

Good Things Coming to Theatres of St. John

NEW PICTURES, OPERA HOUSE, ALL NEW ACTS TOMORROW AFTERNOON

The change of pictures at the Opera House yesterday in conjunction with the vaudeville programme, showed a lively Ham comedy, also the Florence Rose fashion review with a dazzling array of new gowns for street and evening wear, sport coats and bathing costumes, new ideas in hats, shoes and wraps, followed by a beautiful film in colors showing how flowers breathe and grow. The same programme will be repeated to-night at both performances.

Tomorrow afternoon comes the weekly change of vaudeville, the new programme including Edwards and Louise in a singing and talking skit; Blouy Robinson, eccentric comedian and monologist; The Rawson Trio in class singing numbers; David G. Fischer and Company in a comedy drama, one act playlet, "Immigrants"; The Great Munch, "King of Pyramids," also the 10th chapter of "The Crimson Stain Mystery."

Two shows tomorrow afternoon at 2 and 3.30, usual evening performances at 7.30 and 9.

THE GEM TONIGHT

There will be but two more chances, tonight, to see the World Brady-made picture "The Men She Married," which pleased Gem patrons so greatly; also the two good vaudeville acts. Tomorrow the programme will be entirely changed.

REV. A. T. JONES KILLED IN WAR

Clergyman Who Enlisted in Famous British Regiment

Went into the Ranks—Was Graduate of Acadia—Word of Other N. B. Casualties Received

Moncton, April 13.—C. L. Jones of Sunny Brae, a merchant, has received word that his son, Pte. Rev. Arthur T. Jones of a famous battalion of the British imperial army, was killed in action on March 26. Pte. Jones enlisted in Scotland, while on a visit there and had seen much hard service. He was a graduate of Acadia and minister of the Baptist church. He is survived by his parents, two brothers, Sergt. George W. in England, and Dr. William of Bathurst; three sisters, Vera, Theresa and Jean at home. A memorial service will be held in Sunny Brae Methodist church on Sunday afternoon.

Alfred Crossman of Crossman, Albert county, has received word that his son, Pte. John Nelson was wounded severely in the head and shoulder, on March 29. Stephen Nickerson, I.C.R. conductor, has received word that his son Gunner Cecil has been wounded in action, but is remaining on duty.

MORE THAN 160 GUNS.

It was estimated today that the guns captured by the British in the Battle of Arras numbered more than 160.

BROTHERS WITH REVOLVERS

Frederick, N. B., April 13.—William and James Langley, boys, were found in a Marysville street at midnight and arrested. Each was found with a loaded revolver. They were remanded.

Married in Stanley

Raymond Wood of McAdam and his bride were in Fredericton on Thursday, en route from Stanley to McAdam, where they will reside. Mrs. Wood was formerly Miss Jessie Douglas, daughter of Coun. J. G. Douglas of Stanley. The wedding took place at Stanley on Wednesday.

Death of Clergyman.

Montreal, April 13.—Rev. Canon J. Frederick Renaud, pastor of St. Thomas (Anglican) church, died here this morning in his 69th year. A son, Major A. L. H. Renaud, was killed at Courcellette.

Notices of Births Marriages and Deaths, 50c.

MARRIAGES

McAVITY-PHILIPS—On Wednesday afternoon, April 11, 1917, at the home of the bride, by Rev. F. S. Poole, Major Percy Douglas McAvity, elder son of Mr. and Mrs. Stephen Stannett McAvity, of Gertrude Hannah, only daughter of Mr. and Mrs. Charles Sherman Philips.

DEATHS

KINSELLA—In this city, on the 13th inst., James P., son of Augustine and Mary Kinsella, leaving his parents, four brothers and two sisters to mourn. Funeral on Sunday afternoon at 2.30 from his parents' residence, 165 Paradise Row. Friends invited to attend.

HAMILTON—At her residence, 239 Princess street, Mrs. Annie J. Hamilton, widow of the late Chas. Hamilton. Funeral from her late residence, Sunday afternoon at 3 o'clock. Friends and acquaintances requested to attend.

BROTHERS—At Boston on the 11th inst., Mary M., widow of James J. Brothers, formerly of Willow Grove, leaving three sisters and one brother to mourn. Funeral Saturday morning from Messrs. Fitzpatrick's undertaking parlors at eight o'clock, to the Cathedral for requiem high mass. Friends invited.

DONOHUE—At Boston, Mass., on April 10, Alice M. Donohue, daughter of the late Thomas and Elizabeth Donohue, leaving two brothers and one sister to mourn. Notice of funeral later.

IN MEMORIAM

ARMSTRONG—In loving memory of Harold Ernest Armstrong, who departed this life April 12, 1905. FATHER, MOTHER AND BROTHERS.

PLENTY OF LAUGHS AND THRILLS AT IMPERIAL FOR THE WEEK-END

The Imperial's programme is changed again tonight. This time the dominant note in the programme will be melodrama. In a five-part Paramount picture "A Girl Like That," Irene Fenwick and Owen Moore are the star players and the action is that of an organized gang of bank-robbers to plant one of their good-looking girls as a stenographer in a country bank. However, Dan Cupid takes a hand in the game and what was to have been a great robbery turns out, after a lot of excitement, to be a happy marriage.

In "The Secret Kingdom" (chapter No. 6) faithful Juan effects the escape of Princess Julia from the jungle asylum and Philip is thrown into New York Harbor from the deck of a ferry-boat. This is a thrilling episode. Hughie Mack and his hilarious group of comedians will put on another one of those screaming Vitagraph farces.

CHAPLIN AT UNIQUE TOMORROW AFTERNOON

As a special feature for the enjoyment of the children, Chaplin will be seen at Unique tomorrow afternoon in "A New Job," also Grand, Police Reporter and other features.

FANCY SALE

Sale of fancy work, candy and home cooking for Soldiers' Comforts at St. Stephen's Presbyterian Sunday school, Saturday, April 4, from 3 to 7 p. m.

BARGAINS IN HOME-COOKING AT IMPERIAL THEATRE TOMORROW The big pantry sale to be held in Imperial Theatre tomorrow is timed to commence at 3 o'clock in the afternoon, at an hour convenient to most householders. It will be continued right up to 6 o'clock and if all the home-cooked food is not disposed of at that hour the selling staff will remain on the job during the evening. This pantry sale will be on quite a large scale and at it plain and fancy sheet cakes of all kinds will be sold as well as cookies, doughnuts, herrings, rolls, white bread, brown bread, nut bread, etc., also some nice home-made candy.

The sale is the effort of a group of energetic housewives—all of them good cooks—who have a special errand of mercy which they think can best be attended to by this method. Prices will be moderate, making it cheaper to buy this well-made home cooking than if householders did it themselves since all of the goods are to be straight donations.

May Build Slips. Bangor Commercial—Within six weeks it is possible, indeed, very probable, that noise of the shipwright's hammer will resound in this community. The marine railway at South Brewer is being sought after by prominent eastern manufacturers who intend to take advantage of the government's request for wooden motor or steam ships, to be bought by the United States shipping board, which has \$50,000,000 set aside for that purpose and put immediately into use. Many proud sailing vessels have been built at this yard, which was formerly run by the Stetson family.

Home Again

We wish to thank the people of St. John and vicinity for their patronage to us for the last six years. We are open for business again on the ground floor, 180 Union street, and also have a branch store at 44 Wall street. We hope to give better satisfaction, better service and better goods than we have ever given before.

With our past experience in the retail business, we feel now that we will be able to avoid many unpleasant circumstances that formerly occurred.

We are carrying a good stock of pure cream, ice cream, dry-satin, not velvet; also a superior quality of whipping cream, sweet butter, creamery butter and 5 lb. tins as well as henney eggs and pure milk.

If you are in need of any of these goods, call Main 2149. We are open from 7 a. m. to 11 p. m. and when the weather gets warmer, we remove the doors.

Our milk supply will be from the best Kings county farmers. Respectfully yours, PEOPLES' DIARY, R. H. COTTER, Prop., 180 Union St.

PERSONALS Miss Muriel E. B. Fanjoy and Miss Gertrude Barker have returned to Fredericton after spending the Easter holidays at the home of Mr. and Mrs. W. V. Fanjoy, North End.

Rev. William Hogan, C.S.S.R., of Montreal, arrived in the city yesterday afternoon en route to Sydney, C. B. where he will conduct missions. Father Hogan was formerly stationed at St. Peter's church.

