### CASE WAS NOT PROVEN

Annie Fraecliek and Young  
Palmer will Come up  
Again

The Tupperville Case is  
Arousing Considerable  
Interest

Considerable interest centred in the County Police Court yesterday morning when a young man named Palmer and a young woman named Minnie Fraecliek came up charged with being inmates of a disorderly house at Tupperville.

The raid was made a few days ago by Constable Peters, and these two were found in the house. There was also a little girl ten years of age who was said to be living in the house.

The evidence yesterday morning revealed the fact that the two people arrested would never be mistaken for Sunday school graduates. If all the language was used, which was alleged to have been used, it is no wonder that the neighbors complained.

Mrs. Eva Ross, Mrs. Susan Fraecliek and Mrs. Lindsey were among those who were examined besides Constable Peters. Their evidence, however, did not prove conclusively the charge that had been laid, and so the case was laid over until Monday, when more evidence will be given. The Crown Attorney said that there were a number of people around the neighborhood who complained, but who did not wish to give evidence. He announced that if it is necessary, he will bring the whole bunch in to Chatham to give evidence.

The question of what is best to do with the little girl is a serious one with the Court. Mr. Gunton, the Executive Officer of the Children's Aid Society, will be notified to be in Court to look after the child.

The father, Anson Fraecliek, was discharged on a charge of keeping a disorderly house.

### A NEW CANDIDATE

Mr. John Edmondson Will Again  
Run For The City Council—  
His Past Career

Yesterday afternoon a representative of The Planet, having heard John Edmondson's name prominently mentioned in connection with the coming municipal campaign, called on Mr. Edmondson, Baldoon street, with a query as to whether he would be in the Mayoralty campaign this season or not. In reply he said:

"No, I do not intend to be in the field for Mayor, but it is my intention to be in the field for alderman."

Mr. Edmondson stated that several people had asked him to be in the field this year, and it is now his intention to do so. For six years he has served as alderman in the City Council, and in the election last year was defeated by a majority of thirteen votes. For two years he was chairman of the Property committee, and for one year was chairman of the Board of Works. He was a valued member of the City Council, and his appearance as a city father will be welcomed by many.

### FIRST DAY OF SALE

Wallaceburg, Oct. 17. — The first day of the auction sale held at W. D. McKee's, better known as the Sydenham Stock Farm, took place yesterday, about 10 colts being disposed of. Those which were under the hammer the first day were of the Prince Dillard, Hal Dillard, Simmond and Hamiltonian Wilkes.

### COUNCIL TAKE ACTION

Petrols, Oct. 17. — As a precautionary measure against the danger of the explosion of nitro-glycerine in the town, the Council to-night passed a by-law prohibiting the manufacture or storing of the explosive within the corporation limits.

This morning at nine o'clock a special meeting was called when the matter was discussed at length, and was then adjourned until this evening to consider matters before taking action.

The passing of the prohibitory by-law will necessitate the removal of at least one factory, the owners of which have been given notice to move within the next twenty-four hours or prosecution will follow.

### LAYING FOR HIM

What would you think of a man who would feed breakfast food to his chickens?  
I should think that the chickens would be laying for him.

### DRY KILN DESTROYED

Serious Fire at the Chatham Fruit Growers' Factory

Loss \$600, and no Insurance—Fireman Side Injured

At 12:40 this afternoon the firemen were called out to a conflagration on Raleigh street, near the G. T. R. tracks. The dry kiln belonging to the Chatham Fruit Growers' Association had caught fire and was completely consumed.

The building, which was a frame one, was situated a short distance behind the peeling and packing house building, and also adjoined the building where the dried apples are stored. It is thought that the fire originated from the heaters in the building, as a strong fire is always kept in them in order to dry the apples. The fire was blazing furiously and was almost past control before it was noticed. Two men who were eating their dinner in the peeling house were the first to notice it, and immediately sent in the alarm. The fire department responded quickly and were soon on the scene. Three streams were playing on the blaze and in a short time the fire was extinguished. The walls and roof fell in shortly after the arrival of the firemen.

Mr. Ross, manager of the factory, when interviewed relative to the insurance, stated that there was no insurance on the building and the loss would amount to about \$600. He also stated that the building which immediately adjoined the dry kiln contained dried apples to the value of \$1,000. This building was saved.

Matthew Side, one of the firemen, sustained some painful injuries from a fall received while at the fire. He was on a beam in the second story and when the walls fell in he also fell, alighting on some woodwork, etc. The third finger of his right hand was badly cut, his back was sprained, and he sustained several other minor injuries from the fall.

### ALDERMEN ARE SCARCE

There are Six Possibilities  
for Mayor and one  
Councillor

It is Hoped that Civic  
Candidates will Announce  
Themselves

FOR MAYOR—Ald. William Potter, Ald. Charles Austin, Ald. William Bensen, ex-Ald. Thomas Scullard, and possibly Mayor William M. Stone and Ald. W. H. Westman.

FOR ALDERMEN—

Prospective candidates for the Mayor's chair seem to be plentiful in Chatham, but there appears to be very few talking of running for the positions which will be left open in the event of so many present aldermen running for high honors, and unless a greater interest is manifested later on, aldermanic seats in this city stand a chance of seeking the men instead of the men seeking them. It is to be hoped, however, that such will not be the case, and that these positions of honor, dignity and responsibility will be keenly contested for as in years gone by.

Only one man has so far been mentioned as having said anything seriously about running for an aldermanic position.

As will be seen by the above list, there is a possibility of there being six men in the field for Mayor. Many of these gentlemen have been interviewed by The Planet previously. Messrs. Potter, Bensen and Scullard have announced definitely that they will run. Ald. Charles Austin is widely spoken of as a candidate, but is silent when approached on the subject. Mayor Stone also shows Sphinxlike traits, when he is asked about the possibility of his running. Ald. Westman remarks that he may run for Mayor, and his friends appear to think that he should make the plunge this year anyway.

