Town and County News.

A special meeting of the U. E. B. C. will be held to-night at the Queen's, at 7:30. Business.

Mr. FURNESS, the conductor of the train so badly injured at the Beamsville railway disaster, was on Thursday pronounced out of danger by his medical attendants.

THE GARDNER SEWING MACHINE CO.—Owing to the success Mr. Lumsair has had in Guelph, they have found it necessary to send another agent here, and put another wagon on the road, so as to put it in the power of all to purchase one of the popular machines manufactured by this company. See advertisement.

MONDAY EVENING. The weekly reminder of the Masonic Fraternity to the lecture to be given this evening in the Guelph Lodge room by M. W. Bro. Morris at half-past seven o'clock. The lecture is intended for master masons only, and all such are cordially invited to attend.

COUNTY OF DUFFERIN.—The Council of Amaranth have adopted a memorial praying the Legislature of Ontario to pass an Act to erect the municipalities of Amaranth, East Garafraxa, Luther, Melancthon, Mulmur and Mono into a new county, with Orangeville as county town, said county to be called the County of Dufferin.

THE LATE ACCIDENT ON THE RAILWAY.—We regret to learn that the friends of Mr. Wilson, of Paisley Block, who was injured on the Grand Trunk a week ago last Saturday, have given up all hope of his recovery. He must have received injuries of an internal character, which brought on severe congestion of the lungs, from the effects of which he is gradually, but surely sinking.

DEATH OF MR. JOHN SNEEL.—Mr. John Snell, of Willow Lodge, Edmonton, died at his residence on the 1st of November. Western Canada is largely indebted to Mr. Snell for great improvement in long-wool sheep and Durham cattle, he having been one of the most successful importers in the Dominion. His death is deeply regretted by the community in which he lived, as he was one of the oldest, most esteemed, and most useful citizens in it.

FATAL ACCIDENT AT ORANGEVILLE.—A fatal accident occurred at this place on Tuesday the 29th. As workmen were engaged on the new grain elevator of Messrs. Gilchrist & Kent, when they were elevating the last "bent" it slipped from its place, striking a man named Brown Mills on the head and killed him instantly. Another man named George Leonard was also injured, but not seriously. Deceased was an unmarried man from Caledon East.

OLIVER W. PATTERSON.—This was an action brought at the Chatham Assizes by Mr. B. Oliver, Barrister of Guelph, against the defendant for unlawfully cutting down timber on the "Baldoon" property, situated on the lake shore, formerly owned by Mr. C. P. P. Hutchinson, and presently by the plaintiff. In this action damages were awarded to the plaintiff for \$500, subject to a revised award by arbitration, which may result in either an increase or decrease of the amount returned by the jury. We understand the amount claimed by the plaintiff was \$15,000; and that a second action is to be raised against the defendant for trespass.

ASSAULT AT ABERFOYLE.—On Friday night, the 1st of November, Mr. Allan McIntyre, of Aberfoyle, was assaulted in that village by Messrs. C. F. and J. Smith, of Puslinch, in consequence of which Mr. McIntyre lost a considerable portion of his hair and received some other minor injuries. A ludicrous circumstance occurred during the assault, arising from one of Mr. McIntyre's friends mistaking his friend for one of his assailants, and in his landable endeavours in the way of rescue twisted poor Allan's proboscis nearly off. The case is to come up at the present Assizes without the intervention of any preliminary magisterial investigation. We believe the dispute originated in connection with some security for which Mr. McIntyre had become bound in favour of Mr. C. Smith, the latter gentlemen having recently had a sale by auction of farm stock, &c., and which Mr. McIntyre had taken legal steps to interdict.

GUELPH AND THE FRUIT GROWERS' ASSOCIATION.—At the last meeting of the Fruit Growers' Association, the President, Rev. Mr. Burnett, in his address thus speaks of the meeting of the Association held in Guelph last July:—"Much good has been effected by the successful meeting at Guelph in July last. We question if we had anywhere a more spirited meeting than at Guelph—whether you take into account the lively devotion to horticultural matters by the inhabitants of the town, or the large amount of valuable experimental knowledge communicated to the Society by fruit growers from the surrounding country. It is no disparagement to the fruit growers at Guelph to say that the meeting was needed. We observe that the cherries exhibited at their Horticultural Show were divided in two classes, red and white, the names of either class being unattached! We imagine, too, that I mean the older members of the Association, learned also important lessons. For instance, that there ought to be a choice of similar varieties of trees for distribution, inasmuch as the tender varieties of the same sort will not succeed in more northern latitudes of our Province."

