Germans Make Two Air Raids Against London

ONE AIRPLANE RAIDS LONDON BEST CHECKED

Five German Gothas Fail in Attempt to Reach Metropolis.

FOUR CASUALTIES

Hostile Machine Falls Into the Sea in Clash at Dover.

London, Feb. 17.—Only one of the six German airplanes which made an attack on London last night succeeded in reaching the capital, it is announced officially. This raider dropped one bomb in the southwest district, which caused four casualties. An aerial raid on Dover was repelled by British pilots, who engaged the Germans over the Kent coast. One large raider is reported to have crashed into the sea.

The text of the official statement reads: "About six enemy airplanes approached the mouth of the Thames about 9.45 o'clock last night and carried out an attack against London. All were turned back save one, a machine which penetrated the capital along the line of the river and dropped a single bomb in the southwest district about 10 o'clock. "This bomb demolished a house and buried an invalid officer and his wife and two children. Several other bombs were dropped by the raider in the eastern outskirts on its way in, but no serious casualties or damages have been reported. "An attack which was delivered against Dover about 10.45 o'clock was driven off, some bombs being dropped in open country. "Several of our pilots engaged the enemy. One of them fought an action over the Kent coast, and shortly afterwards a large enemy machine was seen from the shore to crash into the sea. Police reports of the casualties and damage have not yet been received, but apparently they were light."

FIRE REELS CALLED WHEN CAT CAUGHT FIRE

Relled Over and Blaze Was Transferred to Pair of Overalls.

The peculiar occurrence of a cat on fire was the cause of a hurried turn-out of the Earls Court, Weymouth and Ford street fire reels about 8.30 last evening to the residence of J. Pagell, 31 Greenlaw avenue, Earls Court, the damage being a badly burnt coat of cat fur and one pair of overalls.

According to J. Pagell, the furnace door was left open and a piece of his coat fell upon the cat, which was lying in front of the furnace. The cat's fur was quickly ablaze, and rolling upon a pair of overalls which were lying nearby, the cat quickly saved itself from destruction, but the overalls were burnt to a cinder.

STRONG RAIDS LEAD TO BRITISH ACTION

Enemy Suffers Casualties, But Takes Few Prisoners in Fighting.

London, Feb. 17.—Strong German raids against the British forces resulted in considerable fighting south of the Scarpe, according to the report from Field Marshal Haig's headquarters in France last night. The text of the statement says: "Enemy raids at dawn Saturday morning in the neighborhood of La Vacquerie (midway between the Hamel and Quentyn) and Cherly (directly south of Scarpe) led to sharp fighting. A number of casualties were inflicted on the hostile ranks, and a few of our men are missing."

The enemy's artillery was more active today in a number of sectors, particularly southwest of Cambrai, south and north of Lens and in the neighborhood of Paschendaele."

A few prisoners were brought in from our patrols during the night. "Except for hostile artillery activity in the neighborhood of Paschendaele there is nothing of special interest to report."

CANADIAN FORCES TO BE AUGMENTED

Canadian Associated Press Cable. London, Feb. 17.—Interviewed regarding changes in the Canadian forces at the front, Sir Edward Kemp, overseas minister, said that a conference had been held by the senior officers in France and England, as a result of which the Canadian army at the front will be appreciably strengthened. Sir Edward stated that there was no intention of making any important changes in the organization, but the contemplated change would have the effect of increasing the strength and efficiency of the Canadian corps as a fighting unit.

TORONTO MAN'S WIFE IS FOUND MURDERED

Mrs. Charles Gates Strangled in Detroit Rooming-House by Unknown Man.

HUSBAND WAS IN TORONTO

Visit to His Mother, on Beatrice Street, Was Cut Short by the News of Wife's Death.

Special to The Toronto World. Detroit, Mich., Feb. 17.—This city has another underworld tragedy on its hands, the second within a week, following the discovery yesterday afternoon of the body of a handsome young woman in a rooming house at 143 West Fort street. There were deep marks on the victim's throat where a man's fingers had pressed into the white flesh so deeply that even the fingerprints showed the indentations. The gag in the mouth and a tightly knotted towel about the neck had made death sure.

