WITNESS OF ROSENTHAL MURDER
SWEARS WEBBER AND SULLIVAN
WERE PRESENT AT THE KILLING

Dramatic Incident at Coroner's Investigation,
When Louis Cresce, a Waiter, Pointed to a
Prominent New York Gambler, and
Later Identified Sullivan, Alleged
"Go-between" for Police and
Gamblers—Mayor Gaynor Takes a Hand.

NEW YORK, July 26.—(Can. Press.)—
Testimony that "Bridgie" Webber,
in whose gambling house the murder
gang, which killed Herman Rosenthal
is said to have congregated for the
assassination, and Jack Sullivan, alleged
go-between for certain of the police
and gamblers, were in front of the Hotel
Metropole at the time Rosenthal was
slain, was given in coroner's court
this afternoon. Following these state-
ments Sullivan, who has been held as a
material witness, was rearrested on a
charge of homicide, and Webber was
held without bail for the coroner's in-
quest on Aug. 15.

Louis Cresce, a waiter, testified at
the coroner's hearing that he saw the
assassination. Two men sat in the
"murder car," while four others who
stood nearby, shot Rosenthal. Cresce
identified Webber as one he had recog-
nized on the scene and pointed out
Sullivan as having been there immedi-
ately after the shooting.

John Reiser, known in the tenderloin
as "John the Barber," testified that
he had seen Webber near the Metro-
pole after the shooting, and that
"Bridgie" was running.
Gaynor Defends Becker.
Mayor Gaynor took a decided stand
to-day in the turmoil. He wrote to Po-
lice Commissioner Waldo, directing that
Police Lieut. Becker, charged by Ros-
enthal with being in league with the
gamblers, shall not be suspended or
put on trial without evidence to justify
his conviction and dismissal. "On
the other charge" that Becker instigated
the murder of Rosenthal, the mayor
said: "This is possible, but so far
there is no evidence to support the
charge."

Lieut. Cowtan, in the presence of
Commissioner Waldo, publicly denied
that he had made statements to the
grand jury that gamblers could not
remain open without police protection.
Patrolman William E. Flie, who was
in the Metropole at the time of the
murder, was served with charges prefer-
red against him by Chief Inspector
Schmittberger. The complainant says
that Flie failed to take proper action
at the time in causing the apprehen-
sion of the murderers, and also failed
to report to his superiors any informa-
tion of value.

Saw Rosenthal Slain.
At the coroner's hearing to-day,
Louis Cresce gave the first testimony
relative to the actual slaying of the
gambler. He arrived in New York the
day before the shooting to look for a
job and happened along by the Metro-
pole just before the assassination.
There was a large gray automobile

standing there, and in the car were a
chauffeur and one other man. Four
men stood near the "murder car."
"They said to me," declared the wit-
ness, "What do you want here?" I
did not answer them and they said:
"Go away and mind your own busi-
ness." A man came from the Metro-
pole and put his hand to his hat. As
he did this the man scattered to the
street. A man came from the hotel
behind the man who gave the signal,
and then the four men in the street
started shooting.

"Did you see anyone whom you
now see in the courtroom?" asked Dis-
trict Attorney Whitman.
Pointed to Webber.
It was a dramatic moment. Scarcely
a sound was audible as Cresce rose from
his chair and surveyed the faces be-
fore him. Then he raised his hand and
his index finger was pointing to
"Webber."

The witness said he had been afraid
to tell all this before. He admitted
that he had run toward "Shanley's"
after the murder, meeting a policeman
going toward the scene of the assas-
sination. Webber, he said, was run-
ning on the opposite side of the street.
"Started running after the shoot-
ing," said Cresce. "The shots did not
come one, two, three, but nearly to-
gether. Webber, as he was running,
spoke to some man as he passed. It
was nearly as light as day and I saw
him plainly."

"Newsboy King" Involved.
It was immediately afterward that
John A. Reich, known as "Jack Sul-
livan," the newsdealer, known as
"King of the Newsboys," became fur-
ther involved in the case. "Sullivan"
rode in Lieut. Chas. Becker's automob-
ile with that officer a few hours be-
fore the murder and got out of the car
at Sixth Avenue and 42nd St. in the
immediate vicinity of "Bridgie" Web-
ber's place.
Cresce was asked to go thru the court-
room and see if he recognized any
more men who were at the scene of
the murder. The witness, in company
with a detective, scrutinized all the
faces, but shook his head until he
came to "Jack Sullivan." After a care-
ful inspection of Sullivan, he declared
that the newsdealer had been at the
scene immediately after the shooting.
Sullivan's arrest followed shortly, on
a charge of homicide.
Cresce left police headquarters late
to-day, accompanied by two detec-
tives, who were instructed not to leave
him until 10 o'clock to-morrow morn-
ing, when he will be taken back to
headquarters.

DREADNOUGHTS
NOT PROMISED

Nothing in Persistent Reports
of \$30,000,000 Contribu-
tion is Borden's Emphatic
Statement.

LONDON, July 26.—(C.A.P.)—It has
been stated in usually well-informed
quarters in the past day or two that
Hon. R. L. Borden and colleagues were
convinced that the international situa-
tion demanded instant action on the
part of the Dominion, and are prepared
to recommend the contribution of six
million pounds for the construction of
three Dreadnoughts.

RECIPROCITY IS REPEALED
DUTY ON PAPER \$2 TON

United States Senate Votes 37 to 26 for Complete Re-
scinding of Act After Hard Battle Over Print
Paper Clause—Tax on Incomes Above \$5000.

WASHINGTON, July 26.—(Can.
Press.)—The senate to-night, by a vote
of 37 to 26, passed the house excise
tax bill, which would extend the cor-
poration tax law to individuals and co-
partnerships on incomes in excess of
\$5000.

The bill as passed included a provi-
sion for the repeal of the Canadian
Reciprocity Act, and a substitution of
a 32-per-ton rate on print paper. Sen-
ator Borah's income tax bill was de-
feated.
The excise measure would levy upon
all persons firms or co-partnerships
an annual tax equal to one per cent.
of net income in excess of \$5000.

Senator Cummins' permanent tariff
board amendment, which was carried
over yesterday in the wool fight and
then lost in the final upheaval when
the LaFollette bill passed, was attach-
ed to the excise bill by a vote of 28 to
28.

Chief fight, aside from that cen-
tering about Senator Borah's income tax
measure, came upon the Canadian rec-
iprocity amendment offered by Senator
Gronna of North Dakota. The amend-
ment adopted by the senate, 37 to 26,
provides for the complete repeal of the
reciprocity law and for the establish-
ment of a rate of 32 per ton on print
paper imported from Canada, in place
of the present duty of \$2.75. The text
of the provision fixing a new tariff
Gronna amendment was then adopted.

PERILS LIE IN
"SWAT THE FLY"
ROME BEHIND
JUDGE MONET?

Board of Health of London, Doughty Champion of St.
Ont., Condemns Campaign John's College Said to
as Exposing Children Have Been to
to Disease. Vatican.

LONDON, Ont., July 26.—(Can. Press.)—
Members of the board of health are
much opposed to the proposed "swat-
the-fly" campaign for this city, and
the question will be discussed at the
next meeting of the board.
One member called at the health in-
spector's office to-day to learn where
the idea originated, and why it had
been taken up without consulting the
board.
"The idea is absurd," he said. "Even
if a million flies are killed that will
only be the issue of three flies in a
year and to do this children will haunt
swill barrels, manure piles, and refuse
heaps where they will be in more dan-
ger from germs than the whole city
would be from flies."
"We recognize the menace to the
public health that the fly is, but in-
stead of sending children into all kinds
of danger in trying to kill them I'm
telling the people of the danger
arising from eating food that has been
touched from flies and that would do
more good than a dozen contests."

National Dock Strike Fails

LONDON, July 26.—(Can. Press.)—The attempt
of Joseph Havelock Wilson, president of the International Sea-
man's Union, to organize a national strike of transport workers
in support of the striking London dockmen, has failed. The
reception of Mr. Wilson at the ports he visited in an effort to
propagate the strike movement was so lukewarm that further
efforts to prevail upon the men to go out will be abandoned.

