

Built to last a lifetime

The Old Piano

Is Probably Useless.

WHY KEEP IT?

There is many a home where the occupiers lull themselves into the idea that they have a piano, when, as a matter of fact, they are worse off than if they had none. We have in mind the home where there is a Square Piano that for long has been worthless musically, and that has merely been an unpleasant and useless encumbrance in the house. Homes that are so affected are wonderfully common, and almost unconsciously the dingy, time-worn, old Square Piano has a depressing effect upon the family. People have told us time and again that they could not adequately express their gladness at having disposed of an old piano and having taken a new one, for it had been a brightening and enlivening change for every member of the household.

If you have an old Square Piano or an old Organ or an old Upright that is past usefulness, we will take it in part payment of a new instrument, and allow you its full value. Give us your name and address, and we will make a valuation free of charge.

Why shouldn't you have a new instrument now? At no time of the year would it be appreciated more than the present, for the summer season is over, and there would be real delight for everybody if there were good music for the family. We will make you easy terms of payment if you wish.

There is a fine collection of slightly used pianos on the Second Floor Parlors to-day. There are some great bargains among them.

TENDENCY TO DIVORCE SCHOLARSHIP FROM PIETY

Chancellor Wallace Sympathizes With Efforts to Retain Trinity's Independence.

McMaster University Convocation was held last night in "Castle Hall," which was well filled with students and numerous friends. Rev. Geo. T. Webb of Toronto Junction opened the evening ceremonies with prayer. Chancellor Wallace said he wished to make formal acknowledgment to the Senate and Faculty of McMaster University for having enabled him to rest from his work for a year, and referred briefly to the increased enrollment of students at all the colleges, and particularly in arts.

During the awarding of prizes and scholarships each lucky student was cheered to the echo by his comrades as he received his laurels. The scholarships were awarded as follows: The Crawford scholarship to D. C. McDermott, 1st; A. Huddleston, 2nd, presented by Dr. Tracey; Shenson scholarship to Dr. Farmer; Harry L. Stark scholarship, 2nd year, mathematics, A. D. Farmer, presented by the donor; Campbell scholarship in Greek, 2nd year, Joseph Jones, presented by Prof. Wilson Smith; Anderson scholarship in mathematics, D. Buchanan, presented by the donor; Freeman Elmore Harris scholarship in Latin, R. C. Benson, who also won the same in Greek; the Freshfield scholarship in French, E. A. St. James, presented by Prof. Clark; the Kyrie scholarship in German, D. Edwards, presented by Prof. Clark.

Chancellor Wallace, in his address, said that the university question was a religious question. There were never greater requirements for the university than at the present time. Progress and research had made it absolutely necessary to have all the most modern appliances, and the cost of all this cost a great amount of money.

If young men were required to pay for all the education they received, some of the purest and best minds would be lost to the country, and so they were greatly indebted to those whose philanthropic efforts had made it possible for young minds of the country to receive proper development.

Concerning Trinity's Course.

Academic relations had also been a great question, raising controversy in the past. A great agitation relating to a university in this community had been in progress and now they were longer and longer being held back. This question had not been mooted in their councils, but the fathers were significant, being the decision long ago arrived at that McMaster should be an independent university, pursuing the religious course. It was recognized as justified by history. As far back as the middle ages universities were established for religious teaching. Walking through Oxford one was struck by the same feeling, even the names of the different colleges were significant, being generally called after saints. At Cambridge, at Glasgow and Aberdeen were the same. It was a religious fervor that had been established.

The same dominant factor prevailed in the Maritime Provinces, the University of Acadia, being one of the fathers "The Child of Providence." Queen's Victoria and the Western College all were on the same line. Trinity had also been established as a protest against the irreligious tendency of old King's College.

Teach the Young "How."

At the present time all those who are engaged in the teaching of education know that there were four dominant factors—education, discovery, learning and learning how. People should be taught to learn, not to be taught. So advanced had science become that besides the multiplied products of the industrial world, across the Atlantic in Oxford and Cambridge a great upheaval was taking place, new modes were being established to meet new conditions. Still the old conception of education was the only one in so far as it tended not so much to the teaching of "how," not the teaching of science, but the lifting of man to a higher plane of being.

The Chancellor observed that this was an age of reckless conservatism and an age of reckless radicalism. The conservatism was opposed to the cause of progressiveness. There was a tendency on this continent to divorce scholarship from piety, and to separate the religious from the secular, by expressing the hope that the students of McMaster would uphold the faith, the college and their great university as they went forth into various fields of labor.

ANOTHER WOMAN ARRESTED PILFERING IN BIG STORES

Margaret Griffith of 100 Church St., Had Assortment Both Numerous and Costly.

The arrest of Margaret Griffith, a middle-aged woman, for shop-lifting in the department stores yesterday afternoon, has caused considerable comment among the police at the prevalence of this sort of crime. This is the third or fourth arrest in the last two months. These large stores, with their vast thousands of dollars worth of stock scattered around are an attraction for the woman whose purse will not permit her to obtain what her spirit craves for, and hundreds of dollars worth of goods disappear without a clue to the thief.

The habit, it is stated, is not alone confined to females. Men have frequently been arrested in Toronto for visiting the large emporium, and by means of pockets specially made, contrived to carry away large quantities of miscellaneous articles. One piano box, and a number of other articles, were found to have been carried on systematic pilfering for two or three months. The man was arrested a month ago it was stated, and was a crook, the three women and a man, came from the States with the intention of looking up a big downtown store. Their system was cleverly planned and had it not so happened that the man's number was arrested for another offence, it is more than likely they would have been successful in their original design.

It is not always the poor individual either who is tempted to rob in this way, so the detective force has a frequent recourse to the store detective to catch womenfurtively concealing articles of apparel and other goods, who could not afford to buy them. In these instances the managers have the person taken to a room, made to disrobe, and a waiting given not to return to the store under penalty of being arrested.

The variety and nature of the articles taken often puzzles the proprietors and police as to the reasons of the theft. In past cases it has been a woman of the offenders that would stock a small-sized store. Many of those who were arrested had an intention of selling the goods, and certainly did not expect to utilize them. This sort of person is thought to have a mania for pilfering, and is a very different matter to cure. There are the other kind, nevertheless, who ply their nefarious occupation from widely different motives.

They do not ready to quit the store and pilfering, but they are pilfering, the woman arrested yesterday had on her person, concealed in various parts of her clothing, three silver watches, a gold bracelet, one silver brooch, seven neck collars, seven combs, two bottles perfume and a roll of silver fabric, valued at \$100. She was locked up at No. 100 Church-street and will appear in the Police Court this morning.

SPECIAL FROM KINGSTON, N.B.

Kingston, N.B., Oct. 9.—Mr. Robert Kennedy, who has been very ill with influenza, is quite well again, having used Catarthozone. He says: "I have used without Catarthozone for the world. In cold in the head, coughs and grippe it is indispensable. It is so pleasant and convenient, it can be taken at any time, and it is a relief to the throat and colds by Catarthozone. It is having a big sale here in all the drug stores."

Canada and Empire League.

The Canada and Empire League, is the newest patriotic organization. Its objects are to inculcate a spirit of patriotism and loyalty to "Canada first" and the empire, to which we belong. It is a general organization, and are A. H. McConnell, R. W. J. Owens, J. Davis and W. H. Smith, and their motto is the broadened one above mentioned. A stipula representing a maple leaf with a lion and banner shows thereon will be the emblem of the league. Membership is open to every true Canadian, and it is open to have the league number its adherents by thousands before the year is gone. Not three links, but two links, is the watchword.