His Lordship Bishop LeBlanc returned yesterday after a short visit to his former parish in Weymouth, N.S. He has been away for the greater part of the week. Besides visiting his old parishioners he spent some time at Digby and other places.

On April 4, Mrs. Charles E. Stephenson passed away at her home in Florenceville. She is survived by her husband and five children. The sons are: Rex at home and Isaac of the 104th battalion, C.E.F. The daughters are: Mrs. Ira Parkhurst of Unity, Me.; Mrs. Elbridge D. Packard of Bridgewater, Me.; and Miss Beatrice at home.

At his home in St. Mary's, Samuel B. Cameron died on Thursday, aged forty years. He leaves his wife and six children; two brothers, James of Nashwaak, and Byron of Vancouver, Me.; and one sister, Mrs. William H. Bailey of Nashwaak.

THE WHEAT MARKET. Chicago, April 13.—Considerable weakness developed in the wheat market today owing to assertions that high prices had more than discounted damage to the new crop.

Opening quotations, which ranged from 1 1/2c off to 2 cents advance, with May at 218 to 219 1/2, and July at 188 to 188 1/2, were followed by some upturns, but then material setback all around.

His Neck Broken. Hamilton, Ont., April 12.—One man was killed and four others injured when an automobile in which they were traveling, plunged over an embankment on the Toronto-Hamilton highway. The dead man was John Brick, son of License Inspector Brick. His neck was broken.

TAKEN TO HOSPITAL Through the kindly offices of Dr. G. G. Melvin and Hon. Dr. Roberts, the five children taken in the Brunswick street raid on Tuesday morning and found to be suffering from a contagious and infectious skin disease, were removed this afternoon from the Children's Home to the hospital, where they will receive proper medical treatment.

LIQUOR LAW CASE. Several persons were in the police court today on reports. A man named Parker was reported by the detective department for keeping liquor in his premises. In Mill street, for allowing it to be sold and also for having liquor in a licensed pool room. E. S. Ritchie entered the plea of not guilty for his client. The case was postponed.

What U. S. A. Will Do To Help Beat Germany

The die is cast. The American people take up the gage of battle which has been forced upon them by the German Government, and will go into the war "up to the hilt" to protect their rights on land and sea, and the fundamental principles of democracy.

It will be no purely defensive war upon which America embarks, for President Wilson in his message to Congress called upon the country "to exert all its power and all its resources to bring the Government of the German Empire to terms and end the war" because "the world must be made safe for democracy."

In THE LITERARY DIGEST for April 14th, public opinion as to the practical steps which should be taken is shown. The submarine peril is one of the first, and perhaps the most important, problems to be overcome. On this subject, press writers in London and Washington tell of plans already made for cooperation between the American and Allied navies. The various view-points upon universal military service, the dispatch of troops to Europe, an agreement with Great Britain, France, Russia, and Japan, for no separate peace, three steps advocated by the Chicago Tribune, are advanced, and arguments for and against them are presented, in addition to other plans.

Other significant phases of the world's news are also shown under these headings:

A World-Tour in an Observation-Car

Those of us who have traveled to any extent are familiar with that luxury of the tourist, the observation-car. It enables the voyager to obtain a clear view of all parts of the landscape through which he is passing. Its windows open impartially upon every side. It affords a panorama of the country to right and left, of the pass ahead and of the long trail winding out behind. It shows you mountain and plain, river and sea, green fields and smoky towns, and you are free to decide which of all these you prefer. There is no compulsion, no touting. Your judgment is completely uninfluenced. Through the world of events THE LITERARY DIGEST travels in precisely the same manner, giving its readers an unbiased view of all questions, all ideas, all diversities of thought. Here, as in the observation-car, you are free to decide upon your likings. There is no attempt to persuade or convince you. You are simply given a broad view of the facts. The decision rests solely with yourself.

THE PREMIER'S SPEECH

That was a striking sentence in the speech of Premier Lloyd George, at the American Luncheon Club meeting yesterday in London, when he said: "Prussia is not a democracy, Prussia is an army." Ever since the first Frederick began to build up an army as a means of gaining for Prussia the foremost place in the North German Confederation, the yoke of militarism has been more and more firmly fixed upon the necks of the Prussian people and of the German Empire which was created by the army. As the years passed and Germany achieved greater and greater things, the army became more the emblem of German civilization. It was also the weapon which, assisted by the navy, was to win for Germany the domination of the world, for the benefit of the military autocracy by which its movements were directed and the fate of the nations was to be decreed.

CONSTANTINOPOLE

The Toronto Globe prints the following interesting summary of the situation in Turkey, and the outlook in regard to that country's further participation in the war:—

"The defence of Constantinople, which General von Mackensen is reported to be organizing, will tax all the resources of the Ottoman government. It is unlikely that Turkey, for the remainder of the war, will be willing or able to allow any of her allies. Since the war Turkey is said to have mobilized in all not more than a million and a quarter men. Of these half have been used up in the fighting at Gallipoli, Armenia, Mesopotamia, Arabia, Egypt, and by the ravages of disease to which Oriental armies are subject. About half a million men are now available, but as these are scattered over the various fronts in the Near East—the bulk of them operating in Asiatic Turkey—the task before the Ottoman government is much greater than that undertaken at the Dardanelles. To the regular forces in the field may be added fifty thousand Turkish reserves on the 1918 class, already called up, and a reinforcement of sixty thousand Austro-German troops which have been kept at Constantinople to maintain order and to prop up the present government. Enver Pasha, the evil genius of Turkey, will aid Mackensen in the task of re-organization, but the people of Turkey have no love for the Germans. According to military experts, Constantinople will fall as soon as the combined British and Russian armies bring their guns to bear on the city from the Asiatic shore opposite. But heavy fighting may be expected before the British smash their way through the Taurus Mountains, near the Turkish capital. The other two—Erzerum and Trebizond—are in the hands of the Russians. German troops are guarding the approaches to Constantinople. The immediate plan of the Allies in the Near East is to destroy the Turkish forces in Mesopotamia and Persia."

But now the world is awake, the nations are aroused, and the great democracies, which now include Russia, will not rest until the German menace has been disposed of for all time. The military autocracy must go. Its shadow has darkened the world too long. The British premier sees the fall of Turkish despotism as well as of the Hohenzollern dynasty. That was a glowing word picture in which he referred to the Canadians and other divisions attacking with the dawn.

"The great nations represented in the struggle for freedom—they are the heralds of the dawn. They attacked with the dawn, and those men are marching forward in the full radiance of that dawn, and soon Frenchmen and Americans, British and Russians, ay, Serbians and Belgians, Montenegrins and Rumanians, will emerge into the full light of a perfect day."

Mr. Lloyd George welcomes the United States because of the service she can render to the world while the war lasts, but more for what she can do at the conference table when plans are to be formulated to guarantee the future peace of the world. The sound of the tramp of Prussian legions is to cease in the world, and the heralds of peace go forth on their beneficent mission, proclaiming the will of the people of free nations undisturbed by fears of conquest.

The American people will welcome the eloquent tribute paid to them by the British prime minister, and it paves the way for closer and more sympathetic co-operation on the part of the great Anglo-Saxon peoples not only in the war, but for all time to come.

THE GERMAN PRESS

The German press professes to be vastly amused at the expense of the United States and its army. Two years and a half ago, there was a "contemptible little British army." Today Germany does not sneer at the British army, but her picked troops retire before it from positions they had deemed impregnable. These sneers at the American army will serve a useful purpose, though not in the direction Germany would wish, and if she were not so stupid she would refrain from derision, for her present course will offend the pride of the American people and stimulate them to more determined effort in the war. It is quite true that the United States could not today send a well trained army overseas, but if she desired to do so she could train a great army of men and equip them within six months and have them ready to strike. What she can do at the present moment and what will really be more effective against Germany is to utilize her navy, help to fight the submarine, and throw her tremendous energy into the task of supplying her allies with food and munitions and war materials of every sort. If the war continues long enough she will have an army large and well enough trained to turn the scale against Germany. Having a larger population than Germany she can call up powerful armies, and her soldiers will be found, like those of Canada, to be equal to the severest test.

Of course the sneers of the German press are for effect in Germany. If the people can only be persuaded that it is impossible to defeat them they will go on fighting. The fact cannot be overlooked, however, that they are feeling the pinch of famine, and must be beginning to realize something of the desperate situation into which they have been led by the war-lords. The boast of one German paper: "Let the rest of the world come as well—we will beat them all," is so utterly foolish that we can hardly imagine the writer expecting anybody to share his views, or that he himself entertains such views. German-Americans in the United States say there will be a revolution in Germany after the war. If it does not come before the end of the war it will be because the German press has been able, with the aid of the censor, to go on fooling the people.

