ANOTHER BREAK IN WAR EAGLE OWING TO ANOTHER MYSTIFICATION DETAILS OF CABLE'S NEW ISSUE OF STOCK - CONSOLS 3-16 HIGHER

Montreal, Nov. 14.

Of War Eagle 6000 shares sold this forenoon session, and a break of another 8 points is to be recorded. Another mystification of the shareholders is the cause, connected with the third annual general meeting. Notice of this meeting as to be held on 21st November was issued yesterday from the Toronto head office, but a footnote declares no business will be done, and the meeting will be postponed to the 21st day of February 1900. The following letter explains the reason why

The War Eagle Consol Mining and Dev. Co. Limited.

Gentlemen - In case you desire a report from me for the annual meeting, it is necessary to explain that I am hardly yet in a position to make one. I entered upon my duties as your manager August 1st. Owing to the quantity of business requiring prompt attention, it was agreed that, for at least a couple of months Mr. Hastings would continue to manage and direct the underground operations. You are familiar with the incessant troubles caused by the present machinery. These, with the planning of future improvements, the purchase of new equipment, the reorganization of the force and the quantity of general business, delayed matters so that I have only now been able to really relieve Mr. Hastings. I have not yet had an opportunity for a personal study of your large ore deposit in detail, and cannot inform you properly concerning its present condition. My present absence will occupy a month, and the amount of general business still before me will delay the work. Hence, in order to make such a report, I will be obliged to ask for a postponement of at least three months from your present date of meeting.

Respectfully yours,

EDMUND D. KIRBY, Man.

The effect of this letter and the postponement of the general meeting for three months has been at once another 8 break in the price of the stock. Nothing could be more unlucky than this postponement at the present time.

Commercial Cable, which has been very strong of late, was not traded in this forenoon session at all, but the details of the stock bonus which made it strong are to hand and are as follows :

The \$10,000,000 capital of the Commercial Cable Company is to be increased to \$15,000,000, if, as is certain, the proposal is accepted at a meeting to be held in New York on Dec. 4. Of the \$5,000,000 new issue \$3,333,333 will be offered to the present shareholders at par, this being at the rate of 1 share new to 3 shares of the old holdings. There will be three payments of the new stock, 25 per cent on January 20th, 25 per cent on February 20th and 50 per cent on March 20th, and it will carry dividend from January 1st. Extension of Cable Company's business has been so large as to render a new cable necessary for the laying of which it is not intended to borrow, but to keep all profits of the company by issuing this new stock.

Canadian Pacific, Gas, Duluth, Toronto Toronto Ry., Richelieu and Ontario, Republic were traded in upon the previous level of prices. Outside of War Eagle there was not much business done.

#### BEET ROOT SUGAR.

British Columbia Company Makes Successful Experiments.

Vancouver, B.C., Nov. 13—The British Columbia Sugar Refining Company is going into the beet sugar business on a large scale. The purchase of large tracts of land in the Okanogan district, has been completed, and experiments have already proved fairly successful in connection with beet growing on a small scale. It is intended to place several hundreds of acres under cultivation this year and to extend the cultivated tract as this branch of the business grows. At the present time the bulk of the raw sugar used by the refinery is being brought from Queensland by the Canadian-Australian liners, and occasionally they bring a ship load from Java and other sugar producing islands of the East Indies. American customers of the refinery—although few, on account of the heavy duty on the manufactured article—have suggested that some of the sugar be brought from the Philippines, so that a trial shipment of this American product may be made shortly.

## MONTREAL MINING EXCHANGE

MARKET OPENS DULL BUT ASSUMES

ACTIVITY — LOW-PRICE STOCKS

FIRMER — WAR EAGLE WEAK.

Montreal, Nov. 14.

During the first half hour there was practically nothing doing, but before the close, business assumed ordinary proportions.

There were nine different issues dealt in amounting in all to 12,500 shares. The majority, however, were transacted in the lower priced stocks, Monte Christo being still a leader in popularity, it continued to show signs of strength and in all probability will continue to do so. The opening sales were made at 8, 1000 shares being sold the remainder, however, sold at 8½, to the amount of 3,000 shares, 8½ was freely bid at the close, the stock being offered at 9.

