Duke of Connaught's Speech at Official Dinner in Cape Town

TO ARMY IN INDIA

Reported That Sir Percy Lake Will Command — Australian Views on Proposed British Cabinet Change—Market and Other Old Country News

Times' Special Cable Cape town, South Africa, Nov. 7.—The Duke of Connaught in a speech at the official dinner in Government House said he looked forward with hope and confidence to the happiness and prosperity of the great South African nation. His people were filled with patriotic spirit to the love which Britons of other countries—Canadian, Australian and New Zealand—have for the countries of their birth and in which they have their homes.

Nothing is known at the war office regarding this report. The Savage Club on Saturday dined Col. Pellatt, Lord Strathcona was in the chair. The Paris correspondent of the Standard, referring to measures to be taken by the government against strikes of government servants says the Canadian law for settlement of disputes is very generally quoted in favor of the government view but as a matter of fact this law only subordinates strikes to months' delay and it is very doubtful if, when one has to deal with an organization of the elements of French trade unionism it would lead to any satisfactory results unless supplemented by severe penalties against every kind of strike.

The Times' Sydney correspondent says that Premier Deakin, in a special message referring to the reorganization of the colonial office, says the appointment of a new minister of self-governing dominions would be welcomed in Australia with great satisfaction. The correspondent adds:—The Sydney press and public at present are not interested. No comments have been made but undoubtedly an alteration would be really satisfactory to Australia unless it provided for a new department and staff of travelled, experienced officers constantly in close personal touch with the dominions.

Mr. Vivian, M. P., on his return from Canada says that the free trade movement in Canada is growing and that it is possible a deputation from the Grain Growers' Association will come to England to express their feelings in regard to the preference question.

The cooperation of the Harrod and the Hudson Bay Co., has given rise to hints of even a closer association between the companies. The prospectus of the Canadian Mills and Timber Co. is published, offering \$50,000 in shares. John Rogers & Co's Liverpool cable to day states that, although trade was very slow in the Birkbelean market, there was very little variation in Saturday's quotations which were as follows: States steers, from 12 24 to 13 12 cents; Canadian, from 11 12 to 12 cents; secondary, 11 cents a pound.

Hogs killed in Denmark last week numbered 44,000, Ireland 10,000. Glasgow, Nov. 7.—Edward Watson & Ritchie report 340 cattle on offer; trade sharper for cattle of quality, middling and inferior slow; top quality 14 cents; secondary, 12 to 12 1/2 cents; Bulls—top quality, 11 1/2 to 12 cents; secondary, 11 cents a pound.

"The Day Before" in the Elections in the United States—Reports from New York and Boston—President to Vote in Cincinnati

New York, Nov. 7.—Final broadsides in the hot fought political campaign in this state, fired last night on both the Republican and Democratic sides were followed today by skirmishes for position in doubtful territory preliminary to the election tomorrow. Activity among the leading campaigners was in the Democratic camp.

The task of rounding up the canvass on the Democratic side was left more or less to the rank and file of the campaign orators. Distribution of cash for election expenses was on the day's programme of activities at Tammany Hall, while a similar process was to be gone through at Republican city headquarters.

Theodore Roosevelt, after a short rest on Sunday at Oyster Bay was ready to jump into the fray once more and wind up the canvass with a series of short speeches in Metropolitan Territory. He expected to deliver eight or ten addresses of a few minutes each during the morning and early afternoon.

Henry L. Stinson, Republican candidate for governor, was also in for a day of activity. He was scheduled to appear on the same platform as Col. Roosevelt at three meetings, to address others during the day and to wind up his campaign with a whirlwind tour of the west side delivering a number of speeches on the east side and in the Bronx. Both Col. Roosevelt and Mr. Stinson will be the guests of the Hungarian Republican Club at a dinner this evening. As to the results of Tuesday's ballots, Democratic State Chairman Huppach gave his estimate 145,000 to 160,000 plurality for Mr. Dix for governor, while Republican State Chairman Prentice claimed the state by 110,000 for Stinson.

