

THE ACADIAN.

WOLFVILLE, N.S., SEPT. 21, 1917

Editorial Brevities.

The exhibition at Halifax has been favored with excellent weather conditions this year and the attendance has been large.

'It is now vital for the United Kingdom and the Allies in Europe to obtain from Canada foodstuffs in far larger quantities than under peace conditions,' says Lord Rother.

Vacant lots, backyard and school gardens have produced \$320,000,000 worth of vegetables this summer in the United States. In Canada, by the same proportion, the increased production of vegetables in cities and towns amounts to about \$28,000,000.

The Minister of Finance announces that an issue of war savings stamps is in course of preparation. These stamps will be used in connection with a plan to interest those who are able to save only in small amounts in the purchase of war saving certificates. The stamps will be in denomination of twenty-five cents.

Tell the women of Canada, said General Currie, the Commander-in-Chief, to a recent visitor at the front, to keep on making socks. That is a command from head quarters to keep up the supplies of the Red Cross and Soldiers' Comforts' Associations. It is an order that should make the needles fly faster than ever, for the army steadily grows in numbers.

Enormous quantities of food are thrown out daily by stores dealing in perishable goods. Dealers have to allow for this loss by including the value of waste in their margin of profit. It is suggested that women's organizations in the various cities and towns arrange to have food, which may otherwise be wasted, collected from the stores each day and distributed where it will be most appreciated or sold at cheap prices for the benefit of one of the war funds.

On the Grimm brothers, authors of the household fairy tales which for generations have been read by German children, is now placed responsibility for those traits of character which have shocked and horrified the world. A father, who gives thoughtful consideration to the literature read by his children, says of these nursery classics: 'Almost every story shows how the youngest of a family gain advantage over his brothers by trickery and deceit, never through merit or honest endeavor. Whether or not this is an extreme view, he very suggestion of a relation between Germany's diabolical warfare methods should be sufficient to make all parents study carefully the literature children read.'

It is the intention of the Government to call out for service as soon as possible the first class under the Military Service Act—namely, unmarried men and widowers between the ages of 20 and 34.

Some delay will necessarily be involved in the establishment of the Exemption Tribunals provided by the Act. It is of course obvious that only men who are physically fit can be required for service, and it has been thought that it will be of advantage to all concerned if the question of physical fitness can be determined as early a date as possible.

It will benefit the employer to know definitely which of his employees are exempted on the ground of physical unfitness, so that he may know the extent to which his business may be disarranged, and consider whether application for exemption of any of his employees who are found fit should be made on other grounds.

It will help the members of the class called out to know as soon as possible whether they are physically fit or not. If they are found unfit they will upon application to the Local Tribunal be exempted. If found fit, they may consider whether they should apply for exemption upon any ground or make their arrangements for giving up civilian life.

It will assist the Government to be able to get this portion of the very large amount of work to be handled covered as soon as possible.

It is therefore proposed on the recommendation of the Military Service Council, to establish at a very early date Medical Boards at convenient centres, which will pass authoritatively on the question of physical fitness, and it is desired to secure the co-operation of the community in support of this measure.

Signs of Union.

The Boston Advertiser ends some comments on the Canadian political situation with this paragraph:

Thus far all efforts to effect a coalition cabinet and thus to take party out of the election have proved futile. The itch for office and for partisan controversy seems incurable. But when the moment of decision comes it is our guess that duty will win over the factionalism, and that Canada's magnificent record for patriotism and loyalty to world democracy will not be marred.

Casualties.

Wounded: E. K. Smith, Fort Williams; N. S. McKee, Grand Pre. Died of Wounds: J. W. Keddy, Oshersay. Died from Illness: Sapper S. O. Beane, Kingston Station.

The People's Forum.

TO THE EDITOR OF THE ACADIAN:
DEAR SIR.—In your issue of last week the writer noticed and read an article on the exhibition held recently at Port Williams, in which both the advanced and primary departments of that place took part, and we understand the schools of Church Street, Lower Church Street and Greenwich also took part in the exhibit. It was the first exhibition ever attempted by these schools and we can say it was a decided success. Much credit is due to the committee and all who took an interest in the plan and arrangement. We fully agree with all the writer signed 'Wolfville' said and we thank him for his kind, appreciative words for Greenwich. The writer, another interested party, hopes that next year the school will do greater things, which they can.

Please let me tell 'Wolfville' that we were informed by Greenwich committee the school won 35 prizes, two or three special prizes being awarded, two prizes to two small maidens for their well-knit socks.

We understand the Greenwich committee is composed of Mrs. Burpee L. Bishop, Mrs. Dexter Forsythe and Miss Besse Fraser, and we suggest they send to THE ACADIAN the names of prize winners. Several of the Greenwich children won first and second prizes at Halifax exhibition from these same exhibits.

INTERESTED.

TO THE EDITOR OF THE ACADIAN:
SIR.—Can you or any of your readers inform me of any reason why we in Wolfville, have to pay \$8.50 per ton for Springhill Coal, when the same kind of coal is sold in Windsor at \$7.50 per ton delivered in the cellars? I am told by a resident of Windsor that the coal supplied there is of best quality and thoroughly screened. The coal is brought to Windsor by vessel, the same as the Wolfville supply. CONSUMER.

