AUSTRIAN ARMY IN RETREAT LOSES 100,000 MEN; BRITISH ADVANCE HALF MILE NEAR ST. QUENTIN; VICTORIOUS FRENCH CLEAR BEAUMONT VILLAGE

THE ITALIAN TROOPS DRIVE ON TO VICTORY

Austrian Army on the Isonzo Front in Full Retreat, Though Fighting Desperately---General Cordona's Troops Free Soil of Ancient Enemy---Battle Beginning to Reveal Itself in Vastness.

ITALIANS HAVE CAPTURED 23,600 PRISONERS, 75 GREAT GUNS, NUMEROUS MORTARS, MANY MACHINE GUNS, NUMBERLESS HORSES, VAST QUANTITY OF WAR MATERIAL AND IMMENSE STOCK OF ARMY SUPPLIES.

Rome, Aug. 25.—The Italian troops on the Isonzo front are marching to complete victory.

"At Udine, Salvatore Barzilia, civil governor of the Austrian territory occupied by the Italian army, when informed of the complete victory of the Italians exclaimed:

"At last our soldiers have achieved this magnificent thing; they have freed our soil from the ancient enemy."

The final success of the Italians in winning their greatest battle in this war is thrilling the country as never before. Both the army and the civilians now see the result of two years suffering and economic hardships. The victory came unexpectedly, notwithstanding the encouraging bulletins of the last fortnight. It is General Cadorna's rule never to announce an event until certain that his troops are able to hold new positions. (Continued on page 2)

CANADIANS CAPTURE STILL MORE GERMAN FRONT LINE

Gain Straightens Out Line Due West of Heart of City of Lens and the Point of the Enemy Offensive Wedge Has Been Broken Off.

Canadian Headquarters in France, Aug. 25.—(By Stewart Lyon, special correspondent of the Canadian Press)—Another carefully planned minor operation by the Alberta battalion, which holds that part of the line east of St. Thodore in the region known by our men as the "Crick-Pitch" on account of its flatness, gave us possession of 250 yards of German front line with light casualties today.

The attack was made at two o'clock this morning, and the enemy resistance was weak, compared with former defensive efforts in this sector. The trench captured and a communication trench nearby were found to contain a large number of dead Germans, many of them killed in bomb fighting two days ago, when we failed to drive them out.

Underground Connections.

At that the enemy parties appeared in such unexpected quarters that it was believed that the dugouts in the trench were connected by underground passages with the main German positions in the heart of Lens.

To make sure that the enemy would not again use these dugouts as a means of pushing reinforcements in behind our advanced positions they were all blown in before the work of incorporating the newly occupied territory into our line was begun.

The gain this morning, being due west of the heart of the city, has straightened out our line and the point of the German offensive wedge has been broken off.

Heavy Hun Losses.

Testimony to the efficient British and Canadian artillery, which co-operated in the big fight on Tuesday the strength, is given by a wounded prisoner of the 180th Regiment which was so badly wounded by gunfire, while

BRITISH FORCES WIN IN AFRICA

Belgians Aid to Defeat the Enemy in Eastern Part of Continent.

London, Aug. 25.—The British official statement issued today on the East African war, the latest reports further advances of the British and Belgian forces against the Germans. The text of the statement was:

"In East Africa the enemy has driven eight miles in the Tindidi area. In the Kilima area, the enemy has partly withdrawn toward the Mamburu Valley. Belgian columns are moving south of the Kilima.

"At Mpepo, sixty-five miles southwest of Mahenge, our columns have invested a considerable German force. In the southern area we are approaching Tondero, the enemy's supply centre."

McMILLAN IN SYDNEY

Arctic Explorer Finds Peary's "Crocker Land" a Myth—Made Important Discoveries.

Sydney, N. S. Aug. 26.—The McMillan expedition which left from Sydney more than three years ago to locate and explore the piece of territory which Commander Peary thought he discovered when he made his notable journey to the North Pole, and which he named Crocker Land, arrived at North Sydney today on the Neptune, commanded by Captain "Bob" Bartlett, who headed a relief expedition to rescue Prof. McMillan and his party.

Contrary to expectations Prof. McMillan did not discover Crocker Land. They made their headquarters at Etah and from there travelled 1,400 miles north by dog team.

Surmounting almost impossible difficulties and the result was that Peary's Crocker Land has been proven a myth. Prof. McMillan explains it as a mirage which sometimes are as clear as a reality in the north country.

That his four years of labor has been productive of startling results and that many new pages will be added to the world's natural history in consequence of his exploration and surveys was clearly intimated by the professor.

WILL CRUSH ATTEMPTED REBELLION

Premier Kerensky Delivers Emphatic Speech at State Council in Moscow.

NO DISORDER IN ANCIENT CAPITAL

All Efforts to Overthrow People's Will to Be Put Down Firmly.

Moscow, Aug. 25.—The state council, which advises important resolutions in the national life of Russia, opened this morning in the Grand Opera House with that solemnity and grandeur which are especially characteristic of Moscow.

Despite the one-day strike proclaimed by the Bolsheviks in protest against the council as a counter-revolutionary expression, the city is quiet. A few impatient attempts by the Bolshevik street corner orators to organize demonstrations were summarily suppressed and no serious incident occurred.

Premier Kerensky.

The proceedings began with a speech by Premier Kerensky, lasting an hour and a half. The premier was greeted with wild applause, when speaking of the dangers from the extreme left he declared: "All attempts with armed force against the people's power will be crushed with blood and iron."

Still more applause greeted him, when, at a counter-revolutionary military conspiracy, he exclaimed: "Let them be warned, who think the time has come when, relying on the name of the revolution, they threaten the success of the revolution."

Kerensky rebuked the Finlanders and other enemies of the revolution, and he declared that their pretensions threatened the success of the revolution.

Expected Attacks.

The premier's speech indicated that the government expects further attacks tomorrow by the military Duma and the Moscow deputies, which he denounced in advance.

The premier declared that the destructive period of the revolution had passed, and that the time had come to consolidate the conquests of the revolution.

"A little time ago we indignantly replied to a proposal to conclude a separate peace.

"A few days ago we witnessed another attempt, equally base, directed against our allies. The latter rejected it with equal indignation, and in the name of the great Russian people I say to our allies that it was the only reply we expected of them."

The premier paid a tribute to the Roumanians, saying that if they were forced temporarily to abandon their country they would find hospitality in Russia.

"The government will endeavor," the premier went on, "to protect the army against the subversive influence which deprived soldiers of all sense of military duty, and will struggle energetically against the Maximalists, against all attempts by them to corrupt discipline.

The premier said his colleagues would describe the widespread disorganization in the country, adding: "In order to remedy, we must make all sacrifices, abandoning our personal and party interests."