The news that ex-Ald. John Edmondson, the "Mayor" of North Chatham, will once more be in the field, will be welcomed by a host of his friends. John has broken the aldermanic candidature, and he deserves credit for doing so. An interview with ex-Ald. Edmondson will be found in another section of the G. T. R. It is now up to other candidates for the City Council to announce themselves, and the Board of Education and Water Board candidates should make haste to follow suit.

### A HAPPY RE-UNION

Hewitt Children Embrace  
Their Father in Prisoners'  
Pen

Wife Says That Her Sister  
Enticed Her Husband  
Away

"O, Daddy, we're so glad to see you!" was the joyful exclamation which burst from the lips of the Hewitt children as they ran to the open arms of their father, who faced Judge Houston this morning on a charge of wife-desertion. The faces of the spectators were turned away for a moment as the little ones climbed up on the knees of their father, whom they have not seen in the past seven months.

Some philosophers have made the remark that there must be some good in a man whose children are glad to greet him. If this saying be true, then Wm. Hewitt must have a share of virtue somewhere in his makeup. Hewitt appeared to forget his surroundings for the time being, and he sobbed alone as the children would their arms affectionately about his neck. The deserted mother with her week-old babe in her arms, also burst into tears.

Mrs. Hewitt says that she is willing to forgive and forget, and Hewitt says that he will be glad to go back and work hard to support his family. Big-hearted Chief Holmes and Curotaker Walter Hewson composed the peace conference which brought about this happy family re-union, and they are both of the firm belief that if Hewitt gets off he will keep his word. His case was remanded till Monday.

Mrs. Hewitt says that she does not blame Hewitt so much, but her sister, with whom he cleared out. She appears to think that her sister enticed him away. When Hewitt was arrested, he was found living with the sister in a tent.

Hewitt owns a house and lot in Nixon, and was fairly well-to-do when the quarrel with his wife took place. Mrs. Hewitt was only fourteen when she was married.

### THE DOLLAR MARK

Wheat Will Not Go Below Present  
Price For Some Time—Mr.  
Stevens Talks

In a short interview with N. H. Stevens, president of the Canada Flour Mills, The Planet gained some valuable information about the markets. Mr. Stevens said that there was a great break in the wheat market, and in two days the wheat market of Manitoba dropped seven cents. Chicago wheat has also dropped several cents and the corn, oat and barley market is also very weak. By all accounts the wheat crop of Manitoba is good and the grades show that at least sixty per cent. of the wheat will be good for milling purposes. The booming of the price of Manitoba wheat has been done by the grain men in order to make a good profit out of the old wheat they have on hand.

"The winter wheat will not go below the dollar mark for some time," said Mr. Stevens, "but in case of the western wheat going down we need not look for much advance."

Another bearish feature is the larger increase in the acreage of winter wheat sown this fall. Its growing condition is first class and it is thought that all the crop of wheat of 1907 will be required by the mills before the 1908 crop comes in.

### ELLIS-STEPHENS

Leamington, Oct. 16.—A pretty wedding took place on Wednesday afternoon at the home of Mrs. O. Stephens, when her daughter, Miss E. Stephens, was united in marriage to Mr. Roy Ellis, Leamington. The ceremony was performed by Rev. Jasper Wilson in the presence of relatives of the bride and groom.

The wedding march was played by Mrs. Bere Ellis.

The happy pair will honeymoon at Detroit and other western points. On their return they will occupy the handsome residence lately erected by Mr. Ellis on concession 2.

### COUNTY POLICE COURT

Charles Miller, of Camden, was arrested by County Officers McGregor and Peters yesterday on a charge of stealing a neighbor's horse. He was brought before Judge Houston in County Court this morning, when he elected to be tried by jury. The case was remanded till Monday for a preliminary hearing.

O. L. Lewis appeared for the prisoner, and Crown Attorney Smith prosecuted.

A man named Griffin was fined \$5 and costs, \$20, in all, for assaulting Wm. Muckle, of Shrewsbury, causing bodily harm.

### ENTRIES FOR FIELD TRIALS

International Events at  
Ruthven will be Very  
Interesting

English Setter Entries are  
Numerous—The Other  
Stakes

The entries for the International Field Trials Club Derby for Setter and Pointer puppies whelped after January 1st, 1906, closed with 16 nominations, of which 13 are English Setters, one Irish Setter and two Pointers. The entries for the all aged stake close November 1st, and for the members stake on the morning of November 26th, when the trials begin at Ruthven, Ont.

The following are the Derby entries with age and names of owners:

The trials will begin on Tuesday, November 26th, at Ruthven, Ont., with the members stake open to all aged dogs owned by members of the Club only. For this stake Mr. J. B. McKay, of Detroit, has donated a handsome sterling silver cup, which must be won twice. The Club donates a trophy for second prize.

On the completion of the members stake, the Derby will be started to be followed by the all aged stake.

Mr. W. J. Baugh, of Ridgeville, Ind., will be one of the judges, the other has not yet been selected. The Club donated \$25.00 last year to be expended in care and feed for the birds during the winter, and reports from the grounds say quail are more plentiful than for years.

### DEATH OF JAS ROUSE

The death of James A. Rouse, aged 22 years and three months, occurred this morning at four o'clock after an illness of one year.

His early death has been a shock to a large number of the citizens of Chatham and will be much mourned. He was a very popular young man and led an upright and honest life. In 1906 he graduated from the Ontario College of Pharmacy and for six months was a valued clerk at the Radley drug store. After leaving this city he took a position with the firm of Burgess & Powell, of Toronto. He afterwards returned to his home in this city and has since been living with his parents on Park street. He was formerly a resident of Blenheim and came to this city about five years ago.

The funeral will take place on Sunday afternoon at two o'clock from the residence of the deceased's parents, Park street. Interment will be made in the Maple Leaf cemetery.

The bereaved family have the sympathy of a large circle of friends.

When men are friends there is no need of justice; but when they are just they still need friendship.

