BANGOR, MAINE, SWEEP BY SIX MILLION DOLLAR FIRE

At Least One Life Lost—Hun-
dreds Rendered Homeless,
While Thousands More Spend
Night in Streets—Confla-
gration Raged for Over Six Hours
Operator Stuck to Key With
Blaze 50 Feet Away.

FULLY QUARTER OF CITY BURNED

BANGOR, Me., April 30.—Property valued at upwards of \$6,000,000 was destroyed, hundreds of people made homeless and almost the entire business section of the city devastated during the first six hours of a conflagration which at midnight was still raging, although the flames seemed to be making some headway. One life is known to have been lost, but an unknown man being killed by a falling wall after his clothing had taken fire. Mayor Mullen placed the city under martial rule. Portland, Lewiston, Augusta, Old Town, Brewer and every other city and town within reach were asked for help and sent it.

Bangor Will "Come Back"

BANGOR, Me., April 30.—At least a quarter of the city has been laid waste, including the best residential section. At midnight Mayor Charles W. Mullen, in reply to a proffer of aid from Mayor Fitzgerald of Boston, wired that he believed the fire to be under control. To the Associated Press he said: "The city has suffered a terrible blow, but I have confidence that Bangor will 'come back.'" Bangor has a population of about 25,000, and had, by the census of 1910, a real estate valuation of \$16,898,067.

The city was soon shut off from telephonic communication by the burning of the central office of the New England Telephone and Telegraph Co., and calls for help on Portland, Lewiston and Augusta were sent out by the wire chief company, who climbed a pole and cut in on a trunk line. Both companies' offices were burned during the early stages of the fire, but later they established temporary offices outside the zone and communication was resumed.

VICE IN TORONTO BAD AS IN HEATHEN CITIES

Solve Local Problems Before Exporting Religion, Advises Rev. S. W. Dean.

There are to me of vice in the City of Toronto to-day which unfortunately necessitate the preaching of the gospel as much as the extremely wicked heathen cities. This strike Rev. S. Wesley Dean at the Broadway Methodist Tabernacle yesterday morning, when discussing the question of "City Heathenism." Mr. Dean spoke of the calls to mission work, the voice of opportunity and the strategic importance of this city.

FREE LIST BILL WILL HAVE THE RIGHT OF WAY

United States House Will Meet an Hour Earlier Each Day Until It is Voted On.

WASHINGTON, April 29.—Right of way for the "Farmer's Free List Bill" in the house next week was provided for to-day, when the house voted in effect to put aside the "discharge calendar" on Monday and to meet an hour earlier each day until the bill is voted on.

EX-FIRE CHIEF GRAHAM DEAD AT ADVANCED AGE

Was in Fire Department From 1862 Until Retirement Twelve Years Ago.

Thomas Graham, ex-chief of the Toronto fire department, died at 3 o'clock on Saturday evening, at the residence of his son W. T. Graham, 56 Lakeview avenue, after an illness extending over a couple of years. Flags were at half mast on civic buildings yesterday.

CABINET SITTING LASTED THROUGH WHOLE DAY

Began Saturday Morning and Did Not Adjourn Till 1 a.m. Sunday—Rumors of a Cleavage in Government. Rank on Question of Early Appeal to People.

OTTAWA, April 30.—(Special.)—The announcement by R. L. Borden, in the commons on Friday that the outside of the opposition towards reciprocity was one of uncompromising hostility and the intimation given in as clear terms as was possible, the opposition would exercise the power at its disposal to refuse to allow the agreement to pass thru parliament, have been received by the government with all the seriousness that the situation demands. Mr. Borden, by offering to grant the government supply sufficient to the needs of the government during the time that the premier would be at the imperial conference and the coronation has reduced the issue to the point that a refusal to accept the terms of the opposition leader means Sir Wilfrid Laurier prefers to remain here in disease question affecting the citizenship of Canada with the United States rather than to go to England and discuss the serious problems which affect the destiny of the British Empire.

The Fight Still On

OTTAWA, April 30.—Because the governor-general is coming back, there is talk of an immediate election appeal to the country. This is not likely. Every day is a day nearer the census, and therefore the government must wait for the redistribution and increase in seats. And the Conservatives are not afraid of an election. The chances are for a bitter fight at Ottawa for some weeks.