Half Mile Advance by British Along a Mile Front East of Margicourt, Near St. Quentin

FRENCH NEAR THE VILLAGE OF BEAUMONT

Deliver Smashing Blow and Capture the Fosses and Beaumont Woods.

VIOLENT FIGHTING AROUND HILL 304.

French Gain Two-Thirds of a Mile on Front of Two and a Half Miles.

GERMAN FORCES RESIST STRONGLY

Enemy Suffers Heavily from Gunfire in Fierce Counter-Attack.

Paris, Aug. 25.—Another smashing blow by the French today on the bank of the Meuse, in the Verdun sector, netted a gain of about two-thirds of a mile on a front of two miles, and a half, giving the French possession of the Fosses and Beaumont Woods, and bringing them to the outskirts of the village of Beaumont.

The official report from the war office tonight also records artillery fighting of great violence around Hill 304, on the left bank of the Meuse.

The text of the statement reads:—"In the Champagne our artillery, continuing its fire of destruction, caused within the German lines an explosion of gas reservoirs north of the Navarin Farm.

"On the right bank of the Meuse our troops this morning strongly attacked between the Mormont Farm and the Bois Le Chaume. Our attack was completely successful, and gave us possession of all our objectives, despite the stubborn resistance of the Germans. We captured their line of defence on a front of four kilometres to a depth of about one kilometre. All of the Bois Des Fosses and the Bois Beaumont, situated further to the north, is in our hands. Pushing further forward our troops reached the southern outskirts of the village of Beaumont.

German Caught.

"A violent counter-attack, debouching from Waville Wood, was repulsed under the fire of our artillery and repulsed with heavy losses. We caught a number of prisoners who have not yet been counted.

"On the left bank of the Meuse the artillery fighting was characterized at times by great violence in the region north of Hill 304.

"Eastern theatre Aug. 25.—The day was calm on the whole front. Several enemy detachments which essayed to reach our lines between Lake Presba and Lake Ochrida were repulsed. Allied aviators bombarded the environs of Demir-Hissar and enemy encampments north of Lake Malib.

THE ARMY OF AUSTRIA IS SHATTERED

Italians Capture Important Height of Monte Santo by Brilliant Dash.

MOUNTAIN LONG AN ENEMY STRONGHOLD

Total Losses of Emperor Charles' Forces Nearly 100,000 Men.

ITALIANS SWEEP ON TO VICTORY

Demoralization of Austrians Due in Part to Airplanes and Artillery Work.

Rome, Aug. 25.—The battle between the Italians and the Austrians still rages, with the Austrians stubbornly retreating at many points, including the lower Carso. Numerous messages from the front received by ministers indicate that the Italians are making swift strides towards victory. When asked today for an expression of his opinion of the results thus far achieved in the battle, Lieut.-General Count Cadorna, commander-in-chief of the Italian forces, smilingly replied: "We are doing nicely, thank you."

Austrians Demoralized.

The official communication on the result of the battle shows that the demoralization of the Austrian troops is in part due to the extraordinary aerial and artillery work of the Italians, which has destroyed not only the lines of communication, but has resulted in the burning of all the main front supply stations of the Austrians who, for the past week have been starving at many points between Tolmino and the sea. This also accounts for the unusual number of prisoners and wounded.

The total losses of the Austrians number nearly 100,000, the most important of which, in the Carso region, have not yet been officially announced. It is said that among the losses of the Austrians are many men of the famous 12th division, popularly known as the "Iron Division."

Monte Santo, the side of which has been scarred by many struggles in the past two years, and which is known in both armies as the spot where many men have become heroes was taken by the Second Army Corps, under General Capello, who crossed the Isonzo at Anovio and swerved around the base of Monte Santo there by cutting off the Austrian line of retreat, and completely isolating the mountain, which for so long had been there in the side of the Italians.

THE TEUTONS USE FLAMMENWERFER

Germans Momentarily in Re-occupying Northwest Corner of Inverness Copse, But Are Immediately Driven Out by Counter-Attack.

London, Aug. 26.—British troops today made an advance of half a mile along a mile front east of Margicourt, (north of St. Quentin), storming and clearing strong points at Cologne and Malakoff Farms, according to the official report from British headquarters in France tonight. The statement reads:

"Early this morning we attacked and captured the enemy's positions east of Margicourt on a front of over a mile. Our troops penetrated to a depth of half a mile, carrying, by assault, the enemy's strong points at Cologne Farms and Malakoff Farm, and have established themselves on the ground won. We captured 135 prisoners in the course of the operation.

Used Flammenwerfer.

"Under cover of heavy bombardment, the enemy attacked early this morning, in the neighborhood of the Treppe-Main road, using flammenwerfer and succeeded momentarily in re-occupying the northwest corner of Inverness Copse. His troops were immediately driven out by our counter-attack, and our positions were re-established.

"Fighting of a local character also took place this morning southeast of St. Julien where we advanced our line slightly. During the night the enemy, under cover of a heavy bombardment, recaptured a post taken by us on the night of August 24-25, west of Gelskio Creek southwest of Lombaertzyde. The hostile artillery has been more active than usual in the Neuport sector.

"Owing to stormy weather there was little aerial activity yesterday until the evening, when successful artillery work was carried out by us with airplane observation. Some fighting took place. Three German machines were brought down and four others were driven down out of control. Two of our airplanes are missing."

LOUIS ROBERT CECIL TELLS HOW HUNS PLANNED WAR

NO QUESTION BUT THAT THE ENLIGHTENED POLICY OF GERMANY WAS CAUSE OF WORLD CONFLICT

In Explicit Statement Lord Robert Cecil Explains How Great Britain Did Not Expect the War and How the Teutonic Powers, Especially Germany, Had Been Planning the Bold Stroke of that August Day in 1914.

London, Aug. 26.—"I see they again are talking in Germany about how England started the war," remarked Lord Robert Cecil, in an interview with The Associated Press. "It is an old story, but I think the time has come, particularly in the United States, when it is well to restate briefly the bald facts regarding the beginning of this great conflict.

"In every country there are men of many different opinions. The extreme war party in Germany actually welcomed and desired our entrance into the war, although they were determined to go on with their plans whether we stayed out or not.

"This was the situation in Germany when the Sarajevo murders came and gave the war party its eagerly awaited opportunity.

"The Austrians delivered their ultimatum to Serbia. There is no reasonable doubt that the ultimatums were submitted to Germany and approved, and there is no doubt it was then and there decided that whatever was Serbia's answer they would proceed against Belgrade. The ultimatum was couched in such arrogant terms that a favorable reply was difficult, but little Serbia managed to pen readily that which practically acquiesced in all the principal demands and agreed to submit the remainder to the Sague tribunal.

