[Canadian Press.]
Boston, Jan. 15.—The foundering of the th schooner G A Martin thirty miles south of Matinious Rock yesterday, and the timely rescue of her crew of seventeen men from an open boat, one hundred miles off shore, by the steamer A. W. Perry, Halifax for Boston, was reported by wire-

For nearly 24 hours the Martin's crew, der the bitterest of weather conditions. The distance from the spot where the schooner foundered to the steamer route between Boston and Hallfax is 50 miles, which represents the drift of the Martin's lifeboat from shortly after sunrise yesterday until dawn today, when the cast-aways were picked up by the Perry.

The Grace A. Martin, with coal, sailed from Norfolk for Portland on January 4. She was caught in the westerly gale off Cape Cod on Monday, but her skipper decided to continue across to the Maine shore instead of seeking shelter at Provincetown. The vessel was driven further and further off shore on Tuesday. Two days of hard pounding opened up her seams, it is believed, and she filled and sank. The crew probably had sufficient warning to take some food and heavy clothing before jumping into their life

The Grace A. Martin was a five-masted essel, built at Bath in 1904 and registered 2.675 tons net.

These Are Great Clearing Days

8:30 don't seem early enough to open the doors these mornings when such important sales as are now being conducted are advertised in the papers the evening before. To read the sales for the next day on this page before going to bed is setting the alarm for an early rise. You'll scarcely need a "Big Ben" to wake

you if you retire with your mind set on these great early morning opportunities. Each day thousands of dollars worth of seasonable merchandise is gathered in the different sections on all floors for tomorrow's melting pot, and if you will notice the reductions are more decisive this season than any you will remember. We have determined this season that stocks shall be thoroughly cleared. The opportunity for saving is yours. Come with the 8:30 throng. The prices are the best pictures in the ad these days, and any descriptions or comments on goods on sale will be given briefly.

Ladies' Furs and Fur Coats

Now that we are promised a little winter weather we may be permitted to say a word about Furs. Here are a few price reductions on genuine quality. Correct styles and guaranteed skins.

TORONTO REPRESENTATIVE:

The London Advertiser Printing Co.,

LONDON, THURSDAY, JAN. 15.

THE COMING SESSION.

Whether or not the coming session of the Dominion Parliament will be long and contentious, will depend altogether on the policy to be pursued by the Government in proposing and carrying out legislation. The Opposition will realize that it is in a minority, and while it will insist on a full and complete discussion of all measures brought down, there will be no captious criticism of details. But that does not mean that the Governshod over the House without effective protest: or that measures antagonistic to the principles of Canadian responsible government will be allowed to pass without a stubborn resistance.

The slight reference in Conservative papers to the naval issue looks like an indication that there will be no naval policy to consider, at all events no contribution policy. Nothing has occurred to justify any change in the course pursued by the Liberals last session. They will fight "little Canadianism" to the last extremity.

Whether or not the highways bill, if re-introduced, will be fought as in the past, depends on the Government. All parties in the House are in favor of the principle; the only question hitherto has been as to the rescue and restoration to friends whether the money shall be expended of people whom we have never seen, by the provinces, or distributed by but toward whom we have a feeling Tory politicians, If the bill should provide for making a grant to the various provinces according to population, and then handing the money over to the local governments for distribution, there is no doubt it will receive the hearty support of the

Liberals. It is quite probable a measure for the redistribution of constituencies called for by the last census will be introduced. If the bill is at all reasonable, it will receive very little opposition. That it should be satisfactory to the Liberals in all respects is not to be expected. But if the Conservatives are nearly as moderate were over the last redistribution there will be very little trouble. If, however, the practical politicians in the Government insist on having a free hand, and propose to gerrymander the constituencies regardless of municipal boundaries in the sole interests of their party, they may expect as stubborn fighting as the Liberal forces can

It has been intimated that there will be grants proposed for technical education. Anything that will help education or agriculture-anything that may tend to the social and moral uplift of the people-is good in principle and should have the support of the House. But it is not difficult to attach conditions to any measures of this kind that will render them not only useless, but positively dangerous. To the general principle there will be no opposition—to the details

alliance between Imperialists (sothere may be. The tariff will doubtless come in for discussion, possibly for action. The change in the laws of the United States may be taken as an excuse by the Government for receding to some if the various interests which were largely instrumental in placing Mr. Borden in power can be placated, some relief may be offered the people. The demands from the west are too forceful to be easily resisted, and the Government may deem it wise to draw à little nearer to the Liberal policy.

