Tapestry Curtains.

This season we were more particular than usual in selecting our stock of tapestry curtains. We took the time to go through hundreds of samples from Philadelphia Mills and secured the very newest and best styles. Every wanted color is here in crimsons, greens, browns, blues, etc., in solid and mixed colors, fringed top and bottom, and corded styles, very special at per pair,

\$2.50, \$4.50, \$5, \$6, \$7.50 and \$10.

FLANNELS.—One of the most complete assortments of flannels in Ontario is here, grey and scarlet flannels, cream twills, white electorals, union shirtings, military flannels, etc.:

Grey flannels, in unions and all wools, plain and twill, light and dark greys, extra values at 12½c, 15c, 20c, 25c, 30c and 35c.

French twill flannels, pure wool and unshrinkable, in medium cream, extra values at 40c, 50c and 60c.

English white electorals flannels, pure wool, heavy qualities, extra values at 25c, 35c and 40c.

Scotch cream union flannels, perfectly unshrinkable, extra values at 25c and 35c.

English union suiting flannels, in good fawn and grey stripes, excellent variety of patterns, extra value at 25c and 40c.

English scarlet flannels, all pure wool and good weight, extra values at 15c, 18c, 25c and 40c.

Navy blue flannels, in plain and twill, union and pure wool, extra values at a yd 25c and 40c.

Silk embroidered cream all wool flannel, for skirts, extra value at a yard \$1.00.

PURITY. LAGER BEER

"The Beer That is Brewed in Glass"

Lager Beer made in an impure cellar or imperfect vats becomes infected, is unhealthful, and liable to cause headache, sour stomach, and bowel troubles, and, as it will not keep, unprincipled brewers use preservatives to prevent its getting worse and the consumer has to suffer for it.

In Munich, supposed to be the home of Lager Beer, glass-lined steel tanks are rapidly superseding the wooden ones. This is done because they are thoroughly convinced of the bad effects arising from the use of wooden fermentation tanks. In olden times Lager Beer was fermented and stored in underground cellars and left in damp, mouldy cellars to acquire "AGE" but all the time it was gathering bacteria and other wild ferment. Now, in a modern brewery, Lager Beer is brewed in glass, in the light, remains above ground and is watched carefully from the moment it leaves the kettle until it reaches the consumer. Frequent analysis has proven its superiority over beer made in the old way, and any one with the least judgment can see that it must be purer and more wholesome.

Walkerville Beer is the thing that will cheer
The cockles of your heart;
But the miserable stuff, made in cellars of must,
Is worse than a poisoned dart.

CANADA NEEDS POWER.

ALASKA AWARD DISCUSSED IN PARLIAMENT.

Sir Wilfrid Laurier Admits the Treaty was Signed Without Canada's Approval—The Yukon Railway Must be Built—Mr. R. L. Borden, Mr. Bourassa and Mr. Gourley Express Their Views—Several Bills Dropped.

Ottawa, Oct. 23.—Canada's Parliament discussed the award in the Alaska boundary case. That we suffered injustice with respect to the Portland Channel was admitted, and there was indignation that the hands of the country were tied in regard to our powers of dealing with foreign countries. Sir Wilfrid Laurier would not pass judgment offhand on the action of Lord Alverstone, from whom at the time of his appointment he had every faith we would receive justice. The award, however, revealed an unsatisfactory state of affairs. "So long as Canada remains a dependency of the British Crown," said Sir Wilfrid, "the present powers that we have are not sufficient for the maintenance of our rights." It was important, he added, that we should ask the British Parliament for more extensive powers, so that we might deal with such matters in the future in our own way. The fact that Canada's answer in respect to the reference was not awaited before the treaty was signed was a circumstance upon which Sir Wilfrid and other speakers dwelt at length with regret and disappointment. While we had lost something, we had not lost all, and that it now behooved us to take steps to connect the Yukon with the rest of Canada by communication over our own territory. The Opposition leader, Mr. Borden, suggested that if there had been three Canadian commissioners, the result might have been more advantageous to Canada, and said that when Canada's wish for arbitration was not granted they should have withdrawn from the negotiations. Mr. Bourassa, who opened the discussion, upheld Lord Alverstone as having followed the case as presented to him, and said the mistake arose from the conditions governing our relations to our own territory. Mr. Gourley delivered an inflammatory speech, in which he said Canada's strategic position was such that even with our small population we could defeat the United States. The House concluded its work, and adjournment will take place at 11 o'clock to-day.

A supply bill to the amount of \$26,000,000, covering the appropriations voted, was then introduced, and Hon. Mr. Fitzpatrick announced the abandonment for the present of the proposed amendments to the criminal code having reference to cigarette smoking, prize fights, etc. He said that discussion had shown the proposed amendments did not go as far as the House desired. He had not been able to give these amendments the sound consideration which they deserved, owing to pressure of business, but there must be another session at a very early date, when the whole matter will be taken up. The bill was then dropped.

Mr. Prefontaine's bill to amend the act respecting works constructed in navigable waters and Mr. Charlton's bill to amend the elections act were also dropped. Mr. Borden asked the reason for the withdrawal of the latter measure. Sir Wilfrid Laurier pointed out that the chief provision of the bill was one for compulsory voting, which did not meet the views of the House. There were other provisions which he would like to have seen adopted, but they had been poorly drafted in the opinion of the Minister of Justice, who, however, had not time to improve them. Hence the bill must go over for the present.

RUSSIA AND JAPAN.

Insurance Rates to the Far East Increased.

London, Oct. 24.—The Tientsin correspondent of The Standard says that the American, Russian and British gunboats are preparing to go into winter quarters at Newchwang. Similar preparations on the part of the Japanese gunboats were stopped by telegraphic orders from Tokyo. Heretofore the underwriters at Lloyd's have taken an optimistic view of the situation in the far east. Since yesterday, however, the insurance rates to the far east, covering all risks it was declared within three months, have been doubled.

The Japanese Legation reiterates to-day that there is not the slightest foundation for the rumors and other alarming reports of the imminence of a Russo-Japanese war. Official communications received from Tokyo during the past few days contained nothing to indicate the probability of an outbreak of hostilities, nor even that a hitch had occurred in the negotiations. The Foreign Office here also reiterates that its information is opposed to the alarmist stories.

Yokohama, Oct. 24.—The conference between Baron de Rosen, Russian Minister, and Foreign Minister Komura has been postponed until after the conference of the elder statesmen of Japan, which is to take place to-morrow. The Russian Viceroy of the far east, Admiral Alexieff, is expected to go to St. Petersburg early in November, which may delay the expected crisis.

LONDON MAN KILLED.

It is Believed that John Dew Was Murdered.

Detroit, Mich., Oct. 24.—The dead body of John Dew, a bachelor, who had worked at odd jobs about the shipyards at Wyandotte for the past year, was found in his cottage there with a hole in his temple that looked as though it was made by a hammer. The bed clothing was soaked with blood, and it is believed that Dew was the victim of a murderous assault. He was a native of London, Ont.

MR. WHITNEY AND A PIANO.

Novel Attraction on a Bracebridge Platform.

Bracebridge, Oct. 24.—Mr. J. P. Whitney, the leader of the Conservative Opposition, made his first appearance in this riding last night, and declared his belief in the truth of Mr. Gage's charges, which seem to have formed a large part of the campaign. The member for Manitoulin, who has been stumping the country, has left for the Soo, but Mr. Whitney, without going into details, gave the audience to understand that he endorsed Mr. Gage. The meeting was held in the Town Hall, which was crowded. Dr. Williams, the President of the association, occupied the chair. On the platform was a piano with this placard, "Ross, Stratton & Co., piano manufacturers, successors to R. R. Gage."

CONTROL OF RAILWAYS.

Senate and House Conference Come to an Agreement.

Ottawa, Oct. 24.—The conference between representatives of both branches of Parliament was resumed yesterday, with satisfactory results. The rights of the Provinces and of the municipalities are safeguarded by the Senate provision, which the Commons agrees to accept. This declares that when railways chartered by special act of Provinces are brought under Dominion control, it shall only apply as regards connections and crossings of Dominion lines, and through traffic. As for the Senate, it withdraws its amendment in favor of an appeal to the courts from the decision of the newly created railway commission. This leaves the act on this point as it came from the Commons, with an appeal from the Railway Commission to the Governor in Council only.

MUST PRODUCE BOOKS.

Moulders Troubles With the Canada Foundry Company.

Toronto, Oct. 24.—Thomas Atkinson and John H. Barnett must appear before the court and produce books by which the Canada Foundry Company hope to prove that the Scotch moulders whom they engaged were paid money to break their contracts. Justice Meredith yesterday, in the action of the Canada Foundry Company against R. H. Emmett and other defendants, an order was asked for by Mr. George Watson, K.C., for the re-examination of these two men and the production of the books.

A TRAIL OF BLOOD.

Serious Stabbing Affray at Hamilton.

Hamilton, Oct. 24.—A serious stabbing affray, which might have had fatal results, occurred at an alleged gambling resort on York street, formerly known as the Harmony Club, about midnight. As a result of the trouble three men are in the City Hospital. They are Thomas Murphy, 827 James street north, severely cut in the leg, near the thigh; Joseph Walsh, 22 Wood street east, stabbed in the back, and William Murray, who gave his address as 236 Wellington street, stabbed in the chest. On the sidewalk on the north side of York street, from the alley just west of Macnab street, to James street, and on James street north a couple of blocks, was a stream of blood, the trio having gone on a quest for a telephone. They went to McDonald's tobacco store first, and then to the Osborne Hotel, from which place a call was sent for the ambulance. Murphy was so weak from loss of blood he sank to the floor as soon as he got inside the hotel, and the other two wounded men were also overcome from their wounds. None of the trio was mortally injured.

TURKISH TROOPS IMPLICATED IN VILE PLOT.

Developments Are Expected to Follow Rapidly Upon Presentation to Porte of Austro-Russian Note.

Constantinople, Oct. 24.—In consequence of the discovery of a military plot to kill M. Balsieff, the Russian Consul at Uskub, the Government has rushed six battalions of troops thither from Koprulu and Perlope.

London, Oct. 23.—In a despatch from Vienna the correspondent of The Daily Telegraph says:—Now that the Austro-Russian note has been presented to the Porte, developments are expected to follow rapidly. The best informed persons in Vienna, the correspondent goes on, have been assured that there will be no further trouble this winter, but certain armed intervention is necessary before the reforms will be enforced. Austria is strengthening her garrison in the sanjak of Novibazar, European Turkey, and is rushing the completion of the railway between Sarajevo and Mitrovitza.

THE FISCAL FIGHT.

Addresses by Mr. Wyndham and Others—Retaliation Favored.

London, Oct. 24.—At a meeting held last night in Westminster of the Parliamentary Committee of the Unionist Free Food League, the Duke of Devonshire was unanimously elected President of the league and Lord Goschen, Chancellor of the Exchequer in the second Administration of Lord Salisbury; Sir Michael Hicks-Beach, who occupied the same office from 1895 to 1902, and the Right Hon. C. T. Ritchie, who resigned as Chancellor of the Exchequer this fall, were elected Vice-Presidents. The meeting approved the issue of a manifesto setting forth the views of the league. Briefly, this manifesto expresses the willingness of the league to consider, in a friendly and loyal spirit, any definite plan the Premier may submit to Parliament. It criticizes adversely and at considerable length, however, Mr. Joseph Chamberlain's proposals, and declares they would impose all the disadvantages of the Imperial Zollverein with none of its gains, and tend to promote the disintegration rather than the union of the empire, while leading inevitably to a policy of protection.

Victor Cavendish, heir to the Duke of Devonshire, who recently was appointed Financial Secretary to the treasury, speaking at Derby to-night, made some interesting revelations. He said he also had written a letter resigning his post as Treasurer of King Edward's household, but he "did not mail it." He explained that he did not like the idea of retaliation, but now he believed it was necessary to defend British trade. Mr. Cavendish is credited with being a free trader and his consenting to remain in the Government created comment at the time of the crisis.

Chief Irish Secretary Wyndham, whose declaration on the fiscal question has been awaited with considerable interest, which has not been diminished by his successful land bill fight, spoke at Dover to-night. He announced himself as thoroughly in accord with Premier Balfour and Jos. Chamberlain in fiscal matters, and he paid a tribute to the former Colonial Secretary as "the man who has seen the lack of wisdom of the nation entering the commercial lists without arms and without armor."

