Plan of League of Nations As Proposed by Germans

Paris, May 13.—The German plan for a league of nations submitted by the German delegation at Versailles and now in the hands of the peace conference committee on the league of nations to which it was referred, contains 66 articles, together with a supplement setting forth the charter for an international league. The special aims of the league of nations as followed by the Germans are set forth as follows: "A—Prevention of international disputes. "B—Disarmament. "C—Securing freedom of traffic and general economic equality of rights.

Returning Soldiers

About 300 men from the troops of the 1st Canadian Division are expected to arrive at the Exhibition Camp this afternoon. The exact hour of arrival of the train had not been ascertained late last night, but can be ascertained this morning by inquiring at the Military Information Bureau, Exhibition Camp.

HOW McCULLOUGH LOST HIS CHANCE

Further information of Frank McCullough's plans to get clear of the police in his escape from the jail have been learned by the police, and in the story the theory that McCullough was of the opinion that he would secure money enough to get away without any trouble is borne out. Little wonder is expressed at the news that McCullough went directly from the jail to the old British Welcome League building, corner of Front street and Spadina avenue, on the night that he escaped.

ONTARIO MAY SELL HER NATIVE WINES

Announcement by Sir Thomas White, When Prohibition Resolution Passes Commons. The allowance by Ontario of the sale of native wines proved to be a bone of contention in connection with consideration of the resolution to extend the orders in council relative to prohibition for another year with certain modifications in recognition of provincial temperance enactments.

Sir Adam Back Says Hydro Must Be Unit Thru Ontario.

By Staff Reporter. Brockville, Ont., May 13.—This town is the centre of the district dependent for hydro-electric supply upon the St. Lawrence system. It is reputed for its beauty and a beautiful, sleepy region, the Mecca of summer tourists, and one end of Brockville's main street is flanked with palaces of stone and one at least of marble, inhabited by wealthy widows whose social ambition is to enhance the strictly residential fame of Brockville. Today Sir Adam Beck struck Brockville and the impact had a visible effect.

INTERNATIONALIZE GERMAN COLONIES

Ships, Cables, Colonies Taken Away and Without Legal Protection She Cannot Accept Conditions—Foreign Trade Destroyed and Home Trade Rendered Impossible.

Berlin, May 13.—Philipp Scheidemann, the chancellor, in his speech before the national assembly here yesterday, said that the occasion was the turning point in the life of the German people, as the assembly was to decide their attitude toward what their adversaries call peace conditions. "Let me speak without tactical considerations," he said. "The thing which is at the basis of our discussion is this thick volume in which 100 sentences begin, 'Germany renounces.' This dreadful and murderous volume by which confession of our own unworthiness, our consent to what we were not sufficient her cables have been taken from her and her wireless stations can send only commercial telegrams, and then only under control of the allies. This would separate us from the outer world, for what business can be done under the control of competitors need not be described.

MUST WAIT FEW DAYS TO ATTEMPT FLIGHT

British Aviators Again Pronounce Weather Conditions to Be Unfavorable. St. John's, Nfld., May 13.—Harry Hawker and Frederick P. Raynham, the British aviators who have been waiting here over a month to make a trans-Atlantic flight, tonight announced that weather indications were such that they probably would not be able to make their start before the end of the week.

POLICE PAY BOARD TO MRS. KINSELLA

Mrs. Kinsella was at detective headquarters yesterday afternoon and was paid \$9.50 by the police. Eight dollars was for McCullough's unpaid dock bill while living in her home at 78 Bathurst street, and the remaining dollar was to pay for the window which McCullough broke in making a break for liberty from the police.

FURNISHED HOUSE SAILS FROM ISLAND

UNIONS WILL CONVENE TO CONSIDER STRIKE

Toronto District Trades Council last night, after long but not very contentious deliberation, decided upon immediate and final preparations for periods of mass demonstration and general cessation of work, these not to exceed three days, in accordance with the desire of the unions to be represented, and the delegates to be present, to be given plenary powers to pledge their local union upon the matter of the proposed cessation of work.

LABOR MEN IN WINNIPEG DECLARE SYMPATHETIC STRIKE FOR THURSDAY

Winnipeg, Man., May 13.—At a meeting of the Trades and Labor Council last night, a sympathetic strike was ordered to take place at eleven o'clock on Thursday evening. This is the result of a strike vote taken in sympathy with the building and metal trades workers, who are still out.

A LIST OF KNIGHTHOODS AT OTTAWA

Ottawa, May 13.—(Special)—There is no doubt someone here is preparing a list of Ottawa's knights, even peacocks, Right Honorable and other decorations in connection with war services. That those preparing it have any authority from Sir Robert Borden is not known, but it is not likely. But they are working on the list and the principle of "fifty-fifty" as between liberals and conservatives is already accepted as the basis of selection. Knights to certain ministers and other members of the commons would let them out of position which do not carry prospects of re-election to the next house. There are judges in the list and some provincial statesmen as well.

SEAPLANES PROBABLY WILL HOP OFF TODAY

Trepassey, Nfld., May 13.—While Commander John H. Towers in command of the United States Navy's transatlantic flight, declined to state whether the bi-planes would "hop off" tomorrow on the leg of their voyage to the Azores, reports today from the guardianship stretched along the ocean course indicate that favorable weather conditions would prevail.

CARS IN WINDSOR RUN THIS MORNING

Strikers Return to Work, Both Sides Making Concessions. Special to The Toronto World. Windsor, May 13.—After a street car strike that has lasted continuously for ten days and has tied up almost completely local transportation facilities on the east as far as Tecumseh, eight miles distant, and on the west Amherstburg, eighteen miles away, as well as all intermediate points, including the city of Windsor, an agreement was arrived at this evening by which both sides make substantial concessions, and tomorrow morning the cars will be running once more.

Four Ships Bringing Troops From England and Siberia

Ottawa, May 13.—Two vessels, the Saturnia and the Scandinavia, both carrying Canadian troops, are now on their way across the Atlantic. The former, with a total of 1799 troops on board, will probably dock at Montreal on May 24. It has forty soldiers for Toronto.

GOVERNOR-GENERAL AWARDS MEDALS

Ceremony at Parliament Buildings Was Historic Spectacle.

CANADIAN VALOR

Did Much to Win Ultimate Victory, Says Duke.

His Excellency the Duke of Devonshire, who is in the city to attend the quarterly meeting of the Red Cross Society, will return to Ottawa tonight. The governor-general's party includes Lady Rachel and Lady Ann Cavendish, Viscount Molyneux and Mr. Forrescue.

The visit included but two fixtures, the Red Cross meeting at the King Edward Hotel and the conferring of decorations at Queen's Park.

The various decorations were conferred on the platform in front of the parliament buildings at 5 o'clock yesterday afternoon. The scene was picturesque, with the bright sunshine and display of flags. About two hundred spectators were present.

The names and cause for decoration were read by Hon. Lieut.-Col. Alex. Fraser.

In addressing the recipients the Duke of Devonshire said that their valor had contributed not only to the allies gaining a victory, but in procuring the greatest victory in the history of the world.

Those Decorated. The names of the recipients and the character of their decorations are as follows:

Pte. J. McDowell (deceased) to his next-of-kin, John McDowell, of 383 Roxton road, the Belgian Croix de Guerre.

Pte. N. J. Ryan, 8 Redwood avenue, Belgian Croix de Guerre.

Lance-Cpl. A. Capenburst, 18 Park road, D. C. M.

Pte. A. B. Hearn, Dundas, Ont., D. C. M.

Sergt. J. W. Nutter, Brant Military Hospital, D. C. M.

Company Sergt.-Major H. H. Dunn, 439 Wellington street west, D. C. M.

Sergt. W. Danby, 247 Borden street, D. C. M.

Sergt. W. Mortimer, 3283 Dundas street, D. C. M.

Corp. T. W. Madrow, 105 Fern avenue, Military Medal.

Corp. S. G. Buckle, Simcoe, Ont., Military Medal.

Pte. M. Merryday, Glen Williams, Ont., Meritorious Service Medal.

Sergt. R. J. Clapton, 175 Sunnyside street, Meritorious Medal.

and Lieutenant Douglas Urehart, Royal Flying Corps, S. R. Military Cross. For conspicuous gallantry and devotion to duty in leading patrols against hostile formations. He attacked and drove down enemy aircraft on several occasions, in spite of their being in superior numbers.