MR. ALEX. BROS, who has been acting as Emigration Agent for Ontario in the north of Scotland, returned the other day, bringing with him a number of emigrants for the Ottawa Valley. He speaks very hopefully of the prospects of large emigration from that country next season.

ANOTHER ACCIDENT AT DUNDAS.—A second accident has occurred at the cotton mill in Dundas, almost at the same spot as that at which Mr. Rooke lost his life. Mr. Joseph Higginson, a bricklayer, fell from the same scaffold on Saturday morning, and was seriously hurt. There is no more hope of his recovery.

IMMIGRATION.—The total number of immigrants who arrived in Hamilton in October were 4770. There remain in the country 1,150, the increase over the corresponding month last year being, arrivals, 2,474; remaining in the country, 923. The arrivals at the port of Toronto last month were about 1,000.

T. G. & B. R.—The track of the Grey extension of the Toronto, Grey & Bruce Railway have been laid to Shelburne, a distance of twelve miles from the Junction, at Orangeville. The arrival of the first locomotive in that village on Wednesday was the occasion of much rejoicing, and the event was celebrated by an entertainment at Jelly's hotel in the evening.

FELL THROUGH A BRIDGE.—On Friday, as the construction train on the North Grey Railroad was backing down the switch at Indian River, two miles south of Thornbury, a workman named John Clark, a resident of this place, fell from one of the flat cars through the bridge into the river, a distance of about twenty feet, breaking a leg and shattering the knee. There is little hope of his recovery.

ON Tuesday, says the *Sarnia Canadian*, Dr. Walker, of Petrolia, appeared before the Mayor of that town, charged with committing an abortion on one Phebe Hardy, of Petrolia, on the 18th and 14th of February, 1872. After hearing some evidence on the part of the prosecution, the case was adjourned for eight days, in order to procure the attendance of a material witness.

FREDERICK BANGENBERG, of Berlin, was committed for trial last week for stealing a gold watch and chain, a gold ring and brooch, besides a sum of money and several articles of wearing apparel, the property of Rev. Mr. Tuerk. They were stolen during the recent fire at that gentleman's house. The *Telegraph* says that a strange feature in this case is that the missing articles were found in an unlocked trunk belonging to the girl, and which had been kicking about in a back yard from the time of the fire up to a few days since.

SENTENCE COMMUTED.—The young man Reed, who was tried at the late Peel assizes and sentenced to death for committing rape on Hannah McClure Robin, son, has had his sentence commuted to six months imprisonment. The verdict in this case was at the time thought a very unjust one, as the girl was considered, from the evidence given, nearly as much to blame as Reed, and has no doubt been represented as such to the Government by Chief Justice Richards, before whom Reed was tried, as may be inferred from the lightness of the punishment decided on.

Scandalous Condition of Walkerton Gaol.

We find in the *Telegraph* of last week, a condensed report of the evidence taken by Mr. Langmuir, Prison Inspector, who was appointed to inquire into the condition of the County Gaol there, and into the truth of charges made against the Sheriff and Gaoler in connection therewith. From what has already transpired this investigation has taken place none too soon. A boy Haag was confined in the gaol; for the first four months he was taken out into the yard for half an hour every alternate day, and chained to a bar in the window, in front of his cell, for half an hour on the other days; all ways in iron. Once he was deprived of his bed and bedding, for four or five days; he slept in his day clothes, and had nothing in his cell but his night bucket. For five or six weeks of hot weather in August and September, he was set out of his cell. The iron gate into his corridor was covered with a heavy wooden door, and the windows cut down; the atmosphere in the corridor was suffocating. For three months after his trial he never was out of his cell.

