CHURCH MERGER PLANS OUTLINED; RETAIN AUTONOMY

Proposal to Amalgamate 22
Protestant Church Bodies in
U.S. Under One Council.

A UNITED CHURCH

New York, Feb. 2.—An outline of the plan for a merger of approximately 22 evangelical Protestant church bodies, under the name of the United Church of Christ in America, which is to be acted upon by the Inter-church Council on Organic Union at a three-day conference beginning in Philadelphia tomorrow, was made public here today at the headquarters of the Presbyterian church, the originators of the movement.

The plan approved by an interim committee of 50 Protestant clergymen of various denominations appointed last December carries a preamble declaring faith in God and other fundamentals of Christianity as "a common heritage of the evangelical churches." It provides (1) complete autonomy in purely denominational affairs; (2) formation of a council, a representative body, meeting biennially, through which the united church will act; (3) representation to be on the basis of two ministers and two laymen for the first 100,000 communicants, and two ministers and two laymen for each additional 200,000, or major fraction thereof; (4) that constituent churches, except as limited by the plan, "shall continue the exercise of their several powers and functions as the same exist under the denominational constitution"; (5) that the council shall harmonize and unify the work of the churches, including missionary activities, evangelism, social service and religious education.

Real Ecumenical Entity.
It is pointed out that the recommendations of the interim committee do not stop at a movement for creating "a real ecumenical entity, with ecclesiastical powers, holding and administering ecclesiastical property and funds of such united church." This, it is said, may require a trying-out period. "After the plan shall have been adopted, the constituent churches will be asked to give up their separate legal entities and to become members of the new organization."

TO DECIDE DISPOSAL OF GERMAN BONDS

Forty Million Dollars' Worth
Held in Canada—Before
Cabinet This Week.

Ottawa, Feb. 2.—(Special).—What disposition shall be made of \$40,000,000 worth of German property and debts owing to Germany held in Canada is a question that the cabinet will decide this week. Under a clause in the peace treaty the allied nations reserved the right to dispose of such debts and property, using the proceeds to pay damages sustained by persons of allied countries who held property of Germany and confiscated by the German government, or for the meeting of claims against Germany, which are being dealt with by the reparations committee in London.

FARMERS OF 'EBEC IN CONVENTION TODAY

Quebec, Feb. 2.—With the gravest troubles that ever faced the farmer to solve, the big convention of all agricultural, poultry breeders and other rural societies will open here tomorrow, gathering no less than half a thousand representatives of all classes of farm workers in Quebec province. The program of the convention is unusually heavy.

SWISS WATCH INDUSTRY THREATENED WITH RUIN

Berne, Feb. 2.—Immediate government intervention is necessary to save the Swiss clock and watch industry from "inevitable catastrophe," arising from the unfavorable exchange situation, according to addresses made before the Swiss commerce and industry congress which closed its sessions here Saturday.

REPORT A QUAKE.

Halifax, Feb. 2.—The seismograph at Dalhousie University recorded an earthquake this morning. The shock lasted one hour and 56 minutes.

CONSERVATIVES DECIDE TO HOLD CONVENTION IN EARLY SUMMER

Will Choose New Leader and
Reorganize Party Against
Free Trade Policy of
Farmers, Says Hon. Howard Ferguson.

The Hon. G. Howard Ferguson, the present leader of the Ontario Conservative party, was the chief speaker last evening at a fairly well attended meeting called by Ward 4 Liberal-Conservative Association in Alhambra Hall, Spadina avenue. Mr. Ferguson used the occasion to open a campaign for the reconstruction of the Conservative party and also to initiate a movement against free trade.

THE MINISTERIAL ELECTIONS.

The Liberals of East Kent, where Hon. Manning Doherty, minister of agriculture, is seeking election, decided yesterday not to put up a candidate against him, the appeal to do so by Hartley Dewart, the Liberal leader.

Special to The World.
Thamesville, Ont., Feb. 2.—The Grit ground hog came out here today, saw his shadow and decided there is nothing doing; in other words, after H. H. Dewart, Liberal leader, had denounced Manning Doherty as a member of one of the worst gangs of war profiteers we have had in Canada during the war, the East Kent Liberal Association, decided by almost a tie vote—the chairman called it, 34 to 32—not to nominate a candidate.

DUMP AT GALLIOLI RAIDED BY TURKS

London, Feb. 2.—News has reached London that the British Consular dump at Gallipoli, composed of Turkish booty, has been raided, supposedly by Nationalists. Eighty thousand rifles, half a million rounds of ammunition and thirty-three machine guns were removed, probably to the Asiatic side.

DEMANDS IRRECONCILABLE

London, Feb. 2.—There is good reason to believe that the recent trip of the British Labor party's deputation to Ireland will not prove the means of making friends among the Labor members of parliament for the government's Irish scheme to be elaborated at the next session of parliament. An indication of this is found in the statement circulated at the headquarters of the Labor party, signed by "One of the Delegates," in which observations and impressions of the Irish trip are recounted.

FLU IN BUDAPEST.

Budapest, Feb. 2.—All the schools in Budapest have been closed owing to the epidemic of influenza.

PREPARING FOR THE DANCE.

The first break in the long steady winter came yesterday with a rising temperature, melting streets and, alongside of cuttings made for roads and railways where springs abound, water could be seen oozing out to seek the creeks and rivers. Clouds and fog darkened a sun that was working on the snow and ice even if it could not be seen.

RARE VINTAGES SOLD AT FAMINE PRICES

Paris, Feb. 2.—Connoisseurs of wines gathered in force at the Hotel Drouot on Friday, when 2400 bottles of rare vintages and liqueurs, the property of the late Prince Orloff, were auctioned. The sale, which lasted but four hours, netted 75,000 francs, or an average of more than 31 francs per bottle. The highest price paid was 300 francs apiece for ten bottles of brandy, dated 1870 and 1885.

FRENCH CABINET DISCUSSES WHEAT

Country Has Decreased War Area of Cultivation by 1,500,000 Hectares.

Paris, Feb. 2.—The ministers and their under-secretaries met in cabinet council yesterday, with Premier Millerand presiding. The object of the council was to make a thorough examination into the wheat situation, which is considered one of the most important problems that they are called upon to solve. The deliberations will be continued Tuesday.

Official reports read at the meeting showed that France, which before the war could support its population, had decreased its wheat-raising area by a million and a half hectares since 1912. While the quantity of wheat produced had fallen during the same period from 88,000,000 quintals to 48,000,000 quintals.

EX-CROWN PRINCE WRITING MEMOIRS

Will Not Publish Yet His Experiences During the Great War.

Amsterdam, Feb. 2.—Former Crown Prince Frederick William hopes as soon as circumstances permit to go to his estate at Oels, near the Polish frontier, to live with his wife and family, according to the correspondent of The Telegraph, who interviewed him at Wieringen.

The former crown prince said he was writing his war memoirs, but that he could not think of publishing them now. He has learned to speak much Dutch and wears wooden shoes on his morning rambles about the island of Wieringen, says the correspondent, and amuses himself by boxing with an instructor from Amsterdam.

Frederick William said his father was in good health, but that his mother was not well. He declined to discuss political questions.

Will Present Hospital. Amerongen, Feb. 2.—The former German emperor expects to present to Amerongen a hospital in remembrance of his stay here.

Preliminary construction of the hospital is under way on ground donated by Count von Bentinck. It was the former emperor's interest in the survey for this structure that occasioned rumors that a house was being built at Amerongen for one of his sons.

PROFITEERING IN MICE AND GUINEA PIGS

Paris, Feb. 2.—The Pasteur Institute is complaining of a special form of alleged profiteering from which it is suffering. The raising of guinea pigs and white mice for scientific experiments almost ceased during the war, with the result that prices for the little rodents have increased greatly.

This has tempted some persons to go into the breeding of them, and they are charging exaggerated prices. The eclair asserts that members of the highest aristocracy have taken up this breeding business, which pays them better than the raising of larger animals. More than one marquis, says the newspaper, is selling guinea pigs at three francs each, and refuses to sell less than a dozen, and that many countesses are refusing to part with a white mouse at a rate lower than a franc and a half.

December Profits of \$30,239 By Winnipeg Civic Hydro

Winnipeg, Feb. 1.—The civil Hydro-Electric department, during the month of December, 1919, earned a profit of \$30,239 and for eight months of the fiscal year the net profit was \$28,045, according to a report submitted to the finance committee. The total revenue from the water works department for December was \$69,296 and the surplus \$5,343.

Not Expecting Price of Bread To Advance in City of Ottawa

Ottawa, Feb. 2.—There is little possibility at present of the prices of bread being increased locally as a result of the order of the Canada wheat board, which has advanced the prices of British Columbia, Ontario and Quebec wheat to Canadian mills 25c per bushel.

Quebec, Feb. 2.—Another break in the big water main providing the city of Quebec occurred early today, a short distance from the city limits. This is the third break in the big main and the city is served by the old pipes, each ward at a time.

MYSTERY VEILS MURDER IN ROME

Palmed Off Wife's Body for That of Woman Who Committed Suicide.