CENTRAL LOCATION FOR LIBRARY.

Editor World: From time to time there has been a good deal said, both thru the press and in conversation privately, with regard to the best location for the new library building. I cannot understand there being any question of placing this building anywhere except in the central business part of the city, such as near the City Hall or the corner of Yonge and Queen-streets, where the thousands of men and women who are employed in the offices, stores and other business places, pass on their way to and from work and for shopping, etc. It appears to me that this central location would be the best for all patrons of the library, both the working and the leisure classes, and I think that the working people who patronize the library more than any other class should receive the most consideration in the matter of its location. If it were centrally located, as above indicated, they could change their books on their way to and from work and at noon, without the expenditure of extra time or money in car fare, which would be necessary if it was placed on any of the other sites proposed. College-street, University-avenue, Queen's Park, or the old Upper Canada College grounds, as only the people in those immediate vicinities could change books without making a special car trip there. At the corner of Queen and Yonge-streets all the principal car lines in the city meet, and the people transfer there for different sections, and could often change books while waiting for cars. In giving the money for building a library Mr. Carnegie doubtless intended to benefit the working people, who cannot provide themselves with libraries, and who yet can appreciate the advantage of being able to obtain books and magazines, rather than the wealthy class, who, in most cities, have libraries of their own, or at least can provide themselves with literature.

GREAT SPECIAL AUCTION SALE

OF

One Hundred British Columbia Ranch Bred Horses

The property of G. H. HADWEN, ESQ., of Dundas-station, N.B., is

Wednesday Next

October 14th

At 10.30 Sharp.

By instructions from Mr. Hadwen the valuable consignment of harness and saddles will be sold without the slightest reserve, all excellent patterns, and in better condition than any previous consignment, and will mature from year to year to eleven hundred.

They are bred on the well-known ranch of the Hon. C. A. Seale, ex-Premier of Ontario, and are bred on the best of Cleveland bay stallions, and has been selling regularly to the British Columbia Coast, doing 300 miles by road on the Continent, doing 200 miles by rail on the Coast, and are in the best of condition. They have not had a bad one and are better tempered, easier to break and harder than any horses in the west.

These horses have arrived, and will be sold on the above date without fail.

FIFTY MEN WERE IN PERIL.

300 Tons of Steel Girders Fell 20 Minutes After Work Ceased.

A commercial traveler who arrived in the city last night from the north, reports what might easily have proved a horrible accident, that occurred at the railway buildings at present under construction, and over 300 tons of massive steel girders crashed thru to the ground, leaving a mass of twisted iron, twisted and damaged extensively. The contract was originally let to the Munro Construction Company of Chicago, and the work of installing the girders was sub-let to the Lachine Bridge Company.

At the Star.

James Hyde, whose little ribbon girls were the next week's attraction at the Star, has made a commendable effort to subject a few original directions to the performers. Among the novel features will be "The Female Minstrel." Eighteen of this specialty, while Pearl Bradburn acts as "interlocutor." The musical numbers are led by Marie Russell, while two merry maids, Dot and Daisy Lyle, hold down the ends. All the girls first make their appearance in evening dress and give the introductory routine. Then in full view of the audience, they black up and present a highly amusing minstrel first act. Another twenty minutes after the gang of fifty of 14 pretty girls in fancy costumes. An unusually bright bouquet is offered by the company in "The Sultan of Egypt Morocco."

COSTS TEN CENTS TO BE A SENATOR

And Six Cents to Be Member of Lower House in Virginia.

Richmond, Va., Oct. 9.—To become a member of the House of Delegates for six cents and a Senator for 10 cents is very remarkable in Virginia. But such is the case, as is shown by the statements just filed by Tellefero J. R. Canon of Alexandria and Senator Harry Walker of Northumberland. Mr. Canon spent the six cents while Mr. Walker's bill was 10 cents.

This is due to the Barksdale Pure Election law, which forbids the expenditure of any money in elections with the intent to secure votes, under penalty of a heavy fine or imprisonment, or both.

HUGH BELL'S VIEW.

London, Oct. 9.—Hugh Bell, managing director of the large firm of Bell Bros., Middleborough, speaking on the future of the British iron trade in connection with the American trusts, said that so far as his experience went Mr. Chamberlain had not a single item of information to justify the opinion that he had formed. Similar forecasts of ruin of the iron trade had been current for three centuries.

OVER STUDY.

Children Don't Break Down When Fed Night.

It is often the case that when children break down at school it is attributed to overstudy, when it is really only a case of improper feeding.

This can easily be overcome by a little care in the selection of food and drink. Since childhood should have been a coffee drinker and about a year ago became so nervous and run down that it was compelled to leave school and give up studying altogether.

"Everyone thought my ill health was due to overstudy, but during several months of rest my condition did not improve but instead I grew worse. Doctors failed to help me and I was sick and miserable all the time. One day a friend, while discussing my condition, advised me to leave off coffee and try Postum. It was not long before I began to gain strength. Postum began to build me up almost immediately. In less than three months from the time I left off coffee and used Postum I was back again at my studies and was soon studying harder than ever before, and yet I felt and looked fresh and strong in spite of the hard work. There can be no doubt in the world that all this improvement was due to leaving off coffee and drinking Postum in its place."

"My married sister, hearing what Postum did for me, thought she would try it. But in making it she did not follow directions and got a weak and characteristically drink from which she and her family turned in despair. I took it was shortly after this I visited her and made Postum as directed on the package, which is easy enough, and she was so delighted they said they liked it better than coffee. Since then Postum has held a high place in my sister's household and her health is very much better since she left off coffee and began Postum."

"A schoolmate of mine whose complexion was very sallow and muddy saw what Postum did for me and decided to drink it in place of coffee, and it was but a short time until she began to gain strength and her complexion lost its sallow hue. Now she says she will never drink any more coffee but will stick to Postum."

"This young lady also writes of numerous other relatives and friends whose health, appearance and weight have been very much benefited by leaving off coffee and drinking Postum. The food drink. All names given by Postum Company, Battle Creek, Mich.

Look in each package for a copy of the famous little book, "The Road to Wellville."

FLOODS IN NEW YORK.

Passengers From Ferry Waded in Water Up to Knees.

New York, Oct. 9.—After 24 hours of rain New York City and vicinity suffered to-day from severe floods. Six and 24-100 inches of rain had fallen in 24 hours. Trolley lines and railroads were either crippled or delayed, and a conduit containing 70 telegraph wires was so flooded as to disable all the wires. A heavy flood in the East River damaged several public houses, and a freight yard was covered by 12 feet of water. From all parts of the city came reports that floodwaters had been driven into basements and gutters. The water was two feet deep in South-street at the New York Hotel, the Fulton-street Brooklyn ferry. Passengers arriving on the ferry boats waded thru the water up to their knees.

BULLS IN A CHINA SHOP.

Seared by Auto, They Escape From Farmer and Smash Things.