A prisoner jumped over the wall and was found lying in the field helpless. The Gaoler left him there. The Turnkey, after waiting some time, took him out on his back, and had to lay him down four times to open and close gates. When they got in the Gaoler was waiting; he said he wished the prisoner was dead and in hell. A lunatic was reading the bible on Sunday; the Gaoler forced it from him; he afterwards scolded with him to get the "water-bucket" from him, jugged him against the wall, threw him down on the floor, and held him there four or five minutes. He was ordered to have no water that day; it was a hot summer day; he did not get any for three hours. Next morning he was put in a punishment cell, where he remained three days, without bed or bedding; a large proportion of his time he had no convenience; he stood for nearly the whole time in his excreta; the Gaoler would not have it removed to punish the lunatic.

A quarter of the gaol was so filthy that people in the Turnkey's quarters were sickened by the fumes and could not take their meals.

Grave charges are also made against the Gaoler for his brutal treatment of lunatics, and for undue intimacy with female prisoners. A great deal of evidence remains to be taken.

The Late Railway Accident at Owen Sound.

The Coroner's inquest on the bodies of the three men who were killed on the T. G. & B. Railway on Thursday, closed the next day. The verdict was that deceased came to their deaths by being crushed under a car, thrown off the track by stones and other articles being maliciously placed thereon. The Railway Company and the Contractors are entirely free from blame.

From an extra issued by the Owen Sound *Advertiser* we are furnished with some further particulars of the accident:—About twenty men were on the car (a flat one) at the time, and out of that number three were killed, three seriously injured, and two others badly hurt. The cries of the wounded and dying were fearful to hear. The wheel of the car passed over the head of Mr. Isaiah Sherman, crushing his forehead over his eye, and killing him instantly. His son, a lad about fourteen years of age, also received injuries which resulted in his death before he could be removed from the wreck. A man named Davidson, hailing from near Guelph, received a fearful scalp wound, and had a stake run into his body, penetrating into his brain. He was removed to the house of Mr. Sutton, where every attention and kindness was paid him, but he died in about an hour after his removal, in awful agony, crying "lift me up! lift me up!" The bodies of Mr. Sherman and son were removed to Rockford Castle. It was a painful sight, and one that made every spectator shudder with horror to see the bodies of the father and son lying side by side, mangled and bleeding, and stiff in death. All the injured were on the end of the car nearest the tender.

Conductor Edward Verral was found to have his knee joint dislocated and the knee otherwise injured, besides being badly bruised about the body. Thomas Hannan, of Oprey, sustained a fracture of the left leg; a comminuted fracture of the right arm, a wound over the left eye, and was otherwise injured about the body. John Graham was found to have both arms broken—one in two places, and it is feared he is internally injured. He has a wife and large family of helpless little children living in the town. His life is despaired of. Frank Wynn was slightly injured on the head, and Robert Malcolm was slightly bruised about the body. Mr. Sherman leaves a wife and four children to mourn his loss, and to whom the sad intelligence of his death was conveyed last night.

The municipal elections throughout England yesterday, resulted in heavy Conservative gains, which are attributed to the passage by parliament and enforcement of the Licensing Act. Much dissatisfaction was expressed at the working of the new Ballot Act. At some of the polling places the process of voting was so slow that many persons were unable to cast their vote before the hour arrived for closing the polls.

While Court was being held yesterday in Dundas, a parish in the county of Cork, near Bantry, Ireland, the floor of the room gave way, precipitating 200 persons over a distance of 12 feet. Several persons were instantly killed, and 40 were injured, some of whom may die.

THE MOORETOWN TRAGEDY.—We have some further particulars of the death of a suspicious circumstance of James Workman, at Mooretown, near Sarnia, on Saturday the 26th ult. At the Coroner's inquest, David Patterson, who lives up stairs in the same house, swore that one Samuel Butler, a negro barber, was a constant visitor at the house, and that he positively saw him leave at 10 o'clock, a. m., Saturday morning, return at six, stay a few minutes and leave again. He also swears that he heard the deceased moaning during Friday night. The deceased's son, an intelligent little boy eight years old, also swears to the barber's coming there and against his father's will; that his mother went up on last Tuesday to scrub the barber's shop; that his father went up after her; that the barber threw him out of his shop; that his mother gave his father a pending on Friday and another on Saturday, with a mop handle; that when his mother told the nigger on Friday night of the poisoning she had given deceased, he manifested his approval by a hearty "yaw-haw," and that the said nigger was constantly bringing whiskey to the house and giving it to his father.