A Creed For Canada.

General Sir Arthur Currie, Commander-in-Chief of the Canadian forces in France, has sent to the Canadian people through Lieutenant-Colonel Cecil G. Williams, formerly chief recruiting officer in Canada, a message which every Canadian should ponder seriously. In an address in Trinity Methodist church, Toronto, a few evenings ago, Colonel Williams delivered his message in these words: 'If we have to yield one inch of the Canadian front that has cost us so much to claim, our men out there will have but one answer, for they will say that those at home have deserted us.'

It is my men can sink all their differences here and unite in one common cause, cannot you people in Canada sink your differences, and war?

In those two brief paragraphs is summed up the whole situation facing the Canadian people to-day. They present the miserable squabble for party power in its true light, and they point the path of duty for every loyal Canadian. From the front comes the call for the united support of the Canadian people. From the party camp at Ottawa comes a call which no stretch of the imagination or conscience can translate into other than a party call for party support. Winning the war is the purpose of our men in France. Is winning the war, or winning the election, the purpose of those at home? There can be no other issue at this time than the war, and in support of those who are really waging war the creed of the people at home, Conservatives and Liberals, should be the creed of union for victory.

A Marvellous Medicine For Little Ones.

Mrs. Delvina Pelletier, Ste. Perpetue, Que., writes: 'I have much pleasure in stating that Baby's Own Tablets have been a marvellous medicine in the case of my baby. I have been using the Tablets for four years and don't think there is anything to equal them.' In using the Tablets the mother has the guarantee of a government analyst that they do not contain one particle of opiates or other harmful drugs—they cannot possibly do harm—they always do good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Canadian Gazette Extra, issued on Sept. 24th, contains a proclamation establishing local tribunals to hear and decide applications for certificates of exemption from Military service as in the Act known as 'The Military Service Act, 1917,' is provided.

There are 1250 of these tribunals: of these four are in Kings county, located respectively at Wolfville, Cannis, Kentville and Aylesford. The body of Stanley Dunn, of Nictaux Falls, Annapolis county, was found on the D. A. R. track near Hantsport Saturday morning. It is supposed that he was struck and killed by a moving train late Friday night. He was single, and is survived by his parents, Mr. and Mrs. O. Edward Dunn, of Nictaux Falls, three brothers and one sister.

The population of the Dominion of Canada is 7,200,000. The population of London is 7,251,358. That is, London has 50,715 more people than the whole of Canada. Money to loan on mortgage security. Apply to E. S. Crawley, Wolfville.

CANNED VEGETABLES

Are not to be sold by the Grocery Stores until October 15th, 1917.

By order of the Canadian Food Controller, having been passed by an order-in-council at Ottawa. This is to conserve as much as possible the supply for next spring and help keep the prices down then, when the stocks get low. As we cannot sell canned vegetables we will keep a complete stock of

FRESH VEGETABLES!

Always on hand, and ask our customers to be patriotic and see that no canned goods are used in their household during the next few weeks.

Fresh Sausage for Friday and Saturday; also Beef, Lamb, Veal, Pork and Chickens. Fresh Fish always on hand.

Accidentally Shot.

A youth named Coleman was brought to the City last evening from Kentville in a serious condition and taken to the Victoria General Hospital, as a result of a shooting accident which occurred there yesterday morning. Young Coleman who is a nephew of the justice at Kentville was out on the marshes with a companion, both in search of birds and were equipped with a twenty-two calibre rifle.

In some manner, the rifle was accidentally discharged, the bullet lodging in young Coleman's arm.

He was brought to the city and taken to the hospital where up to a late hour last night his condition remained critical. —Morning Chronicle.

Of the English women who have recently been instructed in carpentry at Byfleet, Eng., 20 are now said to be in France helping in the erection of huts for the soldiers. French and Belgian women are also engaged in work of this sort.

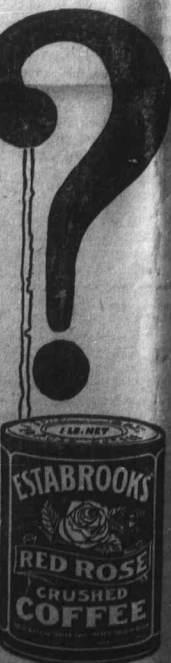

What is Crushed Coffee?

Briefly, Crushed Coffee is coffee that has had the beans crushed between steel rollers with just enough pressure exerted to break the beans into clean, even grains from which the bitter chaff and dust are easily separated by air suction—Resulting in a coffee so pure that no egg is needed to settle it. Red Rose Coffee is as easy to make as Red Rose Tea, and its flavor, aroma and smoothness are a delight as compared with the ordinary ground coffees.

Sold only in double-sealed air-tight cans to keep it good.

The same price as it was three years ago.

Red Rose Coffee

THE BUY-AT-HOME IDEA SWEEPS THE-COUNTRY.

Sweeping on and on, gathering impetus all the time, just as the snowball rolling down the mountain-side begins small but ends in an avalanche, the Buy-At-Home campaign is spreading all over the United States and Canada. The past decade has belonged to the mail-order houses. The scheme has proven a splendid one for the cities in which these stores were located but disastrous for all the others. Times have changed. The slogan now is "Back to the local stores, buy at home, build up the home town, get right with the home town." The Buy-At-Home campaign to-day can be termed nothing short of a commercial revolution and it is bound to succeed. Nova Scotia must swing into line and profit by it.

