### TRUCK OWNERS DO EMINENT SERVICE

Says Hon. F. C. Biggs at Association Meeting—Leading Future Transport.

### BETTER ROADS SOON

Post-War Program Will Link Up Every Point in Province.

In addressing the Motor Truck Owners' Association yesterday in the King Edward Hotel, Hon. F. C. Biggs, minister of public works, said that motor truck owners were doing a great service, and he believed that within a few years the motor truck would be the principal means for the hauling of freight in the province up to a distance of fifty miles. He advised motor truck people and motorists to be patient in regard to roads, which problem was getting serious attention from the government.

The speaker thought some improvement would be made next year in the "light glare" law, which became effective this summer, and which he considered a step in the right direction. The law which declares that ninety inches, including the load, shall be the maximum width, and he advised motorists to make the maximum ninety-six inches, he said.

"Every effort of the province, the counties, and the municipalities, has been directed to winning the war; and now that the war is over, we must direct our attention to building up the province, and I do not think we can do this in a way to give better results financially and with more satisfaction to the urban and rural people than in building up a good system of provincial roads.

The government has assumed 1824 miles of provincial roads, and with the assistance of the counties and municipalities, it is hoped to complete these roads within a few years to connect any point in the province." Continuing, he said that with the aid of the Dominion government, they hoped to be able to contribute 50 per cent. of the cost of these roads, and with the help of the income from motor licenses to assist the balance on provincial county roads, and by forty per cent. on county roads.

### COURT OF REVISION TAKES KINDLY VIEW

In the court of revision yesterday, a number of appeals were heard and disposed of, where the parties interested were unable to pay their tax bills, notwithstanding that during the war regime they had been earning better than their usual wages, some drawing as much as \$50 per week. A number of excuses were put forward for the inability of the applicants to pay their tax bills, unemployment, sickness and strikes being typical grounds for non-payment.

Harold Jones, 625 Jones avenue, had been earning \$11 per week before he entered on the munition job, where he received \$1500 a year; yet he was unable to pay the \$32.15 for taxes for last year, because he had been out of work for six months. He is now earning \$22 a week. The court cancelled the tax bill.

According to J. T. Hepburn, with whom he was employed, F. Leikin, 7 Markham place, earned \$2400 in 1918, and the court previously had reduced his tax bill to \$14.23. Yesterday morning he said he had not a cent. He was a victim of the market strike last year, and in the winter he had lost his wife, leaving him with five children. Judgment was reserved.

The tax bill of \$23.50 due from G. E. Greene, 221 Greenwood avenue, was cut in half. He earned between \$2000 and \$2500 in 1918, but last year had only managed to earn \$850.

### A LOVELY REGION

One hundred and forty-five miles north of Toronto lies the Lake of Bay region, one of the most attractive of the summer playgrounds in the Highlands of Ontario. It is 1000 feet above sea level, is immune from hay fever, has good boating and fishing, golf, and is supplied with some of the best summer hotels in Canada, among which is "Bigwin Inn," accommodating 500 guests. For descriptive literature, with lists of hotels, rates, maps, etc., apply to any agent of the Grand Trunk.

### POINTING REVOLVER CHARGED

Harry Hayes, 157 Rosethorn avenue, who created such consternation at the York Township Council meeting on Monday, by producing a .44 revolver as an extra persuasion to get what he termed justice for himself in regard to an alleged grievance over a cellar he had installed at his house, appeared in the police court yesterday on a charge of pointing a revolver. Accused asked to be committed for trial, but the crown's request for a week's remand, so that the accused might be examined as to his mental faculties, was granted. The police say that the revolver was not loaded.

### DOMESTIC SCIENCE CENTRES

At a meeting of the committee on household arts, held at the administration building of the board of education yesterday, it was decided to open up seven new centres for the teaching of domestic science in the schools.

### WOUNDED WIFE WITH AXE

Thomas Carriere was in yesterday's police court sentenced to 22 months at Barwash for a brutal assault on his wife. He used an axe and inflicted 12 wounds on his victim.

### JUDGE MAKES REPLY

Magistrate Denison's Letter Approaches Public Scandal, Says Coatsworth.

Judge Coatsworth has written to the attorney-general of the province in regard to Col. Denison's charge, that the act should be amended, taking any discretion from the judge to fine instead of imprison drunk and disorderly and that judges be not able to favor influential or wealthy classes, and to Col. Denison's complaint, that jail sentences imposed by him were changing on appeal, to fine by judges owing to "good nature or other causes."

### MENTAL HYGIENE DOMINANT NEED

College Dons Point to Importance of Situation in Ontario.

Professor Alfred DeLury, dean of the faculty of medicine, presided yesterday afternoon at the opening session of the two months' course in mental hygiene, Dr. Hincks, secretary of the National Council of Hygiene; Dr. C. K. Clarke, superintendent of the Toronto General Hospital, and Prof. McCreger, who will conduct the class, addressed the meeting, as did Mrs. McGreggor, who will have charge of what is known as the field work. Mrs. McGreggor hoped the women present would take a keen interest in field work, which was, after all, merely practice applied to theory.

Prof. McCreger pointed out that this extension course in mental hygiene would give a new and broader outlook to the students. Last year students had been sent to this division of the faculty; this year they were coming of their own volition. The real object of the course, he said, was the creation of missionaries for the true welfare of those who were unable to help themselves.

"This field of mental hygiene is very wide," said Dr. Hincks. "It includes a more complete labor than the mere consideration of dramatic cases, such as the case of the man who killed his wife when he terms the study that of mental health. It comprises ways and means of dealing with the mentally ill, as well as the study of the causes, measuring up to public school requirements. All of these, numbering 20 per cent. of the total population of our great cities, need our help." The speaker, as well as others, all those who recently received a salutary lesson from an eminent Canadian, who informed him that in his business he had dealt with so-called dubs, all his life, and that he had named five other eminent Canadians who were not considered extremely bright, but who had been helped on to better ideals, with the results noted today.

Dr. Clarke pointed out that the campaign of the National Council of Hygiene was that of educating the public as to the real number and influence of defectives in the schools in all large industrial and other centres.

### A NEW VIEWPOINT

"Let me assure you that the work here will give you a new point of view; it will widen your understanding of the humanities, and will tend to widen your sympathies. It is, indeed, most encouraging to realize that the women, the backbone of all ideal movements, are to be depended upon in Ontario to carry our work to a really successful conclusion."

The work of this extension class will be that of practical study in large institutions, in homes and wherever practicable. Individual cases will be studied from all angles, and students will gain an inside knowledge of mental complaints, but far more important, of conditions surrounding large numbers of Toronto's defective citizens.

### ESTATES AND BEQUESTS.

After providing that a sum not exceeding \$300 be spent in a monument to himself, and bequeathing a solitaire diamond pin to his brother, Leslie C. Elliott, the deceased, Wilfred Sarvis Elliott, formerly manager of the bond department of the Imperial Bank, left his estate, valued at \$29,757, to his widow, Mrs. Clare Lindsay Elliott.

A life interest in the \$10,818 estate left by the deceased, Joseph O. Stewart, is provided for his widow, Mrs. Jane Stewart, and on her death, the principal is to be divided amongst deceased's three children in equal shares.

Probate of the will of the late Umberto Cardinali, a laborer, has been granted to his widow, Mrs. Carmela Cardinali, who has been named sole beneficiary and executrix. The estate is valued at \$4,745.

Mrs. Florence M. McMullen, 233 Keewatin avenue, has been named sole beneficiary and executrix under the will of her late husband, D'Arcy McMullen, who left estate valued at \$4,700.

