26.—(Special).—A thrilling story of the dangers faced by prospectors and others in the Larder Lake country comes from Wendigo Lake.

It seems that two French-Canadians, by name Joe Landreau of St. Agathe, and Max Bedeck of Fort Coulonge, left Wilson's portage, on Wendigo Lake, to tramp 20 miles along the wagon road to Larder Lake, where they were to cut wood for a steamboat company.

They had traversed a few miles when they were overtaken by a wagon, the driver of which volunteered to show them a short cut thru the bush, which was about three miles from the wagon road.

They started all right, but soon lost their way. For two days they wandered, without food. A small terrier with them they once thought of killing to eat.

Then Landreau played out, and both camped for several hours. Resuming their aimless tramping they had to wade thru water above their knees for a mile or more to get around a hill.

This exhausted Landreau completely and he lay down to die. He handed Bedeck his money and watch, said goodbye and bade him go on and save himself if he could.

Bedeck reluctantly consented and continued thru the dense bush. Frequently he would shoot in the hope that some one might chance to be within earshot. Then he prayed, and with his prayer, he promised himself, should he ever regain civilization he would give all the money he possessed—\$275—to some deserving charity.

The judicials after his prayer was answered. He reached a stream and came across a canoe belonging to a part of prospectors of the Buffalo Development Co. Bedeck then showed his real mettle by promptly stumbling back thru the bush.

## WELLAND'S NEW INDUSTRY

### Boston Bag Company to Build \$1,500,000 Factory

WELLAND, July 26.—Welland has just closed an agreement for another big factory, which will be added to the long list of new factories located here. It is the Bemis Bros' bag factory of Boston, Mass.

They have completed all arrangements, signed papers and paid money on a location here. Their plant, when completed will cost \$1,500,000 and employ 1500 people. They will build one-third of it each year, taking three years to complete it.

This makes 14 new factories locating here in a short time, that will employ about 2500 people.

A few of these factories are in working order, but the most of them are yet in course of construction, and will be in working order shortly.

One Man Loses Life in Trying to Save Companion.

ST. JOHNS, Que., July 26.—Two brothers, Philip Meunier, aged 23, and Arthur Meunier, aged 20, from St. Alexander, met their death by drowning at Brabotte Creek, about two miles south of here, this morning.

While out sailing one of them accidentally fell out of boat, and the other in attempting to rescue him also fell overboard, and both were drowned.

STRATHCONA COMING.

LONDON, July 26.—(C. A. P.)—Lord Strathcona is a passenger on the Empress of Ireland, which sailed to-day from Liverpool.

A SATURDAY SAILING.

The feature of to-day's dealings at Direct's will doubtless be the sale of soft felt hats at \$1.50, for they are of the famous Tress and popular design and are of light shades, perfect style, and a favorite with the good dresser. The regular price is nearly twice as much. The store will be open to-night. Of course, you know that it is at the corner of Yonge and Temperance-streets.

**Young Girls in New York City Suffer Horrible Indignities.**

NEW YORK, July 26.—To the series of unpunished crimes against children and young girls which of late have exasperated and scared parents in outlying districts were added to-day the cases of Virginia Barrett, 17 years of age, and Annie Falkoweko, 5 years of age.

So notorious have the cases of criminal assault become, amounting in two recent instances to murder, that Police Commissioner Bingham has been driven to explain that his force of policemen is insufficient to cope with a particularly species of degeneracy. He has warned fathers and mothers not to allow their little ones to wander out of sight of home.

The British girl has been driven insane by inhuman treatment, an inkling of which first became public to-day. She became separated from a party of friends at North Beach Wednesday, and that night was rescued by chance from a fate in which she was about to drown herself. She had been beaten black and blue and robbed of her clothing. Driven mad by suffering, she fought her rescuer and only with difficulty was placed in restraint. When her mental condition became apparent she was taken to the King's County Hospital. There, in a lucid interval, she told a pitiful story of assault, many of the details of which were subsequently substantiated. Attacked by a gang of nine ruffians, she was left in such a state that her frenzied mind suggested only suicide. It is a question whether she can recover.

Little Annie Falkoweko of Staten Island went to the King's County hospital in with another man, Joseph Nowiak, a steamship fireman, whom the child accused, in under arrest.

**DIDN'T WRESTLE BULL AND RIOT RESULTED**

Police Stopped the Exhibition and the Professor Was Given a Lively Time.

HAMILTON, July 26.—(Special.)—There was no bull fight to-night. The police stopped it and a small-sized riot developed. Athos, a French wrestler, advertised that he would wrestle a big bull. The Citizens League and the police got busy and the local associates of Athos backed out when threatened with prosecution. Other local men took up the enterprise, and about 2500 men and a dozen women gathered to see the contest in Britannia Park. When they arrived they found that the big bull was only about the size of a St. Bernard dog.

