Allies Now Mile Beyond Combles

Former German Headquarters—Quiet on British Front on Sunday—Heavy Casualties Among Officers

London, July 17.—The Anglo-French advance has brought the allied troops, where they make a junction, to a point about a mile in front of Combles, which, prior to July 1 when the offensive began, was the German headquarters on this sector.

Quiet prevailed on the British front on Sunday. The detachment which had been thrust forward to the third German line of Fourcaux Wood to protect the infantry operations, has now been withdrawn to the main position.

The casualty lists, as announced, total 227 officers dead and 457 wounded or missing; 597 men dead, and 1,832 wounded.

The British are keenly watching for the next move on the front, where comparative quiet still prevails.

FIERCEST OF THE WAR

New York, July 17.—The London correspondent of the Tribune cabled last night as follows:

Exhausted by the desperate fighting of the last two days, the German and British troops on the Somme are resting on their arms tonight. In the lull which has followed what correspondents at the front describe as the fiercest fighting of the war, the British are consolidating their new positions, north of the Bazentin-Longueval line, and are bringing up their heavy artillery preparatory to re-summing the great drive toward Peronne.

After four assaults hurled in rapid succession at the German lines in the region of Ovillers and Bazentin-le-Petit this morning failed to dislodge the enemy, operations on both sides came to an abrupt stop.

Kaiser on the Somme

London, July 17.—An official telegram from Berlin says that the Emperor William of Germany is now in the Somme battle sector, according to Reuters' correspondent in Amsterdam. He has received reports from the chief commander, visited hospitals, distributed iron crosses and made speeches.

FIGHTING FOR LIFE OF SIR ROGER CASEMENT

London, July 17.—A new chapter opened today in Sir Roger Casement's legal fight against being executed for high treason for his activities in the Dublin revolt. Sir Roger's case reached the court of criminal appeal.

Sir Roger's counsel emphasized the technical point that the law governing treason does not include any offence of adhering to the king's enemies outside of the realm.

Alexander Sullivan of Dublin, counsel for Sir Roger, said the appeal would involve two questions: First, whether the matter described in the charge was in truth an offense within the statute cited; second, whether the definition of the offense—adhering to the king's enemies—given at the reading of the trial was an inaccurate definition or defective as an instruction to the jury.

ON WESTERN FRONT WAITING FOR SIGNAL TO ATTACK

While the shells from the British guns are screaming overhead to make the German trenches untenable—these British infantry are resting in their own trenches awaiting the order to advance and take the Germans by storm.

Practically Ban on Meat-eating in Vienna

Vienna, July 17.—Meatless days hereafter will be meatless in reality. Presently, on account of various kinds of meat being exempted from the prohibition, the issuance of meat rations has been only partially restricted, but a new decree, which is to be effective immediately, prohibits the sale or consumption of all kinds of meats, including tinned or smoked meats, and of poultry and wild game on meatless days.

RUSSIANS ON WEST FRONT ACTIVE

Czar's Men Who Nearly Circled the Globe MENTIONED IN FIGHTING

These Are Troops That Reached France Last Spring, Via Red Sea—Germans Attack in Lorraine and Are Beaten Back

New York, July 17.—A despatch to the Tribune says: "One brief statement in the official communique issued last night took Paris by surprise and caused much speculation in military circles."

"On the Champagne front there has been great activity by Russian and French patrols," read the announcement.

Undoubtedly the Russian patrols formed part of the Czar's forces landed at Marseilles early last spring, after a perilous trip from Vladivostok by way of the Red Sea. Not for months has there been an intimation to the whereabouts of the Russians, who nearly circled the globe to fight side by side with their allies in the west.

Vague rumors have reached Paris from time to time that these troops were on their way to some part of the French front, but last night's statement is the first authentic indication that they are actually supporting the allied lines.

That the Russians should have appeared suddenly in Champagne is taken here to indicate either a sudden local offensive by the French in that region or the transferring of part of the French forces in Champagne to the Verdun or the Somme.

Especially Beaten in Lorraine.

Paris, July 17.—The Germans made two attacks in Lorraine last night. The first was repulsed. The second was repulsed. The attacks were repulsed.

West of Fleury, the French made some progress, taking three machine guns. A raid on a trench in the Champagne, occupied by Russian troops, was met successfully by a counter attack causing heavy losses to the Germans.

On the Verdun front the night was comparatively calm except in the vicinity of Hill 304 where rifle firing was brisk.

Paris, July 17.—A contingent of Russian troops disembarked today at Brest. The Russian troops will be sent to camp from Brest, and later to the front.

Between April 20 and May 5 there arrived at Marseilles five bodies of Russian soldiers after a journey of about 17,500 miles from Moscow, where they were assembled at Port Dalny, Manchuria, and thence by water via Suez Canal. The number of men in the first contingent has not been given out, but it is believed to be about 25,000. These troops were quartered at camp de Mailly near Troyes for several weeks and then sent to the front.

The official French communication of last night showed that Russian troops were in the trenches in the Champagne. It was said in Paris several weeks ago that the sending of the first contingents was largely in the nature of an experiment, and that they might be followed by more substantial numbers.

LONG, PATIENT AND ARDUOUS OFFENSIVE

"No Battle of a Day or Two," Says Eng'nd's Finance Minister in Call For Saving at Home

London, July 17.—The week begun yesterday is regarded in this country as "war savings week" in which every citizen of the United Kingdom is expected to invest, according to his means, in the various forms provided by the government for financing the war.

The chancellor of the exchequer, Reginald McKenna, in a manifesto issued last night, urging the importance of the nation's efforts in this direction, says, in referring to the present military operations in France:

"This is no battle of a day or two, but the beginning of a long, patient and arduous offensive, demanding from our soldiers heroic exertions and unimaginable sacrifices. Are we at home content to be mere spectators of this wonderful effort?"

Then pointing to the necessity for the same patient and rigid self-denial on the part of the community, Mr. McKenna says:

"Extravagance and waste are treason in war time and indifference is a crime."

THE GREEK KING WAS TRAPPED BY FLAMES

Athens, July 17.—King Constantine had a narrow escape from death in the fire which destroyed the Royal summer residence at Tatoi last week. The king was trapped by the flames and fainting, but he was rescued by soldiers.

HUNS ACROSS THE SEA. Owing to shortage of horseflesh and petrol, cabs disappear from the streets of Berlin.

MORE ST. JOHN MEN IN LIST OF CASUALTIES

A telegram received in the city this morning from Ottawa says that, although Captain Allen LeVitt had been wounded in the face and head, he remained on duty. Captain LeVitt is a member of the divisional signalling corps and has been at the front since the first Canadian contingent went into active service.

He was one of the first officers to volunteer for overseas duty and left here as a lieutenant under Major T. E. Powers. Since leaving he has been promoted to captain and is now in charge of a signalling unit. He has been operating in Belgium and also in the district of Armentieres.

Letters written by him under his command contain words of praise for his ability, kindness and bravery and the fact that he remains on duty after being wounded would indicate that his tributes were well needed.

Prior to leaving with the first contingent he was employed with W. H. Thorne & Co. Since he was sixteen years of age he took an interest in military affairs and four years before the war broke out he was a member of the signalling section in St. John.

Private W. A. Dick improving.

Mrs. William M. Dick, 30 Erin street, has received word from her husband, Private W. A. Dick, who was transferred from No. 1 Canadian Hospital, Etaples, France, to No. 2 General Hospital, Cambrai, France, on June 8, suffering from a gunshot wound in the face, and fractured jaw. A letter from the latter hospital dated June 27, said:

"Dick's condition is quite satisfactory, and he is likely to be sent to England very soon."

Pte. Vincent Joyce

Mrs. Catherine Joyce of 288 Guilford street, received official report this morning from the adjutant at Ottawa, advising her that her son, Pte. Vincent Joyce, infantry, was officially reported admitted to military hospital at Edmonton, Can., on July 2, contusions.

He was seventeen years of age when he enlisted. He has two brothers in uniform, Michael of No. 8 siege battery, and Walter of the 10th. Almost simultaneously with the receipt of the telegram, his mother received a letter from him telling of his wounds. According to the letter he has been slightly wounded on two occasions, but had just recovered from the first one when he was hit again. His friends will be glad to know that he is on the mend.

Pte. Chas. McRae.

Private Charles McRae, previously reported missing since June 2, is now reported, unofficially, as a prisoner of war in Germany. This word was received in Ottawa this morning by his sister, Miss Cynthia McRae, who makes her home with their uncle, Henry Rowley, 44 Rodney street, West St. John. Private McRae is twenty-four years of age and went over with a New Brunswick unit.

Prisoner of War

Relatives of Private John Saunders of St. Mary's have received a card stating that he is a prisoner of war at Coln, Germany.

Nephew of Col. Guthrie

Mrs. Thomas Boag of Lincoln, Sunbury county, has been notified that her son, Private Joseph Hagans, is in hospital suffering from shell shock. He is a son of the late Sgt. William Hagans of the Royal Regiment, and a nephew of Col. Guthrie. (Continued on page 2, seventh column)

British Second Blow Most Significant Feature of The Allies' Work So Far In War

Amazement in Berlin Has Turned to Dismay—Germans Had Made Mighty Efforts to Stay Advance After First Line Captured

Rotterdam, July 17.—(Toronto Mail and Empire cable, by Leonard Spray)

—The British armies' new blow has caused the deepest anxiety in German hearts with the forward movement, perhaps only in its first stages. It is fully realized that this success is not only of importance itself, but has infinitely greater significance than had the assault on the first line.

Whilst German headquarters were prepared for the necessity of giving way at some points when the British offensive was first launched, they believed that the second line would be able to withstand all pressure.

The positions just captured were defended with great strength. After the taking of the first line by the tremendous British attack, efforts were made to reinforce the second line with troops and guns brought from other fronts, and large drafts of even fresh formations from depots behind the front and also in Germany.

The Germans reckoned on a repetition of the Nerve Chapelle-Looz-Champagne campaign when, by concentrating troops at the points threatened they prevented any further advance.

THAT THE SECOND BRITISH BLOW SUCCEEDED IS RECOGNIZED AS THE MOST SIGNIFICANT FACT ASSOCIATED WITH ANY OF THE ALLIES' MILITARY OPERATIONS SINCE THE BEGINNING OF THE WAR.

It is possible that the Germans did not realize in time the tremendous force the allies would put into their blow and they did not abandon the offensive against Verdun. Although a certain number of troops were hastened away to some districts, they were quickly replaced with drafts from depots.