The meeting was enthusiastic, although the mention of Mr. Chamberlain provoked some interruption. Replying to the disturbers, Mr. Wyndham declared that Mr. Chamberlain was still of the party, if not of the Government; that he had gone ahead to reconnoitre the path for the Unionist army, and that he had resigned in order not to commit the Unionists to follow him unless they were convinced of the wisdom of his course. Mr. Wyndham said the American tariff of 1895 was the greatest protectionist tariff ever introduced in the history of the world, and that its

results refuted the declaration that protection killed the industry and the energy of a country. This had also been proved, he continued, by recent history in France and Germany. In conclusion Mr. Wyndham said he was not a protectionist, but a champion of free trade; he was willing to fight for it, but he declared that to discard the armor of retaliation was to enter the contest in a night gown.

THE ALIEN DANGER.

Reports of U. S. Commissioner of Immigration.

Washington, Oct. 24.—The annual report of the Commissioner-General, F. P. Sargent, of the United States Bureau of Immigration, shows a large increase of steerage immigration over that of the preceding year, the aggregate for the fiscal year of 1903 being 267,046, an excess over that of last year of 208,308, or 22 per cent. The statistics show an increase in immigration from all foreign sources. Of the total steerage immigration there came from all other sources 12,574. Including the cabin passengers, the total immigration of aliens to the United States during the year aggregated 321,315, or 105,048 more than the greatest number heretofore reported for any one year. The greatest number of immigrants furnished came from Russia 126,088, Germany 40,088, Sweden 46,028, Ireland 23,310, and England 26,219. Of the Oriental countries, Japan was foremost with 19,035, an increase of 5,888, while China contributed 2,208, an increase of 506 over last year. Of the total number of steerage aliens 613,164 were males and 248,900 were females, of whom 102,431 were under fourteen years of age. The total amount of money brought into the United States was \$16,177,763. Exclusive of those denied admission at the land boundaries of the United States, 8,789 alien immigrants were rejected for various causes, the number of rejections being nearly double those of the preceding year. Of these 5,812 were paupers, 1,772 were afflicted with disease, and 1,066 were contract laborers. Commissioner Sargent strongly recommends that an examination by competent medical officials be made of immigrants on behalf of the United States Government at foreign ports of embarkation. He refers to the grave danger of the country found in the colonizing of alien communities in great cities. "Such colonies," says he, "are a menace to the physical, social, moral and political security of the country."

DIVORCES INCREASING.

Pan-American Conference of Bishops Discusses the Situation.

Washington, Oct. 24.—Arrival of the increasing number of "divorces and unlawful marriages" in the United States was the feature of the fourth day's session of the Pan-American Conference of Bishops. The subject was introduced by Bishop Doane in a paper advocating closer co-operation by the Church of what he declared was a distressing condition of affairs. The Bishop of Toronto also read a paper on divorces.

The Value of Rest.

The busy woman, who realizes that it is well to consider the best method of retaining both her health and a fine appearance, will plan and obtain at least a short vacation every year. To be in the greatest degree beneficial the change should be as complete as possible. The more secluded and restful the spot the more good will result. Tiny worry lines will disappear under the soothing influence of the ideal retreat, while the free, out of door life will do wonders toward strengthening the muscles and imparting firmness to the skin, thus sending back to her wonted occupations a thoroughly rested and enthusiastic worker, with nerves under complete control and a brain capable of sustaining her through the trying demands of everyday duties.

Cultivate a Still Tongue.

If women would only bear in mind that they may need the world's good word themselves some day they would be more careful in what they say and how they say it. Charity is of thought as well as deed. It is not restricted to the feeding of the hungry and the clothing of the poor. It is as much needed among the rich as among any other class. The woman who would be a pattern of her sex will cultivate a still tongue. If she would be a blessing to humanity she will temper justice with mercy, and, above all, she will keep her verdicts to herself when she sits in judgment on her friends.

PROSPECTUS.

The Imperial Steel and Wire Company, Limited, is incorporated for the purpose of establishing a modern wire rod mill, wire drawing, wire nail, wood screw, tack and wire fencing plant at the town of Collingwood, Ontario.

THE PRODUCT.

Canada, within a very short time, will be producing sufficient iron and steel to meet all the local needs of our population, and exporting this material abroad.

At present the situation is approaching a peculiar condition. Furnaces are being erected for the smelting of pig iron, and the turning of the same into steel, but, owing to the fact that there are no mills in this country to finish the large quantity of slabs and billets manufactured by these plants, into wire rods, plates, sheets and structural material, the billets have to be exported to be finished in foreign countries and the product re-shipped back into Canada.

The fact also that the surplus product of the large steel companies is made up for billets and slabs, makes it impossible for us to export into the other colonies, such as South Africa, Australia, Egypt, India and China, where there is a good market for finished products. The field for exports is limited to Great Britain, Germany and the United States, countries that are all competitors in the production of steel.

This Company is organized for the purpose of finishing ready for the market, the material in one department of the steel industry, which has not only a large home market, but also a larger market in the other colonies than any other steel product, viz., wire.

WIRE ROD MILL.

Every pound of iron and steel that is used in the manufacture of wire, wire nails, fencing, screw nails and wire rope, that enters into consumption in Canada, is imported. The imports for 1898, 1900, 1902, were as follows:

	1898.	1900.	1902.
Wire rods.....	\$68,153	\$1,196,993	\$1,579,793
Barbed wire fencing.....	475,667	826,846	826,846
Wire fencing.....	395,734	744,235	190,835
Wire rope.....	58,693	75,343	130,465
Total.....	\$1,128,280	\$2,494,737	\$3,001,156

It will be seen from the above table that the consumption is increasing annually about 50 per cent. The average tonnage of wire rods alone imported into the country every working day is about 184 tons.

This Company proposes to erect a modern continuous wire rod mill with a capacity of one hundred tons daily per single turn, or two hundred tons working day and night. There is no mill of this description in the country at present, and that there is room for it there is no question. Canadian steel billets will be used in the manufacture of these rods and hundreds of workmen will be employed in this country, receiving wages that are now paid to workmen in the United States and Germany. A portion of these rods will be drawn in the Company's own wire drawing plant. The balance will be sold to other manufacturers of wire.

WIRE DRAWING PLANT.

The wire drawing plant which it is proposed to install will have a capacity of fifty tons of wire. It will be of the most modern type and designed to draw the wire continuously into the sizes required at one operation. The frames will be extra heavy, and the plant will be designed so that with every little expense the production can be doubled. A modern galvanizing plant and annealing furnaces and all accessories will be included.

It is proposed to finish the bulk of the wire drawn in the Company's mills into material ready for consumption, and to this end to install a wire nail, tack and spike plant with a capacity of at least twenty-five tons daily, with facilities for increasing the output to double this capacity. The most modern and rapid type of machines will be used for this purpose, and every modern facility taken advantage of.

WIRE FENCING.

The Company proposes to install another plant to turn out at least twenty-five tons of wire fencing daily. Galvanized wire will be used chiefly in this mill. The Company proposes to install machines to weave a simple, durable and high-class fencing, suitable for the Northwest and foreign trade, also for railways, which are among the largest consumers of this class of material. The rapid growth of this industry gives promise of its becoming the most profitable portion of the Company's undertakings.

LOCATION.

The plant will be located at the

Harbor of Collingwood, convenient to water and rail transport. In the matter of transport alone during the summer season rates from this point to Manitoba and the Northwest are generally ten per cent. per cwt. less than from Montreal, and other interior points. The rates from Collingwood to other points in older Ontario are equal to those from any city or manufacturing point in the country.

It is to the West the Company looks for its principal market. The rapid growth of this section of Canada will mean an enormous consumption of wire products. With such facilities for producing the raw product and marketing the finished material, it is estimated that the pre-eminence of the Company in this industry is assured.

RAW MATERIAL.

The Company will obtain from the Cramp Steel Company of Collingwood its supply of steel billets.

The works of this Company will be located on property which has been purchased adjacent to those of the Cramp Steel Company, and the material should be sufficient to pay a large portion of the dividend on the preferred stock. The site consists of ten acres of ground with easy access to the railway.

PROFITS.

It is estimated on the aforesaid basis that the profits on the Company's undertaking daily will be as follows:

70 tons wire rods, net profit, \$1.50 per ton.....	\$105.00
50 tons wire, net profit, \$1.50 per ton.....	75.00
25 " wire fencing " 3.00 ".....	75.00
Total net profit daily.....	\$250.00
Annual profit, 300 working days \$75,000.00	
Leaving profits to be divided as follows:	
\$20,000 Preferred..... 7 per cent.....	\$14,000.00

DIVIDENDS.

This calculation does not include the bounty of \$6 per ton on wire rods granted by the Dominion Government, which would add \$600 per day to the Company's revenue, or \$180,000 per year.

The preferred stock is cumulative. Dividends will be payable quarterly on March, June, September and December 1st.

BONUS.

A bonus of \$25,000 has been granted by the town of Collingwood, payable as soon as \$100,000 is expended on the works and the wire and nail mill is in operation, together with other concessions, such as fixed assessment, etc.

From the Collingwood Bulletin: Collingwood's New Industry

Work Begun on Buildings of the Imperial Steel and Wire Co.—The Site—The Buildings—The Processes of Manufacture—The Company's Policy.

The work on the buildings of the Imperial Steel and Wire Company, Limited, is being pushed with considerable vigor, and it is expected that before snow flies they will be completed and ready to receive the plant.

One of our readers have any idea of the magnitude of the proposed plant. When completed it will be one of the largest and without exception the most modern wire plant in America, which is saying a good deal.

THE SITE.

The ground floor area of the buildings alone will cover a space of about five and a quarter acres, and when the switches and all are completed the whole of the splendid plot of ground which the Company has secured from Messrs. J. & T. Charlton, containing ten acres, will be fully occupied.

Mr. John Wilson, the architect, has been busy for several weeks on the plans of the buildings, in which he has been advised by Mr. C. W. Vaughan, of Turner, Vaughan & Taylor, the wire mill engineering firm of Cuyahoga Falls, Ohio. Mr. Vaughan was here this week and he stated that the layout of the mills was one of the best he had yet seen anywhere.

The plant as designed will accommodate an output of a hundred tons of wire and wire products daily. The buildings are so located on the land that should their capacity be overtaxed, by making a few extensions on them, the capacity can be doubled without in any way interfering or changing the present plans.

The Company contemplates in their plant the manufacture of all kinds of wire products, from the steel billet down, through the various processes, to the finished merchantable product. Work will be rushed first on the nail mill and wire drawing plant. This will be followed by the galvanizing plant, fence mill, and finally the rod mill.

PROCESS OF WIRE MAKING.

This program will involve the following process: The rods will first be procured from the Cramp Steel Co., which will turn out this product until such time as the Wire Company establishes its own wire rod mill. Then billets and small ignots will be used, which by arrangement will also be obtained from the Cramp Steel Co., and rolled into rods on a continuous mill. There is a Government bounty on wire rods of \$6 per ton. The rods will be drawn into the various sizes of wire required for the market and will be manufactured into nails, fencing, wire for telegraph and telephone purposes, wire rope, screens, screw nails, tacks, and a hundred other products.

Mr. Wilson's plan is as follows, commencing at the west next the tracks: First come the switches, which consist of a main switch from

plant, fence mill, then the wire rod mill. Wire will be purchased to operate the nail mill as soon as it is ready to go into commission. As soon as the wire drawing plant is installed, which will take a little longer time, the purchase of wire will end and wire rods will be produced from the Cramp Steel Company, Limited, whose mills are made up for manufacturing this class of product, then the galvanizing and fence mill will follow, and lastly the rod mill. The raw material for the rod mill will be in the shape of steel billets.

When running with each department in full blast, double turn, the plant will give employment to fully five hundred hands. This will be a solid acquisition to the industries of the town, and as most of the products will be shipped to the Northwest, it will stimulate shipping from this point.

Detroit Specialist Discovers Something Entirely New For The Cure of Men's Diseases in Their Own Homes.

YOU PAY ONLY IF CURED

Expect No Money Unless He Cures You. Method and Full Particulars Sent Free. Write for it This Very Day.

A Detroit specialist who has 14 certificates and diplomas from colleges and medical boards, has perfected a startling method of curing the diseases of men in their own homes, and so that there may be no doubt in the mind of any man that he has both the method and the ability to do as he says, Dr. Goldberg, the discoverer, will send the method entirely free to all men who send him their names and

ress. He wants to hear from men who have stricture that they have been unable to get cured, prostatic trouble, sexual weakness, varicocele, manhood blood poison, hydrocele, inflammation of parts, impotency, etc. A wonderful method not only cures the condition itself, but likewise all the complications, such as rheumatism, bladder or kidney trouble, heart disease, etc.

