

THE CASE IS NOW COMPLETE AGAINST BOSTON MURDERER

Charles Jordan Pleads Not Guilty of the Murder of His Wife—The Defence Will Try to Prove Insanity to Save His Neck.

Boston, Sept. 4.—But four points in connection with the most horrible and gruesome murder in the annals of crime in greater Boston, that of Mrs. Honora Jordan, an actress, known on the stage as Irene Shannon, by her husband, Charles S. Jordan, remained to be cleared up by the police today, although the severed portions of the woman's body were recovered only last night. The confession of the husband to the police, following his arrest after the accidental discovery of the mutilated torso of his wife in a trunk which he caused to be placed in a room at 7 Hancock street this city, was believed to be a substantial recital of the incidents of the brutal crime, but several minor details of his confession conflicted with each other and his story was unconvincing in parts. At a result of his examination by the police at the headquarters in this city last night, he disclosed all the apparently important facts in connection with the murder and gave the information which led to the discovery of the thigh and scalped head of the murdered woman, the only parts not contained in the trunk at his home at 509 Medford street, Somerville.

ENDS ENGAGEMENT BY MEANS OF AN "AD"

"I Have the Pleasure to Announce" Says Brooklyn Groom.

Woonsocket, R. I., Sept. 3.—"Mr. William Greenfield of Brooklyn, N. Y., has the pleasure to announce that his engagement with Miss Gertrude Rosenfield, of Woonsocket, R. I., is broken." This advertisement, which appeared in a local paper this afternoon, has brought out the story of the courtship, engagement, falling out and consequent making up of 17-year-old Gertrude Rosenfield of Woonsocket and 25-year-old William Greenfield of Brooklyn. She, according to her late aunt today, supposed that everything had been righted and that Cupid's ship was sailing smoothly along the sea of love until she read the advertisement in the paper.

WELCOME FOR LAURIER AT NIAGARA FALLS, ONT.

Toronto, Ont., Sept. 4. (Special).—At the opening meeting of his Ontario tour at Niagara Falls on September 16th, Sir Wilfrid Laurier will be greeted by a group of speakers. Those will include Hon. G. P. Graham, W. M. German, M.P., for Welland, W. D. Woodruff, Liberal candidate for Lincoln, Adam Himel, M.P., for Hamilton and W. H. O'Seely. Nine bands have been engaged to take part in the procession.

PLAN TO TELEPHONE ACROSS THE OCEAN IS NOT PRACTICAL

Experiments in Talking From New York to Paris Have Not Been Successful

Paris, Sept. 3.—The public imagination here has been stirred to activity by the news cabled from New York that arrangements are being completed to establish wireless telephonic communication between a station on the roof of the Metropolitan building in New York and the military station on the Eiffel tower in Paris. All Paris is enthusiastic to see the day when New York will be brought to speak into Paris, when the familiar "Hello" will open conversation between a broker speculating in Wall street and his wife comfortably installed in the Ritz Hotel here. Telegraphic experts, however, are not quite so sanguine. Mr. Roger, one of the leading electrical engineers here, says cautiously that he is quite ready to believe attempts to converse by wireless telephony between New York and Paris may be made, but he has great difficulty in believing them likely to be successful for some time to come. "I know," he added, "of an instrument with which Mr. De Forest made experiments last April between the Eiffel tower and several suburban stations. His telephone only just succeeded in establishing communication with Medun, some forty-five kilometers from the Eiffel tower. Before admitting the possibility of wireless telephony between Paris

DEPUTY RECEIVER GENERAL GETS LONG SERVICE ORDER

Geo. N. Babbitt Received Honor This Morning at Lieutenant Governor's Hands—Forty-Eight Years in Office.

Fredericton, N. B., Sept. 4. (Special).—The Royal Warrant and insignia of the Civil Service Order were presented to Deputy Receiver General George N. Babbitt by Lt. Governor Tweedie this morning. The presentation took place in the executive council chamber in the presence of members of the government and departmental officials. His Honor, in making the presentation, referred to Mr. Babbitt's long service of forty-eight years under different governments, and declared that he had never heard of an unkind word spoken against him as an official or concerning his private character. He had had the pleasure of bringing Mr. Babbitt's name to the notice of Earl Grey last summer and it was pleasing to him that his recommendation had been acted upon. He warmly congratulated Mr. Babbitt and hoped he would long be spared to serve the province and wear the insignia of the imperial service order. Messrs. Hazen, Fleming and Grimmer spoke briefly, paying a warm tribute to Mr. Babbitt's worth as an official and warmly congratulating him. Mr. Babbitt returned thanks in a brief speech. William Hanson, of Durham Bridge, was the victim of a distressing accident yesterday afternoon. He had just completed the equipping of a new law mill, and while working around one of the saws his left arm caught in the fast revolving blade and was severed just above the elbow. Dr. Moore happened to be nearby at the time and rendered the necessary surgical aid.

TWO-HEADED BABY Remarkable Operation Planned by Surgeons in New Orleans.

New Orleans, Sept. 3.—An operation in which many local surgeons are interested will be performed within the next few days on a New Orleans child which was born recently with two heads. The second head is not perfectly formed, but the top of it is covered with a healthy growth of hair. Mr. and Mrs. John B. Murray, the parents of the child, consented to the operation when their physician informed them that this was all that would save the baby's life and the second head will be removed. Surgeons at the Children's Annex to the Charity Hospital say that the birth of a two-headed boy is not uncommon, but the fact that the Murray child has already lived eleven days with its two heads is, they believe, an incident never recorded before. A double-headed child usually dying soon after birth.

GERMANY WILL NOT REcede ONE JOT FROM HER POSITION IN THE MOROCCO AFFAIR

Berlin, Sept. 4.—The French policy in Morocco has been interpreted in this city as designed principally to maneuver Germany out of any direct in Moroccan affairs. The French government, supported by Great Britain, of acquiring that paramount position which was the object of France previous to the Algiers conference. French aims are regarded today as being precisely what they were before Germany brought about this conference, and they come, therefore, into conflict with the present determination of Germany. This also may be described as exactly what was held to previous to the Algiers conference, namely, the independence of Morocco politically and commercially, with no superior position for France or any other power. Germany declines to recognize the theory of the French foreign office, that France and Spain, being the Mandatories of the powers in Morocco, have the right to initiate suggestions, and are not proposed to allow Mulai Hafid to be compelled to take over large and indefinite French pecuniary claims, the effect of which at the outset of his reign would be to reduce him to the position of a French vassal. Paris, Sept. 4.—French official circles recent deeply the intimation conveyed in the inspired communications from Berlin, but the real purpose of France in delaying the recognition of Mulai Hafid is to permit the republic to make advance private arrangements for the protection of special French interests. The associated press was today authorized to publish the following: "You can categorically deny any such intimations. We are conducting no private negotiations. What we are doing is in the general interests of all the French creditors of Abd El Krim, who are confident that we will be able to take care of ourselves. The German attempt to make it appear that France since the time of the consular official like Dr. Vassel to Fez, also is officially repudiated. It is explained that the man France sent was a native of Algeria, whose mission was simply to act as a custodian of the valuable archives there. He was in no sense a consul. With reference to the German suggestion that France is trying to secure from Mulai Hafid advance endorsement of the loans made by French interests to Abd El Aziz, it is explained that the French creditors of Abd El Krim hold his jewels as security and that the other loans were made by the Moroccan state bank in which Germany, like the other powers, has a representative. France is still awaiting Spain's final approval of the terms of the joint note compiled and submitted by it to the powers.