Rome, Feb. 2.—Louis Ignatius Mesones, a Peruvian painter, is under arrest here on the charge of having murdered his wife. The case is one of the most mysterious coming before the police in several years.

Mesones eloped in 1917 with a daughter of Attilio Summitti, proprietor of one of the best known art galleries in Rome and a commander of the Order of the Crown of Italy. In January, 1918, Mesones' wife disappeared. He said she had gone to Perù, and later announced that the vessel had been lost at sea. The story was accepted.

Recently a night watchman heard a conversation between two men who said that Mesones' wife had been murdered. They said her body had been "palmed off" as that of a certain Maria Rotellini, who was found dead on the Tiber embankment January 4, 1918, having apparently committed suicide with a revolver. The watchman, curious, went to the morgue and secured a photograph of the suicide. It proved to be Mesones' wife.

Invention by Manitoban May Cheapen Electricity

Victoria, B.C., Feb. 2.—Cheaper electricity for every consumer and transmission to distant points made practical and economical, may result from a discovery of a new type of electric arc by Superintendent J. W. Dorsey, assistant professor of electrical engineering at the University of Manitoba.

RISE IN TECHNICAL SALARIES CARRIED

Non-Resident Pupils at Technical School Must Pay \$75.

Because of sickness Mr. Pearce was unable to be present at the meeting of the finance committee at the board of education building yesterday afternoon, and was unable to support his recommendation for a straight increase of 25 per cent of salaries of 1919 for teachers and the same for the administration building employees.

The whole matter of salaries will be taken up by the finance committee at a private meeting on Wednesday evening to which every member of the board will be invited, the report of Mr. Pearce to be distributed in time for consideration.

A request that came to the meeting yesterday, from the advisory industrial committee with reference to an increase for teachers and other employees of the Technical School, was carried.

Non-Resident Fees.

The matter of the fee for non-resident pupils in attendance at the Technical High School was after some discussion, accepted as \$75, this being the sum approved by Dr. McKay.

In response to a communication from Gibson Bros., the answer was that the site of land on Bloor street will not be disposed of by an agent on commission.

It was recommended that the sum of \$200,000 be placed in the estimate for 1920 to provide one-half of the cost of the erection of the Riverdale Branch Technical School on Greenwood avenue, and that Mr. Pearce be instructed to prepare plans and to have them as soon as possible, the government to pay the other half of the cost.

A report from the property committee asking that the medical health officer be asked to make an inspection of all drains and plumbing fixtures in the schools was not supported, it being considered that the work is already being attended to by Mr. Ross.

Other matters attended to were the passing of accounts, the reading of communications and the hearing of routine reports.

"ORIGINALS" DINNER.

A successful dinner was given on Feb. 2 at the Hotel King Edward to the Original Officers, W.O.'s and sergeants of the C.A.S.C. who had been overseas by the sergeants of No. 1 and 12 companies.

Speeches were made by the following: Col. F. H. Deacon; Lieut.-Col. J. A. Shaw, D.S.O.; Lieut.-Col. R. H. Webb, D.S.O.; Lieut.-Col. W. D. Greer, D.S.O.; Lieut.-Col. C. O. Ida Finds Taxi Drivers Overcharging

By IDA L. WEBSTER. Hardly a week passes that there is not some citizen registering a complaint against some taxi driver or overcharging. When the man is arraigned in the police court, he usually gets a fine slapped against his name, but so far they have not been very law-abiding.

Now, who there is a tariff for all city fares yet it is something which to the average citizen merely means that somewhere, or somehow, you could find out what it would cost you to ride here or there in a taxicab. But so far as an intimate knowledge of the thing goes, there are very few who can boast of possessing it.

Even at the Union Station, where the taxi tariff should be on view for every man, woman and child who enters the town, it takes some strategy to locate the wonderful little slip of paper, and when you do find it, it requires the same perseverance to read it as one would in hunting a train on the "T. H. & B."

The city of Toronto should take the trouble to have tariff rules and regulations posted in various places, hotel lobbies and at all street corners, most particularly those where taxi stands are situated.

Besides that, every taxi should have the tariff posted on the inside of the car, and in full view of the passenger. Unfortunately there are some men driving cars who are quite without any knowledge of the law, and the limits to which it extends. They charge people who patronize them almost twice what is legally due them, and they do it without a qualm, probably feeling secure in the thought that the poor fish who has been the passenger will not make a holler or call them on their conduct.

For instance one driver called at the World office to take a fare just north of Bloor street on Avenue Road. Instead of asking for the regulation dollar, he in a very friendly manner, and with the air of doing a favor named the price at "two bucks."

We have quoted that one event merely to show that drivers care not for their passengers. Sufficient for them is that they get their fare, and, as we said before, that they imagine the poor soul to be a hick. As this overcharging is becoming a disease, it might be an excellent idea for the courts to abstain from putting a fine upon drivers guilty of the act, but that they merely content themselves with cancelling the man's license. One or two such instances would work wonders, and in a short space of time the complaint would be almost as scarce as the wife-beating charge.

In any case let the city get busy with spreading tariff signs around about.

Duke and Duchess Visit National Institute for Blind

The Duke and Duchess of Devonshire and the viceregal party visited the Canadian National Institute for the Blind yesterday. The party made a complete tour of the building and declared themselves as astonished at the many appliances in use to aid the sightless inmates. The vocational training classes are also a source of much interest, and the visitors were greatly surprised by the rapid progress made in this line.

Included in the party were the Lieutenant-Governor, Mrs. L. Clarke and Miss Diana Clarke, Miss Alice Cavendish, niece of their excellencies; Miss Elsie Saunders and Mrs. Frank Hodgson, president of the Women's Auxiliary to the Institute.

Raney Confers With Church On Crowded Car Question

Attorney-General Raney had a conference with Mayor Church yesterday in respect to the overcrowding of street cars, and to force the Toronto Railway Company to provide additional cars. As a result of the conference, the city and the company will fight the whole matter out before the attorney-general on Friday next.

FIRE IN SCHOOL.

Fire broke out in Brook Avenue School yesterday morning and when the alarm was given the children all lined up and marched out with perfect order. A boy going to the basement found smoke and told the principal. Firemen had to tear up the floor to put out the fire. Some of the children's clothing was lost and slightly damaged.

"RIMOUSKI" DOCKS TODAY.

From wireless and cable information just received, the White Star Dominion Line steamer Rimouski is due to arrive at Portland at 8 a.m. today, from Liverpool. She will load and sail eastbound from Portland to Mediterranean ports via New York. The S. S. Dominion of the same line will sail from Liverpool Saturday afternoon as was expected. Her east-bound sailing is advertised from Portland to Liverpool, February 17.

WEST HILL RATEPAYERS.

The West Hill Ratepayers' Association held their regular monthly meeting on Saturday, general routine business being attended to and a resolution was passed asking the council to repair the first concession road, as it has not been attended to for a number of years. Discussion also took place in regard to holding a social evening for members and families only. The regular monthly dance is being held on February 11 as a Leap Year dance.

SOLDIER-MEMBER SICK.

Sergt.-Major J. McNamara, D.C.M., M.L.A., is at present confined to his home on Bathgate avenue, suffering from a chill caused by the intense cold. His condition is slightly improving.

FARMERS SEEK REFORMS.

A deputation of the directors of the U.F.O. will wait upon Premier Drury today and place before him some reforms they deem necessary in the interest of the farmers and stock owners.

YESTERDAY'S MILITARY FUNERAL

Several hundred returned soldiers yesterday afternoon paraded at the funeral of the late Pte. David Brodie, of the 17th Royal Scots' Regiment. The Salvation Army supplied the band and the interment took place at Prospect Cemetery.

HONOR AWARDED TO GEN. WILLIAMS

Companion of St. Michael and St. George Conferred on Captured Officer.

London, Feb. 2.—By the Canadian Press.—The following honours have been gazetted: Companion of St. Michael and St. George, Brig.-Gen. Victor Williams; Bar to Distinguished Service Order, Lieut.-Col. Peter Anderson, 15th Battalion; Distinguished Service Order, Lieut.-Col. Ewart Osborne, 15th Battalion; Military Cross, Capt. Allan Harper, 50th Battalion; Frederick Macdonald, 15th Battalion; Lieut.-Col. J. G. Lightbourne, H. R. Richardson, mounted rifles; Capt. E. E. Bath, 15th; W. G. Colquhoun, Patricia; A. R. Crossman, E. S. Skead, mounted rifles; R. W. Fordham, 15th Battalion; J. C. Thorne, 7th Battalion.

The decoration given to Col. Peter Anderson is for gallant conduct in escaping from captivity and for his receipt of the Victoria Cross.

RECEIVES CONGRATULATIONS.

Ottawa, Feb. 2.—A number of congratulatory letters and telegrams went forth from Ottawa yesterday to General Williams, the general officer commanding Military District No. 3, in which Ottawa is located, in congratulation of his receipt of the highest Canadian honour, the Companion of St. Michael and St. George, which has been conferred upon him by His Majesty.

It will be remembered that General Williams was captured by the Germans in June, 1915, while making an inspection of a front line trench. His companion at that occasion, General Mercer, was killed. General Williams was taken by the Germans and was a prisoner for some three years.

