The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Metropolitan Toronto Reference Library
Special Collections

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

DRAW LARGEST CROWDS

One of the reasons for the continuous rush of business to the EATON store is **quality** and **largest variety** of the goods you want. No doubt about that.

Another reason is our appreciation of your business whether your purchases amount to cents or dollars.

But THE reason for bigger growth each year — our larger business — for the monthly addition of hundreds of names to our lengthy list of satisfied customers is **VALUE**.

The never ceasing endeavor of this business is to give you more good goods for your good money than you can obtain elsewhere.

The store is yours to visit, to see the many, many things you, your family and your home require. Its conveniences are yours. **The rest rooms** (second floor) to meet your friends and write your letters. **The parcel rooms** (basement) where you check your parcels free of charge. **The information office** (main floor) where you're cheerfully given full information about the store, city, trains and boats.

The Crowning of the King

Edwin Abbey's Great and Glorious Coronation Picture on View in the Art Gallery

There has been no picture painted within half a century that has commanded so much attention and received so much praise as Edwin Abbey's great historical picture of the ceremony of the Coronation of His Majesty King Edward the Seventh. Exactly three years and twenty days had elapsed on the opening of the twenty-seventh annual Exhibition in Toronto since the coronation of His present Majesty.

Westminster's Ancient Abbey Where the Solemn but Gorgeous Ceremony Took Place

It will be remembered that the crowning was to have taken place some time previously and that every arrangement had been made when the news got abroad that His Majesty, who had hoped against hope that he would be well enough to perform his great and illustrious part, was altogether too ill, and that the glorious occasion had perforce to be postponed, but, except in a few details, nothing was changed, and on August 9, 1902, King Edward VII and Alexandra, His Queen, were crowned in the ancient Abbey by the two Archbishops, the King at the hands of the aged Dr. Temple, Archbishop of Canterbury, and the Queen by Dr. Maclagan, Archbishop of York. If on the one hand the Coronation of a British Sovereign makes an unrivalled appeal to the historical consciousness of the Empire

The Splendor of the Pageant

itself makes an appeal no less strong to its artistic sensibilities. Such a scene, in other words, demanded to be painted. For portrayal on his great canvas, 17 feet by 11 feet, the artist has chosen the supreme moment of the day. The King clothed in those robes of State to which, on this occasion, so much significance attaches, wearing on his right hand the ruby ring, "the ensign of Kingly Dignity and of Defence of the Catholic Faith," and holding in either hand the Sceptre with the Cross and the Sceptre with the Dove, sits in the Coronation Chair—

"King Edward's Chair"

as it is officially called. His face is raised, his eyes are fixed upon the aged Archbishop, who stands before him, holding up the Imperial Crown, and just about to place it on his head. A moment before, at the altar, with the Crown before him, the Archbishop has prayed that the Almighty would

"Crown the King With All Princely Virtues"

No fewer than 115 persons, all richly robed, are portrayed so vividly as to be easily distinguishable by the key that will be presented to every visitor. It is a painting that, once seen, will never be forgotten for its grandeur, its massiveness, its truth and its solemnity, and its exhibition at Toronto means an opportunity that may never occur again of seeing

A Century's Masterpiece, Illustrating an Occasion that Marks an Epoch in the History of the Empire

that had not occurred previously for upwards of sixty years, and that, if we had our way, we would all wish might not happen again for a like period.

The picture is placed in a specially arranged and illuminated room in the new Art Gallery, where it can be seen from 9 a.m. to 1 p.m. for 25c., enabling visitors to view it in comfort, and for 10c. after 1 p.m. until "lights out" comes round at 10 p.m.

The Windsor Plate

being a Collection of Rare and Beautiful Treasures from the Repositories of the great British Universities and the Wealthy and Ancient Corporations of London and other Cities.

JUST as actions speak louder than words, so does fulfilment speak in stentorian tones compared to the whispered lullabies of promises. In presenting the art treasures that are located in the basement of the grand stand, in the place formerly occupied by the Jubilee presents, and later still by the beautiful models of warships exhibited last year, the directorate feel satisfied that the public will agree that they form a display of marvellous interest that at the same time abounds in historical instruction. Every one of the hundreds of samples of the best art of the silversmith and goldsmith of the middle ages, dating from the Conquest, has its particular story, sometimes romantic and sometimes tragic. But it is not only as curiosities or as reminiscent relics that the treasures forming this magnificent collection are deserving of attention, but also as rich, rare, dainty and exquisite works of art. In every instance they are made of precious metals or equally precious and rare woods, sometimes quaint and sometimes eminently artistic in design, breathing an air of refinement, elegance and highly cultured taste as well as of luxury, covering a period of well-nigh five hundred years. The objects were chosen mainly from the rich stores of South Kensington Museum, the Victoria and Albert Museum, and the Metropolitan Museum of Art, New York. To that gentleman the directorate owes a debt of enduring gratitude, which they feel the public will emphatically endorse for his exceeding courtesy and unlimited kindness. Also to Lord Rathcona, whose efforts on behalf of the Canadian National Exhibition are continuous and never-failing, the directorate take this opportunity of extending their grateful acknowledgments. With these few words the public are bid to welcome to feast their eyes on this superb, stately and heart-stirring testimony to the wealth, culture and delicate excellence of taste of former generations.