## MAINTAINING A RECORD.

The announcement in last evening's Planet to the effect that the Ontario Government is at present very busily and earnestly engaged in the consideration of the text book question, and that the probable outcome would be a further reduction in the price of all authorized text books, with the possible addition of free Readers, is one which will be received with a great deal of interest and satisfaction by the many admirers of the present progressive administration at Toronto. It is another of the many reforms inaugurated by Mr. Whitney and his colleagues, which have stamped them in the public mind, as the People's Government—a Government which does things on behalf of the people and a Government which is appreciated and commended by the people.

The Government is to be warmly congratulated upon its able handling of the school book question. The people have already experienced beneficial results from recent reductions in the price of text books and they will hail with delight and appreciation, the advent of the proposed further reduction. Hon. Dr. Pyne, the Minister of Education, has with the assistance of his co-workers, given the subject of the price of text books considerable attention, and Mr. Whitney's declaration of a policy to reduce the school book tolls where they bear most severely, has been followed up with vigorous and conscientious action. These further reductions, it is understood, will apply to all authorized text books, and the parents of the Province may rest assured that the prices will be brought down to the minimum.

amount in the revision which will shortly be announced.

The Ontario Government has recently been providing some very strong evidence of the wisdom of the electors in placing them in power. Not only along educational lines, but also in other departments of the public service have they been demonstrating their progressiveness, and their splendid qualifications as the trustees of the people of this Province.

In the matter of pulpwood concessions, they are establishing a new and hitherto unknown record in the public service. They are to lease for a period of 21 years, two important pulpwood concessions. It is interesting to note the conditions under which these leases will be granted—and the same stipulations will apply to all future concessions. The important point, and one which means a lot to the people of this Province, is that all the raw material will have to be manufactured into paper in this Province. In the granting of the Nipissing concession, the successful competitor will have to undertake to erect within three years mills costing not less than \$500,000, to employ 250 hands, and to manufacture at least 150 tons of paper a day for ten months in the year. The successful tenderer for the Rainy Lake concession will have to erect mills costing \$150,000, to manufacture 20 tons of paper a day and to employ at least 50 workmen.

Thus it will be seen that the Government is protecting the working men, by providing employment for them and prohibiting the raw material being shipped to the United States to be manufactured into paper there.

This is a policy which has been commended by even the Globe, yesterday came out with an editorial upholding the Whitney Government in their "wise" action and urging upon the Dominion Government the advisability of adopting some such similar action in preserving

the pulp wood areas of the Dominion for the people of Canada.

In the question of Niagara Power, also, matters are at present being rounded into shape, and some definite announcement is being looked for. In fact, a meeting of the Cabinet has been called for to-day to consider and settle upon such phases of the power question which require immediate settlement in order that the municipalities at present interested may be able to take a final vote at the next municipal elections. Surveys are being made, which, with the other information already in the hands of the Government, will enable them to give out definite information as to the relative cost, etc.

These are all matters which the people of this Province look upon with approval, and there is no doubt that so long as Mr. Whitney holds to his present admirable record that he will receive the support of all who appreciate the value of a Government of capable and honest statesmen.

## DRAINAGE CASES

HIGHGATE VS. DOVER &amp; PORTER VS. DOVER

These two cases were tried together. The plaintiffs claimed that they had taken contracts for the repair of the Baldoon drain and had completed the work and had not been paid. Each sued the Township for the balance of the contract price. The defence was that the contracts had not been completed. After the evidence was closed the referee stated that he would find upon the evidence that the work had not been completed to the satisfaction of the engineer, nor was it in fact completed. He also found that both parties had not entered into a definite and distinct contract in writing but proceeded on a verbal understanding. Neither party knew exactly what the contract was. He also referred to the impropriety of letting a municipal drain in sections. On the whole he was inclined to give the plaintiffs pay for the work they did, but suggested that if the defendants would fix upon a sum to be paid to the contractors for taking out the earth washed into the work an order would be made for the completion of the work to the satisfaction of the engineer and then the contractors would be entitled to a judgment in their favor for the amount of their claim without costs. The case was adjourned until Saturday next in order that the council could pass upon the suggestion. W. E. Gundy for plaintiffs, J. M. Pike for defendants.

## FIXED BUCKING COLTS

Lawrence, Kan., Oct. 17.—With the beginning of the school year at the State University the raw members of the freshmen class are being put through a course of sprouts—in other words, they are being trimmed according to the latest rules of pruning.

It was only the other day that a group of freshmen were captured and taken to a large field where a few bucking and wild colts were grazing. The boys were tied to the backs of the animals and, to encourage the colts to do their best, fire-crackers were exploded.

Never before in the history of the University has there been so much excitement, and the spectators all agreed that the stunts performed by the victims put to shame any Wild West performance ever given.

It is said that the next batch of freshmen will be run through a thrashing machine and the affair will wind up with a thrilling chariot race, in which harrows and stone sleds will be used. In this way the wheat will be separated from the chaff and the unfit students will be pulverized.

## NATURAL GAS

Aslmer, Oct. 17.—A proposition has been made to the town by the Thames Valley Oil & Gas Company covering a supply of natural gas for heating and lighting purposes. The company applies for a thirty year franchise at a rate not to exceed thirty cents per thousand feet.

The company is understood to be composed of Pittsburgh, Detroit and Tillsonburg capitalists, and the latter place is to be supplied at the same rates as Aslmer. The idea is to drill a number of wells at a point about midway between the two towns and pipe the gas in both directions. The smaller places along the gas main lines would also be supplied, it is understood.

The gentlemen who it is understood, will do the drilling, are enthusiastic over the prospects for natural gas to this section, and have had extraordinary success, in the neighborhoods of Simcoe, Dunnville, Cayuga, Hagersville and other points.

## DO YOUR EARS RING?

When they buzz and semingly deaf, beware of catarrhal inflammation. This grows steadily worse, but can be cured by Catarrh Cure. J. A. Hamill, of Greenmount, P. E. I., proved the merit of Catarrh Cure and writes: "No one could have worse Catarrh than I had for years. It caused partial deafness, bad taste, upset my stomach, made me sick all over. Catarrh Cure cleared my nostrils, stopped the cough and gave me a clear feeling in my breathing organs. I am absolutely cured." Doctors say nothing is better than Catarrh Cure. Try it and you'll say so too. Two sizes, 25c and \$1.00, at all dealers.