The doctor realizes that it is one to make claims and another thing to back them up, so he has made a rule not to ask for money unless he cures you and when you are cured he feels sure that you will willingly pay him a small fee. It would seem, therefore, that it is to the best interests of every man who suffers in this way to write the doctor confidentially and lay your case before him. He sends the method as well as many booklets on the subject, including the one that contains the 14 diplomas and certificates, entirely free. Address him simply Dr. S. International Bible Lesson for Tomorrow—David's Joy Over Forgiveness—Psa. 32.

Golden Text—"Blessed is he whose transgression is forgiven, whose sin is covered."

Our last lesson was the cry of a penitent sinner, thus is the praise of the sinner pardoned and restored by the grace of God.

V. 1—It does dishonor to God to brood over our confessed sin instead of thanking Him for freely forgiving us according to His word.—"If we confess our sins He is faithful and just to forgive us our sins, and cleanse us from all unrighteousness."

"If God be for us, who can be against us?" "It is God that justifieth; who is he that condemneth?" V. 2—God to save us can only be just by imputing out guilt and sin to our substitute, the Lord Jesus Christ, "who became sin for us, and who His Own Self bore our sins in His body upon the tree, by whose stripes we are healed." Imputing His righteousness to us, He imparts it also as the divine righteousness of God, if we are guiltless.

V. 5—Hiding sin is hell on earth, remember its continuance.

V. 6—None can be truly without like experience of confession and forgiveness, and when they pass through the waters God will be with them, and through the rivers they shall not overflow them.

V. 7, 8—Hiding in God, preserved from trouble, songs of triumph, instructed and taught to go in God's ways, guarded by God's all-seeing eye, "who knoweth the end from the beginning," is walking by faith, not by sight—spiritual common sense—not like horse or mule, that have no mutual understanding with their owner and must be driven and guided by bit and bridle.

V. 10, 11—Many sorrows shall be to the wicked—and to God's children also—but mercy shall compass His people about, and gladness and joy and praise are the portion of upright hearts; "for all things work together for good to those who love God."

Blindfold a woman and she loses all confidence in herself. Her step is slow, hesitating and uncertain. Her hands are raised to ward the imaginary blows which threaten her. When a sick woman seeks the means of health she is often like a woman blindfold. She has no confidence. She cannot tell what her effort will lead to. She turns now to this side and then to the other in uncertainty and doubt.

The sick woman who uses Dr. Pierce's Favorite Prescription may do so with absolute confidence. It invites open-eyed investigation. There need be no hesitation in following the hundreds of thousands who of women who have found a perfect cure for womanly ills in the use of this medicine.

"Favorite Prescription" cures irregularity and dries weakening drains. It heals inflammation and ulceration, and cures female weakness. "With a heart full of gratitude to you for sending out over the land your wonderful medicine I send these few lines, hoping that some poor suffering woman will try Dr. Pierce's medicine," writes Mrs. Cora L. Root, of Greenspring Furnace, Washington Co., Maryland. "I had suffered severely from female weakness and had to be in bed a great deal of the time. Had headache, backache, and pain in left side when lying down. I commenced taking Dr. Pierce's Favorite Prescription, and had not taken two bottles when I was able to be around again and do my work with but little pain. Can now eat anything and it never hurts me any more. Have taken several bottles of Dr. Pierce's Favorite Prescription, and one of his Compound Extract of Smart-Weed and several vials of his 'Pleasant Pellets.' Feeling better every day. My husband says I look better every day. Dr. Pierce's Pleasant Pellets cure biliousness and sick-headache."

THE BEST FOR SADIE

Port Huron, Mich., Oct. 23, 1903

DEAR BRISCOE:—

Have McDonald or some decent, good, hack meet Miss Martinot and Maid, G. T. depot, 12.42 noon, Tuesday next and oblige,

RICHARD OBER,

M'r Sadie Martinot.

NOTE.—Don't fail in this, couldn't see Mac's hack when in Chatham yesterday. The cheery ones at depot not for Sadie.

The above is a copy of letter Manager Brisco received this morning regarding Miss Sadie Martinot's arrival at Chatham on Tuesday.

No stage heroine of recent years has excited so much attention as "The Second Mrs. Tanqueray," which Sadie

Martinot will soon present here. It is probably the most difficult character to play

that Arthur W. Pinero ever evolved. Paula has broken the laws society has ordained. Her endeavors to regain her foothold after her marriage are fruitless. A hundred curious eyes are turned upon the second Mrs. Tanqueray to watch every action, every circumstance, everything connected with her daily life. The memory of her past is torturing her. She finds herself preyed on by this torment and cannot confide in her husband or his daughter. Socially she is ostracised, and in Aubrey Tanqueray's quiet country man-

sa she has neither sympathy, assistance nor social obligations to help her to forget. Every day is a day of self-infliction, of yearning for the position her vanity has caused her to forfeit. The complex workings of Paula Tanqueray's mind are vividly displayed by the splendid art of Sadie Martinot, whose beauty of face and figure are accentuated by the exquisite and costly gowns she wears. Date for Chatham, Tuesday, Oct. 27.

BRANCHING OUT

Wilson Cordage Co. Will Manufacture Rope—Manager M. J. Wilson has returned from Purchasing Machinery.

M. J. Wilson, manager of the M. J. Wilson Cordage Company, has returned from a successful business trip to New York and Boston.

While in New York Mr. Wilson purchased a lot of rope machinery for his factory. This machinery will be installed at once in the second storey of the factory on Colborne street. Rope will then be manufactured in all sizes from 1-4 inch to 1-14 inch. Two tons of rope will be manufactured a day. This is merely following out what was intended to be done when the factory was first built.

While in New York Mr. Wilson saw Dowie, who is causing such a sensation in that city. He said concerning him: "He is a small man, stooped, and wears a white beard. He does not look at all shrewd. I did not hear him preach, although I had an opportunity of doing so. When I saw him he was walking down the street with a large crowd following him. He is reported to be worth thirty-five millions."

GOOD DEBATE

The Young Men's Club of Park street Methodist church spent a good time last evening. An excellent program was provided.

The debate, "Competition vs. Co-operation," Messrs. Hicks and Fritz for Competition and Messrs. Westman and Winterstine for Co-operation, was a very spirited affair and many splendid points were brought out on both sides. The decision, however, was in favor of Co-operation. Jasper Wilson, tenor, sang very acceptably "Shade of the Palms."

A CLEAN UP OF ALL REMNANTS.

A big opportunity to get short lengths of Prints, Flannels, Handsome Shaker Flannels, Wrappettes, Tweeds, Table Linens, Towellings, Sheetings, etc., in lengths from 1 to 7 yards. These lengths come in quite handy for Linings, Children's Dresses, Waists, all at Greatly Reduced Prices . . .

At 6c. Yard from 12 1-2c.

450 Yards of the best English Prints, odd ends and patterns, left from the Summer assortment, perfectly fast colors, full 32 inches wide, in a big range of light and dark colors, for children's or women's aprons, comforters or quilt linings. This is the greatest snap we have ever offered. Special Clearing price 6c. Yard.

AN ASSEMBLY OF Women's Coats.

From all sides we hear the same story—"Austin's coat collection is the broadest, best, biggest, most comprehensive." Of course we're prejudiced; but we believe it thoroughly. Reasons why. A woman may come here and buy a takes a size above the average, she can be fitted from a line of "extra size" coats which we had specially made for us.

Another thing with very few exceptions, our coats both foreign and domestic, are exclusive. You won't find the same designs elsewhere for they are restricted to us.

We provide a great variety at every price rather than a large stock of each of a few styles.

Here are price extremes in certain important groups.

\$4.25—Misses' Jackets of brown or navy, good quality beaver, heavily lined, fly front, ripple cuff, nicely finished with stitching.

At \$5—Ladies' Jacket of Oxford Grey Cheviot with double shoulder capes, bell sleeves with turn-back cuff, fly front, trimmed with stitched bands of black, trimmed with stitched bands of plain cloth.

At \$12.50—Of Flaked Zibeline, collarless, finished around neck, sleeves and down the front with band of stitched broadcloth and wide applique.

A WORD TO

Carpet Buyers.

This week we received two shipments direct from the makers in England, consisting of Wiltons, Velvets and Brussels. These along with a shipment from the Canadian Mills of the balance of our Union and Wool Carpets enables us to make a complete showing again. We want you to see our Carpet Stock. We know we have by far the largest stock in the city to show you of Floor Oil Cloths, Linoleum and Carpets, including Rugs.

We know that we can sell you an English Velvet Carpet at \$1.15 per yard laid on your floor, that is equal, if not superior to carpets sold at higher prices. The same can be said of our Famous Dollar Brussels and our Kidderminster Wiltons but the principal points we wish to emphasize is that we want you to come in and see the goods. We are satisfied to let the qualities and prices speak for themselves.

Important News to Men!

Whether you want your wearables a little better than the ordinary kinds, or whether you are inclined to economy that does not lower the quality of your outfitings, or whether you are simply anxious to buy the things you need to-day with the least time and trouble, you will come to Austin's.

AN OPEN DOOR FOR MEN THAT'S RARELY USED. The door that stands open for the return of any unsatisfactory garment bought at AUSTIN'S. Do you realize how good AUSTIN CLOTHING has to be, when the door is open so wide for it to come back if any fault is to be found with it?

No man sends a suit back unless it doesn't fit him, or his wife or friends do not like it. We make sure it fits him before he buys it. We show the choicest patterns that come from the woolen mills, so that his wife and friends admire the suit that comes from AUSTIN'S.

No friend is ever able to tell a man that he could have done better elsewhere—that is the prerogative of the man who buys at AUSTIN'S. This fall we have the choicest and largest variety of men's suits and overcoats that we have ever shown.

PARADISE FOUND

Many years ago a Frenchman came from Montreal and settled at Canard. He was satisfied with the County of Essex, and the more he saw of it the more he liked it, and he always declared that Essex was the Garden of Canada.

Last week he visited Chatham for the first time and went out to Dover Township. The French-Canadian went into ecstasies over Dover.

Sadie Martinot

In a Famous Play.

To secure accuracy in a stage effect of moonbeams shining through a stained glass window and illuminating the figure of Paula Tanqueray seated at her piano, Sadie Martinot got the biggest lens procurable and concentrated a calcium light upon the white costume she intended to wear. The dress was an elaborate and costly affair. The calcium rays made its color appear a delicate champagne or biscuit color, and that is the color of the fabric now worn by Miss Martinot in Pinero's play. "There's no use soiling white on dirty stages when it looks like yellow," says Miss Martinot, "and the coru crepe dress I now wear looks very much richer in the light from the window. Will appear at

The Grand on Tuesday Evening

Souvenir Range.

The best results can only be obtained from a cooking range when the operator has perfect control.

With most ranges control is out of the question—it is a roaring fire or a black fire box.

Perfect Control A Prominent Feature.

The Souvenir is fitted with a Direct Draft Damper, by turning which the range may quickly be heated to a white heat or combustion may be practically suspended.

Result—Abundant satisfaction and greatest economy of fuel.

GOLDEN WEDDING.

A very pleasant event occurred at the residence of Mr. James Gilhula, South Buxton, on Oct. 15, the occasion being their golden wedding. There were present three sons and five daughters, only one being absent, James, of St. Louis, Mo., besides the immediate relatives and friends of the aged couple.

Mr. and Mrs. Gilhula were kindly remembered by Mrs. David Toll, of Oury, and Dr. Bell of Merlin, who sent four beautiful bouquets. After dinner Mrs. C. Toll read the following address:

Dear Father and Mother,—It is with feelings of deepest love that we, your children, offer you our

heartiest congratulations on this the anniversary of your fiftieth wedding day, and we ask you to accept this paper as a slight token of our lifelong indebtedness to you, our earnest prayer being that you may be long spared to us. Other friends showed their good wishes in a similar manner.

Mr. Gilhula replied very feelingly, thanking his children and friends, after which Mrs. C. Wood, their eldest daughter, cut the wedding cake, and their three little granddaughters served it to the guests in a very happy manner.

After spending a very pleasant day the several guests departed to their homes, wishing Mr. and Mrs. Gilhula many happy returns of the day.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. Nathan Wood, an old and well-known resident of this vicinity, died at the family residence on the 5th of October, after a short illness, aged 78 years. A widow, six sons and one daughter survive him. The remains were interred in Smith's cemetery, and were carried to their last resting place by the sons of the deceased.

Another highly respected resident has passed away in the person of Cyrus Smith, who died on Friday evening, 16th inst., after a lingering illness, at the advanced age of 82 years. The deceased had resided on the farm on which he died from his birth. He was a Methodist in religion and a Conservative in politics. Two sons and a daughter survive him.

The sons are, William, of the homestead, Cyrus P., of Talbot St., and the daughter is Mrs. John Palmer, of Detroit. The funeral, which took place yesterday afternoon at Smith's cemetery, was largely attended by the many friends of the deceased and of the family. Rev. Mr. Sutcliffe, of whose church the deceased was a member, conducted the funeral service.

