ST. JOHN N. B., WEDNESDAY, JULY 3, 1901.

CHAMBER OF DEPUTIES A LIVELY BODY.

Members Put Up Some Strong Talk Upon the Chinese War and Its Cause.

A PROTEST MADE

Against French Expedition -- War Declared Due to Missionaries and Capitalists--More Credits Issued, Though -- Charges and Denials Made.

Paris, July 1.—The Chamber of Deputies today voted supplementary credits amounting to 80,000,000 francs to defray the expenses of France's Chinese expedition. In the course of the discussion of this subject M. Sembat (Socialist) protested against the Chinese expedition and declared the war in China was due to missionaries and capitalists. He spoke of the brutality of the European troops in China and demanded that an inquiry into their activities there be made. M. De Cassas, minister of foreign affairs, repudiated the allegation that the French government had acted, concerning China, without consulting parliament and revealed, in the circumstances, the sessions in the Chamber of Deputies when the government had been called upon to act vigorously in the matter. He rendered homage to the French soldiers and said a despatch would be found in the coming yellow book in which the Chinese themselves did justice to the French troops. M. De Cassas, minister of marine, also denied that atrocities had been committed by Frenchmen. He declared that inquiries already made had failed to show more than 20 or 30 isolated acts of brutality and said that account must be taken of the state of mind of the men who were doing the fighting. M. Reno Viviani (Radical Socialist) moved an amendment calling upon the government to relinquish the protectorate of missionaries in the far east. This rejected by a vote of 425 to 170. The credits were then voted by 474 to 71.

CRUSHED TO DEATH AT CIRCUS PARADE.

Small Boy the Victim at Halifax -- Conservatives' Picnic.

Halifax, July 1.—(Special)—A little boy named Boutiller, son of Henry Boutiller, was run over on Morris street this morning, and died half an hour later at Victoria General Hospital. It was when the circus parade was passing along Morris street that the accident happened. The little fellow's head blew off and he ran out in the roadway after it. As he did so a poor-house team loaded with wood struck him and one of the wheels passed over his chest. The team was driven by an elderly man to whom no blame could possibly be attached. The horse became frightened at the steam whistle in the parade and reared and plunged. The driver tried hard to pull him up, but instead the horse took control and ran on, striking the driver of his seat and a moment later the team struck the little boy. The Liberal Conservatives' picnic at Prince's Lodge this afternoon, was poorly attended, not more than four hundred going up. It. L. Borden, Messrs. Monk, Clark Wallace and other prominent politicians, it was announced, would speak, but the only ones who turned up were Borden, Monk and Wilcox. Clarke Wallace, Powell and McInerney sent regrets at being unable to be present.

GIFT TO BRITISH NAVY.

Announcement in House of Lords Respecting the Maine Given by American Ladies.

London, July 1.—The Earl of Shelburne, as Lord of the Admiralty, announced in the House of Lords today that the hospital ship Maine, which was fitted out by a committee of American ladies for the use of the wounded and sick in South Africa and which was later sent to Taku, where she took on board wounded and sick men of various nationalities, had been presented as a free gift to the British navy. The Earl read a letter from President Bernard Baker, of the Atlantic Transport Company, offering the Maine, and also the account of the vessel's service. Lord Selborne added that the ladies of the Maine committee had donated the ship's hospital fittings. This gift of citizens and ladies of the United States was a most generous one. Lord Spencer concurred. He said they all appreciated the gift very highly, not only on account of the ship herself, but also on account of the cordial relations and good feeling existing between the United States and Great Britain.

THE NEW CUP DEFENDER BEATEN BY THE COLUMBIA.

The Victory by the Small Margin of Forty-eight Seconds-- Misfortune Lost for New Boat.

