C RECORD OFFICE RCHIVES, OTTAWA.

Your most obedient servant, J. LESLIE,

The Hon. W. Walker, &c. The Quebec papers are puzzled to understand the motives which move the Ministry in thus creating preferential rights in favor of Montreal. It is probable that they have a lingering expectation of obtaining Reciprocity, and wish to retain in their own hands a shadow of power. Their conduct in the matter is neither Statesmanlike, honest, or straightforward, and we believe some doubts exist as to the authority vested in a Colonial Governor to decide questions of an Imperial character. A suit would test the pretension.

## Railway Liabilities.

The Whitehall and Saratoga Company had a vardict returned against them for \$410, being the value of the baggage and money lost by passenger, named Margaret Hart, who bought of Whitehall tickets through to Troy. Judge Parker charged that the Company was responsible for the delivery of the baggage at the end of the whole route for which they had sold tickets, and that they were also responsible for the acts of their agents. Part of the property lost consisted of sovereigns:—it was claimed that the complainant was not entitled to recover for the loss of the sovereigns, on the ground that the company had advertised they would not be responsible for money of passengers, and had forbid their agents.

And rman LaRoeque wished to remark, that the proposition was much wanting. MONTREAL, April 10, 1850.

Sum. I have now prescribed this Plantagenet Water for upwards of a year, and I am very happy is being able to state to you, that the opinion which I formed of their probable usefulness, based on Mr. Hunt's Analysis, at the time of my commencing to use them, has been fully and satisfactorily verified by subsequent experience. I now recommend them extensively, and I have frequent opportunities of hearing from my patients that their employment has been attended with all the beneficial results for which they were prescribed.

I am, Sir,

Your obedieut servant,

Francis Badolery, M. D.,

Lecturer on Med, Juris., McGill College.

To Mr. C. Larocque, Agent.

Sir.—Having recommended to my Patients in the Hotel Dieu Hospital of this city, the use of the Plantagenet Waters, I consider them to be very efficacious in allaying the great heat and thirst attending Pevers; also in cases where there is Accidity of the Stomach, in Rheumatism, Dropsy, ceriain Affections of the Kidney and Skin, and in cases of Costiveness. In all cases, Medical advice should be taken.

Attending Physician of the Hotel Dieu Hospital, and

Attending Physician of the Hotel Dieu Hospital, and Lecturer on Surgery in the School of Medicine.

Montreal, April 30, 1860.

MONTREAL, April 12, 1869.

Sig.—My father and myself have prescribed the Planiagenet Water in our practice for a considerable period, and the invariably expressed satisfaction of the Patients has amply corroborated the favorable opinion siready entertained of its virtues. By a rational and judicious preacription, very obstinate, sud, in many instances, apparaintly very opposite cases, were amenable to its beneficial effects. These were most manifest in derangements of the elementary functions, dyspepsia, &c., as well as in rheumatic, serofulous, and skin diseases.

ALEXANDER URQUHART, Medical Hall, 7, Great St. James' Street.

I for many years, during which time it has been extensively used, and has proved eminently successful in all those diseases in which this medicine is prescribed. It is considered by Physicians of the present day the very best Medician for re-establishing the constitution after it has undergone the effects of Mercury. In Chronic Rheumatism, the most marked effects have been produced by the use of Sarsaparilla; and its continued use is often attended with improvement of appetite and digustion, increase of attength, the production of a more healthy state of mind, and the pallisation, or, is some cases, complete disappearance of various morbid symptoms, as Eruptions, Ulcerations, pains of a Rheumatic character, &c., &c.

Drs. McCulloch, Campbell, McDonell, and Praser, who have extensively used it in their practice, have kindly fatoured the Proprietor with the following Certificates:—

ALEZ. Unoguant, Esq.:—Dans Stz.—I have much picasure in bearing testimony to the faithful manner in which you prepare your Pluid Extract of the Compound Decoction of Sarsaparills. This I am enabled to do, on socoust of several of my patients having derived the greatest benefit from its use. account of several of my patients saving derived the greatest benefit from its use.