TWO NEW BOATS ON THE PACIFIC

C. P. R. Announces Construction Plans—Nothing in Out-siders Getting Control of the Road.

MONTREAL, April 30.—(Special.)—Two new steamers for the Pacific fleet and the Atlantic fleet, under construction, was the announcement made today by the President of the Canadian Pacific, Sir Thomas Shaughnessy, who had just returned from Great Britain and the continent. The new steamers will take 18 months to build, and the announcement puts an end to the rumor that the Atlantic presses will be transferred to the Pacific. The Standard Oil magnates were buying C. P. R. stock, Sir Thomas said.

IRONWORKERS OUT ON STRIKE

One Thousand Men in Toronto and Hamilton Quit Work To-Day.

"We'll all walk out to-morrow morning," stated Secretary William Grace of the Bridge and Structural Iron Workers, when interviewed last night. Our requests were reasonable. All we asked was a raise of five cents per hour, making a wage of 40 cents, but the employers did not come to time, and we will fight it to a finish," he said, in reply to a question as to the extent of the strike. "All union workers in the jurisdiction of Toronto will walk out, and Hamilton is co-operating with us. It will mean the crippling of all the large firms. The Canadian Foundry employs 600 union men, the Dominion Bridge Company 100, the Hamilton Bridge Company about 100, and the McGulgan Construction Company about 50. Besides these a number of small firms will be affected. Mr. Greer & McIntyre employ a number of men, as do Reid & Brown, Toronto Construction Company, Ontario Bridge Company and the Canadian Bridge Company."

FIRE IN INCUBATOR FACTORY

Serious Blaze Resulted in Loss of \$3000 Yesterday Morning.

A serious fire broke out in the Model Incubator Factory, 194-200 River-street, shortly after 10 o'clock yesterday morning, and did damage amounting to \$3000 before it was finally put out. C. J. Daniels is the owner, and occupied a quantity of wood for the motor cycle when the fire was discovered. Little damage was done in this part, however, except from the water. The fire raged for nearly an hour, being hottest in the centre of the building, where a quantity of wood for the incubators was being dried over a large box stove. It is thought that this may have caused the fire. Some 15 men are employed about the place, which is covered by \$2500 insurance.

HURON WANTS HYDRO

Sending Committee of County Council to Interview Commission.

GOBERGICH, April 29.—The special committee of the Huron County Council named to investigate and deal with the question of the development of power in the Maumee River, will go to Toronto shortly to interview the Hydro-Electric Commission on the subject. Two engineers were in Goleston a few days ago in the interests of the commission, and as a result of the conference the commission will be asked to say whether they will take into account the interests of the county and also to furnish an estimate of the quantity of power available and the cost of development.

Calls Cast a Fraud

BOSTON, April 29.—The system of government that opens our markets to foreigners is not worthy of the confidence of the American people," declared E. S. Senator W. B. Hoeyburg of Idaho, in an address condemning reciprocity, before the Middlesex Club, at its annual Grant night dinner to-night. "We will fight until we have driven this cheat and fraud from the country," said the speaker. "When the west because of reciprocity is driven into other business than the raising of wool and wheat, and when the east's strength, the east will turn in vain to the west for help."

MANITOBA STORM CENTRE.

In the King Edward rotunda at 10 o'clock last night there were to be seen three distinguished citizens of Manitoba, bustling with their grips for Ottawa. They were Hon. Clifford Sifton, Hon. Frank Oliver and Hon. Robert Rogers. Mr. Oliver has been out to visit his native county of Peel, Mr. Sifton was taking home a trunkful of cups from the horse show, and Mr. Rogers was going to Ottawa to consult with the Conservative headquarters.

SCHOOL TEACHERS LOSE LIVES IN WRECK

Three Known to Have Perished, Eight Others Missing and Believed to Be Dead, Fifty Injured—Cars Set on Fire by Exploding Oil.