New York, Oct. 9.—Frank Watson, a farmer of Union Hill, N.Y., was driving two cows down the Hudson County boulevard to-day. Along came an automobile which irritated them. The bulls started off. At the corner of the boulevard and Grand-street they encountered the China shop of Henry Schmitz. One of them entered thru the window, the other thru the door. The bulls went wildly out of the rear window. Mr. Schmitz was at the front window, and the bulls came in. He went out the hole they made. The bulls worked as hard as they could to get into the shop. When they got thru with the establishment of Henry Schmitz all that was left of it was a pile of rubble. The bulls calumny, glassware, crockery of various sorts were scattered all over the place.

It was hard work to get the bulls out of the China shop. They appeared to like it. They were fed and watered. After they were released by policemen and volunteers, Mr. Schmitz was taken to the hospital, and a number of others, who are seriously ill of carouseness and had him arrested.

AN INSOLENT PROPOSAL

The New York Herald is guilty of gross impudence in its suggestion that Canada should be used as a tool to thwart Hon. Joseph Chamberlain's preferential trade policy.

Mr. Chamberlain's Glasgow speech convinces The Herald of a number of things. The Herald is convinced that the wicked tariff fence that has been erected along the Canadian frontier should be pulled down, that free interchange of commodities between Canada and the United States would be as beneficial as similar interchange between two states, and that Canada desires the demolition of the tariff wall as ardently as the republic.

Singularly enough these thoughts did not occur to The New York Herald until it recognized the dangerous possibilities of Mr. Chamberlain's preferential trade scheme. The Herald reveals the cause of its sudden awakening in the statement that:

"With Canada the greatest of the colonies excluded from Mr. Chamberlain's proposed solvency that profited with its discrimination against American products would not be worth further discussion."

In the days when Canada had less prosperity and less wisdom than she has now, the commercial good will of the United States was widely believed to be the only key to a prosperous future. Acting on that theory, we went to Washington with our hats in our hands. We asked for bread and we got a stone.

The New York Herald is not a record as representing the crude courtesy which greeted Canadian delegations on their reciprocity missions. There was no demand from the American press in those days that the wicked tariff wall should be reduced, no sermonizing about the mutual desirability of an interchange of commodities between the two countries.

But now The New York Herald seems to think that it would be the most natural thing in the world for Canada to enter into a commercial conspiracy with the United States to prevent the solvency which Mr. Chamberlain has in view. We are to forget the fact that the United States has used every tariff expedient that it could devise to ruin our commercial, industrial and agricultural interests. We are to ignore the sense of sentiment and obligation, and cooperate with Washington in an assault on the proposed scheme for a solvency.

The New York Herald does not understand the sentiment of this country, or it credits us with a very poor memory. Canada is far from contented with her interests would be served by a reciprocity treaty with the United States. But even if Canadians were as certain as The New York Herald pretends to be, that the free interchange of commodities would be mutually beneficial, they would treat with contempt an invitation to go gunning for Mr. Chamberlain's preferential trade scheme in company with Uncle Sam.

CANADA MISREPRESENTED

A. B. Aylesworth, K.C., is a lawyer of high attainments and he has undoubtedly been a loyal representative of Canada in the Alaskan boundary arbitration.

It is to be regretted that Mr. Aylesworth has not confined his ability and energy, all of which were needed in promoting Canada's claims in Alaska, instead of rushing into print with his views on preferential trade. Mr. Chamberlain, according to Mr. Aylesworth, is promoting a fad. Canada, according to the same authority, is satisfied with things as they are, and Britain alone cares about Mr. Chamberlain's plans.

By whom was Mr. Aylesworth delegated the right to speak for Canada in regard to Mr. Chamberlain and the cause which he promotes? Mr. Aylesworth has not kept himself in very close touch with Canadian public opinion or he would know that Mr. Chamberlain's policy is engaging the earnest attention of the people of Canada to-day. The preferential trade scheme is not a question for Britain alone. It is a question for the empire, and the Canadian people view it in this light.

Mr. Aylesworth goes further than the most bitter enemy of Mr. Chamberlain when he refers to imperial preferential trade as a fad. The statement is silly and might be altogether ignored if Mr. Aylesworth's official position had not given his utterances an importance which they do not deserve. Why Mr. Chamberlain should be classed as a faddist is not clear. It must be that Mr. Aylesworth cannot conceive of anyone but a faddist sacrificing public office on the altar of his patriotic convictions.

BOON FOR OUR LIVE STOCK TRADE

Preferential trade as outlined by Hon. Joseph Chamberlain would be a great boon to the live stock industry of Canada.

Great Britain imported in 1902, 419,500 live cattle, of which Canada supplied 93,674 and the United States 233,227.

Canada supplied 55,063 live sheep and the United States supplied 233,227. Out of a total importation of 16,519,000 cwts. of dead meat in 1902, 3,094,600 cwts. came from the British possessions of Australasia and Canada, while 13,424,400 cwts. came from foreign countries.

It is absurd to argue that a preferential tariff would increase the price of these articles of food to the consumer. Official returns, prepared by the British Board of Trade, for the expired eight months of this year, show that 186,766 live cattle were imported from the United States, while 123,827 were imported from Canada. Compare this with corresponding period last year, when 221,188 live cattle were imported from the United States and 50,987 from Canada.

This is an amazing change in eight months. It is true that a large number of Chicago cattle were shipped this year via Canada, and last year a large number of Canadian cattle were shipped via United States ports. The United States supplied 96,969 live sheep, while Canada supplied 40,904, a decrease of 73,000 from the United States, and an increase of 17,000 from Canada. These figures show clearly that in the live stock trade Canada is rapidly improving her position.

The most important question to be answered is can the colonies of the empire meet this demand? That the provinces of Ontario, Manitoba and Alberta can furnish a much larger quantity of cattle during the coming twelve months we are assured, and the trade is growing rapidly.

In Ontario also the number of sheep and hogs will be larger. The farmers throughout Quebec and the Maritime Provinces will be striving up to increase their herds and flocks.

The tax of 5 per cent. on all animals and meats, excepting bacon, entering the ports of Great Britain, will really amount to 10 per cent. The farmers of the United States, Argentina, Russia, and Holland will have to suffer, because the 5 per cent. is levied after drovers' commission, railway freight, insurance, feed and ocean freight has been paid. All foreign countries raising a surplus of live stock, either alive or in the form of meats must compete with Great Britain, for their excess over home consumption. They can only obtain the ruling market price after having paid the 5 per cent. therefore, Great Britain and Ireland, together with Canada and Australasia, will largely benefit, wholly at the expense of foreign competitors.

It will now be impressed upon the farmers of Ontario and the west, who neglect the Dominion and Ontario governments have been in not fostering the dead meat industry. We should be in a position to fill the gap in that branch of the trade. We are doing well in bacon and hams, but in the best trade we are away behind.

an ambition, constant the concealed. All this has been changed by the prudence and still more by the prudence and strength of the republican movement. A new France rose from the wreck and ruin of 1870. It has been a marvelous resurrection, and if she no longer occupies the exclusive preeminence for which she strove, she has regained the place which rightfully belongs to her in the concert of Europe.

The supreme effort France has made, with such constancy and integrity of purpose, has not been without marked influence on the British people. It has been fortified by the great volume of trade which finds its highway across the English Channel. The United Kingdom is the republic's best customer. Commercial relations are close and intimate, and conducted on the basis of mutual esteem and confidence.

With Fashoda in all probability passed away, the last critical stage in the political history of the two nations. Events are so shaping as to designate with some amount of clear definition the respective possessions and spheres of influence of the ancient rivals, and the time seems ripe for the final adoption of arbitration as a permanent principle in future international relations.