THE TIMES' NEW REPORTER

GREAT PRIZE COMPETITION At a meeting of the directors of the St. John Standard on Saturday afternoon it was decided to offer a prize of \$20 for the best essay on the subject:—"Shall Quebec Rule Canada?" Contestants are advised that they must not mention Mr. Monk or Mr. Bourassa, and that the word Quebec is to be interpreted as meaning Sir Wilfrid Laurier, who is the real enemy to be destroyed. Mr. Borden must be represented as the saviour of his country, and no reference is to be made to the fact that Monk is his Quebec lieutenant. The prize essay will be published in the Standard and circulated in leaflet form where it will do the most good. If any writer is unwilling to assert that the policy of conciliation which Sir Wilfrid Laurier represents is the British policy, which has built up the British empire, in spite of sporadic howls from political partisans of one sort or another, his essay will be rejected, and a man with a club will see to it that he has a word with him in a quiet corner.

A second prize of \$25 will be awarded to any man who can give a plausible excuse for Mr. Borden's attitude, as an "imperialist," toward the Monk-Bourassa anti-British agitation in Quebec. It would be worth \$25,000 to get such an excuse, but the fund is limited.

A COINCIDENCE

Interview Comes on Same Day as Announcement That Execution of Crippen is Deferred—Nothing to Back Up Fantastic Theory

It is a far cry from Mr. Tobin's assertion to the official announcement at London today that the execution of Crippen would be delayed until Nov. 23, but the coincidence is striking in view of the fact that the announcement was the first intimation that the English law provided for a fortnight's delay between the dismissal of an appeal and the execution of a death sentence. On the contrary it was understood that an appeal hearing was set for Nov. 5 in order that a postponement of the execution would not be necessary.

FAMOUS GEMS OF PROSE

THE HOME OF THE REPUBLIC
By Andrew Dickson White

It is recorded in the annals of the most democratic republic of medieval Italy that, in her pride of institutions and arts, she decreed the building of a cathedral dome far greater and more beautiful than any the world had ever seen.

Meanwhile absurd projects were multiplied. Some proposed a dome supported by a central pillar; but it was voted that a dome which must forever be artificially supported, is but a poor, sickly no-dome.

Then began the rage of rival architects. They derided his plan, reduced his workmen, stole his tools, undermined the confidence of his people. But still that plain, strong man wrought on, ever steadily, ever earnestly.

Yesterday morning the members of the different lodges accompanied by the Sons of England, turned out in parade, marching from the Orange hall, Simonds street, to St. Luke's church, where a special service was held.

THE PATIENT BRAIN

A Tireless Worker So Long As Supplied With Rich, Red Blood.

The brain is one of the most patient and industrious organs of the body. It can be induced, by good treatment, to perform prodigies of work.

But it is sensitive and will not brook abuse. It responds to lack of rest, but if the lack is laid on too hard it balks.

The brain insists on having plenty of good, red blood wherewith to renew its waste and from which to manufacture the nerve force supplied to the whole body.

Nervous trouble is generally brain trouble, and no suffering is to be compared with that of the brain. It is a common mistake to think that the accompanying dread, suspicion and melancholy.

He will, however, arrive today at noon. The services yesterday were conducted by Rev. W. S. Jacoby, D. D., of the Moody Training Institute, Chicago, who is to assist Dr. Torrey in his St. John's campaign, and he made a fine impression on the people. He is a man of splendid physique and a powerful speaker. His work after the arrival of Dr. Torrey will be mainly among the personal workers.

GIVE YOUR STOMACH
A NICE VACATION

Don't Do It By Starving It Either—Let a Substitute Do the Work.

The old adage, "All work and no play makes Jack a dull boy," applies just as well to the stomach, one of the most important organs of the human system, as it does to the man himself.

If your stomach is worn out and rebels against being further taxed beyond its limit, the only sensible thing you can do is to give it a rest. Employ a substitute for a short time and see if it will not more than repay you in results.

Stuart's Dyspepsia Tablets are a willing and most efficient substitute. They themselves digest every bit of food in the stomach in just the same way that the stomach itself would, were it well. They contain all the essential elements that the gastric juice and other digestive fluids of the stomach would do just the same work as the stomach would do, were the stomach well.

The "vacation" idea was suggested by ago. Recalling he says: "I was engaged in the most momentous undertaking of my life in bringing about the coalition of certain great interests that meant much to me as well as my clients. It was not the work of days, but of months. I was working night and day almost, when at a very critical time my stomach went clear back on me. The undue mental strain brought it about and hurried up what would have happened later on."

"What I ate I had to literally force down and that was a source of misery as I had a sour stomach much of the time. My head ached, I was sluggish and began to lose my ambition to carry out my undertaking. It looked pretty gloomy for me and I confided my plight to one of my clients. He had been cured by Stuart's Dyspepsia Tablets and he once went down to a drug store and bought a box up to the office."