The German government through the press, is representing the fighting on the Meuse as of real importance in the situation on the western front. On the successful British offensive the military critics are silent with amazement which cannot be accidental, whilst all the newspapers give prominence to trivial German successes in the Verdun district.

DISMAY IN BERLIN.

A neutral traveler from Berlin says that when the report came that the English offensive had really commenced the people were amazed and for two days did not believe it. The amazement now, however, has given way to dismay than the results achieved on the field. The British effort is equivalent to an invasion of Germany.

PEACE TALK AGAIN AND ONCE MORE IN GERMANY

The Hague, July 17.—The German newspaper Vorwarts prints an article recently written by Professor Konrad Meiser of Berlin, a member of the National Liberal party, under the heading: "Dread of Peace." At some length he tries to make out that the role of peace mediator would only serve to raise the personal prestige of President Wilson who, according to the writer, is anxious to emulate President Roosevelt's success at Portsmouth.

"But," he adds, "this should be a warning to us, seeing the result was that Japan was cheated of the fruits of victory."

The Vorwarts comments on the article: "The anti-Americanism of the National Liberals seems to have risen to such a pitch of self-deception that they would wish the war to continue indefinitely, so long as America is kept from being the mediator. The great majority of German people certainly do not share this view."

DIED SUDDENLY

Wm. D. Rolston of Yarmouth, Former Purser on Prince Rupert

Mrs. H. N. Hamilton received a telegram this morning from Boston announcing the sudden death of William D. Rolston, of Yarmouth, N. S., who for several years was purser on the steamer Prince Rupert. Of recent years he was a customs official. He left only last week, accompanied by his mother, for Boston for medical treatment. He was thirty-three years of age and unmarried. He had many friends in this city, who will hear with regret of his death. He is survived by his parents, Mr. and Mrs. J. D. Rolston, of Yarmouth, and one sister.

FREDERICTON NEWS

Mr. Rolston was the only son of J. D. Rolston, late proprietor of the Yarmouth Times. The young man died in the Massachusetts General Hospital, following a third operation for appendicitis.

Opening of Grand Circuit

Cleveland, July 17.—The opening day of the Grand Circuit for the season was marked by bright, warm weather with a cooling breeze blowing. The indications pointed to a large crowd for the initial card which consists of the 209 trot, 207 pace, Edwards stake for 2,10 pacers, and the Forest City sweepstakes for two year old trotters. The track was reported to be fast and in excellent condition.

NOON COUNCIL TOMORROW

Owing to the fact that the municipal council will be meeting tomorrow afternoon, the weekly meeting of the common council will be held at noon instead of three o'clock tomorrow.

CANADIAN GUNS IN ACTION—HOT DAY IN FLANDERS

One end of the bombardment which blew German defences to bits on the western front, and paved the way for the advance of British infantry—in the present big advance. Gunners of the Maple Leaf, stripped to the waist, serving the guns in a warm corner of the fighting on the western front. Notice that the gun is in a crater, or dug out, and is screened with boughs, in order to escape the notice of the diving German aviator.

ACTIVITIES ARE VARIED WITH BRITAIN'S WOMEN

One picture shows a pretty English girl selling roses for war relief, another shows a London actress tickling her toes in the River Thames before taking an exhibition drive—also for the benefit of Red Cross funds, while the larger shows the pickiest of all—an Englishwoman doing hard manual labor in the barrel room of a vinegar factory, to help out her pension, her husband having been killed in the war, leaving her with several little children.

MARRIED IN MELROSE, ARE IN ST. JOHN TODAY

The wedding of LeRoy H. Sandall of this city to Miss Edith Foster Crawford, daughter of Mr. and Mrs. John L. Crawford took place on Saturday evening at 7:45 o'clock at the home of the bride's parents in Melrose Highlands, Mass. The house was beautifully decorated for the occasion, with pink and white carnations and greenery, and a pretty feature of the arrangements was an aisle of ribbons, held by six little girls, through which the bridal party passed. The ceremony was performed by Rev. J. O. Paisley, pastor of the Congregational church.

The bride, who was gowned in white satin trimmed with Georgette crepe, with train and bridal veil, and carrying a bouquet of bridal roses, was attended by Miss Hattie L. Greenly, who wore pink blue tulle and carried a bouquet of pink roses. After the ceremony a reception was held and, later in the evening, Mr. and Mrs. Sandall motored to Boston. Leaving there yesterday, they arrived in St. John this morning. They will spend the next few months at Mr. Sandall's summer cottage at Dry's Cove.

WITH THE LOCAL SOLDIERS

Sergeant Cosman of the staff of the headquarters of the New Brunswick command has been appointed orderly room sergeant with the 28th Kiltie Battalion. He will leave soon for Fredericton where he will take up his duties. Sergeant Instructor Ryan, who was lately instructor with the 140th Battalion, will proceed to Aldershot camp tonight, and be attached to the Highland Brigade for instructional purposes. It is reported that John H. McCollom, who has resigned as chief of police of Fredericton has been offered the post of company sergeant major of the 28th Battalion being organized by Col. Guthrie for overseas. He is a South African veteran.

The Nightingale's Song Here is a fine descriptive writing on the wonderful effect of the nightingale's song. Then, in the solemn stillness, the nightingale began to sing. Three clear notes rang out from the echoing copse; it was like the voice of the organ in a great church. It sounded over the fields, die away in a low, hushed fluting. Now louder and staccato, like the spiral stair of metallic sound, the notes rang out, high and low alternately, in quickening time, a running, rustling and rioting with long-drawn pippings, wonderfully sweet, that rose in a storm of bell-like tinklings, limpid as water, with a strength, a violence, a precision exceeding the music of a hundred thousand tiny cailloux pealing through the silent night. And now again the notes were softly weaving their fabric of sound, bewitchingly quiet, intimately sweet; musingly careful, like the music of tiny glass bells; and once more they were louder and again they faintly away, borne on the still wind like the murmur of angels praying.

A valuable relic was recently found in Riggsville, Me., in the shape of a large brass eagle, originally made for a figurehead on a ship. It weighs 27 pounds, stands 29 inches high and measures 18 inches from tip to tip. It is known to be more than 100 years old. The age is verified by the fact that the casting was made in two pieces and then brazed together.

DARING AIR FEATS

British Airman Chases Five Enemy Planes—German Who Hid in a Shed.

The Air Board has decided to publish at intervals a resume of the principal incidents described in reports received from the Royal Naval Air Service and the Royal Flying Corps in various theatres of war. The following is a selection from the first of these communications:

On May 20, Flight Sub-Lieutenant A. when four miles off Blankenburg, observed a German seaplane diving down to 4500 feet. The pilot succeeded in getting above and behind this enemy, and fired 25 rounds at close range. The enemy machine was observed to swerve and dive into the water and sink.

On the same day an attack was made upon Dunkirk by hostile aircraft. Several British machines went with the object of cutting off the enemy. On the return journey, Flight Sub-Lieutenant D. attacked three machines in turn. One, a large two-seater, started to smoke, and nose-dived toward the sea. Another officer in the air at the same time says he observed in the same locality what appeared to be a machine on fire.

Flight Sub-Lieutenant E. when six miles out to sea, observed five hostile machines, which he attacked. One dived steeply. The others made good their retreat. Flight Commander A. followed the raiders out to sea. He closed with three, and opened fire. One toppled over suddenly, and nose-dived out of sight. Reloading the pilot attacked another, which dived steeply. A third escaped. It is probable, probably two or three machines were destroyed.

On May 4, Second Lieutenant C. sighted a hostile machine between Hein and Clerly, which he attacked. The German tried to land, but hit a wire fence and broke up. Lieutenant C. chased the pilot and observer, whom he saw running across the field. One fell, the other hid in a shed. Lieutenant C. returned safely under heavy fire.

On the same day Captain T. was killed by anti-aircraft fire. His observer thereupon climbed into the pilot's seat, and, although the machine had himself unhurt.

On May 16, twenty-seven combats in the air took place. Lieutenant B. and Corporal S. attacked an Albatross near Lille. After a spirited and skillful maneuvering the hostile machine went down rapidly, and was seen to strike the ground at the cross roads south of Lille. Smoke rose from the spot, and only one wing was visible. A Fokker then attacked, but on a Bristol Scout, when flying at 12,000 feet, saw an Albatross at 5,000 feet over Grivity. He descended and attacked until within a few yards, when the hostile machine turned and got into a nose dive. When about 200 feet from the ground it was seen to turn upside down.

The queen paid a recent visit to the Girls' Trade School, Hammersmith, Eng., and watched the girls who are learning how to conduct the business of a grocer at work. Courses of training have developed the scheme, and new methods have in some cases been evolved out of the needs of the workers. Now that the school has been in use for some time, it has all the aspects of a first-class grocer's establishment, for the principles of order and perfect cleanliness are among the first lessons acquired. Individual skill varies, of course; some girls are quicker than others at the necessary mental arithmetic, and some are more nimble of finger. There is a uniform standard, however, of method and cleanliness. When, for instance, a student has to select a biscuit tin from the symmetrical rows she knows it has to be replaced exactly. Some 200 are already filling appointments as successful assistants to grocers. Employers express themselves highly satisfied with their new employees, and it is generally believed that the woman grocer has come to stay.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

MABEL TALIARFERO, IMPERIAL TONIGHT

Mabel Taliarfero, at the Imperial tonight, will be a charming newcomer for moving picture enthusiasts. It will not doubt be agreed that she is the cleverest interpreter of child roles on the screen today, and her wonderful versatility is demonstrated in the picture now being shown, viz.—"Her Great Price," for she is shown as a plain young woman of ordinary life, a gammon of the tenements, a lady of wealth in fine gowns, and again just a sweet, natural ingenueness. The Metro production as positively bewitching. The remainder of the Imperial's programme tonight will be "Siberia, the East Unknown" (first instalment), and the splendid Pathe British Gazette, giving Allied war news. Tomorrow afternoon, "Fog of the Ring," will be shown in addition to the regular programme.

GEM STARTS WEEK WELL There is a very attractive programme for tonight and Tuesday at the Gem. Douglas Fairbanks, Broadway star, is featured in a five-part story, "Habits of Happiness," an alluring subject treated in masterly style. See him as "Sunny Wiggins." The comedy, "A Bath-house Blunder," is one of the best yet—a screamingly funny time at the seashore, with Mae Busch as the belle of the beach.

AT THE OPERA HOUSE Blanche Sweet in "The Sowers," a powerful photo drama of love, politics and intrigue, at the Opera House tonight. Also another good travel picture, Australia's Unknown, showing many interesting scenes and happenings in out of the way spots in this wonderful country.

