In the matter of the Election for the Electoral District of the County of King's.

WILLIAM H. BAXTER and GEORGE WRIGHT,

Petitioners;

and

GEORGE E. FOSTER.

Respondent.

To the Honourable

The Speaker of the House of Commons.

We, the undersigned Justices of the Supreme Court of the Province of New Brunswick, assigned under the Dominion Controverted Elections Act to try Election Petitions in and for the Electoral District of the said County of King's, do hereby certify that the Court for the trial of the above petition was opened before us at the Court House at Hampton, in the said County of King's, on Tuesday, the twenty-third day of February last, at ten of the clock in the forenoon of that day.

The Petitioners and Respondent were both represented by Counsel.

We intimated to Counsel that the present sitting of the Election Court was being held merely for the purpose of hearing an application from the Petitioners, if they were desirous of making an application for the postponement of the trial to such a time as would enable them meantime to take an appeal to the Supreme Court of Canada, from a judgment of the Supreme Court of this Province ordering the above petition to be dismissed and removed from the files of the Supreme Court, because such petition had not been brought to trial within the six months limited for that purpose, and the entry of which judgment on the records of the Supreme Court had been stayed until the 1st March, 1892, to enable the Petitioners to make an application to the Election Court for a postponement of the trial.

After such intimation, Counsel for the Petitioners made an application to us for an adjournment of the Election Court, and the first Tuesday in August, 1892, was finally appointed as the day on which the adjourned Election Court should meet.

That on that day, being the second day of August instant, at 10 o'clock a.m., the said Election Court was opened at the Court House in Hampton aforesaid, when

Counsel appeared for the Petitioners and for the Respondent.

The Supreme Court of this Province having, in Easter Term last, caused their judgment, already referred to, to be entered of record, making absolute the rule to remove from the files of the Court, the Election Petition in this matter, and ordering the petition to be dismissed because it had not been brought to trial within the six months limited for that purpose, we were of opinion that as an Election Court we had no jurisdiction to proceed with the trial of the petition, and therefore declined to hear evidence in support of the petition, and considered as the Supreme Court had ordered the petition to be removed from the files of the Court and to be dismissed, that the election and return of the said George E. Foster would remain undisturbed, and we report it therefore to be our opinion that the said George E. Foster was duly elected and returned as a Member of the said County of King's in the House of Commons.

As we had not, in our opinion, for the reasons above stated, any jurisdiction to hear the petition or make inquiry into the circumstances of the election, we did not make any such inquiry and cannot therefore make report thereon as required by

the 44th section of the Dominion Controverted Elections Act.

Appended hereto is a minute of the proceedings had before us at the said Election Courts, held on the 23rd day of February last, and the 2nd day of August, instant.

We, the Honourable John Alexander Boyd, Chancellor of Ontario, and the Honourable Richard Martin Meredith, one of the Judges of the Chancery Division of the High Court of Justice for Ontario, being the Judges assigned to try the said petition and cross-petition, do hereby certify that, on the 8th day of September, 1892, at the City of Stratford, in the County of Perth, we held a Court for the

trial of the said petitions.

And that, at the said Court, Counsel appeared for the said Petitioners respectively and stated that, upon investigation of the charges made, they had found that they could not hope to succeed in establishing in evidence a case sufficient to entitle the Petitioners to succeed, and therefore had determined not to offer any evidence. And Counsel for the Respondent Pridham stating that he did not ask for costs against the Petitioner Ellis, and Counsel for the Respondent Trow claiming costs against the Petitioner Pridham, and no evidence being offered in support of either petition, we therefore held and determined that the said William Pridham, the Member whose election and return were complained of by the said petition, was duly elected and returned, and dismissed the said petition without costs, and the said cross-petition with costs.

In the said petition and cross-petition charges having been made that corrupt

We, the Honourable William Glenholme Falconbridge and the Honourable William Purvis Rochfort Street, two of the Judges of the Queen's Bench Division of the High Court of Justice, before whom the Election Petition and the counterpetition herein was tried on the 29th day of October, 1892, do hereby certify that, at the conclusion of the trial of the said petition and counter-petition, we determined that the said James A. #### BEAUCE CONTROVERTED ELECTION.

QUEBEC, 6th December, 1892.

To the Hon. P. White, Speaker of the House of Co

Speaker of the House of Commons, Canada.

Sir,—In the matter of the Controverted Dominion Election for the Electoral District of Beauce, we have the honour to report to you:—

1st. That sitting at St. Joseph de la Beauce on the 19th day of November last, 1892, we dismissed the Election Petition against the sitting Member, Jos. Godbout, Esquire, because neither the election to which the said petition relates, nor the qualification of the Petitioners, was proved. A copy of the evidence on which our decision is based accompanies this report.

2nd. That from the evidence laid before us, it was not proved that corrupt practices were committed at the said election by or with the knowledge and consent

of any candidate.

3rd. That from the said evidence it appears that some acts of the offence of treating were committed at the said election by some persons working in the interest of the said Jos. Godbout, Esquire; but that the said acts were neither numerous nor important enough to constitute a general system of treating nor to have affected in any way the result of the election; and that the said acts were committed during the said election by Hubert Gosselin, carpenter, George Lessard, farmer, and Etienne Nadeau, farmer, all of St. Ephrem de Tring; by Joseph Paré, farmer, and Johnny Poulin, of St. Victor de Tring; by Louis Jacques, fils, merchant and hotel-keeper, of St. Joseph de la Beauce; by Barnabé Tanguay, merchant, of St. Honoré de Shenley; and by one Paquet, hotel-keeper, and Joseph Bernard, of St. Français de la Beauce.

Mr. Speaker reported His Excellency's Speech from the Throne, and read a copy thereof to the House, which is as follows:—

Honourable Gentlemen of the Scnate:

Gentlemen of the House of Commons:

In meeting you at the commencement of another Session of Parliament, it affords me pleasure to congratulate you on the continued progress which the history of

the past year unfolds with regard to Canada.

The increase in trade, as illustrated by the exports and imports during the period for which the official returns have been prepared, has been most gratifying and that increase has continued down to the present time, with promise that the volume of trade during the current year will exceed that of any year in the history of the Dominion.

The revenues of the country have likewise provided for all the services for which Parliament has made appropriation and the operation of the Government Railways has been less burdensome, as regards the difference between income and expenditure than has been the case for a long term of years previously.

In Manitoba and the North-west Territories the increase in immigration has been decidedly encouraging, both as regards the number of persons who have come from other countries and as regards the number of homestead entries made by settlers

of all nationalities.

Measures have been taken to carry iuto effect the agreements arrived at with the United States on the subjects of the boundary of Alaska, boundary line in Passamaquoddy Bay and the prevention of destructive methods of fishing and the preservation and increase of fish life. With regard to reciprocity in wrecking and towing, a correspondence has taken place which indicates that privileges are demanded for United States vessels in Canadian Canals, which were not anticipated, but it is not impossible that a satisfactory conclusion of the discussion may yet be reached.

During the recess a friendly conference took place between delegates from my Government and from the Government of Newfoundland, on the questions which were pending between the two countries. It is hoped and expected that the interchange of views which then took place will be productive of beneficial results and lead to

an amicable adjustment of those questions.

The Statutes of 1887 relative to a Department of Trade and Commerce and to the office of Solicitor-General having been brought into force, the appointments were

made which were contemplated by these Acts.