John Moore, 12th Con., recently sold his fifty-acre farm to his father, Richard Moore, and has bought a farm on Talbot St., near Essex Centre, where he will move his family in a few weeks.

Leon Paulin has returned to his home in the far west, after spending September with his parents, Frank Paulin and wife, Talbot St.

Crown Attorney H. D. Smith attended the funeral of his uncle, Cyrus Smith, yesterday.

Mrs. Duncan Johnston, who has been seriously ill during the past week, is somewhat better.

DARRELL.

A large number attended the morning service Sunday to enjoy the elegant sermon given by Rev. Mr. Downs, of Northwood. The evening service was conducted by Rev. J. J. Noble. All appreciated the solos rendered by Mrs. Walker, of Chatham.

WHAT'S THE MATTER?

When You Don't know it's Safe to Blame the Stomach—Dodd's Dyspepsia Tablets the Cure—A. D. Miller's Experience.

"During the summer of 1900 my doctor treated me for Liver Complaint, but instead of getting better I was gradually getting worse.

"My appetite was very irregular and I would bloat very much after eating. I also had palpitation of the heart and sometimes I could not sleep at all at night on account of my heart beating so hard.

"I was hardly able to get around when I commenced using Dodd's Dyspepsia Tablets. After using half a box I felt much better. Continuing their use I was soon entirely well and have had good health ever since."

This statement is made by Mr. A. D. Miller, of Pussey, Haliburton Co., Ont. It needs no comment. It tells their stomachs out in working order by Dodd's Dyspepsia Tablets and they will feel like new men and women.

DRESSY GOWNS.

Even Debutantes' Dresses Are Not So Simple This Year.

Debutantes' gowns will not be so simple this year as formerly. Take, for instance, a ball gown which is being made by a prominent dressmaker. It is of white chiffon de sole with a bertha of shirred muslin. The waist is encircled by a wide band of old rose tulle caught at the back with some old paste buckles. All around the edge of

GRAY CREPE DE CHINE GOWN.

The skirt is an insertion of the shirred muslin, and the fullness of the hips is held in place by tiny straps of passementerie with a suspension of pale pink and pale green introduced.

A beautiful black sole de chine frock now being made has very fine guipure net let in around the knees and hips. This is outlined in a fine design of cut beads with a sprinkling of silver paillettes. The bodice has a yoke and sleeves entirely composed of the ecru guipure with a layer of black sole de chine underneath. This is extremely becoming to the skin and is heavily dotted with jet and silver. The wide belt of oriental satin appears to knot in the back, although no fastening can be detected.

The cut shows a visting gown of gray crepe de chine trimmed with guipures. The stole ends are of velvet, with silk buttons and tassels.

BABY'S FUTURE

Something for Mothers to Think About

Lives of Suffering and Sorrow Averted

And Happiness and Prosperity Assured by

Cuticura Soap, Ointment and Pills When All Else Fails.

Every child born into the world with an inherited or early developed tendency to distressing, disfiguring humors of the skin, scalp and blood, becomes an object of the most tender solicitude, not only because of its suffering, but because of the dreadful fear that the disfigurement is to be lifelong and mar its future happiness and prosperity. Hence, it becomes the duty of mothers of such afflicted children to acquaint themselves with the best, the purest and most effective treatment available, viz., The Cuticura Treatment.

Warm baths with Cuticura Soap, to cleanse the skin and scalp of crusts and scales, gentle applications of Cuticura Ointment, to allay itching, irritation and inflammation, and soothe and heal, and mild doses of Cuticura Resolvent, to cool the blood in the severer cases, are all that can be desired for the speedy relief and permanent cure of skin troubles in infants and children, and the comfort of worn-out parents.

Millions of women use Cuticura Soap, assisted by Cuticura Ointment, for preserving, purifying and beautifying the skin, scalp, hair and hands, for annoying irritations and weaknesses, and for many sensitive, antiseptic purposes which readily suggest themselves.

Cuticura Soap, Ointment and Pills are sold throughout the world. Depot London, 27, Chancery Lane, E.C. 4. Sole Agents for Canada, U.S.A., and Mexico, The Cuticura Company, 110, Broadway, New York, U.S.A.

Unexpected Assistance.

A curious incident in its history occurred some years ago at the interesting Mariners' Church of St. John's, Dover, when the Rev. W. Yates, founder of the Dover Sailors' Home, which has played such a prominent part in relieving shipwrecked mariners, made an appeal for funds in the course of one of his sermons to the avoidance of the church. To his surprise he next day received from the Baroness Burdett-Coutts, who had sat unknown among the congregation, a check for £1,000, and the church has been carried on with success ever since.—London Standard.

"MUST BE FRIENDS."

New Sir Walter Scott Began His Life-Long Friendship With the Grandmother of Tom Hughes.

The correspondence of Mrs. Mary Anne Hughes, grandmother of Thomas Hughes, of "Tom Brown" fame, with Sir Walter Scott, which has lately been published in the Century Magazine, is full of pleasant and interesting things; but perhaps nothing is more delightfully characteristic of both the correspondents than the manner in which their friendship began. Mrs. Hughes was very fond of dogs; her intimate friend, Mrs. Hayman (also a friend of Scott), whom she visited twice a week, strongly disliked them. Near Mrs. Hayman's house, where Mrs. Hughes must pass it every time, was a stable in which was kept a wretched dog so obviously half-starved that the compassionate woman fell into the habit of bringing him a parcel of bones wrapped in newspaper and tucked inside her ample muff.

The dog soon knew and watched for her, and manifested touching signs of gratitude and affection. Mrs. Hayman found the performance a fruitful subject of mirth, and made much fun of the "folly and greediness" as she termed it, of her friend's peculiar form of charity.

"On the morning when I went to meet Sir Walter Scott," Mrs. Hughes noted in her journal, "he had arrived, and was sitting with her, and immediately on my entrance she cried out, 'Well! Have you been pampering your nasty, mangy cur?' And when I answered in the affirmative, she turned to Sir Walter and said, 'I don't know, Mr. Scott, whether you will thank me for the introduction, unless she wins you over by her singing; but I must tell you that this simpleton lives in the cloisters of Westminster and comes here twice or thrice a week, bringing with her a parcel of dirty bones, with which she fills her nice new muff, for a nasty half-starved cur, and feeds the creature with them.'"

"He made no reply for a minute or two, but leaned back in his chair gazing hard at me under his shaggy brows, but with the most benevolent smile; then thrusting out his hand he caught hold of mine in a grip which I can only compare to a blacksmith's vise, exclaiming, 'You and I must be friends!' which during his remaining life he verified."

Fire beetles as Candles.

An interesting fact, vouched for by the natives and confirmed by competent European observers, is that the Baya, or "Bird of India," after receiving its nest with wonderful ingenuity and art, affixes about the entrance to its odd-shaped home numerous tiny clay balls.

These clay balls serve as so many candlesticks for some extremely odd candles, the candles in question being nothing else than fire beetles, which in that part of the world, glow with a brilliancy unknown to the natives of colder regions.

The birds catch the beetles and stick them, while alive, of course, into the clay balls, where they remain and furnish quite an illumination.

If the object of the captor in thus utilizing his prisoners is to protect himself from his numerous enemies, he is thoroughly successful.

Snakes and all others who prey upon him are frightened away by the lights with which he guards his home.

Good Type of Welsh Clergyman.

Canon Griffiths Roberts, rector of Llandaff, has been appointed Dean of Bangor. He was educated at Trinity College, Dublin, and has spent the whole of his ecclesiastical career in the principality. The new Dean is a good type of the native Welsh clergyman. A man of moderate views, a good parochial organizer, a preacher and writer who, in either English or Welsh, is listened to gladly, he has done much quiet, sound work for the Church in Wales.

Canon Roberts has, among other literary work, edited the Welsh weekly journal Y Llan, and he was one of the four Welsh clergymen chosen to translate the Coronation Service into Welsh and to make, on the Accession of the King, the necessary alterations in the Welsh prayer-book.

The chancel of Bangor Cathedral has just been reopened after complete renovation, the expense of which was borne by Lord Pembroke. The work of beautifying the chancel occupied over six months, the whole of the old fresco work being reproduced.

Told of the Ladies.

A Berlin woman bequeathed her property to a cat.

Mrs. L. Goodman, the oldest living woman artist, is 90. She has painted upward of 1,200 portraits.

For the first time on record a young lady has won the literary medical scholarship at Queen's college, Galway.

A German professor has been investigating the causes of insanity among women and has come to the conclusion that if women are admitted into competition with men the inevitable result will be a tremendous increase of insanity among the women. He finds that the percentage of insane teachers who become insane is almost double that of the men teachers.

What Others Say.

Farmers, as a rule, are not fond of figures. They hate to count the cost, at least when it has to be done with pen and figures.

How Iron-ox Tablets Improved a London Boy's Health.

January 31, 1903.

I am glad to tell you of the good effects of Iron-ox Tablets. We first got them for our boy, two-and-a-half years old, who was very cross and had no appetite. Your remedy soon made him as bright as ever. My husband uses them for headache and sluggish liver. While certainly effective, they cause neither pain nor inconvenience. We have a box in the house always now.

Poverty Stricken York.

In consequence of the revelations regarding the abject poverty of one-tenth of the 75,000 inhabitants of York, England, made in Rowntree's book, "Poverty: A Study of Town Life," two manufacturers, employing together 6,200 laborers, increased their wages to 24 shillings a week. They raised previously from 18 to 21 shillings.

"More haste, less speed," and "hasten slowly," are proverbs born of experience that some things can't be hurried without loss and waste. That is specially true of eating. The railway lunch habit, "five minutes for refreshments," is a habit most disastrous to the health. You may hurry your eating. You can't hurry your digestion, and the neglect to allow proper time for this important function is the beginning of sorrows to many a busy man. When the tongue is foul, the head aches, then there are sour or bitter risings, undue fullness, after eating, hot flushes, irritability, nervousness, irascibility, cold extremities, and other annoying symptoms, be sure the stomach and organs of digestion and nutrition have "broken down." Nothing will re-establish them in active healthy operation so quickly as Dr. Pierce's Golden Medical Discovery. It strengthens the stomach, nourishes the nerves, purifies the blood and builds up the body. It is a strictly temperance medicine, containing no alcohol or other intoxicant.

Given away! Dr. Pierce's great work, The People's Common Sense Medical Adviser, is sent free on receipt of stamps to pay expense of mailing and customs. Send 31 one-cent stamps for the paper covered book, or 50 stamps for cloth binding, to Dr. R. V. Pierce, Buffalo, N. Y.

TENDERS WANTED

Sealed Tenders "by registered letter only," marked "Tender for Point Pelée Drainage Improvement," will be received by the undersigned up to 12 o'clock noon on Monday, the 2nd day of November, 1903, for the dredging and other works in connection with the improvement of the Point Pelée Drainage System in the Township of Mersea, County of Essex. The works to be tendered for include about seven miles in length of Dredge Cutting, building up and repairing embankments, lowering pump beds, discharge pumps, flumes, etc., sheet piling and other works set out in the specifications.

Tenders may be for the entire work or for the dredge and other works separately.

Plans and specifications can be seen at my office in the Town of Leamington. Each tender must be accompanied by a marked cheque payable to the Treasurer of the Township of Mersea for 5 per cent. of the amount of the tender, which will be retained as security only in case of successful tenderers, until contract has been properly signed and executed by the respective parties and construction of work actually begun to an extent equal to marked cheque. The Council reserves the right to reject any or all tenders.

WORLD OF SPORT

BASKET BALL

Frank Lewis, who is running a gymnasium, dancing school, etc., in Wallaceburg, was a Maple City visitor to-day. Mr. Lewis is a basket ball enthusiast and has six basket ball clubs in the "Burg. Two of these clubs are composed of young ladies, the remaining clubs being composed of the young men of the "Burg. Mr. Lewis is very anxious to arrange basket ball games with any Maple City team, and the Bugle Band will likely arrange a game for a week from Friday next.

Indoor baseball, too, is being pushed in the "Burg by Mr. Lewis, and there should be some good sport this winter. Two companies of the Regiment have indoor baseball teams and games can be easily arranged.

ABSENT-MINDED

They were travellers and they were in the Garner House talking about absent-mindedness.

"I was never considered absent-minded," said one of the travellers who visits Chatham frequently, "but one day I was whittling a piece of wood and I found myself throwing

my knife away and putting the piece of wood in my pocket."

A laugh followed, and John McCoig piped in—

"That is almost as bad as the traveller who came to the house here, and when he was about to retire he put his cane in bed and stood himself up behind the door."