BUSY PORTLAND

Portland, Me., July 17—The commerce of this port continues to mount up, and the question, "what will be the final figures for 1916?" has become a matter of guess work. At this time the reserve of wheat in the elevators is about 1,500,000 bushels, the wheat in cars in the Grand Trunk yards and on the tracks in this immediate vicinity is said to be about 3,000,000 bushels more, and there are rumors that another allotment has been made to Portland from the wheat ports of 5,000,000 additional bushels. The export business from here has assumed enormous proportions, and the end is not yet. The war has put Portland on the map to a very unexpected degree. The customs house people believe that the year will not only be a record breaker up to this time, but that it will be hard, if not impossible, to equal or even to equal in the future.

Traveling in Arctic Circle. Letters received from Dawson City report the arrival of Mr. and Mrs. Willard Kitchen of Fredericton, who are members of an excursion party going 800 miles further down the Klondike river into the Arctic Circle to see the Midnight Sun. In Dawson City the maximum temperature on the three successive days in which they were there was 89, 90 and 92 degrees.

Going to Military Camp. Dr. J. W. Inches, who has been for the last two weeks superintending extensive improvements being made to his property holdings in Fredericton, left for his home in St. Clair, Mich., in response to a summons to report for duty with the Medical Reserve Corps of the United States Army. The corps will go into camp for two weeks at Plattsburg, N. Y. Dr. Inches expects to return to Fredericton in about three weeks.

RECENT WEDDINGS

Dauphinse-Warner. At the Presbyterian Manse, Moncton, by the Rev. Mr. Porter Drum, Miss Gertrude May Warner became the bride of Clarence B. Dauphinse, both of that city.

McKay-McPherson. The marriage was solemnized at Dunstaffing, Chatham, on Tuesday evening of William McKay, Stathadam, and Mrs. Ella McPherson, Nelson, and daughter of Mrs. George Tower, Moncton.

NOTHING TO IT

London, July 17—A report current last year that Lord Reading, when he visited the United States as head of the Anglo-French financial mission, had been empowered to agree with the American government as to some new international tribunal to override the existing system of prize courts, was denied officially at that time, but was brought up again in the house of commons today by Major Rowland Hunt. Lord Robert Cecil, war trade minister, said in reply, that there had never been any intention on the part of the government to set up an international prize court.

Commissioner Black III

Commissioner George Black, of the Yukon, who was operated on for appendicitis recently at Winnipeg, will en route to his home in Dawson City, has suffered a relapse due to leaving the hospital too soon. The latest word states that his condition is critical and he is threatened with peritonitis.

COMMON SENSE PROTECTS SIGHT

Having your eyes examined by a competent eye specialist is only ordinary care of your sight. Age works changes in the eyes as well as in the body. When you are informed about these changes, you can take the necessary steps to prevent harm to the eyes.

Sharp's optometrist will tell you the exact condition of your eyes. Glasses will not be recommended unless they will be a benefit to you. The examination will not take long and is not unpleasant in any way.

**THE MODERN WAY TO FURNISH HOMES**

In these days of Pullman sleepers, no one would think of using a prairie schooner to cross the country. With modern plumbing facilities, nobody takes clothes down to the river to do washing. The old way of doing things gives place to the new. It is the same way with furnishing a home. No one thinks of doing without furniture in the home. We make it possible to have not only the necessities, but what is modern and in good taste, at Amland Bros.' low prices.

**A REMARKABLE STATEMENT**

Mrs. Sheldon Spent \$1900 for Treatment Without Benefit. Finally Made Well by Lydia E. Pinkham's Vegetable Compound.

Englewood, Ill.—"While going through the Change of Life I suffered with headaches, nervousness, flashes of heat, and I suffered so much I did not know what I was doing at times. I spent \$1900 on doctors and not one did me any good. One day a lady called at my house and said she had been as sick as I was at one time, and Lydia E. Pinkham's Vegetable Compound made her well, so I took it and now I am just as well as I ever was. I cannot understand why women don't see how much pain and suffering they would escape by taking your medicine. I cannot praise it enough for it saved my life and kept me from the Insane Hospital."—Mrs. E. SHELDON, 6657 S. Halsted St., Englewood, Ill.

Physicians undoubtedly did their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

**Why Drag Through Life Wearing Worthless Trusses?**

90% of the Suffering and Trouble Ruptured People Go Through is Caused by Spring and Leg-strap Trusses

Are you sick and tired of wearing trusses you can't make hold, which you can't feel safe in, or which hurt so you scarcely give you a minute's peace? Don't you know that such contraptions will sooner or later let your rupture get the best of you?

Don't you know they are almost sure to cripple you up, so you won't be able to keep at work, won't be able to make a living?

Are you afraid they'll gradually let you get so bad that sooner or later you'll have to face a dangerous operation?

Are you willing to make a sixty-day test—without having to risk a cent—and see for yourself what a relief it is to get rid of such misery-causing makeshifts?

**No More Belts, Leg-Straps or Springs**

We have found a way to hold any man's rupture without harmful pressure, without any belts or springs around your waist, without having to wear leg-strap. It is our guaranteed rupture holder. It is as big an improvement over elastic and spring trusses and so-called "appliance" as the modern locomotive is over the first steam engine ever built.

**60 Days Trial to Prove It**

We have so much faith in it—have seen what it has done for so many others—that we are willing to make one especially for your case and send it to you for sixty days' trial. While it is on you plenty of time to see for yourself just how good it is.

If it doesn't keep your rupture from coming out or from bothering you in any way, then you can send it back and it won't cost you a single penny.

It is the only thing we know of for rupture that you can get on long enough trial to make sure; because the only thing good enough to stand a long and thorough test.

**All About It in Free Book**

Don't send any money. Just write for our free book—cloth bound, 20 separate articles, 96 pages—and find out everything you want to know. It is full of facts never before put in print.

It shows just why operation is nearly always a gamble with death and why those who manage to live through it often have to keep on wearing a truss.

It exposes the fakes and humbugs—puts you on guard against being fooled and against throwing money away.

And it tells all about our guaranteed rupture holder—the famous Clute. Shows how simple it is. Why it needs no belt or leg-strap. How it instantly and automatically protects you against every strain, so your rupture can't be forced out. How it provides the only way ever discovered for overcoming the weakness which is the real cause of rupture. How it has brought complete cure in thousands of cases that seemed almost hopeless. How it is water-proof and will hold in the bath. How you can get it on 60 days' trial and how little it costs if you keep it.

Explains the care and attention we give you and why, because of our long experience and thorough knowledge of rupture, we are successful in cases that would utterly baffle your local truss-tiers.

Write for the book today. That will take only a minute. But it may free you from trouble and worry for the rest of your life.

The Evening Times and Star

ST. JOHN, N. B., JULY 17, 1916.

The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

WHY?

Why does Lieut. Gov. Wood retain as one of his advisers a gentleman who is not a member of the legislature, and therefore not responsible to the people? Have we abandoned the principles of responsible government?

THE SCHOOLS OF ST. JOHN.

Dr. Manning is performing a public service in presenting the situation with regard to school buildings before the people from the standpoint of the school board. He is also presenting an argument in favor of a wider use of school buildings. If the people whose children attend any particular school were in the habit of meeting within its walls to discuss matters of special neighborhood interest, including the more profitable use to which school buildings might be put, they would learn the exact state of affairs and would not let the bugbear of taxation stand between the schools and the efficiency which should characterize them.

The direct statements which Dr. Manning makes regarding the condition of existing school buildings, the need of new buildings, and the comparisons of taxation for school purposes with that of other cities, ought to be read and thoughtfully considered by every citizen. It is as much a matter of interest for women as for men, since mothers are as much concerned as fathers in the efficiency of the schools and the general welfare of the community.

The school board has perhaps been at fault in not presenting its case more frequently and fully. Perhaps there is a feeling on the part of the public that the board is less competent than it should be, and that its personnel could be strengthened with advantage. Possibly the city council has been too much disposed to hamper the board in its work. Whatever the cause, the present situation is not satisfactory.

What is the remedy? Is it not clear that a more active and widespread public interest must be aroused? This city can afford as well as any other to have simple school accommodation and the best possible equipment. Whatever stands in the way must be removed.

Would it not be wise to appoint a representative committee, to serve without remuneration, to make a study of the educational situation in St. John, get the views of the school board and city council on the questions of finance and administration, and present to the citizens a comprehensive report on the needs of the time?

There are of course those who would object to any increase in taxation, but they must be reckoned with in any matter involving public expenditure; and so long as St. John needs more and better schools, their objections should carry no weight whatever. The community interests in such a matter override those of any penurious individual.

No doubt it will be said that no increased expenditure should be considered in war-time. Such a plea might carry weight if there were any evidence that the pinch of the war were being felt in St. John, but there is not. The majority of the people are spending money as freely and as carelessly as before the war. They have the money to spend, and the very small increase in taxation which a progressive school policy would involve should not trouble them at all.

People are not averse to spending money when they know it is needed. The magnificent response to every appeal in these past two years proves the truth of this assertion. "The city needs more and better schools. It is not necessary to make an enormous expenditure at once. Let a progressive policy be adopted, with the full assent of the citizens, and within five years St. John will be able to point with pride to its school buildings, and their value as educational and community centres. The board of trade, the Rotary Club and other organizations ought to interest themselves in the matter. Let us have an educational survey and a publicity campaign to rally the people to the support of the schools which mean so much to their children and to the welfare of the whole community."

THE WAR NEWS

Another week begins with very satisfactory reports from the British, French and Russian fronts. The British have made further substantial gains of territory, captured more prisoners and taken some large guns and large quantities of war material. They have penetr-

ated the third German line at one point, and have been able to use cavalry in a small operation—for the first time since 1914. The French have also made some progress on the right bank of the Meuse, and successfully repulsed German counter attacks. The Italians also report some advantage gained over the Austrians.

The Russians have captured Babur, in Turkish Armenia and forced the Turks to retreat at two other points in the Caucasus region, leaving a considerable number of prisoners and war material. They have also forced the Austrians and Germans to retreat in Volynia, and have captured a number of guns and upwards of three thousand prisoners. German attacks in massed formation in the Baranovichi region were repulsed, and Russian counter-attacks made progress. On every front the tide of battle continues to set strongly against the Central Powers.