If you cannot carry a gun perhaps you can handle a spade or a hoe. Join the gardening brigade and help to mobilize the vacant lots.

"And your second brother—how about him?" "He's at the front, too. He's been twice wounded." "And is your youngest brother, the 17-year-old Harold, also in the trenches?" "No," she said. "He's minding India."

Binks had only recently bought the new sixty-horsepower Dierhard and when his chauffeur ran it into the garage with all the tires cut to ribbons he was naturally annoyed. It is probable that he used language.

"Alfred," he cried, "what the blacking blue moon do you mean by bringing the car home in that state?" "Very sorry, sir, I couldn't help it. It was an accident. I ran over a beer bottle."

"Ran over a beer bottle? Why, surely you could have seen anything as big as that and have avoided it!" "I'm sorry, sir, but I couldn't. The boy had it under his coat."

Interred Ships To Defy U Boats

Large Fleet In U. S. To Carry Supplies

Will be ready before long

Immediate Offensive by New Ally Will be in Form of Provision Campaign

Washington, April 13—America's most immediate offensive campaign against Germany—the furnishing of food and supplies to the Allies—with the ships to transport them—is taking shape. The Treasury Department, the Department of the Interior, the Shipping Board, the Department of Agriculture, and the Department of Labor are joining hands in the effort. Many of the incidental departmental questions connected with the problem were discussed at a long session of the cabinet today.

The shipping question is commonly regarded by high officials of the administration as perhaps the first in importance of all the projects which must be expedited, and prominent among the factors involved is the use to be made of the German ships now lying in American ports. The formal decision as to the disposition of the German vessels is expected daily. In the meantime agents of the Treasury Department and the Shipping Board are making a thorough inspection of the ships in order to determine the nature and extent of the necessary repairs, and estimates on the time which they will require will be submitted as soon as the investigation has proceeded sufficiently. It is understood that the government agents are already in formal conference with ship-building concerns on the matter.

While it is understood that all of the details of the questions have not been determined, it is also understood that all German merchant ships now lying in American ports will be utilized as carriers to defeat the German submarine campaign as soon as they can be put in shape. From what can be learned of the administration's plans in this regard the government will confiscate as a matter of course without compensation all shipping owned by the German government or owned by the corporations which have a governmental character. Those which belong to private individuals or firms, it is understood, will be pressed into service, but the German owners will probably be reimbursed after the war. The question as to what is to be done with the Austrian vessels now in the hands of the federal authorities probably will not be determined until it becomes evident whether Austria

GREATLY ENJOYED
Misses Lugin's Concert Last Evening a Decided Success

A musical programme of rare excellence was given last evening at the annual concert given under the auspices of the Misses Lugin in the German street institute. Lovers of good music are accustomed to expect much of these concerts and the affair last evening fully came up to the expectations of the large audience which had assembled for the occasion. Their appreciation was shown in the heartiness of the applause and the demands for encores. The programme had been carefully selected; each number was in itself a source of pleasure and its interpretation was such as to intensify the enjoyment of the audience.

It is seldom that St. John folk have an opportunity to hear such an organization as the Cecilia sextette. The members are residents of St. Stephen and Calais and their training has been under the direction of Dr. H. B. Mason of Calais. The excellent results secured are due not only to the quality of the voice of each member but also to the training which they receive. The members of the sextette are: Miss Lois S. Wry, soprano; Miss Bessie K. Wry, soprano; Miss Elizabeth Maher, second soprano; Mrs. A. B. Falcon, contralto; Mrs. C. F. Pray, contralto; and Miss Helen Fox, alto.

Mrs. J. M. Barnes, who ranks as one of the foremost solo pianists of the city, was heard to advantage in several numbers, each of which evoked warm applause.

GET RID OF HUMOURS
Hood's Sarsaparilla is the Medicine to Take—Makes Pure Blood

Dry, moist, scaly tetter, pimples, boils and other eruptions come from humors, which may be either inherited or acquired through defective digestion and assimilation.

To treat these eruptions with drying medicines is dangerous.

Hood's Sarsaparilla, the old reliable medicine, helps the system to discharge the humors, and improves the digestion and assimilation.

Get Hood's Sarsaparilla from your druggist. It may be confidently relied upon to do its work. It purifies the blood, tones the stomach, and builds up the whole system. It goes to the roots of diseases, and its beneficial results are permanent. It sets things to rights in the system. Remember to ask for Hood's Sarsaparilla, because nothing else acts like it and nothing else can take its place.

THE PRESIDENT OF FRANCE
M. Alexandre Ribot, the new premier of France, is a man of lofty stature, spare in figure, and yet of commanding and distinguished presence, conveying the impression of great culture and refinement. He is perhaps the most stately and decorative figure in French public life today, is a most accomplished musician, the author of several standard works on English jurisprudence and judicial institutions, is possessed of a most extensive knowledge of American and English literature, and has for the last twelve years been a member of the Academy of France.

M. Ribot may be described as the father of the Franco-Russian alliance. It was he who, as minister and premier from 1890 to 1893, despatched the French fleet on its memorable visit to Kronstadt, on which occasion the convention between the two countries was finally concluded and proclaimed to the world by Alexander III. He further cemented the bonds of union between the two nations when he returned to office as premier and as minister of finance in 1895.

Ribot is the only great French statesman of the present day who has an American wife. He has been happily married for more than two-score years to Miss Mary Burch of Chicago.

FIFTH AVENUE EASTER PARADE NOT A DISPLAY
Women Confronted With Gravity of War, Paid Little Attention to Clothes This Time

(New York Times.)

With the Stars and Stripes flying from the windows overhead, the Easter parade in Fifth avenue on Sunday was more of a demonstration of patriotism than a display of the latest and most brilliant achievements in wearing apparel. Every one seemed prosperous, but there was little of the usual emphasis on clothes. It was a day without much sunshine and a treacherous April wind chilled the enthusiasm of many young women who might have worn their latest hats and costumes under brighter weather conditions.

The crowds themselves coming out of the churches where the ministers had preached of the war and its consequences toward gayety. Men and women felt that they were confronted with stern obligations which made the mere matter of clothes unimportant.

In general it was a parade without much color, except for the red, white and blue, which were conspicuous on the garments of men and women. Even the bouquets were of patriotic design, many having been made of red, white, and blue flowers. Sweet peas, roses and violets lent themselves easily to such arrangements and wherever they appeared they added a novel and charming touch to the modiste's art. Aside from these evidences of patriotism, however, there were in olive drab uniforms of officers who had already been called to the colors also brought the war into the foreground of attention.

From the dressmaker's point of view the parade seemed to indicate that standards in dress were fixed by individual taste rather than any prevailing style. Skirts were long and skirts were short; some of them decidedly short. Striking effects in shoes were very rare, most of them being black, white or brown in color to match the skirt and hose.

In the matter of hats the emphasis was entirely on the shape. Some took the form of a trench helmet, with a strap under the chin, and many turbans were in evidence.

WOMAN'S SALARY \$12,000
Miss Kathyrine M. Haun Handles Ten Million a Year

St. Louis, April 13.—Miss Kathyrine M. Haun, of Philadelphia, treasurer of E. F. Houghton & Company, and a delegate to the fifth annual convention of the Western Oil Jobbers' Association meeting here, is said to be the highest salaried woman in the financial circles of the east, if not in the entire United States. As treasurer of the Houghton Company she receives a salary of \$12,000 a year. Miss Haun handles and is responsible for ten million dollars a year.

She commands fifty-five employees and, in addition to her duties as treasurer and director of finance and accounting, she superintended the welfare service of the firm. Miss Haun represents the Houghton Company in all matters of finance and accounting. Indications that she is a veritable feminine master of finance are absent in Miss Haun. Her outstanding characteristics are modesty and a retiring disposition.

"Every young man who enters our employ," said Miss Haun, in relating her experience and success, "expects to get somewhere near the top. The average girl just wants a job."

"Women do not succeed in business as a rule because they have no ambition to do so. Most of them want their business to be a makeshift until they have an opportunity of marrying."

"I believe in equal suffrage socially, economically, industrially, commercially, and politically, but I do not believe in women losing their womanliness in obtaining either votes or business success."

"Of course, I have had to make sacrifices. I like fun, parties and all that sort of thing, as any other normal woman, but no one is going to advance to a high position who has her mind upon social affairs."

