VICTORY LOAN CAMPAIGN NOW ON

Canvassers Hard At Work and First Reports Are Encouraging.

The Victory Loan campaign is on in full swing throughout Canada and from all quarters, most encouraging reports are being received.
On the eve of the opening of the great loan drive Canada's Minister of Finance issued the following message to Canadians:
"The Victory Loan of 1918 is now being offered for public subscription. It is an undertaking of a most vital consequence to the nation, and I cannot too earnestly emphasize the duty and responsibility resting upon all citizens of Canada to co-operate to the extent of their available resources in making it an unqualified success. The money to be raised is urgently required to enable us to continue the prosecution of the war now in its fifth and most crucial year, and for the maintenance of the prosperity of the dominion in all departments of productive activity.
"Apart from patriotic considerations, which should alone suffice, it is the direct, immediate, personal interest of every individual Canadian citizen of its objective. The bonds afford absolute security and yield a most attractive rate of interest. Undoubtedly, in the period succeeding the war, they will show a substantial appreciation in value.
"All citizens are earnestly invited to subscribe, remember, you are asked not to give, but to lend your money to the state. Small subscriptions from those of tender means are as welcome as the large. In the last Victory Loan we received subscriptions of over four hundred million dollars from over eight hundred thousand subscribers. This year we expect five hundred million dollars from more than a million subscribers."
Restigouche's Share.
This year Restigouche is expected to subscribe for \$650,000 worth of Victory Bonds and Campbellton's share has been placed at \$375,000.
Last year Restigouche subscribed \$607,600 of which Campbellton's share was \$287,200. The number of subscribers was 1062 in the entire county.
If Restigouche is to live up to her reputation every man and woman will have to subscribe for every dollar they can. Not just what they can spare, but make sacrifices to buy bonds and hasten victory.
We ask our readers to consider this matter carefully and then buy to the utmost. If canvassers do not call, apply at any bank for forms.
The results of the first three days work, so far as reported, for Restigouche County shows \$34,000 subscribed for, and prospects are good that we will attain our \$650,000, but every man and woman must feel it his or her duty to subscribe for every dollar they possibly can.

THE RIGHT TO CHEER.

The war news suggestion of a possible early end to the long struggle should make each and every Canadian reflect on his or her part. What has been your share in the Entente victories? Ten to one you have shared in Canada's great war prosperity, but have you bought bonds, which are no sacrifice at all, but a provision for your own future? If you have sacrificed and saved and worked to support the men in France you have a right to cheer and make glad over the growing prospects of peace. If you have not, the fact that the hand-counting time approaches should make you think seriously of your privileges, your responsibility, your duty and your opportunity. Put yourself right with your conscience and with the right to cheer the news from overseas, and the home coming of the boys when they come home from overseas.
Lord Beaverbrook has resigned. We hope Lloyd George will be able to carry along.

THE HONOR FLAG

will be the chief emblem in the Victory Loan Campaign. It is presented by His Excellency the Governor-General to all cities, towns and villages that attain their objectives, and is expected to be flown by them. It is very attractive and is sure to be sought after.

EPIDEMIC STILL IN EVIDENCE HERE

New Cases Being Reported From Day to Day—Many Deaths.

While there are some signs of improvement in the influenza epidemic here, still matters are very serious and every precaution should be taken. In conversation with one of the local physicians he stated that even after all the literature which has been distributed the people are not careful enough. Again he requested us to publish the following—
WARNING!
People are requested to be very careful as the epidemic is still very serious in town and country, although conditions are greatly improved. New cases should promptly be placarded and reported to the Secretary of the Local Board of Health. Stay at home. Go no place where disease is only to help the afflicted. It is a duty to the helpless, but it is against the law to needlessly expose yourself or others to contagion. If you feel unwell call a doctor at once, and obey his orders. Stay in bed at least two days after you feel well enough to get up, and remain in the house two or three days after you get out of bed, if you wish to avoid the risk of contracting pneumonia, which is a dreadful complication.
Throughout the town there are still some homes where there is keen suffering because there are none to minister to the sick. A special effort is being made to provide help for these, and attention is directed to an item in another column in reference to an organization of women workers. Restigouche.
At the hospital things are running smoothly. There are to-day thirty patients being treated for influenza or pneumonia. This is twelve less than Thursday of last week. Six pneumonia cases are being cared for, of these four are at the critical stage, and two convalescent. No patient from town has been admitted since last Saturday, but outside districts are now sending in some. The citizens are sending delicacies to the hospital and this kindness is greatly appreciated.
The general situation is perhaps improved. People as a general rule understand the care which must be taken and there are fewer serious cases.

NEWCASTLE ADVOCATE OFFICE DESTROYED

Loss Between \$10,000 and \$15,000—Partial Insurance.

Newcastle, N. B. Oct. 29.—Fire which occurred about ten o'clock last night, in the Advocate building, gave the firmest one of the toughest battles in the history of Newcastle, and it was eight o'clock this morning before the flames were finally subdued. The entire building, together with machinery and contents, are almost a total loss. The origin of the fire is a mystery, but it is thought to have started from defective wiring. The loss is estimated at between ten and fifteen thousand dollars, partially covered by insurance.

ALEX J. MELANSON DIED YESTERDAY

Was Ill for Some Months. Was Prominent Jacquet River Merchant.

Word of the death of Mr. Alex J. Melanson, prominent merchant of Jacquet River, was received yesterday morning he having passed away about 8 o'clock after an illness extending over several months, and regret was generally expressed here, where he was well and favorably known.
Deceased, who was about fifty years of age, was born at Bathurst, a son of Mr. Joseph Melanson, a prominent merchant of that town. Years ago he established business at Jacquet River which grew to be one of the largest general stores in the country. His wife, formerly Miss Flora Richmond survives and has the sympathy of all in her bereavement.

LIVESTOCK BURNED AT MATAPEDIA

Restigouche Salmon Club Stable Burned and Prize Jersey Herd Lost.

Last Friday night about midnight, the Campbellton Fire Department was called up by phone from Matapedia with a request to send some equipment to that town to help fight a bad fire at the Restigouche Salmon Club stables. The fire was burning fiercely, threatening the Club House and C. G. R. station and freight shed. The C. G. R. manager speedily prepared a special train and a number of firemen went up taking spare hose, and by hard work the fire was confined to the stables.
The Club prize herd of Jersey cows was destroyed, eight of them as well as a horse perished in the fire. The loss is considerable with very little insurance.

WENT WITH N. B. BATTALION.

Among the Canadians who recently won the Victoria Cross are Corporal Herman James Good and Private John Bernard Croak, both of New Brunswick. In giving this information to the public a mistake was made in certain publications at least, in saying that Corporal Good and Private Croak belonged to Quebec regiments. It may be pointed out that God went overseas with "C" company, 55th Battalion. He belongs to Bathurst, (N. B.) Croak went overseas with "D" company, 55th Battalion. He belongs near Moncton. These facts are supplied by Major C. Donald who went overseas with the 55th Battalion. Corporal Good received the Victoria Cross for conspicuous bravery and ability in leading his men. Private Croak got the Victoria Cross for most conspicuous bravery in attack. So far as is known they are the only two New Brunswickers to receive the Victoria Cross in this war.