The crowd immediately dispersed.

SATURDAY REVIEW DEALS PLAINLY WITH CHARGES.

Other Weeklies, However, Decline to Believe Lord Alverstone Guilty of Breach of Faith.

London, Oct. 24.—With the exception of the Saturday Review, the weekly papers in their comments on the decision of the Alaska Boundary Tribunal adopt fairly impartial views, and decline to believe that Lord Chief Justice Alverstone was actuated by other than honorable and judicial motives, or that he was guilty of the breach of faith charged against him. The Saturday Review, however, declares that "One more betrayal of the same nature will strain the imperial connection to the breaking point," and congratulates Mr. Chamberlain upon his being out of the Government on such an occasion.

All the weeklies naturally sympathize with Canada.

The Spectator believes that after momentary expressions of annoyance the Canadians, being a sensible people, will realize that they are as much bound by the decision as they would have been had it been wholly favorable to them.

THEY FOUGHT FIERCELY.

Arrest of Men Suspected of Stealing \$15,000 From a Postoffice.

Detroit, Oct. 24.—A special despatch from Marquette says that two men have been arrested at Ishpeming on suspicion of being the robbers who stole \$15,000 from the postoffice at Superior, Wis. The men were arrested on a train and gave the officers a sharp battle, in which a number of shots were fired, and both the suspects were wounded.

C. P. R. TRAINMEN'S PAY.

No Agreement Has as Yet Been Reached.

Winnipeg, Oct. 24.—Delegates from the Brotherhood of Locomotive Engineers and Firemen, who returned yesterday from Montreal, report that no arrangements have as yet been made between the C. P. R. management and the committee, which will meet in Montreal about the 1st inst. The General Committee comprises representatives from all the divisions of the C. P. R. in Canada, about twenty are expected to be present. In the meantime the whole matter is in abeyance.

KILLED AT HAMILTON.

Unknown Man Cut to Pieces by a Train.

Hamilton, Oct. 23.—An unknown man was cut to pieces by a through west-bound freight train near the T. H. & B. station at about 10.30 last night. No person, so far as is known, saw the fatality. The hat and pipe of the deceased were found at the Hudson street crossing of the T. H. & B. Railway, and the remains of the unfortunate individual were strewn in places for a quarter of a mile along the track. The pieces were gathered up and carried to the morgue in a tarpaulin. Dr. Remie was called to the scene, but failed to find anything by which the remains could be identified. It is supposed that the deceased tried to board the train as it was passing through.

Battleship Victory Damaged.

Portsmouth, Eng., Oct. 24.—Nelson's old flagship, the Victory, was nearly sunk in Portsmouth harbor yesterday by the battleship Neptune. The battleship Hero and some minor craft were also damaged.

The Neptune, which was being towed into Portsmouth, preparatory to being taken to the Thames to be broken up, broke adrift and ran amuck. After desperate efforts the Neptune was secured by the Hero, but not before the former had knocked a six-foot hole in the Victory's port quarter. The Victory's lower decks were flooded and she began to settle, her crew standing at quarters, but the arrival of tugs enabled the old flagship to be kept afloat until she was docked.

Rebels Rush a Turkish Port.

Sofia, Oct. 24.—On Wednesday evening a number of insurgent bands, co-operating under Col. Nikoloff, attacked and captured the Turkish fortified port at Merkaze, which was burnt, as were also the adjoining camp, the houses and stables. The fortifications of the barracks were blown up with dynamite. The garrison fled without firing a shot. Some 500 Turkish troops, stationed in the neighboring villages of Bistriza and Osmovo, made no effort to interfere with the bands, which were accompanied by British and Russian newspaper correspondents.

Montreal Grain and Provisions.

Montreal, Oct. 23.—Grain.—The market is dull and steady throughout. Coarse grains are fairly active. Barley not parting readily with their stock. No. 1 northern, 85c; No. 2 northern, in store at Port William, is quoted at 75c, and No. 3 at 70c. We quote—Feas, 75c to 72c; ahead, No. 3 white oats, 23c to 24c; ahead, and No. 2 white, 22c to 23c; ahead, buckwheat, 40c ahead.

Flour.—The local demand is fair and prices are steady. Choice Manitoba spring wheat patents, \$4.25; Manitoba, strong, \$4.50; winter wheat patents, \$4.15 to \$4.50; straight, \$3.75 to \$4; extra, \$3.50 to \$3.75; straight, rollers in bags, \$3.20 to \$3.50, and extra in bags, \$3.25 to \$3.50.

Feed.—Demand was good and the market steady. Manitoba bran in bags, \$7 to \$7.25; shorts, \$20 per ton; Ontario bran in bulk, \$15.50 to \$16; shorts, \$18 to \$19; molasses, \$24 to \$25 per ton, as to quality.

Rolls.—The demand for rolls is still limited, and chiefly for rolls to fill actual requirements. The market is steady at \$1.75 to \$1.80 per bag, and at \$2.75 to \$2.85 per barrel.

Beans.—Choice primes, \$1.00 to \$1.025 per bushel, in car lots.

Provisions.—Heavy Canadian short cut, \$30.50; compound refined lard, 8c; prime pork, \$20.50 to \$21; light short cut, \$20; Canadian lard, \$16 to \$17; kettle rendered, 10c to 10.5c; hams, 12.5c to 14c; bacon, 14c to 15c; fresh killed abattoir hogs, \$7.75 to \$8.

REGARDED AS A WARNING.

Free Trade Press on Result of Bye-Election.

London, Oct. 24.—The London Daily Mail says the somewhat unsatisfactory result in the Warwick and Leamington bye-election, in which Hon. Mr. Lytton's majority was reduced by 841, is evidence, we think, that the country is not yet sufficiently educated to the change embodied in Mr. Chamberlain's plan, since the scheme was first announced at Leamington, which is Chamberlain's own district, and all his admirable organization was at work.

The Daily Graphic says the election shows that much spade work remains to be done by Mr. Chamberlain's followers, but it comes too soon to afford a trustworthy indication as to what the nation's final verdict is likely to be.

The Chronicle says the figures will be received by Conservatives with blank astonishment. The result is a rebuff to the policy of the Government, and particularly to Mr. Chamberlain. The break up of the Unionist party is advanced a further stage by the manifesto published by the Unionist Free Trade League to-day and by the strikingly large number of leading Liberal-Unionists the league contains such as Devonshire, James Goschen, North, Brock, Peel, Avelbury and men prominent in the business and banking world.

The Standard says the result of the bye-election is the first warning that the country will not have its food taxed, and if Mr. Chamberlain's policy is to be carried out some other procedure will have to be discovered.

The Morning Post ascribes the diminished majority to the grievances of the dissenters with the education act, and asks: "Where is the tide of popular opinion which is to sweep away the party that laid sacrificial hands on free trade?"

The Telegraph declares that the Cobdenites have availed themselves of the opportunity of appealing to Caesar, and have been handsomely defeated. Leamington in 1885, when nearly all the boroughs of England went Tory, sent Peel as a Radical to the House of Commons, with nearly double the majority received by Mr. Lytton yesterday. It is manifest that the protection of our colonies against any attempt to penalize their efforts in favor of commercial intercourse with the mother country is an essential preliminary to all negotiations within the limits of the empire.

A PLEASANT SURPRISE.

I Store for hns. Who Doubt.

When you read that a sufferer of many years' standing has been completely restored to health by using Smith's Cure-all, you are inclined to doubt the statement, and, after all, have no belief in it whatever. The reason for this is that so much is claimed for the Cure-all it is impossible for anyone to believe it; if the advertiser confirmed his claims to the curing of one disease, as do the proprietors of Pyramid Pile Cure, readers would have much more faith in published testimonials. Those familiar with this great remedy know that testimonials as to its merit may be relied upon implicitly, also that the cures brought about by its use are short of marvellous. The genuineness of the testimonials here given is vouched for and is but one of thousands received:

"I wish to write you and tell you what your Pyramid Pile Cure has done for me. I have been troubled with piles for the past five years and used every remedy that was recommended to me. While some would give me relief for a while they never have cured. I was so bad this summer I could not get up or down without pain; could not attend to my household duties. Finally I got a 50-cent box of your Pyramid Pile Cure at the drugist's and it is now two months since I used the last of the box, and have had no trouble since. I can say it is really and truly a good remedy."

"I am so thankful I tried it as I know it has cured me, and if at any time should have any such trouble again I would use it at once. Since I am cured I have recommended it to my friends, whom I know to be afflicted as I was, and I know they will use it too. I am so thankful I ever learned of your cure." Mrs. F. Fitt, 469 2nd street, Grand Rapids, Mich.

Pyramid Pile Cure is sold by druggists for fifty cents a package, or will be mailed to any address upon receipt of price by Pyramid Drug Co., Marshall, Mich. Write this firm for their book describing the cause and cure of piles.

Kind Words to The Planet

Congratulatory Comments from Esteemed Contemporaries on the Recent "Libel" Action Against This Journal.

The Planet is desirous of acknowledging its appreciation of the many kind words of congratulation and good wishes, which it has been receiving for some days past from friends and contemporaries in all parts of the Dominion, on the victory of this journal in connection with the recent action for alleged libel, tried at the last local sittings of the High Court.

In addition to scores of personal letters and telegrams, The Planet has noted with sincere appreciation the kindly and congratulatory comment of many contemporaries. A few of these it takes the privilege of reproducing.

SENDS "CONGRATS"

The following brief and characteristic despatch from the advertising manager of the Monetary Times, Toronto, speaks for itself:—

Glad to notice by Toronto Star of Wednesday that you had come out on top in libel action of Philip vs. The Planet. Heartiest congrats.

JAMES J. SALMOND.

PLEASING TO THE PRESS

The St. Catharines Star comments as follows:—

"We congratulate The Chatham Planet on its out-and-out victory in the recent libel action of Philip vs. The Planet. The result will be especially pleasing to Canadian newspaperdom, because the action seems to have been instigated altogether by outside mischief-makers with personal animosity towards the paper. The Star and almost every other paper that does its duty fearlessly and firmly has suffered annoyance from such individuals. It is too bad that the law does not get more directly at them."

GOOD BUSINESS

The Hamilton Spectator, pithy and pointed as usual, says:—

"It took a Kent jury but seven minutes to give a verdict for The Planet newspaper in an action for alleged libel the other day. That looks like good business and The Planet has our congratulations."

NOTHING ELSE TO DO

The Orillia News-Letter comments as follows:—

"The victory for The Planet in the recent High Court libel action at Chatham, Ont., is not hard to understand when the article complained of is evidence at the trial is read. The charge was so evidently 'rumped up' that there was nothing else for the jury to do. We congratulate The Planet on the outcome."

NO GOOD GROUND

The Brockville Times says editorially:—

"The Chatham Planet is to be congratulated upon the successful result of its recent libel suit. It only took the jury seven minutes to decide that there was no libel; and the jurymen are also to be congratulated upon their prompt finding. From what we have seen of the details of the case we fail to comprehend why the action was taken. There was certainly no good ground for it. There was no malice shown by The Planet — the newspaper was simply doing its plain duty to the public in reporting certain matters relating to the embargo of the 24th Regiment band. The action for libel seems to have been taken for those annoying procedures to good newspapers which do duty to the public are sometimes called. It is, therefore, pleasant to see newspaper fraternity to know that the jury gave a prompt verdict for The Planet and that the defendant had to pay the costs of the case."

FROM THE FAR WEST

From the far west comes the Tribune with the following comment:—

"The Canadian newspaper, The Ontario Planet, has been in the courts. The Planet is understood to give the main military news which is entitled to and was considered with action for libel the militia bandmen and his. The outcome was a condemnation for the paper — a

result which is highly gratifying to journalists all over the Dominion. The Planet has our congratulations."

FREEDOM OF THE PRESS

The Ottawa Journal has the following to say:—

"The days when the press was muzzled are happily ended. This country is blessed with, on the whole, a sturdy, honest and independent press, and Canadian justice can be relied upon to protect its rights. Witness the case of The Chatham Planet the other day. The Planet commented fairly and in the public interests on a matter affecting the Kent County Regimental Band. An action for libel was brought as a result by some parties who thought they were aggrieved thereby. The action was tried at the recent assizes and the jury gave the paper a verdict almost without leaving their seats."