It is to be regretted that the Government of the United States were unable to accept the suggestions made by my Government on the subject of canal tolls, and that the President should have thought it necessary to impose exceptional tolls on Canadians using the Sault Sainte-Marie Canal, which has so long been free to the people of both countries. My Government, while ready to consider in a friendly spirit any proposals which may be made by the Government of the United States, have caused efforts to be made to hasten the completion of the Canadian canal works, which will soon afford to the commerce of the Dominion a highway within our own country.

Measures will be laid before you for the improvement of the Franchise Act, for the amendment of the laws relating to the Civil Service, and the superannuation of civil servants, for regulating the admission of evidence in causes and matters under the control of the Parliament of Canada, for extending the system of voting by ballot to the North-west Territories, and for simplifying the laws relating to lands

and land transfers in the Territories.

Gentlemen of the House of Commons:

The Public Accounts of the past year and the Estimates for the coming year will be laid before you without delay, and I trust it will be seen that ample provision may be made for the public service without increasing taxation.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I have every confidence that all these matters will receive your best attention and that your deliberations will keep in view, above all other considerations, the welfare and stability of the country.

On motion of Sir John Thompson, His Excellency's Speech was ordered to be

taken into consideration on Monday next.

Resolved,-That Select Standing Committees of this House for the present Session be appointed for the following purposes: -1. On Privileges and Elections. -2. On Expiring Laws .- 3. On Railways, Canals and Telegraph Lines .- 4. On Miscellaneous Private Bills.-5. On Standing Orders.-6. On Printing.-7. On Public Accounts.—8. On Banking and Commerce.—9. On Agriculture and Colonization, which said Committees shall severally be empowered to examine and inquire into all such matters and things as may be referred to them by the House; and to report from time to time their observations and opinions thereon; with power to send for persons, papers and records.

Mr. Speaker also laid before the House.-The Report of the Joint Librarians of Parliament, on the state of the Library of Parliament, which is as follows:-

# TO THE HONOURABLE THE SPEAKER OF THE HOUSE OF COMMONS.

The Joint Librarians of Parliament have the honour to report as follows for the year 1892.

During the recess the Department of Public Works, acting on the recommendation of the Library Committee, introduced the electric light into the Library. It is hoped that this will be found to be an improvement, giving better light, less heat, and rendering the upper galleries more accessible during the evenings.

The shelves in the Canadian section having become overcrowded, the Librarians have resolved to give that section more room by removing the French Belles Lettres

to other quarters in the Library.

A considerable number of old Canadian newspapers and works out of print, have

been added to the Library since the last Session.

The Librarians have taken advantage of the large number of valuable books published during the Columbian Centennial period, to secure the best works on the

discovery and early history of America.

Efforts were made during the year to extend the exchange list of the Library with British Colonies and the States of the American Union, and the department of Colonial and State documents, though not without gaps, is in a condition of practical usefulness.

The department devoted to trade statistics, trade publications, and reports of Chambers of Commerce, has received its usual additions, and will be found service-

able to members.

A copy of the rules adopted by the Library Committee at its last meeting, has been sent to each member, and a placard containing them has been placed in each alcove. These rules, if followed, will have the effect of rendering the Library more useful to Parliament.

The list of donations to the Library during the year is attached hereto.

Among the noticeable items is the valuable medal presented by the City of London, in commemoration of the visit of His Imperial Majesty the Emperor of Germany.

A list of copyrights is appended hereto. All of which is respectfully submitted.

# VOTES AND PROCEEDINGS OF THE HOUSE OF COMMONS.

OTTAWA, MONDAY, 30TH JANUARY, 1893.

PRAYERS.

Mr. McInerney moved, seconded by Mr. Leclair,
That the following Address be presented to His Excellency the Governor-General,
to offer the respectful thanks of this House to His Excellency for the gracious Speech
he has been pleased to make to both Houses of Parliament: namely:—

To His Excellency the Right Honourable Sir Frederick Arthur Stanley, Baron Stanley of Preston, in the County of Lancaster, in the Peerage of Great Britain; Knight Grand Cross of the Most Honourable Order of the Bath, Governor-General of Canada and Vice-Admiral of the same.

MAY IT PLEASE YOUR EXCELLENCY:-

We, Her Majesty's dutiful and loyal subjects, the Commons of Canada in Parliament assembled, humbly thank Your Excellency for your gracious Speech at the opening of the Session.

We receive with much pleasure Your Excellency's congratulations, at the commencement of another Session of Parliament, on the continued progress which the

history of the past year unfolds with regard to Canada.

We learn with great satisfaction that the increase in trade, as illustrated by the exports and imports during the period for which the official returns have been prepared, has been most gratifying, and that that increase has continued down to the present time, with promise that the volume of trade during the current year will exceed that of any year in the history of the Dominion.

We are glad to be informed that the revenues of the country have likewise provided for all the services for which Parliament has made appropriation, and that the operation of the Government Railways has been less burdensome, as regards the difference between income and expenditure, than has been the case for

a long term of years previously.

It is very gratifying to us to learn that in Manitoba and the North-west Territories the increase in immigration has been decidedly encouraging, both as regards the number of persons who have come from other countries and as regards

the number of homestead entries made by settlers of all nationalities.

We thank Your Excellency for informing us that measures have been taken to carry into effect the agreements arrived at with the United States on the subjects of the boundary of Alaska, the boundary line in Passamaquoddy Bay, and for the prevention of destructive methods of fishing and the preservation and increase of fish life.

Your Excellency having been pleased to inform us that with regard to reciprocity in wrecking and towing, a correspondence has taken place which

indicates that privileges are demanded for United States vessels in Canadian Canals, which were not anticipated, we learn with satisfaction that it is not impossible that

a satisfactory conclusion of the discussion may yet be reached.

It affords us much pleasure to be informed that during the recess a friendly conference took place between delegates from Your Excellency's Government and from the Government of Newfoundland, on the questions which were pending between the two countries, and that it is hoped and expected that the interchange of views which then took place will be productive of beneficial results and lead to an amicable adjustment of those questions.

We learn with interest that the Statutes of 1887 relative to a Department of Trade and Commerce and to the office of Solicitor-General having been brought into force, the appointments have been made which were contemplated by

these Acts.

We share the regret expressed by Your Excellency that the Government of the United States were unable to accept the suggestions made by Your Excellency's Government on the subject of canal tolls, and that the President should have thought it necessary to impose exceptional tolls on Canadians using the Sault Ste. Marie Canal, which has so long been free to the people of both countries; and that it affords us much satisfaction to be informed that Your Excellency's Government, while ready to consider in a friendly spirit any proposals which may be made by the Government of the United States, have caused efforts to be made to hasten the completion of the Canadian canal works, which will soon afford to the commerce of the Dominion a highway within our own country.

Your Excellency may rest assured that we will give our earnest attention to any measures laid before us for the improvement of the Franchise Act, Your Excellency may rest assured that we for the amendment of the laws relating to the Civil Service and the superannuation of civil servants, for regulating the admission of evidence in causes and matters under the control of the Parliament of Canada, for extending the system of voting by ballot to the North-west Territories, and for simplifying the laws relating to

lands and land transfers in the Territories.