THE TIMES NEW REPORTER

A NATURAL CHOWDER. Not since the formative days of the Orange street dump, of odorous memory, have citizens living near the "back shore," had the same realising sense of their ability to distinguish odors as they now freely admit to each other, "between spouses." The great swarm of small fishes, which were recently driven ashore, and lay a foot deep on the beach after the tide receded, are still dead. Not only so, but they are a current political phrase, they "stink in the nostrils of a free people." Up to the present time, the odoriferous penetrator in the old and not on any previous die against Mr. De Forest's apparatus. "He admits that the great height of the two stations between which the attempt to establish communication is to be made is a strong point in favor of the experiment. His attitude is one of extreme modesty with hope and not very much confidence." AN UNHAPPY YOUTH. Mr. Peter Binns, Jr., is somewhat worried. He reads the marriage announcements in the papers with a sad consciousness that his union with the lovely Miss Birdie McWhat will not be among the September weddings. Birdie has changed her mind. In a fine burst of poetic frenzy the melancholy youth has delivered himself as follows: "What! And yet—but no! Like autumn rains my tears do flow; Like autumn leaves my hopes do fall—'What more? Enough! That's all—' Birdie's youth is of course in his favor. Birdie philosophically observes that the young lady should not be compelled to take herself seriously, merely because now and then a foolish young man betrays his lack of a sense of humor. WARNING TO INCENDIARIES. There is a new fire alarm box at the corner of Guilford and Ludlow streets, Carleton. A resident of the neighborhood thought he saw evidence of a fire breaking out in a nearby house last night just before midnight. He rushed to the fire alarm and lighting, Dr. Giles, of Haliburton, was unanimously nominated to contest the riding in the coming election. TWO MEN DROWNED. Sydney, N. S., Sept. 4. (Special).—Two men, brothers named Wadman, were drowned off Ingonish this morning by the canoe upsetting. The victims were 27 and 30 years old. The oldest leaves a widow and small family.

ALBERT CO. M.P.P. MISSING AND SAID TO BE INVOLVED

W. B. Dickson M.P.P. Went Away on Monday—Legal Representative of W. M. Mackay Applies For Absconding Debtors Warrant Against Him.

A sensational story gained currency in the city this morning involving Walter B. Dickson M.P.P., for Albert county and the firm of W. Malcom Mackay lumber shippers of this city. It is alleged that Mr. Dickson secured from the W. M. Mackay firm large sums of money as advances against contracts for lumber to be purchased and delivered by him. In some cases the lumber was purchased but not delivered.

P. E. ISLAND NEWS

Bold Robbery at St. Peter's Bay Last Evening—Boring for Coal.

Charlottetown, P. E. I., Sept. 4. (Special).—The police are searching to-day for two young men suspected of breaking into the Tracadie station on Wednesday night and R. W. McLaughlin, at St. Peter's Bay last night. Nothing is missing from the former place, but from the latter \$300 worth of goods, including jewelry, clothing, etc., were stolen. The robbers stole a horse and wagon on two occasions to enable themselves to travel expeditiously. Latest reports are that they are hiding in the woods near Mount Stewart. Dr. Ellis, of the Dominion Geological Survey, is here in connection with boring for coal on the south side of the island. He says a thorough test is to be made to determine absolutely whether the minerals are here or not. Contractor Stover of Tilbury, Ont., arrived some days ago with a boring plant, but the work has been delayed waiting for timber.

George Jones the Musquash farmer who was the principal witness in the case against Amelia Francis has been liberated from jail and immediately departed for his home. When he arrived here he possessed \$20 Sun when he shot the dead of St. John from his feet he was the sole owner of the sum of \$2 which was presented to Judge by the Sheriff.

BOY KILLED IN A MIMIC DUEL

Year Old Boy in Mobile, Ala., Met His Death.

Mobile, Ala.—William Soosma, a 17 year old white boy, was killed last night by Harry Leech, aged 16, in a mimic duel. Several boys were playing in the yard and when one of them produced a revolver, Leech is said to have gone into the house and securing another proceeded to unload and shoot at the boy.

NEW BARRIE PLAY ON LONDON STAGE

"What Every Woman Knows" Scored a Distinct Success in London Last Night.

London, Sept. 4.—The lifting of the curtain on a new Barrie play has been the topic of an historic event for the English stage. J. M. Barrie's latest production "What Every Woman Knows" was produced under Charles Froham's management at the Duke of York theatre last night and it proved the equal of its predecessor. Perhaps the most interesting feature of the play was the part played by the actress, Miss Hilda Trevelin, who has been playing in the leading parts. Henry Vibart, a young actor, was also very successful.

THE NOISELESS GUN TEST WAS A SUCCESS

Springfield, Mass., Sept. 4.—Hiram Maxim's gun silencing device received its test here yesterday at the hands of a board of officers at the United States Army, the test being to determine whether the device would furnish protection to air-mishers or ship-phoosters advancing on a battle.

MONTREAL STOCKS

Montreal, Que., Sept. 4.—(Special).—In a generally quiet stock market Montreal Power held an upward movement and touched 103, after opening a point below. This was interpreted as indicating that the filling of orders said to be for London purchasers was still in progress. Soe sold off from 123 1/4 to 122 3/4, and Illinois from 87 3/4 to 87. Pacific was quiet at 178. Detroit sold at 29 to 14, Mexican 124. 107 1/2, Steel bonds 78, Shawingan 80.

(Continued.)

The result was worse than failure. He was wild with himself, wild with Grenier, and reached a high pitch of fury when Mason finally refused to say what grievance he harbored against Anson.

"A nice middle I've made of everything," cried the disappointed youth, "and a previous lot of friends I've discovered. I tell you everything, please myself unreservedly in your power, and you not only let me drift into a stupid blunder, but decline to share your confidences with me."

He rose to go, but Grenier firmly pushed him back into a chair. "Don't be a bigger fool than you are, Jimmie, and leave those who will help you. I told you the cab adventure was a mistake and right only in one. And you must admit that I never heard of Anson from you until tonight."

"I may be to blame," was the sulky admission. "But who is your friend Hunter, and why does he not be as outspoken as I?"

"There are reasons. Hunter was cheated out in Africa on account of Anson's manipulation of a diamond mine. He wants to get even with him. That should be enough for you."

Mason smiled sardoniously at his leader's ready explanation, and Langdon saw only the venom in the man's face. "He ought to have said so," he muttered. "I am in no mood to be denied the confidence of those who act with me in this matter. In any case, what can we do?"

Grenier procured a decanter of brandy and passed the case. "We can accomplish nothing without money."

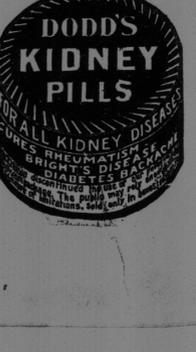

"What avail is money against a millionaire?"

"None, directly. You would be swamped instantly. But we must know more about Anson. He has servants. They can be made to talk. He has susceptible cooks and housemaids in Park Lane, and I am great with ovens and housemaids. There is a mystery, an unfathomable mystery, about his mine of diamonds. It must be probed."

"No mystery at all," snarled Jocky Mason. "He found a meteor in a dum called Johnson's Mews. It was crumpled full of diamonds. I saw some of 'em."

"His heavees allowed all other emotions to yield to the interest of this astounding statement."

"Yes, I don't say much. I act. You'll get no more out of me. I want none of your girls or property. I want Philip Anson's life, and I'll have it if I swing for it!"

Heart Strength

Heart strength, or Heart Weakness, means Nerve strength, or Nerve Weakness—nothing more. Possibly they have never on your mind, but it is well to know. It is almost always a weakness of the nerves, and it is almost always a weakness of the heart. The heart is the pump of the body, and it is the nerves that control it. If the nerves are weak, the heart is weak, and the body is weak.

OBITUARY

Rev. J. M. Jerge

There passed away last evening at 11 o'clock in St. Vincent's convent, Cliff street, a noted member of the Jesuit order, in the person of the Rev. Joseph M. Jerge, who came here in 1871 to preach the annual retreat to the Sisters of Charity. Fr. Jerge began the exercises of a retreat on July 31 and this he conducted with great fervor and devotion.

