POLICE AND RIOTERS FIGHT AT A MEETING IN THE WARD DISTURBERS WERE ARRESTED

Several Thousand Jews Mobbled Rev. Henry Singer When He Opened a Religious Meeting, and in a Few Minutes the Air Was Filled With Bricks and Stones—Several People Injured and Five Rioters Were Arrested.

Arrested.
Samuel Goldstein, 40 Kensington avenue, tailor, 16 years, charged with disorderly conduct.
Jack Poprowsky, 11 Kensington avenue, tailor, 16 years, charged with obstructing an arrest.
Samuel Greenberg, 5 Kensington avenue, barber, charged with disorderly conduct.
Percy Goldstein, 40 Kensington avenue, 9 years old, charged with disorderly conduct.
Mrs. Rosie Israelson, 11 Kensington avenue, charged with disorderly conduct.

Cause.
Rev. Henry Singer of 704 West Bloor street, Jewish missionary, who held a Christian meeting on the corner of St. Patrick street and Kensington avenue.

Injured.
Mrs. Ethel Goldstein, 40 Kensington avenue, crushed in the mob, when she fell over in a faint as she was trying to protect her nine-year-old son from being arrested.

Bricks, stones, dinner plates, crockery and sharp slabs of slate shot thru the atmosphere at the corner of St. Patrick street and Kensington avenue last night when four or five thousand Jews engaged in a riot with the police after an unsuccessful attempt had been made to drive Rev. Henry Singer, Jewish missionary, from Kensington avenue and break up his meeting. Pieces of granite rock weighing as much as half a pound were hurled thru the air in the missionary's direction, and it was a miracle that he escaped unhurt. Twice he dodged the rocks that were accurately aimed and one of these same rocks struck a comrade in the chest and caused a severe wound.

The riot was one of the fiercest that the police of Toronto have been called upon to quell; but they were ready for it, and to this fact is due the escape of Mr. Singer and his followers.

Last Monday evening Mr. Singer held a meeting at the same corner, but after being pelted with eggs, potatoes and onions he was forced to leave.

Trouble Began
It is stated that at that time Mr. Singer said that he would come back in a week and that he would bring the police to protect him. This warning was not heeded by the Jews in the district, for last night, shortly after Mr. Singer opened his meeting, trouble began.

The police expected that a fight would ensue if Mr. Singer persisted in holding a meeting on the corner, and as early as 8 o'clock Constables Udell, O'Shea, Forbes, Sinclair, Plajnocthesmen Ward, Lilly, Detective Holmes and Acting Detective Lewis were stationed at different points near the corner. A patrol wagon from the Claremont street police station hovered near the corner of St. Patrick street and Spadina avenue, so that no time would be lost if war broke out.

Mr. Singer had no sooner begun his meeting than he alleges that Mr. Goldstein, 40 Kensington avenue, walked up to him and said in Yiddish: "You are going to get killed here tonight," Mr. Singer replied: "Go away and mind your own business." After singing the hymn "Ho My Comrades See the Signal Waving in the Skies," Mr. Singer announced his text.

"As Moses lifted up the serpent in the wilderness, even so must the son of man be lifted up," was the burden of the message that the Christianized Jew wished to bring to the men of his own race; but scarcely had he begun to speak than his hostile brethren on both sides of the street began to drown out his voice by screaming at the top of their voices in a confusion of tongues.

Mr. Singer went up to the Greenburg house at 5 Kensington avenue and asked that the interruptions should cease, but no notice of his plea was taken. He then began his meeting again, when suddenly a white dinner plate shot forth from an upstairs window of the house at 5 Kensington avenue. The missile was hurled thru a tree so that its origin might not be discovered and it fell in the open circle about Mr. Singer and broke into pieces.

A General Assault.
The entrance of the dinner plate seemed to be the signal for a general assault on the meeting, for within a minute rocks were flying in every direction and the

One Man, One Vote

LONDON, July 14.—(Can. Press.)—The bill to abolish plural voting at elections in the British Isles passed its third reading in the house of commons tonight, after a motion to reject the bill had been defeated by 288 to 215. This bill passed its first reading on April 8, by a vote of 303 to 107. It embodies the principle of "One man one vote."

TORONTO MAN WRECK VICTIM

John C. Murray, One of the Twelve Who Met Death in Los Angeles Trolley Disaster.

Word was received in Toronto yesterday afternoon that John Carl Murray, 12 Olive avenue, was killed in the excursion wreck at Los Angeles Sunday night, as a result of which 12 persons are known to be dead and 40 injured. Mr. Murray was not a member of the Christian Endeavor tour, and on that account was not mentioned in Mr. Hewatson's despatch yesterday morning.

As it was previously reported that no Canadians were killed, no anxiety was felt by the family. Yesterday afternoon, however, a message came from an undertaker in Los Angeles announcing the death of the young Torontonian.

Speaking to The World last night, Horton Murray, a brother, said that only two months ago he left his brother in Los Angeles, where he was spending his time sight-seeing, as he was a great lover of the open air. He had been out there about a year, and intended coming home for a visit in the fall. The news of his death, following upon the first report, proved quite a shock to the family, and James Murray, father of the young man, left immediately for Los Angeles, where interment will take place.

The late Mr. Murray was 25 years of age. He was a few years ago an active worker in the old St. Mark's Presbyterian Church, which has since been renamed the Dale Presbyterian. Always interested in athletics, he was there an active member of the young men's club and a great friend of the boys. Up till a year ago, when he left for the west, he was secretary of the Vermont Athletic Club, situated in Vermont square.

HAVENS WINS AEROPLANE RACE.
CHARLEVOIX, Mich., July 14.—(Can. Press.)—Beckwith Havens, with J. B. Verplanck as passenger, was the first of the aviators in the Chicago to Detroit hydro-aeroplane cruise to reach this evening. The trip from Pentwater, from which place the start was made at 2.34 p.m., was uneventful. Only one stop was made, a shortage of gasoline making necessary a landing at Frankfort.

BERLIN PAYS 6 PER CENT.
BERLIN, Ont., July 14.—(Can. Press.)—The city council this evening accepted the offer of the Mutual Life of Canada, Waterloo, for the purchase of a block of thirty-year debentures amounting to \$1,368, bearing 6 per cent. interest at par.

TWO MEET DEATH FROM TRAIN WITHIN FEW MILES OF WHITBY

Fred Dunk, Cook on C. P. R. Construction Train Was Instantly Killed When Car Left Tracks.

WHITBY, Ont., July 14.—(Special.)—When the cook car of a Dominion Construction Co. boarding train left the rails two miles west of Whitby at 5.30 last night, Fred Dunk, cook, was instantly killed and his helper received wounds which will keep him laid up for several weeks. The car was fifth from the engine of a C. P. R. train coming into Whitby at the conclusion of construction work in that district.

The helper, whose name could not be ascertained last night, was burned about the arms when the stove fell upon him, and his legs were badly scalded. He was also cut about the head, but his skull is unfractured. He is now in Oshawa Hospital and will recover.

WILSON AVERTS BIG RAILWAY DISPUTE

U. S. President Held a Conference With Representatives of the Men and Companies Resulting in an Agreement to Arbitrate the Newlands-Clayton Act.

WASHINGTON, July 14.—(Can. Press.)—Representatives of the 80,000 conductors and trainmen of the eastern railroads, who have voted the strike for higher wages, and managing officials of the railroads agreed at the White House today to submit their differences to arbitration, under the provisions of the Newlands-Clayton Act, which President Wilson and congressional leaders promised to make law by tomorrow night. In the meantime, no strike will be declared, employees and officials asserted, the brotherhoods agreeing to an armistice until Wednesday night.

This victory for arbitration over the strike was the result of a conference at the White House between President Wilson and congressional leaders, the presidents and managers of the roads, and the representatives of the brotherhoods of the trainmen and conductors. The agreement not only averted, temporarily at least, the strike which threatened to tie up traffic generally, but smoothed up differences of opinion that had arisen in both houses as to the composition of the board of mediation, and provided a proper basis on which to deal with the dispute.

The way was cleared for prompt action in both houses, Senator Kern telephoning from the White House to have the senate adjourn until tomorrow instead of Thursday as contemplated, and Representative Clayton announcing that he would move to take from the speaker's table his bill which amends the act in conformity with the Newlands bill in the senate which would be attached.

Simple and Satisfactory.
The president later announced that he would sign a measure such as agreed upon and described the conference as "simple and satisfactory." Seth Low, president of the civic federation, who had been instrumental in bringing the railroad heads and labor leaders together, acted as spokesman for both sides, relating to the president

REBURN'S TRAP FAILS TO WORK

"Black Hand" Pair Escaped When Watcher Uttered an Exclamation.

ST. CATHARINES, July 14.—(Can. Press.)—The threat of "Black Hand" extortion of his whole family unless he placed \$1000 near the Grand Trunk tracks, received by John McNulty, a Merriton hotelman, was followed last week by a demand for \$2000 to be placed near the iron bridge at the old canal.

Provincial Inspector Reburn was detailed and set a trap early this morning. With several people from the village he hid in the vicinity where McNulty placed a package. Two men approached, but a premature exclamation by one of the watchers caused the pair to flee before they could be recognized.

G. T. R. Brakeman J. E. Hosken Fell From Steps of Caboose and Died While En Route to Hospital.

WHITBY, Ont., July 14.—(Special.)—Leaning from the caboose steps of a G. T. R. freight three miles west of Whitby last night, J. E. Hosken, brakeman, fell to his death and was picked up by a train which followed shortly afterwards. It is thought that he was struck by the projecting girder of a bridge.

Hooker had been stationed to look out along the train for hot boxes and other causes of trouble. No one saw him fall, and he had been picked up before his disappearance had been noticed on his own train. He was still breathing when taken on board the second train, but succumbed before Whitby was reached. He did not reside in Toronto.

POWERS UNABLE TO FORGE AN ARMISTICE

Sir Edward Grey, While Fully Recognizing Horrors of Balkan Struggle, Intimates That Concert of Europe is Practically Powerless—Little Fear of Further Complications.

LONDON, July 14.—(Can. Press.)—In the house of commons tonight, Sir Edward Grey, the British foreign secretary, replying to a suggestion that an armistice should be forced on the Balkan States, said that it was impossible to exaggerate the horror of the war, but mere words were not likely to affect the situation, and it would be most difficult for the concert of Europe to resort to force to impose peace.

Bulgaria had asked Russia to aid her in securing peace, and Serbia and Greece had agreed to cease hostilities under certain conditions. As to Turkey, no exception could be taken to her action so long as she adhered to the Enos-Midra line. The essential thing for the powers, said the foreign secretary, was to perfect and maintain an agreement. The war was so exhausted, that it could not be of long duration and no complications ought to arise endangering the European concert.

There was every reason to believe, he concluded, that matters would be brought to a satisfactory termination.

IVANOFF'S "SPLENDID RETREAT"

SOPIA, July 14.—(Can. Press.)—It is reported that Gen. Ivanoff has effected a splendid retreat. Semi-official statements have been issued, accusing the Greeks of setting fire to the Town of Seres, and declaring that the Bulgarians attempted valiantly to get the fire under control. Other statements charging the Greeks with wholesale massacres and atrocities in Seres and elsewhere in Macedonia were issued.

The Grain Grower Counts

And Everybody Now is Watching the Western Crop.

(Winnipeg Grain Growers' Guide, July 9). If there is anyone who doubts that the grain growers of the prairie provinces are one of the most important factors in our national life, the situation today will convince him. From the Atlantic to the Pacific the leading business men of Canada in every branch of our commercial life are watching the wheat crop of the prairies. In Winnipeg and prairie cities naturally the interest is very deep, but in Toronto and Montreal and even in St. John and Halifax, the business houses of Canada at this season are literally "sitting up nights" with the western wheat crop. Commercial travelers find that business now is comparatively dull and will be for the next two or three weeks until the crop is assured. A general crop failure in the three prairie provinces today would wreck hundreds of concerns in every city in Canada, because they have built their business on the expectation of sharing in the profits of the wheat crop of the prairies. There could not be a better illustration of the important position which the much-abused grain grower occupies in the economic fabric of the nation.

Up till a year ago, when he left for the west, he was secretary of the Vermont Athletic Club, situated in Vermont square.

There is no possibility of any grain blockade this fall on the Grand Trunk Pacific system, because the new route over the National Transcontinental will be in position to afford transportation for grain this winter.