EASTON, Pa., April 30.—Three persons lost their lives, eight are missing and believed to be dead, and half a hundred others were injured Saturday afternoon at Martin's Creek, N.J., in a wreck of an excursion train, carrying 170 school teachers and friends from Utica and Syracuse, N.Y., and vicinity to Washington, for a week's outing. The train was one furnished the teachers by the Delaware, Lackawanna & Western R. R., and the accident occurred while it was traveling at a high rate of speed over a stretch of track controlled by the Pennsylvania R. R. The locomotive jumped the track, the cars toppled over and were set on fire by exploding oil, the wrecked coaches having sidetracked an oil tank along the track when they left the rails. The entire train was quickly enveloped in flames and completely consumed by the fire. The eight missing persons, seven of whom were women and lived in Utica, are believed to have been burned to death in the wreckage. The finding of charred bones led the railroad wrecking crew to the conclusion that they are dead. The most seriously injured were removed to the Easton hospital, where twenty of them, Miss Eleanor Rutherford, a Utica teacher, and Chas. M. Person, of Stroudsburg, Pa., a Pennsylvania Railway conductor, died last night, while W. M. Vandy, of Trenton, N.J., engineer of the train, succumbed early this morning. The physicians at the hospital said late to-night that most of those in the hospital will get well. Those not injured and who were willing to return at once to their homes, left Martin's Creek late Saturday night. The cause of the wreck has not yet been ascertained. The place where the accident occurred had been undergoing repairs and unfinished work may have been responsible for the train leaving the track. Vice-President Sherman was to have given a reception for the teachers in Washington and it was reported he was on the ill-fated train. Later, however, it was learned that he had remained at his home.

Another Fatal Wreck

TAMPA, Fla., April 30.—Walter Hagens, of Chicago, was killed, and T. F. Cook, baggage-master, was fatally injured, when Coast Line train No. 28, from Jacksonville to Tampa, was wrecked near Okeesa, to-night. Twelve passengers were more or less seriously injured.

PASTURE SUNDAY.

The farmer knows now his fall wheat is safe; that his seeding is well under way; pasture was the new topic yesterday. The rain of Sunday greened up the grass; what was faded Saturday was vibrant yesterday afternoon; the fields that had been burned over had the black washed from their faces and the green took its place before nightfall. Nature never deliberates over what she is to do in spring if she has but rain and heat; and all over the fields there was the sudden promise, almost fulfillment, of abundance of pasture. In how many days had the cows be turned out? was the main topic of the farm, and the commonest answer was less than a fortnight. The flow of milk through the land, and the output of grass butter is governed by the grass of spring. Ewes and lambs have been out for days working a partial feed out of the gray and green pastures, the first week after they were in something from er, sweeter and greener. Horses, old and young, are ready for the pasture fields and some are already there. The thronged mares and foals can now go out to their paddocks, and geese and geese are hastening to the freshened pond. The spring was everywhere like the rain and the green, and the call of the birds. As for the wild flowers in the woods, they were all out yesterday: blood root that has the purest and wisest blossoms of the lot, and the most beautiful, was the most in evidence, holding the rainy drops like gems in a necklace; the red trillium had opened to the full, white horse wool coxister, the white, preferred to keep within her closed green leaves with a burst of fresh white atop. The hepaticas had passed their zenith and began to drop their gray shaded blossoms and to best a new retreat, whence they came yearly for another year, and then another fresh crop.

CANADA NO VICTIM.

To those who have the abiding interest of Canada at heart, the more the inner meaning of the reciprocity deal is realized the less advantageous it appears. This is in its essence not a matter of balancing possible gains and losses, it touches the vitals of Canadian nationality. Disguise it as the advocates of reciprocity may, the true question for Canadians is a national and imperial question. It means whether the Dominion is to remain independent, as it will if it pursues its national policy, or pass under United States influences and thus lose command of its own destiny.

The issue presented to the Canadian people is of paramount importance to them. It cannot be measured in money, even assuming, what is very problematical, that the balance would incline in favor of the Dominion. National and imperial sentiment cannot be ignored and this reciprocity deal strikes at the root of both. Canadians who have the United States when its government thought to coerce them by closing its market. Now they are invited and urged to barter their hard won birthright for an uncertain mess of pottage. Will Canadians, who refused to throw up their hands, be the victims of a confidence game? They are made of different stuff.

PRIG PHILOSOPHY.

Evening Star: Bookstores which have been selling volumes to which the title "prig" is attached are perhaps no more guilty of corrupting morals than newspapers which have been drawing the attention of the young to specific books by standard authors which are "just as bad," and even naming verse and line for the edification of immature knaves.

This is an excellent example of prig philosophy. It has the merit, to the prig, of evaluating the real issue altogether. If the standard authors are "just as bad," why does the Star not denounce their sale?

If the Star was a little more energetic in cultivating public appreciation for the standard authors, with all their imperfections, with all their imperfections, there would be less demand for the silly and nauseous stuff which police prosecution is helping the publishers to circulate.

No other detective in Canada is as silly as the Toronto one, and the whole Dominion becomes a widely advertised field for the publisher of books that one or two booklets in Toronto are prosecuted or persecuted for selling like other people.