The mischief-makers gathered around it and twisted its tail and maltreated it. Wind, it was led over in front of the grandstand. Special Officer Nichol, Sergt.-Major Prentice and a posse of police followed. Officer Nichol declared that the calf's tail was broken, and that it was about all in. Sergt.-Major Prentice promptly called off the bull, and the police led the calf off the grounds.

Some of the crowd that had paid 25 or 50 cents to see the contest got a little luffed and started to batter in the ticket office, demanding their money back. The police quelled this disturbance and the promoters got away with about \$1000 in cash.

Athos had to leave the grounds under police protection. A crowd gathered around and stoned the patrol-wagon when it came for him. The police drew their batons and made two or three arrests. Before the crowd dispersed, Sergt.-Major Prentice threatened to read the Riot Act. When he was charged about a dozen officers he charged the crowd on the run and soon dispersed them.

John Kenney was arrested on the charge of riotous conduct. It is alleged that he threw stones at the patrol wagon. Augusta Jepson, stock yards, caught a brick-bat on the head. A foreigner was badly burned by vitriol at the Ontario Tack Company's Works to-day.

**Ice Cream a Food.**

This morning Judge Monck ruled that ice cream is a food, and can therefore be sold on Sunday, with or without meals. He quashed convictions registered against the following, who were fined for selling ice cream on Sunday, not being restaurant-keepers: Charles Knowles, C. Byrne and W. Crawford.

**Boy Killed.**

This morning Wilfrid Lamond, the ten-year-old son of James Lamond, 583 East Barton-street, was struck by a motor conductor, was hurt so badly that he died in a short time afterwards by a fall from a hoist on the King's County Bank of Hamilton building. With companions who were darning each other, he clung to the bottom of the hoist, and gave the signal for it to be hoisted. His companions dropped when the hoist reached the second storey, but Lamond hung on and was taken to the hospital. There, in a lucid interval, she told a pitiful story of assault, many of the details of which were subsequently substantiated. Attacked by a gang of nine ruffians, she was left in such a state that her frenzied mind suggested only suicide. It is a question whether she can recover.

ly with a trace of Indian blood in his veins and dark, sulky, so-called and seemingly reticent. Those who know him say that he is fond of disputing, and that he is a Dominion senator for a Dominion senator who drew his \$2500 indemnity. He now also recall that he was known to defend smuggling upon the ground that if the customs officer did get the money some grater would get it away from them.

Whether Mr. Burke's peculiar views sprang from his occupation as a counterfeiter, or whether he adopted his profession of counterfeiting as the result of his views, must remain a mystery. At any rate he has been known upon as a dangerous radical and, by common consent, was acclaimed as the ringleader of the gang when the counterfeiter were arrested, and picked up for the awful example. It was known that his sentence would be severe.

He might have gotten fourteen years, but Magistrate Jackson made it three.

**Logie and the Rest.**

Next came Logie. He is said to be 50 years old, of a medium size, of florid complexion, dark hair, and sandy moustache, streaked with grey. He has a narrow intelligent face with bright eyes, rather on the heavy side. An unwritten history in Logie's life, which borders upon romance, and which in part explained the comparative poverty after years of labor. He was mixed up with Burke and counterfeiting, as far back as 1905, and then again, in 1907. Magistrate Moore, however, found him less guilty than Burke, and gave him two years in the penitentiary.

**Boyeau and Wynn came next.** Boyeau has a good, earnest face, and spectacles and a grey moustache. He is the son of a man who might pick out as a cabinet maker or a locksmith. He was for years a messenger in the Bank of Montreal, then his eyesight failed, and he is nearly blind. Until quite recently he was a night watchman. Wynn is a tremulous old man with thin black beard approaching seventy. He dresses in corduroy and looks like a man who is thoroughly broken in body and mind.

Wynn produced a genuine five dollar bill, he would have difficulty in passing it. For him and his half-blind companion a genuine five dollar "push" counterfeit money among people who shy at genuine money made in Canada. An enquiry conducted by the closely bordering upon opera bouffe, that sympathy is mingled with amusement. Some young lawyer, speaking for Boyeau and Wynn, suggested a "suspended sentence." This was beyond the power of Magistrate Jackson, but he did the next best thing. Each man got 30 days in jail.

**Pleased the People.**

The last defendant to be called was Eveleigh. The crown moved for sentence, and suggested that a remand would be satisfactory. He left the court room a free man, upon giving his own recognizance. He was the first man to be arrested, and likely led to the capture of the others.

The crowd, which cheered the acquittal of Miller, was no less enthusiastic when Boyeau and Wynn escaped with a nominal sentence, and Eveleigh with no sentence at all. Apparently the crowd would have cheered had Burke and Logie been released. An effort will be made to commute their sentences. Magistrate Jackson intimated that a higher power might reduce the sentence of Burke and Logie's attorney applied for a certificate that his client had been used by the crown as a witness, thus indicating that he would apply for commutation.