Such was the statement made by Major Leonard, chairman of the Transcontinental Railway Commission.

Speaking of the work in progress on the line, Mr. Leonard stated that there were at present about five thousand men in employment on the line, and that the work was being pushed forward rapidly. Two end divisions of the transcontinental, that is to say, between the points of Graham and Armstrong, and between Hearst and Cochrane, are practically completed and ready to be taken over by the operating department.

Serious Revolt in China
PEKING, July 14.—(Can. Press.)—President Yuan Kai Kai has ordered reinforcements despatched to the Province of Kiangsi, where the cashiered governor and Gen. Hwang-hsing are leading rebellious troops. Heavy fighting has been going on at Kiu Kiang, where the insurgent forces number 9000. The blowing up of a fort and other acts, indicate that the Young China party is determined to force the issue.

SOME OPINIONS ON THE RESULT

SIR JAMES WHITNEY: It is a magnificent victory, and a very far-reaching one, indeed.

HON. W. J. HANNA (over the long-distance telephone from his home in Sarnta): The electors of North Grey did what anyone would have expected. They were fully acquainted with the issues and the worth of the government, and the hypocrisy of the leaders of the Liberal party, who went into North Grey to agitate the electors. There was no mistaking, from the time the electors got busy, what they were going to do.

N. W. ROWELL, K.C., M.L.A. (leader of the opposition): My information convinces me that the result in North Grey was due to the open combination between the Whitney government and the liquor interests, with unlimited financial resources at their disposal. For the sake of Mr. McQuaker, who was an exceptionally fine type of candidate, and the workers who stood so valiantly by him, I regret the result. The loss of the seat, however, will have its compensations if it helps to awaken the people of the province to the undoubted fact of an offensive and defensive alliance between the Whitney government and the liquor interests. When the people realize that this combination exists I do not believe that they will stand for it. This by-election is but an incident in the fight which will go on with unabated vigor for a progressive government and the abolition of the bar. We need the crusading spirit. It may require events like North Grey to awaken the people to the situation and develop this spirit.

Another Note of Warning
The great issues in this province turn on public rights, not on our drink habits; and The Globe has met a very perceptive in North Grey, where that paper and Mr. Rowell sought to put the hydro-electric policy of Sir James Whitney's Government based on public ownership of the policy of municipal reform, and the improvement of farming and social betterments. In a place secondary to the one issue of abolishing bars. It is not the bar, but how to improve farming, how to get a square deal for the people at the hands of the trusts and combines, and questions like these that command public attention. And as for Hon. Mr. Hanna, who had devoted himself largely to questions that concern our jails, prisons and asylums, he was certainly the last man on whom to make a dead-set because of a petty scandal in connection with his department. Probably the set-down of Mr. MacKay, as leader of the opposition, had also something to do with it. When The Christian Guardian made its attack on Globe methods, it must have been for substantial reasons.

Any way the result will be far-reaching. The Liberal party has still the work of reorganization before it; and we do not see how it can ever recover itself under the direction of men who have grown intolerant in their leadership and unprogressive in their policy. A Liberal party that is not progressive is without a trade and without standing ground.

N. T. R. TO AVERT GRAIN BLOCKADE
New Route Will Be Ready for Fall Movement, Says Major Leonard.

WINNIPEG, July 14.—(Special.)—There is no possibility of any grain blockade this fall on the Grand Trunk Pacific system, because the new route over the National Transcontinental will be in position to afford transportation for grain this winter.

Such was the statement made by Major Leonard, chairman of the Transcontinental Railway Commission.

Speaking of the work in progress on the line, Mr. Leonard stated that there were at present about five thousand men in employment on the line, and that the work was being pushed forward rapidly. Two end divisions of the transcontinental, that is to say, between the points of Graham and Armstrong, and between Hearst and Cochrane, are practically completed and ready to be taken over by the operating department.

CAMERON WINS IN NORTH GREY CONSERVATIVES GAIN A SEAT LIBERAL FOR FIFTEEN YEARS

More Than Three Hundred Majority for Whitney Government Candidate in By-Election Caused by Resignation of A. G. MacKay—"A Magnificent and Far Reaching Victory," Says Sir James, While Mr. Rowell Charges a Combination of the Provincial Government and the Liquor Interests.

By a Staff Reporter.
OWEN SOUND, July 14.—The part that the Proudfoot "charges" played in the North Grey by-election, as well as the result of a certain section of the Liberal party in Ontario practically compelling A. G. MacKay to resign the leadership of the Liberal party in Ontario, was shown here today in the by-election to fill the vacancy caused by Mr. MacKay's resignation. Colin Cameron, Conservative nominee, was elected over John McQuaker, the Liberal candidate, by a majority of 278.

For fifteen years Mr. MacKay represented the riding, which was considered always as a Liberal stronghold, altho the vote on many occasions was very close. It has been known for many months, in fact since Mr. MacKay "resigned" and went to Edmonton, that there was a feeling among his friends, especially the Liberals, that he had not been treated fairly, and they took their first opportunity of expressing themselves at the polls.

Others were dissatisfied with the action of the Liberal party in fighting the by-election on the abolish-the-bar policy, while still others, after attending the joint meeting between Hon. W. J. Hanna and Wm. Proudfoot last Saturday night, went to the polls this morning determined to vote for a man who would support the Whitney government and help in furthering the good things the government is carrying out in this province.

North Grey has thrown back the slanders against the premier of the province and the provincial secretary, into the teeth of the men who were so ill-advised as to take them. Also, it is a direct repudiation of the so-called Rowell policy.

The majority of Cameron and the victory for the Whitney government is a most notable one, that Hon. A. G. MacKay held the riding for years, and at the last election his majority was 741. This great handicap has been overcome.

Popular Victory.
That the victory was a most popular one is indicated by the fact that with the exception of The Hamilton section of 1911, never has Owen Sound witnessed so enthusiastic and large a celebration and procession as that which took place here tonight in honor of the winning candidate. It is estimated that there were 6000 people about the city hall when Mr. Cameron thanked his supporters.

The last days of the campaign were concentrated by both the candidates at Owen Sound and the immediate vicinity. On Friday night of last week Mr. McQuaker, the Liberal candidate, and Mr. Rowell, the leader of the opposition, appeared before a mass meeting and set out their views on the public questions of the day. Then on Saturday night was the meeting of the voters, and out there in the streets Hon. W. J. Hanna and Wm. Proudfoot at that occasion it was easy to foretell what the result would be. It was then only a matter of the majority.

Farmers Were Busy.
The organization of the Conservatives was particularly good and all day their autos and rigs were kept going at top speed getting the vote to the polls. The vote in the country was not very heavy for the reason that the farmers are busy with their work. Nevertheless the total will be found to be somewhat greater than in the last MacKay-Rowell election.

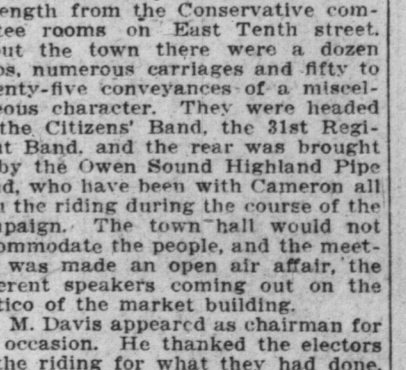

The first poll to be heard from in the evening was 8A, one in the central or business part of Owen Sound, in that it is one of the smallest in the riding; but whose voice almost invariably shows the feeling in North Grey. It gave Mr. Cameron a majority of 16, the vote standing 25 to 10.

Matter of Figures
Therefore it was only a matter of the figures by which the would be elected. The only serious slump was in the town of Meaford. The following are the majorities in the different municipalities:
Cameron—Owen Sound 290, Derby 13, Shallow Lake 40, Sarawak 33, St. Vincent 5.
McQuaker—Meaford 29, Keppel 7, Sydenham 87.

A Big Parade.
At 9 o'clock tonight the enthusiastic supporters of the Conservative candidate marched in a procession two blocks in length from the Conservative committee rooms on East Tenth street. About the town there were a dozen autos, numerous carriages and fifty to seventy-five conveyances of a miscellaneous character. They were headed by the Citizens' Band, the 21st Regiment Band, and the rear was brought up by the Owen Sound Highland Pipe Band, who have been with Cameron all thru the riding during the course of the campaign. The town hall would not accommodate the people, and the meeting was made an open air affair, the different speakers coming out on the portico of the market building.

J. M. Davis appeared as chairman for the occasion. He thanked the electors of the riding for what they had done. It was only a short time ago since the Liberals had been thanking the Conservatives for the assistance they had given in the election of a Liberal, and he knew he could thank many of the Liberals of the riding for what they had done today. He had returned the compliment which the Conservatives had helped to pay to Hon. A. G. MacKay.

Cameron of Owen Sound.
Then came Mr. Cameron. He thanked the electors of the riding in the usual felicitous terms. He thought they had made answer in no equivocal manner to the campaign of slander which had been directed at the provincial secretary. It would teach those men, who had fattened the charges, that when they came to the hard-headed electors of the province they would have to face

Dinen's Hat Bargains.
A few weeks more and the newspapers will contain our advertisement for furs and for the season 1912-14. It is to get in readiness for next season's fur business that we are making a clearing sale of summer hats of every description at prices without regard to cost.
Our stock of hats is not large, but it is probably the most varied in Canada. It includes the very best of Panama, and all the popular shapes, and a great variety of imported sailor hats from the most exclusive makers in England and the United States. We are selling a Panama hat for \$3.49, that has never been sold cheaper than \$4.50 in Toronto.
We are selling an English sailor straw, made by one of the most exclusive makers in London, for \$2.50, and this style of a straw hat has never been sold for less than \$3.50 in Toronto.
And so the bargains run, extending into cutting caps of every description. Bargains also in Dress Suits, Cases, Club Bags, Hat Boxes, Umbrellas, Raincoats.
Dinen's, 140 Yonge street, corner Temperance.

REPORT AGAINST SAND FILTRATION TO PREVENT WASTE

Investigators Declare It is Inferior to Mechanical System.

George Bury, Vice-President of Railway, Details Extensive Work Being Done.

ISLAND SITE FAULTY FORESTRY CONVENTION

Filtration Plant should Have Been Located on Garrison Common, Says Report.

While the slow sand method shows on a pumpage basis of 55,000,000 gallons per day, a saving of \$24,933 per year over the mechanical system, the report says that the duty of providing an absolutely continuous and safe supply of water, are, irrespective of cost considerations, forced to recommend the adoption of the mechanical system of filtration.

The above is the feature of the report upon additional water supply by Commissioner Harris, George G. Namath and Dr. Hastings, M. O. H.

Toronto's system now is slow sand filtration. For the past few months mechanical filtration was experimented with at West Toronto, and was a success. The report goes on to say:

"We have found in the operation of the island plant that, at times of easterly storms, the suspended matter carried from Scarborough, and particularly the fine sand carried in the water, has rendered the filters almost inoperative. Our experience in 1912 showed that the condition for four periods, and while by dint of great effort, we have never come to the point where actual cessation of filtering operations was necessary, we feel that a long continued easterly storm would probably so clog the filters as to render the use of raw water necessary.

"Again, from the latest of frost in the fall until the advent of warm weather in the spring, it is not possible to wash the sand scraped from the filter beds by the methods provided, inasmuch as the pipe lines, etc., would freeze and burst, and the sand and water would be frozen during the washing process. To overcome this, it was found necessary last summer to build a storage sand bin in each filter, wherein the sand scrapings for the winter were held. We have been working night and day since spring to wash this accumulation, plus the sand from the beds in operation, and the quantity necessary for re-planting.

"The complete construction of a slow sand filtration plant would take approximately three years, while a mechanical unit should be installed and in operation within 18 months.

"We deem it unfortunate that the filtration plant should have been erected at Toronto Island. The ideal place for such installation would have been on Garrison Common, which is within a convenient distance of the main pumping station, and would have been the strategic point at which, necessary, other than lake water could have been filtered.

"However, the cost of the island plant exceeds the retention of the island as a filtration site, unless the present plant is abandoned, which, we of course, cannot advise.

"The formation of the island is such as to render it an undesirable location for permanent construction of this nature, and the very extensive dredging operations which the harbor commissioners propose undertaking, may cause such dangers as to impede the present or any future installation which may be built there. This possibility may be remote, but is of sufficient moment to justify our directing your attention thereto.