We thank Your Excellency for informing us that the Public Accounts of the past year, and the Estimates for the ensuing year will be laid before us without delay, and we are confident that ample provision may be made for the public service without increasing taxation.

We assure Your Excellency that all these matters will receive our best attention, and that our deliberations will keep in view, above all other consider-

ations, the welfare and stability of the country.

Mr. Laurier moved in amendment, That the following paragraph be added to

the proposed Address:-

We feel bound to represent to Your Excellency, that in the present condition of the people of Canada, substantial reductions should be made in the taxation which presses so heavily on the great bulk of the community, and we regret that in the Speech from the Throne Your Excellency was not advised to hold out promises of reductions in the oppressive duties now imposed.

And the question being put on the amendment, it was negatived on the follow-

ing division:-

the same?

If so, to whom and for what amount?

Mr. Patterson (Colchester)—On Wednesday next—Inquiry of Ministry—Whether it is the intention of the Government, in view of the small salaries now paid to country postmasters, for the duties performed by them, to take into consideration the advisability of adopting a different system from that by which these salaries are at present determined?

# NOTICES OF MOTIONS.

Mr. Landerkin-On Friday next-Inquiry of Ministry-What did the Government pay per bushel for the two-rowed barley, and from whom was it purchased?

Mr. Bowers-On Friday next-Inquiry of Ministry-Whether it has come to the knowledge of the Government that all the buoys in the Annapolis River and Basin have been carried away by the drift ice this winter?

Does the Government intend to take immediate steps towards replacing the

same, so as to insure better protection for shipping in that vicinity?

Was the last contract for keeping them in position done satisfactorily, and who was the contractor?

What was the amount paid?

Have any complaints been made about the absence of buoys in the winter months?

Have there been any tenders by private parties belonging to Digby or Annapolis? Will the Department advertise by public tender for replacing said buoys?

Will the party tendering for lowest amount receive the contract; the Government being convinced that the sum is not too large and the contractor giving sufficient bonds for the fulfilment of contract?

Mr. Lépine-On Friday next-Inquiry of Ministry-What are the names of the Harbour Commissioners, and what was the salary paid to each of them in 1892?

Mr. Bruneau-On Friday next-Inquiry of Ministry-Whether it is the intention of the Government to complete, this year, the unfinished wharf located opposite the church of the parish of Ste. Anne de Sorel?

Mr. Lépine-On Friday next-Inquiry of Ministry-1. Have the shipping interests of Montreal made frequent complaints to the Government of the tax of two cents per ton per voyage, not to exceed six cents per ton per annum, levied on shipping by virtue of the Sick Mariners' Act (R. S. C., Chapter 76) as being both unjust and impolitic?

2. Has the Government any precedent for the levy of a tax on shipping for

hospital purposes in any part of the world other than Canada?

3. Have grants out of this taxation, aggregating some thirty or forty thousand dollars since Confederation, been made to two hospitals in Ontario, one at Kingston, the other at St. Catharines, although no tonnage tax is levied in that province?

4. Has not the levy of this tax of six cents per ton per season at Montreal, and elsewhere in the Dominion, brought about a levy by the United States of fifteen cents per ton per annum by way of reprisals on Montreal tonnage trading with their ports?

5. Does not the Act of Congress imposing this retaliatory taxation (24 U.S. 81, Sec. 11) contain a provision to the effect that whenever Canada ceases to levy

her tax the United States will cease to impose?

6. Is the Province of Ontario, besides being exempt from the Canadian tax, also, and because of this home exemption, exempted from the retaliatory tax of the United States? and do not these exemptions constitute a serious discrimination against the Province of Quebec and in favour of the shipping trade of Ontario?

7. Is it the intention of the Government—(1) to accept this standing offer of the United States and thereby free Canadian tonnage from the retaliatory tax now levied in the ports of that country? and at the same time (2) to promote legislation which will afford tonnage in the Province of Quebec the same immunity from taxation as presently exists in the ports of Ontario?

Mr. McMullen—On Friday next—Inquiry of Ministry—In view of the very important statement made in this House on the 17th of February by the hon. member for South Ontario regarding the combinations formed by the cotton manufacturers of Canada, and in view of the promise of the First Minister last session as follows:—"If it were established as the hon, gentleman seems to assert, that the tariff was the means of enabling such a company to act oppressively to the consumers, it would certainly not very long remain so," what action do the Government intend to take?

Mr. Colter—On Friday next—Address to His Excellency the Governor-General for a return of all correspondence, including telegrams, reports of inspectors, or other papers relating to the forwarding of goods in transit from the Intercolonial Line vià Centreville and Florenceville to Vanceboro.

Also, copies of all regulations and Orders in Council relating to the forwarding

of goods or produce in transit generally.

Also, copies of all forms authorized by the Customs Department for reporting goods, brought across the frontiers for transit.

Mr. Frémont—On Friday next—Order of the House for copies of all accounts, letters, receipts and other documents in relation to the claim of Charles I. Labrie, of Lévis, for professional service in connection with expropriation, during the construction of the St. Charles Branch.

Mr. Frémont—On Friday next—Order of the House for copies of all correspondence, documents and letters in relation to the establishment of a rapid transit service between Great Britain and Canada.

Mr. Weldon—On Friday next—Address to His Excellency the Governor-General for all correspondence, petitions and papers that are in the possession of the Government relating to the disallowance of Chapter 1 of the Acts of Nova Scotia dated 1892, "An Act to amend and consolidate the Acts relating to Mines and Minerals," including any petition of David McKeen, Esq., M.P., and others, in respect of the said Act.

mend that the same be extended to Tuesday, the seventh March next.

# VOTES AND PROCEEDINGS OF THE HOUSE OF COMMONS.

## OTTAWA, TUESDAY, 28TH FEBRUARY, 1893.

PRAYERS.

Three Petitions were brought up, and laid on the Table.

Mr. Mills (Annapolis), from the Select Standing Committee on Standing Orders, presented the Seventh Report of the said Committee, which is as follows:-

The Committee have considered the following Petitions, viz.:-

Of John Travers Lewis, of the City of Ottawa, Solicitor for the Nelson and Fort Sheppard Railway Company; of John Alexander Gemmill, of the City of Ottawa, Solicitor for F. C. Cotton and and others; and of the Corporation of the City of Winnipeg; severally praying for leave to present a Petition for a Private Bill, notwithstanding the expiration of the time for receiving such Petitions, and find that the reasons assigned by the promoters for the delay in presenting their Petitions are sufficient to justify the Committee in recommending that that portion of the 49th Rule which limits the time for receiving Petitions for Private Bills be suspended in reference to each of the said Petitions.

The Committee have also considered the following Petitions and find that the

notices given thereon are sufficient, viz. :-

Of the Grand Council of the Catholic Mutual Benefit Association of Canada, for an Act of incorporation; of the St. Catharines and Niagara Central Railway Company, for certain amendments to their Act of incorporation; and of the Columbia and Kootenay Railway Company, for power to build certain branch lines of railway. The Committee have also considered the following Petitions and find that the

notices in each case, while regular in all other respects, are somewhat short of the time required by the 51st Rule; but as they will have fully matured before the Bills can be considered in Committee, the Committee recommend that they be deemed sufficient, viz.:-

Of the Drummond County Railway Company, for an Act to confirm their charter; of the North American Canal Company, for an Act of incorporation; of the Temiscouata Railway Company, for power to extend their line of railway; and of the North Canadian Atlantic Railway and Steamship Company, for an Act to revive and amend their Act of incorporation.