"I had not taken a quarter of that box before I found that they would do all the work my stomach ever did; and as a rest or vacation was out of the question for me, I determined to give my stomach a vacation. I kept right on taking the tablets and braced up and went ahead with my work with renewed vigor, ate just as much as I ever did and carried out that undertaking to a successful issue. I feel that I have Stuart's Dyspepsia Tablets to thank for saving me the handsome fee I ever received as well my reputation and last but not least my stomach."

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box.

The Eastern steamship liner Calvin Austin, which was due to arrive port Saturday afternoon, did not reach port until 6 o'clock last evening, having been delayed in Boston a whole day on account of the terrific storm which swept the New England coast. The Austin was due to leave Boston Friday morning, but did not get away until 7 o'clock the following morning.

No rough weather was encountered on the trip. The Austin is in charge of Captain Pike, and brought seventy-five passengers. The White Star liner Cedric which arrived at New York from Liverpool yesterday had on board Captain Holder and four men comprising the crew of the Maine schooner, Florence Leland, which was abandoned, waterlogged, mid-ocean Oct. 16. The vessel which was owned by A. O. O. Gross, sailed from Margaret's Bay, N. S., with spruce logs and ran into the ice.

The steel schooner James William, from New York for Bridgewater, N. S., arrived at Vineyard Haven, yesterday, and reported that she had been in collision Saturday night with the schooner George W. Wells. The Williams had some of her main rigging, and had her bulwarks stove in. The Wells was not badly damaged, and proceeded to her destination.

GETTING EVEN

(Judge.)
"Well," sighs the man with the wash tie, "now that the aeroplane is becoming popular the women won't spend so much money for automobile hats and veils."
"No," growls the man with the ingrowing mustache, "but they'll blow it just as easily on silk stockings and high heeled shoes."

The Pugsley building on the corner of Prince William and Church streets has been sold to Edmund G. Kaye, Mr. Kaye when asked about the matter this morning declined to say for whom he was acting. It is understood on reliable authority that the building has been secured for the Merchants' Bank of Canada, and will be remodelled and occupied by that corporation in the near future.

WILL MOVE TO BUILD A NEW FERRYBOAT

Ald. Potts Home from New York Today—He Says Some Things About the Market Upheaval

Ald. Potts, who has been away in connection with the purchase of a new ferry, returned today. He said that the conclusion that it would be better for the city to build a boat, which he is now building, will move that tender be called for. He expressed the opinion that the traffic situation warranted the city in building a boat that would meet the needs.

Asked for a statement on the market conditions, Alderman Potts said: "I have not been very much in touch with the market, but I think that they could have brought the matter up before I went away. I had always been to take up one thing at a time and put it through, and I feel that none would deny that he had made a success of the ferry service, which he had entered much energy."

It is understood that the Aldermen have begun to consider a resolution for a \$100,000 ferry boat.

MR. ROBINSON SPEAKS OF LAND PLANS IN LANGASTER

H. B. Robinson, of the banking firm of J. M. Robinson & Sons who has sent a communication to the common council stating that if the city desires to sell some of its property in Lancaster and will accept a price upon it, he is ready to consider the purchase of a block of land there, told the Times this morning that it was proposed to improve the land and divide it into building lots. Mr. Robinson said he was of the opinion that the city should sell some at least of its leasehold property, in order to encourage building. The present leasehold system he considered very unsatisfactory.

If the Lancaster property could be secured the men he represented were prepared to improve it with the idea of selling it in lots for building purposes. If one block was improved it would enhance the value of adjacent blocks, and if the whole thing was done with them unless it would be to them up with twenty-year leases.

He said the street railway was not interested. There was no present intention to extend their tracks in that direction, though this might be done if the land was developed. If the lands were secured, it was proposed to ask the government to strengthen the suspension bridge so that traffic in that direction would be carried on better and perhaps eventually have the street cars go over the bridge and out to the newly opened district.

DR. TORREY ARRIVES

Rev. Dr. Torrey, the evangelistic preacher, reached the city at noon today. He was met by a number of ministers and then driven to the Clifton House, where he will stay while in the city.

Owing to the storm, which raged throughout Pennsylvania, he was unable to reach here until today, "and I am thankful to be here," he said. Dr. Torrey, laughing to a reporter, "for I was compelled to drive nine miles through snow twenty-four inches deep, only to find that the train in that section of the country had discontinued running. Consequently I was obliged to retrace my tracks with the discomfort of having my sleigh overturn twice in the drifts."