General Williams still suffers considerably from wounds and injuries he received on the occasion of his capture.

Another Ottawa man mentioned in despatches is Capt. Eric S. Skead, who went overseas with the 8th Canadian Mounted Rifles and later transferred to the infantry. He was captured at the same time as General Williams. He is a son of the late E. Skead, Esq., of Ottawa. Capt. Eric Skead is now located in Sudbury.

HONORED CHOIR LEADER.

The choir of Beech Avenue Methodist Church, at the choir practice on Friday evening, presented the leader, J. M. Sherlock, with a handsome umbrella and the official board of the church passed a hearty vote of thanks to the choir for their very satisfactory work.

SPRINKLER CAUSES DAMAGE.

Considerable damage was caused by water last night when a pipe of a sprinkler tank on the top of a five story building at 240 West Richmond street broke last night. The National Drug Company occupy the fourth, fifth and basement floors and their stock was damaged by water. The firemen worked in the building running the water out for over three hours. No estimate of the loss could be ascertained last night by the firemen. The building is owned by J. Greenman.

KILLED BY FALL ON STAIRS.

George Stewart, aged 73, slipped and fell downstairs in 142 Hogarth avenue last evening and died before medical assistance arrived. A driver of a wagon was called by Mrs. Stewart and he went to bring Dr. McKee, 889 Broadview avenue. The doctor pronounced death and after giving particulars of the accident to the chief coroner he decided an inquest would not be held.

EYESIGHT DIM?

If your eyesight is dim, your vision blurred; if your eyes ache, itch, burn or dry, get a bottle of Ben-Opto tablets from your druggist. Dissolve one in a fourth of a glass of water and use to bathe the eyes from two to four times a day. Ben-Opto has given stronger eyes, clear, sharper vision, and relief to thousands.

REAL ESTATE NEWS

The old Beardmore residence, at the northeast corner of College and St. George streets, has been leased to the Dominion government for the offices of the soldiers' civil re-employment.

H. E. Burnett has purchased the residence of Ald. C. A. Risk at 234 Bloor boulevard at about \$45,000.

CITY HALL NOTES

The property committee yesterday adopted a motion by Ald. Risk recommending that the city go into the dead-end business. Ald. Baker thought the city should reach a decision on this point before appointing a new manager for the city's affairs, as the enlargement of the scope of the business would naturally require a bigger man for the position now open.

Ald. MacGregor reminded the committee that a special committee last year had recommended this step, but the board of control had not acted on the recommendation.

Influenced by the result of a poll of the district the committee refused the application for the removal of restrictions from the north side of the East Beach street to permit the erection of an apartment house there.

An application for permission to erect a storage shed at the rear of 47-A Dundas street was also refused. The committee definitely decided yesterday against the removal of restrictions from Dundas street between Huron and Everley streets. Application had been made to permit the establishment in this block of a monument-erecting business.

Restrictions removed. It was decided to remove the restrictions to permit the erection of stores on the south side of St. John's road in lots 2 and 3.

In moving for the placing of restrictions on a portion of Ward Five it was decided to exclude the west side of Delaware avenue between Hallam and Ossington streets and Dovercourt road.

Dr. Arthur Thompson's application for permission to establish a private hospital at 288 Wellesley street, was favored by the committee.

Approval was voted for the motion to build laboratories at the corner of Yonge and College, Yonge and Bloor and Queen street and Kingston road.

The committee send along a recommendation that the city purchase and place on Danforth a light bulb plant, the present lights being considered too dim.

Dr. Hastings, M.O.H., reports that all the hospital space in the city for "flu" patients has been taken by the most urgent cases, and active steps are being taken to get more accommodations elsewhere. He reports that the epidemic is spreading rapidly, but he does not anticipate anything as severe as the city passed through last year. Arrangements have been made for his department to secure a portion of the old base hospital on East Gerrard street on Wednesday, and the balance of the space within a few days.

Thirteen deaths from influenza were reported last week, which brings the total this year up to 20.

Marriages in Toronto in January established a new record with 602. This was 105 higher than the previous high record, which was in a month of 1914. Births totaled 1200, and deaths 623.

WILL BANQUET IRISH DELEGATES.

The Toronto General Ministerial Association at a meeting yesterday decided to receive and banquet the Irish delegates, who will visit the city next week. These delegates are making a tour giving a view of the Irish situation. Fred Dane and Mr. Cosby will be the chief speakers. The following were appointed to the reception committee: Dr. Turnbull, Dr. Hinks, Dr. Graham, Rev. T. B. Hyde, Canon Plimpton, Rev. O. A. Brady, Bishop Brewin and Rev. C. J. Dobson.

HOTEL BEDROOM REDDED.

Goods valued to the extent of \$2,000 were stolen from the apartment of Mr. and Mrs. William Stone in their room at the King Edward Hotel. On returning to the room Friday night Mr. and Mrs. Stone discovered two fur coats, a number of Mrs. Stone's gowns and silver articles had been taken. House and local detectives are working on the case.

HEALTH CAMPAIGN STARTS

An educational campaign on disease prevention has been started by Dr. J. W. McCullough, provincial medical officer of health. He has just secured permission from the United States Public Health Board to reprint and publish a book by a noted United States professor on health subjects.

MAJOR JOHN GRANT FRANKLY AMUSED

British Columbia's Suspension of Elsewhere Accepted History of No Moment.

Alleging that Grant's "Canadian History," written and compiled by Major John Grant, principal of Upper Canada College, is anti-British and ultramontane in tone, publication of it has been suspended in British Columbia. Hon. Dr. J. D. Maclean, minister of education for that province, in an interview with a Victoria, B.C., paper, stated that this volume had been selected for trial, and that after a year, the department had decided to discontinue its use as a school book.

Major Grant, interviewed by "The World" last night at his home in this city, professed himself as being merely amused at the allegation. "My work is in use as a curriculum text book in all high schools throughout the Dominion, and it is only in British Columbia that there has been any unfavorable criticism. This book was adopted by the old Whitney government, and is heartily endorsed by the present minister of education in Ontario. As far as I can see, my work is absolutely Canadian and British in tone, and it is only in British Columbia that any unfavorable mention has been made."

CUSTOMS RETURNS

The month of January established a high record for customs returns, the collections totaling \$4,837,112, or about a million and a half over the figures for January, 1919. Heavy imports of all high school textiles, such as flannels of woolsens, cottons and silks swelled the figures considerably.

THIN PEOPLE NEED BITRO-PHOSPHATE

Increases Weight, Strength and Nerve Force in Two Weeks' Time in Many Instances.

Judging from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fat, it is evident that the thin and busily engaged are suffering from a lack of vitality and energy. The fact is that the thin people are suffering from a lack of vitality and energy. The fact is that the thin people are suffering from a lack of vitality and energy.

TORONTO TEACHERS' COUNCIL NEARLY IN SUMMER

(Continued From Page 1).

party or group forcing another election within a few months. Further, he declares the United Farmers of Ontario is an economic class organization formed for political advantage. As Liberal-Conservatives we desire this to be fundamentally unsound; that no administration so constituted can be successful or permanent. (Applause). Its fatal weakness is inherent in the very class selfishness on which it is based. But as a party we feel that the time is now opportune to try out the system. So soon as the present epidemic has spent itself and normal conditions again prevail the fallacy of this movement will be apparent to most, if not all of those now involved in it.

Seats Hard to Get. Continuing Mr. Ferguson said: "May I digress for a moment to refer to the fact that some members of the government have experienced this in public offices. A member of the government who has no seat must find one. If there is no vacant one must be created. How long as human nature is what it is the average man who has been elected and is entitled to draw an indemnity of fourteen hundred dollars for a seat vacant in an office in an off season is not enthusiastic to surrender it without compensation."

And while I am on this subject let me refer for a moment to the question of patronage. I have no sympathy whatever for the special interests nor do I believe that the public administration should be prostituted for party advantage. Merit should be the deciding factor in appointments, and that is the course I maintained in my own department.

However, ministers are to be held responsible for efficiency in their departments they should be able to select those with whom they surround themselves. Where co-operation and sympathetic assistance is essential, the human equation is the most important factor.

Responsible Government. "I would like also to make this observation upon ministerial responsibility. It has been said that the government does not propose to bring down measures to the house on its own behalf, but will leave to private members to introduce the bills and let the house decide upon them. From 1837 until 1854 Canada was governed by responsible government. Responsible government was achieved and both parties—Liberal and Conservative—since recognized the principle. Responsible government, which means a free parliament, was born out of the loins of British party government. It is the principle of responsible government in Ontario. The ministry which now directs the government will not permit a responsible government to be introduced. It is only under that system that legislation is efficient."

The view of the Liberal-Conservative party is that time and experience will satisfy even the followers of the present government that while every citizen of the community should and must have his representatives in parliament, no one case should be made to come before the council of the province.

Coming to the question of free trade and protection, Mr. Ferguson said: "The avowed purpose of the Farmers' movement is to accomplish such a revolution in the tariff as will bring about a return to the agricultural interests as well as to the industrial life of Canada. The recent action of the United Farmers of Alberta declared for free trade. So impatient was he to give aid and impetus to that movement that Premier Drury could scarcely wait until he was sworn into office to announce his unqualified and enthusiastic support of the Farmers' movement through Canada. The Toronto World

FOUNDED 1826. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited.