Newport, R. I., July 1.—The Constitution was defeated by the Columbia today by the small margin of 48 seconds, in the first race in which the new Herreshoff had participated. Although the contest from start to finish was close and at times exciting, in the opinion of a majority of yachtsmen, the Constitution lost through misfortune. However, the result of today's contest is far from conclusive and there is still much to be decided as to the relative merits of the two vessels. The mishap to the new boat came about an hour after the start. While the boats were on the second long tack to windward, the crew of the Columbia was carried away and for some ten minutes she was without the use of that sail. This accident set the Constitution back practically a mile, but in spite of it she was able to get within two minutes of the Columbia on the turn, and cut this lead down more than half on the run home. Some of this gain, however, was undoubtedly due to the fact that she brought up the better wind. The Columbia did not escape without accident, either, for immediately after crossing the finish line, in jibbing over the big main-sail, her main boom buckled and she had to be towed to the city. It will be necessary to sling a new spar before the Columbia can race again, but it is expected it will be in place for a race Wednesday. The event today was the first of a series of special races arranged by the New York Yacht Club for the purpose of bringing the two yachts together. The starting line was six miles east of Brewster's Reef lightship, and the signal was Columbia off at 11:40:34 well to windward, and three seconds in advance. The starboard tack she sailed forth valiantly, pointing up bravely with a capital luff. The Constitution, with a rare burst of speed, came on with a rush, and ran through the Columbia's lee, pointing for a much higher position than was expected of her. This did not last long, however. The Constitution, by a large margin, footed faster than the Columbia, but while the new boat had not the grip on the water that the old craft had the Constitution went leeward like a crab, while the Columbia not only pointed, but was bound to fetch what she pointed for. Along on the starboard tack the two yachts sailed, both pointing at an eight-knot gale. At 12:24 p. m., when the Constitution's helm was put down, the Columbia also came about and for a few minutes, suddenly the luff of the Constitution's big jib began to shake. The pennant of the sheet failed and the Constitution was blown down the cable by the jib halyards by the run, while a dozen men climbed out on the boom to get her.

U. S. PUBLIC DEBT.

Statement of the Close of the Fiscal Year-- Decrease of the Debt in June.

Washington, July 1.—The statement of the public debt, issued today, shows that at the close of the fiscal year, June 30, 1901, the debt, less cash in the treasury, amounted to \$1,044,730,120, a decrease during June of \$17,737,374. This decrease is accounted for in the main by an increase in the cash on hand. The debt is recapitulated as follows: Interest-bearing debt, \$987,141,040; debt on which interest has ceased since maturity, \$1,415,620; debt bearing no interest, \$383,015,584. Total, \$1,775,776,244. This amount, however, does not include \$771,754,689 in certificates and treasury notes outstanding which are offset by an equal amount of cash on hand held for their redemption. The cash in the treasury is classified as follows: Gold reserve fund, \$150,000,000; trust funds, \$771,754,689; general funds, \$108,497,248; in national bank depositories, \$104,416,973. Total, \$1,181,868,011, against which there are demand liabilities outstanding amounting to \$855,685,786, which leaves a cash balance on hand of \$326,182,225.

Nordica to Open Wagner Theatre.

New York, July 1.—A cablegram announces that Mme. Lillian Nordica has been engaged to open the new Wagner theatre and the season at Munich in September, when she will sing Isotta in Wagner's music drama.

Additions to German Navy.

Berlin, July 1.—The navy estimates for 1902 contemplate the construction of two battleships, one large and two small armoured cruisers, and the usual number of torpedo boats. It is estimated that the total cost will be \$3,500,000.

MAY MODIFY THE KING'S OATH.

A Concession to Roman Catholics Has Been Recommended by House of Lords Committee.

London, July 1.—The report of the select committee of the House of Lords appointed to consider the declaration of the sovereign in regard to transubstantiation finds that the language can be advantageously modified without diminishing its efficacy, as security for the maintenance of the Protestant succession. The form of declaration suggested by the committee does not contain the phrases relative to idolatry, etc., which are so objectionable to Roman Catholics.

AFFAIRS OF COLONY SHOW ALL IS WELL.

Newfoundland's Finance Minister Had Good Report to Present Legislature.

MORE SURPLUSES.

For Year to June of 1899 it was \$78,000; Grew to \$258,000 in the Next Year; Was Reduced for Last Year Because of Unforeseen Circumstances.

St. John's, Nfld., July 1.—The budget presented by the minister of finance today shows a surplus for the fiscal year ending June, 1899, of \$78,000 and for the year ending June, 1900, \$258,000. The surplus for the year ending June, 1901, has not yet been calculated, the accounts remaining open for four months before final adjustment. The cost of the general education and other special unforeseen expenditures will reduce this surplus; but owing to the anticipated changes in the revenue arrangements as to imports and bonded goods, which it is expected will yield \$101,000 in duties for the fiscal year ending June, 1902, it is estimated that the surplus for that period will be \$39,000. The government will reduce taxation on fish-empowerment.