BUY-AT-HOME is an idea to be launched everywhere in the homes, in the schools, the clubs and the social business gatherings. It is a movement that will rectify all the blunders of the past in buying and selling. It is the one hope for getting better relations between all classes in the community. It is a movement that every Nova Scotian home should make its own.

BUY-AT-HOME is going to mean that merchants, realizing that the home town people are patronizing them exclusively, will put forth their best efforts to improve their stores. That means better relations between customers and merchants and a better spirit all around.

BUY-AT-HOME is going to prove just as successful as the movement to do away with the almanac and trust in the home town physician. Just as people came to realize that the best and safest way in case of sickness was to call in the local doctor, instead of sending for some patent medicine, so the movement now is to buy from the local merchant when goods are needed instead of from stores in the big cities.

The BUY-AT-HOME idea should have been inaugurated in every province of the Dominion ten years ago for then was the time to have started such a movement. By this time every one would know and appreciate the relative merits of buying goods at home and keeping money in the home town, and buying from other cities and sending the money away to build up the shops, factories and streets of other communities.

But the campaign, though late in starting, is now in full swing in the towns and rural communities on both sides of the border. And everywhere predictions are made that within five years the idea will have taken such a firm hold on the people that BUYING AT HOME will be recognized as just as patriotic an action as buying made-in-Canada goods or representing the Dominion on the battlefield.

Nova Scotia is rich in every natural resource needed to make it a great industrial community. We have fruit lands that are the envy of the world; we have one of the finest grazing countries that a farmer would wish for; we have immense coal areas; we have water power in abundance; we have iron ore deposits at our very doors; we have three transcontinental railways giving us connection with the interior of a continent peopled by well over 100,000 consumers and we have transatlantic steamers calling at our premier ports to carry our products to Europe.

All we need to develop this wonderful little province of ours is money. We must have money. And we shall never have it by pursuing the policy of buying our needs abroad and thus sending our money out of the province.

Buy-At-Home then.

Buy-At-Home and keep your money to develop Nova Scotia.

Buy-At-Home for it means the greater saving in the end.

Buy-At-Home and get another chance at the same old dollar.

Buy-At-Home.

Copyrighted by T. H. CONROY.

Tenders are being invited by the Militia Department for supplies for military forces at Windsor, first delivery to be not later than October 1st, indicating that the new draft law may become effective this month.

The war against slavery in the United States was won by the draft system when the voluntary system failed. Canada today is fighting a power that would enslave the world.

'What does the sentence mean?' asked the teacher. 'Man proposes but God disposes.' A small boy in the back of the room waved his hand frantically. 'Well, Thomas,' said the teacher, 'what does it mean?' 'It means,' answered Thomas, with conscious pride, 'that a man might ask a woman to marry him, but only the Lord knows whether she will or not.'

Minard's Lintiment for sale every where.

Local Happenings.

The attendance at the Seminary and Academy this year is considerably larger than last year.

The Fall Opening of the W. C. Dexter & Co. will be on Thursday, Sept. 27th, and following days.

Messrs. J. E. Hales & Co. are making some repairs to the front of their store, putting in concrete sills, etc.

Buy a cake of Woodbury's soap and get "a skin you love to touch" picture free at THE ACADIA PHARMACY.

When in need of goods of any kind always consult the advertising columns of THE ACADIAN before making your purchases.

Mrs. Geo. Webster wishes to thank the friends for their sympathy and kindness in her bereavement in the death of her husband, and also for flowers.

The teachers of Acadia Seminary will be at home this (Friday) evening from eight to ten o'clock. Friends and patrons of the school are cordially invited.

Auto. livery, A. C. Cox, phone 130.

The work of 'pointing' the government building is going on under the direction of Mr. Henry White. The undertaking is quite a big one and necessitates a good amount of time.

The regular quarterly meeting of the Western Nova Scotia Board of Trade will be held in Keewville, Tuesday, Oct. 9th, which will enable the delegates to witness the ploughing contest with traction engines.

The Telephone Co. are having a number of changes and improvements made in their building. The front has been taken out and will be replaced by a handsome brick front. The office will be remodelled and removed to the front of the building.

Rev. Mr. Ryan, of Grand Pre, will preach in the Methodist church on Sunday morning next, and Rev. Dr. A. C. Borden, of Keewville, in the evening. Dr. Borden is President of the Methodist Conference and has always been heard with pleasure in this his native town.

Rev. A. E. Armstrong, secretary of the General Assembly's Foreign Mission Committee, is expected to speak in the Presbyterian church on Sunday morning, Sept. 30th. Rev. Mr. Armstrong is one of the best speakers in the denomination and the opportunity of hearing him will no doubt bring out a large congregation.

Lost—On Sunday, Sept. 16th, between Westwood avenue and the Baptist church, a moonstone brooch, containing one large moonstone and about ten small stones of the same kind. The finder will confer a favor by handing the brooch to L. F. Herbin at his jewelry store, or to the owner, Mrs. W. L. ALCAIRALD, Westwood avenue.