The body lay face downward on the bed, the head covered up with three pillows, while all about the room lay the girl's clothing. Black shoes, white garters, pink silk undergarments lay on one chair, and on another were a handsome fur coat, hat and suit.

Not until late last night was the body identified. At that hour Mrs. J. H. Thomas, of 15 West Grand River avenue, called at the county morgue and declared the victim to be Mrs. Daisy Gates, whose husband she said was Charles Gates. The girl was 27 years old, and was a native of Detroit. Her friend, Mrs. Thomas, late Friday, and at that time informed her that Gates intended to leave for Toronto on Saturday to visit his mother, Mrs. M. P. Minn, living at 117 Beatrice street, there. That was the last time she had seen Mrs. Gates.

At 2 o'clock Saturday afternoon Mrs. Gates, accompanied by a man described as James Morgan, five feet six or seven inches in height, about 25 years old, slender, shaven and well dressed, arrived at the Fort street house. The man registered as "James Morgan and wife." Thirty minutes later the man left alone and two hours later, the crime was discovered. Other rooms in the house say they heard no noise of a struggle from the room, and the police theory is that the woman was strangled to death within ten minutes after she had entered the place with "Morgan."

The house at 117 Beatrice street was in darkness last night. Neighbors stated that Gates and his mother had taken the night train for Detroit.

GERMANS AGAIN REVOLT UPON EASTERN FRONT

Kaiser's Troops Refuse to Go West—Defeat Detachment Sent Against Them.

Petrograd, Tuesday, Feb. 12.—German soldiers at Grodno and Kovno, according to a report received here from Moscow, have refused to obey a command to move to the French front. The troops have entrenched themselves under the protection of their own artillery and have defeated a detachment of loyal forces which the German staff sent to punish them.

DIRECTOR OF PROPAGANDA

Lord Northcliffe Accepts Position While Remaining on U.S. Mission.

London, Feb. 17.—Viscount Northcliffe has accepted the position of director of propaganda in enemy countries, while continuing his position on the American mission.

Lord Northcliffe, in an interview, said he had agreed to use his intimate knowledge of the enemy countries to direct the section of propaganda for the dissemination of full reports of reports of important speeches and statements of war aims and other matters among the peoples of the central powers and their allies. The nature of the propaganda will be decided by a representative committee.

Lord Northcliffe hoped and believed that this would prove the means of appreciably shortening the duration of the war. He said he would still direct the activities at the London headquarters of the American mission.

IMPERIAL CHIEF OF STAFF OUT; OTHERS MAY LEAVE OFFICE

Gen. Robertson Reports Dismissal—Gen. Wilson Succeeds Him.

GENERALS IN REVOLT

Parliamentary Crisis Expected—Lloyd George to Make Statement.

London, Feb. 17.—The official announcement in connection with the resignation of Gen. Sir William Robertson, chief of the British imperial staff, says: "The extension of the functions of the permanent military representative decided on by the supreme war council, at their last meeting at Versailles, has necessitated the limitation of the special powers hitherto exercised by the chief of the imperial general staff by virtue of the order-in-council of Jan. 27, 1916."

"In these circumstances, the government thought it right to offer Gen. Sir William Robertson the choice of becoming the British military representative on the supreme war council at Versailles, or continuing as chief of the imperial general staff under new conditions. "Gen. Sir William Robertson, for reasons which will be explained in a statement, which will be issued by the prime minister, in the house of commons as early as possible in the coming week, did not see his way to accept either position, and the government, having, with much regret, accepted his resignation. "Gen. Sir Henry Wilson has accepted the position of chief of the imperial general staff. The appointment of the British permanent representative at Versailles will be announced in a few days."

CRISIS BROUGHT ON IN BRITISH POLITICS

Sir William Robertson's Resignation Will Lead to Renewal of Parliamentary Controversy.

CABAL AGAINST GENERALS

Exciting Scenes Expected in British Parliament—Government to Seek Confidence Vote.

London, Feb. 17.—The official announcement of the resignation of General Sir William Robertson as chief of the British imperial general staff brings to a head the storm that for some time has been brewing in the political world in regard to the relations between the war cabinet and the high command of the army, which have been the subject of embittered controversy in the press and among the public.