Mr. Costigan laid before the House, by command of His Excellency the Governor-General,-Annual Report of the Department of Public Printing and Stationery for the Dominion of Canada, for year ending 30th June, 1892, with a partial report for services during six months ending 31st December, 1892.

Mr. Wallace presented, - Return to an Order of the House of the 20th February, 1893, for return showing the quantity of pig iron produced in Canada in the years 1870, 1871, 1872, 1873, 1874, 1875, 1876, 1877, 1878, 1879 and 1880, and bounty paid, if any, during those years.

Also amount of pig iron imported from Great Britain and the United States respectively, and the total amount imported during those years.

Mr. Mills (Annapolis) moved, That in accordance with the recommendation of the Select Standing Committee on Standing Orders, that portion of the 49th Rule which limits the time for receiving Petitions for Private Bills be suspended in reference to the following Petitions, presented this day, and that they be read and received forthwith; which was agreed to.

The said Petitions were accordingly read and received, and are as follows:-

Of the Nelson and Fort Sheppard Railway Company; praying for the passing of an Act confirming the franchises, powers, &c., conferred upon them by an Act of the Provincial Legislature, and declaring their Railway a work for the general advantage of Canada.

Of F. C. Cotton, Journalist, and others, of Vancouver, British Columbia; praying for the passing of an Act incorporating them as a Company to construct, equip, maintain and operate a Dry Dock at some point on Burrard Inlet, and for other pur-

poses connected therewith ; -and

Of the Municipal Council of the City of Winnipeg, Manitoba; praying for the passing of an Act to amend the "Act to enable the City of Winnipeg to utilize the Assiniboine River Water Power," extending the time for the commencement and completion of the works thereby authorized, &c.

The following Bills were severally introduced, read the first time, and ordered for a second reading to-morrow, viz.:—

Mutual Benefit Association of Canada.

By Mr. Frémont:—Bill No. 67, to revive and amend the Act to incorporate the North Canadian Atlantic Railway and Steamship Company;—and

By Mr. Mara: -Bill No. 68, respecting the Columbia and Kootenay Railway

and Navigation Company.

Mr. Costigan presented,—Return to an Address to His Excellency the Governor-General of the 6th February, 1893, for copies of all petitions, correspondence and documents whatsoever respecting the granting of a subsidy to the Quebec Oriental Railway.

On motion of Sir John Thompson, it was Resolved, That Government business have precedence on Thursday next, the second of March, after Questions put by Members.

The House resumed the adjourned Debate on the proposed motion of Mr. Foster for the House to go into Committee to consider of the Ways and Means for raising the Supply to be granted to Her Majesty; and the motion of Sir Richard Cartwright in amendment thereto:—That all the words after the word "That" be left out, and the following inserted instead thereof:—"it be Resolved, That the present Customs tariff bears heavily and unjustly upon the great consuming classes of the Dominion and should be at once thoroughly reformed in the direction of freer trade, and that the amount of taxes collected be limited to the sum required to meet the necessities of the Government efficiently and economically administered."

Mr. Beausoleil—On Monday next—Bill intituled: "An Act respecting the Judges of the Sessions of the Peace for the cities of Quebec and Montreal, in the Province of Quebec."

Mr. McCarthy—At an early day on the House being moved into Committee of

Supply, the following Resolution:

That since the introduction of the protective system sufficient time has elapsed for the establishment and development of such manufacturing industries as under existing conditions can be successfully carried on in Canada. Moreover, many manufacturers sheltered behind the rampart thus erected have formed combinations and trusts which prohibit competition and create and maintain monopolies.

That the existing Tariff, defensible only as a protective measure has proved in many instances oppressive and burdensome to the great mass of the consuming classes and especially to those engaged in agricultural pursuits; is unfair and unequal in its incidence; and has been productive of discontent verging on disloyalty among

those who suffer from its injustice.

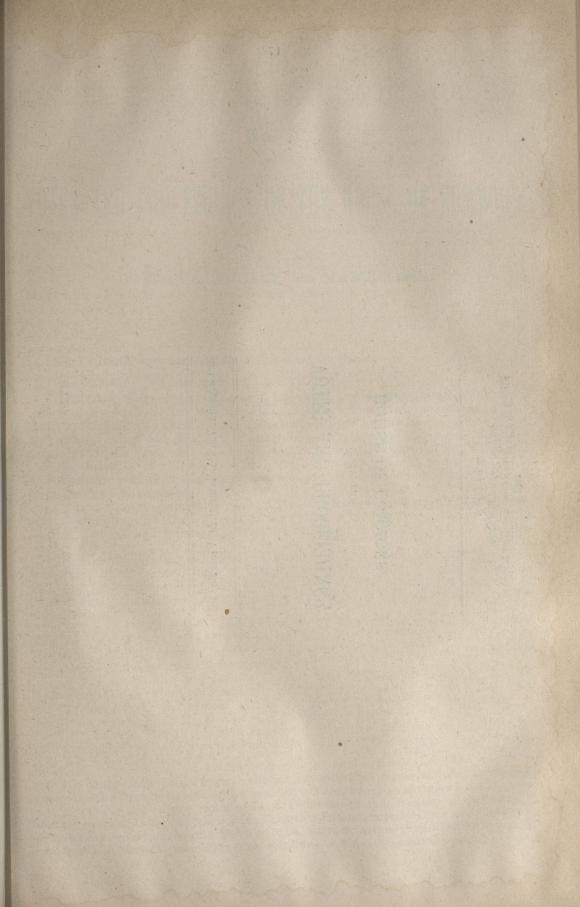

That no sufficient reason has been adduced or exists requiring investigation respecting the foregoing facts which are notorious, nor justifying delay in the passage

of remedial legislation which is imperative.

That in the opinion of this House, the Tariff ought to be at once amended in respect of the matters herein indicated and also by the substantial reduction of Customs duties in favour of the United Kingdom, in whose markets all Canadian products are admitted duty free, and of those nations which under treaty obligations with Great Britain would be entitled to the same advantages; graduated, however, so as not unnecessarily to prejudice the business of the country nor to do wrong to those who have imported and paid duties in accordance with its provisions.

And this House declares its readiness to make a like reduction in favour of such other portions of the Empire or with such other foreign countries, especially the United States of America, as are willing to reciprocate in matters of trade with

Canada on fair and equitable terms.

PRAYERS.

Seven Petitions were brought up, and laid on the Table.

Mr. Mills (Annapolis), from the Select Standing Committee on Standing Orders, presented the Ninth Report of the said Committee, which is as follows:-

The Committee have examined the notices given on the following Petitions and

find them sufficient, viz .:-

Of the Toronto, Hamilton and Buffalo Railway Company, and of the Corporation of the City of Brantford, for an Act to confirm a by-law passed by the said City of Brantford granting a certain sum of money to the said Railway Company; of the Chilliwhack Railway Company, for an Act to confirm their charter and to enable them to lease their railway to the Canadian Pacific Railway Company; and of the Nicola Valley Railway Company, for power to lease their railway to the Canadian Pacific Railway Company.