BRITAIN AND COLONIES AT LONDON BANQUET.

Mr. Chamberlain Would Have Address of Colonials as Well as Armies.

London, July 1.—Lord Strathcona and Mount Royal presided tonight at the Dominion Day dinner, given at the Hotel Cecil, London, and attended by 200, including Mr. Chamberlain, Lord Aberdeen, Sir Louis Davies, David Mills and other former Canadian ministers, and other Canadian ministers now in London. General Ian Hamilton, Rear Admiral Douglas, Gilbert Parker and other well-known men. Mr. Chamberlain, speaking of Canada's material progress, said: "Thirty years ago your thoughts might have turned to the question of absorption to the south." This was received with cries of "No, no," from Mr. Dobell and other Canadian ministers. "Yes, you may say 'No, no,' but you would not have said so 30 years ago. Of one thing I am convinced. If our colonies desire closer connection and will assist us with their arms and advice, in addition to their tribute, there is nothing this country would more readily welcome." Referring to Great Britain's isolation the colonial secretary said: "I do not think the opinion of civilized Europe today is likely to be the verdict of posterity. Of much more value is the opinion of our colonies than the untrusting opinion of Europe which is based upon lies foisted upon Europe by our enemies abroad and traitors among us at home. We may be isolated among the nations of the world, but so long as our children rally around us we are not alone."

SPILLING "BOOZE" IN PROHIBITION CITY.

All Day a Stream of Liquor Flowed from City Building in Portland.

Portland, Me., July 1.—The six thousand dollar stock of intoxicants in the liquor store at the county building here, was considerably reduced today. The labels on numerous bottles and packages having expired, two special deputies were set upon "spilling," and nearly all day a stream of odorous liquor flowed across the cellar to the sewer trap. The hard liquor would, but so long as our children rally around us we are not alone."

Big Boston Fire.

Boston, July 1.—The pier of the Warren Steamship Company in Charlestown was burned today. The immense storehouse is a ruin and it is believed that about one half the pier will have to be rebuilt. It appears that much freight can be salvaged. The insurance reaches a total of \$187,000 and the underwriters think the total losses will not go much over \$100,000.

J. W. Bell, M. P., Stricken.

Napone, Ont., July 1.—(Special)—J. W. Bell, M. P., of Addington, had a paralytic stroke today and is not expected to live. Mr. Bell is at home at Desmond.

DOMINION DAY EVENTS WERE MANY, INTERESTING AND VARIED.

The Holiday in St. John--Pan-American Gave Day to Canada --Horse Races at Several Places--Sports at Moncton.

A bright, pleasant morning with just a breeze and an occasional clouding up to add variety was the special brand of weather furnished for the holiday yesterday; while reports from many cities bring news of sweltering heat there was practically freedom from intense heat here, though, indeed, no one would have objected had the mercury chosen to keep a little lower down in the glass. The highest temperature at the observatory was 78, and the average humidity, 50. Though many left the city on Saturday and yesterday morning, there were still many who elected to remain at home. The streets were rather quiet and presented quite a deserted appearance until evening, when the out-of-town pleasure seekers began to put in an appearance. The suburban resorts were well patronized and the beaches were gay with picnic parties and others who sought cooling sea breezes. The excursion to Partridge Island yesterday under the auspices of Division No. 1, A. O. H., was a success. Quite a large number of persons took advantage of the chance for the outing on the island and the day proved a very enjoyable one to all.

The Yacht Cruise.

The Dominion day cruise of the Royal Kennebec Yacht Club proved a grand success. About 15 of the yachts sailed to Erb's Point on the Belleisle and their crews were a most enjoyable time. There was a good breeze for comfortable sailing and the yachtsmen took every advantage of it. A number of the yachts went up river Saturday night and met the remainder of the fleet yesterday morning. The flagship Scionda with Commodore Robert Thomson and a number of prominent friends aboard accompanied the sailing club party of the Belleisle which was the first part of the Belleisle's trip to the island. The day on the island was an ideal one and was thoroughly enjoyed by all the yachtsmen.

