Five Russians Arrested in Conference City—Another Chance Likely to be Given Russia in Hope of Averting Failure of Conference.

(Canadian Press Cable) London, April 26.—The probable early breakdown of the Genoa conference is more than hinted in some of the London newspaper editorials today.

The Times says: It is daily becoming clearer that the splendid visions which the world was asked to expect as a result of the conference are fading away, and it is childish of the premier to try to cover his mistakes and hide his disappointment by casting the blame for the failure upon the press, whose only fault is that it has been too clear sighted.

London, April 26.—Five Russians, including Kerensky's former secretary, Boris Savinkoff, were arrested in Genoa by the Italian police on Sunday, says a despatch to the Daily Herald.

Another Crack? Genoa, April 26.—There have been so many thrills in rapid succession at the Genoa conference that everybody today is wondering what would come next.

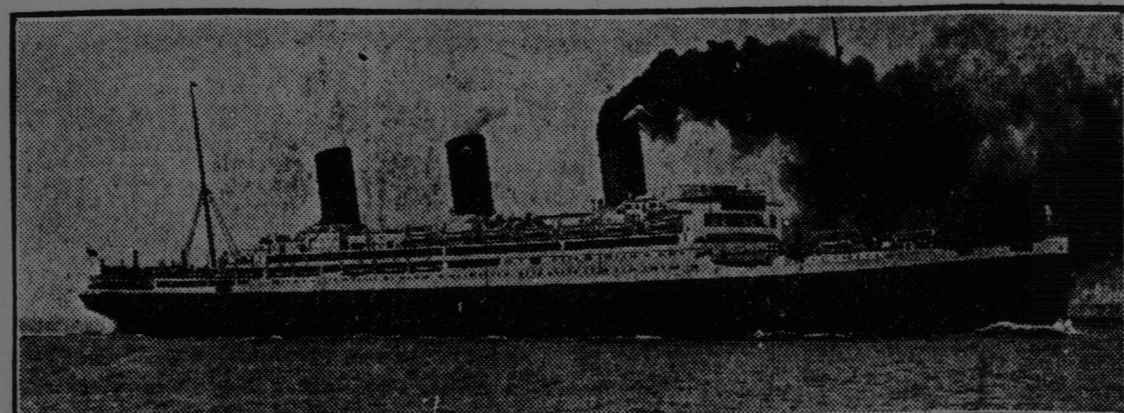

The hilled and neutral powers seem determined to give the Russians another chance to come to terms, and there is hope that the crisis brought on by the Soviet's latest demands will pass.

Lloyd George particularly appreciates the difficulties in the way of the Russian relinquishing the practical doctrine of the nationalization of property, which incarnates the very fundamentals of the Bolshevik program.

QUEBEC SHIP LABORERS CUT WAGES SCALE

Quebec, April 26.—(Canadian Press) At a meeting of the Quebec ship laborers' benevolent society here last night it was decided to reduce the wage scale for the present season from 65 to 60 cents an hour.

MILITIA MATTERS NOTLY DEBATED

Motion to Reduce Appropriation for Drill Purposes—Coming Discussion re Senate.

Ottawa, April 26.—(Canadian Press) Yesterday in the Commons Thos. Sales, Progressive, asked the government what course it proposed to take with regard to the Manitoba court of appeals judgment that section 215 of the Canada Grain Act was ultra vires of the federal parliament.

The house in supply approved the civil government estimates of the department of railways and canals, salaries \$191,970; contingencies \$29,500.

Introduction of main estimates of the department of militia and defence brought out severe criticism of militia matters from Progressives and a section of the Liberals.

Progressives and some Liberals criticized the militia vote as unwise. The minister was supported by the Conservatives.

NOTED LAWYER IS DEAD IN LONDON London, April 26.—(Canadian Press) Sir Henry Eric Richards, K. C., who was counsel for Canada and Newfoundland in the North Atlantic Coast Fisheries arbitration at The Hague in 1910, died today.

(Canadian Press) Philadelphia, April 26.—Five applications for entrance in the special race for the Philadelphia golf challenge cup, emblematic of the single sculling championship of the U. S., to be held here June 8, have been received, so the cup committee announced today.

