Noted British M.P. and His Brother Victims of Murderous Attack in Roumania.

Canadian Press Despatch. LONDON, Oct. 16, 2.15 a.m.—A despatch to Reuters's Telegram Company from Bucharest says:

"Noel Buxton (member of the British Parliament for North Norfolk), and his brother, Charles Roden Buxton, sons of Sir Thomas Powell Buxton, former governor of South Australia, who had been in Bulgaria to confer with Bulgarian politicians regarding Bulgarian attitude toward the European war, were both shot today by a young Turk, Fachel Hassan.

The Buxtons were traveling in an automobile with a son of M. Guchoff, former Bulgarian premier, to attend the funeral of the king of Roumania when Fachel fired four shots at the party from a revolver. One of the Buxtons was shot thru the lung. The other was only slightly wounded. "That he had just arrived here appears that he had just arrived here from Salonica. He had a passport which was vised at Constantinople, Sept. 26."

CUIRASSIERS BY DARING EXPLOIT ROUTED ENEMY

Two Thousand Dashing Frenchmen Swam Lys and Surprised Foes.

NEW BATTLE IS BEGUN

Siege of Many German Positions Has Become Merely Desultory.

Canadian Press Despatch. FROM THE BATTLEFRONT (via Paris), Oct. 16, 12.39 a.m.—Infantry and cavalry, after a period of comparative inactivity, have been doing more fighting during the last few days than for several weeks.

Two thousand French Cuirassiers have distinguished themselves by a daring feat in swimming the River Lys, where it flows deep and swift. They completely outwitted the Germans, who were awaiting them on the other side with machine guns and heavy artillery.

The French horsemen made a long detour during the night. One man swam the river with a rope, then dragged over a cable which he attached to a tree. The others, holding to the rope, crossed singly with their horses thru the swirling waters.

Charged German Flank. Arrived on the opposite bank, the French drew up in line and charged the German flank at Merville, driving the Germans back and opening the way for the passage over the river of a division of the allied infantry, who later occupied Estaires. The present war differs from all previous wars, inasmuch as no one knows just when a battle begins and where it ends. What is now known as the battle of the four rivers, the Scarpe, the Somme, the Oise and the Aisne, may be regarded as concluded, and a fresh stage of operations began with the fall of Antwerp and the renewed appearance of a strong allied army in Belgian territory, where it has made its presence felt by the capture of Ypres.

Desultory Sieges. Meanwhile the siege of the German positions further south has become merely desultory, some parts of the line where a perfect hall of shells was a daily occurrence, and where the line is now enlivened by artillery fire only at rare intervals.

The remainder of the very strong allied forces at these points are kept in reserve within measurable distance, ready for any emergency. The cold and wet have made trench work very trying, but the allies are well provided with blankets and waterproof sheets. The soldiers are also combating the cold by means of sheets of parchment which they wear under their uniforms, and which are found to resist the cold well.

Many Trenches Taken. Many of the advanced German trenches appear to have been abandoned, and the allies were able to make much headway where previously they had met with furious resistance. The idea prevails that the Germans are preparing to retire at the centre and concentrate their energies against the north, where it is supposed they intend to make another attempt to break the allies line.

It appears evident that the commanders of both armies have been awaiting reinforcements where they are most needed, and, in the meantime, are feeling each other out. There is reason to believe that these fresh forces have arrived and are being assigned to their proper places, and a rapid development may be expected. The newly arrived German troops are thought to come directly from Germany and are composed of second and third reserves, who need a period of pulling together before going to the front.

RUSSIAN DRIVE GERMAN BACK NEAR WARSAW

Invading Forces Reported Cut in Two After Desperate Fighting.

TEN THOUSAND CAPTIVES

Aerial Attacks Beaten Off—Russians Victorious Near Przemysl.

Special Direct Copyrighted Cable to The Toronto World. LONDON, Oct. 15.—A despatch from Petrograd to The Evening Courier, says that reports from the Russian front indicate that the German force which penetrated the Warsaw district, have been cut in two and driven back on the Lodz-Vladivostok-Russia line, after two days of desperate fighting. The Russian advance is being pushed forward. It is believed that 10,000 Germans have been taken prisoners in these operations.

GREAT BATTLE NEAR WARSAW.

Special Direct Copyrighted Cable to The Toronto World. PETROGRAD, Oct. 15.—The streets of Warsaw are now filled with villagers, who, for protection, have fled into the city from the surrounding districts, bringing with them their horses and cattle.

The sound of distant cannonading is distinctly heard, and it is believed that a general engagement is in progress. If this is the case, it is expected that it will last for days, possibly weeks. The Germans have been allowed to advance as far as the Polish River Vistula for strategic reasons. They are thus drawn away from, and will be unable to use, the network of railways on the German side of the frontier.

It is hoped that the enemy will be decimated by the blow and will be compelled to accept defeat. The military governor of Warsaw has informed the population that they may remain calm and reassured, as the defence of Warsaw is to be carried to the highest degree of tension.

GREAT CHEERS MARK LANDING OF CONTINGENT

Enthusiasm Was Unbounded When Debarcation of Canadians Began.

IMPRESSIVE SPECTACLE

Fine Appearance of Soldiers Commented Upon by Newspapers.

PLYMOUTH, Oct. 16, 1.19 a.m. (Via London).—The Canadians received a debarcation order from the war office unexpectedly this evening. Despite the rain crowds of people turned out to watch the landing and entraining of the troops, which began with a contingent of Strathcona's Horse. The various contingents were headed thru the streets by their bands and pipes. Owing to the difficulty of berthing the transports, in consequence of the neap tide, the debarcation of the Canadians is expected to be slow.

LONDON, Oct. 16.—Extensive camps have been prepared for the Canadians on Salisbury Plain. The first contingents are expected to arrive from Plymouth during the night. The movements of the troops will probably be conducted during the night time in order to avoid delays to other railway traffic.

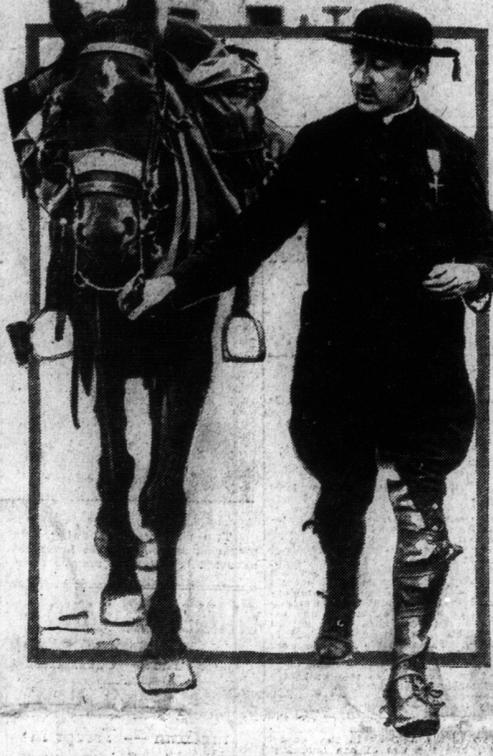

Canadian Associated Press Cable.

PLYMOUTH, Oct. 15.—Plymouth is agog with excitement over the landing of Canadian troops. Right up in the estuary transports are steadily discharging their cargoes amidst scenes of the keenest enthusiasm. The surprise in this famous port was unbounded when the transports suddenly came into this harbor. From south to north the eye traveled up the Hamoze following what seemed an almost unending line of masts and funnels until it faded away in the dim light of the higher waters before taking a turn for Saltash bridge.

It was an unprecedented sight, one indeed without parallel in the history of the great western port. Never before has there been such an assemblage of this class of ship in these (Continued on Page 2, Column 4.)

New Tactics Have Been Adopted in Alsace-Lorraine, Resulting in Reoccupation of Muhlausen and Altkirch—Armies in Death Grip Near Metz, Where German Line of Communications is Threatened, if Not Broken—Movement From Verdun to Metz May Culminate in Complete Success for French—Germans Have Been Temporarily Checked Near Ostend—Rheims Cathedral Still Bombarded—Official Statements Tell of Successes in Different Sections.

LONDON, Oct. 15.—Gaul and L'etoumet in death grips today on the ground won Tuesday and Wednesday, commanding the roads to Metz, and it is said that the German line of communications to that base is seriously imperiled if not definitely lost. The French War Office will give no information on the subject, but it is stated in well-informed circles that masses of French troops have been moving in the direction of Metz for several days. One report declares that the Germans in the district affected by this new change of tactics have been thrown back beyond Muhlausen. To support this statement comes a cable from Rome, declaring that messages from Basle say the French have reoccupied Muhlausen and Altkirch, both strong fortresses, and both taken by the French soon after the beginning of hostilities, evacuated and retaken, but finally relinquished because of pressure in the north.

ALLIES MAKE IMPORTANT GAINS. The official communication issued by the French War Office tonight says: "The news of the day indicates gains at several points along the front.

"On the left wing, to the north of the Lys, we have taken Estaires. On the centre to the north and east of Rheims, we have made an advance of nearly two kilometres (about a mile and a quarter)."

"On the heights of the Meuse, and in the Woivre region, we have made gains to the south of St. Mihiel, and near Marcheville."

GERMANS MARCHING WEST. The war office made public the following communique this afternoon: "In Belgium, German troops coming from Antwerp are marching toward the west, and on the evening of Oct. 14 they reached the region of Bruges and Thielt (15 miles southeast of Bruges)."

"On our left wing the enemy has evacuated the left bank of the Lys. Between the Lys and the canal of La Bassee the situation shows no change.

"In the region of Lens and between Arras and Albert our progress has been marked. "Between the Somme and the Oise there has been no change. The Germans have cannonaded our line without, however, delivering any infantry attacks.

"On the centre, between the Oise and the Meuse, we have advanced in the direction of Craonne. To the northeast of the highway from Berry-au-Bac to Rheims; and to the north of Frunay, in the direction of Beine, several German trenches have been taken.

"Between the Meuse and the Moselle, after having repulsed on the night of Oct. 13-14 certain attacks to the southeast of Verdun, our troops advanced on Oct. 14 to the south of the highway from Verdun to Metz.