Two of the nations of the empire are specially interested in this rapprochement—Scotland and Canada. Generations have indeed passed since the ancient alliance between France and Scotland came to an end with the Union of the Crowns, but it still survives in the hearts of the peoples. Neither has forgotten the days when Scottish blood was freely spilt in the cause of France, and no one would wonder that the ruined abbeys and chapels of Scotland without ever and again stumbling across a name that recalls the glories of the Fleur-de-Lys. Of recent years, the friendship of these ancient intimates has been greatly revived and yearly intensifies.

There is a sign of the times, and has led to many interesting records being recovered relating to the days when the chief bond of union was the common hatred of England. Canada, too, so busily engaged in welding her British and French peoples into one common citizenship, will welcome a treaty which favors perpetual peace between the joint founders of the fabric of her state, and which will so greatly aid her in her patriotic task. Greater cause of satisfaction than all is the fact that this treaty marks a further step toward the realization of the plan of the great statesman, who in the United States Senate, might long ago have been taken by the two English-speaking nations. Canada, however, will not regret that the honor has fallen to the two nations from whom her people have sprung, and whose history will be to her a lasting inspiration.

Hon. J. Samuel Tarte is a fighter who does not propose to impair his mobility by giving up his private car.

Sir Wilfrid Laurier may now relegate his medal to the heap of reverend antiquities that includes his Saskatchewan museum.

An evening contemporary will soon be observing that this is the day of Mr. Robert Jaffray's eulogy on the Senate.

It remains to be seen if Seymour Courley, M.P., will ratify the compromise on the Alaskan boundary dispute or take to the trenches.

Hon. G. W. Ross has a delicate way of doing things, and he is appealing to Sault Ste. Marie with the simple intonation: "Who paid your wages?"

Trustee Scott evidently has the notion that a third public school inspector is necessary to arbitrate differences between Inspectors Hughes and Chapman.

The fire insurance companies appear to be giving Ottawa no end of trouble. How is it that Maj. Maude does not instruct them as instructed ex-Mayor Morris, to behave themselves?

Hon. Alfred Lyttelton is a great athlete and London correspondents of American newspapers will soon be cabling that His Honor entered upon his official duties feeling as hard as nails, and as fresh as paint.

The Dominion government is handing out \$12,000,000 in general railway subsidies just to show the country that it did not go dead broke on the disbursement of a hundred millions to the Grand Trunk Pacific.

Sir Charles Rivers Wilson sees no signs of the approach of hard times in Canada. This cheerful optimism is all the more extraordinary when it is remembered that Sir Charles speaks on behalf of Mr. G. T. Pacific, who has only \$100,000,000 to keep the wolf from the door.

MUNRO TO ESLER. Editor World: In your issue of the 5th inst. Rev. Mr. Esler of Cooke's Church is reported as saying that "Mrs. Eddy is a modern Jezebel, possessed of marvellous power, which she uses to seduce Christians," etc. If critics would study the current history of their time they would know that Mrs. Eddy is one of the greatest of the world's best and most beneficent benefactors of the last and present century, a radiant star, a wonderful intellectual, a tremendous power for universal good, whom the whole community respects, appreciates, holds in evident reverence and high esteem.

Current biography has already given to her work and worth the prominent mention which their merits demand in the annals of advanced civilization, and her niche of fame in the cloister of the world's best and most beneficent benefactors of the last and present century, a radiant star, a wonderful intellectual, a tremendous power for universal good, whom the whole community respects, appreciates, holds in evident reverence and high esteem.

POLITICAL NOTES.

There was an air of secrecy about the appointment of Thomas Mulvey, K.C., to the Assistant Provincial Secretaryship. The World was able to say yesterday that Mr. Mulvey had been appointed, no positive confirmation of the report could be got from any of the Ministers.

Mr. Mulvey himself, Premier Ross gave out to all the press that Robert Fairbairn had been appointed chief provincial engineer in the place of Robert McCallum, who resigned to accept the post of City Architect, and he was good enough to say also that Mr. Segmiller had been named as mining lands agent somewhere; then the party organs were given the lie to hang around till later for the announcement concerning the Assistant Provincial Secretaryship.

The World asked two or three Ministers if Mr. Mulvey had been appointed, but they did not know, although they attended the Council meeting. Mr. Mulvey himself was approached on the subject. He smiled audibly, but said he didn't know. The fact is that it was just as important for the people to know about the disposition of this office as that of the Provincial Engineer. Yet some confidential information was withheld and The World was under the necessity of saying that there was no official announcement, although the choice had been made.

The new Assistant Provincial Secretary is a native of Toronto. He graduated from Toronto University in 1881, being a gold medalist in physics, in which department he held the fellowship for two years after graduation. He is also a graduate of St. Michael's College. Mr. Mulvey has been especially prominent in admiralty litigation and has had an extensive commercial practice.

Oshawa is talking about what looks like a bit of a scandal in connection with the purchase of a site for the new postoffice. The postoffice department secured an option on a desirable corner lot owned by Thomas Michie, the price being \$2500. But the option ran out on the day before the supplementary estimates were brought down, and it is reported that a telegram came from William Ross, M.P., to some of the members on the inside that \$8000 would be offered for the purchase of the site and the beginning of the work of construction. Michael Finnegan, who now has the privilege of turning it over to the government for the sum of \$4500, is an Oshawa Conservative, and he had the property offered to him at \$2000, but considered it far too dear at the price.

It is within the range of probability that Robert Rossell Gamey, M.L.A., may be invited to give a platform address in one of the large halls of Toronto within the next few weeks. Some of his political friends have requested him to fix a date for such a meeting, but he has not shown any engagement that he has not been able to find the time until the by-elections are over. The flattering receptions that have followed his "Man from Manitoulin" wherever he has spoken have led his friends to believe that a Gamey demonstration in Toronto would be a success.

Several Conservatives have spoken to The World along this line. "Why shouldn't Gamey be asked to tell his story to the people of Toronto?" one said. "This man carries conviction, and he has been heard too seldom. Why not hire a hall, or two or three, if necessary, and there will be no trouble about filling them. I have \$5 to assist in defraying the expense of a Gamey demonstration." Political.

The Seafarer Expositor (Liberal) says: "The announcement is officially made that the government have fixed the dates for the Ontario by-elections in the 800 and Muskoka. The date set is Tuesday, Oct. 27. Tuesday has always been a generally lucky day for the Ontario government. They have not yet fixed the date for the North Renfrew election. This is to be regretted. North Renfrew has been much longer vacant than the other constituencies; in fact, it has not had a representative during its legislative term, and treating it exceptionally, as they are doing, indicates uncertainty and fear, and is likely to do the government ten times more harm than any good they can get by the delay. However, they ought to know their own business best. The fate of the government for the next three years depends very largely on the result of these by-elections. There will, therefore, be a hot and desperate fight. At the last election the Conservative was elected in the 800 by about two hundred of a majority, and the Reform was elected in Muskoka by the less than a hundred. In this latter constituency every both the candidates are doctors, and the Conservative was defeated at the last general election, while in the 800 both candidates are the same man before. It is, therefore, a pretty even battle all round, with not much odds on either side."