ST. LOUIS, APRIL 26.—The pitching delivery of Dan Danforth, whom the local American club obtained from the Columbus American Association team last winter was made the subject of continual protest by Ty Cobb, manager of the Detroit Americans, and his players in yesterday's game here, which the visitors lost. Cobb asserted that, in his opinion Danforth's deliveries were illegal. Several balls were retained and will be sent to President Johnson for inspection. Some balls also that he uses a sharp, strong thump to cut the surface of the ball, and make it curve more readily.

NEW YORK, APRIL 26.—Babe Ruth will have plenty of opposition in his belated race for home run honors this season if the early season effort of Kenneth Williams, of St. Louis, are any criterion of his 1922 intentions. The Browns' star outfielder made it six circuits in four days yesterday, and passed the 100 mark at this time of the year. It was May 2, when Ruth collected his sixth homer in 1921. Williams was the main factor in his team's defeat of Detroit, putting the Browns in second place by a half game margin, as Cleveland was idle.

PHILIPS, WASHINGTON'S RECRUIT PITCHER, held the Boston Red Sox to four hits while his teammates pounded out a ten nothing victory.

NEW YORK, APRIL 26.—John J. Clifford, referee, and Philip Hines, judge, yesterday lost their licenses as boxing officials, when the New York state athletic commission completed its investigation of the fight between Lee Van Hook and Helen Nolan, by eight inches. Miss Nolan was second.

SEATTLE, WASH., APRIL 26.—Bobby Michaels, New York lightweight champion, his knockout record to forty-two last night, when he disposed of Bert Forbes of this city in the second round of a scheduled four-round bout here.

NEWARK, N. J., APRIL 26.—The two thousand guinea stakes of the first class of the racing season, run here today, was won by Lord Queensborough's St. Louis, by Louvois out of Princess Sterling, ridden by Jockey Archibald. Sol Joel's Pondoland was second, and U. S. at the opening of the war, and her long rakish figure, driven at terrific speed, was a familiar sight along the Canadian coast between 1914 and 1919. She is especially remembered for an attempted winter trip to Bermuda, when she was caught by a hurricane and almost foundered. After being given up for lost for several days she finally put into Shelburne, N. S., with six men missing from her crew.

THE HISTORY OF THE NIobe, one of the naval units brought to Canada by the Laurier government, is written in the debates of the Canadian houses of parliament. The Canada and Petrol, which kept watch for many years in the Atlantic fisheries service, were placed on coastal patrol during the war.

SENTENCE OF DEATH

The Hardest Thing in Fam- ine Relief in Russia.

(Issued by the Canadian Committee, Save the Children Fund, Sir George Burn, Treasurer, Elgin Building, Ottawa, Ont.)

The following was contributed to the Manchester Guardian on March 30, 1922, by Miss Evelyn Sharp, a relief worker in the famine stricken Volga regions:

"It was a joint meeting of the village famine committee and the Friends' Relief Mission, and it was held in the headquarters of the Alexievsky Co-operative Society, who, here as in other parts of the famine area, are the medium for the administration of Russian government relief.

When we, who wore the Quaker badge, arrived at two o'clock, only the co-operative people were there, although the committee had been called for midday.

It reminded me rather of a parish council meeting in any English village, though the frozen double windows, and the stove that warmed the room to suffocation, and the sheepskin coats and fur hats and embroidered felt boots of the men who drifted in by degrees gave it a Russian setting enough.

The item of the agenda that concerned the Quakers having been dealt with, we left the committee-room to go on to our next business.

One or two detached themselves from the others and acted as spokesmen. There was one with a lined and haggard face whom one took for an old woman till her shawl fell back and disclosed the fair hair of a girl.

But it was a sentence of death we were passing on them. We knew it, and they knew it. Unless those fresh supplies came speedily most of the poor creatures we saw before us would just die.

But these have to be selected from at least 100,000 adults who are starving in this limited area alone; and in Alexievsky, a typical village of the Buzuluk district, selection so far had merely differentiated some who were starving from others who were starving.

"None is worse than another; all are destitute," had been the simple answer that morning of the local authority whom we had asked for a list of the worst cases. We tried to tell them, in our own broken Russian and also through interpreters, that to divide the ration would save no one; that we made it our rule to feed only those whom we could feel certain of being able to continue feeding until after the harvest; that we would increase the numbers fed as soon as sufficient supplies from England made it possible.