British aerial supremacy becomes more notable. At the outbreak of the war it was feared she would not be able to match the Germans in air fighting, but in that, as in everything else she has progressed until now her ascendancy is daily demonstrated. Last night's cables said:

"In the aerial combats in the last 24 hours we destroyed three Fokkers, three biplanes and a double-engine aeroplane, and forced another Fokker to land in a damaged condition. All our machines returned safely to our lines."

The French airmen are also doing splendid work. Last night's cables said: "On the morning of July 16, two enemy aeroplanes were brought down in the Somme region, one of them by Sub-Lieut. Guynemer. This is the tenth aeroplane brought down by that officer. On July 15, Sergt. Rochford brought down his fifth enemy aeroplane."

The relative scarcity of German aircraft is noted by the correspondents at the front, and is another evidence of the growing supremacy of the Allies in this kind of warfare.

There are renewed rumors that Austria is weary of the war and may sue for a separate peace. There are also rumors of an anti-monarchical movement in Greece. In Arabia the Turks are losing their influence and the Arab revolt is spreading. Near the Gulf of Suez the British have raided sixty miles of territory held by the Turks, and brought back prisoners and live stock. Nowhere can the Central Powers find a ray of light. However long they may continue the struggle the more overwhelming will be their final defeat.

THE PAROLE SYSTEM

That the method of parole "positively spells the height of perfection in reforming men everywhere" is the view of the New Era, the prison journal of Leavenworth, Kansas. It says further:

"From observation of prisoners, statistics, and records of penal institutions, we find the indeterminate sentence the most advanced step of practical reform. It offers an opportunity for offenders and removes the barrier of hatred toward society so prevalent among many prisoners sentenced to long terms. Yet it seems reasonable to suppose that if men are ever going to reform they will do it in one year as easily as they will in ten years. Long sentences tend to embitter men and seem to breed seeds of revenge in the minds of many men. These men often carry in their hearts a feeling that they are being severely punished. It hardens offenders and encourages them to cruelly condemn every one. This makes it doubly hard for others in their attempts to sway their minds in the right direction of thinking. Fortunately, however, the parole system occasionally steps in and removes this obstacle by giving men an opportunity to redeem themselves."

Canada's chief parole officer heartily agrees with this view, and reports excellent results from the qualified parole system adopted in Canadian prisons.

The British success has caused dismay in Germany. The Germans are said to have believed their second line impregnable. Gradually the people will learn how the war-lords have deceived them from the beginning.

The Standard foolishly continues its attempt to make people believe the German vote defeated the Borden candidate in North Perth. Every German in office under the Borden government knows better than that. The Standard is playing with fire.

The Canadians have been fighting with the Ross rifle. The Ross rifle is now to be discarded. Isn't there a story of some interest in this connection? Would the Canadians have fared better if they had had a better rifle? When is that report of the test of the Ross rifle to be published?

The drowning accident of Saturday afternoon has caused deep mourning in a wide circle of friends, as well as among the relatives of her whose fresh and vigorous young life so tragically ended. The beautiful river takes its toll year after year, and these accidents should warn young men and women against taking risks of any sort in frail craft.

LIGHTER VEIN.

He had been elected a representative and had come up to the Capitol to take his seat in the house.

He was a modest, retiring individual and felt quite awkward as he stood diffidently in the lobby among a throng of the ordinary members.

"Well, Mr. G.," said one of the legislators near him, "and what are your impressions of the house?"

"To tell you the truth," replied the new member in some confusion, "I wonder how you all get here."

A week afterward he made a speech which astonished them, and the same member buttonholed him again after the debate.

"What are your impressions of the house now?" was the question. "Getting to know us, eh?"

"Yes," quietly replied Mr. G. "And now I wonder how you all get here."

He was not asked about his impressions after that.

At a certain church in a Jersey town it is the invariable custom of the clergyman to kiss the bride after the ceremony. A young woman who was about to be married in the church did not relish the prospect and instructed her prospective husband to tell the clergyman that she did not wish him to kiss her. The bridegroom obeyed the instructions given.

"Well, Harry," said the young woman when he answered, "did you tell the minister that I did not wish him to kiss me?"

"Yes."

"And what did he say?"

"He said that, in that case, he would charge only half the usual fee."

"Do you play very much nowadays, Miss Solo?" he asked as they seated themselves after a while.

"Only occasionally," she replied. "I have neglected my music shamefully of late and am getting quite out of practice."

"I was passing your house last evening," he went on, "and stood at the gate for a moment to hear you play. Instead of getting out of practice, I think you are improving in every respect. Is possible," he added politely.

"Last evening," she questioned.

"Yes—about nine o'clock."

"You are mistaken. I was at the opera last evening," she said in a strained voice as she accepted an invitation to dance from another gentleman. "It was the man tuning the piano you heard."

"Thompson has made a discovery," "indeed?"

"Yes. He says that the more buttons there are on a woman's coat the greater the probability that it really fastens with hooks and eyes."

Constant Headaches. When the nervous system gets run down one of the most persistent symptoms is headache. Nervous headache has been described as the cry of the starving brain for more blood.

Because of its remarkable blood-forming and blood-strengthening qualities, Dr. Chase's Nerve Food ranks first as a means of overcoming nervous exhaustion, nervous prostration, headache, indigestion, sleeplessness, irritability and all the annoying symptoms of nervous breakdown.

It is not a mere relief, but thorough cure, for it rebuilds and reconstructs the wasted and depleted nerve cells.

Another Ban On Drinking. The growing sentiment against the use of alcohol as a beverage is reflected in the instructions of a Judge of the United States District Court to a jury which heard the evidence in a suit for damages based on dismissal upon the ground that the drinking of liquor was not in accord with the "safety first" programme of the Chicago, Milwaukee and St. Paul Railroad.

Who Told Berlin?  
William Le Queux, writer and novelist, writing to the Daily Sketch on the subject, says:—"It is to be hoped that the authorities will now at last awaken to the fact that Germany possesses some very rapid and secret mode of communication between London and Berlin, a truth which I have several times endeavored to point out. The tragic end of Lord Kitchener once again reiterates the peril. The first news of the disaster was issued by the Press Bureau at two p.m. on Tuesday, and instantly the evening papers gave the news to Great Britain. Yet within sixty minutes the same news was actually being distributed by Berlin! Now in peace-time an ordinary message, even one of those with the red docket gummed to it marking it as a government message, would take long or longer to reach the German capital. The Germans have some secret mode of communication which our intelligence department—excellent though it is—has not yet discovered! A leakage, and a very serious leakage, apparently from some official quarter somewhere, has been in progress ever since the war began. Berlin knows what is going on in London before the man in the street knows!"

"I've just had a letter from my son to say he was won a scholarship. I can't tell you how pleased I am."  
Char-lady: "I can understand your feelings, mum. I felt just the same when our pig won a medal at the agricultural show."

**Met Death in Kennebecasis**

Miss Constance McGivern Drowned When Canoe Upset, Despite Heroic Efforts of Companion, Third Officer Johnston of S. S. Caraqueet.

The entire community has been deeply grieved by the death of Miss Constance McGivern, who was drowned in the Kennebecasis on Saturday afternoon. A bright young lady with a winning personality, she had hosts of friends throughout the city, and the sympathy for her relatives in their sad bereavement is as sincere as it is widespread.

Miss McGivern left St. John with a party of friends on Saturday afternoon by the suburban train bound for an outing at Mr. DeVeve's cottage on Mathews Island. From Rothesay the others proceeded in motor boats, while Miss McGivern and Third Officer Johnston of the West India steamer Caraqueet started to cross the river in a canoe.

The voyage was made in safety until they were about opposite the point known as the Minister's Face. Then a squall struck them and, in the heavy sea which arose suddenly, their frail craft was swamped and the occupants thrown into the water. After vigorous efforts by the others, Miss McGivern succeeded in righting the canoe but could not empty it of water as the waves were breaking over it. Mr. Johnston then placed his companion across the craft and started to propel it by swimming behind it. This proved too difficult to promise success and he suggested that he swim to shore and seek assistance. Miss McGivern was a good swimmer and was confident that she could make the passage and insisted on accompanying him. Soon after they had started Miss McGivern became exhausted and they took a cramp. Her companion went to her assistance and tried to carry her along with the waves breaking over their heads constantly. Finally the burden became too great and they sank. Mr. Johnston brought the young lady to the surface twice but finally she slipped from his drenched fingers and the third time he could not find her again and finally he turned and swam to the shore, arriving there exhausted.

After a period of unconsciousness Mr. Johnston recovered and made his way along the shore until he sighted some of the party who had returned in a motor boat to look for the missing members. By the use of the semaphore system he signalled his arms that Miss McGivern was drowned and then collapsed again. The others hurried to him and, after the doctor of the Caraqueet, who was with the party, had examined her, he signalled the party, who did not fully recover consciousness until ten o'clock at night. In the meantime the news had been telegraphed to the city and Commissioner Russell sent out a party of men with grappling irons to look for the body. Grappling was started on Sunday morning but weather conditions made it impossible to continue and the men stayed over night to resume work today.

Miss McGivern was about twenty-two years of age. She was the only daughter of Mrs. Emma Louise and the late Richard McGivern, barrister, and was at one time harbor master of the city. J. S. McGivern and George McGivern are uncles, and Miss McGivern is an aunt of the deceased. Her mother and grandmother are still living. She was an active member of St. John's (Stone) church, a teacher in the Sabbath school. She was a member of Loyalist Chapter, I. O. O. E., the Young Women's Patriotic Association, Women's Canadian Club and the St. John Tennis Club.

**Capt. Geo. Keefe Among Wounded**

Cables Word of His Own Slight Injury; St. John Soldier Returns

Captain George Keefe, commanding officer of "B" company of a New Brunswick unit, has been slightly wounded. The word was received yesterday by his parents, Mr. and Mrs. John Keefe of this city. It came in a cablegram sent by himself from France. Since arriving at the front he has gone through all the heavy engagements and this is the first time that he has met with mishap. Killed in Action

Word has been received that Harry Sparre of Fredericton has been killed in action. He went overseas with a New Brunswick unit and, shortly after his arrival in England, was transferred to an ambulance unit. He was killed while carrying wounded back from the trenches.

Wm. Cobolan Back

William J. Cobolan, a north end man, arrived home yesterday after doing his bit on the western front. He was met at the station by the Returned Soldiers' Welcome Committee and a large number of his friends. Shortly after the arrival of the train, he was taken by automobile to his home in 31 Somerset street. Private Cobolan enlisted in Calgary and after his arrival in England was transferred to the 8th battalion. He was wounded twice, once in the hip and once in the leg. He is the son of Patrick Cobolan of this city.