Save in the day of your prosperity. Remember that "the rainy days" come.

WOMEN ORGANIZE TO FIGHT EPIDEMIC

Meeting Held Recently and Committees Named—Doing Good Work.

The ladies of the town have organized and formed committees to look after the needs of the sick while the town is afflicted with this dreadful epidemic. The ladies have already done considerable in supplying delicacies and help where needed also in making pneumonia jackets and night shirts for the hospital, etc. etc.

The division into wards will tend to lighten the work and the convenors of the different committees will appreciate having names of sick sent to them. The following ladies are convenors for the different wards. Ward 1, Mrs. H. Lunan, Ward 2, Mrs. J. R. McKenzie, Ward 3, Mrs. C. S. O. Crockett.

A special committee have been soliciting soups and broths for the hospital and will continue this good work while there is need. Needless to say this has been greatly appreciated by both the Sisters and patients.

SUNNYSIDE BOY KILLED IN ACTION

Mrs. James McLean of Sunny Side N. B. received the sad news on Thursday last that her son Pte. David McLean has been officially reported killed in action, Sept. 25th. Private McLean enlisted Oct. 15th, 1915 with the 104th Battalion C. E. F. in Campbellton. He went overseas in July 1916. He spent some time in England training having gone to France but a month ago with a draft to the 26th Battalion. Therefore the news of his untimely death caused a gloom over the place.
Private McLean was thirty-one years of age and a member of the

Dalhousie, Oct. 30.—Mr. and Mrs. McNeish of Point La Nim, received the sad news last week that their son Private Arthur McNeish, had been officially reported killed in action October 1st. He had enlisted with the 1st Quebec Regiment in March 1918. Shortly after he went overseas.

Private Arthur McNeish was in his thirty three years, was of a quiet disposition and was very popular. He is survived by his parents, whom in their advanced years, will have the sympathy of the community, in their sad bereavement. He is also survived by two brothers, James and George and one sister Eliza, who is at home.

VICTORY LOAN NECESSARY

WHETHER PEACE COMES OR NOT

Don't let the German peace propaganda interfere with the success of the Victory Loan.

Canada's war expenditure to-day is greater than ever before. There are 75,000 more Canadians overseas than there were a year ago.

They are still going over as fast as Canada can send them.

Even if peace came to-morrow it would probably take from 12 to 18 months to bring all the Canadian back.

They would have to be kept in the meantime.

Pay and allowances alone cost over \$14,000,000 a month.

Transportation expense would probably amount to \$15,000,000.

To demobilize the Canadian troops would undoubtedly cost over \$250,000,000.

\$500,000,000 is needed through the Victory Loan, no matter what comes or goes.

Canadian industry and the Army both need strong financial support.

his death cast a gloom over the Settlement and Sunnyside is called upon to mourn the death of one of her brave boys who has given his life for King and Country, and in losing Private McLean loses an esteemed young man.

Besides his mother he is survived by two brothers and three sisters: Angus McLean of Regina, William McLean of Archibald Settlement, and Mrs. John Pashley formerly of Portland, Me., but at present with her mother, Mrs. Duncan Carmichael and Mrs. Wm. Stanger both of this place.

Much sympathy is felt for the family, but it is a consolation to them to know that he made the supreme sacrifice in defence of his country and those dear to him, and that he died a

DALHOUSIE MAKES GOOD START IN VICTORY LOAN

First Days' Drive a Big Success—Executives:—Mayor Montgomery, Ald. D. McDonald, Hon. C. H. LaBilloy, Thos. G. Scott and S. Blanchard.

Dalhousie, Oct. 29.—Notwithstanding the inclemency of the weather on Monday, the soliciting team of the Victory Loan, Thos. G. Scott and S. Blanchard, made a splendid beginning of the work allotted to them. They met with a reception from the people, that had furnished so many soldiers to fight for the empire, and where people had upon every occasion given proof of great generosity.

His Honor Judge McLatchy, Chairman of the Victory Loan, for the County of Restigouche, was in the shire town on Saturday and expressed himself as highly pleased with the effort that had been made in Dalhousie, to arouse an interest in the selling of War Bonds. The unselfishness of the merchants, who, at the outset stated, that if any prize money came their way, it would be divided among their clerks, brought forward a spontaneous movement on the part of many citizens, who are the possessors of many war souvenirs, and it was pleasing to see how many fine attractive articles were furnished to the different window dressers.

On Saturday evening the windows of the leading merchants on William Street drew the attention of crowds of citizens and many favorable comments were heard. Our merchants certainly deserve great credit for the way they responded to the appeal of the Victory Loan Committee, to help out in this way.

Among these which drew special mention from onlookers might be mentioned the following:

A. & R. Loggie's large store near the I. C. R. station. Their window gives a splendid idea of war with heavy artillery. A cannon owned by the John Barberie family of the "Birches," is seen in this window, placed on a stone parapet, and on it is the inscription, "Barberie Coast Defence Gun." The prettily arranged chimney with the words in the foreground: "Buy a Bond and keep the home fires burning." The words "They are as solid as the Rock of Gibraltar" referring to War Bonds written in large letters on a large stone, that took four strong men to place it in the window, and the presence of shells made by the energetic A. McLennan of Campbellton, a sample of what has brought death and destruction to the Hun, are features in this window that have drawn compliments to the indefatigable Mr. A. Dickenson, who with his assistant clerks, John Middley, Nan Daley, Anastasia Paquet and Bessie McCurdy made such a hit in advertising War Bonds.

The Dalhousie Merchants Company. Their two windows are used. The west one represents England's navy, America's Fishing fleet, and Germany's Submarines. A small steamer representing Lord Nelson's flag ship with the memorial words, "England expects every man to do his duty." Splendid portraits of His Majesty King George and Queen Mary, Joffre and Haig with prettily arranged flags and War Bond posters make this window very attractive. The east window contains among other things several war trophies sent after the battle of Vimy Ridge, a dagger used in one of Napoleon Bonaparte's great wars, flags of all our allies, pictures of President Wilson, King Albert, Generalissimo Foch and scenes in Y. M. C. A. huts, etc. One attractive feature of this window is the group of the fathers of confederation. The late Sir John MacDonald is seen standing near the table addressing thirty-five of the leading public men of the older provinces, which were the first to be united into a Canadian confederation. The words written below this picture, "Buy Victory War Bonds. We Offer Canada as Security" is considered the strongest appeal that can be made and a splendid call upon those who realize that Canada to-day is considered one of the fairest lands under the sun.

Miss Nettie Robinson, who has been with this company for over five years, a sister of Clarence Robinson, who was so badly wounded at the front, is being warmly congratulated for the success of the window dressing. She was ably assisted by her fellow clerks Mary Foley and May Godin.