A very large mass meeting, in favour of amnesty being extended to the Fenian convicts at present in durance vein, has just been held in Hyde Park. It was unmolested by the authorities, and was very orderly.

The Guelph General Hospital. Our readers will observe that the public meeting, called for to-morrow night, in connection with the proposed General Hospital, will be held in the Good Templar's Hall, next Thorp's Hotel, and not in the Town Hall, as previously announced. Chair to be taken at 8 o'clock.

Most of our citizens are aware of the effort now being made for the establishment of a General Hospital in Guelph, and we are glad to learn that there is now every prospect that this effort will be crowned with success. Those who have taken an active part in the movement for its establishment, and who have canvassed the town for subscriptions, have met with even more encouragement than they expected, for very few who were asked have refused to give something towards such a charitable and praiseworthy object. The feeling is very generally entertained that such an institution has now become a necessity in Guelph, and we have not the slightest fear that, once established, there will be any difficulty in raising a sufficient amount yearly to cover all the expenses connected with it, and in making such extensions in its accommodation as may be required.

The older residents of the town are aware that attempts have several times been made to establish a General Hospital in this town, but hitherto without success. An act of incorporation was obtained in 1861, but it remained a dead letter. Some time after that Mr. Geo. Elliott made a very liberal offer of the large stone building near the Great Western Station for an Hospital, but it was not accepted for some reason or other, and since then the matter has been allowed to lie in abeyance. The present movement, however, is destined to be followed by practical results, and we have every confidence that before many months we shall see such an hospital established in Guelph, where people of all denominations, who are unable to pay for medical attendance, or who have no home to go to, may be properly cared for; and where those who are willing to pay can have all the comforts of a home while under a doctor's care.

It is proposed to establish the Hospital in conformity with the provisions of the act of 1861, some of which have already been referred to in the Mercury. Fuller information will be given at the meeting to be held to-morrow night, when we hope to see a large attendance of all interested in this benevolent movement. Provisional directors will also be appointed, and other steps taken for establishing the Hospital as soon as practicable.

Editorial Items.

HON. E. BLAKE will address a public meeting of the electors of West Dur in the Town Hall, Bowmanville, on Thursday next.

The Ottawa Citizen authoritatively asserts that Sir Francis Hincks will retain his seat in the Cabinet.

LADY DALY, wife of Sir Dominick Daly, who held the office of Provincial Secretary for Canada for many years, and was subsequently successively Governor of Prince Edward Island and South Australia, died a short time ago.

Mr. MOWAT, as Vice Chancellor, received a salary of \$1,000 more per annum than he will receive as Premier of Ontario.

It is understood that the Ontario Government have decided not to erect a Normal School in the western part of the Province at present.

LAMBTON ELECTION.—The writ for a new election for this County, vacant by the acceptance of office by Mr. Pardee, has been received. The nomination takes place at Sarnia on Wednesday, the 13th.

Nothing definite has transpired as to Mr. Mowat's constituency. Several are considered available. A western one will probably be secured.

MR. L. N. BETOURNAY, for a long time the partner of Sir George E. Cartier in the law firm, is to be appointed to the third Judgeship of Manitoba. Mr. Betournay is said to be an able lawyer, and an upright man. It appears to us, however, that Lower Canada is getting an undue share of the Dominion Government appointments for Manitoba.

The Sarnia Observer hints that it is probable, on the re-assembling of the House, that the office of President of the Council will be reinstated, in combination with another office to be created, probably a Department of Education.

ICELAND is now thrown open to the tourist. A line of steamers has been established to run "summer trips" from Scotland to that country. The passengers on the initial trip are said to have been much pleased with their expedition, notwithstanding the inconveniences arising from the want of roads, means of conveyance and hotel accommodation. These wants, however, will soon be supplied, when Iceland will become a favorite resort during the dog days.

