ALFRED YORK.

What is some people's loss is other's gain. This is the case with Saunders & Son, who suffered loss by the fire in their place recently, but they are offering great bargains in goods damaged by smoke, such as wall-paper, a general assortment of tinware and all the fancy goods on the ground floor. "KNOWLEDGE" A NEW WEEKLY MAGAZINE.—Knowledge, a new weekly magazine, occupies a new field, and it accomplishes what it undertakes, it ought to be indispensable to every owner of a Cyclopaedia. It proposes to answer almost the infinite number of questions upon which one ordinarily consults a Cyclopaedia, and fails to find the answer, generally because the Cyclopaedia is not "up to date"—it was published, five years ago, or maybe, ten or more years ago. "The world moves," and the most important questions that want answers are of to-day, not of yesterday. For instance, Capri succeeds Bismarck as Chancellor of Germany: who is Capri? How do you pronounce his name? A terrible storm at Apia. What is that? How do you pronounce it? A revolution in Brazil a few weeks ago. What is the new status? And so on. If you consult any Cyclopaedia, and fail to find the answer to your question, or you find authorities differing, send a postal-card to Knowledge, and find your answer in the next week's issue. The magazine is published twice a year, with bound volumes at nominal price to its subscribers. A specimen copy of the magazine is sent free to any applicant. The price like all the issues of this publisher is hardly more than nominal—\$1.00 a year. JOHN R. ALDEN, Publisher, 393 Pearl St., New York also, Chicago and Atlanta.

CREAMERY BUTTER.—Sasforth Exporter.—Last week Mr John Hannah, of the Sasforth, Lonsdale, Kirkton and

GOING OUT WEST.—Mr W. E. Grace, the well known retired merchant, and one of our oldest residents, will leave on a trip to British Columbia on Tuesday next. He will be absent a year, unless as he himself expressed, "get homesick." The Goderich man who won't get homesick inside of a year is a rara avis.

Mr James Church, sanitary plumber and steam fitter, has been secured by Saunders & Son to attend to that branch of their business. Mr Church will remove his family to Goderich shortly and become a permanent resident. He comes well recommended from one of the leading firms in Toronto.

FIRE.—On Saturday evening last a fire broke out in the rear of a house on Bruce-st., belonging to Mr Geo. Acheson and occupied by Mr P. B. Wallace. The alarm was soon given and the brigade hastened to the scene and had the flames under control in about five minutes. The fire brigade and the waterworks made a good team and did good work.

In the spring fruit promised a very heavy crop, but it is doubtful if there will be even a quarter of what was expected. This is due to a blight that has struck the trees, known as fire black; where touched by it the branches seem burned. It is said by horticulturists that this will work its way through the trees and ultimately destroy it, unless checked, and the only way to do this is to at once prune off the burned or dead branches.

HE'S SOMETHING OF AN ASTRONOMER.—Brantford Expositor: Mr Vanatter, formerly on the composing staff of the Expositor, is now at Goderich, in Ontario. Alluding to the balloon electric light which the Courier has been seeing for the past few weeks, he laughed and said, "Why, it is just as far from Goderich as it is from Brantford." The Courier's vision is misty when it cannot tell the difference between an evening star and an electric light that could not possibly be visible ninety miles off. There is no electric light about it and nothing to be exercised about. It is a star of considerable magnitude and that is all there is about it.

NOT IN THE "BOOK TRUST."—The statement has been widely circulated, probably by parties who wished it might be true, that John B. Alden, Publisher, of New York, Chicago, and Atlanta, had joined the "Book Trust," which is trying to monopolize the publication of standard books, and to increase prices from 25 to 100 per cent. Mr Alden sends us word that he has not joined the Trust, and there is not and never has been any probability of his joining it. The "Literary Revolution" which has accomplished such wonderful results within the past few years, in popularizing the literature of the highest character, no "trash" ever finds place on his list, still goes on. Instead of increasing prices, large reduction in prices has recently been made, particularly on copyright books by American authors. A catalogue of 96 pages is sent free to any applicant. One of the latest issues from his press, "Stanley's Emin Pasha Expedition," by Watters, a very handsome, large-type, illustrated volume, reduced in price from \$2.00 to 50 cents. This work tells a most interesting and complete story, beginning with the conquest of South Africa, and continuing through years of Africa exploration, the revolt of the Mahdi, the siege of Khartoum, with the death of Gordon, the return of Dr Junker, besides the story of Stanley's own adventures, including his successful Relief Expedition. It is one of the best and most complete works issued upon the subject. Send Alden your address, and you will receive his 96-page catalogue, and from time to time specimen pages of his new publications. John B. Alden, Publisher, 393 Pearl St., New York also Chicago and Atlanta.