Alerts and Roses Divide.

Over 2,000 people witnessed the base ball contest yesterday in the two games. The Alerts split the victory with the Roses. The Alerts won the first game, with a score of 3 to 1, while the Roses won the second game, with a score of 2 to 1. The Alerts were the chief players and were responsible for nearly all of the Roses' runs. The Alerts' pitcher, White, was the star of the game. He pitched a perfect game and was thoroughly enjoyed by all the yachtsmen.

The Alerts won the first heat, but refused to pull the second heat. The base ball match between the Frelonction Tartars and the Chatham Stars was won by the latter; score, 4 to 2. The Royal Odes of Chatham, defeated the Lashburn ball team.

Sports at Moncton.

Moncton, July 1.—(Special)—The sports held by the M. A. A. A. this afternoon were very well attended and the events were of a high order. The hand competition did not take place and some of the races did not fill. In the tug of war between Chatham and Newcastle, the Newcastle team won the first heat, but refused to pull the second heat. The base ball match between the Frelonction Tartars and the Chatham Stars was won by the latter; score, 4 to 2. The Royal Odes of Chatham, defeated the Lashburn ball team.

Blaze Which Originated in Mill Destroyed Three Factories and Twenty-four Dwellings.

Stillwater, Me., July 1.—A most disastrous fire visited this town late this afternoon, destroying three mills and a large number of dwellings—24. It started in the fire room of the Kimball & Adams Lumber Mill and spread with almost incredible rapidity until all the buildings along the bank of the river for fully a mile were ablaze. The fire departments of Oldtown, Bangor and Millport responded to the general alarm, but the fire had gained such a start in the immense piles of dry lumber that it was impossible to save any of the buildings in the path of the flames. The Kimball & Adams mill, together with a dry house, a store house, four company houses and sheds containing two million shingles was totally destroyed, as was also the machinery, including three new boilers installed last spring.

The lumber losses fall upon Wm. Engel, McPeck Kimball, James A. Thissell, and John Cassidy, of Bangor; N. G. Gould and the Guaranty Real Estate Company, of Oldtown, and G. B. Sutton, of Orono.

RUSSIAN WHO REPRESENTS THE CZAR HERE.

Distinguished Visitor. Calling at Principal Points in the Maritime Provinces.

HIS VIEWS EXPRESSED

In an Interview Monday--Tells of Possibilities of Supply of Part of Russian Fleet With Sydney Coal--Will Meet the Local Government.

Among the guests at the Dufferin Hotel is M. Nicolas de Struve. His card bears the inscription "Commander of the Fleet, Russian Imperial Navy, Russian Ambassador in Canada." M. de Struve is the representative in Canada of the Czar of all the Russias, and this time Russia is represented in Canada by one who is an avowed Russian imperial dynasty as may be, for M. de Struve was for years the commissioner and secretary of M. le due de Douchesburg, cousin of the czar. M. de Struve is practically every extraordinary in the court of Russia to Canada and as such is a personage of considerable importance. He has been in Canada one year and makes his headquarters at Montreal. As present as he is traveling through the maritime provinces and, in fact, eastern Canada, in the interests of his government. Last evening The Telegraph representative had a very pleasant chat with M. de Struve at the Dufferin Hotel. He was more than pleased with Canada and to use his own words "Canada is the land of the future." His mission in these parts is to study the maritime provinces and more particularly St. John, Halifax and Sydney in the commercial standpoint. He has, or rather, he expressed his conviction of a "grand treaty" that Russia's trade relations with Canada should be of the future, be greatly broadened without even the institution of favorable trade legislation. Russia, according to M. de Struve, has today an excellent navy and he sees no reason why that portion of the Russian navy cruising in Atlantic waters should not obtain much of its coal supply in Sydney. His study of the coal fields of sufficient importance to cause Canada to seriously consider the advisability of broadening the trade relations between Russia and Canada. Of late years Russian warships have been built in the United States and M. de Struve sees no reason why they should not be of some benefit, be constructed in Canada. Asked directly in relation to this, M. de Struve said a sort of Russo-Japanese war, as any war it was complete with mystery, and said while he was in weekly communication with his government and even directly with the czar himself, he was not in a position to promise that anything would be done at once, but he had great hopes for the future.