EIGHT DETROIT ALDERMEN

road—Case Worked up By Burns
Detectives—Confessions Made

DETROIT, Mich., July 26.—(Can.
Press.)—Eight aldermen and the sec-
retary of the common council commit-
tees were placed under arrest this af-
ternoon on charges of accepting bribes
and conspiracy to accept a bribe for
their votes and influence in the passing
of a measure affecting city property
recently transferred to the Wabash
Railroad. At least six other arrests of
aldermen are expected at any moment
and it is alleged that \$370,000 passed
hands, in sums of from \$100 to 1000.

JNO. L. WILLMOT
DIED SUDDENLY
URGED ON BORDEN

Well-Known Former Toronto
Business Man Passed Away
Yesterday at Grimsby
Farm.

Word was received in the city last
night of the sudden death from heart
failure of John Langworthy Willmott,
who for many years was a well-known
and highly respected business man in
Toronto, and who, some two years ago,
removed from the city to take up fruit
farming at Grimsby.

Mr. Willmott was a member of Ash-
lar Lodge, A. F. and A. M., and during
his long residence in Toronto was a
prominent member of the B'or Street
Baptist Church, where he was conspicu-
ous in Sunday school activities. In
politics he was a Conservative.
Mr. Willmott had been in the best of
health and the end came shortly after
seven o'clock last evening with start-
ling suddenness. No funeral arrange-
ments have yet been made.

BROCKVILLE TO TAKE HYDRO

BROCKVILLE, July 26.
—(Special.)—At a special
meeting held this afternoon,
the town council authorized
the mayor and clerk to
sign a contract with the
Ontario Hydro-Electric
Commission for the trans-
mission of cheap power to
Brockville. It is expected
that the power will be ready
for delivery here by the first
of the New Year.

FREDERICK COWTAN, WHO SUP-
POSEDLY WAS DROWNED IN
THE HUMBER LAST YEAR, IS
NOW LIVING AT BRAMPTON,
AND TOLD THE WORLD WHY
HE DECEIVED HIS FRIENDS.

After many of his relatives and
friends had mourned him as drowned
in the Humber River, in August last,
and the police and Matt Ackroyd had
dragged the river for seven days to
recover his body, Ernest Frederick
Cowtan, a former resident of West
Toronto, has at last turned up alive
with his family in Brampton, Ont.

On Aug. 10, 1911, three young men
who were walking along the western
bank of the Humber River, on the right
fork, near the old mill, found a light
suit of clothing. Nearby were several
insurance books, and a few other
trifles. One of the books contained the
name of Cowtan.

Enquiry at Cowtan's home on Durie-
street, Ward Seven, elicited the fact
from his wife that he had left that
morning shortly after 7 o'clock to take
his customary morning swim.
County Constables Simpson and Bolton
immediately went to the spot and
dragging operations were commenced
at an early hour the following morn-
ing.

Searched Four Days.
Mate Ackroyd was notified, and with
the police boat spent four days in a
vain attempt to locate the body. It
was then decided that Cowtan, who
had been in the habit of diving from
a log, must have struck a log and the
searchers came to the conclusion that
the remains were pinned down to the
river bed.

The use of dynamite was considered,
but discarded as useless, owing to the
many holes in the river bed at that
spot.
The city men then gave up the work.
County Constable George Simpson,
however, still fished about in the holes
in the river, in the vicinity of the log
from which Cowtan was in the habit
of diving. In the end he, too, gave
up the search.

Seen on a Car.
Mr. Ross, a neighbor of Cowtan's,
came forward and stated that he had
seen Cowtan on a Dundas-street car
at 3:30 on the afternoon of the day
on which he had disappeared. He de-
scribed Cowtan as wearing a dark
suit, but she was on the verge of a
nervous breakdown, as there were sev-
eral small children, and the family
was in rather straightened circum-
stances.
Cowtan's name went down in the
civic books as one of those drowned in
the Humber, whose body had not been
recovered.

Some time later two residents of
Durie-street were going to work, as
an early hour in the morning, when
they noticed a man walking towards
them who answered the description of
the supposedly drowned man. When
spoken to the man did not answer to
the name of Cowtan.

While a young woman was visiting
the Cowtan home one evening she was
startled by hearing the noise of a fall
in the cellar. When asked for an ex-
planation Mrs. Cowtan stated that there
were rats in the house, and it
probably was caused by the animals
knocking over some boxes. It developed
later, however, that the noise was
made by Cowtan, who had gone into
the cellar when the door bell rang.
During the next week or so the
blinds on the Cowtan house were kept
down. This gave rise to a suspicion
in the minds of the neighbors that
all was not as it should be, and conse-
quently when Cowtan returned home
one evening several of the neighbors
were watching from windows.

Helped to Move.
In December the Cowtan house was
rented to another party. A man who,
the neighbors believe, was Cowtan, as-
sisted by several men, was seen to
be helped to move.

SPECIAL SALE OF MEN'S HATS.

The Dineen Com-
pany is looking for
a big day in Men's
Hats. The fact that
prices in straw and
Panama in many
superb lines have
been more than cut in two should
induce you to make a record in sales.
Special attention is directed to the stock
of Panama which are positively being
sold at less than cost price because of
the size of the stock caused by the late
arrival of some two hundred dozen last
Tuesday. The "Panama" is good for
at least five years' wear. If properly
quantity of lumber but were caught by
the police. They were taken to No. 6
station and locked up.

on his evidence that Napoli was blamed
for the crime.

NEW ARCHITECT
WAS APPOINTED

F. E. Belfry Chosen by Board
of Education at an Initial
Salary of \$3000.

F. E. Belfry is the choice of the board
of education for the position of archi-
tect to superintend the designing of
buildings for Toronto schools. Meet-
ing in the city hall yesterday, the
board unanimously approved the recom-
mendation of the property commit-
tee, and ratified the immediate ap-
pointment of Mr. Belfry. The com-
mittee reported that sixteen applica-
tions had been received for the position.
Mr. Belfry will receive a salary
of \$3000 a year, subject to increase.

Trustee Lewis moved that the fi-
nance committee be authorized to ex-
pend the necessary amount of money
to carry out the arrangements for the
teaching of swimming to children as
outlined by Mr. Smith of the play-
grounds association. The motion was
carried.

BACK FROM TRIP

Hon. W. H. Hearst and Hon. Dr.
Reaume Return From Tour
of Inspection of Northern
Ontario.

Hon. W. H. Hearst and Hon. Dr.
Reaume have returned from their tour
of inspection in North Ontario. They
went as far as twenty miles west of
Hearst, on the Grand Trunk Pacific
line. At Cochrane they were tendered
a banquet. Impromptu meetings were
held at Cobalt and various other cen-
tres.
Roadmaking is progressing actively
south from the transcontinental line,
surances were given by the ministers
and from points on the T. & N. O.

At the meetings with the settlers,
requests from North Ontario were
receiving prompt and sympathetic at-
tention by the government, and that
every effort would be made to aid the
development of the north country.

SWANSEA POLES
STOLE LUMBER

Martin Gyraza, Brother of Mike
Gyraza, Who Was Murdered
at Humber, Arrested
With Companion.

Martin Gyraza and John Gommaull,
two Swansea Poles, were arrested
shortly after eleven o'clock last night
by County Constable George Simpson,
assisted by District County Constable
Dennis. For some time the Division
Sewer Pipe Company has been missing
lumber from the yards. County Con-
stable Simpson has been on the watch
and last night his vigil was rewarded.

The two Poles started away with a
quantity of lumber but were caught by
the police. They were taken to No. 6
station and locked up.
Martin Gyraza was the star witness
in the murder of Mike Gyrada, who
brother, Mike, at the Humber Polish
colony some weeks ago. It was mostly
on his evidence that Napoli was blamed
for the crime.

A notice of motion was filed recom-
mending that William Mann and Ro-
bert McLaren be paid \$2000 per year in
future. The men are carpenters and
have been receiving \$350 per year,
which is below the union standard.

ACCIDENTAL DEATH.
Dominic Maffis came to his death
accidentally when the hand car on
which he was riding on the G.P.R.
tracks on July 18 was struck by a
freight train. The C.P.R. should take
greater precautions to notify their men
of the approach of trains so that hand
cars would not be traveling on the line
when other trains were due. This was
the gist of a verdict returned last night
by Coroner Dr. W. A. Young's jury
at the morgue. Maffis was killed near
Streetsville.