**THE VIADUCT.**

Editor World: I beg to offer a suggestion as an improved alternative to a viaduct along the lake front, or to a series of bridges crossing the present tracks. Why not build a tunnel from a point a little west of the Don, following, as near as possible, the present line of Front-street, in which there will be four tracks for passenger trains and three freight, trains to emerge at or near Bay-street? The present C.P.R. and C.N.R. tracks will be diverted at a point north of Queen-street, tunneling into the high ground, and the G.T.R. tracks would be connected a short distance east of the Don. This would remove all necessity for a high level bridge at Queen-street over the Don; it would dispense with the dangerous street crossings of the present C.P.R. track at Queen-street on the curve south of Queen-street, and would keep all fast passenger and thru freight trains off the Esplanade. It would also obviate the building of a viaduct from Bay to Bathurst-streets, as suggested, an expense not necessary in view of the present bridges on that section.

This scheme does not provide for the abolishing of shunting on the Esplanade, because that seems necessary, but the two or three tracks required for that purpose could be transferred as close as possible to the present Esplanade-street, removing, if necessary, the old G.W.R. station and making arrangements with the Dominion Government to transfer the custom house elsewhere. There much shorter and much

Toronto is a Sober City

Toronto has a wide-spread reputation for the law-abiding nature of its population—the sobriety and public spirit of its citizens—its sturdy spirit of optimism and self-government.

DRINK IN EDINBURGH.

More Drunkenness in Three Days Than in Year in Toronto. (Canadian Associated Press Despatch) London, July 25.—Rev. George Jackson, of Toronto, who is holidaying in Scotland, declares that he has seen more public drunkenness in Edinburgh in three days than all the year round in Toronto.

Why?

Rev. Geo. Jackson's statement, given herewith, as to the comparative sobriety of Toronto, compared with Old World cities, is explained by the fact that Toronto's population shows a strong preference for light beers, as is shown by the enormous increase in sales of

O'KEEFE'S PILSENER LAGER THE LIGHT BEER IN THE LIGHT BOTTLE.

## LAUNCH NOT BALANCED WHEN BOYS STARTED OUT

One Said It Would Be All Right When They Got Going—Engine Refused to Work.

About 11 o'clock Thursday night Watchman Woods saw the boys running east past the Penny Exhibit. He asked them where they were going, and they replied: "To the roller rink." He again saw them in a few minutes drinking water from the tap in front of the rink. They were laughing and talking. The rain started at 11.05.

About 12.30, after the first squall, Woods and P.C. Burnie, night constable at the island, saw the boys in the picnic pavilion. He told them that the rain had stopped and they would have to be moving on. Two of the boys came out and called out, "Come on, fellows, the weather's fine." They all went over to the south promenade, near the new swimming club, where the launch was tied.

Spencer, manager of Mackenzie & Mann's lines east of Port Arthur, announced to-day that track-laying would be commenced on O'Brien's and Mulrany's contract at Garneau Junction, laying the steel eastward, on or about Aug. 1. This contract embraces about 80 miles, and will be completed by fall.

## MONTREALER FOUND DYING.

Poisoning or Fit?—Address on Envelope Has Been Erased.

(Canadian Associated Press Cable) LONDON, July 26.—A Paris cable says that a young man believed to be an American was found dying at St. Nombrette near Versailles, suffering from the effects of poisoning. In his pocket was a letter signed Pierpont Morgan. The name on the envelope was erased, but beneath it was a Montreal address. He was between 25 and 30, brown moustache. His boots bore the mark of a Montreal street. The address was "55 de — street, Montreal." All the letters after "de" were erased. It is also stated he is suffering only from cataplectic fit.

## FREAK OF LIGHTNING.

Knocks Open the Locked Door of Bright Bakery.

WOODSTOCK, July 26.—The village of Salford and vicinity was visited last night by one of the worst storms in the memory of the oldest inhabitant. At least one house and three barns were burned within a few miles, while the loss is said to be heavy in stock. The house of Frank Boward was burned, while barns were struck and burned on the farms of J. J. Haycock, G. Atwood and Sandy Coventry. All were fine, large buildings, while the loss entailed amounts to thousands.

## EDUCATING COLONIALS.

His Majesty is Pleased That Some of It is Done in England.

(Canadian Associated Press Cable) LONDON, July 26.—At the opening of the new University College school at Hampstead, the King referred to the fact that many colonial boys were educated there, and said it was very gratifying to him that the colonies recognized the excellence of British schools. He was convinced that the reliance placed in the mother country would not be in vain in this or any other particular.

## WILL TELL LONDON TOWN THE TRUTH ABOUT COBALT

English Engineer Says He Never Believed What He Has Seen in Silver Camp.