Percy—Say, old fel, I'm in a hole. The "guvnor" wants me to begin at the bottom and work up.

Cholly—That's a cinch, dear boy! My "guvnor" expects me to dig the hole.

Straws and the Wind

NEWRAY owns 321 acres in the Hollinger-McIntyre-Newray area in Porcupine--one of the largest holdings in the richest producing section of the camp.

NEWRAY is directly in the line of strike of the Hollinger-McIntyre veins, and has proven the existence of extensive ore bodies at depth.

NEWRAY is driving a crosscut to intersect these on the 400-foot level, where the gold-bearing area has been entered and the first vein intercepted.

NEWRAY is proving up the western portion of its property by diamond drilling, which promises spectacular results.

NEWRAY will join the list of producers within 30 days. Substantial production and profits are assured.

How Can a Shoe be Produced at \$6.50 to Duplicate Higher Priced Shoes in Quality and Style?

It can only be done by the use of the best materials, which collective purchasing power alone can procure; by the use of the most efficient methods of manufacturing as developed by large manufacturers over a period of years, and by volume production carried on by experienced craftsmen, born and bred in such shoe manufacturing centres as those in which the four big Regal factories are located.

That is why Regals are only equalled by shoes costing from \$2.00 to \$3.00 more. For instance, note this model at \$6.50.

BOMBER WM. MALIN WOUNDED ON MARCH 6

Harry Malin of Adelaide street received a letter from his brother, Bomber William Malin of a well known infantry regiment. The letter states that he is now in hospital in England, suffering from gun shot wounds received on March 6. He went through one operation and is improving. Bomber Malin speaks highly of the nurses and the way he is being cared for. He was formerly a resident of Sackville, N.B.

BURIED TODAY.

The funeral of Frederick C. Dunham took place this afternoon from his late residence, Guilford street, to the Ludlow Street Baptist church, where burial services were conducted by Rev. W. R. Robinson. Interment was made in Fern-

hill. Members of Peerless Lodge, I. O. O. F., walked in a body.

The funeral of Mrs. Thomas Power took place this morning from her late residence, 31 Murray street, to St. Peter's church, where high mass of requiem was celebrated. Interment was made in the new Catholic cemetery. Relatives acted as pall bearers.

DEATH OF JAMES P. KINSELLA

Many will learn with regret of the death of James P. Kinsella, which occurred this morning at the residence of his parents, Mr. and Mrs. Augustine Kinsella, 165 Paradise row, after a lingering illness. Besides his parents, he is survived by four brothers, Joseph A., Michael H., John A. and Arthur W., all of this city; two sisters, Mary F. and Dorothy A., also of this city. The funeral will take place on Sunday afternoon from his parents' residence. The young man numbered many friends who will mourn the loss of his companionship and who will tender deep sympathy to the bereaved family in their great loss.

LOCAL NEWS

SALVATION ARMY

A very pleasant time was spent last evening at the Salvation Army citadel, Brindley street, when a welcome and tea party was given to the returned heroes, the Fred Watson, who has just returned after an absence of nearly three years spent on the battlefields of Europe. Major Barry presided and a very enjoyable time was spent.

DIED IN BOSTON

The body of Mrs. Mary M. Brothers, who died in Boston on April 11, was brought to the city at noon today on the Boston train. The funeral will take place from the Cathedral at 10 o'clock tomorrow morning. The body was accompanied by Mrs. Brothers' three sisters, Mrs. Denis Hayes, Miss Catherine Stevens and Mrs. William Brothers, and her brother, Patrick A. Stevens.

DETECTIVE RECALLED

Hearing was resumed a little after noon today in the case against C. B. Hamm and Edward Hayman and Herbert Bishop. H. W. Robertson, counsel for Bishop, recalled Detective Duncan and cross-examined him in length relative to a statement which the police submitted to the court as made to them by Bishop. The case was adjourned at lunch time and will be resumed again at 2:30 o'clock.

MRS. CHARLES HAMILTON

Mrs. Charles Hamilton died this morning at her home, 236 Princess street, at the age of seventy-two years. She is survived by one son, Charles W. Hamilton. It is an interesting fact that she died on the spot in Princess street where she was born seventy-two years ago, although the old house was destroyed in the great fire. Mrs. Hamilton had been in ill health for two years. She was a daughter of the late William Dean. The funeral will take place on Sunday afternoon at three o'clock, from her late residence.

CHINESE CASE

The Chinese cases which were recently before the police magistrate, when one man was convicted of keeping a disorderly house and several others of being inmates, came up before His Honor Judge McKeown this morning on certiorari. D. Mullin, K.C., moved to quash the convictions on several grounds, particularly that on the day of the alleged offence there was no evidence of gaming taking place such as would bring the case within the definition of the criminal code. Hon. J. B. Baxter, K.C., for the city, and Dr. W. B. Wallace, K.C., representing the attorney-general, argued contra. Judgment was reserved.

ENJOYED IT GREATLY

A successful concert was given by the members of the Girls' Club of the Playgrounds Association in the Home for Aged Females last evening. Mrs. J. S. Gillatt presided. The programme included piano solo, Mrs. E. Harding; choruses by the Girls' Club; readings, Miss Bessie Grey; club swinging, Miss Minnie McDevitt; vocal solos, Miss Nettie Boyd and Miss Bessie Grey; readings by Miss Elsie Breen and Miss Rhoda Norton and dances by members of the club. A feature of the programme which proved a pleasant surprise was the unexpected contributions of Miss Kathryn Gullivan who was heard in several vocal solos which were much appreciated. The programme was concluded with Auld Lang Syne and the national anthem. The residents of the home were delighted in the programme and extended invitations for another visit by the club.

COMMON COUNCIL ADOPTS REPORT ON ASSESSMENT

Proposed Act Will Be Forwarded To Legislature For Final Sanction

ONLY ONE AMENDMENT MADE

Limit Lifted So City Can Assess for All Charitable Grants—New Sources of Revenue Suggested

The city commissioners have set the seal of their approval upon the report of the assessment commission and all the new assessment act needs to become operative is the sanction of the legislature. The report, with the proposed assessment act, was presented to the council in committee this morning and was received and adopted.

The only change which the council recommended was of a technical nature. The bill follows the present act in limiting the amount which may be assessed for charitable grants to \$8,000, of which \$4,000 is designated for Rockwood and \$4,000 for Riverview Park. The committee this morning voted for removal of this limitation in order that all grants might be assessed for instead of being taken from general revenue.

Among the suggestions made during the discussion was one to the effect that lumber in mill yards which has escaped assessment in the past is liable, and another that the county should contribute towards the municipal institutions in the city limits.

When the meeting opened Commissioner Fisher asked if the business restrictions bill had been advertised. He was informed that if it had not been the matter would be attended to.

The report of the St. John Assessment Commission was then taken up for discussion.

Assessment for all Grants

It was urged by Commissioners Russell and McLellan that provision be made for assessing for all city grants at the first of the year, instead of depending largely upon general revenue. Commissioner Fisher agreed with this. Commissioner Russell moved that section 21, of the bill, page 102, be amended by striking out the portion reading as follows:

"provided, however, that the total amount assessed (for charitable grants) in any year for such purpose shall not exceed the sum of \$8,000. And further provided that \$4,000 of such sum of \$8,000 be paid annually to the St. John Horticultural Association, for Rockwood Park; and also, \$200 to Riverview Park."

The resolution was adopted.

Lumber Stocks

Commissioner McLellan said that the provision for assessing stocks in trade at half values would reduce the valuation by \$129,000. As one way of making this up, he suggested the taxation of lumber mill stocks of logs and lumber which, he said, had been entirely overlooked by the assessors. The matter will be brought to the attention of the assessors.

Commissioner Wigmore said that he would vote for the exemption on salaries with the one amendment.

While approving of the report in general and complimenting the members of the assessment commission on the success of their work, Commissioner Fisher wished to draw attention to some matters which might be changed without affecting the principles involved. He suggested that the council should petition for the repeal of the railway act of 1870, irrespective of the assessment act; that the street railway company should be taxed on its real estate as well as on income; that the tax on motion picture houses according to net earnings might be difficult to fix; that the rental valuation of residential portions of buildings used partly for business and partly as dwellings was too low, and he also questioned the exemption of mortgages from taxation. No action was taken.

In reply to Commissioner McLellan, who said that the exemption on salaries were not liberal enough, the mayor said that the entire exemption of household effects, which are located in the county, was the entire exemption of household effects. He added that the members of the commission had started with much more liberal ideas than they had when they finished their investigations.

