CURRENT TRADE CONDITIONS

ONTARIO.

A Toronto dealer who recently visited Georgian Bay points states that there is much activity in the shipping of lumber. Considerable stock sold some time ago is yet at the mills, but it is being cleared out as speedily as possible to make room for the new cut. The number of inquiries received for stock shows no falling out, and it is expected that a brisk fall trade will be experienced. Larger shipments than usual have been made to Chicago this season, and Michigan dealers have bought quite liberally on account of the decreased supply in that state. Log run white pine on the Georgian Bay brings from \$17 to \$18. Norway pine is meeting with a good demand, and recent sales have been at satisfactory figures. Local trade throughout the province is a little quiet, the demand from retailers having declined on account of a falling out in the prospective grain crop. In Toronto building lumber is being called for moderately, but retailers report less activity than earlier in the season. The outlook for hardwoods is still uncertain, although manufacturers appear to have every confidence that the demand will improve and that the present prices will be maintained. It is reported that the combine of furniture manufacturers is making a strong effort to depress hardwood prices in the hope of buying at rock-bottom figures.

QUEBEC AND NEW BRUNSWICK.

The shipments of lumber from the St. Lawrence to the United Kingdom during the month of July were comparatively light. Notwithstanding that the low freights are an incentive to send goods forward, it is expected that the exports from now until the close of the season will be limited, as shippers recognize the necessity of giving the British market an opportunity to recover. A few vessels have been chartered for September and October loading at 45 shillings, to Liverpool and London. Quebec spruce deals are a little stronger. A higher market for spruce is expected in the Eastern States this fall. Clapboards

are selling quite freely, as is also cedar shingles, but very few sales of the latter have as yet been made above \$2.50, on Boston rate of freight, although \$3 is generally predicted by the leading manufacturers. Fully twenty million feet of logs are hung up on the St. John river, and cannot be moved before the fall rains, and perhaps not until next spring.

UNITED STATES.

The only conclusion that can be reached from a summary of reports is that the white pine trade of the United States is in a most prosperous condition. Not for many years has the stock of unsold lumber in the Lake Superior district been so small. At Ashland, Wis., the stock of unsold Norway and white pine is but 30,000,000 feet, as compared with 75,000,000 feet at the same time last year. Most of the large mills have contracted for the bulk of their seasons cut, Chicago parties having been heavy buyers of late. No. 4 boards are now selling in Duluth at \$10.00, short Norway at \$10.75, and 6-inch strips at \$15.50. The lath market is strong, No. 1 white pine bringing \$2.75, and No. 1 Norway \$2.10 to \$2.25. In the Saginaw valley white pine is moving freely and prices are stiffening, as stocks are somewhat broken. Log run is held at \$18 to \$22, box at \$15 to \$16, and mill culls at \$12. The eastern wholesale markets are not as active as they have been, but dealers have enough orders ahead to keep them busy for several weeks. Notwithstanding large receipts, there is still a scarcity of true common and better at Tonawanda and Buffalo. Prices generally are firm, with the exception of box lumber, which is unsettled. Some dealers are reported to be offering this class of lumber at a reduction of \$1 per thousand from late quotations. Such action is believed to be unwarranted, and other dealers have refused to meet the cut and will hold their stocks until they can get what they regard as a fair price. The spruce trade is not active, but recent inquiries have developed a scarcity in certain sizes in the hands of New York and Boston dealers. Spruce lath is in good demand. The tone of the hardwood market is stronger. Inquiries are becoming more numerous, which leads to the conclusion that a brisk fall trade will develop. Some dealers report a good trade in birch.

GREAT BRITAIN.

The feeling in British timber circles is a little more hopeful. An average consumption is gradually reducing the heavy stock of lumber, and if shippers do not send forward heavy consignments in the autumn, a partial recovery of prices is confidently looked for. While the London market has not been relieved to any extent and still rules weak, an advance in the price of spruce at Liverpool has brightened the outlook there. During the last two weeks spruce deals have developed a stiffening tendency, and prices, we are advised, have advanced five shillings per standard. A Miramichi cargo has been sold to a Lancashire port at £6 10s per standard c.i.f., and brokers are asking £6 5s for inferior specifications. Holders of spruce seem to have great confidence in the future of that lumber. While the import of pine deals has been comparatively light, prices show little tendency to advance, but this may be explained by the fact that pine prices did not decline during the late period of depression to the same extent as spruce. The lower grades of Canadian lumber generally are in heavy stock and sluggish. Square timber is selling moderately at prices which vary but little from quotations of one month ago. Birch planks are in heavy stock and values have declined. The sale is reported from Liverpool of a large quantity at £5 10s per standard, a price which is almost certain to result in a loss to the shipper. At auction sales in London last week Quebec 3rd white spruce was sold at £6 10s, Miramichi 2x11 1st, 2nd and 3rd white spruce, averaging seconds, £7 10s; 3x9 same price; 3x7 a little better than £6 10s. Montreal 1st bright white pine (dry) for a mixed parcel of 3x10 and 11 to 3x4 sold at £12 5s; a parcel of seconds of better assortment, £15; and thirds, 3x11, same grade, £11 5s.