Dr. Torrey will address his first meeting here this evening at 8 o'clock, and his subject will be "Is There a God?" On Tuesday evening his subject will be "Five Reasons Why Believe in the Word of God." Wednesday, same as Tuesday; Thursday: "First Question God ever asked of Man." Friday evening: "Ten Commandments."

EVANGELICAL ALLIANCE

At the monthly meeting of the Evangelical Alliance today a letter was read from the Socialist party, asking that one of their members be permitted to give the alliance an idea of their teachings. This was referred to the general committee as a committee from F. J. T. Boal, about the spiritual work among deaf mutes. Rev. Mr. Thomas, of Charlotte-street, P. E. I., was welcomed at the meeting.

Messrs. Appel, Roper, Raymond, Flinders and Cunniff were appointed to arrange for the work of prayer services to commence on the first Sunday in January.

Rev. Messrs. Flinders and Kubring gave a description of the convention in the interests of the "Man and Religion" movement. A strong resolution was passed endorsing the movement. Rev. Messrs. Lawson, Gaetz and Porter were received as members of the alliance.

GREAT LABOR STRIKE MAY TIE UP NEW YORK

New York, Nov. 7.—On the eve of a labor conference at which a move to call a general strike in support of the striking express employes will be discussed, with the probability that an attempt will be made to tie up practically everything in wheels in this city, a strike of 1,000 drivers of taxicabs was declared today in sympathy with the express men.

It is claimed that the calling out of the taxicab drivers was intended as the beginning of one of the most determined labor movements this city has ever witnessed.

The strike leaders today declared their belief that a general strike was inevitable.

LAURIER AND EORDEN

The St. John Standard cannot persuade anybody that Sir Wilfrid Laurier is a "separatist" when Sir Wilfrid's candidature has just been defeated in Quebec province by the separatist party, aided by the Conservatives. In this fight Sir Wilfrid was described as the "imperialist" who proposed to pay with the blood of French Canadian victims for the honors he received from England. The Standard cannot persuade anybody that Mr. Eorden is playing the part of a statesman when he encourages the growth in Quebec province of a spirit that is hostile to the best interests of the whole country. If Mr. Eorden were a statesman of the right sort he would say to the electors of Quebec: "Gentlemen, I am not only in favor of Canada taking part in the defence of the empire, but I have declared that I would go even farther than Sir Wilfrid Laurier; and I believe that this country has far more to fear from men like Monk and Bourassa than from any other cause of which I have knowledge. I have no sympathy with them. I repudiate their doctrines. I value the unity of Canada and the empire more than an apparent party gain, won at the cost of my self respect. In this fight I stand with Sir Wilfrid Laurier, not with Monk and Bourassa." The Victoria Colonist, which is one of the finest Conservative journals in Canada, puts it up to Mr. Eorden in this manner:—

"An amazing feature of the case is that some people imagine that this Bourassa campaign is acceptable to the Conservatives of Canada. It will be more likely if it bids fair to be successful in Quebec to force sane Liberals and sane Conservatives into an alliance to prevent the disruption of the Dominion." The St. John Standard is one of the party organs that would welcome disruption or any other evil, so long as it seemed to promise an opportunity for the defeat of Sir Wilfrid Laurier. But the people of Canada are not to be deceived. They have taken Mr. Eorden's measure, and know that if the British policy of conciliation is to be continued in Canada it must be along the lines laid down by Sir Wilfrid Laurier, and not by Henri Bourassa.

RECIPROCITY NEGOTIATIONS

Conservatives are busy trying to make the people believe that the government has entered into reciprocity negotiations with the United States with a cut-and-dried scheme which will hand Canada's market over to the United States manufacturer, and will tend to nullify the British preference and the hope of increasing our trade with Britain. On another page of today's Times is given a review of the proceedings leading up to the negotiations now in progress at Ottawa. Canada's interests are not to be sacrificed. This country merely meets in neighborly fashion a neighbor who comes with propositions for better trade relations. The Ottawa Free Press well says:—

"The whole situation is fraught with hope rather than with danger. The American government, long hostile in an economic sense to Canada, is now animated by a distinctly different spirit. To greet manifestations of this change of heart by a hostile attitude would be unneighborly and unstatesmanlike. There are few problems of deeper national import to Canada than the problem of how to maintain, in perpetuity, cordial relations with the great republic. If these reciprocity negotiations lead to something or to nothing they will have represented an honest attempt on the part of both peoples to advance the cause of international amity. Had the Canadian government declined to negotiate, they would have been justly exposed to the charge of ignoring national and imperial considerations of high moment."