### BILLY BURK'S FREE-FOR-ALL

Closing Day of Grand Circuit at Detroit — Only One Extra Heat Required.

DETROIT, July 26.—Nothing sensational developed this afternoon during the final day's racing of the Grand Circuit meet. Two of the events on the card were won in straight heats, while one extra heat was required to decide each of the other two. The 2:09 pace, last of the program, furnished the best sport of the day. In the first heat George Penn led around to the distance stand, when Babe, coming with a rush, passed him in the last few yards and won by a safe margin. Molly Darling, Walter J. and Forest Prince were noses apart, a length back of the leaders. Babe led in the second heat until Molly Darling caught her a hundred yards from the end and beat her a half-length at the wire. The next time out Babe shot out of the bunch half way down the stretch and won, slowing down. The free-for-all trot was little more than a procession, Billy Burk winning the two heats in hollow fashion. Gold Dollar broke badly at the first word, ran nearly to the far turn and was far back of the distance flag.

# Huether's Wuerzburger

The German is the standard by which all people like to judge quality in lagers—and rightly so. And so Huether's have set the finest quality German Lager as the standard for quality in the production of HUETHER'S WUERZBURGER. It is a very high-class product—a fine, dark, German Lager—gives delightful refreshment as a beverage. Guaranteed the purest of beers—because made from the choicest of selected hops, the purest of spring water and the finest of Canadian barley, brewed in the most cleanly, hygienic and sanitary brewing plant in Canada. HUETHER'S WUERZBURGER adds greatly to "THE JOY OF LIVING." It is a tonic as well as the most refreshing beverage. There's a warrant for quality in the sparkle—and health in every bottle of it. Try it and be your own judge.

### DRESS REHEARSAL AT THE STAR

With the house newly and warmly decorated in old rose and carpets of the same, grateful color laid in the aisles and the boxes draped to match, a dress rehearsal of the Lady Buccaneers, who open the burlesque season here to-day, was held in the Star Theatre last night. The show is of unusual merit, and with the new costumes and scenery, and the girls all fresh from a summer holiday, the production is the last word in burlesque. There are two merry burlesques crowded close with comedy and tuneful songs and choruses, and an olio of exceptional merit. John C. Hanson, who has charge of the long end of the comedy, has a big hit in a song in which he declares that he is a most important person, no less than "the guy who bit holes in switzer cheese." Annie Doherty is one great coon shouter, who has turned her ability in that line to setting forth Yiddish and Irish songs as they are seldom heard, while Fay Adams both in burlesque and olio, has a real live voice which you will wish to hear.

### Accuse Kid McCoy Of Share in Plot To Rob a Princess

LONDON, July 26.—"Kid" McCoy, the American boxer, was arrested to-day on a provisional extradition warrant and brought up at Bow-street police court on a charge of larceny alleged to have been committed at Ostend. The magistrate, Mr. Derwent, remanded him without bail, McCoy informed the magistrate that he was entirely ignorant of the charge against him. According to the Scotland Yard authorities, McCoy is suspected of being implicated in a jewel robbery at the Grand Palace Hotel, Ostend. They admit, however, that the only evidence they have against him thus far is that McCoy was seen in the company of suspects. McCoy's friends declare that he left Ostend before the robbery was committed. The Scotland Yard officials say that the person robbed at Ostend was a Russian princess, who was staying at the Grand Palace Hotel. Their story is that the princess, who possessed jewelry worth £30,000, was followed from Russia by a gang of thieves who engaged in a jewelry room and entered her apartments during her absence. They secured a case containing jewels valued at \$80,000, but in their hurry, overlooked a larger case. The only large robbery reported from Ostend recently was that of the Princess of Thurn and Taxis, who, it was stated, had jewels valued at \$80,000, and Edmondson, Dunvegan and British Columbia Railways' as soon as negotiations with the municipality for the closing of certain streets have been concluded. The building will have a length of four city blocks. It will be four stories in height and will have all modern conveniences for the comfort of the traveling public. Provision will be made for six sets of double track and four passenger platforms. The E. D. & B. C. Railway will operate its own freight from its own terminal. Contracts for the erection of the new \$750,000 Grand Trunk Pacific Hotel in the same place will also be awarded shortly in Montreal. When the time for receiving tenders expired on July 15, six bids had been put in, all from firms of repute throughout the Dominion, but these will require some little consideration before an announcement is made. Steel will be on hand in the Albertan capital in three months' time, and construction will be prosecuted throughout the winter as in the case of the Fort Geary at Winnipeg.

### MARKET PRICES AGAIN STEADY

Vegetables Arrive in Good Quantities, and Fruit is Steady and in Good Demand.

Prices on the Toronto Fruit Market were steady yesterday, only slight variations being recorded from Thursday's quotations. There is an abundant supply of vegetables arriving daily now and this tends to force prices down a little. Cucumbers were sold at 90c by some of the wholesale men, and cabbages went as low as 50c a crate. There are some onions from the Bermudas on the market selling at \$1.50 the crate. Other varieties bring \$1.25 as before. There are no Spanish onions to be had.

Yesterday's prices were as follows: Raspberries, 15c a box; gooseberries (English variety), \$1 to \$1.25 a basket; black-caps, 15c a basket; red currants, \$3 a box; black currants, \$1.75 to \$2 a basket; blueberries, \$1.50 a basket; peaches (6-basket crates), \$2.50; Elbertas, \$2.50 a bushel; California, \$1.50 a crate; plums (small), \$1.75, (large), \$2.50 a case; potatoes, \$2.75 to \$4 a barrel; tomatoes, \$2 to \$2.25 a basket; cabbages, 90c to \$1 a basket; green corn, \$2.50 the 10-dozen sack; beets, 25c the dozen bunches; beans, 60c; peas, 60c; squash, 40c; carrots, 35c a basket; apples (American), \$1.50 a bushel, (Canadian), \$1 a bushel; 55c a basket; cherries, \$1.15 a basket; peppers, 65c a basket; watermelons 50c each.

### TO SEE SIR JAMES

Deputation From North Toronto Visits Premier To-day.

Sir James Whitney and Hon. J. J. Foy, attorney-general, will be waited upon at the parliament buildings this morning at 11:30 by a deputation from North Toronto respecting the recent privy council judgment.

The deputation will explain their position and ask for such aid as the government can render and advice respecting their future action.

### STEWARDS' CONVENTION

Hotel Men Meet in Toronto in Ten Days.

Toronto is to be the meeting place of the International Stewards' Association Convention. This will take place on Aug. 5, and will be attended by between twelve and fifteen hundred delegates from all over the United States and Canada. The headquarters of the convention will be the Prince George Hotel. One of the local members stated yesterday that the term steward is not properly understood by the people here, who have got the title confused with that of the steward of a boat. The steward is really the business manager of the hotel, and in the management he stands next to the proprietor.

### Symphony Orchestra Program.

An interesting volume of the programs for the past season of the Toronto Symphony Orchestra has been prepared and issued with an index of the works performed and the soloists who appeared at the various concerts. It is a record of great interest, both as showing the growth of musical taste in Toronto, and as an indication of the enterprise of the organization, which Frank Welman so ably conducts. The chairman of the orchestra, H. C. Cox, who has been its mainstay through, is to be congratulated on the success attained.

SATURDAY MORNING, JULY 27, 1912

MR. ROGERS, MR. COCHRANE AND THE NATIONAL TRANSCONTINENTAL RAILWAY.

The Winnipeg Telegram is the leading Conservative newspaper in the west. It has long been credited with expressing the personal and political views of Hon. Robert Rogers, minister of the interior, and it is altogether unlikely that the Telegram would attack a high official appointed by the Conservative government at Ottawa without the knowledge and consent of Mr. Rogers.

Major Leonard is attached to the department of railways and canals, and his appointment was made upon the recommendation of Hon. Frank Cochrane, the minister in charge of that department.

The Regina Leader charges, and The Toronto Globe gives wide publicity to the imputation, that the attack upon Major Leonard was inspired by Mr. Rogers, because the former refused to locate certain railway trackage near Winnipeg in such a way as to benefit suburban real estate.