Michael Rinzler's windows are prettily decorated with flags and pictures, among the latter being those of Lord Roberts and Lord Kitchener, vessels representing the navy and a nicely fixed posting of Victory Bond attractions. The Misses Emma and Lotie Rinzler, with the clerks Blanche LaVigne, Mesinda, Roy and Mary Letourneau have reason to be well pleased with the way they have decorated the spacious windows of the large store.

The Clifford Pharmacy show a very striking advertising inscription in the centre of a window prettily arranged. "Four years of War. Help keep the Age out of Bondage by buying a Victory Bond." Near that you see the words "Bondage" printed in large letters with the four last letters headed with pictures of the Kaiser, Crown Prince, Hindenburg and Von Trepitz.

The window in the Queen Hotel caused a lot of comment. A form of a soldier with rifle to his shoulder and with fixed bayonet is seen behind sand bags. This window gave a very comprehensive idea of what our boys are expected to do at the front. With flags and Victory Bond posters this window has attracted a lot of attention. The Misses Yvonne and Lucienne Samson and Charles Cabot, a returned soldier deserve credit for their good judgement.

Alderman D. McDonald's window shows a large inscription "Buy Victory Bonds". In the centre with a nice background of colored stripes is seen a large picture of the Kaiser

with the words below, "Shoot the Kaiser." Murray McKay, who lost a brother at the front, Miss Minnie McNeish and Bessie Morton have done their part well.

Miss Annie McNeill's millinery store window is dressed in patriotic style. In the background is a large picture of the 55th Battalion. In the centre of the window which is nicely decorated with British, French and American flags is seen the form of a soldier by holding in his hand a card upon which is printed "Buy a Victory Bond." Four of Miss McNeill's brothers joined Canada's army in this great war.

Among others whose store windows are nicely decorated with flags, bunting, and patriotic mottoes are The P. Q. Lumber Company, Wm. McNeill, Sheehan's Piano and Music Store.

Mayor W. S. Montgomery returned from Montreal on Monday's Limited. He was called there on account of the serious illness of his sister Miss Bessie Montgomery, who contracted a grippie, while nursing in one of the large city hospitals. Latest news is pleasing to the many friends. Miss Montgomery is now out of danger.

On Thursday evening, Oct. 24th several friends of Mr. and Mrs. Andrew Barberie, took them by surprise in calling in the evening, to congratulate them on the twentieth anniversary of their marriage. Dainty refreshments were served after a very enjoyable evening.

Many Bay Chaleur friends, will regret to learn of the death in Lawrence, Mass. of Mrs. LeBlanc, formerly Miss Virgile Guite, sister of the late John F. Guite, Ex. M. P. of Maria, Bonaventure County, P. Q. Mrs. LeBlanc who was a native of Maria, visited her old home about six years ago and paid her Dalhousie friends a visit. She was a splendid type of womanhood and the news of her death is keenly felt by her friends. She succumbed to the dreadful disease known as "Spanish Grippe."

Mrs. J. M. Colton, is spending a couple of weeks with her parents Hon. C. H. and Mrs. LaBilloy, her husband having gone to Newfoundland on an inspection trip of Naval Wireless Stations.

Mrs. W. K. McKean, Halifax, N. S. has been spending a few days at her old home "The Birches". Her mother Mrs. John Barberie, has improved in health since last week.

Private Kenneth McKenzie, is visiting his parents Mr. and Mrs. A. G. McKenzie. He expects to return shortly to one of the Flying Corps Camps of Ontario.

P. H. Sheehan has made several trips lately to Sea Side, on account of the serious illness of his brother John Sheehan.

Private Bernard Meahan, sister of Miss Margaret Meahan of the P. Q. Lumber Company office staff is visiting in town the guest of Mr. and Mrs. John Delaney. He belongs to Canada's Flying Corps. Two brothers are overseas.

It is with regret that your correspondent has to report the serious illness of Rev. A. Melanson, the zealous parish priest of Balmoral. He contracted la grippie while visiting many of his sick parishioners.

Mr. James Duncan who has just returned from the Gaspé coast, where he found a prosperous condition of things, he expects to make another trip to Gaspé soon.

Mr. Donald McLean, River Chario, was in Dalhousie to-day the guest of his daughter Mrs. L. D. Jones. He was accompanied by his daughter Miss Jennie McLean.

NOTICE TO SOLDIERS ON HARVEST LEAVE.

Attention is directed to a recent announcement published in the Press by the Military Service Branch, Department of Justice, regarding extensions to be granted to men EXEMPTED AS FARMERS.

It is pointed out that this DOES NOT IN ANY WAY AFFECT MEN WHO HAVE BEEN ORDERED BY THE REGISTRAR TO REPORT TO DEPOT BATTALIONS and who have thereafter received leave of absence from the Military Authorities.

Once a man has been ordered to report for duty by the Registrar he leaves the jurisdiction of the Registrar and comes under that of the Department of Militia and Defence, and is to be considered as a soldier. This applies to men of the 20 to 22 Class who have been ordered to report by the Registrar in virtue of the cancellation of exemptions by Order-in-Council of the 20th April last, as well as to those ordered to report in the usual way on refusal of claim for exemption, or on expiration of exemption granted.

All men, accordingly, who have been ordered to report, and are therefore SOLDIERS, and who have subsequently been granted harvest leave by the military authorities, MUST, NOTWITHSTANDING THE NOTICE ABOVE REFERRED TO, REPORT ON THE EXPIRATION OF THAT LEAVE, unless they are notified to the contrary by their Commanding Officer or by general notice published by the Department of Militia and Defence.

FOR the vigorous programme which Lord Shugart has recently planned for the Canadian Pacific for the period after the war, the Board of Directors have selected to assist Mr. R. W. Beatty, the new President, a team of Vice-Presidents well known for their driving force and executive ability, and particularly strong in the operating end. Grant Hall, who is Vice-President with jurisdiction over all lines, has been aptly described as a "big man physically with a heart as big as his body." Grant, as he is known by the rank and file of the railway, is a favorite with everyone from the trackwalker up. He is a disciplinarian, but he is a just disciplinarian, and it is a matter of common knowledge that no matter in what position he may have occupied, place he rose from the ranks in the old Grand Trunk shops, and showed his ability in the old C. P. R. shops at Hochelaga, he has always made it a point to investigate any complaint made to him by a man under his control.

Westerners will tell of the time when he was in charge at Revelstoke some seven years ago, and when he worked night and day for a week in the mountains to lift one of the worst snow blockades in the history of the transcontinental railway. It is a matter of record on the Revelstoke division that "Grant" could get more work out of a body of men than any other half dozen men, and it is largely because he knows how to take off his own coat (if they do such things as snow blockades) and do his own share of the work.

In September, 1909, he returned to the Canadian Pacific Railway, where he was consecutively general foreman, first at the McAdam and later at the Winnipeg shops; master mechanic of the British Columbia division; assistant superintendent of motive power, eastern lines, and superintendent of motor power and car department, western lines; from November, 1911 to December, 1914, assistant general manager, western lines; when he was appointed Vice-President and General Manager.

