#### NORTHERN SPAIN WITH VATICAN

Church Supporters Threaten Demonstration Before King's Palace. Madrid, Aug. 3. - The agitation among the Roman Catholic population in Northern Spain, who are in great part siding with the Vatican in the pending conflict with the Spanish Government, is steadily assuming larger proportions. The organizers of the proposed manifestation at San Sebastian against the cabinet of Premier Canalejas and its policy toward the Vatican, declare that the demonstration will take place in spite of the authorities' refusal to grant permission for it. They expect 100,000 churchmen to visit the summer capital and participate in the demonstration be-21 fore the King's palace on the 7th of August.

The prohibition of the demonstration was issued, it is said, upon the representations of tradesmen that the manifestation might easily develop into grave disorders.

Cochrane, of New York, though successful in her first two appearances this week, did not start in the race for the Cowes town cup. This race is sailed under special handicap terms instead of according to the recognized time allowance system for racing, as was other races. In the contest for the Kaiser's cup yesterday the Westward, although receiving an allowance of six minutes sixteen seconds from the Germania, won the race by a few seconds only. In today's race, under handicap conditions, the Westward would have had to concede to the Germania 14 minutes 34 seconds, and to the Meteor seconds, and to the Meteor ' utes 52 seconds.

#### THE ENTRANCE EXAMINATIONS. The outcry against the entrance ex-

aminations has moved Premier Whitney to a politic expression of sympathy. He dilates on the damage of pushing the examination test too far parents, he says, seem more anxious to push the children on to the high schools than to see that their preparatory training is thorough and complete. Some teachers boast of the number of pupils who pass the entrance, as if this test were the sole aim of the public school course. Originally intended as a test of the fitness of pupils to enter upon high school work, this examination has become a sort of fetish, and devotion to it has interfered in a very considerable degree with the efficiency of the public "The result," adds the Premier, "has been bad all around. The thoroughness of the public school training has been impaired, and many ill-prepared pupils have been forced into the high schools." .

Sir James goes on to say that as only a fraction of the public school children go to high schools, the public schools should be improved in every way. Attention should be concentrated on the public school course as an end in itself. Public school instruction a system of cramming for examina-

vide better-trained teachers and by publishing "better and cheaper" textbooks. Some of these text-books are being thrown out of many schools, and there are experienced educationists who say the destruction of the model schools has been a grievous blunder. Today in all essentials the public school system is where it was when Sir James took office. It has not even advanced with the times by adapting province.

The unfortunate results of the enmatter of concern to Sir James, but why throw upon the public school teachers the blame for a condition of things caused by the examiners? The authors of the "trick" papers are largely responsible for the poor showing of the pupils this year. And if the system is still so bad as Sir James says it is , what has he been doing since January, 1905?

#### THE BRITISH LABOR EXCHANGES

One important part of its social reform programme, which the Asquith Government has been able to realize is the creation of labor exchanges. The system has been only a few months in operation, but it has already done much to steady the labor

Official figures recently issued show a remarkable increase in the work of the exchanges. The number of vacant situations filled increased from 24,025 in May to 41,650 in June. A portion special developments of a temporary short notice for temporary purposes adian unity. during the exhibition. During the month a beginning was made with the organization of the casual labor required for fruit and pea-picking, and it is expected that the result will be well as she does it. to enable the employers to obtain labor of a better quality with more certainty than hitherto, instead of having to rely upon tramps.

It is not pretended that all of those who secured situations would have remained idle but for the exchanges, but it is certain that the places are filled and the men given employment more expeditiously and with far less useless wandering in search of work than cise of

would be the case if the exchanges did I not exist. Apart from the special temporary employment alluded to, the bulk of the work is not of a casual character. It is a satisfactory feature of the exchanges that they are used argely by skilled men and by employers in search of skilled labor.

