THE RUSH-BAGOT TREATY

Great Lakes Up to the Commons.

Ottawa, Dec. 1.—The measure to bring into effect the Franco-Canadian trade treaty was given its third reading by the Commons today, and will now go to the Senate. Hon. G. E. Foster dealt at some length upon the question of United States naval armament upon the great lakes, and the House got into supply an hour be-Mr. Foster pointed out the danger

of the present armed force maintained by the United States on the great lakes and of the increasing danger by the admission of others. He said that the force would be available at a moment's notice, while against this Can-

Sir Wilfrid Laurier pointed out that the tenure of the life of the treaty hung by a slender thread, as it might be terminated by either country giving six months' notice. It would be quite an easy thing to terminate the pact, but that would make the situation worse, and might lead to a large expenditure in the building of vessels Under such circumstances it was incumbent upon us to be careful as to what we did and said.
Sir Wilfrid informed the House that

the Rush-Bagot agreement was discussed by the joint high commission at its meeting in Washington in 1890, and that if that commission had reached any definite conclusion, the basis of the compact would probably have been changed. It has more recently been under consideration by the two Governments. Sucr of the correspondence as was not of a confidential nature would be tabled.

LONDON, THURSDAY, DEC. 2. THE MUNICIPAL ELECTIONS.

The representatives of the Board of Trade and of the Real Estate Owners' Association have been disappointed in their canvass for municipal candidates. Several of the citizens whom they approached had good and sufficient reasons for declining to run for office, as The Advertiser happens to know, but others had no excuse except the dislike of a contest, and perhaps of some tax on porridge? of the company in which they might find themselves. QUESTION. The Canadian correspondent of the Boston Transcript, Mr. E. W. Canada does things well in great enterprises, in canals, railways, harbors, all manner of public works, and to assume sneeringly that Canadians will not do their navy business soundly is to insult them and their record. There were probably 300 white men in the posse, and they voted unanimously to burn the negro preacher. Howard was taken to the scene of the crime, bound to a stake and faggots piled about him. All this time the negro was praying to the Lord to save him and singing snatches of religious hymns. This treatment is said to have acquired a wonderful reputation throughout the East, owing to its peculiar propensity to fortify the ism, so essential to the hapiness of every normal human being. It is claimed to be a blessing to those who are physically impaired, gloomy, despondent, nervous and who have trembling of the limbs, dizziness, heart palpitation, cold hands and feet insomnia, fear without cause, timidity in venturing and general inability to act rationally as others do. They rightly inferred that when a city Vanderine adopts Sun ay cars it invariably pays the penalty in a lowering of the sanctity of the Day of Rest, and, as a likely result, a lowering of the moral tone of the community. So, like the liquor business, the Sunday car traffic must be subject to restriction. A MONEY MEASURE

London, Dec. 1 .- There was another meeting of the cabinet today to consider the matter of the prorogation of Parliament in view of the action of the House of Lords in reference to the finance bill last night. The meeting was held at the unusually early hour of 10 o'clock and the council lasted two and a half hours. All the members of the cabinet were present.

It is understood that the Prime Min-

ister completed arrangements for winding up the session of Parliament and considered the attitude to be adopted in regard to the King's prorogation speech, so far as the clause relating to finance is concerned.

Debate Motion Today. Lord Lansdowne, in registering his emphatic protest against the manner in which the privilege of the House of Commons had been used, declared that if the promised great controversy in regard to the relations of the two houses took place, it would be necessary to put his question of privilege in the form of the discussion. The Lords finally passed the bill as it left the House of Commons, and then adopted a resolution, which was moved by Lord Lansdowne, declaring

PREMIER'S DAUGHTER WILL HELP IN ELECTION

Miss Violet Asquith Has Already The Brotherhood of Trainmen in Started Out to Win Votes for Her Father.

London, Dec. 1 .- Even before the agreed on its programme of campaign in the inevitable general election, the women folk of the cabinet ministers' families are beginning to show their active interest in the coming struggle. One of the most prominent of these women workers is Miss Violet Asquith, the Prime Minister's daughter, who is determined to make herself a valuable asset to the Liberal party. She has made her debut as a political speaker and proved herself to possess remarkable eloquence and a charming platform manner. She is decidedly opposed to the militant suffragette

Miss Asquith has opened a Liberal bazaar at Hammersmith, a western suburb of London, where her graceful speech made a most favorable impression. In a eulogy of the work of the Liberal Government she said:

"They have resurrected the army, united South Africa and given the Utoplan boon of old-age pensions, which some of us had relegated to the millennium. Now we are Crusaders outside the walls of the Holy City. This was a reference to the Libera Government's attacks on the strongholds of wealth and privilege.

GOVERN OR BE GOVERNED ASQUITH'S RALLYING CRY

London, Dec. 1.-The National Liberal Federation tonight issued a manifesto to the country which may be regarded as a party rally for the elections. It concentrated attention entirely on the constitutional struggle between the House of Lords and the House of Commons and says: "If the present action of the peers is not repudiated swiftly by the people, the rights and privileges, won so dearly by our forefathers in the great struggles for freedom, are all surrendered."

The manifesto declares that the peers' power of veto must be restricted, so that the last word on legislation and finance must rest with the House of Commons. Otherwise, no Liberal ministry can again assume the responibilities of office "In the fight forced upon us," the manifesto continues, "the electors will have to decide whether they will govern themselves or be governed at second hand by a few hundred hereditary peers who have thrown the constitution into the melting pot in order to shift the burden of tax to food and the necessaries of life."

Lanceley, formerly pastor of the Dundas Street Methodist Church 356 Cheapside street. of this city, and at present pastor of the First Methodist Church, Hamilis out with what he considers a definite cure-all for the big hat nuisance. Mr. Lanceley states it is his intention at the next meeting of the trustee board that he will bring up tht old custom of segragtion in the church. He figures it out that if all the men sit on one side of the church, and all the womtn on the other, that there would be no more trouble about the big hats.

That might be so, but there is grave danger that this agile leap out of the frying-ran would land him safely inside the coal range. How would it work out when the courteous usher atafter their fifty years of church-going Rowntree, 90 Rectory street. together? Or even worse, how would it work out with the young man who has just mustered up courage to take "the only one" to church for the first time? It is doubtful if this deft disasociation would be conducive to a har-

monious opening of the service. How About the Suffragists? Thtn, too, does not the plan rather pre-suppose that only the male memers of the congregation have souls to save. They apparently are the only ones credited with a dtsire to observe the impassioned gestures of the Rev. Mr. Lanceley. There is plenty of room for six bodies in ordinary pew, but there is only room at the most for three hate. So unless the hatless male acts the role of tht meat in the sandwich, the ca-

pacity of an auditorium will be diminished one-half. And after all would the change tend to make the masculine part of the audience more attentive to the preacher? It might, but the chances are that the sturdy male would sleep with his face to the left instead of to the
