GREAT BRITAIN AND JAPAN

SAID TO BE CO-OPERATING IN PACIFIC WATERS

England's Oriental Squadron to be Augmented by Six Warships—The First of the Squadron to Depart for the Pacific

England and Japan are evidently preparing energetically to meet possible complications arising out of the Korean and Russian-Chinese understanding.

Russian View of the Treaty. The Novosti says, on the subject of the alleged Russian guarantee of the existence of Turkey only if reform, such as the opening of the Dardanelles to Russian warships, be afforded, it is impossible to adduce any valid reason why Russia should be obliged to run the risk of a fleet in the Black Sea. It is simply a policy of outrageous violence, to which Russia is bound because she loves peace, but the prohibition is bound to disappear.

BLOOD SPILLED IN CAPE BRETON

Free Fight at a Political Meeting Held by the Liberals—Mr. Devlin the Chief Speaker

French valiantly met the first blood in the political campaign in the County of Cape Breton was drawn yesterday at a meeting held by the Liberal Party at the residence of Mr. C. R. Devlin and F. J. Isaac, M.P.s, which broke up in North Sydney, and there are quite a number of old country French settlers here.

During the French address, Councillor Devlin, a leading Conservative, interrupted by saying, "Speak Her Majesty's language," a proposition which was met by the speaker with a retort.

Mr. Devlin, however, paid no attention to the interruption, and afterwards delivered a three-quarters of an hour attack in English on the Conservative Administration.

When he was about concluding, Mr. Gilles again interrupted and called for a rebuke from a Mr. Leclair. The latter is an elderly gentleman, but notwithstanding, Gilles struck him a fierce blow. Leclair retaliated, and felled his man with a knock-out blow.

Then the friends of each man took sides, and a free fight ensued, with the result that eyes were blackened, clothes torn, and considerable blood spilled.

There was only one lady present, and she took refuge behind Mr. Devlin, who stood his ground against the assault of his friends to fly for his life. As a matter of fact, he was the last one to leave the meeting.

CANADIANS NO COWARDS.

SIR OLIVER MOWAT INTERVIEWED IN BUFFALO

The People of the Dominion a Unit in Loyalty to the Mother Country—On Toronto's Premier Hopes There Will Be No War, but Canada Would Quickly Respond if Called on

Buffalo, Jan. 30.—Sir Oliver Mowat, who was in this city for a couple of hours yesterday, was interviewed by the inevitable interviewer.

On the recent war scare, Sir Oliver spoke at some length. He said "With all our differences, racial and sectarian, we are a unit when we appear to be in danger. French Canadians joined heartily with Protestants and New Englanders in their little sentiment there in for annexation to-day. Never in my whole public career have I seen so much loyalty to Great Britain.

"You don't think there is any possibility of war?—I hope not—nay, I pray God such a dire calamity may be honorably avoided. You know that the United States has many good reasons, apart from one common language, to be friendly towards Great Britain. The really real brothers, and such war would be cruel, wicked and fratricidal. Still, it is wonderful how quickly Canada responds to the danger and how all races and creeds joined together in a determination to show their loyalty to the Motherland. Of course, we do not believe there will be war. Personally, I pray that it may be avoided. We have no reason to be other than friendly neighbors or, other than friendly and neighborly, but Canadians are not cowards, you know. We have had friction with the United States before on many issues, but never without honor. I do not see why all disputes should not be amicably settled. We claim only the right to live in peace and to do our business honorably with the United States, but we also claim the right to know what is going on in our own affairs as we deem fit. This Canadians will always do. We are not cowards, you know, nor are we alarmed even now."

A JURY'S UNCERTAINTIES.

AN INJURED LITIGANT WHOSE TIME FOR REDRESS HAS Lapsed.

A Damage Suit from the Township of Vaughan Reversed by the Sworn Masters of the Law, to the Effect That They Had Seriously Erred in the Condition of Their Verdict.