HATRED OF ROOSEVELT

If the Roosevelt candidate is not beaten in New York state tomorrow it will not be because such a result is not hoped for by the great financial interests. As an illustration of the hatred Roosevelt has used by his campaign against the trusts may quote the following bitter attack

made in the weekly circular of one of the large brokerage houses:—
"The import of the heavy blow to be dealt to Roosevelt on Tuesday next is of far-reaching significance. It means that while the American thinking class is long suffering it is sure to assert itself when great danger menaces. It was willing to give to Roosevelt every credit that belonged to him in his earlier efforts to curb the power and monopoly, to purify the methods of corporation procedure and to work for justice for the individual in his unequal contest with the great forces of combination. It deplored his methods of bombastic performance, or rather speech, but was willing to give him credit for honesty in his purposes, as for the general good. These were many, it is true, even then, who saw through his character and reluctantly recognized the insincerity of the man; became aware that his gluttony for publicity and popular fame was really at the base of all his actions, and that with the coming of the great politician, which he has always been admitted to be, he was concealing his own selfish aims by enshrining himself as the avenger of popular wrongs. For even this he was forgiven because of the trend towards justice to the weaker class, which his actions seemed to be bringing about. But Roosevelt, himself a change was taking place. The greed for popular approbation and personal power was growing enormously, fed by the adulation of the nation. This desire for tyrannical control was swelling and crushing out all other qualities of his character. The New York situation presented itself and, like the tiger sprang into the open and revealed himself a Frankenstein dangerous to the whole country. It was then that the best thought of the nation turned against him. It was the first time after long success that he had been intelligently opposed. His true character, so long hidden, revealed itself, furious under condemnation. He became more and more the demagogue, and each day he added to the revelation. The thoughtful people of this country in all classes are set steadily against him and his downfall will restore confidence everywhere."

It is needless to say that Roosevelt is as ardently defended as he is savagely attacked. The result of tomorrow's contest will tell whether his friends or his enemies are the more powerful.

BOOMING A CITY

The advertising committee of the St. John board of trade should take courage from the example of the city of Seattle. The story is thus told by the Ottawa Journal:—
"Five years ago Seattle citizens subscribed in one day a million dollars for the purpose of the Alaska-Yukon-Pacific Exhibition, which was merely a gigantic and glorified advertisement of that Puget Sound city. The subscriptions averaged about five dollars apiece for every man, woman and child in the municipality. But this subscription gave excellent results. People flocked to the city, enquiries poured in, land, business, everything boomed ahead as it never had before. And the quick-witted westerners learned their lesson, that publicity pays splendid returns. And now, when the effect of that advertising is somewhat dissipated, a Seattle clergyman proposes that another million be subscribed for advertising the city. And the newspapers and public bodies enthusiastically take up the idea. And it is noticed that this money is not money gathered by the city in the form of taxation. Each man has to go down in his pocket personally. But each man knows he will get his subscription back in some indirect fashion when the miracle of advertising begins to show results. "They have public spirit, these westerners. They raise a million dollars in a city not three times the size of Ottawa quicker than Ottawa raised that \$2,000,000 publicity subscription. And that Seattle, after experiencing the benefit of the expenditure of one million on advertising, should be willing to dig down and put up another million, is about the best evidence that can be offered of the value of civic publicity."

L'ENVOI OF HOUSECLEANING.

When Earth's last picture is dusted,
And the floors are painted and dried—
When the oldest carpet is beaten—
And the youngest spider has died—
We shall rest, and, faith, we shall need it!
Lie down for a moment or two;
Till the dust on the grand piano
Shall set us to work, anew.
We shall have real paint to lean on;
File everything into the hall,
And scrub for hours at a sitting—
And never be tired at all!
And they that are clean shall be happy;
They shall eat off a kitchen chair,
And splash with a seven-league dust-mop
At the back of the chiffoniere.
And the Man of the House shall praise us—
And, shall—(more than probably)—
blame;
And we never shall get any money—
(And certainly not any fame).
But each for the joy of the cleaning—
And each in her feminine gloe
To look just as well as the neighbors—
For the sake of Things They Might See!
—Laura Simmons in The Circle.