Eastman's Widow. Mrs. Matheson, of Todmorden, widow of the late acting boatswain H. C. Matheson, received the Albert Medal. This decoration was awarded for her heroism in Halifax harbor at the time of the explosion on Dec. 6, 1917.

The following officers were present in uniform: Col. J. S. McLaren, Lt.-Col. C. Bent, C.M.G., D.S.O., Lt.-Col. 15th Bn., C.E.F., Lt.-Col. W. P. Butler, Lt.-Col. P. H. Cadville, M.C., Lt.-Col. M. Tenbroek, M.C., Major B. B. Campbell, Major P. Blackey, Major J. Grubbe and Capt. C. Osborne.

Lt.-Col. Bent of the 15th battalion and 48th Highlanders was introduced to the Duke of Devonshire by Sir John Hendrie and was heartily congratulated upon the record of his command.

The Duke of Devonshire and party are guests at Government House.

ALL BANKS GIVE AID TO RETURNED SOLDIERS

The bankers of Canada, not one, but all of them, are helping the returned Canadian soldier in every possible way to save his money for a rainy day. They are giving him free of any charge, privileges and facilities for which the business man has to pay. For instance, if a soldier with a cheque (and they are all drawn on the Bank of Montreal), pays a visit to any bank in Toronto, with say a cheque for fifty dollars, and he wants half of it in cash and the remainder sent to some western or eastern city, the bank will, providing they have an agency in that particular town, transfer the other half to his account in that locality, free of charge. This action on the part of the banks is much appreciated by the men discharged in Toronto, but who reside in some far distant town. It not only saves them carrying the money about with them, but it assures them of something in the bank on arrival home. This system, it may be mentioned, is not confined alone to Toronto, but is in existence at any bank throughout the whole country.

A report was in circulation that only one bank was offering such inducements to the returned men, but on enquiring yesterday by The World at the Bank of Montreal, the Bank of Toronto, the Canadian Bank of Commerce, the Dominion Bank, the Royal Bank, and other banks having head offices in other places than Toronto, it was found the system was in general use.

ALLEGED HORSE THIEF.

Robert Tremble was arrested at Streetsville yesterday afternoon for the Toronto police. Detective Croome brought the prisoner back to the city last night and he will be charged in the police court this morning with the theft of a horse from Joseph Martin, 4 Nassau street, on May 12. The horse was also located at Streetsville and will be brought back.

President Findley, Massey-Harris, Addresses Men in Brantford

Brantford, Ont., May 13.—President Findley, of the Massey-Harris Co., paid a visit to the Brantford plant here today and assembled the entire working force of over 1,000 men when he addressed them on the present situation. The address was conciliatory and pointed out the difficulties before the firm in meeting demands which placed the company at a disadvantage to competitors.

Will The Toronto Public Demand the Introduction of Sunday Labor?

The threat of certain city officials to put through legislation compelling all Bakers to wrap each loaf in a sealed paper covering and every driver to wear clean, white gloves, sounds like a fairy story or a beautiful dream, but if it becomes a real fact, it has a most important bearing upon the life and interests of every citizen of this city. Please understand I am in favor of any and all reforms, moral, political or sanitary, that are for the genuine benefit of the public. I am in favor of sanitary bread regulations. Some of the worst competition in the bread business comes from bakeries that save the cost of sanitary premises and equipment which other bakeries have spent thousands of dollars to secure. I have invested many thousands of dollars to enable my customers to have bread that was clean and wholesome and sanitary by surrounding the process of baking with every precaution against dust, dirt, foul air and contamination. The bread that comes from the Lawrence bakery, and any other first-class bakery, is as clean when it is left at the house as it will be a half hour afterward when the cook and other members of the family have handled it. Gloves are a safeguard of the most fanciful and impractical kind, for they would be more successful in retaining anything of an objectionable nature than bare hands would be. I am in favor of reform or improvement, yes, indeed, but let such improvements come only in accordance with possibilities as understood by those who know the baking business. What does this threatened legislation mean? It means Sunday labor, Saturday afternoon labor, short-hour jobs and extra-long-hour jobs, and anybody who knows the labor situation today would laugh to scorn such a proposition.

Journeymen Bakers don't want to work Sundays. Will the City Council legislate to make it compulsory? Journeymen Bakers don't want to work Saturday afternoon on hot summer days. Bet your life they won't, and our good, old kind-hearted city fathers who weep at the thought of bread brought to the poor man's door without a nice paper wrapper around each loaf can't compel these bakers to work when they don't want to, either.

—Is Wrapped Bread Asked for by the General Public or by a Few Agitators and Reformers?

Who wants this "wrapped bread" anyway? Ask your neighbor. Perhaps a few ladies or dwellers in the mansions "On the Hill" would like to have a "white-gloved" gentleman daintily lift a prettily wrapped and labelled loaf of bread into the hand of the becaped and aproned smiling maid, but what of the 475,000 inhabitants of this city who don't live in wealthier homes, but who are the real bread consumers of this city? Do they object to wrapped bread? Probably not, but will they want to pay 4 cents a loaf extra to have the paper covering? Guess any reader would know the answer and, if it were put to a vote, there would be no question about what the public wants—or doesn't want.

—Who Wants to Pay 4c a Large Loaf —EXTRA to Have Their Bread Delivered Wrapped in Paper?

The question of price is worth considering. With editorials as long as your arm abusing bakers for raising the price of bread to keep them from bankruptcy, where are the champions of low prices today, in the face of threatened legislation that will cost the public so dear, if it goes through? Come on, you editors, speak up for "the people" whose interests are so close to your heart. Don't let this unfair and despotic legislation go through. The people do NOT want their bread wrapped at a cost of 4c per large loaf extra and they have some rights to consider as well as people who work in laboratories and "see things," occasionally, that scare them.

- Where Will Bakeries Get Labor for Short Hour Jobs?
- Where Will Bakeries Get Labor for 12-Hour and 14-Hour Jobs?
- Will Journeymen Bakers Work Sundays or Saturday Afternoons?
- Will Drivers Work on Extra Shifts?

This is a business proposition, too, and must be considered from that point of view. It is a labor proposition, and that is still another viewpoint. In the first place, it costs many thousands of dollars to put in bread-wrapping machinery and to import bread-wrapping paper. We do not want our money going to the "States" with exchange already against Canada, around the rate of 2 1/2 per cent. on the dollar. This big expense must be paid for by the bread user. The wrapping of bread can only be done after it cools, and it takes four or five hours to cool. The better the bread, the longer the cooling takes. Shall the public be forced to eat the kind of bread that cools quickly? God forbid! Let us legislate to prevent the making of such bread instead of encouraging it.

To wrap bread would mean that one shift of men would have to go on at seven at night and work till nine the next day. Fourteen Hours!! Will men do it? The drivers could not get out to deliver before nine o'clock and would be delivering till eight o'clock in the evening to cover the same ground. Will

men do it? If it were necessary to double the number of wagons and drivers to cover the ground in shorter time, it would mean a still higher cost per loaf.

But men will not work 14 hours a day. That means another shift would have to come on four hours after the bread is out of the oven to start wrapping, and would probably take three or four hours to wrap the bread. Where are the men who will take a three or four-hour a day job, at a reasonable wage? There are none such. Drivers will not come at five in the morning to wrap bread so they can start delivery at seven or eight o'clock, and then drive the wagons; they wouldn't do it.

—Who Wants to Be Limited to Two or Three Kinds of Bread?

Another feature is, that wrapping machines will only wrap one shape of loaf. People get tired of one kind of bread and want a variety. Wrapping will confine the varieties to the very few kinds that are baked in square pans.

—All Over the World "Home Bread Ovens" —Are Discarded in Favor of Professional Bakeries

If the price of bread becomes too high the public will bake their own bread and ruin the bakeries. It is flying in the face of history to bring about such a situation. All over the world it is recognized that the institutional bakeries are best and domestic baking is discarded. A much higher price for bread will make it an expensive luxury rather than a universal necessity.

- To Force the Wrapping of Bread Upon Bakers Will Tax the Bread Buyers of This City \$1,460,000.00 Annually—for What? To Please Whom?—Think it Over!!

If the City Council were to suggest taxing households \$1,460,000.00 per annum extra for a visionary reform like "white gloves and bread wrapped in paper," there would be some new faces in the City Council after the next election. That means nearly three dollars per family, per year, extra cost for having the bread wrapped. There are thousands and thousands of families who cannot afford it and should not have the expense forced upon them.

—Is the Gain Worth the Loss?