The World does not credit this report, but there are other reports in circulation which might explain the friction between the two ministers as to differences of opinion on a question of public policy.

The World prefers to believe that if any changes have been made that they will be but temporary and that they have been prompted by a commendable desire to rush the work and get the line opened from Winnipeg to Cochrane in time to relieve the grain blockade, which is bound to follow the close of navigation.

Nevertheless we believe that explicit statements are due to the public, from the minister of the interior and the minister of railways alike. And in this connection there is some curiosity to know what has been done, and what is being done, by Mr. Guellet and Mr. Lynch-Staunton, who have gone over the line under a commission from the government.

People who have assured incomes or steady jobs, who have never been without a meal, nor ever had the chance to realize what it is to go for twenty-four hours without food, or to understand the hunted sensation of the man who does not know where the next meal is coming from for himself or his family, are saying very hard things just now about the labor leaders in England and the strikers there.

People on the spot who understand or may have experienced the hunger-horror, have less difficulty in understanding the pre-revolutionary condition in which the large centres of industry and population in England are now to be found.

At Lord Mayor's Banquet, Hon. Mr. Borden Again Emphasizes French-Canadian Loyalty.

LONDON, July 26.—(C. A. P.)—The lord mayor to-day lunched Hon. R. L. Borden and colleagues at the Mansion House.

Hon. Mr. Borden, replying to a toast, said that when the Duke and Duchess of Connaught returned to these shores from Canada, they would bring with them, love, affection and esteem of the Canadian people.

Those in England could scarcely appreciate the vast task which had been committed to the Canadian people in the development of their territory.

They had in their possession not only a great territory, but enormous resources of the most varied description. British and French-Canadians were working harmoniously together in the task of developing the country.

RACES UNITE IN BRIDGE OF STEEL

FOR BRIDGE ST. WADWGT

Works Committee Again Reported Against Concrete, and Commissioner Harris is Very Emphatic—Don Mills Road Widening and Paving—Suburban Train Conference.

At their meeting yesterday afternoon the committee works again sent out to council a recommendation that all the bridge work of the Bloor-street viaduct should be of steel.

The Don Mills-road widening and paving question again came up, and after discussing the question the committee passed Ald. Hilton's motion that the street should be paved at a width of 24 feet instead of a 48-foot street, as had been originally recommended.

Additional Expense. On May 21 the city ordered 3000 yards of treated iron blocks from G. W. Essery for the paving of the Wellington-st. track allowance, and at the time of being made known to the committee of being made known to the committee of being made known to the committee.

 asked to move the furniture. The next day of Mrs. Cowtan was that she was living in Brampton. Constable Bolton conducted an investigation just before the family moved from Ward Seven, and found that Cowtan was alive, although Mrs. Cowtan said she had not known this until a few days previous.  
**Cowtan's Story.**  
 Cowtan was seen at Brampton yesterday by The World. He told the story of his disappearance and how he succeeded in so mystifying the police and the reasons for his actions. He had been several hundred dollars in debt, he said. He was working for an insurance company, but was being very poorly paid. His creditors persistently called at the office of the company, with the result that his chances of promotion and prospects of getting a larger salary were ruined. Owing to his debt, he knew that he had very little chance of settling one account without his other creditors instantly stepping in and seizing his furniture.  
 Proceeding to the place where he usually dined when going to bathing, he took off the light suit, folded it and taking out his books and a few other things, left them beside his discarded apparel.  
 Cowtan walked up the stream to the Lambton Mill. From here he struck a line due northwest. That day at noon he arrived at Clarendon. Farmers were threshing and he obtained a job. When he had been here about a week, he started for home one night at 9 o'clock. He got lost and landed at Cooksville. Once more he began his journey and about 3 o'clock in the morning landed at the river.

**Worked in Factories.**  
 Neighbors were helping his wife along so he stayed in until Tuesday morning. The next point he struck was Bolton. Leaving there the next day, he got to Glen Williams and worked for five weeks in a woolen mill. At last he secured a job in a glove factory and remained five or six weeks. Sometimes he went home for the weekend, always managing to reach home during darkness and leave before daylight. Often he did not have railroad fare. At these times he walked between his home and his working place. On occasions he would be very hungry, but managed to stick it out.

**Has Good Position.**  
 In this town he secured a good position and a few weeks later wrote his creditors saying that he would pay them as soon as possible. So far he has done well and has decided to settle everything he ever owed as soon as he can get the money.  
 Cowtan states that he did not think the city police would drag for his body, and, in fact, did not know anything about it until he slipped home one night dead. Cowtan in The World stating that the search had been given up.  
 He is 33 years old now and shows the lines of worry on his forehead. Cowtan is sincerely sorry for causing trouble to the police and Mait Akford, who all helped to drag the river.

**FRUIT MEN ASK FOR REPEAL OF BYLAWS**  
 Retail Dealers at Meeting in St. George's Hall Complain Against Regulations Imposed by Medical Health Officer—Acting Mayor Says Conference Will Be Held.

"This meeting believes that the object of the fruit bylaw and the best interests of the citizens are not being served by the operation and enforcement of the present bylaw, and that its enforcement is a great hardship on the dealers, merchants and business men who deal in fruit, who are large property holders or taxpayers; also that it works out detrimentally to the citizens generally, giving them not only a deteriorated quality of fruit, but causing them, as it will inevitably, to pay higher prices for such lower quality fruit."  
 "Natural products such as fruit require air to keep them in their best condition and further to make them more nutritious."  
 "Such was the resolution framed last night at St. George's Hall by well over two hundred wholesale and retail fruit dealers of this city. The remedy proposed for the existing state of affairs was that the city should be compelled to keep the streets clean so that dust would not rise and cover the displayed fruit."  
**Intent is Good.**  
 "Had the fruit dealers been organized a year ago," declared Mr. Higgins of the Retail Grocers' Association, "this bylaw would never have been inflicted. As it is, the intent of the bylaw is good. I would not like to see it repealed altogether. But, if it is to be kept, we must keep our stores closed up tight because the city will not do its duty."  
 David Hartmanov, who kept a fruit store on Yonge-street, was emphatic in his declaration against fruit coverings. "When there is no netting we dust our fruit six or seven times a day. We cannot do that if our fruit is covered up. And the dust gets thru the cover and settles on the fruit."  
**The Fly Nuisance.**  
 There was much discussion of the effect of covering fruit upon the fly nuisance, but everybody was quite sure that enclosing the fruit would only make the situation worse, as flies will get in where air can get in, and the fruit must have air or it will spoil.  
**Wants a Conference.**  
 Just as the meeting was well under way Acting Mayor Church appeared at the back of the hall and was escorted to the platform amid a rousing remonstrance of the assembled fruit men, who formed the vast majority of the audience. Mr. Church stated that the council wished for a conference between the medical officer and the fruit men. By their inaction in the matter of bringing about a conference the board of health had disregarded the orders of the council. The acting mayor hoped that a conference between the fruit men's counsel and Dr. Hastings could be arranged for this morning.  
 E. W. J. Owens, counsel for the dealers, took the chair. Among the speakers were: George Stronach, Herbert Ingram, Mr. Dawson of Dawson and Elliott, James Vince and Alderman Alf Maguire.  
 A committee of fifteen retailers and six wholesale fruit men was appointed to negotiate with the city fathers in hopes of having the bylaw suspended or repealed. After this business the meeting organized into the Toronto Retail Fruit Dealers' Association. Many other meetings will be held shortly when officers will be elected.

**Holiday Making.**  
 Mrs. McCrea of West Eglinton-avenue is home again after a month's tour of the Georgian Bay district.  
 W. Ellis and family of Knockaloe, Bedford Park, will leave on Saturday to spend a month at Bayville, Lake of Bays.  
**Three New Stores.**  
 Ex-Commissioner Coombs, who took an active part in opposing double-tracking and supporting annexation, has commenced operations to duplicate his three stores situated south of the public library on Yonge-st.