Profane language is a forcible if not a convincing course.

## Beware Of The Backache Now

Gives Home Prescription to Prevent Serious Kidney Disease Every Time

Lame Back and Urinary Troubles are Danger Signals and tells what to do

More people succumb each year to some form of kidney trouble than any other disease. The slightest form of kidney derangement often develops into Bright's kidney disease, diabetes, or dropsy. When either of these diseases are suggested the sufferer should at once seek the best medical attention possible. Consult only a good, first-class physician, leave patent medicines alone.

There are many of the lesser symptoms of kidney trouble which can be treated at home as stated by a well-known authority. For some of these, such as backache, pain in the region of the bladder, frequency, especially at night—painful scalding and other urinary troubles, try the following simple home remedy: Fluid Extract Dandelion one-half ounce, Compound Sarsaparilla, three ounces. These simple ingredients are harmless and can be obtained at any good prescription pharmacy, and anyone can mix them by shaking well in a bottle. The dose for adults in a teaspoonful after each meal and again at bedtime.

There is no better general remedy known to relieve all forms of rheumatism, either because it acts directly upon the kidneys and blood. It cleans the clogged up pores in the kidneys so they can filter and strain from the blood the poisonous uric acid and waste matter, which if not eliminated remain in the blood, decompose and secrete about the joints, muscular tissues causing the untold suffering and deformity of rheumatism.

Backache is nature's signal notifying the sufferer that the kidneys are not acting properly. "Take care of your kidneys," is now the physician's advice to his patients.

## THE DAY OF DECISION.

Kipling Speaks Strongly on Canada's Immigration Policy.

Mr. Rudyard Kipling at a recent banquet in Victoria, B. C., after a charmingly worded reference to the work of the men who had managed to "make of Victoria a magnificent city and at the same time to keep intact the magnificent treasure-house of its natural beauty," dwelt on immigration, and promised that on his return he would embody his views on Canada in some form. He contrasted the happy condition of the Canadian people with those of the United States, and went on to point out the difference between Oriental and continental European immigration and settlers of British origin.

In the one case the immigrants regarded law as a monster. They were born in fear and reared in the panic necessary to the life of the immigrant. He continued Mr. Kipling, to evolve an elaborate scheme of education to instruct the immigrant from Great Britain how to talk the English language or to teach his children the rudiments of citizenship. He knows that he may have to learn much and to unlearn much, but at last he will have the same powers and possibilities as yourselves and follow the same ideas even as your fathers did along lines that you know well. He seeks only room to develop his powers and his capabilities, and this room, I conceive, is offered in your vast Dominion.

"It is possible that in your strength you may think that this is not an urgent question, but the time is coming when you will have to choose between the desired reinforcement of our race and the blood of the undesired of races to whom you are strangers, whose speech you do not understand, and from whose influence and traditions you are separated by thousands of years—that is your choice. For myself I think the time for making that choice is on you now."

## TROUT AT HOME.

Poetic Angler Describes Gamey Fish In Own Haunts.

Whoever has had the privilege of lying at full length on some mossy overhanging bank while watching a large trout in his lair, perceives that a true figure has yet to be drawn of him. Even photography can give no idea of the power and grace of the dorsal fin undulating loosely about the broad back; of the perpetual fanning of the pectoral fins; of the capacious gills opening and closing, the half-open round mouth, the luminous brown eye, the ceaseless slow vibration of the powerful tail; nor can pen adequately describe the startling suddenness of the dart at some idle fly touching the surface, the quick return to the old position and the resumption of the poise with the head elevated at a slight angle, pectorals all tremulous and floating wavy circles emanating from every slight motion of the body. It is a worth while to watch a trout rush four feet up a perpendicular fall of water, pause, tremble violently all over, and in a moment throw itself clear of the stream and fall into the basin above, at an elevation of about three feet and more.

## Cheese Too Green.

Mr. J. A. Ruddick, Dominion Dairy Commissioner, has recently returned from a three months' tour of the trade centres of England and during his stay spent some short time on the continent of Europe, principally in Holland, where he was attending an international dairy congress at which 26 countries were represented. The discussions at the congress turned upon many matters regarding the dairy trade on that side of the water, but principally with regard to the prevention of the adulteration of butter for export, and also with matters regarding tuberculosis in dairy herds.

In regard to Canada's trade with Britain Mr. Ruddick addressed the Chambers of Commerce at Glasgow, Liverpool and Manchester, and paid a visit to various unloading points. London has had cold storage accommodation for some time, and the C. P. R. has recently erected cold storage sheds and equipment at Liverpool. The goods as at the Surrey dock in London, the butter and cheese are unloaded right off the ship into cold storage.

During his stay in England Mr. Ruddick heard many favorable comments on the good accomplished by the Fruit Marks Act in the establishing confidence in the trade. The packing of Canadian fruit, however, will yet admit of improvement. The dairy commissioner also heard many complaints of the green cheese that was shipped to Britain in the spring when the prices were high, a vice which he spoke strongly against before leaving for Canada.

## Surgery to Cure Insanity.

The question of curing insanity by a surgical operation was dealt with recently by Dr. Bernard Hollander, the well-known alienist, in a lecture before the British Psychological Society. Some time ago Dr. Hollander published details of a case of mental derangement which he had cured by trephining, since when he has continued his investigations in that direction. He gave evidence of the support of his contention that insanity, especially in its early stages, does not involve the whole brain, but only limited particular areas, and it is often amenable to surgical treatment.

## Character From Boot Heels.

It is observed that a man who wears down the heels of his boots or shoes equally may be safely set down as an energetic man of business or a trustworthy official. Heels worn on the outer sides are said to reveal imagination, poetic instinct and an adventurous spirit. If they are worn down on the inner side it shows the wearer to be weak and undecided in character. Moreover, the professor adds, this last sign is more to be relied upon in the case of men than of women, as the high heels of the latter divert whatever physical significance they might otherwise have.

