WHO IS TO BLAME FOR MOHEGAN DISASTER?

One Passenger States That No Officers Were About to Supervise the Launching of Boats, a Statement Which the Company's London Manager Denies—Fifty-Six Bodies so Far Recovered—Cable News.

Falmouth, England, Oct. 17.—The inquest upon the remains of the victims of the week of the Mohegan was adjourned today for a week, in order to allow of the attendance of a representative of the Board of Trade.
 Mr. B. Kelly, one of the rescued passengers, created a sensation by declaring that there were no officers about, except the captain, when they were most needed to supervise the launching of the boats.
 The inquest was begun to-day in the Church of St. Keverne, because it was necessary formally to identify the dead. The survivors, many of them wounded and carrying their arms in slings, were obliged to ride 20 miles over the roughest roads from Falmouth.
 The coroner expressed his sympathy with the relatives, many of them from a distant but a kindred country. The roll of the dead was then called. The woman's body was claimed by two families; other bodies had no identification.
 As to the Ship's Condition.
 A. S. Williams, the company's London manager, testified, describing the ship as in the finest condition. He said they had had trouble with her boilers on her first voyage, and had withdrawn her from one trip, devoting several weeks to repairing her machinery, which was perfectly adjusted. He described the officers of the Mohegan in the highest terms, laying stress on the abstinence of Captain Griffiths.
 A juror: Was Captain Griffiths in good health?
 Mr. Williams: I saw him just before the Mohegan started, and he seemed perfectly well then.
 A juror: Is it not a fact that he was lying on a couch the most of the first day?
 Mr. Williams: I should be extremely surprised to hear that. Unfortunately, there is no officer of the Mohegan living. We know that they and the crew did all they could to save the passengers.
 Mr. Richard Kelly (passenger): There was not an officer on the deck when the crew were trying to get out the boats. The only officer I saw was Captain Griffiths, and another on the bridge.
 Mr. Williams: I can prove that all the officers were on deck and adding to get out the boats.
 Mr. Kelly insisted that the boats were improperly arranged, being surrounded by railings, instead of swung on davits, so that they were with difficulty launched.
 Mr. Williams contended that the launching of four boats in 20 minutes was good work.

Only the Crew to Testify.
 The coroner adjourned the inquest for a week to secure the attendance of a nautical expert, representing the Board of Trade.
 After the adjournment Mr. Kelly complained that only members of the crew were being summoned to testify. The coroner replied that he would be very glad to hear the experiences of the passengers, in response Mr. Kelly, with others, protested inability to remain for an adjournment lasting a week later, offering to testify immediately. The coroner declared that this was out of the question. The total number of bodies recovered up to midnight is 56.
Robbing the Victims.
 Relatives and friends of victims of the Mohegan disaster are striving here by every train. They proceeded to St. Keverne through the heavy rain and over sodden roads to identify the remains which are lying in the Church of St. Keverne, where many heartrending scenes have been witnessed.
 Cruel robbery of the dead of the Mohegan has been perpetrated by unknown parties. An American, Dr. Fellows, it is stated, tucked a bundle of 500 notes in his breast when the boat was wrecked. His body was subsequently found, but the notes were missing. Several of them were put in circulation on Sunday, and the police are investigating the matter.

The Ancestor Man in Safe.
 It has been learned positively that John Hyslop of Ancestor was not a passenger on the Mohegan. Mr. Will Hyslop, Jr., who was very anxious about his cousin's safety, yesterday received a message from London, England, which read: "I am safe; some other Hyslop." John Hyslop.
Mr. Blackley's Remains.
 Mr. John Macdonald has received a cable from the Atlantic Transport Company, stating that the remains of Mr. James Blackley will be sent by the first steamer leaving Liverpool for this country.

WHAT DOES IT ALL MEAN?
France Hastily Engaged Preparing Armored Cruisers and Gunners to Man Fortifications.
 Paris, Oct. 17.—Inquiries made to-day at the offices of the French Ministry of Marine confirm the report published by the Rollin in a despatch from Toulon, saying that Vice-Admiral Fourrier, who is now at Toulon with the Minister of Marine, M. Lockyer, will return immediately to Toulon, where orders have been received to speedily prepare the armored cruisers Admiral Troubat, Bonivies, Jemapas and Valmy for service, and that, in addition, orders have been issued to send the largest possible number of gunners to Brest without delay, to man the forts and batteries there.
 The vessels mentioned are to be promptly placed on a war footing, and are to be sent to Brest.
 Rumor connects the French naval preparations with the question in dispute with Great Britain as to the possession of Fashoda on the Nile.
 The Paris papers to-day, in chronicle the movements of the British fleet in the Mediterranean, announce that three British squadrons are engaged in gun practice off

REV. DR. COCHRANE IS DEAD.

The Ex-Moderator of the Presbyterian General Assembly and Pastor of Zion Church in Brantford Taken Off Last Night With Startling Suddenness—One of the Most Popular of Canadian Clergymen.

Brantford, Ont., Oct. 17.—Rev. Dr. Cochrane, pastor of Zion Presbyterian Church, Brantford, and well known throughout Canada in connection with the Presbyterian Church, died suddenly at 10 o'clock to-night of angina pectoris, at his home in Brantford. He was taken ill on Saturday and was unable to fill his pulpit on Sabbath, but no serious results were anticipated. He was apparently as well as usual this evening, having dictated and disposed of considerable correspondence during the day, but at 10 o'clock he suddenly passed away without warning.
 Dr. Cochrane was well known throughout Canada for his zeal and energy, and was a leading spirit in the denomination to which he belonged, as well as being a public spirited member of the commonwealth. He was born in Paisley, Scotland, Feb. 9, 1831, and was educated in Glasgow University, and Hanover College, Indiana, where he graduated with the highest honors. He was ordained in Jersey City in 1859; in 1862 he accepted a call to Zion Church, Brantford, where his indomitable energy and wide popularity built up a large congregation, whose love and confidence he always enjoyed. And his activity covered not only his pastoral work. For 14 years he was clerk of Paris Presbytery. For 25 years he has been clerk of the synod of Hamilton and London, and for about the same period convener of the Home Mission Committee of the church. He always took a deep interest in every worthy public object. He was president of the Merchants' Institute and continued president of the Free Library Board, extending over a period of 27 years. In 1874 he was largely instrumental in founding the Brantford

Young Ladies' College, of which he has been the governor and directing head ever since. In 1886 he was moderator of the General Assembly, and in 1884 and 1885, delegate to the Pan- Presbyterian Alliance in Belfast and London. He expected to attend the meeting of the executive of the Pan-Council on Monday next in St. Louis, and give an address on home missions.
 There is universal sorrow at the unlooked for and terribly sudden termination of an active and useful life. His death leaves a blank in the church, and especially in the city and congregation with which he was so long identified, and where he was so generally loved and respected. He leaves sorrowing a widow, three sons and a daughter; Mr. William Cochrane, Bursar of the Rockwood Asylum, Kingston, Miss Mary Cochrane and two sons at the university.