THE RECORD'S TURN

The Windsor Record, which recently experienced a libel action on its own account, says:—

"Some time ago our esteemed contemporary, The Chatham Planet, in an editorial complimented us on being exonerated in the courts from the charge of libel. An opportunity is now afforded us of returning the kindness. The Planet recently had to face the charge of libel. The accusation rose out of a report of a meeting of the 24th Kent regiment, held after the band trouble in the regiment, in which the musical body had been dismissed. H. C. Philp, the leader of the ostracized band, maintained that The Planet's report reflected upon him. The jury, however, thought otherwise and returned a verdict of 'no libel' after six minutes' private consideration. We are not conversant with the particulars in the present case, but we have met people who, if they were as solicitous about their characters as they are of their reputations, newspapers would not so often be put to the bother of vindicating themselves in the courts."

FROM OUR OWN COUNTY

The Ridgeway Dominion tenders the following kindly expression:—

"We congratulate The Chatham Planet upon the outcome of the libel suit brought against it by the late bandmaster of the 24th Kent Regiment. At the assizes Tuesday the jury, after being out six minutes, returned a verdict of 'no libel.'"

GIVING THE TRUTH

The Berlin News-Record says:—

"Congratulations to The Chatham Planet on its victory in the recent libel action brought against it. It will be an encouragement to The Planet and every other paper to go on fearlessly giving the public the truth about public matters."

POOR AND NEEDY

The world is not against you! You are mistaken in thinking so. On every side are men and women anxious to assist you.

You need not go hungry, if your clothes are ragged, for almost every man you meet will give you a cold shoulder.

Call on your friends and they will ask you to take a chair, or perhaps two.

Even the elevator boy will give you a lift.

You have no reason to complain, for men are always willing to assist you, even down stairs, if necessary. Be not cast down.—New York Sun.

KISS THEM ALL

Illustrated Bits.

At Boulogne recently, during a royal reception, a number of English ladies, in their anxiety to see everything, pressed with such force against the soldiers who were keeping the line that the latter were forced to give way, and generally were to use the expression of policemen—"hindered in the execution of their duty." The officer in command, observing the state of affairs, called out:

"One roll of the drum — if they don't stand back, kiss them all!"

After the first sound of the drum the ladies took to flight.

"If they had been French," said a Parisian journal, "they would have remained to a woman."

MADE IN CHINA

The Times of yesterday published news to the effect that a Sikh policeman had arrested and run in a motor car on Saturday afternoon. The question arises, was the Sikh seeking trouble? Also had he ought to run the auto in? And, again, did he run the auto in or did it run him in? It was all right, anyway, as long as it didn't run into anything else. Running in motor cars is O. K. but giving arrest.—Shanghai Times.

THIS BEET BEATS ALL

William Sparling, of near Uby, Haron county, has beaten all his neighbors by raising a sugar beet on his farm which beats all the other beets on the beat, deadbeats included. Sparling's beater beet weighs 13 pounds, 15 ounces, and, like Topsy, it "just grewed." Sparling shipped his beet to St. Louis, Mo., where he expects his beet will beat all other beets to be exhibited at the world's fair in that city, which is expected to beat out the famous world-beater fair held in Chicago.

Navy blue broadcloth, with buttons and lawn-cloth braided in black soutache as trimmings, makes this smart Rubel and Wile Gown for juvenile wear. Both back and of the lighter goods. The latter also forms the cuff, which also reaches half way to the elbow, the puff being left to hang loose outside the cuff. The buttons are shown in three sizes. The New York military sailor has fluffy little silk bands perched saucily on the brim, and also dangling from the crown, whereas a scarf of blue silk is jauntily knotted.

The Wonders of the Great West

Delightfully Descriptive and Entertaining Letter from a Maple City Lady Recently Returned from a Transcontinental Tour.

The Canadian Manufacturers have returned from their touring of the West and Northwest. They are all loud in their praises of the country and the attention shown by C. P. R. officials. Everything was done for their accommodation and comfort. The hospitality of our western people is unbounded. Our trip was one succession of warm and hearty welcomes to the different cities and towns. We are so linked with the West that many of our young men and women have established themselves there — carving out their fortunes and aiding in the upbuilding of their country.

It does not require great optimism to see the possibilities that lie before Canada in the near future. Such vast tracts of arable land, undeveloped mines, coal, silver and gold, which steady progress and constant industry will make productive of untold wealth. The gigantic B. C. forests, well stocked rivers and streams are another source of revenue. Nature has been lavish, has so much still to yield, that one feels this Canada of ours has been specially favored in many respects. We are grateful to the pioneer, remembering his hardships and privations. We look to our legislators to be truly great men, with "Country" in their motto. It is, however, to our young men and women, that the future belongs, and there is much to be done. As a Winnipeg editor says, "We all need imagination, we must look ahead, see the Venus de Milo in the block of marble." Learn what is to be done and what can be done.

One very pleasing and interesting incident of the trip was, the meeting of the British Chambers of Commerce members, who were on their return journey from the Pacific coast. Our two special met near a place called Peninsula, on the north shore of Lake Superior. We all disembarked and on the hillside among the rocks gave three hearty, rousing cheers for "King and Empire." The gentlemen cheered the ladies of both parties. Many were the hasty introductions, handshakings and greetings. Just such meetings as these cement the good feeling with the "Old Land."

The westward route, from Winnipeg to Victoria, via Kicking Horse Pass, with stops at Brandon, Moose Jaw, Regina and Calgary, from which place we went north on a spur line of the C. P. R. to Strathcona and Edmonton. These two towns are very progressive towns with many fine buildings, modern facilities, etc. Returning to Calgary, an important place of the great ranching district, we came in sight of the mountains with their dazzling snow-capped peaks. The foot-hills, the extreme, dotted with thousands of cattle grazing here and there. The easy riding cow-boy and well-trained dog. We noticed many fine ranch homesteads, and in a number of cases excellent barns and out-buildings. Through this part there is constantly so much to entrance the eye that we found ourselves at times, the charming, almost before we realized that we were in the Rockies. The picturesque hotel here is famed for its unique situation. Wonders unfold themselves on all sides. The altitude here is about 4,500 feet. The mineral waters are believed to be of great value. In the hotel rotunda, which is hung with trophies of the chase, we had a delightful little dance, and spent a pleasant hour or two one evening. Next day, off again and up again, ever rising, higher and higher, to Laggan with its mirror, the environment, field and its adjoining great glacier are revelations to those who behold them for the first time. Near Mount Stephen we passed the "Grea. Divide," where a little mountain stream plainly divides and flows in either direction. One branch to be swallowed up eventually in the Pacific, the other in the Atlantic Ocean. From this on, wonders and mysteries of the Ice Age, and unfading ideas of great rock upheavals crowd the mind continually.

Our party were delighted to reach the city of Vancouver, at the occidental gateway of our continent on the Pacific shore. A delectable and most satisfying lunch had been prepared for us. With best accommodation, and Chinamen to do our bidding, making us glad to rest a while at this famous city. A drive through Stanley Park with the sight of the gigantic Douglas firs, and other large trees, and a visit to the saw-mill, gave one an idea of the timber trade of British Columbia.

We took in the exhibition at New Westminster, which added to our knowledge as to what splendid vegetables and fruit can be grown in this section. Our party were eager for their little voyage on the Pacific to Victoria, the harbor of which affords some of the finest scenery in the world, and to see the noble ships go forth, bound for Japan, China and India, and the Isles of the Sea, carries one in fancy far beyond this portal of the setting sun. Victorian homes remind us of Scotland and England.

Flowers grow in great profusion and perfection. A reception was tendered the party in the Senate Chamber of the Parliament Buildings. The Lieut.-Governor, Sir Henri Jolie de Lothbencr, assisted by several ladies, receiving and entertaining the visitors. The last reception in the Chambers was held for the present Prince and Princess of Wales. Connected with this fine building is a splendid museum.

The various drives in the vicinity of the city are beautiful. We were loth to leave this enchanted shore, but this being our terminal point our faces are now turned homeward, and there is magic in the good old word, "Home." Thus, with mingled feelings, we made our adieux. Our special seemed attractive with its fresh decorations, as we boarded it for the eastward return, via the Crow's Nest Pass. Sailing by one of the Arrow Lakes we visited Rossland and its famous mines, such widely known names as Le Roi, War Eagle, Centre, Star; alas, some have good cause to remember them, and their own feverish hopes. But let us not condemn the mine. Steady development is doing much; they are by no means unprofitable or unproductive. Rossland is high on the side of a mountain, the railway using Switchbacks to reach the elevation of the town. The Columbia River is bridged at Robson. Nelson is markedly different from Rossland, it is nestled in a valley of mountains on every side.

The Kootenay Lake steamer gave us an ideal trip through a part of the country well stocked with game and fish. Boating and outing here would be delightful.

We inspected the huge smelter at Fernie, admired the engineering skill and great structural work of the Crow's Nest Pass, with its precipitous rocks and fortuous windings. An hour was spent in the devastated town of Frank and we could not but wonder at those who continue to live in their cottages almost beneath the still threatening rock. We clambered over the splintered fragments above the buried homes, and were simply amazed and horrified at the extent of ruin and debris. We all felt saddened and depressed, and not unwilling to leave the unfortunate place.

At Fort McLeod, on the Old Man River, we were glad to be once more in the ranching country, where a good horse is king. The climate here is favorable for stock raising, water plentiful, and here they have the Chinook winds from the Pacific coast.

At Regina, the capital of the North West Territories, and headquarters of the Mounted Police, Superintendent and Mrs. Wilson and Col. McDonald did the honors at the barracks, when a few of their old friends called. A cattle-raising contest at Lethbridge caused some excitement and a good deal of regret among those who were not in time to witness it. We saw Indians and Squaws however, and had some fun out of it if we were too late for the show. It was decided to go by Southern Manitoba and see that prosperous and wheat raising district. There were no regrets; we were warmly received and welcomed. Deloraine might be specially mentioned. So much is known of Winnipeg, its rapid growth, even in the last two years it is most marked, that little need be said. Sudbury, with its large nickel mines, is of no small interest to the traveller. With the exception of one sadly unfortunate accident near Rat Portage, where one section man was killed and two others injured, there was nothing to mar the pleasure of the trip. We feel we have all had exceptional opportunities for gaining greater knowledge of our own land, and its numerous advantages.

One unexpected and agreeable feature of the outing was the publication on board of a daily paper with a large circulation, each edition showing what ability could do on wheels, with an accompaniment of thumping, bumping, rocking, roaring; editor, illustrator and contributor, all combining to deliver to our sections a crisp and breezy sheet.

Several evenings were spent entertainingly in song as we sped through the night to our eastern homes, glad to enter them again after having in safety traversed about 7,000 miles. Visions of boundless prairies, steeps, ranches, rocks, rivers, lakes and seas still haunt our dreams.

A CANADIAN.

FAREWELL TO A GARRET.

Farewell to thee, ten stories high — Bare witness of my toil, Whose thin, cracked walls, in the days gone by, Were smacked with midnight oil! The time has come when we must part — Below thee waits the mover's cart. Farewell my refuge and my rest, About the city's rout; Progress that thunders east and west, Has turned the toiler out! The bailiff now my haven would win — They're putting elevators in! —Atlanta Constitution.

SATURDAY, OCTOBER 24.

KIND WORDS APPRECIATED

In another column The Planet today reprints a few of the many kindly comments made by contemporaries on this journal's victory in the recent "libel" action tried at the last sitting of the High Court in Chatham.

We merely desire, in passing, to publicly express our sincere appreciation of all the cordial and congratulatory expressions received. For the past ten days the office has been deluged with letters and personal messages of congratulation and encouragement from all points in the Dominion—and we are free to confess that a very pleasant surprise was experienced. We had no idea that The Planet had such a wide and extensive circle of friends as these communications have demonstrated.

To them all, individually and collectively, we tender our hearty thanks. Their kind words and good wishes shall be an inspiration and encouragement to loyal and earnest effort to merit a perpetuation of their cordiality and approval.

PARSON'S CAMPAIGN ETHICS

The Toronto Globe has for some time presented a pitiful spectacle of decadence. While other Canadian papers have been identifying themselves with the vanguard of progress, the Globe has been gradually and steadily deteriorating. Even in its news columns—the evidences of enterprise in daily newspaperdom—the Globe is falling far behind its contemporaries, while as a journalistic force in public affairs it has descended from the vigorous, fearless and straightforward fighting days of Hon. George Brown to the vacillating, weak, shifty and dishonorable methods of party henchmen under the present management.

The Globe's standard of morals has not been elevated by the employment of a clergyman as editor. He has proved himself a weakling—or worse; and the impression has been rapidly gaining ground, both inside and outside the party, that the old-time honorable journalistic exponent of Liberalism has saddled itself with a white elephant of clumsy and unedifying proportions.

Surely the editor of the Globe ought to be aware that the day of the "election roorback," and the substitution of personal vilification and ugly epithets for argument, has fortunately passed in Canada. The world has moved much since that sort of thing was considered to be good campaign work. It is now simply offensive to the thoughtful minds of both parties and hurtful to the cause under whose auspices it is masqueraded.