Old French Dial Ring. "A dial ring," said the curio dealer. "A French dial ring of the eighteenth century. You can tell the time with it."

The ring of gold was beautifully chased, and where the stone sparkles usually there was set a tiny sundial. "All you have to do," said the dealer, "is to stand in the right way, holding the dial so that the sun strikes it, and a tiny shadow will tell you the hour. Such a ring," he concluded, "is more a curio than an accurate timepiece. It is only good in the locality it is made for, and even there unless it is set to ward the right point of the compass, it will be several hours out of the way."

## A Woman's Back

Has many aches and pains caused by weakness and falling, or other displacement, of the pelvic organs. Other symptoms of female weakness are frequent headache, dizziness, imaginary specks or dark spots floating before the eyes, gnawing sensation in stomach, dragging or bearing down in lower abdominal pelvic region, disagreeable drains from pelvic organs, faint spells with general weakness.

If any considerable number of the above symptoms are present there is no remedy that will give quick relief or a more permanent cure than Dr. Pierce's Favorite Prescription. It has a record of over forty years of cures. It is the most potent invigorating tonic and strengthening nerve known to medical science. It is made of the glyceric extracts of native medicinal roots found in our forests and contains not a drop of alcohol or harmful, or habit-forming drugs. Its ingredients are all printed on the bottle-wrapper and attested under oath as correct.

Every ingredient entering into "Favorite Prescription" has the written endorsement of the most eminent medical writers of all the several schools of practice—more valuable than any amount of non-professional testimonials—though the latter are not lacking, having been contributed voluntarily by grateful patients in numbers to exceed the endorsements given to any other medicine extant for the cure of woman's ills.

You cannot afford to accept any medicine of unknown composition as a substitute for this well proven remedy, or known counterfeits, even though the dealer may make a little more profit thereby. Your interest in regaining health is paramount to any selfish interest of his and it is an insult to your intelligence for him to try to palm off upon you a substitute. You know what you want and it is his business to supply the article called for.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by Dr. Pierce over forty years ago, much imitated but never equalled. Little sugar-coated granules—easy to take and easy.

## EUROPEAN BEACHES.

Their Methods and Bathing Suits Very Different From Ours.

In Europe there is no lounging on the beach in bathing suits. On this point the foreigner is apt to criticize the American woman and to point out that when the women in Europe put on bathing suits it is for the purpose of bathing and not of sitting on the beach, high and dry, out of the reach of even the largest wave. There are many reasons for this. One is the consideration that prevents me from making any illustrations of them. They generally are not fit for sight or publication. It would take a very small wave indeed to thoroughly drench the most elaborate of the costumes commonly worn by the ladies throughout Europe when they go bathing. Of course the conditions are different. In Europe madame does not have to cross the beach in her scanty attire. When she enters her bathhouse she is in full street regalia, and as the house is then wheeled out into the water, when she emerges for her dip she is visible only for the brief time it takes to plunge into the water, and she enjoys her swim without the embarrassment of skirts. When her bathhouse is wheeled back and she appears on the beach she is again in street costume. Then, too, there are many beaches on the continent, such as the Damerstrand in Nordsee, where gentlemen are excluded until a certain hour of the day—Charles F. Peters in Bohemian Magazine.

The Council adjourned, and held a special meeting at the Clerk's office, Sept. 28th.

The Reeve and Messrs. Foy and Fox were present.

A by-law was read and finally passed, naming the time for the Clerk to deliver the collection rolls for 1907 to the collectors.

The Clerk was paid \$50 salary.

The Council adjourned, and met at the Town Hall, Oct. 8th. The members were all present.

The minutes of the last regular and special meetings were read and adopted.

The Solicitor's opinion was read re matter of culverts and sewer pipe crossing the lands of the C. W. & L. E. Ry. Co.

From Lewis & Richards, a letter re Joseph H. Steen's claim for work said to be done in McFarlane drain.

From Jas. S. Rankin, an application for collector for 1st and 4th divisions at a salary of \$90.

From V. Cartier and other ratepayers on Burk drain, a petition asking that a flood gate be built at the outlet of said drain.

Mr. Foy reported re inspecting the Cantley drain.

Mr. Carron reported that the work of repairing the part of the Ft. Con. Mechanical drain, referred to him, was completed.

A. McDowell, Engineer, certifies that the works sold on the Terry ditch were completed, and to pay the contractors the respective sums named therein.

A by-law was read and finally passed to close the public road between lots 7 and 8 in Pain Court block, from the 4th Con. road to Pain Court creek.

Also, a by-law appointing James S. Rankin collector for the 1st and 4th divisions, and H. M. Beahrd for the 2nd and 3rd divisions, each at a salary of \$90.

Moved by Crawford and Fox, that Ernest Montgomery, Rodrick McKenzie and Isaac Montgomery, each being a person in possession of land adjoining the Rankin Creek drain, and responsible for obstructions in the drain where it passes through their respective lots so that the free flow of the water is impeded thereby, be each notified by the council through its Clerk to remove such obstructions within the present month of October, and if not so removed the council will have them removed at the cost of the party responsible.—Carried.

Moved by Carron and Foy, that James Marriott be appointed commissioner to let and superintend the erection of a pumping plant in the Terry drain and operating the same.—Carried.

Moved by Fox and Crawford, that the grievance of Fred, Barnier re a break in the Ouellette drain embankment, in Dover West, be referred to Mr. Carron with power.—Carried.

Moved by Crawford and Fox, that the Reeve be appointed to leave the collector's bonds executed.—Carried.

Moved by Crawford and Carron, that Mr. Fox be instructed to have the earth excavated from the north branch of the Hendrick drain levelled on the Baldoon Road and charged to said drain account.—Carried.

Moved by Carron and Crawford, that the Treasurer be instructed to credit the Town Line extension Relief drain with \$35, cost of building a bridge on 7th concession road, and \$3 to the Gourie drain, and to charge both items to the first division account.—Carried.

