Mr. Drummond will be remembered by those who attended the late banquet of the Toronto Board of Trade as one of the speakers on that memorable occasion. Mr. Deummond is of course well known to the business men of the Dominion and his speech was men of the Dominion and his speech was naturally on trade topics and the commercial interests of the country. He spake eloquently for nearly half an hour and as he proceeded the House became convinced that in Mr. Drummoul they had gained a valuable acquisition. He was full of facts and figures, and what was more he was full of hops for the welfare of the country under the National Police.

Questions and Mations.

In answer to Mr. Perry, the Finance Minister said that \$200,000 had been drawn by the Government of Prince Edward Island on Jan. It last for local improvements. He could not say what sum would be placed in the estimates towards the building, of a subway across the Strait of Northumberland until the estimates were submitted to the House.

Mr. Brown moved for the appointment of a special committee to enquire into fraudulent practices prevailing in various parts of the Dominion by which fariners have been victualized.

Mr. Perley, the seconder, who is an advanced farmer in the rearing west, spoke of the agricultural possibilities of the grent section which he represents.

No matter how attractive a bill-of-fare they have in this Senate the crowd won't come to hear the orators. Thus, notwithstanding that access can be had to the galleries and in even a portion of the floor of the House without tickets, without let or hindrance and without price less than 25 visitors were in the chamber at any one time during the debate. As the House of Commons had a very short session several of the members of the popular chamber strolled in at times to hear the music.

Hos. Mr. Reed of Cariboo, another translation from the House of Commons, was introduced by Mr. Abbott and Senator Macdonald of British Columbia and took his seat.

The other speakers besides the mover and seconder were Senator Scott of Ottawa, the leader of the Opposition; Senator Power of Hulifax, Senator Kaulbach of Lunanburg, and Mr. Abbott, the leader of the Government in the Red Chamber, wound up the talk. All of the speakers referred briefly to the fisheries dispute and the supporters of the Government in the debate of course upheld the position taken by the rulers of the Dominion.

However, Canada aside—it is the States we are talking of now. It is said that the United States Cabinet will increased from seven to eight, and that the new man will be the Minister of Agriculture. Well, we should say, not at all out of place for such a great agricultural country. This new place is to be given to New York also another one, probably that of Attorney-General. And so, if the Empire State cannot get one first-class place in the Cabinet she in to have two places of minor degree. All which is respectfully submitted along with other

Andrew Carnegie contributes an able article The North American Review in reference to Trusts, under the head of "The Bugaboo of Trusts." The ground taken is that for measures adopted to carry out these combines can succeed as long as there is freedom to all engage in any branch of manufacturing under like conditions with those who are in the Trust. Arguments advanced in support mate trust which endeavors to exact unusual profit on actual capital expended is only an ephemeral creation, whose end must be ephemeral creation, whose end must be annihilation, and after such a trust has been formed and in its very brief; season come to grief the; effect must be for an equal period of time to give the consumer an unusual advantage and afterwards the prices will again resume their relative must be prices will again resume their relative must be prices will again resume their relative

Society is Not "Going to the Dogs," Rev. G. H. Sandwell delivered his second lecture in Zion Congregational Church last night, taking for his subject "Society." He night, taking for his subject "Society." He gave it as his belief that society has never been nearer perfection than it is to-day, notwithstanding what might be said to the contrary by disciples of the old school who thought that now-a-days society is "going to the dogs." He referred to the disreputable state of society in Great Britain a century ago, when it was fashionable for men at social gatherings to become so intoxicated that they were utterly helpless. He noted the great improvement in this and many other respects and spoke of the encouraging aspects of the age. The lecture was a very able and eloquent one and will increase the popularity which this English minister has already gained in Toronto.

The entire fraternity of Odd Fellows will join in deep sympathy with Bro. John J. Ramsay, P.G. of Floral Lodge, No. 252, in the death of his wife, which event occurred at their home, 47 Sullivan-street, on Sunday morning last after a long and painful illness. Mrs. Ramsay was one of the oldest members of Bond-street Congregational Church, her members a consistent Christian, and always, when able, an active worker. The funeral will take place at 3 o'clock to-day. As Bro, Ramsay is one of the oldest Past Grands in the city, no doubt his brother Odd Fellows will express their grief and sympathy by their presence at the funeral. nome, 47 Sullivan-street, on Sunday morning

The Poorhouse Return Granted.

Mr. Clarke—(Wellington) obtained, the fabove mentioned order for a return showing the ocation of any houses of industry, poor-louses or similar institutions for the care of ndigent persons now established in any of the ies, towns and counties in Ontario at the

numbers of this class rapidly decreased when they were put to active manual work. This was a growing evil and should be dealt with by imposing the necessity on these outlying places to take care of their own poor. Mr. Meredith concluded by saying, "I am quite sure that the information which will be brought down in answer to this motion, the discussion that will follow and which has already taken place cannot be otherwise than beneficial."