"On our right wing the partial offensive movement undertaken by the Germans in the Ban-de-Sapt, to the north of St. Die, has been definitely checked."

COUP MAY MEAN SUCCESS. The phrase "our troops advanced on Oct. 14 to the south of the highway from Verdun to Metz" is the significant portion of the communique. Judging from all reports, this movement has culminated in a great coup that may mean the complete success of the French on their left centre and left wings. That a formidable movement against Metz is taking place would seem established by a denial from high German sources of a report supposed to have been promulgated by the allies that several of the forts at Metz have fallen. As a matter of fact, this is the very first intimation that fighting has taken place in the vicinity of that fortress, whose importance compares to Belfort or Verdun on the French lines. The German report also says that their troops in that vicinity have not lost any ground.

The situation in Belgium and northwestern France remains a mystery. GERMANS OCCUPY BRUGES. A late message from Amsterdam declares that the Germans have occupied Bruges, 13 miles from Ostend, and are now in force at a point two-thirds of the way between Ghent and Ostend. For two days the German occupation of the latter city has been thought inevitable, and it was understood that no defence of the town would be attempted because of the flat country by which it is surrounded, extremely unfavorable to defensive operations.

But, whatever the cause, the kaiser's hordes have failed to put in an appearance, and it seems logical that they have met with either temporary or permanent check. Reports from the front tell of Anglo-French victories at many points of the line from Roye northward. The fierceness of the fighting in this vicinity is indicated by the fact that Roye has been taken and lost no less than twelve times. It is now in the hands of the allies.

ALLIES COMPLETELY SUCCESSFUL. Along the line of the Lys, allied troops were completely successful today, and forced the Germans to cede much ground, including heavily fortified positions. As a result of these operations, it is said the northwestern corner of France, which juts into the territory of King Albert, has been completely cleared of the German foe. Around Arras, Albert and Bens, allied victories are officially confirmed.

Lille seems to be the new concentration point of the German right, which is falling back from the Aisne and Oise lines, the scene of their long-continued and desperate resistance. In the neighborhood of Prunay and Beine, in the Craonne district, bayonet charges have wrested a large number of trenches from the kaiser's men.

Arras has been almost destroyed as the result of German artillery fire, one of the buildings which has vanished in smoke and ashes being

Turkish and Russian Fleets Are Said To Be in Action

Former German Cruisers Goeben and Breslau, and Other Turkish Vessels, Have Been Attacked in the Black Sea.

Special Direct Copyrighted Cable to The Toronto World. LONDON, Oct. 15.—A despatch from Bucharest would seem to indicate that Turkish and possibly converted German cruisers, now under the Turkish flag, have met the Russian fleet in the Black Sea off the Roumanian coast. The despatch says: "Heavy cannonading has been heard off Kusstendje, Roumania. It is believed that the former German cruisers Goeben and Breslau, which now fly the Turkish flag, and yesterday undertook to escort from the Sultana (an arm of the Danube in the Dobruja, district of Roumania) several transports laden with munitions, have attacked or were attacked by the Russian fleet." It is recalled that the sudden appearance of the Goeben and Breslau at Sulina caused something of a sensation. They have been veritable will-o'-the-wisps since hostilities started, but were thought to have been bottled up in Turkish waters. No sooner did they put into Sulina than the news was wireless to the Russian fleet, and it seems probable that the firing heard off the Roumanian coast is between Russian and the pseudo Turkish cruisers. It is reported from Constantinople by Rome that the commander of the Goeben has been selected as acting admiral-in-chief of the Turkish navy, and that the sultan plans a raid on the Russian naval forces. Athens newspapers publish the statement that two German steamships have fallen into Russian hands within the last few days.

BOERS FLOCK TO ARMY OF BOTHA

Waverers Have Swung to British Side—Strong Measures to Suppress Treason.

Special Direct Copyrighted Cable to The Toronto World. JOHANNESBURG, South Africa, Oct. 15.—Eighty of Lieut.-Col. Maritz's Boer rebels have been captured after a brief fight by the union forces.

Canadian Press Despatch.

CAPTOWN, Oct. 15, 10.15 p.m. (Via London).—As a result of Col. Maritz's rebellion in the northwest of the Cape provinces, Gen. Louis Botha premier of the Union of South Africa and commander of the troops of the union, is taking the fields earlier than he originally intended to do. Gen. Botha is placing himself at the head of several strong Dutch commands organized on the old border line, which are affiliated with regiments trained by the union defence force.

Commandants, field cornets and burghers who served under Gen. Botha in the South African war, are rallying to his call, irrespective of their political feeling, to fight alongside the English in defence of the empire, against which, twelve years ago, they were in arms. This fact has had a marked effect on waverers, who are now flocking to Gen. Botha's standard.

The other rebels within the union having openly declared themselves, the government considers itself not obliged to deal gently with them out of consideration for certain Dutch people, who, even though they are not strong supporters of the government, are said to have drawn the line at rebellion.

The government is also adopting stern measures by arresting prominent men who are suspected of sowing sedition, charging them with high treason.

Gen. Herzog, who has been one of Gen. Botha's most bitter opponents, has placed his services at the disposal of the premier.

GERMANY NEEDS BIG WAR CREDIT

Two and a Half Billion Dollars Called for—Government to Provide Work.

Canadian Press Despatch. AMSTERDAM, Oct. 15, via London, 9.50 p.m.—The Telegraaf today publishes the following despatch from Berlin:

"The Prussian Government will ask the diet for a war credit of more than \$2,500,000,000.

"The government work on the railways and highways will be proposed in order to cope with the unemployment situation and to give relief to small communities. At a joint sitting of the party leaders it was decided unanimously to support the government's program. The sitting of the diet will partake of the character of a war session and will last only a few days."

DUTCH TO RAISE \$20,000,000.

Canadian Press Despatch. THE HAGUE, Oct. 15, by way of London, 6.35 p.m.—The first chamber today passed the measure providing for the second war credit of \$20,000,000.

Big Demand for Seats. When the box office at the Princess Theatre opened yesterday morning there was a big demand for seats for the engagement of Maude Adams, who comes to that theatre next week in J. M. Barrie's new play, "The Legend of Leonora."

Best Hat Values of the Season. New Hat Values at the Dineen Co., 140 Yonge street, in a position to offer values that are without precedent at this season.

Twenty cases of smart soft hats from Canadian factories have just been opened, and they are certainly uncommonly good value at \$2. Most of them are blue, with contrasting broad bands. Another shipment that will prove of supreme interest to the men and young men of Toronto is unfinished felt hats—smart and serviceable—priced only \$2. Crowns are telescope and fedora, flat set brim, greens and grays, with broad self bands, and make an ideal hat for present wear. Dineen has never offered anything better in soft hats at this price.

THEFT OF GRAIN ON HUGE SCALE

Three-Quarters of a Million Bushels May Have Been Taken at Montreal.

Canadian Press Despatch. MONTREAL, Oct. 15.—A large quantity of grain, said by some to be more than would fill two of the biggest "tramps" plying out of Montreal, has been stolen from elevators owned by the Montreal harbor commission. The figure is set by some at 750,000 bushels.

The harbor commissioners state, however, that only a few hundred bushels have disappeared. The first intimation of the thefts was received from England, where cargo was reported about 10,000 bushels short. An investigation followed and the deeper those conducting it go, the more they are amazed.

HAS PORTUGAL DECLARED WAR?

Spanish Newspapers Say Step Was Taken Yesterday and Call for Some Action.

Special Direct Copyrighted Cable to The Toronto World. MADRID, Oct. 15.—While the minister of state remains silent on the authenticity of the report that Portugal has declared war against Germany, the Spanish newspapers say the declaration was made today.

Liberal organs discuss at length the new situation created by Portugal's attitude and declare that the moment has arrived for Spain to abandon her state of passive observation and prepare for eventualities. With Portugal in the field, they go on to say, the operations will not remain confined to France, and in order to strike at Portugal the Germans will not hesitate to invade Spain, just as they invaded Belgium.

**GERMANS MOVE TOWARD COAST MET OBSTACLE**  
Allies, Slowly But Steadily, Are Pressing on to Victory.  
**DRIVEN BACK FROM LYS**  
German Assaults Are Losing Vigor — Conflict in Metz Region.

Canadian Press Despatch. LONDON, Oct. 15, 10 p.m. — Two great battles, one in Northern France and Belgium, the other in Russian Poland, both with front as 300 miles, have reached their height, but their progress the public is allowed only an occasional glance thru official communications, which frequently are widely at variance.  
From the French report, the western battle is going slowly, but surely, in favor of the allies. Under the pressure of the troops of the allies, the Germans, who started to advance on Calais and other French coast ports, have been forced to evacuate the left bank of the Lys River, which is a considerable way east of the points to which their advance guards reached last week. Further east, in the Lens district, and southward between Arras and Albert, where the Germans made their initial attempt to work round the allies' left, the English and French have made "notable progress."  
Foes' Attacks Weaken.  
Evidence that the German assaults are being delivered with less force is conveyed in the intimation that between the Somme and the Oise their artillery attacks are not being followed up with infantry charges. It is possible that they have withdrawn some of their troops from this position to strengthen their advance toward the coast, but this, it is considered, would be risky, as it might permit the allies to break thru and interrupt the communications of their armies which are fighting north of the Aisne.  
In the centre the allies have also advanced, particularly towards Craonne to the northeast and towards the Berry-au-Bac to Rheims and to the north of Prunay, in the direction of Beine, which is slightly to the south of Rheims, several German trenches have been captured.  
All this shows a determined and partially successful attempt to drive the Germans away from Rheims, which was again under bombardment today. The French advance in this vicinity also indicates an attempt to break the German front and force a wedge between the German right and left.  
The French also claim to have made an advance between the Meuse and the Moselle, and, after having repulsed the German attacks, to have reached the village of the route from Verdun to Metz. It is probably this fighting which the Germans referred to as having taken place in the region of Metz. On the French right, where things have been quiet for some time, the Germans have attempted offensive tactics in the Ban de Sept, north of Saint Die, but this movement has been "definitely checked."  
On the whole, the British military critics consider the communication a most cheerful one. They believe that the German advance to the French which has been recently checked and which the advances reported elsewhere show that the Germans have been compelled to weaken their centre and left in order to strengthen their right flank.  
However, altho the Germans have failed to break the allied lines and have themselves been compelled to give ground, they are now in a better position, having a front which stretches from the Swiss frontier to Antwerp and Dutch territory, so that there are no flanks which the allies can turn. This is believed to be what they are trying to do on the Belgian frontier.  
Of the fighting in Northern Belgium the French communication simply says that German troops coming from Antwerp are marching toward the west, and on the evening of October 14 reached the Bruges Thielit district. The opposition offered to this advance was not very serious and apparently was only intended to delay them.  
Germans Occupy Bruges.  
The Germans have occupied Bruges and are probably at the present time near Ostend.  
The main German force, however, is believed to have proceeded southward to assist in the attempt of the French to establish themselves on the French coast. With the forces of the allies occupying Ypres, and doubtless other troops between that city and Newport, ten miles southwest of Ostend, they will probably be compelled to fight their next serious battle along the roads and railways running eastward from the coast. Again, they may join with General Von Kluck's army, which occupies Lille and the country north of the Scheldt.  
The population of the country affected are rapidly making their way to the coast ports and to England, and bring reports of the prevalence of panic conditions.