"An Italian writer has told us how, in 1913, Germany approached the Italian government with a view to taking action in the Balkans, but Italy said she would regard such a war as offensive and not defensive and would not think then she was strong enough to do it alone.

"Meanwhile Russia, who could not stand idly while Serbia was being crushed, began mobilization. France entered next. Then came out demands on Germany for an understanding in respect to the neutrality of Belgium, an understanding which France had already cheerfully given. Such an undertaking being refused, war came in.

BISHOP FALLON OF LONDON, ONT., CENSURES RECALTRANT PARISH

Announces That His Decision in Appointing Father Laurendeau as Pastor of the Ford City Church is Final—Threatens Further Action and Denounces "Mob Rule."

London, Ont., Aug. 26.—Right Rev. M. F. Fallon, Bishop of London, whose action in appointing Rev. F. X. Laurendeau, of this city, parish priest at Ford City has been opposed by the French-Canadian parishioners has directed a communication to the malcontents, in which he states that his decision is final, and that if endeavor is made to hold the church against Father Laurendeau recourse will be had to the civil law.

"I believe, sir—mainly perhaps because I wish to believe it—that the scandalous trouble which exists in Ford City and which is modifying the provisions of the civil law. Mob rule can meet with no support from either state or church.

"The spiritual interests of the people of the Parish of Our Lady of the Lake will be confided likewise to the Rev. Father Laurendeau. Of his competence from every point of view to fulfill the obligations of this position of his charge there can be no manner of doubt, and I bespeak for him as broad a measure of sympathy on the part of his parishioners as he is assured of support on the part of his bishop.

"I shall waste no time in analyzing the restricted resolution which you forwarded to me; a little sober counsel might have prevented its ever coming into existence; it has neither merit nor meaning; and it contains an ingenious but conditional expression of submission to episcopal authority which deceives neither me nor those who made it.

"The Rev. Francis Xavier Laurendeau has been named by competent ecclesiastical authority pastor of the parish of Our Lady of the Lake, Ontario, at that point you and your associates may set your minds at ease. He is now winding up his affairs in the parish of which until recently he was officially in charge. When that task is completed he will proceed to Ford City. There the management of the property of the episcopal corporation will devolve upon him, and in the discharge of that duty he will have the support of the provisions of the civil law. Mob rule can meet with no support from either state or church.

TO THE PEOPLE OF THE EMPIRE—Every fighting unit we can send to the front means one step nearer peace.

ITALY'S SPLENDID WORK.

The success attending the great offensive which the Italians are sustaining against the Austrians again directs attention to the really fine part Italy has played in this war. In probably no other area of fighting do the same natural obstacles exist as those confronting the Italians in their attack on their traditional enemies. Consequently it is natural that during the past two years there have been periods when the Italian movement slackened, even seemed to cease altogether, and, regrettably, such occasions were made the basis by unthinking critics of slurs against Italy's military achievements and even her good faith. It should be remembered that in the earliest days of the war there was a fear that Italy might be numbered with our opponents; that all the nations of the Triple Alliance would adhere to the very letter of the offensive and defensive agreement which bound them one to the other, and that Italy would range her undoubted strength with that of Germany and Austria. However, Italy's people decided otherwise, and after ample time for preparation, entered the war on the side of the Entente.

Since Italy's entry she has accepted a task for which she is probably better qualified than any other Entente power. It is very doubtful if placed on the heroic front, British or French troops would have made as good progress against Austria as the gallant Italians have done, for it must be remembered that those directing the Italian campaign possess the same advantage Napoleon had, they know every inch of the ground over which they are fighting. Their success now is likely to be permanent if for no other reason than the length of time required to achieve it, prima facie evidence that every movement was carefully planned and prepared for, and that the latest coup was purposely delayed until there could be no possibility of serious reverse to follow.

Today Italy is striking a mighty blow in conjunction with the other Entente powers in an offensive that from the success already attained is likely to bring considerably nearer the beginning of the end of this war. For that valuable assistance, all the more valuable because it comes at a time when the Russian effort has weakened, the gratitude of the Allies should go out to that splendid nation, to the Italian people, to General Cadorna, the intrepid commander in chief of the Italian army, and last but not least, to that splendid son of an English mother, Baron Sidney Sonnino, Italy's Foreign Minister, whose sagacity, intellect and nobility of character have already made him one of the outstanding figures of this war.

CONCERNING MR. PUGSLEY.

Whether members of William Pugsley's family have done all they should have done in forwarding Canada's war winning effort can have no bearing on Mr. Pugsley's personal conduct, or the attitude he has adopted toward every measure introduced in Parliament designed to aid the men who have answered the call to Empire and have gone overseas to bear their share of the duties and responsibilities attaching to every Canadian. It is not necessary to attack or criticize Mr. Pugsley for anything except his own conduct. That, in itself, offers sufficient ground for condemnation, and for it he alone is responsible. It is noteworthy that his own newspaper organs in this city, the Telegraph and Times, newspapers which, for years, have existed practically on his favor, have nothing to say in defence of his scandalous attempt to rob a very large proportion of the Canadian soldiers of their franchise.

By his opposition to conscription, by his blind subservience to Laurier and the Quebec reactionists, by his insinuation that soldiers standing in the shadow of death would resort to trickery and falsehood in connection with their voting, and, finally, by his miserable contention that men who are good enough to fight for Canada are still not good enough to vote for her, William Pugsley has forfeited the esteem and respect of every loyal citizen. He has disgraced his constituency by his disloyal pandering to Laurier and Quebec, and must answer to his constituents for that disloyalty, unless indeed, current rumor proves to be correct and he decides to sink out of St. John when the testing time comes and seek support and endorsement in one of the constituencies of the province of Laurier, whose game he is so eager to play.

IS PUGSLEY MENTALLY BLIND?

Is William Pugsley so blinded by his desire to play the game of Laurier and the Quebec reactionists that he cannot see in the very fact that it is possible for a member of Parliament to attack him because his son has responded to the call to arms a revelation of the weakness of the voluntary system of securing recruits?

The young man to whom Dr. Edwards of Frontenac referred may have the best of reasons for not donning the khaki but it is not possible for every man who cannot enlist in the Canadian forces to explain to the world the reasons for his attitude. Under the voluntary system a failure to make such satisfactory explanation renders every man not in uniform open to the allegation of cowardice and yet such an allegation may be totally unjustified. Under conscription a man who had good claims to exemption from service will have a definite body to which he can present those claims. If they are adjudged bona-fide he returns to civilian life without stigma and without reproach. The recent controversy in Parliament between Mr. Pugsley and Dr. Edwards really supplies an excellent argument in support of the very measure Mr. Pugsley has worked with might and main to defeat. Is the man mentally blind that he cannot see it?

Laurier's Trap.