That trials by jury are uncertain and very often unfair to some of the litigants is now evidenced by recent developments in connection with a case which has already passed through its experience of the hands of twelve good men and true, and which, for some reason, known probably only to its members, concluded almost unanimously to not only indict a fellowman in a reasonably heavy sum of money, but also to publicly and judicially shun by his lawyers, and morally shunned by his neighbors. Fortunately, the injured party has been successful in his efforts to repudiate the verdict reached by his peers, but as to the financial provision of the verdict, it is not likely that he can obtain relief.

It will be remembered that during the latter portion of November last, the Assizes were engaged for several hours in the trial of a case brought by George Smith against John J. Cameron, claiming \$2000 damages for the alleged seduction of the former's daughter, Sarah Martha Smith. All the parties reside at or near Vellore, the Township of Vaughan, where Cameron is a prosperous blacksmith and carriage-builder. The Smith girl, age, went to live with the Cameron as a domestic, during 1884. In the course of time the girl returned to her home in a delicate condition, and her parents attributed her downfall to the seduction of the latter. Subsequent attempts to extort money from the latter failed, so she stoutly maintained his innocence.

The parent of the girl instituted legal proceedings, claiming the amount of \$2000, and in the course of time the case came to be heard by a jury before Judge Cameron. The jury returned a verdict awarding the plaintiff the sum of \$400, and stamping Cameron as a debaucher of young girls.

The verdict was set aside, and the case was referred to a new jury. The new jury returned a verdict awarding the plaintiff the sum of \$2000, and stamping Cameron as a debaucher of young girls.

JANUARY'S THIRD BLAZE

ONTARIO-STREET THE SCENE OF A \$25,000 CONFLAGRATION.

As in the case of its predecessors the blaze was kindled between the hours of 3 and 4 in the morning—But little insurance to alleviate the losses of the sufferers—The origin a mystery.

The planning mill of C. B. Williams, 103 Ontario-street, was completely gutted by fire and a number of adjacent buildings were badly damaged early yesterday morning. The loss will be in all about \$25,000 on which there is only a trifle of insurance.

Policeman Charlton (39), discovered smoke issuing from the premises of the building shortly after 3 o'clock, and he pulled box 224 at Parliament and Queen-streets. The firemen were on the scene in five minutes after the alarm but on their arrival it was evident that the blaze had been in progress some time and the flames had gained such a hold on the premises that a general alarm was sounded, calling the whole brigade to the conflagration, which by that time, illuminated the sky for miles around.

It was easily seen that saving the planning mill or any part of it was an impossibility, so the firemen directed their efforts to preventing the fire from spreading to the adjacent streets, where the residents had commenced to remove their belongings to the sidewalk at daylight the flames were subdued, but a detachment of firemen remained at the scene most of the day playing streams of water over the smoldering embers in order to prevent the possibility of a second outbreak.

Losses and Insurance. The heaviest loser is Mr. John Carby, who owned the burned building, and a large quantity of machinery employed therein. His loss is about \$15,000, against which there is absolutely no insurance.

Other losers are, Charles B. Williams, planning mill, \$20,000; no insurance; R. E. Linton, cabinet maker, \$800; no insurance; James Walsh, soda water manufacturer, loss \$1500, insurance \$200; Martin G. Galt, cabinet maker, \$500; W. W. Brown, novelties, \$1000; no insurance; T. V. Geary, \$500; no insurance; Michael Allingham, superintendent lost tools valued at \$1000. The premises south of the mill, occupied by James Dickson, Charles and Joseph Adams, were damaged by water; M. A. Hutchinson, wood-yard, \$200.

The rooves of two rough-cast tenement houses in Ontario-street, north of the mill, were burned off. The places were owned by Michael Galt, Sherburne-street, and were occupied by numerous families, whose effects were badly damaged by water. Mrs. McClelland's loss will not be small.

The fire apparently started in the boiler room, but its origin was not discovered. A Holmes Company watchman visited the place between 1 and 2 o'clock, and at that time everything appeared to be all right.