DIED FROM HEART FAILURE.
Dr. Robinson of Brampton Was Suddenly Taken Off.
 Brampton, Oct. 17.—(Special.)—Dr. Robinson of this city died of heart failure to-day. About fifteen years ago Dr. Robinson moved from Claude, a little town to the north, in Peel County, where he had been practicing on a small scale, and bought out the practice of Dr. Pattullo, when that gentleman, who it will be remembered, died a few weeks ago, moved to Toronto. Dr. Robinson was well-known here and highly respected.

He Died Instantly.
 Brantford, Oct. 17.—(G. N. W. Report.)—Dr. Charles Robinson was seized with heart failure just at the completion of a surgical operation that he had performed, assisted by Dr. Bowles of Woodhill, this afternoon, near Bolton, and expired almost instantly.
 Dr. Robinson was 63 years of age. He contested the electoral riding of Coedwell in the Liberal interests, and was returned once, but defeated subsequently. He leaves a widow—his second wife—and three daughters. His funeral takes place Wednesday afternoon.

WHAT REV. A. B. SIMPSON RAISED IN ONE DAY

Bushels of Cash Received for Missionary Work—Amount Contributed in Morning and Evening Services Was One Hundred and Thirteen Thousand Dollars, a Feast That Has Probably Never Been Equalled.

New York, Oct. 17.—"I could keep on singing all day, but there is too little time and too much money."
 Carnegie Hall was filled with songs, with sobs, with outcry, with the clink of silver with the rustle of paper. It is a literal fact that bills—\$5 bills, \$10 bills, \$100 bills—were strewn so profusely on the platform that some were snatched up by vagrant draughts and had to be pursued by the zealous custodians.
 Dominating the scene was a dark, bushy man—a man with bushy hair, bushy beard, bushy eyebrows. His eyes were deep set, intensely slight. His hands and feet were never for a moment still.
 "Give! Give! Give! I was the gospel preached by this man. Every word he uttered was directed to the same end. Every train of thought that he followed in his speech led to one conclusion. But of all his themes there was none excited his audience to such a frenzy of giving as his rhapsodies on the imperial destiny of this country.
 Most gifted extorter of his time, to judge by results in dollars and cents, the Rev. A. B. Simpson, organizer of the Christian Alliance, yesterday surpassed his own record by appealing to patriotic as well as religious sentiment. The missionary idea dovetailed so exactly with the other idea in the minds of his hearers that in the course of morning and afternoon services he raised \$113,000, a feat that has probably never been equalled.
 That was why the evangelist exclaimed, tossing his long arms toward the roof: "I could keep on singing all day, but there's too little time and too much money!"
Money Wanted in on Song.
 Singing was a spontaneous expression of thanksgiving on the part of the throng. A song of praise burst out at the announcement of every contribution unusually large or unusually meritorious. And how generously merit was recognized is shown by the fact that the very heartfelt singing of all greeted a gift of only \$20—mere bagatelle in that straits of money.
 "Our nation's" cried the evangelist, "has achieved a great victory and opened the door to missionary work where once it was closed. The spread of civilization means the spread of the gospel. It seems as though God has gone before and prepared our work for us. He has opened Asia and Africa and thrown into our hands the isles of the sea. Cuba, Porto Rico and the Philippines are one. God has been good to us, brethren!"
 "Shall we shirk our responsibilities now? No! We will go on with the good work. As a Christian nation we would be guilty of a great sin if we shirked our responsibility to the ownership of the islands we have conquered. Through the sacrifices, through the blood of our American soldiers, we have won the isles of the sea. It is the fulfilment of prophecy and our manifest destiny. We should follow our flag and commerce to Porto Rico, Cuba and the Philippines, carrying the glorious Gospel with us. It is for this I ask you to give out of your abundance."
 Glad in rusty black, a woman whose hair was grey and her face as wrinkled as a bit of oak bark, shuffled down the aisle. The preacher stopped in the midst of the appeal, and every eye in the hall was fastened on the stranger as she reached the platform and handed up an envelope. Mr. Simpson opened it, and his dark face lit up.
Poor-Washwoman Contributors.
 "We might as well stop right here!" he cried. "Here is an offering from a poor woman who made it by washing. This is a sacrifice offering, brethren. It is 32c."
 Instantly arose the chorus: "We will wear the crown," and the multitude sang so lustily that the old woman looked alarmed and hastened to shrink from scrutiny behind her neighbors.
 Another paper was handed up a few moments later. After reading it he held up his hand and said, solemnly: "I have received a message saying: 'Pray quick, for a soul is sinking!' Let us pray, brethren, for that distraught soul."
 And for a space of many seconds there was deep silence throughout the hall, broken only by the subdued sobbing of a woman.
 This incident helped to screw up the emotional tension on the minds of all present, and when the work of collecting fairly began the audience was swept away in a perfect fever of giving.
 Usuals circulated through the aisles, bearing large baskets far cash and printed forms for promises. The choir sang its most inspiring choruses. Evangelist Simpson strode hither and thither on the platform, praising, exhorting, singing, praying, laughing. His wife stood near by, counting the cash with a housewife's air as it was poured from the baskets. The Rev. Henry Wilson and Mr. David Greer "stepped tally" of the subscriptions. Mr. Simpson himself read off the printed slips, never at a loss for a word of comment.
Baskets Filled to Overflowing.
 The baskets could not be emptied fast enough, so quickly were they filled. Borne back to the platform, they brimmed over with greenbacks.
 "Let the missionaries present stand up!" shouted Mr. Simpson. "Let the dear, generous people see the heroes for whose work they are giving of their substance!"
 Seven persons on the platform stood up, and there were more songs of praise, more

Jingling of coins, more rousing of bills. The first contribution of \$500 announced by Mr. Simpson gave rise to many "halloo-jays!" but the time came when even contributions of \$1000 did not evoke especial demonstrations. There was a great outburst at the news that one subscriber had given \$10,000. Shouts of "Glory!" and "Praise the Lord!" rang through the hall, and Evangelist Simpson waved his arms in frantic approval. Handkerchiefs fluttered, and the choir sang its blithest.