"The continuity of a filtered water supply for 365 days per year is in our opinion the dominant factor in the consideration of this proposition. A shut-down during a storm period would entail the use of raw water by the citizens, at a time when it is usually most dangerous, least amenable to chlorine treatment, and liable to produce epidemics. Construction of either slow sand filtration beds or a mechanical filter system would cost the same amount, one million dollars.

The report was adopted by the works committee.

PART C. P. R. PLAYS TO PREVENT WASTE

George Bury, Vice-President of Railway, Details Extensive Work Being Done.

George Bury, vice-president of the Canadian Pacific Railway, pointed out what has been done and what remains to be done by associations, individuals and governments in the work of preserving the timber areas of Canada, and it was further demonstrated that if governments could be induced to take the same interest in the care of these important assets of our country, as many individuals merely from a patriotic motive, change for the better.

While it is admitted that Canada does more than any other country on the continent for the conservation of trees and forest resources, it is nevertheless, obvious to any who study the subject, that our timber resources are gradually being depleted, and that the constructive work which in the majority of instances, owe their origin to the carelessness and lack of preventive precaution.

The claim is made that outside of Germany, the Canadian Pacific Railway does more than any other force, in spending itself in guarding the trees. It owns by the most elaborate patrol system, and carrying out of this work, the right of way has been cleared as closely as possible and all debris obliterated. The most modern and approved spark arresters have been adopted for use on locomotives, and water of the engine is run thru the ash pan to obviate any danger from live coal, and more than all, as fuel has been adopted in the heavily timbered mountain regions.

Government Careless

In contrast to this a trip over roads built by provincial governments in recent years has shown that no precautions are taken to dispose of slashings left by road builders or settlers. Fires are left unquenched and industries innumerable are offered to destructive burning fires.

Suggestions to both provincial and federal governments are that the open burning of the saw mill be abolished. Those who leave unquenched fires should be followed and punished, better patrol should be employed on the timber limits and mill districts. Logging railways must also be brought under the preservation of the timber limits means a large increase in assets to a railway. It is apparent that they will naturally employ as many as possible for this end, but in doing this they have to contend with the carelessness of the trespassers, prospectors, and others, who are engaged upon personal interests and from the most part are without organized authority. The idea that nature would do the work of re-planting is exploded. Man must assist nature and do so by a system of preservation.

Forestry Taxation

In this connection the relationship between the question of forest protection and an equitable system of forest taxation is worthy of the most careful consideration. That would give a proper classification of agricultural and timber lands and the adoption of a fair and equitable system of taxation on the latter, would encourage the investment of lands unfit for agriculture, and the purpose of subjecting them to the payment of a fair and equitable forest tax. Without the encouragement of this equitable forest tax there is little hope of undertakings of any magnitude along the lines mentioned.

The Hop Growers of old Bohemia know that Anheuser-Busch are by far the world's largest buyers of Saazer Hops. It's the exclusive Hop flavor which makes

"The complete construction of a slow sand filtration plant would take approximately three years, while a mechanical unit should be installed and in operation within 18 months.

"We deem it unfortunate that the filtration plant should have been erected at Toronto Island. The ideal place for such installation would have been on Garrison Common, which is within a convenient distance of the main pumping station, and would have been the strategic point at which, necessary, other than lake water could have been filtered.

"However, the cost of the island plant exceeds the retention of the island as a filtration site, unless the present plant is abandoned, which, we of course, cannot advise.

"The formation of the island is such as to render it an undesirable location for permanent construction of this nature, and the very extensive dredging operations which the harbor commissioners propose undertaking, may cause such dangers as to impede the present or any future installation which may be built there. This possibility may be remote, but is of sufficient moment to justify our directing your attention thereto.

"The continuity of a filtered water supply for 365 days per year is in our opinion the dominant factor in the consideration of this proposition. A shut-down during a storm period would entail the use of raw water by the citizens, at a time when it is usually most dangerous, least amenable to chlorine treatment, and liable to produce epidemics. Construction of either slow sand filtration beds or a mechanical filter system would cost the same amount, one million dollars.

The report was adopted by the works committee.

AGENT SWINDLES NEW ARRIVALS

Sudbury Man Overcharged Foreign Immigrants and Pays a Fine.

SUDBURY, July 14.—(Can. Press.)—Because he charged an immigrant more than the actual cost of transportation, contrary to the Immigration Act, information was laid against Wm. Saponikoff, of the National Employment Agency here by immigration inspector Reynolds of Ottawa, before Police Magistrate Brodie on Saturday. Saponikoff pleaded guilty and was fined the maximum penalty, \$100 for each of three months' in jail. He paid the fine.

Late in June, Foley Brothers and the Northern Construction Co., gave the city hall a written order for 195 men to be employed on construction work at Hobson Ont., and other centres. Armed with the orders, Saponikoff proceeded to Montreal, and was successful with the assistance of three employment agents in that city, in securing the help required. Having to purchase them one hundred tickets, Saponikoff was given a reduced rate of one and one half cents per mile charge of three cents.

Complaints Exposed Swindle.

Under agreement with the employment agents, the cost of transportation is advanced by the firm, the amount being deducted from the wages of the immigrant. When Saponikoff rendered his bill to Foley Bros., it was discovered he had charged three cents migrant the full amount of three cents per mile. Two of the foreigners overcharged the cost of transportation to the immigration authorities at Ottawa, who investigated and the conviction followed.

This is the sixth prosecution and conviction here since the operation of employment agencies was placed under the control of the immigration department.

HARD KNOCKS FOR BUILDING BYLAW

Ald. Burgess Calls it a Joke—Better Fire Protection at Island.

"The building bylaw is a joke," Ald. Burgess remarked in the meeting of the property committee yesterday, when a citizen asked permission to build a private garage on his property and was held up by the bylaw.

"The building bylaw is bad," said Ald. Meredith.

Commissioner Chisholm is to report upon the matter to the board of control. If there is no opposition to the garage by the neighbors, the permit will be recommended.

Four additional telephone trunk lines for the city hall were recommended, there now being 93 calls per day.

"The annex can be spared from the city cattle market," said Controller O'Neill. "We have plenty of space without the annex, for we will have double-deck concrete pens for the stock." This was the opinion upon transferring the annex to a separate cleaning department, as a site for a garbage reduction and incinerator.

Ald. Wanless challenged the right to use the annex for any other purpose than a cattle market.

"The annex would have to be purchased by the city," he said. "Investigation," said Commissioner Chisholm, "and there is no appropriation for it, and there is now worth about \$250,000."

The matter was referred to Commissioner Chisholm to report.

Ald. Risk urged the immediate purchase of a 100-acre farm for an industrial farm for women, and his motion to that effect was carried.

Ald. Burgess put thru a motion for betterment of fire protection at the island and in the harbor.

ENTRIES AT BISLEY SHOW AN INCREASE

LONDON, July 14.—(C. A. P.)—The National Rifle Association meeting opened today at Bisley. Graying increases in the entries are recorded in the major competitions compared with the corresponding date last year.

This year's entry for 1913, for the King's prize shows a drop of five, but nine days remain to account for 65 entries yet needed to bring the total to the equal final entry of last year.

For the St. George's Challenge Vase 104 entries compare with 91; for the Prince of Wales series, 307 competitors are entered against 275 last year, and for the Alexandra series, 331 against 734.

The Canadians are all in fine form, and somewhat chagrined at their ill-luck to the Empire trophy match fired last week.

TORONTO VICTIMS' BODIES RECOVERED

BUFFALO, July 14.—The bodies of Capt. Barney McIntyre and his wife, Elizabeth McIntyre, of Toronto, who were drowned in the foundering of the coal sailing barge, Abnabelle Wilson, off Point Gratiot, in Lake Erie yesterday, were recovered today.

Capt. Barney McIntyre and Mrs. McIntyre live when in the city with Mr. John Ede of 29 Salisbury avenue. Mr. Ede, who is a gardener at the General Hospital, is a brother-in-law of the captain, and was falsely rumored to have been on the vessel when she foundered.

The report probably arose from the fact that Mr. Ede took a pleasure trip on the barge last year, and was intending to do so some time later this summer.

ROYAL COLONIAL INSTITUTE.

LONDON, July 14.—(C. A. P.)—The following Canadians have been elected to the fellowship of the Royal Colonial Institute: Joseph G. Boyd (Belgium), James S. Bierly (Montreal), David R. Brown (Montreal), George J. Bryan (Canada), George Darling (Montreal), George A. Henderson (Vermon, B.C.), Robert J. Lecky (Regina), Fred Southam (Montreal), Arthur Murdoch Whitehead (Vancouver), John H. H. Young (Regina).

HON. J. D. HAZEN GOES WEST.

OTTAWA, July 14.—Hon. J. D. Hazen, minister of marine, left this afternoon for Vancouver to represent the government at the welcome to the Dominion of the Queen's Charities, and to visit the coast fishery problems, and will go to Prince Rupert and possibly to Dawson City. He is accompanied by Mrs. Hazen.

Don't forget the annual Herb Lennox picnic, which will be held at Jackson's Point, Lake Simcoe, on Wednesday of this week. Special train leaves the Union Depot at 9:10 a.m.

FOUR RESCUED FROM WATERS OF ST. CLAIR

SARNIA, July 14.—(Special.)—Drifting down the river St. Clair, past Point Edward, late last evening, four young men, James Johnson, Arthur Goodwin, Wm. Wilson, and Charles Dupes, were removed from their perilous position on the bottom of a big sailing yacht, which had been capsized out in Lake Huron. The boys had been enjoying the good wind and waves when a heavy gust turned the boat over, throwing them all into the water. They succeeded in getting hold of the life lines and getting on to the boat, where they were noticed by Capt. Egbert of the Point Edward ferry.

FIRST OF COTTON CROP SOLD

NEW YORK, July 14.—(Can. Press.)—The first bale of cotton of the 1913 crop was sold at auction on the New York Cotton Exchange today for 29 cents a pound. The money goes to charity. The bale, weighing 565 lbs., was raised at Lyford, Cameron County, Texas, and was shipped thru W. D. Cleveland and Co., of Houston.

NO OPPOSITION TO ROUMANIANS

"Welcome to Our City" is Sofia's Attitude—Gruesome Relics in Pockets.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World.

LONDON, July 14.—(The Times Saloon correspondent writes: "In the pockets of some of the 1400 Bulgarian prisoners, who arrived yesterday, were found female ears with earrings still hanging to them and human fingers still adorned with rings."

The Times Sofia correspondent writes: "No attempt of any kind will be made to oppose the triumphant progress of the Roumanian troops. Local authorities have been instructed to maintain a passive attitude and the few troops who may be found in invaded districts will be ordered to withdraw. The population consisting mainly of women, children and old men, have been advised to receive intruders as guests and public buildings will be placed at their disposal. So far as any opposition is concerned, the Roumanian warriors may leave their martial paucity at home and make arrangements for an agreeable picnic at harvest time."

TAYLOR-FORBES LAWN MOWERS

Mechanically Perfect

Taylor-Forbes lawn mowers are mechanically perfect—there is no improved feature in lawn mower construction that is not built into the Taylor-Forbes machine.

They have all the mechanical perfection, and all the quality in material that any lawn mower, no matter how expensive, can possess.

And along with this, Taylor-Forbes lawn mowers have blades and knives made of imported genuine Sheffield steel.

There are other lawn mowers sold in Canada, but none with the same success as that enjoyed by the Taylor-Forbes, the most widely used lawn mower in Canada, and the most extensively exported made-in-Canada lawn mower.

NEW LIBERAL PAPER MAKES GOOD START

MONTREAL, July 14.—(Can. Press.)—The Daily Telegraph and Daily Witness, the new Liberal paper here, the first issue of which appeared on Saturday, is receiving telegrams of congratulation from prominent Liberals and contemporaries all over the Dominion. It appears to have made an excellent beginning and unable to supply the demand for its first issue, and in face of the steady influx of subscriptions, the publishers have ordered new machinery, and until it arrives will get some of the work on the paper done in the offices of other local papers.