M. de Struve is the first direct representative of the Russian court to come to Canada; so far he is greatly pleased with the country and has done all in his power to study the relations between our dominion and Russia even more cordial than they have been in the past. For St. John, he has nothing but words of commendation. He regards this as the metropolis of eastern Canada. His travels throughout Canada have been extensive; he has been from Vancouver to Halifax. At South Sea, Marie he met F. H. Clergue, of the Lake Superior Power Co. and, according to M. de Struve, he (Mr. Clergue) is a man of high character and of great Canadian enterprise and regards Mr. Clergue as one of the financial wizards of the twentieth century. "In Russia," said he, "such undertakings as Mr. Clergue has carried to a successful issue would be deemed impossible. It is a matter of fact that he has a wonderful place and should in time be a second Niagara. Unlimited sources of power which could be easily utilized for commercial purposes are there and only development is needed to make it one of the chief electrical centres of Canada. On the trip to Montreal, which he will make in a few days, M. de Struve will interview the president of the Dominion Coal Company to discuss arrangements for coal shipments from Russia to Sydney. This morning he will leave for Fredericton, where he will officially visit the New Brunswick government. On Thursday he will return to this city and will then go to Montreal.

Kaiser Ordered Arrest.

Berlin, July 1.—During the race at Kiel in which the royal yacht was entered, a small German war vessel crossed the starting line in front of the competitors. Emperor William ordered the captain of the vessel 24 hours under arrest. The captain obeyed but the next day he resigned his commission in the navy.

Boston's 3-1/2 Million Loan.

Boston, July 1.—The mayor's \$3,422,000 loan order was passed by the board of aldermen this afternoon 11 to 3. Alderman Norris being absent.

THE SEMI-WEEKLY TELEGRAPH, ST. JOHN N. B., JULY 3, 1901.

A SUCCESSFUL SURGEON-DENTIST.

In our midst we have one of the most enterprising young practitioners in Canada. The finest list of references ever presented in the history of this province. Where people from all parts of the provinces go when in quest of reliable dentistry. Dr. J. D. Maher has the exclusive right to use the Famous Hale method in this city. Faces familiar to all. A page worth preserving.

Our contemporary, the Globe, on Saturday evening, printed the following interesting interview with Dr. J. D. Maher, of North End, which will, no doubt, be pursued with interest by readers of The Telegraph. It is quite a tribute to Dr. Maher as a Surgeon-Dentist.

OVER THE PROVINCES.

A SUMMARY OF EVENTS AT HOME AND ABROAD.

What is going on Among Ourselves—The Daily Doings of Our Neighbors Talked About—People you know or of Whom have heard.

Messrs. H. S. Scott & Co., of St. John, have opened a general store in this town, under the management of Mr. Geo. Hankinson—Weymouth Free Press.

Ottawa, June 30—(Special)—Patrick Baskerville, member for Ottawa and the Ontario legislature, died Saturday afternoon.

The sudden death occurred Friday night of June, widow of Alex. Blank, of St. Mary's. Death resulted from heart failure and was hastened, it is thought, by fear during the tempest which prevailed about midnight. Deceased was in the 78th year of her age and leaves one son, Thompson Blank, with whom she resided.

Toronto, June 30—(Special)—The Orange "Grand Lodge of British North America # 49" at Toronto, July 23, negotiations for the Winnipeg meeting having failed. Grand Master Charles Wallace says the railways have been arbitrary and he refused to accept dictation of the combine and cancelled the Winnipeg meeting.

Montreal, June 28—(Special)—The provincial health officer has quarantined the Roman Catholic church at La Prairie and issued instructions that the church be kept closed until further notice. A week ago one of the clergymen of the presbytery was attacked by smallpox and afterwards travelled to Joliette, where he attended the clearing exercises of the church. The disease is very prevalent but of a mild type.

Sussex, June 29—The meeting of the board of trade called for last evening to discuss the proposed excursion, was postponed until Friday, July 5, when it is hoped that there will be a full attendance of the members.

The garden party last evening, held on the lawn of the White, Church avenue, was a pronounced success, both in attendance and financially.