**North Toronto Band's Picnic.**  
 The annual picnic of the North Toronto Citizens' Band took place on Thursday last, when the bandmen, with their friends left by the 9.30 boat for Niagara. A musical performance on the outward and homeward journeys contributed largely to the day's enjoyment of a large crowd, among whom were noticed Councillors Howe and Reid.  
**Sewerage Complaints.**  
 Engineer T. and Murray has investigated the grounds of complaints by residents on Smith-st. and Broadway-avenue, with reference to their cellar drainage connections and has satisfied himself that there is no foundation for the statements that the sewers were higher than the cellars. In all cases he has found that the sewer is at least 11 inches, and in some cases as much as 2 1/2 feet below the cellar.  
**Markham.**  
 The Locust Hill wooden bridge, which a team belonging to Franklin Ramer went thru last Monday, will be entrusted with the concrete work and Engineer Frank Barber will supervise for the township.  
**Harbor Facilities.**  
 More Adequate Dockage Required, Says Mr. Dubois.  
 Westbound from Montreal to Detroit, the steamer City of Hamilton, of the Merchants' Mutual Line, docked at the foot of Yonge-st. yesterday afternoon. The City of Hamilton, the essentially a freighter, caters as well to the passenger trade. She makes the round trip from Montreal to Detroit and return in eleven days, remaining three days at Montreal after each trip. The bulk of the freight carried on this trip is wool. The Merchants' Mutual Line boats carry great quantities of grain on the eastern trip, and reload with baled goods for the return voyage. The officials of the company find that the amount of their business demands additional docking space in Toronto.  
 "We are getting along here as best we can," said Mr. Dubois, "for this is the best accommodation we can get. It is only a question of time, before the shipping which must pass thru Toronto, billed for the west, will make it imperative that the harbor here be made more adequate."  
 The City of Hamilton left port at midnight.  
**MIKADO AGAIN RALLIES.**  
 TOKYO, Jan. 27.—(Can. Press.)—The condition of the emperor is reported to be somewhat better than during the preceding twenty-four hours. "This morning's bulletin reads: "The general condition of the patient is somewhat improved."

**WANT NO TERMS OF ANNEXATION IN NORTH**  
 Town Council Had Special Meeting in North Toronto, But Came to No Decision—Will Meet Again on Wednesday—More Definite Undertaking is Wanted.

The oft postponed and eagerly anticipated special meeting of the North Toronto town council took place last night. Councillor Howe expressed the opinion that the town should have a representative on the city council, and also that the school board should be represented on the board of education. Councillor Baker wished for a more definite undertaking as to the city's attitude toward the town's employees.  
 Mayor Brown said: "You cannot, from the population standpoint, expect to constitute a motor bus service north of Toronto, Deer Park, and perhaps Rosedale might be combined to form one ward." Councillor Bell said: "I personally have no objection to asking that North Toronto should form a ward to itself, but we cannot reasonably expect it. I think this discussion of possible terms should have been deferred pending Solicitor Gibson's return. I have no fear that North Toronto will be unjustly treated by the city."  
 Councillor Lawrence believed that when the railway companies started operations at the north of Yonge-st., the residents of St. Clair district would move north.  
**Bedford Park Deputation.**  
 W. G. Ellis presented a petition signed by 172 ratepayers, 65 of whom resided in Bedford Park district, and 90 in Soudan-avenue neighborhood. The petitioners asked that the annexation condition should be the definite promise by the city to institute motor bus service from the junction of King and Yonge to Bedford Park. A second request, the not imperative, was that the building of the streetcar line should not be delayed for three or four years. Mr. Ellis was supported by Messrs. McGarry, Lorey, and E. Brockleby.  
**Mayor's Firm Stand.**  
 Mayor Brown said: "I am utterly opposed to this petition, which makes the grading of its request an imperative condition of annexation."  
 Councillors Lawrence and Bell supported the mayor, the latter characterizing the insertion of the word imperative as "impudent."  
 Chairman Reid regretted the inclusion of the word "imperative," and during the discussion, Mr. McGarry admitted that the signatories to the petition were those who had opposed annexation.  
**Firemen's Deputation.**  
 Chief Collins renewed the application that the council should vote about \$1000 towards the expense of holding the convention of provincial fire brigades at North Toronto in 1912. After discussing the question in the new light which the firemen's deputation had brought forward, the council decided that no invitation could reasonably be extended to the delegates to visit North Toronto.  
 On the motion of Councillor Bell, the whole question of discussing possible terms was postponed until Solicitor Gibson's return on July 31.

THE NEW STREET ON DANFORTH AVENUE

Above drawing shows a cross section of the new Danforth-avenue, 85 feet wide. Laborers are now at work (east end of Broadview) on the excavation of the existing macadam on the north side for the north track of the new municipal street-car line. After the walls are down the concrete and asphalt follow.

This cross section is the same as that of St. Clair-avenue west of Avenue Road, now under construction; the widened Teraulay-street will be on exactly the same lines. This is the kind of main city highway that Greater Toronto is trying to get. Don Mills-road should be widened in the same way.

The sidewalk is 15 feet 6 inches wide on either side; there is a clear driveway on either side between kerb and track of 18 feet; and a devil-strip of 5 feet.

Commissioner Harris proposes to rush the job and it is expected that the tracks and pavement will be laid and ready within a few weeks. The section now under way is from Broadview to Greenwood-avenue, a distance of about a mile and a quarter. There are three ravines or dips in this section that will be filled up by a steam shovel, to be put to work in a few days, but it will not delay the work. A uniform grade and width will be maintained throughout. The ravines, however, will involve concrete culverts to carry the water.

Building on Danforth-avenue and neighborhood is remarkably active at present. Stores, houses, churches are under way. The streets in the Playter subdivision are being sewered and asphalted. The last half dozen houses or stores on the new street line are being moved back.

"JULIUS CAESAR" WILL OPEN HERE

William Favershaw and All-Star Cast to Appear at the Alexandra Week of Oct. 7.

Contracts were signed in New York yesterday by which the premiere performance of William Favershaw's all-star production of "Julius Caesar" will take place at the Royal Alexandra Theatre Monday, Oct. 7. Following a week's engagement here, the attraction will be shown in Montreal and a few other Canadian cities, after which it will go direct to New York for an extended engagement. This event further emphasizes the importance of Toronto as a theatrical centre, and it is a matter of much local congratulation that the first performance of what promises to be the most sumptuous and commanding attraction of the coming season will occur here. Prominent in the cast will be Mr. Favershaw, Tyrone Power, Frank Keenan, Fuller Mellett, Julie Opp, Susanne Sheldon, Lionel Belmore, Boston Churchill, Arthur Elliott and more than 200 others.

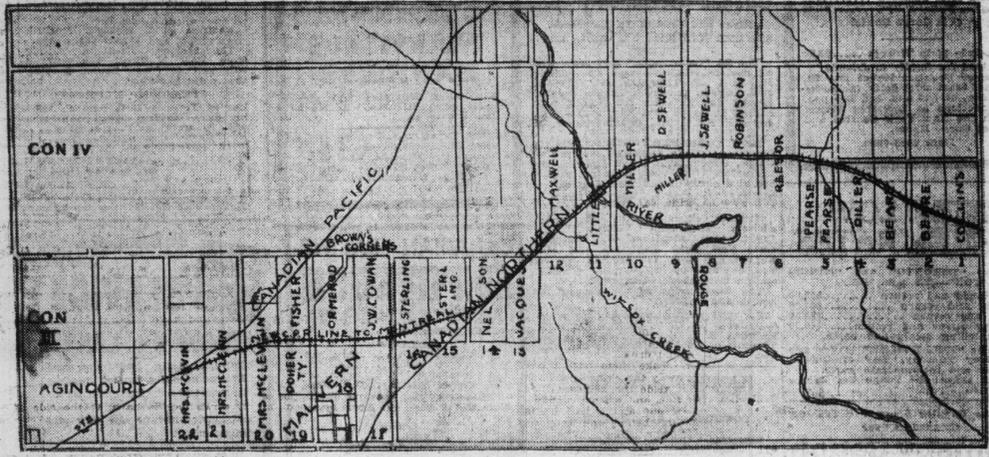

Mr. Favershaw's company will not only be the largest and most expensive dramatic organization in America, but will constitute one of the most remarkable Shakespearean casts that have been assembled for a generation. Scenically the production will mark the high water mark of stagecraft; seven sumptuous settings are being constructed in London by Joe Harker; the celebrated artist who painted the world-famous production of "Kismet". Mr. Favershaw is traveling in Europe, searching for properties that are artistic and artistic for use in the stage equipment. Van Horne of Philadelphia has been awarded a contract to furnish 487 costumes, and he has dispatched an artist to Italy to make sketches of frescoes and paintings, and also from engravings in rare volumes in the Vatican library. Mr. Favershaw's representatives in New York are negotiating with sterling and experienced Shakespearean actors for the minor roles, pending final choice by Mr. Favershaw upon his return to America. In short, preparations of every sort are under active way, and the opening of Oct. 7 promises to be a red-letter night long remembered in the annals of local theatrical history.

