AN INVOCATION OF A MADMAN TO CIVIL WAR

Roosevelt is Given a Fearful Lacing by Colonel Watterson in His Paper

His Choice as President Means he Will be Dictator and Constitution Shattered—Called a Paranoic and Bawling Like a Drunken Person From One End of Land to Other—Regret That Taft Let Himself be Drawn Down to His Level

(Canadian Press) New York, May 23.—A dispatch from Louisville, Ky., says that under the caption "An invocation to civil war," Colonel Henry Watterson, says in the Courier Journal this morning: "The result in Ohio makes it certain that the voters of the United States will have to reckon with Theodore Roosevelt, next November at the polls. It will matter not whether he appears under the emblem of a regular party nomination or as an insurance, appealing to all parties. Unless he breaks down under the strain and is taken to a lunatic asylum he will be a candidate for president."

There can be in his name and person, but one issue, life tenure in the executive office and a civil fabric imperial in everything except his nomenclature. "The country has reached another parting of the ways. From the exit of Washington to the death of McKinley, the citizens selected for president of the United States were level-headed and well-balanced men, about whose mental equilibrium there has never been the slightest question. At length this nation is a world power. The issue precipitated by Theodore Roosevelt is to decide whether that sublime decision of the sword, with all that went before it and all that it carries with it shall be nullified; whether, having become a world power, this nation shall proceed to maintain its own freedom by the abandonment of its constitution, the overthrow of its safeguards, and the naming of a dictator."

He who says this is not the issue little folks what he is saying; he who thinks it is not, it were prudent to question his sanity. In its ultimate analysis and its last word, the Roosevelt propaganda is the invocation of a madman to civil war.

CLEAR AWAY ALL MISSILES BEFORE THE VOTING BEGINS

In Budapest They Have Lively Times—Threat of Strike After Election

Budapest, May 23.—The socialist union last night resolved to precipitate a strike of all unionist workmen in Budapest with the exception of municipal employes as a protest against the election of Count Tisza as president of the lower house, in succession to L. Navay, who resigned his chair in consequence of party troubles. Count Tisza is an opponent of universal suffrage, and was elected only after a stormy scene. All the telegrams and other articles that could be used as missiles were removed from the chamber before the voting began. Free fights occurred around the voting urn, and finally the whole opposition party left the chamber, and Tisza was elected by the government party. Executive police and military precautions have been taken against disorders. Sharp battles between the police and strikers wounded. Two strikers have been killed and many of the police and strikers wounded. Practically all the trade unionist workmen in Budapest with the exception of municipal employes, struck. Fifty thousand workmen, finding their efforts to obtain possession of Parliament unavailing, started wrecking windows and street lamps, and destroying goods in the shop windows. Then they began stoning the police. In Outer Wigener street the strikers took possession of a building, from which they fired at the police. Several policemen were hit with bullets, and the police fired several volleys into the crowd.

COUNSEL NOW HAVE FLOOR IN INQUIRY INTO ALLEGED SHOE COMBINE

Montreal, May 23.—That the United Shoe Machinery Company of Canada, a subsidiary of a Boston concern, had, by its business methods, practically smothered all competition on the part of rival shoe machinery concerns in the Dominion, while it has at the same time succeeded in placing within its absolute power shoe manufacturers to the detriment of the consumer, was the contention advanced by A. Falconer, K.C., counsel for the complainants in the case being made the subject of an investigation before a commission appointed by the federal government in virtue of the combines act. The commission has been taking evidence for months, chiefly in Toronto, Quebec and Montreal, and yesterday reached the stage wherein the respective counsel sum up their cases. Mr. Falconer's address took up the entire day.

London Cable Declares There is Gloomy Industrial Outlook in England

New York, May 23.—A London cable to the New York Times this morning says: "Fresh industrial disturbances, eggings and the expectation of enforced reductions of railroad dividends, and an international situation which, while not critical, contains obscure and disquieting elements, all combine to render the outlook in England gloomy. Fifteen thousand workers at the port of London are on strike and unless a committee of inquiry appointed by the government discovers a solid solution of the quarrel, it is feared that 100,000 men will be laid off by the end of the week. The spectre of another national coal strike has not been removed. Indeed, it is a general strike commencing by a resolution of the miners' federation, passed at a meeting in London yesterday, indicating a profound dissatisfaction with the awards made by the district boards created under the minimum award."