Hon. A. S. Hardy thought the thanks of the House and the country at large were due to Mr. Clarke for bringing this matter up. The question was becoming year by year more important in this Province. The denser our population became so would the question grow in importance. The provision to make the County Councils provide poorhouses had some years ago been placed on the Statute book, but owing to the prejudice existing against anything approaching to the nature of a poor law the provision had been changed, leaving it optional for County Councils to provide these places of retuge. There was no doubt that the consensus of public opinion was in the direction of the establishment of such houses of industry and that it would serve a good end to make it obligatory upon all County Councils to establish the same. The hon, gentleman said he had been waited upon by Mr. Goldwin Smith, Mr. Pell and others on the subject a short time ago. They had advocated compulsory legislation. They had advocated compulsory legislation these to place on record that all counties should maintain their own poor. Mr. Pell said that out of 68 persons to whom he had given teletes to the House of Industry in Toronto no less than 64 or 65 came from the outer counties. They therefore rightly thought it most importont that the onus of responsibility to maintain the poor should be placed upon the locality where these persons resided.

Mr. Clarke also ebtained an order for a

Mr. Clarke also obtained an order return showing the amount paid out from municipal funds, either by direct grants or remission of taxes, in each municipality in Ontario, during 1887 or 1888, for the relief of poor and indigent persons, but not including any sum paid for the support of a House of others. Industry or similar institution; the number of indigents a permanent charge upon any municipality in 1887 and 1888; and the number of such indigents who received temporary aid from municipal funds in 1887 and 1888.

Mr. Clarke's contention is that the poor of the county could be maintained at a much cheaper rate if the co-operative system were adopted than when they are looked after by each individual township.

Another point it would be well for the Board to consider is. What is it going to do with those gaps in the crib work, which stretch at intervals all the way from Windhester-street to the water front? The presence of shale of course prevents the driving of piles, but something might be done to give the work uniformity, at least to the eye. What with a bottom of diversified surface and banks resembling dilapidated walls the Don improvement will not seem much of a blessing to the casual observer.

Or is it just a fancy
To make a pleasant rhyme?

Fine Overcoats, they tell me,
And Winter Clothing, too,
On easy terms he'll sell me.
PRAY, WIFE, CAN THIS BE TRUE! It does sound like a fable,
Replied the good man's spouse,
That every one is able
Now to furnish up a house.

Barley is woefully sick. For some weeks best, and in fact for some few months, American brewers have not been buying as freely as they were wont to do in days gone by, and even during the past few days no sales of any account have been made at all. Plenty of men who have barley and have paid a good price for it have lost not hundreds but thousands of dollars, and are now dropping out of the market and refuse to handle more. To-day the exact condition of affairs was shown when 15 cars of No. 3 extra, regularly graded ex Toronto elevators, were sold on the Board of Trade at 45 cents in three weeks. No. 1 barley is nominally worth 58 cents; No. 2 can be bought at 52 cents and for No. 3 no one cares to name any price. The situation must change shortly, and in the meantime the best advice we can give farmers is to hold back their stuff.

Curability of Consumption.

This has been a vexed question smong physicians, opinions, event in the same sahool, being strangely dispinions, event in the same sahool, being strangely dispinions, event in the same sahool, being strangely dispinion to the lings, and the last strainty prevalent disease, and the average doctor meets with but scant success in treating it. Consumption is in reality serofule of the lungs, and is liable to attack any whose blood is tainted. For driving out the serofulous humors, and thus removing the predisposing cause, Dr. Pierce's Golden Medical Discovery is a sovereign remedy. It purifies bad blood, heals scrotulous ulcers, and, whatever difference of opinion exists as to curing advanced cases of continuation of the seroful of the continuation of the seroful of the seroful beautiful back from the brink of the grave to restored health and vigor.

taking the action he did. I assert most positively that the children were smuggled into those (institutions under false pretences, and it was not until weeks afterwards that I discovered it, upon which I immediately interviewed several of the lady managers. The matter was laid before the boards, and only upon the condition that the children would be taken out did I cease action. Ald. Roaf confirmed all that I say when he stated that the children have been adopted into families. Most of the ladies pronounce it the most heartless case of desertion, under all the circumstances, that ever came under their no-He said he did not see that it would be wise to give the Gas Company any privileges in regard to electric lighting, as they would only gard to electric lighting, as they would only make electric lighting comparatively cheap for a time at the expense of the consumers of gas, and when they had in this way frozen out their rivals in electric lighting they would then be a huge monopoly covering both gas and electric highting. He was in favor of all electric wires being underground.

Mr. Pearson said that Mr. Nicholls' Company, as far as he could learn, was only in process of formation. The proposed Edison Company only intended to go underground provided the others were compelled to do so. He had been amused at Mr. Nicholls' fear of injuring children by the Westinghouse wires when, as a matter of face. Mr. Nicholls that gone to Pittsburg and had done his best to secure the Westinghouse patents and had only gone against them when he found that the Consumers' Gas Company in Torente heartless case of desertion, under their no-cumstances, that ever came under their no-JAMES PATERSON.

charging exorbitant rates for gas he had only to say that they were furnishing gas light cheaper than it was furnished by any other company on the continent similarly situated, and they inrended to do as well by their customers in the matter of electric lighting. All they wanted was to make a fair profit out of eisher gas or electric lighting and they would run the two businesses entirely separate. If the Council decided that every electric light company must go underground, the Consumers Gas Company were prepared to put their wires below the surface. All the Consumers Gas Company asked for was equal treatment with other concerns. The village of Watford is in the town-tip of Warwick, in the East Riding of the county of Lambton, on the line of the miles distant from Sarnia and 34 from London.