Recruits

Thirty men were enlisted last week for overseas service at the recruiting office in Prince William street. Sixty-four men were secured: Oscar Griffiths and Frederick Rayner, St. John; Thomas J. McDonald, Ireland; and William Fiddock, St. John, N.B.

For the Kitties

Sergeants B. Lawson Hanson and Frank H. Ryder of St. Stephen, both members of the 1st Canadian Contingent, arrived in Fredericton on Saturday to take commissions in the Kittie Battalion.

Private Long Killed

Word has been received at Walton's Lake of the death on the battle field of Private Irvin W. Long who was in the 14th Battalion. The report says that he was killed in action on June 27. He was one of the first to enlist when the call for men was sounded. He left home on August 15, 1914, and went to Valenciennes in October, the same year he went to England and was sent to France in April 1915.

He has been there fourteen months and was wounded at the battle of Langemarck from which injury he recovered and again returned to the firing line. He was reported missing on June 3 last and on June 27 reported killed in action.

Not Killed But Prisoner

Yesterday J. B. Armstrong of West St. John received tidings that his son, Sergeant Roy Armstrong of the Canadian Mounted Rifles, had not been killed, as previously reported, but that he was a prisoner in Germany.

Private Tracy a Prisoner

Mrs. Thomas Tracy received a telegram yesterday, from the officers in charge of the Record Office at Ottawa, that her son, John Edward P. Tracy, with the Sixth Mounted Rifles, previously reported missing since June 2, is now unofficially reported a prisoner of war at Duisburg.

**MORNING NEWS OVER THE WIRES**

The Canadian troops at the front are being re-armed with the new British Lee-Enfield rifle, which has a shorter barrel and a smaller bore.

Sir George Perley, acting Canadian High Commissioner in London has returned to Canada for a few weeks.

The O'Brien munitions plant, near Renfrew, Ont., was totally destroyed by fire on Saturday night with a loss of from \$100,000 to \$120,000.

John H. McCollom, a former member of the St. John police force, has resigned his position as chief of police of Fredericton. He has been the subject of an inquiry, the report on which has not yet been presented.

Mrs. Amos Warren of Waldeck-line, near Deep Brook, Digby county, N. S., has been arrested, charged with the murder of Mrs. George Taylor several months ago. Mrs. Taylor had given her property to Mrs. Warren on condition that the latter look after her, shortly afterwards Mrs. Taylor died and it is alleged that she had been poisoned.

Rev. W. A. F. Campbell and his wife, Canadian missionaries of the Methodist church, were stabbed to death yesterday at their home in Kanazawa, Japan, by a burglar. Mr. Campbell was about to return home for service with a Canadian overseas unit.

HE DESERTED FROM THREE OF THE ARMIES

German Who Was With His Own, French and Belgian

The adventurous career of a young German was disclosed as a result of his appearance in the dock at Marlborough Street police court, London, recently. He was charged with deserting from the army, as it appeared on the charge sheet, is Rene Ghilot Max Kohler. He was born in Germany of German parents twenty-six years ago. He has joined at one time or other the German, the French, and the Belgian armies, and deserted from all three. Max Kohler—that is his real name—is a well-educated man, and speaks English, French and German fluently, and has such a command of the three languages that he rarely betrays himself in conversation. All that happened in court was that Inspector Jacobs, the alias officer at Vine street, formally asked the magistrate, Mr. Mead, to discharge Kohler, in order that he might be handed over to the military authorities to be transferred to the French authorities.

At a previous hearing Inspector Jacobs said that on May 6 he arrested Kohler at a house in Church street, 80th, where he was residing with his English wife. He said his name was Rene Ghilot, and that he was born at Ickelles, near Brussels, and was charged with contravening a deportation order and with being an alien enemy, he confessed to previously deserting from the army. All his family are German, and he was born at Sulgau, Wurtemberg. Deserted the German Army.

The Daily Express has gathered details of Kohler's amazing life story. There is no doubt of his pure German origin. All his family are German, and two of his sisters are married to German officers. At the age of twenty he was called up for service in the German army, but after a few weeks' service he deserted from the army and made his way to England and then to America. From America he went to France, and for some time lived in Paris. A few months before war broke out he married a French girl in Paris, and she is still living. Then, on the declaration of war, he joined the French army, and was among the first troops to be sent to the front.

On the very first day he was in action August 22, 1914—he was reported to be missing, and later it was found that he had deserted and had been taken by the Germans at Charleroi. He told them he was a German, and persuaded them to allow him to make his way through Belgium to Holland. He is held there as a Belgian refugee, and as such boarded a steamer, came to Tilbury, and was duly admitted as a Belgian. He visited several towns in England and Scotland, and finally settled down in Newcastle, where he obtained employment in a well-known munitions works. Six months later he married a daughter of a foreman at the munitions works.

Last March he was arrested by the police for being a deserter from the French army, and handed over to a French military escort in the steamer Sussex on March 24 last. While crossing the Channel the Sussex was torpedoed by a German submarine, and about 100 lives were lost. Kohler managed, in the excitement, to escape from his military escort, and jumped into the sea. He was rescued with other survivors by a British destroyer and taken into Folkestone. As he spoke English fluently and with no trace of a foreign accent, he was able to get back to London a free and unsuspected man. He again went to Newcastle and explained his return to the English girl whom he had married by stating that the authorities had made a mistake in arresting him, and had sent him back home. Meanwhile, both the police and military officials had learned that Kohler was not one of the victims of the Sussex, and he was accordingly traced from one place to another. For a few days during his short period of freedom he was engaged as a pantryman in a well-known West End club, and he also had the audacity to go to the Belgian Consulate in London, and join the Belgian army, for which he was duly passed as physically fit.

"I wish to complain," said the bride, haughtily, "about that flour you sold me. It was tough."

"Tough, ma'am?" asked the grocer. "Yes, tough, I made a pie with it, and my husband could hardly eat it."

Artist—"How do you like the portrait?" "Well, I don't exactly like the nose." "Artist—"Neither do I; but it's yours."

The sympathy of many friends will go out to Mr. and Mrs. Samuel A. M. Armstrong, in the death of their infant son which took place yesterday at the parent's residence, 50 Mecklenburg street.

The death of Miss Ellen Keams occurred at the St. John county hospital on Saturday. She is survived by three brothers and two sisters. The sisters are Mrs. W. J. Lamb of this city and Mrs. Jack James of New York.

Mrs. Catherine Wark died on Saturday at the residence of her daughter, Mrs. A. C. Blaisie, 322 Union street. The funeral will be held Tuesday afternoon at 2:30 o'clock from 822 Union street.

WHAT GERMANY DID TO POLAND

Ruins Country, Then Asks Others To Relieve It

Situation In Warsaw

By Impoverished Under Burden Placed on it by Huns Who Appeal to World to Aid the Destitute Poles

After the German atrocities in Belgium it is rather an anti-climax to mention the methods which the Germans have adopted in Poland. We have no record of them murdering children and women in Poland, for Poland is not a kingdom, but whether as a kingdom under German or Russian protection depends wholly upon the result of the war. Anyway, all the combatants of the war would be an improvement in the condition of the Polish people.

Mother Appeals for Victim

Germany's actions in Poland have been the benevolent professions she has made. She has called attention to the plight of the Poles who have come here for justice, like Belgium did, but it is interesting to consider some of the results of their occupation of territory that was formerly Russian in Poland. Russia has many more millions of people than Germany. From several quarters has come the suggestion that the war in Poland may be re-established as a kingdom, but whether as a kingdom under German or Russian protection depends wholly upon the result of the war. Anyway, all the combatants of the war would be an improvement in the condition of the Polish people.

Steadily Increasing Pauperization of the City

The miserly is indescribable. In August, 1915--that is, in the first month of the German occupation--the death-rate was 15.88 per 1,000 (calculated to the year). It has risen steadily since October, 1915, and has now reached the figure of 34 per 1,000. (Here follows a significant deletion by the Austrian censor in the text of the memorandum as published in the Cass.) At the time when Warsaw passed into the hands of the Germans about 24,814 a month was being spent by the city, on the feeding of the population; by March, 1916, this item of expenditure had risen to \$21,680! In view of the rapid pauperization of the city, its financial needs could not (and cannot) be met by fresh taxation. Recourse was inevitably had to loans. Two loans have been raised since Warsaw has passed under German rule, one amounting to \$200,000, the other to \$1,000,000. At the present rate of expenditure a third loan would be necessary, and should it not be successful, "the city will be faced in the near future by financial ruin, of which the economic and social effects will be incalculable."

The Warsawians' Requests

The city council, therefore, suggests to the German authorities a list of measures which would help towards relieving its financial distress. The list in itself is a most eloquent summary of some of the German financial dealings and exactions.

Goodyear "Made in Canada" Lowers Tire Costs

Goodyear Quality is not the only factor which enters into lower tire costs for Goodyear users. The Goodyear factory at Bowmanville has saved Canadian motorists thousands of dollars. Not only because of the mileage and satisfaction they put into Goodyear Tires. But because it is in Bowmanville--in Canada.

But here in Canada you don't even have to make this decision. You do not even have to depend on American proof of Goodyear mileage. Hundreds of Canadian motorists are getting 10,000 miles

In addition to a lower price, you get Goodyear Service--which adds 25% to 50% to the life of your tires. The Goodyear Service Station Dealer is a tire saver. His advice and help is well worth your seeking. He will-- Tell you if you are using tires of proper size; tell you the proper inflation for the load you carry; and provide that inflation. He will advise you as to the benefit of more modern rims; the worth of an old tire; the advantages of

Imported tires cost 40% to 50% more in Canada than in their home market. This increased price of course adds nothing to the quality of the tire. It is the same tire as sold in the home market.

Please remember the above facts. They have a direct bearing on motoring costs.

Now note this. In the United States by actual count in 71 cities, one out of every five tires is a Goodyear. That means 21% of the tires sold in the States are Goodyears. There are over 200 other brands for motorists to choose. Many of these sell at lower prices in the States than do Goodyears. But American Motorists have decided that Goodyears give lower cost-per-mile

or more from Goodyear Tires. In addition Goodyears cost less in Canada--because they are made in Canada. You not only get greater mileage, but you also get lower price. Many imported tires that sell for less than Goodyears in the United States, cost more than Goodyears in Canada. Yet when they do not give so low a cost-per-mile in the States, how can they possibly offer nearly so much in Canada? That the saving effected by Goodyear "Made in Canada" is real and worth while is proved by these tables. Note the really great difference in prices:

the payments of separation allowances and pensions, as by their character these are charges incumbent on the state and not on the city. But even more important than all these purely financial questions is the fundamental problem of the economic recovery of the city itself. "A city with a million inhabitants," the memorandum says, "cannot be fed except by a revival of its own activities." These came to a standstill when the battlefront crossed Warsaw, and have never been resumed, as was hoped. At present only about ten per cent. of the normal number of workmen are employed in the Warsaw factories. Any money that is to be made in the city goes to Germany, and yet Germany now appeals to the world to help the poor Poles.