In the midst of the excitement a man jumped upon his seat, his eyes distended with emotion, and shouted:
 "I've nothing to give but an oil painting, and I'll give that to the Lord. It's worth \$200, anyway!"
 Gave Personal Effects.
 Shouts and screams of approval arose. And many women accepted this cue for the bestowal of personal property upon the Christian Alliance, of which Rev. Mr. Simpson is the head and front. They removed their watches and rings and set them into the wicker contribution baskets, while the evangelist's shouts grew louder and his gestures more extravagant each moment, if that were possible.

All this was at the morning service, which was prolonged until 2 o'clock. At that time the contributions amounted to \$18,000, and everybody in the hall seemed ready to drop from exhaustion except the Rev. Mr. Simpson, whose endurance is remarkable. Similar scenes were enacted at the afternoon service, when the amount of the offerings was swelled to \$113,000.

THE TENPIN SEASON OPENED

Athenaeum Team Win Their Two Initial Contests.

The Four Military Teams Defeated in the Opening Games of the Toronto Bowling League—Liederkrantz Beat Grenadiers, Insurance Defeated the 48th.

The Toronto City Tenpin Bowling League season opened last night, when four of the five scheduled matches were played off at the Armouries, the other match not being played, as both the T.A.C. and Bankers withdrew their teams from the league.

The highest score made at the Armouries was by Zwielfel of the Liederkrantz. The next score to this was made by Armstrong of the Grenadiers.

The Athenaeum scored a double victory, defeating the body guards and Queen's Own. The results: Athenaeum (B) Body Guards—589 to 570; Queen's Own—589 to 570.

Insurance—48th—589 to 570; Liederkrantz—589 to 570; Grenadiers—589 to 570.

Another schedule will be drawn up for the latter part of the season when the B.C. Club is going to join the league in place of T.A.C. This would make nine clubs in the Athenaeum.

VICTORY FOR TRINITY HEADS.

Toronto School Students in Annual Baseball Match.

The Score Was 13 to 5—Cold Weather Kept Down the Attendance, But the Few Rooters Were Much in Evidence in the Grand Stand Over the Do.

The annual baseball match between the menial students from Trinity and Toronto schools was played on the Toronto Hall grounds yesterday afternoon. This time it went to the Trinity team by 13 to 5. The game was fairly good, but on account of the cold weather the attendance was very small.

The game started shortly after 2 o'clock and lasted for three hours. The fielding on the part of both teams was very good, but the hitting was very poor. The Toronto team was led by Morgan on third base.

There are Gold Mines RIGHT AT HOME

for people who have learned that the road to wealth is right buying.

We know people who have paid \$5.00 for shoes that are not as good as we sell for \$3.50 (manufactured by Geo. E. Keith Co., Campello, Mass.) and they were people who needed every cent they had.

To. If they follow the same course in their other buying, it's no wonder they fail to make headway in saving up something for a rainy day. That reminds us—for rainy days we have the matchless Wet Weather Shoe, which is guaranteed waterproof, made by the world's famous Burt & Packard.

GREAT RESPECT FOR CANADA

Is Abroad in England, According to Mr. A. E. Kemp, Who Has Just Returned From the Old Land.

Mr. A. E. Kemp of the Kemp Manufacturing Company and Vice-President of the Board of Trade, has just got back to Toronto and to home from a two months' visit in England and the Continent. The most immediate impression lingering in Mr. Kemp's mind at present is the roughness of the return voyage.

It was a combination of business and pleasure that took Mr. Kemp abroad this year. Under the heading of the Commercial Union placed his visit to the meeting of the British Association at Bristol, as representative of the Toronto Board of Trade.

Canada and the Force. "No colony of Great Britain," said Mr. Kemp, in reply to a question, "is at present regarded with greater respect and consideration than Canada. England is really like home to us, even though we may never have seen it before. The English recognize this. They are assured of our loyalty and sympathy, and in return their feelings are highly thoughtful and are improving in favor all the time. England practically offers us an unlimited market for our products, so far as we are concerned it is a matter of being able to compete in it."

Mr. Kemp thought that the preferential tariff had not, in the opinion of English business men, worked quite so well as they had expected. A distinct feeling of disappointment is in fact abroad. It is pointed out in fact, however, that the natural facilities of the United States in some respects counterbalanced it.

Mr. Kemp also spoke of the wonderful outlook for the future of England over the Fashoda embroglio. He was in Paris the day the Ministry decided to review the Fashoda case, and the excitement he said was indescribable. Special editions of the papers were thrown out so hastily that there was not time to fold them, and at the eagerly devouring them. The impression conveyed was that France was living over a mine liable at any moment to explode.

MONTREAL'S RISE AND FALL

It will be noticed that while the value of taxable property has grown from \$20,000,000 to \$140,000,000 in thirty years, that the ex-Mayor believes that a more equitable contribution to the city's revenue might be enforced. Perhaps, he says, a compromise arrangement might be reached as regards exemptions by imposing a tax on all land, leaving the buildings of religious and strictly charitable institutions free. Mr. Smith also holds that the present revenues of Montreal are not sufficient to properly conduct the affairs of the city, even with an economical administration. Here, again, he says, facts speak louder than words, and he handed the correspondent the following summary of Montreal's sources of revenue:

Table with columns: Valuation, Property, Debt, Population, Revenue, Exemptions. Rows for 1868, 1878, 1888, 1898.

DRIVING DASH FOR FREEDOM

Exciting Chase by an Armed Guard on Another Steamer - Was Sentenced to Five Years for Desertion - Left the Boat With Engines on at Full - Not Yet Recaptured.

New York, Oct. 17.—The world this morning says: A daring and successful dash for freedom was made yesterday by Henry Bradley, a Governor's Island convict. Bradley, who stole a Government steamer, and in the exciting chase by an armed guard that followed on another he gave his capturers the slip.

Bradley, who belongs to New York, was an engineer by trade. Two years ago he enlisted in the regular army, but last year was discharged. He was recaptured after a short absence and sentenced to five years' imprisonment. Along with the other convicts on the island he was put to work on the dock, and was assigned the task of coaling and getting up steam every morning, preparatory to the Government ferry boat, which plies between Liberty and Governor's Island.

An armed guard watched over the prisoners, but at 7 o'clock yesterday morning, while the other convicts worked on the dock, Bradley was alone on the steamer. Shooting a hole through the landing slip that something had gone wrong with the engines, he said: "I'm going to see how she works."

Immediately there was a puff of steam, the hawser was cast away from the boat, and before the surprised guards could recover from the shock, the General Fair had steamed out of the dock and was heading for midstream with Bradley for crew and passenger. An outcry was at once raised, and within four minutes the Hattie Palmer, a Government steam lighter, had started in pursuit. The Hattie Palmer had an armed guard on board, and put on full steam in an effort to catch up with the fleeing convict.