LENNOX PICNIC

—AT—
JACKSON'S POINT
Tomorrow

On account of the record crowd promised for the "greatest annual picnic in the world," the committee in charge have arranged for a third special train, which will run from Scarborough Junction to Jackson's Point on Wednesday morning, as follows:

Stations	Time	Return Para.
Scarboro Jct.	7:30 a.m.	\$1.05
Agincourt	7:40 "	1.05
Milliken	7:47 "	1.00
Unionville	7:55 "	1.00
Markham	8:00 "	.85
Jackson's Point	9:30 "	—

Returning, this train will leave Jackson's Point at 6:15 p.m.

A special train will leave the Union Depot, Toronto, at 9:10 a.m., and another will leave Beaverton at 7:00 a.m., as per the schedule already published.

EVERYBODY WELCOME.

MISS PANKHURST ESCAPES PURSUIT

Escapes From Police in Riot Following Meeting, and is Safe in Apartment.

LONDON, July 14.—(Can. Press).—Mrs. Emmeline Pankhurst, the leader of the suffragettes, made her escape from the police today under exciting circumstances. With Miss Annie Kennedy, one of the most ardent of the militants, she appeared this afternoon at a meeting of the Women's Social and Political Union.

Both women, who were suffering severely from the effects of their recent hunger strikes in prison, delivered stirring addresses. Mrs. Pankhurst announced she would rather die than submit to the government. "My challenge to the government is: Give me freedom or kill me," she said.

Miss Kennedy auctioned off two of her licenses under the "cat and mouse" act for \$30 each. The police undertook to arrest Mrs. Pankhurst and Miss Kennedy; Mrs. Pankhurst fled from the building, making her escape in a taxicab. She was pursued, but so wild were the scenes of disorder outside the pavilion that she got away in the confusion. Late tonight she was at her apartment in Westminster, and the police made no further attempt to place her under arrest.

CROTHERS UNABLE TO SETTLE STRIKE

Situation of Miners on Vancouver Island Steadily Growing Worse.

VANCOUVER, July 14.—(Can. Press).—Hon. T. W. Crothers, Canada's minister of labor, has returned from Nanaimo, having been unsuccessful in assisting a settlement of the coal miners strike on Vancouver Island.

HARVESTERS FROM BRITISH COLUMBIA

Manitoba Fears Shortage of Men to Handle Big Crop.

WINNIPEG, July 14.—(Can. Press).—British Columbia is being requested to send men east to help in the Manitoba harvesting operations this year, and a formal application to this effect has been made upon the British Columbia Government by the Manitoba department of agriculture and irrigation.

TORONTO PARTY ON A DISABLED YACHT

William Jarvis and Others on Seneca Send to Kingston For Relief.

KINGSTON, July 14.—(Special).—At 11 o'clock this morning Dr. Jock Harty received a message stating the yacht Seneca, with William Jarvis, son of Aemilius Jarvis of Toronto, and party on board, had met with trouble while on the way to Put-In-Bay, having left Kingston on a pleasure trip.

TORONTO MAN TO BUY MINE IN B. C.

EDMONTON, July 14.—(Can. Press).—W. E. Edwards of Toronto, who is one of the largest shareholders in the Dome Mine and Dome Extension at Porcupine, has acquired an \$150,000 bond for the purchase of the mining claims of the Surf Inlet Gold Mines, Ltd., on Princess Royal Island, 400 miles up the coast.

WILSON AVERTS RAILWAY DISPUTE

(Continued From Page 1.)

The details of the legislative situation that had arisen in the attempt to provide a substitute for the Erdman Act. The original board of arbitration provided under that act was independent of any government department, but one of its members—the commissioner of labor—had since been included under the department of labor, where his duties had been increased so that only a portion of his time could be given to labor disputes.

The bill introduced in the house of representatives by Representative Clayton, chairman of the judiciary committee, originally was identical with that introduced in the senate by Senator Newlands, but had been amended at the instance of Secretary Wilson, who wished the arbitration board to consist of nine members, who were to be under the jurisdiction of his department.

At today's conference, however, Secretary Wilson, while still expressing his preference for the amended Clayton bill, announced that he would insist on it, and an agreement was reached to put thru the Newlands bill, of which both parties to the controversy has approved, with two minor provisions of the Clayton bill incorporated. Before tomorrow night both houses probably will have passed a perfected bill to be sent to the president for his signature.

The perfected bill will create the United States board of mediation and conciliation, to be composed of a commissioner of mediation and conciliation, appointed by the president, by the consent of the senate, with a salary of \$7500 and a tenure of seven years, and not more than two other government members appointed by the president, with the consent of the senate, who shall be designated by him. There also would be an assistant commissioner, with a salary of \$5000, authorized to act in the commissioner's absence.

A wider scope. President Wilson declared that while the Erdman Act originally contemplated a controversy between a single railroad and its employees, the scope had been widened so as to deal with a series of railroads. He referred to the suggestions made as "just and reasonable" and may, no reason, he said, "why congress should not act upon them now to prevent a great inconvenience and perhaps a disastrous stoppage of the carrying business of the country."

"We have until Wednesday night in which to effect an amicable settlement," said Mr. Garrison, after the meeting. "We are willing to avail ourselves of every means for a reasonable settlement. Should congress fail to act, then the entire subject will be referred to the committee for action."

POLICE AND RIOTERS FIGHT IN THE WARD

(Continued From Page 1.)

street was a jam of people excited, angry and afraid all at the same time. After getting rid of the bricks and stones the hurlers fled towards their homes, thinking that if once they got inside the doors that they would be safe. The police were not to be fooled this way, however, for in a number of cases they followed the men into their homes and made arrests.

The street at this time was more alive than it has ever been before. From St. Patrick street up Kensington avenue for 200 yards pandemonium reigned. More than half of the throng were children and in the scuffling about many of them were trampled over in the roadway.

The First Arrest. Plainclothesman Ward made the first arrest when Samuel Goldstein threw a rock at Mr. Singer and was stooping to pick up another. Ward caught his prisoner around the back, but Popovsky and a band of followers came to their comrade's assistance and a merry battle ensued. Ward was dragged for yards up the street, but he clung to his man and a moment later Lilly and a number of constables came to his assistance and arrested three.

The entrance of the police into the affair rankled the residents on the street, who claim that in making the arrests the police acted brutally. The treatment by the police of Mr. Rose, a resident of Kensington avenue was the cause of much noise. Mrs. Israelson claims that she had nothing to do with the disorder, but that when she was running towards her home to get under cover, a constable arrested her and forced her arms behind her back.

Finished the Meeting. The real war was over inside of half an hour, but for another hour confusion filled the street and the police were kept busy breaking up the disputes. Mr. Singer went back to the dangerous corner to finish his meeting, so that in a certain sense he was triumphant. He did not remain on the corner very long, however, and after he left the Jews began a meeting of their own.

YORK COUNTY HORSES, BUGGIES, HARNESS, BURNED

LOCAL OPTIONISTS BUSY IN SCARBORO

Deputation Wanted Bylaw Submitted Without Regular Petition.

REQUEST WAS REFUSED

Council Decide to Limit Widening to Certain Roads.

Temperance advocates are again active in Scarborough Township. At the council meeting held at Woburn yesterday, a deputation appeared to ask that a local option bylaw be submitted without a petition being presented, as is usually done.

Robert M. Lovelace of Agincourt said that while they had not had a three-fifths majority when the bylaw was submitted last time, they had a sufficient majority to justify the council submitting an order bylaw on their own initiative at the request of a deputation.

Others present who addressed the council were Rev. James Anthony of Knox Church, Rev. H. J. Farinacci of St. Andrew's, Rev. W. D. Douglas of Washington and Rev. N. C. Campbell of Melville Church.

Reeve Cornell told the deputation that the council would go into the matter later on in the day and let them know the result.

When the subject did come up, the general opinion seemed to be that the council would not be justified in submitting a bylaw without a petition being presented in the regular way, and some thought that the canvass necessary to get signatures to a petition would do the temperance cause more good than any irregular action on their part.

After some discussion regarding ways and means in the matter of the sale of school debentures, a bylaw was passed authorizing the hypothecation of the debentures to the Dominion Bank as security for a loan of the money required to carry on the work of building the three schools. The new buildings now being erected are in Scarborough Village, Agincourt and S.S. No. 12.

With regard to the proposed extension of Bloor street to the Kingston road, a motion was passed instructing the clerk, Mr. Crawford, to write to Mr. Gibson, the township surveyor, asking him to survey the road and make a rough estimate of the amount of grading involved.

A letter was read from F. A. Gaby of the Hydro-Electric Commission, acknowledging receipt of a certified copy of a resolution of the Toronto & Port Perry Hydro-Rail, and stating that their engineers would get in touch with the council as soon as possible to get the necessary information on which to base their estimates.

In view of the constantly increasing cost of statute labor, the council, on Reeve Cornell's suggestion, decided to establish a certain figure for expenditure on each division, and try and get the commissioners to keep within the estimate.

Too Many Sideroads. Reporting to the council regarding the conference with the city council re the wide roads required by the new Suburban Plans Act, the reeve said that he had pointed out to the city that Scarborough Township had so many sideroads that it would be an outrage to require them all to be 86 feet wide.

In view of this it was arranged that the township council should name certain roads that they would like to have widened to 86 feet and endeavor to arrive at an understanding.

Councillor Liddle reported that he had been receiving a number of complaints regarding the condition of Kennedy road. He thought the present arrangement would not be very satisfactory unless there were some way in which they could compel the commission to look after the work.

On his motion the clerk was instructed to request the Good Roads Commission to keep the roads and bridges in the township in a proper state of repair. Councillor Stewart moved that the clerk be instructed to notify the trustees of S.S. No. 7 to remove fences from the roadway between lots 8 and 9, con. 1, and that the commissioner be instructed to open the road for traffic.

Consequent on the incorporation of Agincourt as a police village, an agreement is now being prepared between the township and the village regarding the taxes to be levied, and the method of collection, etc., while the matter was discussed it will not be finally settled until a future meeting.

A report was received from County Clerk R. W. Phillips of the taxes to be levied this year in the township, as follows: General purpose account, \$6,569.84; Industrial Home, 1,848.45; Court house debentures, 1,888.15; Good roads debentures, 2,458; Good roads maintenance, 1,216.13; Total, \$10,255.54.

WANT LIGHT ON WIRELESS PLANS

But Postmaster Samuel Declines to Discuss Correspondence With Pelletier

LONDON, July 15.—(C.A.P.).—The desire of many members of the house of commons to have full enquiry into the merits of rival wireless systems, was shown again in the house yesterday, when numerous questions were put as to the Goldschmidt system.

Calling attention to the Canadian Government's agreement with the Foudin Company, George Touche asked Postmaster Samuel why he had not thought fit to disclose these negotiations to this house, and particularly any correspondence he had had with Hon. Mr. Pelletier on the matter.

Postmaster Samuel, replying, said: "The Hon. Mr. Pelletier informed me of the negotiations, but it would have been obviously improper for me to have communicated to the house negotiations which had no reference to the proposal I had laid before parliament, and which were still proceeding between the postmaster-general and a commercial syndicate. The Canadian agreement is of a wholly different character from the proposed one for an imperial wireless chain."

The obligations upon the Canadian Government are to grant the necessary licenses, to secure certain exemption from Canadian patent laws relating to the manufacture of apparatus outside of Canada, and to take measures to facilitate the transmission of the company's telegrams over land lines belonging to Canadian telegraph companies.

Touche: Will the right hon. gentleman consider that treating official correspondence as confidential goes a long way to impair the control of the house over matters of national importance, and will he lay the correspondence with Mr. Pelletier on the table, as in the case of the Goldschmidt correspondence?

Samuel: No, sir; the correspondence has no relation to the proposal for an imperial wireless chain. It was never proposed to conduct a transatlantic service, nor does it correspond with the Hon. Mr. Pelletier's proposal for a transatlantic service, nor does it correspond with the Hon. Mr. Pelletier's proposal for a transatlantic service.

TIFFIN FOR TORONTO.

MONCTON, N. B., July 14.—E. Tiffin, former general traffic manager of the Intercolonial, left today for Toronto, where he will in the future fill the position of district traffic agent for the government railway.

APPEAL TO SERBIA.

BELGRADE, July 14.—(Can. Press).—Only outpost engagements along the frontier occurred today. It is reported that Bulgarians have made direct overtures to Serbia for an armistice.

GOOD INCREASE IN ACREAGE OF CROPS

While Condition is Shown in Official Report to Be Excellent.