A. D. MacTier, who is now Vice-President in charge of lines east of Port Arthur, like his former chief, David McNeill, was born in Scot-

From 1891 to 1896 he was in the Car Service Department, and from 1896 to 1899 was General Baggage Agent. From 1899 to 1907 he held the position of General Fuel Agent, when he was appointed as assistant to the Vice-President. In December, 1912, he was appointed General Manager, Eastern Lines. Mr. MacTier is very popular with the men on the road, whose interests he has always made his first concern. He has always insisted on giving proper credit for meritorious service. THE USE OF THE APPLE.

"Those who make a liberal use of apples will serve the dual purpose of saving for shipment overseas such articles of food as are fit for that purpose and at the same time furnish a useful and valuable food for the household."

"The apple without question is the king of fruits, whether fresh, dried, evaporated or canned, it is a wholesome food, easily prepared, attractive and palatable at all times."

"Always cook apples in earthen or granite utensils and use silver, granite or wooden spoons for stirring. The use of the apple as the basis for all manufactured jam is well known. This is due to the large amount of pectose which it contains. There is no waste to a good apple; even the pearly and core may be utilized for jelly. Fruits are classified as flavour fruits and nutritive fruits, the apple comes under both of these heads." COMING TO N. B.

Premier Foster has received an intimation that Hon. Dr. Beland, former postmaster-general of the dominion, who spent more than three years as a prisoner in Germany, may visit New Brunswick next month. It is probable that his plans will depend upon the influenza situation, but if circumstances are favorable an effort will be made to arrange for public meetings at which the distinguished visitor may be heard. Coun. Champoux who is a personal friend of Hon. Dr. Beland is endeavoring to have him visit Campbellton.

Are you saving for Victory Bonds?

LOOK!

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria or vaccination on small-pox, wouldn't you feel like giving it a trial?

Peps is the discovery! Peps are little tablets, containing certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapour, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs. In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence their work of healing.

"CASCARETS" WORK WHILE YOU SLEEP

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—Take Cascarets tonight.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, flat gases, bad breath, yellow skin, mental depression, everything that is horrible and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

KEEP HIM REASONABLY BUSY

Preacher Serving in Y. M. C. A. "Hut" in Training Camp Finds His Duties Many and Varied.

If there is a notion that Y. M. C. A. work in the camps consists in selling stamps and handing out pocket testaments, let it be dissipated at once. One preacher, serving in a hut in a New Jersey camp, reports that he has done almost everything under the sun except preach.

He has built fires, swept floors, looked after the care of packages of laundry, umpired basketball games, organized a glee club, stage-managed a circus, sold ice cream at the canteen, and driven a flower ten miles and back three times a week to provide said cream. He has written letters home for boys who could not write, and he has taught them to read. He has been a repository for hundreds of heart secrets, and he has served as translator for the camp as many as thirty Liberty bonds at a time.

Perhaps oddest of his many tasks was one that came his way on a cold and stormy night in April, when the master of arms at the military station entered the "Y" hut after tea, carrying a red box under his arm.

"Say," said the master of arms, "we've got a lot of T. N. T. mines stored at the station. Here's the detonators. In this box. There's considerable lightning around, and it isn't safe to leave these things close to the mines. Would you just as soon take care of the box over night?"

The Red Triangle man slept that night (or tried to sleep) with enough high explosive under his cot to blow him half way to heaven.

LEARNING WHITE MAN'S WAYS

Eskimos Said to Be Making Gratifying Progress as a Result of Missionaries' Teachings.

On Herschel Island, where the sun shines continuously for eight weeks in summer, the Eskimos had a sun dance, the Eskimo hunter in the garments of propriety, a writer in an exchange says. They had an idea that when the sun came back its movements were directed by an invisible power, but they had no tangible conception of a God. They had no belief in a future life, either of reward or punishment. Today they are religious, truthful, kind to their children and to the aged. They are ambitious to learn; they are practical, extremely industrious, sanitary in their habits, well clothed and well housed. Insanity is unknown, but tuberculosis is common.

They were in summer and trap in winter. They are clever in trading, good workers on land, water and ice, and take excellent care of their household effects. Tools, if broken, are neatly repaired. When on Herschel Island or at Fort McPherson, they eat white man's food with great relish. In summer they eat their fish and blubber raw and in winter frozen. They like food cooked, but it is a matter of indifference to them. They will barter for the white man's food, eat a hearty meal of it, and then go out and eat blubber and raw fish as dessert. The contents of a deer's stomach they consider a great delicacy.

Sugar 12 to 15 Cents a Pound.

In these days of tribulation, when everything rises but father's wages, we all very constantly bemoan the high cost of living. But this, observes Popular Science Monthly, is not the first and only time that prices have been high. During the Civil War wages ran from \$1.25 a day for laborers to \$2 a day for skilled workmen. This, however, did not prevent a shave from costing 10 cents or a haircut 20 cents. Hotel rates were \$1.50 to \$2 a day, and ice, which was considered a great luxury, was supplied at 50 cents a week for 10 pounds daily. Strangely enough sugar was the chief bone of contention in those days, too, and it cost 12 to 15 cents a pound.

War Prisoners to Form Club.

A dozen British prisoners of war who had escaped from Germany met at a dinner recently given in London to celebrate their escape. At this dinner it was decided to form a club, membership of which was to be confined to those who have succeeded in making their way out of a prisoners' of war or internment camp in Germany. The site of the club premises has not yet been settled, but the club will certainly be the most novel thing of its kind in London.

Many Lambs Killed by Rattlers.

Rattlers, always plentiful in parts of Washington state, are this year more numerous than in any previous season. Sheepmen are forcibly reminded of the fact by the loss of lambs. Older sheep know the menace in the tattoo of the rattlesnake, and will change their course at the sound, but the lambs are often bitten. There is nothing that can be done for the relief of a lamb which has been bitten. It dies in a little while—Seattle Post-Intelligencer.

Slightly Nervous.

Flanigan, a brand new soldier, was placed on guard one dark night. Failing to see another soldier approaching until he was almost beside him, Flanigan nearly jumped out of his skin but managed to quaver: "Who goes there?" On being told the fellow's name, and finding out for sure that he wasn't going to be killed right away, says Flanigan, regaining his courage: "Advance then and give the discount."

A Convenience.

Customer—You have placed all the large berries on top.

Same Thing.

"You say she always wears a touch-me-not air?"
"No, it's always a case of fresh paint."

SERVICE AND SACRIFICE.

This epidemic has given us a chance to look deeply into the hearts of men and women whom we have not really known until just now. Put to the test the best of mankind and woman-kind is coming to the surface. To those who are giving of themselves in the work of stamping out the dreaded visitor, too much praise cannot be given. We are blended into a single family by adversity. In this type of unity there is strength and the promise that the epidemic will be the quicker brought to a close.

SHOULD TAKE ACTION.

The Graphic again insists that ex-ecutor Archibald Murchie, who according to the evidence in the recent investigation has been proved to have twice committed perjury, be placed upon trial. It is up to the Attorney General to lay a charge against him and give him a fair trial.