Big Three was a trifle firmer, selling at 11, 500 shares being sold.

There were sales made in War Eagle at 260 and Republic at 116. Montreal-London also sold at 44 to the amount of 1,000 shares, the last sales being made at 45.

Of the unlisted stocks King sold at 28 and 27½, closing at 28, 2000 shares being sold, and Okanogan, 1000 shares of which sold at 11½.

California remains firm and in good demand at 12½. At the close it was offered at 13, with buyers bidding 12½.

Sellers of Rambler Cariboo were asking 61 and of Golden Star 35.

Morrison was firmer on the recent news to hand from the mine.

There is said to be 30 feet of ore which, owing to its peculiar constituency is very desirable for smelting. It is said to be the best smelting ore in the Boundary district.

The Mother Lode are erecting a large smelter close to the Morrison property of a capacity of 300 tons a day. This will be of great benefit to property holders in that vicinity; it is hoped that smelting will commence early this coming spring.

## MORNING SALES:

Monte Christo—1000, 8, 3000, 8½.  
 King—1500, 28, 500, 27½.

# NEW YORK EXCHANGE.

**ENORMOUS TRADING IN SO PAC. — TAMMANY CAMPAIGN AGAINST MANHATTAN — MONEY AT 7 AND AT 8 — GOLD IMPORTATIONS TALKED OF.**

New York, Nov. 14

London is in an extremely cheerful frame of mind. All the markets are strong, especially Americans, which, under the leadership of So. Pac., show gains varying from 3/4 to 1 p.c.

So. Pac. has sold as high as 44, now quoted at 43 1/2. The hopeful feeling abroad is said to be due to the arrival of reinforcements in South Africa and the belief that as soon as these troops get to the front, Boer reverses will be in order.

The papers are busy in discussing the possibility of gold imports, the leading foreign bankers, as a rule, believe that no importations will take place, as the Bank of England and the continental banks will do all they can to keep gold on the other side.

The Street, however, believes that some gold will come this way, the belief being created by weakness in sterling exchange, and by heavy purchases of stocks by foreign houses.

The most interesting feature yesterday was the money market. During the first hour there were indications that money would be as scarce as it was last week. The first break in rates was caused by the lending of \$1,000,000 by Central Trust Co. It is said that this company subsequently loaned \$4,000,000 more. During the afternoon a well known broker offered any part of \$5,000,000 at 6 p.c. The explanation of the increase of the supply of money is twofold. The Central Trust Co. is said to have had deposited with it \$4,500,000 by the Northern Pacific Railway for the redemption of the outstanding general mortgage bonds. This redemption will begin tomorrow and in all probability a large amount of money loaned by the Central Trust Co. will be called during next few days.

The other reason is said to be that arrangement was said to have been made by the National City Bank to borrow \$7,000,000 in London on its credit. This story lacks confirmation.

The course of prices today will be largely governed by the rates for money. With no higher rates than yesterday higher prices for stocks may confidently be expected.

Nor. Pac. earnings first week Nov. show an increase of \$10,254, and the total earnings from July 1st an increase of \$1,278,023.

New York (noon), Nov. 14.

So. Pac. was again the feature at the opening, the trading in it was simply enormous, but although London houses were buyers, their purchases were not nearly as large as they were yesterday.

The rest of the market opened strong in sympathy with the higher prices from London, but after the first fifteen minutes, a good deal of liquidation made its appearance and a gradual reaction took place. However, at no time were there any indications of weakness and on the whole the buying was looked on as better than the selling. This being especially true of So. Pacific.

Reports as to the earnings of the company continue to be of most favorable nature, and talk of dividends current.

Manhattan was active and stronger on the absurd contention on part of Croker that the installation of the third rail would constitute a danger to firemen in case of a fire in properties adjoining the elevated struc-

ture. The Street believes the whole of Tammany Hall is entering upon a bear campaign against Manhattan, and also remembers what a fiasco the last campaign of this sort which was undertaken by the same people resulted in.