TUESDAY MORNING, FEB. 3.

The Need of an Observatory.

For many years the need of a good astronomical observatory in Toronto has been felt in many quarters. In the first place, a large number of the citizens are anxious to have the opportunity of actually seeing thru a large telescope the heavenly bodies.

Early in 1914 the society appointed a committee to consider the question of securing an observatory. In its report it outlined a plan to satisfy the above interests, and in which it was proposed that the city should provide a suitable site, the university should maintain the institution and allow the citizens access to it, and the society should place its library in the building and permit the public to use it.

On its practical side astronomy is simply indispensable, but it has ideal aspects, too. Indeed its great interest to the majority of people is thru its appeal to the imagination and its attempt to satisfy our thirst for knowledge about the universe, about us and our place in it.

The Female Franchise in Quebec. In the province of Quebec, while the women are eligible as voters under the federal statute, the fact that there is no provincial list in which they are included, disfranchises them.

The Montreal Women's Club, on the principle that God helps those who help themselves, has taken up the case, and is appealing to every member of the legislature in terms such as have been effective in Britain and other civilized countries.

If Ontario Copies Queensland. Labor in Queensland has reached the stage of white satin breeches, silver-buckled shoes and the plumed hat—only it wants neither breeches, buckles nor feathers.

Everything seems to have been done according to constitutional propriety. Governor Lennox's appointment is not the sort of thing the ancient stickers for use and wont expected. It is the final proof that London has become the subsidiary power in filling state offices in Australia.

Thirty-two years ago the Queensland governor died. The government

told London it ought to be consulted about his successor. "None of your business," London replied, and appointed Sir Henry Blake, Queensland's premier, to resign.

The Queensland example may yet become an example for this proud province. If it does and the Hamilton leader should be chosen, his change of chairs won't be a greater surprise than some of those to which the public is becoming better accustomed than the Prince Edward Island horses are to automobiles.

Progress in Palestine.

Reports from Palestine indicate that the British occupation is having the same effect as in other regions in introducing modern ideas of sanitation, transport and other development policies of up-to-date government.

The River Jordan has been spanned by new bridges and is to furnish water for an irrigation scheme. The arable plains of Moab only require this aid to blossom as the prophet foretold. It is possible that hydro-electric installations may yet be found on Jordan's banks, but as a source of irrigation it has a decided future.

Editor World: I noticed in one of yesterday's papers that some person has come forward, offering the use of his scheme whereby they are to make untold profits out of the garbage, and entering accordingly a protest against the sale of this garbage to a company formed for the purpose of manufacturing and placing in the homes of the citizens an efficient and economical fuel.

PANAMA INDIANS ATTACK SETTLEMENT

Chief Was Arrested on Charge of Burying His Grandson Alive.

Panama, Feb. 2.—San Blas Indians, in a sudden attack on Panama police and the residents of a rubber-gathering settlement at Porvenir, about 80 miles to the east of Colon, killed 17 persons and wounded many others, according to advices received here.

Reports from Porvenir say the raid was in retaliation for the arrest of San Blas Chief Quilo last November, on the charge of burying his grandson alive. Other advices declare hostility of the Indians to the establishment of a station at Porvenir under Panamanian rule, resentment against attempts to force the Indians to cease wearing nose rings, and the closing of a school conducted by an African woman missionary figured in causing the attack.

ELECT HEALTH CHAIRMAN.

Kitchener, Ont., Feb. 2.—(Special.)—At the inaugural meeting of the board of health here today John Schwartz was re-elected chairman by an unanimous vote. Mr. Schwartz was chairman last year.

in operation for a term of years," the announcement states, "the importance of divisive names and creeds and methods will pass more and more into the dim background of the past, and acquire, even in the particular denomination itself, a merely historical value, and the churches then will be ready for and will demand a more complete union."

ANSWER TO No. 99.

Morgan, Greens, Gates, Andre, Howe, Concord.

WORLD'S DAILY BRAIN TEST

By Sam Loyd. 10 Minutes to Answer This. No. 100.

I asked Bill Sykes if he wanted to work? "To earn money," I replied. "What's the use of earning money?" he said. "To save it up," I replied. "But what do I want to save money for?" he asked. "So that when you grow old you can rest," says I. "But I am growing old as fast as I wish now," says he, "and what's the use of working to rest when I can begin to rest now?" I failed to convince him. I got him to contract to just try for 30 days at 16 shillings a day, but stipulated that he would forfeit 20 shillings for every day he idled. At the end of the month neither owed the other anything, which convinced Bill of the folly of labor. Can you tell just how much work Bill accomplished?

TO DEFINE POWERS OF COMMERCE BOARD

Matter of Deciding Exact Jurisdiction Before Supreme Court Today.

Ottawa, Feb. 2.—(By Canadian Press).—At tomorrow's sitting of the supreme court, an application to have the case, which will result in the determination of the exact jurisdiction and powers of the board of commerce, tried during the February term of the court, will be made. Mr. E. F. Herritt of Code and Burrill, who are acting as agents for the board in the matter, will make the application, which is altogether likely to be granted. The case is therefore likely to be heard shortly. It seems likely that quite an array of counsel will be present when the argument actually takes place. The Crescent Creamery Co. of Winnipeg, which precipitated the action by refusing to obey certain orders of the board, will be represented by J. B. Huggs, K.C., of Winnipeg.

PEOPLE OF MONS TO TEND GRAVES

Form Association to Care for Burial Place of the Allied Soldiers.

Ottawa, Ont., Feb. 1.—(By Canadian Press).—Word has been received by the office of the overseas military forces of Canada from Mr. Gustave Casse, president of an association formed by the people of Mons to care for the graves of allied soldiers. The burgomaster and inhabitants of the 81 communes of the district of Mons are assisting the association. The aim is to allot one grave to a family to be cared for and beautified by that family. Further, the family must endeavor to get into communication with the next of kin of the deceased soldier and inform them that they are in charge of his grave, and if the next of kin propose to visit Belgium they will be the guests of the family in charge of the grave whilst there.

FLU IN CANADA NOT WIDESPREAD

Federal Health Department Issues Statement—Disease of Mild Character.

Ottawa, Feb. 2.—(By Canadian Press).—Reports from every province of Canada indicate that there is as yet no widespread epidemic of influenza. The federal department of health, which has been keeping in close touch with the situation for the past month, states that where cases have developed they are of a comparatively mild type, with few complications. The eastern provinces of Prince Edward Island, Nova Scotia and New Brunswick report no influenza within their boundaries. All of the eastern section of Quebec is also free, but 92 cases have been reported in the city of Montreal.

GALT CUSTOMS.

Galt, Ont., Feb. 2.—(Special.)—Customs collections at port of Galt for month of January amounted to \$1,314.41, an increase of \$2,794.44, compared with returns of January, 1919.

MOONLIGHT AND MONEY

BY MARION RUBINCAM

CAROL SAYS SHE'LL HELP.

CHAPTER 104.

"And you will come to my party? You've not been around for ages," Louise said into the telephone. "All right, I'll come with bells on," Murray promised. And next evening, true to his word, he appeared at the Driscoll mansion in his dress suit, looking unusually distinguished.

There was a large crowd. Butler knew most of them. Jerry was present, and Annabelle. They were openly engaged now, and Jerry was very proudly showing off his fiancée to all his friends. Annabelle had discarded her smock, and wore the most demure of debutante-style frocks, her bobbed hair giving her the appearance of an elfin child.

And Carol and Breck were there, too, and Mary, making eyes at the newest man to be introduced, and a dozen others, at least, with Mr. Driscoll looking very handsome and trying to join in with this young and frivolous-minded gathering, and seeming a trifle bored by the process.

"I like her in green—it makes her eyes such an odd color, even prettier than blue," Carol answered, holding out her hand in greeting to Butler. "Do talk to me a while. I'm old enough to feel horribly grandfatherly in this youthful crowd," Butler answered. "And you're such a kindly mortal, Mrs. Sprout, I know you'll be nice to me."

Carol gave him her most brilliant smile, and they sat together on one of the sofas. A dance was going on in the next room, and the two friends were almost alone in Mr. Driscoll's study. Carol, it appeared, did not want to dance. She watched her husband and Louise go off together, then sat back idly fanning herself, to talk to Murray.

"Bring Louise and Harry together to see each other," she said. "They have been apart long enough to have gotten an entirely new point of view on each other. Either the old hurt will have gone and they'll want each other, or else the old love will have gone."

"In which case they have to decide the next move—not us," Carol said, wisely. "But the best thing is to get them together, alone, so that they can talk everything over with each other."

"But is Harry doing well?" Butler asked. "I don't know, but if you'll have tea with me tomorrow, I'll introduce you to someone who can tell you," said Carol.

And with that Butler had to be satisfied, for the music stopped and Louise and Breck rejoined them, and a serious talk had to be abandoned. Tomorrow—The Other Lady.