TALKED THEM TO IT. Sam Graham in Oshawa (Vindicator): On Tuesday John Lawrence Smith, near Corbett's Point, went to Ottawa at his own expense, and won a victory over the Grand Trunk Railway. The crossing over the Grand Trunk on the sideline leading from the base line to Corbett's Point is a fatally dangerous one, and to the peril of Mrs. Smith and others the Grand Trunk people turned a deaf ear. Larry Smith made up his mind to go to Ottawa and fight the matter out before the Railway Committee of the Privy Council, and has done so several times. This time he asked that the government have the law carried out, and put up such a vigorous fight that the batch of lawyers representing the Grand Trunk were floored. The committee not only ordered that a watchman be placed at the crossing in question, but also declared that any further trouble Mr. Smith was put to would have to be paid for by the Grand Trunk. Good man, Larry!

WITNESSES COULDN'T ATTEND. Editor World: I have noticed an article in your issue of the 5th inst. entitled "Charged with Police Officer Tatling." This article is misleading and does me considerable injury. I complain: (1) That I laid no charge against the policeman in any way whatever. The charge was laid by another person, and in no sense was I a witness of connection with the investigation of this constable's conduct before the chief of police; (2) that the "Crows" was not interested in the case and had no witnesses; (3) that I informed that the chief of police refused to say that the constable was honorably discharged, but merely declined to use his words; "that the case fell to the ground." The reason for this result was that the complainant's witnesses could not be compelled to attend and did not attend, nor could any witnesses be put on oath in such investigation. You will see that your article is erroneous, and in so far as it uses my name, casts a reflection on me which is unwarranted. In justice to me and I am sure you will record it, I ask that you publish this letter.

LEAGUE OF MUNICIPALITIES. Baltimore, Oct. 9.—At the closing session of the convention of the League of American Municipalities, J. H. McCarthy, alderman, of Winnipeg, Manitoba, read an address on "The Operation of a Municipal Asphalt Plant," which was to have been delivered by Mayor John Arbuthnot of Winnipeg, who was unavoidably absent.

NEW MINISTERS SWORN IN.

But Duke of Devonshire and Arnold Forster Were Absent. London, Oct. 9.—The new cabinet Ministers have assumed their duties, the seals of office having been exchanged at a Privy Council meeting held by King Edward at Buckingham Palace this morning. All the retiring officials, and their successors were present, with the exception of the Duke of Devonshire, the late Lord President of the Council, and Mr. Arnold Forster, the new War Secretary. The latter was subsequently received in private audience by the King.

NOW IS THE TIME

To use Dr. Agnew's Catarrhal Powder. It is an antiseptic, healing dressing, applied directly to the diseased surface by the patient himself, who blows the powder through a tube into the nostrils. The cure dates from the first puff.

You needn't suffer from colds or hay fever if you have the catarrhal powder in the house. Cures a headache in ten minutes.

Rev. J. L. MURDOCK writes "I have used Dr. Agnew's Catarrhal Powder for the last two months and am now completely cured of Catarrh of the nostrils. The cure dates from the first application. The first application benefited me within five minutes."

SIR WILFRID SLATED

His Comment on Chamberlain's Campaign

London, Oct. 9.—(C.A.P.)—Referring to Sir Wilfrid Laurier's report to Mr. Monck, in the Canadian House of Commons, saying that he understood that Mr. Chamberlain was making an argument, not a statement, the over-optimistic Westminster Gazette says: "Sir Wilfrid's explanation neatly supplements the words of the mad hatter in a cartoon of today. The Gazette says the mad hatter contends that 'proof will be found in argument, not in figures. I use figures as illustrations to show what argument is.' Argument is everything to Mr. Chamberlain, but nothing to Sir Wilfrid Laurier, who, we suppose, attaches more importance to illustrations and figures."

33 Years in Prison

New York, Oct. 9.—(C.A.P.)—A man, 42 years old, who pleaded guilty Wednesday to four indictments, charging him with robbery, and one charging him with carrying a dangerous weapon, was sentenced today by Recorder Goff to thirty-three years in Sing Sing Prison, 15 years on one robbery, and 14 years on one carrying a dangerous weapon.

PIERCE CHARGE ON LARDER BY HONORABLE APPETITES

Six Hundred Strong Army Attacks and Captures a Fortress of Viands

New York, Oct. 9.—The Journal says: Sherry has never witnessed such a charge as last night, when the Honorable Artillery Company of London and the Ancient and Honorable Artillery Company of Boston, assisted by the Washington Minute Men, the Newport and Bristol Artillery and the First Light Infantry of Providence, descended upon and captured his larder...

600 Strong They Charged. Six hundred strong were in the engagement, including Sir Thomas Lipton and Mayor Low, who were the only participants not in uniform. The tables were arranged in the form of 50 British squares. Just how many Waterbury were used is not known, but the outlook was gloomy at midnight. Back and forth and back again, the battle, while numerous, was not decided. Occasional variations were rendered by the various bands. Variations which were punctuated with vociferous applause and salvos of hand-voiced brass instruments. Major Briggs, on the veranda line, set a flag of truce and welcomed the victors.

GERIE SAW A BURGLAR.

She Screamed and He Anticipated Before He Could Arrive.

When Gerie Fox looked out of her bedroom door last night she almost fainted at the sight of a tall dark man standing in the upper hallway of the house, illuminated only by the light of the electric lamp at the corner of Casimir and St. Patrick-streets. John Fox, her father, was attending the District Trades and Labor Council. Not expecting the intruder until late hour his wife put the children to bed early and followed herself about 8.30 p.m. Gerie was out on the street with some girl friends and when she returned did not lock the door, as she did not know whether her father had a late key or not. She went to bed and was about falling off to sleep when she heard whispering downstairs. Talking her father had brought some friend home and was going down stairs. She saw that tall figure in the hall. Then she screamed. The shadow seemed to go away like a duck and her mother was in the room the next minute inquiring what go downstairs in fear that they should meet the tall man. Father's apartment was passing that vicinity and rushed to the scene of the flight. He arrived soon after a couple of minutes. Ordering them to stand back he saw the intruder. He saw no one in the lane and was on the point of entering the house thru the window when the burglar fled. He was chased half way down the lane before they realized their mistake. No person was seen in the lane, and the intruder had gone far into the distance. Mrs. Fox told her husband that nothing was missing to her knowledge. The burglar, for Gerie is convinced she heard whispering downstairs, and she had seen the man run down the lane towards Hickory-street, down that short thoroughfare, only about 100 feet, and scale the 8-ft. board fence surrounding the grounds of Casimir Gzowski.

Volcanic Eruptions on Hawaii

Volcanic eruption in Hawaii, Mauna Loa, the great volcano on the island of Hawaii is vomiting streams of lava, and is one of indescribable splendor. Tourists are taking the opportunity of viewing it from the surrounding hills. Indoubtedly many Canadians will take advantage of the excursion being run by the Grand Trunk. The four month tickets only cost \$27.50. Last May Mauna Loa became active and continued in eruption for some time. The first falling of lava from San Francisco will be Oct. 24th, Newcomer Oct. 25th. For further information and tickets call at City Ticket Office, Northwest Corner King and Yonge streets.

Feed Hatch's Purchase

Whitey, Oct. 9.—Feed Hatch has bought the controlling interest in the Martin Manufacturing Company and will give up his engineering business. Mr. Martin will move to New York.

ACCIDENTAL?