After four years and the safe going flat, it is a great scheme for the publisher. The detectives will not bother about Byron, even tho' The Star thinks him "just as bad." Byron is out of copyright.

ST. CLAIR-AVENUE WIDENING.

Rev. G. Bruce, in an open letter to the mayor, has made a generous proposal to the city in connection with the widening of St. Clair-avenue. He has pointed out that the delay in proceeding with the work has added about 30 per cent to the cost, and that a year ago a number of property holders on the line of the street were willing to acknowledge their sense of the value of the proposed improvement in a practical way by accepting a moderate or low valuation of their property. And he adds significantly, "this offer has never been acknowledged."

Mr. Bruce suggests that the assessment of 1909 be taken as the basis of expropriation. The rate in values has been "due to the agitation for the improvement." The course suggested would reduce the cost from \$400,000 to \$200,000, and, speaking for the owners, Mr. Bruce says, "I personally know that they will not wish to deal in any unreasonable way with the city."

OTTAWA AND WASHINGTON.

Sir Wilfrid Laurier has intimated that no amendment of the reciprocity measure will be accepted and he and his press organs are insistent that it must and will be passed as it stands. That determination of the government renders its attitude simply one of passive resistance to the opposition effort to compel withdrawal of the proposal and its reference to the country. Such being the situation, the premier might without any loss of personal prestige, have accepted one or other of the fair alternatives offered by Mr. Borden and suspended parliamentary discussion pending his absence at the imperial conference and coronation. He had all the more reason to do this because of the dubious issue of the controversy in the United States senate.

LT. GOV. PELLETIER VERY LOW.

QUEBEC, April 28.—Lt. Gov. Pelletier had a very bad turn last night and is exceedingly low this morning. The end is expected at any moment.

CITY'S BUDGET FOR 1911 ALMOST EIGHT MILLIONS

Taxation Will Yield Nearly \$5,300,000—Estimates Before Council To-day.

The discussion of the city budget for 1911 is liable to make to-day's council meeting a record-breaker for length. There are several recommendations for increases in salary which will meet with opposition from the aldermen who have a view to seeking re-election on the economy ticket next January, but little doubt is expressed that the advances recommended by the board of control will be approved. The feature of the meeting will not be so much a discussion of salary increases allowed by the board as of the requests for increases which have been ignored. Some of these have been recommended by the heads of the departments, and those who looked for advances and are not recommended for them by the board are using their influence to have the report overridden. Many of them have plenty of friends at court and a few at least will stand a fighting chance of getting the promotion they seek.

LABOR AND OUTRAGE.

There is a great deal too much talk in political and other circles of the necessity of standing by one's friends, one's party, one's people, right or wrong. It is probably the most immoral principle operative in public life to-day, and in constant use to excuse roguery.

People who ought to know better are fond of quoting the late Sir John A. Macdonald to the effect that it was when he was wrong he most needed support. It is very doubtful if the old chief would have countenanced the latitude with which the principle has been extended. Sympathy and affection, by all means, is due to the man who has failed or faltered or defaulted or even sunk in infamy, but personal sympathy and affection are vastly different from support and co-operation in wicked planning and evil doing or even in manifest folly.

It is refreshing therefore to hear from Fort Worth, Texas, the statement of the labor unions there with respect to the dynamiting case. Whoever is guilty of causing the explosions, they declare, should be hanged if captured, and they are satisfied to leave to the courts the task of arriving at the innocence or guilt of the accused.

"It is as much to our interest as that of any other class," they declare, that the truth should be known. Any other attitude would be one of lynch law. It is difficult to decide which is the more important, the confidence displayed in the courts of justice, or the impartial desire to have a fair trial independent of the affiliations.

Everyone with the welfare of trades unionism at heart will hope to see the accused men cleared of the heavy charges against them, but trades unionism cannot afford to identify itself with the midnight assassin and the hired bravo. Open war we can respect, and the Mexican inspector come out in the open and fight like men. Should it be found that labor men have so far forgotten their manhood and the good name of their comrades as to descend to the social treachery of the dynamite it will bring the blush of labor shame to the cheeks of all good better men as it gored the faces of all true labor men when they heard the story of that fatal Sunday afternoon in May, 1910.

There is too much right on the side of the labor cause for it to need any favors, and there is no favor in a fair field.

FASHIONS AND THE COURT.