The Committee have also examined the notices given on the separate Petitions of the Toronto, Hamilton and Buffalo Railway Company, for an Act to confirm a bylaw of the City of Brantford, to extend the time for the construction of their railway, to enable them to construct their railway from Waterford to Lake Erie, and to confirm a by-law passed by the City of Hamilton, and find that the said notices are sufficient to cover all the powers sought by the Petitioners with the exception of the proposed extension of time for construction and the proposed extension of the rail-

way from Waterford to Lake Erie.

The Committee have also considered the Petition of the Canadian Pacific Railway Company, for an Act to enable them to issue preferred or guaranteed stock, and find that only three weeks notice has been published, but as the necessity for the application arose too recently to admit of the full notice being given, and as no interests but those of the shareholders can be affected, and the proposed issue of stock is to be subject to the consent of the shareholders expressed at a general meeting called for the purpose, the Committee recommend that the notice given be deemed sufficient.

The Committee have also examined the Petition of L. E. Morin and others, for an Act of incorporation as a Gas Company, and find that the notices given are short in point of time, but as they will mature before the Bill can be considered in Com-

mittee, the Committee recommend that they be deemed sufficient.

The Committee have also examined the Petition of the Dominion Building and Loan Association of Toronto, for certain amendments to their Act of incorporation, and find that no proof of compliance with the requirements of the 51st Rule has been furnished to the Committee.

Mr. Bergin, from the Joint Committee of both Houses on the Printing of Parliament, presented the First Report of the said Committee, which is as follows:—

The Committee find that there will be an additional amount required for the

mend that he be paid the sum of \$1,200 for his services during the present Session.

The Committee, owing to the increased amount of work which had to be done in connection with the translation into English of the speeches delivered in the French language; and also with the view of avoiding delays in the printing of the English revised edition, found it necessary to employ temporary assistance and recommend that Mr. Frank Hughes, who was engaged for that purpose, be paid at the rate of \$2.00 per page of 2 columns.

The Committee submit, for the information of the House, the following comparative statement of the cost of publishing the Official Report of the Debates of the Sessions of 1891 and 1892, viz.:—

Company.

Such reduction to apply to all Bills posted on or after Friday, the 10th instant.

Mr. Mills (Annapolis) moved, That in accordance with the recommendation of the Select Standing Committee on Standing Orders and of the Select Standing Committee on Railways, Canals and Telegraph Lines, the time for posting Bills under Rule 60 be reduced from one week to two days, such reduction to apply to all Bills posted on or after Friday, the 10th instant; which was agreed to.

The Order of the Day for the House to go again into Committee of Supply being read;

Mr. Foster moved, That Mr. Speaker do now leave the Chair.

Mr. McCarthy moved in amendment thereto, That all the words after the word "That" be left out, and the following inserted instead thereof:—"since the introduction of the protective system sufficient time has elapsed for the establishment and development of such manufacturing industries as under existing conditions can be

successfully carried on in Canada. Moreover, many manufacturers sheltered behind the rampart thus erected have formed combinations and trusts which prohibit com-

petition and create and maintain monopolies.

That the existing Tariff, defensible only as a protective measure has proved in many instances oppressive and burdensome to the great mass of the consuming classes and especially to those engaged in agricultural pursuits; is unfair and unequal in its incidence; and has been productive of discontent verging on disloyalty among those who suffer from its injustice.

That no sufficient reason has been adduced or exists requiring investigation respecting the foregoing facts which are notorious, nor justifying delay in the passage

of remedial legislation which is imperative.

That in the opinion of this House, the Tariff ought to be at once amended in respect of the matters herein indicated and also by the substantial reduction of Customs duties in favour of the United Kingdom, in whose markets all Canadian products are admitted duty free, and of those nations which under treaty obligations with Great Britain would be entitled to the same advantages; graduated, however, so as not unnecessarily to prejudice the business of the country nor to do wrong to those who have imported and paid duties in accordance with its provisions.

And this House declares its readiness to make a like reduction in favour of such other portions of the Empire or with such other foreign countries, especially the United States of America, as are willing to reciprocate in matters of trade with

Canada on fair and equitable terms."

And a Debate arising;

WEDNESDAY, 15th March, 1893.

And the Debate continuing,—the said Debate was, on motion of Mr. Ives, adjourned.

The House then adjourned at 12.10 o'clock, A.M.

PETER WHITE,

Speaker.

Mr. Cargill—On Thursday next—That in view of the embargo on Canadian cattle going into the British markets, and the fact that freight rates are higher from Canadian than from United States ports, thereby placing our Canadian farmers as exporters of cattle at a disadvantage when competing for this trade, it is expedient that an export bounty be paid per head on cattle exported equivalent to the difference in freight rates from Canadian ports compared with those of United States ports on corresponding dates of shipments.

# VOTES AND PROCEEDINGS OF THE HOUSE OF COMMONS.

# OTTAWA, THURSDAY, 16TH MARCH, 1893.

PRAYERS.

Seven Petitions were brought up, and laid on the Table.

The Petition of Thomas S. Stone and others, pilots of the port of St. John, N.B.; praying that no law may be passed to reduce the income of pilots of the aforesaid port, or exempt any vessels from pilotage that under the law now pay pilotage rates.

Mr. Wood (Westmoreland), from the Select Standing Committee on Banking and Commerce, presented the Fourth Report of the said Committee, reporting the following Bills with amendments, viz.:—

Bill No. 66, to incorporate the Grand Council of the Catholic Mutual Benefit

Association of Canada;—and

Bill No. 78, respecting the British America Assurance Company.

Mr. Scriver, from the Joint Committee of both Houses on the Library of Parliament, presented the First Report of the said Committee, which is as follows:—

#### FIRST MEETING.

The Committee met on Tuesday, March 14th, at 11 A.M., in the Chamber of the Speaker of the House of Commons.

The Report of the Joint Librarians for the year 1892, was read and adopted.

It was decided that the Government be requested to place a sum of money in the Estimates to purchase three hundred and twenty-five (325) copies of the new edition of Todd on "Parliamentary Government in the Colonies" for the use of Members.

It was ordered that the volumes of Patent Reports and Specifications now in the Library be transferred to the Department of Agriculture, for the use of the Patent Branch, the Library of Parliament still retaining its right of property in the same, and all the expenses of future continuation of the series to be borne by the Department of Agriculture.

It was ordered that twenty-five (25) copies of the volume intituled: "Constitutional Documents of Canada," by Mr. William Houston, be purchased after the 1st

of July, out of the Library grant.

A Committee was appointed to audit the accounts of the Library.

Mr. Foster introduced the two following Bills, which were read the first time, and ordered for a second reading to-morrow, viz.:—

Bill No. 99, respecting the Harbour Commissioners of Montreal; -and

Bill No. 100, further to amend the Insurance Act.

Mr. Foster moved, That for the remainder of the Session, Government Orders shall have precedence on Wednesdays after Questions put by Members.

And a Debate arising thereon,—the said motion was, with leave of the House,

withdrawn.

Mr. Foster moved, That Government Orders shall have precedence on Wednesdays after Questions put by Members, and the Order of Wednesday under Rule 19 shall be that for Mondays, during the remainder of the Session; which was agreed to, on a division.

Mr. Tarte moved, That the House do now adjourn; which motion was, with leave of the House, withdrawn.