There should be no unnecessary delay in this matter.

With respect to the Commissioner's finding in reference to Hon. Wm. Currie, that matter will no doubt be dealt with by the government and we feel confident that whatever action Hon. Mr. Foster and his colleagues take, it will meet with the approval of the majority of the rate-payers. We hold no brief from Hon. Wm. Currie to defend him, and like other reputable newspapers await the action of the government with confidence that right will be done.

WHAT THE LAST VICTORY LOAN DID

One point that should not be forgotten is that most of the money being raised by the present Victory Loan will be expended in Canada, and that the extent and activity of Canadian industry, agricultural and manufacturing, will be in proportion to the success of the loan. Here are a few facts and figures showing the use to which the last Victory Loan was put:

The Victory Loan of 1917 gave Canada about \$400,000,000. Practically all of this has been spent in Canada, and in Canada's effort in the war.

Through the Victory Loan the Government has established a credit of \$25,000,000 per month to keep our munition plants in operation.

It has made possible the government programme for the expenditure of about \$50,000,000 for ships which are to be built in this country.

By means of the Victory Loan, an aeroplane industry has been established in Canada, and machines are now being turned out constantly for use overseas.

A large proportion of the western crop will be financed in 1918 from the Victory Loan.

A good example of what the Victory Loan is able to accomplish can be found in the case of our cheese production for 1917. The exportable surplus of Canadian cheese is valued at about \$40,000,000. The Victory Loan made it possible to sell that surplus last year for cash; without the loan it would have wanted a market.

THICK, GLOSSY HAIR

FREE FROM DANDRUFF

Girl! Try H. Hair gets soft, fluffy and beautiful—Get a small bottle of Dandruff.

If you care for heavy hair that glitters with beauty and is radiant with life, has an imperishable softness and is fully and luxuriant, try Dandruff. Just one application doubles the beauty of your hair, besides it immediately removes every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This condition must be the hair of its life, the strength and its very life, and if not overcome it produces a feverishness and itching of the scalp, the hair falls out, leaves and the hair falls out fast. Surely get a small bottle of Dandruff from any drug store and try it.

The Victory Loan campaign gives promise of great success. Let Campbellton, and New Brunswick, do their full share, for the need is insistent.

It is no sacrifice to lend money to Canada at 5 1/2 per cent. interest with all Canada as security for the repayment of the loan. But if it could be regarded as a sacrifice, it is one that should be made, and made willingly. It is one of the last great war demands that will be made upon our people; that is, will be one of the last if it is properly met, because it will mean victory.

Two facts everyone should recognize: If the war ends to-morrow, or next week, or next month, there can be no early relaxation of the food regulations, and no abatement of the demand for money for war purposes. It will long be necessary to submit to more or less drastic conservation orders, and it will be necessary to provide all the money required for the current war loan and to raise one of two additional war loans. Appreciation of these indisputable facts is essential to a full understanding of the big task yet before us, no matter what the outcome of present negotiations.

Editor of the Graphic.

Dear Sir:

I see in last week's Tribune that the "ass has been braying again." He seems to be very much concerned about the welfare of the County generally and especially about the public revenue and states that the Hon. Wm. Currie defrauded the Province out of \$400,000. He forgets that over on the same principle he is defrauding the Town and the County in his taxes every year. They assess his property and he pays his taxes (also sometimes late) and I never knew of him complaining that his property was not assessed high enough. The only complaint he would make if any would be that he was assessed too high. On the very same principle, the lumbermen for the past thirty years have been paying their stumpage. The lumbermen's operation was assessed not surveyed. They were then billed with the amount and the Company paid the bill without question. The Continental Lumber Company followed the same rule. I would suggest to the Tribune man, when he is so very much concerned about the revenue of the province and the general interest of the people of the County that he would tell us something about the Ten Thousand Dollars that his brother, the Frederick Gleaner man, received from Mr. Tennant or Mr. Jones, which was part of one hundred thousand dollar fished from the St. John Valley Railway and hence out of the pockets of the people of this province. The graft and the fraud and pilfering has been on such a large scale among the friends of the Tribune man that when he looks across at the other party he sees an imaginary \$400,000 which in reality does not and never did exist.

Knowing the Tribune man, as I do, I always feel when I read his articles that it is a great injustice to the people of the County to have to listen to the vapourings of a man of the calibre and intellect of the Tribune man. Surely if the people of the County are to be enlightened on any subject of public interest it should be by a man that at least has ordinary intelligence.

ELECTOR.

HOW THE VICTORY LOAN SUSTAINS CANADA'S ARMY

Nearly 600,000 have been enrolled in the Canadian Expeditionary Force. About 425,000 have gone overseas. Canada's 1918 war bill will be \$400,000,000.

Canada's 1917 war bill was \$328,000,000.

Canada's war expenditure is now \$33,000,000 a month.

It exceeds \$1,000,000 a day.

The \$520,000,000 subscribed to the 1917 Victory Loan will not do much more than pay this year's war bill.

\$500,000,000 is needed through the Victory Loan, even though peace should come to-morrow.

Canada needs your dollar as much as she needs men; save to meet the need.

A dollar saved is a dollar earned.

GIVEN HONOR NOT DESERVED

Error of Learned Men Responsible for America Being Named After Amerigo Vespucci.

The story of how the new world received the name of America is a striking example of what publicity will accomplish. Amerigo Vespucci, a highly educated Florentine, was head of a business house in Seville, Spain, probably as agent for the great trading firm of the Medicis, and helped to fit out one of the expeditions with which Columbus sailed. When the latter's monopoly was revoked, Vespucci undertook several voyages of exploration on his own account, during which he claimed in many letters to have been the first to reach the mainland of the new continent, giving the date as June, 1497.

On April 25, 1497, the learned heads of the University of St. Die, in Lorraine, decided, incorrectly, that he was entitled to the honor of discovery, Columbus having only reached the islands of the West Indies, and that the western hemisphere should bear his name. The name America was, therefore, first used in the book "Cosmographie Introdutive," by Martin Waldseemuller, professor of cosmography at the university.

It has since been shown that Vespucci was preceded by both Columbus and John Cabot, but it was too late, the new world had been christened America and the fact advertised in print. The house where the meeting was held at which the classical error was made was still standing at St. Die at the outbreak of the war, and was annually visited by many tourists from both North and South America.

POI HAWAIIAN NATIONAL DISH

Is Being Introduced into the United States and Is Said to Be Meeting With Favor.

Hawaii is making a food-saving contribution in the shape of poi, its national dish made from the bulb of the taro plant. Until 20 years ago poi was made under primitive conditions, the bulbs being peeled, boiled and pounded in a wooden trencher until a semi-liquid paste was formed. But today modern sanitary machinery is used to manufacture the product, under supervision of health authorities in the island, and five factories at Hilo now turn out several tons daily.

This new form of poi is being sent to the United States, reaching markets as far away as New York City, and a demand which began with Hawaiians who had come to the United States is generally being extended to Americans who have learned to like the dish.