Germany's Latest Peace Dodge

One of the means Germany has adopted to create a "peace atmosphere" is to provide British prisoners of war with special picture post cards to send home to their friends. It bears the legend: "Peace and Industry," and shows a female figure bearing what we presume is an olive branch in her right hand and "a scrap of paper" in the form of a treaty of peace in the other. About her are emblems of the arts and sciences, and by her side is a tomestone with a laurel wreath at its foot.

The mammoth tree of California, which is 297 feet high and 90 feet in circumference, is believed to be between 8,000 and 4,000 years old.

BRITISH WIN IMPORTANT SUCCESS

London, July 15.—The British offensive was resumed today. The war office announced that at one point the Germans were forced back to their third line positions. More than two thousand prisoners were taken.

Paris, July 15.—A violent artillery duel, in progress in the fleur-de-lis sector, the war office announced today. A German attack on a trench northeast of the Avoucourt redoubt was repulsed, the official statement asserts, and German attempts to undertake attacks in the Apremont Forest were checked by a curtain of fire.

London, July 15, 12:40 a.m.—"Further important successes" on the German second line have been gained by the British, according to the official communication issued at midnight. The British captured the whole Delville Wood and repulsed a strong counter-attack.

"North of Bazentin-Le-Grand our troops penetrated the German third line at the Bois De Fauressuz, in which we obtained lodgings. In this neighborhood a detachment of the enemy was successfully accounted for by a squadron of dragon guards—the first opportunity for mounted action afforded the cavalry since 1914.

THE CITY SCHOOLS

Explanatory Letter From Mr. Manning of the Board of Trustees

To the Editor of the Times:

Sir, Your editorial of last week referring to the Monday meeting of the school board was misleading in some particulars, in that you did not seem to understand the position taken by active members of the board. Will you kindly allow me some of your valuable space in order to place school matters in St. John correctly before the public?

The Schools Act allows a maximum assessment of \$150,000 with any further amount required for interest on debentures and for repairing and furnishing school buildings. The amount asked for this year by the school board was \$180,424, which included \$28,447.50 for coupon interest and only \$6,000 for repairs.

Every child knows that expenses are very much higher than in former years and are increasing, so that money does not go so far in repairs as it did. Having no way of increasing our allowance for repairs except by increasing the amount asked for from the city and the commissioners being unfriendly to such a request, much has had to be left undone.

It is true that the school board went to the legislature seven years ago and got an addition of \$20,000 added to the limit to which they might assess, but after careful consideration we put this whole amount of increase into teachers' salaries, as it was absolutely the first opportunity we had to do any sort of justice to a notoriously underpaid profession.

This was a God-send to them, but it did not help out the board in the care of their buildings. St. John has twenty-three school buildings, many of them old and with their original roofs on, and

Petrograd, July 16, 6 p.m.—The text of the Russian official statement today follows: "On the right wing of our Riga positions, supported by artillery on land and sea, we made some progress in the region west of Kemmern. On the remainder of the front there were local engagements which did not modify the situation.

needing much repairing every year. If they go unrepaired for several years, it means waking up some day to find a great big expenditure needed to get them again, and will mean much bitter criticism.

Again, all our schools are crowded to the limit and past it. Three (Alexandra, Dufferin and LaTour) have each two extra rooms boarded off from their exhibition halls to hold the surplus and more children are yearly coming forward. This year we have passed the 8,000 mark. Halifax, with about 150 more children, is spending this year \$80,000 more on schools than St. John.

Now, I am jointly responsible for the condition of Victoria, Victoria Annex, Centennial, Manual Training and Domestic Science and King Edward schools. To put these in proper repair there are needed new roofs, new iron work, a new boiler, new hardwood floors, new ceilings, new sanitaries, new radiators, new blackboards, etc.; then, lastly and not least, inside painting and laminating. Rather a large order, but it is all needed and needed right now.

Do you know what can be spared from the repair fund this year to do any or all of this work on these particular schools? \$1,150. How far do you think

this will go at present price of labor and materials? The fire escapes on the Centennial school are in a deplorable condition, yet every year it has to wait. The only remedy for these conditions is a more generous grant to our city schools. The time has come when our legal limit for assessment should be increased at Fredericton as well as the amount levied for schools at our city hall. This must be done first before we can undertake the additional charge of about \$3,000 per annum for rental and expenses on the new Cliff street school. It is a simple case of "no funds."

It is most disheartening to one who is trying to do his whole duty to find so much misunderstanding on the part of the public and the press and such a lack of sympathy at city hall.

Thanking you, sir,  
Yours sincerely,  
JAMES MANNING.

FERROZONE  
Will Give You Appetite and Good Digestion

Ferrozone will in one week give you a splendid appetite, and will so improve digestion and assimilation that full benefit will be derived from everything eaten. There is nothing like Ferrozone to create a keen healthy relish for food for the blood, and a tonic for the nerves and brain. To those leading a sedentary life it is a perfect boon.

The reverend Dennis O'Brien, D. D., the well known Evangelist says of Ferrozone: "I have pleasure in saying that I have found Ferrozone a remarkably good preparation. It keeps up one's appetite, cures nervousness and sleeplessness, and perhaps is the very best tonic I have used. Being in the form of chocolate coated tablet, it is both pleasant and convenient to take and is well worthy of my highest recommendations."

This is an example of the way people speak of Ferrozone who have used it, and should be convincing evidence of its unusual merit. It is warranted to cure indigestion, dyspepsia, lost appetite, rheumatism, kidney and liver troubles, catarrh and all other diseases arising from impairment of blood or nerve tone.

Refuse to accept a substitute for Ferrozone. Every druggist sells it 50c. per box, or three for \$1.25.

British Admiralty Brands German Announcement as False Italian Destroyer Sunk by Austrian Submarine.

Berlin, July 15, via wireless to St. John.—The admiralty announced today that on July 11, German submarine sank a British auxiliary cruiser of three patrol boats.

The announcement follows: "On July 11, a German submarine destroyed in the North Sea a British auxiliary cruiser of about 7,000 tons.

"On the same day German submarine of the British coast sank three British patrol boats. The crews were captured, and one cannon was taken.

False Says British Admiralty.  
London, July 16.—Replying to the German admiralty announcement of yesterday that a 7,000 ton British auxiliary cruiser and three guardships were sink

in the North Sea July 11 by German submarines, the British admiralty today stated:

"There is no truth in the report of the sinking of an auxiliary cruiser and the guardships were armed trawlers."

Italian Destroyer Sunk.  
Berlin, July 15, by wireless to St. John.—The sinking of an Italian destroyer by an Austro-Hungarian submarine was announced in an official statement issued today from Vienna. The announcement follows:

"One of our naval air squadrons bombarded effectively military establishments and the railroad stations at Padua. The aeroplanes returned unharmed, although they were shelled heavily by anti-aircraft guns."

The Indomito, laid down in 1912, was 299 feet long, displaced 880 tons, and was armed with one 4 1/2 inch gun four 12-pounders, and two torpedo tubes.

are making more money for the investor than any other stocks on the market. Had you invested a few hundred dollars at the beginning with Ford, Hupp, the Reo, Saxon, Chalmers, Paige-Detroit, Chandler, White or any of several others, you would have a tidy fortune today.

Today the automobile industry is established along permanent lines and today it is paying bigger profits than ever before in the history of the business. It is a solid fact, however, that the big money has been made by those who had the foresight to get in on the ground floor with a newly established company.

It is very true that some large profits have been made on the Stock Exchange during the past few months, but it is equally true that much larger profits have been made by those who bought these stocks when they were first put out and the companies were being organized.

We are the largest exclusive dealer in automobile securities in the country. We do not handle any other stocks or bonds. We devote our entire time and attention to the automobile security market. For that reason we believe that we are in a better position to furnish facts and information and advice regarding automobile securities than any other brokerage or banking house in the United States.

Within the last few months Willys-Overland has advanced \$130 per share.  
Reo has advanced over \$30 per share.  
Chevrolet was selling for less than \$100 a few months ago, and is now over \$200 per share, and if you had bought Paige-Detroit you would have more than doubled your money.

The above advice is worth while and can be verified through any broker.

Regardless of the merit of other automobile securities, we today advise the purchase of Emerson.

We urge all of our clients and readers to act promptly, for the price is on the eve of a big advance.

This new five-passenger touring car, to sell at the low price of \$395, is the result of Mr. R. C. Hupp's many years' experience.

During Mr. Hupp's long experience in the automobile world, and in the course of the evolution of the automobile industry for the past fifteen years, during which period his fame has become international, he says, after carefully checking everything over, that this new creation is without question the most perfect in design, durability and line of any low-priced automobile ever made. It is well known that Mr. R. C. Hupp's approval and opinion of this new car is eminently worth while.

He started with the Oldsmobile in 1902. At that time the car was sold at \$850, when other automobiles were selling from \$2,000 up. Mr. Hupp was graduated from the Oldsmobile Works to the Ford Company, in 1908. Through Mr. Hupp's knowledge and experience while making the lowest priced automobile in the world, with the Oldsmobile Works, he became one of the factors which the Ford Company was turning out, as the Ford Company had advanced the price of their cars to \$975.

Under Mr. Hupp's management the Hupp Company sales jumped from 390 cars the first year to 5,000 cars the second year, and an original investment of less than \$10,000 grew to a cool million dollars by 1914, when Mr. Hupp disposed of his interest and retired from the company, owing to the fact that he did not agree with the policy of his associates in bringing out a higher priced car.

This same year Mr. Hupp organized the R. C. H. Corporation, manufacturing and selling a touring car that was never in price than any other car made except the Ford, and the very first year produced 8,000 cars, and had contracts with dealers for 19,000 additional cars, making a total sale of 27,000 for the first year.

This new design, approved by Mr. Hupp, is the result of fifteen years' effort to make a low priced car and a car that can be operated at 40¢ cost and that will stand up and give a greater service for the money than any other automobile made. Better itself is as well built, good to look at and easy to ride in as its higher priced competitors. It is a punishment free body, with all life improvements, and will not only appeal to the public at large, but will prove a most satisfactory method of transportation suitable for the man or woman in any walk of life. While these will particularly appeal to those of limited means because of its low price, yet its graceful lines, ample room and economical expense of operation will create a car demand among every class.