But it was a sentence of death we were passing on them. We knew it, and they knew it. Unless those fresh supplies came speedily most of the poor creatures we saw before us would just die. "Feed us! We are starving; we have nothing!"

Hands were made to work with, and to be soiled. Wash them with Lifebuoy when the work is done—and they will keep white and fine.

RECENT DEATHS

Dr. F. A. Rand—The community was shocked this afternoon when it became known that Dr. Frederick A. Rand had suddenly expired. The doctor had been on the street only about ten minutes previous to his death. On entering the house he discovered that the fire was on fire. The excitement and exertion of going up and down stairs brought on an attack of heart failure, which terminated fatally.

THOROBREAD FLOUR Becomes a Habit

Milled by Hunt Bros Limited London, Canada
They use it here—they use it there—Thorobread used everywhere.

David Tapley—The death of David Tapley occurred at the residence of his daughter in West St. John yesterday afternoon, at the advanced age of eighty-one years. He was born in Sheffield, Gumbury county, on August 27, 1841, a son of the late John B. and Anne V. Tapley, and was of Loyalist descent. In 1867 he was married to Mary E. Houy, who passed away some ten years ago. Mr. Tapley was an employe of the old New Brunswick Railway Co., working up to the position of trackmaster, which position he later held with the C. P. R., until he entered the customs service twenty-one years ago. In his younger days he took

great interest in sports, especially boating. He had been an invalid for some years. He is survived by one daughter, Mrs. A. L. Hoyt, of Algonquin Place, West St. John, with whom he made his home. The funeral service will be held this evening at his daughter's residence. The body will be taken to Woodstock on Thursday for interment.

Frank Thompson—Woodstock, April 25—(Special)—The community was shocked this morning when the death of Frank Thompson was announced. He was taken to the Fisher Hospital several days ago for an operation for a serious internal trouble, but his condition was not thought so serious as it further developed. He is survived by his wife (formerly Miss Nellie Dent), his aged father, three brothers and one sister. Mr. Thompson was a kindly, unassuming man and had many friends who will regret his death. The funeral take place on Thursday morning with a requiem mass at St. Gertrude's church.

Joseph W. Nichol—The death of Joseph W. Nichol, of 142 St. Patrick street, occurred yesterday afternoon at the St. John Infirmary after a short illness. Mr. Nichol, who for a great number of years had been in the employ of Amland Brothers, was the eldest son of the late Mrs. Rose Nichol and of John Nichol, for more than fifty years foreman in McAvity's brass works. He is survived by his wife; two sons, Melville, who is a student in theology, at the Sacred Heart Seminary, Halifax, and Beverly, at home; his father, John Nichol, of this city; two brothers, William, of St. John, and John, of Boston, and three sisters, Mrs. T. McCullough and Mrs. A. Kelly, of St. John, and Mrs. R. K. Hill, of Boston. The late Mr. Nichol was a well known resident of the East End of the city, a vice-president of St. Vincent de Paul's Society and an active member of the Knights of Columbus.

Miss Alice Mullaney—Much sorrow will be felt at the death of Miss Alice Mullaney which occurred yesterday, April 23, 1922, at the St. John Infirmary, at the age of seventeen years. She was the daughter of Mr. and Mrs. Michael Mullaney of Millford, and was a bright and very popular girl, whose loss will be keenly felt both by her bereaved relatives and by her wide circle of friends. She leaves, besides her parents, three brothers, Richard, Marvin and Dominic, and four sisters, Agatha, Josephine, Veronica and Mary, all at home. The funeral will take place tomorrow morning.

Mrs. J. C. Salterio—The death of Mrs. J. C. Salterio occurred at Halifax, Monday night. The funeral will be held Thursday morning. Mrs. Salterio had many friends in St. John who will learn with regret of her death.

Pimples and boils —caused by errors of diet

A well-known skin specialist says that pimples are "signal flags of danger" often indicating errors in diet. Instead of pimples are so frequently associated with faulty habits of eating and improper digestion that the first thing to do is to see that our food is right. Fresh yeast is a wonderful corrective food for these skin disorders. Fleischmann's Yeast is rich in the elements which improve appetite and digestion and which keep the intestines clean of poisons. Physicians and hospital workers over the country are recommending Fleischmann's fresh yeast for pimples and boils. It gets right at the basic cause of these complications. Eat 7 to 8 cubes of Fleischmann's fresh yeast daily before or between meals to keep your skin healthy. Beware of the cheap imitations with the yellow label. Place a standing order with your grocer.