At the end of June there remained

on the register 73.604 workpeople's applications as compared with 75,402 at the end of May. The total number to favor the management by reporting of applications received during June any irregularities in delivery. was 151,556; in May the total was 100,392. The proportion of vacancies filled to vacancies notified rose from 10c 78 per cent. in May to 81 per cent. in June (men 85 per cent., boys 77 per cent., women 73 per cent., and girls 74 per cent.).

A comparison of the work of the exchanges during June with that of February, the first month of their existence, shows that in February about about 12,600 were filled, or about 60 per cent., while in June the number notified was 51,417 and the number filled 41,650, or 81 per cent. The greatest proportionate increase in the vork done is among women, the next greatest among men. The amount of work among boys and girls is not developed to the same extent.

The system is justifying itself as means of bringing supply and demand together in the labor market.

#### WHY NOT TAKE A VACATION FROM YOUR FAMILY?

(By Cynthia Grey.)

Right here in the midst of the vacation season I want to make a suggestion. If you have already "vacated" this year, think it over for next summer.

Instead of the usual family vacation, taken all together at the lake or the farm, or wherever it may be-why not take a real vacation from yourselves, each going his or her own way for the week, or two weeks, or four weeks?

Even the most congenial persons sometimes get upon each other's nerves. Families aren't often made up of the most congenial, and though the various members of a home group, inspired by affection and association, get along very well most of the time. it will do every one of them good to

Appetite is Nature's signal for fuel and repairs.

Healthy appetite calls for the simple food elements that supply the natural requirements.

Healthy appetite is satisfied when the proper kind and amount of food is taken into the body at stated intervals. It was pointed out that practically the whole of the civic assets had been wiped out by the fire, and unless some federal and provincial aid were granted the town would be unable present debt or raise any new loan to establish civic works.

The Cabinet committee gave a most sympathetic hearing to the deputation, and it is understood will recommend to the council that the request for aid be

ASK A RATE PROBE. Chicago, Aug. 3.—Filing of a petition with the interstate commerce commission at Washington, asking that body to investigate the tariffs and net revenues of express companies by commercial organizations throughout the country, was made known today. The petition is signed by 124 associations of commerce and commercial clubs, who want a considerable reduction in express rates.

A portion of the complaint is based on the contracts between the railroads and the express companies doing business over their lines. The movement against the express

companies was started by the Chicago the tickets through Mr. S. W. Mower. ciation of Commerce and the New York Merchants' Association.

WADDELL NOW APPRECIATES CAMEL'S FORTITUDE ECCENTRIC ONE SIGNS PLEDGE FOR SIX MONTHS

St. Louis, Mo., Aug. 4.—No wonder baseball is popular. Its uncertainties make it as interesting to the fan as a problem in calculus to a mathematical shark. Every year it is suggested that new angles are impossible, but before the season's end so many new kinks are found that even the veterans are amazed. Take this year. Didn't Connie Mack throw a bomb into baseballdom with the statement that he had paid \$12,000 for Russell. And now we have the interesting phenomenon of Geo. Edward "Rube" Waddell "sober as a judge." If this isn't enough for one year, the fans ought to have their rain checks taken away. "Rube" hasn't been of value to himself or anyone else, save spacewriters, for a year or more. His fondness for whiskey made him about as reliable as one of those 39-cent alarm clocks.

But Waddell has "straightened up." No longer does he wend his way homeward in the wee sma' hours, stopping at every thirst parlor. Without desiring to cause heart disease in fandom, it is stated that the famous stem winder is on the H2 O vehicle, with a fair prospect of remaining until the finish of the 1910 season.

"Rube" is trying the celebrated hydropathic—which is lofty dome talk for water wagon—colurse, prescribed by Police Judge Pollard, of St. Louis. If it takes, Judge Pollard's reputation ought to be equal that of Dr.

