GORMAN SUSPENSION CALLED "ABSURD"

CONTROL BOARD TAKES LITTLE NOTICE OF ORDER

Eventual Break-up of I. S. U. Is Seen Here

M'LEOD'S STAND

Chairman of N. B. Body Says Board Prepared to Back Stand

SCANT notice to the suspension order directed against Charles Gorman, Saint John, world's speed-skating champion, and Joe Moore, international indoor champion, by W. G. Bratton, president of the International Skating Union, for failure to compete at the international meet in Detroit is being paid by local skating officials.

M'LEOD'S ATTITUDE

"Statements by Joseph K. Savage, former president of the I. S. U., and D. J. Corr, present vice president, to the effect that neither Moore nor Gorman entered this meet show clearly the absurdity of the action of Mr. Bratton and Mr. Fitzgerald at Detroit. Mr. Bratton shows a lamentable lack of knowledge of the rules of the organization he heads when he attempts to suspend a skater who never entered the meet. The Board of Control of the N. B. A. S. A. is paying little notice to the actions of these irresponsible gentlemen. At the proper time and place, we are fully prepared to justify our stand and equipment to carry the war into the enemy's territory. Mr. MacLeod said in a statement this morning when questioned on the matter:

CRASH COMING

Frank White, president of the N. B. A. S. A., expressed a similar opinion. "Mr. Savage," he said, "I believe is the man who framed the rules of the I. S. U. and he certainly is not talking about when he characterizes the proceedings as a 'joke.' The formal entry must be signed by the skater, something which Gorman did not do. All this controversy carries the germ of a break-up of the I. S. U. Undoubtedly, a revision of badly-needed officials across the line assume such high-handed authority."

"JAKE" SAYS SAVAGE

A New York despatch says: "Action of the International Skating Union officials in suspending Joe Moore, speed skater, and Charles J. Gorman, Canadian speed champion for failure to appear at the championship meet in Detroit, Mich., was characterized as 'joke' tonight by James K. Savage, president of the Middle Atlantic Skating Association, and former president of the Union."

"Officials at the Detroit meet have not the power to suspend either Moore or Gorman, even pending a hearing," said Mr. Savage. "The privilege is conferred by the constitution of the Union upon the board of control, to which formal charges must be presented. This board consists of delegates from several skating organizations. Until this board suspends Moore, he will be considered eligible to skate by the Middle-Atlantic Association."

"Furthermore, I can positively state that Moore did not enter the Detroit meet."

ACTION FORECAST

The Detroit despatch adds: "The suspension of the two skaters was forecast on Wednesday, when W. G. Bratton, President of the International Skating Union, sent telegrams to both Moore and Gorman telling them they would be suspended indefinitely unless they honored their entries by appearance at the meet here. Amateur skating rules provide for the suspension of any skater, who, entered in a meet, fails to appear without adequate reason. When the meet opened today without the two, the indefinite suspension followed automatically."

TO PROBE CHANGES

"A meeting of the board of control of the Union will be called at a date to be fixed to give Gorman and Moore a hearing. At the same time, the board will investigate charges of professionalism made against Gorman earlier in the week, when it was charged, a telegram was received signed by him demanding \$200 and expenses to 'race against time only' at the Detroit meet."

Gorman denied authorship of the telegram and request has been made to the telegraph company for the original copy of the message. Other details bearing on the charge also are being sought for presentation to the board."

Arriving Vessels Bring Rescued Crews and Tales of Terrible Storm

As a Golfer, Ruth Is a Good Ball Player

ST. PETERSBURG, Fla., Feb. 6—"Whaddye expect of a guy that hasn't had a club in his hands for three months?" Babe Ruth, home run king of baseball, said when friends were teasing him about the 100 he turned in after his first trip around the golf course. He had a 49 going out and a 51 coming in, and exhibited books and slices that had never been seen here before.

FIGHT FOR LEAGUE SEATS IS EXPECTED

Poland Likely to Make German Entry Basis For Special Consideration

Canadian Press GENEVA, Feb. 6.—That a fight for the seats on the council of the League of Nations may develop at the March session for the council, and during the special meeting of the assembly, also in March, to be convoked for action on the admission of Germany as a member, is the opinion in Geneva. The belief is held that certain powers, such as Poland, Spain and Prussia, but particularly Poland, will seize upon the designation of Germany for a permanent seat on the council to precipitate a movement for a further increase in the number of permanent seats. Poland, said to be backed by France, is leading her campaign on the fact that she is one of the larger countries of Europe, with a population of nearly 30,000,000 and occupying a geographical position entitling her to a special place in league deliberations.

FORMER ALBERTA MINISTER CLEARED

Hon. Geo. P. Smith Acquitted on Charge of Theft of \$5,820

Canadian Press EDMONTON, Feb. 6.—George P. Smith, former Minister of Education in the Alberta government was found not guilty by a jury last night, after trial on charges of theft of \$5,820 from the Province of Alberta. The jury deliberated for five hours before bringing in its verdict which was returned at 10:45 last night. The trial opened a period of five days, and was the outcome of a Royal Commission investigation conducted by Mr. Justice Walsh into charges made by Louis G. Scott into printing methods of the former Liberal government. The Scott charges, which were made on the eve of the Federal election of 1921, alleged that \$8,820 was paid to the Esdale Press Limited, by means of "faked invoices" for printing which was never done and that this money went to George P. Smith.