Blackheads indicate your cleansing method is wrong

USE this famous treatment to keep your skin free from blackheads. Each night before retiring apply hot cloths to the face until the skin is reddened. Now with a rough washcloth work up a heavy lather of Woodbury's Facial Soap and rub it into the pores thoroughly with an upward and outward motion. Rinse with clear, hot water, then with cold. Finish by rubbing your face for 30 seconds with a piece of ice. Begin this treatment tonight. Within a week or ten days your skin will show a marked improvement. The Andrew Jergens Company. IS DOBBIN DISPLACED?

A despatch from Denver tells a story which may become increasingly common as the general motorization of the world continues. After searching twenty-four hours for a horse-drawn hearse, it states, an undertaker found one in the basement of a livery stable, and as a result the last wish of Mrs. Ella M. Sears, wife of a physician, was fulfilled. Upon her death-bed Mrs. Sears, who was sixty, asked that no motor-driven vehicles be permitted in her funeral procession.

The undertaker discovered it had been ten years since a horse-drawn hearse had taken its place in a funeral procession in Denver.

FLYING BOAT WINS RACE FOR WOMAN'S LIFE

Details of a race with death participated in by a slow sailing schooner and a high-powered flying boat with a woman's life one hundred miles away on an island staked against time and saved by the plane are given out by C. F. Redden, president of the Aeromarine Airways, Inc., Times Building, New York. The news came to Mr. Redden by wire from Miami, Florida, one of the air bases of the Aeromarine Company. "The schooner 'Lilly' put into Nassau after four and a half days," said Mr. Redden. "In travelling at her best speed from Norman Coast on the island of Little Abasco in the Bahamas. It brought the word that Mrs. Lottie Russell, wife of Roy Russell, manager of the Bahamas Islands Importing and Exporting Corporation, was in a critical condition and unable to live unless immediate aid was rushed to her. There were no physicians on the island and the skipper asked that one be rushed there on the fastest boat available. Even then, her condition was so desperate that he considered the odds greatly against the sick woman. He gravely doubted if aid could reach her in time. Every minute might mean life or death.

"While the captain of the schooner was seeking a swift boat to make the return trip and others were summoning a physician and a nurse, Dr. Graham and Miss Nellie Burns, he chanced upon Duke Schiller, pilot of the Aeromarine flying boat 'Florida,' who had just entered the harbor from Miami. Schiller at once tendered the use of the plane and volunteered to put off immediately. When the physician and nurse arrived they were bundled into the big plane and began a race to save a woman believed to be dying. "The hundred miles they covered in one hour and a half—as against the four days and a half for the schooner—and were at the bedside of Mrs. Russell within two hours. Expert medical attention brought her from the shadow and she gradually improved.

"Schiller returned and at Nassau met Ed. Musick, piloting the big eleven-passenger enclosed-cabin Aeromarine flying cruiser 'Columbus' also sent out of Miami. Musick flew his ship to the island and found Mrs. Russell recovering and in such condition that the physician was able to return, leaving the nurse to care for her."

ENGINEERING STRIKE (London Engineering). During the recent debate in the House of Commons on the engineering dispute, Sir Allan Smith made it clear that certain unions had indicated clearly to the employers that for the last twelve months they had made up their minds that the employers were no longer to have the rights of management which they have had in the past; and he showed that the employers, far from desiring to attack the unions, had been forced to take up this challenge as soon as it became evident. He pointed out that the employers had no desire to work overtime where it could be avoided, if for no other reason than that it was not economic to pay men 50 per cent. extra for working at the end of the day when their energies were greatly diminished. He repudiated emphatically the suggestion that the employers wished to destroy the unions, and referred to Mr. Brownlie's acknowledgement that such a suggestion was unwarranted. He said that he, personally, desired that the unions should become stronger, provided their internal discipline were improved so that the workmen should in future accept the recommendations of their appointed leaders instead of turning them down as they had done in the present case with such unfortunate results. As regards the call for a Court of Enquiry he pointed out that no such court could be in as good a position to form opinions as to the proper relations of the engineering employers and employees as the conference of November 17 and 18, 1921, at which the unions conceded that they should not interfere with the right of the employers to exercise managerial functions in their establishments, and that the instructions of the management should be observed pending discussion of any question in dispute. Allan gave an important indication of the employers' desire to be reasonable in all things by saying: "If the unions are prepared to agree with us in principle that we are still to have the right to manage our factories, we shall be more than pleased to sit down with them in conference while their men are at work, in order to come to an agreement with them as to the manner in which these managerial functions are to operate." Out of the strong came forth sweetness, and at the moment of writing we were to learn whether any good thing would come of the conference which has followed on this declaration.