The Canadian Liberal Monthly is issued from the Liberal headquarters at Ottawa and is supposed to be the head centre of information concerning the policies and politics of the party headed by Sir Wilfrid Laurier. In a recent issue it asks itself the question "What is the policy of the Right Honorable Sir Wilfrid Laurier?" and answers itself as follows:

- (1) That Canada will remain in the war to the end.
- (2) That Canada shall, by a systematic and thorough national war organization, make a supreme effort to secure by voluntary enlistment the necessary number of recruits.
- (3) If this national organization fails to secure the required number of soldiers by voluntary enlistment that the electors of Canada will be asked to vote upon a conscription referendum.
- (4) If the result of the referendum favors conscription Sir Wilfrid pledges his word that the verdict will be accepted by every part of Canada, even in the province of Quebec, where it has been said it would not be accepted.
- (5) If the result of the referendum is against conscription, then the national war organization will be continued and vigorously prosecuted, and every effort made to secure by voluntary enlistment the number of soldiers needed, the same as has been done in the Commonwealth of Australia.
- (6) Information also will be secured from the British authorities with a view to ascertaining which is most needed from Canada, men or food.

This statement of policy is contained in six paragraphs, three of which commence with the word "if." He is to try "national organization" and "if" it fails then a vote on conscription "if" conscription does not carry in the referendum, then a return to "national organization" which would already have proved fruitless. Could anything be more absurd?

Sir Wilfrid Laurier, it should not be forgotten, is opposed to conscription and in the event of a referendum the whole weight of his government would be thrown into the scale against it. As Sir Clifford Sifton has properly said conscription under Laurier is impossible.

Plainly Sir Wilfrid is not playing fair with the conscriptionists of his own party. By the cunning of his words he would lead them into a trap and then desert them as he is now willing to desert our lads at the front. It is better that he should resort to such devices. As between conscription and the voluntary system the people themselves will decide at the next election for it is a certainty that should the forces of Laurier prove victorious in that conflict the conscription measure will be taken off the Canadian statute book and Canada's war effort will slacken despite all Sir Wilfrid's honied assurances that he is in the war to the finish. Laurier's words should deceive no one. Those who really desire to see Canada go on with her war effort can attain that desire only by supporting Sir Robert Borden and his Government. The return of Laurier will remove Canada from the field of active effort in winning the war. Any statement to the contrary is but a cunningly baited trap with which to catch the unwary.

HATRED AGAINST ENGLAND.

"Be calm," said Fernand Villeneuve at an anti-conscription meeting in Montreal on August 5th, "but that does not mean that there should be no discussion, as our Solicitor-General, McGeen, wishes. It means that we should be ready to do our part to defend our liberties, which are in danger. It is not necessary to be carried away, but we should resist men like Borden, this country and the Allies. Men in Ontario are preparing other countries to say that the French-Canadians deserve to be shot. We are not afraid of the trenches. We should wait for our enemies here, not strangers, but the traitors of Ottawa. Let them put us in these trenches, and we will show that we are not afraid, and are ready to meet our enemies. Our reasons against conscription are: First, our love for Canada, and secondly, hatred against England, which will not respect small minorities. Before fighting for England to protect her friends, let us remain here to defend our little minority in Ontario, who are suffering from the English-Canadians. Why does not England respect our rights today as before?"

"If a recruiting officer comes to you," concluded Villeneuve, "do not be afraid to give him a thrashing, and if you have anything to shoot with, don't be afraid to use it."

HOW MANY?

The report that there is to be a shortening of munition orders in Canada because of the increased capacity of the English munition plants comes in verification of the warning of Sir George Foster who at a meeting in the High School here many months ago told a gathering of business men and manufacturers that the great flow of munition orders would cease as suddenly as it commenced and that it would be necessary to commence a process of readjustment to prepare for that day. How many munition manufacturers have taken Sir George's advice? And how many of those who found employment at high wages in the munition plants throughout Canada followed the counsel so freely and generally given them to save something out of their fat pay envelopes?

A CHANGE OF TUNE.

(The Times, September 11, 1915.) "All that Sir Robert Borden needs to do is to announce that there will be no election until after the war." And now the same Times is one of the loudest of the "election vangers." It is of interest to know that the same editor is still in charge of the editorial opinions of that discredited and erratic sheet.

WHY?

A western exchange asks why should Sir Wilfrid Laurier, high wages in and Hon. William Pugsley worry concerning the soldiers' vote when every sane man in Canada knows they won't receive any of it? Perhaps that is why.

A DEFINITE THOUGHT.

"It would be a wrong thing at this juncture to entrust the work to any other man than the present Prime Minister."—Mr. Hugh Guthrie, Liberal M. P. for South Wellington.

FORMER KINGS CO. MAN HOME AFTER AN ABSENCE OF 30 YEARS

T. P. McAuley Sees Big Development—Kings Co. Man Has Made Good in Western States—Was Member of Parliament for Four Years.

After an absence of thirty years, T. P. McAuley, a brother of ex-Coun. J. E. McAuley, of Lower Millstream, has returned to New Brunswick on a visit. For the most part Mr. McAuley has spent this period in the western states, where he has risen to success and prominence.

For four years Mr. McAuley was a member of the Washington House and took a great interest in all legislation.

The Real "War Bread" must contain the entire wheat grain—not the white flour center—but every particle of gluten and mineral salts—also the outer bran coat that is so useful in keeping the bowels healthy and active. Shredded Wheat Biscuit is the real "war bread" because it is 100 per cent. whole wheat prepared in a digestible form. Contains no yeast, baking powder, seasoning, or chemicals of any kind. Food conservation begins with Shredded Wheat Biscuit for breakfast and ends with Shredded Wheat Biscuit for supper. Delicious with sliced bananas, berries, or other fruits. Made in Canada.

...ing for the advancement of the community. At the present time he is making his home in Portland, Oregon, where he is engaged in lumber and real estate. Mr. McAuley, accompanied by his wife, was in the city on Saturday. He spoke enthusiastically of the progress which had been made in the western states. Conditions at the present time he described as flourishing. The lumber and pulp mills were operating to full capacity, and this business had seen large development during the past few years. Another large pulp and paper plant was in course of construction. Mr. McAuley said that both Oregon and Washington were doing their full share in the matter of building ships. He said that ships were now being erected by the hundreds there, and it would be no time before a ship would be turned out every day. Speaking of former New Brunswickers in the west, Mr. McAuley said that provincial people were to be found in large numbers, particularly in Montana. Among others he mentioned Herbert McLeod, of Millstream who is the president of the Hudson company, a corporation organized by a former resident of Fredericton. Mr. McAuley sees many changes in the west, and he is particularly impressed with the agricultural development of Kings county, and states that the increase in settlers between Sussex and Millstream has been more than 100 per cent. He believes that there are immeasurable opportunities in this province. Mr. McAuley has done remarkably well out. He likes New Brunswick, however, and it would not surprise his friends if he took up a farm here. High River, Alta., Aug. 24.—Just following the noon hour High River was visited by the most terrific and destructive hail storm in the history of the district. The town of High River is practically the centre of the area covered by the storm. In this area it is estimated there are at least fifteen square miles and the destruction was complete in a district which promised a return in crop sufficient to be a record. The storm was of short duration, covering a period of not more than ten to fifteen minutes, but in that short time it created loss of crops estimated at \$60,000 to 1,000,000 bushels. Garden produce and hay that has not been cut, are literally ground to a pulp, and all that was growing in the area has been damaged. In the town the loss by the storm is principally broken windows, flooded cellars and punctured roofs. Crops destroyed include those of many of the best farms in the district, one of which was of twelve hundred acres.