THE "TWELFTH" IN HURON.

How the Day was celebrated in Clinton.—A Large Attendance.

CLINTON, July 13.—The largest crowd that ever gathered in this town, and the most successful demonstration ever held in this section of country, was that which assembled yesterday to do honor to the memory of King William. In addition to the regular trains of the day six crowded specials brought in their quota from various sections, while from all the roads leading into the town a constant stream of vehicles made their way. It is estimated that at least there were from ten to twelve thousand people in town. Arches bearing appropriate mottoes had been erected in various parts of the town, while bunting, flags, and evergreens were displayed in all directions. At about two o'clock the lodges formed in procession and marched through the main streets.

On the arrival at the Agricultural Show grounds the platform was taken by County Master Todd, who briefly congratulated the brethren on the large and magnificent turnout, and incidentally referred to the occasion that called them out. He then introduced Mayor Doherty, who referring to the fact that it gave him much pleasure as a brother Orangeman to welcome them to the hub of the county, said he regarded it as an honor and privilege to address them from an Orange platform, and had no doubt they would always be true to the grand principle of the organization.

Mr Todd apologized for the absence of Mr Dalton McCarthy, who had been expected, but was absent in England. Mr Clarke Wallace, Worshipful Grand Master, had also been expected to be present, but at the last moment found it impossible to attend.

On behalf of the Board of Trade Mr W Jackson then presented to Mr J G Holmes, of Toronto, who came in place of Mr Wallace, a cordial address of welcome.

Short addresses were given by Rev Mr Hodgins, of Seaford; Rev Mr Cascaden, of Ripley; Rev W Craig, of Clinton; Rev J Edge, of Clinton; and Mr Dickson, of Exeter.

The principal speaker of the day was Mr J G Holmes, barrister, of Toronto, who spoke for one hour. Mr Holmes eulogized the Orange body as a purely Protestant association without political proclivities. He stated that public sentiment would do towards Catholic encroachment now what King William and his forces did at the battle of the Boyne. He condemned both political parties for pandering too much to Catholic influences. He claimed that the result of the 6th of June was an evidence of the power possessed by Rome, and urged all to do what they could to resist the encroachment of the Church of Rome. His address was listened to with interest, and he was frequently applauded. At the close of his address the assembly dispersed, the visiting lodges returned home by the evening train.

The day was magnificently fine, and everything went smoothly and quietly without a hitch.

CRONIN'S GAL.

It was a still, clear, cold night in the heart of the Maine woods. Mary Cronin drew her frayed shawl closely over her head and shoulders as she closed the door softly, and stepped out into the night. She was very tired, for the day's work had been hard, and her invalid mother had needed more care than usual.

half so much as they did, nor torment the writers. They're nice folks, them Cronins. Her mother was taken ill Mary's hands and feet had been at the service of the whole settlement. Every one loved, petted and tyrannized over her.

the chimney like some gigantic beetle. Mary went to work with fresh enthusiasm. Between trips, she sat outside and suffered with the cold. But such suffering was positive joy, after the deadly numbness she had fought with.

GREY.

From our own correspondent. Raspberries are ripe. The fruit crop will not be as large as was expected. Fall wheat is rapidly approaching maturity. It is a good crop. Mrs Geo Forrest has returned from Woodstock, where she had been visiting friends for the past two weeks. All are now busily engaged haying. It is a heavy crop in this section. Spring wheat has an excellent appearance.