The House resumed the adjourned Debate on the proposed motion of Mr. Foster: "That Mr. Speaker do now leave the Chair for the House to go again into Committee of Supply; and on the motion of Mr. McCarthy in amendment thereto, "That all the words after the word 'That" be left out, and the following inserted instead thereof:—"since the introduction of the protective system sufficient time has elapsed for the establishment and development of such manufacturing industries as under existing conditions can be successfully carried on in Canada. Moreover, many manufacturers sheltered behind the rampart thus erected have formed combinations and trusts which prohibit competition and create and maintain monopolies.

That the existing Tariff, defensible only as a protective measure has proved in many instances oppressive and burdensome to the great mass of the consuming classes and especially to those engaged in agricultural pursuits; is unfair and unequal in its incidence; and has been productive of discontent verging on disloyalty among

those who suffer from its injustice.

That no sufficient reason has been adduced or exists requiring investigation respecting the foregoing facts which are notorious, nor justifying delay in the passage

of remedial legislation which is imperative.

That in the opinion of this House, the Tariff ought to be at once amended in respect of the matters herein indicated and also by the substantial reduction of Customs duties in favour of the United Kingdom, in whose markets all Canadian products are admitted duty free, and of those nations which under treaty obligations with Great Britain would be entitled to the same advantages; graduated, however, so as not unnecessarily to prejudice the business of the country nor to do wrong to those who have imported and paid duties in accordance with its provisions.

And this House declares its readiness to make a like reduction in favour of such other portions of the Empire or with such other foreign countries, especially the United States of America, as are willing to reciprocate in matters of trade with

Canada on fair and equitable terms."

FRIDAY, 17th March, 1893.

And the question being put on the amendment; it was negatived on the following division:—

That in view of the vast importance to the agricultural and commercial interests of this country, in the matter of the restoration of the privilege of landing and selling live cattle in the ports of Great Britain, and that the British Minister of Agriculture has decided that the scheduling of cattle from Canada must remain in force until such time as some future cargoes of Canadian cattle have been slaughtered and examinations made of the lungs of the slaughtered animals have in every case showed perfect freedom from Pleuro-pneumonia, before Her Majesty's Government can accept as a sufficient basis to remove the order of scheduling, the assurance that the disease does not exist in Canadian cattle, and in view of the fact that the manner in which the examination upon the report of which the present order of scheduling is founded, has proved unsatisfactory and open to serious doubts as to the competency and thoroughness of such examination, the Committee hereby strongly recommend,—

That the Government of Canada employ a known competent Veterinary Surgeon who shall be sent to Great Britain, and whose duty it shall be to attend at each and all places where and when the slaughtering of Canadian herds and the autopsy of every case in connection therewith are being proceeded with, in order to guard Canadian interests against injury and loss, through either incompetent or inefficient examination, as well as against the prejudices of opponents interested in preventing the restoration of the privileges formerly enjoyed in British ports by Canadian cattle

Mr. Mills (Annapolis), from the Select Standing Committee on Standing Orders, presented the Fourteenth Report of the said Committee, which is as follows:—

The Committee have considered the Petition of Les Dames Religieuses du Sacré-Cœur de Jésus, for an Act to enlarge their corporate powers, and find that no notices were published, but as the Committee are of the opinion that no rights can be injuriously affected by the proposed measure, they recommend that the 51st Rule be suspended in relation to the said Petition, and as the time for presenting Private Bills has expired, the Committee also recommend that that portion of the 49th Rule which limits the time for presenting Private Bills be suspended in relation to a Bill to grant additional powers to Les Dames Religieuses du Sacré-Cœur de Jésus.

Mr. Wallace presented,—Return to an Order of the House of the 6th February 1893, for a return, in the form used in the statements usually published in the Gazette, of the Exports and Imports from the first day of July, 1892, to the first day of January, 1893, distinguishing the products of Canada and those of other countries; and comparative statements from the first day of July, 1891, to the first day of January, 1892.

row, to consider the following proposed Resolution:-

Whereupon, Mr. Foster informed the House that His Excellency the Governor-General having been informed of the subject-matter of the said proposed Reso-

lution, recommends it to the House.

Ordered, That the House do go into Committee of the Whole, to-morrow, to consider the said proposed Resolution.

Mr. Foster laid before the House,—Statement of the Receipts and Payments of Canada, 1891-92 and 1892-93, to 20th March.

The Order of the Day for the House to go again into Committee of Supply being read;

Mr. Foster moved, That Mr. Speaker do now leave the Chair.

Mr. Dawson moved in amendment thereto, That all the words after the word "That" be left out, and the following inserted instead thereof:—"whereas N. Clarke Wallace, a Member of this House and Controller of Her Majesty's Customs is reported to have spoken as follows at a public meeting held in Kingston, on the 10th March instant:

"We find to-day in the old country that brethren, the descendants of the heroes of two hundred years ago, are perhaps facing difficulties of a similar character to those which their ancestors had to face in 1688—that the men of 1893 are threatened with a rule which is antagonistic to freedom there, to the liberty which they have always enjoyed as citizens of the British Empire. What is proposed is not only to shake off their allegiance to Great Britain—the bonds of love that bind them to the Empire—but to put them, forsooth, under an alien and hostile Government. have their (the Home Rulers') public declaration of what they would do if they obtained power, that they would never cease agitating until the last link that bound Ireland to the British Empire is severed. That is their object to-day. They are trying to take the loyal men with them; but our friends over their say they will never submit. Britain may cast them out; but if she does so, she has no right to say what may be their future allegiance. Our friends in that land are preparing, and have asserted their unalterable determination never to submit to that Home Rule which Mr. Gladstone and his Government have laid out for them. (Applause.) I am sure that in their efforts they shall have the sympathy of the Orangemen of Canada-more than sympathy: they shall have our active aid, if that active aid be necessary. We should not be worthy descendants of the heroes of two hundred years ago-we would not be worthy of our ancestors of old, if we failed in our duty

in that respect. I believe we are not unworthy descendants of the men who, driven from Dublin, stood at bay at Enniskillen and at Derry. In the history of the world there are no such records of heroic bravery, and I believe their descendants are not unworthy sons of such noble sires."

And whereas on the floor of Parliament the said N. Clarke Wallace has ad-

mitted the accuracy of said report;

Now therefore this House declares it to be the duty of all Her Majesty's subjects loyally to submit to the law, that the constitution contains within itself the means whereby all grievances may be redressed by constitutional methods, that no changes in the law should be sought to be brought about by resort to armed resistance, civil war or other physical force, and that an attempt to depose Her Majesty in respect of any portion of Her Empire is unwarrantable and treasonable, and should receive the uncompromising resistance of all loyal citizens;

That the action of the said N. Clarke Wallace in expressing sympathy with, and holding out the hope of active aid to those who threaten to levy war in Ireland against Her Majesty, is deserving of the severest censure at the hands of this House, and if allowed to pass unnoticed would expose Canada to the slanderous imputation of being disloyal to Her Majesty, the very reverse of which is the

And further, it is the duty of this House promptly to repudiate said utterances of said N. Clarke Wallace, lest his political connection with Parliament and the Government might lead the public to the erroneous conclusion that his views so expressed were shared in by this body, a conclusion which would give additional influence to such utterances, and the more endanger peace, order and good government throughout Her Majesty's Dominions.

Mr. Carpenter moved, That the House do now adjourn; which motion was, with leave of the House, withdrawn.

WEDNESDAY, 22nd March, 1893.