INDIGESTION GOES AND YOUR STOMACH FEELS FINE AGAIN

Stomach Gas, Heartburn, Headache and Dyspepsia Misery Ended With a Little Diapepsin

There would not be a case of Indigestion here if readers who are subject to Stomach trouble knew the tremendous anti-ferment and digestive virtue contained in Diapepsin. This harmless preparation will digest a heavy meal without the slightest taste or discomfort, and relieve the sourst, acid stomach in five minutes, besides overcoming all foul, Nauseous odors from the breath. Ask your pharmacist to show you the formula, plainly printed on each 30-cent case of Diapepsin. Then you will readily understand why this promptly cures Indigestion and relieves such symptoms as Heartburn, a feeble lamp of lead in the stomach, belching of gas and Eructations of undigested food, water, grass, Nausea, Headache, and the presence of many other bad symptoms. Besides, you will not need laxatives to keep your stomach alive and interested in digesting your meals. If your Stomach is sour and full of gas, your food doesn't digest, and your meals don't seem to do you any good, even then, who saw through his character and reluctantly recognized the insincerity of the man; became aware that his gluttony for publicity and popular fame was really at the base of all his actions, and that with the coming of the great politician, which he has always been admitted to be, he was concealing his own selfish aims by enshrining himself as the avenger of popular wrongs. For even this he was forgiven because of the trend towards justice to the weaker class, which his actions seemed to be bringing about. But Roosevelt, himself a change was taking place. THE THINGS THAT USED TO BE
Let me take a little homily and weave it for your sake
Through some homely little verses which may possibly be published in the future.
In some far-off little corner of your heart a memory
Half-forgotten from the attic of The Things That Used to Be.

Oh, you blatant, sneering cynic, who go scolding through the world,
With your selfish heart all calloused and your lip forever curled;
Who would loathe your empty virtue, and at innocence—come see
What diversion we can find among The Things That Used to Be.
Here's a little glove—pathetic in its quaint and ancient grace,
Bringing up the picture of a modest fairy face.
Your first sweetheart? Hark! I hear her heart singing low a love song in the tender month of June!
On your arm she sits trembling, on your hip she leans her weight;
Dare you look again and say there is no purity in this?
But a love and seductive rustles through the bending maple tree;
Turn away! These too, belong among The Things That Used to Be.
Here's an old and battered school book,
Mice and ants have scoured it sore,
But it still recalls a picture that you saw when 'er and 'er
You pursued their criminal pages in the golden days of youth,
Searching for the key to glory and the royal road of truth,
Life was not an empty chalice; on the maiden's forehead fair
You gazed reverently—beholding but the stars that shined there!
Poor disgraced book! All sullied through your heart's epitome!
Put it back upon the shelf among The Things That Used to Be!

Oh, poor outcast of sweet sympathy!
As far away you gope,
Sick of soul and dry of vision, on the borderland of hope,
Tell me, then, what tender token you can leave with memory,
When you, too, pass out to mingle with everything below east?
(Lowell Otis Reese in Leslie's).

STRANGE REPTILES

The horned toad is a peculiar reptile, which is common in the deserts of the west. It can be tamed until it will take ants and flies from the hand.
The legless lizard is sometimes called the glass snake, or joint snake. It is found in Southern forests. If it is hit with a stick, it sometimes breaks into a number of fragments, and might reasonably be supposed to be killed; but, no—the broken parts are really only his tail, which is far more brittle than his body proper. He can lose it and still remain well and happy.
The worst lizard native to our country is probably the so-called "Gila monster," which frequents the Gila River districts, in the southwestern United States. It wears the Princeton colors of orange and black, and has venomous and sometimes fatal fangs.—Nassau, Queen Charlotte, in the Christian Herald.

The Evening Chit-Chat

By RUTH CAMERON

The Girl who is Planning to Teach School. Any School or College.

That's what I'd put on the envelope if I were addressing today's letter. And since I can't put it in an envelope and send it to her, I'll just breathe a hope that it will fall into her hands.

When I meet young girls at college I usually ask them, "What are you going to do when you are graduated?"

And in well, to put it conservatively—six out of ten cases, the substance of the answer is "Teach."

And in at least four cases out of the six, that answer is given in a form that shows the speaker's entire lack of enthusiasm.

Such, "I do not know what else to do, so I suppose I'll teach," or "I guess I'll teach. Everybody does."

Dear girls every here, high school and college girls, who are saying things like this, who are planning to teach, not because you think you are especially qualified for the work or will particularly enjoy it, but just because it's the easiest and most conventional thing to do, just because "everybody does," I want you to change your mind.