The forces ranged against the government have taken a stand in protest against what was described as the "newspaper government," and they openly accuse the premier of having conducted, with the assistance of a certain newspaper group, a cabal against General Robertson and Field Marshal Sir Douglas Haig.

The public and the army hitherto have been quite devoted in their relief in General Robertson and Field Marshal Haig, while to the general public, General Sir Henry Wilson, the new chief of staff, is almost unknown. The cleavage in the parliamentary ranks in this contest by no means follows party lines. The division taken late Wednesday night, which gave the government a vote of confidence, could hardly be taken as a criterion of the actual feeling of the house of commons. Hence, exciting scenes may be anticipated early in the week, especially as General Robertson denies that he resigned his post. The attacks are certain to be renewed and it is again expected that the government will demand a vote of confidence.

ARMISTICE EXPIRES ON RUSSIAN FRONT; FIGHTING TO BEGIN

Enemy Claims That Petrograd Government Denounced Arrangement.

GERMANS IN UKRAINE

Central Powers Prepare Public for Action Against Bolsheviki.

Berlin, Feb. 17.—(British Admiralty, per Wireless Press).—The armistice between the Russian and German forces, which has been in existence for several weeks on the Russian front, expires at noon tomorrow, according to the official statement issued today by the German army headquarters staff. The text reads: "Eastern front. The armistice expires at noon tomorrow. "An official statement issued by the German imperial government, states that the Petrograd government, by its conduct, has denounced the armistice which had been in existence on the Russian front. This denunciation is regarded as having occurred Feb. 16. In conformity therewith, the official statement says, the German government must after a lapse of seven days, give notice of the termination, as provided for under the treaty, and reserve a free hand in every direction. "Germans in Ukraine. Amsterdam, Feb. 16.—German forces are already being concentrated in Ukraine to attack the Bolsheviki, according to a despatch to the T. J. and declarations looking to the active prosecution of the war against the Bolsheviki in north Russia, also will be made at Berlin next week. "The German authorities are anxious regarding the fate of German prisoners in north Russia, whom the Bolsheviki are holding as hostages, and Indian reserves and the Indian army are being driven to desperation. Germany has already served notice on the Bolsheviki authorities that the Indian reserves steps to win Germany's interest for Finland. "A Vienna despatch to The Berlin Tagblatt indicates that it may become necessary for the central powers to give aid to Ukraine, even on the ground alone of only safeguarding the exchange of commodities."

COAL IS NEEDED FOR POOR PEOPLE

Rev. Peter Bryce Has None Left, While Children Suffer.

BESEIGED WITH CALLS

Two Hundred Families Have Been Supplied, But More Need Fuel.

If any people in Toronto who have coal in their cellars could have a talk with Rev. Peter Bryce of Earls Court Methodist Church, or could read some of the scores of letters he has received during the past few weeks, they immediately would get in touch with Mr. Bryce at Junction 2724 and share up their coal with him. Mr. Bryce and his staff at the church devote nearly all their time to the relief of families suffering through lack of coal. They worked all day yesterday, going so far as to send to the Drummond Coal Company in the east end of Toronto a load to relieve the distress in the northwest section. But their supply is exhausted and they want more coal. Anyone who can spare a bag or two, or any amount, will be doing a great service by notifying Mr. Bryce at Junction 2724. The coal will be sent for and paid for. The delivery charges are paid by Mr. Bryce and his workers. People to whom the coal is given are charged for it, and in due course Mr. Bryce will issue a financial statement. He wants coal for the next week or ten days, when he hopes the cold weather will have gone for this winter. "We have received about 325 bags of coal and have distributed to nearly 200 families," said Mr. Bryce last night, "chiefly to families where there are little children or where there is sickness. Practically all were such families. We have been unable to get coal elsewhere and have given up. Mr. Bryce has been getting three every day from the Conroy Coal Company, and has bought a carload which he expects to be on the siding by the end of the week. In the meantime, women and children are suffering and Mr. Bryce wants coal that he is paying for. Call Junction 2724."

AIM TO UTILIZE PRODUCTIVE AREAS

Comprehensive Plan by Which Indian Reserves May Be Worked.