An itemized estimate of the cost of manufacturing and marketing these cars, based upon a production of 30,000 cars per annum, beginning 1917 indicates a net profit of \$80 per car, after making a liberal allowance for the cost of manufacturing, selling, selling, overhead expense, etc. After allowing the 2 p.c. dividend on the entire issue of Preferred \$4k, it indicates a net profit of \$1,860,000, or sufficient to pay dividends of 30 p.c. per annum on the Common Stock, besides setting aside \$460,000 to surplus. The figures are based on an estimate carefully compiled by men who know the automobile business and successful operators in the industry.

This new car should average 27 to 27 miles or more on a gallon of gasoline, and the present high price of gasoline in this field is a good argument in favor of the use of this car.

The profits in the automobile industry are too well known to require comment. The year of experiment has passed. Today the industry, behind largest in the United States, is on a substantial and highly profitable basis. The greatest profit is being made in the manufacture of low-priced cars. The demand for the car that we propose to build is apparent everywhere. The cost of manufacture has been especially worked out, and after proper allowance has been made for the increased price of raw material and other exigencies that may arise, there yet remains a net profit of \$80 per car, based upon an annual production of 30,000 cars. That this profit can be and should be increased by the in-

creased production is self-evident. That the sale of the Preferred Stock at par will insure a sufficient capital to enable this company to go on a profit-earning basis seems an assured fact. That the Common Stock will soon become more valuable than the preferred seems inevitable.

The Company proposes to adopt the most modern business methods, paying cash as it goes, and pursuing a conservative, business-like administration. The most progressive methods of manufacturing and selling will be adopted.

We own and offer for sale a very limited block of the Common Pre-Organization Promotion Stock at \$6 per share. The par value is \$10, and the stock is fully paid and non-assessable. If you act promptly you can buy any number of shares from five (5) to five thousand (5,000) at \$6 per share. Simply fill out the coupon below for the number of shares you want and mail it with your remittance by check, draft or money order. If you send currency be sure and register the letter.

Certificate of stock issued in your name will go forward to you by registered mail. We believe that you will see this stock selling at twice this price within the next few weeks. Immediate action is necessary if you desire to obtain any of the stock at this very low figure.

CHILDREN HOLD CONCERT

IN AID OF BELGIANS (Moncton Times) The little Misses Freda Palmer, Frances and Jean McBeath, Yvonne Newnam, Ruth Barnes and Mildred Biggar, gave a concert on Saturday afternoon on Mrs. Thomas McBeath's veranda, Highfield street. The programme consisted of choruses, recitations, solo numbers, also a dialogue; home-made candy was also sold, raising the sum of \$4, which amount they have generously contributed to the Belgian Relief Fund. These young ladies acquitted themselves admirably, and deserve much credit for the enterprise which they have shown in a most worthy cause. The scene was a northern mining village and the time a moonlight night, not long ago. Jack and his wife, Lizzie, were discovered by a neighbor dashing bucket after bucket of water at one of their bedroom windows. "Wee, Jack, mon, what is't?" she exclaimed. "Is the house on fire, or has the Zeppelin come?" "Neither, hinney, but ye knaa wor Jint come hyme the day from his ship, and says he canna sleep unless he hears the sea splashin', so me and the wife has to be it."

UNPAID DRUMMER

Romances in the Work Accomplished in the Wild Places of the Earth It is romantic—the story of the missionary blazes the trail for the merchant. "I go back to Africa to try to make an open path for commerce and Christianity," says Livingston. He goes on the Christian path which he opened now run automobiles and motor trucks and railway trains bearing the fabulous wealth of some of the richest commerce in the world. The first missionaries in Nyassaland bought a basketful of grain. The natives looked at the pretty beads that had been paid them for the grain, went out to their fields and started to plant and cultivate as if their lives depended upon it. Now a score of steamed is needed to carry the thousands of tons of grain to the coast, where it is respighed to the far parts of the world. A missionary obtained a solitary coffee plant from the Edinburgh Botanical Gardens and placed it in the soil of Central Africa. From this single plant great plantations have sprung, until the export of this one product amounts to thousands of tons annually, and "itch coffee" has become a staple African product. In nine cases out of ten the first white man to blaze a trail in a strange country is a missionary. He goes on ahead, wins the cannibals with rock candy and beads, and prepares the way for the trader. Missionaries did the pioneer work in Africa, the islands of the South Seas, the Pacific Islands and most of the Asiatic Continent. You can thank the missionaries for you might get me a biscuit—

THE BIG LEAGUES

Braves Continue To Climb In National League

Great Game In Chicago

Red Sox Have Ousted Cleveland From Second Place—Close and Exciting Race in American League

The Braves continue to climb in the National League and are now only two games behind the leaders.

Brooklyn and Chicago had a battle royal yesterday when they fought for sixteen innings. The game lasted four hours and undoubtedly furnished good pastime for the thousands of fans who were present.

Alexander continues his good work for the Phillies. If they only had another reliable twirler they would be nearer the top.

Rudolph is back on the Boston pitching staff and started off well, holding Cincinnati to seven scattered hits. If he can get back into form he will be a valuable acquisition to the team.

The Red Sox have ousted Cleveland from second place and are now on the heels of the Yankees. Both Boston teams are now in second place.

The race in the American league continues to prove interesting and it is hard to pick a possible pennant winner.

Dooen Goes to Rochester.

Cincinnati, July 14—It was announced today that Catcher Charles Dooen has been released by the New York Nationals to the Rochester club.

Refuses Brooklyn Offer.

St. Louis, July 14—President Britton of the St. Louis Nationals said tonight he will not accept the offer of President C. H. Ebbets of Brooklyn for Harry Sale, who quit the club recently. Ebbets is said to have offered \$8,000 for Pitter Appleton and another pitcher whose name was not announced. Manager Huggins indicated he favored the New York offer of \$10,000 cash.

Millionaire Will Take Reins.

Cleveland, July 15—Frank G. Jones, a Memphis millionaire sportsman, will take the reins for "Pop" Geers, who was injured during a workout, when the opening meet of the Grand Circuit starts at North Randall on Monday. Jones is owner of Saint Frisco, The Guide and other horses in the Geers stable.

Geers, veteran of forty-two seasons of racing, lay on a hospital cot today, insisting he would be in a sulky in a short time. No bones were broken when he was thrown under the hoofs of George Valentine's racer.

GOOD OPPORTUNITIES TO GET COMMISSIONS

Universities Company Men Fre

quently Obtain Commissions in England and France

For more than a year now universities companies have been recruiting as reinforcements for the P. P. C. L. I. Five companies are already with the "Pats" and the sixth is now recruiting in Montreal. The men recruited in these companies are men of a university type, bank clerks, business men, etc. Many of them have previously qualified for lieutenant's rank, but have gone overseas in the ranks to gain experience and also to get to the front more quickly. To show how quickly these men do gain promotion, a few instances may be cited. The Second Universities Company, while at Shorncliffe, sent fifteen men from their ranks to take commissions with other units. Several more were recalled after two months in France to take their commissions with other units. It is also a rather significant fact, though these universities companies have been with the P. P. C. L. I. for less than a year, at least ten of the officers of that regiment are men who have risen from the ranks of the universities companies. The opportunities, then, of obtaining commissions from the ranks of the universities are considerably brighter than the chances of getting them by waiting about in Canada.

Besides these inducements, the Sixth company has other advantages. The barracks are in the buildings of the McGill University, and the company has the use of the university campus and grounds. The training is also of a very varied and interesting character.

At present the company is in charge of Lieut. O. H. Rexford, who has been overseas with the Second Universities Company and in the ranks of the "Pats." Information will be gladly furnished by him as to enlistment and service. Such enquiries should be addressed to him at Molson Hall, McGill University, Montreal.

Three brothers, all ministers, met unexpectedly in Elwood, Ind. They were W. T. Sellers, a representative of the Christian Board of Publication in St. Louis; L. W. Sellers of Indianapolis, secretary of the National Temperance Board of the Christian Church; and Robert Sellers, pastor of the Christian Church. It was the first opportunity all the brothers ever had to hear the others in the pulpit.

News of Maritime Men In The War

Mr. and Mrs. George Morris of Chatham have received a telegram from their son, Dick, who left with the First Contingent for the war, and has been for six months in an English hospital, that he arrived in Halifax, N.S., on the 13th.

Flags were flying in Chatham on Friday in honor of Walter Coughlan's return from the great war. He was met on arriving by auto from Newcastle, by a great concourse of citizens and the band. Mayor Hickey made an eloquent address of welcome and the returned hero was heartily cheered. Mr. Coughlan expects to return to the fighting line when he fully recovers his health and strength.

Mrs. Joseph Savoy, Blackville, writes that her husband is not dead as reported, but was, when she last heard of him, in hospital, doing well under the care of physicians and nurses.

**Lance-Corp. Pincombe Recovering**

Lance-Corp. C. A. Pincombe, who was wounded at the front with the 26th Battalion, is recovering rapidly at No. 4 Northern General Hospital in England. He received shrapnel wounds in the left hand and left side of the face.

**Was Shot Through Both Legs.**

Private Allan Hall, of Maxwell, York County, who had his left forearm pierced by a bullet and was shot through both legs in the heavy fighting in Sanctuary Wood on June 8th, is now at the Cottage Hospital, Woburn, England.

**Completed Course.**

Keith Brown, of St. John, has arrived in Fredericton to spend a few days. He has just completed a successful course in military training at Aldershot and will try for an appointment for overseas service.

**Returning Home.**

Lieut. Cecil Mersereau, of Chatham, who was wounded in the face and body during the early part of the battle of Hooge, is now on his way home, presumably on sick leave. On Tuesday his

father, J. Y. Mersereau, received the following cable from London: "Leaving London for home today."

**Draft From 65th Battery**

As a result of a draft of one officer and fifty men who are now in readiness to proceed overseas on twenty-four hours' notice, being taken from the 65th Battery, Field Artillery, stationed at Woodstock, Capt. J. H. Evans, officer commanding, is making preparations to start an active recruiting campaign to bring the battery up to strength.

The draft selected from the 65th battery is to be commanded by Lieut. Douglas V. White, son of Dr. W. W. White of St. John. It was first announced that Lieut. R. Fraser Armstrong, son of R. E. Armstrong, secretary of the St. John Board of Trade, would command the draft; but some changes were made in the personnel of the draft and the commanding officer was also changed.