Andrew Ewing Kyle, son of the deceased, Mrs. Annie Elizabeth Kyle, is the sole beneficiary under her will. He inherits \$4,425.

The deceased, Mrs. Charlotte Caldwell, left to her two sons, David E. and Warren Caldwell, two lots in Moose Jaw, valued at \$400, and to her husband, David Caldwell, a tea merchant, her equity of \$3,000 in 503-5 Durie street, Toronto.

Mrs. Agnes Irving, widow of William Irving, a machinist, inherits the whole estate valued at \$3,000.

The intestate estate of Frank Lew, a floor layer with the T. Eaton Co., valued at \$1,030, will be divided in equal shares between his widow and four children.

### TAKE PLEBISCITE IN NORTH TORONTO

Question of Secession From City Should Be Submitted to People.

### UNJUSTLY TREATED

Deputation Lay Complaints Before Committee of Legislature.

The private bills committee of the legislature yesterday by a vote of 22 to 15, adopted the motion of J. Walter Curry (Southeast Toronto) that a plebiscite be taken in seven years in North Toronto on the question of the secession of that part of the city and that in the meantime the bill providing for appropriation stand. The amendment was to approve the bill and take a plebiscite at the municipal election.

Two hundred residents of North Toronto were present when the bill of Hon. G. S. Henry to separate North Toronto from the city of Toronto and to incorporate it as a city came before the committee. The majority of the North Torontonians were handsomely inscribed, "We want secession."

Not Justly Treated. In the memorandum presented to the committee the deputation told of the failure of the city to improve transportation for North Toronto in any degree, which has made life almost unbearable for the people who had been subject to double car fares as well as to the inconvenience of an inadequate system. This was the chief cause of the lack of population, which has not grown in the same ratio as other parts of the city supplied with civic lines, meaning a serious loss to property owners who had purchased home sites on the strength of the city's promises.

The memorandum also states that North Toronto has nothing in the way of public services which she did not have prior to annexation. Taxes they had in plenty, \$3,000,000 approximately having been paid into the coffers of the city of Toronto in seven years, with practically no return. Attention was also drawn to the bad condition of the sidewalks and streets and to the lack of adequate pavements. In fact, the residential section of Toronto is, from the standpoint of municipal improvements in a worse condition than many back country townships, despite our enormous taxes, concluded the pamphlet.

In reviewing the case for the secession, Hon. G. S. Henry said that the deputation, said that North Toronto people were suffering injustice at the hands of the city. The secessionists charged that the counter-petition had been improperly secured by going up and down the Mount Pleasant road district and asking people to sign if they wanted the Mount Pleasant car line built, saying nothing about secession at all.

"We have come here knowing we will receive justice from the body that has the power to give it, and we will release us from the bondage in which the city of Toronto holds us," said Mr. Baker. Reviewing the history of their grievances, he said the final round case, the Hydro in 1918 prevented the acquisition of the Metropolitan, also power had been given two years previously, "Let us attend to our own work," he urged, "and find transportation, for we have tried every means ourselves that a self-respecting people could try and we have come to the conclusion that secession is the only way out."

All Favored Secession. E. V. Donnelly did not believe 50 people in North Toronto would be able by the present conditions. The secession petition contained names of property owners in North Toronto who resided in every hamlet in Ontario and all over North America.

Ex-Mayor L. Brown of North Toronto, said that although nothing had been done to solve the transportation question, secession would stop all chance of a one-fare from the north-easterly limits of the city to the easterly limits and carry the Hydro lines to the western limits.

Ex-Mayor Thomas Urquhart declared the future of North Toronto lay with the city of Toronto. He thought the secession movement had been boomed by real estate speculators. If the Mount Pleasant car line was constructed, within two years of its completion there would be 30,000 people there.

Ex-Ald. H. H. Ball said a year ago he put in matter to the secessionists. "If you want and if there is reason for secession, let us take another vote and I, as member of Toronto city council, will move a resolution that a vote be taken. They never accepted that proposition."

Favored Postponement. Hon. Mr. Raney: Supposing we recommended a plebiscite should be submitted to the people of this district next January on this question, it might be that between now and January the thing might be rendered unnecessary—would we not be as far ahead with the matter by doing so, than allowing the parties to come back to us next session?

Hon. Thomas Crawford said the grievance appeared to be chiefly regarding transportation. He thought the committee would be wise in giving a straight hint to the city that something must be done in the matter. J. W. Curry moved that in the opinion of the committee a plebiscite should be taken in January upon the question, and that in the meantime the bill should stand.

On a vote, the majority motion carried by 22 votes to 15.

### Canadian Order of Oddfellows Reports Excellent Progress

The executive officers of this Canadian institution, including the grand master, F. S. DeLong, Hamilton; Past Grand Master T. S. Hudson of Montreal, and the local representatives, met in regular session yesterday in the head offices of the order in the Manning Chambers, which offices are under the personal charge of Robert Fleming, grand secretary, recently elected to the presidency of the Canadian National Exhibition. The reports presented for consideration and action showed that progress was leaving its stamp upon the efforts of the present executive to increase the influence and popularity of this fraternal order. The state of the investment account in relation to the insurance fund is particularly gratifying.

### CARS EXPENSIVE FOR CIVIC LINES

Acting Mayor Will Urge That English Firms Be Asked to Tender.

It is understood that the tenders now in the hands of Works Commissioner Harris for the supplying of a number of cars for the civic lines reveal a much higher range of prices than was estimated by the department, and there is a possibility that the board of control, instead of awarding a contract at once, may further investigate the question of costs.

### HOUSE OF INDUSTRY REPORTS.

According to the 83rd annual report of the board of management of the House of Industry, 200 persons were taken care of at that institution during the year, ending March 31, 1920. During that period three of the society's best members were taken by death, namely, Rev. John F. German, John Doogh and Mr. William Banks. The administration committee consists of Mrs. W. F. Grant, convener; Mrs. Falconbridge, Mrs. Broughall, Mrs. Michie Cowan, Mrs. N. Brock and Miss Carolyn Roberts.

The following subscribers, together with the trustees, form the board of management for the ensuing year: Rev. Thos. H. Rogers, Daniel Miller, Rev. J. W. Podley, Charles T. Stark, Samuel Crane, Rev. Canon H. C. Dixon, Rev. J. A. Miller, Rev. H. A.

Petition Was Improper. Mr. R. L. Baker, who headed the deputation, said that North Toronto people were suffering injustice at the hands of the city. The secessionists charged that the counter-petition had been improperly secured by going up and down the Mount Pleasant road district and asking people to sign if they wanted the Mount Pleasant car line built, saying nothing about secession at all.

**VACATIONAL BIBLE SCHOOLS Hope to Extend Project**

In connection with the Daily Vocational Baptist Bible School Association, which was organized early last year with 15 schools, an effort is being made to increase the numbers to 20 this year. The committee have received inquiries from Hamilton regarding the project and it is hoped that the towns throughout Ontario will take the matter up.

A meeting will be held in the committee's office, at the Neighborhood Workers' Association headquarters on Friday, F. U. Stapleford, president, will preside.

**JAIL FOR INTOXICATED AUTOIST**

Convicted by being intoxicated while in charge of his automobile, W. H. Owens was sentenced to jail for one week in yesterday's police court. An appeal was entered, and accused released on bail.

**NO BREACH OF CONTRACT**

Judge Denton has dismissed the action brought by T. W. Swartman & Co., cartage contractors, against Herbert A. Beatty for \$373 damages for alleged breach of contract for the trucking of fruit from the defendant's farm at Grimby to Toronto. It was shown that the plaintiffs had accepted \$75 in settlement of their claim.