Doubtless large expenditures for public works will be included in Mr. Borden's program. Some of these will their purpose the gratification of party heelers, and the advancement of party interests. It will be the duty of the Liberals to scrutinize all appropriations carefully, and give their support to those that are for the pub-He good.

The relative strength of parties in the House remains practically unchanged. The Government has still a large majority. The Liberals are still weak in numbers. But their real strength cannot be measured alone by the number of votes they can cast. Under a loved and honored leader,

The threats that the Government will use the powers it secured last session to cut off debate and force its measures through Parliament, will not cow Sir Wilfrid and his followers. They will make the session interesting, and though they may easily be overpowered by votes, their influence will be felt outside the House, and their position will be strengthened in the country.

STAND BY WESTERN ONTARIO.

An "old subscriber" called over the telephone to ask if it were quite fair to agitate for a separate zone for Western Ontario in connection with the inauguration of the parcel post system. His contention is that the buyer should be permitted to buy his goods in Toronto if he wants to. Our contention is that every man

and woman, every buyer in Western Ontario, should stand by Western Ontario. It may be that the Toronto stores will undersell London, Chatham, Guelph, Sarnia, Woodstock, Berlin and Brantford in some lines, but every purchase made in the big city by parcel post will not aid, if it does not injure, every city or town or district in the peninsula. It's the Ontario, stand-together spirit that this newspaper means to represent. Every person in the district is interested in the building up forting news to the starving. of the cities in Western Ontario.

Within ten years, there will be half a dozen cities of more than fifty thousand population west of Branthave invented it. ford, if the people of this section possess a loyal community spirit. West-Switzerland, but nothing but a mounern Ontario will be as thickly settled and have as many large centres as New York State. At the present country, anyway. time, Western Ontario contributes largely to the welfare of Toronto Toronto would grab everything if it could. It would have its business houses the province's entire business. Why not build up Western Ontario? Why build million-dollar mansions for the merchant princes of the Queen City? If the businessmen of Western Ontario will make a strong appeal for the co-operation of Westen Ontario, Western Ontario will stand by them.

Laurier said: "I will give you free trade; free as it is in England." But they have never been able to give the time and place where he said it, nor the exact words that he used, Because he never said anything of the kind. He has frequently said that he was a believer in absolute freedom from trade restrictions of all kinds; that he believed free trade as they have it in England is the ideal sysin their arrangements as the Liberals them. But he has always added that that description was not possible. He never promised to give the people of he did promise to reduce the burdens bill which, while it did not reduce customs taxes as much as many could have wished, yet was enough to from Sir Charles Tupper bring mournful predictions of financial ruin which never materialized. He reduced them still further by a British preference. And he finally went out of office in the attempt to take off the duties from natural products, and give the people food free from taxes. It begins to look as though Harry K. Thaw, slayer of Stanford White, extent from its former position; and will soon be liberated. A commission of insanity experts has decided that if at large he would not be a menace to the public. Thaw is still in New Hampshire, where he has been since his deportation by the Canadian immigration authorities. If he is released on bail, he will probably disappear where he cannot be reached, and perhaps obscurity is the best solution of the whole wretched business. But opinion will always be divided conbe justifiable, others will have for cerning his sanity. It will be held by many that if he was insane when he slew White, he is insane now, and that the defence of madness was an insincere device to save him from the electric chair. Magic "Nerviline" Cures Toothache, Earache