BIG LOAN IS ARRANGED

Inspector of Indian Agencies Appointed Commissioner to Carry Out Scheme.

Ottawa, Feb. 17.—Announcement was made today by Hon. Arthur Meighen, minister of the interior, of a comprehensive plan to increase grain and livestock production in western Canada by the utilization of the large productive areas within the Indian reserves and the labor of the Indians themselves. Mr. W. M. Graham, inspector of Indian agencies, South Saskatchewan inspector, has been appointed a commissioner for the department of Indian affairs of Manitoba, Saskatchewan and Alberta. He will have charge of the working out of the details of the plan. Mr. Graham will make arrangements with the Indians for the leasing of the reserve lands, which may be needed for grazing or for cultivation, and for the production of grain and livestock. Under the provisions of the War Measures Act, the sum of \$300,000 will be advanced from the war appropriation to the department of Indian affairs for the purchase of agricultural machinery and implements, seed and livestock, fence wire and other supplies, and for rentals, salaries and expenses. It is proposed to refund this amount to the war appropriation from revenues arising out of the production of grain and livestock on the reserves.

ERZINGAN REOCCUPIED

New Chapter of Atrocities Will Open—Germans Encourage Moslems to Murders.

London, Feb. 16.—Armenian bands which have been operating west of Erzingan and along the roads from Erzingan to Ardassa and the coast village of Goeree have been scattered by the Turks, says a Reuter telegram from Constantinople by way of Vienna. "The despatch makes this significant statement: 'The resistance of armed bands has been broken in villages west of Erzingan, in Erzingan itself, as well as north of that city.' This indicates Turkish forces of considerable size operating again in Armenia. "The return of the Turks to Armenia since the withdrawal of the Russian Caucasian army, may be expected to plunge Armenia into a new chapter of atrocities and massacres. That the Turkish action in this direction will be met with no opposition from Germany may be gathered from the fact that the German newspapers recently printed several official Turkish communications bearing a close family resemblance to the Turkish pronouncements which preceded the earlier Armenian massacres. SUSPECT GERMAN SPY HELD AT CHATHAM

Had Map of City Marked With Sites of Chief Factories.

Special to The Toronto World. Chatham, Feb. 17.—H. L. Pettler, who is suspected of being a German spy, was arrested near this city last evening while he was in the act of preparing plans of some of the bridges in the county. "When searched by High Constable Peters, who effected the arrest, a map of the city on which he had marked the location of some of the main factories in the city was found in one of his pockets, in addition to a score of letters, indicating that he has been traveling all thru the west. He is being held pending a further investigation."

SAP RUNNING BEGINS SOON.

The first run of Canadian maple sap begins down in Essex County, Ont., generally about March 20. Gradually the warm weather works northeast, and the season ends up in Quebec when the leaves break the buds.

Every pound of maple sugar produced this spring adds to the food stock of the country at a time when every pound of foodstuffs is needed. Maple sugar makers are sure of a market for every pound of pure maple sugar and syrup they produce.

"In God's name what are eggs and tea, compared with final victory?"

RED CROSS MUST SAVE.

The executive of the Red Cross Society of Regina has asked that the advice of the food controller be carefully observed at any gatherings in the interests of the Red Cross and that if the hostesses really wish to serve food she should at least be careful not to use the commodities most needed overseas.

BIRTHDAY SURPRISE PARTY.

Crowd of Friends Gather and Celebrate Anniversary. Mr. and Mrs. W. Hooley's home, 87 Kenilworth ave., was invaded Saturday evening by a merry crowd of friends who came as a jolly surprise to celebrate Mrs. Hooley's birthday. The host and hostess, the taken-by-surprise, arose to the occasion and provided a delightful time for their unexpected guests, demonstrating the secret of their popularity. After a progressive game of euchre and a program of music, in which the bagpipes and dancing were prominent, Mrs. Hooley was presented with a beautiful gold wrist watch and a handsome silver pudding dish.

MODEL REST HUT.

In connection with the tag day which the Salvation Army is having on Friday for the maintenance and extension of its work for soldiers overseas, the city council has given permission for the erection of a model "comfort hut" on the lawn of the city hall. This will be used as the headquarters for the organization for the day.