Brookville, Ont., June 29—Alex. R. Allan, son of the late Sir Hugh Allan, died suddenly at his home here this morning. He had been ill for some time, but was not thought to be seriously ill. About midnight, however, kidney trouble developed and he passed away a few hours later. He was born in Montreal 55 years ago and settled in Brookville 23 years ago. He was married to Miss Eva Frayser, of this place. He leaves a widow, one son, T. Allan, of the Bank of Montreal, Montreal.

Toronto, June 29—Sir Thomas Galt, late chief justice of the court of common pleas, died this morning at his home, 99 Penbrooke street. For weeks he had been in a very feeble state and death was not unexpected. He was born in 1815 and was a son of the late John Galt, the Scottish novelist. He was married to the Canadian actress in 1845 and appointed a justice of the peace in 1860. He was appointed chief justice in 1887 and knighted in 1891. He leaves four daughters—Mrs. Oliver, wife of Dr. Oliver, Halifax; Mrs. Stewart Tupper, of Winnipeg, and two unmarried.

St. John's, Nfld., June 28—The steamer "Algerine," which was just returned from the scene of the wreck of the Orient Steam Navigation Company's steamer "Lafayette," left the night of June 25 for St. John's. It was reported that during the fog yesterday another large ocean steamer approached the Newfoundland coast, ran aground, and was wrecked. The steamer was almost on the rocks when the Algerine blew a whistle of warning which caused the endangered vessel to reverse her engines and leave the rocks.

It is also reported that another large unknown steamer had a similar experience Saturday off Renews. This vessel had passed between the rocks when the Algerine was on the rocks which were the names of the schooner and altered her course.

Woodstock, N. B., June 29—(Special)—A terrible thunder and lightning storm passed over this neighborhood last night, but luckily the lightning did very little damage. The thermometer has been in the 90's all week.

A farmers' institute, No. 40, was organized in town last night. A. Alward, from the office of the commissioner of agriculture, Fredericton, was present and organized the meeting. He explained the object and gave necessary information. The officers elected are J. R. Brown, president; H. E. Gallagher, 1st vice; C. E. Smith, 2nd vice; J. R. Murphy, secretary; treasurer. The directors elected are the same as of the Carleton County Agricultural Society.

Ottawa, June 30—(Special)—A man named Wilson has been arrested at Osgoode Station, on the C. P. R. line to Prescott, for alleged threatening to murder new hands employed as trackmen. It is said he asked them just to quit work and when they refused produced a small colin on the inside of which were the names of each.

The minister of militia says he hopes to retain the services of Major General O'Grady-Haley as general officer commanding the Canadian militia, as the tenor of the cable message from the war office extending his tenure as commander three months till September was misinterpreted. The appointment was for one year but he has no reason to believe that it will not be renewed.

Digby, June 29—A letter has been received from Toledo, Ohio, stating that Dr. Robert Houston Timpany, Jr., died in this city June 17 of pneumonia, aged 38 years. The deceased was ill only a few days. He was a man of great ability and had a son of the same name who is now a member of the late Dr. Houston Timpany and a grandson of the late Kingley Timpany, of Digby, whose many relatives still reside.

Two firemen deaths are reported this week. H. M. Ruggles, formerly keeper of the Head light, and Alex. Fritz Oseba. The former leaves three sons and two daughters and the latter leaves a husband, mother and 10 children.

Mrs. Leonard Barber died at Westport Thursday, aged 81 years. Her remains were taken to Freeport for burial.

OLD PERFUMES.

Perfumes Come Direct from Venus' Toilet.