And the question being put on the amendment; it was negatived on the following division :-

ary 1st, inter alia, as follows:—

would request you to inform me what evidence you can place before the department that the shipowners and agents of vessels navigating the St. Lawrence would be willing to take care of their own sick mariners, and what guarantee the Government would have that the patients would not be left on our own hands to be provided for after the vessels to which they belonged had left their loading ports.

2. Did not the Shipping Interests, in reply to this request, undertake as

Hon. CHARLES H. TUPPER,

Minister of Marine, Ottawa.

Sir,-We, the undersigned, owners or agents of steamships and sailing vessels trading with this port, having taken communication of certain correspondence between the Department of Marine and the Shipping Interest, beg leave to say that-

In consideration of your relieving the tonnage owned by or consigned to us from the imposition of hospital dues levied by virtue of the Act 49 Vic., chap. 76, we hereby agree and bind ourselves to afford adequate hospital care to the sick mariners belonging to each and every such vessel, and to relieve the Dominion Government from all costs or responsibility with respect to the said sick mariners; and we are ready to enter into such binding agreement in that behalf as the department may require of us.

The purpose of this undertaking is not merely to free our own vessels from this impost on their entry at a Canadian port, but it is taken as a further step in the direction of freeing the St. Lawrence route from Governmental dues and taxes of

every kind, and of making Montreal a free port for ships.

DICKSON ANDERSON,

3. Does not section 4, subsection 6, of the Act 49 Victoria, chapter 76, give to fishing vessels the option of making voluntary payments, receiving hospital care in return; and is not a similar option denied to merchant vessels?

4. Are not Quebec vessels trading with the United States, besides being taxed 6 cents per ton per season at home and 15 cents per ton per season abroad, also required, in cases of sickness among their crew while in United States ports, to pay \$1.00 per day per man for hospital care in the Governmental hospitals of that country?

5. Do not the United authorities care for their own sick seamen in their Governmental hospitals free of charge and without imposing any countervailing taxation on their shipping?

6. Do not the Dominion authorities also arrange for the care of Canadian Lake seamen in hospitals at Kingston and St. Catharines without imposing a countervail-

ing tax on Ontario tonnage?

7. Will the Government consider the propriety of putting Quebec on the same footing as Ontario, and of reimbursing the tonnage owners of the former province the amount of the reprisal taxation which has been levied on their vessels in ports

of the United States during past years?

8. Is the Government not aware that (in addition to the Province of Ontario and the German Empire) the ports of the Netherlands and her colonies; ports in Spain and Portugal, in the British and Spanish West Indies, in the United States of Colombia, in Central America, and elsewhere, have been proclaimed free ports, having accepted the standing offer of the United States for the mutual abolition of tonnage dues on shipping?

9. Is not the present a favourable time to enter into negotiations with the United States for the mutual abolition of tonnage taxes on shipping, and will the Government

consider the advisability of doing so?

Mr. Grieve—On Friday next—Inquiry of Ministry—1. What is the description of the 139 manfacturing industries in the City of Stratford as given in the Census Report of 1891?

2. The name of the several manufacturers?

3. The number of hands employed in each establishment?

4. The value of land and buildings attached to each industry?

Mr. Denison—On Friday next—Inquiry of Ministry—Do the Government intend to prevent policy-holders and others interested in the statutory returns of insurance companies, from inspecting the same; and if so, for what reason?

Mr. Boyd—On Friday next—Address to His Excellency the Governor General for copies of all correspondence between the Government of the Dominion and that of Manitoba, relating to any applications by the latter Government for an advance of any part of the proceeds of the school lands in Manitoba, a statement of all sums that have been advanced to the Province of Manitoba in respect of such proceeds, with dates and items.

Mr. Boyd—On Friday next—Address to His Excellency the Governor-General for copies of all statements and claims submitted by the Provincial Government of Manitoba or any officer thereof to the Government of the Dominion or any department thereof, touching the amount of the capital account at the credit of Manitoba or touching any claim in respect thereof, not allowed by the Federal Government, and of all correspondence between the two Governments in respect thereof.

The House resumed the adjourned Debate on the proposed motion of Mr. Foster: "That Mr. Speaker do leave the Chair for the House to go again into Committee of Supply;" and the motion of Mr. Edgar in amendment thereto: "That all the words after the word "That" be left out, and the following inserted instead thereof:—"in the opinion of this House the evidence taken by the Royal Commission appointed last Session to inquire into certain charges made against the Honourable Sir A.P. Caron, K.C.M.G., M.P., which was reported to the Government on 24th November, 1892, and is now laid before us, establishes facts which should have prevented the subsequent appointment of Sir A. P. Caron to be an adviser of the Crown, and also, render it highly improper that he should continue to hold such office."

And the question being put on the amendment; it was negatived on the follow-

### JOHN SMITH, Acting Accountant.

Mr. Sproule, from the Select Standing Committee on Agriculture and Colonization, presented the Second Report of the said Committee, which is as follows:—

The investigations of the Committee have been made under three heads, viz.:

Agriculture, the Quarantines and Immigration.

On the first named, Agriculture and its subdivisions, the Committee have had before them and examined the several officers of the Experimental Farm at Ottawa, and the information obtained from each is hereunto appended, as forming part of

the Committee's report.

The officers examined were Mr. William Saunders, the Director; Mr. James W. Robertson, Dairy Commissioner and Agriculturist; Mr. James Fletcher, Entomologist and Botanist; Mr. F. T. Shutt, Chemist; Mr. John Craig, Horticulturist; and A. G. Gilbert, Poultry Manager. A letter was also read and put in evidence from Dr. William Alexander, of Aberdeen, Scotland, on the importance of improving the quality of the store cattle sent from Canada to Scotland.

The information furnished by Mr. Saunders shows the progress that has been made by the Experimental Farms in Canada, and contains facts of much practical interest for farmers, as well in relation to what has already been done as the experiments now going on. The extent to which the hybridigation or cross-cultivation of the several grains is being conducted is stated by Mr. Saunders to be the most unique in the world, and it gives promise of obtaining results which will be of great importance to the whole country.

The work done by Mr. Robertson, the Dairy Commissioner, in his branch of the Experimental Farm, cannot be over-estimated in its importance to the agriculturists of the country. It has already made itself manifest by marked improvement in the quality and increased exports of dairy products, while the interest which is everywhere being manifested by farmers gives promise of still more important results.

The information furnished by Mr. Fletcher, the Entomologist and Botanist, is of much interest and contains practical suggestions of value in relation to the utilization of the grasses for fodder and pasture, and the methods by which farmers may protect themselves from the injurious effects of fungous growths and destructive insects.

The information contained in the evidence of Mr. Shutt. the Chemist, cannot be too carefully studied by the farmers of Canada, especially with regard to the utiliza-

tion of available fertilizers.

The information furnished by Mr. Craig, the Horticulturist, contains practical directions for gardeners relative to the necessary operations to be carried on and the several spraying mixtures for protection, accompanied by actual reports of results obtained at the Central Farm.

Mr. Gilbert, the Poultry Manager of the Farm, showed in his evidence the very great value of the poultry interest of the Dominion. He reports on the several kinds of fowls, and points out those most profitable, both for eggs and marketing,

and gives the conditions necessary for successful results.