The army has now over 700 officers and employes at work in more than 400 comfort huts, rest rooms, naval and military homes, and hostels for soldiers. The proceeds of the tag day are to be devoted entirely to these.

RATIONING IN CANADA MATTER OF CONSCIENCE

The food controller says rationing is a subject that is receiving much newspaper attention in Canada at present. It is a thing that is as new in theory and practice as war was three years and a half ago. That must be the only excuse for some things which are written. The general assumption is that rationing can be carried out, just as some people thought price-fixing could, by a mere wave of a magic pen. It would not be hard to make a rule that so much bread should be used by each person at a meal. But how many with a country home offers difficulties little thought of. In the maritime provinces fish is plentiful and comparatively cheap, as in the west are wheat and beef. But more fish is not needed "at the front" to anything like the same extent that beef and wheat most urgently are wanted.

It is not a legal question at all, but a moral one, which must be left to the conscience of each household head.

The Canadian woman is here especially indicated to aid. So far women's work in the Dominion has had to do with Red Cross and similar works of mercy. This opens out the field enormously. Every woman who saves bread, beef and pork products is in fact and deed wielding an unseen weapon in a war as truly as her sister behind the trenches are in caring for the broken and the maimed.

MOTHER HAD TO PROP HER SON UP IN BED

Could Hardly Get His Breath at Times—Is Now the Picture of Health.

"My son, Francis, is the picture of health since he took Tanlac, and his recovery has certainly relieved me of a heavy burden of anxiety and worry," Annie Haxby recently wrote Mrs. Haxby, who is a well-known business woman, owns and conducts a grocery store at the corner of St. John and Weston roads, Mount Dennis, near Toronto.

"Francis is now fifteen years of age," Mrs. Haxby continued, "and has been suffering from something like asthma and catarrh of the throat for several years. I have almost worried myself sick over his condition. He couldn't stand the least exposure without catching cold. His eyes would water, and his head, bronchial tubes and nasal passages seemed to be completely stopped up. The trouble seemed to go down into his chest and lungs and bring on bad spells of coughing. I often had to prop him up in bed at night before he could get a good breath. I have had him treated for years, and have also used the best-known household remedies, but he never seemed to get more than a little temporary relief."

"I never had much idea Tanlac would help him, but everything else had failed, and I was so anxious about his case that I had him try it. Well, it is simply wonderful the way it has helped him. He has taken seven bottles now, and his catarrh has been absorbed, and it has held asthma that's gone too. His health is better than it has been in years, and in fact, he's just like a different boy. He has never been able to attend school regularly before on account of his health, but now he's going every day and is feeling fine. I'm just so glad to see how his health has been restored that I tell everybody who comes in the store about Tanlac."

Tanlac is sold in Toronto by Tamplin's Drug Stores and by one regular established agency in every town. (Advertisement)

THE MORNINGS POST ARE FACING TRIAL

Charged With Unlawfully Publishing Information of Benefit to Enemy.

ARTICLE MODIFIED

But Was Published in Objectionable Form Without Leave of Censor.

London, Feb. 17.—A great crowd that filled every corner of Bow street police court was present when, on Saturday, Col. Repton, military correspondent of The Morning Post, and Howell A. Gwynne, editor of that paper, were called to answer a charge of unlawfully publishing information of the subsequent refusal of the censor of military forces of Great Britain and her allies.

The solicitor-general said that he proposed to proceed with the charge under the provisions of the Defence of the Realm Act, which prohibited the publication of information which might benefit, directly or indirectly, the enemy. He pointed out that, despite warnings and the subsequent refusal of the censor to pass an article in its original form, it was modified without submission to the censor, and published, with a paragraph added, which referred to the warning, and said: "But there are times when we must show our courage in both hands and risk the consequences."

The evidence. Sir Edward Cook, one of the directors of the press bureau, was the next witness for the prosecution. He said the original manuscript was submitted to him and he refused to pass it. He wrote a letter to Mr. Gwynne explaining that it was opposed to the regulations. At midnight Sunday Mr. Gwynne wrote a letter to him saying that at times was pressing him to take the liberty of changing the article and eliminating the offensive matter and would publish it without re-submitting it.