STILLMANS END MARITAL BATTLE AFTER FIVE YEARS

Pair Sail For Europe on "Trial Honeymoon"

SUITS DROPPED

Father Recognizes Baby Guy; Both Dismiss Lawyers in Divorce Actions

Canadian Press NEW YORK, Feb. 6.—The New York American, in a copyrighted story today, says that Mr. and Mrs. James A. Stillman sailed for Europe aboard the Olympic at midnight, happy in a trial reconciliation after a sensational five-year divorce litigation. The banker and his wife, it is stated, are planning a new start in life on a "trial honeymoon" after cleaning the state of their marital difficulties. SUITS WITHDRAWN Mr. Stillman recognizes Baby Guy Stillman, now seven years old, as his son and withdraws his allegations in his unsuccessful divorce suit that the boy is the son of Fred Beauvais, Canadian Indian guide. A divorce suit recently started by Mrs. Stillman is to be dropped and lawyers of both have been notified that their services are no longer required. Last night, as they sat at dinner before they sailed, Mrs. Stillman wearing the brilliant yellow bandana kerchief on her head that she has taken a fancy to since her life in the Canadian woods, said: "We are doing this because Alex and his brothers, Guy and Bud, and his sister Anne are such fine scouts, we owe our children so much, Jimmy and I. We formed a corporation 20 years ago, and our children, Alex, here and the rest are preferred stockholders."

TO AID HUSBAND

Mrs. Stillman, the American says, has promised to do everything in her power to aid her husband to rehabilitate himself in the world of finance and society. "Jimmy is growing old," the American quotes Mrs. Stillman as saying recently to a reporter. "He has been the great institution. He has become human. I like him as I haven't liked him for years. I've an idea he really wants to rebuild his life. Perhaps I ought to put on the harness again and travel with him."

UNDER ASSUMED NAMES

Mr. and Mrs. Stillman were booked on the Olympic for the American says, Mr. Smith and Miss Fuller, with separate statements. The story continues, to consult Dr. R. F. Baynes, a young English psychologist, whose psychoanalysis of Mrs. Stillman when she was broken in spirit at the time her husband brought suit for divorce, helped her, in her own words, to find herself again. Anne Urquhart Potter, brilliant society girl, and James A. Stillman, young banker, were married in 1901, and had four children, when, in 1921, their romance crumbled in the divorce court.

INFIDELITY CHARGED

Mr. Stillman, then president of the National City Bank and a power in the financial world, charged his wife with infidelity and denied the paternity of his youngest child, Guy, then an infant. Fred Beauvais, a Canadian Indian guide, who had taught woodcraft to older Stillman children, was named correspondent. Both men had been shot and Rockett's skull was crushed. Their bodies had been buried together in a grave four feet deep and about 1,000 yards from an abandoned farm house in which was found a huge whiskey distillery and fifty thousand gallons of mash. Each body bore the mark of one bullet wound in the head.

COMMONS RECESS OF MONTH ASSURED

Government Scores Twice Yesterday on Division—Another Amendment Due

Canadian Press OTTAWA, Ont., Feb. 6.—A recess of at least one month in the House was practically assured when that chamber adjourned yesterday by a majority of eight in favor of a government motion calling for adjournment from the end of the debate on the address until March 15. The House divided twice on that question. The first vote defeated 118 to 112 a Conservative amendment which would have had the effect of negating the government's motion for an adjournment. The second division on the address was carried 120 to 112. A Conservative amendment to the government's motion for an adjournment was supported by the last minute arrival of W. T. Lucas, Progressive member for Camrose.

It is said that when he escaped from Russia he managed to take with him gems worth about \$7,000,000.

20 Men Hold Crew Prisoners While Freight Train Is Robbed

Canadian Press PEORIA, Ill., Feb. 6.—A band of 20 robbers yesterday sacked a small town railroad office near here, seizing equipment which they later used to hold up and rob a Rock Island freight train from which they took about \$10,000 worth of liquor. Torches, cutters, punches, wrecking bars, rifles, shotguns and cartridges, were taken in the station robbery. These tools are believed to have been used to force open the cars which yielded the alcohol cargo.

They had been missing a year. Both men had been shot and Rockett's skull was crushed. Their bodies had been buried together in a grave four feet deep and about 1,000 yards from an abandoned farm house in which was found a huge whiskey distillery and fifty thousand gallons of mash. LOSES BAIL FIGHT

Alleged Belgian Diamond Smuggler, Captured at Border, Held in \$25,000

Canadian Press ST. ALBANS, Vt., Feb. 6.—Lieb Rittman, of Antwerp, Belgium, held in \$25,000 bail on charges of attempting to smuggle \$250,000 worth of diamonds across the Canadian border, has lost his fight for release out of the United States by Commissioner Watson, after a hearing, refused counsel's request that the figures be lowered to \$15,000, or preferably to \$7,500. Rittman was captured eight days ago on a train from Montreal to Washington, and a search here disclosed the diamonds, the largest of which weighed more than four carats, concealed about his clothing, and in a bag in the baggage car.

JEWEL EXPERTS COMPETE FOR RUSSIAN GEMS

Part of Romanoff Collection Marketed by Soviet

U. S. FIRM BIDDER

Seeks Emeralds; Bolsheviks Profit by Seizure of Many Private Fortunes

MOSCOW, Feb. 6.—Gem experts of seven nationalities are contending for possession of part of the famous Romanoff crown jewels, which the Soviet government has placed on the market. French and British experts, together with Americans, are among the bidders. Rudolph Ohlert, representing a syndicate of United States diamond firms today made a bid on the entire collection of unmounted emeralds which is valued at several million dollars, and comprises stones up to 65 karats in weight. POLES COMPETING Polish representatives are also competing for a part of the gems. It is recalled that arrangements were made last year by the Soviet government to buy Poland twenty-five million rubles worth of Crown jewels in part payment to Russia's obligation to her, but the deal fell through because of the difficulties of the last moment and Poland ultimately received only 11,000,000 rubles worth of gems. The Soviet government's diamond fund has been augmented considerably by the confiscation for the state of the great private collections of the Shermetteffs (Gordakow, Orlov, Daidlov and other families), which are valued at approximately at tens of millions of dollars.