"Dorothy Vernon of Haddon Hall"

Miss Haswell and her company will present next week at the Alexandra Theatre "That charming and romantic play, "Dorothy Vernon of Haddon Hall." This play was written by Charles Major, and dramatized by Paul

MISS PERCY HASWELL who will be seen in "Dorothy Vernon of Haddon Hall" at the Alexandra Theatre next week.

The Canadian Pacific's Lake-front Line—Right-of-way in Scarborough Township

The above map, filed yesterday with Registrar W. J. Hill of York, shows the route in the Township of Scarborough of the new lake front line of the Canadian Pacific, covering a distance of 6 1/2 miles. The road breaks off from the main line a half a mile east of Agincourt station, and runs for three miles more or less parallel and south of the existing line across concession III, until between lots 14 and 15, when it joins the Canadian Northern on its north side and parallels that railway for 3 1/2 miles. The right of way is 100 feet wide with additions for bridges, fills and roadways.

The plan as thus filed shows the following farms crossed and the acreage expropriated: Right of way under the Railway Act:

Lot	Owner	Acreage Taken
1	J. Collins	3.78
2	Earl S. Beare	3.78
3	R. Beare	3.78
4	J. Peare	4.85
5	F. Peare	3.32

and rushing things along. A steam shovel was got in the day before yesterday and a crew of 45 men are going to work on it to-day at the first cutting. The second buttress of the bridge at Wilkoots Creek will be completed next week and the inspector told The World that there are 2400 cubic yards of concrete in the structure. The foundations go to a depth of 7 1/2 feet, and the height above the ground is 28 feet. To feed the steam shovel, a 3-inch pipe line over a mile in length has been laid parallel with the proposed track from a creek, and an elevated tank with a capacity of 270 cubic feet has been constructed as a storage supply. Next week a steam shovel will arrive at Cherrywood, and the grading of the track will proceed from two opposite points. At Agincourt station there are two new dinky engines built by the H. K. Porter Co., Pittsburg for the Dominion Construction Co., and these will be used to haul the small trucks of earth from one point to another as the steam shovel does its work.

Star Opens Today

Amusing, brilliant and clever is the perennial "Lady Bunchers," which will be the offering at the Star Theatre for seven days, commencing with matinee to-day.

The company this season is a big one. In fact, all shows on the Empire Circuit are considerably larger than heretofore, the production is new and the book, "That Boy Fritz," has been rewritten and brought up to the second, thus making this quite one of the best of modern light musical comedies before the public, because while there is plenty of humor and dancing in it, there is also an excellent little story which at times becomes quite dramatic. The principal parts are portrayed by John O. Hanson and Harry Steppie, a pair of most agreeable comedians. Others in the cast are: Dick Maddox, William Hartley, Nat Becker, Fay Adams, Gertrude Ralston, Annie Goldie and Daisy Godfrey. The chorus, numbering thirty, are young and well drilled, they go thru intricate man-

Hot Weather Ailments

A medicine that will keep children well is a great boon to every mother. This is just what Baby's Own Tablets do. An occasional dose keeps the little stomach and bowels regular and prevents stomach troubles speedily turn to fatal diarrhoea or cholera infantum when the child may die in a few hours. Wise mothers always keep the Tablets in the house and give their children an occasional dose to clear out the stomach and bowels and keep them well. Don't wait till baby is ill—the delay may cost a precious life. Get the Tablets now and you will feel reasonably safe. Every mother who uses the Tablets praises them and that is the best evidence that there is no other medicine for children so good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

More World's Records

"Ross" Rifle and "Ross" Ammunition clean up everything in sight in the match rifle competitions at Bisley.

In the Hopton Grand Aggregate which represents the total scores of the six big Bisley Match Shoots, at ranges of 900, 1,000 and 1,100 yards the "Ross" Rifle and "Ross" Ammunition took the first six places. Top score, 792 out of 825.

In the King's-Norton Match at 1,200 yards, a World's Record was made with Ross Rifle and Ross Ammunition. Score: 73 out of 75.

This year's triumph at Bisley, confirming previous years' results, classes the "Ross" Match Rifle as the champion of all long-range rifles in the British Empire—and, probably, therefore, in the world.

Sportsmen who seek an accurate and high-power arm will be glad to know that the Ross 280 High Velocity Rifle has the same barrel and breech as the military match rifle, which only differs from it in the sights and style of stock. Its low trajectory and reliability have made the Ross a favorite in India with big game hunters.

Surely you have noticed how everybody rushes at the first street car. It doesn't seem to matter that it is crowded and that another only partly filled is following; the people want to get there. They rail at the straps, but attach themselves thereto just the same. It is habit. Like the wise people they are, the men who are building new railways today consider as a first necessity the construction of a central station in every good-sized community. This is what the Canadian Northern Ontario is doing. Take the City of Belleville, for instance. When the C. N. R. were building through to Ottawa and Montreal they decided to locate their Belleville station as close to the business hotel and residential districts as possible. Accordingly, a modern and commodious edifice was reared down by the city park, within a stone's throw of the city's centre. It is a pleasure to travel to Belleville over this line. The passenger all the way from Toronto enjoys the comforts of cool, luxuriant equipment. Every need of the traveler is supplied. He alights at the beautiful old city on a station platform where the cool lake breeze blows. The lake and bay are within easy view, and, after that, the short walk uptown is pure pleasure. Toronto people who are going to Belleville in the near future would be well advised to inquire at the city ticket office, corner King and Toronto streets, about this route. There is a solid vestibuled train leaving Toronto

**HOT SHOT FOR MR. BOURASSA**

"Wharf Rats," "Scavengers," "Buccaners," Etc. Are Polite Terms Used by Kingston Paper.

KINGSTON, July 26.—(Special.)—In a leading editorial to-day, the Kingston Daily Standard pays its respects to Henri Bourassa and his followers, declaring that they are "political wharf rats," who "snay holes and scurry about in the depths, having accomplished anything, but occasionally making great splashes, which end in the splash."

The Standard says there must be no trucking to them and they must be put in their proper place.

Appropos of Mr. Bourassa's recent utterance that a fresh dose of Arthabaska-Drummond might have a salutary effect, The Standard declares that Bourassa does not represent French-Canadian or real French-Canadian opinion, and says:

"There is one way, and one way only to answer such an utterance and such a man. Premier Borden and the Conservative party, generally, must say to Bourassa, plainly, simply, emphatically—as indeed must the Liberal party or any party that is truly Canadian or Imperial—that it will matter not a tinker's dam what he and his followers think upon the matter; that Canada will do its duty by the empire despite all the muttering and all the threats of the Nationalists, and that there will be no trucking to them, no kow-towing for the sake of their dirty votes—for dirty they would be if they were muddled over with reason, and if the price of them was failure to do our plain duty as citizens of the empire."

"For our own part, we should rather truckle to the worst guttersnipers in the land than to political scavengers and buccaners like the Bourassas."

**FOR BETTER HOUSING**

McEachern Brothers Leave for England on Important Mission.

To promote a proposition that may mean relief from the lack of suitable housing accommodation in this city, Norman C. McEachern and Frank Y. McEachern of the W. N. McEachern & Sons, Ltd., to-day sail for England. That their mission will be highly successful is indicated by their having the assistance of the biggest financial men of Toronto. Roughly, it means the building of several hundred moderate-sized homes on a new community plan.

Land on the Rise.

R. B. Haley & Co., Temple Building, have definitely announced that the price of any frontage remaining unsold in Walmer Hill on August 12 will be increased \$5 per foot. The reason is that there is so much building activity in the immediate vicinity that there is a scarcity of land such as is obtainable in Walmer Hill. All the available lots in the middle north section are being picked up, owing to big developments expected in the near future.