Bradley, however, is an experienced engineer, and he ran the engine every inch of the way. He was in the General Fair out for her. When he saw the Hattie Palmer leaving Governor's Island, he turned the General Fair around, and he ran in between a barge and a steamer moored in the dock and upon which were a number of men upon the barge, from which he made his escape through the dock. When the Hattie Palmer arrived, Captain Miller found the General Fair in the middle between the steamer and the barge with her engine still running.

Changed His Prison Clothes. During the run across, Bradley exchanged his prison garb for the working clothes of the engineer of the General Fair, which were hanging in the engine room.

PITS COST AT \$1,730,000

And Says Intermittent Filtration is the Way. This would require a 600-acre Sewage Farm, 300 Acres of Which Should Be Used at the Start - It Should Be Located East of Leaside Street and North of Danforth Avenue, Says the Engineer.

City Engineer Rust yesterday morning handed to Mayor Shaw his report on the disposal of Toronto sewage. He contemplates only two methods: Intermittent filtration, to cost \$1,730,000, and \$700,000 cost of maintenance; and chemical purification, to cost \$1,540,000 originally, and \$100,000 annually for maintenance. Mr. Rust recommends the former system, and in dealing with it says: There are two means of disposing of sewage on the surface, namely, broad irrigation and intermittent filtration. "Broad irrigation" means "sewage being utilized over a large surface of land for the production of vegetation, consistent with suitable purification of the sewage." Intermittent filtration means "sewage applied intermittently in a great volume to a porous material, which can be properly absorbed and purified by the land, and while not excluding vegetation making possible the use of the material." In broad irrigation we are informed that it will take about one acre for every 100 of a population, but with intermittent filtration the same number of acres may be satisfactorily disposed of upon the same area. We are also told by authorities that intermittent filtration will remove 90 per cent. of the bacteria, and it is this system, combined with, perhaps, broad irrigation to some extent, that I suggest to your Council as being suitable to this city.

The Farm Location and Area. The only land available in sufficient quantities for this purpose is situated in the Township of York, east of Leaside street and north of Danforth Avenue, extending easterly almost to the city limits, and easterly to a branch of the Don. There is about 1100 acres in this section, and is admirably fitted for the purpose. A great portion of this land is owned by the City of Toronto, the soil being a heavy, porous loam, the soil being and is admirably fitted for the purpose. Blizzard Does Enormous Damage. Kansas City, Mo., Oct. 17.—A genuine blizzard prevails in the south-west and west to-day. A heavy wet snow has fallen since 3 o'clock this morning, preparatory to the blizzard, which has blown down in all directions, and delay railway traffic. The snow followed 24 hours of steady rain. The sidewalks are covered three inches deep with slush. There has been a terrific fall in temperature, and the suddenness of the storm coming as it has upon the track of the city, has caused a great deal of damage, covered with cattle. Kansas City is practically cut off from telegraph communication with the west.

More Land for U. S. An Area of 2500 Square Miles Added to His Domain—Result of Surveys on the Yukon. Seattle, Wash., Oct. 17.—The Post-Intelligence tells us the results of the surveys of the mouth of the Yukon River this summer by Captain Pratt of the coast and geodetic survey is to add an area of 2500 square miles to Uncle Sam's domain. Captain Pratt found the south mouth of the Yukon empties into Behring Sea twenty miles further west than has been supposed. In addition to this it was found that the whole coast line from Cape Dyer, almost to St. Michael, is further west than is shown on the maps. The strip to be added embraces about 2500 square miles.

Negroes May Be Sent Back. Governor Tanner Asked to Dispose of Imported Workmen. St. Louis, Mo., Oct. 17.—The 57 Alabama negroes that were sent to St. Louis from Springfield, Ill., after the union miners at Virden had refused to allow them to remain at Virden, are quarantined in the jail here. They spent yesterday in preaching and religious exhortations. It is said that while Mayor Zeigler might wish to send the blacks to Alabama, such action would not be taken by the Chicago-Virden Company, which brought them north at heavy expense. It seems now that they will be sent back to Illinois, where Governor Tanner can make what disposition he pleases of them.

Mrs. Steele Tried to Suicide. Surgeons Say There is No Possibility of Her Recovery. Omaha, Neb., Oct. 17.—Mrs. Hattie Steele, wife of William W. Steele, has attempted suicide under the most distressing conditions at her home in this city. Her husband had called to arrange final documents for their final separation, but she refused to discuss the future of the children. Mrs. Steele suddenly arose, and in the presence of her husband and two little boys placed a bullet in her mouth, and fired. She was removed to a hospital and the bullet extracted, but the surgeons say there is no possibility of her recovery. Mrs. Steele is a widow, and although there is no charge against him.

TO PLACE FOR LOVE

Many authorities maintain that consumption is not a hereditary disease, but it is universally admitted that the tendency to consumption is inherited. Weak lungs, narrow chests and low vitality are in many cases family characteristics, and sooner or later the dread destroyer usually appears. Marriage among such people should not be permitted. The tendency toward consumption may be overcome in youth or early manhood and womanhood. Proper care, proper diet and proper exercise, together with Shiloh's Consumption Cure, will conquer the handicaps of heredity, and make anybody equal to the responsibilities and joys of life.

Shiloh's Consumption Cure is sold by all druggists under a positive guarantee that the purchase money will be refunded in case the medicine does not accomplish all it is claimed for. 25c, 50c, and \$1 a bottle throughout the United States and Canada. In England 1s. 2d., 2s. 3d. and 4s. 6d.

Water Not Deep Enough. Harbor Master Postelthwaite was called upon yesterday by a number of lake captains, including Capt. Alex. Hower, schooner "Argus," and Capt. James Quinn, of the "White Oak," regarding the present condition of the eastern entrance to the harbor. The captains said that they were unable to come in on Saturday, owing to the shallow water, which is about 10 feet deep. The channel was dredged this summer, but the past week the heavy gales had filled in the dredging.

They Want Another Light. It is understood that the vessel-owners who made a block last week in regard to the system of lighthouses, will make an appeal to the Dominion Government to have the range light altered. The fault at present is that the lighthouse stands too far back from the land, and in the United States side, the captains said that they were unable to see their way through the vessels at night.

HASTINGS V. SUMMERFELDT.