Is it worth while? You have been eating baker's bread during your whole life and never found anything very objectionable in the bakers' bread you used. Think of the extra cost of wrapping bread. Think of the labor problems it introduces. Think of the advantage you will gain, if any, compared with the loss and wasted expense all round. Is it worth it? In my opinion, the wrapping of bread has not yet reached a stage of perfection where its success or its cost warrants its introduction, and I emphatically object to any action being taken with a view to make wrapping of bread compulsory in this city.

ISLAND SHORE IS WASHING AWAY

Civic Officials to Report on Plans to Prevent Damage From Waves.

The urgency of doing something effective to protect the island shore was emphatically voiced at a meeting of the parks committee of the city council yesterday. Ald. Russell Nesbitt and Commissioners Forman and Chambers in particular alluded to the seriousness of the situation. It was declared that sidewalks had been washed away, trees damaged, telegraph poles were out in the lake and other destruction wrought. Members of the committee were set on the demand that the time had long arrived for action. There had been talk for three or four years and nothing had been done. With the damage being wrought it was false economy to withhold expenditure now to rectify matters.

The committee, together with Parks Commissioner Chambers and Mr. Powell of the works department, will proceed to the island on Friday with the view of reporting on a plan. Then it is likely the committee will go to the lake of control.

With regard to the establishment of a civic rose garden, Mr. Chambers reported that the character of surface and subsoil in the present unused portion of Withrow Park was unsuitable for the cultivation of roses. The matter was put back for two weeks for the commissioner to report further.

In reply to Ald. Ryding with reference to the Exhibition grand stand, Commissioner Chambers said the work was proceeding actively at the present time. "We all realize the job has to be finished by Exhibition time."

Regarding the proposed purchase of property in the east, north and north-west sections of the city for athletic grounds, the assessment, and parks commissioners will report on figures at which the grounds can be secured. It was agreed to grant an application of the Ontario Horticultural Society for the use of the horticultural building for the fall show.

YOUNG LAD CHARGED WITH MANSLAUGHTER

George Barber, a young lad, appeared before Chief Justice Sir William Mulock in the assizes yesterday on a charge of manslaughter, arising out of the death of Kathryn MacIntosh, on March 23, at G. T. R. railway crossing in Scarborough township. The arraignment was read to the jury yesterday by T. J. Agar, counsel for the crown, which claimed that the car with seven people aboard was speeding at the time it struck the train, and further that young Barber in company with some of the other men in the car had been drinking. I. F. Hellmuth, K.C., representing the accused. The case will be resumed today.

LIFE-SAVING STATIONS UNDER CONSIDERATION

The harbor commissioner on Thursday will consider a proposal that the department of marine and fisheries should provide the city with a boat and plant for life-saving, and that the harbor commissioner supply the site for the building and the crew. This proposition was yesterday submitted to Mayor Church by Commander John B. Radcliffe, R.N.R., representing the department.

Mayor Church expressed himself in favor of a station at the beaches, one in Toronto Bay, and another at Hummer Bay.

Building Permits Totaled Sixty Thousand Dollars

Building permits issued at the city hall yesterday totaled \$60,000. The applications included: T. and D. Hixon, for a three-story brick stable on Elm avenue, near Broadview avenue, costing \$25,000; W. G. Scoon, for a three-story brick factory on the west side of Sumach street, near Queen street, \$11,000.

TROOPS ALL BACK BY END OF JULY

Is Statement of Sir Edward Kemp, Who Upholds Administration.

That the troops from Canada will be all home by the end of July, are the glad tidings brought by Sir Edward Kemp, overseas minister of militia, who is here on a short ten-day holiday, after his arduous task of setting in operation the machinery for the demobilization of the Canadian soldiers.

Sir Edward has tabled in the house of commons a lengthy report on the affairs of the militia administration overseas, which are said to effectually dispel any aspersions that have been cast on the department. Regarding the progress in demobilization proceedings, the minister paid a high tribute to the administrative staff. He stated that the system was running smoothly, and that the present rate of the return of troops was a record to be proud of.

WHY NOT VISIT ALGONQUIN PARK?

In the heart of the beautiful Algonquin Park—that unspoiled region of two million acres, started with hundreds of lakes—the Grand Trunk Railway System owns and operates one of the most attractive of summer hotels, the "Highland Inn." Here throughout the vacation season, one hundred and fifty happy people gather to enjoy the delights of fishing, canoeing and swimming, with long "hikes" through the fragrant bush where the Canadian fauna may be studied under the most favorable conditions. The Park is never "crowded." You may launch out from the hotel and within half an hour be within a kingdom of your own. The pine-scented breezes which sweep over the park are a tonic for tired men and women. The park is easily accessible from all the principal centres of eastern Canada. It is about two hundred miles north of Toronto and 170 miles west of Ottawa. The Illustrated booklet descriptive of the park, and containing information relative to the hotel, rates, etc., may be had for the asking on application to Grand Trunk agent or C. E. Horning, D.P.A., Toronto, Ont.

BENCH PAYS TRIBUTE TO JUDGE WINCHESTER

In his charge to the grand jury at the opening of the sessions yesterday, Judge Coatsworth spoke of the serious loss suffered by the bench of the province thru the death of Judge Winchester, who died a few days ago. His career was declared by Judge Coatsworth to have been one of length and exceeding usefulness.

After reviewing the list of criminal cases his honor spoke to the jury and emphasized the necessity of every citizen doing everything they can in the interests of the country. The grand jurors are: James Brothers, Aurora, foreman; John Green, Scarborough; Wm. Hammall, Toronto; Thomas Ingram, Toronto; Thomas H. Irwin, Toronto; B. G. Kerr, Scarborough; Harold A. Kidd, Toronto; Fred C. Leyland, Toronto; Nelson Smellie, Markham; John H. Gibson, Toronto; Albert E. Cross, Toronto; W. H. Chinn, Toronto; J. W. Jackson, Toronto.

WILLS AND BEQUESTS.

The Toronto General Trusts Corporation yesterday applied for probate of the will of Miss Elizabeth K. Sibbald, who died at Sutton on April 21, leaving an estate valued at \$27,817. The estate will be divided up among a number of relatives and charities. Thomas Henry Phillips, a carpenter, who died intestate in Toronto on Nov. 18, left an estate valued at \$2785, which will be divided between his widow, Mrs. Mima Phillips, and five children.

VERA DE LAVELLE AGAIN REMANDED

Owing to Counsel's Absence, Two Days' Adjourment Granted.

The crowd in No. 1 court room in the City Hall where the sessions are being heard, received a disappointment yesterday when Vera De Lavelle, the young girl accused of aiding and abetting Frank McCullough, the murderer, to escape from the Toronto jail, appeared before Judge Coatsworth for sentence.

R. H. Greer, crown attorney, informed his honor that as the girl's counsel, W. B. Horkins, was busy in another court, a further adjourment for two days was being asked. His honor remanded Miss Lavelle till May 15 without bail.

Accused was dressed in the same clothes that she has worn on her previous appearance in court, and she betrayed little or no interest in the buzz and close attention which followed her. Barring a slight nod and smile to one of the detectives in the court room, prisoner maintained a calm exterior, and when told by his honor that she had been remanded for two days, thanked him and left the court.

THANKS CANADIANS FOR AID EXTENDED TO FRANCE

On invitation of the Secours National Mons. Balbaud addressed a gathering of the organization and friends at the Jenkins Galleries yesterday afternoon. The speaker is engaged in the interests of the mission of foreign affairs and his special work yesterday was to thank the "secours" and Canadians generally for the generous assistance they had given France during the war.

Mons. Balbaud described in glowing words the love of the French for their country. He told of how he had seen soldiers take a handful of the earth and smell it. "And I suppose they kissed it" was his comment. "For the love of this land these men had sacrificed their lives. They are the Germans shall not pass, and they did not pass, said the speaker. These men will build up their country with the same love they fought for it. Speaking of the Germans Mons. Balbaud said there were no women to be seen in mourning. They danced and enjoyed themselves all thru the war. They did not pretend to be sorry and said they would start the war again in ten years. Of course this was only bluff, said the lecturer, still their claws must be cut. They are Germans, the German man want war and they will begin again when they are strong enough.

While thanking his hearers most cordially for the past Mons. Balbaud said the new audience would assist where they could in the work of repatriation for France. Madame Rochereau and Mrs. Wm. Beardmore were the hostesses of the afternoon.