**KING NICHOLAS PRAISES ITALY**

Ruler of Montenegro Says Neutrality Has Assisted the Allies.  
Special Direct Copyrighted Cable to The Toronto World.  
ROME, Oct. 15.—What is regarded as a very important statement appears in The Turin Gazzetta Del Popolo, the same being an interview between the Cetinje correspondent of that publication and the King of Montenegro. It is believed to express the attitude not only of King Nicholas, but of the Balkan peoples toward Italy, excepting Bulgaria, which has strong Germanic leanings.  
King Nicholas said: "Italy's neutrality has contributed largely to the success of the allies. I hope that the first favorable opportunity will be seized by Italy to defend her national interests, and Serbia and Montenegro can be relied upon to aid her."  
"Both Montenegro and Serbia are now acquiring national union with their brethren in Bosnia and Herzegovina, and rely on Italy's help to preserve that union. I am convinced that when the exiled children of Italy are gathered under the Italian flag we will find it the first step toward an Italo-Slav friendship, which I believe is sure to follow."

**BRITAIN SHOULD PREPARE FOR GERMAN INVASION**

Times Advises Authorities to Appoint Commander for Home Defence.  
Canadian Press Despatch. LONDON, Oct. 15.—The Times' military correspondent, discussing the possibility of Germany attempting an invasion of England, thinks the government ought to instruct the people and the authorities how to act in the event of such an attempt, and to make up their minds whether it is proposed to fight regularly or irregularly in repelling an invader.  
The Times points out that there is no commander-in-chief in the British Isles except Lord Kitchener, and that unless one mind presides over the numerous garrisons and various armed forces which would be used in defence, there can be no unity of action.  
"Desperate as the attempt would be," the writer adds, "the lack of great success on the continent may tempt Germany to risk a blow at England, and the more completely we are prepared the less likely is the attempt to be made."

**AUSTRIANS USING DUM-DUM BULLETS**

Russians Secure Eight Cases in Theatre of War, Official Statement.  
Canadian Press Despatch. PETROGRAD, Oct. 15.—The general staff of Kiev has given out a statement alleging that dum-dum bullets are being used by Austrian troops. Eight cases of these bullets have been secured in the theatre of war. The packages in which they are put up bear this inscription: "Uebungspatronen M. T. Welt S. 1914."  
According to advices received here many Roumanian deserters are presenting themselves before the Roumanian consul at Odessa and demanding that they be sent home.  
The Governor-General of Warsaw has given out an appeal to the people urging them not to become alarmed concerning the progress of the campaign in Russian Poland.  
The life of Warsaw is following its normal course.

**GERMAN SHIP SUNK STEAMER TAKEN**

H. M. S. Yarmouth Disposes of Supply Vessels to Emden.  
Canadian Press Despatch. LONDON, Oct. 15.—The admiralty announces that the British cruiser Yarmouth has sunk the German Hamannburg-American Line steamer Markomania in the vicinity of Sumatra, and has captured and is taking into a harbor the Greek steamer Pontports.  
Both the Markomania and the Pontports have been reported to be used as accompanying the German cruiser Emden. The Yarmouth has sixty German prisoners of war on board.  
The Markomania had a gross tonnage of 4565 and was engaged in the African service.

**GERMAN GUNBOAT CALLS FOR COAL**

Geier Arrives at Honolulu From Tsingtau Ahead of Jap Liner.  
Canadian Press Despatch. HONOLULU, Oct. 15.—The German gunboat Geier, from Tsingtau, China, arrived here today with a complement of 100 men, 25 hours in advance of the Japanese liner Shinyo Maru, which is due here tomorrow, bound for San Francisco.  
Beyond saying that they intended to coal ship, the officers of the Geier were silent. The gunboat showed no signs of being in action, but the scraped appearance of her port side indicated that she might have been coaled at sea.  
Inasmuch as this is the Geier's first appearance in an American port she is entitled to 24 hours' stay and as much coal as will take her to the nearest German port. Since all the German naval bases in the Pacific have been seized, this is equivalent to permission to fill her bunkers, but after coaling she must not revisit any American port for the next three months.

**CHOLERA SPREADS THRUOUT HUNGARY**

Laxity in Sanitary Supervision — Austrian Commissariat Breaks Down.  
Canadian Press Despatch. VENICE, Oct. 15, via Paris, 1.30 p.m.—According to reports reaching Venice, cholera is making rapid strides thruout Hungary, and the progress of the disease is causing alarm among the people.  
The Hungarian authorities, it now appears, were too lax in the beginning in the matter of the sanitary supervision of prisoners' camps, which, since have been placed under special control. Prisoners no longer are permitted to camp in the open air, and now all suspect cases, are being isolated in hospitals.  
Other despatches reaching Venice relate that the Austrian commissariat department is breaking down, and as the equipment of new recruits is concerned. These men are suffering from a scarcity of clothing and boots, especially heavy winter garments.

**EARLY CLOSING OF SALOONS.**

LONDON, Oct. 15.—The closing hour for restaurants, clubs and saloons, which had been fixed at the early stages of the war at 11 p.m., will be made 10 o'clock, beginning Monday next. At Woolwich and Greenwich the closing hour will be 7 p.m., and the saloons reopen till 10 a.m., instead of 5 or 6, as at present. The curtailment of the night hours is due to the desire of the authorities to keep drinking at a minimum.

**GERMAN SPIES TAKEN.**

NANAIMO, B. C., Oct. 15.—The 90-ton gasoline launch, Empress Ninth was captured by Canadian authorities at Comox Spit in Union Bay. The crew, two men and a woman, all giving the name of Kofke, were taken into custody. The launch had about nine months' provisions, and supplies aboard, and was equipped with wireless apparatus.  
Two other men, also named Kofke, were arrested at Campbell River. They are charged with being German spies.

**GERMAN SHIPS SEIZED.**

LONDON, Oct. 15.—Athens newspapers assert that the Russian fleet in the Black Sea has seized two German steamers loaded with cereals, and reports from Galatz of Kustendie, Roumania.

**GERMAN LOSS HEAVY.**

PARIS, Oct. 15.—The newspaper France du Nord declares today that when the Germans were defeated at Arras they lost from 12,000 to 15,000 men, who were surrounded by the French in some marshes.

**CHANNEL VESSELS CARRY REFUGEES**

Port of Ostend Closed — Belgians Leave Thru Calais and Dunkirk.  
Canadian Press Despatch. FOLKESTONE, Eng., Oct. 15 (via London, 8.55 p.m.)—The cross channel steamers, which have been busy for days past transporting refugees from Ostend, which port is now closed, owing to the approach of the Germans, are being employed now in bringing refugees from Dunkirk and Calais. These refugees are Belgians, who succeeded in getting to France from their own country, and owing to the panicky feeling in the French port are now just as anxious to come to England.  
Leopold III, one of the royal Oostend steamer, which left here last night, was warned not to enter Ostend, and proceeded to Dunkirk, where she remained until this afternoon, when the vessel returned to Folkestone.  
Heavy firing could be heard at Dunkirk thruout the night, but it was said that the Germans were a long way from the town.  
The Princess Henrietta, which left Ostend yesterday with Belgian soldiers who were landed at Calais, also arrived here this afternoon bringing the refugees. Calais, they reported, is filling up with people from the surrounding country and from Belgium. A fleet of fishing boats has also arrived filled with passengers from coast ports. Three thousand Belgian wounded have arrived here. Some have not had their wounds dressed for six days.

**AUTOMOBILE MEN SIGN MUSTER ROLL OF HOME GUARDS**

Oliver Hazzlewood Occupied Chair at Organization Meeting Last Night.  
Seventy-two members of the Automobile and Allied Trades Association met at the Canadian Foresters' Hall last night and formed themselves into a Rifle Association. Oliver Hazzlewood occupied the chair and explained the reason for which the meeting was called. O'Mara was appointed secretary. The following captains were also elected: W. H. Stewart, Hall, Harcourt, Duggan and Gillies. The entire company signed the roll of the Home Guards, with which company they decided to associate themselves, and took the oath of allegiance. A committee was formed to meet on Friday in order to elect officers, and comprised the following gentlemen: Messrs. Hazzlewood, O'Mara, Sharp, Hicks, Vialick, Hopkins, Bowen, Lamb, Gibbons, Flit, Mulholland, Nixon, McMillan and Dunn.  
The company will meet on Friday at 8.15 at the Bayville Park for parade.

**FELL DEAD IN RESTAURANT.**

KINGSTON, Oct. 15.—Myles Martin, 60, living at Yarker, went into Beef Steak Jack's restaurant tonight, ordered a meal and just as he commenced to eat, fell from his chair dead. He was visiting in the city and was unmarried. Coroner Dr. D. E. Mundell has ordered a post mortem examination.