WILSON.

Mr. Wilson, who got a bad tumble off a wagon last week, from the effects of which he was laid up for several days. The Sunday school in section No. 8, held their annual picnic in Geo Shiel's bush on Friday last. There was a large attendance, and all had heaps of fun. The Sabbath school at Shine's school house, held their annual picnic in Dalrymple's grove on the banks of the Maitland last Saturday. It was a grand success.

RICHAIS.

Mr. Richais has returned from the Sound district, where he had been prospecting for a couple of weeks. He is not at all favorably impressed with the land or the country. Jno McLaughlan, a recent graduate of Philadelphia dental college, and who is now practicing his profession near Chicago, is home for a short vacation. He looks as if the climate of Uncle Sam's grove well with him.

GRAVEL.

The new gravel, of which, by the way, there was a large amount hauled on the roads during statute labor time, is now being nicely smoothed and rounded off by the implement agents. They follow each other up and down concessions and sidewalks thick and fast this weather. A man and woman were through this section lately selling lace and other trinkets. Among other things they would exhibit a set of knives, forks and spoons. These they would not sell, but would leave as security for \$6 with the plea that they were in need of money to lift goods out of the custom house, with which they were going to start store in a neighboring town, where the wares must needs be returned and money would be refunded. This is why the sell came in, a few were victimized. They were a slick-going couple. Look out for them.

SAVED BY GOV. HILL.

JOSEPH CHAPLEAU'S SENTENCE COMMUTED.

The French-Canadian Murderer, Condemned to Be Executed, Escapes the Deadly Spark But Must Spend the Rest of His Days in Prison.

ALBANY, July 16.—Governor Hill has commuted to imprisonment for life the sentence of Joseph Chapleau, convicted in Clinton county of murder in the first degree and sentenced to be executed during the week commencing July 21. In his decision the Governor says:

"This application for executive clemency is based upon a petition signed by many of the leading citizens of Clinton County, including nearly all the county officials. The County Judge strongly favors the application, the district attorney does not oppose it, the twelve jurymen who rendered the verdict against the defendant unanimously unite in asking for a commutation."

Dr. Chapleau Doesn't Know Him. OTTAWA, July 16.—Dr. Chapleau, brother of Hon. J. A. Chapleau, was here today. He says he knows of no cousin or relative of his living in the States. This man may be a cousin, but he would be a very distant one. He says that his near relatives are all residing in the County of Terrebonne, as far as he knows.

FRYE TO BLAINE.

The Maine Senator Asks for Information Touching Reciprocity. WASHINGTON, July 16.—Senator Frye, in reply to Mr. Blaine's letter of July 11, wrote as follows:

"Your letter leaves me in some doubt as to facts. I assume that your views are as contained in what is known as the Hale amendment; that you know for instance what the Latin republics will receive of ours free from duty in compensation for free sugar. I assume that that amendment was the result of thorough investigation. The difficulty about it is this: The amount of sugar to be received from those states would be comparatively small and the consumers of sugar would receive no benefit from it. Your letter to me extends this idea of reciprocity to Cuba and Porto Rico. I admit if sugar is received free from those islands, as well as from the Latin republics, the people would be benefited and sugar would be practically free. But will Spain admit into those islands free of duty the list of articles named in that amendment? Of course we could not enact a law more favorable to Spain than to the republics. Do you know what Spain would exchange for free sugar and can you give a list of the articles she would receive? The better way, probably, would be to make the list she would receive the controlling one for all these countries."

Food product rates east of the Mississippi and not involved in other suits before the commission are not found to be excessive.

Failure of the Delaware Peach Crop.

WILMINGTON, Del., July 16.—President Mills of the Delaware Railway has furnished the annual estimate of the peach crop. The total estimated shipments placed at 12,375 baskets. This is the smallest yield in the history of peach growing with two exceptions: 1868, when the shipments were 23 carloads, and 1881, when 78 carloads were sent to market.

THE SEAWING'S VICTIMS.

Thirty-one Bodies Recovered Yesterday—Capt. Wethern Arrested.