Moved by Crawford and Carron, that the matter of building a flood gate at the outlet of the Burk drain as petitioned for by ratepayers of said drain, be referred to Mr. Foy with power.—Carried.

Moved by Carron and Foy, that Mr. Fox be instructed to pay the cost of the highway bridge on the 4th concession road, \$49.72, over the Beattie drain and charged to roads and bridges.—Carried.

Moved by Carron and Crawford, that the matter of Joseph H. Steen's claim for work alleged to be done in the McFarlane drain be referred to the Reeve to take the necessary

PERUNA A WONDERFUL BOON  
IN MY OLD AGE.

MRS. MAHALA REID.

Heartily Approves of Peruna and Man-a-lin for Kidney and Bowel Trouble.

MRS. MAHALA REID, Corbyville, Ont., Canada, writes:

"Your celebrated remedies have been a wonderful boon to me in my old age."

"I have not been in so good health for several years as now. I was troubled with constipation, rheumatism and kidney trouble."

"A little over two years ago, I completely lost my health, becoming almost helpless, when a dear friend sent me your remedies, Peruna and Manalin. I began to take them, following the directions on the bottle. I very soon began to feel benefited by their use and continued to take them."

"I am now completely recovered from the above ailments, in fact, better than I have been for years past. I cannot praise the remedies too highly and will always recommend them to others."

Constipation is almost sure to set up other derangements. Retained accumulations within the bowels are partly resorbed into the system, producing sometimes rheumatism, sometimes kidney trouble."

### YOUTH'S VITALITY SAPPED AWAY.

Your child looks poorly, listless and frail. You would like this boy or girl to be more robust, more energetic and vivacious. The "something" that is wrong is simply this. Stomach and bowels need attention. Constipation and indigestion must be relieved, new life and vigor are required in the blood, slight assistance is needed for the kidneys and liver. Nothing is so effective as Dr. Hamilton's Pills. They put new life into young folks as well as the old ones. Every child should use this medicine regularly because its benefits are not to be had in any other way. 25c. at all dealers.

A Sample of What V.S.O. does.—Mr. Merrifield, I was so severely stricken with Joint Rheumatism that I was confined to bed for a long time with swollen and stiff joints; it even affected my stomach. I gave up all hope of ever being cured. The doctor finally told me he could "ease my pain but could not cure me." My sister heard of your Veteran's Sure Cure, and sent for a bottle. I took half of a \$1 bottle. This enabled me to walk about as usual. This was about six years ago, and I have had no return of Rheumatism. Mrs. H. Privat, Williamsford, Ont., Sept. 11th, 1907.

## ROMANCE ENDS IN JAIL

Charles Trotter Perjured Himself In Order to Marry

North Bay, Oct. 18.—Charles Trotter and Marie Chenier lived near the little village of Warren, about 20 miles east of Sudbury, and an affection sprang up between the two young people which ripened into love and a desire to be married.

Trotter presented himself to the parish priest and asked that the bans be called, but his simple habitant soul was shocked with the intelligence that inasmuch as Marie was his niece the priest could not countenance the marriage.

The young people were deeply grieved over their predicament, but Charles determined that the marriage should proceed even if the Protestant minister had to be called in. The marriage license was secured and, blinded by love, Trotter took the necessary affidavit that his intended bride was no relative.

A Methodist divine performed the ceremony, and the young couple were happy, but their happiness was short-lived, for Nemesis was on their trail, and a complaint was lodged against Trotter for perjury. After a trial before Judge Riddell and a jury, Trotter was found guilty and sentenced to five years in Kingston penitentiary, a pitiful ending to his romance, and the young wife left husbandless in the beginning of her honeymoon.

At the same court a man who caused the death of another was sentenced to one year's imprisonment; a villain who raped a child received two years, and the man who swore falsely to win his bride is punished worst of all.

### GIVEN LEAVE OF ABSENCE.

Laval Will Await Result of Divorce Suit.

Montreal, Oct. 18.—Till divorce proceedings, instituted by his wife, are settled, Dr. Loir, an eminent French physician, cannot be employed by Laval University, and the doctor was Wednesday given a year's leave of absence, his first term of engagement having been fixed as a year.

As Dr. Loir is a nephew of the famous Pasteur, Laval authorities thought that the medical faculty had a "find" in him.

However, Archbishop Bruchesi has refused to allow Laval to employ Dr. Loir, the reason being that Madame Loir is suing for divorce.

## SALARIES INCREASED

The advance in teachers' salaries continues. Wednesday night the London Board of Education adopted a more liberal schedule. Kindergarten assistants will now receive \$400 instead of \$350. All other female teachers receive an initial salary of \$450 and an increase of \$50 per annum up to \$750. Principals of twelve-room schools and over receive initial salaries of \$1,200 and a maximum of \$1,500 with increases of \$100 a year. Principals of smaller schools receive from \$1,000 to \$1,200. Assistant principals of large schools receive a \$1,200 maximum. The salaries of the Collegiate Institute masters were also advanced so as to be in keeping with the increased cost of living.

This step was undertaken by the trustees themselves, who realized that in order to keep efficient teachers on the London staff, it was necessary to make general increases in salaries.

## Stop The Strenuous Life

Weakens The Tissues And Lessens Organic Vitality.

The stress and strain of the strenuous life in both city and country tends towards stomach troubles.

Five people suffer to-day where one did ten years ago with sick headache, dizziness, flatulence, distress after eating, specks before the eyes, bleeding, nervousness, sleeplessness and many other symptoms of indigestion.

All who are suffering with stomach troubles, and that means at least two out of three in Chatham and other towns, should use Mi-o-na stomach tablets. Nothing else is as safe, yet effective; nothing else can be so thoroughly relied upon to relieve all troubles from indigestion as Mi-o-na.

It is not a mere digestive taken after the food is eaten, but a true tonic, stimulant and strengthener for the muscular walls of the stomach, increasing the flow of digestive fluids and putting the stomach into such condition that it does the work Nature expects of it.