FAKE PASSPORTS OF RED AGENTS

Traveling Between Berlin and Soviet Russia on Red Cross Trains.

London, Feb. 2.—Bolshevik agents entrusted with a sensational task regarding the sensational widespread Red plans, have been for a considerable time traveling between Berlin and Soviet Russia on false credentials, it is stated officially. They usually travel as American Red Cross delegates on the pretext of arranging for the exchange of German prisoners from Russia.

A number of the agents have been arrested in Lithuania. Two men on their way to Moscow via Berlin were found to have letters concealed in their neckties. One was a German, the other a Swiss Socialist.

The German carried a letter to Tschitcherine, soviet minister of foreign affairs, from the head of a Socialist organization in Germany emphasizing the communist sympathies of that body. Another letter described a system of forged American, French and German passports. The Swiss had a letter from the head of a Red Cross Society in Bern, asking for further supplies of Harz Gold.

The German courier, under examination, said that the German Independent Socialists would attack and overthrow the present government the moment they were assured of support from Lenin.

AIM TO REMOVE PULPWOOD EMBARGO

Presidential Commission to Negotiate With Canadian Government Proposed.

Washington, Feb. 2.—Appointment of a presidential commission to negotiate with the Canadian government and with several provincial governments for the withdrawal of various official orders preventing the exportation of pulpwood into the United States, was proposed in a resolution introduced today by Senator Underwood of Alabama. Should the commission be unable to arrange for the rescinding of the orders by mutual agreement, it would investigate and report to congress what further action should be taken.

The resolution said that the total exhaustion of pulpwood threatened in the United States had caused the extensive acquisition of crown lands, especially in Quebec, by American producers, prior to 1910, but that these resources had been kept in part unavailable by orders-in-council issued in 1910, forbidding the exportation of pulpwood. Rescinding of these orders, the resolution added, would relieve the shortage of print paper in the United States, and stabilize prices.

"A Man Doesn't Need a Woman's Help!"

Alice Fairbanks said this bitterly. For she had believed that her interest in David's ambition had encouraged him and helped him—until he allowed himself to be won away from her by a girl who took no interest whatever in his work.

Then Alice told herself that the man-nature was absolutely independent of the woman-nature. Little did she dream that, as she told herself these things, David was telling himself that his ambition was dead—dead because he had married the wrong girl.

Before the other girl had come between them, David and Alice had dreamed of running a farm together on scientific principles, and she had taken an eager interest in his agricultural studies which were to lead to the realization of this dream.

And then life had led them far apart, and yet had not taken the roots of that early ambition out of the man's heart any more than out of the woman's—so that it blossomed forth again, too late!

Yet sometimes life sees a way of smoothing out tangles even as great as this one. Does this happen? Find out by reading "The Girl Who Smiled Thru," which starts in this paper on Monday next, a week today.

Hockey Granites Don R.C. Curing Draw for Tankard Pacing World's Record

THE TANKARD RINKS START THIS MORNING

Sixteen Group Winners Are Playing Off in Four City Rinks.

One hundred and twenty-eight curlers representing sixteen group winners from all parts of Ontario and from Detroit meet today in the Ontario Tankard—emblematic of the curling championship of the province. The games are scheduled to commence at 9.30 this morning at the Granite, Victoria, Lakeview and High Park clubs.

The afternoon games start at 2.30. On Queen City ice tomorrow the semi-finals will take place and the final game at 2.30 in the afternoon. General Robert Rennie has been appointed official umpire of the semi-final and final games.

The competition for the Governor-General's Cup will start at 2.30 p.m. today. Owing to the illness of Secretary G. S. Peary, the big event is being handled by Thomas Rennie, with headquarters at the Granite Club, 819 Church street, North 82.

The following are the official umpires: At High Park Club, J. H. Bastedo, phone Parkdale 4599; at Lakeview, Charles Snow, College 4857; at Victoria, L. G. Munson, College 8400; at Granite, H. W. Lund, North 83; at Queen City, Gen. R. Rennie, North 2616.

For the convenience of curling enthusiasts, umpires have been requested to telephone the names of all players competing, and the results of games immediately matches are finished, to downtown headquarters, 130 East Adelaide street, Main 1028.

Immediately the draw was made last night, the committee arranged for rail-way stations to the various rinks at which the out-of-town clubs were drawn to play.

GOOD WORKOUT FOR JERRY'S HOPEFULS

Granites Swamped Dons and Perfected the Team-Play—Nineteen Goals.

Granites got a good chance to perfect their team play last night. The Church street club took on Dons in a senior game. The result was a foregone conclusion and the Granites concentrated all their attention to passing the puck with men checking them. The unselfish staff gave the sixteen goals that Granites amassed will testify. The net-keepers were able to get three into the net.

Addison was an absentee and Mitchell was between the posts for Jerry Laflamme's club. Corky Fowler was back in harness and the former western star turned in a nice trick. Alder Watson and Rommell worked smoothly together, breaking the Dons' passing. Another judgment when they got in close. It was the kind of work that the Granites need to carry them thru the stiff milking that is ahead of them.

Laflamme and Fox started as the defencemen for the Granites. Fowler took a whirl and finally Jerry moved up front and Peck Wright dropped back. It was a case of trying the possibilities and it is always best to know just what the boys can do.

Wright was the best for Dons. He worked like a beaver all night, carried the puck nicely and knew what to do with it. The rest of the bunch worked hard and the lack of experience was their biggest handicap.

It stood 7 to 1 at the end of the first period. At the second rest it was 9 to 3 and the final 16 to 3.

Granites: Goal, Mitchell; defence, Laflamme, Fox, centre, Watson; right, Rommell; left, Alder; sub, Fowler. Dons: Goal, Smith; defence, Trotter, Riddell; centre, McInnes; right, Refere, Lou Marsh.

AUSTRALIAN FIGHT CHAMPIONS ARRIVE

San Francisco, Cal., Feb. 2.—Tom Andrews, Milwaukee fight promoter, accompanied by Lou Edwards, light eight champion of Australia, and Chet Higgins, the Australian heavy-weight champion, arrived here today from the antipodes. According to Andrews, Edwards has bouts scheduled with Johnny Dundee, Mitchell and Johnnie New, Milwaukee, and will go to London in March to fight before the National Sporting Club.

NEW UNSHACKLING RULE IS RESCINDED

Offensive Harness Horse Rules Repealed and There Will Be No Split.

New York, Feb. 2.—By repealing the offensive rules which caused dissension in the light harness racing world last month the board of review of the National Trotting Association, meeting Saturday at Canton, Ohio, ended the contest between the racing and the breeding associations which threatened to split the sport wide open.

The new unshackling rule, which permitted horses which had lost maintained their records for two years to go into a lower speed class, which caused most of the trouble, was rescinded. Another rule which gave a time allowance of one second a year, with a maximum of three years, to horses which did not lower their record in a season, was amended to give two seconds each year.

An objection to the latter change is to restore to active service on the tracks many horses which have not equalled or bettered their records for several years, thus increasing the supply of racing material for hundreds of mile and half-mile tracks.

PROS TOMORROW

After Ottawa rubbed it into the Canadians last Saturday night for the championship of the first series, local fans did not feel so badly that St. Patricks did not make a better showing in the second round. The seniors are intent on taking the opener of the second series over Kennedy's red-shirted brigade.

It stood 4 to 1 at the end of the first period. At the second rest it was 6 to 3 and the final 16 to 3.

Granites: Goal, Mitchell; defence, Laflamme, Fox, centre, Watson; right, Rommell; left, Alder; sub, Fowler. Dons: Goal, Smith; defence, Trotter, Riddell; centre, McInnes; right, Refere, Lou Marsh.

SAINTS SCARED THE CHAMPIONS

For forty-five minutes the U.S.-St. Andrews prep college game was slow and uninteresting yesterday afternoon. The finish was lively enough to raise the spirits of the spectators. The game was broken up by the referee's decision to stop play for a few minutes to allow the players to rest. The game was resumed with the same result.

GLEASON EXPECTS TO SIGN ALL WHITE SOX

Chicago, Feb. 2.—Manager Kid Gleason of the Chicago Americans today began the task of lining up the players for the 1920 season. He is expected to sign a number of players from the American Association today. Pitcher Dumont, Catcher McNeil and Outfielder Without go to Toledo for a cash consideration and an option on a member of the Toledo team.

CANOE CLUB MEET SHELburne NEXT

An important game in the intermediate O.H.A. series will be played tonight at the Arena, when Milton and Burlington will play a sudden-death game for the championship of Group No. 6. The teams were tied in goals scored in four games, and the saw-off. Both clubs will run special trains to Toronto, and local fans will have their first opportunity of seeing an O.H.A. intermediate game.

WIN MEANT MONEY FOR THE OTTAWA PLAYERS

Ottawa, Feb. 2.—When the Ottawa hockey team came thru with a victory over Canadians Saturday night and won the championship of the first half in the N.E.L., it did the exchequer of the club a wallop. Each member of the Ottawa Club, from Manager Green down to Eddy Boland, their youthful mascot, received a bonus for winning the first half honors. The game meant a handsome surplus to each contract, so it was not surprising that the Senators put up such brilliant hockey.