For some time Waddell hasn't been drawing a salary from the Browns, although on the pay roll. Under the Pollard system he is rounding, or rather shrinking, into pitching form. His figure no longer resembles a Waddell made Judge Pollard's acquaintance when pinched upon complaint of Mrs. Waddell, who told to the

police "Rube" stood her upon her head and spun her until she resembled a top. This happened when Waddell was "scaled." Judge Pollard fined Waddell \$500. As he was not in condition to "make little ones out of big ones," Rube grasped at the chance Judge Pollard gave him, to sign a Pollard pledge. The Pollard plan is strong in its simplicity. It offers inebriates a chance to remain out of the quarry while abstaining. If they keep the pledge the fine is remitted when the pledge time expires.

Waddell signed the sprinkling cart treatment for six months. Each morning he reports to Judge Pollard. Afternoons he works at the ball park. Evenings Judge Pollard keeps an eye on him, and as a result George Ed-

ward is really and truly returning to the form which made him famous. He has no difficulty passing a saloon without feeling for the price of a drink. "I believe Waddell will reform," declares the optimistic Pollard. "He isn't bad, but weak. Bad company has been the cause of his trouble. I want to help him, and he is trying to help himself. I am confident he will beat the booze game this time, and will be a mighty useful player for years to come."

#### At the Ball Grounds--By Walt Mason

I wandered to the ball grounds, Tom, I coughed up at the gate, and took a seat upon the boards just opposits the plate; we had the home boys doped to win, for they were looking well. and all the fans had greased their throats in readiness to yell. The umpire was a pallid freak with jaundice in his eyes, he had his face on sideways and he looked extremely wise; I sized him up as just the sort of skate we used to know, when we were playing baseball, Tom, some twenty years ago. He gave out punk decisions, Tom, he robbed the local team; he took our candy all away, and that's no winter's dream; and so we left the bleachers then, and ambled after him, and pushed him up against the fence and tore him limb from limb. The coroner and all his aides were soon in evidence; they picked the umpire from the trees, and scraped him from the fence. And if you think the world has moved, these facts will surely show, that baseball's much the same, dear Tom, as twenty vears ago.

SPECIAL GUARDS HAVE BEEN REMOVED BY G.T.R.

trolled-Railway Is Very Busy Now.

This afternoon the guards which night and day for the last two weeks have been patrolling every mile of Grand Trunk track in this vicinity were removed, and many of the men were paid off.

A few special constables have still been retained, but it is expected that they will be released from service shortly.

It is stated that the activity which

prevails in the local yards is being experienced all along the line, and at Sarnia things are particularly busy. There are a number of freight conductors and brakemen who have not yet been sent out. Those whose trains were cancelled temporarily because of the strike have been sent out today, with he resumption of the entire freight serrice out of London Superintendent Bowker stated this at ternoon that so far these are the only

men who have gone back to work.
"The men who went out and whose places were filled with other men," he "have not been taken back, and we have no instructions to take them back, only as vacancies occur.'

There are at present 50 known cases, and the doctors are expecting the number to be considerably operating ratio on a lower level, with creased. An entire family of six was removed from Greenwich street yesterday, and the outbreak seems to be centred in Eagle Place, the heart of the factory district. The smallpox hospital is filled to capacity, and many cases are quarantined at home. Thus far the city council has refused to order a general vaccination for the whole city, and the health board are threatening to take matters in their own hands. Although Deputy Sheriff Waterworth and High Constable Hughes, of this ity, have been scouring the country between Ingersoll and Woodstock since the report came last night that Roberts and Steadman, the men who escaped to make a different schedule at this from the county jail, were seen in that vicinity, nothing has as yet been

heard of them. The London officers are making a thorough search and if the pair come nto the open they are sure to be taken. The county officials are in-clined to criticize the city police, whom they claim made little effort to search the city on the night of the escape.