Many Children Die From Summer Complaint

When They Could Be Saved by Using DR. FOWLER'S EXTRACT OF WILD STRAWBERRY

There is not a Summer passes without thousands of people, especially in the tropics, being attacked by Summer Complaint.

The prostration, often verging on collapse, which sometimes accompanies this disease makes it one of the most serious and dangerous to contend with during the hot months. A remedy which will quickly offset the vomiting, purging and the profuse diarrhoea is Dr. Fowler's Extract of Wild Strawberry.

Mrs. Thomas M. Theriault, Grand Anse, N. B., writes: "My three children were very sick with Summer Complaint during the hot days last Summer. I thought one day that they would die, and I didn't know what to do to cure them. It happened to have to cure by reading about Dr. Fowler's Extract of Wild Strawberry that it was a good remedy. I at once got two bottles, and they perfectly cured them. I recommend everybody to use this wonderful remedy."

When you ask for "Dr. Fowler's" see that you get it. It has been on the market for the past 72 years. You don't experiment when you buy it. Price 35c. Put up only by The T. M. B. Co., Limited, Toronto, Ont.

NOT WANTED IN ST. JOHN. The Moncton Times on Saturday stated that a phone message had been received from the St. John police on Friday night for the police of the railway town to be on the lookout for a man who is wanted in St. John for getting a number of business men with spurious cheques and that the culprit was expected to be in Westmorland county. It was further stated that the man was driving a Hupmobile which he had purchased for a piece of paper worth less than a cent. When asked about the matter last night Chief of Police Simpson said that there had been no complaint made to him about any such person and he did not telephone to the Moncton police to be on watch for any such individual. If the telephone message was received by the Moncton police it must have been from some other place than St. John police headquarters.

MISSTAKE IN PASSPORTS TO LEAVE

Persons Cannot Sail for Any Destination Outside Canada or United States Without Official Written Permission.

No person may hereafter embark at any Canadian port for any destination outside Canada or the United States unless he has a permit to do so or a valid passport. An order-in-Council just passed by the Government provides that any person who does so embark or attempt to do so shall be guilty of an offence and liable to a fine not exceeding \$1,000, or imprisonment for not more than two years, or both fine and imprisonment. Further, the master or officer in charge of a vessel leaving St. John or any other port in Canada for any port outside the Dominion or the United States who allows a passenger without a permit or passport to sail will be liable to the same punishment. By request of U. S. the order-in-Council in no sense derogates from the previous order, which requires of men of military age to have permits to leave Canada and enter the United States. The new regulation was passed at the request of the United States Government which requires persons leaving the country to have passports and which prohibits the sale of such permits to persons who are not citizens of the United States to Canada and sailing thence to other countries. The new order is general in its application and is not confined to British subjects. From its operation are excepted soldiers, sailors of the British allied armies, when travelling upon any military or naval business, diplomatic or consular officers, officials of the British Government or the Governments of Allied countries and the officers and crew of vessels. The enforcement of the regulation will develop upon immigration or customs officials.

EXPRESS AND MAILWAYMEN HOLD PICNIC

C. P. R. and Dominion Express Employees Motor to Loch Lomond—Programme of Sports and First Class Dinner Make Day a Happy One.

The C.P.R. and Dominion Express Co. officials and employees to the number of about fifty held an auto drive and picnic to Loch Lomond on Saturday afternoon as a fitting close to the half holiday season.

The party left the C.P.R. building on King street at 2 p.m. and returned about midnight, after one of the best outings they have ever held. After spending the afternoon in sports the party sat down at dinner served in the Barker's best style in the Ben Lobb's House and proceeded to say full justice was done to the feast. After the tables had been disposed of the programme of sports, speeches, songs, etc., was the order of the day and any person who knows the "bunch" knows that they have some capable entertainers in their ranks. The first thing on the programme when they arrived at their destination was a baseball game but only one inning was played.

The thanks of the party were tendered to T. McAvity and Sons, who placed their entire auto service with chauffeurs at their disposal. Also to the following firms: Brokers: Emery Bros., C. A. Munro, L. L. Sharpe, Oak Hall, T. McAvity, Smith, Brokers: Co. T. H. Hatahbrook and Co., A. J. I. Isaacs, DeForest and Co., John De Angella, Baird and Peters, T. E. NEWS AND COMMENT FROM THE FINANCIAL WORLD

CANADIANS MOUNTAIN FIRM TONE

Dominion Iron and Steel of Canada Features—Domestic Class Touches High Point—War Loans Holding Well.

Special to The Standard.
Montreal, Aug. 25.—Canadian stocks maintained firm tone through the short session today, but business was comparatively quiet and devoid of special features. The steel stocks again attracted the most attention. Dominion Iron and Steel of Canada, after holding firm at 61, the high point of Friday's rise, eased to 59 1/2 at the close of the day. The narrow movement in firm tone in both Dominion Iron and Steel of Canada was influenced very largely by the action of United States Steel in the New York market. That latter fluctuated within the limits of only 1/2 point, and closed with a net gain of a small fraction. It was not encouraging to sell operators in the Canadian steel list, at least it offered no incentive to buying.

With One Exception Saturday's Wall Street Market Was Dullest of Present Year.

New York, Aug. 26.—With one exception—that of the previous week-end—today's brief period of trading on the stock exchange was the dullest of the year. Transactions falling to the meagre total of 110,000 shares.

THE ROOM IN DOMINION IRON AND STEEL STOCK

Reports That New Yorkers Are Purchasing Shares—Wall Street Circular May Have Started Buying—Meeting Tuesday.

Special to The Standard.
Montreal, Aug. 25.—According to the street this week movement in Dominion Iron gained its impetus in the first place from a buying order for 3,000 shares placed by a large stockholder residing in Toronto and active in the company's affairs. This buying was sufficient to get the market under way. What has kept it going is variously explained. One substantial order was executed for New York in the early part of the week. New York was again reported a buyer Friday, estimates of the amount taken being around 1,500 shares. In some quarters doubt is cast on whether all the New York buying has been substantial or not. It is always possible to stir up speculative imagination here by reports that New York is buying this stock or that. And this at times has resulted in Montreal orders being executed via New York route just for the greater effect they might have on market sentiment.