Tax the County

Commissioner McLellan said that all city property including the lands held merely to protect the water supply, which are located in the county, are taxed to their full valuation. On the other hand the county does not contribute taxes on the municipal institutions located within the city limits. He thought the county should pay its share.

On motion of Commissioner Russell, the bill was received and adopted, and the bill ordered forwarded to the city solicitor to be prepared for presentation to the legislature.

KNIGHTS OF COLUMBUS

At an exemplification of the first degree, Knights of Columbus, last evening twenty-one new members were initiated. In the absence of Grand Knight Dr. W. P. Broderick, owing to illness, Past Grand Knight William J. Mahoney presided at the degree work. He was assisted by Chancellor William M. Ryan, Deputy Grand Knight H. Regan, Ward Master Maurice Delaney and Financial Secretary P. J. Fitzpatrick. Following the initiation Acting Grand Knight Mahoney introduced John M. Egan, a member of a New York council, who spoke in the highest terms of the manner in which the officers of the local council exemplified the degree.

New York. Mr. Egan said, there were some 400 councils, but he could safely say that he had never witnessed a more edifying spectacle or a degree so well put on as the one by the local council last evening.

Mr. Egan urged upon the newly elected members the necessity of preparing themselves for further advancement in the order. He also expressed his pleasure at seeing so many old members present. Preparations are now under way for the third degree.

PAYS HIS OWN WAY FROM BOSTON TO GO IN MACHINE GUN DRAFT

During Wednesday and Thursday of this week, the N. B. Machine Gun Draft, C.E.F., had ten applications from men desiring to pass by their draft. However, of the ten only three passed the strict medical examination that this draft requires. The three fortunate ones were:

Kristiansen, Joseph Edgar, St. John West.

Boyle, John Patrick, Montreal.

Richardson, John Joseph, St. Johns, Newfoundland.

The last named man was over with the first Newfoundland regiment. He enlisted at the commencement of the war for one year, but stayed sixteen months, when he received his discharge. He was working in Boston when he saw a notice of this draft in a St. John paper he was reading, giving up his position, he paid his own fare to St. John and signed on in the work of his choice. Having had experience in the machine gun work before, Lieutenant Scammel was very much pleased to get in his draft such an enthusiast for the machine gun.

ROBICHAUD WAS SENT UP FOR TRIAL

Hector Robichaud, a longshoreman, was committed for trial in the police court this morning by Magistrate Ritchie on a charge of theft of crockery from sheds at West St.

Hector Lesage of the C. P. R. police force, said that yesterday at about 10 o'clock he was on duty at No. 8 hatch and was patrolling No. 6 shed. He saw the defendant standing near a crate of crockery, which was in the shed. The accused was pulling his hand out of the crate. He accosted him and found that he had a cup in his pocket and one in his hand. The latter fell to the ground and was broken. The accused was taken to the office and later to the central police station. There another cup was found in his inside pocket by Sergeant Hastings, of the local force.

C. P. R. Policeman Harry Hargrave testified also.

Fred R. Taylor, K.C., appeared for the C. P. R. and William M. Ryan for the prisoner. The defendant had nothing to say and was committed to stand trial.

Two prisoners were fined \$8 or two months in jail for drunkenness. James Adams was given nine months in jail, six months without a fine and \$50 or three months for drunkenness and interfering with women in the street.

Another prisoner was fined for drunkenness and Policeman Hopkins, who made the arrest, said that he had reported the proprietor of a saloon in Main street for having the man, who was under the influence of liquor on the premises. The policeman said that he was there for ten minutes.

EXPECTED HERE TODAY

Rev. and Hon. Captain W. A. Cameron of Toronto, who returned from the front only a few days ago, and who since then has been in Halifax, is due to arrive in St. John again on the C. P. R. express this afternoon. He will remain in the city for several days.

REV. CAPT. W. A. CAMERON

During his previous visits to this city, Rev. Mr. Cameron has become well known to a large number of the citizens and he will receive a hearty welcome. He is the pastor of one of the largest churches in Toronto, and has the reputation of being one of the most brilliant speakers in Canada. On one occasion when John D. Rockefeller visited Toronto and heard Dr. Cameron, an invitation to become pastor of Mr. Rockefeller's church at a salary of \$10,000 a year followed, but the invitation was rejected by the clergyman, who preferred to remain in Canada.

WM. HENRY DIXON SERIOUSLY ILL IN HOSPITAL IN FRANCE

Private William Henry Dixon is seriously ill in No. 4 General Hospital, Canada, suffering from broncho-pneumonia, according to a telegram received this morning by his parents, Mr. and Mrs. H. Dixon, Sandy Point road. When the war broke out Private Dixon joined the home defense unit stationed on Partridge Island, and later was transferred into an overseas battalion and crossed to England, but was drafted into another unit and sent to France. Since that time he has seen considerable service at the front.

PRESENTATIONS

Members of the Ladies' Aid of Queen Square Methodist church and the husbands of some of the members called at the parsonage last evening with Easter gifts for Rev. and Mrs. Hammond Johnson. An address expressing the good wishes of the members was read and more tangible evidence of their sentiments was given in the presentation of an engraved gold wrist watch to Mrs. Johnson and a gold-mounted fountain pen to the pastor. A pleasant social evening was spent and refreshments were served before the gathering dispersed.

Another declares, "It is the last evidence of humanity as our boys go forward to their grim job in the trenches—the last sign that anybody cares.'"

Where is the man or woman in this great protected land of homes who would deny each soldier a single comfort? While you send your soldier hero from time to time a few welcome remembrances, it is the colossal task of the Y.M.C.A. to perform this and a hundred other efforts of guidance, counsel, protection and comfort in every Canadian military camp at home and abroad.

Lord Kitchener invited the Y.M.C.A. to extend its work to France. The task has increased over and over again as the British and Canadian lines lengthen. The cost of this effort for your boys is enormous, but what does it amount to in comparison with that which loving Canadian hearts would like to do for our brave boys? It is nothing but a trifle! So we ask with every confidence for a rousing response to this appeal for funds—urgently needed.'

HOW CANADIANS SWEEP ENEMY FROM THE HEIGHTS OF VIMY RIDGE

Canadian Headquarters in France, via London, April 12.—(By Stewart Lyon, special correspondent Canadian Press)—From the last position held by them on Vimy Ridge the Germans were swept this (Thursday) morning in one of the most heroically contested engagements in which the Canadians have recently taken part.

In a blinding snowstorm, at 5:30 o'clock, an assaulting column was dispatched to drive the enemy from the height known as "The Pimple," occupying a dominating position on the ridge to the northeast of Souchez. Though wearied by the constant struggle against the enemy an dthe elements during the last four days, the men responded splendidly to the call for this effort.

Swarming up the height, they attacked the enemy troops specially brought up to hold the position. Among them were the Fifth Battalion Prussian Grenadier Guards, which fought under orders to hold the position at all costs. The Canadians were not to be denied, however. Over the shell-plowed land, under machine gunfire, they climbed to the summit, and by 7 o'clock the flower of the German army was fleeing to the east and sought shelter in the village of Gi-venchy.

This victory, which was the second within a week, gives our army absolute command of the entire ridge. Monday's success opened the way by the capture of Hill 145—that is the highest point in the ridge, and had to be secured before the attack on the Pimple could be made with any hopes of success. By today's war on the Pimple, and the victory of the British division, which carried Bois-En-Hache, on the west side of Souchez river, the entire valley of Souchez is in our hands, and we can look down on the enemy's positions in the plain of Cambrai.

London, April 12.—The British forces in France southeast of Arras today captured the villages of Wancourt and Heninel and adjoining positions, and also made progress north of the Scarpe river and on the last portion of the Vimy Ridge held by the Germans, according to the official communication issued tonight.

The communication says: "South of the Arras-Cambrai road our troops this afternoon stormed the villages of Heninel and Wancourt with their adjoining defenses, and crossed the Cojeul river and occupied the heights on the eastern bank.

"Further progress also was made during the day north of the Scarpe, and on the last Vimy Ridge. Our gains reported this morning north of Vimy Ridge have been secured and our positions strengthened.

"In the course of patrol encounters last night northeast of Epehy, in which we secured a few prisoners, a large enemy detachment came under the effective fire of our infantry and suffered heavy losses.

"During the fighting on Monday and Tuesday we captured prisoners from all the infantry regiments of six German divisions, namely, the Seventh Reserve Division, First Bavarian Reserve Division, Fourteenth Bavarian Division, Eleventh Division, Seventeenth Reserve Division and Eighteenth Reserve Division. The number of prisoners from each of these divisions exceeded one thousand.