Harold Hamilton, a Portland-street fireman, sustained a serious injury to his leg, owing to being struck by a runaway hose nozzle. He was taken home in the ambulance.

Peter Cane, who lives above Walsh's soda water factory, was injured by falling with his wife and four children, who were taken care of by neighbors.

During the progress of the fire there was an explosion which has not yet been accounted for. It was generally thought that it was the boiler, but such was not the case.

As a result of the blaze about 50 men will be thrown out of employment. Notwithstanding the fact that the streets in the vicinity of the fire were crowded with people.

The alarm did not ring at Wilton-avenue fire hall and the men there did not know of the fire until a man who had seen the flames rushed in and roused them out of bed.

Street Railway Services. A number of residents in the extreme east end of the city waited on the Mayor yesterday with a request for a more frequent service on the Balmans-avenue, the eastern terminus of the King-street cars.

When interviewed on the question, said: "We give a 15-minute service from Woodbine to Balmans-avenue, and from 4:30 p.m. to 8 p.m., and as there are very few residents in that district and the cars usually run from Woodbine, we cannot see our way to increase the service."

With reference to complaints from the Church-street residents, the warder tendent said the cars in that thoroughfare ran every 7-12 minutes, which is only half a minute slower than the summer service.

The City Engineer yesterday communicated with the railway authorities in regard to the Broadview and Parliament lines, on which an increased service is desired. Mr. Gunn told The World reporter that attention would be given to the engineer's letter, and that additional cars would probably be placed on the route in question.

Residents in Queen-street, east of the Don, who were annoyed by the street car question, were unanimous in the desire for an improved service to Woodbine, and King-street cars run to that point every 6-12 minutes and the eastward service is not provided sufficient accommodation.

Means to Put a Stop to Vexatious Litigation Considered by Sir Oliver. Mr. Stapleton Caldecott, the retiring president of the Board of Trade, in a speech before the Attorney-General yesterday with a view to having the Government take some action to prevent vexatious litigants from being prevented from disturbing the commercial community by instigating frivolous and vexatious actions.

In introducing his subject Mr. Caldecott said that there were 611 practicing lawyers in Toronto, which was a large number for a city of 250,000. Many of them were therefore so unfortunately situated that they were obliged to resort to litigation in order to make money. Hence arose a great deal of vexatious litigation.

To make plain his meaning, Mr. Caldecott mentioned a case in point. The chairman in Toronto, while working in a building, the four flats of which were occupied by different families, had had occasion to descend from one floor to another. So he used the elevator, of the operation of which he knew nothing, and in so doing sustained physical injuries. Considering, however, that he hurt was due to her own carelessness, he let her go without an entangling lawyer, hearing of the case, went to the woman, stated that she had sustained the injury, but that he would take proceedings without any outlay on her part, on the condition that in case she won he was to have part of the money.

Mr. Hay closed by asking that the Government, instead of granting a license to the defendant, should grant an annual subsidy of \$2000 for 5 years. The company's guarantee of good faith was that it had already spent \$100,000 and was going to spend \$250,000 more.

The Ministers seemed to favor the proposal, and the company proposed to charge for testing ores.

AFTER ONTARIO GOLD. A Transvaal Mining Company to Buy Mines in Canada. The present trouble which is rendering the Transvaal mining industry unprofitable is a slightly better distribution, sugars are more required for, no doubt owing to the fact that the price of sugar is up another eighth since last report; molasses is also advancing in the market.

Striking Tailors Arrested. Although five weeks have elapsed since the members of the Journeymen Tailors' Association were locked out by the Merchant Tailors' Association, there is no prospect of an early settlement. The men brought from Buffalo by some of the employers have not yet begun work.

The locked-out men are doing daily picket duty, and every suspected violator is arrested. Yesterday Harry Harbord and Arthur Wilbur, two union tailors, were arrested on a charge of assault preferred by Fred Frank, a non-union man, who alleged that the prisoners followed him when he went to work on Wednesday night, and in Victoria Park made a charge of assault upon him. The alleged assault will be tried in the Police Court this morning.

