in creating the gorgeous apbarel now being presented for Spring the designers were oblivious to distance. It is interesting to note that they have found their inspiration in Spain, in the Balkans and in the faroff Orient.

Suits offer a gratifying diversity of fabrics, tricol tine, Poiret twills and serges head the list, but then tweeds, hairline stripes, wool jerseys and others are equally as prominent, while the styles and trimmings are such that every woman can make easy selection.

Coats as well as Capes and Wraps are well to the front in soft woollens, and how artistically many of them are embroidered.

Frocks come in such a diversity of styles that it is a very simple matter this season to choose one that fully expresses one's personality.