St. John Macdonald, professor of hygiene of McGill University, leave tonight for Halifax to conduct an investigation into the milk situation there. They have been asked to do so by the Massachusetts Health Commission, the request of that body being for "an impartial investigation and recommendation." Dr. Flemming said the Montreal anti-tuberculosis and general health league strongly advocated pasteurized milk in sealed containers. He said that while McGill University had no official faculty on the question, the Medical Faculty has passed a resolution favoring pasteurization.

MENTIONS MARITIMES

"I think that in Eastern Canada there was a strong feeling that the east was being burdened for the advantage of the west. Of late years there has grown up a feeling in the west that the west was being exploited for the benefit of the east. In the Maritime Provinces there is discontent. In view of the present conditions, can it be truthfully said that confederation as a whole has been fully successful? I think not. "Then we should ask ourselves: Is the principle of Confederation at fault?"

B. C. TO ASK RETURN OF PEACE RIVER LAND

Premier Oliver Declares Dominion Gained More Than 9,000,000 Acres Not Intended by Terms of Confederation—Will Be Made Basis of Appeal to Ottawa

Canadian Press VANCOUVER, B. C., Feb. 6.—While maintaining that the principles of Confederation were right, British Columbia's experience in the Dominion has not "been fully satisfactory," and the union of the provinces as a whole has not been fully successful, Hon. John Oliver, Premier of British Columbia, told a meeting of the Canadian Club last night.

The Premier disclosed some of the forgotten incidents of the history of the province. He declared that, by a remarkable piece of legislation which could not have been understood by the members of the legislature, the terms of union by which the province had entered confederation had been altered and the Dominion had gained more than nine million acres of land than was contemplated by the terms of union in 1871.

These facts, the Premier intimated, would be the basis of the appeal being made to Ottawa for a return of the Peace River block.

He was confident, he said, that while British Columbia, through the enactment of legislation, which he stated was not understood in 1883, had abrogated her legal rights, that she had the best possible case from a moral standpoint.

After reviewing negotiations and conditions that resulted in British Columbia entering confederation, Premier Oliver said:

"I think that in Eastern Canada there was a strong feeling that the east was being burdened for the advantage of the west. Of late years there has grown up a feeling in the west that the west was being exploited for the benefit of the east. In the Maritime Provinces there is discontent. RUSSIAN WAR TRAITOR DIES

Soukhomlinoff Charged With Sending Troops Out Unequipped

Was Tried For Treason and Banished—Finally Located in Germany

Vladimir Soukhomlinoff, Russian World War traitor, died in a hospital in Berlin this week.

Guilty above most other men of the causes of the Russian debacle in the World War, Vladimir Soukhomlinoff formerly bore a name of honored splendor in the armies of the Czar. Born in 1848, he was educated in the Imperial Cavalry School at St. Petersburg, and exhibited so great proficiency in the arts of war that before he was twenty he was commissioned an officer of the Uhlans of the Guard.

Later he was graduated at the Academy of the general staff, and had an important command in the Turkish war of 1877-78, emerging with the Cross of St. George.

MADE GENERAL IN 1890

In 1884-85 he commanded a regiment of dragoons, and then for 11 years was the head of the Officers' Cavalry School at St. Petersburg, meanwhile being promoted to general in 1890. Next he commanded the 10th Cavalry Division, was chief of staff to General Dragomiroff at Kiev, and after that officer's death succeeded him in command. Thence in 1900 he was recalled to the capital to be Minister of War. Thus far his career had been above reproach. Then came the change.

For five years preceding the World War he had complete direction and control of the Russian military establishment. Soukhomlinoff repeatedly assured the Emperor and the Duma that the army was abundantly equipped with arms and all munitions, and left it with scarcely half a supply of rifles, cartridges and shells. It was he who gave the two orders for mobilization in 1914, and it was he who sent armies to the field with no weapons but clubs and stones. It was he more than Hindenburg, who caused the destruction of the Russian armies amid the Masurian Lakes.

TRIED FOR TREASON

Too late to repair disaster, public opinion caused the Emperor in 1916 to remove him from office. A little later he was brought to trial on charges of treason. It was proved not only that he had neglected to provide a sufficient output to munitions, but that he had deliberately withheld from the army such supplies as were there. But, worst of all, it was shown that he had been in communication with German

NEW INVENTION SAVES MILLIONS

A Lamp that Burns 94% Air

A new oil lamp that gives an amazingly brilliant, soft, white light, even tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, O. K. Johnson, 246 Craig street, W. Montreal, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars—Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

agents and had betrayed to them the intended operations of the Russian army. After that there was abundant ground for the belief that his whole campaign of unpreparedness had been conducted under German influence and through an understanding that he was to betray Russia to Germany.

His trial was civil, not military, and capital punishment was not in vogue in Russia, so that he was merely sentenced to penal servitude for life. From this was, of course, promptly released by the Soviet government as soon as it came to power; but prudently considering Russia an undesirable place of residence, he surreptitiously entered Finland and made his home. Thence he went to Germany, where he was welcomed. A few years ago he published an autobiography in which he vainly strove to vindicate himself.