The prosecution then closed, and the case was adjourned until next Thursday morning.

WEDDED AT ST. THOMAS

Special to The Toronto World. St. Thomas, Feb. 17.—A quiet wedding took place in St. Thomas on Saturday afternoon at the residence of the bride's parents when Miss Bessie Teresa McKenna, M.A., was married to George Hamilton, of Ottawa. The ceremony was performed by Rev. Mr. Gilmurray of Knox Presbyterian Church in the presence of the immediate relatives of the bride and groom. The bride is the only woman in Canada who has been honored with the degree of a fellow of political science of the University of Toronto, and has for the past year been associated with W. F. O'Connor, the high cost of living commissioner.

LETTER FROM AN ENGLISH TOMMY TELLS OF THE EXCITING CAMPAIGN ON THE GALLIOLI PENINSULA—A PRESENT FROM A CANADIAN SOLDIER WHICH PROVED USEFUL.

Essex, Eng., Feb. 16.—Many an interesting story is told by soldier boys who served in Italy during the campaign on the Gallipoli Peninsula.

The letter quoted here for Canada demonstrates the necessity of helping the British soldier in the field. It is sure to prove of value to many of our readers.

Corporal E. Tomlinson, of the 4th Essex Regiment of the British Army, writes: "I have just returned after taking part in the campaign on the Gallipoli Peninsula and am writing to tell you how thankful I am for taking some of Dr. Chase's Ointment with me. A Canadian soldier presented me with a box of Dr. Chase's Ointment when I was leaving for the front, and he was so enthusiastic over it that I decided to take it with me. We tried it first of all for putting on our hands and faces after being blistered by the poisonous shrubs and bushes as well as by the flies with which the peninsula abounds. We found that it afforded instant relief and got to using it for all manner of minor wounds and grazes. Whenever my friends had troubles of this nature they came to me for Dr. Chase's Ointment."

"I need hardly say how thankful I was to get out alive, and fully made up my mind that if I did I would write to you, you know how useful your Ointment was."

This letter is appreciated as are the many others which we are constantly receiving in recommendation of Dr. Chase's Ointment as a cure for eczema, piles and every form of itching skin disease. If you insist on getting the genuine, bearing the portrait and signature of A. W. Chase, M.D., for imitations are common. 50c a box. All dealers, or Edmondson, Bates & Co., Limited, Toronto.

## ADVERTISING PAID THESE GROWERS

Judicious advertising conducted by a government representative in Rhode Island resulted in a satisfactory disposal of a surplus stock of spinach, in so much that the growers affected are enabled to pay the salary of the man who thus helped them, was the illuminating statement of G. B. Hellerman, Waterford, before the annual convention of the Ontario Vegetable Growers' Association at 2 College street on Feb. 15.

## POTATO GROWERS AND INSECTICIDES

Caesar States Arsenite of Lime Will Prove Good Substitute.

## TOMATO POLLINATION

Illuminating Address on Tomato Growing and Shipping, by Experts.

Some pointers of great interest to vegetable growers were given by L. Caesar of the O.A.C. at the annual convention last week of the Ontario Vegetable Growers' Association at 22 College street, Toronto. Although there is a fair stock of Paris green on hand at the present time, Mr. Caesar predicted that a shortage in the supply would occur before the end of the coming season. He, therefore, discussed the possibilities of substitutes for Paris green.

The speaker stated that arsenite of lime could be used to advantage this year by potato growers for the elimination of potato bugs and other insects. He stated that it was one-fifth stronger than arsenite of lead in arsenic, the poisonous agent, the price was lower. The price, which he quoted, was: Arsenite of lead, 14c to 18c; arsenite of lime, 20c to 25c. "Both of these insecticides adhere better to Paris green and work very well, especially when used in conjunction with Bordeaux mixture."

**Home-made Recipe.** The following recipe: 1 lb. sal soda, 1 lb. white arsenic, 1 gallon water. Boll till the arsenic is dissolved. The resulting mixture will be twice as strong as Paris green and will be found quite safe to use when added to Bordeaux mixture in proper relationship. He pronounced Bordeaux mixture to be the best fungicide.