WILLIAMS' STAFF HAVE ENJOYABLE EVENING

The lady members of the R. S. Williams Co.'s staff were the guests of the sociale employees of the establishment at a euchre, entertainment and dance, held at the Lakeview Golf Club Monday evening. The party moved out to the club in special cars and enjoyed dinner at the club. After dinner progressive euchre and dancing were the order of the evening, with a break in between to enjoy a program of songs and recitations given by the members of the staff.

Those taking part in the program were Miss Muriel Kenny, a little 17-year-old tot, who captivated her audience with her sweet voice and charming manner. Miss Alice Grocott recited "The Kaiser's Dream" in her usual excellent manner; Mr. Wm. Greig, Stanley Goddard and Master W. Hollings rendered solos and on the whole the program was of an unusually high order.

The R. S. Williams Co. are to be congratulated on the sociable and friendly spirit fostered among the members of their staff. Too few of our large firms and institutions appreciate the great value of these social gatherings.

BAPTIST CONVENTION SELECTS OTTAWA

To Make Hairs Vanish From Face, Neck or Arms

Keep a little powdered delatone handy and when hairy growth appears make a paste with some of the powder and a little water, then spread over hairy surface. After 2 or 3 minutes rub off, wash the skin and it will be entirely free from hair or blemish. This simple treatment is unfailing, but care should be exercised to be sure and get genuine delatone, otherwise you may be disappointed.

DAIRY INTERESTS SCORE OVER OLEO

Government Will Not Lift Peace Ban on Butter Substitute.

The dairy interests, which have been continuously fighting the sale of oleomargarine, have evidently scored a victory at Ottawa. Local firms, dealing in oleomargarine, learn from Ottawa that the government will not lift the peace ban on the butter substitute, which at present is being manufactured under a war measure order-in-council.

The Swift Canadian Company have three factories manufacturing oleomargarine and have turned out for Canadian consumption during the past twelve months over a million pounds. The Harris people, in their plant, have installed special machinery and also invested heavily for the manufacture of the butter substitute.

Motor car experts who examined the car stated that in their opinion Warren had been traveling at a speed of twenty-five miles per hour, altho to the police accused stated he had been traveling at a rate of 14 miles.

MANSLAUGHTER VERDICT AGAINST TAXI DRIVER

John Warren Recommended to Mercy For Killing of Rose Wilcox.

John Warren, who appeared before Chief Justice Sir William Mulock in the assizes yesterday, was found guilty of manslaughter with a strong recommendation to mercy. The charge arose out of the death of Miss Rose Wilcox who was struck by a taxicab driven by defendant on Feb. 27 on Bloor street. The jury intimated that Warren, who has been in custody for approximately three months, had already been sufficiently punished and his lordship informed them that he would take their views into consideration when he passes sentence next week.

According to the evidence prisoner had taken some whiskey before the accident, and further the foot brakes of the car were not in good running order. At the place of collision there had been a skid mark on the pavement measuring 33 feet in length.

Defendant in the box claimed that the young lady had come from behind the car, on the side where the curtains were down, and he had not seen her till the moment of impact.

Motor car experts who examined the car stated that in their opinion Warren had been traveling at a speed of twenty-five miles per hour, altho to the police accused stated he had been traveling at a rate of 14 miles.

Congested Population.

Congestion in New York is as bad as anywhere. Rents are proportionately high, and residence in Manhattan is a privilege that can only be maintained by the well-to-do. The remedy is dispersal of the population, advocated by all the authorities. Any town across the river can supply cheaper quarters, even with the commutation rate added, than can be had in New York proper.

But New York is well equipped for such suburban traffic. Ferries, underground, and surface railways, and other devices for getting swift motion for passengers, who desire it, are everywhere available. In Toronto it's different.

Not only have we no suburban steam services, but the electric cars do not serve the people outside the city. There are swarms of people who would live outside Toronto in the suburban villages and towns for twenty miles around if there were such railway service as Montreal has, and as many other cities of the rank of Toronto have.

Might's Directory gives the population of Toronto as 547,000. Most of the city hall authorities assume that Toronto is considerably under 500,000 yet, but the pressure on house accommodation indicates a larger number of people than is usually figured on.

The organization of the housing commission at the present time will provide an active factor in the relief of the situation, and the amount of business acumen engaged in its preparation and now associated with its management assures its success.

London Looking Ahead.

Old London has embarked on a gigantic road improvement scheme, with the object of giving better facilities for communication from point to point without going directly thru the centre of the city. There are two series of more or less circular roads. The outer circular road is a magnificent circle of from twelve to fourteen miles from the centre, a stretch of over a hundred miles of thoroughfare. It runs from Hampton Court to Stanmore, away north of Edmonton and, sweeping away east miles beyond Barking and Woolwich, drops south by Bromley and west south of Croydon to Hampton Court again.

The inner north circle road touches Edmonton and Leyton, and the south inner road runs from Clapham Common in a curve to Woolwich. Great radial roads of course strike across these circumferential roads in every direction.

The constantly increasing bulk of motor traffic is restoring the road to its former importance, and London is preparing now for the next generation. Any city that fails to consider and provide for its inevitable suburban and rural expansion under the influence of motor traffic, will have a cost bill to meet for the repair of the oversight later on.

When Free From Alien Influence.

A number of small "nations" and dependencies have been stirred up by the idea of self-determination to make a bid for independence and to set up in business on their own account. There is a good deal to be said for their aspirations, but in most cases there is a good deal to be said on the other side. The day of small nations, like that of small businesses, is not as easy as it once was. Economic conditions oppress the small nation that is not self-contained and self-supporting, as very few are. A nation like Ireland, largely agricultural, lives almost wholly on England, the agricultural exports during the war being almost incredibly large. An independent Ireland protected by a tariff would find a more difficult market in England, and if competition in manufactures were added it would not improve matters.

Egypt is making a plea for independence and presents another problem. Korea, the Philippines and a few other dependencies are also asserting their parallel condition. In the case of Egypt, and also to some extent in India, if the population could be relied upon to maintain the open door policy which Britain has established there might be no difficulty. But up till the present everyone is aware that most of the disturbance in these countries is the result of the agitation carried on by German emissaries. At one time in India it was Russian agitators. At one time in Egypt it was French propagandists. Any of these semi-civilized nations if left entirely to their own devices would almost immediately become the prey of some foreign adventurers seeking their own or their nation's advantage. No sensible government wants to face the prospect of having to pacify and occupy Egypt, or India or the Philippines

again after having done it once. In all these places the growth of order and government is proceeding, and there is not the slightest doubt that when conditions justify it all these nations will be placed on the same basis as others with mature experience. A little patience is almost all that is needed on the part of these several states. When they can stand alone and refuse to be the tools of self-seeking alien powers they will be established in all their rights.

A Hoary Fallacy.

London, England, Daily News: When will the hoary fallacy that state control is bad cease to be a comparative small bookkeeping loss is shown on telegraphs die and be decently buried? It is rather surprising to find it used by such an able economist as Mr. Harold Cox in an argument yesterday against nationalization of coal mines. Surely the only proper way to look at this matter is to take the postal service as a whole. In 1917-18 the post office contributed £5,848,285 to the exchequer and the telephone £355,468. Even distinguished economists might perhaps sometimes recognize the principle of the swings and the roundabouts.

OTHER PEOPLE'S OPINIONS

The World will gladly print under this heading letters written by its readers, dealing with current topics. As space is limited they must not be longer than 200 words and written on one side of the paper only.

LABOR'S LOST LABOR

Editor World: John Chinaman's ax is a wonder indeed. Lately he swung it around and out of his pistol. Again John raised it with the fury of a Carrie Nation and his opium trade flew in all directions, finishing up with a \$24,000,000 bonfire of the wreckage. Since more John's eye flashes and his glorious ax has written in letters and simple signs take their place; and the last word from the Bible Society is now learning to read and write in less than a week. John Bull's labor people are still taking a year for the same job. Now labor can't afford to lose a year of each of his children's school time, in loss of trade from the same cause—a nonsensical way of spelling, such as "a" in "may" or "eight." So let labor with her voice of thunder demand that John Bull send quickly for John C's ax and scrap this folly and cease to be a laughing stock of the nations, because of his "incredibly antiquated spellings," as the Germans say. Citizen.

A CANADIAN GOVERNOR-GENERAL

Editor World: The great war has been remarkable for many things, but signally and above all else it has been remarkable for the wisdom, the foresight and the soldier-like ability with which Canada's troops were commanded. It is also remarkable for the discipline, the steadiness, the bravery and the untarnished good conduct of the men who comprised our army. I feel sure, therefore, that I am expressing the feelings of everyone who reads your valuable paper when I say that long years have passed away since we can remember a period when the army of the British Empire was more entitled than it is now to the respect, the gratitude and the good feeling of its fellow-countrymen.