A Case Arising Out of the Last Provincial Election in East York - Was Ballot Spoiled? The case of Edward Hastings v. Abner Summerfeldt, which was opened before Justice Falconbridge yesterday afternoon, and which will be continued this morning at 10 o'clock, is exciting considerable interest in political circles. Hastings is a farmer of Markham Township, who at the last provincial election in East York inadvertently marked his ballot for the Reform candidate instead of the Conservative, as he had intended. He brought it before the court, and asked for a new ballot to be issued to him. The returning officer, however, maintained that the ballot was not spoiled, and after consulting the statute placed it in the ballot box in spite of Mr. Hastings' protest.

Mr. Hastings' counsel, Mr. C. G. Brown, contended that the ballot was spoiled, and that the returning officer was bound to issue a new ballot. Mr. T. M. Higgins, for the defendant, insisted on the production of the ballot, and Justice Falconbridge decided that he would listen to the evidence only, pending his decision as to whether the ballot need or need not be produced. Mr. C. G. Brown appeared for the plaintiff. A point on which the defence appears to lay emphasis is whether Mr. Hastings did not virtually consent, after the consulting of the statute book, to have his ballot placed in the box.

The Lake Ontario's Quick Passage. The Lake Ontario of the Beaver Line, which left Liverpool Oct. 8, arrived at Rimouski yesterday, having made the trip from Montreal to Rimouski in seven days and a half—a very quick passage indeed. The Beaver Line steamers have been making some very rapid runs during the past year, or so, nearly all of them having broken records. These steamers are very popular among Canadians, and we wish them every success.

THE CRIMINAL INSANE.

An Interesting Report From United States and Foreign Countries. The Attorney-General yesterday received a report on "The Criminal Insane in the United States and in Foreign Countries," prepared by S. J. Barrows, commissioner for the United States on the International Prison Commission.

The report notes the progress of modern philanthropy, evidenced in the more enlightened view now prevailing concerning the nature and treatment of insanity. A half ago all insanity was treated as if it had a diabolical source. The insane, instead of being sent to hospitals, were scourged, tormented, loaded with chains, confined in dungeons and even put to death. In 1751 a curative hospital was established in England, but cruelty was rampant.

Investigation in Europe. The treatment of the criminal insane was made a subject of investigation in Europe in 1878, under the auspices of La Société Generale des Prisons de Paris. In the year 1887 the same society asked the commissioner for the United States on the International Prison Commission to conduct a similar enquiry in the United States.

Answers from 45 States took for six months to a year to come in. It would be impracticable to print all, or even a synopsis, of the replies received, but the compiler says: "One is surprised less at the rarity than at the degree of conformity which prevails in the conception of social duty toward the criminal insane as now expressed in laws and institutions throughout the civilized world. Such a uniformity toward the criminal insane as now is the proof of a new standard in modern civilization."

How to Thaw Pipes. A method of thawing out frozen water pipes consists, according to the Daily Hansbretter Zeitung, in shovelling away the snow from above the pipes, covering them one-quarter metre high (about ten inches) with straw, and then pouring oil on water. In consequence of the heat generated thereby the ground and the pipes are thawed out.

A BREEZER ON THE LAKE

Yesterday—A Good Fight Put Up by the Captains of Steamers. The weather yesterday proved very disagreeable to the captains of the various boats, as it rained in the evening, and a hard time of it in making their regular trips, although the majority of them braved the storm well and arrived only a few hours behind time. The Macassa and Lakeview were the first to start on their trip from Hamilton and St. Catharines, and both boats left a few hours after their arrival with large cargoes of freight, but only a few passengers. Capt. McSherry, of the steamer A. J. Tyson, deserves credit for the excellent way in which he steered his boat from Lewiston in the face of such a terrific wind. The steamer accident that occurred the previous day, along with the Toronto Electric Light Company, but owing to the heavy wind he had to back out and then bring his vessel into the wharf, where, after some difficult manoeuvring, his boat was tied up. After a few hours of waiting, the steamer was towed to the wharf, and the accident that occurred the previous day, along with the Toronto Electric Light Company, but owing to the heavy wind he had to back out and then bring his vessel into the wharf, where, after some difficult manoeuvring, his boat was tied up.

To Louis de Rougemont. He dwelt in the East, the Kingdom, And was king of a naked cannibal crew; He mixed in adventures of unprinted lore; Of halfbreed escapes, Of feasts on snakes, And he married a language girl. As wild as Munchausen's story doth seem, And the poorest may know it, if he can cut but dream. —H. McV.

Out on the Hastings. Provincial Secretary Hon. E. J. Davis left town yesterday to help Mr. M. J. Giblin in his election campaign. He goes to East Wellington to be there Tuesday and Wednesday, speaking to-night at a meeting at Fergus, and S. Ontario Thursday, and returning Friday.

How to Thaw Pipes. A method of thawing out frozen water pipes consists, according to the Daily Hansbretter Zeitung, in shovelling away the snow from above the pipes, covering them one-quarter metre high (about ten inches) with straw, and then pouring oil on water. In consequence of the heat generated thereby the ground and the pipes are thawed out.

A Superior Stock of Home Needs.

Suppose we break away from the idea of "bargain giving" and tell you about some of the choice new things in Home Furnishings that are to be had on the Second Floor. Perhaps you don't know how comprehensive and superior our stock really is. If so you certainly are the loser. Our display of Home Needs and Furnishings represents greater variety than is generally found under one roof. Every want, be it for artistic home decoration, or merely to satisfy the simpler requirements of comfortable home life, may be provided here as nowhere else in Canada. Newspaper description fails to do justice to such a stock as we have. Yet we are tempted to offer these suggestions with the hope that you'll be induced to come and see for yourself how serviceable we can be to those who take pride and pleasure in beautiful home surroundings:

100,000 WAR EAGLE SHARES

New Block of Treasury Stock Sold at \$2.70

To Clear Off Indebtedness to Messrs. Gooderham and Blackstock and Provide Other Funds—Mine to Be Closed Down for Three or Four Weeks—Other Mining News—Stocks.

War Eagle stock was sold yesterday at \$2.80, and may go a little lower for a time. The company sold 100,000 shares of treasury stock at \$2.70, using the proceeds to clear off the debt to Messrs. Gooderham and Blackstock for the new plant and for the recent purchases, turned over to the War Eagle, of Messrs. Gooderham and Blackstock. The annual meeting will be held on the 15th of November, and at it it will probably be announced that the mine will shut down for three or four weeks to enable the management to complete the new plant and to put in the new three compartment shaft, which will be heavily timbered throughout. After the improvements are in, the shaft of development and mining will go ahead with greater vigor than ever, and the expectation is that with this improvement there will come a rise in the price of the stock. In the meantime, the stock is not likely to make any notable advance, and it may shift the other way for a few days. The amount of stock issued to 1,750,000 shares, leaving 250,000 shares still in the treasury. The Centre Mine in the Roseland Division, as before stated, has been capitalized for \$3,300,000, and all this stock has been taken over by Messrs. Gooderham and Blackstock in full for the purchase of the mine. The new company will have power to increase its capital in order to raise money for development purposes. It has not yet been made public what the owners of the stock intend to do in regard to this great property.