HAILEYBURY, July 26.—(Special).—At the reception at Hatterbury to-night to the mining engineers, Mr. Hodge of London assured the audience that at the meeting of the mining engineers in London at the end of September the truth about Cobalt would be heard.

It had been in all countries in the world, but Russia and Australia, and never saw such a set of intelligent men. He had heard and read, but never believed for one moment what he had seen at Cobalt. When London hears the truth they are never slow to take hold of it. Capitalists would be flocking here. Not only before the London Institute, but before the press and the public generally, he would lay the facts and ask them to send over men worthy and capable of expressing an opinion.

## HOW THEY HUNT BEARS IN INDIA.

The hunters arrived at camp the following morning. They began to hunt in twos and threes, then in fives and sixes, and finally in dozens, so that by the time breakfast was over, a fine male population of some three villages were grouped about my tent. With the help of the shikaris, the hunters were selected and each given a slip of paper bearing my signature, for when they came for their wages at the end of the day.

## THE OPEN DOOR.

"Remember that the door is open, so while you stay do not complain."—Epictetus. Beyond the lintel to the Main: Thy feet unshackled are: thou'rt free To go and come as thou'rt pleased. ## TALK OF END OF STRIKE PLUMBERS CONFIDENT

Mass Meeting of Unionists Discusses Mutual Concessions to Finish Labor War.

A mass meeting of the Plumbers' Union was held at the Labor Temple last night. Addresses were delivered by W. V. Todd and W. Bowland. Amongst the rank and file the opinion prevails that the end of the strike is in sight; mutual concessions will be made.

The officials say there is no idea of giving way, as the finances are strong and they doubt the sincerity of the employers, who they say are not making serious efforts to reach a settlement. The men prefer to remain quiet and pursue their own policy. It is reported that another architect has notified a big firm that unless they proceed with their contract it will be cancelled, as he cannot allow his client to lose money by delay.

## HOW TO PEOPLE THE PROVINCES.

Editor World: With your permission I would call the attention of the many readers of The World, and also the provincial authorities and general public to the dismal failure of our system of provincial government.

When confederation was accepted and adopted and each province was granted local autonomy, the question of economy was wholly ignored, and each province vied with the federal government in form and extravagance, never for a moment taking into consideration that confederation conferred upon Canada one of the most expensive systems of government that could possibly be devised, and wholly out of keeping with the meagre population of Canada.

## THE DIFFERENCE.

Between a cow and a milkman is that the cow gives real milk.

Between genius and stupidity is that the former is handicapped.

Between a man and a woman is that there is a charge for the latter.

Between a playwright and a plagiarist is that the former is a plagiarist.

Between a good fellow and a "good thing" is even slighter.

Between a bare truth and a bear story, on the other hand, is the greatest imaginable.

## ORATORS STALLED ON WAY TO PICNIC

North York Conservatives Get Record Crowds—Car Service Proves Inefficient.

JACKSON'S POINT, July 26.—Unbounded enthusiasm in the face of the most disappointing conditions marked the North York Conservative picnic here to-day.

A moderate estimate placed the number present at July 12,000, while it is estimated that 5000 more were present from attending by the almost complete breakdown of the Metropolitan Railway car service, between Newmarket and the Point.

Hon. J. J. Foy and Claude Macdonell, M.P., were among those who, stranded by collapse of the railway system, gave up the struggle to reach the objective point and returned to the city.

The "Mantoulin Man," undaunted by the outlook, persevered, and was rewarded by reaching Jackson's Point shortly before 6 o'clock. The arrival of Mr. Gensay was the occasion for a great reception. The picnic was held in a beautiful grove on the shores of Lake Simcoe.

J. D. McKay of Newmarket, in the temporary absence of Archie McCallum, the president, occupied the chair, and introduced the several speakers—W. H. Hoyle, M.L.A.; T. H. Lennox, M.L.A.; T. H. Brunton and Mr. Gibbs of Barrie.

All the speakers were well received, the last one to arrive, Mr. Gensay, reaching the grounds shortly before 6 o'clock.

The rough condition of the lake rendered it impossible to run off the aquatic sports.

The football match was won by the Aurora team, and the baseball match by the Sutton team.

The Newmarket and Aurora bands were present, and the picnic grounds were shortly before 5 o'clock.

The G.T.R. special, which was chartered for the excursionists from Stouffville, intermedia, was wholly unable to accommodate the throngs, and many of those who were waiting at the station, had to be left behind.

The utter failure of the Metropolitan Railway to furnish anything like a reasonable service, gave occasion for a great deal of adverse criticism. J. D. McKay of Newmarket, after waiting for two or three hours at the station, went home, hitched up his horse, and drove twenty-four miles to the Point and a side-board.

None of the officials could be located last night to learn the cause of the breakdown of the system.

