Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

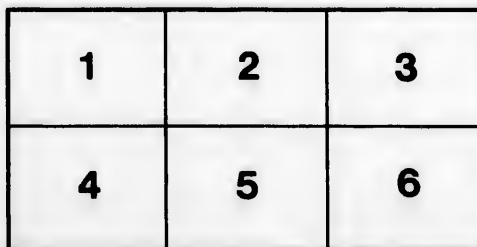

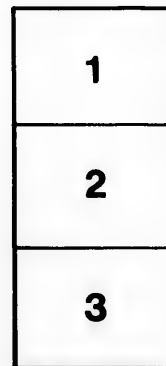

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol  $\rightarrow$  (meaning "CONTINUED"), or the symbol  $\nabla$  (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole  $\rightarrow$  signifie "A SUIVRE", le symbole  $\nabla$  signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

## Notices of the Press on Sansum's Interest and Exchange Tables.

(1857.)

SANSUM'S INTEREST AND EXCHANGE TABLES.—MILLERS, MONTREAL.—The Messrs. Miller have placed on our table a copy of this work. It has been rendered necessary by the approaching conversion of our old currency of pounds, shillings and pence into the American currency of dollars and cents. Formerly most of our interest and exchange tables were calculated in the currency then in use; but the change in the law has given rise to the publication of new tables, to suit the altered circumstances of commerce. Without depreciating other attempts to supply the wants of our business men in this direction, we may fairly say that the present work meets all requirements. In proof of this it is only necessary to mention that it contains interest tables for all sums from \$1 to \$10,000, from one day to 365 days, and from one month to twelve months. The exchange tables are in dollars and sterling, calculated at all rates from 6 to 16 per cent. advance.—*Montreal Herald*.

A WORK EVERY BUSINESS MAN SHOULD HAVE.—We have received from the publishers, Messrs. R. & A. Miller, of this city, a volume of tables in dollars and cents, showing the interest on any sum from one dollar to ten thousand dollars, from one day to one year, and from one month to twelve months; also, Exchange on London, in series, from 6 to 16 per cent. advance, and the decimal value of Halifax currency from one farthing to one thousand pounds. This is a work which must be in possession of every one who conducts business, not only in this city, but Province. It has been issued at the proper time, for but a few weeks elapse before the decimal currency will be in use. We have examined the work carefully, and find it correct and reliable in every particular. It is neatly got up, and can be obtained from the publishers, and other bookstores.—*Montreal Pilot*.

SANSUM'S INTEREST AND EXCHANGE TABLES.—We have been favored with a copy of this work, which has been prepared by Mr. O. B. Sansum, of this city, and published by Messrs. R. & A. Miller. Mr. Sansum has fully explained to us the system which he has used for finding the interest and exchange: and without any hesitation we say it is the best that could have been adopted, and one which can admit of no error in the preparation. We are aware, books of a similar kind have been got up to meet the wants of the public; but we must admit, and feel pleasure in doing so, the one before us is more complete and easier understood than any we have seen, not even excepting those in use in the United States. Looking at the material and binding, and considering the great expense of figure printing, we consider the work exceedingly cheap for one dollar and twenty-five cents; and we hope the public will appreciate Messrs. Miller's desire to give them a book which is certainly one of the wants of the day.—*Montreal Transcript*.

We have received from Messrs. R. & A. Miller, a very valuable set of Tables, by Oliver Barker Sansum, and published by the Messrs. Miller. The volume comprises Interest Tables in Dollars and Cents, on any sum from One Dollar to Ten Thousand Dollars, for any number of days or months in the year; British Exchange Tables from 6 to 16 per cent; the decimal value of Halifax Currency from one Farthing to One Thousand Pounds; and a Commission Table from one eighth to two and a half per cent. Now that the Decimal system of currency is coming into general use, this work will be required in every office. It has been carefully got up, is neatly and strongly bound, and we have no doubt will meet with the patronage it deserves among business men.—*Montreal Commercial Advertiser*.

SANSUM'S INTEREST AND EXCHANGE TABLES.—This is the title of a highly useful work, just published by the Messrs. Miller, of Montreal, a copy of which has been sent to us. We need not explain to our readers that this is a publication rendered necessary by the approaching change in our currency. It contains interest tables for all sums from \$1 to \$10,000, from one day to 365 days, and from one month to twelve months. The exchange tables are in dollars and sterling, calculated at all rates from 6 to 16 per cent. advance. In every respect, this is an exceedingly well got up work, and will, we trust, meet with an extensive demand.—*Quebec Gazette*.