So reliable is Mi-o-na in its curative action that C. H. Gunn & Co., with every 50 cent box they sell give a guarantee to refund the money unless the remedy does all that is claimed for it.

Busy business men read this! The C. P. R. train now leaves for Toronto at 7 a. m., arriving there at 12 noon, returning leaves Toronto at 4.15 p. m., arriving here at 9.50 p. m., or at 7.30 p. m., arriving here at 12.30 p. m. Call at C. P. R. city ticket office, corner of King and Fifth streets, and get full particulars.

## CLARIFIED AND BOTTLED MILK

To clarify and bottle milk is the only sanitary and up-to-date way to handle such an important product as the dairy as milk, for while it is one of the best and most necessary foods we use if properly cared for, it is certainly one of the most dangerous if neglected or carelessly handled, and should never be exposed to street dust, as is done in the ordinary way of peddling milk from large cans with open measures. The Steam Turbine Machine used to clarify all the milk sold from the

## THE SHIP'S BELL

It is Sounded at Half Hour Intervals Day and Night.

The ship's bell is the mariner's clock. The nautical day begins and ends at noon, when eight bells is struck. The bell is struck half hourly, day and night, one stroke being added for each half hour until eight is reached, when the count begins at one bell.

In the United States navy the ship's bell hangs usually under the forecastle, or just forward of the foremast. The captain's orderly keeps the time and reports to the officer of the dock the hour in terms of "bells." The officer of the dock then bids the messenger of the watch strike the bell. There is somewhat more formality at eight bells than at other times, for then the bell is reported to the captain and the bell not struck until he has said, "Make it so." Here is the routine on board a man-of-war at 8 o'clock in the morning. The orderly first says to the officer of the dock, "Eight bells, sir." The officer of the dock replies, "Report to the captain eight bells and chronometers wound." The orderly then goes to the captain and says, "Eight bells and the chronometers wound, sir." The captain replies, "Very well; make it so." The orderly goes to the officer of the dock and says, "Make it so, sir." The officer of the dock says to the messenger of the watch, "Strike eight bells," and if everybody has been prompted the messenger strikes eight bells at exactly 8 a. m.

**Fined For Smuggling Chinese.**  
The infliction of a stiff fine on the captain of the *Colonus*, who brought over the 18 smuggled Chinamen from Newfoundland to Sydney, N. B., probably will deter other enterprising smuggling skippers from following his example. The penalty provided by law for such an offence is not less than \$500 and not more than \$1,000 for each Chinaman brought into the Dominion contrary to the act regulating the admission of Chinamen. As to the men themselves, they can be kept in prison for evasion of the law for a full year, and before the expiration of the period a special act will, if necessary, be passed by the Dominion Parliament providing for their deportation, the present law, which imposing a year's imprisonment, giving no authority to send them out of the country after the term is up.

## Is The Fastest Growing Company In Canada

Over \$2,700,000.00 MORE insurance was written by this company last year, than in any previous year.

The expenses were \$10,224 LESS than in 1905, while the volume of business on its books was much larger.

Is it any wonder then that the whole Canadian people have confidence in the wise, conservative business management?

And they show their confidence by taking out enough insurance in The Mutual Life to make it the fastest growing company in the Dominion.

## NEW AERIAL CRUISER

FIRST BRITISH ARMY AIRSHIP LAUNCHED AT ALDERSHOT.

Successful Maiden Voyage—Graceful Evolutions—Answers Rudder in Stiff Breeze—Flies For Three Miles at Altitude of 700 Feet—Like Prehistoric Giant—Secret Has Been Well-Preserved.

The new war balloon—the first of Great Britain's aerial fleet—made a remarkably successful first ascent recently, and cruised for three miles about 700 feet above Farnborough Common. Everything in connection with the trial was regulated with mathematical precision, and the airship answered in every detail to her requirements.

She is not nearly the last word in balloon construction, and it is understood that since she was laid down great developments have been made in the science of aerial navigation, and that Great Britain with her next airship will be a long way ahead of the other powers with a vessel that can be readily controlled and can deliver a heavy fire if necessary.

**Trial a Success.**

The trial was a remarkable success. The airship throughout was well under control; the height to which she rose was regulated with mathematical precision; she answered her helm so accurately as to turn within her own length, and she made rapid and easy breeze against the fresh easterly breeze that was blowing.

When, after a free run of twenty-five minutes, the aeronauts—Col. Capper, Capt. King and Mr. Codd—descended a ringing cheer rose from the assembled crowd, many of whom had waited and watched since daybreak for this splendid realization of many years of vigorous work and study.

The result can be stated in a few sentences. The new airship is not only a thing of grace and beauty, but it has realized, far more than any of its predecessors, what has been vaguely styled "the conquest of the air." She rises slowly, maintains a

THE NEW AIRSHIP.

perfect balance, plows her way through the atmosphere as a liner through the ocean, and is obedient to the south, east or west at the bidding of the steersman.

## Mastery of the Air.

"She has never been equalled," said F. H. Butler, the distinguished aeronaut, who witnessed the trials. "No nation on earth can touch her. She gives us the mastery of the air, as our Dreadnoughts retain for us the mastery of the seas."

At 8 o'clock in the morning a pilot balloon was sent up and tethered, to test the force of the air currents in the higher regions. An hour and a half later there was unusual activity around the balloon factory. Relays of uniformed men swarmed to the ground leading to the great grey building in which the airship rested. Heavy iron tanks which littered the ground were cleared away, and then a troop of mounted police cantered to the ground.

The men below, running backwards and forwards, seemed like infants by the side of some prehistoric giant. Yet, obedient to their slightest touch, it came slowly out from its resting place, turned due south, and captivated, floated towards the centre of the common.

## Ready to Start.

Col. Capper sat at the tiller and directed operations through a megaphone. Mr. Codd, in his distinguishing white cap and white overalls, stood by the engines, one eye the while intent on the gasbag overhead. The picture was a pretty one. High up stretched the khaki-colored, net-protected gas reservoir. Underneath was a light, tastefully designed framework, from which depended a frail-looking, boat-shaped canvas car. From one end there projected a square sail-like rudder, while from the other, and with blade-shaped screws on either side, waved the Union Jack.