The retreat closed on August 8, and on the evening of that day a second retreat was opened, but it was soon evident that the zealous priest was far from well. In fact from the very beginning of his stay he had complained of the excessive chilliness of the climate here, and an attack of intestinal trouble was the result. This he endeavored to keep to himself, but was unable to return to the Bishop's Palace from the convent, and it was necessary to make temporary provision for him in the parlors of St. Vincent's institution.

To add to the gravity of the situation, an attack of pneumonia developed and soon precipitated a crisis. On Sunday, August 20, the zealous priest was so low that it was deemed advisable to administer the last rites of the Church. This was performed by Rev. A. W. Meahan, rector of the cathedral. On Monday Father Jerge's superior, the Rev. Thomas Gannon, S.J., president of Boston College, was telegraphed for and he reached here Tuesday morning. Every effort was made to bring back the heart to its normal condition; the best medical skill was procured, the good sisters were unflinchingly in their care, but the malady daily increased in intensity and last Thursday morning it was evident to all that the case was hopeless. However, Father Jerge had been in a dying condition ever since, though he remained conscious until yesterday. He was a devoted man, a man of high character, and a man of high intellect. He was a devoted man, a man of high character, and a man of high intellect.

He was born at St. John's, N. B., on August 15, 1840. He was educated at St. John's, N. B., and at St. Mary's College, Montreal, where he distinguished himself by marked ability. He was a member of the Society of Jesus when only sixteen years of age, and after the lengthy studies at the college he was appointed to the priesthood in the College of the Sacred Heart, Woodstock (Md.).

He held various positions of great influence in the order, having been rector of the House of Studies, Woodstock (Md.), rector of the college at Philadelphia, and for many years afterwards, assistant to the Provincial Superior of the Province of the Holy Spirit, St. John's, N. B. He was sent to Boston to aid the Rev. Thomas J. Gannon, S.J., in the work of erecting a large church, and he was called to St. John's by the Rev. Bishop Casey, the Redemptorist Fathers, the Cathedral Clergy, and the Sisters of Charity.

Rev. A. J. Kempton

Many readers will be pained to learn of the death of Rev. A. J. Kempton, who died at Madison, Wisconsin, on Sunday evening, May 30, of typhoid fever. Mr. Kempton was a native of St. John's, N. B., and was in the class of 1868. He was also graduated in theology at the Rochester Theological Seminary, New York. He was a devoted man, a man of high character, and a man of high intellect.

The most effective of these flouncings are those showing the bold designs in wheels and eyelets which not only look immensely decorative, but launder in the most satisfactory manner imaginable. These little frocks show both vertical and horizontal tucks of various widths which may be let out when necessary. With such little costumes are worn sashes and shoulder knots of pale blue, rose or green ribbon.

PLAYS AND PLAYERS

TONIGHT A NIGHT OFF

One of the most enthusiastic audiences of the season witnessed Hal Reid's stirring melodrama, "A Wife's Secret," last evening. This charming story of a daughter's devotion and a wife's sacrifice will be repeated again at the Saturday matinee. It is a gipsy play for women and children. Little Bernette Callahan, as "Marie Madon," made a hit as the little daughter, and no doubt many a comment, "The role of 'Prof. Rabbit' will be played by Joseph Selman. He has played the old barnstormer in the past, and has received much favorable comment. The role of 'Prof. Rabbit' will be played by Joseph Selman. AT THE PRINCESS

Despite the counter attractions last night, there were large crowds attending the Princess Theatre, and the wonderful role of "Susan" by the Humano Co. This clever lady magician is the best seen in the Province for some time. The easy manner in which she performs every slight-of-hand work is loudly applauded. This specialty is well worth seeing. There will be an entire change of programme today.

THE CEDAR

For Friday and Saturday the series of four best picture shows will be presented. A Father's Guilt is a particularly strong dramatic picture. Magic Dice is another picture which is sure to please all. The Half Moon Tavern and the Haunted Cheese complete a set of pictures which are presented to none. Percy Sayce concludes his engagement with a fine march song entitled "Tape." Admission 5 cents.

WEDDINGS

McKinnon-Duff. Friends of Dr. J. R. McKinnon, of Tremont street, tendered him a banquet last evening at the Quincey house on the eve of his departure for Toronto, where he will be married Thursday to Miss Edith Duff, recently a nurse in the Massachusetts General hospital. W. J. O'Donnell is in charge of the post-wedding excursions.

George Flewelling

George Flewelling, formerly well known in this city as one of the firm of G. & G. Flewelling of Hampton, died at his residence in Roxbury (Mass.), on Sunday last. He was 85 years old, and up to a few days ago was in good health. He leaves two daughters in Roxbury and a son and daughter in California.

AN ARTISTIC RECITAL

The schoolhouse of St. John's (Stone) Church was, yesterday afternoon, the scene of a very interesting artistic event when, before a gathering of musical friends, Richard Strauss' setting of the melodrama, "Zuech Arden," by Alfred Lord Tennyson, was presented by Sydney Beckley, as rector, and Benjamin Lamb, as pianist. The highest demands alike on the dramatic capabilities of the rector and also on the technical equipment of the pianist, and it can be said that Mr. Beckley rose to the full height of his opportunities, while the difficulties of the piano score seemed to disappear under the facile touch of Mr. Lamb.

Ryan-Palmer

Dorchester, N. B., Sept. 3.—The marriage of Miss Nellie, daughter of Hiram W. Palmer, to Dr. George Ryan, of Paris, France, took place at Trinity church at 11 o'clock this morning. The bride was unattended. The ceremony was performed by Rev. A. E. Hall, rector of the parish. Dr. G. H. Palmer, cousin of the bride, and Charles Fawcett, acted as ushers. The invitations were confined to the immediate friends of the contracting parties, which included friends from Sussex, Moncton and Sackville. Judge Gregory's indy adjourned court with the ceremony was performed, thus allowing those engaged in court to witness the

THIS HARVESTER SAYS HE HAD A FIRST CLASS TIME

A "Gentleman from Hants County" Talks of the Harvesters' Rough House Excursion to the West—Fights and Card Playing All the Way.

(Ottawa Citizen.) The first man home from the famous trains which raised rough-house all along the C. P. R. line to Winnipeg, passed through Ottawa on Saturday on his way home. He lives in Hants County, N. S., and hoped to have enough money to reach the province by the sea. He was a harvester who had taken passage on the scandalous third train of the harvesters' excursion, the train from which the foregoing party emanated which raided the hotel at Chalk River and carried off all the booze they could transport. It was the train which rolled into Winnipeg with not a solid door in any of the coaches. He was very willing to talk of that rough crowd, and being one who enjoyed himself very much on the trip told some of the funny incidents in an easy way, not knowing he was talking for publication. He, however, claimed that there was not enough work in the Northwest for all the men who went out.

It was freely stated that over 1,000 men would not get a job at all during the harvesting. At every station there were men looking for jobs. He said he got a job soon after he went out and worked for six days. He got \$2 a day, which were the highest wages that were being paid, and many were working for their board. He stated, however, that the work had been done for this farmer, and it would be ten days before the threshing machine came on. Then, he stated, he would only have gotten ten days more work. He was sick from the change, and decided to go back home and not work the ten days.

"We certainly had a good time," he began, when asked about the trip. "I never remember six days going so fast as did the time I was on that trip from St. John to Winnipeg. We left on Monday night and did not reach Winnipeg until Saturday night. But we did not notice the time. Most of the men were drunk or nearly drunk all the way. Some were crazy entirely. But I would not have taken \$100 and missed that time. There were 1,000 men on our train. He leaned back in his seat and began to recall that rough time. "There was a fight about every ten minutes," he broke out. "If we were playing cards and the fight was bothering us, we would get up and play the cards. But if we were not, why we just let them fight, and many a good fight there was. The only trouble it was a pretty poor play. There was not room enough in the cars for a good fight. I don't know anything about the names of the places we passed through when we left St. John, except that the hotel was raided at Chalk River. I suppose you heard about that."