IT RELIEVES EVERY EX-TERNAL PAIN. Cures Colds, Coughs, Sore

Throat, Tight Chest and

Hoarseness. It's when sickness comes at night, when you are far from the druggist or the doctor, that's when you need Nerviline most. Experienced mothers are never without it. One of the children may have toothache. Nerviline - a sleepless night for the entire household. With Nerviline the pain is relieved quickly. It may be earache, perhaps a stiff neck, or one of the kiddies coughing with a bad chest cold. Nothing can give quicker results than viceous

results than vigorous rubbing with this old-time family remedy. Nerviline is too useful, too valuable to be without. For lumbago, lame back, sciatica or neuralgia there is no liniment with half of Nervillne's power to penetrate and case the pain. As a family safeguard, as some-thing to ward off sickness and to cure the minor ills that will occur in every family, to cure pain anywhere, you can find nothing to compare with old-time Nerviline, which for forty years has been the most widely used family remedy in the Dominion. The most economical size is the large 50c family size bottle, small trial size 25c. All dealers sell Nerviline.

This may be a little more substantial that you intend to serve but I think it willplease your guests: On each plate serve aportion of jellied veal (homemade), potati salad and a couple of olives or sweet ghekins. Small buttered rolls should accompany this. Then on fresh plates serve alemon jelly with whipped cream nut or date bread thinly sliced, and two kinds of cake. The jelly is not the "jelly powier" variety, but is made from lemon juic, eggs and clear gelatine. If desired, white grapes, seeded and cut in half, and sites of banana may be molded into the jelly. For this number of guests it would be all right to use crepe paper napins. If you are having

More Wheat Raised.

Wheat on 11,015,000 acres produced 231,717,000 bushels of the value of \$156,462,000, the corresponding figures manufactured only by The T. Milburn \$156,462,000, the corresponding figures in 1912 being 10,996,700 acres, 224,-159,000 bushels and \$139,090,000. Of the total wheat area 970,000 acres were devoted to fall wheat, the production being 22,592,000 bushels and the value \$18,185,000 as compared the value \$18,185,000 as compared to 191,000 acres 20,287,000 bushels. with 971,000 acres, 20,387,000 bushels and \$17,157,000 in 1912. Large Oat Yield.

Oats yielded a total of 404,669,000 bushels from 10,434,000 acres and the Has Also Found New Source of value reached \$128,893,000, the corresponding figures of 1912 being 9,-966,000 acres, 391,629,000 bushels and \$126,304,000. Both the wheat and oat crops of 1913 are the highest on record in Canada, wheat as regards area, yield and value, and oats as regards yield. The value of the oat crop was exceeded in 1911 when the amount was \$132,949,000.

New Barley Figures. Barley upon 12,613,000 acres yielded 48,319,000 bushels of the value of \$20,144,000 as against 1,581,000 acres, 49,398,000 bushels and \$22,354,000 in

Flaxseed occupied 1,552,800 acres and the production was 17,539,000 compared with 2,081,291 acres, 26,-130,000 bushels and \$23,608,000 in

The quality of the grain crops as indicated by the average weight per measured bushel is excellent and is superior to 1912. Spring wheat averages 60.37 pounds, against 58.90 pounds in 1912; oats, 36.50 pounds, against 35.50 pounds, and barley 48.50 pounds, against 47.50 pounds.

In the three northwest provinces of Manitoba, Saskatchewan and Alberta the production in 1913 of wheat is estimated at 209,262,000 bushels compared with 204,280,000 bushels in 1912, of oats at 242,413,000 bushels compared with 242,321,000 bushels, and of barley at 31,060,000 bushels, compared with 31,600,000 bushels. The wheat production of 1913 in Manitoba was 53,331,000 bushels from 2,804,000 acres, in Saskatchewan 121,559,000 bushels from 5,720,000 acres and in Alberta 34,372,000 bushels from 1,-512,000 acres.

Editor's Note-It is interesting that in the above dispatch from Ottawa Ontario's proportion of grain production, greater than that of any other province, is not given.

This Expenditure to His Mind Not Only the Real But the Extreme "Emergency"-Resumes His Seat in the House Today.

[Special to The Advertiser.] Montreal, Jan. 14.—Hon. F. D. Monk, whose anti-contributions to the navy question resulted in his resignation from the portfolio of public works he held in the Borden Cabinet, today makes a statement in Le Devoir of vital importance.