PARIS HAS BETTER OF KILBANE—CARL MORRIS IN PRELIMINARY TO BIG FIGHT

London, May 23.—The national executive of the Transport Workers' Federation has decided upon a general strike commencing tonight in support of the Thames lightermen, also to enable the federation to enter into a collaboration with England to put an end to the Franco-Italian war, or in any case to prevent hostilities from disturbing the peace at other points, were being continued in complete accord with the efforts of the workers' union.

SAYS KAISER HAS BEEN THE VICTIM OF HOAX

Archaeological Discoveries Made in His Presence At Corfu Declared Frauds

An Old Game Worked

Berlin Paper Says it is Common to Arrange Such "Discoveries" at Pompeii for Anyone Who Will Pay, But This Goes Too Far

(Canadian Press) Berlin, May 23.—Roland von Berlin, a popular weekly review, assumes the responsibility for a statement that the Kaiser has been the victim of a huge hoax in connection with the alleged archaeological discoveries recently made in his presence at Corfu.

The review, in its current issue, says: "Nobody imagines that it was purely a matter of accident that, just during the few weeks of the Kaiser's sojourn in Corfu, innumerable valuable antiquities were brought to light as if by magic, after being hidden from the industrious spades of science for something like 2,000 years. Everybody is convinced, on the contrary, that a simple swindle has taken place and that the Kaiser has been hoaxed."

"Anybody who has been to Pompeii knows that the excavation of making discoveries can be enjoyed at the cost of a little change. It only depends on how much one cares to spend, before one can discover a hand, an arm, or even a fire marble head. That frightens the people and hampers nobody else. "It is a different matter when the hoax is perpetrated at the expense of the head of the German Empire. Near relations of the Greek royal family are telling everybody who cares to listen that the discoveries at Corfu were nothing but a swindle covered up and anxiously guarded until the Kaiser came."

TO END THE WAR

Paris, May 23.—M. Jovokaly, Russian ambassador to France, presiding at the annual meeting of the Russian chamber of commerce of Paris last night, said the efforts of France and Russia, acting in close collaboration with England to put an end to the Franco-Italian war, or in any case to prevent hostilities from disturbing the peace at other points, were being continued in complete accord with the efforts of the workers' union.

RESTRICTION IN DEED

The advertised sale of the Howard D. Troop property in Orange street has brought to light a rather curious restriction on the recent lot adjoining the residence. The lot was originally owned by Mr. Troop, and was at one time deeded back to Mr. Troop, but with the restriction that no building higher than six feet should be erected upon it, apparently with the intention of protecting the view from Mr. McClellan's residence.