T. & L. Council Is Asking For Change

The regular meeting of the Trades and Labor Council was held last night with President C. H. Stevens in the chair. After routine business had been transacted, and new business was called on, the Council passed a resolution requesting that the present act, by which the Factory Inspector has authority of inspecting moving picture machines, be changed, so that the inspector of machines be a person chosen by the Theatrical and Stage Employees' Union.

It was further announced at the meeting that the motion picture entitled "Labor Reward" would be shown in Saint John in the near future.

PLEASANT EVENT HELD AT GARDENS

Former Pupils of Mount St. Vincent Have Bridge and Dance

The Venetian Gardens presented a brilliant scene last night when the annual bridge and dance of the former pupils of Mount St. Vincent College was held there. The attractive ball room was made still more beautiful by the decorations and with the handsome gowns of the ladies made a very pretty picture. Supper was served on the balcony, a part of which had been set aside for those playing bridge.

The guests were received by the president, Miss Elizabeth McGaughey, and Mrs. E. W. Lunney. Lovely spring flowers were in evidence in the ball room and were used effectively in the decoration of the tea tables which were presided over by Mrs. J. P. Byrne, Mrs. Frank T. Mullin, Mrs. Frank O'Regan, Mrs. E. J. Cronin, Mrs. J. P. Nugent and Mrs. Frank Winslow. The dance committee was Miss Gertrude Costley, convener, assisted by Miss Gertrude O'Neill, Miss Eileen O'Regan and Miss Mary Kane. The convener of the bridge committee was Mrs. Frank Mullin, and those assisting her were Mrs. Frank O'Regan and Miss B. Borden. The tickets were in charge of Miss Winnifred Ritchie.

The prize winners at bridge were as follows: Ladies, first, Mrs. C. M. Kelly, second, Miss V. Waterbury; gentlemen, R. E. Fitzgerald, second, John Flood; checking prize, John P. Mooney.

WHAT IS THE IDEA?

Are some of our friends across the line entertaining the idea that it would be well to butcher Charles Gorman to make an American holiday?

Gorman won the world's amateur championship for speed at the meeting here—a world championship meeting—and he is not bound to defend that title until there is another meeting of the same kind.

The President of the Middle Atlantic Skating Association puts his finger on the weak spot of their case when he says that they had no power to suspend, even pending a hearing, as the power of suspension is conferred by the constitution of the Skating Union upon the board of control, to which formal charges must be presented, and that until action has been taken by that board the skaters are eligible.

MEN AND DOLLARS.

Frederick H. Allen, an American officer who fought in the great war, has written to the New York Times asking his countrymen to give thought to the fact that more than a billion dollars of the debt France owes the United States was incurred after the Americans entered the war and before their troops got into action.

He quotes also Edmund Burke's famous words at the time of the American revolution: "It is not what a lawyer tells me I may do, but what humanly, reason and justice tell me I ought to do."

France, he says, not only made the greatest military effort of all the Allies, but advanced money to countries with less military strength, and Britain, though its military operations were not so extensive as those of the French, was able to keep the seas free, and not only did that but had to help to arm, equip and feed France and the other Allies.

Dinner Stories

IT WAS commencement day at a woman's college where the rules about "company" are strict, and the father of one of the young women was there to attend the graduation exercises.

A LITTLE Jewish boy stood in the middle of the street and cried as if his heart would break into forty pieces. A large crowd gathered around the mournful wail and endeavored to learn the cause for his woe.

"What's the matter, sonny?" asked a member of the crowd. "Boo-hoo!" cried the lad. "Vont somebody please take me to Izzy Ikenstein's clothing store. There is a big sale on men's suits, overcoats and ties. Everything at reasonable prices."

No Initial Cordiality. (Argonaut.) "The artist comes timidly before the public and is apt to be received like the beggar in the rich banker's office. 'Excuse me, boss,' the beggar said, 'but I ain't had nothin' to eat for three days. Can't ye help me out?'" "I'd like to darn well," said the banker, "but I sprained my foot on a book agent yesterday."

Poems That Live

DOMESTIC PEACE. Why should such gloomy silence reign, And why is all the house so dreary, When neither danger, sickness, pain, Nor death, nor want, have entered here?

We are as many as we were That other night, when all were gay And full of hope, and free from care; Yet is there something gone away?

The moon without, as pure and calm, Is shining as that night she shone; But now to us she brings no balm, For something from our hearts is gone.

Something whose absence leaves a void— A cheerless want in every heart; Each feels the bliss of all destroyed, And mourns the change—but each apart.

The fire is burning in the grate As readily as it used to burn; But still the heart is desolate, 'Till mirth, and love, and peace return.

'Twas peace that flowed from heart to heart With looks and smiles that spoke of heaven, And gave us language to impart The blissful thoughts that self had given.

Domestic peace! best joy of earth, When shall we all thy value learn? White angel, or our sorrowing hearth, Return, oh, graciously return. —Anne Brontë.

The Best of Advice

TO BE HEALTHY, A RICH MAN MUST LIVE LIKE A POOR ONE. It is natural that more, probably has been said and written about money than any other subject under the sun; for is not money "the root of all evil?" Let us remember, however, that money is the FRUIT of evil as often as the ROOT of it. But it is more important to be impressed on the mind Dr. Johnson's remark, "MONEY, IN WHATEVER HANDS, WILL CONFER POWER." Money amasses SERVES or RULES us. It is for YOU to say which.

BUT do not be in a hurry, and surrender everything, to get rich, says Ruskin, "you do not let the price command the picture in the picture will command the price." Though few can expect to make large fortunes, any industrious and economical person can make a comfortable livelihood and this is truer in America than in any other country in the world.