The Crossin interview, paraded by the Globe of Wednesday as an affidavit, in view of subsequent developments and revelations, turns out, after all, to be a cleverly concocted effort to eviscerate the ancient and unsavory "roorback" shell game on the voters in the bye-elections.

Then, using this as his text, the reverend editor of the Globe sets about a characteristic editorial. And here are some of the forcible and convincing arguments he advances in the one short article against Mr. Gamsey:

That he has been guilty of "unmeasured vilification of the judges."

That he "utters slanders."

That he is making "a campaign of slander."

That he is a "tortuous and mendacious adventurer."

That he is guilty of "turpitude."

That he is "the utterly incredible, the political desperado."

That he is a "picturesque personage."

That he was guilty of "felonious doings."

That—and this one is a dandy—his speech-making is "the blatant exhibition of as pitiful a sample of moral perversity as ever the slimy depths of the political ocean heaved to the surface."

Now, if Mr. Gamsey ever undertakes to reply to the Globe's tirade he will—perhaps by reason of the fact that he never studied theology and the care of souls in a pious college—not be able to use words containing as many syllables as those his Globular reverence slings about so readily, but it is to be hoped that his reply will be more dignified in character, and deal not in an abandon of Billingsgate, but rather with facts and argument.

This is the 312th day of the North Renfrew vacancy.

Uncle Sam has still on hand a large and varied stock of Friendship, which he is anxious to dispose of for cash or approved real estate.

The man Ross, who boasted so much about Building Up New Ontario, is now on his knees before the people of Muskoka, asking them to Build Him Up.

But the great question still remains—where did the money come from?

What kind of a double-Crossin game is the Toronto Globe up to now?

Mebbe Stratton's been at old man Crossin to forget some things this time.

The Chatham Planet cannot be blamed for tooting its horn a little after beating a bandmaster.—Ridgeway Dominion.

Don't permit the fact to escape from your memory that Canada is buying, every year, a hundred millions of dollars' worth of manufactured goods from the United States.

The other day a vile vagabond was caught almost in the act of insulting a woman on the streets of Woodstock. Attacks upon women are becoming altogether too frequent in this country, and something should be done to discourage the practice. Some magistrates in Ontario have been in the habit of prescribing the lash for the bare backs of rascals convicted of indecent assault, and it is not certain that a more liberal use of the whip would not be beneficial. Probably the only way to reach the feelings of brutes who assault or insult women is by means of the lash. It may be questioned if housing them and feeding them in comfortable prisons is considered much of a punishment by such people. If became generally known that anyone convicted of insulting a woman was liable to be whipped there would probably soon be a stop to the practice. A comfortable jail with plenty to eat and nothing to do, is a haven of rest for the average tramp; but the very mention of the lash strikes terror.

OVERHEARD IN LONDON.

Toronto News.

Lord Alverstone (to Canada)—Is there anything more I can do for you?

Canada—We would like to go on drawing breath.

Lord Alverstone (to Messrs. Root, Lodge and Turner)—Any objection to our young friend continuing to use the atmosphere?

Messrs. Root, Lodge and Turner (cheerfully)—None at all—just now.

Lord Alverstone (with judicial air)—My decision is that you are entitled to the temporary use of all the air not required for United States purposes.

Ann's age is settled. The Banner man did it.

No, Dear Alright Yes, I won't give Ann's age away. I couldn't be so cruel.

I don't think that Alverstone is by any means a lucky stone from a Canadian view-point.

I wonder if the people are supposed to imagine that the Wellington St. pavement is finished.

"I like that pavement, but will it wear?" is the general verdict on the new Queen St. pavement.

I'll announce a football match on the park this afternoon. The casualty list will appear Monday.

If Uncle Sam doesn't want the Canadian atmosphere, we can still breathe.—Hamilton Spectator.

I believe that the Yankees have been donated a chunk of our western frontier. Alas—can we stand it.

The residents of Queen St. hope that new pavement will last, and yet they do not want to see the last of it.

When the Queen St. pavement is half finished it looks like a penitentiary job. When completed it looks like a splendid road.

So far as I know there are no grounds for the rumor that a Citizens' Regiment will be formed to go with the Citizens' Band.

I hate to see that chunk of good Canadian land go into Uncle Sam's domain, but I trust it will make one spot in the States worth living on.

I believe that Premier Ross would much rather that Lord Alverstone had given away North Renfrew instead of those islands in the Pacific Ocean.

A Torrie has been selected as the new Baptist Church pastor. I know that congregation is all right. That name is a good one and that's my church now.

While probably they were not strong in letter writing, it looks as if that Alaskan Tribunal had just dropped a line to Canada and the United States.

I don't suppose that the excellent street light seen at this city has anything to do with the sudden desire of Maple City maidens to take evening strolls.

Least the Alaskan award should have attracted attention from us for a while, I would just like to call attention to the fact that this G. H. J. won its libel suit.

Victoria avenue is going to have an asphalt block pavement. Good for the avenue. It is the prettiest street in the city, but needs fixing in the shape of a pavement.

The "adders" have finished their labors and have found that the city is \$50,000 more in debt than was wot of. And there were some people who opposed an official audit.

No, Dear Anxious One, the latest for Fall wear in fashionable newspaper precincts is not a homemade libel suit. An intelligent jury has given good grounds for believing that libel suits will not be popular this Fall.

The humor of the "Satellite" of The Planet proved too much for Judge and counsel at the trial last week, but the honest women of the jury, who are used to it weekly, knew it to be harmless.—Ridgeway Dominion.

Ald. George Gordon Martin should have been one of the counsel before the Alaskan Boundary Tribunal. He would at least have made a speech long enough and strong enough to have left the matter in doubt for about a year.

The St. Thomas girls who own horses have all nicknamed their horses "Closer," so that when they take best best young men driving they can say "Get up Closer." The Maple City young ladies don't go driving that way.

A Maple City youth has a horse and he tries to delude himself into the belief that it is a fast one. He took his girl out for a ride the other day and the landscape was passing so slowly that she had to look at the wheels to see if they were really moving. The young man being proud of his steed, remarked to friends afterwards that he had passed everything coming home. "Yes," added the maiden, "everything that was stationary."

THERE ARE OTHERS.

A man in a certain New England town was noted for telling extraordinary stories. One evening while "loitering" in the country store the conversation turned upon feats in guining. The man listened attentively, and in silence for a while; then suddenly he exclaimed excitedly: "Well, boys, I can tell you a queer thing that happened to me the other day. I went to Rye Beach shooting, when I see a nice large flock of yellow legs. 'Aha,' says I to myself, 'now for a shot at them.' So I crept up near by, raised my gun to my shoulder and fired. But I aimed just a bit too low and they rise up and flew off. As I walked along the beach I

Alicia stood there in the moonlight. "We gave you a kiss the other night," we murmured, dreamily.

"Oh, did you?" she asked, in scandalized tones; "I declare I've forgotten all about it."

"We were going to ask you if you'd return it," we firmly continued.

"But I don't remember anything about it," she persisted, teasingly.

"And suppose I returned the wrong one?"

"We could identify it before you gave it back," we rejoined significantly.

"How?" she innocently inquired.

Whereupon we showed her how. It is curious what a long time it takes to identify these things. That was a week ago, and although we have tried every evening with painstaking persistence we have not yet been able to make the proper identification.

GOOD NEWS FOR HIS OLD HOME

Vernon Bromly Cured by Dodd's Kidney Pills.

For Years he was Crippled by Rheumatism and Sciatica—Dodd's Kidney Pills made him a New Man.

Morristown, N. Y., Oct. 18.—(Special).—Vernon Bromly, now of this place, but formerly of Trenton, Ont., relates an experience that will prove of great interest to his old friends in Canada.

"I have been a great sufferer from Rheumatism and Sciatica for years," Mr. Bromly states. "The citizens of Trenton will remember what a cripple I was. I could neither work nor lie down, the pain was so great."

"Reading of cures by Dodd's Kidney Pills, finally led me to try them and from the second box I began to feel relief. I continued to use them till I had taken twelve boxes, when I was completely cured."

"Dodd's Kidney Pills have made a new man of me."

Rheumatism and kindred diseases are caused by uric acid in the blood. If the kidneys are sound they will take all the uric acid out of the blood. Dodd's Kidney Pills make sound kidneys.

Up the Joy of Living.

Entered according to Act of Parliament of Can-
ada, in the year 1903, by William Daily, of To-
ronto, at the Dept. of Agriculture, Ottawa.

Chicago, Oct. 18.—In this sermon the preacher scathingly exposes and denounces the national evil of gam-
bling, which has spread to all classes
and conditions of men. He utters a
wholesome and timely protest against
those forms of the mania which are
corrupting our social and business life.
The text is Genesis iii, 19, "In the
sweat of thy face shalt thou eat
bread."

Some years ago I was walking in
beautiful Fairmount park, Philadel-
phia, with my father. He suddenly
turned and said to me: "Frank, next
week I am going to write a sermon
upon the question 'Is life worth liv-
ing?' I am going to show that the
solution of that question is condi-
tional. Whether life is or is not
worth living depends upon how you
live it. If a man lives in this world
with the idea that he is only to
receive and not to give, if he is
cursed with the enervating conviction
that he must be carried around on
a litter and if he does not want to
be a worker, a laborer, a doer for
mankind, then life is not worth liv-
ing. The sooner that man is dead
the better. But if a man goes
through this world realizing the
glorious opportunities of Christian
usefulness and if he is willing to
spend and be spent for others, then
life is worth living. Then the longer
we live on earth the happier we shall
be and the more we shall make others
happy."

But, though at the Edenic ex-
pulsion the divine command was given,
"By the sweat of thy face shalt thou
eat bread," yet from time immemorial
there have been thousands upon
thousands of men and women who
have tried to shirk the obligations
of labor which God has placed at
every hearthstone. They have been
seeking a means whereby through the
opened door of the Roman temple er-
ected to Fortuna, the goddess of
chance, they could possess a fortune
without working for it or without
contributing anything to the world
in return for it. They would be
wreckers pure and simple. They
would become vampires upon the so-
cial organism, sucking out the life's
blood of others. They would drink
yet never themselves become foun-
tains of water at whose sparkling
springs others might quench their
parching thirst.

In every age there have been thou-
sands upon thousands of devotees at
Fortuna's shrine. They are blind
worshippers of a blind goddess. The
ancient Romans showed their wisdom
in picturing her with eyes shut and
large wings at her feet. She sees
nothing of the sacrifices of her wor-
shippers, and she cares nothing for
heartbreak of those who have given
her their all. She cares not whose
fortune she snatches away. When she
gathers up the gold in her arms those
wings on her feet can make her and
her treasure disappear as quickly as
a roulette wheel can whirl,
as quickly as a man's deed for his
house can change hands at the turn-
ing of a card, as quickly as a race
horse can travel about the track of
a derby. The goddess of chance can
fly away so quickly that in an in-
stant a man can be ruined for time
and for eternity.

My theme is defiant gambling. De-
fiant, yes! The gambler defies God
and in utter recklessness stakes his
fortune in this world and his hopes
of the next. The accused evil is a
violation of God's laws as well as
man's. Defiant because when the win-
nings and losses of a gambler's life-
time are balanced it will inevitably
be found that the demon Fortuna has
robbed her victim both of his soul
and his pocketbook.

Gambling is robbery. It takes
wealth and gives nothing in return.
It puts a copper into the world's
treasury. It plants no seed.
It digs no gold from the mine. It
grows no wool upon the sheep's
back. It builds no steamship lines.
It manufactures no goods, and it re-
tails no finished products. It does
nothing for national or social de-

velopment. Its mission is always
ruinous. Ever does it raise a black
flag of death and never the white
flag which should always be carried
by the "heroes of peace."

Gambling cannot even lay claim
to the indirect advantages which a
legitimate business provides for the
community. Every legitimate
business is a benefit to mankind.
When a man like old Commodore
Vanderbilt started out to make a
success in this world not even his
most intimate friends could charge
him with being an intentional phil-
anthropist. Any one who had any
financial dealings with old Cornelius
always knew that he was looking out
first and last for himself, and for
himself alone. But when Cornelius
Vanderbilt in the legitimate role of
railroad developer served himself he
was also serving mankind. His rail-
roads gave employment to thousands
and tens of thousands of men and
supported those men's families. His
iron roads developed whole regions
in the west which would never have
been opened by any other pioneer
than the Cyclopean eye of the loco-
motive's headlight. When old Cor-
nelius Vanderbilt made millions of
dollars for himself he also made mil-
lions for his employees and hundreds
of millions for his country. But what
increase of capital did the world
receive, in 1861, when a man
of the name of Garcia at the Hom-
burg gambling resort won in one
night 1,750,000 francs.