Atchison preferred was again strong on good buying.

The undertone of the gangsters was also good.

The Street is being treated to any number of Bull points in Sugar.

Money opened at 7, subsequently loaned at 8, loans are now being made at these figures.

There is still a deal of talk of gold importations, but there are no authentic reports.

## NEWS OF THE MINES.

### REPUBLIC MINE.

Two-Hundred Ton Mill to be Built at Once

The Republic Miner, of Nov. 4 gives the following interview with Mr. C. J. McCuaig.

"We have determined to build a 200-ton mill, said Mr. McCuaig, and will give the order for its construction at once. The new mill will be located near the old one, but the exact site has not been determined on. We shall push construction as rapidly as possible and hope to get the foundations in before very cold weather. The plans for the mill are being drawn and will soon be ready. I do not know that we will shut down the old mill, though we may be compelled to do so as we shall have to use it to a certain extent in making certain experiments as to proportionate capacities of certain machinery we are to use in the new mill. Personally I would not regret to see the old mill close down because the cost of handling ore there is greater by fully one-third than it will be in the new mill. The process we are going to use in the new mill will involve the roasting of the ore and a modified form of cyanidation. It will not be exactly the same process used at Mercur, Utah, but will have certain modifications made necessary by the peculiarities of our ore. We expect to save from 90 to 95 per cent of the gold values. We shall have an abundance of ore to keep the 200-ton mill running with some to spare to the smelters, but I do not care now to state what we are going to do in reference to our smelting ore. That matter is under consideration. As to the Republic mine I can say the cutting of the vein on the 600-foot level and other development work recently done have added enormously to the amount of ore in sight as well as to the character of the ore. We never before had such rich ore in the Republic as we now have.

### WHITEWATER

(From British Columbia.)

Vancouver, B.C., Nov. 12.—A Montreal syndicate has secured the Cornucopia group of mines in eastern Oregon.

It is reported in Nelson that Mr. J. Malinson-William, M.E., acting on behalf of a London syndicate, bonded the Whitewater on Rover Creek, near Nelson, for \$50,000. The mine belongs to W. J. Goepel and associates.

The following is the official statement of the manager at Kaslo, respecting the output of the Whitewater. During last month 3,500 tons have been milled, producing 113 tons of concentrates. Approximate profit on month's work is 565. Returns from smelter amount to 4,500. Ore on the dump averages low grade.

### CALIFORNIA.

The operations on the California are being pushed with a full force of men. A portion of the 10-drill compressor plant recently ordered has come to hand and the remainder is expected to be here shortly. The residence for the foreman was completed last evening. The work of constructing a tool shed and a powder house will be commenced on Monday. The lumber for the shaft house and compressor plant building is being delivered and work on it will be commenced. The installation of the compressor plant will take between six weeks and two months. When this is done the operation of exploring the property for its ledges will be commenced in earnest. In the meanwhile the work of drifting and crosscutting is in progress by hand. The crosscut from the main tunnel is in for a distance of 20 feet and is to be driven a total distance of 50 feet. It is following a seam of ore which it is thought may lead to a larger body.

### WAR EAGLE AND CENTRE STAR.

Beyond the phenomenal ore shipment made this past week by these two mines, aggregating 3,480 tons, there is little fresh news to give out for the past seven days. Two out of the five new temporary compressor plants being bunched near the head of the Centre Star shaft were being worked during the week and the balance of the plant is being rapidly put together. The building for the plant is about half finished, but there is a large staff of men at work and the whole outfit should be in running order by the middle of the present month.

### EVENING STAR.

Jerome M. Drumheller, of the Evening Star company, was in the city during the week from Spokane and before he left he directed that operations be resumed. Work was resumed yesterday morning. He instructed the foreman to run a crosscut from the lower tunnel for the purpose of tapping the big ledge from which most of the 1,088 tons shipped from the mine during the present year has been taken. Mr. Drumheller before he left stated that the intention of the company was to resume shipments just as soon as the necessary arrangements can be made.