Money to loan on Real Estate security. Apply to Owen & Owen, Barristers, Annapolis Royal.

Mrs. L. H. Eaton received a letter from her son Leonard at the front this week. His many Wolfville friends will be glad to learn that he was some time ago promoted to the position of Captain and is now qualifying for Major. He has been at the front for a long time, and has been fortunate enough to escape injury although in the thick of the fight.

The news of the safe arrival of the draft from the Halifax 10th Siege Battery in England will be heard with glad feelings as four young men from this town are members of the draft: Gunners, George Nowlan, son of Mr. and Mrs. C. R. Nowlan; Waldo Davidson, son of Mr. and Mrs. B. O. Davidson; Ray Townshend, son of Sir Charles and Lady Townshend; and Walter Johnson, son of Mr. and Mrs. B. C. Johnson.

FOR SALE—Sideboard, good as new. Dining-room Extension Table. 4 Dining-room Chairs, Kitchen Cabinet, Parlor Stove, Bedstead and Spring. Will sell at greatly reduced prices. For particulars apply to Mrs. F. A. MACDOUGALL.

Another aged and respected citizen of Wolfville passed away on Friday evening of last week. Mr. George G. Webster was 76 years of age and had spent most of his life in Wolfville. He was an industrious and good citizen. He leaves a widow and two sons, Frank and George, both of whom are in the United States. Sgt. C. C. Webster, who is serving in the Canadian army overseas, is a grandson. The funeral was held on Saturday afternoon.

FOR FOUR YEARS the St. John Business College has been using three different makes of Typewriters in their training courses, a number of Remingtons, twenty of one quite well known make and twelve of another much advertised machine. Lately, without any consideration of price whatever, after a thorough test and comparison, they have replaced the thirty-two other machines with Remingtons and I have just closed the sale—the largest sale of Typewriters ever made in New Brunswick.

A. MILNE FRASER, Halifax, N. S.

Archibald, Wolfville, Nova Scotia.

'Paroid' Roofing 'THE ROOFING OF QUALITY' Is used and endorsed by the leading railroads, manufacturers, farmers and poultrymen throughout the United States and Canada. Put up in rolls 36 inches wide containing one square (100 square feet) and two squares (200 square feet), with sufficient extra for laps without extra charge. Nails, caps and cement for applying in core of each roll, also printed instructions. L. W. SLEEP.

Personal Mention.

(Contributions to this department will be gladly received.)

Miss Daisy West is visiting friends in Toronto.

Mrs. McKee and little son arrived in town on Saturday last.

Mr. and Mrs. B. O. Davidson spent Sunday with friends at Falmouth.

Mrs. (Dr.) Walton, of Toronto, who has been visiting in Wolfville, has gone to Hantsport.

Rev. R. F. Dixon is now taking his summer vacation, which he is spending in New Britain, Conn.

Mr. Churchill Locke, of Lockeport, is visiting in town, a guest at the home of his sister, Mrs. L. H. Eaton.

Mrs. W. C. Parsons, of Middleton, has been visiting in town this week, a guest of Mrs. N. H. Parsons, Gasperau avenue.

Mrs. Aubrey Brown of Digby, who has been spending some weeks in town, has gone to Ottawa to visit friends.

Mrs. H. R. Walton and family, of Toronto, who have been spending the summer in Wolfville, are leaving to return home this week.

Mrs. J. Elliot Smith returned from Montreal on Saturday last. Her many friends are glad to note that her health is much improved.

Mr. Renna, of Halifax, and the Misses Renna are spending a few weeks in Wolfville, guests at the home of Rev. George Bishop, Summer street.

Mrs. Edna Cook Harper, of the Provincial Normal School, was in town this week, returning from Boston. Mrs. Harper has placed her little son at Acadia Villa School.

On Thursday, Sept. 27th, and following days a showing of Fall Millinery, featuring the newest modes, will be held at Miss Saxton's, Main street. You are cordially invited to be present.

Mrs. George Bradshaw, of Hammond, Louisiana, is visiting Mrs. Faye Stuart, a former resident of that town. Mrs. Bradshaw expresses herself as much pleased with the beauties of our Acadian land.

THE ACADIAN is very sorry to report the serious illness of Prof. E. West Haycock. Prof. Haycock has a host of friends throughout the province who will be very glad to hear of improvement in his condition.

Mrs. Dunham, of New Bedford, Mass., who has been visiting her sister, Mrs. B. C. Bishop, returned home on Saturday last. Her husband, Captain Danham, arrived a week earlier and accompanied her back.

Wolfville people were glad to again welcome Dr. Harold Lawrence, who was in town on Wednesday. Dr. Lawrence formerly practiced dentistry in Wolfville, but is now a resident of Penobscot, B. C., where he is a successful fruit grower. His many friends were pleased to see him even for a short stay.

Regimental Quartermaster Sergeant W. A. Vaughn has been appointed on the British Recruiting Mission to act as escort to recruits coming from American allies to Canada. He was one of four men appointed for western Canada. Mr. and Mrs. J. W. Vaughn, of this town.