NO one need have much anxiety about the real necessities of life. Nature needs LITTLE and gives MUCH. Americans eat twice as much as they should, and most humans wear more clothing than their body needs. "If a rich man wants to be healthy, he must live like a poor one," it was observed long ago.

ABSENCE makes the heart grow fonder—but presents bring the best results. A Job is a position where the other fellow has it.

Timely Views On World Topics

INDUSTRIAL preparedness for war is not provocative as pacifists say, but is a frank declaration that this nation means to have peace.

It calls for an orderly survey of raw materials, power, labor, transportation and allocation of required materials to facilities best fitted to produce. It demands a training system to develop the necessary personnel, drawn from civilian reserves, to man the key positions.

It brings experts together into commodity committees to study and direct the use of raw materials and finished products. It calls for the assistance of civilian agencies to solve research problems, the setting up of volunteer chiefs of the various services of supply in the fourteen procurement districts into which the war industries are arranged themselves.

There is definite assurance in our plan, once completed, that should war break out, we can go to work with a swift and sure program of intelligent production of the armaments of war.

What we all want is not a great army, but an expert nucleus; not great gatherings of war materials to fret us in peace, but a comprehensive and expert structure as insurance.

The Wolf That Talks Like a Friend He preys on Widows and Children

Have you Safeguarded your Family Against Him? THERE are many in Mrs. Olmstead's position—left with a lump sum, barely sufficient for her needs. The wolf that talks like a friend soon seeks her out.

Lacking business experience or sound advice, she rapidly finds herself in possession of worthless stock certificates. The life insurance and the savings of years disappear over night.

The Mutual Life of Canada has a plan that completely thwarts the schemes of the wolf that talks like a friend. Monthly income insurance is the modern, proven method of providing for such as Mrs. Olmstead and the children. Instead of life insurance being paid in bulk, a monthly cheque is sent the dependents either over a term of years or during their entire lifetime. Mrs. Olmstead is not left with the responsibility of administering money for which she has had no experience. The money cannot get into the hands of the wolf that talks like a friend.

This monthly income plan of the Mutual Life is the more prudent form of protective insurance. It prevents extravagance and eventual dissipation of the funds. The income is regular and of a fixed amount. It will tend to keep the family together and the home intact. It cannot be seized for debt. It will encourage thrift on the part of your dependents and lead them to the budget system of planning expenditures.

It will pay you to investigate the monthly income policy of the Mutual Life. Our nearest representative will be glad to explain the details and give you an expert analysis of your insurance position.

LIVERMORE IN RUBBER MARKET

Reading Not For Field Always Centered in England

He Was "Boy Plunger" Who Made and Lost Fortunes in Wall Street

NEW YORK, Feb. 6.—Jesse L. Livermore, the most spectacular figure Wall Street has known since the days of John W. Gates, has extended his speculative activities into one more field, it was learned, when officials of the newly-formed New York Cocos and Rubber Exchange announced that Livermore had purchased a membership.

DARING MOVES WON FOR RUBBER

Rubber traders were convinced that Mr. Livermore intends to take an active interest in the trading in rubber futures, as the membership was purchased in his own name instead of in that of one of his many business associates. Unlike his stock exchange operations, always carried out through some stock exchange firm, and always seeming of the mysterious, he has elected to be in more direct contact with the rubber situation through actual membership.

LIQUIDATED MILLIONS IN GRAIN

Since last August, when he was reported to have entered the market through the purchase of 50,000 shares of United States Steel, and a long line of motors, little has been heard of him. He was interested in the trend of prices. Earlier in the same year he was reported to have sold a large quantity of wheat for about \$2, and when he liquidated his fortune was estimated in the millions.

WIDE VARIETY IN DEALINGS

These grain deals form but one chapter in a story of market operations, which included short and long positions in cotton, and through Teapot Dome oil properties, through the Mammoth Oil Company, manager of the Louisiana interests in their Seneca Copper campaign, and operations in numerous stocks, grains and all other commodities actively traded on local markets. An interest in Florida real estate is also included in the long list of his speculative ventures, and now he has turned to rubber futures.

TOASTS CARRIED OUT

After the toast to the King, which was responded to by the singing of the National Anthem, the toast to the Church and the pastor was proposed by Ronald Morley and responded to by Canon McKim. George Green proposed the toast to the president and Mr. Williams replied. The toast to the vicar was proposed by Bert Flewelling and replied to by Arthur H. Warwick. BABy'S WELFARE DURING FEBRUARY

Should Be Most Carefully Guarded by All Mothers.

February is one of the hardest months of the year on little ones. It is a month of cold, blustery days that prevent the mother taking her baby out for the fresh air so necessary to its welfare. Baby is consequently confined to the house, and more often than not the rooms are overheated and badly ventilated and the little one catches cold or gripe. What is needed to keep the baby well is a gentle laxative that will regulate the stomach and induce bowels; banish constipation and indigestion and in this way will either prevent or break up colds and gripe. Such a laxative is found in Baby's Own Tablets. They are mild but thorough in action; are absolutely safe and they are guaranteed to contain neither opiates or other harmful drugs. They never fail to be of benefit to little ones and may be given to either the newborn babe or the growing child.

HAS CHEERY WORD ON BUSINESS OUTLOOK

Credit Association Manager Speaks of Canadian Conditions—West and Maritimes

The recent Board of Trade convention in Winnipeg has done more to create sympathy for the people of the Maritime Provinces than anything that has hitherto taken place, Henry Detchon, of Winnipeg, general manager of the Canadian Board of Trade Association, said last night. Mr. Detchon was confident that the business men of the west had been awakened to the problems of the eastern provinces and would do everything in their power to help the situation. Mr. Detchon, from twenty-six years' experience in western business circles, with the financial and industrial movements of the day, is regarded as an authority whose opinion is worthy of attention.