"One night we were lying on the siding. I guess we had just stopped, when a stone weighing about ten pounds crashed through the car window and came down with a thud on the floor of the aisle. It came from some Italian who had a shanty near where someone had thrown something at one of them and then rushed into the car. It did not hurt anyone, but nearly struck a woman who was sitting up in a seat. The train ahead got us into lots of trouble. They got out and stole things, and when we came up, the residents would be waiting and we would get what was coming to us. "One siding had a lot of shanties near it, and as soon as any of us started to get off, the windows began to crash and buckshot to whistle through the cars. The residents of the houses had likely been roughly treated by the people in the train ahead and they were going to get even with us. Six people got slight wounds, but they were pretty well spent and did not hurt much. In one window of the shanty a girl sat with a revolver and fired as fast as she could at the car, but only one or two bullets reached it and no one was very badly hurt. After the first siding, we all got under the seats and let them fire. We did not trouble those people any, I can tell you. "We used to get out every time the train stopped and get a drink of water. At one place there was only one Italian shanty, and the moment the train stopped about 200 men jumped out and started for the shanty. The owner seated himself in the doorway, and as the ladies came up he leveled a revolver at them. But I guess he was afraid to shoot, and in another moment they had knocked him over, and rushed through into the hut. "At another place there was an orchard along the track. That was the only orchard I saw along the line, and some got off to pick a few to eat. Then an old lady came off and said she would have them all in jail if they touched another apple. They began to tease her, and at last all rushed and shook all the apples off. They peeted every person who came out of the house. "All the way it was just like that. Playing cards or fights when we were going, the scraps with the farmers when we were stopped. Oh, but it was a daisy time. The whiskey nearly ran out when we reached Swan River, but we had lots when we got there. "I had a hard time getting a ticket back. I do not think I will come out again next year. Nova Scotia is good enough for me, but that was a peach of a trip and I would like to take it again. Say, isn't it an awful long way back?"

ceremony in the church, which was crowded beyond its seating capacity. Automobiles were used to carry the bridal party to and from the church. Mrs. Fred Ryan's large touring car, which was handsomely decorated, conveyed the bride and groom. An elaborate wedding breakfast was served at the home of the bride's father. The bride received many handsome and costly presents, including a silver candelabra from the choir of which she was a valuable member. The happy couple left by the Ocean Limited on a Victoria-Inland route for Montreal, where they will go to Paris, where they will reside.

BAND CONCERT TONIGHT

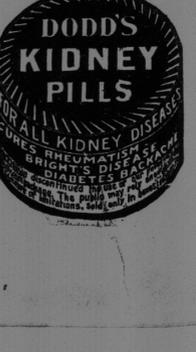

The Carleton Comet Band gave a very enjoyable concert on the new band stand in King Square last night. A very large crowd was present. The best of order was maintained and all seemed to appreciate the music greatly. The City Cornet Band will play tonight. On account of the half holidays being ended for the season there will be no concert on Saturday, but the Artillery Band have arranged to play on Tuesday evening next.

CASE HAS BEEN SETTLED

It was learned last night that the Cameron-Coleman suit for alienation had been settled out of court. This was the case in which William Cameron sued William Coleman. It was to have been heard at this section of the circuit court. A. A. Wilson, Mr. Cameron's lawyer, said last night that the case had been settled for pecuniary damages. He would not disclose the amount, but intimated it was substantial and included costs. In addition to this, he said, Coleman signed an agreement that he would not again attempt to see Mrs. Cameron, nor force his company upon her.

LIBERAL WARD MEETINGS

The meeting places for the Liberal ward meetings next Tuesday evening at 8 o'clock have been arranged as follows:— Kings, Sydney and Dufferin—in Berryman's Hall; Queens and Dukes—At 83 Germain street, Clinton's entrance. Prince and Wellington—in Lelechner's Hall, Brussels street. Victoria—in the Hannah Building, 257 City road. Lorne, Lansdowne and Stanley—in Temple of Honor Hall. Guys and Brooks—in Oddfellows' Hall, Carleton.

RECORDER'S BILL CAUSES TALK AT THE TREASURY BOARD

Bill for \$403 is Reduced by \$30 and Payment is Ordered--Other Matters.

At a meeting of the treasury board last evening it was decided to recommend that all public work should be sanctioned by a two-thirds vote of the council before it can be undertaken.

The chamberlain called attention to a standing order of the council passed in 1890, that no public work should be undertaken or contract entered into before the issue of debentures had been approved.

Ald. Frink said in the case of any large expenditure he was personally in favor of permitting the electorate vote on it. He had never yet known a member of the council to vote against a debenture issue.

The chairman thought the reason was that the work had usually been started, and an adverse vote would have a tendency to injure the city's credit.

After some further discussion, on motion of Ald. Frink, the standing order was reaffirmed with the additional recommendation that all public works of civic improvements should be sanctioned by a two-thirds vote of the council.

A communication was received from the manager of the Standard of Empire, pointing out that as the publication had a wide circulation in every British colony, it would be to the benefit of the city to insert an advertisement setting forth the advantages of St. John.

Ald. Frink moved an amendment that the space be taken and an advertisement inserted setting forth the advantages of St. John. In moving the amendment, the city paid an advertising manager \$10,000 a year and considered it an excellent investment in the city.

BUYING ANOTHER EUROPEAN TITLE

Rumor Says That the Spanish Duke of Alba Will Wed an American Girl Who is Heir-ess to \$25,000,000.

Bar Harbor, Me., Sept. 3.—Gossip, circumstantial and detailed, of Bar Harbor, Philadelphia and Washington forecasts another alliance of American wealth with nobility.

The Duke of Alba is the direct descendant of a king who died in France in such comparatively close proximity to a throne as does the Duke of the Abruzzi, who is to wed Miss Katharine Elkins this autumn.

As to the Duke of Alba, volumes might be written about his distinguished lineage and its part in the history of England, Ireland, Spain and France.

He is educated, cultured and travelled; it is said of him that he has a serious mind and has not gone in for the frivolities which so many of the European aristocracy find necessary to enable them to while away the time.

The chairman said he felt grateful the association had not insisted on the city adopting the franchise of its members. It was decided, as the work was practically finished, that the streets of the city should be cleaned up.

The comptroller, referring to the request for the accounts of the departments, said he was strongly in favor of transferring the balances to separate accounts, by doing so a check could be made and the expenditures during the year could be seen at a glance.

Several amendments were introduced in this view, which it was pointed out was only a question of bookkeeping, and it was decided to adopt the next issue of the city's year book.

BOSTON HAS ANOTHER HORRIBLE MURDER CASE--A TRUNK MYSTERY

Chester Jordan Killed and Dismembered His Actress Wife--Placed Part of Body in a Trunk Intending to Dispose of it but Suspicious Hackman Gave Him Away.

Boston, Mass., Sept. 3.—The most horrible and brutal crime committed in Greater Boston since the Susan Geary murder of five years ago, and which reached its climax in the discovery of a dismembered body and mutilated pieces of flesh of Mrs. Honora Jordan, an actress, aged 29 years, of Somerville, in a trunk hidden in a room at the Harbord street, on Beacon Hill.

Chester Jordan, an actor, aged 29 years, of 2064 Medford street, Somerville, held by the police, charged with the murder, and made a full and complete confession of the crime according to the police.

From the body and, after putting the scalp and hair in the kitchen range, placed in a box in the fire-box of the furnace in the cellar. The legs and arms were cut from the body and the flesh was left in strips, leaving the bones of the limbs practically bare.

Jordan submitted without protest to the handcuffs and was led to Station 3 by the police, where he was placed in his body guard, Officer Crowley said.

BORDEN'S SCHEME TO TRAIN THE BOYS

Sir Frederick Borden Addresses Riflemen at D. R. A. Luncheon in Ottawa.

Ottawa, Sept. 3.—A very pleasant function was the luncheon given today at the D. R. A. by the president, Colonel Sam Hughes. On the right of the speaker Sir Frederick Borden, minister of militia, sat and on the left Lord Aylmer.

Conservatives of Charlotte Chose G. W. Ganong as Candidate--Successful Liberal Picnic at Waasis.