And do not let us forget the great debt of gratitude that we owe to the British navy, and the men of the merchant marine service, for without the combined services of those men and heroes of the silent deep, our light would have been vain.

Therefore, sir, seeing that Canada's sons can be trusted to do their duty to the empire in a time of great national danger, does not this elicit the fact that one of the many sons of Canada could be chosen to fill the position with credit, that is now being held by a peer, chosen from the aristocracy of England? Are such proceedings as this a part of the democracy that is now so much boasted of, or is it, on the face of it, democratic for us to be lorded over by official dukedom? The sons of Canada have proved their value, and would do so again if needed. Then give unto the worthy that is his due.

Trusting that someone more able to handle this all-important matter, and who will be better able to illustrate the cause of Canada's justice, will get busy and speak out like man and a Canadian. This cannot be called a tendency to Bolshevism, as it is only asking for fair play, and for the distribution of honors where honors are justly due.

A SUDDEN ATTACHMENT

THE DAY AT OTTAWA

By TOM KING

Ottawa, May 13.—The "wets" and the "dries" had their first clash in the house this afternoon, over the prohibition measure of the government. While the preliminary resolution was favorably reported from the committee of the whole, there was likely to be an acrimonious debate on the second reading of the bill. The Liberals, including the members from Quebec, sat tight this afternoon and let the Unionist forces do all the talking.

Contrary to expectation, Hon. Mr. Rowell took no part in the discussion. The proposed legislation was presented to the house and explained by Sir Thomas White, who appeared to be laboring heavily, and brought to his task no great enthusiasm. This was so evident that when concluded, Sir Sam Hughes observed, "I am not a drinking man myself, but I think the Liberal premier would have made a better speech if he had taken a couple of drinks. He had better turn this bill to that bright and shining light of temperance, the president of the privy council."

Sir Thomas said the legislation was intended to implement the order-in-council passed under the war measures act. The design was not to override, but rather protect provincial rights. Quebec had recently declared herself in favor of light wine and beer, and therefore the manufacture of wine and beer up to the strength prescribed by provincial legislation would be lawful in that province, Ontario permitted the manufacture and sale of native wine, and therefore such manufacture and sale would not be interfered with.

Mr. Frapp, Unionist member for Ottawa, asked if Ontario brewers would be allowed to manufacture and ship five per cent. beer into Quebec. Sir Thomas replied in the negative. He intimated, however, that the government's bill would be so amended as to permit the importation of native wine from Ontario.

Mr. Frapp may have been speaking for the Ottawa brewers, who are looking for a market in Quebec, and Major Hume Cronyn of London may

have remembered that some breweries exist in his own home town. He could see no sense in the discrimination between wine and beer. Why should not a brewery in Ontario ship 5 per cent. beer into Quebec? Why should the people of Ontario be restricted to 2-1/2 per cent. beer and at the same time be allowed to drink native wine containing 15 or 20 per cent. of alcohol? There was no limit upon the strength of native wine that might be manufactured, sold and consumed in Ontario under the Ontario temperance act, or under the proposed federal legislation.

Hon. W. S. Fielding, in short, an Ontario man can get as drunk as he pleases, provided he gets drunk on Ontario wine.

Mr. Stewart, Unionist member for Lanark, said the proposed legislation was illogical. It professed to guard provincial rights, but the legislature of Ontario had never forbidden the importation of liquor into that province. The Deberry act permitted any province to prohibit such importation, but Ontario had never enacted bona fide prohibition. Mr. Stewart also pointed out that the Dominion order-in-council forbidding interprovincial traffic had been passed January, 1918, but did not become effective until April 1. This gave an opportunity for people who had money to lay up huge stocks of liquor. The rich men could drink all they pleased, but the poor people and returned soldiers were denied the right to become total abstainers. He said he was not opposing the legislation, but he believed it did not go far enough. If we were to apply to every class in the community, let the government search the cellars of rich men in Toronto and confiscate their booze.

Sir Thomas thought this would be impracticable. He doubted if there any large stocks of liquor in the cellars of Toronto. His own cupboard in Quebec, he knew, was as bare as Mother Hubbard's, and this was true of practically every home in Toronto.

Major Andrews, Unionist member for Centre Winnipeg, said he had been bombarded with petitions from the W. C. T. U. and he had no doubt that

there was a big temperance vote in the country which he expected the government naturally wanted to catch. He had many temperance people in his constituency, but he declared himself to be unalterably opposed to prohibition. He did not believe that moderate consumption of liquor was deleterious. It had no appreciable effect except to act as a sedative and never had this "tormented world" so needed a sedative as now.

The Major said he was a father and a grandfather, and was old enough to know what agreed with him, and what did not. If he drank coffee for a week he was sick, if he took a little whiskey and water with his dinner, he felt first-rate. He thought it smacked of kaiserism for any government to tell a man what he should eat and what he should drink. Rum, he believed, had saved thousands of lives in the trenches. There was no question of morality involved, because the one total abstainer in the world was the unspesable Turk. The debate was closed by Doctor Blake, Unionist member for North Winnipeg, who said he saw no reason why Ontario wine should not be exported to Quebec.

THE PROMOTER'S WIFE

Barbara Angers Neil by Calling Him at Blanche Orton's

CHAPTER LXXXIV.
 The clock had struck the half hour before I left the house. I did not care to wait in the station at that hour. Someone might see me and wonder why Neil was not with me. I hated to have anyone pity me because of his shortcomings.

Twelve o'clock came, and the train had not come in. I had waited some distance back of the crowd, hoping by doing so to be unobserved. Then I heard a murmur of horror and I pressed forward to the crowd.

"An accident!" I heard a man say. "The train ran into a freight."

"What is it, please?" I asked the man who had spoken. "I have a relative coming on the train. Is anything serious the matter?"

"They don't know yet, miss, but if you wait here I will find out." The kindly man moved away, and I again stood a little apart from the crowd.

"It is quite bad, miss," his voice started me. I had not expected him back so soon. "Some of the people are badly hurt."

"Do you know if they are bringing them here?"

"Yes—it is the nearest place where they can get attention—the right kind of attention."

"How long before they can be expected?" I asked, my heart contracting as I thought that perhaps gentle, kind Mrs. Carter whom I had always known, might be among the injured or killed.

"No one knows, ma'am, if there is anything I can do for you—I am afraid my sister is on that train, altho I am not sure. I shall wait and see, however, so don't be afraid to ask me anything."

"I didn't know what to do. If only I knew where Neil was, it was terrible."

noon might have thought that prohibition had a stormy sea to navigate. Those who spoke at all were against it, but they were few in number. They were applauded by many of their colleagues, who will vote of their own volition when the roll is called, and the bill, quite apart from the merits of prohibition, is fairly drafted in so much as the principle of provincial autonomy is recognized through-out.

Quebec is free to import wine and to manufacture beer. Wines may be brought into Quebec from France if they do not exceed the strength prescribed by the provincial legislation, a concession more sentimental than valuable, because wine of the Quebec standard would turn to vinegar before it could be gotten across the ocean. Quebec is also free to manufacture her own beer and it is just possible that she may be allowed to import beer from Ontario. The bill by its terms will cease to be operative one year after the proclamation of peace, and there was nothing said in the debate today about a plebiscite.

"This is Mrs. Orton. What is it?" Suddenly it came to me that I would let her know who I was. I had not intended to say who I was talking unless Neil came to the telephone. But I would show her that I knew of his visits.

"Is Mr. Forbes there? I should like to speak with him. The train upon which his aunt was to arrive has met with an accident. I wanted an appreciable time before she answered."

"No. Mr. Forbes is not here. There was something in her voice, the hesitating manner in which she spoke, which made me ask:

"How long ago did he leave?"

"About thirty minutes."

"Thank you, he is probably on his way to the station by this time." I hung up the receiver trembling. I had received the information I wanted. But I returned to my place with the rest of the watchers just as Neil dashed up.

"I just got home. Bah, hurried right up here. Have they heard anything?"

"No—I knew you only just got home. Blanche Orton told me you had left only half an hour ago."

"The devil she did—what business had you calling her? I won't have you meddling with me, and my business and the sooner you understand it the better." He stalked over to one of the officials, leaving me standing alone. He was my man who so kindly had helped me eyeing me with obvious pity. He had heard what Neil had said.