Later in the evening the service was partially resumed, but at midnight many of the excursionists had not returned.

Fear Extension Will Depreciate Their Property—Extra Man for Bay Street Crossing.

A deputation of citizens waited on the board of control yesterday and objected to a permit being granted to the Robert Cream Company for the extension of their hat factory on Balmuto-street. They fear the smoke from the factory will decrease the value of their property.

The board decided to find out its powers to deal with the matter from the city solicitor, and also to visit the place.

Mr. Collins suggested to the board that the city had nothing to do with the extension of the crossing, and asked the city solicitor for a report. The board did not take any action in reference to the proposed extension of the crossing, but the city solicitor reported that the extension of the crossing from Bay Street to Balmuto-street would be a public nuisance.

**PREFERRED BOND OF MATRIMONY**

And Married the Girl Instead of Promising Not to.

OTTAWA, July 26.—Last May there was a Sunday afternoon sensation in Ottawa when Alderic Maurice was stopped from eloping with 16-year-old Julia Montfils. The sequel was that Maurice was charged with abduction, found guilty, and asked to produce bonds to the amount of \$200 to keep the peace. The girl was placed in a convent.

This morning at the police court he was to produce his bonds, but his solicitor said Maurice had married the girl and that the vicar of the Rev. Father Routhier, had performed the ceremony. They thought this had settled the trouble, but the magistrate considered otherwise. His view was that he had done what the court bound him over not to do.

This he took very seriously and as a flagrant contempt, while the solicitor held it to be chivalry.

**TREE PLANTING IN LANARK.**

Official Arranges for Setting Out 160,000 Trees.

E. J. Zavits, lecturer in forestry at the O.A.C., is back from Lanark, where he has been arranging for the planting this fall of nursery stock to be supplied by the department.

The trees are supplied free to the farmers on condition that they are to be planted under the supervision of the department. More than 100,000 trees have already been planted this spring, and next year the number is to be much larger. The varieties planted are chiefly evergreens, such as Scotch pine, white pine, Norway spruce, also black locust.

**BRITISH LAW DIFFERS FROM AMERICAN COURT**

Justice Davis of New York Impressed by Speedy Justice Witnessed in London.

LONDON, July 26.—Justice Vernon M. Davis of the New York Supreme Court, sitting on the bench yesterday at the side of Mr. Justice Darling in the central criminal court, saw swift justice dealt to "Chicago May" Churchill and John Smith for the attempted murder of Edward Guerin of Devil's Island fame.

Asked his opinion of such expeditious justice he said: "I have been profoundly impressed by everything I have seen. The trial was conducted admirably, the cross-examinations were exceedingly fine and the lawyers showed an excellent spirit."

"Do you think such a speedy trial will ever be possible in America?"

"Not under the present circumstances. There are two principal considerations which militate against such celerity. The first of these is in connection with the selection of the jury. In this respect America is the better of her causes celebre. Everyone in America reads the newspapers—not one, but many. When a sensational case arises, like that of Nan Patterson or Thaw, the papers deal with the whole matter in the minutest detail long before the case is called. The result of this is that it is almost impossible to get together twelve intelligent men who have not studied the case and reached a judgment unfitting them for service as jurors."

"How different here in England! Today's case had all the elements of such a sensational case. The jury was selected in exactly three minutes. There may have been a great crush of the public to obtain admittance, but I saw no evidence of it. I saw no sketch artists, no reporters were present. In fact, I could not distinguish whether any reporters were present."

"In my opinion the only way to meet the jury problem in the United States is to permit the presiding magistrate to select the jury. With the course, the advice of the counsel in the case."

Mrs. Josephine Leale was to-day found guilty in the Old Bailey on the charge of defrauding members of well-known families by false pretences. She was sentenced to five years' penal servitude. It was her custom to represent herself as a friend of J. Pierpont Morgan and to declare in guides an increase in emolument to five years' penal servitude.

# COBALT---Nipissing Touches \$10 a Share on the New York Curb---COBALT

## NIPISSING SELLS DOWN ON NEW YORK CURB

### Local Mining Markets Are Too Stagnant to Be Under Influence of News.

World Offices Friday Evening, July 26. The decline in Nipissing to \$10 a share was a stronger influence in mining circles to-day than any other factor. The markets are admittedly stagnant, according to all those who are in the closest contact with them, but liquidation has ceased, and this is expected to be the market condition. The drop in Nipissing is placed to manipulation at the hands of the controlling interests, but has had a strong influence on market sentiment, and added to the depressing feeling which already exists in the market. The Toronto exchange to-day were the smallest since speculation in the Cobalts first started. The stagnation in business is due to the tardy with which holders are maintaining their position, thus preventing any body of floating stock. The announcements of another dividend on Hudson Bay, and more favorable news of the strike, were not influences in the market, owing to the general apathy which exists.