As Mr. Monk will resume his seat in the House after a long absence tomorrow, it is more than probable that the suggestion he is bringing forth today will be the subject, on his part, of a sensational speech in the House. Mr. Monk, speaking of the great national enterprises that should be immediately begun in order to answer adequately to the extraordinary develop-ment of Canada, states that it is the imperative duty of the Federal Government to spend at least 520 million dollars on public works, including \$135,000,-

for the Georgian Bay Canal. He writes that there is not only the real but the extreme urgency

CANADIAN LEAGUE DOINGS CREATING NO LITTLE STIR

Fans All Over Circuit Are Watching Recent Happenings With a Great Deal of Interest-Erie Situation In Limelight.

The sudden turn taken in Canadian League affairs has aroused the fans all over the circuit, and the outcome of the Eric situation is being watched with interest. That Eric will go through with its fight against Canadian League the road for a big oil firm in the United States, and he gathered up his things and departed. Before going he told in Shaughnessy that would have little chance of making money there. If no agreement with Mr. O'Neill is made, it may develop that the Canadian League will grant the Erie people a franchise free of charge, and people a franchise free of charge, and pay Mr. O'Neill the amount he paid for the Guelph club. Of course, this is only ene way of settling it, and likely the last course to be adopted. The meeting in Toronto Monday will probably settle

ONTARIOS WILL PROTEST OTTAWA'S LUCKY WIN

Manager Murphy Claims Winning Goal Went in From Back of Nets -Score Was 6 to 5.

Ottawa, Jan. 14-The Ontarios threw a big fright into the Ottawas here tonight, but were beaten out by 6 to 5. In the first period, in which Ottawa had a slight shade on their opponents, the score ended 1 to 1. In the second period the Ontarios had the better of the scoring, and skated off ahead by 4 to 3. Ottawa ought to have had it about 8 to 1, but Captain Lesueur had his annual night off in the nets, with the result that several long shots got by him. In the third the Ottawas tied the score and then pressed ahead by 5 to 4. Jackie Mc-Donald put the Ontarios on even terms again with a long drive, and Lesueur was taken out, Benedict, who was just signed today, replacing him. The Ontarios claimed another goal shorty afterwards, but it was disallowed Umpire Wallace refusing to raise his Smith and W. Say They Will Blow Up General KING STREET CHURCH Offices If Good French Canadians Are Not Employed.

[Canadian Press.]

Montreal, Jan. 15.—The general offices of the Grand Trunk on McGill street are to be blown up in 30 days, according to the terms of a notice served on the company. This notice was typewritten in French by the "Anti-Blokie French-Canadian Association of Montreal."

It has been observed by this association for some time past that the Grand Trunk for some time past that the Grand Trunk has been employing large numbers of "blokies" to the exclusion of good French-Canadians, of whom there are large numbers available in the city, without having to go outside for others. This it deems an injury to the French-Canadians who are on the spot

Then again. As soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their Mothers should never forget pain.

A Wonderful

Again. As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures are permanent. Only the other day Mr. Marsh, of 101 Delorimier ave., Montreal, called upon the Zam-Buk Co. and told them for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. Today-over three years after his cure of a disease he had for twenty-five years-he is still cured, and has had no trace of

Grant Is Certain. Judge Meredith, in his letter, stated that the time for action was at hand, and that he was practically certain that the Ontario Government was ready to make a handsome grant to the university when the time was ripe. He had many suggestions to make as to the proper conduct of the Western's affairs.

His letter rung with optimistic notes, and was the most encouraging feature of the governors' meeting in some time. That a period of activity for the Western is not far removed is the conclusion reached by all. Mr. Smallman's Plan.

When the question of a site came up for discussion, T. H. Smallman sug-

gested that no better property was procurable at a more moderate price properties on Grand avenue, and certain land adjoining them which could be secured. The location afforded opportunity for expansion, and it would be convenient to have the new Medical College on such a location, as it would be close to Victoria Hospital and to the Institute of Public Health.

Governors to Assume Risk.