**STURGEON FALLS MAN KILLED BY OWN RIFLE**

Searching Parties Unable to Locate Spot Where the Accident Occurred.  
Canadian Press Despatch. NORTH BAY, Oct. 15.—Frank Flannigan, aged about 21 years, son of Richard Flannigan of Sturgeon Falls, accidentally shot himself Wednesday while hunting in the vicinity of Sandy Falls. Two lads were out with him and heard him cry out, but when they reached the spot where he fell life was extinct. The lads gave the alarm, but when a party went to find the body, they were unable to do so. Parties are still out looking for the remains.

**AUSTRIAN NAVY BADLY CRIPPLED**

New Dreadnought Nearing Completion, Was Totally Destroyed by Fire.  
Special Direct Copyrighted Cable to The Toronto World.  
ROME, Oct. 15.—A despatch from Trieste states that the new Austrian dreadnought building at the Monfalcone Bel Trieste shipyards was today destroyed by fire, believed to be of incendiary origin. Six new torpedo boats were seriously damaged at the same time.  
Shortly after the force of five thousand men employed in the yards came to work this morning flames suddenly burst out at several places on the dreadnought and about the scaffolding which surrounded her hull. Within a very few minutes the entire vessel was in flames and its destruction was inevitable. The torpedo boats, lying in slips not far distant, also caught fire, and for a time it seemed that the entire yards, machine shops, docks and all, must be eaten by the flames. The conflagration was finally checked, and two or more of the smaller craft may be rendered serviceable.

**SON OF MONTREALER WAS SLAIN IN BATTLE**

Canadian Press Despatch. MONTREAL, Oct. 15.—William Carle of this city received word today from the British Government that his son, Private Wm. Alexander Carle, of the first battalion Scots Guards, had been killed in action in France.

**AUSTRIA BUSY FORTIFYING.**

VENICE (via Paris), Oct. 15.—It is reported from Trieste, Austria, that all able-bodied men in Austria are being forcibly compelled to assist in constructing fortifications. Any man refusing to do this work is arrested. The people are expressing indignation because of this.

**GERMAN ATTACK "COSTLY FAILURE"**

Night Assault on British Lines Repulsed With Artillery's Aid.

**DUEL FOUGHT IN AIR**

German Aviator, Chased by British Airman, Vanished in Clouds.  
(BRITISH OFFICIAL)

Special Direct Copyrighted Cable to The Toronto World.  
LONDON, Oct. 15.—Another of the series of articles written by a member of the staff of Gen. French, who has already given some vivid accounts of fighting on the French front, was issued by the official press bureau today. It is in part as follows:  
"From Friday, Oct. 9, until Monday, Oct. 12, so little occurred that a narrative of the events can be given in a few words. There has been the usual sporadic shelling of our trenches, which has resulted in but little harm, so well dug in are our men, and on the night of the tenth the Germans made a fresh assault, supported by artillery fire, against the point which has all along attracted most of their attention. The attempt was again a costly failure, toward which our guns were able to contribute with great effect."  
Pursued German Aeroplane.  
"Details have now been received of an exciting encounter in midair. One of our aviators on a fast scouting monoplane, sighted a hostile machine. He had two rifles fixed, one on either side of his engine, and at once gave chase, but lost sight of his opponent among some clouds. Soon, however, another machine dove into view, which turned out to be a German Otto biplane, a type of machine which is not nearly so fast as our scouts.  
"Our officer once again started a pursuit. He knew that owing to the position of the propeller of the hostile machine he could not be fired at when astern of his opponent. At sixty yards range he fired one rifle without apparent result. Then, as his pace was halting him ahead of his quarry, he turned round, and again coming about the same distance behind, emptied his magazine at the German.  
"Vanished in Clouds.  
"The latter began at once to descend as if either he or his machine were hit, and shutting off his engine and volplaning to free his hands, the pursuer recharged his magazine. Unfortunately it jammed, but he managed to fire four cartridges and to fire them at his descending opponent, who disappeared into a cloud bank with dramatic suddenness.  
"When the British officer emerged below the clouds he could see no sign of the other. He therefore climbed to an altitude of 7000 feet and came to the conclusion that the German must have come to the earth in the French lines."

WILL NOT ALTER WARD BOUNDARIES

Proposal of Alderman Wanless Has Been Withdrawn for a Year.

DENY YEOMANS RUMOR

But Talk Persists That Former Alderman Will Manage Fire Office.

A rumor that ex-Alderman Yeomans had been decided upon as "office manager" for the fire department was vigorously denied by members of the board of control at yesterday morning's meeting.

It is, however, stated confidently at the city hall that not only will Yeomans be supported by three members of the board of control, but that he has the names of sixteen members of council on his side, on whom he depends to vote for him.

The matter will come up before the board this morning, when some heated discussion is expected to materialize.

Alderman Wanless's proposition for the changing of ward boundaries was killed for the present year at all events by a special committee yesterday afternoon.

Communications from members of the Team Owners' Association were read at the board of control yesterday morning, complaining that the fair wage rate of \$6 per day was not being paid by several of the contractors.

The board sent the matter on to the commissioner of works for instructions to enforce the fair wage clause.

GRAF FINDS A PLACE IN CHINESE POLITICS

Returned Missionary Tells Synod It is Hard to Find Honest Officials There.

"How to find enough honest men to fill public official positions is the great difficulty now confronting the government in China," said Rev. John Griffith at the Presbyterian Synod yesterday.

The speaker, who has just returned from Honan, stated that the new government had organized "a very respectable standing army," quite capable of preventing any outbreak such as the Boxer uprising.

Rev. J. J. Elliott presented the report of the home mission committee, which stated that owing to the war "immigration has largely ceased to flow to our shores."

The synod adopted the following recommendation of the committee: "That the attention of all our missionaries be called to the serious and critical nature of the trial thru which our country is passing by reason of the great war, and that the convenors be asked to co-operate energetically with the missionaries to secure the best possible returns, so that there will be no deficits to be reported."

Rev. S. B. Rohold reported the work among the Jews in Toronto, especially since the opening of the Christian Synagogue in the ward, as making excellent progress.

The synod adjourned to meet next year in October, at the time of the opening of the new Knox College.

RENTS DOWN TWENTY-FIVE PER CENT., SAYS OWNER

War Time Plea Succeeded in Reducing the Assessment on Church St. Property.

"Rentals have gone down more than 25 per cent.," said Mr. Grey during the course of his appeal before the Council yesterday.

The Titles and Trust Company appealed against the assessment of property at 3 Front street east on the ground that the property being leased to the crown was therefore exempt.

JEALOUSY FIGURED IN TONY GEORGE'S CRIME

He Resented Interpreter Raykoff's Wooing of His Sweetheart — Will Be Sentenced Today.

Interpreters figured in abundance in the assize court yesterday when Tony George, a husky young Macedonian, was found guilty of shooting and accidentally killing a young woman.

Jealousy was the cause of the crime, and Crown Counsel DuVenne briefly stated the facts when he addressed the jury, saying: "It is something in the favor of the young man that he said no word against the girl. He admits the shooting. He had been keeping company with the young lady and thought that there should be no competition. His way of expressing his resentment is not tolerated in this country."

George met Vladolava, a young woman, when she came to this city without money, friends or knowledge of the language.

On another occasion she was witness in a police court case, and she met Raykoff the interpreter. He befriended her this time and later became her lover, to the chagrin of George.

Raykoff married the pretty Vladolava and George stayed in jail, where he now awaits sentence.

Window Display Week is a Move for Better Business

WHEN "Good Times" begins making inquiries at the dealers' counter the whole world gets busy.

As goods move from the shelves the wheels of production take on new activity.

Newspaper Window Display Week is designed to link the dealer's counter with the greatest business building force of today—Newspaper Advertising.

Every manufacturer who advertises in this newspaper is making business for the dealers who carry his product. He is sending customers to their stores.

National advertising in local newspapers means direct sales for local merchants.

It is to the interest of local merchants that newspapers carry more national advertising. It is to the interest of retailers to push the goods advertised in their home newspapers.

As an object lesson the week of October 19-24th has been set aside by leading newspapers of the United States and Canada as National Newspaper Window Display Week.

During Next Week Merchants are Requested to Display in Their Windows, Standard Products of National Distribution Advertised in This Newspaper. Join the Movement--Help Start the Factory Wheels Going.

Grandpa

and the Victrola are great friends. "I like to sit back and dream of the days gone by, while the Victrola, through its magic, recalls the old songs and singers to me.

"There's Tamagno and Plançon, Patti and Melba who still sing for me just as I used to hear them, at their best, although two are now dead and one has permanently retired from the stage. And the younger generation of singers, although I have never had an opportunity of hearing them personally, seem like old friends to me, so familiar have their voices become through their wonderfully beautiful Victor Records.

"All the rest of the family enjoy the Victrola just as much as I do. They all have their favorite music and their favorite singers and musicians. It don't seem to me as though there could be anything that could give so much pleasure to everybody as the Victrola does."

YORK COUNTY AND SUBURBS

MUST BE PREPARED FOR HOME DEFENCE

Gen. Sir Wm. Otter Issues Warning — Dangerous Time for Canada.

SET BACK TO PACIFISTS

Cannot Be Claimed That Canada is Safe From Aggression.

Addressing a crowded meeting of the Riverdale Business Men's Association, held in the Queen Alexandra School, Broadview avenue, last night, on "Canada's Duty to Home and Country," Gen. Sir William Otter said: "I wish to cast no reflection on the men serving with the militia nor do I hold any brief for any party. The task is no easy one, as any remarks I may make to encourage military training is likely to be met with criticism from those holding peaceful views of settlement. I am afraid that there has been a setback of late to those opinions. War is a terrible affliction, and it is always our hope to find a means of a natural settlement, but can any one hope for such a thing as a peaceful settlement, but when was there peace in the world, for the life of man has been one of conflict and peace only comes with death.