## DIVIDENDS CONVINCING.

### Facts on Cobalt Stock Stronger Than Rumors.

James A. McIlwain, in his weekly market letter, says: The announcement of another 800 Hudson Bay stock is a pleasant surprise, and should greatly stimulate a hopeful outlook for the Cobalt camp. "Knockers" may continue their work, but 300 per cent. dividends have a much greater effect than bearish rumors. The mere fact of so many bears being about is a most promising sign, and in the early fall they will undoubtedly be put to rout. The miners are again returning to work, and large shipments of ore will follow as a natural consequence. We are of the opinion that the largest holders of Foster stock have taken their allotment, which augurs well for the future of the company. If the large shareholders have confidence in the future for Foster, surely the smaller investors have right to be confident. In Trethewey, from the strong undercurrent at work, we are reasonably certain that a dividend will be declared in the near future.

## On New York Curb.

The stock of the Hanson Consolidated Silver Mines, Limited, was dealt in on the New York curb market Wednesday for the first time. The company was formed with \$1,000,000 capitalization to take over the Consolidated Mines Co.'s affairs, the latter company being owners of the East and West End silver mines at Silver Mountain, in the Township of Lybster.

## ARGYLE AND RED ROCK.

### Men Still Working and Shipments Will Shortly Be Made.

The management of the Argyle and Red Rock mines have made satisfactory terms with their men, and have no doubt to cease operations in consequence. Both these properties are showing up under development in advance of all expectations and early shipments from them are promised.

## LICENSE FOR COBALT CLUB.

COBALT, July 26.—A liquor license has been granted to a Cobalt club. This is the first license the mining town has been able to secure. The club has a membership of about 200, comprising F. J. said, mine-owners and others who are not residents of the town, but whose business brings them here frequently.

## Mining Men at Cobalt.

COBALT, July 26.—With flags flying and bunting waving, New Liskeard last night welcomed the members of the American Mining Institute, who are now touring this district, accompanied by Hon. Frank Cochrane and Hon. Dr. Payne of the Ontario Government. An address of welcome was read by Mayor Blair and later responded to by Dr. Raymond, secretary of the Institute, and Hon. Mr. Cochrane. At midnight a light sail on Lake Temiskaming was the enjoyable program for the evening. Owing to a broken eccentric on the engine the party was three hours late in arriving at Cobalt yesterday morning. They immediately divided up and visited many of the famous mines of the district.

## To Oust Directors.

WINDSOR, July 26.—A new suit has been started by a faction of the Reulthall Mining Company of this city to oust an election of directors. A temporary injunction restricting the directors from acting has been granted.

Mr. George F. Shurtleff is registered at the King Edward from Crown King, Arizona, en route to Cobalt to make

an examination of the properties of the Pride of Cobalt Silver Mines, Limited, in which his firm, George F. Shurtleff & Co. of New York, Boston and Philadelphia, have just purchased controlling interest.

Mr. Shurtleff is a mining engineer of an enviable reputation in Arizona, Colorado and Montana, and is responsible for the great success of the Crown King Mine in Yavapai County, Oregon.

 Mining Operator

**INTRODUCTORY.**  
 In presenting this information regarding Searchlight Larder Lake Mines, Limited, we wish to state that no flowery descriptions or exaggerations will be indulged in. Every statement made is conservative, true and allowed the facts to speak for themselves. A critical investigation of the merits of the properties, a thorough consideration of the results thus far obtained, a careful comparison of the existing conditions with those from which some of the greatest gold producers in California and Nevada have been developed, in connection with an unqualified endorsement of eminent mining engineers, justify us in stating that this is a proposition that is in every way worthy of earnest attention and consideration. The progress should make the Searchlight Larder Lake Mines, Limited, a great dividend-paying enterprise, and that we offer to present investors an ideal money-making opportunity.

**ORGANIZATION.**  
 The Searchlight Larder Lake Mines, Limited, is a company organized for the purpose of operating its mining properties, further developing and equipping them for the extraction and reduction of gold, and placing them on a permanent, dividend-paying basis. The company is organized under the laws of the Province of Ontario.

**PROPERTIES.**  
 The properties of the company consist of 21 forty-acre claims (the best in the Larder Lake District), situated between the southwest and southeast arms of Larder Lake.

**OPERATION EXPENSES.**  
 The expense in connection with a mining company is an important factor; as the twenty-one claims of the company are contiguous, they can be mined and developed economically.

**ORE SAMPLES.**  
 May Be Seen at This Office.  
 Samples of ore taken from different sections of the properties indicate that our claims are gold bearing in nature and some of these on vast enterprises unused and reap enormous profits therefrom. Through our small investor has the opportunity of so employing his funds that they will yield the same ratio

of profits as the millions of the money king. Gold mining as at present conducted is virtually a new industry and is proving to be one of the safest as well as the most profitable industries in the world.