(McDOUGALL & COWANS)
New York, Aug. 25.—The opening was somewhat irregular but there was a fair sprinkling of strength throughout the list. Tobacco, Marine and some of the Copper stocks advanced in the early trading and there were a few advances among the rails. Some recessions notably in Id., El. and Anc., appeared to be the result chiefly of professional activity.

WILLIAMS MOVEMENT

Large Audience in Imperial Yesterday Hear Interesting Addresses on Missionary Movement—Converted Chinese Told of Need in China.

A good sized audience gathered at the Imperial theatre yesterday afternoon to listen to a message of the need of Christian missions and a call to greater effort on the part of all Christians to meet that need. Samuel Wong, a converted Chinese told of the need in China and of his conception of the responsibilities resting on the British people to supply the remedy. P. W. Burnham told more particularly of the work of the Disciples of Christ and of the latest movement known as the "Men and Millers Movement."

S. B. Culp, pastor of the Coburg street church presided, and had on the platform with him a number of ministers of other denominations as well as the speakers. He first called on A. McLean, who had charge of the foreign mission work of the denomination, but Mr. McLean said he was not going to give an address but only intended to introduce to the audience a Samuel Wong who would address them.

Mr. Wong who was born in Canton, China, when a very young man went to Australia and is now in business. He said he had decided to go to America to get a ship built for his firm. In opening his address Mr. Wong said he wished to state that the credit of the missionaries who had come to Australia and labored among his people, he based his remarks on the words of Paul, "For Barbarians, to the wise and unwise." He said he wished to apply these words to his own class, for he felt that he could class himself with the British nation, and the Chinese. The British people were debtor to the Chinese in many ways, politically, commercially and religiously.

Politically the British owed the Chinese a debt, and as glad to be able to state that it was the British government had decided to cooperate with the Chinese to be the opium trade, and now that the British had decided to help in suppressing it he hoped it would be long before it was not a debt owed to China. A number of years ago the Chinese had been expelled from the British ports and also expelled severally to do business in China. At the present time Canada and Australia did not want Chinese in their ports and practically none in their cities. He was glad, however, to learn that a short time ago the British had agreed to allow Chinese to come to the British ports and this he considered a great step toward the payment of the debt. He said the British nation owed the Chinese the unsearchable riches of Christ, and it was the message of Christians to take the message of the gospel to that land. The mission spirit was not simply feeling sorry for the heathen but was the paying of the debt to those who had the heathen lands. This was the debt of the speaker that he hoped to realize as never before the debt owed and pay it to the utmost.

F. W. Burnham spoke on the "Millions Movement" which he said was a movement which was organized as the blessed thing of nomination had ever undertaken. The speaker said the movement was three aims: First to provide for years 1,000 trained workers for mission fields; second, to raise in amounts of \$500 and upward the third, to undertake with an additional mission in Africa with an additional local and missionary budget.

The speaker outlined a number of steps which included all branches of the work, both home and foreign, and related many instances of the expected responses to the which had been made. The singing of the National hymn brought the meeting to a close.

CHURCHES OF CHRIST SUCCESSFUL CONVENTION BROUGHT TO AN ANNUAL CONVENTION OF BRUNSWICK AND NOVA SCOTIA FINISHED DAY—MUCH TRANSACTED DURING SESSION.
The annual convention of Churches of Christ of New Brunswick and Nova Scotia was brought to a mass meeting at the Imperial theatre yesterday afternoon and the session of the day was a most successful one. The adjourned business of the C.W.B.M. was held.

Italian very acceptably. Gloria's Romance this week finds Gloria in a dance hall where she soon finds out she should not be. A very tree fight ensues between Dr. Royce who tries to get her out and the habits of the place. They all are arrested, and behold Judge Freeman has to try them. Gloria's dignified father being also on the bench. It is an interesting episode.

Mistaken for Spies. It sounds incredible, but Eddie Lyons and Lee Moran were mistaken for spies while en route back to Universal City from the convention of Chicago, says the Dramatic Mirror. This said it took considerable telegraphing on the part of the comedians and the general passenger agent of the road before their alibis were proved.

Marsten joined them at Woodstock to continue with them on their trip. Mrs. John Swift and little son, of Fredericton, are the guests of Mr. and Mrs. D. Rordan. "N. Brown," a story written by Thane M. Jones, judge of probate, appeared in the Saturday Evening Post last week, and was the subject of much favorable comment. A little daughter came to sadden the home of Mr. and Mrs. Harry W. Lee on Sunday. Word was received here on Tuesday of the birth of a son to Mr. and Mrs. Ernest Ross, of Cabano, Que. Mrs. Ross was formerly Miss Mary Sprague of this town.

BUY AND BOOST HOME PRODUCTS

"MAKE YOUR LIVING EXPENSES AN INVESTMENT!"
Make your living expense an investment by buying home products, and reap the benefits in a bigger, happier, more prosperous city. If you confine your purchases to goods made here, your condition will be materially bettered by increased activities all along the line.
In favoring home products your money will buy as much as it would if spent for "imported" brands—if not more—Our producers can not afford to give you anything but the best—and the extra profit you receive cannot be measured in dollars and cents alone.
The money you spend for goods manufactured here, stays here and continues to circulate here. Its effect is far reaching. It leaves a profit in the hands of everyone it reaches.
Remember, that to a very large extent, our prosperity is dependent upon our commercial strength. Industries alone build up a city and our city needs the individual support of every citizen to show the growth, the progress and the large degree of prosperity we want it to attain.

PARIS, Aug. 24—M. Duval director of the Bonnet Rouge, whose editor Miguel Almeriyda, committed suicide August 15, after being arrested on the charge of sedition, was today turned over to the military authorities by an examining magistrate. M. Duval had been charged with trading with the enemy but, according to the police, evidence collected in the investigation proved that the Bonnet Rouge director, instead of trading with the enemy, was completely repulsed parties in the Laguna Valley and at Monte Cross. Albanian front: During the night of Tuesday, in a lively encounter on the right bank of the Middle Verbas river, one of our patrols almost destroyed an enemy party. The few survivors were taken prisoners.

ROCHESTER, Aug. 24—The Italian official statement reads: "The battle is continuing. We have carried new positions, broken up the enemy's violent counter-attacks, and have captured a large number of prisoners." "Together with up to the present, we have removed from the battle front more than 500 officers and 20,000 men, more than 60 guns, mostly of medium calibre, numerous trench mortars and machine guns and a large quantity of war material." "On high our aviators, with untiring effort, and giving the enemy no truce, have bombarded the massed troops and have carried destruction into his line of communication by dropping fifteen tons of bombs." "On the Trentino front, where the enemy persists in his fruitless attempts to create a diversion, we completely repulsed patrols in the Gaudi carle, and storming parties in the Laguna Valley and at Monte Cross."