St. Stephen, N. B., Sept. 3.—The Liberal Conservative convention met in the Carling Hotel this afternoon at 3 o'clock. Leonard J. D. Chipman, president of the county association was chairman of the meeting and J. E. Ganong, county secretary, was secretary.

Sir Frederick Borden, replying, said there was one thing above all others that he admired about the president of the association and that was that Colonel Hughes always fought fairly and would be one of the last men to resort to some of the tactics and means which had been attempted to make him (the minister) unpopular, but which had not succeeded.

The Liberal Conservative convention met in the Carling Hotel this afternoon at 3 o'clock. Leonard J. D. Chipman, president of the county association was chairman of the meeting and J. E. Ganong, county secretary, was secretary.

He expressed his fullest sympathy with the order-in-council had been passed approving of an agreement entered into by the department of militia and the government of Nova Scotia with reference to the schools of that province.

VALUE \$85,000,000

The following interesting statement of the value of the Western wheat crop is sent from Winnipeg to the New York Journal of Commerce:

"The value of this year's Western wheat crop, on the basis of current prices, may be placed at about \$85,000,000, as compared with \$80,000,000 last year, \$80,000,000 in 1906, and \$82,000,000 in 1905. These figures are approximate, but for the purposes of comparison they are fairly accurate.

"The basis for the estimate regarding the 1908 yield is the opinion given by the secretary of the Northwest Grain Dealers' Association that the production for the season is 107,000,000 bushels. The average quality of the crop has not been determined, but it is much better than that of last year, superior to that of 1906, and as good as that of 1905. The yield in 1907 was 71,000,000 bushels, in 1906, 101,000,000 bushels, and in 1905, 80,000,000 bushels.

"Prices are on the basis of delivery at the lake ports and from the price must be deducted the average freight on wheat from the point of origin in Manitoba, Saskatchewan or Alberta. This has been calculated at 15c per cwt., or 9c per bushel. Due allowance has also been made for the variation in grades in the various seasons. In 1905 the price was comparatively low, but the average yield was fairly large. In the following year the price was 5c lower and the quality was not so good. This year the price is even better than it was a year ago, the quality is generally good and the yield is the largest in the history of the country."

RAILROAD PROBLEMS

Some very striking statements were made a few days ago by the eminent railroad president, Mr. Theodore P. Shonts, in the course of a plea that the roads be permitted to conduct their own business without government interference. The views he expressed would naturally be somewhat prejudiced, and the assertion that government interference is the greatest menace to the country's growth today will not receive universal assent. There are sometimes conditions which warrant such interference, and the railroad have themselves to blame for it. Of course, there is also the danger that the government may go too far. The address of Mr. Shonts is a worth reading since it is a very clear statement from the viewpoint of a railroad operator. Especially significant are the statements that not a mile of new road is being built, while improvement work involving millions has been done; and that a quarter of the men at work a year ago are now idle, and the loss in wages is \$1,000,000 per day and in general railroad expenditure \$3,000,000 per day. We quote: "In this period of business depression the railroads should be preparing for the return of industrial activity. But not a mile of new track is being laid, nor is any equipment being purchased that is not absolutely essential to the present needs of the roads. Improvements involving hundreds of millions have been abandoned because of the venal spirit that has temporarily possessed the minds of men whose duty it is to carefully consider proposed legislation.

"The greatest menace today to a continuance of our country's growth, and the influence that is doing more than anything else to retard the return to prosperity, is the fear on the part of the people who own the railroads that the operation of their properties will be taken out of the hands of the trained men who are now directing them and turned over to boards of commissions, whether national, state or municipal, who will exercise full authority without the slightest financial responsibility.

"Though I disagree entirely with his theories, I have respect for the honest socialist. He believes in government ownership and operation of the railroads, and has the courage of his convictions. He wants to buy all the roads at a fair price and have them operated by officers elected by the people, who will be accountable to the people, as stockholders.

"But what shall we say of people who,

while frowning on socialism or professing to frown in horror of it, demand that the railroads shall be placed under control of commissions who will take away from the officers of those properties, elected by the stockholders, the right to operate them? If this proceeding, under the guise of law, is not taking away property without compensation, in violation of our constitutional rights, what is it?

"Government supervision is all right, and a thing to be desired by all parties in interest. Government regulation, which limits which transgress the rights of neither party, but make for the common good, is proper. But government operation, without ownership, is an entirely different matter. If government ownership and operation of the railroads is a thing to be avoided, as most people believe, then government operation without ownership is a grievous wrong, because it takes away, without due process of law, that reasonable control of property which is guaranteed by the fundamental law of the land. "I am tired of the assumption that all of the virtues and most of the wisdom of the country are embodied in our politicians and political appointees. The railroad profession has its full share of these qualities.

"That man is no friend of labor who, on any pretext, seeks to widen the breach between the public and the railroads. The effort should be to close it as quickly as possible and to establish good feeling all around, with each recognizing and respecting the rights of the other and having full confidence that they will not be ignored.

"Honestly conceived laws to compel a service that will meet with the reasonable approval of the patrons of a road and prevent discriminations, stock watering and stock jobbery are right and proper, but to go far beyond that and impose unreasonable burdens and unfair restrictions looks to the defeat of the very purpose which it is sought to attain.

"We have before us an illustration of what even a temporary cessation of the transportation development of the country means. A year ago there were 1,675,000 railroad employees in active service and they received almost \$1,000,000,000 in wages during the year, according to statistics collected by the government. Fully one-quarter of these men are now idle at a loss in wages approximating \$1,000,000 for every working day.

"A year ago the railroads were spending \$2,800,000,000 for supplies; now they are spending not more than \$800,000,000. This means a falling off in railroad expenditures of \$3,000,000 a day, and it is impossible to accurately state the number of men in forests, mines and factories who have been thrown out of employment by the shrinkage of the demand for equipment and supplies, but they are numbered by the tens of thousands.

"It has recently been very unfashionable to talk about the rights of capital, but it will be a great deal more out of fashion to talk about anything else if money is permanently driven from railroads investment and the situation which I have just suggested is intensified and perpetuated."

The New York Times cannot understand why so many citizens of the United States who come to Canada are prompt to become British subjects, notwithstanding the fact that they can hold land without doing so. The Times speaks of such people as selling out "a priceless birthright." On this point the Victoria Colonist very properly observes: "What is this 'birthright'?" Is it anything more than the right of self-government? And if it is not, what does a man lose, when he leaves the United States? Does the Times expect people to come here from the United States and consent to be governed instead of taking part in governing themselves, as it is their duty to do? The truth of the matter is that United States citizens find in Canada the fullest possible exposition of self-government, and like sensible men, when they come here intending to make the country their home and to bring up their families here, they qualify themselves to enjoy all the privileges of our citizenship."

The time is opportune for a political campaign. There is no more delightful season in Canada than the early autumn. There are none so busy but they can find some time to attend picnics and public meetings and listen to addresses on public questions. The tax upon the speakers is less severe than it would be in midsummer or midwinter. It is desirable that there be full and free discussion of national questions and that the interest of all the people be aroused. The reader of the newspapers from day to day observes that the candidates are getting into the field and that on every hand the interest in the political situation grows more absorbing. There is every evidence of a very keen contest throughout the Dominion, and although it is yet early in the game both sides predict success. But neither side is thoroughly warmed up as yet, and there is still considerable organization work to be completed.

WOMAN RAT CATCHER.

Mrs. Johnson, of Ross, Herefordshire, has become a chimney sweep, and at Brantford, Devon, a woman is to be seen driving a two-horse reaping machine. That there is nothing new in women invading men's occupations is shown, however, by a warrant to be seen in a Minotree bookseller's shop. This is signed by Sir Thomas Chicheley, master-general of ordnance, to Charles H., and appoints a woman rat-catcher to the Tower.