**Board Members Get Contracts.**

KINGSTON, July 26.—(Special.)—J. A. Macdonald resigned from separate school board because he claimed the business of the board was being carried on in an urban, white way. He stated that the board has allowed some members to receive contracts against the regulations.

Edworthy, chairman picnic committee; Capt. T. A. E. World, secretary of the same committee, are in charge of the arrangements.

**SQUINTERS CAN'T BE TRAINMEN.**

OTTAWA, July 26.—(Can. Press.)—Men who squint or are cross-eyed can no longer become engineers, firemen, trainmen or brakemen on Canadian railways. Following its recent judgment, the railway commission has issued a series of uniform rules governing the determination of visual acuity, color perception and hearing of railway employees, and among them is a clause banning the squinting or cross-eyed man.

**WARD THREE PICNIC.**

Enjoyable Time Promised at Queenston on Wednesday.

If preliminary preparations are any reliable indication, this year's complimentary picnic of the Ward Three Liberal-Conservative Association will be a grand success. The outing will be held to Queenston Heights, via the Niagara Navigation line, on Wednesday, July 31. The association has invited nearly 2000 members of the families of workers who live in the ward, to join in this, their annual holiday, and these guests will be under no expense, as free transportation will be provided, and on the picnic grounds tea, milk, sugar, hot water, butter, plates, cups, jugs, etc., will be supplied without charge. This will afford an opportunity to many of the poorer people of the ward to enjoy a delightful fresh air outing without cost.

A fine program of sports has been arranged for the afternoon, starting at 1 o'clock. A bald-headed men's race for contestants 50 years and over, a distance of 75 yards; a 100 yards three-legged race for men and women; a tug-of-war, 6 men a side; and a baseball game. Jews v. Italians will be features.

The Highlanders' Band will be in attendance on the boat and a thoroughly enjoyable outing is assured. Capt. Theo. Hook, president of the association, Joe Shone, secretary, J. T. Edworthy, chairman picnic committee; Capt. T. A. E. World, secretary of the same committee, are in charge of the arrangements.

The senior boys' Bible class of Mr. Charles J. Booth, St. John's Sunday school left yesterday afternoon for Lake Wilcox, where they will spend the next two weeks in camp. Nearly 40 left, the teacher being in charge.

The Keele-st. firemen received a call shortly after midnight yesterday to the Union Stock Yards, but on their arrival found nothing but a guarded burning rubbish pile, with some overzealous person had mistaken for a fire.

CANADIAN WEST IS NOW ENJOYING PROSPERITY NEVER KNOWN BEFORE

Wheat Crop Will Be 250,000,000 Bushels—70,000 Men Are Needed for Harvest and Every Town and City on Prairies Shows Wonderful Development.

This year the Canadian west is going to give the greatest yield in crops it has ever given, and what is best of all, the harvest will be fully two weeks sooner than it was last year and fully as early as in any previous year.

Accompanied by J. H. Smith, one of the Toronto men connected with C.P.R. lands in the west, he set out from this city on June 22 last with the intention of making a thorough and comprehensive study of all points in western Canada.

Some Grain Cut. Already some grain has been cut. Not a great deal but some. This in itself is a safe criterion to go on.

MORTGAGE SALE

Under and by virtue of the powers contained in certain mortgages, which will be produced at the time of sale, there will be offered for Public Auction on Thursday, the 1st day of August, 1912, at the hour of 12 o'clock p.m., in the auction room of C. J. Townsend & Company, 72 Carlton Street, Toronto, the following property, to-wit:

Real estate in the west is gradually assuming its proper level. At present values are not as active as they were a year ago.

Edmonton is going ahead fast, too. Strathcona has been brought into the fold of the city.

Unlimited Possibilities. It is understood that in getting an entrance into Edmonton the C.P.R. will immediately commence a line into the country north of there.

A Good Town. Bassano is one of the at present little towns in the west that has wonderful future possibilities.

Artificial Lake. The C.P.R. has also constructed an artificial lake nearby. This is two miles in breadth.

PORT CARLING ANNUAL REGATTA July 27th, 28th, 29th. Those attending this great aquatic event will find the Canadian Pacific the most desirable route.

# Sudden Turn For the Better in Mining Markets Commercial

## WHEAT ADVANCES AGAIN ON ADVERSE CROP NEWS

**Black Rust Scare in American West and Improved Export Demand Rallyes Grain Market—Sharp Decline in Corn and Oats.**

CHICAGO, July 26.—Export sales of wheat today helped the market to give prices a boost. Prices advanced a range of 1/4 to 1/2 cent in all grades. Corn declined 1/4 to 1/2 cent. The outcome for provisions was a 27 1/2 cent increase in cost.

Higher Liverpool cables brought about a strong start in wheat. Traders generally recognized that there was a heavy demand for wheat in Russia and in other countries. A report of heavy rain delaying harvest in Russia was given more than usual attention. Notices were also received of heavy rains in Argentina and Australia.

Robust sentiment in favor of the bull side of the grain market was evident in the Canadian market when, simultaneously with export buying the wires were hot with reports of black rust in the Canadian wheat crop.

**Corn and Oats Sag.**

Rain in Kansas and Nebraska, disconcerting speculative holders of corn, was the chief reason for the decline in price. In a further tone, but otherwise again, cash prices were weak.

Crab grasses were weak.

Some of the wheat crop in the United States is being held for immediate delivery, but a depressing effect on that crop, especially the July option, which fell 1/2 cent, is being feared.

## WEEK'S SUMMARY SHOWS A HEALTHY CONDITION IN LIVE STOCK TRADE—SMALL STOCK STEADY.

**Hollinger and Vipond Lead the Way to Higher Levels—Natural Reaction From Recent Drastic Downturn—Sentiment More Cheerful.**

World Office, Friday Evening, July 26.

A sharp recovery in the Porcupine mining stocks which bore the brunt of the recent selling movement was brought about today, the incoming of substantial buying orders, coupled with a general improvement in the disposition of the whole market. Bids were raised practically through the whole list, so that closing quotations were generally at substantial gains for the day.

The continued strength of Hollinger, which rose an additional 15 points to 212.55, a net gain of 50 cents a share in two days, has an effect all its own in giving a more cheerful aspect to the exchanges. At the same time there was a decided flurry in Vipond, which advanced 10 points to 110.00, a net gain of 10 cents a share in two days, has an effect all its own in giving a more cheerful aspect to the exchanges. At the same time there was a decided flurry in Vipond, which advanced 10 points to 110.00, a net gain of 10 cents a share in two days, has an effect all its own in giving a more cheerful aspect to the exchanges.

**Butchers Sold Well.**

A notable feature of the week was the brisk opening on butchers' stock, with butchers going up from 80c to 81c, while good cows went up a full quarter of a cent a pound and held firm at that close. Stockers and feeders were in demand, with few changing hands, and no perceptible increase in the market. The week's record is a creditable one in comparison with the number of cattle sent to the market.

**Live Stock Receipts.**

Live stock receipts at the Union Yards July 27 were as follows:

City	Union	Total
Cattle	232	232
Horses	232	232
Sheep	232	232
Pigs	232	232
Cows	232	232
Calves	232	232
Swine	232	232
Other	232	232

**Hay and Grain.**

During the week old hay has about passed off the market and new hay is being quoted regularly. The opening price of 18 to 19 cents per ton, is being considered the quality fair and near by offerings have been liberal.

**Vegetables.**

The market was depressed of old potatoes this week. The quotations have remained strong, with practically no coming in.

**Butter and Eggs.**

Butter strengthened one cent a pound all around at the beginning of the week, closing firm, with the supply fairly good. The retail prices fluctuated at the old figures of from 25c to 26c a pound.

**Dressed Meats.**

The wholesale price of meats has not been affected to any great extent in slight rise and fall in the live stock market. All the good grades have remained stationary, with no changes.

**Hides and Wool.**

The only advancement in the hide market for some weeks is in the price of horse hides, when a quietness was noted last week.

**Union Stock Yards.**

Receipts on Friday were ten carloads, with over 100 export cattle in the lot. Hogs and butchers' compass a large portion of the balance of the offerings.