What you are planning to do isn't fair to you and it isn't fair to the children to whom you are to be a teacher.

It is bad enough to do anything just to earn your living and not for love of the work, but to teach in that spirit is even worse, because it will mean loss to many helpless children, as well as to you.

Mary Lyon, that wonderful woman and queen of teachers who founded Mt. Holyoke, believed it was almost wicked to teach for money.

"Never teach the immortal mind for money," she advised her girls. "If money making is your object, be dressmaker or milliner, but teaching is a sacred, not a mercenary, employment."

Anyone who thinks that sounds rather grandiloquent may be interested to know how Miss Lyon lived up to her advice. She founded Mt. Holyoke and was its president, a position involving tremendous work and responsibility in those pioneer days of women's education, and yet she insisted on doing most of the work, adding to her highest salary \$200 a year or about \$170 a day.

Wouldn't she be grieved and saddened if she could see how hundreds of young women each year take up the profession of teaching just because they must do something to bring in a monthly pay envelope in the easiest and most conventional method?

Dear girls, for everyone of you I know there is something that you can do really well and will really enjoy.

It may not be anything as conventional or as easy to get a start in as teaching. But it is something that will give you infinitely more happiness than merely following the line of least resistance and being an indifferent or mediocre teacher. Maybe you have no idea yet what this work may be.

But I believe that if you make up your mind that you will not follow that line of least resistance into an already overcrowded profession, but will find your own niche, and if you will keep ever alertly on the watch for any hint or suggestion within or without yourself that may guide you to that niche, that the way will surely be opened unto you.

Don't you try it?

Mix well with dates, should be of consistency of cream mixture. Bake in one crust. When cold spread whipped cream on top, or instead of cream, serve the three whites of eggs for meringue.

SNOW PUDDING. In half a teacup of cold water put half a package of gelatine. Let it stand for an hour. Pour over it a pint of boiling water, adding two teacups of sugar and the juice of a large lemon. Set aside again, and when cool but not cold, mix in the whites of five eggs and beat till a stiff froth. For a custard to be served separately and poured over the pudding, take one egg and mix with three or four wild one pint of milk and a teacup of sugar.

AGREEMENT AS TO BRITISH HOUSE OF LORDS

Broad Constitutional Convention Will Be Held Next Year

Federation of Empire—Whole Subject to be Considered—Home Rule Gossip

London, Nov. 6.—It may now be announced on the best authority that the conference of the leaders of the government and the opposition to consider the question of the House of Lords will result in holding a broad constitutional convention next year which will deal with the whole subject of the federation of the British Empire.

This degree of understanding among the leaders has been reported during the past three weeks, where as a month ago no agreement seemed possible. Its explanation is the remarkable growth in favor of the federation idea among political men of all classes.

Ireland, of course, was the chief stumbling block. It was found that even the most radical members of the government, including Winston Churchill and Lloyd George, were strongly opposed to giving Ireland the degree of independence possessed by Canada and Australia. They were willing to concede to her similar relations to the imperial government as Ohio to Washington or Ontario to the Dominion of Canada. The Unionist leaders are ready to compromise in the Irish question on that basis.

The details of local government for Scotland, Wales and England must be worked out next year at the convention. Meanwhile constitutional questions will be dealt in abeyance in parliament, and by mutual agreement between both parties Mr. Redmond will be deprived of all power to embarrass the government, the Unionists, if necessary, voting with the cabinet. Mr. Redmond has vacillated so frequently since he has been in America that his real position is not understood here by anybody, but, according to a dispatch from Albany, N. Y., published here he demands home rule similar to that enjoyed by the independent colonies. Should he attempt to press this demand when parliament reassembles, he will meet the combined opposition of the Liberals and Unionists.

Mr. O'Connor, according to the latest despatches, favors the milder home rule enjoyed by the individual states of America. There is a growing evidence that the masses of Irish home rulers will welcome such a dispensation. Public opinion in a whole in this country will receive the announcement of the proposed solution of the constitutional crisis with a general satisfaction. It will officially be made public soon after parliament meets.

All up and down the town we see: "Umbrellas to mend!" But wouldn't this old world be fine if we could only see the sign "Umbrellas to lend?"

"Hearing of Dr. Morse's Indian Root Pills I bought a box and tried them. From the very first I experienced relief. Continued my treatment and my troubles were slowly but surely leaving me, and before long I knew more than what it was to be free from the harassing effects of the ailments that had long sickened and weakened me. So great is my faith in Dr. Morse's Indian Root Pills that I shall never on any account be without them."