FIRES

The saw mill of Howes & Leigh's at Harriston, Ont., was completely destroyed by fire last week.

STOCKS AND PRICES

The barge Seguin last week loaded 900,000 feet of lumber at Victoria Harbor, Ont., for Chicago.

The city clerk of Montreal is asking for tenders up to August 13th for annual supply of lumber for water-works purposes.

William Richards, of Boiestown, N. B., has received an order from England for several million feet of maple lumber for furniture stock.

During the six months ended June 30th, 1901 2,766 car loads of deals were shipped from Halifax, N.S., to trans-Atlantic ports.

The cargo of the steamer Teutonia, which sailed from Montreal for Hamburg last week, included 100,000 feet of lumber and 30 standards of timber.

The Saginaw Lumber & Salt Co., of Saginaw, Mich., is reported to have sold recently 3,000,000 feet of log run lumber at a high figure, the stock to be cut from Canadian logs.

The steamer Daventry is loading a cargo of deals and timber at Quebec for Newcastle, consigned by Sharples & Co. The steamer Gladestry is loading a cargo for the United Kingdom.

It is reported that Demase Parizeau, timber merchant, of Montreal, has received an order from a firm in Bordeaux, France, for 750,000 box shooks, the result of samples of Canadian woods distributed by Mr. Parizeau a short time ago.

The steamer Lake Ontario sailed from Montreal last week for Liverpool, her cargo including 500 standards of deals. The Europa sailed for London with 500 standards of deals and took on 175 standards more at Quebec. The Ramore Head sailed for Dublin with 230 standards of deals and a quantity of timber.

The following prices were realized at a late sale held at Dublin by the Dublin Timber Co.:—Quebec spruce, 3rd quality, 13ft. 6x3, £10 15s per Irish standard; 11ft. 8x3, £12 5s, 12ft. and 13ft. 8x3, £12 10s; 12ft. 9x3, £12 17s 6d, £12 15s, £12 10s; 13ft. 9x3, £12 12s 6d, £12 15s, £12 17s 6d. Unsorted, 12ft. 9x2, £12 10s; 12ft. 9x1

1-2, £11 5s; 16ft. 9x1 1-2, £12 10s, £12 15s. Miramichi spruce, ex. "Corderillera," 14ft. 7x3, £12 2s 6d; 13ft. and 14ft. 9x3, £12 17s 6d; 14ft. and 15ft. 9x3, £12 15s; 15ft. 9x3, £12 12s 6d, 16ft. and 18ft. 9x3, £12 15s; 9ft. to 11ft. 11x3, £12 15s. 1st Quebec pine deals, 12ft. to 15ft. 12in. to 15in. x 1 1-2 in., £40; 12ft. to 16ft. 13in. to 15in. x 3, £45.

Concerning the market in England for spruce deals, the Timber Trades Journal says: "Buyers on this side have a large stock to work upon, and until this is further reduced the lowering tendency of spot goods may be expected to continue. Offers, however, sent out to Quebec for 3x9 2nds, at £8 15s, c.i.f., have been declined, and sellers out there are afraid that, in this size, they will not have enough to complete the contracts already in hand. Regarding lower port spruce stocks, we understand that from some of the outports the entire shipments are completed, and the shipments from St. John are expected to be very much less than last year. The total shipments from the lower ports to the end of June were about 7,000,000 feet less than last year, and during July and August, 1900, about 90,000,000 superficial feet were shipped; but the belief is pretty general that this year's shipments, extending over the period named, will be considerably less. A Cape Hopewell cargo of rather a bad specification, containing a large percentage of 7 and 8 in., has been sold this week to Liverpool at £6 2s 6d. This represents a slight market advance. As the Liverpool importers are among the keenest buyers of spruce, the sale is not without its significance. After the low prices which have been lately accepted, some reaction appears possible."

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Buctouche, N.B.: Schrs Melatus, Bell, I. P. Churchill, Ocean Bride, Richard B., and Beatrice May, for Cape Breton and Prince Edward Island points, total value of cargo \$2,700.