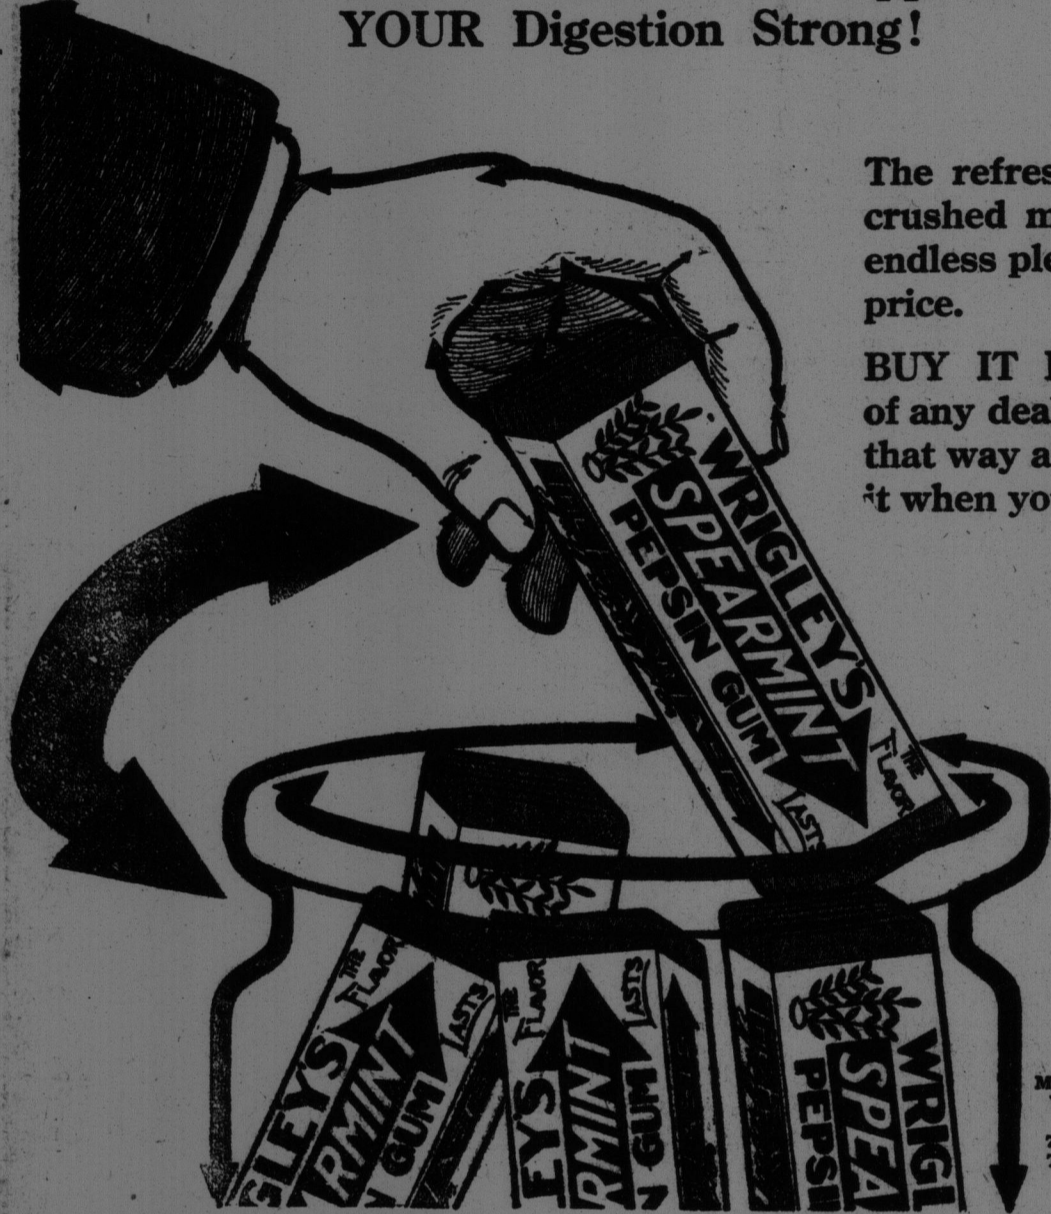

THE STRIKE TODAY

The Subject of the Duel Reviewed by Recent Discussion in German Reichstag

In the Reichstag the other day, during an angry discussion on the subject of duelling, a French nobleman made a remark to the effect that if a prince were shot, there would promptly come an imperial order to stop duelling. This conveys the impression that no prince has ever been killed in a duel, which is by no means the case, as the following paragraphic sketches will demonstrate.

proceedings, and obtained a verdict of 100,000 francs damages. Although French duellists are especially anxious to avoid homicide, it is thoroughly understood that honor cannot be satisfied without the shedding of an appreciable amount of gore. To meet this requirement, a so-called deputy made an important part of every hostile meeting, have been known to carry a small bottle of blood, or fluid of a similar color, in their pockets, to suggest the apparent seriousness of any scratch that did not penetrate the skin deep enough to produce a responsible flow.

## THE ANTI-FLY CAMPAIGN

All over the east of Canada and the United States there is an active campaign against the housefly. In some parts of the United States it is assumed very grotesque forms. We commend the anti-fly campaign to the consideration of the people, but suggest that it should be directed against the source of the pest. It is better to prevent the breeding of flies than to try to kill them when they are on the wing. One frequent and very dangerous source of flies is in the cans in which fruit or vegetables have been sold. If these are thrown out without care being taken to see that they are clean, there is always sure to be more or less of the contents adhering to them. In this flies are bred, or at least they feed on it, and they are likely to carry away from it germs of the most poisonous character.