LEGAL BOMBS BOMBARD BAN

New York, Feb. 2.—Ban Johnson, president of the American League, was placed under fire today by legal speaking, with a vengeance. Three suits, one for half a million dollars damages, were sprung on Ban by the New York American League Club. Writs were served today.

CANADA'S ANSWER TO UNITED STATES UNEQUIVOCAL "NO"

Rowell Emphatic Regarding Dominion's Place in League of Nations.

RIGHTS AT STAKE

Ottawa, Feb. 2.—(By Canadian Press).—Addressing the Association of Canadian Building and Construction industries at the Chateau Laurier today, on "The Labor Clauses of the Peace Treaty and the Washington Conference," Hon. N. W. Rowell, president of the privy council, upheld the action of the government delegates in approving the convention relating to the 8-hour day and the 48-hour week. These, he said, were the standards set forth in the peace treaty, and because the United States had not taken any action was no reason why Canada, whose delegates had fought for a voice in international matters, should sit back and wait for a lead from the United States. Canada could not have refused to accept this without becoming the first nation to repudiate her obligations under the treaty of peace.

Mr. Rowell said no other nation disputed Canada's right to a voice in the league of nations except the United States, and he did not believe that the people of the United States would put themselves in the position of being first to object.

Only Possible Reply. Referring to the troubles over the treaty in the United States at present, Mr. Rowell said: "Stripped of all its diplomatic verbiage, the question which we face is, shall the dominions be denied distinctive voting rights in the league in order that one of the many objections urged by some of the United States senate to the ratification of the treaty be removed? To that question there is only one possible reply, and that is, a dignified but unequivocal, "No!"

Mr. Rowell dealt with the efforts made to give votes in the league to Panama, Uruguay and other South American nations and yet exclude Canada. While Canada was now a nation of less than nine million people, she was potentially a nation of 30 to 40 millions. Canada did not hesitate at the cost when the war broke out, and according to the impartial testimony of General Ludendorff, the Canadian and Australian troops on August 8, 1918, in front of Amiens, gave the German army the darkest day of the war, and with the Canadians as the spearhead of the attack they started the movement which culminated in the overthrow of the German forces.

Canada's Part in the War. In conclusion Mr. Rowell said: "One desires to avoid comparisons, but it is a simple statement of fact to say that in the effort to establish world peace more Canadians fell in battle or died of wounds than soldiers of the United States."

"Canada asked and Canada received no favors at Paris; she sought only justice and fair play, and these have been cheerfully accorded to her by the nations which have ratified the treaty. And I believe that Canada will yet receive the same recognition at the hands of her neighbors to the south."

WILL NOT SUPPORT HAPSBURG DYNASTY

Allies Deny Rumors and Hold Act Would Be at Variance With Treaty.

Paris, Feb. 2.—Formal denial of rumors that the allies would promote or recognize the restoration of the Hapsburg dynasty in Hungary was issued by the council of ambassadors this afternoon. The statement said such a restoration would be in direct variance with the principles of the peace settlement.

The text of the denial follows: "The principal allied powers feel called upon to give most formal denial of misleading rumors that have been circulated, to the effect that restoration of the Hapsburg dynasty would be promoted or recognized by them. The principal allied powers, with such restoration of a dynasty which to its subjects represented a system of coercion and domination, in alliance with Germany over other states, would not be consistent either with the principles for which this war has been fought, or with the results of the liberation of subject peoples which have been achieved."

"While it is the intention, nor can it be considered the duty of the principal allied powers to interfere in the internal affairs of Hungary, or dictate to the Hungarian people any sort of government and constitution they may think fit to adopt for themselves, the powers cannot admit that restoration of the Hapsburg dynasty can be considered merely as a matter interesting the Hungarian nation, and hereby declare that such restoration would be at variance with the whole of the peace settlement, and would be neither recognized nor tolerated by them."

Premier Millerand, chairman of the council of ambassadors, today explained to the council the situation with regard to coal duty from Germany but not yet delivered. The council authorized the Austrian ministers of finance and revictualing to come to Paris to explain again Austria's economic situation.

ARGENTINE STRIKERS BUSY WITH BOMBS

Buenos Aires, Feb. 2.—Despatches from Tucuman, northwest Argentina, report the explosion near there of a train of three dynamite-laden cars on the Central and North Argentina Railway, partially wrecking two coaches and injuring a number of railway workers and a soldier. In Belgrano, a suburb of Buenos Aires, a bomb, believed by the police to have been placed by striking building workers, had damaged the home of a building contractor early this morning.

MAY ELECTRIFY C.P.R. IN MOUNTAINS

President Beatty Makes Statement Following Trip to the West.

Winnipeg, Feb. 2.—The electrification of certain railway lines, especially in the mountains, is a practical possibility of the near future, E. W. Beatty, president of the Canadian Pacific Railway, stated today upon his return from an inspection of western lines. The question of electrifying part of the system passing thru the Rockies has been discussed by the Canadian Pacific Railway officials, the no action toward that end has yet been taken. Mr. Beatty said that an increase of freight rates on the Canadian Pacific is entirely dependent on the action of American railways. He believes, however, that if labor and other industrial factors which govern freight rates, continue as at present, there is no doubt but that the Canadian Pacific and other lines will be compelled to apply for an increase.

FIRST VESSEL FROM GERMANY

New York, Feb. 2.—The first passenger ship to sail from a German port to the United States since July, 1914, reached here today when the American Line steamer Manchuria docked. The vessel brought no German passengers, owing to passport regulations and travel restrictions. Applications for passage at Hamburg were numerous. The Manchuria brought from Germany 200 bags of mail and much cargo, including photographs.

DEFENDER OF "KUT" DEFENDS HIMSELF

London, Feb. 2.—Major-General Charles Townshend, the defender of Kut-el-Amara, who recently tendered his resignation to the war office, declared, in answering critics who claim that he showed lack of resolution in not attempting to fight his way out, that he refrained from such a heroic sortie because he had positive orders from General Sir John Nicol, the Mesopotamia commander-in-chief, not to make such a move. The fact that his small force was surrounded on three sides by the 1500 foot wide Tigris, with a network of flooded trenches blocking the other exits, General Townshend declared, rendered the cutting out project a mad undertaking.

CANADIAN FUNDS AT BIG DISCOUNT

Premium of Twelve Per Cent. Means Dollar Falls to Eighty-Eight Cents.

Ottawa, Feb. 2.—Advices show that Canadian funds are still at a discount of twelve per cent. in New York. This means that the Canadian dollar has fallen in value to 88 cents. A premium of 12 per cent. is being charged here on express orders to the United States. Although the situation is under the close observation of the government, doubt is expressed if anything which could be done by the Dominion would be of much avail. Canadian gold reserves, it is felt, should not be depleted still further. Indeed it is questioned whether, if all the gold available were shipped to New York, the situation would be materially changed. The decline in Canadian exchange, it is pointed out, corresponds with the decline in sterling exchange, and pending an improvement in rates on sterling, there is, apparently, little hope of the Canadian dollar approaching par in New York. More export trade on a cash basis is regarded in official circles as the only way out of the difficulty.

MEIGHEN DISCUSSES CANADA'S RAILWAYS

Says Nationalization of All Lines Possibility in the Future.

Montreal, Feb. 2.—(By Canadian Press).—Speaking at the 17th annual dinner of the Canadian Railway Club here on Saturday, Hon. Arthur Meighen, minister of the interior, said, in reference to nationalization of railways: "I believe that after the lapse of years the railways running today under various ownerships, and always becoming fewer, may mature into one great organization, more or less the property and responsibility of the state." The minister disclaimed any intention of bringing another single mile of road under the ownership and operation of the state, but stated, "we have reached a stage where the march of events, and the stern hand of necessity compelled us to take the position and responsibility we had assumed, and the same march of events in the future might lead to further assumption of responsibility."

AN IRISH POET AT HART HOUSE

William Butler Yeats Lectures on "The Theatre of the People."

William Butler Yeats, the Irish poet, mystic and dramatist, lectured last night in Hart House on "The Theatre of the People." Mr. Yeats speaks with more confidence than he did ten years ago. He was amusing, as well as instructive, and his revelation of the artistic mind with its broad tolerance of everything that God permits to exist lent no color to the picture. He pointed out that it has been sought to attach to his descriptions of Irish life and opinion. Like the dramatist Synge, he might be described in his own words as incapable of a political thought, but capable of thinking all the thoughts most inconvenient to a politician. At the close of his lecture he declared that his own taste leaned towards a very small theatre, where no more than 50 could be seated, and he would prefer a hostess of the party to a manager. There would be no make-up for the actors, but masks, and no special lighting. Tragic feeling was not expressed by facial movements but in the movements of the whole body. Answering questions, he declared Gordon Craig was a great genius, and his own play, "Where There is Nothing," a boyish absurdity.

Something different from the ordinary popular theatre, he thought, was the theatre of the people, about which he desired to speak. In the little theatre in Abbey street he saw classes in the country from the governor-general's household—he could not come himself—down to the messenger boys on the street. The plays presented to the usual audience represented only one kind of life, that of the educated class. In the drawing-rooms of one's country, differed very little from those of other countries, and in Ireland they had decided they had had enough of that kind of play, and they had drawn on the peasant class, the tradesman class, every class of society, with the result that all classes were interested in them.