"In spite of the exceeding bad weather for aerial work, our airplanes were active again yesterday. They scored every opportunity to harass the hostile troops with machine gunfire. During one of the short, fine periods one of our naval squadrons, while escorting British bombing machines, was heavily attacked by a number of hostile airplanes, and did exceptionally well. Without suffering any loss itself it destroyed three attacking machines and drove down three others in a damaged condition.

"Altogether four German airplanes were brought down yesterday, and five others were driven down damaged. Six of our machines are missing, three others were brought down."

"The River Loire and its Castles" was the subject of a very interesting lecture given by W. Frank Hatheway before the members of the St. John Art Club in its rooms last evening. Mr. Hatheway, who made a tour of France last summer, was able to give very vivid and realistic accounts of the famous river and the scenes encountered along its banks, in its 400 mile journey to the sea. M. V. Padlock presided, and following the lecture refreshments were served, and a piano solo given by Miss Mary Gillchrist and a vocal solo by Miss Hall.

SUPPORT BY ST. LUKE'S MEN IN THE SOCIAL SERVICE WORK HERE

The men's Bible class of St. Luke's church closed their most successful winter series of meetings last evening with a banquet, several addresses and a musical programme. There was a very large attendance and supper was served by the ladies.

Mr. McKim referred to other men of St. Luke's who were at the front and said a tribute to two who had retired after doing their "bit" and were present last evening. Referring to the speaker of the evening, Mr. McKim said it had just dawned upon him why Mr. Belting had cheerfully consented to go over and deliver an address. The men's Bible class had just attained the age of eighteen years and was therefore old enough to enlist and Mr. Belting had come over to recruit it for social service.

Suffered From Severe Headaches FOR TWO YEARS

Headaches are many and varying; but when the head starts to ache you may be sure there is some chief cause. The stomach may go wrong, the bowels become constipated, the blood may not circulate properly, but the presence of the headache clearly shows that unless the cause is removed some other baneful disease is liable to assert itself.

STRIKING BITS FROM SPEECH BY LLOYD - GEORGE

The Times yesterday carried something of Premier Lloyd George's speech in London at an American Club luncheon. Further cables enlarge the report. The premier said he was happy in the position of being the first British minister of the crown speaking on behalf of the people of the country to salute the American nation as comrades in arms. He was glad and proud; he rejoiced as a democrat, he declared, at the advent of the United States in this conflict.

"In three years we tried every kind of blunder," said Lloyd George, "we got into every bunker, but now we have got a good public stroke, and we are right out into the course. It is worth America's while to study our blunders and begin where we are now. I am so glad the United States is sending naval and military experts to this country to exchange views with men who have been through the three anxious years of war."

Absolute assurance of victory the premier said, was to be found in the word "ships." He saw that the United States realized this fully and had arranged to build 1,000 ships for the Atlantic. Field Marshal Von Hindenburg, the premier went on, had declared that German submarines would put England out of business before the United States was ready. "He does not know America," the premier declared. He added that Von Hindenburg's prophecy was "as false as his famous line, which we have broken already."

"I can see peace coming now," the premier declared. He said it would not be a peace which would mean endless preparation for strife and bloodshed, but "a real peace, which this old world has never known."

Lloyd George said it would have been a tragedy for mankind if America had not placed herself in the front line to take part in the peace conference, with all the influence and power for right which she was now winning for herself.

Strange things had happened in this war, the premier added, and stranger things were to come. Today a devastating war was being waged. Tomorrow—perhaps not a distant tomorrow—war might be abolished forever from the category of human crime.

"It is no wonder," said the premier, "that when this great war started there were some elements of suspicion still lurking in the minds of the people of the United States of America. That there were many who thought perhaps that the kings were at their old tricks, that they thought, perhaps, regarded it as in the nature of a conspiracy of monarchs. That the people of the United States of America has made up its mind finally makes it abundantly clear to the world that this is no struggle of kings and emperors, but a great fight for human liberty."

THE CANADIANS AT VIMY RIDGE

(Philip Gibbs in New York Times.) War correspondents' headquarters, April 10.—(Dispatch to The London Daily Chronicle.)—The battle of Arras in this war and a staggering blow to the enemy. He has lost already nearly 10,000 prisoners, and more than half a hundred guns, and in dead and wounded his losses are great. He is in retreat south of Vimy Ridge to defensive lines further back, and as he goes the British guns are smashing him along the roads. It is a black day for the German armies attacking for the German women, who do not know yet what it means to them.

During last night the Canadians gained the last point, called Hill 146, on Vimy Ridge, where the Germans held out in a pocket with machine guns, and this morning the whole of that high ridge, which dominates the plain below, is in British hands. So there is removed from the British path the great barrier for which the French and British fought through bloody years.

Yesterday before daylight and afterward I saw this ridge of Vimy all on fire with the light of the great guns, which were firing at the German positions and his guns were answering the British with a heavy barrage of high explosives. This morning the scene was changed as by a miracle.

Snow was falling, blown gustily across the battlefield and powdering the caps and helmets of our troops as they marched forward to the front. But presently the sunlight broke through the storm clouds and flooded all the countryside by Neuville St. Vaast and La Folie Farm up to the crest of the ridge where the Canadians had just fought their way with such high honors. Bright batteries were firing from many hiding places, revealed by short, sharp flashes of light. But few answering shells came back, and the ridge it seemed to be a snowfield, was as quiet as any hill of peace.

Considerable excitement was caused yesterday afternoon and last night by messages which came over brokers' wires announcing that the Kaiser and the Czar had been assassinated. Apparently there was no foundation for the reports. The press wires carried nothing of the sort last night.

That the province of New Brunswick may be made a separate unit under the administration of the military hospitals is the subject of a report which is being heard in military circles, following the official visit yesterday of Surgeon General F. Carleton Jones. With Major Smith, of the discharge depot and Captain Wilson, senior medical officer of the district, Surgeon General Jones made an official inspection of the discharge depot and the military hospitals here.

Newcastle, April 12.—The death of John Doyle, a resident of Bartibog, on Tuesday afternoon after a long illness. Deceased was fifty years of age. He leaves a widow, formerly Miss Mary Ann Corcoran, and five children, three small children; also his father, John Doyle, sr., of Bartibog; three brothers—William, of Bartibog; Michael, of Bartibog, and Alexander, of Bartibog; and three sisters—Miss Mary, a trained nurse, who took care of him in his last illness; Mrs. Mary, of Bartibog, and Mrs. Wm. Murphy, Redbank. The funeral was held this morning to St. Peter's church, Muddy's Point, Rev. He is a brother of officiating. Interment was in St. Peter's cemetery.

WHAT WEAK WOMEN NEED We Have It in a Remedy Containing the Three Oldest and Most Famous Tonics Known

Vinol contains the oldest and most famous tonics known to medicine, viz: beef and cod liver peptones, iron and manganese peptones and glycerophosphates. That is why Vinol is such a wonderful remedy for weak, run-down persons, feeble old people, delicate children, and to restore strength after sickness. Read this testimony:

Haileyburg, Ont.—"I was run-down, despondent, weak and nervous and suffered from dyspepsia. I tried tonics, stomach medicines and had medicine from two doctors without benefit. The Strong Drug Co. of Haileyburg, Ont., told me about Vinol and asked me to try it. I did and could see an improvement before the first bottle was taken. I kept on taking it and do not have headaches any more, my dyspepsia has gone and I am stronger in every way."
—Mrs. J. W. Splane.

We return money in every such case where Vinol fails to benefit the purchaser. The Ross Drug Co., Limited, Was. son's Drug Store, St. John, N.B. T. H. Wilson, Fairville, N.B. Also the best suggests all New Brunswick towns.

NEED OF HOSPITAL IS SHOWN IN CHILDREN'S AID SOCIETY REPORT
Large Amount of Work Accomplished in Month — The Need of Agent to Give Whole Time

The need of a hospital where children with infectious diseases may be treated has for the third time been demonstrated in the experience of the Children's Aid Society of St. John. The five children which were taken in the raid at No. 10 Brunswick street on Tuesday morning were in such condition that they had to be removed from the police station to the Children's Home in Elliott row. They were isolated in a room on the top floor and Dr. Melvin, medical health officer, examined them and found them suffering from some sort of skin disease, which is both contagious and infectious. One of the children had been badly burned and its condition was much worse than that of the others. Dr. Melvin said they should be isolated.