The other members of the board were favorably impressed with Mr. Smallman's proposal, and the discussion finally resolved into a decision that some action would be taken, and that if necessary the airectors individually would make the nselves responsible for the purchase of the property until such time as funds could be secured through government or municipal grants. The property can be secured, it is understood, at practically the same price that was asked when it was under discussion some

"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized and its formation prevented, and the best thing for this purpose is a teaspoonful of bisurated magnesia, a simple ant-acid, taken in a little warm or cold water after eating. SDARING AGAIN, IS THE PRICE OF EGGS

Now Se'ling at 43 to 45 Cents-Potatoes Few and Firmer in Price.

Trading on the local market was somewhat brisker today as the result of the milder weather. The most conspicuous offerings were hay and meats, which, although firm, sold briskly. Hay is selling for \$12 to \$15, with

good offering and a brisk demand. Straw is higher at \$8 to \$8.50. Yesterday saw a large supply of oats on the square, and as a result, the commodity has been selling today at a lower figure. Wheat is firm, as usual, at 85 to 86 cents.

Potatoes have been a slow offering this week. Because of the cold weather, farmers have brought few loads the market, and prices are firmer today. Sales were made at 90 cents per bag, wholesale, and \$1 retail. Other vegetables are as listed.

Butter and eggs are firm and high. Eggs, which have been selling at 38 to 40 cents, are now averaging 43 to 45 cents per dozen. With the milder weather of today, an increase in the offering was noticeable on the square, which will have a tendency to bring prices nearer normal again.

Butchers' meats are firmer, with an average offering. Prices are as listed: Grain, Per Cwt.

Strike Only General In Transvaal and Orange Free State-Cape Colony and Natal Quiet.

Johannesburg, Jan. 15.—Mr. Bain, secretary of the South African Federation of trades and his band of 300 comrades who had barricaded themselves in the trades hall here since Tuesday, surrendered unconditionally to the police today. Mr. Bain and ten of the ringleaders were arrested and lodged in jail.

Later in the day the white foremen at several mines struck work and were joined by some of the men. The batteries, however, still continued in operation.

SOME ARE UGLY.

[Canadian Press.] Johannesburg, Union of South Africa, Jan. 15.—The struggle between employers and trades unionists in South Africa continued doggedly today, and up to noon there had been no marked change in the situation. ganized workmen of all trades in the Transvaal and the Orange Free State have almost unanimously thrown down their tools and joined in the sympathetic strike ordered by the Federation of Trades, in support of the railroad men. The workmen of Cape Colony and Natal, on the other hand, have nitherto remained at their occupations. Some of the strikers in this city seem to be in an ugly mood, but are restrained by the presence of large forces of armed police and of the citizens' defence force.

[Canadian Press.] Capetown, Jan. 15.—The general strike, proclaimed Tuesday, thus far applies only to the Orange Free State and Transvaal. Success in these places would lead to an extension of the order to other provinces. Martial law in the Orange Free State is very strict, and a censorship in the rigid form has already been instituted.

All strikers are prohibited from leaving their homes. The display of the red flag is forbidden, and the rendering of assistance to other strikers, directly or indirectly, by funds or goods, is also forbidden.

Hydro Engineer Is Going Thoroughly Into Question With Shippers at Tunnel.

As announced in The Advertiser on Saturday, plans for a railway from Sarnia to London are now being considered by the Government. Yesterday H. L. Bucke, a hydro-electric engineer, of London, again was in the town, and called on many of the manufacturers and shippers in the city, in regards to the amount of freight handled through the section.

The passenger travel has also been gone into, and valuable data figured from experience of other electric lines running through a section with the same population and advantages.

It has been hinted that the style of construction would be of the heavy electric type, which would be sufficiently heavy to handle freight-hauling electric locomotives and highspeed passenger cars.

Investigation shows that Sarnia manufacturers are large shippers to the proposed territory, and that a properly handled road would soon work up plenty of business.

FINANCIAL STRINGENCY TEM-PORARY.

Canada has been favored by a long series of prosperous years, and, although at the present moment, bustness is slightly restricted by the financial stringency which prevails throughout the world, I feel convinced that this condition will be merely temporary, and that the boundless resources of this Dominion, which are so fully and universally known and recognized give us the fullest assurance of continued material prosperity and pro-

AGRICULTURAL INSTRUCTION You will be pleased to learn that satisfactory arrangements have been made with the various provinces under the agricultural instruction act passed at the last session. My advisers are convinced that the co-operation between the Dominion and the provinces which is thus afforded, will accomplish excellent results, in assuring better agricultural instruction and needful improvement of existing methods of agriculture.
PROGRESS ON RAILWAY.