For Constitutional Syphilis and Chronic Rheumatism, have prescribed it with the most marked effects, I can, therefore, without the least hesitation, recommend your preparation as one possessing all the Medicinal qualities of the Compound Decoction of Sarsaparilla, while it is at the same time more palatable, and less apt to derange the Stomach.

Your most obedient servant,

MONTREAL, February 10th, 1867.

I beg to certify, that I have employed very extensively, the "Fluid Extract of Sarsaparila." made by Mr. Usquazily prescribed, and that I have found it a most valuable preparation. I can, moreover, state, from personal invaligation, that the proprietor employs none but the purest ingerdients, and bestows the gressest care and attention apon the mode of preparing this remedy.

We have too much confidence in Mr. Fowie, the general bagsas, to believe be would thrust this, or any other medicities, upon the community, unless he lost full faith in its efficacy—in confirmation of which the proprietor offers a mass of testimony from the most unquestimable courses. MOFFAT'S Life Piffs and Phonix Bitters.

These Medicines have now been before the public for a period of FIFTERN YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordingers and impediate powers of restoring resident

dinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable. IN MANY THOUSANDS

of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had atterly failed; and to many thousands they have ferrmanently secured that uniform enjoyment of health, without which life itself is but a partial health, without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and enduing them with renewed tone and vigor, that they were indebted for their name.

and channels of Hie, and encuing them was renewed tone and vigor, that they were indebted for
their name.

Unlike the host of pernicious quackeries which
boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither Mercury, nor Antimony, nor Arsenic, nor any other mineral, in any form whatever.
They are entirely composed of extracts from rare
and powerful plants, the virtues of which, though
long known to several Indian tribes, and recently
to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to
medical science; and were never before administered in so happily efficacious a combination.

The first operation is to lossen from the coats of
the storanch and bowels the various impurities and
crudities constantly settling round them; and to
remove the hardened fucces which collect in the
convolutions of the small intestines. Other medicines only partially cleanse these, and leave such
collected masses behind to produce habitual Costiveness, with all its train of evils, or sudden Diarrhusa
with its imminent dangers. This fact is well
known to all regular anatomists who examine the
human bowels after death; and hence the prejudice of these well-informed men against the quack
medicines of the age. The second effect of the

VEGETABLE LIFE MEDICINES is to cleause the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety

of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infailed.

LIFE MEDICINES are well known to be infallible:

DYSPEPSIA, by thoroughly cleansing the first
and second stomachs, and creating a flow of pure
healthy bile, instead of the stale and acrid kind;
FLATULENCY, Loss of Appetite, Heartburn,
Headache, Restlessness, Ill-temper, Anxiety,
Languor, and Melancholy, which are the general
symptoms of Dyspepsia, will vanish, as a natural
consequence of its cure.

Costiveness, by cleansing the whole length of
the intestines with a solvent process, and without
violence: all violent purges leave the bowels cosuve

Diarrhesa and Cholera, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the labricative secre-

tion of the mucous membrane.

Fevers of all kinds, by restoring the blood to a Fevers of all kinds, by restoring the stockers regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The LIFE MEDICINES have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments local inflammation from the muscles and agorithe joints.

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder: they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also Worms, by dislodging from the turnings of the bowels the slinny matter to which these creatures adhere.

Ashma and Consumption, by relieving the air-vessels of the lungs from the mucous which even slight colds will occssion, and which, if not removed, becomes hardened, and produces these latest the colds.

Scurvy, Ulcers, and Inveterate Scres, by the perfect parity which these LIFE MEDI-CINES give to the blood, and all the humors.

Scorbutic Eruptions and Bad Complexions, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complexions, sallow, cloudy, and other discressible complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin COMMON COLDS and INFLUENZA will always be cured by one dose, or by two even in

the worst cases.

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in recommendation. recommendation. It is well known to numerous in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of THIRTY-FIVE YEARS; and that he tried in vain every remedy prescribed within the whole compass of the Materia Medica. He however at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been two nounced not only improbable, but absolutely impossible, by any human means.

Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never full to eradicate from the system all the effects of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla. A single trial will place them beyond the reach of competition, in the actionation of every nation.