An effort to get them placed in hospital failed. The secretary, Rev. W. R. Robinson, submitted this report to a meeting of the executive of the Children's Aid Society at the home in Elliott row yesterday afternoon. Mrs. E. A. Smith and Mrs. H. A. McKeown were appointed a committee to endeavor to have these children looked after by the proper authorities in order that the home in Elliott row may not have to be quarantined again.

Various matters connected with the work of the society were discussed and the secretary submitted the report for the month with respect to the work of the society. Admitted to the home, 17; treated, 19; allowed to go home with parents, 18; returned to parents on suitable home being provided, and conditions in the home improved, 8; furnished with clothing, food and fuel, 41; placed in provincial hospital, 1; taken from parents because of ill treatment, 1; taken from municipal home and placed in own home with parents, 2. Total number of children cared for during month, 92.

FRECKLE-FACE Sun and Wind Bring Out Ugly Spots—How to Remove Easily

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling. Simply get an ounce of othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine as this is the prescription sold under guarantee of money back if it fails to remove freckles.

47; number of interviews with people in their troubles, 217; number of homes visited in connection with these interviews, 88; unfortunates visited in prison, 28.

This does not include the miles travelled, the lectures delivered, the calls out at night, in needy cases, the attendance at the police court, the letters written, the papers made out in connection with all these cases or the numerous telephone calls. There are thirty-four reported cases that have not been investigated, on account of time.

BANK OF B. N. A. IMMENSELY STRONG LIQUID RESERVES
The Bank of British North America at its annual general meeting in London on March 5, reports of which have now reached Canada, presented a statement for the year ended Nov. 30, 1916, which should afford complete satisfaction both to shareholders and clients of this solid institution, now more than eighty-one years old. The balance sheet showed a notable expansion of business with an increase of over \$5,000,000 in total deposits, which now amount to nearly \$60,000,000, and note circulation increased by nearly \$900,000. Current advances show little change. Many regular borrowing customers have been able to reduce their liabilities out of profits, in some cases even becoming depositors. Indications, however, point to their requirements returning to normal, owing to the rise in prices, and the increased cost of production. Total assets are nearly \$68,000,000, while the readily realizable assets amount to 38 per cent. of immediate liabilities.

The chief item in the liquid assets is Canadian municipal and British government securities, the latter of which includes \$4,201,666 of British treasury bills against \$1,022,000 of that class of security a year ago. The increase in this item absorbs not only the whole of the new funds placed in the liquid reserve, but also a portion of the abnormally heavy cash items of last year.

Profits for the year amount to \$546,346. Out of this a dividend of forty millings per share has been declared, making the total distribution for the year at the rate of 7 per cent. per annum. Substantial appropriations were made for the various funds for the benefit of the staff, and a general staff bonus of 5 per cent. on the salaries was granted, extending to all members on active service.

MONEY IN GOOD ROADS

(Halifax Chronicle) It cannot be successfully disputed that certain direct money advantages follow upon the improvement of public highways. The first and most apparent is the reduction in the cost of haulage and following that comes an increase in the value of the farm lands served by the improved roadway. A recent bulletin issued by the United States department of agriculture dealing with this subject says: "Many attempts have been made to fix the relative weights which a horse can draw in an ordinary wagon over level road surfaces of various kinds, and the following figures are current and fairly reliable: On a muddy earth road the amount varies from nothing to a maximum of 800 pounds; on a smooth, dry earth road, from 1000 to 3000 pounds; on a gravel road in bad condition, from 1000 to 1800 pounds; on a gravel road in good condition, about 3-300 pounds; on a macadam road, from 2000 to 5000 pounds; and on a brick road, from 5000 to 8000 pounds. These figures show that if the speed of travel is the same on all these road surfaces a horse will haul on a good macadam road from three to five times as many tons per mile in a day as upon a moderately muddy earth road. This matter may be considered in another way by admitting that one horse is capable of a certain fixed duty per day. If, with a given load, the effective radius of travel from a given point on a macadam road is from three to five times the radius of travel from that point on a moderately muddy earth road. A properly run farm is, after all, a manufacturing establishment. By the exercise of skill and the use of labor the farmer produces certain articles for sale.

Too Sick To Work

Many Women in this Condition Regain Health by Taking Lydia E. Pinkham's Vegetable Compound.

Convincing Proof of This Fact. Ridgway, Penn. - "I suffered from female trouble with backache and pain in my side for over seven months so I could not do any of my work. I was treated by three different doctors and was getting discouraged when my sister-in-law told me how Lydia E. Pinkham's Vegetable Compound had helped her. I decided to try it, and it restored my health, so I now do all of my housework which is not light as I have a little boy three years old." - Mrs. O. M. RHINES, Ridgway, Penn. Mrs. Lindsey Now Keeps House For Seven. Tennille, Ga. - "I want to tell you how much I have benefited by Lydia E. Pinkham's Vegetable Compound. About eight years ago I got in such a low state of health I was unable to keep house for three in the family. I had dull, tired, dizzy feelings, cold feet and hands nearly all the time and could scarcely sleep at all. The doctor said I had a severe case of ulceration and without an operation I would always be an invalid, but I told him I wanted to wait awhile. Our druggist advised my husband to get Lydia E. Pinkham's Vegetable Compound and it has entirely cured me. Now I keep house for seven and work in the garden some, too. I am so thankful I got this medicine. I feel as though it saved my life and have recommended it to others and they have been benefited." - Mrs. W. E. LINDSEY, R. R. 3, Tennille, Ga. If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

available. Upon an "ordinary" road, Mr. Fitch was able to haul an average of only nine barrels of apples to the railway for shipment. His average shipments amounted to 900 barrels per year. Consequently, it would have been necessary to make one hundred trips over that mile and a half road to get all the apples to the station. As the team naturally returned to the farm after each trip, the distance necessarily covered in making the shipments was 300 miles. But

after the road was improved, the same horse, with the same vehicle was able to haul an average of twenty-one barrels of apples to the trip. Thus it follows that the 900 barrels of apples could be transported over the mile and one-half of improved road in 48 trips and the team traveled less than 180 miles in making these trips. A clear saving of over fifty-six per cent. in the cost of transportation, to say nothing of the saving in depreciation on the vehicle and harness, due directly to the improvement of the roads. The illustration given further shows a direct increase in the value of the farm of twenty per cent. in one year. What better argument could there be for improved roads in Nova Scotia?

UNCLE SAM'S NAVY The United States Navy Year Book for 1916, just made public, shows that the enlisted personnel of the United States Navy is composed of nearly 60,000 men, of whom more than 91 per cent. are native-born Americans. Another fact is that the ships in the navy fit for service have a total tonnage of approximately 1,400,000 tons. Following are the vessels of each class that are listed as fit for service: Dreadnoughts, twelve; pre-Dreadnoughts, twenty-five; armored cruisers, ten; cruisers, first class, five; cruisers, second class, four; cruisers, third class, six; monitors, seven; destroyers, forty-nine; coast torpedo vessels, sixteen; torpedo boats, seventeen; submarines, forty-two; naval yachts, twenty-eight; transports, four; supply ships, four; hospital ships, one; fleet ships, twenty-one; naval academies, the Mississippi, Idaho, and New Mexico.

BOWLING.
Walsh Victorious.
Rolling the first ten string lap of a special twenty-string match on last Monday evening on the Lewiston, Me., bowling alleys, Archie Walsh, the candle pin wizard of Chelsea, Mass., buried Emery Russell of Lewiston under 142 timbers. Starting off the reel with 101 and never falling below that figure on any string, Walsh made a ten string total of 1121 pins, while the best that Russell could do was a total of 979.
Throughout the evening Walsh was at the top of his game, having his first ball working for perfect hits, practically all the time and cleaning up his spare breaks with wonderful accuracy. Russell was not up to his usual form of this season and in addition the greater portion of the hard luck of the game fell to his share.
A summary of the evening's rolling shows that Walsh made seven strikes and eighteen spares, good for 196 extra pins. He cleaned up twenty tens and missed six spares. Russell made one strike and sixteen spares, good for ninety-three extra pins. He made twenty tens and missed ten spares.
The players were: Archie Walsh—101, 101, 107, 109, 123, 112, 107, 130, 108, 123—1121. Emery Russell—88, 108, 96, 98, 82, 106, 96, 114, 103, 87—979.