**Stalled Secession.**  
The secession of North Toronto is virtually prevented by the action of the private bills committee of the legislature yesterday. Nominally, provision is made for a plebiscite next January. Actually, the impossibility of doing anything before then will cause other things to be done which will make secession look like the vain dream it always was. The city will be urged by events to fulfil the obligations that were involved in the annexation seven years ago, including the provision of the Mount Pleasant Railway line, authority for the financing of which will assuredly be granted by the legislature.

There are no precedents for the dismemberment of urban communities that have once been united. Annexations occur, because they are advantageous to both administrative interests concerned. Toronto has been saved from the evils that sorely afflict Montreal, where several suburban cities were established—some after the manner of the North Toronto that is now desired by the secessionists. The young cities piled up all the debt the legislature would permit, and then came to Montreal for its financial protection.

It is not suggested that anything like this is in the mind of the secessionists. They are impatient because the Yonge street transportation problem has not been solved. They want to correct an inconvenience by recreating others. The war delayed many improvements, including the Mount Pleasant line. But it is hardly worth while to try to mend a war casualty by making several peace burdens.

The Yonge street transportation situation will surely be clarified by the radial policy that involves the passing of the Metropolitan lines to public ownership in the near future. The Metropolitan wants to sell and the Hydro is ready to buy. Travel everywhere in the Toronto zone will be reorganized. Generally, the public services of a large city are bound to excel those of a little one. There is every possible community of interest between Toronto and all its greater suburbs. Isolation, once consummated, could only be changed as an outcome of many difficulties. But before there could be secession, many difficulties would have to be re-solved. The relations of Toronto and North Toronto finances have become intricate. It will be almost as impossible to separate the values of services that have been done to North Toronto from those which apply to the city as a whole, as it is to unscramble eggs. Half the amount of energy required to consummate secession would place the union where it ought to be. Before January comes, everybody will be able to see that progress may be served by continued union. It cannot be by stimulated division.

**In the Liberal Party's Name!**  
They certainly do stand some weird talk about public ownership in Montreal. The Liberal party seems to have made itself into an engine of authorized slander of public ownership. Mr. Cahill, M.P., for Pontiac, introduced to the Reform Club "the railway critic of the Liberal party in parliament" gave his hearers a line of misrepresentation which might have become a screaming neurosthenic, but is merely pitiful in a member of parliament.

The Globe should get somebody to spank Mr. Cahill, as it has called for spanking of Mr. McKenzie. If something is not done to correct the witness of sundry Liberal politicians against economic progress in this country the Liberal party will surely commit suicide, or perish in the attempt.

Mr. Cahill is reported in The Montreal Gazette as saying that if the Liberals had been in power the railways would not have been allowed to get into the condition that made public ownership necessary. Then he turned to an absurd attack upon President Hanna of the Canadian National Railways whom he accused of being indifferent to the development of traffic, because he has the national treasury to dip into for making up deficits.

Mr. Cahill also accused Mr. Hanna of moving terminals about so as to make money for Mackenzie and those who he avowed, are left with the most profitable end of their business are making money selling tickets to the C.N.R. Mr. Cahill's name of beggar-the-country after awhile "when the amount of being annual railroads" Mackenzie and Mann had offered to take the people from behind countenances that are only un-

nonsense, and might be laughed at if it did not involve the Liberal party in the most pernicious policy that is possible for ignorant ill-will and prostration to devise.

A Liberal party in power would have saved the railways from deficits! It was the Liberal party which made the railways—and the deficits! Mackenzie and Mann will come along and offer to take the railways so as to free the people from the deficits! Mackenzie and Mann lost the railways, because of the deficits! Neither they, nor anybody else, except by greatly increasing rates, could free the people from their obligation to pay interest on Canadian Northern and Grand Trunk Pacific securities the Liberal party guaranteed.

What would be the position of the Canadian National Railways if a Liberal government came into power animated by the professions and methods of Mr. Cahill? Mr. Cahill attacks the public service of Canada who carries more direct responsibility to the people of Canada than any departmental minister. Mr. Hanna is in charge of a staff of about fifty thousand public employees. Mr. Cahill accuses him of the meanest kind of dishonesty. What else is it but dishonesty if a railway administrator changes the location of terminals merely for the purpose of making money for men to whom he is in no way accountable and who have no way claim on the railways than the Khan of Khyber?

Citizens of Toronto who have known Mr. Hanna for many years would not even insult him by asking for a denial of such an absurd libel. Men in public positions must be prepared to stand a good deal of unreasoning criticism, but sometimes the limit of forbearance is overstepped. On such occasions if it is undesirable to summon a policeman, it might be proper to employ a writ-servant.

The stuff emitted by the railway critic of the Liberal party in Montreal can do no permanent harm to public ownership or to the honest and laborious administration which the Canadian National Railways are getting. But it can do immense injury even to the party in whose ostensible interest it is promulgated.

If persisted in it will as surely destroy the party as a national force, as it makes the utter ridiculous to all who know the truth and would fain ensue it.

**Belt, East and West?**

A friend of Toronto transportation drops in to suggest that some relief may be found in an extension of the belt line principle to a reconstructed street railway system. He points out that there is a certain anomaly in a main artery like Queen street having no single, all-the-way service, to traverse on it from west to east it is necessary to use three cars.

If a citizen wishes to go from Queen street east or west, say to Queen's Park, he must either make an excessive number of changes or go down to the congested section of the city for the sake of a little convenience. For instance, a Beach resident who wants to go to the General Hospital or the parliament buildings must either change at Broadview and change again on a Carlton car or go down to King and Bay and take a College car.

Our friend asks why there should not be at least one belt line with its longer sides running east and west traversing Queen, Broadview and the present Carlton road and using Roncesvalles. If a belt line is good for Spadina, Bloor, Sherbourne and King why would not a cross-town belt line be also worth while?

Perhaps nothing could be done in this way until the system is recast, when there will be more than the Broadview north and south line east of the Don. But it is good to know that the average citizen is thinking constructively about the railway he will soon own.

**A Feminine Distress.**

Our sisters in London are said to be on the warpath because some smart Alice has written to the one and only Times to say that in London, Ontario, there are nearly forty thousand women who could beat the winner in a recent competition of the ugliest women in London, England. The culprit must wish he had kept quiet, unless he is an incurable wack. Perhaps he has the prettiest wife in town, and knows it, and has deeply designed to launch a beauty contest on the Ontario Thames. Everybody knows that London, Ont. is crowded with beautiful women, and that the few plain ones down there are wise and good—which is nearly always the case with those who have little use for mirrors.

But what is beauty, and what is ugliness? Beauty is more than skin deep, but ugliness needn't be—one is thinking, of course, of plainness and not of deformity. Often enough beauty is more of a temptation than an asset, even if it is of the kind that does not come off in the wash. You see a girl in a theatre box who uses her little mirror between the acts, and when she is over, devotion to a complexion makes life a burden, and age a wrinkling calamity instead of a restful benediction.

Beauty without character is an offence. Plainness without character is a phenomenal rarity. There are multitudes of quiet, unselfish minds behind countenances that are only un-

WE HEAR THE OVERALL CRAZE MAY BE TAKEN UP BY SOME OF OUR LEADING CITIZENS.

attractive when they are first seen. Plainness usually wears well, when beauty frequently wears out. You are always discovering something new about your plain friend. As a rule there isn't very much to find out about mere prettiness.