**OLD COUNCIL
 MET YESTERDAY FOR
 THE LAST TIME**

The last regular council meeting of the city council, as at present constituted, was held yesterday afternoon. The new members of the council will be sworn in on Monday next, and at the next council meeting H. H. McLellan will be presiding as mayor and R. W. Wigmore will be present as a commis-

sioner. A considerable amount of routine business was transacted at the meeting yesterday. Mayor Schofield presided and all commissioners, with the exception of Mr. Bullock, were present. The common clerk reported the result of the civic election, declaring H. H. McLellan elected mayor and Rupert W. Wigmore and T. H. Bullock elected commissioners. The report was ordered received.

The commissioner of finance and public affairs reported that he had appointed Eugene Hiddiscombe a measurer and surveyor of lumber for the city of St. John. The committee of the whole containing recommendations approved at previous meetings, was adopted. It recommended that tenders be called for curbstones to be laid in Waterloo street from the intersection of Union street to Golding street.

On damp, rainy days and hot humid days, ordinary matches "lose their heads." Moisture softens the heads and match after match crumbles without lighting. That's waste.

John and \$9,782 additional for proper foundations. The cost of the school is estimated at \$189,000, the additional amount being for expropriation proceedings, architect's fees, etc. The matter was left to the incoming council.

The mayor said that the city controller asked for authority to pay bills totaling about \$1,000 for charges incurred during the street railway strike last year. The necessary authority was given to pay the bills. It was shown that the city did not have to pay for the keep of the mounted police while here, except for an additional work they remained at the request of the city.

The council then went into committee to hear P. J. Legge, of the St. George A. A. C. He asked for the use of the Queen square grounds for baseball and general athletic purposes. He advocated the removal of the street car tracks and the conversion of the Queen street end of the square into a playground. The matter was referred to the new council.

The committee then arose and went back into council session.

On recommendation of Mr. Frink, Leo Blizard was appointed pound-keeper. He also will work on the gardens in the squares.

The application of A. Gilmour to replace the electric sign in front of his premises in King street was granted.

The claim of Walter Bailey, 205 Millidge avenue, for \$150 for damages, the result of blasting, was considered. It was decided to offer him \$35 in cash and replace three panes of glass that had been broken.

The report of the road engineer was received on the request of the Union Foundry for permission to erect a runway for a traveling crane in Union street, west end, was received. The specifications did not provide proper clearance and special permission would have to be obtained from the railway commission. The report also advised the council to secure the opinion of the city solicitor as to the right of the council to grant permission for the erection of any permanent structure in city streets. The matter was laid on the table until such time as J. E. Waring could appear before the council.

Authority was given Mr. Frink to build a retaining wall and culvert in Somerset street at an estimated cost of \$631.80, to be paid for by unexpended balance from the proceeds of bond issue for the retaining wall in Main street.

Mr. Frink read a letter from Frank H. Gardiner, west side, saying that the city rock crusher had been moved back to the west side and was an inconvenience. His wife was in delicate health and he would hold the city responsible for any damages or injuries. No action was taken in the matter.

On motion of Mr. Thornton, the bill of the Power company for street lighting for the quarter ended March 31, last, amounting to \$9,771.75, was ordered passed. The gross amount of the bill was \$9,901.43, less lights out, \$99.68 and rental, \$30.

A bill for mason work on the city market by James Sproule, amounting to \$359.11, was ordered passed.

A letter of appreciation for six months' pay, amounting to \$370, was received from George Corbet, who is retiring from the police force.

A letter from D. Mullin, claiming damages for Arthur Cottrell who was hurt by a book falling on him in the city market, was considered. It was decided to notify Mr. Mullin that the city had

been advised that it had no liability in the matter.

Mr. Jones said that the repairs to the walls of the old reservoir would be more extensive than at first thought, and he decided to let the new council handle the matter.

On motion the council adjourned.