**Back From the U. S. to Enlist**

Geo. W. Robertson is in Woodstock and will visit his mother in East Caledonia and other relatives in York and the neighboring county. Mr. Robertson came from Fort Leavenworth, Kansas, where he held a position in the United States militia, but threw up his job to go overseas, and has enlisted in the Construction Corps in St. John. He drilled at Sussex when he was but a lad; at the time of the South African war he enlisted, but was sent to do garrison duty at Halifax. Then he went to the United States and has been six years in the U. S. militia, his company being in Cuba for some time.

**Prominent P. E. I. Man Dead**

Charlottetown, P. E. I., July 17.—Henry Jones Cundall, one of the wealthiest men of P. E. Island, died here yesterday, aged eighty-one. He was formerly a land surveyor and surveyed appropriations of the P. E. I. railroad. He was interested in some commercial enterprises and was at one time president of the Telephone Company. He was prominent in the Church of England and contributed liberally to missionary and philanthropic objects.

**In Collision in Thames.**

London, July 17.—The steamers Montreal and Acadia were in collision yesterday in the Thames off Millwall. Both were damaged.

LOCAL NEWS

**FROM THE STATES.**

The Eastern Steamship Company's liner, Calvin Austin, arrived from Boston this morning with six hundred passengers.

**WORD ABOUT SOLDIER**

Mrs. Sarah Alice Moon (or Moore), next of kin of No. 44272, Sapper Edward Moon, Engineers, is requested to communicate with the office of the Western Union Telegraph Co., this city.

**HIS LEG BROKEN**

Howard Anderson of Milford, aged fifteen years, suffered a painful accident last evening when he fell from a lumber pile over which he was climbing and broke his leg. He was taken to the General Public Hospital where an X-ray examination showed a bad fracture of the right leg.

**LOGAN-NEAL.**

The wedding of Charles E. Logan of Fairville, to Mrs. Ethel A. Neal, recently of Amherst, N. S., took place on Sunday evening at the home of the officiating clergyman, Rev. Dr. Hutchinson, 80 Main street. After the ceremony Mr. and Mrs. Logan left by the Boston boat for a wedding trip. On their return they will reside in Fairville.

**HOME ON LEAVE**

Major L. W. Peters, O. C. Company "A," 115th Battalion, Lieut. J. B. Devereux and Lieut. A. Gilmore of the same unit returned to the city on Saturday night on a short leave. The battalion band also arrived from Valcartier on Saturday and will be engaged for a few days in recruiting endeavors. Lieut. C. W. Pickett of Sackville is home on leave from the same unit.

**POLICE COURT**

In the police court this morning two boys were before the court to answer the charge of lurking in a Brunswick street on Sunday morning and not giving a satisfactory account of themselves. They were cautioned and sent below. Four drunks were taken into custody during Saturday and Sunday. Three were let out on deposit and the fourth was allowed his freedom on taking the pledge for a year.

**VISITING MINISTERS**

Rev. David Lang, who for several years was minister of St. Andrew's Presbyterian church and who is now in charge of a large congregation in Denver, Colorado, is again in the city and yesterday occupied the pulpit of his former church at both services.

Rev. Dr. D. J. Fraser, principal of the Montreal Presbyterian Theological College, formerly minister of St. Stephen's Presbyterian church in this city, is here on a visit to friends.

**MRS. THOMAS BLANCHE**

The death of Mrs. Helen Blanche, wife of Thomas Blanche, occurred this morning at her home, 17 Elliot Row, after a protracted illness. Besides her husband, Mrs. Blanche is survived by one son, Charles Blanche, and four daughters, Mrs. H. R. Gott of Vinal Haven, Me., and Misses Catherine, Hattie, Beryl, at home. Her brothers, Robert Freese of West St. John and Havelock Freese of Calgary, and one sister, Mrs. Blanche of Sussex. Notice of the funeral arrangements will be given in the morning papers.

**CELEBRATED HIGH MASS.**

Rev. Francis Walker, who was recently related to the priesthood by His Lordship Bishop LeBlanc, celebrated high mass yesterday, this being his first high mass in the parish church at Shediac, the church at that place. He was assisted by Rev. Father LeBlanc, parish priest, and Rev. Fr. Landry of Quebec. Father Landry preached an eloquent sermon, during which he referred to the newly ordained priest and also to the new church that the people of Shediac have just erected. The new church is much larger than the old one, and is very beautifully finished.

**A CHANCE FOR TOY-MAKERS**

The board of trade has received a letter from the superintendent of the Commercial Intelligence Branch, Ottawa, stating that the toy fair held in Toronto last spring would be reproduced at the Toronto Exhibition, August 28, and asking whether there are any toy-makers in St. John who would like to have their toys shown at this exhibition. The letter states in conclusion: "I would particularly like to have some exhibits of toy boats. St. John was at one time one of the greatest shipbuilding ports in the world. It would seem appropriate to have a good exhibit of toy boats from St. John."

**LOCAL SHIPPING**

The schooner Willie Maxwell arrived at St. John, Nfld., on last Saturday with a cargo of coal from Philadelphia. After discharging his cargo she will proceed to Stonehaven where she will load stores for New Haven.

The schooner Eva Denahower, Captain Wallace, arrived here this morning from New York with a cargo of coal.

The schooner Norwood arrived with a cargo of molasses from Barbados.

The schooner Eva Denahower, Captain Patterson, arrived from New York with a cargo of coal. The schooner Rodger Drury also came in with coal from New York.

HALE AND HEARTY; D. J. SEELY NINETY TODAY

Still hale and hearty, despite his years, D. J. Seely of this city, celebrates today the nineteenth anniversary of his birth. Mr. Seely is a wonderful example of the sturdy generation which has produced so many men of his type, but he is now among the last of his generation. As the senior member of the firm of D. J. Seely & Son, ship owners and brokers, Mr. Seely still takes an active interest in the business and is at his desk each day. He is actively interested also in other affairs of public interest, and this year is president of the New Brunswick Loyalist Society.

So far as is known, he is one of the few survivors, if not the only survivor, of the first generation of Loyalists. His father came to New Brunswick from New York state in 1782.

Mr. Seely was born in St. George in 1826 and afterwards removed to Weymouth, N. S., where he was engaged in the lumber business. In 1857 he removed to St. John and established himself here and since then has been one of the prominent figures in the commercial and social life of the city.

Mr. Seely is receiving hearty congratulations from his many friends on the occasion of his anniversary.

SAFETY STATION IN MARKET SQUARE

May be Better Chance For Public in Waiting For or Changing Street Cars

Proposed improvements in Market square formed the theme of discussion for the greater part of the time at a meeting of the common council in committee at noon today. As the project involves considerable changes in the grass plot in the middle of the square, it was decided to allow the work to stand until nearer the end of the summer.

In the absence of the mayor, Commissioner McLellan presided, with Commissioners Russell, Wigmore and Fisher present.

Commissioner Fisher submitted revised plans for improvements in Market square. According to his plans the fountain would be moved to the opposite or western end of the grass plot. A safety station for street car changes would be provided next to the grass plots on the eastern side. There was some discussion regarding the advisability of blocking the northern side of the grass plot with a sidewalk for the use of street car passengers, and to prevent the use of this section by vehicles. As it is probable that the work will not be begun until September, no decision was reached.

Commissioner Fisher also brought up the matter of the Wall street bridge. He suggested a resolution expressing disapproval of the proposal to place a sidewalk on the western side of the bridge, but no action was taken.

A bill to amend the acts respecting the occupation of sidewalks was brought up by Commissioner Fisher. Commissioner McLellan objected that all obstructions carry with them a hazard and the permission of the public works department should be secured before permission for the obstruction.

The matter was allowed to stand over for further consultation with the city solicitor.

Commissioner Russell said he has specifications for repairs to the west side wharves, calling for an expenditure of \$8,500, but it was decided to allow this until the return of the commissioner of finance.

**SEERGT. HAROLD FINLEY HOME**

One of St. John's First Contingent to War—Will go Back in August

Serget Harold D. Finley, son of Mrs. Lillian Finley of 25-Duke street, arrived in the city today at noon, after having been overseas since the outbreak of the war. Serget Finley left St. John at the early part of the war with the 1st contingent. He was in the 10th Battalion as a corporal, but on going to England received three stripes and was given an important position in England on the headquarters staff with the chief director of recruitment organization at Folkestone. His work was of a special nature and necessitated frequent trips from England to France, especially between Folkestone, where he was stationed, and Havre. When asked to speak of his experiences, he said, "I have nothing to tell you, only that I was very busy. I was very busy about inside work, and said 'there is a lot doing that we know nothing about.'"

Serget Finley met at the station at noon by his people, and was taken to his home in a barouche. He looks every inch a soldier. He came across as a sergeant with the correct looking after returned men, who arrived in Quebec on Friday. Serget Finley will be here until August 1.

NOTES FROM VALCARTIER

Valcartier Camp, July 18.—The final medical examination of all ranks of the battalion is now taking place, and those who are being either discharged or transferred to some 'home service' unit. The final inoculation of the whole battalion will be carried out tomorrow. Captain Ingletton has been granted leave from the 18th to the 19th and is going to St. John.

145th Battalion.

Lieutenant David William Clarkson, of Moncton, has been promoted to the rank of captain, to date from April 1, 1916.

General Camp Notes.

The last two days have been very hot as the troops have suffered a good deal from the heat. The evenings being cool, the health of the men has not been affected. Very few cases of heat prostration occurring.

Brushwood and forest fires, which started on Wednesday, spread rapidly, and fanned by a heavy wind today, caused anxiety. By noon today the flames had spread over an area of forest half a mile long and a quarter of a mile in depth and huge billows of black and yellow smoke and leaping flames rose from the burning timbers.

All the troops in camp were turned out to quell the flames, and after several hours hard work they succeeded in getting the fires under control. The brushwood and stumps are still smouldering, but no more trouble is anticipated.

It is rumored that His Royal Highness the Duke of Connaught will soon make an inspection of the troops in camp, but no official word to this effect has yet been received.

WOULD LIKE GERMAN SOLDIERS HOME TO VOTE!

Amsterdam, July 17.—In reminding the German government that owing to expiration of the present term of the Reichstag in January, elections must take place before the final conclusion of peace, the Frankfurter Zeitung suggests, with a view to ascertaining the real feeling of the nation under the changed conditions, that a trustee should be arranged to permit half of the German army to return home for the elections.