**The Sting of Corns Relieved in a Night.**

Never slit your boots—that doesn't cure the corn. Just apply that old stand-by, Putnam's Painless Corn Extractor. It acts like magic, kills the pain, removes the corn, does it without burn or scar. Get the best, Putnam's Painless Corn and Wart Extractor, the sure relief for callouses, corns, warts and corns. Price 25c.

# Stock Markets Firm Up Again---Small Improvement Is Made

## FIRMER TREND IN EVIDENCE

But Toronto Market Fails to Score Any Material Improvement—Rio the Only Really Strong Spot.

While the Toronto Stock Market developed a firmer undertone yesterday, and one of two issues showed what was only to be accepted as a remarkable strength in view of the recent quiescent attitude, the firm reality underwent only nominal changes. A cursory glance at the tape from time to time during the session evidenced the fact that the tendency was upward, but the final reckoning showed that Rio was the only security to better its position on an appreciable extent. Sao Paulo closed right on a par with the previous day's level.

In view of the recent rather drastic upturn in the market, the recovery came as a purely natural occurrence. In fact, in some quarters it was held to be overdue. For some days the list had been drifting idly, with, however, some of the leaders gradually sliding to lower levels. The extent to which this was carried on was plainly exemplified in the fact that in just a week had dropped from 154 to 145, and Sao Paulo from 260 to 242, while Toronto Railway had gone down from 145 to 142. It was held that the decline had been accelerated by the wiping out of stop loss orders, and the check administered yesterday probably represented more than anything else the incoming of engaging up transactions.

The upturn in Rio was the most outstanding feature of the day's speculation. The shares at the opening were weak, the first sale being made nearly a point below the previous day's close. The shares rallied sharply, however, and by noon had gone up from 145 1/2 to 147 1/2. This movement was continued, the price reaching 149 before the turn was made, but the close at 147 1/2 presented only a fractional gain from the previous closing. At its top level of the day, the stock advanced full 3 points above Thursday's low quotation.

The firmer tone to the general list was probably a mere reflection of the feature was the failure of Sao Paulo to respond to the activity in its sister issue. Sao Paulo shares were inactive throughout, with the price holding within a range of less than a point. The last sale at 233 was half a point under the closing transaction on Thursday. Toronto Railway gained a fraction at 142 1/2, but elsewhere prices were about unchanged. Standard Bank sold at a dividend, 3 1/4 per cent, at 219, and closed steady. The general settlement was concluded without trouble.

## C. P. R. in Lead In London Market

LONDON, July 26.—Money was in better supply to-day and discount rates were easier. The stock market opened cheerfully, with a rise of a quarter of a point in consols, but part of this gain disappeared later. Good dividends attracted fresh support to bond markets, which were strong and higher. Rubies and copper shares were steady, but Mexican Rail and Canadian Electric stocks eased off.

## A WAITING MARKET.

Charles Head & Co. to J. E. Osborne. There was a dearth of news other than the routine influences, and the market appeared to be waiting for some outside stimulus. Washington advice relative to the action of the senate on the wool measure did not appear to worry Wall Street. It is felt that the president will probably veto the measure, which would defer matters until after the election. Outside public maintains its attitude of indifference. There is nothing in the immediate prospects to warrant selling stocks, but, on the other hand, there are no large benefits in the way of speculative advances.

## IMPPLICATES TORONTO MAN IN BURGLARY.

BROCKVILLE, July 26.—(Special.)—The police took into custody to-day a local character named Lawrence Tompkins, charged with the burglary of the Downey Clothing Store on Sunday night last. He made a clean breast of the affair to the officers and implicated one Albert Graham of Toronto, with whom he skipped out to Montreal after doing the deed.

## COMPARATIVE VALUES OF RIO AND SAO

In view of the recent up-and-down swings in Rio and Sao Paulo, and the consequent varying valuations indicated for the stock of the Brazilian Tramway, Light & Power Company, the holding concern, which will take over the two traction companies in August, if present arrangements go thru, the following tabulation made by John Stark & Co. will prove of interest at this time. It will be noted that one-point swings in the common stock of the holding company are used in the compilation, and that from this is figured the comparative market valuation of Rio and Sao Paulo, indicated thereby: Wit the new Rio Sao Paulo Stock at is Worth is Worth

## C. P. R. LED DULL MARKET IN MONTREAL

MONTREAL, July 26.—The local share market was very quiet to-day and the volume of business transacted was the smallest for some time past. The total sales only amounted to 2995 shares. The course of values throughout the day was somewhat irregular, but the tone of the market on the whole was soft, with a few exceptions.

## SCOTCH BANKS HAD TO SELL SECURITIES

LONDON, July 26.—In connection with the recent bid decline in consols and other gilt-edged securities, there has been some selling of high-grade stocks on the part of the Scotch banks, which has had a serious depressing influence, and which for some time caused severe anxiety and uneasiness on the part of those who noted it. The news did not become public property, perhaps fortunately, for it might have easily been misused for food. The trouble in the market, due to the steady dribbling of stock on to a body of dealers who are already overloaded with high-grade home securities, has led to a good deal of nervousness and depression, and it is well that the cause should be known for any trouble that existed is over.

## Must Build Navy Says Roosevelt

OYSTER BAY, N. Y., July 25.—(Can. Press.)—An attack on the Democratic majority in the house of representatives, for refusing to adopt the two battleship program, was made to-day by Col. Roosevelt. He declared that the upbuilding of the navy must go on if the United States is to maintain its position among the nations of the world.

## SLUGGISH TONE IN WALL STREET

Uncertain Moves in New York List—Sudden Collapse in General Electric—Trend is Upward.

NEW YORK, July 26.—The promise made out in yesterday's late rise on the stock exchange was hardly fulfilled to-day. While the tendency was again upward, the movement was sluggish, and for the most part uncertain as to indicate the existence of a formidable bear faction.

Optimism provoked by the General Electric stock dividend suffered a severe setback when that issue fell sharply to almost 7 points below the previous day's best price. Attempts to create a bullish sentiment out of the action of the General Electric directors evidently were futile, the episode being regarded as an isolated case, without direct bearing or significance upon the stock market as a whole. United States Steel rose to above yesterday's top figures early in the day, with other active stocks, but selling on the advance soon caused some reaction. The statement of the Steel Corporation for the second quarter of the current year is to be issued next Tuesday, and earnings for that period form the subject of some conjecture.

Local money conditions were unchanged except for greater ease in short time loans, and a hardening of rates for four to six months. Clearing house banks are again likely to gain considerable cash, and a further contraction of loans is probable.

## NEW ISSUES LISTED ON WALL STREET

New listings on the New York Stock Exchange in the six months ended June 30, amounted to \$1,059,000,885, which compared with \$784,270,310 in the similar period of 1911, and \$1,061,343,683 in 1910. Of the total listings \$888,607,150 were bonds, either common or preferred. The figures for the first six months of recent years follow:

1912	1911	1910
1911	1,059,000,885	784,270,310
1910	1,061,343,683	838,007,150

Freight Rates High in West Scott Hints at Reduction

Contention That Western Charges Are Much Above Those of the East Has Been Proven—It's Up to Railways To Justify Rates by October First.

CALGARY, Aug. 26—At the conclusion of the session of the railway commission when shippers from all parts of the west had presented petitions for reduction of railway rates, wholesale changes in railway tariffs were forecasted in the following statement by Chairman Scott:

Arnold Bennett, Tom Mann Writers for Sunday World

MONTREAL FEARS TIE-UP OF GRAIN

Lively Anxiety Felt That Huge New Elevator Will Not Be Ready for Rush.

MONTREAL, July 26—(Can. Press.)—Scarcely two months will elapse before the movement of the big grain crop will be in operation thru the port of Montreal, and there is a very real expressed now that the harbor commissioners' new grain elevator in time to receive grain from vessels which usually deliver at the harbor.

Child Drowned at St. Mary's. ST. MARY'S, Ont., July 26—(Can. Press.)—Tommy Furness, aged 4, was drowned this afternoon when he fell off the dam at the cement works into the Thames River. The body was recovered.

Blame London Dock Strike

No. 1 elevator is full to capacity, and twelve to fifteen boats laden with grain are lying in the harbor all the time. This is attributed to the London dock strike, from which cause is attributed the fact that there have been 26 vessels less, which have called here for grain to date this year than sailed here with grain cargoes last year.