ENJOYABLE RECITAL

In a programme that displayed to excellent advantage a finely developed technique, one of the city's leading artists, Mrs. T. J. Gunn, gave a violin

recital in Centenary Hall last evening before an appreciative audience of nearly 600 music lovers, who were delighted, not alone with Mrs. Gunn's list, but the piano offerings of Mrs. J. Milton Barnes and J. Bayard Currie. The duets by Mrs. Barnes and Mr. Currie revealed in both a splendid mastery of piano and they were encored at every appearance. Mrs. Gunn's ability is well known but she added fresh laurels to her interpretations last evening. The programme opened with a duet by Mrs. Barnes and Mr. Currie and the remaining numbers were: Scene de Ballet, de

Beriot, Mrs. Gunn; La Gitana, an Arab-Spanish gypsy song of the 18th century, Melodie, by Gluck-Kreiser, the Bee, by Schubert, African Dance, by Colerage Taylor, all by Mrs. Gunn; Danse Mabre, and Concerto No. 22 in A. Minor, both by Mrs. Barnes and Mr. Currie. Mr. Currie's accompaniments to Mrs. Gunn was exceptionally well done.

A party of local Rotarians, including R. D. Paterson, district governor; Canon R. A. Armstrong, E. J. Terry and J. M. Woodman, went to Fredericton last evening in Mr. Woodman's private car to as-

**The Motorists of Canada
 made
 Dominion Tires
 the standard by which all tires are judged**

When Caruso died, the director of the Metropolitan Opera was asked if he would make a certain tenor Caruso's successor. He replied, "I cannot make anyone his successor. The public only can do that."

The car owners of Canada made DOMINION TIRES the tires by which all tires are judged.

When automobiles were a novelty, motorists had no standards. Tires, as well as cars, were taken on trust.

But to-day, values are based on performance. Tires have been tried out; mileage records have been kept; tire troubles have been checked; and motorists know—ABSOLUTELY KNOW—that DOMINION TIRES set the standard of mileage, service, comfort and economy.

Dominion Tires to-day are better than ever and prices average one-third less than pre-war prices.

Buy your tires on a business basis.

ROADS SET RECORD FOR SAFETY IN 1921

1,011 Fewer Employes on Duty and 24 Fewer Passengers Killed Than in 1920—Figures Compiled by the I. C. C.

A record for safety of operation was established by U. S. railroads in 1921, according to an analysis of accidents recently compiled by the Interstate Commerce Commission.

The total number of employes killed in trains or train service accidents last year is given at 1,096. This, or forty-eight per cent, less than were killed in 1920. Two hundred and five passengers were killed, a reduction of twenty-four from the 1920 record, and the smallest number in any year except 1895, 1896 and 1915.

481 Trespassers Killed. The number of trespassers killed was an increase of 14 1/2 per cent, over 466 killed in 1920. This was the class of fatalities to show an increase.

The commission's statistics of accidents for the last fifteen years reflect an increase in the safety of railway operation in the United States which probably has not been surpassed, and may not have been equalled, in any other industry in this country, or on the railways of any other country.

The fatalities on railroads reached their maximum in 1907. In that year the total persons of all classes killed was 11,839. Of these 4,834 were employes and 610 passengers.

The great increase in safety of operation has been largely due to improvements in the railway plant. It has been very much more largely due to the education of employes to the need of observing the rule of 'safety first' in their work, for the great majority of accidents always has been due to man failures rather than to plant failures.

Yarmouth, April 25—The mysterious disappearance of a quantity of bulky goods from the store of Hon. E. K. Spinney was solved today when the police discovered a quantity of barbed wire rolls and heavier board in the home of one of the employes of the store.

IN-HIS-NAME CIRCLE.

"In-His-Name" Circle held its regular meeting at the Guild on Monday evening, with Mrs. R. C. Thomas in the chair. Mrs. C. J. Stammers and Mrs. Guy Smith were appointed members of the circle executive. The sum of \$5 was voted to the Dominion convention fund. This convention will be held in Vancouver during the month of June. It was decided to continue sending milk to a widow and her family during the summer months. The "ways and means" committee reported several ideas for raising funds, and it was decided to hold a "May Party" next month at the home of one of the members. Mrs. Thomas referred to the death of the international treasurer, Mrs. K. N. Farnsworth, of Nashua, (N. H.)