On the Cattle Quarantines, the Committee had before them Mr. Lowe, the Deputy Minister of Agriculture, and Professor McEachran, of Montreal, the chief inspector of stock in Canada. The action taken by the department and the Government in the Deminion, as well as by the High Commissioner and the Canadian Ministers in England, at the end of October and beginning of November last, are fully set forth in the evidence hereunto appended.

Three animals in Scotland, in October last, alleged to have come from Canada by the Steamers "Monkseaton" and "Hurona" were diagnosed by the Veterinary Officers of the Imperial Board of Agriculture to be affected wieh pleuro-pneumonia, and the law officers of the Crown thereupon advised the Board there was no other course open than to place Canada on the Schedule of countries from which importa-

tions of animals must be slaughtered on arrival.

The Committee are satisfied from a consideration of the facts laid before them, in evidence, that there is not, nor even has been, any pleuro-pneumonia among Canadian herds; and they are, therefore, of opinion that there must have been error in the diagnosis by the Imperial veterinary officers if there were none as respects the identity of the three animals in which it was alleged to have been found.

The Committee are satisfied that the Government have made every possible representation in the circumstances, to have the Dominion reinstated in its former position as respects the freedom from restriction in the export of animals to the

United Kingdom.

The Committee were informed that the Government on 18th February last withdrew the privilege in the North-west of allowing the entry of settlers' cattle from contiguous territory, in the same conditions of climate and country, where no contagious disease had been known, without a quarantine of 90 days, for the purpose of satisfying an Imperial requirement. The Committee was further informed that, on a joint report of the Ministers of Agriculture, the Interior and President of the Council, the services of the Mounted Police are to be very largely utilized for the protection of the frontier. the keeping of the quarantines, and affording all posssble facilities for the care of settlers' cattle, which have now to be detained in quarantine 90 days.

The disease of Tuberculosis which is known to prevail to some extent among cattle in Canada, as well as in those of the United States and the whole of Europe, and which was inquired into and reported on by a former Committee of Agriculture and Colonization, in the opinion of this Committee, calls for the serious consideration of the Government, with a view of taking the necessary measures for its extirpation.

As respects the measures for protecting the Dominion from a possible invasion of Asiatic Cholera during the coming season, announced to have been undertaken by the Government, the Committee have had before them, Mr. Gobeil, the Deputy Minister of Public Works. He stated that the work was well in hand, and that the station at Grosse Isle would be fully equipped at the opening of St. Lawrence navigation; also that all the other appliances for the other quarantine stations would be completed as soon thereafter as possible. All the old stations are to be thoroughly equipped with the most approved modern appliances, and William's Head, in the Strait of Fuca, British Columbia, is to be made as rapidly as possible a Quarantine Station of the first class.

On the subject of Immigration, the Committee have had before them Mr. A. M. Burgess, the Deputy-Minister of the Interior. He showed that active exertions are being made to promote the immigration to Canada of the classes desired and for the care and guidance of immigrants on their arrival. The number of homestead entries of returned Canadians and others from parts of the North-west States are very considerable. Particulars of the movement, as stated by Mr. Burgess, are contained in

the report of his evidence hereunto appended.

In the interests of agriculture and as the most direct means of benefiting the farmers by the investigations conducted on the Dominion Experimental Farms, the Committee recommend that the final report of this Committee for the current session of Parliament be printed to the number of 100,000 copies in the usual proportions of English and French, in addition to that of the "usual number for distribution," 2,475, or a total number of 102,475.

That 150,000 copies of each of the Experimental Farm Reports and of the Dairy Commissioner's Report for the last year be also printed. And all of the foregoing be equally distributed to, and only to, the Honourable the Members of the Senate

and the Members of the House of Commons.

And that there be also printed 500 copies of his own evidence before this Committee and given to each official of the Central Experimental Farm, for personal distribution.

Several important resolutions were passed by the Committee embodying their views on some of the subjects which engaged their attention, which will be found at the end of this report.

(For the evidence accompanying this Report, see Appendix to the Journals No. 1.)

The amendments made by the Senate to the following Bills were taken into consideration and agreed to, viz:—

Bill No. 36, to incorporate the Calgary Hydraulic Company. Bill No. 35, to incorporate the the Calgary Irrigation Company.

Bill No. 54, to incorporate the Alberta Irrigation Company.

"MAY IT PLEASE YOUR EXCELLENCY:

"The Commons of Canada have voted certain Supplies required to enable the Government to defray the expenses of the Public Service.

"In the name of the Commons, I present to Your Excellency the following Bill:—

"An Act for granting to Her Majesty certain sums of money required for defraying certain expenses of the Public Service, for the financial years ending respectively the 30th June, 1893, and the 30th June, 1894, and for other purposes relating to the Public Service,"—
to which Bill I humbly request Your Excellency's assent."

To this Bill the Royal Assent was signified in the following words:—

"In Her Majesty's name, His Excellency the Governor-General thanks Her Loyal Subjects, accepts their benevolence, and assents to this Bill."

After which His Excellency the Governor-General was pleased to close the Third Session of the Seventh Parliament of the Dominion with the following Speech:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In relieving you from attendance in Parliament for this year, I congratulate you upon the energy and promptitude with which you have disposed of the duties of the

session just ended.

The assembly at Paris of the Behring Sea Arbitration Tribunal gives reason to hope that the differences which have existed between the Government of the United States and the Government of the Dominion are approaching a satisfactory adjustment, while the nomination of the Prime Minister of Canada as one of the arbitrators affords a guarantee that the interests of our sealers will be properly though

not unduly safeguarded.

The treaty of commerce which was negotiated with France on behalf of Canada has been laid before you together with the correspondence which passed during the negotiations; but owing to the late period of the session at which the treaty was received, and the pendency of communications as to its bearing in respect of most-favoured-nation treatment and the interpretation of certain of its clauses, my Government has thought it advisable to postpone for the present its ratification by Parliament.

I thank you for the ample provisions you have made to protect the country from the possible introduction of cholera, and I trust that the precautions taken

will result in guarding against any danger from that source.

The liberal provisions made for the proper representation of Canada at the World's Columbian Exposition will, I doubt not, enable this country to make a worthy exhibit of her resources and progress among the nations of the World.

The various Acts which you have placed upon the Statute-book will contribute to the maintenance of public security and the continued progress of the Country.

Gentlemen of the House of Commons:

I thank you for the liberal provisions you have made for the requirements of the public service.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I feel with deep regret that the period of my official connection with the Dominion is drawing towards its close and that in all probability I am taking leave of you for the last time. Lest this should be the case, I desire to avail myself of the present occasion to express my abiding interest in all that concerns the welfare of Canada, and my sincere affection to her people, who have never failed to testify their loyalty to the person and throne of our Sovereign, and to show kindness and consideration to her representative. It will ever be my sincere desire to be of service to the Dominion and I shall continue to cherish feelings of the warmest solicitude for the welfare and prosperity of those amongst whom I have been placed during the past five years.

I pray that the blessing of Almighty God may at all times attend you.

THE SPEAKER of the Senate then said:

Honourable Gentlemen of the Senate, and Gentlemen of the House of Commons:

It is HIS EXCELLENCY THE GOVERNOR-GENERAL'S will and pleasure, that this Parliament be prorogued until Thursday, the eleventh day of May next, to be here held, and this Parliament is accordingly prorogued until the eleventh day of May next.

PETER WHITE, Speaker.