The jury returned a verdict of accidental death on the man who fell from the window ledge on which he had fallen asleep. But the death was really due to carelessness. The details of the case are as follows: The man, whose name is not given, was a great many lives suddenly terminated as a result of carelessness, although the medical certificate may read "heart failure." When a man takes chances with his stomach and neglects the warning symptoms of disease, he is carelessly inviting calamity. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of food, which makes strength. It stimulates the liver, cures biliousness, and removes bilious impurities from the blood.

It had been troubled with a pain in lower part of my stomach for three years, so severe I thought I would die. I wrote to Dr. A. Van Dam, of Kensington, 240 10th St., Chicago, Ill. I could hardly work. I felt a big weight hanging on me and got so bad that I had to take medicine. I used Stomach Bitters for a time, but it did no good. I wrote to Dr. R. V. Pierce for advice, which he gave me immediately. I followed his directions and used two bottles of his medicine and was cured. I had a terrible liver which was troubling me instead of a trifle. I thought, so Dr. Pierce told me. I have pleasure in living now; have gained weight 15 pounds since then. Dr. Pierce's Pleasant Pellets cure constipation. They do not bog the pill habit.

ALLEGED LUNATIC ARGUES OWN CASE

And Justice Street is Daily Impressed—Land Sale Dispute.

In the Court of Appeal certain lands in the possession of the Consolidated Lake Superior Company are the subject of an action which will take some considerable trouble to solve. The company bought the lands in question from E. Clergue, brother of Francis Clergue, who bought them from Mrs. Murray, wife of the proprietor of the Vendome Hotel, Winnipeg, through the agency of Nelson, McLeod & Sault Ste. Marie. At a former trial the court decided that the sale by Simpson was invalid, as he had no authority from Mr. Murray. Simpson is appealing from this decision. Simpson sold the land in dispute, consisting of 67 acres, for \$855.

Before Chancellor Boyd, the case of Mary Archer against the Society of the Sacred Heart of Jesus of London, was argued at length. Miss Archer was awarded \$800 by the jury for wages and damages for incarceration in a Quebec asylum, certain questions of law being reserved, the chief one being whether the defendant whose headquarters is in Paris, France, could be sued in Ontario. Crown Attorney MeGee of London appears for the society, and Mr. Betts, K.C., for Miss Archer. Mr. Justice Street handed out judgment in the case of Mrs. Fisher for alimony against her husband, Joseph Falvey of Deer Park. Mr. Falvey has been ordered to pay \$12 a month alimony and costs. Before Mr. Justice Street, a petition was heard from three sons and three daughters who asked to have their father, Henry Thomas of Haliburton, declared a lunatic. Mr. Thomas appeared himself at Osgoode Hall and opposed the petition claiming that he was quite sane and capable of managing his own affairs. He admitted that he had been expecting to sell his farm for seventeen years. The judge also asked the defendants to give their father, Henry Thomas of Haliburton, a good name, as well as legal experience, and he could not see why he could not fill the position. "It is a family affair," he said, "I have taken care of my wife and family after twenty-five years of abuse." Affidavits were filed by Drs. A. W. White of Kingston and G. H. of Haliburton, showing that Thomas was a dangerous lunatic. The judge, however, in his decision, seemed rather sane and reserved judgment.

ROWE MUST GO BACK.

Unless His Counsel's Appeal to Higher Court Succeeds.

There is no likelihood that the silence of Anthony Rowe will avail him anything. Yesterday in court he again declined to recognize Thomas Smith, the Londoner who came across to claim the prisoner's identity. Smith was the only witness, and his part was a formal identification before the magistrate. The documents in the case were voluminous, including the original warrant granted Gaultier in application of Allen Gilbert Bartholomew of the Berwick Moring Company for the apprehension of Rowe for theft of three cheques of \$2125, \$4000, 3 sd, and \$2022 1/2 id. Rowe, it was said, had absconded and been missing from their office since December of last year. The cheques are alleged to have been taken while being transferred from one bank account to another. The total defalcations are still placed at \$750,000. Mr. Geoffrey of Robinson & Geoffrey gave notice that a writ of habeas corpus would be applied for to a higher court, being virtually an appeal from the magistrate's order, by which Rowe will, on Tuesday next, be formally committed on three charges—murder, robbery and possession of stolen property.

G.T.R. ANNUAL MEET.

President Wilson Proposes Large Dividends for the Future.

London, Oct. 9.—A well attended half-yearly meeting of the Grand Trunk was held today at Cannon-street Hotel. Sir Charles Rivers Wilson, president, said that although the company had received a very large dividend in revenue, owing to the peculiar conditions of the times, there had been a corresponding increase in expenditures. Some shareholders might feel disappointed because a more profuse distribution of dividends had not attended the good fortunes of the company, but the time would certainly arrive when they would regret the expenditure of the last few years. Since January, 1898, £2,548,000 had been distributed in dividends. At the time of prosperity might recede, but he was satisfied the Grand Trunk would derive lasting advantage from the years it pursued in prosperous times, of which they were already reaping benefits. Referring to his visit to Canada and the United States, he saw no reason why the industries of both countries should not continue to develop. Sir Charles Rivers Wilson addressing the shareholders took exception to Joseph Chamberlain's statement that American trade was falling off. The impression which he brought home was that the industries of both countries were progressing and that under ordinary conditions there seemed to be no reason why their continued development should not be maintained. In spite of the ill-directed efforts of the "combination" which had introduced such disturbing influences in the natural course of business.

CHANGE EXTRADITION TREATY

Attorney Folk of St. Louis Hammered by Escapes to Canada.

Washington, Oct. 9.—Joseph Folk, the City Attorney of St. Louis, who has been active in recent months in the prosecution of legislative and municipal wrongdoers in Missouri, was a guest of President Roosevelt at chautauque today. Mr. Folk has encountered some difficulty in the performance of his duties on account of the escape into Canada and Mexico of a few of those under indictment. He is anxious that the extradition treaty between these governments and the United States be amended to admit the return to the United States of persons who have been indicted for petty offenses, such as the Secretary of State Hay was called in to conference with the President and Mr. Folk, and the matter of treaties was gone over.

ONLY ONE CONCLUSION.

The Kingston Whig, speaking of Dr. Workman's appointment to a position in the Wesleyan Theological College, Montreal, says: "One conclusion follows, and only one. It is that those who pronounced upon his case originally must have been seriously misjudged. All these years he has been under a cloud. All these years he has been suffering from a faulty judgment. The church has, unfortunately, done the man a great and irreparable injustice."

"Dontschland to Italy."

The Hamburg-American Line have advised their agent, Mr. Stanley Brent, that their great ocean liner Deutschland will sail from New York Jan. 19, for Naples and Genoa. She will make the trip in less than 8 days, which has never been accomplished before. The rates of passage will be \$100 upward. Mr. Brent will be glad to give further information at his office, No. 8 King-street East. Phone Main 276.

THE HON. JOSEPH CHAMBERLAIN

AND THE MASAI WARRIORS.

REMARKABLE INCIDENT. On the occasion of Mr. Joseph Chamberlain's recent visit to Mombasa, East Africa, a terrible war dance by the picturesque Masai warriors was given in his honour. In this connection a striking incident, as showing the world-wide use of Holloway's famous remedies, is illustrated by the accompanying photograph, taken on the spot by a correspondent of The Sphere, London.