## RHEUMATISM AND LUMBAGO

If you have any doubt as to the value of Dr. Chase's Kidney-Liver Pills as a means of regulating the kidneys and thereby curing rheumatism and lumbago, you will find here the proof of what was accomplished in one case.

Mr. John Bellard, carpenter, Hammer, Ont., writes: "I was entirely cured of kidney disease and rheumatism by the use of Dr. Chase's Kidney-Liver Pills. For about twelve years I was troubled with the kidneys and suffered a great deal from rheumatism and lumbago. I consulted three different doctors, and, as they failed to cure me, I began the use of Dr. Chase's Kidney-Liver Pills, because a friend of mine had been cured by their use. Altogether, I have used ten boxes, and was entirely cured over a year ago. I can recommend Dr. Chase's Kidney-Liver Pills as the best cure for kidney disease, backache and rheumatism."

LONDON STRIKE MAY BE NATIONAL

London, May 23—The resolution adopted by the executive committee of the Transport Workers' Federation confines the strike for the moment to London.

Mr. Anderson, the general secretary of the federation, said: "The resolution means the stoppage of work by all the transport workers of London, and if necessary a strike will be declared later."

Representatives from every port in the United Kingdom were present at the meeting of the federation, and a resolution was unanimously adopted to quit work owing to the alleged boycotting of members of trades unions, and the "deliberate breaking of agreements by employers."

No fewer than 150,000 dockers, carmen, lightermen, laborers and others, connected with the docks, will be immediately involved in the strike and the entire transport work of the port of London will be brought to a standstill.

Any attempt to divert traffic to other ports of the United Kingdom will be a signal for the spread of disaffection.

Work at some of the London docks is already paralyzed this morning and numerous vessels laden with foodstuffs are unable to discharge their cargoes, while perishable food is rotting in the warehouses.

KENNEBECASIS FERRY APPROACHES

To the Editor of the Telegraph. Sir—The Standard, after mentioning reports from the Gleason, of Fredericton, a personal attack upon me as a Liberal organizer and leader in the province, criticizing the Fleming government. I have no fault to find with the Gleason's criticisms to the government.

That is the stand this or any government newspaper is expected to take and is part of the game of politics.

But near the close of my article the Gleason says that while I was not a candidate in a contest, "I received \$348.88 for the construction and placing of certain ferry approaches on the Kennebecasis river and for per cent. commission on the above amount. This, in a sense, is true. In 1907 I was secretary and manager of the Clifton Stevedoring Company, a small corporation formed by residents in this neighborhood and in Clifton without regard to politics. We had spent over \$5,000 upon a ferry steamer. The Premier, and when it was about ready to go upon the route I was instructed, as secretary of the company, to write the provincial government setting forth the necessity of there being more approaches to enable teams to drive on the ferry steamer. I was requested to obtain the cost of the cost, which I obtained from W. E. Cronk, a practical and competent workman and wharf tender, who was at that time has been almost constantly employed by this government.

I have forgotten at this moment just what that contract was, but I received, as secretary of the company, a telegram from Chief Commissioner LaBrosse, asking me to see that the approaches were built, the cost of each not to exceed \$60. Thereupon I purchased the lumber and engaged Mr. Cronk to do the work, and afterward superintended the placing of the approaches at the different landing places.

I was rather proud that we succeeded in building the six approaches for less than the limit placed upon us by some \$10 and I saw no harm then and I see none now in accepting \$348.88 for my services in connection with the work. I am as sure, at this time—five years after the work was done—that I earned the money as I was then.

My only regret in connection with this matter is that, in spite of the efforts of the people, the transportation question upon the Kennebecasis is still in a great measure uninvolved. The approaches built at that time were either carried away by the ice a year or two later, or used by the structural superintendent in the repair of wharves. Last year two new ones were built at Clifton and Gondola Point, and the cost of these was nearly double what the same structures cost in 1907, when built under my supervision. These houses were built under the superintendence of Structural Superintendent Wilkins.

I am, Yours truly, E. S. CARTER.