**Greenhouse Pollination.** President J. J. Dewar stated that his experience had proved that pollination of tomato plants in greenhouses by means of a spoon was a surer and more practical method than by means of a brush or piece of fur. He also informed the gathering that "Parrot's Sunray" tomato was a very good English variety, which he found pollinated itself owing to the cone-like shape of its flowers.

**Co-operative Shipping.** W. R. Dewar, manager of a Leamington co-operative, the shipping company, gave some very interesting details on the results of his business. His company prefers to do its business on an L.O.B. basis and will not ship on commission to any place outside of Toronto, Montreal and Ottawa. The results of this policy is that 90 per cent. of their sales are made on an L.O.B. basis by retail and statistics which were compiled from the books this company did not at high a price for tomatoes from the commission house as that received from the merchants, and it was also demonstrated that the wholesale merchant was at all times protected, and that he purchased at a cheaper price than what the retailer was charged.

**Commission Sales Variations.** Illustrating what he found the commission merchant not as satisfactory as the outright purchaser, Mr. Dewar said that two weeks' shipments to two different Toronto commission houses. The prices given below are those received from the shippers, not the agents on the three first days of the first week and the two first days of the second week. These prices, Mr. Dewar contended, also illustrate the lack of market control exercised by the commission manner of doing business, as well as an apparent lack of knowledge of supply and demand on the part of the commission house.

No. 2, 45c, 30c, 75c.  
No. 3, 35c, 75c.  
No. 4, 45c, 75c.

**Receives Daily Information.** In order to successfully conduct his f.o.b. business Mr. Dewar receives daily wires on the condition of the tomato market at all the places where he regularly does business. He can then govern shipments so that prices are maintained and the markets are kept evenly supplied. He contended that individual shipping, on the other hand, resulted in flooding markets thru inadequate information by the shipper.

**How Growers Gain.** Mr. Dewar's company does business for approximately 100 growers, and charges 10 per cent. as a basis. This, however, is not retained by the company. On the contrary, all balance is returned to the growers, and last year \$10,000 was returned out of the 10 per cent. the business having been done on a smaller margin than 10 per cent. If the co-operative company had not been in existence the growers would have lost 10 per cent. or higher commission charged by commission houses, as well as further possible losses due to dishonesty on the part of the dealer, which sometimes happens. The license system would eliminate refusal of shipments by unfair commission houses, in the speaker's opinion.

## WINTER RAIN

Every valley drinks. Every dell and hollow. Where the kind rain sinks and stinks. Green of Spring will follow.

Yet a lapse of weeks. Buds will burst their edges. Strip their wool-coats. Shine coats, breakers. In the woods and hedges.

But for fattening rain. We should have no flowers. Never a bud or leaf again. But for soaking showers; We should find no moss. In the shadiest places. Find no waving meadow grass. Pled with wind-swept daisies.

## ADVICE FROM OTTAWA.

The following is printed on the covers of two pamphlets, "Barnyard Manure" and "Fertilizer Economy in War Time," recently issued by the Dominion Experimental Farm. Other useful information for the amateur gardener is contained in "Every Gardener His Own Seed Grower." Copies of these three pamphlets may be obtained by writing to Prof. I. H. Griegale, director of the farm, Ottawa. "Commercial fertilizers, judiciously used, may greatly increase crop production. They are supplements to, not substitutes for, manure. Their most profitable use will be found in association with thorough cultivation on soils plentifully provided with humus. The increase in value of farm produce is proportionately greater than the increase in the cost of fertilizers." "Apply all the manure made on the farm at the right time in the right place lessens man labor, increases yields per acre, lowers cost of production per ton or bushel. Haul the manure to the fields day by day from fall to spring. Distribute broadcast in snow not too deep. When snow too deep for spreader put in small piles. This method economizes manure, labor, time."