Sunset No. 2. A telegram was received yesterday from Roseland announcing that the cross-cut on the 330-foot level of the Sunset No. 2 had cut a vein eight feet wide, carrying good ore. The cross-cut is being driven southward from the No. 1 vein to cut the discovery vein, and the eight foot vein was a totally unexpected find. The property is being developed on systematic lines.

Giant and Novelty. The development of the Novelty is proceeding at an entirely satisfactory rate, and the showing is excellent. The ledge has been opened for about 150 feet and the surface showing for the whole distance displays iron and copper in plenty. The new shaft is now down about 200 feet, and the work of timbering has commenced. There is about three feet of ore at the bottom of the shaft, which promises to develop into a good body. The Giant shaft is down about 80 feet. A slip in the bottom of the shaft has displaced the ledge, and the workings are now out of ore. The management is not displeased with the change, and it is confident that it will result in changing the dip of the vein at the lower end. The property is being developed on the former dip, the vein would have passed out of the Giant side lines in a comparatively short distance more. The tunnel is about 100 feet long, and is now about under the old shaft at the top of the hill. Some ore is being met scattered through the face of the workings. The Oro Mining and Milling Company, whose stock is being offered by Messrs. Hall & Murray, is a proposition that has been well developed before the stock is offered to the public. The capitalization is small and the prospective profits are large. The company has laid out a town site on Lemon Creek, Novelty, and has seven mineral claims, some of which have been working since November last, and have a large quantity of free milling ore blocking out of an average value of \$14 per ton. They have purchased a 10-stamp mill, which is now being taken in to the new Government wagon pond that starts at Kootenay Lake and goes to Oro town site. They are erecting a saw mill, including planer, matcher and shingle mill, and have arranged for the supplying the mill, which will be running in a few days. An hotel has been built, and applications for a number of lots have been received. At present there are 30 men on the pay roll.

Notes of Progress in the Great Silver-Lead Country. Where the lower crosscut taps the ledge the American Boy has three inches of shipping ore. The shipments from the Sloan Star will be considerably increased during the present month. Two carloads of shipping ore have been taken from the Silver Bird, which is being developed by Scott McDonald and D. C. Corbin. The Minnesota Silver Company is employing twenty men in developing the Ivanhoe. There is a large quantity of high grade ore on the dump, and when the contemplated tramway is installed, considerable shipments will be made. On the Sunshine development is going ahead rapidly. In the upper tunnel, a vein was run in on the left, showing good ore all the way in both tunnel and winze. A lower crosscut tunnel, which has been started to run in under the bluff in 50 feet. It will tap the ledge at 100 feet, giving a depth of 200 feet. The Enterprise mine on Ten Mile has shipped this season eighteen cars of ore and has now lying in its bins at the wharf thirty-two carloads or 640 tons. At the mine itself ore is rapidly accumulating in the bins. No stopping is being done and the ore extracted is worked out in driving levels, putting in up-rails and other necessary development work. The contract for the Comstock concentrator has been let, ground has been broken, and mechanics and supplies are now on the spot. The shipments from Sandon last week amounted to 675 tons. Payne, 330 tons; Ruth, 105; Last Chance, 80; Sloan Star, 120 and Treasury Vail, 40. The Goodenough owners are in 700 feet with their long tunnel, and several stringers of fine ore have been struck. Messrs. Cory and Ward have bonded the Eclipse to H. T. Bragdon for \$10,000, 20 per cent. to be paid in three months and the balance in six. The Grey Copper is working seven men on a good body of concentrating ore. Work is still going ahead in the Goodenough, with many encouraging indications. Messrs. Whittier and Moore have sold

HOBNOBBED WITH AN EAR-BITER

Did Police Magistrate Woodruff of Brantford While Doing the Tenderloin in New York.

Promenading in the Palmer House rotunda last evening, stroking a square, sandy-colored beard, was Police Magistrate Woodruff of Brantford. Mr. Woodruff was just returned from New York City, where, in search of further facts for his study of criminology, he got the loan of a couple of policemen and a police pass, and "did" the tenderloin.

While in the Tenderloin a man came up and addressed him by name, and, though he pretended at first that his accoster and made a mistake, he finally laughingly revealed up. His new friend was a chap he had seen down in Brantford for 10 months to the Central for biting of a man's ear. The magistrate and the ear-biter became regular cronies, and visited Steve Brodie, the bridge-jumper, together.

Magistrate Woodruff got an eye-opener as to how cheaply a good meal can be had in the Tenderloin district a large slice of beef, mutton or pork, with one of several kinds of vegetables, was served for 3 cents a meal. It was made under the supervision of the magistrate and the ear-biter became regular cronies, and visited Steve Brodie, the bridge-jumper, together.

At the Surprise, six men are working and each ore is being shipped. At the Ruth, one of the largest and most constant shippers in the Sloan, fifty-five men are employed, and one car of high grade ore is shipped daily to the smelting works at Kaslo.

The Sloan Star, a dividend payer, is situated five thousand yards from Sandon. At present 102 men are employed and regular shipments of 20 tons of concentrates are made daily. The Reco, the dividends from which up to January 1, 1893, was \$237,000 since which date another dividend of \$50,000 has been paid, is owned principally by J. M. Harris.

Mr. S. J. Sharp, the secretary for the Juliet mine, has just received advice that arrangements are now being made to build a cross-cut at the foot of the above property, which will certainly make this property very valuable. The last assay taken from the stringer tunnel was \$35 to the ton.

A DETECTIVE AGENCY

Appears in Court by Letter Yesterday—Case Continues. The methods of a private detective agency were told to Magistrate Denison yesterday by Thos. Clifford. W. H. Gardner of 5 Brunswick-avenue was charged with having unlawfully caused a letter to be received by Clifford demanding money with menace, knowing the contents thereof, and without any reasonable or probable cause. The letter received by Clifford bore the inscription, "Patterson's Detective Agency, Toronto, Canada. Detective, Sheriff and Bailiff Work Executed." The letter was as follows: "Sir—Unless you settle with W. H. Gardner, 5 Brunswick-avenue, for clothing supplied to you in March, 1893, we shall be compelled to place you under arrest for obtaining goods under false pretences."