HE'S A CANDIDATE

(Chicago News). He is mighty glad to see you, and he warmly clasps your hand, and the minister's sweet and bland He just happened to be passing, so he thought he'd stop and greet you. And "it's very pleasant weather for this season of the year. You are prosperous, I hear? I am quite relieved to hear that. Yes, I'll sit down if I may. How is politics this way?"

Oh, his voice is sweet as honey; very dulcet are his tones. He is the greatest and friend Jones. "And this sweet child your daughter? Well, I envy you indeed! That boy's growing like a weed. And your wife is looking charming. It is some time since we met. Which is something I regret. You must come down and see us. I should like to see a girl. How is politics this way?"

"It's a shame I should see you all as seldom as I do. It is true. But a friendship is a friendship, though not be left to someone less interested than yourself. Our wide range of designs will harmonize with any style of Architecture and give life-long satisfaction.

FINDS CONSOLATION IN NATURE'S WORKS. Editor Evening Times: Sir-Byron says: "There is pleasure in the pathless woods, There is rapture on the lonely shore, There is society where none intrudes, By the deep sea, and music in its roar." We don't have much chance for education or culture-here in the bush. I went to the little red schoolhouse and learned the three R's long ago. The daily papers are an open window upon the whole world.

Emerson well said, Nature is the best Mentor. A New York editor asked his readers to try and get away from the local and get a comic view of things. I remember a great man visited our school one day. Our teacher asked him to address the girls and boys. He said: "Schools were a necessity-but those who succeed must take hold themselves. The world is your opportunity to learn and achieve. You must make yourself that you would be."

Well, this has been a delightful summer-left nothing to be desired. At night-fall I light the lamp and sit down in the old barrel chair-light the pipe and think of Hannah and the children. Will they ever come home? I feel lonely and walk outdoors-and stand amid the lofty trees.

There is a wide opening to west and north. The night is a certain that hides from us our vast heritage. Thoughts, that seem great to me, rise in my heart. I forget myself. I'm a citizen of the Universe. I feel it is foolish to be elated or depressed. The stars seem to repeat Tennyson's words: "Men may come And men may go, But I go on forever." Yours, BUCKWHEAT.

NEW YORK FINANCIAL BUREAU.
If substantial support is not extended to leading active issues just below closing prices of yesterday there may be witnessed some sharp breaks in the stock market today. Our reports as to present manipulative plans, however, contemplate support provided the liquidation which is usually permitted under ordinary conditions to run its course shall prove too heavy and a recovery would be experienced. A rally some time today may be expected whether or not there is a port break. The tone of the market continues reactionary but on heavy activity we believe it will for shorts to cover and in the event of any breaks in standard stocks, purchases for turns with stop order protection, should be profitable for alert daily operators. The question to ponder well is this: "If there has been important distribution as rumored, upon whom has it been effected, with public participation minimum and where will manipulators who sold their proceeds to so great advantage as in securities disposed of? The present decline may be regarded as a phase of the bull market in the process of strengthening the technique which sadly lacked adequate short-sell." The corn yield this year promised to be 2,625-million bu. against 2,600-million bu. last year, according to special reports to the Journal of Commerce. The same paper reports rail orders by the New Haven on a small scale. The Herald refers to 12,000 steel cars to be ordered in the next few days and in this connection quotes Interstate Commerce Commission reports as predicting a 10 per cent. increase on the reversal of business. It also says So. Pac. interests deny that any financing is contemplated by So. Pac. present. President Ripley, of Atchison, is pessimistic in an interview and says the only redress of the railroad situation is in court. Lawson's ad this morning on Smelters is, we believe, a correct presentation of the Smelting company rather pessimistic in tone now. Information sources indicate accumulation of stock on a scale of 100,000.

THE LIVERPOOL COTTON MARKET.
Liverpool.—Due 1 to 1 1/2 lower. Opened steady 2 points lower on near and lower on distant. At 12:15 p.m.—Market quiet, net 1 1/2 points higher on Sept. and unchanged to 1 point lower on later positions. Spot cotton in moderate demand, 1 point lower, middling 8.50. Sales 6,000, speculation and export 500, American 5,000, no imports.
Weather.—Predictions are for a continuance of clear weather today and to-morrow over the belt, with the exception of showers in portions of the Gulf States.

THE WHEAT MARKET.
Liverpool.—Wheat opened steady, advanced 5/8. Corn firm but unchanged. At 1:30 p.m.—Wheat 1 1/2 up from opening. Corn 1/8 up to 1/4 up from opening. Earnings—Wabash 4th week Aug. dec. \$119,800. Dec. and Rio G. 4th week Aug. dec. \$110,700.

ADVICE FROM EVANS.
New York.—The reaction in the market was started yesterday by the weakness in Smelters and support seemed to be temporarily withdrawn. In view of the advance, however, this reaction is quite natural and it may go a little further but there is no change in the situation and I still think that stocks are a purchase on all reactions as with the present extreme ease in money it is hard to get people to sell good dividend paying stocks. The present reaction is a purchase on the fact that the Harman issues are still the best ones to buy especially So. Pac. which shows very great resistance to the declining tendency of the general market.

COOL READING.

The largest mass of ice in the world is probably the one which fills up nearly the whole of the interior of Greenland, where it has accumulated since before the dawn of history. It is believed to form a block 600,000 square miles in area, and to average a mile and a half in thickness. According to these statistics, the lump of ice is larger in volume than the whole body of water in the Mediterranean and there is enough of it to cover the United Kingdom of Great Britain and Ireland with a layer about seven miles thick.

Some 580,000 tons have been destroyed at the London docks.

DEALINGS STRAIGHT AND PROFITS SMALL

Witness Say There was no Graft in Transaction with Marine Department.

Montreal, Sept. 3.—From the evidence produced before Judge Casels today, at the investigation into the business relations of the department of marine and fisheries, it would appear that the government is in an unusually fortunate position with regard to the buying of goods, being able to buy them not only cheaper than anybody else, but on occasions to get them so cheaply as to cause an absolute loss to the dealers who sell them.

After taking general evidence to refute the charges made in the famous report of the civil service commission, G. H. Watson, representing the government, proceeded to take up a number of concrete cases and called several Montreal businessmen to testify as to their business relations with the department of marine and fisheries, the profits they made, and as to whether or not they had ever been held up by any of the government officials for a "take-off" or discount to go into their official pockets.

In every case the answer was that the business with the government had been profitable than that with ordinary customers, in many cases absolutely below the cost of handling the goods, while every witness denied having ever given any graft to officials, or knowledge of any such system.

The fire department was called to the corner of Richmond and Brussels streets about 4 o'clock yesterday afternoon to extinguish a slight blaze in the basement of the McCreary house. Some straw had become ignited and blazed up quite fiercely but the flames were extinguished with a few pails of water before the arrival of the apparatus.

NEW YORK WON TWO MORE GAMES

Defeated Boston Twice Yesterday in the National League

Boston, Mass., Sept. 3.—New York repeated its feat of Tuesday by winning two games from Boston today, the first 3 to 1, and the second 8 to 5, before a small crowd. Both games were hard fought, but the timely hitting of the visitors enabled them to win.

There were some spectacular plays made by each team, the New York men having four double plays to their credit in the first contest and Boston one. Seymour, Beaumont and Dahlen all fielded exceptionally.

McGinny pitched the first game for the visitors and did good work with men on base. Liddman also pitched a good game and but for a poor play by Hamlin the score would have been even closer.

In the second game New York four Dornier easy taken out in the third. Chappell, who succeeded him, pitched well and was taken out in the fifth to allow Bates to bat, when he looked as though Boston had a chance to tie the score. Ames was invincible up to the seventh, but then an ankle sprain caused his retirement. Mathewson went in to save the game and after the visitors had scored three runs in the ninth through Ferguson's wildness, Taylor was substituted. Manager McGraw was put off the field for disputing with Umpire Klem.

NATURAL HISTORY EXHIBITS AT EXPO.