Another point was that the whole of literature was devoted to the glorification of the rich. In two novels he read all whose incomes were under \$500 a year were turned into fairs, and every one with an income under \$1,000 was made the subject of comedy. He had no doubt that in other countries as in Ireland, where the whole of the population was drawn upon for playwrights, for actors, for subjects, the theatre operated on these lines would succeed. He said that when he received a play in the handwriting of a university man he felt discouraged as he felt sure it would convey a second-hand view of life. The theatre in Abbey street was not the kind of theatre Lady Gregory and he had started out to establish twenty years ago. They had hoped to found a poetical theatre after the tradition of tradition, full of romance and tragic beauty, but it had followed another path.

The Irish people had imagination, and he read an Irish ballad in translation, in illustration of what he meant. The simplicity and manner of it indicated that, with such a spirit, a miracle might happen at any time, he said.

The art of the country was subjective of the city, objective of the city, the grim and serious Scotland was born the poet of liquor and the devil as a medicine for the national need, and in Ireland, where political distinction and propaganda were sought, was born Synge, incapable of politics, equally necessary as a medicine for the nation.

ARTHUR PEPLER TO RETIRE FROM BANK

Arthur Pepler, the assistant to the general manager of the Dominion Bank, will retire permanently from banking in a few days. Mr. Pepler has one of the longest, as well as one of the best, records of service in the history of the Dominion Bank, having been continuously connected with the bank for 29 years, and serving in every capacity from a junior to his present position.

From a London office he came to Toronto in 1891, and immediately took up banking, starting in the King and Yonge branch of the Dominion Bank. The capital of the Dominion Bank was then less than one million, and had only a few branches in larger centres.

"Literally, I grew up with the bank," said Mr. Pepler to the World yesterday. "I have watched it grow, and have seen branches open up farther and farther afield, until it reached its present prosperous position."

Mr. Pepler expects to travel, first to the West Indies, where he will go in about two weeks, and then to England. Ultimately he hopes to travel around the world, and at the end of the trip to make his home in England.

GIRL CAUGHT IN FAN BELT

Enid Elliott, aged 19 years, was admitted to the General Hospital yesterday morning in a critical condition, the result of being caught in a fan belt. The girl's leg was so badly crushed that it was necessary to amputate below the knee. Her other leg and arm were fractured, and at midnight her condition was serious. The girl's address could not be ascertained from the hospital. A card on Miss Elliott gave the address of the Brown Rolling Mills, New Toronto.

Flu Claims Two Victims In the City of Kitchener

Kitchener, Feb. 2.—(Special)—The "flu" has claimed two victims in this city in the death of John Crummer, aged 22, and George McLeod, aged 81, who developed pneumonia shortly after being stricken with the disease. Their deaths occurred within two hours of each other at the Kitchener and Waterloo Hospital here. The health department here maintains that the disease has not reached the epidemic stage.

Miss Catherine Walden Merritt, who has been at her house in St. Catharines since Christmas, has returned to Ottawa for a short time.

Mr. and Mrs. George H. Wilson, Auckland, New Zealand, have arrived at the King Edward.

WOMEN LIBERALS MEET AT LUNCH

Social Service Workers Discuss Problems Vital to Women.

In the interests of the social service work of the Women's Liberal Club, a great gathering assembled at luncheon at the King Edward Hotel yesterday, at the Pompeian room being filled to overflowing, and women representatives from many of Toronto's organizations being guests at the head table. A number of men were also present. Mrs. Bundy, president of the club, was in the chair, and the toast of "The King" was proposed by Mrs. J. A. Macdonald. The guests were welcomed by Mrs. Bundy and toasted by Mrs. Blewett and Miss Church, the secretary, in the course of her remarks paying tribute to the patriotic work of the Liberal Women's Club during the war.

What was being done along the lines of social service was told by Mrs. Howard Stowe, who, in the course of her address, made a plea for a woman on the juvenile court. She also touched on the "dance hall" problem, and said that the "fall" was a monument to indifference and cruelty. Work in sewing for those in need and effort along the line of a medical health bill before marriage, together with the statement that six families were receiving mothers' pensions from the club, were all related as part of the work of the social service section of the organization.

Immigration of Women. Lady Falconer told of a conference called by the government at Ottawa relative to the immigration of women, the result being that it was thought advisable at present to encourage only the immigration from the old country of women for household work, or who were ready to take up land as owners.

The immigration was to be subject to examination at the ports of leaving and entry, and the women on board to have the protection of a woman secretary. The conference evolved the Canadian Council of Immigration of Women for Household

Service, and under this hostels will be equipped where already existing, and erected in centres where such are not to be found. The committee will likewise see to placing of the new-comers. Lady Falconer hoped that other benefits, such as standardization of household efficiency, would be established; also wages, time of work, and a spirit of co-operation between employers and employees, the thing to be aimed at not only to get capable girls for household work in Canada, but to make conditions such that the girls would be glad to remain.

Mrs. Willoughby Cummings told of the domestic problem as one that had been amongst the first taken up by the National Council of Women.

Mr. R. B. Bennett is in town from Calgary at the King Edward.

The marriage took place at St. Margaret's, Westminster, recently of Miss Desirée Ellinger, who is playing the leading part in Sylvia's Levee, to Mr. Michel de Roussy de Sales, C.O. of the Legion of Honor, Croix de Guerre de 1914-18, son of the Marquis and Marchioness de Roussy de Sales, Paris and Calgary. Count de Sales is a brother of Mrs. Arthur Kitson, Montreal.

The bride wore a gown of white tulle covered with silver, and her train was fastened with a circle of orange blossoms, with two lines of the same crossing at the waist and front and from ear to ear. The train was carried by a little girl and boy, followed by a pink net, and the bride was accompanied by a circle of bridesmaids, who were dressed in white tulle with a pink net, and the groom in a white tulle suit. Amongst those present were Lord and Lady Inverforth, Mrs. Nevada, Baroness D'Erlander and her daughter, and Mr. and Mrs. Nigel Playfair. Miss Ellinger, who is the youngest daughter of Mr. and Mrs. Ellinger, Manchester, has played important parts at Drury Lane and Covent Garden.

The reception and dance held by the Ontario College of Pharmacy at the Metropolitan last night was an unprecedented success, so many novel features were in evidence. All the arrangements were successfully carried out by the chairman of the dance committee, Mr. A. J. Dickson, and his able assistants. Those receiving were: Mrs. Charles Hoshner, wife of the late Mr. Hoshner, Mrs. William Graham and Mrs. Paul L. Scott. Mrs. Evans being unable to be present on the lucky letters (O. C. P.) were Lord and Lady Inverforth, Mrs. Nevada, Baroness D'Erlander and her daughter, and Mr. and Mrs. Nigel Playfair.

A Dress Suit and a Shave Won't Do It

To be at your best, you must feel at your best. The man that is magnetic, popular, successful—is the one who radiates vigor and health. Nothing pulls a man down more surely—more insidiously—than constipation. The poisons arising from the decaying intestinal matter take the color out of your face and the "pep" from your stride. Keep clean—inside as well as out.

By an entirely new principle Nujol will keep the poisonous waste moving out of the body. Every other form of treatment either irritates or forces the system. Nujol works on the waste matter instead of on the system.

Nujol prevents constipation by keeping the food waste soft, thus helping Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

It is absolutely harmless and pleasant to take—try it.

Nujol is sold by all druggists in sealed bottles only-bearing Nujol trade-mark. Write Nujol Laboratories, Standard Oil Co. (New Jersey), 50 Broadway, New York, for booklet "Thirty Feet of Danger."

A New Method of treating an Old Complaint

PTE. J. S. BURK WANTED.
Patrick Burk of 263 Townsend street, Peterboro, writes the chief of police, Toronto, asking that some effort be made to locate his son, Pte. J. S. Burk, No. 6449, who enlisted with the C.A.M.C. and was discharged in 1918. His mother is sick and has heard no word from him since he left France.

ONE BRANCH A WEEK
J. H. Flynn, Dominion president of the United Veterans League, stated last night at the regular meeting of the Riverdale branch, that the new organization was becoming a power throughout the country and rapidly making progress. To create at least one branch of the league a week was the new slogan, he said. A ladies' auxiliary in connection with the Riverdale branch was formed, with Mrs. Weigh as the president.

TO AID MEMORIALS.
St. Catharines, Ont., Feb. 2.—Lancolin county council will erect no county memorial, but will make grants averaging \$200, to various municipalities in the county which are erecting memorials to fallen soldiers.

St. John—Wrapping of bread went into effect here yesterday by provincial law and the price went up one cent. It is now 14 cents from bakeries for a pound and a half loaf.

Mothers! Use More Milk

A Vital Protection Against Winter Ills

THIS is one time of the year when you should take extra care to see that your family is properly nourished. The right kind of food is essential to ward off colds, chills, influenza and all other winter ills.

It is vital to the health of everyone that you use more milk—even if you must cut down on other foods.