OTTAWA, July 14.—(Can. Press).—Reports received from correspondents at the end of June enable the census and statistics office to issue finally revised estimates of the areas sown to spring crops this year and also estimates of the areas devoted to the later sown cereals and hood crops. With regard to wheat the reports are entirely confirmatory of those issued a month ago, and the area under wheat in Canada is therefore finally placed at 9,816,300 acres or 57,590 acres more than in 1912.

Accidents

Charles Peers of 385 Sackville street, a driver employed by Henry Shaw, was run down by an automobile at Yonge and Huron streets at 6 o'clock last night and had to be taken to St. Michael's Hospital. He has a crushed foot.

Jack Swartz of 9 Casimir street, a newsboy, broke his left collarbone at 6 o'clock last night, when he jumped The News' motor delivery truck as it was flying up Yonge street past Wilton avenue. Jake tried to jump off the car with 50 newspapers under his arm, when he met with his ill-luck.

Fondness for his bath on the part of Alfred Baker, the two-year-old son of Mr. and Mrs. Baker of 440 West King street may result in the child's death. Yesterday when his mother was getting a tub of water ready to give him a bath the little boy climbed into the tub too soon and received scalds which will likely prove fatal.

Mrs. Baker had just put some boiling water in the tub and had gone for some cold water to cool it, when the little boy jumped in the tub over when his feet touched the water and was scalded half way up his back. He is now in the Sick Children's Hospital.

TO FORCE TERMS ON BATTLEFIELD

Servia and Greece Ignore Russia's Proposal That Hostilities Be Brought to End.

LONDON, July 14.—(Can. Press).—That the Balkan struggle will end by a process of mutual exhaustion seems the only hope that Sir Edward Grey, the British foreign secretary, is able to hold out. In a statement in the house of commons tonight, he said that mere words were not likely to affect the situation, and it would be most difficult for the European powers to resort to force to impose peace.

Neither Servia nor Greece has paid any attention to Russia's proposal that they cease hostilities. They appear determined to negotiate peace with Bulgaria only on the terms without intervention by any third party, and unless Bulgaria proves amenable it is believed that an advance will be made upon Sofia to enforce acceptance of the Servo-Greek terms.

Serious fighting for the time being is suspended, but the advance of the Turkish and Rumanian troops continues without opposition.

Secret Treaty Signed. A Belgrade report says the Servians on Sunday captured an important position eight miles west of Kustendil. According to the Athens correspondent of The Daily Telegraph, Greece and Servia signed a secret treaty last May, binding them to prosecute a war, which was then foreseen, with Bulgaria until the Bulgars acquiesced in the territorial arrangements laid down in the treaty. By these arrangements the eastern boundaries of Greece would be extended to the Meza River, considerably to the east of Drama, and Servia would have access to the Aegean Sea at two points.

How Major Cockburn Died

MAPLE CREEK, Sask., July 14.—(Can. Press).—Major Churchill Cockburn, V.C., who was killed Saturday on his farm at Graeburn, Alberta, 20 miles southwest of here, was kicked in the stomach by a horse. It appears that he and his man were halting a horse, and had an extra vicious one they were trying to get into the chute. His man went to the barn to get a rope, telling the major not to go near the horse.

At this instant the hired man's prod rode up and the two went to the barn. The major must have disregarded the man's instructions and went up behind the horse, which kicked him with both hind feet, killing him instantly.

FOR ONE COUPON

Clipped from the current issue of the **TORONTO MORNING WORLD**

You can choose from a multitude of colors, including imperial purple, royal blue, brown, black, yellow, crimson and scarlet, in a variety of shades.

THREE PENNANTS

Canada
Toronto
Hamilton

Each with crest and monogram, and equipped with straps, with which to attach them to that motor car, boat, tent pole or flagstaff. Made of the best college felt, the colors will not fade or run.

Clip the Coupon today, and present it together with 22 cents for each Pennant (by mail 2 cents extra) at The World Office, 40 Richmond Street West, Toronto, or 15 Main Street East, Hamilton.

NOTE.—Many people are buying Pennants as souvenirs and sending them to their friends abroad. Present your visitors with one, they will favorably remember Toronto and Canada.

MAETERLINCK AND HIS ACTRESS WIFE ARE AN IDEAL COUPLE

The Royal Highnesses the Duke of Connaught and Princess Patricia of Connaught, attended by Captain Buller, honored General the Right Hon. Sir Neville and the Hon. Lady Lytton...

New Institution on Yorkville Avenue Modern in Every Respect. COMFORTABLE ROOMS. Wards Will Accommodate Thirty-Five Patients—Miss M. Power in Charge.

She Shares His Literary Tastes and He Greatly Admires Her Operatic Talent—Without Her Half of His Best Work Would Not Have Been Written.

Lord and Lady Edward Fitzgerald are in Montreal for a few days, and are expected back in town on Wednesday.

ELSIE LUCY FINN (Are You a Piano Pounder?) The noisiest piano din Is made by Elsie Lucy Finn. Her family, and all around her Call her the "prize piano-pounder." But Goops, who cannot play in tune, Exhaust my patience very soon!

In an altogether new dress and looking as apt and span as can be imagined, the Lynhurst Hospital, formerly located at 22 College street, opened its doors anew to the public at 109 Yorkville avenue, yesterday afternoon.

WITH HIGH OR NATURAL WAIST LINE, WITH OR WITHOUT STRAP ON BACK AND OPENINGS AT SIDE SEAMS.

Special Cable to The World. Copyrighted by The Toronto World and N. Y. World. LONDON, July 14.—Georgette Leblanc, Maeterlinck's talented wife, and the company that supported her in Paris in her husband's religious drama, "Marie Madeleine," made such an impression on an American impresario...

Miss Memory, who has been visiting Mrs. T. J. Clark, has left for the Georgian Bay to visit Mrs. W. B. Maclean.

Don't Be A Goop! Have you ever sent a child into a room for something that you knew was directly in front of him, and have him return without it?

There seems to be no limit to the variations of the two-piece skirt. Here is one of the newest with the fullness at the sides drawn in and held by the overlapped edges below.

Maeterlinck has no more fervent admirer than his clever wife, without whom, it is said, and with truth, that he never has been able to do anything that he has never been written. For example, "I feel safer still in France," he said.

While in Winnipeg, Miss Saunders accompanied her hostess, Miss Helen to Kenora, where they spent a few days with D. C. Cameron.

NURSERY

Seven Trained Nurses. The hospital is everything to commend it. In addition to her Canadian training and experience, the superintendent, who is a graduate of St. Michael's Hospital, had several years' service with the Red Cross and surgical cases.

For the medium size, the skirt will require 3 1/2 yards of material 27, 3 1/2 yards 36 or 44 inches wide. The width at the lower edge is 1 1/2 yards.

FERRARI'S SHOW AT BAYSIDE PARK

Dozen Attractions in One Group Will Be Here All Week. FUN FOR THE CHILDREN

Miss Sybil Howell gave a tea in honor of Miss Saunders while she was in Winnipeg. She has since returned home.

Observation. The hospital is everything to commend it. In addition to her Canadian training and experience, the superintendent, who is a graduate of St. Michael's Hospital, had several years' service with the Red Cross and surgical cases.

After being shown thru the house by the head of the establishment, The World was taken in hand by a dear little modern Frisilla, in a blue dress with white and gold trimmings.

Fill out this coupon and mail with 15 cents to The Toronto World Pattern Dept., Toronto, and pattern will be mailed to you.

And Grown Ups Will Find Lots of Amusement There Also. "Just like an English fair" is the way a showman described Col. Ferrari's show at Bayside Park yesterday.

Mr. and Mrs. J. J. Palmer, Huntley Lodge, Deer Park, sail on the 19th Inst. for their house in Scotland.

When he came back to tell you he couldn't find the thing because it wasn't there, what did you do? Of course you have. Every mother has children have a way sometimes of looking all around a thing, but never seeing the thing itself.

After being shown thru the house by the head of the establishment, The World was taken in hand by a dear little modern Frisilla, in a blue dress with white and gold trimmings.

It was evening before the show was opened, and although a crowd had swarmed over the park all day it did not reach big proportions until dark.

Mr. Bradbury, who is the author of a bill to prohibit the pollution of navigable waters and was chairman of the special committee of the house appointed to investigate the general subject at the last session, is confident that adequate legislation will soon be adopted.

Mr. and Mrs. Leigh McCarthy, Winnipeg, are staying with Sir Daniel and Lady McMillan at the Lake of the Woods.

Children differ in the possession of the same age will see the same thing. One of them will get a fairly good idea of it, some feature of it will impress him, and he will be able to give a very good description.

It is pitiable how the trainings of observation is neglected. We do get half out of life that we should, because we have never been trained to see properly.

TUESDAY MORNING, JULY 15.

WATER, WATER, CITY WATER!
 By the refusal to annex adjacent territory the city council will get itself into a tangle of inconsistencies which cannot appear otherwise than as injustices to those who are chiefly concerned.

The proposals of Ald. Wickett to solve the difficulty by levying local improvement taxation on all future annexations is a simple way out of the difficulty. It affords the relief that is required by suburban residents. It encourages the building of the cheaper class of houses, the necessity for which the council has already recognized by its subsidy to the Toronto Housing Co. And it provides for the levy of taxes on territory that otherwise escapes any contribution to the city exchequer.

The question is rendered urgent by the request of a real estate man for a supply of water for 100 houses he purposes building 700 feet north of Danforth avenue. We have supported the committee in its refusal of extensions of this kind, but we have not supported the arbitrary and inconsistent practice of the committee in refusing water services to one party and granting them to another. If there had been an absolute refusal to extend beyond the city limits, but also at the same time a reasonable recognition of the claims of those living in the city in all but name, to receive the responsibilities of annexation a more symmetrical and more concentrated development of suburban districts would result.

The most absurd inconsistency of the council at present is the building of a street car line on Danforth avenue which will add value to all the territory within walking distance of the line and fill that territory with workmen's homes; while at the same time the aldermen seem disposed to leave the area outside the tax limits; and, if Ald. Dunn's advice is followed, to stimulate epidemic disease by compelling the people to rely on well water instead of our extra pure super-chlorinated lake supply.

A DOUBTFUL BLESSING.
 We are asked to throw up our hats because on and after July 1, 1913, the Canadian Pacific Railway Company will have no funded debt. To quote Sir Thomas Flanagan, the road will be foreclosed on proof. The shareholders are to be congratulated, but where do the public get off?
 We can foresee many vicious melons in the years to come. We can foresee the company paying ten per cent. dividends on the common stock instead of four per cent. on bonds; we can foresee its "surplus" apparently grow less, but why should we rejoice? Issuing ten per cent. stock in lieu of four per cent. bonds may not be a good thing for the company and its big financiers. It will reduce the "fixed charges," undoubtedly, but of what benefit is that to the people if greater charges—greater because not fixed—have to be paid, or, as a matter of fact, are paid, out of the earnings every year.
 So long as the present extortionate discriminatory rates are effective, the patrons of the road will not care a continental whether their money goes to bondholders or stockholders. It will be time for their hats to go up when the rates come down.

DO NOT DISTURB THE TRUSTS.
 Squill and sequel as it may, when branded by the religious press as a "liquor organ," The Globe, we hope, will contain itself when we point out that it is the most reactionary organ of the trusts in all Canada. Heretofore it has contented itself, like other trust newspapers, with defending, as they severally arose, the great monopolies which menace the country, but now it frankly holds a brief in defence of all monopoly, and under the caption, "What the Trusts Dread," we read:

The only effective means yet devised for dealing with the trusts is to let them alone. That supreme triumph of legislative achievement is possible only among a people sufficiently discerning to know that trusts are not in themselves evils—that the evils are excessive prices and small wages, the trusts being incidentally lettings of the trusts alone effectively prevents excessive prices. These can be levied only where government interferes and prevent the people from purchasing cheaply.

One might as well argue that hydrophobia is the evil and the mad dog but a harmless incident. "Abolish hydrophobia," says The Globe, in substance, "and the mad dog will give you no concern." But the sensible man

kills the dog. He kills the animal afflicted with rabies, not always for what he has done, but because of the power for mischief which he possesses. So the trust is objectionable because it has power which should not be lodged in the hands of a single corporation. The monopoly may not unduly enhance prices to the consumer—on the contrary, it may reduce them unduly. Selling at or below cost for a time, it may strangle competition, and the people, deluded by trust organs always preaching the gospel of cheapness, fall into the trap. The monopoly often pays extravagant salaries, especially when bent on ruining a rival concern, but that does not make it a beneficial institution.