Poi is frequently used in Hawaiian hospitals in the diet of patients whose stomachs are too weak to digest other food, and the war interest in substitute foods is expected to lead to its wider introduction elsewhere.

No Lazy Man's Place.

If you saw "The Bird of Paradise" you may be under the impression that Hawaii is a land where Americans go and just naturally forget how to work. "That stuff," said S. S. Paxon of Honolulu, "is all right, but it's for story books and comic operas. I went to Honolulu 13 years ago from Philadelphia, became president of the Rotary club, a member of the legislature and head of the largest automobile concern in Honolulu. When I came back to the United States I don't find any of my old companions are staying up any later at night than I do or traveling faster than I do. Don't let any one put that 'go-to-sleep-and-never-wake-up' idea into your head. Hawaii is not a lazy man's country, by any means."

Would Save Sea Loss.

New York steamship underwriters and government officials have authorized official tests of a new invention which, it is claimed by its designers, will save property valued at thousands of dollars in the event of the sinking of vessels. It is called a pneumatic safe and is said to float on the water, though of steel construction. It is as impervious to fire and theft as other safes. The device is said to weigh three tons. As evidence of his faith in the success of the invention the man who constructed it will lock himself inside when the safe is lowered overboard. In case the invention bears out what is claimed for it it will be adopted for use on American seagoing vessels.

Britain's "Baby Army."

When the British troops reached Italy they were nicknamed "The Baby Army." The Italians were so surprised at the smart appearance of the new-comers—differing so materially as it did from the picture presented by the home troops whom they passed—that in the belief that they had come straight from England, they were called "The Baby Army," as a matter of fact the British soldiers were war-worn veterans from the X-pes salient.

Marksmanship and Muscles.

Marksmanship with the rifle is not so much a matter of keenness of sight as of muscular steadiness. Arthur I. Gates of Teachers' college, New York, describes in the Journal of Applied Psychology some tests made by him which prove that the most accurate marksmen are those whose muscular control is so perfect that slight distractions, subjective anxiety and auto-suggestion do not disturb it.

The money is needed to pay Canada's bills whether the war ends or not.

Sir Thomas White says: "The Dominion uses the money obtained to finance Great Britain's purchases in the country of the products from the principal Canadian industries. The Loan dictates the condition of the market in which our farmers, fishermen and manufacturers dispose of their products. It normalizes even in wartime our agricultural and industrial situation. It permits Canada to come through a difficult and exacting world situation free from the worst trials and distresses bred by the storm."

WE ARE HERE TO SERVE YOU

"If ye break faith with us who die"

In Flanders field the poppies blow
Between the crosses, row on row,
That mark our place; and in the sky
The larks, still bravely singing, fly
Scarce heard amid the guns below.

We are the Dead. Short days ago
We lived, felt dawn, saw sunset glow,
Loved and were loved, and now we lie
In Flanders fields.

Take up our quarrel with the foe:
To you from falling hands we throw
The torch; be yours to hold it high.
If ye break faith with us who die
We shall not sleep, though poppies grow
In Flanders fields.

LIEUT.-COL. JOHN MCRAE
(Died in Service.)

We must keep faith. We must mobilize our hearts and our households—we must save much to lend much—we must receive every dollar above our plain necessities in trust for our fighting men—our men who have given their lives. We must take up their quarrel with the foe and fight the great fight through. If we break faith with those who die—we shall not sleep.

OBITUARY.

Mr. Ludovic Levesque.

The death occurred on Friday even-
ing last, October 25th of Mr. Ludovic
Levesque, electrical engineer of
Chandler, at the home of father-in-
law, Mr. Ed. LaTerre, St. Adelaide
de Pabos.

Since Sunday the 13th Mr. Leves-
que was confined to his room with a
severe attack of influenza and was
attended by Dr. Verge. Notwithstand-
ing the best care the sickness increas-
ed and he passed away.

Deceased was born in Chicoutimi on
Sept. 29th, 1893. He studied at the
seminary in Chicoutimi and graduated
later from University of Toronto. He
moved to Chandler one year and a
half ago, and married Miss Bernadette
LaTerre, graduate nurse in Septem-
ber last. He leaves to mourn be-
sides his young wife, his mother, three
brothers, M. Elzeir, advocate and
mayor of Chicoutimi, Armand of
Roberval and Laurat of Grand Baie,
Chicoutimi and two sisters, Rev. Sr.
St. Alphonsine of Hotel Dieu, St. Valeri
Chicoutimi and Mrs. Edmond Savard
of Grand Baie.

The funeral was held at St. Ade-
laide de Pabos on October 26th and
was largely attended by friends who
wished to honor the memory of one
who was well liked and esteemed by
all.

It is mighty mean to patronize a
merchant who will trust you until you
get so far in debt to him that you are
ashamed to see him, and then go and
spend your cash somewhere else; and
where you could not get credit; but
there are people who do it. The hon-
orable way would be to spend your
cash with the merchant who trusted
you, even if you never expected to
square up the old account.

LYNCH—CAISSY.

A quiet and pretty marriage took
place on Tuesday the 23rd instant in
the Church of St. John Evangeliste
when Angelle, daughter of John Cais-
sy, postmaster of Migusha, was
united in the holy bonds of matrimony
to James Lynch of Nouvelle.

The bride who was given away by
her father wore a navy serge suit
with brown furs and hat and veil to
match. Music and singing were ren-
dered by Mr. Frenette and the Misses
Frenette.

After the ceremony the happy cou-
ple drove to the bride's home where
dinner was served after which they
left for a trip down the Gaspé Coast.

The many pretty and useful pres-
ents testified to the popularity of the
young couple to whom all wishes for
a happy journey through life are ex-
tended.

BANKS WILL HELP SMALL INVESTORS

It is announced that, in order to en-
courage investors to participate in the
1918 Victory Loan, the Banks will
lend subscribers, on the probable cer-
tainty of repayment within a year, up
to 90 per cent. of the amount of the
investment in the Loan. The rate of
interest charged by the bank is 5 1/2
per cent.

This should have the effect of great-
ly stimulating the flow of money
when the drive opens. Many
people who were anxious to do their
bit towards supporting the boys the
front were unfortunately restricted as
to the amount they had available for
investment, having immediate or fu-
ture obligations which called for their
ready capital. It is such as these
that the Banks are ready to help. On
reasonable security these intending
investors may receive the cash from
the Bank at the same rate of interest
the Dominion Government pays for
the entire 1918 Victory Loan. They
may reduce their obligations to the
Banks monthly or quarterly.

The Banks will also accept from
small investors for safe keeping with-
out charge the interim securities and
later the bonds themselves up to a
reasonable amount, for the term of
one year.

HARD ON NEWSPAPERS.

Announcement of temporary ces-
sation of publication is made by the
Le Moniteur Acadien, Shediac in its is-
sue of October 25th. War conditions,
resulting in the increased cost of
newsprint, an increase in wages and
difficulty in securing workmen made
it impossible to continue the pa-
per. The editor expresses the wish
soon to take up again the mission un-
dertaken by the founders of Moniteur
in 1867 and carried out faithfully by
their successors for fifty years.