A Coming Attraction. D. W. Griffith's latest spectacle, "Intolerance," one of the current season's biggest hits in New York, Chicago, Philadelphia, Pittsburgh, San Francisco, and Los Angeles, is booked to appear at the Opera House, Wolfville, October 13th.

In this said to be the most magnificent production of all time, Mr. Griffith gives visual presentation of four different decades—mighty Babylon in the days of Belshazzar, Judaea at the time of the Nazarene, Medieval France when Catherine de Medici dictated to her son Charles IX, and the present, and throughout them all he sustains most interestingly the motive of the play—love's struggle throughout the ages.

Probably the most stupendously magnificent scenes are those which, representing Belshazzar's feast, disclose a panoramic view of over a mile of ancient world splendours and architectural wonders against which dramatically attired women and picturesquely clad men stand out in stereoscopic relief.

Such battles scenes as those revealing the clash of Babylon's fortress and the towers of Cyrus, the Persian, and about the mighty walls of Babylon are breath-taking. You see catapults and battering rams, cross bows, and flaming engines in action. You see huge moving siege towers with their complement of gladiators crash to the ground; you see mighty men in hand to hand conflict—ancient warfare thrilling, inspiring, so real that you cannot believe it mimic.

There are three love stories in "Intolerance," each with its own set of characters. The principal players of the largest cast ever assembled among other screen celebrities are: Lillian Gish, Miriam Cooper, Constance Talmadge, Rosalee Love, Sena Owen, Margery Wilson, Robert Herron, Alfred Paget, Elmer Clifton, Tully Marshall, and Walter Long. A full symphony orchestra and choir will interpret the score. Watch for further announcements.

OFFICE TO RENT. Apply to Dr. A. J. McKenna.

MARRIED. JOHNSON—LIVY.—On Sept. 12th, at the parsonage at Gasperau, by Rev. G. D. Milburn, Arthur Jodrey and Violet May Levy, both of Greenfield.

GIN PILLS FOR THE KIDNEYS. They Have Brought Relief To Thousands. WHY NOT YOU? 50 Cents per box. Six boxes for \$2.50.

Eye Examination and Scientific fitting. Lens cutting, torics, amber or regular. (Can replace any lens worn—eyes—without rest on frames and lenses, a large stock of frames and lenses. Years of experience in fitting and optical work.

J.F. HERBIN Expert Optician and Watchmaker.

GUESS Automobile Drawing!

For a middle 69, 5-passenger Overland Car, in perfect running order, fully equipped, and with detachable seat covers. Tickets from one cent to \$1.00. There is therefore a chance of getting a high priced car for the ridiculous sum of one cent. There are only four hundred tickets to be sold, and as the drawing will take place on the day the last ticket is sold, anyone wishing to take advantage of this unique opportunity should get a ticket at once. Tickets can be bought and the car seen at Carter's Garage.

Every 10c Packet of WILSON'S FLY PADS WILL KILL MORE FLIES THAN \$8.00 WORTH OF ANY STICKY FLY CATCHER.

Port Williams. Rev. A. J. Prosser and Rev. P. J. Amiraire, pastor of the Wolfville Methodist church, exchanged pulpits on Sunday last for all three services.

Miss Thelma Gates, who is a resident pupil at Acadia Seminary, Wolfville, spent Sunday at her home here.

Miss Irene Gales, who returned from the business college at Halifax a few weeks ago, is busy at work as her father's stenographer and book-keeper. Most of our girls should fit themselves for this work now.

Three young ladies from North Sydney, C. B., are boarding in the village and working in the Port Williams Fruit Co. warehouse. Good for them!

The bride, Mrs. T. J. Borden, received on Wednesday and Thursday of this week.

A few from this place were guests at the surprise reception at the residence of Mr. and Mrs. Oscar Chase, Church Street, on the evening of the 13th inst., in honor of their twenty-fifth wedding anniversary. About one hundred guests were present and a very enjoyable evening was spent. Humorous speeches by the six ministers present added to the enjoyment.

Change in Position of Fruit Inspectors. Chief Fruit Inspector Vroom is this year exchanging the positions of the fruit inspectors of the Valley district. Those of the western part are in the east, and the eastern men have been assigned to the western territory. W. H. Anderson, of Gasperau, is overseeing packing and shipping in Middleton and vicinity—Outlook.

WANTED. Orchards to pick on shares, or will buy apples on the trees. Notify T. R. WALLACE, and he will see you at once.

'Stop and Rest' Inn AN EXCLUSIVE RESORT for Motorists, House and Week-End Parties. Evening Functions and After-Theatre Suppers arranged. Afternoon Teas. W. G. STAKHOUSE, WOLFVILLE, N. S. Phone 101.

APPLES, ORANGES, FIGS AND PRUNES

Are The Four Fruits Used in Making "Fruit-a-Tives"

"FRUIT-A-TIVES" is the only medicine in the world that is made from the juices of fresh ripe fruits. Thus, it is manifestly unfair to say, "I won't take Fruit-a-Tives because I have tried other remedies and they did me no good." On the other hand, the fact that "Fruit-a-Tives" is entirely different from any other preparation in the world, is just why you should give it a fair trial, in any trouble of the Stomach, Liver, Bowels, Kidneys or Skin. "Fruit-a-Tives" is composed of the active principle of fruit and the greatest nerve tonic ever discovered. 50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-Tives Limited, Ottawa.