Tomorrow—An Accident. Delays the Train on Which Mrs. Carter Arrives.

to wait here indefinitely alone. I thought of Mr. Frederick, if only he were with me. I went into the booth and called his hotel.

"No. Mr. Frederick doesn't answer." I left no message, and returned to my place of waiting.

"Is there any further news?" I asked the man who so kindly had offered to do what he could for me.

"I miss it, I am afraid it will be a long wait. You see they had to send a wrecking train first. You better go inside and sit down. I will come and call you if there is any news."

I thanked him, but remained where I was. I felt that would be impossible and also intolerable. It was now 1 o'clock. I had left no word for Neil, supping I should be back directly, I called the house. It was some time before Ada answered. She had been asleep, she explained.

"No. Mr. Forbes has not come in."

"If he does tell him to come at once to the station. The train upon which his aunt was to come has met with an accident. She may be injured. And, Ada, you better sit up. We may need you."

I waited until 2 o'clock. If you know what it means to wait in a railroad station until two o'clock in the morning, wait for someone who may have been injured—perhaps killed, you will realize something of my distress. I really could remain inactive no longer. I called Blanche Orton's house.

"May I speak to Mrs. Orton?" I asked.

"This is Mrs. Orton. What is it?" Suddenly it came to me that I would let her know who I was. I had not intended to say who I was talking unless Neil came to the telephone. But I would show her that I knew of his visits.

Capt. C. W. Warman, D.S.O., Canadian Airman, Dies Overseas

Reuter Cable. London, May 13.—Captain Clive Wilson Warman, D.S.O., Canadian Air Force, died last night from injuries received in an airplane accident at Edmonton.

"I Wonder If It Would Help Me"

"NEARLY every place I go I hear someone talking about Dr. Chase's Nerve Food. My friends advise me to try it, and yet I never have.

"I wonder why.

"Perhaps it is because I have suffered so much from nervous trouble and found so little benefit from the use of medicine.

"But they tell me that the Nerve Food is different. They say that it is not a mere relief from pain, but a restorative treatment, which will build up the depleted nerve cells and make me well and strong again.

"Goodness knows I have suffered enough from headaches, sleeplessness, hysteria and dread of the future. I want to get away from all this.

"Why cannot I enjoy life like other people do? Perhaps I have not tried to get well. Perhaps I have been discouraged, and thought there was no use trying.

"Well, I am going to begin trying right now, and Dr. Chase's Nerve Food will have a thorough test in my case.

"The future has been all black to me. I have thought at times that I would lose my mind. But while I have been suffering and worrying others have been cured, and I can now see my mistake.

"If Dr. Chase ever had a faithful patient I shall be one, and believe that his Nerve Food will do for me what it has done for so many thousands of others."

Dr. Chase's Nerve Food, 50c a box, 6 for \$2.75, all dealers, or Edmanson, Bates & Co., Limited, Toronto. The portrait and signature of A. W. Chase, M.D., are on every box of his medicines.

HOUSING QUESTION LEADS TO VARIANCE

Speed and Veteran Representation Are Chief Issues Disputed. Opinion among war veterans varies as to the wisdom of refusing to add to the personnel of the Toronto Housing Commission and giving it a veteran representation. One party believes that the chief question of the moment is the timing of the move to the earliest moment; the other believes that the addition of veterans and labor men to the commission would involve no delay, and would prove democratic and profitable, which can not be said of the present commission.

HOUSING QUESTION LEADS TO VARIANCE

Speed and Veteran Representation Are Chief Issues Disputed. Opinion among war veterans varies as to the wisdom of refusing to add to the personnel of the Toronto Housing Commission and giving it a veteran representation. One party believes that the chief question of the moment is the timing of the move to the earliest moment; the other believes that the addition of veterans and labor men to the commission would involve no delay, and would prove democratic and profitable, which can not be said of the present commission.

PUT OVER WINNING RUN IN NINTH BOX

A Tough Argument to Down Bears in Second Game — Jones Wild.

The shoe was on the other foot yesterday and the Leafs got the better of a close argument from the Bears, winning, two runs to one. John Paul Jones, late of the New York Giants, threw them up for the first time before the home crowd and while the Donavonites only secured two safe hits, the big Toronto pitcher was liberal with his free trips to first and eight of them got him into trouble. Jones' team mates heaved in a couple of misplays in the first round to spot the enemy one and then it was an uphill fight to the last round to get the decision.

Shea pitched steady ball thruout and while the Leafs were able to connect with more regularity than the Newark visitors, Shea's help was all right and Catcher Bruggy turned back the Gibson clan as they attempted to amble to second, until the fans were positively sick of the performance.

Hit by Bill Scarce.

The Leafs have not yet caught up with their hitting streak that traveled with them on the first game. In the early rounds of yesterday's game were not of the cheering order. The champions finished strong, that made the over-look many things. The Leafs batted from behind for seven innings, caught the Bears in the eighth and ran over the winning run with two out in the ninth. That is the finish that always pleases.

It would be better to get down the bare details and leave the judgment to the readers. Jones took on his liberal right in the first round. He rolled out trouble for himself by issuing a free ticket to the second batter. Then Davis popped to third. Letter second and went to third when Sandberg's throw was bad. Cather got on free and started to trot to second slowly. Jones threw to Anderson and then Andy heaved on the wrong side of the plate. The fifth round was being safe at second and Letter crossed with the only Newark run of the game. Miller also stroked for and Jacob rolled out one between third and short. Purcell raced over and made a sensational pick-up and threw him out at third, to end the inning.

Bruggy opened the second for Newark with a hit and Andy started to score but failed to score when the next two went out. Newark's second and last safe hit was pulled to center. The fifth round Shea crashed safely into right. It went for nothing.

The sixth was a dangerous round and the Leafs were lucky to get out without a tally against them. The misplay did the trick again. Letter rolled out. Purcell heaved Miller's grounder to the right and the Newark first-sacker pulled up at the half-way station. A wild pitch moved Miller to third, but Jacob rolled to Purcell. Bruggy waited for four wide ones and started right off on a trip to second. Miller naturally footed it for home, but was run down before he made the plate.

Jones was generous to open the next round with a hit and Shea started to trot to second when the hit wouldn't come. Quick work by Sandberg cut down the Bears' chances. Shea rolled out. Jones walked. Bruggy forced Jacobs at second, but made the first bag himself when Anderson threw badly trying to make a double play. Bruggy set sail for second, but Sandberg grabbed the overthrow and threw out Bruggy. Anderson before he could make second.

Andy the Handy.

The Monday eve Toronto hitless and it was not until the second inning yesterday that the first Toronto hit was recorded when Shea rolled out to center. Right and stole second. He stayed there. Breckenridge beat out one to short in the third, but was run down. No hit being found in the Toronto bats.

Anderson got a lucky double in the fifth when Letter rolled out. Shea rolled out. After Jones popped out in the next Bruggy connected for his second single of the game and Shea rolled out. Jones and Gonzalez waited for a base on balls and retired the same way as Bruggy. Bruggy threw them out handily.

Holden lifted to center in the next section and then Anderson bounced one off the right-field batters and raced to third in dashing fashion. Sandberg lifted the needed long fly to center to let Andy home with the tying run.

The Leafs won it in the ninth. Break rolled to first and Gonzalez made first when Shea threw high to the base. Whitman smashed a hit into right and Gonzalez made third and ran. Shea was deliberately walked and Purcell raised a sacrifice fly to let Gonzalez beat the return home with a pretty slide. This was the count two to one for Gibson and evened up the series.

Alexander Takes Another Drubbing

At Boston (National League)—St. Louis scored three runs on seven hits off Nehf in the first three innings and defeated Boston yesterday, 4 to 2. The fourth tally for the Cardinals resulted from three singles by Young, Doyle, Kauff and Gooden's pass to Maranville. Herzog's triple and Powell's pop single. Score: St. Louis 4, Boston 2.

Batteries—Gooden and Clemons; Nehf, Fillingim and Wilson.

At Philadelphia—Philadelphia defeated Pittsburgh yesterday, 3 to 2, principally because of the effectiveness of Jacobs. Cutshaw's drive into the left field seats was likely scoring. Great outfielding by Bigbee and Mousal saved both games. Score: Philadelphia 3, Pittsburgh 2.

Batteries—Hamilton and Schmidt, Jersey; Jacobs and Adams.