## HAROLD JARVIS AMAZED AT TONE QUALITY OF NEW FINAL TYPE PHONOGRAPH

Who is there in Canada that doesn't know of Harold Jarvis—for he has captivated the hearts of all the music lovers of Canada, and was born in Canada. It seems that Mr. Jarvis is touring the copper regions of northern Michigan and while stopping at a hotel in that district he heard a Phonograph play the sweet strains of that beautiful song, "Beautiful Isle of Somewhere," and he was so impressed by the tone quality of the music that he decided to purchase a phonograph. He went upstairs and into the store and bought a young man a phonograph. The young man was playing a beautiful record, "Beautiful Isle of Somewhere," and Mr. Jarvis remarked, "Beautiful Isle of Somewhere," and said, "I wish I could hear that music in my own home."

## RENNIE'S WAR GARDEN SEEDS

EVERY owner of garden space must help to grow food for his family this year, as a patriotic and personal duty. It is a vital wartime necessity. He must be doubly sure the seeds he selects will produce the most vigorous possible crops. In other words, he must plant Rennie's seeds, indisputably the standard of high quality, dependability and unquestioned purity. Rennie's War Garden Seeds are pledged to help win the war.

## STANDARD BREDS; ANOTHER LETTER

Walt Johnston Urges Fair Directors to Offer Attractive Purses.

Farm Editor World: Allow me to express the regulation quantity of orthodox pleasure at seeing correspondence commenced calling attention to the necessity of increasing some effort to further the breeding and market interests of standard-bred stock. Where are our leaders? What are we to hear from them? It will not be long, I fancy, until Toronto, London and Ottawa fair directors will be laying plans for 1918 exhibitions. Can't something be done in a preliminary way at once to "break the ice" in connection with putting on a good stake incentive this fall for three-year-old Ontario bred trotters, irrespective of sex?

Small Purse No Good. The writer, however, would emphasize that it must be made plain to all and sundry that it will be of great advantage to both fair directors and owners if worth-while purses be put up. No program will be of much attraction with stakes of \$100 or \$200 value. Think of an owner buying perhaps importing, a fashionably bred standard and registered mare, paying a \$25 service fee, then the expense of feeding, breaking, shoeing the colt and developing its speed, with shipping, entrance and campaigning expenses and then being asked to compete for a 50 per cent. or less even of such paltry purses as above mentioned. Good Example. To expect first class support on such cheese-paring foundations is plain foolishness. Let us note well the policy of the thoroughbred purveyors and wake up to the fact that the more the stakes are made more hearty will be the support given by breeders and owners and the more quickly will market values be enhanced.

# Fitting "Dad and the Boys" With Superior Quality Suits at All Times of the Year is the Aim of the SIMPSON MEN'S STORE

**Modified, Conservative Suits for "Dad," \$22.00**

If your appropriation is twenty-eight dollars and your taste dictates the dressy, conservative, yet distinctive, style in a suit, you will appreciate this handsome model of green and purple mixed chevrot. It really is a capital businesslike model for the keen, alert business man.

Designed in single-breasted, three-button, form-fitting style, having deep centre-vent.  
Splendid value at \$28.00.

**For the Particular Young Business Man**

Among the better-dressed younger set you'll find this ultra-fashionable model. Its every line and curve suggests refinement and dignity, despite the fact that it is cut with plenty of "swing" and "go." You will like its high-fitting collar, its soft military-styled shoulder and its long modified form-fitting front and back. Developed in three-button single-breasted style.  
Noteworthy value at \$28.00.

**For the Dashing Young Chap Just Out of His "Teens," This Tweed Suit \$28.00**

For that dashing young chap who is just out of his "teens long enough to know what is right and correct and who demands the latest in cut, in cloth and the best in workmanship, we direct your special attention to this "full of vim" suit model of brown and green tweed or check material.

Made with long sweeping front, closely-fitted back, patch pockets, and soft roll lapels and front. It has detachable belt. Can be worn as two or three-button model. Good value at \$28.00.

**For the Hard-to-Fit Very Young Chap, Suit \$28.00**

A type so hard to please and so hard to fit is the very "youngfelo." He generally knows what he wants, but the average designer of young men's clothes does not "know"—so it many times falls to our young men's division to fit him after others have failed.

Here is the very model that pleases both the young fellow and his parents. It is made of soft brown vicuna, in double-breasted style, showing yoke back with twin inverted pleats. Price, \$28.00.