It is difficult to realize how universal was the knowledge and use of scented incense. Greek tradition avers that perfume came direct from Venus' toilet, and receipts for essences were inscribed on marble tablets all about the temples of the goddess. Egypt was a great market for all kinds of perfumes. Women made themselves beautiful through the use of essences, and guests were received in chambers strewn with flowers. Even the dead were not forgotten, for the embalmment was saturated with perfumes and spices, and sweet scents were burned before their statues. Those who could not afford these painted scented bottles on their tombs. The ancients thought certain perfumes had medicinal value. They mention 85 remedies derived from rose, 22 from the rose, 41 from mint, 21 from the lily and 17 from the violet. Thyme has a tonic quality and lavender is soothing. Patschouli, however, is a stimulant, unless used in small quantities. There are those in our day who think sandal a tonic, and the Egyptians, they understood the value of anointed themselves with it for the Olympian games. The Jews' love of perfume was so great that morning and night they burned sweet incense of myrrh, and beds were perfumed with aloes and cinnamon. So indispensable were scents considered for the home, that the Romans, when they burned sweet incense of myrrh, and beds were perfumed with aloes and cinnamon. So indispensable were scents considered for the home, that the Romans, when they burned sweet incense of myrrh, and beds were perfumed with aloes and cinnamon. St. John, N. B., June 28—(Special)—St. Paul's Church was damaged by a fire early this morning. Rev. Mr. Hartley was returning at 5:30 o'clock from the hospital, where Mrs. Hartley is still a patient, and as he entered his home he heard the distinct cracking of fire. It was some moments before he could locate the sounds in the tower of St. Paul's church, although no smoke was visible. He aroused Rev. Mr. Macdonald and then ran to box 27 and sent in an alarm. By the time the fire department reached the scene smoke was issuing freely from the tower and upper portion of the edifice. Six large beams were burned completely off or reduced to charcoal; damage to the interior was considerable. The fire was extinguished in order to make repairs. The edifice is insured in the North British Company. There is but little doubt the fire originated from lightning. Messrs. H. Sanderson and Harry Clark appraised the damage at \$303.

Argument was begun before Judge Wilson this morning in the lien case, Taber & O'Neill and R. Chestnut & Sons vs. University of New Brunswick. The lien is for material supplied to sub-contractor Wm. Butler for the U. N. B. Science building. Contractor Maxwell paid \$600 into court to cover the amount of the claims, which are not disputed. J. K. Dunlop, K. C. appeared for Taber & O'Neill and A. E. Ship for R. Chestnut & Sons.

Ald. Moore is confined to his home suffering from a very sore eye and neck, the result of injury inflicted by a horse which he was feeding. The animal suddenly bit at his head striking Mr. Moore beneath the chin.

The contract for the city undertaking has been awarded to Robert B. Adams, who had the contract for the two previous years.

Fredericton High School graduated this year the largest class in its history, 25 young ladies and gentlemen receiving their graduation certificates. The graduation exercises were of a most interesting character and the assembly hall was crowded.

The medals and prize winners are: Douglas silver medal for classics, Anna Grosvenor Purdie. Governor general's bronze medal for English, Joseph Denis McCarty. The Gold medal medal for natural science, Clara Gertha Turner.

Mathematical prize, presented by the chancellor of the U. N. B., Anna Grosvenor Purdie. Class of 1900 prize for French, Pearl Elizabeth Babbitt.

Class of 1900 prize for best general average among those who have won no other prize, Roy C. Alward. Chancellor Harrison, Rev. F. L. Carner, Rev. G. M. Campbell, Mayor Crockett, and Very Rev. Dean Partridge made the presentations.

SCHOOL OF FAGIN FOUND NEAR NAPLES. Greed of the Instructor of Pupils in Crime Leads to His Betrayal.

A school of pickpockets has been discovered at Forquihou, near Naples, and according to the police reports it is the most remarkable institution of learning ever organized.

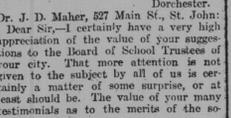

Giovanni Javazzi was its founder and he soon associated with himself several other criminals, whom he appointed teachers. A building was next secured and by means of judicious, though furtive advertising, many pupils were attracted.

The course of studies was two-fold, theoretical and practical. Three of the oldest and most learned "professors" lectured daily on the art of thieving and especially on the art of abstracting small articles from the pockets of unwary persons, and later in the day the younger teachers demonstrated how, after a little practice, all such feats could be performed with ease. The pupils in the lower classes were taught to steal handkerchiefs from pockets, fruit from street stalls, and any other small articles that might be exposed for sale, and the pupils in the higher classes were taught to steal watches, purses and other small, but valuable articles.

The boys progressed so fast that soon there was not one among them who was not quite as expert as any of the teachers. The latter thereupon decided to begin a new advertising campaign with the object of obtaining more pupils, but before they could carry out this project they were in the hands of the police, a complaint against them having been made by one of their favorite pupils.