**DEVELOPMENT.**  
 At the present time a gang of men are on the properties prospecting and practicing experience in the business and mining world, and their uniform success in former enterprises is a guarantee that strictly first-class talent and business ability will be exercised in its affairs, and that the interests of the stockholders will be faithfully served. Funds received from the sale of treasury stock will be expended for the further development and equipment of the properties.

**MANAGER'S REPORT SUBMITTED TO BOARD OF DIRECTORS.**  
 Result of work in prospecting and development a cause for congratulation—Properties should yield large profits.

New Liskeard, Ont., July 23rd, 1907.  
 TO THE PRESIDENT AND DIRECTORS OF THE SEARCHLIGHT LARDER LAKE MINES, LIMITED:  
 Gentlemen—I have to report that development work was begun on your property on July 3rd. As you know thirty days' work has to be done on each claim by August 15th, consequently it was necessary for me to concentrate all our efforts on getting that work done. The law allows the development of only one on any one of the three, and where possible we have advanced on this. But even where this can be done we would often like to put more work on promising veins. The whole development work for this season has been completed. On the 20th we have been given a very fine looking deposit of dolomite shot through in all directions with veins of quartz; this is the Harris-Maxwell property, just across Larder Lake from our property, and which gives very good values in gold. As soon as a fairly representative sample of this can be secured I will have an assay made. I fully expect that it will give good showing in gold. On claim No. 301 a vein of quartz about THREE FEET WIDE has been stripped for some TWO HUNDRED FEET. This vein runs through a heavily mineralized quartzite, the whole rock carrying values in both gold and silver. The vein is heavily mineralized with both copper and iron pyrites, and very fine gold particles are visible. When we reach the depth to which I will have an assay made, and the formation and general appearance of the vein will be ascertained, I will give values equal to the best found in that district. (Signed) JOHN SHARP, General Manager.

## THE COBALT STRIKE.

### Correspondent Says Men Are Being Misled.

Editor Toronto World: As a member of the outside public not financially interested in the Cobalt strike, but regretting to see a satisfactory settlement prevented by the misstatements and misunderstandings, may be permitted to express the following opinions:  
 In Cobalt, I have attended many of the strike meetings and have found out interested in the Cobalt strike, but regretting to see a satisfactory settlement prevented by the misstatements and misunderstandings, may be permitted to express the following opinions:  
 The men at Cobalt went out on strike for higher wages and better conditions. At the evening meetings, moreover, it is customary to raise matters wholly irrelevant to the questions at issue. The strikers are treated to elaborate dissertations on the Orchard case, on the Guggenheims' automobiles, on Woolwich Arsenal, and even on John Burns' court breeches. **WEEKLY BULLETIN.**  
 Toronto, July 27th, 1907.  
 The market for the Cobalt stocks in the past week has been very narrow, fluctuations in some instances amounting to as much as two points. The market has been actively traded in being Trethewey, Foster, Nova Scotia and Nipissing. Nova Scotia has quite active on the reported high new vein. Foster and Trethewey are entirely in the hands of the professionals, and the feeble efforts of one of the curb brokers to depress Foster and raise Trethewey were fruitless.

The board of directors of the Foster Mining Company are out with the statement that the subscription for the balance of treasury stock are closed, and no more will be allotted, they having ample funds to continue working and bring the mine to a dividend basis. This must certainly be very gratifying to the shareholders, and we look for considerably higher prices on this stock.

Trethewey should, in our opinion, be higher on its real merits. The buying of Nipissing by the Cobalters is remarkable. They seem to have implicit confidence in the outcome of this mine.

The strike situation is becoming much more satisfactory to the mine owners. About sixty per cent. of the usual working force is now at the work. A large number of men are coming into the camp and taking the strikers' places, and it looks very much to us as if the "sit-up" was a thing of the past.

Yours very truly,  
**WILLS & CO.**

cite the workers' prejudices against the mine-owners and managers. Organizer Roadhouse carries his sympathetic hearers up into the clouds. At least we should expect him to "rig up" the tripod of his agitation machine upon the bedrock of Cobalt facts and not to bar it between Denver and the moon.

Of course, Messrs. Roadhouse and O'Shryne have an absolute right to propound their theories as to the ultimate objective of the Industrial Workers of the World, its 12 departments and central office and wire-pullers blackmailing the industries of America. My own opinion is that such an organization, with full power, would constitute the most colossal trust, the most tyrannical combine, the worst ever known. It would be the price "corner" in men, forcing up the value of their labor, but cancelling all its benefits to the working man by crushing weak industries and creating an endless series of general strikes and interruptions.

Socialism is a beautiful dream, but Continued on Page 15.

### SAVING MONEY

The wisdom of saving money must be apparent to any person who gives the subject any thought.

