Buy Your Natural Shantung Now, at 49c Per Yard

Our 200-piece purchase has arrived (and is creating some excitement, too). 200 pieces was a large order to place, but the quantity made the price temptation so great that we could not resist, as the price will regulate any quantity, and it is big deals that make small prices.

The quality of this Silk must not be judged by the price, as it is not the ordinary dull, rough-woven Shantung that you are accustomed to seeing at the 50c or even 75c price. We consider it equal to our last season's 85c quality; so you will expect to see a very superior weave, which it is, even in both weave and color, bright and

The advantage of procuring what you need in Natural Shantung Silk for the coming season, while this lot lasts, at 49¢ a yard, will at once appeal to you when you see the quality. That these are utility dresses we need not remind you, and they will be fashionable for the coming summer season - this is already assured beyond a doubt. Shantung Silk is also largely used for Children's Wear, Men's Shirts, Pajamas, etc. These are the widest width, full 34-inch. Examine them at Silk Counter, and compare with anything you have seen up to 85c a yard. See washed sample at Silk Counter. Our price for this lot, per yard 49¢

We would advise our out-of-town customers to take advantage of this special offering. Open orders will be carefully filled by our mail order buyer, and express prepaid on all orders of \$5.00 and over. Send money order for the quantity you want. If Silk is not up to your expectation or as represented by us, return at our expense and your money will be cheerfully refunded. We might say the latter statement applies to any purchase made at this store by mail or in person. Satisfaction guaranteed or money refunded, (Or send for samples).

Palpitation of the Heart.

One of the first danger signals that announce something wrong with the heart is the irregular beat or violent throb. Often there is only a fluttering sensation, or an "all gone" sinking feeling; or again, there may be a most violent beating, with flushings of the skin and visable pulsations of the arteries. The person may experience a smothering sensation, gasp for breath and feel as though about to die. In such cases the action of Milburn's Heart and Nerve Pills in quieting the heart, restoring its normal beat and imparting tone to the nerve centres, is, beyond all question, marvellous. They give such prompt relief that no one need suffer.

Mr. Sylvester Smith, Hampton, N.B., writes:-"I was troubled with palpitation of the heart and tried doctor's medicines, but they only gave me temporary relief. I heard of your Heart and Nerve Pills and bought two boxes and before I had used them I was completely cured and would

recommend them to all similarly affected." Price, 50 cents per box, or 3 boxes for \$1.25 at all dealers or mailed direct or receipt of price by The T. Milhurn Co. Limited, Toronto, Ont

A REPLY TO LORD ROBERTS. An address recently delivered by Mr

Haldane, secretary for war, before his constituents in East Lothian, was intended to allay public anxiety aroused by the alarmist speeches of Earl Rob erts in the House of Lords.

The present military policy, Mr. Haldane said, rested upon command of the sea, which the Government meant to keep. He was not at all disturbed by Lord Roberts' suggestion that a surprise attack might be made on Britain. by 200,000 people of a foreign nationality." He had good cause for believing that such an army could not get across the North Sea with Britain's maintenance of the Cardwell system, the men who are trying to exhume the country is enabled to keep at home the letter "u." approximately the same number of units as there is abroad. The growth of the territorial army, which replaces the Volunteers, has been remarkable. Though only in exist. ence nine months that force on Jan. 1 ranks out of a total establishment of 313,000. Mr. Haldane is confident the entire force will be filled in eighteen months or two years.

Summed up, Britain's home defence force consists of 527,000 men, of whom 320,000 are regulars, and the remainder reserves and territorials -an army sufficient to meet any invading power.