One dull day in the British house of commons Mr. Gladstone and a colleague fell to discussing who was the ugliest man in the chamber. Each picked his subject, and the old statesman made an illuminating remark about the two choices. "My man is uglier than yours," he said, "because if you enlarged his features they would become more repellent with every expansion. But extend your man and he would become more massive and noble—the larger his face grew."

There rests the true philosophy of plainness. There is no infallible rule; but in the main, plainness in women as well as in men, is often the mark of character than of his lack. Cast about among your acquaintances and see if it is not so. Handsome is as handsome does. God has put more of the healthful spirit of his grace in womenkind than he has given to mankind. After all, that is what counts in family happiness and social duty. Send somebody with an observant eye and a truthful pen among the women quarters in Ottawa, if the merchant of London, and the darling, unvarnished correspondent of The Times will seem ridiculous to himself, and our sisters of the Forest City will laugh immensely at what they didn't immediately see the joke.

**J. H. GRIEVE PROMOTED.**

Winnipeg, April 20.—J. H. Grieve, superintendent of the sleeping, dining and parlor cars and news service department of the Canadian National Western Lines, has been appointed general superintendent, with jurisdiction over all lines and headquarters in Ottawa, it was announced here today.

The local dealers report that the demand is already above the ordinary, but which ranges from \$2 to \$2.50 a set. Kingston-Kingston jumped into the overall class today when the staff of the soldiers' civil re-employment decided to wear overalls. With the membership will be about 100.

Windsor—Unless clothing drops to a price that is not many days before the war will not be full of full moon patches, for border runners are determined to make a stand and fight the tailors to a finish. Advocates of the "overall or old clothes campaign" are talking of a mass meeting to secure the pledge of many people (both sexes) as possible not to purchase a single garment until prices come down 50 per cent.

A tailor-made suit of clothes that cost \$40 here two years ago, today costs the purchaser over \$100. Prices in Detroit, where the campaign was inaugurated, average 20 per cent lower than here in London.—The overall fad introduced to combat the high cost of clothing has not hit London yet. The first to favor the hit London yet. The first to favor the "don the denim" if someone will only start it.

The young lady employees at the city hall agree to don their basketball bloomers for office duties if the male employees will come down to work in overalls.

St. John, N.B.—The first sign of the overall movement invading St. John's a "Coke's" Association that they are retreating together on the matter of having their members adopt the overall costume.

Halifax, N. S.—The village of Imperial, where the plant of the Imperial Oil Company is located, has caught the overall fever. A movement is now on foot to establish an overall club there and its promoters say that already approximately two hundred employees of the plant have signified their intention of joining.

Hamilton, April 20.—Following the decision of the City Hall Employees' Association yesterday to form an overall club, a petition was circulated thru all the city hall offices today in an effort to secure recruits. The girls are to wear allover aprons. Those who have joined the club have decided to buy their outfits as a club, in the hope of obtaining a better price in that way.

**YOUNGEST AIRWOMAN.**  
Miss Andree Farman, daughter of Maurice Farman, noted airplane builder of France, is probably the youngest airwoman in the world. She is not yet fifteen years old, but is considered one of the most skilled pilots in France.

A WAY OUT.  
Chapter 62.

Lawrence also felt that Alice was not as happy as he wanted her to be. Several times he was almost willing to ask her whether she wanted to break her engagement to him, but he never had the courage to suggest such a thing. After all, he reasoned, the mere fact that she was sound to him in a way, would make her love him. There is an age-old instinct for the woman to love and cling to the man she belongs to, and this, he thought, would have an effect upon Alice. And to a certain extent he was right.

Meantime, he increased the number of kindnesses he did for her. He took her to all the amusements the little city afforded. He taught her to dance, he sent a photograph as a present to her mother. "It has a lot of jolly tunes that will amuse the infant," was the way he expressed it when the gift arrived.

He gave her a sapphire ring one afternoon, and another day a handsome sapphire bar pin. Alice gasped at the number of things he lavished on her. He sent her modest subscriptions to magazines, to that lady's delight and he sent Alice several handsome sets of books.

"But you mustn't spend so much on me," the girl said, after a stunning set of Kipling had been unpacked. "Why not?" Lawrence asked. "There's no way I'd rather spend my money. As for the books, we can take them over to our house after we are married. So I'm really only buying furniture."

"We don't know where we are to live yet," Alice answered. "No, but we have a choice of three places. I think the old Turner house would be good, don't you? We'll have to alter it a bit, new plumbing and electricity, and it will have to be done over inside."

"Gracious, I don't know anything about furnishing a house," Alice answered. "I know I don't like shiny things, but I don't know how to pick other things."

"I'll learn," Lawrence said easily. "If not, we'll have an interior decorator come down and do it for us." "There's no hurry," he hastened to add, as he saw a tiny frown on the girl's face. "We'll have at least one winter in the city, possibly two, if you want to go thru the agricultural course. We'll come home here in the summer and hire a furnished apartment the rest of the time."

**PALESTINE RIOTS DUE TO SYRIAN AGITATORS**

New York, April 20.—Recent anti-Jewish disturbances in Palestine were fostered by Syrian agitators, Dr. Max Nordau, the well-known philosopher and Zionist leader, charged tonight in a statement made public here by the Zionist organization of America. "They receive their inspiration, accompanied with cheques from certain European quarters where there are people interested in annoying England and putting obstacles in the way of her politics in near Asia," he said. **Work is a Pleasure When Health is Good**

With lots of rich, red blood coursing through the arteries and veins to keep up nervous vigor and muscular strength, there is a joy in living and work becomes an actual pleasure.

If tired at times, healthful natural sleep soon restores the wasted energy and you are happy in being able to accomplish things—to do your work thoroughly and well.

It is only when the blood is thin, the system run down and the nerves starved and exhausted that work becomes irksome and you get down-hearted and discouraged. In this condition you do not rest and sleep well, get up tired in the mornings and dread the day's work ahead of you.

**FATHERS OF RACE HANDLED STEEL**

Says W. H. Eisenman to American Steel Treaters' Society.

Steel, apparently, is by no means a recently discovered commodity, although it has undoubtedly been brought to its highest standard of purity and quality during the last decade by the use of modern methods. In fact, it is alleged to have been a factor during the time of Adam and Eve, and was certainly in active use in the days of ancient Greece, when Homer, Ulysses and his merry warriors held sway. At least that is what one of the foremost authorities on steel, namely, W. H. Eisenman, secretary of the American Steel Treaters' Society, told the Toronto chapter of that society at a meeting held in the King Edward Hotel last night.

This society, which is purely an educational one, is allied with the big Canadian and American steel manufacturers, and conducts researches and experiments, so determining the best methods of treating steel. Mr. Eisenman traced the development of the heat treatment of steel from the lifetime of the progenitors of the human race, when certain kinds of clay were brought to a white-heat and then taken to the river and quenched. "Of course, anything relating to steel was far back as that is purely mythical," said the speaker. "but it is an undisputed fact in the old Grecian days a custom existed whereby a person was directed to heat the clay and then quench it in the blood of a man thirty years of age. This would make the clay extremely hard, and would be somewhat analogous to heat treated steel."

**Heat Treatment.**  
"The most progress in heat treatment has been attained in recent years with the advent of alloy steels, and with a very few exceptions all alloy steels are heat treated for use. This treatment develops in them all the physical properties that they are capable of possessing."

Mr. Eisenman is of the opinion that there is great need for educational work along this line. "I have seen more steel ruined by improper heat treatment than I care to think about," he said. "A product is only as good as its best treatment, and at a time like this when there is such an insistent call for increased production, every effort should be put forward to bring into use the best methods."