REDWING, Minn., July 16.—The bodies of 31 victims of the Seawing disaster were recovered today as follows: Mrs. Merritt Green, Julia Forsig, William Annas, William Jorgensen, Frederick Christ, Peter Olson, Miss E. J. Crawford, John Adams, Ira Fulton, Edna Way, Mary Skoglund, Louis Lillybrad, Ed. Merritt, Henry Schulenberg, Henry Newton, James Wilson, Louis Brunnan, Johnny Strouse, Rendal Olson, a small son of Peter Gorkan, Charles Peterson, Albert Blake, Mattie Elyun, Ella Adams, Augustin Iro, George Hartman, an unknown, Mamie Schulenberg, Martin Echerf, Mrs. Creamer and Joseph Carlson.

The bodies recovered thus far number 100. It is thought there are still about a dozen not found. The bodies that were recovered today were bloated and blackened beyond recognition so that clothing, jewelry and papers were the only means of identification. The warm weather and shallowness of the water, together with the fact that several large steamer sent up heavy swells today as they passed up the river, brought the bodies to the surface very quickly.

It is stated Captain Wethern of the ill-fated Seawing had been arrested at the instance of United States officials and taken to St. Paul.

Another Minnesota Cyclone.

ST. PAUL, July 16.—It was reported tonight that Stillwater, Minn., was visited by a cyclone, but later reports report the place as all right. The tornado seems to have struck Marine, a small town six miles north-east of Stillwater, near Lake, Wis., and New Richmond. The wires are all down.

The Question Which Is Now Agitating the Sacred City—Catholics Notes.

Floods and Pestilence.

VIENNA, July 16.—The Danube has overflowed near this city. Several bridges have been swept away near Freiburg. The villages on Schutt Island are inundated. The Board of Health here has been informed that cholera has reappeared in 31 communes of Valencia and Alicante, Spain.

THE CASE COLLAPSED.

Hamilton's Abduction Sensation—A Missing Butter Merchant.

HAMILTON, July 16.—The McGillivray abduction case collapsed this morning. Counsel informed the magistrate that, acting with the sanction of the persons interested, they had come to an arrangement which was mutually satisfactory. The mother was to retain possession of the child and the father was to be permitted to see it whenever he desired. An agreement was signed to that effect. In view of this turn of affairs the magistrate consented to a dismissal of the charges of abduction against Mrs. Dr. McGillivray and John Littlehales. There was less difficulty in coming to this conclusion when the County Crown Attorney had delivered himself of the opinion that the prosecution could not have sustained the charge anyway, as against the mother of the child.

Robert Dessey, the butter and egg dealer of this city who was arrested last week and taken to Caledonia, was allowed to go on his own recognizance to appear for trial by Judge Uppier. Now he is wanted, but cannot be found. The police in Hamilton want him and a warrant has been issued in Cayuga for his arrest there. He is also wanted in Dunnville, Smithville and Grimsby.

William McCawley of the postoffice department in this city died yesterday. He leaves a widowed mother and only brother (Mr. R. J. McCawley, of Ford & McCawley, Toronto).

THE POET'S CORNER

The Song of the Camp. "Give me a song," the soldier cried, The poet rushes guarding.

The dark Redan, in silent cove, Lay grim and threatening under; And the tawny mound of the Malakoff, No longer belched its thunder.

There was a pause. A guardman said "We storm the forts to-morrow; 'Tis white we may another day 'Will bring enough of sorrow."

They lay along the battery's side, Below the smoking cannon; Brave hearts from Severn and from Cl And from the banks of Shannon.

They sang of love and not of fame; Forgot was Britain's glory; Each heart re-called a different name, But all sang Annie Laurie.

Voice after voice caught up the song, Until its tender passion Rose like an anthem, rich and strong, Their battle eve confession.

Life at the great houses of this kind has been, it seems to me, better represented by the pen of Anthony Trollope than any other writer; and, indeed, while writing at English country places myself I was so impressed by the fact of his photographic capacity that it seems to me further description on my part would be superfluous.