The Ohio Vote

Columbus, Ohio, May 23—Scattering returns from the most distant districts indicate that Colonel Roosevelt's delegates, acquired in Tuesday's primaries, will not drop below the thirty-two needed to win.

Gov. Wilson of New Jersey, however, has made slight gains in the Democratic vote and there is a possibility that Governor Harmon's delegates will not be more than twenty-seven.

Washington, May 23—Senator Dixon, head of the Roosevelt national headquarters has issued a statement practically calling on President Taft to withdraw from the presidential contest.

The travel of grains of sand have long been a matter of scientific record. Years ago it was established that particles picked up on the coast of Pas de Calais had their origin in the rocks of Brittany, from 120 to 180 miles distant. Another standard fact is the discovery on the coast of Denmark, of chalk dust which undoubtedly came from the cliffs of Normandy.

VICTORIA DAY

To all Canadians who have reached middle life Victoria Day is associated with memories of the great Queen whose birthday it commemorates. The day is also come to be recognized and valued as the first holiday of the opening summer, dear to the hearts of anglers and children, suburban dwellers and excursionists in general, to say nothing of the opening locality of the base-ball season. It is a pleasant break in the monotony of toil, and a cheerful introduction to the pleasures of the season during which so many people in cities visit the country or dwell at suburban resorts. Always provided, of course, that the weather is fine.

WESTERN CAPITAL COMING

The editor of Canadian Finance, Winnipeg, who a few months ago visited the lower provinces, and who has also been to the Pacific coast, has this to say:— "It is interesting to note that western capital—from both British Columbia and the middle west—is being interested in the awakening activity that seems evident in the maritime provinces. In St. John real estate (central and suburban), and in colonization plans for the St. John valley's fruit growing development, well-known western names are in evidence. Of course, any attempt to make real estate activity in the maritime provinces a cause rather than a concomitant of basic development would be regrettable. But the optimism describable down by the sea gives promise of a coming 'strong market and a pull altogether.' A time of large harbor and transportation developments seems a psychological moment to put energy into plans for developing a rich but too neglected adjacent territory."

The Fredericton Mail says:—"The bonds of the St. John and Quebec Railway Company, endorsed by Hon. Harry F. Mead, provincial secretary, do not seem to be in very great demand among British capitalists at the present time." "With the aid of a band and a sod-turning celebration the Carleton county Tories held their convention yesterday. Mr. Fleming posed as the favored son and during the motor received a silver shawl from a railroad contractor."

Who is responsible for the further delay in connection with the sanitation for advanced cases of tuberculosis? What sinister influence is at work? To delay action is to further disgrace the city, and show a reckless disregard for the public health. "The sentence of nine months in jail for Mrs. Pankhurst may seem severe, but they committed a crime, and English justice does not discriminate as to persons. The sentence should make window-smashing less desirable as a womanly pastime."

This striking statement appears in the report of the National conservation commission—"The average length of human life in different countries varies from less than twenty-five to more than fifty years. This span of life is increasing wherever sanitary science and preventive medicine are applied. It may be greatly extended."

While Empire Day is not observed as a public holiday, the children in the schools have their attention drawn on this day to the meaning of the word as it relates to the British Empire, and to the responsibilities of citizenship in the far-flung realm over which the Union Jack floats as the symbol of freedom and progress. In a speech in London, alluding to the fact that Great Britain bore the burden of the defence of the Empire, Earl Grey declared that thousands of Canadians were galled by that thought; and that they envied her that privilege and were counting the days until they could stand and claim their share. Mr. Borden will please sit up and take notice.

YORK LUMBERMEN AND FARMERS LOST \$200,000 BY DEFEAT OF RECIPROcity

Astounding Figures Showing What a Blow Misguided Voters Struck at Prosperity of New Brunswick--Some Cases in Detail

(Fredericton Mail). Ex-Ald. Walter Boyce, is the largest individual shipper in this locality and he does not conceal the fact that it has been his banner year. In the month of February he shipped no less than 8,000 barrels of turnips to the United States, and he has since disposed of 4,000 additional barrels, making a total of 12,000. The duty on turnips is 25 cents a barrel, so that the entire shipment he was obliged to pay tribute to Uncle Sam to the tune of \$3,000.