A national observatory is to be built in the near future by the society at a cost of one million dollars, where research work and experiments will be conducted. By this means manufacturers can keep in touch with up-to-date methods, and be able to keep abreast of the times in the standardization of steel.

**DLED STEEL**

Eisenman to Steel Treaters' Society.

As by no means a commodity, although it has been brought to the market in the last decade by the thousands. In fact, it is a factor during the winter and was used in the days of the iron horse. The iron horse, however, is a thing of the past, and the steel industry is now a thing of the future. The steel industry is now a thing of the future, and the steel industry is now a thing of the future.

**LABOR NEWS**  
**BETTER CONDITIONS AND INCREASE ALSO**

Apprentices will come up for discussion at the next meeting of the Electrical Workers' Union, and it was authoritatively stated yesterday afternoon that they would receive both higher wages and better conditions than have obtained to date. The wages current at the moment are as follows: Eight dollars a week for the second six months, and a dollar a week increase for every additional six months to the close of the third year, the wage being 30 and 40 cents an hour for the first and second halves respectively for the fourth year. What the increase will amount to has not been ascertained.

**LABOR NEWS**  
**PIANO ACTION MEN ACCEPT INCREASE**

Piano action and key workers have decided to accept the 20 per cent. increase offered by the Toronto firm. This means to the men an increase of \$5 to \$7 a week. The union last night initiated 33 new members and recorded a strong vote of thanks to the Canadian Federation of Labor for organizing the men, and preparing their schedule.

**MINIMUM OF 90 CENTS.**  
Several employers in the metal trades have signed an agreement with the Machinists' Union for a minimum wage of 90 cents an hour. This was the information given out yesterday by John Munro, one of the business managers of the union.

**ATTENDS LABOR CONFERENCE.**  
Winnipeg, Man., April 20.—E. McGruhn, secretary of the bureau of labor for the provincial government, will leave for Ottawa on Friday, where he will represent the provincial government at the conference to be held between federal officials, representatives of labor and the employes and other provincial governments.

**CARPENTERS WILL ORGANIZE.**  
By a vote of 24 to 17, Local 1520, International Brotherhood of Carpenters, comprising mostly inside woodworkers, decided to accept the proposal to incorporate a new union. This union is progressing well, and is now being organized, some shops being a hundred per cent. organized, others 40 and 50 per cent. organized.

**GYPSIES' BEHAVIOR LEADS TO ARREST**  
Police in Spring of 1918.

Later Identified as Wanted by Police in Spring of 1918.

Losing their temper, when approached by a policeman, resulted last night in Frank Steve Markovitch, 239 Simcoe street, being identified and arrested on warrants issued for his arrest in the spring of 1918. Both men are gypsies, and two years ago the police raided an Oriental fortune-telling room on Yonge street and made several arrests. The man charged with keeping was fined, but when Steve and Frank Markovitch were to appear charges of vagrancy, the police charged they disappeared from the city. Bench warrants were issued, but the police were unable to trace either of the men until last night.

The men were employed to truck new motor cars from the Union Station to a Yonge street garage. Last night they were hauling motor cars without license numbers, and Police House stopped them and issued warrants concerning the dealer's license. The gypsies are said to have become impudent and House marched them over to No. 2 police station.

Station Dutyman McIntosh identified the men as two men wanted in 1918 and the police occurrence was a case of looking up and found to be true. The men were then locked up on the old charges.

**G.N.W. EMPLOYEES TAKE TO DENIM**  
Meeting Enthusiastically Supports Move—Girls to Conduct Campaign Also.

At a large and enthusiastic meeting of the Great Northwestern Telegraph officials and employees in the evening, it was decided to take to denim, yesterday afternoon, and presided over by Chief Operator G. H. Walters, it was unanimously decided to wear the "blue denim" attire and keep on wearing it as a protest against the high cost of clothing until prices drop within the reach of the average citizen.

"We find," asserted Mr. Walters, "that the movement is growing very much broader and that more and more will have the desired effect."

Today Mr. Walters will call the feminine sex into consultation to try to arrange suitable denim to combat the high cost of ladies' wear.

"We expect to have the full force of 200 in the 'blue denim' by Thursday morning," declared Mr. Walters.

**VETERANS SEEK IDEAS ON CLUB**

Associations Urged to Forward Suggestions to Parent Bodies.

Letters have been sent to the various returned men's associations detailing suggestions relevant to the establishment of a downtown club house for the use of ex-service men. Summarized the suggestions are as follows: Recognizing the urgent need of a downtown club house for soldiers and sailors it becomes necessary to secure premises, centrally located, without delay. It has been tentatively arranged to submit a private bill to the Ontario legislature for the purpose of securing a charter for incorporation so that the management of the club would be in the hands of representative associations and individuals of standing in the city. It has been suggested that the Toronto and York patriotic fund could quite reasonably be asked to financially support the project. It is suggested that the amount received as a result of the Big Four drive, viz., \$165,000, or thereabouts, be assigned to the new corporation for the use of all the veterans in the city and under their joint control. A strong representation will be made to the board of control on Friday of this week, asking for a substantial grant and exemption from taxes for the club building. If decided, a member of the committee will be pleased to attend the meeting to answer any questions in connection with the proposed club, which members may care to ask. Toronto, as the greatest recruiting centre in the Dominion, should provide a building for the soldiers worthy alike of the offices of the men and as a permanent and useful acknowledgment of the citizens indebtedness to the men of the Canadian expeditionary force.

**PROBE RESUMED ON THREE FIRES**

Polish Merchants Come Under Heavy Cross-Examination as to Affairs.

The inquiry into the three fires which occurred in New Toronto last March was resumed last night, with Crown Attorney Greer cross-examining the witnesses. The inquiry is being conducted around the business relations existing between four merchants who came from the same village in Poland last year, Joseph Mendelsohn, Isaac Rice, Victor Nathanson and Mr. Perinattin. It is alleged that Mendelsohn bought a second-hand store from Nathanson and paid the price of \$100, which was far in excess of the price originally paid by Nathanson. Rice has premises owned by these men, and a committee was appointed to investigate the business transaction. **SOMETHING NEW IN DRAMATIC THRILLS**

"Mystery of Yellow Room" Draws Capacity House at Strand.

Something new in thrills is promised by the management of the Strand Theatre, who are to present "The Mystery of the Yellow Room" next week. The picture is adapted from the sensational French detective story by Gaston Leroux, which has been translated into various languages, and the photoplay was directed by the famous Emile Chautard. "The Mystery of the Yellow Room" starts dramatically with the scream of Mathilde Strangerson, beautiful daughter of a renowned scientist, as the criminal enters her room. Revolver shots follow, and the picture holds the audience in breathless suspense, and defies efforts to anticipate the solution until the very end. Chautard in putting this internationally famous mystery story on the screen has discarded the crude tricks of detective melodrama. He depends on swift, action and clever characterisation, and the picture being convincingly portrayed. The Strand management is confident that "The Mystery of the Yellow Room" will make an extraordinary hit as the most fascinating detective story ever shown at that theatre.

GERMANY DISBANDS HER CIVIC GUARDS

Declares, in Note, She is Taking Step Under Pressure of Ignorant.

Berlin, April 20.—Disbandment of German civic guards, demanded in the allied note of March 12, has been decided upon by the Berlin government. In a note to General Nollet, head of the allied commission of control here, the government states it is taking this step "under pressure exercised by those who ignore actual facts."