Do your baking with flour made exclusively of the HIGH-GRADE constituents of the HARD-WHEAT berry

Have you ever baked with flour made exclusively of the high-grade constituents of the hard wheat berry? If you haven't, now is the time to try PURITY Flour.

Only the cream of the Manitoba hard wheat—the best wheat in the world—is used for PURITY Flour. More than that, only a portion of the flour milled from this wheat goes into the sacks and barrels branded PURITY.

But PURITY is very economical because it makes more bread and better bread. The cost per loaf is no more than when using weaker flour, and the food value is much greater.

PRISONER ESCAPES

A bold and successful dash for liberty was made yesterday morning by Albert Globe of Carleton, who was arrested on Saturday afternoon by Sergeant Baxter on a charge of being drunk on Walker's wharf. He was placed in a cell in Water street lock-up. There he remained until yesterday morning at 5 o'clock, the hour when the prisoners are brought from the district lock-ups to central station. About that time he was being brought in custody of Policemen Crawford, McNamee and Anderson, to central station, but when a short distance from the Water street lock-up, he bolted, and, running into an alley, made his escape. The police made a careful search but failed to find him.

ST. JOHN MEN NEAR DEATH AT FAR ROCKAWAY

Hiram and Donald Munro Narrowly Escape Drowning - Saved After Hard Struggle

A New York paper gives this account of the narrow escape of two St. John men from drowning a week ago yesterday at Far Rockaway, Long Island:— The eight of three men in a small row-boat battling for their lives against a storm swept sea held a crowd of Sunday beach strollers spellbound for more than two hours here this afternoon. There were no other boats in the immediate vicinity, and had not the wind changed its course the result of the unequal struggle might have been fatal to the trio of fishermen.

Persons who came to the beach for the three men in the boat were Hiram Munro, brother of W. A. Munro, of St. John, and also a prominent life-saver of that place, and his nephew Donald Munro son of W. A. Munro of St. John, and H. C. Freeman, of New York, who has a summer home at Edgemere. The three men left Edgemere in the morning, intending to spend the day in boating off the new bar being formed from Long Beach, down to Far Rockaway. The wind was blowing, but not to any alarming extent, during the morning, but early in the afternoon out of the northwest came a high wind that lashed the sea and drove the small craft high on the sandbar.

Although drenched with the ice cold water the men dragged the boat through the surf back to Edgemere, preferring the soaking and the difficult tramping through the surf to an attempt to again row with the sea in such a condition.

CABLE BETWEEN GANNET ROCK AND SEAL COVE

Important Work by the Public Works Department - Six Cables Now in Bay of Fundy

A cable has been laid between Gannet Rock and Seal Cove, Grand Manan, by the public works department steamer "Tyran" Capt. Dixon, which left St. John on last Tuesday. This is a very important and much-needed work.

It was remembered about a year ago the Hestia was in the vicinity of these treacherous rocks and there was considerable loss of life and it was claimed that had there been communication established with Gannet Rock, prompt aid could have been rendered the suffering crew. The new cable makes six operated and maintained by the public works department in the Bay of Fundy and kept in operation and repair by the "Tyran." It is more than likely this ship will eventually have to make either this port or Halifax her headquarters. At the present time North Sydney is the home port and it is claimed by shipping men that there should be a change as in the event of any of the cables becoming defective or breaking in the late fall or winter the "Tyran" before May owing to ice and other conditions, not favorable to shipping.

J. Wendall McCosh Learns that Brother, Missing Since September Has Been Found

William McCosh, who had left Woodstock, N. H., to visit his old home on the Miramichi, and had not been heard from since the first week in September, has been located. It was feared he had met with foul play. He was last seen in Sherbrooke, Quebec. His brother, J. Wendall McCosh, of this city, set the wires at work and through Chief Clerk, got in communication with the Sherbrooke authorities. He has today received word that his brother has been found in Sherbrooke, but no reason is given for the long silence that so greatly worried his relatives.

BIG GAME PLENTIFUL Joseph R. Campbell, of Tynemouth, Quebec, while out hunting near his home shot a fine bull moose with an antler spread of forty-five inches. Mr. Campbell reports big game plentiful. Two moose which passed close to his house a few nights ago broke down a heavy wire fence. A large number of deer have also been seen in the vicinity.