Good Crowds Attend The Other Openings

At Binghamton (International League)—Six thousand persons attended the opening game of the International League yesterday at Binghamton. The teams battled on even terms until the seventh inning when Baltimore drove in two runs. The Orioles five runs and two errors netted the Orioles five runs. Score: Baltimore 5, Binghamton 2.

At Buffalo—The Blues opened their home season with a 4 to 1 victory over Jersey City. The Skeeters enjoyed a men's day, while Wiltsie pitched well. Wiltsie's tribe overcame this on good hitting. Morrisette made the longest hit of the day, while Stralt and McCarron were extra base hitters. David L. Pultz, president of the International League, was a spectator. Score: Buffalo 4, Jersey City 1.

CLEVELAND INDIANS DO TIMELY HITTING

At Detroit (American League)—Timely hitting by Cleveland batters and the untimely hitting of Detroit pitchers, gave the Indians their second victory in the postponed series yesterday, 8 to 5. With Cleveland in the lead by four runs in the sixth inning, Finck's error led Detroit rally with a home-run that fell only one short of tying the score. Score: Cleveland 8, Detroit 5.

Fine Weather and Good Trials at Woodbine

For the first time in four days the weather was favorable at Woodbine Park yesterday, and there were some good trials, especially by the platers, four of which were set a distance of a mile or over. Trainer Joe Doane was first to the rescue, as usual, with the much-admired Beardmore candidate, Ladder of Light. Had Ladder worn his specks the Toronto bunch might not have been able to score yet, but he did not, and there you have it. The result of the race was a glorious finish, and the very kind of race that the fans like to see. The result was so very unexpected. Certainly up until the last moment there were but few in the stand who had any idea that the game was going to end as it did; indeed a large percentage of the fans had left for the city before the big dogs were pulled off.

ANDY BUSTED IN AND LEAFS WON OUT

After Hours of Trying, Gibsons Finally Got Couple Across.

By Ida L. Webster.

After 25 1/2 hours in Toronto the Leafs made a run, and believe us, it was every bit as exciting as the first game. Our old friend Anderson was directly responsible, ably assisted by the young Leaf, who was in the right field for the Bears.

And this is how it happened. The sun, as you know, was strong enough to scorch the eyes out of an ordinary person. In the right field it shone down with all the speed it possesses. Andy arrived at the plate to take his turn at trying out. He was passed by the gentleman parading in the right precinct. He had left with the young Leaf, who had his right hand on the ball, and he had his left hand on the bat. He galloped on to third, and then arrived across the plate on a long fly.

Had Ladder worn his specks the Toronto bunch might not have been able to score yet, but he did not, and there you have it. The result of the race was a glorious finish, and the very kind of race that the fans like to see. The result was so very unexpected. Certainly up until the last moment there were but few in the stand who had any idea that the game was going to end as it did; indeed a large percentage of the fans had left for the city before the big dogs were pulled off.

RED CROSS HOLD IMPORTANT MEETING

Duke of Devonshire Helps Deliberation of Peace Activities.

CAVELL MEMORIAL

Central Council Express Wish to Assist British Commemoration.

The central council of the Canadian Red Cross Society held an important meeting yesterday in the room of the Royal Exchange Assurance, King street.

The temporary abandonment of the proposed conference of the Red Cross Societies of the World at Geneva one month after the signing of peace brought the council in arriving at any definite decision as to a part of its future peace-time work.

The receipts from the beginning of the year up to the end of April were \$286,476, but the disbursements amounted to more than twice that amount.

Colonel J. S. Dennis, C.M.G., Red Cross commissioner to Siberia, gave a personal report of the work done by the R.C.S. from its headquarters in Vladivostok.

It was decided by the convention to hold a tag day for the French Red Cross, staidly being the day of the service.

IRISH QUESTION IN HOUSE TODAY

Members of British Labor Party Expected to Make Pointed Remarks.

It is expected that the Irish question will come up in the British house of commons today. Touching upon that expected event T. P. O'Connor in an unpublished letter to the Toronto Sunday World dated May 10, says:

An important question is the action of the British labor party. They tabled a motion in favor of home rule some weeks ago and fixed the date of debate for May 14, but immediately postponed the debate until that day.

It is expected that the Irish question will come up in the British house of commons today. Touching upon that expected event T. P. O'Connor in an unpublished letter to the Toronto Sunday World dated May 10, says:

Finally Sir Edward Carson and his followers have not such a hold at present as in previous parliaments, and the he may oppose the cabinet, I believe, a real home rule measure.

THREE DIE VIOLENT DEATHS YESTERDAY

Lineman Electrocuted and Two Children Killed by Autos.

Three persons were fatally injured within one and one-half hours last evening. Two young children were killed in the east end by motor cars, and a telephone lineman was electrocuted in the west end.

Five-year-old Joseph Tortoro, 305 Danforth avenue, ran in front of an automobile at Danforth and Gough avenues at 4:30 p.m. yesterday, and was run down. He sustained a fractured skull, and died while being rushed to a hospital.

John J. O'Donnell, a Bell Telephone lineman, was electrocuted at 4:20 yesterday afternoon while repairing wire at the corner of Dundas street and Lansdowne avenue. O'Donnell was sitting on the cable chair 30 feet above the ground when he came in contact with a high tension wire and was instantly killed.

Rev. Dr. Thomas E. Bartley, D.D., pastor of Woodgreen Tabernacle, died suddenly last night at his home, 411 Broadview avenue, in his 59th year. Dr. Bartley had been ailing for some time past, notwithstanding to perform his duties.

How Lack of Iron in The Blood May Change A Woman's Appearance And Break Down Her Physical Strength While Plenty Of Iron Makes Rich Red Blood Corpuscles That Give Health, Vitality and Beauty

Every Woman Who Looks Pale, Haggard and Worn Should Have Her Blood Examined for Iron Deficiency—Administration of Simple Nuxated Iron Will Often Increase the Strength and Endurance of Weak, Nervous, Careworn Women in Two Weeks' Time and Make Them Look Years Younger.

Longing for the keen activity, the youthful step, the fresh rosy cheeks and the sunny disposition of buoyant health is making many a woman unhappy, discontented, wrinkled and old before her time.

Sleepless nights spent worrying over supposed ailments, constant dreading with habit-forming drugs and narcotics and use less attempts to brace up with strong coffee do not help the real cause of their trouble which may be nothing more than a lack of iron in the blood.

For want of iron a woman may look and feel old at thirty, pale, haggard, and all run-down—while at 50 or 60 with good health and plenty of iron in the blood she may still be young in feeling, and so full of life and attractiveness as to defy detection of her real age.

That women may become stronger, healthier, more beautiful and better able to meet the cares of home, social and business life by increasing the supply of iron in their blood is the opinion of Dr. George H. Baker, formerly Physician-in-Chief of the Mouth Memorial Hospital, New Jersey, who says: "What women need to put roses in their cheeks and the springtime of life into their eyes is not cosmetics or stimulating drugs, but plenty of rich, pure red blood. Without it no woman can do credit to herself or to her work. Iron is one of the greatest of all blood-builders, and I have found nothing in my experience so effective for helping to make strong, healthy, red-blooded women as Nuxated Iron.

From a careful examination of the formula and the own tests of Nuxated Iron, which any physician can take himself or prescribe for his patients with the utmost confidence of obtaining highly beneficial and satisfactory results.

Among other symptoms asked for an opinion was Dr. Ferdinand King, New York

DETROIT UNITED UP NINE POINTS

Steamships Preferred, Maple Leaf and Russell Motor Other Strong Issues.

Heavy dealings in Canada Steamships preferred provided the main feature of business on the Toronto exchange yesterday, apart from a brisk movement in several mining issues including Dome, Nipissing, La Rose and Conlagas. A number of prominent brokerage houses in Toronto and Montreal have been strongly urging upon clients for some time the purchase of Steamships preferred, and also the former president, James Carruthers, took the position that the payment of dividends upon the common stock would weaken the position of the preferred, the market does not seem to have any apprehensions about the ability of the company to meet obligations where the stock is concerned. A high for the year was set up at 85, and the closing price, 84 1/4 was 1 1/4 higher than on Monday. Trading in steamships preferred amounted to more than 900 shares. Utility stocks occupied a position of more prominence than usual also. Detroit United was the only one to record any pronounced change. There has been a big upward movement in this rather volatile security in New York. Around the time a few weeks ago when the citizens of Detroit voted against the purchase of the company's plant within the limits of the city, the stock was quoted in New York at 85. In the past few days there has been a smart upturn in D.U.R. there, and the advance in the Canadian markets is a sympathetic one. The stock opened here yesterday five points up at 105, and advanced to 109. Brazilian was a shade firmer at 51 1/4, and Barcelona at 111 1/4, but Toronto railway at 42. Train City at 44 and Duluth Traction at 81 were quiet and heavy. Mackean remained firm at 82. In the miscellaneous list strength was shown by Maple Leaf Milling and the Russell Motor issues. Maple Leaf rallied two points to 159 and is now only one point below the record price. Russell Motor advanced 1 1/2 to 82, and the preferred four points to 80. N. S. Steel, after opening off 1 1/2 at 82, firmed up to 85. N. S. Car preferred lost three points, and is now six points under Saturday's closing price. Canadian General Electric at 114 1/2 was a point lower. The war loans were dull, and included the following transactions: Shares, 5,370 including 2,890 mining shares; war bonds, 354,100.