A little money saved enables you to take advantage of opportunities for making more money to buy land, to make the first payment on a home, to start in business for yourself. The opportunities come to the man with Capital. Saving the small sums is the creation of Capital.

There is but one certain, safe way to accumulate money, and that is to save it. Thus, and thus alone, can the foundation of wealth be firmly laid. Those who earn and spend are many. Those who earn and save are few. Let few who gain a competence and place themselves in a position to grasp life's opportunities, by spending less than they earn and saving the surplus.

Economy is the road to wealth. Deposit your savings with the

### NEW YORK LESS ACTIVE PRICES ARE SUPPORTED

Wall St. Less Buoyant, But the Reactions Are Small—Local Market at a Standstill.

World Office Friday Evening, July 26.

Transactions in to-day's local market were too insignificant to call for comment, save that the volume of sales shows indomitable confidence among holders as to the ultimate future. The local situation is one of almost absolute stagnation. The leading local financiers are not prepared to manipulate the market, because it would be ineffective owing to the difficulty of securing assistance from outside speculation. A few orders are daily appearing for some of the better class of dividend payers, which are being taken up as investment, and for possible speculative chances should such materialize. Those holders who can still retain their commitments are nonchalantly awaiting the time of revival, and are unprepared to take the losses which start them in the face of current quotations. There is no speculation for a fall among even the room traders, as the possible profits are too small for the risks undertaken. There seems to be no immediate chance of a change in the situation, and brokers and others have resigned themselves to this idea of affairs.

London settlement begins on Monday.

Southern Railway earnings in the fiscal year begin to show better gross and lower operating expenses.

The iron miners' strike is broken.

Traction companies give free access to their books to public utilities commission.

Atchison earnings for the year will be about Aug. 1 and may show 15 per cent. earned on common.

There is a fair demand for stocks in the loan crowd.

Weather and crop reports generally favorable.

Nineteen roads for the third week of July show an average gross increase of 14.07 per cent.

London expects money to be firm over settlement and end of month.

The known movements of money for the week ended with the close of business indicate a gain in cash by the local clearing house institutions of \$6,542,000.

Bears find some consolation in the annual report of the Baltimore & Ohio, which, while announcing an increase of over \$4,850,000, or 6 per cent. in gross earnings, shows a decrease of nearly 2 per cent. in net earnings.

Joseph says: Atchison is very good. It will have a big rise within a few days. There is excellent buying of St. Paul. This stock will cross 140 very soon. Speculation in New York. The market is good for 20 point rise. Hold tractions.

If there were not so many bull points current, Reading would rally seen to be the coming stock in point of activity and strength. It is figured that the advance shown in London than anything. Philadelphia houses were buyers, as they have been for several days past.—Dow Jones.

New York.—Private advices received by Steel and Iron companies in this city are that iron ore strike is about over. The men are returning to work, and it is a question of but a short time only when the mines will be in full operation. It is figured that the strike will make a difference of about 1,500,000 tons in the production of ore, but this amount may be made up before navigation closes.

In spite of the fact that exchange is now very near gold export point, it is not likely that gold engagements will be resumed at the present time. Bankers, who were large exporters of the metal during the recent movement, are not now considering the making of further engagements. They think the present time is not propitious for such operations, one banking house expressing the opinion held by others on the continent, that Europe is still in a disturbed monetary condition here just now. The probabilities are that exchange will not remain long at its present level, and the matter of importing gold from Europe later on is not lost.

London.—The securities markets generally speaking are carry-over. There is a small mining carry-over. The mining group, after early steadiness, has a heavy tone, and domestic railway issues are drooping. Merchants present a rather ragged appearance, but in the main are a fraction above parity with

New York. Interest in the Harriman issues has narrowed down as a consequence of the postponement of the dividend announcement. Settlement preparations also tend to restrict operations. Foreign stocks are in a condition of stagnation. Selling by Paris is responsible for a decline of one-quarter in Japanese bonds.

NEW YORK, July 26.—As we pointed out yesterday, in submitting reports to the stock exchanges, St. Paul, Great Northern preferred, N. P., and A.C.P. continue to meet opposition at a point or so above the closing levels, and until it is overcome we would only buy for turns on reactions, realizing toward the upward limits. St. Paul is the upper of the two, and is being bought on a corresponding week of last year, as follows:

### PANIC ON STEAMER.

Bursting of Feed Pipe Scared Peterboro Excursionists.

PETERBORO, July 26.—As the excursion steamer Ottonabee was leaving the wharf at Ldyl Wyld, Rice Lake, last evening, a two-inch globe valve on the water feed pipe blew out, flooding that part of the boat with steam and scalding several persons, some very severely.

The whole steamer was thrown into a commotion, and a serious panic was with difficulty averted.

About 200 excursionists on board were brought to the city by another steamer.