Fear of Aggression. "It is only natural that man should fight with weapons when he is attacked. Why do people have desires to acquire the property of others? Why do nations train an army? Why are they not fearful of the aggression of others? Why are new countries like Australia and New Zealand beginning life by educating their sons for their defence? It is because of the fear of aggression.

"Can it be assumed that Canadians are devoid of sentiment and remain content to live under any flag as long as they can accumulate wealth and are assured of a comfortable inheritance? We desire no change and are ready to battle to the bitter end."

Defence Situation. "Sir William analyzed the defence situation and declared that peace was only secured thru maintaining a state of defence. "There are many who rely on the British navy and army for our protection and therefore ask why go to the trouble and expense of organizing a line of defence. That's true, but are we still children to help ourselves? Have we no spirit?"

"The time of danger arises when England is involved in trouble in Europe, and unable to come to our aid. Under such circumstances we must depend on ourselves and that is on the militia when the occasion arises."

"No doubt there are many Canadians who are anxious to volunteer for the defence of our country, but they are lacking in training and will not be in charge of competent officers."

Continuing, he said: "It cannot be claimed that Canada is safe from aggression, and we must ask ourselves, are we prepared?"

The people generally seemed oblivious to the situation, and he compared them to the ostrich that sticks its head in the sand and considered itself safe from attack.

In summing up the training of the first Canadian conscripts, Gen. Otter said that six months would be lost before it was ready for the front.

DUMPING GARBAGE NEAR DWELLINGS

Thin Layer of Sand Does Not Suppress Odors—Ward Seven News.

The residents on Pinecrest road, Quebec avenue and that vicinity are much incensed regarding odors which are acridly and depressing when some of the best residential properties in the western part of the city. In the ravine south of Pinecrest road, a huge pile of refuse, garbage of every description has been dumped here and there for several months, and beyond a meagre superficial layer of sand, no provision has been taken to prevent the vile odors from its decomposition from poisoning the air for blocks around, the citizens are complaining. They have voiced their protest before the city council and board of works in delegations from the Ratepayers' Association, but the nuisance remains. "They make us keep the very latest sanitary receptacles and force us to collect it in the mornings at our front doors, and then proceed to haul it around and dump it in the open air at our back doors."

SEWER STILL OPEN.

But the refuse dump is not the only complaint. Where the new sewer construction was going on in the same ravine last summer, the service sewer was broken and the sewage allowed to flow openly down to Bloor street, where filling in operations are now going on. It was understood at the time that this state of affairs would exist for a very short time, but it has existed for weeks and at times the stenches mingling with the emanations farther up the ravine to make the air for blocks around well nigh intolerable. Open windows are an impossibility, as cases of illness are bound to, and have, resulted from too long an exposure to the smells.

MAKE UP BATES TODAY.

The Keele street fire hall is one of the headquarters for the fire department. Supplies to be forwarded to the Belgian refugees. Thirty-five bundles of clothing, boots, etc., and a number of others have been promised, but as the bundles must be made up today, it will be necessary for all donations to be left in care of the Keele street firemen before noon today.

EARLS COURT NEWS

A public meeting of Ward Six Liberal-Conservative Association will be held in Little's Hall, Earls Court, on Monday evening, Oct. 19. President Thomas Rooney will occupy the chair. Professor Robins of Victoria University will address the members of the Silverthorne Methodist Men's Own Brotherhood in Silverthorne Church on Sunday, Oct. 25. The subject will be "Germany in War Time."

A meeting of the McNab Red Cross League will be held this afternoon at 7:30 at Dundas Heights 550 west of Clair avenue. In the evening at 7 o'clock the children of McMurrich School and other schools will meet for drill and work at McMurrich School, Ossington avenue.

JURY RETURNED SEALED VERDICT

Judge Had Left Bench Before Jurymen Disposed of Damage Action.

Conflicting opinions of jurymen kept Mr. Justice Britton and the assize court waiting until a late hour last evening. The problem to be solved was the question of negligence on the part of Toronto and York Railway when one of their cars last January crashed into a buggy driven by A. G. James at York Mills, killing him and the horse he was driving. The widow and children declared that the death of Mr. James was caused thru the negligence of the company in permitting the car to be run at an excessive rate of speed. The case held the attention of the court for more than a day and a half, and last evening the jury went into conclave to determine upon the verdict. After several hours of absence from court they returned and received instructions from the judge and again retired into their own room. The judge left the bench and the jury later brought in a sealed verdict, which will be read in court this morning. The widow is claiming \$10,000.

B. I. A. BRANCH BECOMES RATEPAYERS' ASSOCIATION

The changing of the name of the Silverthorne branch B. I. A. to the Silverthorne Ratepayers' Association caused considerable discussion at a meeting held in Silverthorne Methodist Church last evening. H. Parfrey objected to the adoption of the minutes of the previous meeting, at which the annual election of officers took place and the name of the organization was changed. The speaker claimed that the secretary did not notify the members that the name of the association was to be changed, according to rules. He also maintained that since the inauguration of the B. I. A. in the district any measure of improvement they had received had been thru his influence, and he challenged anyone to show any better work done in any part of the city than had been done by the B. I. A. in the Earls Court district since its inauguration.

HEARS FROM BROTHER WITH CORPS AT FRONT

Mrs. F. Ineson Receives Card Informing Her of His Being Well.

Mrs. F. Ineson, 75 Blackthorne avenue, Silverthorne, is in receipt of a postcard from her brother, John Biggs, drummer in the 1st Queen's Regiment, now on the firing line. He left England with his regiment for France the day war was declared and the card contains the bare information, "I am well."

ORGAN AT UNIONVILLE TO BE COUNTRY'S FINEST

Is Gift of A. G. H. Eckhardt in Memory of His Forefathers.

An organ which will be the finest in the County of York outside of Toronto is to be taken to Unionville on Monday and installed in the Lutheran Church there. It is a gift of A. G. H. Eckhardt to the church and cost in the neighborhood of \$900. The Eckhardt family were among those who first organized the church and the donor is making the presentation in memory of his forefathers in that section of the country. The church was the first erected by the denomination in Ontario, and is thought to be the oldest church in the County of York. It was erected in 1792.

SPECULATION REGARDING NEW DODGE.

All automobiledom is wondering how it is possible for Dodge Brothers to maintain such absolute secrecy regarding the motor car they are to market this fall.

With testing models on the road and around the works, with thousands of employees who must have had at least a glimpse of the car, with production of the parts under way on an ever-increasing scale, with all orders placed for materials, how is it possible to withhold from the interested motor car world every detail about the forthcoming car?

But that is exactly what has been accomplished. It is known that there will be a car soon. It is known that a strong sales organization has been formed, that more than 10,000 dealers have asked for selling rights, and that the car will doubtless establish a new standard of automobile values. But as to the car itself—number of cylinders, power, weight, wheel base, equipment, price, etc.—all is shrouded in mystery. The situation is a truly remarkable one and absolutely without precedent in the history of motor cars. If the purpose of this secrecy has been to arouse interest (Dodge Brothers say not) the result has certainly been achieved.

SINGLE TAX MEETINGS.

The Tax Reform Association of Eastern Canada and the Single Tax Association of Toronto held their annual meetings jointly yesterday, and very interesting sessions were held in St. James parish house in the afternoon and evening. The speakers of the evening meetings were: John McHowly of Buffalo, H. B. Cowan of Peterboro, Controller Simpson, A. W. Roebuck and James Watt of Toronto. The Single Tax Association will elect officers this afternoon in the Central Y. M. C. A.

FRIDAY MORNING, OCTOBER 16.

#### How the Kaiser May Cross the Straits of Dover.

If the Kaiser were as intimate with the Lord as he would have us all believe, he would get the Almighty to freeze the English Channel between now and next March and cover the silver streak with a coat of ice not less than two feet thick. Nothing less than this will convince us of the Kaiser's celestial influence and nothing less than this will avail him in his attempts to invade Great Britain.

Moltke knew several ways of getting into England, he said, but he did not know any way to get out again. Perhaps the Kaiser has not considered the latter part of the problem. But it would take a solid ice road from Ostend to Dover to do him any good in carrying out an invasion.

We are told by some of the amateur experts that the Kaiser could command the channel with his heavy siege guns mounted at Ostend. It is about seventy miles from Ostend to the nearest land in England, and however heavy the Kaiser's artillery he could not control the channel at that width. If he had taken Calais he would have a range of thirty odd miles to cover, and it is hardly likely that he could stop the English navy with a land bombardment of this description. To bombard the English coast from Ostend or any other continental channel port would do him little good.

The real danger might be the holding of the channel against war vessels, as Gibraltar commands the entrance to the Mediterranean. But supposing that with immense guns the Kaiser was able to command the Straits of Dover. The German navy would have more than three hundred miles to sail from its present base before it got down there. If it wanted to go there, and there is no conceivable reason why it should want to go there. If it wants to come out into the North Sea it can do so at any time. The guns of the Kaiser at Ostend could neither assist nor retard any operation based on Cuxhaven or the Kiel Canal. In the three hundred miles between Cuxhaven and Ostend there are ample opportunities for the British fleet to get into touch with the German navy should Admiral Tirpitz venture his precious vessels outside their nursery. When the allies decided to abandon Ostend they would take all the factors of the situation under consideration, and when they left it behind them we may be sure they did not leave much that would be of any use to the Kaiser.

The other suggestion that Ostend would serve as a base for air fleet attacks on Britain would have been more worthy of attention earlier in the season. Just at present, and for the rest of the winter season, the weather in the German Ocean and the English Channel is not inviting for airships, nor even for cross-channel steamers, as passengers who have tried it will be able to testify. Fogs, squalls, storms, atmospheric conditions fatal to all air craft are to be expected to prevail for six months to come. And if a few Zeppelins did venture across into England they are likely to get a reception there which would make their return to Germany exceedingly problematical.

Taking it by and large, we believe the Kaiser's best chance of invading England is a freeze-up of the Straits of Dover.

#### Interest and Usury

We hear many complaints in the United States of extortionate interest charges by the banks, but such complaints in this country have been directed mainly against individual money lenders, and in some cases, against loan companies. Almost every day some debtor complains that he is being squeezed by his creditor into paying usurious interest.