Queen Mary will have more respect and affectionate loyalty over her than the wearing of absurd costumes that can easily be estimated. She has banned the hobble, the barem and all other extravagances of fashion. Enormous hats and exaggerated coiffures and all other extreme developments of the modiste imagination are to be discontinued. If Queen Mary would only refrain from wearing ear-rings a grateful empire would acclaim her good sense. Even queens cannot be altogether perfect.

BRITAIN'S RESPONSE.

While the Grafton mastings it is doubtful whether it has ever held one fraught with so much significance as that of Friday last. Representative of both the great political parties, of church and non-church, of the British at home and overseas and of the leading imperial and national interests the assembly gave an enthusiastic response to President Taft's request for a pledge of approval of his suggested treaty of arbitration covering every cause of difference. Difficulty will not come from the imperial parliament or government or from the British people. It will be for the president to carry the United States senate with him and the fact that the Guild Hall meeting occurred on the day of his declaration against the movement for closer union among the British States should prompt some searching of heart. If the cause of international peace be all to him that he claims he must see it will be indeed not helped by breaking the imperial band reaching from England round the world to England again.

Pastor Russell's Sermon

Pastor Russell of the Brooklyn Tabernacle preached on the Resurrection, approaching the subject from another standpoint—the destruction of the body, the grave, the state of death. He said: "Death is spoken of throughout the Bible as an enemy. Merely hymn-book theology presents it as a friend, an angel sent of God. Death is introduced to our attention in the Bible as the penalty for sin, with the distinct understanding that had Adam not transgressed the divine commands he need not have died, nor even have been cast out of his Eden home. St. Paul emphasizes the fact that death is the penalty of sin and that the resurrection of the dead will come to mankind as the result of the redemptive work of Christ. He says: 'Since by man comes death, by man also comes the resurrection of the dead. For as all in Adam die, even so all in Christ shall be made alive; but every man in his own order,' hand or cohort (1 Corinthians xv, 21-23).

As Genesis introduces death as a penalty for sin, Revelation concludes the great drama by pointing out Christ's victory and the destruction of sin and death, the release of all the members of Adam's family from his sentence and eventually the bringing of all the willing back to fellowship with God and to eternal life. Between these two extremes of divine revelation are the assurances of the prophets and the words of Jesus and His apostles explaining the processes of redemption and reconciliation. St. Paul summarizes the assurance of the resurrection: 'By one (man's) disobedience sin entered into the world, and death as the result of sin, and thus death passed upon all men, because all are sinners. As by one man's disobedience (the) many were made sinners, so by the obedience of one shall (the) many be made righteous (Romans 5, 12, 19). In the poetic language of Scripture death is symbolically represented as a great monster which has been swallowing up the human family, never satisfied. The divine proposition is that whoever would meet the requirements of justice against Adam and his race might purchase or ransom them and have full right to deliver them from the prison-house, the tomb.

St. Paul points us to the great deliverer, the glorified Messiah, at the resurrection when He shall take the kingdom under the whole heavens and begin the fulfillment of the prayer He taught us: 'Thy kingdom come, thy will be done on earth as in heaven.' He tells us He must reign until He has put all enemies under His feet. 'The last enemy that shall be destroyed is death' (1 Corinthians xv, 26).

Then will be brought to pass the divine prophecy, 'O death, where is thy sting? O grave, where is thy victory?' (Hosea xiii, 14; 1 Cor. xv, 55).

We must notice when this will be brought to pass. It is not now true, as the apostle explains, sin is the sting of death. And because all have been stung by sin, all are dying. It will be the sting of death, sin, that will be fully extract from humanity by the virus, the sting, of sin by bringing mankind to perfection. Only when the sting of death is removed will the power of death cease, because it is a part of the divine law that 'the soul that sinneth, it shall die.' Death now has perfect shall have come, the sting will be gone, the imperfection and weakness will be gone, the cause for sin will also be gone.

Not now, but then, will be brought to pass the saying, 'O Hades, where is thy victory?' Hades, sheol, the grave, has been having a victory over Adam's race for over six centuries. And its victory will not be entirely overturned until the Redeemer shall have delivered from the power of the grave the last member of the human family—for all of whom 'He died, just for the unjust, to bring us back to God.'

Thus, as the apostle says, with the culmination of Christ's Kingdom, with the deliverance of all mankind from the power of sin and death, death will be destroyed from among the people (Acts III, 22, 23).