NEWS ITEMS. Mr. J. A. ANDERSON, of Barrie, has been appointed Junior Judge for Simcoe.

BELLEVILLE is starting a Ladies' Christian Association. The Montreal French dailies have raised their prices. The present season is one of the most sickly ever known in the North-West. In some localities almost every person, old or young, has had a fever of some kind or other.

CHAN LAI SUN, the Chinese Imperial Commissioner of Education, together with his wife, on Sunday joined the South Congregational Church in Springfield, Mass.

The enterprising firm of Ross & Co., of Quebec, with other gentlemen of that city, give notice of an application to incorporate the "St. Lawrence, New York and Havana Steamship Company," to run between Canadian ports and the West Indies. We hope the Government will meet these gentlemen in a liberal spirit.

SUICIDE BY POISONING.—On Saturday afternoon, at about 8 o'clock, a dissipated hardware clerk, formerly of Waterloo Village, named Mandesloh, committed suicide by taking the contents of a drachm bottle of strychnine procured in Chicago, from which place he had just returned, after a fruitless search for a situation. He leaves a wife and six children, whom he threatened to kill yesterday, and no doubt would have accomplished his purpose only for the timely interference of neighbors.

SHINGLE MILL BURNED.—A shingle-mill in Blyth, owned by Wilson & Rath, was destroyed by fire on Saturday. The fire was first discovered in the engine-room, between four and five o'clock. It spread with great rapidity to the rest of the mill, and continued burning for about two hours, when the frame fell. All the machinery, except the boiler, is injured. This is the second time the mill on the same place has been destroyed by fire. Insured in the Waterloo Mutual Insurance Company for \$1,300. Cause of fire not known.

Later particulars of the burning of the steamship Missouri give no additional reason to hope for the safety of any of the missing passengers and crew of the hapless vessel. Not until the arrival of the next mail from Nassau, however, while the remaining doubts be solved. An Associated Press despatch from Key West, complains that the little British vessel which rescued the survivors of the Missouri was treated with the rigor of the law regulating tonnage dues by the Key West Custom House officers.

W. G. & B. R.—The Port Elgin Free Press says that the grading on this line is finished to Southampton, and it was expected the iron would be laid on Saturday into the village. There is a strong force at work now on the branch down to the Freight Station. At its terminus there will be a large dock built out to 16 feet water, principally stonework. The Ottawa Government having solicited a tender from the present contractors so as to have the work proceeded with at once. It is fully expected to be in a position in the Spring on the opening of navigation to admit of the North Shore propellers calling regularly.

CHINESE FUNERAL.—At a Chinese funeral in San Francisco the other day, the body was placed in a coffin, which was set upon chairs on the sidewalk. At the foot of the coffin was a table, upon which was piled a quantity of uncooked vegetables, fruits and meat. Beside the table stood the priest, dressed in a black robe, with a hat upon his head shaped like that of a cardinal's. He was repeating the burial service in a kind of chant, varying the music by alternately clanking cymbals together and ringing a dinner bell. On the sidewalk knelt three women, with white sacks over their heads, who were the hired mourners of the occasion. None of the others seemed to mourn at all, and the men and women present were laughing and talking, and the children playing on all sides.

The Verdict of the People AGAIN DECLARES THAT

THE GARDNER SEWING MACHINE

Is superior to any now in the Market.

HAVING been examined and tried by the most skillful mechanics and best judges the country can produce, and by them awarded prizes at all the principal Exhibitions held throughout the Dominion during the present year; and although the leading machines were arrayed against it, the Gardner Patent has been declared

VICTORIOUS

Over all competitors, upon every test, and now stands foremost in the rank of Sewers, and has been awarded Twenty-two prizes for 1872.

This beautiful specimen of mechanical ability is a purely Canadian invention, surpassing in simplicity, durability and usefulness any other Sewing Machine now in the Market, whether of Canadian, American, or English manufacture.

It will Sew, Cord, Broad, Tuck, Gather, Quilt, Fell, and for Tailoring, Dressmaking and Family Use cannot be surpassed, using all kinds of Thread.