The feeling of English-speaking free men against monopolies is deep-seated and of long standing. To them it matters little whether the monopoly is brought about by a royal grant or by a combination of capital; they resent the power of the monopoly to fix prices and wages, quite apart from its exercise of that power.

But not only are the consumers of its products, the men upon its pay roll, and the producers of its raw material, at the mercy of the trust, but by the great economies it can practice, thru having no competition to contend with, it can make it impossible for the small manufacturer and the small trader to exist, and thus work a silent but far-reaching revolution in the body politic. According to The Globe, the Standard Oil Trust would be unobjectionable. That trust has greatly reduced the price of oil, has always been a good paymaster, and does not rely at all upon a protective tariff. Yet the supreme court of Ohio found its monopoly a menace to the country. In State v. Standard Oil Company, 49 O. S. 397, it is said:

A society in which a few men are the employers, and the great body are merely employes or servants, is not the most desirable in a republic, and it should be as much the policy of the law to multiply the numbers engaged in independent pursuits or in the profits of production, as to cheapen prices to the consumer. Such a policy would tend to an equality of fortunes among the citizens, and to be so desirable in the republic, and lessen the amount of pauperism and crime.

There may be some trusts which would no longer be supreme if the protection of the tariff was taken away, but many of the most powerful monopolies are quite independent of tariffs and tariff changes. Are these to be let alone?

There was a great beating of tom-toms three years ago when Hon. Mackenzie King put thru parliament legislation respecting combines, trusts and mergers. It was hailed as supreme and triumphant, but accomplished nothing. Now we are told no law is needed.

Whoever and whatever the trust may dread, we venture to say that they certainly do not dread The Toronto Globe.

AURORA WANTS NO ADVICE.
 The Aurora Banner is frightfully indignant because The Toronto Telegram showed up the coalition of reactionary Conservatives and still more reactionary Liberals, to defeat the extension of the hydro-electric power system by the suppression of facts and the misrepresentation of figures. After approving the bylaw, which they were told would obviate the expenditure of a large sum for a hydro-electric substation, the astonished citizens of Aurora now find themselves up against another bylaw with money to spend which they never heard of before. As we remarked, they have five years to find out where they are at.

The Banner declares that Aurora has been trying for two years to get a price from the Hydro-Electric Commission and has only been able to do so when the Metropolitan made an offer. This does not consist with the fact that the Metropolitan made its offer to square with the rates that were in everybody's mouth in the North York district. The Banner knows that hydro rates get cheaper all the time, as other towns join in or increase their consumption. The increased consumption in Toronto practically cut prices in half for Aurora in two years, while the co-operation of Newmarket and the extension of the service over the Uxbridge and Port Perry district still further reduced prices for Aurora, and they would continue to fall as consumption grew. The Banner seems to have been afraid that electric power would get too cheap if Aurora joined the union. We quite agree with The Banner that Aurora is capable of mismanaging its own affairs without any advice or interference from the city papers, but we doubt the wisdom of rejecting good advice when it is offered for nothing.

CROP PRODUCTIVITY.
 Ambassador Page was recently reported to have advised the British farmer to visit America if he wanted to learn about farming. This counsel may have been justified if extent of territory is the main feature of scientific agriculture—it was far from accurate if quality and yield of crops is the test of farming. Not long ago the United States Department of Agriculture published in one of its Crop Reports a table of the index figures showing the relative productivity of over thirty different countries. These figures were based on six crops—wheat, oats, rye, barley, corn and potatoes—comprising the bulk of crop production in most countries of the world.

In order to ascertain the index fig-

Big Rush for Ex. Tickets

Money flowed into the office of the Canadian National Exhibition yesterday. It was the first day of the sale of six-for-a-dollar tickets. Over \$25,000 was received. Several purchases were blocks of \$1000 worth of tickets. Last year the first day's sale brought in \$20,000.

THREE CORDS AN ACRE

Is Poplar's Fast Growth on Heavy Black Loam of North Section.

Concerning the growth of trees Mr. William T. Cox, state forester of Minnesota, has lately given some very encouraging information. Many erroneous ideas are abroad as to the time necessary for trees to achieve any conceivable size, we are told. A lumberman will tell you that it takes anywhere from one hundred to three hundred years for a tree to attain maturity; or he will tell you that pine woods will never grow again. Investigation proves that trees that have stood in three hundred years have probably done all their growing in the first 50 or 75 years. Afterwards they merely exist.

In the matter of growing trees, nature can be assisted just as in growing grass or grain. In obtaining figures to show how various species grow, Mr. Cox takes his observations from his own State of Minnesota.

On heavy soil a dense stand of white pine, approximately 60 years old, was found growing at the rate of 1100 board feet per acre per year. In another locality north of Lake Superior a 20-year stand growing on rocky land was adding 1000 board feet per acre per year and on sandy lands further south a growth of only 500 or 800 feet is indicated.

The Philosopher of Folly

By Sherwood Hart

THE ALSO-RAN.

When we raise our swelling anthems to the leaders in life's race, when we stretch our vocal bellows till they bust, shouting praises of the people who have won a foremost place in the piling up of wisdom, fame or dust, let us not forget the fellow who has done his level best, who has trudged on bravely, gamely, undismayed, who has seen his dreams of winning all knocked about by the wind, as he plucked along the hot and heavy grade. He looks nothing like a hero as we meet him on the street—there's a weary, careworn look about his eyes; but also he knows he's beaten. He will not admit defeat if he runs a long race until he dies. His toes are looking seedy and his shoes are poor and worn; he will dodge an old friend's notice if he can—but he's never been a quitter since his birth, and he was born, and he's still, each inch and ounce of him a man! The he's almost down, and under with the pain and the disgrace for which he may or may not be to blame) with his old grit and courage he will stagger on and face the music till the finish of the game. And so his teeth clinches and he humps along the track, and the he's up against the devils of the Philosopher's club, and he struggles toward the prize for which he falls breathe a blessing on the man who will not quit.

Grocers' Day at the Falls tomorrow. Adults \$1.50. Children 75c.

FEARING SCOLDING GIRL ENDED LIFE

Masie Lynch Went Over Niagara Falls on Night of July 4.

NIAGARA FALLS, Ont., July 13.—(Special.)—The body of Masie Lynch, the 16-year-old girl who disappeared on the night of July 4, was taken from the river at the Canadian Maid of the Mist landing today. The girl lived with her aunt, Miss Mary Casey, on the American side. She attended a carnival of a fraternal organization on July 4 and started for her home at 11.30 p.m.

"I would rather go over the falls than home to be scolded by auntie for being out 'til late," she told her friends she was with, according to a story she told the police.

At four o'clock on the morning of July 5 two tourists, a young woman carried over the American Falls. The police believe that it was the Lynch girl.

IMPEACHMENT OF CHINESE MINISTERS

Charges Follow Conclusion of Contract for an Austrian Loan.

PEKIN, July 14.—(Can. Press.)—The house of representatives today passed the first reading of bills impeaching the minister of war, Tuan Chi Jui, who is the acting premier, and the ministers of finance and the navy, Chow Hsueh-Hel and Liu Kuang-Hsi, respectively.

The charges against the ministers of war and finance are in connection with the conclusion of the contract for an American loan. The minister of the navy is charged with acting unconstitutionally.

Another bill, impeaching the cabinet collectively, also passed its first reading.

DROWNED IN EFFORT TO SAVE CHILDREN

George Ochterlony Sank in Lake Off Oakville—Children Rescued.

OAKVILLE, July 14.—George Ochterlony was drowned in Lake Ontario, off Howard avenue, Oakville, shortly before 12 o'clock today while swimming out to save two children in a punt which was drifting out into the lake. The body was found.

He was married only a few months ago. He came here and bought property in the spring. The children were brought back in a boat.

TREES DON'T TAKE VERY LONG TO GROW

Wm. T. Cox, State Forester of Minnesota, Upsets General Belief.

THREE CORDS AN ACRE

Is Poplar's Fast Growth on Heavy Black Loam of North Section.

The girl lived with her aunt, Miss Mary Casey, on the American side. She attended a carnival of a fraternal organization on July 4 and started for her home at 11.30 p.m.

"I would rather go over the falls than home to be scolded by auntie for being out 'til late," she told her friends she was with, according to a story she told the police.

At four o'clock on the morning of July 5 two tourists, a young woman carried over the American Falls. The police believe that it was the Lynch girl.

IMPEACHMENT OF CHINESE MINISTERS

Charges Follow Conclusion of Contract for an Austrian Loan.

PEKIN, July 14.—(Can. Press.)—The house of representatives today passed the first reading of bills impeaching the minister of war, Tuan Chi Jui, who is the acting premier, and the ministers of finance and the navy, Chow Hsueh-Hel and Liu Kuang-Hsi, respectively.

The charges against the ministers of war and finance are in connection with the conclusion of the contract for an American loan. The minister of the navy is charged with acting unconstitutionally.

Another bill, impeaching the cabinet collectively, also passed its first reading.

DROWNED IN EFFORT TO SAVE CHILDREN

George Ochterlony Sank in Lake Off Oakville—Children Rescued.

OAKVILLE, July 14.—George Ochterlony was drowned in Lake Ontario, off Howard avenue, Oakville, shortly before 12 o'clock today while swimming out to save two children in a punt which was drifting out into the lake. The body was found.

He was married only a few months ago. He came here and bought property in the spring. The children were brought back in a boat.

PLANS TO REDUCE INFANT MORTALITY

Chief of Children's Bureau in Washington Promulgates Bulletin.

THREE CORDS AN ACRE

Is Poplar's Fast Growth on Heavy Black Loam of North Section.

Concerning the growth of trees Mr. William T. Cox, state forester of Minnesota, has lately given some very encouraging information. Many erroneous ideas are abroad as to the time necessary for trees to achieve any conceivable size, we are told. A lumberman will tell you that it takes anywhere from one hundred to three hundred years for a tree to attain maturity; or he will tell you that pine woods will never grow again. Investigation proves that trees that have stood in three hundred years have probably done all their growing in the first 50 or 75 years. Afterwards they merely exist.

In the matter of growing trees, nature can be assisted just as in growing grass or grain. In obtaining figures to show how various species grow, Mr. Cox takes his observations from his own State of Minnesota.

On heavy soil a dense stand of white pine, approximately 60 years old, was found growing at the rate of 1100 board feet per acre per year. In another locality north of Lake Superior a 20-year stand growing on rocky land was adding 1000 board feet per acre per year and on sandy lands further south a growth of only 500 or 800 feet is indicated.

The Philosopher of Folly

By Sherwood Hart

THE ALSO-RAN.

When we raise our swelling anthems to the leaders in life's race, when we stretch our vocal bellows till they bust, shouting praises of the people who have won a foremost place in the piling up of wisdom, fame or dust, let us not forget the fellow who has done his level best, who has trudged on bravely, gamely, undismayed, who has seen his dreams of winning all knocked about by the wind, as he plucked along the hot and heavy grade. He looks nothing like a hero as we meet him on the street—there's a weary, careworn look about his eyes; but also he knows he's beaten. He will not admit defeat if he runs a long race until he dies. His toes are looking seedy and his shoes are poor and worn; he will dodge an old friend's notice if he can—but he's never been a quitter since his birth, and he was born, and he's still, each inch and ounce of him a man! The he's almost down, and under with the pain and the disgrace for which he may or may not be to blame) with his old grit and courage he will stagger on and face the music till the finish of the game. And so his teeth clinches and he humps along the track, and the he's up against the devils of the Philosopher's club, and he struggles toward the prize for which he falls breathe a blessing on the man who will not quit.

Grocers' Day at the Falls tomorrow. Adults \$1.50. Children 75c.

FEARING SCOLDING GIRL ENDED LIFE

Masie Lynch Went Over Niagara Falls on Night of July 4.

NIAGARA FALLS, Ont., July 13.—(Special.)—The body of Masie Lynch, the 16-year-old girl who disappeared on the night of July 4, was taken from the river at the Canadian Maid of the Mist landing today. The girl lived with her aunt, Miss Mary Casey, on the American side. She attended a carnival of a fraternal organization on July 4 and started for her home at 11.30 p.m.