Marriages and Births.
Registrar John B. Jones reports for the past week eleven marriages and twelve births, four females and eight males.

Preached at Cathedral.
Rev. Dr. Guerin, vice-president of the St. Joseph's University, Memorandum, occupied the pulpit at the Cathedral at the 11.15 mass yesterday morning. His discourse was a powerful one.

Lancaster Fair.
Owing to the inclement weather of Saturday the Lancaster Red Cross Fair was not held as planned. The fair committee has not yet decided whether the fair will be held at a later date or be called off.

Harvest Excursion Today.
The Canadian Pacific Railroad will run a farm laborers' excursion to west today. The fare to Winnipeg is \$12 and a large number of passenger cars are ready to convey the men westward.

For Firemen's Relief.
The St. John Iron Works, Ltd., have donated \$25 to the Firemen's Relief Association in recognition of the prompt and efficient work of the department on Thursday night last, when the roof of the company's moulding shop was on fire.

Trip for Nothing.
Officers John Merry received a telephone call about five o'clock yesterday afternoon that a drunken man was lurking at the lower end of Chesley street. He went to the spot but when he arrived the man had gone home. No arrests have been recorded at the North End station since August 20.

Week-end Drunks.
Two men who partook of too much liquor on Saturday spent the week-end in police headquarters cells. They will have until this morning to think up a reasonable excuse to offer in the police court when they are asked where they obtained the liquor.

Removing the Conveyor.
The grain elevator conveyor running to the Long Wharf has nearly all been removed, there being only a small section remaining. Men were at work yesterday tearing it down and it will all be removed in a few days. The sections are being removed to be installed for the C. G. R. new elevator at Reed's Point.

Eleven Deaths.
During the past week eleven deaths were reported to the secretary of the Board of Health from the following causes: Heart disease, 2; anæmia, drowned, pneumonia, meningitis, endocarditis, senile gangrene, cancer of jaw, hemorrhage of brain, periculous anæmia, one each.

TICKETS FOR "EVERYWOMAN"

Not more than a dozen seats remain on the orchestra floor for either Wednesday or Thursday nights. There are a few box seats, but plenty of splendid locations in both balconies. The audiences promise to be brilliant to the very top of the house. Every seat reserved, no "rush" sale. Make up your parties at once. The Thursday matinee will be a bumper; seats selling fast. Please don't delay ticket purchases any longer. Persons having undervalued seats at the box office will kindly lift them today as hundreds are waiting for downstairs locations.

THE STRIP AND PUR OF ACTIVITY BANISHES MID-SUMMER DULLNESS IN THIS STORE

Today we feature new Fall DRESS GOODS, SILKS, COATS, SUITS, etc. You cannot step inside of the store these days without feeling the influence of something doing—without noting how effectively mid-summer dullness has banished. The newness of the goods impresses everyone. First, because they are new, and also because quality is so unquestionably fine—the choicest and newest of the world's products. Then, too, there is an alertness and courtesy, and an intelligent counter service that makes shopping especially pleasurable.

RE-ADJUSTMENT IN PROGRESS OF MUNITIONS INDUSTRY ALL OVER THE DOMINION

Night Work Ceased in Some Plants—Output of Shells Will Be Further Reduced—Many Employees Retained on Other Work—Steel Plants Kept Busy on Commercial Orders.

A period of readjustment is now in progress in the munitions industry throughout Canada. In one St. John plant night work has ceased, but day work is still proceeding. It is expected that the output of shells will be further reduced, although many of the employees will be retained on other work if it is understood.

Mark Irish, director of labor of the Imperial Munitions Board, says: "I strongly advise workers who have recently been released from munitions plants to seek work elsewhere if they are in need of employment, and not to remain idle in the hope of their services being required in the production of munitions. I hope that manufacturers in letting out employees will consider each individual case and its circumstances; and that due consideration will be given to the widow and dependents as against the single and to the married man over the single man."

On Smaller Scale.
Munition work in Canada generally will not be resumed on the scale of a few weeks ago, and the discontinuing of manufacture of certain lines and the limitation of production in others results in the permanent release from this industry of a large number of hands. The officials of the Imperial Munitions Board are anxious that the released worker should grasp the true significance of this fact and it is with that purpose that Mr. Irish made the above statement.

NOTHING HAS DEVELOPED IN THE WILLIAMS TRAGEDY

The Case Still Remains a Mystery—Two Rumors That Reached Ears of Police Are Investigated and Learned to Be Unfounded.

When asked last night if there was anything to report in the Williams case, Chief of Police Simpson said that nothing had developed. A couple of rumors had been received but when investigated they were learned to be unfounded.

One of the rumors was that a certain person was reported to have heard a telephone conversation on the evening before Williams met his death. It was alleged that a woman had called a certain man on the telephone and told him she would kill him, that the man who was alleged to have made the threat left the city the morning following the death of Williams. The young lady credited with having heard the conversation was interviewed by the police and she had not heard any such conversation, or anything like it, in fact, as far as she was concerned, the first time she heard the rumor was when the police questioned her.

Another rumor adroit was that the chauffeur of a military officer had been held up at the point of a revolver by a man and woman the night Williams met his death and that they forced him to drive them out of the city. This was investigated by the police and the chauffeur said there was no truth in it. He said a party of men and women had come into the city and a couple of them had been left behind and he kindly drove them out of the city to their summer home.

The Williams case still remains as much a mystery as it did when the unfortunate North End grocer was found lying dead in his store on Main street.

MANY SOLDIERS HOME AFTER HAVING BEEN WOUNDED AT FRONT

Provincial Men Have Done Their Bit—Lt. Col. B. R. Armstrong Has Successful War Mission.

Several provincial soldiers who have rendered valiant service on the battlefields of France and Flanders reached the city yesterday. Most of the smartly attired men recuperate after serious injuries received at the front. One provincial soldier was buried for nearly forty-eight hours before he was finally dug out by his comrades.

The party returned to Canada under the command of Lieut.-Col. B. R. Armstrong, of this city, who went to the front on a special mission. Col. Armstrong's conference with officials of the war office was most satisfactory. He saw several New Brunswick boys at the front and speaks enthusiastically of their good work.

EAST INDIAN PROBLEMS MOST SERIOUS

Rt. Rev. Chas. D. Schofield Declares Pacific Coast of Dominion Has Serious Problem to Face After the War is Finished.