When, under the evil manipulations
of the Wall street gamblers, the rail-
road stock of a large corporation is
"watered" and its price made to
jump up and fall as the thermom-
eter's quick silver drops at the touch
of the October frosts, and thousands
upon thousands of small gamblers
upon "margins" and not as a true
investment are frozen out, does such
Wall street gambling build one
freight car or span one river with a
new bridge or erect one new depot or
upholster one Pullman sleeper? The
Puritans used to call a pack of
cards the "devil's prayer book." Did
you ever hear of the "devil's prayer
book" teaching the gambler how he
could be a producer and not a des-
troyer? No, my friends, no, no, no!
Thus, my brother, I congratulate
you if you have never been a gam-
bler or in league with gamblers. I
congratulate you if you are one of
those men unwilling to be a parasite,
a vampire or absorbent of other men's
industries. Never have any dealings
in any way with defiant gambling.

The gambling passion not only
robs men of their fortunes, but de-
moralizes their minds. It unites its
victims for the common duties of
ordinary life. It overstimulates the
brain and the imagination until after
awhile work—honest, hard, practical
work—has for the gambler's diseased
mind the same kind of repulsion that
a glass of rich dairy milk has for
the inflamed throat of a chronic
drunkard or the sight of a clear, cool
stream of water for the bloodshot
eye of a mad dog whose tongue and
mouth are covered with the white
foam of fatal hydrophobia.

The healthful desire for work and
the gambler's passion do not nest in
the same heart. They belong not to
the same brood of children. They
are never nourished by the same
mother. When the young man fresh
from a Christian home first hears
the rattle of a dice box and is led
into the sanctum sanctorum of the
baccarat seance all his noblest sensi-
bilities are intensely shocked. But
as his astonished eyes see great piles
of coin and greenbacks being passed
across the table after awhile fasci-
nated by the siren song of the re-
buckling and restraint of a rebuk-
ing conscience are shaken off with
such questions as these: "What is
the use of my working hard every
day of the week except Sunday and
only receiving \$6 to \$10 on pay
night when I might earn ten times
that sum in a quiet game? What is
the use of carrying bundles and being
ridere labor by the heads of the
different business departments when
by getting sure tips I can live a life
of fun and excitement at the races?
What is the use of my being a white
slave when I can win my financial
emancipation by a little intelligent
investment in lottery or policy? I
might draw there a lucky prize and
live on Easy street the rest of my
life. Somebody must win every time.
Why cannot I be that somebody?"
So the gambler's cupidity begins to
work. The young man's brain be-
comes befuddled. He shirks his daily
tasks. As a poor, diseased, mental
incompetent who is striving to solve
the impossible mathematical problem
of perpetual motion he tries to work
out a system of "how to break the
bank." He studies "chance books."

He hunts up his guiding star or the
star which shone brightest on the
night upon which he was born. Then
at last, with all reasoning powery

gone and blinded to the realities of
ordinary life, the crazed enthusiast
will haunt the gaming table as he
once gladly sought his study desk or
the storeroom counter.

Young men, I solemnly appeal to
you. Some of you have already
heard the sound of the clicking rou-
lette wheel. Are you going to throw
your life away at the altar of
chance? Are you going to unfit
yourself for the duties of life by
the gambler's craze? I assure you
that without bravely and faithfully
fulfilling the ordinary daily tasks
you will never succeed in anything.
The evil demon called Fortuna will
beggar you and enslave you. An
old Spanish proverb says, "The free
man who deliberately sells himself
into voluntary servitude is a fool."
Are you going to be a fool, as
ninety-nine hundredths of all men
who gamble become perpetual fools?

The goddess of chance not only
strips a man of what he has saved,
but she also robs him of the position
by which he can earn honestly
his daily bread.

I charge upon this gambling mania
a direct robbery of the Christian
world in that by besetting legitimate
recreations with its foul touch it has
made it impossible for decent men
to enjoy certain healthful relaxa-
tions. It is gradually stealing from
us the privilege of enjoying outdoor
sports and indoor games by identify-
ing them with betting and specula-
tion. Whenever the leprous hand of
the gambler is placed upon a game
that sport must be forever eschewed
by the good and the pure.

Now, my friends, I protest against
this all pervading gambling infamy.
I protest because it is no respect-
able for me to go and participate in
some of these outdoor sports which
are essential for mental and physical
relaxation. I protest against this
gambling infamy, degrading the foot-
ball field and the baseball diamond
because there is nothing wrong in
such games in themselves, but only
as the gambler's evil genius has
made them wrong. I protest, as
Robert E. Spear, the Princeton Ath-
lete, protested in his "Frank Talk
About Gambling and Betting," "It
is the contention," he wrote, "that
betting money is sportsmanlike. The
reverse is true. It is this that
introduces professionalism into col-
lege sports. When men stake money
they are willing to do dishonorable
things to shape the result so that
they will win. The introduction of
money is fatal. Betting is the dead-
ly foe of true sport."

But there is another reason why I
denounce defiant gambling. This evil
mania leads its victims to squander
other people's money as well as their
own. Now, I am not alluding to the
poor, half crazed clerk who will steal
from his employer in order to bet
on the races. I am not alluding to
the poor servant girl who opens her
mistress' pocketbook in order to take
out a fifty cent piece to squander in
a policy shop, or to the bank presi-
dent who, as trustee of an estate,
criminals sinks in wildcat specula-
tions the money intrusted to his
care. They are criminals, and they
know it.

Young man, you say that you own
your own money and have a right to
do with it as you will. No, you have
not. Where did you get that money?
"Oh," you say, "father left it to
me in his will." For what did he
leave it to you? Did he not leave it
as a trust? Did he not leave it to
you in order that you with it
could continue to spread abroad his
Christian influence? Money is a
representative word. Money trans-
lated into the ordinary lan-
guage of life means work and blood
and sweat and exhausted energy.
Money! Why that represents the wo-
man scrubbing at the tub and the
bookkeeper compiling his figures and
the nurse pouring out the medicines
and the carpenter building houses
and the flowers for the sick and the
gospel for the ignorant and depraved.
Do you mean to tell me, O man,
that at the gambling table you have
a right to squander your mother's
and father's substance like that? And
yet go into any one of the post-
graduate schools and colleges to-day
and you will find young men at the
gaming table not more surely de-
stroying themselves than squandering
the money that was won by the self-
denying sacrifices of parental lives.

"But," some one else says, "the
money I have is mine. Why? I did
not inherit it or have it given to me.
I made it. Therefore I have a right
to do with it as I please. Oh, no,
my brother, you have not. That
money which you made is not yours.
It belongs to your children. When
your little children came into the
world they brought to you certain
moral obligations. You had no right
to become a father unless you were
ready to the best of your ability to
look after your babies. That money
table means move that money. It
means your children's clothes, your
children's schooling, your children's
proper start in life. It would be
infinitely more humane for me to
gamble upon my mother's coffin lid
than to gamble away my children's
education and opportunities. The cold
lips of my dead mother could not
rebuke me, while the cracked, bil-
listering tongue of the outraged and
disgraced child of a heartless gam-
bler might curse my soul into the black
pit of eternal woe.

"But," says some one again, "it is
not certain that I should lose. If I
win at the gambling table I am
guiltless of the wrongs against par-
ents and children that you are de-
nouncing." Well, my brother, with
a gambling tendency you have no
right to suppose any such case. All
gamblers—shall I say all? Yes, practi-
cally all—ultimately lose every-
cent they ever win at Fortuna's al-
tar. There are practically no excep-
tions to this rule. Fortuna's temple
was built for the goddess of chance,
but in gambling there is no chance;
the devotee practically loses all. If
this statement is not true how can
you account for the fact that every
year the annual expenditures to run
Monte Carlo are \$5,000,000, and yet
each year the shareholders of that

even resort "divide nearly \$3,000,000
profits? If this statement is not
true how can you account for the
fact that the Louisiana lottery was
able to expend millions upon mil-
lions of dollars every year for cor-
ruption and bribery and "public im-
provements" and taxes and yet was
able to make its owners millionaires
many times over? If this is not
true how can the great gambling es-
tablishments of the large cities pay
the police departments thousands
upon thousands of dollars as a sop
for them to keep their hands off, for
no gambling den is ever run in a
large city without the connivance of
the police, and also to furnish their
patrons courses of dinners, with wine,
all free of charge, and yet make hun-
dreds of thousands of dollars besides?

All "systems" which have ever
been devised to break the "bank of
chance" were failures, and they are
always sure to be failures. In a
Chinese temple I have seen the poor
invalids before a hideous idol of wood
make a prayer to their "god of
health" and then select at random
an arrow out of a wampum, with a
certain medicine marked upon it
and expect that that medicine would
cure them of their disease. So I have
seen poor dupes in Monte Carlo in
the same foolish way trying to work
out a "system" by which the god of
chance would give to them unlimited
wealth. As all such "systems" are
failures, will always be failures I
would to-day give you "a system"
which if worked out, will bring a
competency and eternal happiness if
not unlimited good. This is my sys-
tem: Never in your life try to pos-
sess a dollar unless you are ready
to give an equivalent in labor and
sweat and toil. Never spend a dol-
lar unless you have first earned it
and have it in your possession. Nev-
er run into debt. Never by specula-
tion or by progressive such party or
by "prizes" at church fair or by
"raffle" countenance in any way the
development of the gambling spirit
in others. Draw heavily from one
bank only, and that the great bank
of divine grace. Circulate in every
way its bank notes of kindness and
forgiveness and sympathy. Let your
one great purpose be not "how can
I make others serve me," but "how
can I serve others." Let your faith,
hope and peace be centred in Christ
the Saviour of men and make him
the Guide and King of your life.
Such a "system" as I have marked
out is a sure system. It is Christ's
system. It will never bankrupt you
this side of the grave except of your
sinful meanness. And it is sure to
bring you perfect peace beyond the
grave and give to you all the limit-
less wealth of the treasure city of
God. "In the sweat of thy brow
shalt thou eat bread."

RHEUMATISM CURED

A RIGHT WAY AND A WRONG WAY
TO TREAT THE TROUBLE.

Liniments and Outward Applications
Cannot Cure—The Disease Must be
Treated Through the Blood.

Rheumatism is one of the most
common ailments with which human-
ity is afflicted, and there are few
troubles which cause more acute suf-
fering. There is a prevalent notion,
also, that if a person once contracts
rheumatism it is bound to return in
cold or damp weather. This is a
mistake; rheumatism can be thor-
oughly driven out of the system, but
it must be treated through the blood,
as it is a blood disease. Rubbing
the affected joints and limbs with
liniments and lotions will never
cure rheumatism, though per-
haps it may give temporary relief.
Dr. Williams' Pink Pills have cured
more cases of rheumatism than per-
haps any other disease except an-
aemia. These pills drive the rheu-
matic poison out of the system by
their action on the blood, and the
trouble rarely returns if the treat-
ment is persisted in until the blood
is in a thoroughly healthy condition.

As an illustration of how even the
most aggravated forms of this
trouble yield to Dr. Williams' Pink
Pills, the case of Mr. J. J. Rich-
ards, of Port Colborne, Ont., may be
cited. Mr. Richards says:—"About
three years ago I suffered from a
most severe attack of rheumatism.
I could neither lie down nor sit up
with any degree of ease, and I am
quite sure only those who have been
similarly afflicted can understand
what agony I endured. I put myself
under the care of an excellent doctor
but got no benefit. Then I tried an-
other and still another, but with no
better results. By this time I had
become so reduced in flesh that
friends hardly knew me; I could not
move hand or foot and had to be
turned in bed in sheets. The pain I
endured was something awful. Then
I was urged to try Dr. Williams' Pink
Pills, and after taking a few
boxes there was an appreciable
change for the better; the pains be-
gan to leave me, and my joints be-
gan to limber. I kept on taking the
pills until I had used a dozen boxes,
by which time every trace of the
trouble had disappeared. I firmly
believe that had it not been for Dr.
Williams' Pink Pills I would have
been a rheumatic cripple for life."

These pills not only cure rheuma-
tism, but all other blood and nerve
diseases, such as anaemia, indiges-
tion, kidney troubles, neuralgia, par-
tial paralysis, St. Vitus' dance, etc.
The genuine pills always bear the
full name, "Dr. Williams' Pink Pills
for Pale People," on the wrapper
around every box. Sold by all medi-
cine dealers at 50 cents a box, or six
boxes for \$2.50, or sent by mail,
post paid, by writing to the Dr.
Williams Medicine Co., Brookville,