Dying, Gives Last Kisses.

A correspondent, who vouches for the accuracy of the story, informs the London Times of a touching incident which occurred during a recent raid by enemy aeroplanes. One of their bombs fell on the playing field of a girls' school and mortally injured Doris Spencer Walton, 15, the daughter of a missionary. She was picked up with a terrible wound in her side and taken to the hospital in a cab by a special constable and two Canadian soldiers. In spite of the intense pain which she must have suffered, the girl talked quietly with the soldiers on the way. Noticing that each of them had on his sleeve the gold stripe which is worn by those who have been wounded, she said: "I must kiss you both because you have suffered." The kisses were given. At midnight the girl died. The two soldiers, adds the London Times correspondent, will value that act of a brave, dying child as much as they would the Victoria Cross.

Conserving Production.

The production of evaporated potatoes is likely to be a feature of greater importance this year than ever before. The Potato Products Company have a plant at Woodstock, where they can 1,000 bushels per day. They have also a plant for making and canning a soup consisting of potatoes, turnips and other ingredients. In addition they have in the same building a starch factory, where unmarketable potatoes can be converted into starch. Last year they used all the turnips they could in their soup plant and this year the farmers increased their acreage. The company has a contract for 1,000,000 pounds per month of evaporated potatoes for overseas.—E.A.

Skirts to be Shorter Than Ever.

DECREE OF THE PARIS DRESSMAKERS. Paris.—One of the events of the week was the decision of the dressmakers' Syndicate to reduce women's skirts both in volume and length. Next winter's fashions will not require more than four and a half yards of woolsen stuff instead of five and a half yards at present. Mme Paquin calls attention to the fact that this quality is the maximum and may be lessened according to individual taste. It is difficult to imagine without blinking, shorter skirts than are worn now, but Mme. Paquin says it is feasible. The reason for the dressmakers' decision was the necessity of restricting the consumption of wools. With the same object in view it is being asked here why shouldn't men forego long trousers and wear knee breeches instead? Lemons bring out hidden beauty, says a face doctor. Some women must be glorious on this lay, judging from the husbands they plucked.

WHAT CATARRH IS

It has been said that every third person has catarrh in some form. Science has shown that nasal catarrh often indicates a general weakness of the body and local treatments in the form of sprays and vapors do little, if any good. To cure catarrh you should treat its cause by purifying your blood with the all-round tonic, Serravallo's Tonic, which is a medicinal food and a building tonic, free from any harmful drugs. Try it.

Fire-Proof Shingles?

A field for investigation of tremendous importance to the industries affected lies in an attempt to discover a satisfactory treatment for wood shingles that will render them measurably fire-retardant. No process can ever make wood "fire-proof" for under all conditions. Innumerable experiments have been made to demonstrate the efficacy of various compounds, but conclusions of practical value have never been reached. While tests have proved certain treatment to be suitable for one particular condition, such as retarding fire, the substances used have failed to embody equally valuable qualities of permanence and wear resistance. A good shingle fire retardant must also have endurance, insolubility, attractiveness and cheapness. With the discovery of a satisfactory method of treatment, there does not appear to be any sufficient reason why shingles should not become a most desirable roof covering for dwellings and other buildings outside congested areas. They have adaptability and beauty superior to most roofings, and entail the least first cost. Since the temporary nature of many of our buildings, the migratory tendencies of our people and the rapid development of our cities and towns are factors making the use of wooden construction advisable, to attempt to legislate the shingle or the frame dwelling out of existence is both uneconomical and impracticable in Canada at the present time.—J. G. S.

DYNAMITE HAIR SEALS

Experiment Aid Pacific Coast of 200 Salmon Thieves. A Western newspaper has the following: 200 hair seals were blown to pieces by the fisheries department on the Sandheads, about halfway between Point Grey and the north light and two miles south of the Vancouver cannery. These seals have been dining on salmon in the Fraser River for some two or three years, creating such a destructive effect on the fishing industry that the authorities found it necessary to take action to eliminate the pest if possible. A trial experiment was carried out successfully by Mr. J. McHugh, an engineer of the fisheries branch of the department of naval service. Fourteen mines containing two hundred pounds of explosives were laid in a sort of egg-shaped pattern, with a row down the centre right on the ridge of the bar and two curving rows on the outer sides. Each mine consisted of a coil of can with explosive in the bottom, dynamite and fornic gelatine, packed tight in a wooden case with a cushion of top, above that a quantity of shrapnel, then another sand cushion, far paper and the seal sealed with tar, out of which rose the wires from the primer or exploding charge in the centre of the explosive. These wires were all connected with the main lead wires, which were half a mile long, necessitating in all 27 separate relays. The mines were buried eight inches below the surface, and the lead wires were also buried, a buoy about half a mile from the mines marking the point at which later the boat took them up and connected with the battery.

TO PRODUCE MORE FOOD

In order to encourage the settlement and cultivation of vacant land in the Western Provinces, the Canadian Pacific Railway Corporation, through its Colonization and Development Department, of which Mr. J. S. Dennis is the head, has undertaken an active campaign to try and induce absentee owners to cultivate their holdings. A circuit has been made by an agriv campaign to try and induce absentee owners to cultivate their holdings. A circuit has been made by an agriv campaign to try and induce absentee owners to cultivate their holdings. A circuit has been made by an agriv campaign to try and induce absentee owners to cultivate their holdings.