FISH WEEK OCTOBER 31.

Thursday, October 31st, marks the
beginning of Fish Week throughout
Canada. The Food Board has re-
quested all dealers and citizens to
make this the banner fish week of
the year. A meeting of the local
dealers was held last week and all
present agreed to make the prices as
low as possible, arrangements being
made to display as large a number of
varieties as can be obtained. The
dealers are having difficulty in po-
turing as large a stock as they can
handle on account of the weather
difficulties being experienced by the
fishermen. Another meeting of the
fishermen is to be held tomorrow to ar-
range details in the matter and they
should have the co-operation of every
local citizen.

Good news spreads rapidly and druggists here are kept busy dispensing Iveson, the other discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers. Ask at any pharmacy for a quarter ounce of Iveson, which will cost very little, but is said to be sufficient to rid one's feet of every hard or soft corn or callus.

You apply just a few drops on the tender, aching corn and instantly the soreness is relieved, and soon the corn is so loosened that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the adjoining tissue.

IN THE WAR ZONE

Chatham Editor Had Privilege of Addressing the N. B. Battalion —The Death of Their Gallant Commander.

(Chatham, World.)

And the next day, when again free to choose my own route, I made a special pilgrimage to the 26th. Col. McKenzie was training them for the attack on the German lines which was so successful a few days later.

At the close of the manoeuvres the Battalion marched past and paraded in front of the reviewing stand, when, in response to Col. McKenzie's request, I addressed the men, giving them a little heart to heart, home to camp, talk that seemed to go to the right spot, judging from their attention, their looks and their cheers. I met the Miramichi boys individually and had pleasant chats with them. They were in the best of health and spirits, and seemed contented and happy.

Charlie Mesereau and Harold Flieger looked like rosy checked boys on a picnic. It is inexplicable sad to me to know that their young lives have been sacrificed in the great struggle for human liberty.

IT REALLY DOES

end pain, prevent festering and heal. This is why those who have once used Zam-Buk will never use any other ointment.

Miss Viola Hubley, of Upper Goshen, N.B., writes: "My sister had sores on her foot that commenced like boils and then discharged. She suffered such intense pain that she could not wear her shoes and had to remain in the house. We commenced using Zam-Buk and the pain soon disappeared. Then the sores stopped discharging and before long the places were entirely healed over. We shall never be without Zam-Buk again."

For eczema, blood-poisoning and piles, cuts and burns Zam-Buk is equally good. All dealers, 50c box.

RECEIVED LETTER FROM BATTALION CHAPLAIN

Mrs. Grace McAlister of this town whose son, Chas. McAlister was killed in action a short time ago, has received the following letter from a Captain

of the 7th Canadian Infantry Battalion, of which her son was a member: France, Sept. 14th, 1918.

Mrs. Grace McAlister, Campbellton, N. B. Dear Mrs. McAlister:—

I am the chaplain of the 87th Can. Infantry battalion, to which your son, 795068, Pte. E. S. C. McAlister, belonged. No doubt you have already been officially notified of his death. I am writing to confirm that and news and to convey to you some expression of my sympathy in your deep sorrow.

Your noble son was killed, when the Canadians were taking one of the strongest positions held by the enemy on this front.

I buried him with over fifty of his comrades in a British Military Cemetery near Dury, Plot 2, Row C, Grave 25. A cross will be erected in a few days to mark his grave.

In all your sorrow it will be some consolation to keep in mind the glorious cause for which your son has so bravely made the supreme sacrifice. It was to help free the cruelly oppressed and to make freedom secure for all mankind. Honour all who suffer in such a righteous cause.

The dear Master will give him his due reward for work well done.

May the loving Heavenly Father wonderfully strengthen and comfort his mother and all sorrowing friends. Just trust Him and quietly rest in His love and He will bring you a wonderful peace in the midst of your sorrow. I am,

Sympathetically yours, M. H. JACKSON, Chaplain.

Knowledge is Power.

Two tramps sitting by the roadside at dusk, were indulging in an imaginary game of poker, in which pebbles played the part of cards. One of them was a downfallen college graduate; the other just an ordinary tramp, named Pat.

Said the latter: "I'll just bet you a thousand dollars as an opener."

The college graduate replied: "I'll raise you a million."

"Make it a billion," said Pat.

"Raise you a hundred billion."

"Two hundred billion," said Pat.

"Seventeen quadrillion."

Pat scratched his head for a minute. Then—"Take the pot, you educated son-of-a-gun!"

When certain soldiers from the artillery were in New York a little while ago a woman was heard to say to another:

"There goes one of them Australians."

"How do you know?"

"You can tell by the kangaroo feather in his hat."

PROMINENT GASPE CO. MERCHANT DEAD

Chronic Diseases Take Hold Slowly

Kidney and Bladder Troubles don't strike you suddenly. Chronic diseases of these organs are generally the results of neglect. Nature gives you plenty of warning when your kidneys are out of order and need assistance; you notice a dull pain in the back; you are dizzy, have headaches, feel laggy, tired and listless.

There is no mistaking the symptoms and when Nature warns you—obey her later you will regret it.

Putting off never cures. Get the Pills. At the first sign of kidney or bladder trouble, buy a box of GIN PILLS and take them. They will help your kidneys to perform their proper function and renew your previous strength and vigor.

Among our hundreds of testimonials is one from Mr. B. C. David, King's Co., N.S. Mr. David writes:

"I was suffering from a dreadful back and hip ache, so that I could hardly straighten up. I got a box of GIN PILLS and they helped me immediately. I have continued to take GIN PILLS, and now the pain in both hips and back has gone. I shall always recommend GIN PILLS to my friends and other sufferers."

Mr. David is not one of the many to which GIN PILLS have brought immediate relief. Sufferers from kidney or bladder trouble should heed what has been said in six hundred and try GIN PILLS.

TERRIBLE TREATMENT OF PRISONERS OF WAR

Germans Starve, Overwork and Abuse our Boys in Their Hands.

In the House of Commons, during a discussion of the treatment of prisoners of war, Right Hon. Sir George Cave, Secretary for Home Affairs, said it was proved that the Germans systematically underfed, overworked, robbed and cruelly mistreated, beat and even tortured our prisoners. The condition of some of the camps were unspeakable and continued so today. No words could too strongly characterize the dastardly treatment of men working in salt mines and factories, etc. Prisoners were still employed under fire despite two pledges. Cruelties and ill treatment and insults were even prevalent in the hospitals, both doctors and nurses being guilty of malpractices. Germany has a debt to pay and ought to be made to pay it (loud cheers). As regards reprisals he suggested that one means was through the Germans' great regard for the position, dignity and comfort of their officers and wealthier civilians.

Yet in Canada we are feeding the Huns choice bacon and hams, fresh pork and everything good.

OLD GOTHIC BARN

Great Structures in England Similar to Village Churches.

Unapproachable in Dignity; Beautiful as Cathedrals; No Ostentation of the Builder's Art.