NEW YORK STOCKS STRONG AT CLOSE

Steels, Coppers and Allied Silver Shares Chief Elements of Strength.

New York, May 13.—Frequent pauses marked the session on the stock exchange today, after trading was again active and broad. Price changes were mainly upward, but the list manifested no very definite trend until the final hour, when highest quotations were made. Steels, coppers and allied silver shares were the chief elements of strength, together with equipments, the latter scoring gains of 2 to 6 points on a reported advance in prices of some finished steel products following the failure of the government's stabilization plan. Rails also went up, numerous dividend-paying shares registering advances of 1 to 2 points with secondary minor issues, presumably on the growing conviction that legislation aiming at their betterment is near at hand. Metals forfeited part of their advance owing to the publication of the quarterly reports of the several porphyry companies that disclosed heavy losses in earnings, but these were largely regained in the spirited advance which accompanied the close. U. S. Steel made a net gain of 1 1/2 to 2 points, but the independent group rose from 2 to 4 1/2 points. High-priced oils were under pressure most of the time. Minor shippings strengthened, but that division as a whole was irregular. Leathers, tobaccos, utilities and food and fertilizer shares were mostly higher. Sales amounted to 1,475,000 shares. Local transactions were the strongest feature of the firm bond market. Liberty issues also showing more steadiness. Total sales, par value, aggregated \$12,275,000. In the miscellaneous list strength was shown by Maple Leaf Milling and the Russell Motor issues. Maple Leaf rallied two points to 159 and is now only one point below the record price. Russell Motor advanced 1 1/2 to 82, and the preferred four points to 80. N. S. Steel, after opening off 1 1/2 at 82, firmed up to 85. N. S. Car preferred lost three points, and is now six points under Saturday's closing price. Canadian General Electric at 114 1/2 was a point lower. The war loans were dull, and included the following transactions: Shares, 5,370 including 2,890 mining shares; war bonds, 354,100.

SPURT BY LA ROSE MARKET FEATURE

Silver Sells Lower, But Cobalt Stocks Are Firm—Hollinger is Easier.

The mining market yesterday was not such a headlong bullish affair as on Monday, but, although there were recessions here and there, particularly in stocks which have had unusually sharp advances, the general appearance was entirely healthy. The day had its special feature in the swift upturn in La Rose which, at the day's high, 49, showed an advance of 12 points. The majority of Cobalt stocks closed with fairly substantial gains, despite the fact that the silver market gave evidence that fluctuations can be in a downward as well as in an upward direction, the white metal being quoted in New York at \$114 3/4, a decline of five cents an ounce. While transactions amounting to 330,463 shares amounting to a considerable drop from the Monday figures, the total represented a very active day's business. There is a good deal of temptation to take profit, and particularly in such stocks as Hollinger and Lake Shore which have had striking advances, and this tendency can be looked for to an even more pronounced extent as the bull movement gathers impetus. Hollinger opened at 47 1/2 at 7:50 and touched 77.61, a point above the high record established in 1914. The stock came out rather freely, and there was a reaction to the net loss of the day being seven points. Dome, on the other hand, was decidedly firm, sales being made at from \$117.50 to \$118.50, with the closing at the latter figure as compared with \$115.25 on Monday, while in New York the high was \$116.57 1/2 and the closing at \$117.75 against \$115.50 the day before. Dome Extension, which has not been fulfilling the hopes of its backers, ranged between 35 3/4 and 36, closing at the latter quotation, a loss of half a point. It is stated that the cross-cut in the Dome Extension has now penetrated through the whole body of ore which is 99 feet wide. Assays for the first 87 feet show value of more than \$3.50 to the ton. Lake Shore reacted four points to \$116, and Kirkland Lake 1 1/2 to \$11 1/2. McIntyre at \$18.88 was off a point, and Newberry at \$20.40, at Newberry at \$20.40, and West Dome at 15 1/2. Keora at 21 was up 1/4 and Apex at 4 3/4 to 4 1/2. Cobalt rose 1/2 to 38. Gold Reef at 8 3/4 and Inspiration at 13 1/2 were unchanged. Davidson Strong Davidson was in excellent demand, more than 10,000 shares being traded in, and sold as high as 70, an advance of 1 1/2, with the closing half a point lower. The small mill on the Davidson Gold Mines property is running at full capacity. A gold brick arrived in the city at the week-end, the result of a clean-up, and from now forward a regular monthly shipment will be made. One for the mill is being drawn from drifts in two shafts and mill-heads are understood to average \$18 to the ton. Immediate plans of the Davidson management include the opening up of the main ore body down to the 700-foot level, and the construction of a mill addition which will bring the total daily capacity up to 200 tons per day. Spurt by La Rose There was no clear explanation of the sudden demand for La Rose, nearly 23,000 shares being traded in. The opening price was 38, the high 49 and the closing 48, a gain of 11 points. In some quarters the move was thought to indicate a settlement satisfactory to the La Rose of the dispute with the O'Brien Company which is being aired in the courts. Nipissing was active, but the price range was comparatively narrow, the high being 13 1/2, and the closing \$13.15 as compared with \$12.50, Monday's closing. Mining Corporation rose 15 points to \$200, and is now 50 points above the recent low level. McKinnley-Darragh showed early strength at 66, but fell back to 64, showing no net change. Chambers-Ferland was again very active, and was strong. The high of the day, 16, recorded a gain of a point, but the closing was easier at 15 1/2. Conlagas was strong at from \$32.25 to \$33.10, and half point gains were shown by Beaver at 49 and Peterson at 42 1/2. Adanac declined 1 1/2 to 25. The apparent explanation of the reaction was that insiders were testing the stock out.

TRADING AT MONTREAL MOST ACTIVE OF YEAR

National Breweries, Steamships Preferred and Detroit United Are Prominent. Montreal, May 13.—Today's market for Canadian stocks was the busiest of the year to date, 17,229 listed shares, comparing with the previous best 16,992 on Thursday last, fifty-four issues making the list equal to the broadest for the year and out of the 54, thirteen made new high levels for the year. Continuing to hold first place both in point of activity and spectacular movements was National Breweries which sold up to 98 1/2 and back to 84, a net gain of 14 1/2 points, a net gain of 14 1/2 points, a net gain of 14 1/2 points.

TEXAS OIL PROPERTIES ARE CAPITALIZED LOW

Scarcely a day passes that news to the effect that some operator in the Texas field has turned his holdings into a company, financed by eastern connections is not forthcoming. As a rule, the men responsible for early Texas development capitalized their properties on a basis much lower than in any other oil field in the world. The precedent set by early Texas operators has been followed by the Toronto-Texas Oil and Gas Company. This company is capitalized for only \$100,000 and owns oil and gas leases covering 2936 acres right in the path of oil development in Red River county, Texas. So stockholders in this company appear to be in line for handsome profits. Besides the value of the company's leases has been approved by the secretary of state, of the state of Texas. Never before in the history of oil development has the "blue sky" peddler been so little in evidence as in the Texas field. The obstacles placed in the way of promoters of worthless schemes by the Texas statutes checked the floating of illegitimate enterprises.

DISCUSS WHEAT PRICES.

New York, May 13.—Representatives of the grain, milling and bakery trades from all parts of the country met here today for a series of conferences with Julius Barnes, wheat director. Questions of price, supply and handling of the cereal crops will probably continue two or three days.

DOMINION STEEL DIVIDEND.

On both issues the directors of the Dominion Steel Corporation have declared the quarterly dividend on the preferred and common shares of the company payable on July 1. The common dividend is 1 1/2 per cent, payable to shareholders of record June 5; and the preferred dividend 1 3/4 per cent, payable to shareholders of record June 14.