ANCIENT RUINED CITY

Located Near Southern End of Lake Titicaca. The Bolivian Government has passed a law which forbids the carrying off or willful destruction of the ruins of the cities which were built by the Incas. Here once stood a city and population city, but it has fallen to long decay. The Incas, who traced an unbroken line of "kings" back to the thirteenth century, built a city of stone and brick which at present threatens the ruins of which Canada, with its extensive and fertile unplowed areas, can provide. The Incas, who traced an unbroken line of "kings" back to the thirteenth century, built a city of stone and brick which at present threatens the ruins of which Canada, with its extensive and fertile unplowed areas, can provide.

WONDERFUL ECHOES

Remarkable Natural Echo on Bavarian Lake. Probably the finest echo which the world knows is in the Cathedral at Fiesch—where the Leaning Tower is. Sing two notes and there is no reverberation; sing three, and they are at once taken up, prolonged, and varied till they seem as a divine harmony from some majestic organ. This is a fact which you will be glad to rush out in absolute terror. Undoubtedly the most extraordinary natural echo in the world is to be heard by the side of a small lake in Bavaria. On one hand rises a perpendicular cliff, on the other side is a dense forest. If a pistol is fired on the lake the woods send back a faint echo that gradually dies away, but presently it is heard from the cliff, continually increasing in power until it bursts over one's head like a deafening peal of thunder.

WHY HATS WERE WORN

First Hat Worn was Invented by Swiss in 1404. A covering for the head dates back to early times, but the hat, as we understand it to-day, was invented by a Swiss manufacturer of Paris, and the first were worn in that city in the year 1404. The inhabitants of the northern climes many centuries ago began wearing a head covering, which in those days was usually made of fur. This was in most cases in the form of a hood. It was not until the Phrygians conquered Asia Minor that the people of warmer latitudes wore head coverings. The Phrygians were the first to adopt the hat, and they did it in order to distinguish themselves from the conquered race with whom they lived. Their headgear was a small, closely fitting cap, which was also soon adopted by the Roman free citizens. Hats were first manufactured in England in 1610, and superseded caps, or soft headgear, in the reign of Queen Elizabeth.

DO THEY POSSESS FEELING?

Are Small Living Creatures Immune from Pain? A correspondent writes: Are the sensory nerves of small living creatures less delicate than those of larger things? An angler will run a steel barbed hook through the body of a frog, avoiding vital parts with care that the frog may live and struggle as long as possible to lure on fish; the farmer burns potato bugs alive in kerosene oil; the fisherman boils lobsters alive. These things are done with apparent indifference to the suffering inflicted.

Superstitious Celebrities

Lord Roberts had a great aversion to black cats, and could not remain in the same room with one of these animals. The Kaiser's father, Frederick III, could not look at a bunch of watergrapes without being seized with a shivering fit. At the sound of the word "lana" (wool) the President Diaz of Mexico became sick.

Much Like Real Kings

One Indian Rajah's subjects number about half a million, and his ruler over a State as big as England and Wales. He has his own flag and his own army and navy. These are maintained in an efficient state out of a revenue of \$1,750,000 a year.

How Could He Live?

A curious delusion haunted Pascal the noted French philosopher. Although the most brilliant genius of his time, he always thought of himself as a pauper, and his left hand, saw a ravine abyss on his left hand.

Children Cry FOR FLETCHER'S CASTORIA

A person is a little country village sent his man of all work on Sunday morning to the butcher, whose name was David, to inquire as to the non-delivery of some meat which ought to have arrived the previous evening. When the lad returned, his master had gone on to church, so he went to the sacred edifice too. Just as he arrived, the parson was giving out the following text: "What did David say?" Great was his surprise, and also of the congregation when the reply came from the lad: "He said that he won't let you have the meat until you have paid for the last lot."

SEA-GULLS AS FOOD

Make Edible Delicacy when Spilt and Smoked. In New Zealand a small gull, not very much larger than a tern, called the "mutton bird," is caught and cooked. The birds are skinned, split open, and smoked. They are then packed flat in wooden crates, some to Australia and some to America. The usual method of preparing them for the table is to soak them in a hot salt and water. This removes the slight fishiness which is left after smoking. They are grilled as a kippered herring is, and when cooked are not unlike the fish to taste. They are, however, much more delicate.

Golf Tee Made from a Shotgun Shell

Instead of making golf tees in the usual manner I used the brass end of a shotgun shell, weighted with a small iron ball attached to a string. This is a costly experiment, but proved so useful and convenient to the golfer that it is being made popular.

Greatest Shipping Town

The town of Yarmouth, N.S., is a modest port and the population in the seventies was less than since the century turned. But in 1876 no less than 730,000 tons of shipping was registered at Yarmouth. In 1871 the tonnage was 30,000, and in 1870 it was 10,000. Yarmouth owned more shipping than London had in the reign of Charles II, or all Great Britain when America was discovered.