DOG RACING
Teams Held Up By Storm
Nome, Alaska, April 12.—A terrible storm is blowing on Seward peninsula, and the All-Alaska Sweepstakes racing dogs in the 412 mile run begun yesterday have not been heard from since they left Solomon, 32 miles east of Nome. It is believed all four teams have taken refuge in a roadhouse at Timber, 64 miles from Nome. There is no telephone at Timber.
AUSTRIA ALSO
Washington, April 12.—Austrian and Bulgarian representatives are endeavoring to approach Entente diplomats in Switzerland on the subject of peace. Press dispatches today reporting Bulgarian efforts in this line developed the fact that it is known here not only that Bulgaria has taken soundings, but also that there has been similar action in the name of Austria-Hungary. Whether the two countries are working separately or together is not known, nor has any reference been made to the attitude of Germany or Turkey.

GIVE THE FARMER A SQUARE DEAL

Need For Increase In Production of Food Stuffs SOME NECESSITIES

Labor, Fertilizer and a Fair Price for Produce — Some Suggestions to the Dominion Government by a Halifax Paper

(Halifax Chronicle)

The pressing necessity for an increase in the production of foodstuffs during this year is generally admitted. By the written and spoken word our people generally have been well informed of the great need for increased production. But is that enough? Should we not go further and simply pointing out the need and putting all the burden on the shoulders of the agriculturist? We think not.

Let us look at the problem of increasing production from the farmer's point of view for a moment. Every farmer in this country who is considering what he can do to help win the war by increasing his production is first faced with the problem of a great shortage of labor. He has, possibly, definitely determined not to put as much acreage under cultivation this year as he did last because he cannot get the labor to properly plant and look after the crop. By doing so he is restricting the production of the country. How can this difficulty be best overcome?

There is practically nothing that the individual can do to overcome it. The only measures which will have a tendency to overcome it are measures which can be taken only by the Dominion Government. Labor must be mobilized just as military forces were enlisted and mobilized. Industries which do not for the moment produce the necessities of life should be dealt with in such a manner as to free the laboring men for service in agriculture and other industries producing the necessities of life. This is something upon which the Dominion Government should have initiated a fixed and definite policy two years ago, but while it cannot be made as effective, still it is not too late to make a start now.

The second matter to which the farmer must give consideration is the matter of obtaining sufficient fertilizer to enrich his land. Due to lack of fertilizer Germany's production of potatoes last year fell off seventy-five per cent. The chemicals used in the production of fertilizer are also required in the manufacture of munitions. Consequently there has been a great increase in the cost of fertilizer and a great scarcity in its production. Great Britain has prohibited the export of fertilizer in order to conserve her own supply. Enquiry might determine just how wise a policy, having regard to the interests of the whole Empire, that is, if fertilizer is available in Great Britain and the "slag fertilizer" which can be obtained there only at a prohibitive cost, is a wise one. It is not a requirement of the Dominion Government is the authority which should address itself to the problem. So far as we have knowledge no effort along this line has been made by the Ottawa administration. The provision of a plentiful supply of fertilizer is one of the most important factors in any campaign to secure increased production. To a farmer faced with a shortage of labor the obvious remedy is to increase the fertility of the acreage which the labor available is capable of cultivating. This can be accomplished in no better way than by a generous application of fertilizer. Owing to the cost and the difficulty of obtaining this necessary article it is undoubtedly the duty of the Dominion Government to come to the farmer's assistance and furnish it to him at a reasonable price.

Assuming that a farmer has the labor and the fertilizer necessary to produce a bumper crop his next enquiry will be: "What price will I obtain for the crop when it is harvested?" This is a most important consideration to him. He is well aware by bitter experience that over-production in the past has led to lowered prices—lowered sometimes below the cost of production. If a patriotic farmer expends in labor and fertilizer more money than he gets for his products he is not likely to continue the process long. Our farmers, as a rule, are not wealthy. They cannot afford to lose a crop or even the profit on a crop. If, however, the farmer knew that he would receive a fair price for his product when harvested he could be depended upon to do the very best he could to raise a heavy crop.

The government of Great Britain has appreciated this viewpoint and has guaranteed the producer a fair price for his product when harvested. This Dominion Government should follow this example. The Dominion Government has shown an entire lack of appreciation of the problems which confront the farmer, owing to the scarcity of labor and fertilizer and it has so far made no provision to supply the farmer with these vitally necessary aids to production. This being the case the obvious duty rests upon it of guaranteeing the farmer that he will receive fair prices for

such products as he can raise when harvested. By so doing the government could help substantially in increasing production in Canada this year.

There is no good reason why the farmer could not be given the same measure of assistance which was given to his brother producer, the manufacturer. When munitions first came to be manufactured in Canada the producer was guaranteed a price which would yield him a profit to induce him to undertake the business. In addition the guinea price was fixed high enough to permit him to reimburse himself for the cost of his plant and equipment. Why not give a measure of fair play to the farmer and guarantee him a fair price for his products this year?

As has been stated the cardinal points which must be considered before a campaign for increased production can be successful are labor, fertilizer and fixed prices. To a very great extent the provision of these vital factors comes solely under the charge of the Dominion Government. So far it has done nothing but to advise increased production. The time for action is now. Let it give the farmer a "square deal" and he will do the rest to the limit of his ability.

THE BIRTH OF A NEW WORLD

(Toronto Star)

Sir Wilfrid Laurier says that if the entrance of the United States into this war tends to shorten the conflict, "it is a great humanitarian act." That may seem a strange phrase to use in regard to a declaration of war. But we are growing accustomed to strange things; or rather we are coming into a frame of mind in which nothing seems strange. Old traditional ideas must be scrapped and made over again; the metal melted and poured into new moulds.

This is not an international war of the old kind. It is a civil war of the world, which must end in revolution. The world will be transformed, just as Russia is being transformed. The revolution in Russia, the entrance of the United States into the war, cannot be described in the old language of war. It is as if great natural forces had been released, as if the elements had entered the contest against Prussian ambition, as if the stars in their courses were fighting against Siam.

Prussian vanity may be pleased at the notion of "fighting the whole world," and that may take away the sting. What does it matter? Nations have pale before the vast shattering elemental disturbance, the vast convulsion of nature which we are witnessing. The defeat of Prussian ambition will be a mere incident in the recasting of the world—like the falling of the leaves in autumn, enriching the soil for future growth. The Teutonic struggle is the last effort of the old order to maintain itself. The death of the old order will be the birth of the new world.

One of the most solemn and pathetic thoughts of this hour is, that the mighty changes we are witnessing and about to witness will not be seen, in this world at least, by those who have made the supreme sacrifice. They who have sown

Cedar Polish

Cleans and Brightens everything it touches

Every change in weather is registered on the sensitive surface of mahogany furniture. This dull bluish film is at times almost the despair of the proud possessor of a mahogany piano, table, buffet or chairs.

O-Cedar Polish removes the stubborn coating, cleans away every speck of dust and grime, reveals the hidden beauty of the grain; and imparts to this clean surface a hard lustrous finish, gleaming like glass.

O-Cedar is equally splendid for less difficult surfaces—enamel, lacquer, oak, walnut, woodwork and floors. You can trust it absolutely.

seed will not reap the harvest. They have died that humanity may live. We cannot reward them, we cannot even adequately commemorate their deeds. We can do no more, as Lincoln said, than dedicate ourselves to the unfinished work which they have so nobly advanced, and from these honored dead take increased devotion to that cause for which they gave the last full measure of devotion. "We here highly resolve that these dead shall not have died in vain; that this nation under God

shall have a new birth of freedom; and that government of the people, by the people, and for the people shall not perish from the earth." We need change but one word. The struggle today is for the emancipation, not of a nation only, but of the world.

Unable to purchase tobacco at the advanced prices, Joe Gidley of Uniontown, Penn., is raising in his front yard a crop which he says will be a lifetime supply.

Martin Orme Player Piano

Evidences of Sincerity

If you had your choice of two beautiful vases, the one factory-made, stiffly and coldly correct; the other a hand-made vase, but making visible in its every graceful line the soul of an artist-craftsman, which would you select? We are very sure you would be charmed by the sincerity and personality of the skilled craftsman's handiwork. When you select your piano, remember it will be for a lifetime. Put your faith in a player-piano that is the personal achievement of a recognized genius in the art of tone-production.

Each individual Martin-Orme Player is the personal pride and enthusiasm of a master-artist-craftsman to whom anything short of the highest ideals in player-piano building would be unthinkable. Every Martin-Orme Player is made in sincerity under the personal supervision of Owain Martin, the creator of many innovations which have since become "standard" in high-class piano construction. We invite your critical inspection of these famous instruments in our warehouses.