This had said that Giovanni Javazzi, the principal of the school, had sent him out one day to practice his art in the streets and when he returned in the evening, demanded all the articles which he had stolen. This seemed unjust to the young thief and in revenge he went to the police.

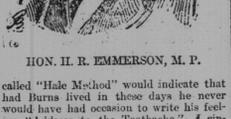

THE CLEGGY LIKE IT—Here are a few names of clergymen of different creeds who are firm believers in Dr. Agnew's Catarrhal Powder: "Give up to the preaching" in all its claims. Bishop Swainson, Rev. Dr. Langtry (Episcopalian); Rev. Dr. Withrow and Rev. Dr. Chambers (Methodist); and Dr. Newman, all of Toronto, Canada. Copies of their personal letters for the asking—4.

The provincial board of directors for the National Assurance Association held a meeting in Palmer's building, Princess street, yesterday afternoon. The report submitted by Managing Director R. H. Matson, of Toronto, showed that the business done by the company during the past six months has been of an encouraging nature, and that in comparison with the transactions in the same period last year, a marked increase in business has been noted.

The Rev. Joseph Yezbick, a Syrian priest, arrived Thursday evening from Boston, Mass., to take charge of the Syrian colony here. Father Yezbick is a native of Syria, who was sent out to America for special missionary work among the Syrian people. The priest work among the Syrian people is a delicate morning at 8 a. m. in the cathedral in the Arabic, and will be similar services this morning and tomorrow morning at the same hour. He will leave here on Monday for Fredericton for similar work. There are about 20 Syrians who are coming and going in the course of their work in selling goods throughout the province.

Rev. James Bennett, D. D., died at an early hour. He was born in Ireland 50 years ago and came to this city as pastor of St. John's Presbyterian church in the fifties. He married Miss Jane early in the fifties. He leaves two sons, F. G. Bennett, chief clerk customs, Ottawa, and E. J. Bennett, at present in the Yukon, and a daughter, Mrs. John A. Bock, of Halifax.

Mrs. W. S. Gardner, of Montserrat, and Mrs. M. O'Connell, of Charlottetown, are expected to arrive in the provincial asylum here. He is tired from the ministry a number of years ago and has occupied the position of physician for the last few years. His death will be heard throughout Canada with sincere regret.

Monday. At a meeting of the Drug Clerks' Association a vote of thanks was extended to T. B. Barker & Sons and The S. McHardy & Co., Ltd., for financial assistance in their outing and organization.

James Walsh, a boy 14 years old, had one of his arms badly injured in Murray & Gregory's mill Saturday. At the hospital it was feared at first that amputation would be necessary, but the injured limb will be saved.

John Ryan, an old resident of St. John, died at the Mater Misericordiae hospital Saturday. He had reached the advanced age of four score years and is survived by a son and a daughter. The former is Jeremiah Ryan.

The marriage took place Saturday morning at the residence of the bride's mother, Mrs. T. Foley, St. Patrick street, of Mr. and Mrs. Miss Bessie Foley, to Mr. Wm. Kennedy. Rev. Dr. Reid performed the ceremony. Many handsome gifts were given.

The capital of the Nova Scotia Steel and Coal Company is \$2,000,000. The directors of the Nova Scotia Steel Company were elected without change as directors of the new company.

The passengers and officials who are travelling over the G. P. R. report that there are very few men at work on the Atlantic division. Any men who are obtained for the purpose of working on the sections are picked up in the cities and as a rule do not remain long in their positions. The farmers along the line strongly support the men who have gone out on strike. From the railway authorities it is difficult to obtain definite information regarding the strike. The travellers who arrive from points on the Atlantic division freely discuss the condition of the road and the fact that regular section men are not at work.

IGNORANT OF NATURE'S LAWS.

If ignorant, stupid—why attempt to treat Catarrh, Bronchitis and Asthma by snuff, tobacco or atomizers. A cure can be had, for the medication must be carried to the diseased parts by the air you breathe. Catarrhitis is inflamed of the lungs, throat and nasal passages. Kill the disease from its very root. Catarrhitis is recommended by doctors and druggists as a never failing cure. Try it. 2c. and \$1.00.