HOLLOWAY'S PILLS AND OINTMENT

are used wherever the white man has set his foot.

The Masai warrior carrying his great pot slung from the side of his right ear. The pot in this case was HOLLOWAY'S OINTMENT jar, and the hole of the ear had been stretched to get round the pot.

THE PILLS are a wonderful remedy and effectual, but gentle and benign, remedy for all disorders of the Liver and Bowels. They cleanse and thoroughly regulate the system. Females should never be without them.

THE OINTMENT is the greatest healing agent known for Old Sores and all skin affections. Rheumatism, thoroughly regulate the system. Females should never be without them.

The Doctor's Story

When the matter of Foods for Infants and Invalids came up for consideration.

Sir Chas. A. Cameron, C.B., M.D., Ex-President of the Royal College of Surgeons, Ireland, pronounced

NEAVE'S FOOD

"An excellent Food, admirably adapted to the wants of infants and young persons."

Mr. A. EVANS, of The Hall, Wiltshire, writes: "I am sending you a photograph of my little girl, age two years, who is very healthy and fat. I have used Neave's Food, and I can say that it is a most excellent Food, and is easily prepared. Many of my friends have asked me what I give them, and when told Neave's Food, have tried it, and in every instance found it satisfactory."

Why Protest was Cabled.

The protest cabled to London by the Brotherhood of International Bookbinders here, notifying men of that trade to keep away from Canada, was in accordance with the resolution at the recent Brookville convention, when it was decided to warn workers in the Old Country that prospects were not as rosy here as the Manufacturers' Association would have them believe. It is more than likely that the different trades unions here will issue literature describing the state of the labor market in Canada, which will be sent to the Old Country for distribution.

OUT WITH THE TRAMP.

Beeton World: To allow tramps to roam over our land, committing atrocious deeds and live on those who honestly work, is something no government should sanction. The people of our country are seeking protection and justice, and it behooves our government to grant their reasonable request. They will rise in their strength and stamp the tramp influence out of our land, or will they allow crime after crime to be committed and the fair name of Canada blighted by this worthless class?

BEAR WANTED TO BE SHOT AND WEIGHED 300 POUNDS. Man Down Tweed Way Had Great Luck After the Third Attempt to Kill. Tweed, Oct. 9.—For some weeks past John Alexander of Moncton, N.B., has been under the impression that a bear has been in the vicinity of his farm, in the second concession of Hungerford. A week ago James Larby, a neighbor, decided that if Bruin was there he would capture him, dead or alive. Three nights during last week he shouldered his rifle and went out to wait for his game, but his vigils were without success until one night quite unexpectedly he saw a huge black bear sitting up on his haunches not eighteen feet away from him in Mr. Alexander's orchard. He snatched the trigger of his rifle, but the cartridge did not explode. Three more cartridges were tried, but with no better success. Things now began to look rather exciting for Mr. Larby, and Bruin was assuming a threatening attitude. Fortunately, however, the animal did not advance towards Mr. Larby, but went to the edge of the woods and jumped over the fence where he again assumed a position similar to that in which Mr. Larby had observed him. By this time Mr. Larby had reloaded his rifle with some new cartridges. He again snapped the trigger, this time with success, showing that at some time in his life he was trapped, but escaped. He also had an old, fattened bullet in one side of his head.

MANIAC RUNS WILD. Chased by Police, He Keeps Them Back With Stones. Crawfordsville, Ind., Oct. 9.—Wesley Hodges, traveling on a Big Four train, accompanied by his wife and three children, suddenly became deranged. While the train was running fifty miles an hour, Hodges, seizing one of his children, plunged them to the car window. His wife grabbed the boy just as the train stopped. Hodges was picked up for dead and put in the baggage car. After arriving here, and left in the next street, pursued by the police, with large stones, which he picked up, he finally overpowered and taken to jail.

NOTED BIBLE WORKERS
ARRIVE IN CITY TO-DAY

Are Representatives of British and Foreign Bible Society—Occupy Local Pulpits To-Morrow.

There will arrive in Toronto this afternoon two prominent members of the British and Foreign Bible Society, being the Venerable Archdeacon Madden and Rev. G. H. Bondfield, who are part of a delegation sent to Canada from England to awaken interest in this country in support of the society. Sir Algernon Cooze, a third member of the delegation, will arrive in the city on Thursday or Friday next. All three will occupy local pulpits and address meetings while in the city. The delegates are regarded as three of the ablest and most eloquent supporters of the Bible society, the oldest and largest in the world, and their chief mission is in connection with the centenary of the society's inception that is to be observed in March.

Work of the Society.
The British and Foreign Bible Society followed the fast growing demand for the Holy Writ that could not be sufficiently met by the Society for the Promotion of Christian Knowledge. It is a Welsh apostle, Welsh evangelist who found himself confronted with a famine in Bibles in Wales, and suggested an organized effort to supply the want. Out of this suggestion the British and Foreign Bible Society was founded on March 7, 1804, having for its sole object the putting into all men's hands of the Bible in their own tongues. Since it was founded it has issued more than 180,000,000 copies of the Bible in 370 languages or dialects. It is promoting the translation or revision in over 100 languages to-day. It employs 800 colporteurs and supports over 600 Bible women. It spends \$3,500 every day, and it issues 2000 copies every working hour, from January to December.

Will Speak To-Morrow.
Archdeacon Madden has made himself known and esteemed to a wide circle thru his splendid work for reform in Liverpool, and he is an exceptionally good speaker. He is just over 40 years of age.
Rev. G. H. Bondfield was born at Chard, in 1855, went out to China under the L.M.S., and was afterwards minister of the Anglican Church, Hong Kong. In 1885 he became the Bible society's agent for China, and he illustrated his public addresses largely with incidents of his work in the East and more particularly Manchuria and Eastern Russia.

Tomorrow he preaches at the Metropolitan Church in the morning and in the Westminster Presbyterian Church in the evening, while Archdeacon Madden will occupy the pulpit at St. James' Cathedral at the morning service and be at the Church of the Epiphany, in Parkdale, in the evening. On Monday evening a reception and conference will be held in the Y.M.C.A. A week from tomorrow, they will again occupy city pulpits, while Sir Algernon Cooze will be at Trinity Methodist Church on Monday evening, Oct. 19, the three delegates will address a public meeting. During next week Rev. G. H. Bondfield will speak at Brampton on Tuesday, Owen Sound on Wednesday and at Orangeville on Friday, and the week after at Ingersoll on Tuesday, Bradford on Wednesday and at St. Thomas on Thursday. On the Sunday and Monday following, he will be at Hamilton, and from Tuesday, Oct. 27, to Monday, Nov. 2, in the London auxiliary. The delegates will tour thru Canada to the Western coast.

Aims of the Centenary.
The centenary aims include the raising of a special fund, commemorative of the event, of 250,000 guineas in Britain, exclusive of any amount raised abroad. Deputations will also visit Australia and New Zealand. In March a great mass meeting will be held in London, while the celebration will continue through England until the 12th. It is also desired to extend colportage by at least 100 new colporteurs; to increase the number of Bible women by at least 100; to prepare new versions and to extend and complete versions already begun; to provide new Scriptures for the blind; to publish a Welsh Bible; to prepare his- tories of the society; to increase the society's benevolent fund; to undertake special work in Sunday Schools and fields of labor.