That the problem of the East Indian in British Columbia is the most serious question which the Pacific coast of the Dominion of Canada has to face, was the declaration of Rt. Rev. Charles D. Schofield, D. D., Anglican bishop of the diocese of Columbia, who occupied the pulpit at the high celebration of the Holy Eucharist in the Mission Church of St. John Baptist yesterday morning. Regarding the influx of the residents of India into British Columbia Bishop Schofield said he did not care to give a harsh opinion but expressed the belief that after the war this great problem would have to be taken up by the British Government, the Canadian Government and the administration in the Indian possessions.

Dr. Schofield is a native of St. John and a former dean of Christ Church cathedral, Fredericton, and is regarded as one of the most brilliant and able men in the Canadian church. His talk yesterday in the Mission church was the first that he has given in this diocese since his eastern trip.

There was a large congregation present. In the absence of the priest in charge, Rev. Fr. John V. Young who is on a vacation, Rev. Fr. Pollock officiated at the high celebration of the Holy Eucharist.

Bishop Schofield, when he had ascended the pulpit, announced that he would not preach a sermon but would give a formal talk, largely of a personal nature, on his diocese and its diversity of work. He remarked that when he was ten years of age he attended the first celebration of the Holy Eucharist ever held in the Mission church, serving as altar boy. It was largely the training and benefits he had received at the Mission church which had enabled him to serve the church at large.

His diocese, he said, which was diocesan seven days and seven nights travel from the Union Station, St. John, was the smallest in Canada, although formerly it had been the mother diocese of each side of the British Columbia. It included the island of Vancouver and numerous islands and he remarked that island dioceses existed at each side of the Dominion. His see city, Victoria, he added, was a modern city in every way and the climate was unequalled.

He had received at each side of the diocese of Columbia was largely a missionary work, containing as it did so many islands, where the facilities for travel were extremely limited and where there were many native Indians, Chinese, Japanese and natives of India as well. The fact that British Columbia was the gateway of the Orient presented difficult problems. Dr. Schofield told of the excellent work being done among the Canadian Indians by the Anglican church of their own on a little island. The Church of England years ago had carried on a large amount of work among the Indians but for one reason or other the work had not been continued in its entirety, and he gave credit to the Roman Catholic church for its present labors among these tribes.

With the exception of a small boat, which was used for short distances, there was no means of travelling throughout a large extent of the diocese, said Dr. Schofield "it is a case of putting my knapsack on my back and tramping." He praised the work of the thirty-three clergy in the diocese. The number had been considerably more than this, but on account of the war a dozen or more had left and several were performing heroic work on the firing line.

The diocese maintains several schools for Indians and Chinese and in the interest of continuing and extending the work the bishop will have a conference with various boards of the Church at Ottawa next month. He will return to his diocese about Sept. 15. Bishop Schofield was born in St. John in 1871, the son of the late George J. Schofield, a leading churchman and was educated at the St. John Grammar school, King's College Windsor, Wycliffe College, Toronto; Edinburgh Theological school and at Leeds, England.

He was ordained to the diaconate in 1896 and ordained priest two years later. He was curate of Portsea, England for a short time and then became rector of Hampton. Later he was rector of Sydney, C. B. and in 1907 was appointed dean of Christ Church Cathedral, Fredericton.

He was consecrated bishop of Columbia in the cathedral at Victoria last winter with imposing ceremonies. Dr. Schofield holds the distinction of being the first New Brunswicker to be elevated to the episcopate in the Anglican church. The bishop is an able and forceful preacher and a tireless worker.

D. I. Little Affected. Special to The Standard.

Sydney, C. B., Aug. 26.—The action of the Imperial Munitions Board in cutting off the manufacture of large sized shells, it is believed, will have little effect on the business of the Dominion Iron and Steel Company, inasmuch as it is mainly occupied in producing steel and in the manufacture of finished products of a commercial character.

POSTPONEMENTS ON ACCOUNT OF WEATHER

Many Pleasure Seekers Disappointed on Saturday—Lancaster Fair Indefinitely Postponed—Playgrounds Formal Closing Tomorrow.

The last half holiday of the season was on Saturday and the wet weather made it anything but pleasant for those who were bent on spending the week-end in the country. There was nothing left for those who went out of the city but to remain indoors.

Those who liked to the country were not the only ones who were disappointed, as those who remained in the city who had planned on having an enjoyable time, were disgusted with the weather conditions.

The Lancaster Red Cross Fair was to have been held and if it had been a fine day a larger attendance than on any previous occasion was expected. The fair has now been indefinitely postponed.

A picnic with a programme of sports was to have been held at Seaside Park, and for the second time it had to be postponed until a later date.

The playgrounds children expected to hold the formal closing, and great preparations had been made for this event. There was to be a parade of hundreds of children from the King Square to the Barrack Square, headed by brass bands, and excellent programmes had been arranged for the children. The weather appeared to lighten up shortly after noon, but the sky soon darkened again, the closing was postponed and the children disappointed.

The committee in charge held a report on Saturday afternoon and it was decided to hold the formal closing tomorrow afternoon if the weather will permit, if not on the first fine day following. Additional prizes have been donated and the committee request owners of automobiles to supply their cars for the purpose of bringing the North End children to King Square. The boys who are members of the Boys' Club, as well as some of the boys who attend the playgrounds, have worked hard in cleaning the grand stand at the Barrack Square and one great time is expected on Tuesday afternoon.

MEN CHARGED WITH THE HARRIS MURDER ON TRIAL TUESDAY

Parties interested in the defence of Everett Carland and John O'Brien, charged with murder, told The Standard yesterday that there was absolutely no foundation for the statement made in a morning daily on Saturday that a labor lawyer was coming to the city to assist in the defence of the accused. Music Re-Created

To actually grasp this fact in all its wonderful reality, you must come and hear the voices of world-famed singers, the performances of renowned instrumentalists as re-created (re-born) by Edison's marvellous new art.

THE NEW EDISON

The picture shows Arthur Middleton, the famous bass-baritone and Metropolitan star whose magnificent voice Mr. Edison has re-created. A large audience of New York music-lovers recently found it impossible to distinguish between Middleton's own voice and Mr. Edison's re-creation of it.

EARLY FALL PRESENTATION OF Society Brand Suits

This particular brand of clothes is so well and favorably known that it needs little or no introduction. It is famous because of Distinctive Style, Excellence of Tailoring, and Extra Wearing Service.

To those who follow closely Fashion's dictates we would say:

In the New Models for the coming season there is a tendency towards a little longer Coats. Lapels are a trifle wider, slightly rolled. Shoulders are a little wider, and suggest the "Military" influence. Altogether giving a graceful, stylish effect.

These and other minor details are brought out with good effect in our SOCIETY BRAND SUITS, which you should see..... \$20.00 to \$32.50