Send for Circulars and Samples to Mr. Hunter, Wyndham-st., Guelph; or to Wm. S. Lumgair, Agent, Wellington Hotel, Guelph.

Intending purchasers should not be misled by unscrupulous agents of other companies, who keep machines they do not sell in a damaged state, making capital for themselves. A fair trial is given previous to purchasing. Guelph, Nov. 4th, 1873. Smdaw

TO AN ABSENT FRIEND.
Thou art not gone; thou couldst not go:
True friends can never part—
Our prayer is one, our hope is one,
And we are one in heart!
Now place, nor time, can e'er divide
The souls which friendship seals;
But still the changing scenes of life
Their mutual love reveals.
Body from body may be placed
Remote as pole from pole;
But can our fleshly frailties bind
The fellowship of soul?
'Tis when removed from grosser sense
My spirit claims her right:
My friend is often least away
When absent from my sight.
His form and look in memory's glass
I still distinctly see:
His voice and word, in fancy's ear,
Are whispering still to me.
The stars which meet his sensitive eye
Are present still to mine.
The moonlight which surround his path,
Around my footsteps shines.
Beneath the same fair dome we dwell,
By the same hand are fed:
And pilgrims in the narrow way,
Are by one Spirit led.
To the great presence of our God,
By hourly faith we come;
And find in sweet communion there
An everlasting home!
Our hope, our joy, our life, our soul,
In our one Saviour meet;
And what in heaven or earth shall break
Our union so complete?
Oh! least are they who seek in Him
A union to their friend
Their love shall grow through life's decay,
And live when life shall end.

The Orphan of the Wreck.

CHAPTER XXIII.

ON THE TRACK.

Harry was walking to and fro on the terrace in a state of considerable excitement, produced by the long and boisterous interview with his father, the termination of which had been of a singular and even bewildering character. The frightful violence into which his father had been thrown by the information that George Eglantine was the orphan of the wreck, who had been adopted and reared by Kenneth Bruce, was to the youth incomprehensible. Nathan Garrett had also seemed to be thrown into consternation by the knowledge, though he tried to conceal the fact, and to account for the Captain's extreme agitation on other grounds. To Harry's mind he had not succeeded in doing so, though it wholly puzzled him to divine the true cause of the alarm and horror so palpably manifested. It was partly to resolve this mysterious problem, and partly to regain his own calmness, which by the interview had been disturbed, that he paced the terrace and allowed the cold winter air to fan his heated brow, and while thus engaged he noticed without heeding it the form of a man coming up the avenue. Never supposing this to be a matter of importance, he continued his pre-occupied perambulations, and had made another turn or two on the terrace when his eye was caught by the waving of the man's arm. This drew his attention more particularly, and he stood still and gazed at the approaching figure, who began to wave his arm more energetically than before. Harry looked this way and that to see who the man was waving to, but as none but himself was in sight it dawned upon him that the man must be waving to him. Yet wherefore should he? The youth looked fixedly at the approaching figure, and though many years had passed since he had seen Matthew Greigson, there was something in the man's walk which told him it was he. But why should he come up the avenue at such a rate? why should he seem so excited? why should he so eagerly seek to draw the youth's attention? There could no longer a mistake about it, for having come to a point where the avenue made a long circular sweep, the old man quitted it, and was making across the grass by a direct line. Harry at once started forward to meet him, and seeing as they neared each other that it was indeed Matthew, he was about to shout out a cordial greeting, when the anxiety so plainly depicted on the other's face filled him with vague uneasiness. "Oh, Maister Harry," gasped Matthew, breathless with haste, "hae ye—hae ye seen anything o'—o' Maister George?" "Oh, yes, Matthew, I saw him last night. Did he not tell you?" And Harry as he spoke grasped the hand which Matthew mechanically extended towards him, and warmly shook it. "Last night!" echoed Matthew. "No sin' last night! Guid pity me, what can hae come ower him?" "What! has he gone out this morning? Ye arranged that he should not leave our cottage till he saw or heard from me. He must have grown impatient, and proceeded to Mrs. Rendal's." "Oh, Maister Harry—Maister Harry! he never cam' hame last night ava." Harry recoiled as from a heavy blow, and an expression of blanched amazement