VALUABLE MAPS FOUND.
Berlin, Oct. 9.—Herr Ruge of Leipzig has discovered in the library of the ancient University of Helmstedt, Brunswick, a number of valuable old maps, including one of Denmark and south Scandinavia, by Cornelius Anthoni, Fernando Seco's map of Portugal, dated from 1509; Antonius Vind's Russia, dated 1550; Christopher Pylamin's Germany, dated 1547, and Adriaen Ballooni's map of Savoy, dated from 1550.

ALL ROADS TO MARKHAM
TO DOO WERE AT THE FAIR

As Usual East York's Horse Display Was Bigger and Finer Than Anywhere Else.

Markham, Oct. 9.—(Staff Special.)—This has been a memorable day in the history of the East Riding of York and Markham Agricultural Society. In common with the opening days of the Fair, the morning opened unpropitious and the hearts of the directors were correspondingly depressed, but later in the day the sun shone forth and all went as merry as a marriage bell. In point of attendance, in the number and quality of the exhibits, and in all the elements of a successful exhibition, East York can tonight justly lay claim to honors. A conservative estimate of the attendance places the number present at fully 10,000. Special trains on the Midland Railway from north and south added largely to the great gathering, while the attendance of representative farmers has never been equalled.

The directors have labored long and earnestly to render the exhibition a success, and the result of their labors is most encouraging. Among those on the grounds to-day were: W. D. Gregory, J. W. Moses, W. F. Maclean, M.P.T. S. Lobb, J. Greer, Frederick

To carefully maintain the balance between the waste which is constantly going on in the human economy and repair which nature is also constantly making under the healthy conditions of the body, is a scientific art which requires the earnest attention of every thinking man and woman.

What is Home Without a House Coat?

A man should not regard his home as an annex to his office, and his wife should not encourage him to do so; neither should he lounge around in an easy chair musing wrinkles in his business coat. It takes all the smartness out of your street clothes and makes you send them to the tailor for a pressing, and makes you miss the easy relaxation that the House Coat or Smoking Jacket so pleasantly provides. We are ready to make men comfortable in Coats that are smart and handsome. They are made up very neatly. Several attractive styles just received.

Brown, navy blue, maroon, also Oxford and confederate grey, plain outside, with collar and turn-back cuffs showing neat blended stripes and fancy plaids, new touches in the finish and tailoring mark this season's House Coats, we have all sizes 34 to 46 at \$5.00, 6.00 and 7.00

IN THE SENATE.
Redistribution Bill Passed Final Reading After Protest.
Ottawa, Oct. 9.—(Special.)—In the Senate to-day, after a discussion on the principle of territorial autonomy, the bill to empower the Dominion government to make advances to the government of the Territories was approved. Sir Mackenzie Bowell declared that the time was ripe for the elevation of the Territories to provincial status. The Redistribution Act was read a second time, after a strong speech by Senator Ferguson, protesting against the alleged injustice to Prince Edward Island and the under representation of Ontario.

Senator McMullen made a bitter attack upon the Conservative redistribution of 1882 and 1892. The Senate declined to sit to-morrow, and will resume on Monday night.

ANOTHER FLAG EPISODE.
New York, Oct. 9.—A British flag that had been cut into ribbons was found hanging about the base of the Statue of Nathan Hale in City Hall Park to-day. Attached to it was a card bearing the inscription: "I have forgotten S. A. R." Police Capt. O'Brien ordered the flag removed and began an inquiry for the person who placed it there.

HEARING ADJOURNED.
Sault Ste. Marie, Oct. 9.—(Special.)—The hearing of arguments on motion made by James Bicknell for Speyer & Co., for judgment to get possession of Consolidated properties, was postponed till to-morrow morning by Judge Johnston on account of late arrival of Mr. Bicknell coming from Toronto by boat.

INVINCIBLE TO CANADA.
Ottawa, Oct. 9.—(Special.)—The Allied Trades and Labor Association at its regular meeting to-night passed a resolution strongly condemning Mr. Chamberlain's Imperial preferential trade policy as being inimical to Canadian manufacturers.

COMING TO TORONTO.
Montreal, Oct. 9.—(Special.)—Lent K. N. Skidoo of the 90th Winnipeg Rifles arrived here to-day and will be in Toronto, where he will take a special car, in the latter part of the week, to visit his family, preparatory to sailing for the Old Country.

SAILORS RAIDED CARGO.

Bradford Man Attempts Suicide.
R. J. Barry shoots himself in the head and is brought to Toronto.

R. J. Barry of Bradford lies in a precarious condition at Grace Hospital, with two bullet holes in his head, the result of a suicidal attempt in the above town early yesterday morning. Barry is a dealer in hides in Bradford. For the last two years he has been in poor health and it is thought that he was in an extreme mental condition when he attempted to take his life. He was picked up at the back of his own house, beside him lay a revolver. One bullet passed in on the right side of the head and out thru the temple. He was brought to Toronto yesterday evening and removed to Grace hospital, where his wounds were examined. The attending doctors are supplied to think he may recover.

ST. CLAIR CANAL BLOCKADED.
Steamer Glidden Sank in Such Way as to Close Channel.

Detroit, Mich., Oct. 9.—A steamer blockaded the way for the loss of many thousands of dollars at the head of the marine season is on at the St. Clair Flats Canal, one of the three crucial points in the line of Great Lakes traffic. All traffic between upper and lower lakes is at a standstill. The draw more than 10-12 feet must be suspended. The huge bulk of the steamer Jong N. Glidden reposes in the narrow mark a canal, prohibiting practically all passage. The Glidden, bound down about 9 a.m., was rammed in the bow by the fleet tug Magna in tow of the steamer Empire City, and sank immediately in such a position as to leave but 75 feet of the narrow waterway open to the channel clear.

BIOGRAPHY OF GLADSTONE.
John Morley's Great Work Will Be Out To-day.

New York, Oct. 9.—The biography of Gladstone, upon which John Morley has been at work for many years past, has been published to-day.

Among some of the important events dealt with in the book are the death of the fall of Khartoum and the death of Gordon, and the great struggle for household suffrage in 1832.

In his introduction to the biography, Mr. Morley says: "Gladstone, in my opinion, was not only a great statesman, but a great moral power and religion. Nevertheless his mission in all his public work was to lead the people to a higher life, to a higher standard of morality, to a higher standard of political action, and to a higher standard of domestic life."

ALL ROADS TO MARKHAM
TO DOO WERE AT THE FAIR

As Usual East York's Horse Display Was Bigger and Finer Than Anywhere Else.

Markham, Oct. 9.—(Staff Special.)—This has been a memorable day in the history of the East Riding of York and Markham Agricultural Society. In common with the opening days of the Fair, the morning opened unpropitious and the hearts of the directors were correspondingly depressed, but later in the day the sun shone forth and all went as merry as a marriage bell. In point of attendance, in the number and quality of the exhibits, and in all the elements of a successful exhibition, East York can tonight justly lay claim to honors. A conservative estimate of the attendance places the number present at fully 10,000. Special trains on the Midland Railway from north and south added largely to the great gathering, while the attendance of representative farmers has never been equalled.

The directors have labored long and earnestly to render the exhibition a success, and the result of their labors is most encouraging. Among those on the grounds to-day were: W. D. Gregory, J. W. Moses, W. F. Maclean, M.P.T. S. Lobb, J. Greer, Frederick