CASE A

PRINCE CHARLIE'S PUNCH BOWL.—This bowl was made to the order of Prince Charlie to show that Scottish workers and designers in the precious metals were as skilful as any in the world. After its completion the Prince's funds were at so low an ebb that he could not pay for the bowl, which had been taken to Paris. There an emissary of Peter the Great saw the wonderful and beautiful work of art and bought it for his emperor. At a later date the British Government sent to the Russian capital and had the replica made, which is now on view.

Simpson's Mail Order Store

WHEN you were in Toronto for the big Exhibition of 1905, you took the opportunity of visiting The Robert Simpson Company's fine big modern store on the corner of Queen and Yonge Streets. Several facts you learned and observed at that time you wished to remember, in view of the strong impression the magnificent appearance of the store and its stocks made upon you at that time. Here they are:

The Mail Order business of The Robert Simpson Company covers the Dominion of Canada from Dawson City to North Sydney.

The Mail Order business of the Robert Simpson Company brings the service of the store to your post office, no matter how far from Toronto you may reside.

The Robert Simpson Company's Dress Goods Department is the finest in the Dominion. The Mail Order Department places it at your own personal disposal.

The Mantle Department, you remember, took up the entire second floor of the main building, and every garment was priced and numbered. You'll find them all in the Catalogue with the figures to correspond. Ordering by mail is simplicity itself.

The Gloves and Hosiery Department were always thronged. Toronto people know how good our qualities and values are. Little parcels go through the mail for two or three cents.

One whole floor was given up to the men's store, and the clothing looked as good as tailor-made. You can buy anything you want in the men's store through the mail.

Simpson's Millinery salon was the most beautiful and magnificent in the city. You can choose the hat you want in the Catalogue and have it sent by express, no matter where you live.

A comfortable Waiting Room and writing tables were kept for the convenience of visitors on the first floor, Richmond Street side.

And you intended to leave your name and address to be put on our Catalogue mailing list. Did you forget? If so, drop a post card right now before it slips your mind the second time. Our Catalogue is a beauty, a regular household handbook of information about goods and prices, illustrated throughout.

Hoping you will be back for next year's Exhibition,

Yours respectfully,

THE

"THREE FEEDS FOR ONE CENT"

INTERNATIONAL STOCK FOOD

"INTERNATIONAL STOCK FOOD" is a scientific, medicinal preparation, manufactured from nature's remedies, consisting of roots, herbs, seeds, barks, etc. It is fed to stock in small quantities for the purpose of aiding digestion and insuring perfect assimilation. The average farm animal, as you know from observation, wastes a large amount of the grain fed. You have to pay for the grain whether your stock digest it or not. If the use of "INTERNATIONAL STOCK FOOD" will save you this wasted grain it will certainly pay you to use it. Our experience has proved to us that it will, and therefore, we place back of every pound of "INTERNATIONAL STOCK FOOD" sold, our positive guarantee. If "INTERNATIONAL STOCK FOOD" does not save you money, it will not cost you one cent.

"INTERNATIONAL STOCK FOOD" is very strongly medicated, and the amounts fed are very small, and its use will cost you only "3 FEEDS FOR ONE CENT." Remember it is harmless even if taken into the human system, and we will pay anyone \$100.00 who will prove that a single poison enters into its manufacture.

"GENUINE INTERNATIONAL STOCK FOOD" will give you paying results, while imitations claiming to be "AS GOOD AS INTERNATIONAL" will not.

WELL PLEASED WITH RESULTS

COOKSTOWN, ONE, April 19th, 1964.

Gentlemen: On the recommendation of Mr. W. G. McKay, your agent at Cookstown, I bought and used your International Stock Food and found it an excellent feed for all kinds of animals. I can heartily recommend International Stock Food to any and all who wish to increase the appearance of their stock, and to obtain beneficial and lasting results.

(Sgd) HENRY LEADLEY.

THE MARK OF UNDERWEAR QUALITY

The biggest difference between ordinary underwear and **Pen-Angle** Underwear is in the making. Any good buyer can buy the same materials and make them into underwear—but it is only **Pen-Angle** methods that can produce the **Pen-Angle** comfort, fit and wear.

Pen-Angle Underwear is knit, not stretched and pressed into shape. It fits you when you buy it and retains its fit and shape through many washings.

We would like to have you see our exhibit at the Toronto Exhibition—it will demonstrate **Pen-Angle** quality better than any printed word.

The Diamond Exhibit

You may feel free to visit at any time Canada's largest "treasure house"—the new Diamond Hall of Ryrie Bros., Limited, Jewelers to His Excellency the Governor-General. More Diamonds are to be seen here than anywhere else this side of New York.

And in no other store on this Continent can gems be purchased so advantageously. All Diamonds are personally selected in Europe and enter Canada "duty free."

Among hundreds of inexpensive Toronto Souvenirs, special attention is called to our Sterling Silver Spoon at \$1.00.

Owing to removal into its new building this month, Diamond Hall omits its customary display at the Exhibition. But sightseers are all the more welcome at the store itself.