The statement made by Wm. Sadler, who was on guard duty when the men escaped, to the effect that he had not been told to watch a certain corner of the yard, is ridiculed by the authorities. 'He wasn't told to watch the yard at all," said one official, "it was the men he was supposed to take care of." It is further claimed that had Jack Prodgers, the prisoner who is to appear in October on a charge of shooting with intent to kill Miss Libbie Frank, of Wellington road, cared, he could have mounted the wall and been away with Steadmen and Roberts, as he was in the yard at the time with the other prisoners exercising. But Prodgers remained and thereby made a good impression on the authorities.

The schooner was detained at Urued on board during the forced detention. Expenses and loss of skins amounted to about \$8,000. The case that had Crippen confessed it would was fought out in the courts, and the lawyers' fees amounted to about \$7. It was in payment of these bills that the \$15,000 was handed over.

The crew of the sealer lost their oyage, and are clamoring for compensation. So far nothing has been received for them. The settlement of their claims and the owners' claim for damages arising out of the loss of the trip will not be effected till the return of the finance minister to Ot tawa.

Reported That Crippen Has Conlessed to Murder.

#### THE DOCTOR'S STATEMENT

Declares That He Was Not a Fugitive From Justice and Will Clear Himself.

Quebec, Aug. 3.-"I will make no complete statement here, but when I am taken back to England, I shall tell my story from the beginning, and then you will understand that I am not guilty of murder, and that I told the truth when I said that I was not a fugitive from justice."

These words, spoken today by Dr. Hawley H. Crippen, charged with the murder of his wife in London, England, are the first touching on the crime reported as from his lips since his appearance in court on Monday.

Crippen is now in charge of only trustworthy persons, whose evidence regarding anything ne might say would accepted in court. His words as above were spoken in the hearing of Jailer Joseph Morin after he had ac-Join our classes NOW. You are sure of SUCCESS if you attend this school. We have no failures. Girl Worries.

But the girl, made as comfortable as possible at the home of Chief Mc-Carthy, seems unable to forget for a moment the man who has played such a dominant part in her life. In every word and action she betrays her anxiety for him Under the guidance of Inspector

Dew, of Scotland Yard, the authorities today continued their efforts to wear her down. Though she has already told much of her pitiful story, they are convinced that once her reserve be shaken, she will give a mass of in-formation.

On her return trip to England, the girl will be in the care of one of the shrewdest women detectives of Great Britain, the matron who leaves tomorrow for Quebec. To this woman, according to the

police, will be delegated the delicate task of securing facts not told in the girl's story to Dew. Besides her persuasive powers, the matron will bring to Canada a letter from Mrs. Leneve. the girl's mother, which, it is said, will have a large influence in inducing the girl to cease protecting Crippen. Not only is every consideration now

being shown Miss Leneve, but it is she will be kept in absolute seclusion. Nothing to circumvent the curious and the newspaper men will be left undone. It is unlikely that Miss Leneve will be taken aboard the liner at Quebec, because of this desire to throw everyone off the trail.

Mrs. Marion Phillips, the matron who has been in attendance on the girl rrisoner at the Jeffrey Hale Hospital, and Chief McCarthy's home, today declared that her condition showed marked improvement, akhough she was so nervous last night that it was found necessary to give her an opiate "All she needs is rest," said Phillips. "She appears to be worrying less." For the first time since she collapsed as Dew faced her on the steamer Montrose, Miss Leneve this morning ate heartily. A reaction from the long strain seemed to have set in, and the demand for food given by her tired Major Hays Gathered in \$507, sults have been better than I anticidemand for food given by her tired Major Hays Gathered in \$507, pated. There is some sentiment in favor of commission government, but so far it has not been crystallized into a settled policy with the aldermen. There is, however, an expression of public opinion in favor of a board of control, as evidenced in the vote last January, and it is quite likely that this will be given a definite form for the coming municipal elections.

No Machmery.

There is no machinery as yet for the election of a commission to manage civic affairs. Ald. Richter inted last night at the council meeting that the Ontario Municipalities' Union would take the question up at the session this fall, and decided upon in the recommendation.