CREDIT CONDITIONS

Credit conditions in Canada, as far as the Association records showed, were the best in years, Mr. Detchon said. Collections were essentially better than they had been in previous years. This was particularly true of the west, where a crop and excellent prices had brought prosperity. The west was looking forward to a period of increased business this year as liabilities were less than in years. Stocks were low as economy had been exercised in buying. The greatly increased purchasing power of the farmer would be a favorable factor.

FAILURES AT LOW LEVEL

Failures in Canada in 1925 had reached almost a low record. This was particularly true of the west, Mr. Detchon said on an inspection tour extending from Winnipeg to Halifax. He intends to leave for Halifax on Monday.

The report stated that the officers and committees of the association had taken the matter of improved parking conditions for motorists with several come into existence and the sites had all been better patrolled in 1925 than in the previous year. Eighty-seven motor parties had remained in the province they had intended on account of information furnished, regarding trips from various towns.

MOTOR ROUTES

It was decided to try to have the motor routes reband and numbered, and to support a movement to have the automobile laws all over the continent made uniform, so that confusion might be avoided by traveling motorists.

BIG INCREASE HERE

The number of permits issued to cars at points of entry was 14,166 more than 4,000 in advance of the previous year. It was estimated that 80,000 tourists had entered the province from the United States in addition to those from other parts of Canada.

MINARD'S LINIMENT FOR GRIPPE

The financial report showed total receipts of \$2,235.23 and disbursements of \$2,139.18, leaving \$96.05 balance.

States customs regulations had been relaxed to allow cars entering the country on permits to remain 90 days instead of 30. The meeting decided to support a measure to have the same regulation adopted for Canada.

Will Cupid Pass By "Miss Twenty-four," Who Never Loved?—Advice to a Stepmother—How to Shake a Too Persistent Mother.

DEAR MISS DIX—Is it possible that a girl should be so constituted that she is incapable of falling in love? I am 24 years old. Considered beautiful. Have traveled extensively, and am at present employed by one of the largest firms in America. I have come in contact with men of all classes and types. Many of them have found me attractive, and I have had numerous opportunities to marry.

ANSWER: It would take a bolder one than I to venture a prophecy concerning what Cupid is liable to do to any woman, especially when she is 24, which is the age at which a woman just begins to be capable of the grand passion.

Because you haven't been afflicted by sporadic cases of sentimentality up to this time is no sign that you won't have a fatal attack of heart trouble later on. Indeed, you are all the more likely to have it, and have it badly, for love is like certain juvenile complaints—the later in life we catch them the harder they go with us.

There are many women capable of a great love who go through life without ever being in love because they never meet the man who can call forth their affections. Sometimes these women, in despair of ever finding their real mate, marry the man who wants them, instead of the man they really want. Sometimes, having the glory of a great love before their eyes, they refuse to substitute a lesser love for it and remain single.

Nothing but a great love offsets the inevitable sacrifices of matrimony, and so I think you will be very wise not to marry until you are sure you have found some man whom you are so romantically in love that life without him would be misery and dust. A woman such as you are, with a good profession, finds the lot of a girl-bachelor a most agreeable one.

DEAR MISS DIX—A few years ago I married a widower with three children. I find that I am not consulted about the affairs of the children. My husband and they settle their problems between them, and I don't count with them. My husband also complains about hard times and tells me that we will have to cut expenses and economize, but he gives the children what they want. He expects me to do without things so that the children may have them.

ANSWER: I think that the career of a stepmother is the most difficult and hazardous one that any woman could possibly choose. To fill it properly, she should have the wisdom of Solomon, the patience of Job, the tact of a Talleyrand, the sense of humor of a Mark Twain, the long-suffering endurance and ability to take kicks of an army mate and a mother-heart as big as the world. And then some.

DEAR MISS DIX—I am engaged to the greatest girl ever. We would be the happiest people in the world except for my mother, who never leaves us alone a minute that she can help. She is financially independent and has a number of children, but I am the youngest son and have been living at home with her. My mother seems to think that whenever I go out in my car she should go with me. If I go to call on my sweethearts, she goes along. In a word, we can't shake her. My fiancée naturally objects to this, but what can I do?

ANSWER: The only thing you can do is to have a very frank talk with her and tell her that she is ruining your life. Tell her that you want to be alone with your sweethearts, and ask her if she doesn't remember her own courtship days and how there was a crowd. There is no more insoluble problem in the world than the mother who is a spiritual parasite on her children.

PALE FACES AND WORN OUT NERVES

Due to Weak, Watery Blood—In Cases of this Kind the Best Known Tonic is Dr. Williams' Pink Pills—They Give New Vitality

Anemia—which means thin, watery blood—comes on so stealthily, that it is often well advanced before its presence is recognized. A feeling of being easily fatigued, a general listlessness, a feeling of the heart, and the most manifest manifestation of the trouble, and this is seldom taken seriously.

Was Almost Helpless. Mrs. A. Griffiths, Pierson, Man., is one of the many thousands who have proved the value of these pills. She says: "I was so badly run-down in health that I was almost bedfast. The least exertion would leave me breathless. I suffered from headaches and backaches, and had no appetite. I could only drag about the house and found even light housework almost impossible. I tried several remedies but they did not do me a particle of good. Then a friend came for a visit and she urged me to try Dr. Williams' Pink Pills. When I had finished the second box I could feel that they were helping me. By the time I had taken four boxes more I was a well woman and every symptom of my trouble had disappeared. It could not be possible for me to say too much in favor of this medicine, and I always recommend it to run-down people, and have seen it prove just as satisfactory in other cases."