PROTEST BY LABOR ON FRANCHISE BILL

Five Big Canadian Organizations State One Section Restricts Freedom.

Ottawa, April 20.—Five Canadian labor organizations today protesting against section ten of the new franchise bill, and bearing the signature of Tom Moore, president of the Trades and Labor Congress of Canada, as well as of the representatives of the four great railroad brotherhoods, has been sent to Hon. Hugh Guthrie, minister of justice. The letter states that the section in question is a restriction of the franchise which is submitted that the section is too drastic and will interfere with legitimate interest and activity of citizens who desire to give their support to the political and economic welfare of the country.

PLANS PREPARED FOR ST. JULIEN DAY

Program Includes Parade Thru City and Tag Day.

Arrangements are practically complete for the celebrations to take place today and tomorrow in commemoration of the battle of St. Julien, at which so many Canadians fell on April 22, 1915. The program is to include a parade thru the city and a demonstration with speeches by prominent men in front of the city hall.

On Thursday, the 22nd, the tag day will be held, when it is expected that 3500 taggers will be released on the city. And old lady called in the headquarters of the Originals Club (which association is organizing the celebrations) and begged to be allowed to take part in the work for the sake of her son's memory, who was killed in that famous battle.

She was made captain of a team and within a few hours of being appointed she sent a telephone message to the effect that she was anxious to start work. A very great deal of public interest is centred in the event and the mayor has issued a proclamation requesting that all places of business suspend work for two minutes and engage in silent prayer.

The commemorative rally will reach its climax on Friday night, when a ball will be held at the King Edward Hotel, at which invitations have been sent out to all the citizens of the city. It is understood that the ball is being held under the auspices of the Originals Club, but that the funds are being raised by private subscription. It is rumored that General Sir Arthur Currie will attend the ball.

WAGE NEGOTIATIONS AWAIT OPERATORS' OFFER

New York, April 20--At the request of the mine operators, the sub-committee of anthracite miners and operators appointed to negotiate a new contract to expire on July 1, 1920, adjourned today until tomorrow evening.

It was stated today that the wage negotiations were practically at a standstill pending the receipt of a counter offer from the operators covering the demand of the miners for a 60 per cent wage increase. Operators indicated today that they would propose an advance less than the 2 1/2 per cent, recently granted the bituminous workers.

EXTRADITION DEMANDED OF BANDIT LEADER

Prague, Czechoslovakia, April 20--The German government has demanded the extradition of Max Hoels, the Saxon communist bandit, who was arrested near Ergo, Bohemia, last week.

ECHO OF BURST MAIN

Claiming unstated damages, E. J. Gadsby, manufacturer of shoe uppers, 964 Bathurst street, has entered action against the city for injuries to his building and its contents, alleged to have been caused thru the bursting of a water main on Jan. 22 last, following which his place was flooded.

FAMILY IS INCORPORATED

Racine, Wis., April 20--Mr. and Mrs. W. H. Hitchcock of Ogema, a village near here, have no children of their own, but have assumed care of eight orphans, ranging in age from six to 21. In order to do this systematically they became legally incorporated the other day. The name of this adoption firm is The W. H. Hitchcock Family, Inc. Each one of the adopted children holds stock in the organization. The capital consists of a farm and a healthy bank account.

TO SAVE THE ARMY OF GEN. DENKINE

Britain Has Sent Another Note to the Soviet Government.

London, April 20--The British government has sent a second communication to Russia, asking whether the soviet government intends to do with the adherents of General Denkin in the Crimea and pointing out again that Great Britain would view with disfavour any attempt to persecute the remnants of his defeated army.

So far as can be learned, the note is in no way in the form of an ultimatum, but it states that Great Britain considers she has a moral right to interfere, at least diplomatically, in favor of these unprotected people.

British officials are considerably annoyed at the Russian government's answer to the first British note in which Russia mentions several things she desires, including the release of the lives of the Hungarian soviet communication phrases it.

At the wireless despatch from Moscow says Russia is ready to acquiesce in Great Britain's request for amnesty for the Denkin forces in question if her proposals are agreed to by the British, the official view here is that the promise is too vague to be considered a binding one.

Winston Spencer Churchill, secretary for war, explained in the house of commons that negotiations with the bolshevik were undertaken for the purpose of securing, if possible, the release of a large number of soldiers and officers, women and children and refugees who are huddled together in China. Great Britain, he said, secretary would do all in its power thru its mission in Crimea, to prevent that territory being overrun, and all those people massacred before the negotiations were completed.

OUTPUT OF FARMS TO RETAIN PRICES

Dr. J. W. Robertson Also Urges Conservation.

Ottawa, April 20--(By Canadian Press)--Farmers throughout Canada will continue to get good prices for their products during the next two years, according to the opinion of Dr. J. W. Robertson, C.M.C. who addressed the parliamentary committee on agriculture and colonization today. "So let us go to it and produce every bushel of grain, and every pound of produce we can," said Dr. Robertson.

It would take at least two big crops to catch up to anything like normal supplies of breadstuffs, ten years to attain a pre-war status on milk products, and four or five years for beef products.

Dr. Robertson made an urgent plea for economy in every Canadian home. People must produce more and spend less. Canada's financial burden from the war was \$1,000,000,000 (one thousand millions), and would mean \$100 per family annually for many years to come.

METAGAMA ARRIVES AT PORT OF ST. JOHN

St. John, N.B., April 20--The C. P. O. S. liner Metagama arrived in port this morning from Liverpool with 1773 passengers and 1000 tons of general cargo and mail. Prominent passengers on board were Brigadier-General King, Ottawa; Lieut.-Col. E. K. Holloway, Ottawa; Capt. B. Parker of Hamilton; Sir R. Winfrey, M.P. of London, Eng.; Lieut.-Col. R. D. Williams of Vancouver; Hon. J. K. Anderson, Vancouver; and Lieut.-Col. H. W. Ade of London, Eng.

The passengers left for western Canada points on special trains this afternoon and evening.

Montreal Merchant Detained Until Passport is Issued

New York, April 20--Abraham Ruckenstein, a merchant of Montreal, arrested on the ship Augusta Victoria yesterday afternoon from Liverpool, and was taken to Ellis Island today, where he was held for the secretary of state at Washington to make valid his unexpired passport. His appeal has been sent to Washington.

Mr. Ruckenstein, alleged to be a wealthy Canadian citizen, neglected to have his passport issued by the American consul in Liverpool prior to embarking, procedure which is absolutely necessary before immigration officials at Ellis Island permit travelers to the United States to disembark.

Rev. R. H. Bell Accepts Sydenham Methodist Church

Kingston, April 20--The Sydenham Street Methodist Church has invited Rev. R. H. Bell, pastor of High Park Avenue Methodist Church, Toronto, to become pastor in June, 1921. He has accepted. The present pastor, Rev. W. T. G. Brown, former pastor of Sherbourne Street Church, Toronto, takes over the pastorate of Dominion Methodist Church at Ottawa.

WELLERS AND MINERS

Local Mining Time Awa... of C

The Toronto almost stagnated business rather than prospered. The explanation that the absence of gold is not the cause of the stagnation is not a new one. There is little on the part of the silver prices can be explained on the basis of the gold market.

Already some mining operations in the Yukon have been started. The higher price of silver has been a target for the banks. The Indian and Cuban are moving to 55, and the close of the year is fractionally lower than last year.

The oils were a little higher on the 20th. A new low was set easier, but no record. Internationally at 36c, off 2 1/2c. The Topyopas and Eureka Cresson are marked.