### VELVET.

Now that there is a prospect of a railroad being constructed to the Velvet work on that mine is being pushed with more vigor than ever. The main adit is in for a distance of 408 feet and the ledge should soon be met. The upraise from the 250-foot level to the 160-foot level has been made for a distance of 50 feet. Work in all parts of the mine is making good progress and it is looking well everywhere.

### VIRGINIA.

A car load of ore was sent from the Virginia during the week. It came from ledge No. 3 and was taken out in the regular course of the development work. Drifting on the ore body from the drift which runs from No. 3 shaft continues. The showing in the drift on the No. 3 ledge continues to be favorable.

### MASCOT.

Drifting on the two levels continue and the conditions remain unchanged from what they were last week. Mr. W. Y. Williams, superintendent of the Mascot, is at Phoenix looking after operations on the Knob Hill and Old Ironsides and other properties owned by the syndicate, which he represents as general superintendent.

### PORTLAND.

The tunnel has been driven in for a distance of 150 feet and the shaft has now reached a depth of 70 feet.

### RAMBLER-CARIBOO.

Mr. J. Hugo Ross, writing from Kaslo, regarding the Rambler Cariboo, says: "I attended the meeting, and everything looks fine in regard to the company, and dividends from now on, of one cent per month, are certain. Bernard McDonald (McCuaig, Rykert's expert) has gone on the directorate, and purchased a big block of the stock. W. H. Adams, the secretary, took us up to see the property on Friday morning, and I must say the showing is immense, and their shipments this winter will be big. They have now about four feet of solid ore, running 200 ounces in silver, and 35 per cent in lead, in their lower workings, and are now running an up-raise to connect this, and everything points to their having sixty feet in depth in this, and it is now estimated there are about \$400,000 to \$600,000 ore in sight. Insiders are buying, and the stock will go to very much higher figures. I believe it a great buy."

# CHICAGO MARKET.

THE 2½ MILLION INCREASE OF VISIBLE MAKES PRICES SAG — SOME SIGNS OF REACTION — NOVEMBER A BEARISH MONTH FOR WHEAT.

Chicago, Nov 11

Opening prices of wheat at Liverpool today were all ¼ above the closing prices of yesterday, but a later cable announced that wheat and corn were both ¼ lower. The long interests who had the conviction of approaching higher prices still believe in them and have not yet ceased to send in hocks for reinargins and will ultimately find the market going their way.

At present foreign cash markets are easy, owing to large American and Argentine shipments nor do these large American shipments have the effect of keeping down the home visibles. These visibles, as seen in our weekly world's account, increased 2,601,000 bushels for the week, and they are 35,888,000 bushels more than was in sight last year. Such increases do not argue for higher prices, yet they are not so bearish as at first sight they seem. The present stocks of wheat show no more than average figures and are under the big figures of 1893, 1894 and 1895. A narrowing of the December-May spread is observable and is taken as meaning that the near option has been bought for May sales and that at present prices this will be profitable. Yesterday's afternoon market rallied as the Monday market has now done for the past few weeks, but today's proceedings were dull and with sagging prices, an instance of what is often said about November, that it is usually a bear month in the wheat trade.

Wheat openings at Chicago were ¼ lower, prices hardened a little in the forenoon. Corn and oats were about the same as closing prices and inactive.

Pork openings were from 5 to 7 cents lower.

Lard openings were from 2 to 5 cents lower, and Short Ribs, in which there was very little doing, sold from 2 to 5 cents lower.

## STRAWS

Bank of Montreal posts rates 4 82½ and 4 86½. Bank of British North America posts rates 4 82 and 4 86.

As to the dissatisfaction about the new transfer system in B.R.T. the whole matter resolved itself into doing the best thing possible for 95 p.c. of the patrons of the road or only 5 p.c., and the company decided to stand by the 95.

Seymour, Johnson & Co. request us "The Wall Street Journal," to state that the article which has been published as reflecting upon their standing and credit is entirely without foundation.

The sharp break in Tennessee Coal and Iron was on comparatively small sales and is said to be on account of catching a stop loss order.