Nova Scotia was Pioneer

Slipshodness in this continent began in Nova Scotia. The first shipyard on the hemisphere was established at Fort Royal (Annapolis) in 1605 by Count de Montserrat, and the first ship built in that year. He built a bark in that year and the year after a brig and a sloop.

Tortoise Lives 400 Years

The tortoise is the longest lived of land animals—one died at the London Zoo in 1896 at the age of 350, whilst there are instances of tortoises having attained 400 years.

The whole congregation of a service

at four clerical men. At two other services the only person present was a woman.

Leaves obtain their color

from a substance called Chlorophyll, which becomes green by exposure to light. By picking over the apples in store in the cellar a lot of loss by rot can be avoided.

The regular use of the curry comb

keeps the stock thrifty during the winter.

KING COLE ORANGE PEKOE

The "Extra" in Choice Tea

IN SPITE OF THE KAISER

(1) C. P. O. S. Pacific Liner which made a speed record a few weeks ago.
(2) C. P. O. S. Atlantic liner.

THE claim made by Kaiser Wilhelm and his satellites that the British merchant fleet is disappearing from the seas is particularly ludicrous in the case of the C. P. O. S. line, which is the most closely associated with Canada, namely the Canadian Pacific Ocean Service, which so far from diminishing has actually increased its tonnage since the beginning of the war by nearly 90%. No fewer than 15,000 men are employed with approximately 50,000 tons of cargo, and the numbers are steadily increasing.

Taking the Atlantic fleet first. At the outbreak of the war the steamships of the Allan Line and Canadian Pacific Co. (now known as the Canadian Pacific Ocean Service) numbered 85, with a gross tonnage of 113,000 tons. The value of these fleets to the British Empire in war-transport work has been incalculable, and the greatest possible advantage was taken of it by the British Government. Almost from the moment of declaration of war the combined fleets of the Allan Line and Canadian Pacific were requisitioned, including the larger and severer vessels then in service. Two of the newest and largest of the Allan Line steamers were immediately put into commission as armed merchant cruisers. The "Empress of Russia," "Empress of Asia," "Empress of India," and "Empress of Japan" were immediately fitted out as armed cruisers. Many of the other vessels of the joint companies previously engaged on the passenger trade between Europe and Canada were brought into Trooping Service and employed in transporting supplies and munitions, not only across the Atlantic but all over the oceans of the world from the Far West to the Far East. Notwithstanding this, the fleet on the Canadian Pacific and Allan Lines resources, these companies have seen their vessels broken to carry on regular passenger and freight business, maintaining an uninterrupted service of mails and passenger and freight traffic westbound, as well as carrying home eastbound

large supplies of troops, stores, ammunition of war. From the outbreak of war down to the present day the Canadian Pacific and Allan vessels engaged on troop and similar work have transported no fewer than 700,000 troops and passengers from or to Canada, the Mediterranean, India, China, Egypt, Gallipoli, Mesopotamia, or across Channel, or on the coast of the Mediterranean. Up to the same moment the company's vessels since the outbreak of war have steamed over 1,200,000 miles and have carried eastbound and westbound over three million tons of cargo, munitions, supplies, etc. These figures indicate no mean contribution to the "carrying on" of the war, and constitute a splendid tribute to what Canada—Britain's Nearest Dominion—has tried to do to help the Mother Country in her hour of need. Add to this the fact that these ships have been carrying in practically every day large quantities of munitions made in the Canadian Pacific and Allan Lines, and the fact that the Allan Line was one of the first companies, if not actually the first to effect a direct service between Great Britain and Canada. The founder of the Allan Line was Captain Alexander Allan, who in 1822 sailed from Glasgow to Quebec in the brig "Jean," in search of cargo for his vessel. In 1823 the sailing vessels of the Allan Line were replaced by steamships in the Canada-British trade. As showing the progressive tendencies of these hard-headed and tenacious Scottish founders of the line, it is worthy of note that the Allan Line has been pioneer (A) in the adoption of steel in the construction of its vessels; (B) in the adoption of the turbine as a mode of propulsion; (C) in the adoption of twin screws on its steamers; and (D) in the adoption of steel in the construction of its vessels; (E) in the adoption of the turbine as a mode of propulsion; (F) in the adoption of twin screws on its steamers; and (G) in the adoption of steel in the construction of its vessels.

The founder's family, now headed by Col. Sir Montague Allan, C.V.O., has always adopted a progressive policy, with the result that steady increase in the size and speed of steamers has been witnessed whenever additions to the fleet were made, and these adjustments have done much to stimulate the demand for passenger and cargo accommodation on the Atlantic service to Canada.

Manila, in the Philippines, has also been of late brought into the service as one of the numerous ports of call in the East, and the company is steadily but surely working up a strong and useful service on the Pacific which cannot but be of the greatest advantage to the Pacific trade in general. On the Atlantic, the C. P. O. S. line has instituted its own directly owned and controlled fleet of steamers in 1907 by the purchase of the Atlantic vessel of the Elder Dempster Steamship Line, a service which has grown to its present proportions and which now includes some of the finest passenger and cargo carrying vessels afloat in the world, and for the people at large.

The recent assumption by the Canadian Pacific Ocean Service of the control of the operations of the Allan Line results