**SELLERS ARE SO OVERSOLD**

Local Mining Exchange Marking Time Awaiting a Period of Change.

The Toronto Mining Exchange was almost stagnant again yesterday. Prices rather than weakness, characterized the dealings and the only explanation that could be given was the absence of outside interest. Holders are not concerned with the future, but on the other hand there is little on which to base a sustained buying movement. Drooping silver prices cannot build up a bullish sentiment on the silver stocks, and the gods are waiting on a lowered cost of production which is not yet in sight. Any change in the market in yesterday's market were merely a passing mention. Hollinger and Timiskaming were the firm issues, while the reverse might be said of Beaver and Kirkland Lake. The market is hesitating in step for a movement that may yet be some little way off.

**TOUGH-OAKES MINE TO RESUME WORK**

F. C. Sutherland & Co. say: It is fully reported that mining operations will be resumed at the Tough-Oakes mine some time next month. Already some men are engaged in putting the plant in shape, preparatory to the beginning of active operations. The Tough-Oakes closed down in June of last year on account of the miners' strike, which did not terminate until late in the fall. The management considered it advisable not to resume operations until this spring, when it was considered economic conditions would be more favorable.

**NEW YORK CURB**

New York, April 20.—The severe declines which were registered in early trading on the curb today were not made up at the close. From noon on the market merely marked time, with small professional operations. The issues were mainly attributed in the absence of the real heavy buyers to a weakened technical position, which was taken advantage of by the bears. The higher-priced industrials were generally weak. General Asphalt was the target for the bears, losing 5 points to \$8. Indian Packing reacted to 11, while Cuban American Sugar, after moving to 56, gained a point toward the close. Central Tea Sugar was fractionally lower. Steamship was steady. The oils were also affected by the wave of selling. Simms Pete registered a new low of 22. White was a bit easier, but no important selling developed. International Petroleum closed at 26 3/4, off 2 1/4. The Tophams and Divides were soft. Crocus got close to the \$1 mark.

**ALASKA GOLD MINES HAS DEFICIT FOR YEAR**

Boston, April 20.—The report of the Alaska Gold Mines Company for the year 1919 shows a deficit of \$273,397 before interest and amortization. The value of the products were \$1,474,497, compared with \$1,136,223 in 1918, while the total expenses were \$1,753,118 against \$1,233,167 the year before.

**BANK OF HAMILTON A Record Year**

The forty-eighth Annual General Meeting of the Shareholders of the Bank of Hamilton was held at the Head Office of the bank on Wednesday, April 15th, 1920. There was a representative attendance. The President, Sir John Hendrie, K.C., M.C., C.V.O., was in the chair. Mr. J. P. Bell acted as secretary.

The General Manager read the report of the Directors as follows:

The Directors have pleasure in presenting the report showing the results of the business of the Bank for the year ended February 28th, 1920, together with the General Statement herewith.

The Bank has had another year of extraordinary success and the results have been satisfactory.

During the year twenty new branches have been opened, and the number of branches making 163 branches and sub-branches now being operated.

The total assets of the Bank at the end of the year were \$1,000,000 of new stock has all taken up and paid for in full during the year.

The adoption of the report, the President, Sir John Hendrie, welcomed the shareholders present, and the managers and members of the staff, many of whom had come from distant parts of the province, and expressed his satisfaction with the results of the Bank's business and referred to the excellent record of the year. He also made up of the Bank's earnings and the fact that the Bank's business was a record, which would be a dangerous strain on the finances of the country, and which would prevent the natural increase in capital needed for new enterprises and growing business, excessive taxation being, therefore, a large concomitant of the high cost of living and the prevailing discontent. It would be necessary to speed up production and to produce more of the necessities of life, both on farm and in factory. At a time when more work and more goods should be the watchword, every one seemed to be trying to obtain more leisure.

It would seem wise for people to put their money in the Bank, rather than in commodities, which have ceased to promise the profits previously earned through investment in them, while money in the Bank now will enable its owner to take advantage of opportunities which will be all open when the market reaches its maximum. Prosperity here should not blind us to evident dangers. A good seed crop in the grip of an archy, revolution, famine and social disorder; on this side of the Atlantic we have seen the disastrous effects of the money rates going up, Bank accommodation getting scarce. The General Manager has a word to say to the shareholders, to the effect that there must be a check put on unnecessary extravagance, a more judicious use of the money, and a determination to give a more efficient service in every walk of life, from the highest to the lowest. We are to come out of this aftermath of the war in the sound and sane condition which we all desire.

After votes of thanks to the President, the General Manager and the Staff, and the adoption of the report, the Directors restricted credit, the policy of the Bank of Hamilton was to consider the legitimate needs of the community, and, secondly, those of the Bank's business customers, but to

**LONDONRY PRIESTS TOOK PLACE OF POLICE**

Londonderry, April 20.—Quiet prevailed here last night, despite the expectations that the rioting of Saturday and Sunday evenings would be renewed. The night passed without the semblance of a disturbance. The prevalence of peaceful conditions was brought about by an arrangement between the authorities and the Roman Catholic priests, by which the police were removed from the neighborhood of the recent rioting. The priests taking the places of the officers and remaining on patrol all night, the clergy using their influence with the people and urging them to go home and to bed. The plan worked admirably. The streets having the streets virtually to themselves all night long.

**APPOINT MISS Z. HARRISON.**

Brantford, April 20.—(Special)—The Y.W.C.A. directors today announced that Miss Zelma A. Harrison, of Hamilton, now assistant girls' teacher in Montreal, and a graduate of St. John's C.V.O., who had been appointed industrial secretary of the local institution.

**POOR CROP OUTLOOK IN UNUNITED STATES**

**Extremely Pessimistic Surveys Cause Fresh Strength in Corn and Oats.**

Chicago, April 20.—Altho corn displayed considerable weakness today, the market advanced to a topmost level for May delivery. Bearish crop reports and renewed anxiety about the smallness of the amount of corn in store here had a great deal to do with the upturn. Prices closed normal, 1/2c higher, with May \$1.73 1/2 to \$1.74 1/2, and July \$1.68 1/2 to \$1.69 1/2. Oats gained 1/4c to 1/2c higher.

In provisions, the outcome varied from unchanged figures to 7c lower. Commission houses apparently over-reached themselves in pressing the bull side during the earlier trading. Until about midday, the majority of buyers leaned to the view that bull's factors had been discounted then, however, sentiment changing to "or less" to extremely pessimistic reports of leading crop authority regarding domestic wheat and corn. Simultaneously, good wheat and corn crops from Argentina were likely to be emphasized. Uncertainty about railway traffic conditions, especially the car supply in the west, gave the final upward impulse to prices and in particular for May.

Oats, like corn, receded at first, but then rose to the highest prices yet this season. The advance was due to the main to seasonally bullish crop reports.

**WINNIPEG CATTLE RECEIPTS.**

Winnipeg, April 20.—Receipts, 126 cattle, 70 hogs and 40 sheep. Good butchers maintained steady prices. Majority of stock offered was fair to good. Heavy weight butchers sold at \$12 to \$13; medium grade holding firm. Stockers and feeders were quiet, but the few head sold showed steady prices.

**SEEDING PREPARATIONS**

**How to Earn Success in Management of Crops.**

While we cannot compel success from our farm management, we can at least secure it. The weather is beyond our control, but we can so conduct our farm-household as to get the greatest benefit from a good season, while the reverse preparation will best fit our crops in the first case, a bad season, while the second, most probably a fair one.