Drugged Whiskey in East Northumberland. Still more particulars were filed yesterday afternoon in the East Northumberland case, consisting of the reply of Mr. J. H. Douglas, respondent, to the petitioner, Mr. E. W. Tuttle. It is not a cross-petition, however. Mr. Douglas affirms that his opponent, Dr. Willoughby, made use of many illegal and corrupt expedients against him through his agents—the trafficking of meat, drink, and money, the employment of force and violence, the offers of employment, money and railway tickets and the usual list of charges. Drugged whiskey, however, plays a more prominent part in the case than usual, and over a dozen voters fell victim to John Pickle and W. C. Clark of Cobourg, who also, it is said, made up ill by drugs to cast their votes.

Mission to the Leper. The Leper Mission of India and the East met at the China Inland Mission yesterday afternoon. Mrs. S. Cross, president, and Rev. J. Nell gave an address upon the relationship of the church to missions. Mr. W. Henderson made the statement that there were half a million lepers in India, half that number in both Japan and China. The funds this year are over \$200,000 less than last year. In order to have a more central location, the mission was held in the Bible Training School from this time on.

Keep to the Right of the Road. William Curtis, a King Township farmer, was arrested in the Police Court yesterday for driving down Jarvis-street on the wrong side of the road. Frank Maddock, a bicyclist, was run down by Curtis and struck. Maddock's wheel was smashed in the collision. Curtis was fined \$10 and costs.

POPULAR TEACHER SPEAKS ABOUT PAINE'S CELERY COMPOUND

THE GREAT LIFE SAVER CURES EVEN AT THE ELEVENTH HOUR

Mr. Belyea's Letter Should Be Read by All Sufferers. Gentlemen—In the winter of 1884 I was taken with a severe attack of neuralgia in the head and shoulders. Since then it became so bad that I gave up the idea of ever being cured. Have taken medicine prescribed by different physicians, but all to no avail.

Some three months ago I was induced to try a bottle of Paine's Celery Compound. Before I had taken half of it I began to feel better. Sleep, which in my early days appeared so refreshing, was now a source of affliction because I was now up of frightful dreams; but not so now, as the medicine began to have a telling effect on my nervous system.

I have taken three bottles of this glorious medicine, and to-day I can say that it is the first time in eleven years that I have felt none of those piercing pains to which I had once been a victim. Let me say to any person who may read this testimonial, in this province or elsewhere, that if you disregard this statement, just write me and I will only be too glad to inform you of what has cured me of neuralgia and a shattered nervous system.

Yours respectfully, LEVERETT A. BELYEA, Hampstead, N.B. The Wabash Railroad. With its superb and magnificent train service, it is now the most perfect railway system in America. The great winter tourist route to the south and west, including the famous Hot Springs, Arkansas, the Egypt of the new world, Texas and California (the land of sunshine and doves). Passengers going advance of their destination in the Wabash reach their destination in less time than any other railroad in the world. Detailed information may be had by writing to the General Agent, or J. A. Richardson, District Passenger Agent, northeast corner King and Yonge-sts., Toronto, and St. Thomas, Ont.

Manuscript as a Hair-Puller. George Handford and Charles Corrie occupied the same cell at Police Headquarters on Saturday last. Both men were charged with being drunk. Corrie is an old man, and he was attacked by Handford, who gave him a severe beating. Handford was convicted in the Police Court yesterday for assaulting Corrie, fined \$20 and costs or three months. Corrie was released from custody after he had given evidence.

Boissieu's Removal. Boissieu & Co. have already moved their factory into their new establishment at the corner of Temperance and Yonge. Big drays were busy all yesterday with the removal of the factory. The retail store on the ground floor is nearly completed, and will make one of the finest stores in Canada.

ANOTHER PERMANENT CURE. THIS TIME OF A RUNNING SORE.

B. B. B. Cures M. D. Burch of Renton, Ont., of a Bad Sore on the Leg in 1892. IT HAS NEVER BROKEN OUT SINCE. Look around you and see if you can find any other remedy with such a record of permanent cures to its credit as Burdock Blood Bitters.

Not a little patching and mending up of the system to last a short time, but a thorough renovation, whereby disease is uprooted completely and health permanently restored. Take the case of Chronic Sores of all kinds, which everyone knows are hard to heal with ordinary remedies.

To make a thorough and permanent cure the blood must be cleansed so that pure nutritious blood shall be supplied to the affected part, and supplant the decaying tissues with healthy flesh. Sores or ulcers, no matter how large or how long standing, heal up readily when Burdock Blood Bitters is applied externally and taken internally according to directions.

The statements of Mr. D. Burch of Renton, Ont., given below, prove this, and again establish the claim made for B. B. B. that it is the greatest remedy in existence for not only giving temporary relief, but making permanent cures. This is the letter written by him, dated February 9th, 1894:

"In the year 1888 I was taken ill with Typhoid Fever. When I was covered from the fever I got what the doctors called Phlebitis, which left my ankles a very dusky color, and my leg

CASES OF A WILL AND A DRAIN. In Non-Jury Sitings of the County Court Yesterday Presided Over by Judge McDougall. Judge McDougall opened a non-jury sitting of the County Court yesterday. The first case on the docket was that of the will of the late Patrick Costello, who died on May 27 last. Costello made a will leaving his estate to his wife. When the will was made there were several relations took objections on the ground that the will was made just four days before Costello's death, that it was made under the influence of a doctor, and that the testator was of unsound mind. The estate consists of a house at 427 Adelaide-street west, valued at \$1750. Judge McDougall upheld the will and reserved judgment as to costs.

The suit of Detective Verney against Police Constable Gathrie was commenced, charged with assaulting Verney. The plaintiff and the defendant are neighbors and live at 327 and 329 Manning-avenue respectively. A drain running from the house of the plaintiff into the house of the defendant caused the dispute. The drain is defective in Verney's property, and he wants Verney to pay a share of the cost for repairs.

Their Silver Wedding. Mr. and Mrs. Mellersh, Beckley-avenue, East Toronto, celebrated their silver wedding on Saturday evening, the 15th inst. The presents were costly and numerous, and the evening was spent in a most enjoyable manner. Mrs. Mellersh, Streatham, London, Eng., the mother of Mrs. Mellersh, also an express money order from her country to try a bottle of Paine's Celery Compound. After spending a happy evening the guests with one accord wished the host and hostess another twenty-five years of prosperity and happiness.