The work on the National Transco tinental Railway has been rapidly advanced during the past year, and, not-withstanding the difficulties attending the construction of the Hudson Bay Railway and the provision of terminals, every posisble progress has been made, in bringing that important project near-

er to completion. In connection with the highly important subject of transportation of our products, the provision of adequate terminal facilities at our great national ports has received and is receiving the

attention of my advisers. TERMINAL ELEVATORS have doutless fearned

satisfaction that the new government fered by the club as first prize. The completed, and that it has been in opfollowing were responsible for the eration since October last. In conjunction with this, a system of interfor Murray, A. K. Davis, L. Burr, Bert terminal elevators has been begun, which will provide largely increased Weeks. St. John, N.B., Jan. 15.—Some idea of the hardships suffered by the passengers and crew of the stranded steamer Cobequid, can be imagined from the appearance of the Furness liner Rappahannock, which steamed into port this morning. From stem to stern, she was covered with a thick coating of ice.

Unable to fin dany trace of the disabled vessel, the Rappahannock, under command of Captain William Hanks, lay off the Trinity Ledges for several hours last night, not more than a mile and a half away from the Cobequid, yet the heavy mists prevailing, shut out all sight, both of the vessel and the shore. After receiving word that the passengers and crew of the wrecked steamer were safe and there was no need of his waiting further, Capt. Hanks proceeded with his ship to St. John, arriving here early this morning.

UNIOUE DUTCH SUPPER

Christ Church Choir Gives Enjoyable One in Schoolroom. Quite unique was the Dutch supper and concert given last night in the schoolroom of Christ Church under the auspices of the choir. Supper was served from 6 to 8 o'clock, the menu being distinctively Dutch.

Supper was followed by a program introduced by an excellent chorus by the choir, the members of which were appropriately dressed in Dutch costumes. The remainder of the program was given in an excellent manner by members of the choir of the New St. James' Presbyterian Church.

The proceeds of the supper amounted to about \$50.

Western Meds Tango to Their Heart's Content

Informal Dance of '14 Class at Masonic Temple Proves Big Success.

That even medical students are not immune to the ravages of the tango germ, was proven at an enjoyable dance given by the '14 class of the Western Meds. at the new Masonic Temple Wednesday evening. The tango was distinctly the feature of the evening. Three times the magic word appeared on the programme, and each time, as soon as the Tony Courtese orchestra struck up the lively measure, about three score couple took the floor, and proceeded to exemplify the tango as it should be performed. And none of the spectators seemed greatly shocked either, at least none were seen leav-ing the gallery. Encores were frequent, and the orchestra's repertolre of "rags" was severely taxed to furnish music. "Pullman Porters On Parade" and "Too Much Mustard" proved the popular selections of the evening as far as music was con-

cerned The balance of the programme was made up of conventional waltzes and two-steps, which with two delightful harp waltzes, were much enjoyed. The big auditorium was decorated for the occasion, the traditional skull and cross-bones being in evidence among the many pennants which

hung about the hall. About 100 couples enjoyed the in-formal dance which ended at mid-The committee in charge, which was responsible for much of the success of the evening, comprised Messrs. Beattie, Martin, D. E. Scott and R. H. Bangs.

GRAND JURY READY

Will Report Findings On Lawlessness in Michigan Strike. [Canadian Press.]

Houghton, Mich., Jan. 15 .- The special grand jury, which has been investigating lawlessness arising from the strike of the Northern Michigan copper miners, was prepared to report its findings today.

It is expected the grand jury will return indictments against two men on charges of deporting Charles H. Moyer, president of the Western Federation of Miners, and Charles Tanner, auditor of the same organization, from Hancock, on Dec. 26. Other returns are expected to include various charges against members of the Western Federation of Miners. The grand jury has not completed its investigation, and today's report will be only partial.