Cropping operations poorly planned and thoughtlessly performed can in the very best of years and in a poor year, result in a crop failure. The season of 1919 was very far from ideal, and it is a good thing that those who did take off a "so-called harvest" were the few who are recognized as the genuinely outstanding farmers of the district.

Have a plan before starting spring work to do in the performance of the plan and endeavor to control the factor of cost of production by employing most economically the forces available.

The present season is not the only one in which good crops will be required. The future must also be considered, our land must be kept in such shape as will fit for high yields in years to come. Plans for the preservation of soil fertility include:

1. The keeping of our farms at their most productive level, year after year, to provide the manure necessary to maintain a consistently productive soil.

2. The application of a good cropping system or crop rotation, or at least, the recognition of the principles upon which such crop rotations are based.

3. The practice of proper cultural operations.

Heavy yields depend upon the strength and rapidity of growth made by a crop which is stimulated by a proper relation and supply of plant food elements on the one hand and warmth, moisture and air on the other. Plant food or the life elements (decayed) in broad speaking terms, are the first and most important factors in the soil. It is this constituent which imparts that mellow spring feel to the ground. Aim to build up the soil by practicing suitable mixed farming, crop and cultural methods in the right way at the right time.

A good crop rotation or cropping system consists of a combination of different crops in such order, that a good rotation include (1) roots, corn, potatoes or other food crop, (2) grain and (3) clover, grown in the order named, the principles of crop rotation should at least be adopted since the order of crops and duration of the system can ordinarily be arranged to meet varying requirements.

It is sound crop practice to apply manure frequently in light applications rather than heavy applications at long intervals. The first for the grasses and grain, grain and clover hay, one application for the food crop once in three years is sufficient. In rotations of five years' duration or longer it is recommended to make two applications instead of one, the first for the food crop and the second as a top-dressing, for the new stand of grasses and clover after the grain crop has been removed. An application of manure for the grasses and clover has the following influence: (a) It adds to the establishing of the grasses and clover; (b) it acts as a protection during winter especially if there is little snow or the season is severe. Profitable crop crop follow roots. Corn, potatoes, manure applied directly for grain usually results in too great a proportion of straw to yield of grain. Too many (more than two) grain crops in succession results in low yields, woody straws and a generally run down condition.

Indifferent or unsuitable cultivation may mar the results of a well planned crop rotation. Thorough well-planned cultivation will repay in the long run.

A good seed crop may be made as one mellow, uniformly level, fairly fine at the surface, but firm below, and well supplied with plant food suitable for the crop to be grown.

W. L. GRAHAM,  
Acting Dominion Field Husbandman.

**CATTLE PRICES HOLD JUST ABOUT STEADY**

**Without Any Special Features.**

Yesterday's Market Was Without Any Special Features.

With around 800 cattle on sale at the yards yesterday, trade in all lines was about steady on the better class of cattle, with probably a little shading off to the common to medium.

The run was light, and trading was practically all over before the noon hour. It looks like a fairly heavy mid-week run today.

In small stuff, the market held steady for the sheep, lambs and calves, the latter holding firm at Monday's advance.

The hog market was steady to strong, notably at 19 1/2c for f.o.b., and 20 1/2c for c.w. The market was steady to strong, notably at 19 1/2c for f.o.b., and 20 1/2c for c.w. The market was steady to strong, notably at 19 1/2c for f.o.b., and 20 1/2c for c.w.

**WHOLESALE FRUITS AND VEGETABLES**

Receipts were very light yesterday, and as the bulk of the stocks which the wholesalers had on hand, have been sold, the warehouses are rapidly becoming empty, and it now looks as if we would have a serious shortage here, as new shipments are not being sent out, and cars which were on the way, when the strike commenced, have been diverted.

Strawberries—Louisiana strawberries of choice quality are coming in, and are slightly lower in price, selling at 25c to 25c per pint box.

Stronach & Sons had shipments of rhubarb selling at \$1.50 per dozen; lettuce at 35c and 55c per doz.; green onions at 40c per doz.; oranges at \$4.50 to \$5.00 per case; lemons, at \$5 per case; apples, at \$4.75 per box; potatoes, at \$6 to \$6.50 per bushel; carrots at \$1.00, parsnips at \$2.75.

Chas. S. Simpson had strawberries selling at \$5.75 per box; lemons at \$4 to \$5 per case; Winesap apples at \$4 per box; hot-house cucumbers at \$4.25, per case; \$4.50 per bushel; spinach, at \$2.25 per bushel hamper.

Dawson-Elliott had potatoes selling at 60c per bushel; grapefruit, at \$5.25 to \$5.50 per case; lemons, at \$4.25 to \$4.50 per case; H. J. Ash had oranges selling at \$7 to \$8 per case; Messina lemons at \$4.50; rhubarb, at \$1.50 per box; strawberries, at 25c per box; Ben Davis apples, at \$5 per bushel; Dromedary dates at \$7.50 per case; carrots, at \$8; parsnips, at \$1.75; parsnips, at \$2.25, and beets at \$2.50 per bushel.

McWilliam & Everist, Limited, had a car of strawberries selling at 25c to 25c per box; oranges,

French blue taffeta of extra rich quality, with the modish apron panels.

Navy georgette gleaming with black bugle beads and touches of coral.

Navy blue georgette with elaborate black silk embroidery or bolero and tunic.

Rich black satin with gold rope girde heavily tasselled, cuffed hem lined with shot silk and touches of vivid blue.

Simpson's—Third Floor.

### Economy in Smart Suits

May Be Practised Today by Women and Misses, For You Will Note the Variety of Spring Styles at Special Prices.

The many styles in this great assortment of Women's Suits have been so popular to have become much broken in size. This alone is the reason for the striking reduction.

The suits are carefully-tailored from fine wool serges and Poirer twills in the strict, braid-bound, button-trimmed styles many women prefer, or in the novelty-tailored, braid-trimmed models.

Navy, brown, sand and black, and sizes 32 to 42 in the lot. Extraordinary value today . . . . . 35.00

### Misses' Suits in a Sale

Founded Upon a Remarkable Special Purchase to Which We Have Added a Host of Styles Straight Out of the Regular Stock, Radically-Reduced.

Fortunate, indeed, will be the young woman who obtains one of these stunning suits at the very moderate sale price.

Fine, soft tricootines, gabardines and men's serges went into their expert tailoring. There are box, ripple, distended-hip and strictly-tailored styles—to which is added the charm of silk embroidery, the smartness of military braid and many buttons, the chic of glittering vestee.

You will note, too, the shapeliness of Tuxedo shawl or tailored collar and tapering sleeve, which denote their "better" style. Besides, all are beautifully silk-lined.

Most of them are navy and black, and there are sizes 16 to 20 years in the lot. Be here when the gong goes today for this remarkable money-saving value at 47.50

Simpson's—Third Floor.

- Regularly \$95.00 Today . . . . . 47.50

Never have we staged a selling where foremost fashion, rare quality and unsurpassed values have been so happily combined. Each single frock in this wonderful assortment spells exclusiveness and originality from neckline to hem—and the fact that a very great many of them are individual models taken right out of our Salons for Imported Gowns and half-priced for the occasion, gives a key to the greatness of the sale.

The remaining frocks represent an unusually fortunate purchase which, if bought in the ordinary way, would sell at the above regular prices. Comprising in all:

- Georgettes—Just arrived. Gorgeously beaded.
- Handsome Taffetas—With apron panels, delicate stitchings.
- Rich Satins—Softly draped, accordeon-pleated.
- Georgette and Taffeta Combinations—With crystals or jets or simply fashioned.
- Crepes de Chine—In soft and cool styles.