"I would rather go over the falls than home to be scolded by auntie for being out 'til late," she told her friends she was with, according to a story she told the police.

At four o'clock on the morning of July 5 two tourists, a young woman carried over the American Falls. The police believe that it was the Lynch girl.

who are caretakers of little children, in the care of babies is regarded as of immense importance, not only in the improved care which is given to the babies in their charge, but in the influence which it cannot fail to have in the prevention of infant mortality in this and the next generation, and the organization of the Little Mother Leagues, Little Mother classes, forms an important part of the welfare work in most large cities.

The importance of campaigns against the house fly and of the registration of births is also urged.

BIG AMOUNT FOR STREET EXTENSION

Wilton Avenue Prolongation Involves Expenditure of Over Half Million.

Three recommendations by Commissioner Harris for costly civic works were adopted by the committee on works.

One is the extension of Earl street to Jarvis, to connect with Gloucester street. The cost is \$40,000. The proposed extension will prevent the proposed school on Jarvis street.

Another work is the extension of Wilton avenue, from Bolton avenue to Coxworth avenue. This will necessitate a subway at the G.T.R. tracks at Logan avenue. The cost will be \$750,000, of which 18 1/2 per cent, \$137,500, will be paid by the property owners.

The other work is the grading of Bathurst street between the G.T.R. and Ninth street. This will cost \$225,000, of which 18 1/2 per cent, \$41,250, will be paid by the property owners.

Ald. McBride put thru a motion that the King street subway be lighted day and night.

Commissioner Harris stated that sewers could be laid for one-half the cost under local improvement. If property owners would let the contracts on their streets and pay cash.

FUN ON THE BARS.

One of the finest acts ever seen on the parallel bars in this city is that performed by Johnstone, Howard and Listette, who opened a week's engagement at Scarborough Beach yesterday afternoon. This act is advertised as comedy, but it is also one of the most original acrobatic stunts ever presented in Toronto. Certainly there has been nothing like it in Scarborough Beach for years. Honors and LePrince, the comedy acrobats, also gave a very amusing and clever turn. The music was provided by the Grenadiers' band. The Queen's Own will play tonight. The moving pictures in the open air were much enjoyed.

CONSTANTINOPLE IS FULL OF ACTIVITY

CONSTANTINOPLE, July 14.—(Can. Press.)—The greatest military activity prevails here, and troops, artillery and provisions convoys are being brought across the Bosphorus by the Russian fleet. Destruction of villages by the retreating Bulgarians has created a bitter feeling here.

The Porte is in communication with Belgrade, Athens and Bucharest and is said to have received assurances that neither Greece, Servia nor Roumania will conclude an armistice without consulting Turkey.

WILL EXPROPRIATE VICTORIA PARK

Owner Wants Quarter Million for Property and Matter Goes to Arbitration.

Commissioner Chambers recommended to the parks and exhibition committee that \$20,000 be expended in rooming paved roads for the Humber boulevard from Queen street to Bloor street, and \$2000 on trees and shrubs. He explained that this would carry out the agreement with Home Smith. He added that the paving of this stretch of roadway would connect up with other paved roadways practically to Dundas street. The recommendation was adopted.

Victoria Park, which is on the lake shore, at the end of spur line beyond Scarborough Beach, is to be expropriated. It contains about 16 acres, and is now occupied by the forest school. The owner, H. P. Eckardt, wants \$250,000, a sum Commissioner Forman considers too high.

Controller McCarthy advised the purchase of the east corner of Queen street and Kingston road, and Ald. Ryding advised the purchase of a small building space east of St. John's Church on Dundas street. Commissioner Chambers is to report on both.

A drinking fountain, made of Roman stone, is to be placed in Queen's Park, north of the parliament buildings. It will cost \$270.

The city being without a tree and shrub nursery, 25 acres of the industrial farm is to be utilized for that purpose.

FAVORITES WIN ALL SIX AT KING EDWARD

As Many Jockeys Also Figure in the Winning List.

OWNER IS RE-INSTATED

H. C. Airhart, However, Must Place His Horses With Licensed Trainer.

MONTREAL, July 14.—Favorites accounted for the six races run on the second day of the King Edward Park Jockey Club meeting at Isle Gros Hotel today. Each event was won by a different jockey. H. C. Airhart, who was suspended at the first meeting of the King Edward Park Jockey Club for refusing to hand over the mare Barrette to J. D. Strite, who claims she was today reinstated, but the ban remains on the horse. Licensed trainer until such time as the Canadian Racing Association saw fit to rule on his application for a license. Summary:

FIRST RACE—Two-year-olds, 4 1/2 furlongs:
1. Steveta, 104 (J. McIntyre), even, 2 to 1 and out.
2. Booth, 102 (Moore), 6 to 1, 3 to 1 and out.
3. Parcel Post, 117 (Jensen), 3 to 2, 1 to 2 and out.

SECOND RACE—Three-year-olds, selling, 4 furlongs:
1. Baron de Kalb, 101 (Dreyer), even, 1 to 2 and out.
2. Brush, 108 (Denner), 5 to 1, 1 to 1 and even.
3. Ravell Lutz, 100 (Sterling), 20 to 1, 8 to 1 and 4 to 1.

THIRD RACE—Four-year-olds and up, selling, about 5 furlongs:
1. Ugo, 110 (Knight), 1 to 2 and out.
2. Curious, 110 (Dreyer), 6 to 1, 2 to 1 and even.
3. Veneta Stroms, 110 (B. McIntyre), 4 to 1, 2 to 1 and even.

FOURTH RACE—Free handicap, 2-year-olds, 1 1/16 miles:
1. Yorkshire Boy, 107 (Snayder), 6 to 5, 1 to 2 and out.
2. Cuttyhunk, 113 (Knight), 7 to 10 and out.
3. Our Nugget, 102 (Denner), 10 to 1, 3 to 1 and even.

FIFTH RACE—Selling, 4-year-olds, 6 furlongs:
1. Leialoha, 107 (Warrington), 5 to 2, even and 1 to 2.
2. Curious, 103 (Denner), 3 to 1, 6 to 5 and 3 to 2.
3. Miss Primitive, 111 (Willis), 15 to 1, 6 to 1 and 4 to 1.

SIXTH RACE—Selling, 3-year-olds, 1 mile and a sixteenth:
1. Frog, 112 (Killingworth), 1 to 3 and out.
2. Lily Paxton, 110 (J. Bauer), 4 to 1, 1 to 2 and out.
3. Maxton, 112 (Denner), 10 to 1, 2 to 1 and out.

NO PRO LACROSSE IN COAST LEAGUE

Vancouver Did Not Show Up for Game With Salmon Bellies—Courts May Decide Issue.

NEW WESTMINSTER, B.C., July 13.—There was no professional lacrosse here Saturday. No one expected that Vancouver and Salmon Bellies would play in the first game of the season. At the hour scheduled for the start of the cup holders, also advertised early in the week that Vancouver would not be on hand, paraded for inspection and scored a lone goal on an empty net. Just as Vancouver did a week ago in New Westminster officials immediately claimed the game by default and will now also ask for \$500 for forfeit. The Vancouverers are still asking for the \$500 due them as a result of New Westminster's forfeit a week ago.

Professional lacrosse is a dead issue. There is dissatisfaction in the ranks of the cupholders, Howard, Clark, the Renneis and Pency. Believing the team should have filled engagements here. The Vancouverians may make an eastern trip in any event there is no prospect of a settlement between the clubs. The \$500 agreement, which Con Jones had with New Westminster, providing that Royals play three games in Victoria, will go to the courts. S. S. Taylor, K.C., has been retained by Vancouver.

TIPLER FLYING

The Canadian High Flying Club held their first young bird race with the following results: 1. F. Wade, 11 hrs. 25 mins.; 2. S. Lauria, 6 hrs. 30 mins.; 3. S. A. A. 3 hrs. 45 mins.; 4. D. Cluney, 2 hrs. 30 mins.; 5. Polard and J. H. Brooks, disqualified. A. Lee, W. Richardson and A. Littleford scratched.

NEW RINK FOR BROCKVILLE.

BROCKVILLE, July 14.—An effort is being made to organize a joint stock company to replace the skating rink destroyed by fire some time ago. Hockey is just now getting a fresh start here, and it is felt that the great winter sport cannot be allowed to go by the board. Arrangements have been made for a public meeting to be held on Friday next to discuss the project, which is being well received.

All dealers have or can get Kuntz's Old German Lager. If your dealer cannot supply you, phone J. D. Todd, Toronto agent. Phone College 3475.

CADILLAC RENEWED CARS

When buying a used car, quality should be considered. Unless an automobile has "quality" in every point, it will not give satisfaction when it is sold as a used car. A renewed Cadillac will give you greater service than any other new car at the same price. We have a few renewed Cadillac Touring Cars which can be seen at our showrooms—models of 1909, 1910, 1911 and 1912—at prices ranging from \$800 to \$2000.

HYSLOP BROTHERS, Limited
Corner Shuter and Victoria Sts., Toronto

TIFCO BOWLING BALLS

This ball is the best on the market, because it never slips, never loses its shape, always rolls true, hooks and curves easily, does not become greasy, is absolutely guaranteed, is cheaper than any other reputable patent ball, and complies with the rules and regulations of the A. B. C.
All first-class alleys are putting these balls on. Try one on the alley where you roll and you will never roll any other ball.

MEN'S DISEASES.

SHIPS AND RAILS

CENTRAL DOCKS TO BE BUILT FIRST

Work on Harbor Improvement Will Commence Between Church and York.

WILL INCREASE FLEET

Merchants' Mutual Line Let Contracts for Several New Freighters.

In order to meet the urgent requirements of Toronto shipping interests, as soon as possible, it is the intention of the Toronto harbor commissioners in carrying out their five million dollar

plan to build first those docks which will be located between Church and York streets. In this way, the Richelieu and Ontario Navigation Company lines and the Merchants' Mutual and Canadian Lake lines, the principal shipping interests here, can be provided with modern docking facilities within eighteen months' time after the work is commenced.

The full plans call for the construction of docks along the waterfront from Bathurst street to Parliament street, but the work of doing this will occupy more than three years and for that reason it has been decided to construct the central docks first.

TWO NEW BOATS FOR EASTERN FLEET

C. P. R. Places Order With Scottish Shipbuilding Firm for Passenger Steamers.

Georgé Wells of Montreal, assistant passenger traffic manager of the Canadian Pacific Railway, who was in the city yesterday, stated to The World that the placing in service of the two new C. P. R. Empresses on the Pacific had meant that the thru Montreal and the thru Toronto trains were filled to capacity on starting out, and as a consequence they were not able to handle all the business from Winnipeg west to the coast.

The announcement was made by the Canadian Pacific Railway yesterday, that the following new stations would be established in the western provinces:

Vegreville-Calgary line, from Calgary—Rise Deer, Benyon, Redland, Rockyford, Baintree, Hawick, Lyall, Norfolk, Chestermere, Lake Barlow, Saskatoon-Calgary line, from Saskatoon—Excel, Cental, Chinook, Dobson, Longstown, Stanmore, Richdale and Modem.

NEW C. P. R. STATIONS ON WESTERN LINES

The announcement was made by the Canadian Pacific Railway yesterday, that the following new stations would be established in the western provinces:

TWO SAVED FROM LAKE HURON

SARNIA, July 14.—(Special.)—Captained from a canoe into Lake Huron yesterday evening about ten o'clock, August Misch and his wife were rescued just in time to save them from a watery grave.

Everett Bickley of Detroit noticed the accident and secured a boat. He rescued the pair, but the woman was so far gone that it took a quarter of an hour for the doctor to revive her.

DON'T WANT HEIGHT OF CARS REDUCED

Railways and Shippers Opposed to C. P. R.'s Proposition.

FEAR CAR SHORTAGE

Shippers Say That Result Would Be Big Increase in Freight Expenses.

Strong opposition is to be put forward when the Canadian Pacific Railway places its proposition before the Dominion Railway Board today to regulate the height of all freight cars in Canada to 13 1/2 feet from rail to roof. They not only will be opposed in this by the Grand Trunk and Canadian Northern Railways, but also by the shipping interests of the Dominion as a whole.

It is claimed that if the C. P. R. should be successful in the matter, they would follow it up with the request that the present overhead structure height of 24 1/2 feet from the rail be lowered.