Milk from the Farmers' Dairy is the most nourishing of all foods—rich in protein, fat, carbohydrates—in all the elements the body requires.

It is the only food known to contain "vitamines"—an element without which your children cannot grow, nor can adults have perfect health.

And—note this especially—it is the cheapest of all foods. One quart of this fresh, creamy milk contains as much digestible food as eight eggs, or three-quarters of a pound of beefsteak, or a pound and a half of fish!

Doctors, health authorities and food specialists all agree that every person needs at least a quart a day—as a beverage, and in puddings, sauces, soups, creamed vegetables.

Double your regular milk order to-day! You'll note the change quickly—in rosy cheeks, bright eyes and clear complexions!

Extra Special Offering of Used Cars for Quick Sale at the Following Sacrifice Prices

CHEVROLET 4.90, new winter top, engine overhauled and car newly painted, for quick sale \$850; this car must be seen to be appreciated.

COLE SLIGHT 1917, this car is in excellent condition throughout, three new tires and winter engine cover, positively must be sold at once, make us an offer.

JACKSON COUPE, three-passenger, overhauled and repainted, stream-line hood, starter and lights, just the car for these cold days, will sacrifice at \$850.

BRISCOE DEMONSTRATOR, 5-passenger touring, practically as good as a new car, \$1,200; remember, these cars have now advanced one hundred dollars, and are selling at \$1,385.

PACKARD, seven-passenger, electric lights, engine overhauled, car repainted, this was the exception, and the car in these cases were rather above the average.

HUDSON SIX, five wire wheels, seven-passenger, starter and lights, excellent condition throughout, would make a good delivery car, \$1,100.

STUDEBAKER, seven-passenger, lights and starter; also in excellent condition, \$1,100.

WE WISH to remind intending purchasers that the prices of all makes of cars have now advanced, which will, of course, enhance the value of used cars. In view of this and the approach of spring, when a shortage of cars is predicted, should be a very good reason for buying now at these extremely low figures.

BRISCOE COUPE, run-in city for two months, new price \$1,740, will sell for \$1,540, owner buying larger car.

CATTLE MARKET HELD ITS OWN

A Good Many Held Over at Close—Calves Weaker.

With around 2100 cattle on sale at the Union Stock Yards yesterday, the general tone of the market was inclined to be weak, the market barely holding its own with the close of last week. But the close of last week's market, it will be remembered, was considerably stronger than its opening, so that by comparison yesterday's trading was probably 25 up over a week ago. But at that time, as noted, was not heavy, it is estimated that probably anywhere from 500 to 1000 cattle were left over at the close at four o'clock. Some of the commission houses report a good clean-up at stronger prices, but this was the exception, and the cattle in these cases were rather above the average.

There is no doubt that, with a heavy run, yesterday's prices would have shown a more marked decline, and the outlook is not any too bright for the balance of the week. There is altogether too much skimping of feed on the part of the

farmer, and this is just so much loss to the country. There was a fair demand for good butcher cows and breeder stockers and feeders, while the better class of milkers and springers are selling all right.

With a light run of sheep and lambs, the market held steady for these classes, but salesmen are complaining of too great a disparity between the sheep and lamb prices, and claim that sheep relatively are altogether too low.

The calf market was decidedly weaker and showed a decline of anywhere from \$1 to \$2 per cwt. With a light run of hogs, the prevailing price was from 18 1/2 to 19 1/2 f.o.b., and 19 1/2 to 19 3/4 fed and watered. The packer buyers are trying to bid under these prices, but it hardly looks as tho they would succeed.

MARKET NOTES.

Sidney Hood's Death. On the Union Stock Yards Exchange yesterday the announcement of the death of Sidney Hood, live stock editor of The Globe, which took place at his residence on Eglington avenue on Saturday, was everywhere received with profound sorrow. During his short career in the position, Mr. Hood, by his unfailing courtesy and attention to his duties, had endeared himself to every man on the exchange, and by his associations on all the other papers he was held in the highest possible esteem. Mr. Hood's death took place from influenza and pneumonia. The circumstances attending his death are doubly sad in view of the fact that Mrs. Hood is herself in a critical condition. Interment took place in Mount Pleasant Cemetery yesterday afternoon.

TRADING DULL IN MINING MARKET

McIntyre and La Rose Two Firm Features—Crown Reserve is Easier. Mining stocks were somewhat lacking in animation yesterday, and the trend was rather irregular.

NEW YORK FEB. 2.—Fresh demoralization in foreign exchange call money rising to 16 per cent, and time money still unobtainable at an advance of the bid to 3 and even 10 per cent, accounted mainly for today's very listless stock market.

PRICE OF SILVER. London, Feb. 2.—Bar silver, 13 1/2 higher at 8 1/2 per ounce. New York, Feb. 2.—Bar silver, 13 1/2 higher at 13 1/2.

GENERAL TREND IN MONTREAL MARKET TOWARD LOWER LEVELS—FORGINGS ACTIVE. Montreal, Feb. 2.—The most active listed stock, and the only one in the thousand-share class in today's trading, was Atlantic Sugar, which continued to show signs of liquidation without much buying power.

NEW YORK CURB. New York, Feb. 2.—In spite of a climbing call money rate which closed at 18 per cent, the market held about the same as the opening with very narrow swings between midday trading.

TREND LOWER IN TORONTO MARKET

General Electric and Atlantic Sugar Heavy—Upturn in Canada Bread. The trend in the Toronto market yesterday was toward somewhat lower levels, but there were several noticeable exceptions.

Revival of demand for Canada Bread appeared to have its origin in a feeling that there might be a further advance in the price of bread following the action of the Dominion wheat board in raising prices on soft wheat flour.

To the Man in Overalls

We Would Suggest That Our Stock Contains
Best Garments at Lowest Prices

You spend most of your time out of doors. Your work is sometimes dusty, rough or muddy. At times there is a severe strain put on your clothes. Splashes of paint fly about, or mud or acid. A shower of sparks sizzles about your legs. Grease is occasionally smeared across your jacket. The question is, do your overalls protect you?

Reliable Material

Are they strong, well-sewn and durable, impervious to grease and acid, and offering real resistance to the daily strains set upon them? Simpson's Men's Clothing Department makes a specialty of outfitting men to suit their work. Our overall brands are reliable. The farmer, the engine driver, the artisan, mechanic, chemist, and all whose work is damaging to clothing will find a protective equipment here to meet their needs.

Keeps Men Home
o' Nights

The feminine aversion to Men's Clubs, which is so frequently and humorously caricatured in the case of "Mr. Jiggs" does not apply to all Clubs. There is one to which every woman should be glad to see her husband belong. In fact, she can join it herself. It extends equal advantages to both. Joining it, home grows more beautiful from month to month. The pieces of furniture you have long desired just naturally take their places in the various rooms. It sounds paradoxical, but the "clubbier" one grows the more one loves his home.

The Home-Lovers' Club invites your membership. Through it you can secure furniture and home furnishings by deferred payments. It represents part of the Simpson Service idea of providing conveniences for patrons. The housekeeper with ease can fashion a home so attractive that it will bind a man to his own fireside. It will keep him home o' nights.

Rugs From Asia Minor

Including First Shipments of Anatolians
Since the War

Magnificent Anatolian Rugs, almost unknown in Canada for several years, but now unbaled and lighting up the Fourth Floor with their rich colored effects. It is an artistic experience like an academy view to examine these lustrous, thick-piled products. They are woven in Angora wool of the finest rug quality known, and the finish and designs represent the best workmanship of the Orient.

Large medallions, set like jewels, in the 16th Century Ispahan style, and the smaller Saraband and Feheran designs with backgrounds of Persian red, blue, rose, and other colors.

Sizes 6' x 9' to 10' x 12'. Priced from \$250.00 to \$550.00.

A Chinese Specialty

Chinese Rugs are a specialty in our department. The weave differs from other types in emphasizing the "weft" and subordinating the "warp," and this is worked out wonderfully in delicate pale blue grounds, with rampant brown dragons or gold yellows that would cheer any room immensely.

Sizes 2' x 4' to 12' x 9'. Priced from \$25.00 to \$550.00.

The Akbar, named after a celebrated ruler of ancient India, is replete in bright, attractive colors and designs, particularly suited to present-day decorative schemes.

Sizes 27" x 54" to 12' x 10'. Priced from \$28.00 to \$225.00.

Simpson's—Fourth Floor.

To Shop in Comfort

One should have a pleasant, restful little break in the midst of buying activities. There is no happier place in the City for such an interval than the Palm Room. You will be pleased with the daintiness of the service and the choiceness of the food. Breakfast—Dinner—Tea.

Jack Frost Tests Boys' Clothing

But Simpson's Clothing is Made to Stand Tests

Jack Frost may be a good friend to the small boy, but he is not one to their clothes. The slide tests them for hard wear, the rink for give-and-take qualities, and the nipping winds and frost try out the heat-retaining nature of the fabrics. But Simpson clothes were constructed with a view to defying Jack Frost. They represent maximum service and satisfaction.

Our stock contains a variety, enabling mothers to obtain boys' clothes for all occasions, playtime, school or social function.