The great old stone barns of England, dating many of them, from the fourteenth century, are, comparatively speaking, little known to the general public, says the Christian Science Monitor. The beautiful architecture to be found in the English village churches has received its full measure of appreciation, and so, though possibly in a slightly less degree, have the fine old manor houses which dot the countryside and provide a most interesting study in the local variations which occur in the generally prevailing style at any given period. The barns, however, have been rather neglected, and literature on the subject is practically nonexistent.

Yet the barn is intimately bound up with the history of the neighborhood in which it stands, and where, for possibly nearly 500 years, it has been fulfilling practically the same eminently important functions, with little change, for the benefit of the folk in its neighborhood. The methods of the farmer may vary, but the general routine of the countryside goes on, much the same, century after century, and the great barns still stand ready to house the people's food as they have done, summer and winter, for so many hundred years.

These old Gothic barns are very dignified and very beautiful buildings, comparable in some ways to the village churches whose contemporaries they are, and if they are less ornate, they are, in their simplicity, hardly less imposing. Indeed, some people would give the balance in favor of the barns in this matter.

It is by no means always an easy matter to tell the precise date of these barns at first sight, but sometimes there is a little carving, a bit of tracery or a detail which will supply the clue, or possibly again, the form of a buttress may afford an indication; but fortunately there are generally local records to which access may be had containing details of the origin and foundation of the barns.

Among the famous fourteenth century barns of England are those at Glastonbury, Wells and Pilton in Somersetshire, Great Oxtell in Berkshire and Abbotsbury in Dorsetshire. These are all what may be described as barns of the first magnitude; great cruciform buildings which may well vie in size and dignity with many churches.

Of the barn at Great Oxtell, William Morris said that it was "unapproachable in its dignity, as beautiful as a cathedral, yet with no ostentation of the builder's art," and he always declared that it was one of the finest buildings in England or anywhere else.

Two Senators for Each State.

Congress consists of two senators from each state, the smallest state as well as the largest, and a number of representatives, according to population. The basis of representation, of number of inhabitants for a representative, is fixed by congress under recurring census so as to secure adequate representation for every state without making the house too large and unwieldy. The Constitution of the United States, adopted in 1789, said the number of representatives should not exceed one for every 30,000 of population, and as no census had yet been taken, 30,000 was adopted as the ratio of representation and the population of the different states was estimated. By this process the first house of representatives consisted of 65 members. Since then congress has passed 13 apportionment acts, under 12 different censuses, changing the basis of representation every time except once.

In 1800 and in 1810 the ratio was fixed at one representative for 33,000 population. In 1820 the ratio was increased to 35,000, and it has been increased every tenth year since till it is now 21,000, while the membership of the house has increased from 65 to 435.

Big Oil Supply.

Last year the United States produced 341,800,000 barrels of crude oil, approximately 68 per cent of the world's consumption. In 1916 its share was about 65 per cent. A large part of the fuel oil used by the British navy comes from Mexico. Last year Mexico produced 60,000,000 barrels, but the year before, 1916, it produced 70,000,000 barrels, a falling off of about 2,000,000 barrels from the 1916 production. In the Dutch East Indies 14,000,000 barrels were produced last year and 17,000,000 barrels the year before. Rumania in 1917 produced 11,000,000 barrels as compared with 10,000,000 the year previous. Most of the Rumanian oil fields are now under control of Germany.—The Pathfinder.

MARITIME PROVINCE IN VICTORY LOAN DRIVE

Reports From Provincial Leader Show Things to Be in Good Shape.

The Maritime Provinces are right in line for the Victory Loan drive. They are, of course, somewhat handicapped by the prevailing epidemic, but the following reports issued by the Provincial Chairman are evidence that the results will, in every respect be satisfactory.

G. S. Campbell, Chairman of the Nova Scotia Committee says:—"Our only drawback is the influenza epidemic which is seriously affecting some districts. We have been entirely prohibited from holding meetings and, with our churches, schools and theatres closed, have been deprived of many of the usual channels of publicity. We are endeavoring to offset these disadvantages by other agencies and in spite of these drawbacks we are looking forward to a highly successful campaign. Our entire official staff of committee-men and canvassers are determined to do their utmost to make the loan a triumphant success."

T. H. Estabrooks, New Brunswick: "Prospects for the coming Victory Loan campaign could scarcely be better. Crops are good and business of all kinds, save lumbering, are excellent. New Brunswick will raise and exceed her quota, without a doubt."

C. H. B. Longworth, Prince Edward Island:—"This Province is asked to subscribe \$2,500,000 and the result of the drive is awaited with confidence."

Buying Victory Bonds is good business—for the buyer as well as the country.

INCREASES COMING.

It is understood that arrangements have been completed whereby the increased wage schedule for C. G. R. clerks will come into effect immediately. Negotiations have been going on for some time and it is learned that the rate for lady clerks and stenographers has not yet been finally settled. A minimum of \$87.50 per month for all male clerks over 18 years of age has been agreed upon. It is understood that the increase in pay for lady clerks will amount to about \$25 monthly.—Moncton Times.

The 1918 Victory Loan will enable the Dominion Government to finance the sale of the wheat crop to Great Britain; also

To finance the sale of beef, pork and other live stock products.

To finance exports of cheese, butter, eggs and condensed milk to Great Britain.

HOW VICTORY LOAN HELPS CANADIAN INDUSTRY

The Imperial Munition Board receives advances of nearly \$25,000,000 a month from the Dominion Government.

It has received over \$650,000,000 in advances from the Dominion Government and the Canadian banks.

It has placed \$1,200,000,000 worth of war orders in Canada for the British and other Allied Governments.

An advance of \$10,000,000 enabled it to give orders to Canadian shipyards for 44 wooden ships. To this programme 46 steel ships were added. Total value over \$60,000,000.

An advance of \$1,000,000 enabled the Board to begin the manufacture in airplanes Canada; 45,000 have been built to date of a value of \$30,000,000.

Between 250,000 and 300,000 people are working in Canada on war orders obtained through the Board.

It has \$500,000,000 of war orders in sight for 1919.

To carry out this programme will require millions in advances which must come from the Victory Loan.

MUST OPERATE LINES.

If the owners of the Carquet and Gulf Shore branch and the Kent Northern line do not desire to come to the Government's terms in the matter of the handling over of these roads to the federal authorities, the Government will see that they are kept running this winter, was the declaration made by Hon. E. B. Carvell, Minister of Public Works, who arrived in the city last night, in his private car attached to the McAdam train.—Telegraph.

FIVE MILLION DIED OF STARVATION

It is estimated that nearly five million people have died of starvation or malnutrition during the war. This total is more than half the population of Canada.

DO NOT NEGLECT YOUR EYES

We hear much of people who sacrifice everything to sartorial splendor. They would go without dinner every day for a new pair of shoes.

Sacrificing health for appearance is not good policy—it does not make for health a real happiness.

Not only do you squint and frown when you neglect your eyes, but you seriously injure your health.

Better have a careful examination made.