MILLIONS IN REBATES

Said to Have Been Worked Thru Dock Charges.

WASHINGTON, April 28.—Preliminary figures have been compiled by the interstate commerce commission in vestigations showing that amounts which the government will allege have been illegally rebated in the recent cases at Cleveland, and July 31, 1909. It is alleged \$482,000 was rebated by the Pennsylvania Railroad to various shippers, the Treasury is said to have been paid to subsidiary companies of the United States Steel Corporation.

Between Jan. 1, 1908, and June 30, 1909, it is alleged more than \$798,000 was rebated to the Carnegie Steel Co. by the Bessemer and Lake Erie Railroad. That amount was rebated to the Carnegie Steel Co. by which a charge of 25 cents a ton was made for handling ore, and 17 cents was rebated.

The Buffalo Express, commenting editorially on President Taft's speech in New York last week, says that relative to Canada's taking "her part in an imperial commercial band reaching from England around the world to England and back to England," the Buffalo Express says: "The all-British commercial union ever could be sufficiently profitable to the various countries which would be rebated upon the door forever upon any further commercial agreements with outsiders is not so great as fully to justify the president's conclusion. The proposed all-British union would rest more upon sentiment than on actual commercial advantage. Sentiment, however, is a very strong tie among nations. It is certain, however, that the all-British union should become a fact, it would build up interests that always would exert a strong influence for its continuance. Hence, while it might not make reciprocity impossible as some future time, if not accepted now, it would certainly make the conclusion of some future agreement with Canada much more difficult and probably much less advantageous. This best time for reciprocity is now. THIS COUNTRY NEEDS THIS INCENTIVE TO BUSINESS AT ONCE."

COULD NOT WALK TEN YARDS WITHOUT RESTING.

WEAK HEART WAS THE CAUSE.

Mrs. Robinson Collette, Rogersville, N.B., writes: "I am now enjoying the best of health after having used your Milburn's Heart and Nerve Pills. I was troubled with a weak heart and was afraid to draw a long breath for the pain it would cause me. I could not sleep at night, and it was impossible for me to walk ten yards without resting myself. I cannot speak too highly of your Heart and Nerve Pills, for they are the greatest pill I have ever used and I can recommend them to all sufferers."

Thousands of people go about their daily work on the verge of death and yet do not know it. Little attention is paid to the slight weakness of the heart for the simple reason that one thinks of walking itself. It is only when a violent shock comes that the weakness of the heart becomes apparent.

On the first sign of any weakness of the heart or nerves, flagging energy, physical breakdown, the use of Milburn's Heart and Nerve Pills will soon produce a quick and permanent cure. Price 50 cents per box, or 3 for \$1.50, at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Seasonable Shopping Facilities at Simpson's As Welcome as the Flowers in May

YES, the month of May will, indeed, be a merry month at Simpson's. Many of the departments are as gaily colored as a butterfly, and just as dainty. This will be an ideal shopping month, not hot enough to make it uncomfortable, which, by the way, is next door to an impossibility, as this is the best ventilated store in the city. **Now**, the "Summer lines" are complete, and many a Spring bargain is waiting as a "money-saver" to the first comer. This page holds out varied inducements to the person in need of other article of clothing, a rug, a

pair of sheets, a box of stationery or a picnic ham.

Five Bright Shopping Spots on the 3rd Floor

Eight o'clock buying is becoming more and more popular with our lady friends who patronize the Women's and Children's Furnishing Section of the Third Floor. These five "bright spots" should bring many eager buyers when the doors open to-morrow morning:—

Men's Outing Shirts

Some points about our Outing Shirts worth noticing. The size of the body is large and the length full. The best manufacturers in England and Canada are dealt with. The reversible collar can be worn turned down or turned in to form a yoke, which leaves the ordinary collar band so that a linen collar can take its place. All the seams are strongly double stitched, and each shirt has a pocket. Best materials only, including—

White Duck, at **.75** White Cellular, at **.75 and 1.00**

Cashmerette, with silk stripes, at 75c Fancy Poplin, at **1.50**

and **1.00** Shantung Silk, at **3.00**

In all cases the sizes run from 14 to 18.

Men's Derby Hats, latest spring shapes, in fine English fur felt, colors black only, fine calf leather sweat bands, light in weight and easy fitting. Tuesday special **1.00**

Boys' Telescope Crown Soft Hats, the newest American style, fine quality felt, colors grey, fawn, brown, slate, and black. Special for Tuesday **.95**