A Proposed Change in Milk Licenses. At a meeting of the Board of the Toronto Milk Dealers' Exchange, the following motion was passed: "That the Board of Milk Dealers' Exchange change hereby petition the Mayor and City Council of the City of Toronto to bring this matter before the proper committee of council, so that instructions be given that licenses to sell milk be hereafter issued only to those who are members of the Department of Medical Health, and the society be empowered to employ legal help to draft a petition in accordance with this resolution."

IS IT TIME TO CRY A HALT?

The Conservative party is being jolted along to the very brink of the precipice—like a reeling, tottering man in the hands of a blind guide. Hardly anything will save it from going over the edge.

No one of the Conservative members at Ottawa has raised his voice in public to call a halt. Only the Conservative press has put in a protest, and this the fifteen men at Ottawa who are charged to have the party's interests in charge see fit to ignore.

But the Ministers at Ottawa will not listen to the do not that any of their party who protest against their policy. They expect submission of the rank and file, and yet twelve of them have since Sir John Macdonald's death bolted from their chief. They decline to call a caucus of the party and they decline to abandon a policy of their own choosing, and in spite of a solemn pledge given to the party representatives in Parliament.

The thing to do is for the Conservative members and the Conservative press to cry a halt, to insist on consultation, to insist on a reconstruction of the Conservative Government with new blood in its crew and a modified policy in its hands.

So is Manitoba and all the west. The Maritime people do not want it. The people of Quebec do not want it as far as we can judge in four elections. It is not the intention of the Ministry to ask a further opinion from them in the three seats now vacant in that Province.

The wisest of all the bishops in Quebec has, we believe, declared that coercion of Manitoba at the request of the Church will undoubtedly be followed by retaliation on the privileges of the Church in other provinces.

Why, then, allow this political insanity of a dozen wreck the future of a great political party? Why should the Bill under consideration of the Conservative representatives do some straight talking?

We trust the Toronto Railway Company will make a vigorous effort to put an end to the unseemly habit that many people have of spitting in the cars. The City Council is justified in demanding that the railway company take temporary action in this matter as a mere sanitary precaution.

It is a well-known fact that consumption, among other diseases, is largely disseminated through the spitte of people afflicted with the disease. Now it is engaged in rebuking Mr. Laurier for the same work. Read this from its columns yesterday:

Ontario, however, will have something to say on this subject. The thing to say is that with Mr. Laurier's aid no one can forget the gross injury he has done to a large number of his fellow-citizens by fomenting racial and religious strife among his people. No patriotic man can overlook the attempt to create dissensions and to foster feelings of hatred at a period when, above all periods in our history, we should be united, brotherly, and strong.

LIBEL AND SLANDER LITIGATION. As the law now stands all actions of libel and slander must be tried in the High Court, in which they are burdened with excessive costs. What litigation of libel suit dread most is in the bill of costs that always accompanies it.

CHANCES OF THE REMEDIAL BILL. The position of affairs at Ottawa in regard to Remedial Legislation seems to be this: The Government's actual majority seems to be a little less than forty on any ordinary question of policy. It is likely that thirty Conservatives will not be able to support any bill establishing separate schools in the Northwest.

ment at the present moment seems very difficult of construction. It looks now as if Mr. Laurier might make a motion that the bill be not read a second time, but that in the opinion of the House a commission of enquiry should be appointed to investigate the whole matter.

These open letters published in The Globe from time to time are getting a bit tiresome. They are Junius and bear the same relation to him that a mackerel does to a mammoth. They describe nobody. The latest is accredited to London, Ont., and addressed to Archbishop Walsh.

The Ontario Government ought to make a genuine effort to stimulate mining in northern and northwestern Ontario. There are undoubtedly large quantities of gold in the Rainy River district.

Probably the only serious difficulty to be met with in the setting aside of certain streets for spending horses will be in obtaining the consent of the residents of any street certainly will claim the right to protest against its being converted into a race course and being made a source of annoyance to the pedestrians.