Helped Mother and Daughter. Mrs. James Sharpe, R. R. 5, Embury, Ont., says: "We, in our home, have much reason to be grateful to Dr.

IN Australia "Morning Tea" is as great an institution as "Afternoon Tea." This is a fashionable way of entertaining in the large cities.

And why not! A cup of tea in mid-morning, whether you are engaged in social or household duties, gives you new energy.

Australians are the greatest tea drinkers, using over 10 lbs. per person each year. They like fine tea—tea of vibrant flavor and sprightly taste!

For over 80 years we have been buying and blending just such tea—RED ROSE—putting in the best we knew—improving by experience. Now, our friends say RED ROSE ORANGE PEKOE is the finest tea they've ever tasted. It costs only a little more than ordinary teas.

She also remembers seeing a young officer disguised as a Sepoy, leave the Residency at night to guide the Highlanders by a short route through the jungles, and witnessed the blowing from the mouths of guns of a number of captured rebel leaders.

Her husband, a fish trader, is one of the oldest business men in Great Yarmouth, and she has been married for 53 years.

SEES PULPWOOD EMBARGO MOVE LOSING GROUND

Export Ban Would Ruin Thousands in N. B., Says Angus McLean

MONTREAL, Feb. 5.—Angus McLean, Bathurst, N. B., gave a resume of the activities of the Canadian Pulpwood Association during the year at the concluding session of the annual convention of the organization here today.

Mr. McLean expressed his belief that the agitation for an embargo, or an export tax, was steadily losing ground, because the Canadian public, largely through the efforts of the association, was now better informed on the subject.

He went on to say that in the Province of New Brunswick an embargo would actually ruin thousands of individuals. There was no necessity for any such legislation, and large quantities of pulpwood were rotting today because there was not sufficiently wide market for the product, even with free access to the United States mills.

MEMBERSHIP JOINS Phenomenal strides in membership growth, which the association considered as evidence to show that there is an extensive opinion in the ranks of pulpwood owners, producers and dealers of Canada against an embargo, export tax, or any restrictive legislation that would interfere with the members selling their product in the best markets of the world, were reported.

Oil Shares Particularly Active, Two Issues Going to New Highs

Canadian Press

MONTREAL, Feb. 6.—Considerable business was transacted during the first half hour's trading on the Montreal stock exchange this morning. Prices were irregular, gains and losses being about equally divided.

Canadian Industrial Alcohol and National Breweries were the active features. The former came out with an overnight gain of 1/4 at 19 1/2, while the latter was up 1/4 at 68 1/2. Brazilian Traction was steady at 98.

A fair demand was made for the newspaper issues. Abihil was up 1/4 at 82. Brompton eased 1/4 at 20 1/2. Howard Smith preferred was unchanged at 80.

IN WALL STREET

NEW YORK, Feb. 6.—Stock prices displayed a firm undertone at the opening of today's market, which was featured by the activity of the oil shares. Associated Oil and Pacific Oil sold at new record high prices. California Packing moved up 1/4 points on reports that negotiations had been practically completed for its acquisition by the Postum Cereal Company.

Morning Stock Letter

NEW YORK, Feb. 6.—The market yesterday had to withstand a great deal of profit taking and it withstood the test well. Special stocks look higher to day. There are some interesting items that are of the character of those that were at this time last year. Buyers are adopting a cautious attitude and once more orders seem on a hand to mouth basis. At the same time carloadings show business very active. Similar reports in other parts of the world show the greatest production and marketable surplus in the history of the country. Rails showed a somewhat improved tone yesterday. Whenever the rails move we believe there is a good chance of St. L. Western being a feature. In addition to the oil shares, a cautious attitude, which is being adopted by the market, is being shown by the oil shares. The market is being held up by the oil shares. The market is being held up by the oil shares.

MAKES APPEAL FOR COOLIDGE DOCTRINE

London Spectator Suggests U.S. Become Peace Buffer Outside Nations League

Canadian Press

LONDON, Feb. 6.—Under the caption "Why not a Coolidge doctrine?" The Spectator makes the novel suggestion that President Coolidge, by a message to Congress or otherwise, should openly inform the world what is the United States' attitude toward the eternal problem of "Last Resort."

The newspaper suggests that the United States should act as a buffer outside the League of Nations and lay down that, wherever there is a breaker of the peace who refuses to recognize the sanctity of a new treaty concluded between powers, there the United States sees an enemy to mankind.

On the other hand, the paper says, it should be emphasized that wherever the United States finds a follower of peace, a country which fulfills pledges and treaties, a nation anxious to reduce armaments and rely on right, might, there she recognizes a friend and fellow worker.

In conclusion the article says: "If President Coolidge should find it possible to do this, and only he can judge the time and method, he would do a great act as that of President Monroe."

WILL TOUR CANADA

LONDON, Feb. 6.—It is understood that M. C. Frowde, Devon representative on the Football Association, and who was assistant manager to the late John Lewis to the Football Association team which recently toured Australia, has been invited to act in a managerial capacity to the forthcoming Football Association tour to Canada.

Food Stores Burn; Many Face Hunger

ST. JOHN'S, Nfld., Feb. 5.—Word was received here today that two stores in the office of the Money Timber Company at Harbord had been destroyed by fire, and that the superintendent, Frank Dove, had sustained serious injury.

No little apprehension is felt over the news, owing to the fact that Harbord is situated in an isolated part of the White Bay district and that a large number of people are more or less entirely dependent upon the company's stores for food. If the provisions in the stores were destroyed, it is pointed out, the situation is serious.