Of course the value of money is not always the same, and the man negotiating a loan at this time must expect to pay considerably more in the way of interest than he would have been asked to pay a year or two ago, but where the money has been bor-

rowed and interest kept up, it seems unfair to threaten the debtor with foreclosure and forced sale unless he binds himself to pay a much higher rate of interest than was stipulated at the time he obtained the money.

Here is a case in point. Two years ago a man in Toronto purchased a piece of improved real estate, upon which there was a mortgage of \$2500, bearing interest at 5% per cent. He desired to pay the mortgage off, but as it still had two years to run, the creditor would accept nothing less than the money then due and a premium of \$275. The debtor therefore paid his interest annually, but now is unable to pay the principal, and the creditor threatens foreclosure unless he will renew the mortgage for five years at 8 per cent.

It is hard to draw the line between interest and usury, altho in many countries it is drawn by statute. Two elements, of course, enter into the consideration: one is the actual value of the use of the money apart from any possibility of loss, and the other is the element of risk. Where there is no risk of losing the loan, as, for example, in the case of British consols or United States bonds, money can be obtained even now for three per cent. Commercial loans in Canada should not be over six per cent, in view of the government's willingness to lend money to the banks at five per cent.

In this connection we are sorry to learn from a gentleman of high standing in the west, that some loan companies are demanding over ten per cent interest; surely such charges are usurious.

#### Canadian Troops in England

As an explanation of the report last week that the Canadian contingent had landed at Southampton, it is stated that the arrival of transports with returning British reservists was mistaken for the Canadians. The real Canadians have turned up at Plymouth, and are said to be booked for training at Salisbury. This cancels the hope that many had that they would be at once employed in active service in Belgium or France. At the same time, it reassures those who fancied the British were so hard up for men that they were sending every available regiment to the front. The greatest care is evidently being given by the military authorities in England to ensuring the efficiency of the men, and this is not only good for the men themselves, but good for the cause to which they are committed.

#### Bring Men to Canada

The meeting to be addressed by Madame Vanderveelde of Belgium, in Massey Hall, on Saturday night, will beyond doubt respond most generously to the appeal for aid to the unfortunate Belgian refugees. That will be as it should be, but is there nothing more to be done?

We venture to think that the meeting should not adjourn without passing a resolution calling upon the Dominion government to invite the homeless and heroic Belgians to come and cast their lot in with us in Canada. It would be quite feasible for the government to bring a thousand settlers with their families from Belgium and settle them in the west. They would help to build up the country, make devoted citizens and soon acquire a competence.

Let us give twice by giving quickly to the relief fund, but let us also do something that will permanently benefit our allies and at the same time strengthen Canada.

#### Strengthening Financial Conditions

Progress toward complete readjustment of Canadian financial conditions becomes perceptible when one of our largest loan companies announces that it is taking over the million dollar business of a smaller Toronto company. It indicates that the work of providing mortgage loans can best be done by large institutions at a time like this when money wanted by farmers to finance larger acreage can not be readily had. Mr. W. S. Dinick is responsible for completing a deal that shows considerable confidence in the financial situation. As the guiding hand of the Standard Reliance Mortgage Corporation he has brought this company within the last few years right up to the front rank among mortgage companies. The deal whereby it absorbs the business of the Sun and Hastings Savings and Loan Company of Ontario will add to its former influence and strength.

Because the banks get closer to the people it is not generally realized that the mortgage loan companies of the Dominion conduct a financial business

### TRYING TO PRESERVE HIS BALANCE

almost as great and quite as important as the banks. Practically all the financial assistance given the farmers of the country comes from the loan companies. During the last eighteen months when the farmers, of the west particularly, needed money to meet their obligations to the various branches of internal commerce, and could not get that money thru the ordinary channels, the loan companies made successful efforts to assist them. The result is seen in the clearing off of the clouds that overhung the west.

Loan companies secure their funds thru the selling of debentures that are secured by bulked mortgages. There is not a case on record where an investor has lost money over one of these Canadian mortgage debentures. It is a useful business in which the loan companies are engaged and one that the Standard Reliance Mortgage Corporation, by the transaction just announced, will be better conditioned than ever to take its important part.

We may further remark that it will be a cold day when the Kaiser gets into England.

#### CHRISTMAS GIFTS FOR MEN AT WAR

Princess Mary Raising Fund for Presents to Soldiers and Sailors.

Canadian Press Despatch. LONDON, Oct. 15.—Princess Mary has issued an appeal in which she says: "I want you all to help me send a Christmas present from the whole nation to every sailor afloat and every soldier at the front. On Christmas eve, when, like the shepherds of old, they keep their watch, doubtless their thoughts will turn to home and loved ones left behind. Perhaps, too, they will recall the days when as children themselves they were wont to hang up their stockings without knowing what the morrow had in store.

"I am sure we will be happier on Christmas morning to feel that we have helped by sending our little tokens of love and sympathy—something useful or of permanent value, the making of which may be the means of providing employment to the trades adversely affected by the war."

It is hoped that the appeal will result in the raising of \$500,000 for the provision of gifts taking the form of tin, pipe and tinder lighter, and candies for the Indian troops.

#### HALF-MILLION RESERVISTS STRANDED IN STATES

Britain's Control of Seas Keeps Germans and Austrians Out of War.

Canadian Press Despatch. NEW YORK, Oct. 15.—According to figures compiled yesterday at the Austro-Hungarian and German consulates in New York, 550,000 Austrian and German reservists are stranded in the United States, after having been rolled for military service since the outbreak of hostilities, because of Britain's control of the seas.

In rough figures the reservists are divided into 250,000 Austrians and 300,000 Germans, including many officers.

#### CHARGED WITH BIGAMY.

ST. THOMAS, Ont., Oct. 15.—Mrs. Lillian Mathews of Port Burwell was committed to trial by County Magistrate Hunt today on the charge of bigamy. The accused was married in 1890 to Wellington Mathews, and after separating from him three years ago, married last September, 1914, an American named Galrus, and returned to reside here, her former home. She is at present out on \$2000 bail.

### W. P. L. HOUSE WAS SHIPPING CENTRE

Clothing for Belgium Packed and Sent Away to Government Ship.

#### RETURN WAS GENEROUS

Six Tons of Supplies Given by Sympathizers in Two Days.

Only those who made a visit to the headquarters of the Patriotic League during the past three days have any idea of the great work being done by citizens generally and by the wonderful women workers who are giving their time, talents and energies to the various reliefs of the times. Especially is this applicable to the Belgian supply movement, which was only launched upon the city on Tuesday, and which met with a response that was heart-touching in its generosity and spontaneity.

On Tuesday a call went out for clothes and wearing apparel generally which would be shipped from Halifax and which must leave here on Friday. Later it was learned that the installation must be ready to leave Toronto on Thursday. As a consequence everyone redoubled effort, and at 4 o'clock yesterday afternoon 550 Sherbourne street was a veritable shipping centre, men and women working like bees and accomplishing the packing and piling on drays of bales of supplies aggregating between five and six tons.

Everything, too, was packed as systematically as possible, and an inventory kept for future reference. When it was remembered that the women who did for the most part the work of sorting and packing were altogether unused to such strenuous endeavor, the praise due them becomes greater.

Generous Return. The citizens, too, who were the givers behaved nobly. With so many demands, even the most optimistic could scarcely have hoped for so generous a return. Piles of woolen underwear and socks, much of it the very best, other piles of overcoats, suits, comforters, dresses, clothes for adults and children, boots—everything that may be thought of in the line of ordinary wearing apparel.

The supplies packed in wooden boxes and great canvas bags and all were labeled "Belgian Supplies" and addressed to the Belgian consul at Halifax. Mrs. Arthur Pepler was in charge of this special emergency supply.

#### IS HE CRAZY?

The owner of a large plantation in Mississippi, where the fine figs grow, is giving away a few five-acre fruit tracts. The only condition is that the planter. The owner wants enough figs raised to supply a co-operative canning factory. You can secure five acres and an interest in the canning factory by writing the Eubank Farms Company, 224 Kestons, Pittsburg, Pa., U.S.A. They will plant and care for your trees for \$6 per month. Your profit should be \$1000 per year. Some think this man is crazy for giving away such valuable land, but there may be method in his madness.

#### HEARST WILL ADDRESS WOMEN OF THE PARTY.

Speaks at Centre and South Toronto Club Tomorrow—Other Meetings.

At the meeting of the ladies' branch of the Centre and South Toronto Conservative Club tomorrow afternoon in the club rooms, 190 1-2 Simcoe street, at half-past five, Hon. W. H. Hearst, Premier of Ontario, will speak.

Under the auspices of the ladies' auxiliary to the Army Medical Corps, a lecture and musicale will be held at this evening at 8.15 in the combined mess room at the armories. Lieut. Col. J. T. Fotheringham will speak on "The Medical Service in a Modern Army." The proceeds will go towards providing comforts for the second contingent.

The annual meeting for the election of officers of the Canadian Household Economic Association will be held on Monday, Oct. 19, 1914, at 2.30 p.m., in the Y.W.C.A. parlors, 21 McGill street.

The following members of the Women's Art Association: Mrs. Mercer, president; vice-presidents, Mesdames Austlin and Glens; hon. recording sec., Miss Deeks; hon. corresponding sec., Miss E. A. Cooper; hon. treasurer, Miss Fannie Lindsay.

#### INDUSTRIAL OUTLOOK GOOD FOR ST. JOHN, N.B.

(Special Correspondence.) ST. JOHN, N.B., Oct. 15.—Much optimism prevails in St. John at the announcement that St. John is to be made the depot for the shipment of horses, which means that there will be a considerable demand for labor and other products throughout the winter. In connection with that branch of the business, also, the outlook for the steamship business during the winter appears to be good and should give plenty of employment and create an active demand for supplies. The Exhibition Association has placed its live stock sheds, with their well equipped stalls, at the call of the British war office. It is assumed that there will be a large trade in grain and other products thruout the winter, and probably the imports will be on a larger scale than was anticipated at the beginning of the war, as the embargo has been lifted on considerable number of products of the old country, and Canadian merchants should be able to get much of the supplies as usual, plus the additional cost due to war risks and insurance. A report from Portland, Maine, says that no Canadian grain will be shipped thru that port this winter. If this report is true, it will mean more business for the St. John grain elevators. The St. John Railway from Gagetown through Fredericton and Woodstock to Centreville will be ready in a few weeks to be handed over to the Intercolonial Railway for operation as a part of the government railway system.