In opposing the suggestion, the other two roads claim it would practically mean that American cars could not be used on a Canadian railway, as more than 80,000 of these cars are higher than 13 1/2 feet from rail to roof.

KING FERDINAND DENIES OUTRAGES

Greeks and Servians Are the Real Perpetrators, He Contends.

LONDON, July 14.—(Can. Press.)—King Ferdinand of Bulgaria, in a long message, despatched from Sofia on July 12, informs The Evening News:

"The stories and reports which the Greeks and Servians have been circulating in Europe concerning so-called outrages committed by my troops upon the Greek and Servian populations in Macedonia, are absolutely unfounded and are published with the object of creating a bad impression."

King Ferdinand proceeds to tell of the liberties enjoyed by the people of Adrianople without regard to their nationality, and closes with the allegation:

"Systematic attacks and persecutions have been directed against the Bulgarian element in Macedonia by the Servians and the Greeks. The districts of Kastoria, Florina and Vodena have been cleared of all well educated men and the prisons of Saloniki are overflowing with innocent Bulgarians. Great numbers of Bulgarians have been transported from their homes in the country to Greece and to the islands in the Aegean Sea."

Regime of Cruelty

"The same cruel regime has been applied to the Bulgarians in the regions occupied by the Servians. The purely Bulgarian town of Kukush has been completely burned by the Greek troops."

Thousands of Refugees

King Ferdinand concludes, on arriving in Sofia, "gave terrifying accounts of the horrible deeds committed by the Servians and the Greeks. The Bulgarian Government is ready to come to an international enquiry which will enlighten the world concerning the stories of these excesses."

ELEVEN FRENCH MINERS KILLED

ATBEN, France, July 14.—Eleven workmen were killed and nine injured by a mine explosion here.

Properties For Sale

MARKET IGNORED RISE IN BRAZILIAN

Scattered Selling Found List in Vulnerable Shape and Prices Dropped Again.

LOW RECORDS MADE

Even the Investment Securities Were on Downgrade—Bank Shares Lower.

While a sharp return in Brazilian was the most outstanding feature of the Toronto Stock Exchange yesterday, the incident did not reflect the general action of the list at all. Viewed from any other standpoint than that with reference to the South American traction issue, the market was weak, with an exceedingly narrow demand in evidence, and prices inclined to sag of their own weight on the appearance of any selling moment.

TWIN CITY WILL HAVE RECORD YEAR

Five Months' Exhibit of Earnings Makes Favorable Showing.

Twin City Rapid Transit Co. thus far in the current fiscal period has made a satisfactory exhibit of increases in both gross and net earnings, and the indications are that the system will have another high record of revenues for the 12 months to end Dec. 31 next.

RAILWAY EARNINGS SHOW BIG INCREASE

United States Roads Report Larger Percentage Gain Than Canadian Systems.

For the first month in a long time the gross earnings of the United States railroads increased to a greater extent in June than did those of the Canadian roads. Revised figures of Canadian lines show a gain of just 6.1 per cent. over June last year, the smallest percentage increase since last February.

PARIS GETS MORE GOLD IN NEW YORK

NEW YORK, July 14.—There was an amount of \$1,500,000 in gold bars, this makes a total of \$41,500,000 which France has secured here since the movement started last week's takings being \$3,000,000. It is expected that Paris will receive about six millions more in the near future.

UPS AND DOWNS IN N. Y. MARKET

NEW YORK STOCKS MOST CARELESS

Speculation is at Remarkably Low Ebb, But Prices Are Steady.

WEAKNESS IN COPPERS

Government Action Against Big Interests Again Rumored—May Avert Strike.

NEW YORK, July 14.—Continued paralysis of speculation, to a degree unparalleled since the business of buying and selling stocks attained the proportions regarded as normal in recent years, was the outstanding feature of the market. Prices held fairly steady, although late in the day some of the leading stocks eased off, influenced by the weakness of the copper group.

FEW CHANGES AT MONTREAL

Stock Market is Listless, But With a Declining Tendency.

MONTREAL, July 14.—The week opened with no signs of a change in local stock market conditions, the gradual but persistent decline in quotations continuing under light offerings of stock.

FAILED TO SECURE CONTROL OF G. T. R.

Proposed Speculative Coup in London Fell by Wayside—Big Losses Taken.

LONDON, July 14.—The latest effort to secure control of the Grand Trunk and to transfer its headquarters to the other side of the Atlantic has failed.

FAILURE RECORD MORE FAVORABLE

The failure record made a more favorable showing than in some time last week, both in the number of failures and in the amount of the United States. Here in the Dominion the number of failures totaled 24, against 26 in the previous week.

HIGHER INTEREST RETURNS

Sound Municipal Debentures, at present prices, yield higher interest returns than have ever before been available for this type of security, namely from 4 1/2 to 6 per cent.

SMALL FAILURE IN LONDON.

LONDON, July 14.—Lettwich & Co., of the Stock Exchange, have suspended. The failure is unimportant.

GOULD SUIT SETTLED.

A. J. Estes, Montreal, wired H. B. Wills yesterday morning that his action for \$180 against the Gould Consolidated had been settled, presumably by the payment of the amount claimed.

DULUTH GRAIN MARKET.

DULUTH, July 14.—Close—Wheat—No. 1 hard, 91 1/2; No. 1 northern, 90 1/2; No. 2 hard, 88 1/2; No. 2 northern, 87 1/2; No. 3 hard, 86 1/2; No. 3 northern, 85 1/2; No. 4 hard, 84 1/2; No. 4 northern, 83 1/2.

LIVERPOOL COTTON MARKET.

LIVERPOOL, July 14.—Cotton futures closed steady. July 4 1/2; August 4 1/2; September 4 1/2; October 4 1/2; November 4 1/2; December 4 1/2.

STAMP MILLS OF PORCUPINE CAMP

No Less Than Eleven Now Built or in Course of Construction.

HOLLINGER HIGHER

But it Was Only Redeeming Feature of List—New Low Records Made.

With the market suffering apparently from an almost entire lack of public interest mining stocks sagged lower of their own weight yesterday. In numerous instances prices dipped to a new low record for the month, while the manner in which their offers in order to attract bids was plain evidence of the paucity of the demand.

NEW PORCUPINE MAP.

An excellent up-to-date map of the Porcupine camp and its mines has been issued by Hamilton B. Wills, member of the Standard Stock Exchange, Toronto.

ALL FAVOR CENTRAL DEPOT OF SUPPLIES

Question of Purchasing Department Discussed by Heads of Civic Branches.

Controllers Foster and O'Neill, acting as a subcommittee of the board of control, had a conference with the heads of the civic departments upon the advisability of establishing a purchasing department.

PARCUPINE A RIVAL OF THE RAND SOON?

Monthly Production of Gold is Now About Half a Million Dollars.

That the gold output of the Porcupine camp from July 15, 1913, to July 15, 1912, will be \$4,355,000 is asserted by Hamilton B. Wills, broker, who goes into detail considering the production of the mine in his new map of the district as follows:

Company	Daily Output	Output per Month
Hollinger	22,000	\$220,000
Dome	10,000	\$100,000
McIntyre	10,000	\$100,000
Porcupine Gold	10,000	\$100,000
Three Nations	10,000	\$100,000
Rex Mines	11,000	\$110,000
Hughes	9,000	\$90,000
Total	84,000	\$840,000

TIME FOR CAUTION IN STOCK MARKETS

The July investment demand was somewhat disappointing, but the check imposed upon new capital applications, as well as the liquidation in securities and commodities which has continued for many months, is causing a general feeling of caution.

SPECULATION QUIET IN LONDON MARKET

Traders Inclined to Await Developments in Balkan Crisis—Small Failure Announced.

LONDON, July 14.—Money and discount rates were steady. The market for the purchase of gold in London, which amounted to \$4,000,000, was quiet.

PENETANG DEBENTURES SOLD.

The Town of Penetanguishene sold \$25,000 five per cent. debentures last week, the purchasers being H. C. Matthews & Co. of Toronto. The debentures are fully guaranteed, principal and interest, by the County of Simcoe.

MINING MARKET WAS IN THE DUMPS

Public Interest Was Lacking and Stocks Failed to Hold Up Their Heads.

HOLLINGER HIGHER

But it Was Only Redeeming Feature of List—New Low Records Made.

With the market suffering apparently from an almost entire lack of public interest mining stocks sagged lower of their own weight yesterday. In numerous instances prices dipped to a new low record for the month, while the manner in which their offers in order to attract bids was plain evidence of the paucity of the demand.

TIME FOR CAUTION IN STOCK MARKETS

The July investment demand was somewhat disappointing, but the check imposed upon new capital applications, as well as the liquidation in securities and commodities which has continued for many months, is causing a general feeling of caution.

SPECULATION QUIET IN LONDON MARKET

Traders Inclined to Await Developments in Balkan Crisis—Small Failure Announced.

LONDON, July 14.—Money and discount rates were steady. The market for the purchase of gold in London, which amounted to \$4,000,000, was quiet.

PENETANG DEBENTURES SOLD.

The Town of Penetanguishene sold \$25,000 five per cent. debentures last week, the purchasers being H. C. Matthews & Co. of Toronto. The debentures are fully guaranteed, principal and interest, by the County of Simcoe.

CITY CATTLE MARKET

Receipts of live stock at the City Cattle Market were 1,463 head, comprising 1,082 cattle, 174 sheep and lambs and 207 calves.

WINNIPEG GRAIN MARKET

WINNIPEG, July 14.—Liverpool wheat cables were not quite so exact as expected, and rumors of black rust in North Dakota contributed to the stiffening of wheat prices on the market here.

UNION STOCK YARDS

At 4 p.m. Monday there were 81 carloads of live stock at the Union Stock Yards, comprising 1,554 cattle, 579 hogs, 69 sheep and lambs, 16 calves and 2 horses.

BUFFALO LIVE STOCK

CHICAGO, July 14.—Cattle—Receipts, 22,000; market steady to a shade lower. Steers, \$7.15 to \$9.15; Texas steers, \$7 to \$8.10; cows and heifers, \$5.50 to \$6.60.

BLACK RUST IS NOW REPORTED

And Wheat Prices Stiffen at Chicago as a Consequence.

CHICAGO, July 14.—Alleged discovery of black rust in North Dakota and Minnesota had a bullish effect on wheat today and the market closed firm at an advance of 1/4c to 1/2c.

Altho rumors concerning black rust did not receive anything like full credit, such reports almost monopolized attention of wheat traders in the last part of the session.

Chicago and Oats Higher.—Damage reports from Kansas and Oklahoma put strength into the corn market. Besides, receipts here were extremely small.

EUROPEAN MARKETS.—The Liverpool market closed 1/4d to 1/2d lower on wheat, and unchanged to 1/4d lower on wheat, Berlin 1/4c lower, Budapest 2 1/2c lower.

ST. LAWRENCE MARKET

Receipts of farm produce were four loads of corn by Erickson, Perkins & Company (John G. Beatty).

FALL FAIRS

Table of Fall Fairs dates and locations including Aberdeen, Alton, and others.

FARM PRODUCE, WHOLESALE

HAY, No. 1, car lots, \$15.00 to \$16.00; Straw, car lots, \$12.00 to \$13.00; Potatoes, car lots, \$9.00 to \$10.00.

HIDES AND SKINS

Prices reviewed daily by E. T. Carter & Co., 100 King Street West, Toronto.

TORONTO SUGAR MARKET

Sugars are quoted in Toronto, in bags, per cwt., as follows: Extra granulated, \$4.40; No. 1, \$4.30; No. 2, \$4.20.

GRAIN AND PRODUCE

Local grain dealers' quotations are as follows: Ontario oats—No. 2, 34c to 35c per bushel, outside; 36c to 37c, track, Toronto.

CHICAGO LIVE STOCK

Barley—For malting, 50c to 52c (47-lb. test); for feed, 45c to 46c, outside, nominal.

WINNIPEG GRAIN EXCHANGE

Table of Winnipeg Grain Exchange prices for various grains.

CHICAGO MARKETS

J. P. Bickell & Co., Standard Bank Building, report the following prices on the Chicago Board of Trade:

Table of Chicago Market prices for various commodities.

MONTREAL LIVE STOCK

MONTREAL, July 14.—At the Montreal Stock Yards, West End Market, the receipts of live stock for the week ending July 14 were 1,400 cattle, 1,600 sheep and lambs, 200 hogs and 100 calves.