Before Magistrate Ellis. George Jackson, the G.P.R. workman charged with wounding Terry Newton, was discharged by Magistrate Ellis yesterday. Newton claimed that while he was stealing a ride on a street car he was struck by Jackson and knocked out of the car, receiving some severe bruises about the head. If Berridge, of York-street, a buck and wing dancer, was fined \$2 and costs for being disorderly on a Metropolitan Railway car last week.

Keep Outside the City Limits. Yesterday High Constable Jones gave orders to the watch constables that they are not to be at functions within the city limits. The Chief of Police has also given notice that the city constables are to keep away from the city limits. This action is the result of the friction which has existed between the city and county police over conflicting authority at football matches and other games within the city limits.

The Demon Dyspepsia. In an open time it is a popular belief that demons move invisibly through the air, seeking to enter into men and trouble them. At the same time, it is a fact that dyspepsia is at large in the same way, seeking habitation in those who are careless or unwise living habits. And once he enters a man it is difficult to dislodge him. He that finds himself troubled with dyspepsia, let him find a friend to do battle for him with the unseen foe is Paine's Vegetable Pills, which are every ready for the trial.

Hurt His Leg and Wants Damages. Mr. Justice Falconbridge listened yesterday afternoon to the suit of R. S. Haslam for \$8000 damages against the Wylid-Graves & Darling Company. Haslam, a teamster, had fallen down an elevator shaft on Aug. 12, 1891, in the rear of the company's warehouse, and permanently injured his leg. The suit is in reality directed against the insurance company that had guaranteed the safety of the premises to the Wylid Company. Judgment was reserved. Mr. H. E. Irwin appeared for the plaintiff and Mr. Wallace Nesbitt for the defendant.

Keep Your Hair On

Are you approaching premature baldness? Are silver patches showing in your fading locks? The secretions of your hair are dried up and it gets brittle, dry and thin. It is filled with dandruff and the hair is coming out. Dandruff is not merely an annoyance but it is dangerous. DANDRUFF IS THE BEGINNING OF BALDNESS, and

destroys dandruff. It destroys the microscopic insects that feed on the hair bulbs. It encourages the secretions of the hair follicles and promotes a growth of thick, glossy hair. This soap is the apex of all soap goodness—for the bath it is unequalled, and it gives the face a smooth, clear, hard surface, leaving an invigorating aroma that is a distinct pleasure to the bather. All's well that ends well, and this soap is usable to the last particle.

The Oro Mining and Milling Company Limited is operating a town site, which has been surveyed into lots. A hotel has been built, and is now open to the public and applications for a number of building lots are in. The company's sawmill, planer, matcher and shingle mill are on the ground and their erection nearly completed. The company has just finished installing 600 feet of fluming and two Pelton wheels, which, with a 200-foot head of water, will furnish ample power for the present needs and can be increased any time. The company's stamp mill is at Six-Mile Point, on Kootenay Lake, waiting completion of the Government road to be transported to the site. Timber is being landed to keep the sawmill going. The company has 30 men on their pay roll, and in the immediate neighborhood of some of the best known and promising mining properties in the Sloan, employing large numbers of men. We have a block of "Oro" stock for sale, and will be glad to furnish full particulars. Tel. 60. HALL & MURRAY, 12 Yonge St. Arcade

CHANGED FUTURES HIGHER

Despite Big Visible Increase and Large Receipts.

Steady Cables, Heavy Clearances, Good Cash Demand and Fair Takings at Seaboard Were Bullish Factors—A Budget of Interesting Items on the Price Outlook—Stocks in Store.

Monday Evening, Oct. 17.

Liverpool this morning reported stocks of red winter wheat exhausted. Futures closed unchanged to 3/4 cent lower than on Saturday.

Paris wheat closed 5 centimes lower to 10 centimes higher, with futures unchanged.

After opening steady on the strength of the cable advices, the Chicago market this morning eased off in the face of heavy Northwest receipts.

Lard went up 3/4 in Liverpool to-day and short-cut, light band declined 6/8. Stocks of long-cut light reported exhausted.

The English visible wheat supply last week increased about 1,000,000 bushels.

Imports into the United Kingdom the past week: Wheat 2,010,000 bushels, maize, 1,072,000 bushels; flour, 238,000 bushels.

Primary receipts to-day of wheat 2,188,000 bushels, against 1,490,000 bushels a year ago. Corn receipts 785,000 bushels, against 1,276,000 bushels.

St. Louis wheat receipts to-day 233,000 bushels, against 78,462 bushels the same day a year ago.

Receipts of wheat at Minneapolis and Duluth to-day 187,000 bushels, against 144,000 bushels the corresponding day of last year.

Total clearances to-day: Wheat and flour, 3,000,000 bushels; corn, 2,010,000 bushels; maize, 1,072,000 bushels; flour, 238,000 bushels.

Exports at New York to-day: Flour, 718 barrels and 26,341 sacks; wheat, 523,223 bushels.

The preliminary Washington estimate of the barley crop for the United States is 91.6 bushels per acre, or 2.0 bushels less than in 1897, and 1.3 bushels less than the December average for the past ten years.

The official estimates of the crops of barley and oats in France are as favorable as for wheat. This year's barley crop is estimated at 50,720,000 bushels; last year, 40,000,000. Oats this year 328,400,000; last year, 276,000,000 bushels, against 187,988 France imported a very large quantity of oats.

A car of corn delivered in Chicago last week contained 1322 bushels, the largest carload ever received in that city.

St. Louis exporters report sales of wheat to Germany for December, January shipment at a premium over present cash prices. It is not said whether the premium is over cash or Germany of St. Louis.

Australia: The wheat crop is said to be suffering from drought. This may be a great disappointment, as only a few days ago the prospects were brilliant.

The World reported a few days ago that 11 bushels of wheat had been raised in wheat at Buda Pesth. It is now reported that the market there declined 50 per bushel in three days of last week.

Marselles is reported buying wheat off the English coast. This is considered an evidence that the stocks of wheat at Black Sea ports, the usual source of supply for South France, are light, and held above export value.

Oregon newspapers advise that there is a good demand at Portland for flour for Japan, and that all steamship space has been taken up to end of the year; also that several large shipments of flour will go to Vladivostok during the following fortnight.

An elevator firm in Winona, Minn., says that farmers are holding 7 per cent of the wheat which they have delivered, in expectation of higher prices. The banks are lending the farmers money at low rates of interest. The Government has thought to help farmers by this method a few years ago, when prices ruled very low.

THE RESULT WAS UNFORTUNATE FOR THE FARMERS

and also for the Government bank. The receipts of wheat in Duluth for September were 12,400,000 bushels. This was considered an immense quantity, but it is likely to be exceeded by the receipts in October...