The natural history exhibit will be one of the most interesting and instructive features of the approaching exhibition. William McIntosh, curator of the Natural History Society, will have charge of the display, which is a guarantee that every detail will be given close attention, and that all will be attractively arranged. The display will be the most comprehensive of its kind ever shown in St. John.

Valuable collections of gems and precious stones have been secured, all the best known minerals in their rough state will be shown, glass cases containing living reptiles will be exhibited and specimens of plants, minerals and insects, collected by school children, also other interesting features will make up the main display of a place of great interest.

Perhaps the main feature of the exhibit as it will take up a large portion of the space, will be the school children's competition, with collections of plants, minerals and insects. A large number of entries have come in already and some very good collections will be shown.

The great aggregate consisting of the highest scores in the Bankers, Walkers, Dominion and the first stage of the government-general's was won by Capt. McVittie, 48th Toronto, who won a medal and \$20 with a score of 371.

Photographs of the birds of New Brunswick, in color and stuffed birds, will be displayed. Plant life will be represented, in addition to the school exhibit, by a study collection, and Mr. McIntosh will have a room fitted up where he can be consulted about various phases of this interesting subject.

A group of the coniferous trees of the province will be set out in natural manner. The mineral collection will be a very valuable one, a fine gathering of gems in the rough, as well as cut stones having been secured. There will also be a collection of ores of various metals, such as iron, copper, tin, zinc, gold, silver, antimony, lead and nickel.

One of the attractions of the exhibition, will be the exhibit of the Free Kindergarten of St. John. This will be in charge of Mrs. W. C. Matthews, who has a training class for kindergartners. The work of the children attending the free kindergarten will be exhibited, and the gift and occupation as carried on will be explained by a training teacher each day. Children from the different kindergartens will demonstrate the occupation period of the work. On Monday and Friday afternoons the children of St. Mary's and Brussels street kindergartens, will give a practical demonstration in the Women's Council exhibit.

Through the kindness of T. J. Phillips, the association are enabled to sell amary. They will also have for sale perfumes, soaps and a few pictures, inexpensive copies of famous pictures by old masters. The proceeds these sales will go towards their work.

The 62nd rifle club will hold two matches on Monday next. In the morning a spoon match will be the feature for the afternoon, beginning at 1.30. All members must be present to put in their quick firing.

NEW BRUNSWICK'S MEN AT D.R.A. MEETING

Bad Winds and Light Were Yesterday's Conditions For Marksmen at National Shoot

Ottawa, Sept. 3.—A fell-tail wind varying from center to 12 degrees, a sparkling light and slight mirage were the trying conditions of the fourth day of the D. R. A.

The incident of the day was the shoot of the first target by the government-general's match between Lieut. C. D. Spittal and Lieut. A. Martin, of Calgary. They tied on five shots at 600 yards with 20 points. In shooting off again Spittal won with two bulls a bull and magpie.

The New Brunswick P. E. I. men who finished in the first target and fifty and are the better qualified for the second stage are: Maj. Jones, 82nd P. E. I.; Sgt. Jones, 74th Sussex; Sgt. Capt. Dalgle, 74th Sussex, 63.

Thirtysix-nineties shoot off for thirty-three and seven of insects. The places included: Lieut. S. W. Smith, 67th Woodstock; Capt. J. T. Ewert, 62nd St. John; 2nd Troop in the government-general's first stage, Corp. McInnes, P. E. I.; Sgt. Forster, 74th Sussex; 303; Sgt. Moore, 82nd P. E. I.; Sgt. Steek, 78th Truro; 303; Capt. Forster, 74th Sussex; 303.

The Burland match, 1,000 yards, possible 80. The B. B. B. match, 1,000 yards, 1st C. A. Halifax, with a score of 44; taking \$20. Other eastern men who secured prize money were: Lieut. Bear, P. E. I.; Sgt. Moore, 82nd P. E. I.; Sgt. Private Dunbar, 78th, 36; Lieut. W. Smith, 67th Woodstock, 33; Corp. McInnes, P. E. I., 31.

The Lansdowne aggregate for teams of six in the Bankers, Walkers, Dominion and first stage of the government-general's was won by the team of the 10th Grenadiers, Toronto, with a score of 1,475.

YOUNG CORBETT MADE \$1,600 GROW

WHERE ONLY ONE DOLLAR WAS BEFORE

But He Lost \$600 and Might Have Lost the Other \$1,000 But For His Tall, Thin Friend, Who Was a Man of Some Judgment.

New York, Sept. 3.—Young Corbett who has not been engaged in the prime fighting business for some time, received the plaudits of dexterity with which he has increased a cash capital of \$1 to \$1,600 in a gambling establishment in West 107th Street.

Young Corbett was accompanied by a thin, pale friend when he entered the gambling establishment. Supplied with \$10 by the friend he bought \$10 worth of chips, which collection he lost with great rapidity.

He rose to leave the place and had reached the door when he drew a \$1 bill from some recess in his clothes, and saying "I might as well be broke as the way I am," bought \$1 worth of chips, i. e., four nice white chips, and with his first magical quality about it, because Corbett speedily became solvent. With his first excess \$10 he reimbursed the thin, pale friend, but then lost interest in everybody and everything until the friend interfered to remind him that he was \$1,000 winner.

"And said the friend, who appears to have been a man of some judgment, 'let's get out before the house wins it all back.'"

GOOD RACING FOR GOVERNOR'S DAY

Governor of Maine Saw Some Good Sport at Waterville—Clorinda, El Galo and Silk Patchen Heat Winners.

Waterville, Me., Sept. 3.—Today was governor's day at the Central Maine Fair and Governor Cobb with several members of his staff were the guests of the association.

The racing was up to the standard of the first three days. Silk Patchen won the 2.24 pace in straight heats, while the 2.20 pace and the 2.30 trot were unimpaired. El Galo won two heats in the 2.20 and Clorinda took two heats in the 2.30. The summary:

2.24 Pace: Purses \$500. Silk Patchen, b.m., by Joe Patchen, 1 1/2. Spilt Silk (Woodbury), 1 1/2. El Galo, b.g. (Hayden), 2 1/2. Clorinda, b.g. (Hayden), 4 1/2. Belle S., b.m. (McGregor), 5 1/2. Guy passed Blomdion, but at the five-eighths pole went to a break and lost his position to Blomdion, which finished second to Israel gelding.

LONGBOAT DIDN'T COME; MANY DISAPPOINTED

There was a group of disappointed sports in the United Depot last evening when the Halifax Express arrived. The president and several members of the Every Day Club were there to meet Tom Longboat. He had wired from Halifax that he must proceed West last night, but for them to meet him at the station. They had asked him to stay over for Monday's sports, and hoped to be able to prevail on him to do so.

The entries received show that the sports on the Every Day Club grounds on the forenoon of Labor Day will be very exciting and worthy of a large patronage. The series of sports held by this club during the summer have done a great deal to encourage young athletes to keep in training and to do good work. Not only so, but the club is doing for the benefit of young men and youths in other ways.

As matters stand, Longboat will be competitors from this city, Moncton, Sussex, and possibly other places. The Carleton Athletic Club will be well represented this time. To meet many requests it has been decided to add a 200 yard dash for boys of fifteen and under, and entries for this will be received at any time up to Monday morning. There will be some new competitors in every event of the day.

As Monday will be a holiday many who have not been able hitherto to show by their presence their appreciation of what this club is doing for clean amateur sport, will have an opportunity to attend. The sports will begin at 10.30 a. m.

AMERICAN CHESTNUT

A Nice Free-Burning Coal for Cooking Stoves and Ranges Must be Moved.

A great many people like to use American Free Burning Chestnut Hard Coal in their cooking stoves and ranges. When this Coal is delivered well screened it is kindles and burns freely, requires no smoke and lasts well.

You can burn a smaller fire in the range with it than you can with Nut Hard Coal, and you can get the fire going quicker and it is more economical to use.