Mr. Boyce has shipped to the American market so far this season, about 4,500 barrels of potatoes, which were purchased from farmers in the counties of York and Sunbury. The duty on the shipment amounted to \$2,000. Mr. Boyce has also shipped 1,000 tons of pressed hay to the United States this season on which he paid duty at the rate of \$4 a ton or a total of \$4,000.

The statement may seem surprising but nevertheless it is a fact that Mr. Boyce in a period of six days this spring shipped across the farmers of this section the sum of \$6,000.

At Cardigan station in one week a representative of his paid out for produce the sum of \$6,000.

Thomas Gray, a leading farmer of Kingsclear, raised two acres of potatoes last year. He kept sufficient for his own use and for seed and disposed of the balance to Mr. Boyce, for the tidy sum of \$37.

Mr. Boyce is only one of a number of people who are making large shipments of farm produce to the United States this season. W. H. Allen of Pennac, has already sent forward 1,000 tons of hay and he has 500 tons yet to go. Canadian hay is now quoted in the Boston market at \$31 a ton. It sells here for \$11 and \$12, but duty, freight and other charges eat up a good share of the shipper's profits.

(Mail Editorial). Those who are in a fair position to make a correct estimate declare that the unfortunate defeat of reciprocity in September has already cost the farmers and lumbermen of York at the very least the large sum of \$200,000. Taking into consideration the quantity of lumber and produce which is going forward from this county every week to the markets of the United States we believe the estimate to be a conservative one.

The demand for our farm produce from across the water has been very keen this year but it is nothing to what it would have been had the tariff restrictions in natural products been swept away by the enactment of the reciprocity agreement. The Americans have been compelled during the past winter to import potatoes from across the Atlantic. The rate of duty levied by the government is the same against all countries so that potatoes brought from Scotland and Ireland pay a tax of twenty-five cents a bushel. Laid reciprocity carried

NO FARMER WANTED. The Moncton Transcript says: "There has been a strong movement throughout Westmorland county among the Conservatives to have a practical farmer placed upon the ticket and the farmers canvassed and worked hard for Mr. Taylor, of Dorchester, but the Tory machine was too many for the farmers and their farmer nominee was told that the farmers in the Conservative party were merely needed to vote for the manufacturers and lumber operators, and would be ousted later monopolists."

OPENING OF THE LEAGUE TOMORROW

The first two games in the New Brunswick & Maine League will be played here tomorrow, the Marshalls and Fredericton being the contestants. The morning game will start at 10.30, and the afternoon match at three o'clock. It is expected that a large crowd of Fredericton voters will accompany the team.
The Marathon players who are to be seen in action tomorrow are: Pinkerton, short; Berran, left field and pitcher Ramsey, second; Dolan, third; Riley, centre field; Nelson, right field; Connor or Sullivan, first; Cameron, catcher; Lambie, Malvey and Cook, pitchers.
Empire Murray and Masett were due here today. Dolan, the Marathon's third baseman, was also due at noon.
Fredericton Mail - "Rube" Crum, of Brown University, whom the Fredericton team is after, will be unable to report here until June 20, the baseball coach at Brown not being willing for him to leave before that date. Bates and Connolly probably will have to do the twirling at St. John Friday and Saturday with Bates on the heavy end of the three games. The outfield will be "Larry" Conroy in left field, P. J. Duggan in centre field, Connolly or Bates in right field, Johnny Murray will be behind the bat and the infield will be Hoyt, 1st base; Fay, 2nd base; Wilkes, short stop; Bon Conley, 3rd base. Manager Duggan is after another pitcher, and may land him in time for the opening games in St. John.

dropped Riley to the floor three times. But Riley was game clear through and fought his best. Fleming caught him with a right on the jaw after only a minute of fighting in the second round and the Biddeford boy went to the floor, rolled over on his back where he remained until the count of eight when he made a desperate effort to get up but rolled and was on the floor at the count of ten. A second more he was on his feet but instead, surprised to learn that it was all over. He was sent to his corner and when he left the ring a few minutes later he was greeted with prolonged applause by a sympathetic audience.