#### DICKENS FELLOWSHIP.

The Dickens Fellowship meetings will be held in the Y. W. C. A. Hall, McGill street, this season, the first to be held on Friday, 1914. "Great Expectations" will be the book taken up. Miss B. Walter, Mr. E. S. Williamson and Mr. Griffin will assist.

Mrs. Newlywed says:  
"I can't imagine how you manage to be dressed by the time your husband comes home on a wash day."

Mrs. Wise Neighbor says:  
"I use an Eddy Globe Washboard and an Eddy Indurated Fibreware Tub, which keeps the water hot for a long time. No fear of rust. BUT BE SURE THEY ARE EDDY'S."

**AGENT TO ANSWER TREASON CHARGE**

Montreal Ticket Agent to Be Prosecuted on Orders of Government.

By a Staff Reporter.

OTTAWA, Oct. 15.—The department of justice today instructed its officers in Montreal to prosecute Israel Schafer, a ticket agent, on a charge of treason for selling tickets and otherwise aiding a party of Austrian recruits to get home and fight against Britain and her allies. This action was taken as a result of evidence obtained by the Dominion police that Schafer not only sold the Austrians tickets, but also supplied them with Austrian money and advised them to declare that they were Roumanians so that they would not be prevented from leaving the country.

Proceedings are taken under the treason clauses of the criminal code, which, among other things, forbids any British subject to assist any public enemy at war with His Majesty by any means whatever. Schafer is a naturalized Canadian.

The case will be prosecuted and the imposition of punishment asked for from the courts as far as the evidence will warrant. The same will be done with other cases of which information has been received.

## ANCIENTS STUDIED TO KILL AND RULE

Love and Work Not Considered Important by Ethical Philosophers.

A HIGHER CONCEPTION

Edward Howard Griggs Dwells on Growth of Modern-Day Thought.

Following the two-fold aim on the part of the late and work Edward Howard Griggs continued his series of lectures last night in the Y. W. C. A. they usually work out their ideas in an active way, these two problems were the great ones of life, what we could do and what we should do, what we can achieve and how we can serve. In connection with this was the problem of education or culture, by which art and science, the experience of the past, were communicated to the individual. All of these had been mentioned in the element of religion. These four—love, work, culture and religion, were not theoretical, but had been arrived at inductively in the study of great work, and in the study of many great biographies.

In the field of our vocation, our life call, we are occupied for nine-tenths of our time. It was astounding, then, that these problems were ignored in the study of religion. This was because they were not theoretical, but had been arrived at inductively in the study of great work, and in the study of many great biographies.

The courtesy of humanity as a whole was what was needed today, and we might be glad, said Mr. Griggs, that the refined and gentle courtesy of the fine gentlemen of old to the ladies of their segregated class was being replaced by something higher and more general. The courtesy of old times, the fine lady who was frequently accompanied by a grocer, a behavior towards women caught in the struggle for existence, was still a class in America which was the place of the old-time aristocrat, but its members were engaged in changing, and culture and courtesy tended to spread itself all over society.

Each of us was a unit part, a germ cell of humanity. Give us time enough and we shall be able to do anything. Give us the moral heights of St. Francis and we shall be able to do anything. Give us the moral heights of St. Francis and we shall be able to do anything. Give us the moral heights of St. Francis and we shall be able to do anything.

The dangers of various callings, the clergyman, the teacher, the doctor, the lawyer, his own peripatetic occupation were amusingly described by Mr. Griggs with graceful and lively humor which aroused much laughter. The poet followed with that which we must not surrender to the outer characteristics of any calling. What was achieved in the margin of life by work done outside a regular calling, frequently that which perpetuated the names of men. William Cullen Bryant will be remembered by the daily grime of a mud, nalle's desk. John Stuart Mill made his living at the Bank of England. The only loyal work through the succession of years was the one royal road in life.

Identical disposition were invariably the generating causes of pessimism and despair. Every person needed a vocation to keep his mind off of things. He must never lose reverence for his work. The world is always commonplace to commonplace people. The only land is the ground under our feet. The only golden age is that in which we live.

Next week the lecture will be on "The Problem of Personal Relationships in Love and Marriage."

**CLARKSON PRICES FOR VEGETABLES NOT HIGH**

Alderman Wanless Finds That Consumers Could Buy Cheap in the Country.

Ald. Wanless, who, on his own hook, is making a study of the abnormally high cost of farm products, has received a letter from Sydney Preston, gardener, of Clarkson, quoting the following prices at which vegetables may be purchased in that village:

Cabbage, \$2.50 per hundred; carrots, 80c bag (35c delivered to city); onions, 80c per bag; turnips, 25c per bushel; tomatoes, 25c per bushel; apples (in orchard) 50c barrel; graded and packed, export quality, No. 1 green, \$2; No. 2 grade, \$1.50.

The concluding paragraph reads: "If you can devise any means by which the consumers in the city can buy at not more than 100 per cent. increase on the above prices the cost of living will be much reduced."

## TORONTO CONCERNS TO WORK TOGETHER

Sun and Hastings Taken Over by Standard Reliance Mortgage Corporation.

LARGEST DEAL LATELY

Assets of Over Million Change Hands—Sir Mackenzie Bowell Hon. Pres.

The Sun and Hastings Savings and Loan Company of Ontario is to be taken over by the Standard Reliance Mortgage Corporation. The transaction is the largest one in Toronto since the Bank of Nova Scotia absorbed the Metropolitan Bank last July.

The former company has a paid-up capital of \$573,989. Holders of this are to be paid with shares of an equal amount in the absorbing company. An increase of one per cent. will be had in their dividends. Two of their directors are to be taken on the Standard Reliance board, and Sir Mackenzie Bowell is to become honorary president, a place not filled since the death of Lord Strathcona. Details have been arranged and approved by the government. Shareholders are being advised. The total assets of the Standard Reliance will be brought up to \$2,296,310. The paid-up capital will be \$2,559,093. The joint reserve will aggregate \$826,000, and the year's business should be added to this again.

**Reduced Expenses.**

The letter to the shareholders of the Sun and Hastings, sent by the directors, notes the fact that expenses will be reduced by the merger. It proportion to the amount of business done, and that the net earnings must be materially increased, thus adding to both dividends and reserve.

Negotiations commenced soon after the death of the Sun and Hastings manager, W. Pemberton Page. Finding it hard to replace him, the directors listened to several proposals to purchase the assets, finally finding the Standard Reliance terms most favorable.

**Mortgage Business Improves.**

W. S. Dinick, vice-president of the Standard Reliance, who conducted the negotiations for his company, speaking at a directors' meeting, pointed out that conditions in the farm mortgage business were being measurably improved by the higher prices farmers were obtaining for their products. Losses and delays in making payments on loans were negligible. At the same time the general intention of farmers to increase their grain acreage was making a heavy demand upon loan companies, and the financing of these extensions was something the company had to make provision for in the face of adverse money conditions. Loan companies secure their money through the selling of debentures, and while these had stronger appeal than ever as an investment, their sale could not readily be effected except by companies of wide resources. This, it is thought, was an influence in the transaction whereby the shareholders of the smaller company merge their interests in that of the Standard Reliance. Both companies have their head offices in Toronto.

In the letter to these shareholders, it is stated that the uniting of the two companies will work to the best interests of the shareholders of each, for the reason that each company's business has not overlapped that of the other. The shareholders and debenture holders of each are widely distributed over the Dominion, and it will thus be seen that the influence of the Standard Reliance will be very much widened by the greater distribution of its constituents. No changes in name or policy of this company are contemplated.

A meeting of shareholders of the Sun and Hastings is to be held in about a month, when formal approval of the deal will be given.

The board of the Sun and Hastings Company is composed of W. Vandusen, president; Ambrose Kent, vice-president; Sir Mackenzie Bowell, Rev. Amos Campbell, John Thomas, W. J. Fawcett and J. T. Gilmour.

**CANADIAN CLUB.**

"Sanitation in War" is the subject of an address to be given by Dr. John A. Amyot, director of laboratories, provincial board of health, at a special meeting of the Canadian Club to be held on Monday at 1 p.m., in Dunning's restaurant, West King street.

**FIFTEEN THOUSAND GIFT FOR HOMELESS BELGIANS**

Special to The Toronto World.

ST. THOMAS, Ont., Oct. 15.—The hardships of the homeless Belgian refugees have so appealed to the citizens of St. Thomas that a movement is on foot to have a contribution of \$15,000 out of the funds raised by the St. Thomas and Elgin County Association sent at once for the relief of the Belgian sufferers. It is also understood that \$5000 will be sent to the Red Cross fund. A meeting of the association will be held Saturday to consider the subject.

## CENTRAL FISH MAKE NEW MARKS

Interesting Program of Swimming Events Witnessed by Full House — Winners.

Excellent sport was witnessed last night at the Central "Y" when the local swimmers got together for their second annual swimming exhibition. An interesting program of events drew a full house of interested spectators. All the junior records were broken by B. Stephenson lowered his own record for the 100 yards by over six seconds, going the distance in 1:20 flat. Bennett beat W. Williams' record for the 25 yards back race by 1 sec. H. Morton beat B. Bennett's record for the 50 yards back by 1 sec., and J. Maughan was also a winner in the 25 and 50 yards races.

St. Andrew's College boys gave an interesting and educational display of life saving under the direction of Mr. E. A. Chapman, the boys performing various methods of rescue and relief fully dressed, diving for the apparently drowned, undressing in the water and the resuscitation of the apparently drowned.

The diving left nothing to be desired for skill and endurance. Canadian champion diver, A. Reade, B. Stephenson and Ed. Young all showing up well with both individual and double dives. Not a little amusement was caused by Reade and Allan gave an imitation of their first dives.