If you want to get some good, clean American Free Burning Chestnut now, call on Gibbon & Co. offer a great chance. They have about 100 tons in the shed, which is needed for other coal coming in, and for all orders placed between now and September 15th, for 50 cents per ton, or more of American Chestnut, they will deliver it in bulk, dumped at your door, at \$2.50 per ton.

Those who can use a smaller size American Chestnut can get a large size American Free Hard Coal at \$3.00 per ton, delivered for those dates only.

BICYCLE ROAD RACE

A bicycle race that is creating no little interest will take place this month, when the Dunlop Tire Company's trophy will be contested for. George J. Barrett, in whose hands the trophy has been placed, endeavored to make arrangements to have the race during exhibition, but the exhibition management would have nothing to do with the race. Frank White, however, has taken the matter up, and it is possible the race will take place in connection with the Marathon A. C. sports.

RECEIVED BY THE POPE

Rome, Sept. 4.—The Pope yesterday received in audience Cardinal Gotti, who has just decided to submit before the congregation of the propaganda on September 7th, the question relating to the appointment of a co-adjutor archbishop of San Francisco and a bishop for the new diocese of Rockford, Ills.

PRETTY TALL STORY.

A seventy foot whale, which was towed into the harbor at Phillips Cove, Maine, for exhibition, became so odorous under the influence of the heat that the wharfmen decided to destroy it by a stuffing of dynamite cartridges. It took five hours, the oil illuming it practically a floating lamp, and the stanzas gave Phillips Cove a free illumination which attracted hundreds of visitors for ten hours.

HALIFAX RACES DREW BIG CROWD

Three Races Were Disposed of Yesterday in Only Nine Heats—Time Was Good.

Halifax, N. S., Sept. 3 (Special).—With a track in as perfect condition as could be wished for, the second day's racing of the exhibition met came off. It took but nine heats to decide the three races on the card, one event only affording split heats.

Five three-year-olds faced the starter in the three-year-old trot stake, but the race proved a picnic for George Crescua. He romped home a winner in 2:27, shutting out Belle S. and Miss Meeta. Commodore Epanet and Robert J. B. made an interesting race for second place, the Commodore winning by a small margin. The second heat was a repetition of the first. The summary:

George Crescua, 1 1/2. Commodore Epanet, 2 1/2. Robert J. B., 3 1/2. Belle S., 4 1/2. Miss Meeta, 5 1/2. A field of ten starters scored up in the 2:30 trot. Blomdion went to the front on getting the word and led to the three-quarters, when Warren Guy, which had been trailing, went out to secure the lead. He lacked the necessary speed and work of a standing break, the entire field passing him. Sleepy Jack came up very fast, but broke twenty-five yards from the wire and Blomdion dashed under the wire a winner in 2:23 3/4 with Sleepy Jack, second and Gypsy Abbott, third.

In the second heat, Sleepy Jack was never headed. Made King beat Blomdion for second place. In the third Sleepy Jack went to the front at the eighth and at the quarter was twenty yards ahead of the field. Warren Guy passed Blomdion, but at the five-eighths pole went to a break and lost his position to Blomdion, which finished second to Israel gelding.

Sleepy Jack landed the fourth heat and the race in easy style, with Blomdion heating a closely bunched field for second place, 2:27. Five horses out of nine entered tried conclusions in the 2:22 class, which was hard fought out. The Springhill horse, Allie W., won the first two heats with Queen Marie and Mabel T., being contenders.

The third heat was the race of the day, Mabel T. and Allie W. fighting neck and neck throughout the entire heat, with Queen Marie out. Allie W. won out by the nose, although many thought it was a dead heat. The fastest heat was traveled 2:19.

HE WAS AN UNBELIEVER BEFORE BOB INGERSOLL

Chester Bedell a Noted Free Thinker is Dead at Youngstown Ohio.

Youngstown, Ohio, Sept. 2.—Chester Bedell, author of Twenty-nine Battles Fought with Hell and Intended to Kill a Self-Branded Infidel, died last night at his estate in North Benton, Mass. home county. He created a sensation by rebuking "those who use religion as a cloak to get their living without honest work."

Bedell was a man of strong convictions, which he never hesitated to express. He took pride in his religious independence and the fact that he was an unbeliever before Robert G. Ingersoll. He was 82 years of age.

CALIFORNIA'S "BIG TREES" HAVE NOT BEEN BURNED

Forest Fires Which Caused Fears for Safety of Grant Redwoods Have Changed Direction and They Are Safe.

Stockton, Cal., Sept. 3.—The fire in the forest near the big trees has taken a direction northward and away from the grove and is now burning toward the Stanislaus River. The latest report is that the fire fighters will check it before morning. The only big tree attacked by the fire was the alien tree of Monte Diablo and that is not damaged. The fire has burned over an area of four to five miles square and tonight the grove seems to be no longer in danger.

PAPER MILLS WILL RESUME

Glenn's Falls, N. Y., Sept. 2.—Officials of the International Paper Company announced tonight that several mills which had been shut down for four weeks will be started within a few days. The plants were closed because of a reduction of wages 10 per cent.

Joseph Slater, superintendent of the mill, stated tonight that when operations are resumed, the men must accept a cut. The International Brotherhood of Stationary Firemen and the International Brotherhood of Pulp, Sulphite and Paper Mill Workers, it is stated, have signed contracts with the company by which a revised schedule of wages is established for a period of eleven months from September 12. The new schedule is approximately five per cent and the company has agreed to revise the rate on August 1, 1909. The agreement affects about 10,000 employees in the thirty-two plants operated by the company.

William J. Burns, of Ticonderoga, vice-president of the International Brotherhood of Paper Makers, said tonight that the members of this organization would not return to work until the old wage scale was placed in effect.

SUSSEX RACES FIELDED

Sussex, Sept. 3.—A wire from Halifax from Jessie Prescott announced that entries have been secured for the Sussex races, which did not fill on the original dates of entry, and the races will be held on Sept. 22, 23 and 24. There will be a 2:17, 2:20 and 2:25 trot and 2:30 trot or stallion race.

PLUGHING FISH BACK INTO THE BAY

New Use Found for the City Snow Plough--To Rid Courtenay Bay Shore of Dead Fish.

Director Peters has had the city snowplow at work at Courtenay Bay yesterday and today. It is rather early in the season to get out the snow removing apparatus, but the conditions are unusual. In this instance, it is fish that are being plowed. For some days the tide has been washing up countless thousands of small herring along the shores of Courtenay Bay, and great quantities have been left high and dry by the tides, so that during the past few days they have been decomposing and the odor from the breakwater, northward, was literally covered with the small fish, and it would be a nuisance for farmers to secure several tons of the decomposed fish to use as fertilizer.

PICKED UP A BEAR

Steamer Left Montreal With a Strange Mascot.

The tramp steamer 'Logorn,' which sailed on Saturday morning from Montreal for Barbados, for a cargo of sugar, has on board as a mascot a young cub Polar bear. This specimen from Greenland's icy mountains was found floating on an iceberg off the banks of Newfoundland, on the vessel's way through the Gulf of St. Lawrence. The cub, which is hardly a month old, is much prized by the crew, which is composed mostly of Spaniards, and they intend to try to tame it. When the vessel was in port the cub was chained to a pile down in the hold near the refrigerators, this being the coldest spot that could be found on board. The question that is bothering the sailors is what to feed the cub on. For the present it is being brought up on bread soaked in water and chopped, cooked meat.

WANT TO GET BACK TO THEIR QUEBEC

Half a dozen Belgians and a couple of Frenchmen, called on the mayor this morning to seek his help in getting them back to Quebec. The men say they were hired at Montreal to work in the Minto coal mines and that they were to be paid \$2.20 a day. Instead of receiving this amount they were paid considerably less and contend they could not afford to work at such low wages. They want to be sent to Quebec, where they claim they can get work at a fair wage, and will be among their own people. The mayor referred the party to the Belgian consul, D. Mullin, K. C., but Mr. Mullin is out of the city today, and the men will have to get along as best they can until he returns, when it is expected he will be able to help them to get to their destination.