NEW YORK, Feb. 6.—The National League started the fight Wednesday for the retention of Kenesaw Landis as high commissioner of baseball after his present contract expires in 1927 by unanimously passing a resolution to recommend the extension of his term ten years, thereby forestalling any effort the American League or any other body may make to install another ruler.

QUEEN SQUARE

The cast of operatic artists who will be heard in the Bohemian Girl during the forthcoming engagement of Operafilm at the Queen Square Theatre commencing on Monday at the matinee is headed by Joseph F. Sheehan, who has repeatedly been acclaimed by both press and public "America's greatest tenor."

Mr. Sheehan was recently heard in opera in Chicago, and Herman Davies, the noted Chicago critic, wrote the next day at great length, praising this artist's wonderful gifts and remarking that every year Mr. Sheehan's voice seemed to gain in volume and beauty of tone. Mr. Sheehan's name is known to all lovers of opera throughout the continent and a year ago he returned from a most successful series of engagements as guest artist at various European opera houses. At a performance of "La Boheme" at the enthusiastic Italians rose on mass and gave him a tremendous ovation after his staging of the famous aria.

During the forthcoming presentation of the Bohemian Girl in Operafilm, Mr. Sheehan will be heard in the role of "Thaddeus"—a part which gives wonderful tenor voice every opportunity to display its tremendous power and beauty.

THE WHOLE COUNTRY IS TALKING NOW ABOUT THIS ONE. "Mannequin," by Fannie Hurst, is a throbbing, human interest story of real folks moving in ordinary walks of life who are suddenly touched by the inscrutable hand of destiny. A story that shows dramatically how time, and heredity, and environment operate to bring average people into astounding situations. A picture that has translated to the screen the human touch, the dramatic punch which has made Fannie Hurst one of America's most popular authors.

NOTE—This is the picture in which Walter Pidgeon, of Saint John, has won his spurs as a leading movie player, warranting a salary already of \$2,000 per week.

FOR sixty-four years "East Lynne" has been regarded as the greatest play ever written. Its drama, its heart interest and its pathos have swayed audiences to tears in every country on the globe and in every tongue. Your mothers and your grandmothers have seen it time and again and have been held in its spell. It is without peer in the world of melodrama. There is hardly a soul who has not seen it and been thrilled. More money has passed through the box-offices for this play than any other on record. The great William Fox motion picture version of "East Lynne" is a worthy successor to this stage masterpiece.

DOES your wife pick all your suits for you? No, just the pockets. I'M THROUGH with this service," said the aviator as his plane left the ground. "They make me soar."

TRIDUUM OPENS AT MONASTERY

Three Days Religious Exercises in Honor of St. John Eudes

Father Cloran Speaker at First Ceremony at Good Shepherd Monastery

A solemn triduum, or three days of religious exercises in honor of St. John Eudes, founder of the Order of the Sisters of the Good Shepherd, was opened this morning in the monastery of the order, Waterloo street, and will continue until Monday. The chapel presented a very bright appearance as the occasion was one of great joy and happiness. The sanctuary was brilliant with lights and the altar decorated with many floral offerings. The celebrant at solemn high mass, which opened the triduum, was Rev. Archibald MacDonald, C.S.S.R., of St. Peter's church, with Rev. F. Kearney, C.S.S.R., sub-deacon, Rev. T. M. Nicholl of the Cathedral, was in the sanctuary. The music of the mass was sung by the boys' choir of St. Peter's church, under the direction of the Father Rector of St. Peter's, Rev. Jas. A. Cloran, C.S.S.R.

ADDRESS IS GIVEN. The opening panegyric of a series on the life and works of St. John Eudes, which will be given during the triduum, was delivered by Father Cloran, who spoke of the heroism of the saint and of his virtues, drawing from his theme the lesson that the nearer one lives to God, the purer the heart, the greater the power of the will, and the more the heart is purified, the more it is filled with the love of God. At the end of the mass, veneration of the relic of St. John Eudes took place.

CANONIZED LAST YEAR

St. John Eudes died in the year 1680, after a long life of sanctity. His canonization was introduced at Rome in 1874, and on May 3, 1909, the authenticity of the canonization was acknowledged by a decree of Pope Pius X. His beatification took place the same year. On May 31, 1925, he was solemnly canonized by Pope Pius XI. St. John Eudes founded two religious orders, the Sisters of the Good Shepherd and the Eudist Fathers. The latter order conducts Holy Heart Seminary, Halifax, and also his college in New Brunswick and Nova Scotia.

CAME HERE IN 1833.

In an article in the New Freeman today it is set out that it was at the instance of the late Bishop Sweeney that the Sisters of the Good Shepherd came to Saint John, and in 1833, opened a house of the order here in Waterloo street. The first mass in the new foundation was said by Rev. A. J. O'Neill, later pastor at Silver Falls and to the union of the Assumption, West Saint John, and Father O'Neill was the first chaplain. A niece of Father O'Neill, Miss Katharine McLaughlin, daughter of the late Wm. McLaughlin, is now a member of the order and is stationed in Caylon, India.

SOME FIGURES.

Since the foundation, the Sisters have admitted 1,008 women or girls, placed by parents or guardian or by civil authority. In this class women or girls have found a safe and a safeguard as long as they desired to remain with no other fee than the fruit of their labor. This class today numbers 58. There have been 460 young girls and children admitted in the preservation class. At present this class counts 48. During this period (thirty-two years) 41 inmates and six Sisters have gone to their eternal home. Mother Mary of the Precious Blood is the present superior of the monastery in Waterloo street.