**INTEREST AND EXCHANGE TABLES IN DOLLARS AND CENTS, by Oliver Barker Sansum. R. & A. Miller, Montreal, 1857.**

We have received a copy of this book from the publishers. It has just issued from the press. We have looked over it with care, and the result of our examination is, that it is a credit both to the author and the publishers. We have noticed favorably other publications on the same subject, but we must say that this is the most perfect of all. It contains more matter, and embraces wider ground than any other publication of the kind which we have yet seen. The type is clear, the printing and paper good, and the whole in such a shape as will be found convenient for reference in the counting-house or other place of business. It contains "tables in dollars and cents, showing the interest, on any sum from one dollar to ten thousand dollars, from one day to 365 days, and from one month to 12 months; also, exchange on London, in series, from 6 to 16 per cent. advance, and the decimal value of Halifax currency from one farthing to one thousand pounds." The change about to take place in the currency will make a book of this sort almost indispensable to business men. Of course it is desirable that all who have to do with accounts should be well drilled in the rules governing the change of currency, but the most accurate accountants are sometimes liable to err, and a book of this kind is always of very great use for a check; while its value will be very great for ready reference. We cordially recommend it to our readers, and we hope the sale will be large, for the publication undoubtedly merits it.—*Montreal Gazette*.

**A USEFUL BOOK.**—Through the attention of the publishers, Messrs. R. & A. Miller, Montreal, we are in possession of a commercial book, whose usefulness will be appreciated by every class in the community. It is entitled "Tables, in Dollars and Cents, showing the interest on any sum, from one dollar to ten thousand dollars, and from one day to three hundred and sixty-five days, and from one month to twelve months; also, exchange on London, in series, from 6 to 16 per cent. advance, the decimal value of Halifax currency from one farthing to one thousand pounds. By O. B. Sansum." The above cited "table of contents" requires no comment to show the utility of the book, which, under the altered system of currency and mode of computation to come into operation next January, renders it, indeed, indispensable to every man of business, of whatever kind. It is remarkably well printed and bound, and does credit to all concerned in its production, at this opportune season. Unless the edition is very large, a second one will doubtless be required before many months have elapsed.—*Kingston Daily News*.

**TABLES IN DOLLARS AND CENTS,** showing the interest on any sum from One Dollar to Ten Thousand Dollars; from one day to Three Hundred and Sixty-five Days; and from One Month to Twelve Months; also, Exchange on London, in series, from 6 to 16 per cent. advance; the Decimal Value of Halifax Currency, from one Farthing to One Thousand Pounds. By Oliver Barker Sansum. The title to this book sufficiently indicates its nature and contents. It is extremely well got up, and cannot but meet an extensive demand. The price is \$1.25.—*Toronto Daily Colonist*.

**SANSUM'S INTEREST AND EXCHANGE TABLES.**—The publishers of this useful work, Messrs. R. & A. Miller, have kindly sent us a copy. It contains 200 octavo pages of tables in dollars and cents, embracing wider ground than any other publication of the kind we have yet seen. It shows the interest on any sum from \$1 to \$10,000, from 1 day to 1 year, and from 1 month to 1 year; also, Exchange on London, in series, from 6 to 16 per cent. advance, and the decimal value of Halifax currency from one farthing to one thousand pounds. The book is printed in a convenient form, and will be found a useful and simple authority to refer to. The *Montreal Herald* says "it meets all requirements." The *Pilot* says,—“We have examined the work carefully, and find it correct and reliable in every particular.” And the *Transcript* says "it is more complete and easier understood than any we have seen, not even excepting those in the United States."—*Ottawa Citizen*.

A well got up, and exceedingly necessary work has just been published by Messrs. R. & A. Miller of this city. We refer to Sansum's Interest and Exchange Tables. It contains interest tables for all sums from \$1 to \$10,000, from one day to 365 days, and from one month to twelve months. The exchange tables are in dollars and sterling, calculated at all rates from 6 to 16 per cent. advance.—*Montreal Witness*.