The feature of the evening was the swimming drill by sixteen juniors under the direction of Instructor Bill Winterburn. This was a new feature in swimming, and the boys earned the applause of spectators by their exhibition. The "Dive-back" drill was a thoroughly contested affair, neither B. McKissock nor F. Sewell being able to throw each other. The boys swam 50 yards each against 15 juniors swimming by 25 yards. The juniors won out over 30 feet. The juniors won out by 35 feet. Junior 25 yards back swim—B. Bennett. Time 1:20 2/5. Junior 50 yards back swim—H. Morton. Time 48 4/5. Junior 100 yards, speed—J. Maughan. Time 1:52 1/2. Junior 50 yards, speed—J. Maughan. Time 1:15. Junior 25 yards, speed—B. Stephenson. Time 1:20.

Officials: Starter—W. Winterburn. Timekeeper—L. Lewis, J. Jewell, P. W. Young. Announcer—F. J. Smith.

Matt Gabe was back in harness at the Argonaut practice last night and will be used against the Tigers on Saturday.

## STILL DISCUSSING WORLD'S SERIES

The Banishment of Geo. Stallings by Ban Johnson is Recalled—Ball Gossip.

Why didn't Connie Mack pitch Plank against Tyler? and he sure would have won one game at least. That is the question of the critic. He secured his idea on looking over the scores of the four games after it was all over. Plank was beaten by James 1 to 0. While the Athletics collected a couple of runs off Tyler in his nine innings James came out to Tyler's relief and Joe Bush was beaten in two innings 5 to 4. The critic is the other name for a grand old manager, and they pretty nearly all predicted the Athletics would make a light lunch of the Braves.

Another story is that Connie Mack would have used his left-hand pitcher exclusively. Had he worked from a southpaw pitcher, namely, Eddie Plank, Fenwick and Rube Bressler, the Athletics would have had a much better chance to win.

Plank and Fenwick did break into the series, and to their credit it must be said that they did themselves proud. Plank lost a ten-innings game to the Braves 1 to 0, allowing seven hits. Fenwick pitched three innings Tuesday, allowing no runs and only two hits. The victory recorded against Plank was a fluke, if ever there was one, as he pitched from a scratch double on a fly ball that should have been caught, and abetted by a home-headed play by Cagle, who was struck out by Fenwick. Plank and Fenwick struck out nine men, Plank six and Fenwick three. As for the right-handers of the Athletics, they certainly proved easy picking for the Braves men, Bender, Wyckoff, Bush and Shawkey, the Mackmen would have stood a far better chance to win.

The Braves were repeatedly checked when a hit would have added materially to their score. This was particularly true after Fenwick came into the game. The first noteworthy act of this young pitcher was to strike out Gowdy with a home-headed play by Cagle, who was struck out by Fenwick with a man on third, and with Marvite cutting up, mad antics on the part of the respective pitcher is supposed to be enough to break up any pitcher.

Young Pennock, struck out by Fenwick, Young Pennock found himself obliged to pitch to this batting terror in a most critical moment of his first inning in a world's championship series. Fenwick, on which Baker and Collins had placed made a home run, Fenwick, on third and first, and with only one out Boston seemed good for a few more runs. Fenwick pitched four balls to Gowdy, and every one of them was good. Hank fouled off two of them, but missed on his third strike when Walsh succeeded in following, and Schang, Collins and McInnis succeeded in trapping Schmidt in time to sacrifice.

One of the prettiest bits of fielding, Braves are, occurred in the seventh inning of the last game when Walsh succeeded in working Rudolph for a base on the evident hope of also taking a free one on some pretext and Umpire Byron called time. Just as Rudolph was about to pitch Barry got away with the trick, and one ball went for nothing. Jack Gougeon got the next one, and then a wild throw by the pitcher, followed, in which Gowdy whipped the ball to Fenwick so quickly that Walsh was caught napping.

No faster transformation of the situation has occurred in the series, for at once the twinkling of an eye, in place of having a runner on second, with one out, and Schang coming up, the Athletics

found that the situation was two out, with the bases clear. Evers handled Gowdy's throw with one hand, and had Walsh by a yard, alto Jimmy was not six paces off the bag when Barry fanned. Evers, on completing the throw, struck the ball at Deal with great speed, and the latter let it go back at Marvite with equal vim, an around-the-diamond whirl following, that showed the delight of crowd how fast the Braves are really, but it is a regular thing with the winning team, once the series is under way. It is doubtful if any team that ever won the world's championship could hit a faster clip in the final game, than the Braves did in the final game, for the reason that no team ever had two men who were quite as fast as Marvite and Evers. Gowdy and Deal are also speedy, so Schmidt's slowness does not figure.

The Philadelphia Record handed a little roast to Connie Mack after the series was lost: Manager Mack waited behind when the Athletics marched off the field at the close of the game and quietly slipped into the grand stand to join waiting friends. He seemed to feel that he had no great reason to feel proud of the series, as indeed he has not. For once he had been both outgeneraled and out-guessed, not that it is all over. Doubtless no one realizes this better than himself. The Braves went into the series as the highest pitched, but there was a withstanding the onrush of the National League champions. Every game that was played found the Am-erican day previous better than on the day they could attain their best form. The manager for this must rest with the manager, for it is supposed to direct his players so as to bring them to the scratch in the best possible condition. In this for the team as a whole never looked worse than in the last series just closed.

Well posted baseball men say that in the final game of the series it looked as tho the Athletics had quit. But what can be said of a team when it is out-batted every stage, how long is a club expected to keep its nerve? The Athletics certainly had occasion to be headway against the Braves in any department of the game, and things began to look bright for a score. Stallings' men pulled some off and cut down the runner before he could do any damage. Walsh was cut down that way. Such work as this is calculated to take the heart out of any team. Let the subject fans law, and Stallings was the subject fan's law. They didn't know what sort of a stunt the Braves might pull.

Any number of people has the laugh on George Stallings now in baseball, including Ban Johnson and W. W. Jeffers. Stallings has made many enemies, because of his rough ways and fighting spirit. He offended Ban Johnson years ago, and Ban simply wouldn't have him in his league. As the league seems to be Ban's personal property, his word on the subject was law, and Stallings was compelled to get out. The trouble arose when Stallings was with Detroit, and managing the Yankees. After showing a big improvement with them, he was relieved of the management. Winning American Leaguers to such an extent is the sweet revenge for Stallings. It is more than many of the abuses heaped on him by the American League officials and club owners. Stallings put the Athletics and the American League in a bad light. He has made them look very foolish, and is satisfied to let it go at that.

**Canada First & Buy at Home**  
 Assuming that you can buy as good an article of Canadian make as you can of another make, why be listless in the matter and depend upon the clerk as to whether you buy the home goods or not? The first thing a successful salesman must do is please his customer. If you ask for the Canadian made article he will try to please you by showing you that make. If you are careless and neglect to specify, he will be just as apt to show you "other makes." In making your request for the home goods you are playing your part in this campaign.  
 Probably the question has occurred to you: "What can I do in this matter? My purchases are small. The small profit on a can of this or that makes no difference, surely." That is the mistake. It isn't the fact that you alone are making a small purchase. There may be a thousand others buying the same thing at precisely the same time that you are. Multiply the small profit by a thousand and you come closer to an understanding.  
 Then, if a thousand people buy that particular necessity every day for a year the total amount assumes very big proportions. If the sum total was directed towards home manufacture entirely, you can see the effect it would have upon the Canadian concerns making those things. If the money spent by Canadians for the following articles last year had been kept in Canada what a difference it would have made. If only a small portion of it had remained here instead of being sent away Canadians would have been that much better off.

**PRICES OF CATTLE REMAINED STEADY**  
 Quality Offered at Stock Yard Showed No Marked Improvement.  
**HOGS STILL UNCHANGED**  
 Common Grass Calves Declined Fifty to Seventy-Five Cents Per Cwt.

Receipts of live stock at the Union Yards on Thursday were 46 car loads, comprising 2 cattle, 1777 hogs, 510 sheep and lambs, and 129 calves.  
 The quality of fat cattle was just the same as has been coming during the remainder of the week, a very few good choices, and the remainder common and medium.  
 Trade was quiet at steady prices.  
 Stockers and feeders were slow sale at lower prices for the common grades, and about steady for good to choice feeders of reasonable weights.  
 The milkers and springers were firm at unchanged prices.  
 Calves of choice and good quality found ready customers at firm quotations, but common eastern grass calves were from 50c to 75c lower.  
 Sheep, lambs and hogs were unchanged in values when quality is considered.  
 Choice cattle sold at \$8 to \$8.25; good butchers' sold at \$7.75 to \$8; medium at \$7.25 to \$7.50; common at \$6.50 to \$7; choice cows at \$6.75 to \$7; good cows at \$6.25 to \$6.50; medium cows at \$5.75 to \$6; canners and cutters at \$5.50 to \$4.50; bulls at \$5 to \$7.25.  
 Stockers and Feeders—  
 Choice feeding steers, 950 to 1000 lb., sold at \$7 to \$7.25; good steers, \$6.50 to \$7; medium steers, \$6 to \$6.25; rough steers sold at \$5.50 to \$6; rough eastern steers, \$5 to \$5.25.  
 Milkers and Springers—  
 Receipts of milkers and springers were moderate, with prices firm at \$50 to \$105 each, the bulk selling at \$70 to \$85.  
 Choice veal calves sold at \$10 to \$11; good at \$8.50 to \$9; medium, \$7.25 to \$8; common, \$6.50 to \$7; rough grass calves, \$4 to \$5.75.  
 Representative Purchases—  
 Receipts were fairly large, and good lambs were firm, but heavy, coarse lambs were slow sale. Sheep, ewes, sold at \$5 to \$6.25; heavy ewes at \$5.50 to \$6; good and rams at \$2.50 to \$3; lambs at \$7.50 to \$8.25; culled at \$6 to \$6.50.  
 Selected fed and watered sold at \$8.25; \$8.50 weighed off cars, and \$7.85 f.o.b. cars at country points.  
 Representative Sales—