Twenty-four men held the guide ropes which hung down from the rounded back of the gasbag, and twenty others hung on to the sides of the car.

The propellers were started, and sounded like the rush of a cataract. Then they were stopped, restarted, and again stopped. The whirling screws appeared in the dazzling sunlight like sharpened scythes.

## The First Flight.

The heat had expanded the gasbag, and the aeronauts opened the valve. The hiss of the escaping gas was heard all over the common. The airship was heeled down to regulate the ballast. Then at the word, "Let her go," the detaining ropes were dropped. She ascended slowly 700 feet, and remained at that height throughout the whole of the voyage—in itself a wonderful feat.

Next she went round in a narrow circle, and then set off toward the east in the teeth of the wind. After plowing her way in this direction for more than half a mile she turned and swept southward, then flew over a clump of bushes and bore round to the east again.

Now and again sand was thrown overboard. When about half a mile from the shed her motors were stopped, and she was dropped gently to earth again.

Col. Capper thought that this was due to the fact that one of the motor belts had broken; but it was subsequently found that the injury could be repaired in a few minutes.

Men of the balloon section, who had

been following the airship on foot, now took charge of her and towed her back. She had nearly completed a circuit of three miles, and had travelled at an average rate of fifteen miles an hour.

## Build of the Airship.

The airship, which, now that it has proved so successful, is, by the King's command, to be named *Nulli Secundus*, is built after the fashion of the airship of Santos Dumont, which circled the Eiffel Tower. There is one important difference, however, and this is the well-guarded secret of the British Government.

The envelope is of gold-beater's skin. The process by which this is fashioned has been discovered and perfected by Col. Templer. For the first time hydrogen can be used to lift an airship.

It was impossible to do this with silk. Consequently other airships have neither the lifting power nor the mobility of this *Nulli Secundus*.

Foreign Governments have vainly tried to secure the secret. The skin, which is the stomach of the animal, is worked by girls, each of whom is sworn to secrecy. They are nearly all soldiers' daughters. Owing to the work they are engaged on their hands are as white as driven snow.

## CLERICS ARE AT ODDS.

Diversity of Opinion in England on New Marriage Law.

One of the most pressing topics of discussion among Church of England clergymen just now is whether they shall solemnize marriages with a deceased wife's sister, or exercise their privileges under the new act and refuse their services and the use of their churches. Both the Archbishop of Canterbury and the Bishop of London have asked clergymen to refuse to perform such marriages.

The ecclesiastical newspaper, *The Layman*, has taken the opinions of a number of leading Church of England clergymen on the subject. The following are among those who will marry such persons:

Canon Hensley Henson, the Dean of Ripon, Archdeacon Wilberforce, Archdeacon Danks, Dean Lefroy, of Norwich; Canon E. A. Stuart, Canon Barnett, Canon Bernard.

The following are among the majority who have declared that they will refuse to solemnize such marriages:

The Dean of St. Paul's, the Dean of Carlisle, Archdeacon Askwith, Archdeacon Bathurst, the Dean of Llandaff, Archdeacon Wilkinson, Prebendary Dalton, Canon Proctor.

The Dean of Ripon says: "I should certainly not hesitate to take a marriage under the deceased wife's sister act. I do not believe these marriages to be forbidden in Scripture or by the King's ecclesiastical law, which is always subordinate to the statute law of the realm. In a doubtful matter, I should trust much more to the convictions of my countrymen in the twentieth century, as expressed in Parliament, than to the decree of assemblies of old unmarried priests in the Dark Ages or to those of Bancroft and his colleagues who abolished the Puritans and made the canons in 1603."

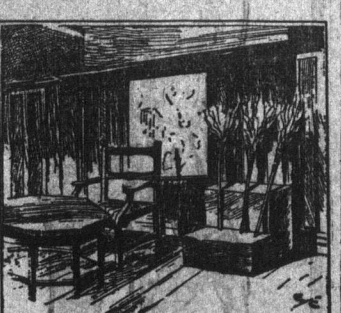

Archdeacon Bathurst, a very strong opponent of this act, says: "I consider the deceased wife's sister act to be based on a principle of marriage law—first, distinctly contradictory to the law of marriage laid down for us by God both in the Old and New Testaments, and, secondly, necessarily destructive of happiness and free intercourse between the families connected by marriage with each other."

## ETON'S SWISHING BLOCK.

Carved Deep With Names of Victims Who Had Suffered.

Eton has lost her famous "swishing block," over which so many folk, hereafter to be famous, have spread themselves for centuries. It was turned out the last time for use by God both in the Old and New Testaments, and, secondly, necessarily destructive of happiness and free intercourse between the families connected by marriage with each other.

On the afternoon preceding the holidays the block stood in its wonted place beside the headmaster's desk, but the following morning it had disappeared. Canon Lyttelton quietly ordered another to be put in its place.

ETON'S "SWISHING BLOCK."

The theft apparently took place in the night and, therefore, it is thought one of the boys must know something of it. The stolen block dates back to 1770, and was carved deep with names. It was stolen 30 years ago, but returned 15 years later, and the block that had replaced it was taken away, only to be put back again. In the lower school there is another block, but this is not used to-day.

The missing block could tell a rare tale of punishment if blocks could speak. For Eton cramming has been much assisted by corporal punishment in its time. In its infancy (1773) the block was captured in a school revolt and broken.

## An Appreciative Reader.

Thomas Scott, the celebrated commentator on the Bible, published an edition of Bunyan's "Pilgrim's Progress" with explanatory notes. A copy of this work he benevolently presented to one of his poor parishioners. Meeting him soon after, Mr. Scott inquired whether he had read it.

"Yes, sir," was the enthusiastic reply.

"Do you think you understand it?" "Oh, yes," the parishioner answered, with the unexpected and disappointing addition, "and I hope to have long to understand the notes."
