WOMEN DISCUSS NATIONAL HOLIDAYS

Concluding Session of Institute Annual Being Held This Afternoon.

Special to The Times-Star. MONCTON, June 12.—At this morning's session of the annual convention of Women's Institutes of New Brunswick, Mrs. Harley Dunham, Petticoat, read a paper on "National Events."

Mrs. Dunham sounded a strong patriotic note in discussing national holidays and the history of the country. She reminded her hearers of the responsibility of the franchise and the importance of studying national problems.

Mrs. Marianne Grey Otty, Gagetown, provincial publicity convenor, submitted her report. Last year there was a large increase in the number of branches reporting activities. Miss Otty emphasized the importance of prompt reporting of news of local branches.

The concluding session of the convention is being held this afternoon. VISITING EDITOR. Arthur N. Howe, editor-in-chief of the Brooklyn Eagle, Brooklyn, N. Y., passed through the city today en route to Newfoundland where he will spend two or three weeks fishing. He is accompanied by his wife who is a daughter of the late Dr. Hamilton of this city. Mr. Howe usually makes an annual holiday trip to the Maritime Provinces and Newfoundland.

Nice Programme Ends School Term. Miss Alice Rainnie's private pupils gave their closing programme on Wednesday morning at their school room, 88 Sewell street, and acquitted themselves with success. Parents and friends of the children attended and Venerable Archdeacon A. H. Crowfoot gave an address, in which he praised teacher and pupils. Their evident devotion to study was shown, he said, by their interesting exercises and the beautiful handwork exhibited in map drawing, posters and the collection of wild flowers, correctly designated. The room was a bower of loveliness, with roses and other summer flowers, arranged by the pupils under the direction of their teacher. Those who participated in recitations and other exercises after the term's study from Grades 1 to 4 were David Haley, Evelyn Fritz, Charlotte Foster, Peggy Crowfoot, Frances McKim, Tom Wright, Ruth Ross, Kathryn Beyca and Margaret Magee.

Denies Charge of Potato Combine

FLORENCEVILLE, June 11.—A. D. McCain, manager of the McCain Produce Company, who was one of those named in the Herford report as being a member of the alleged New Brunswick potato "combine," said tonight that so far as his firm was concerned no "combine" existed, and he knew of none. There had been no movement afoot, he declared, to discourage farmers' co-operative efforts.

It was true that potatoes were shipped by groups of shippers and his firm belonged to one group. Such a group would charter a steamer and, consequently, control the loading of the boat thereafter, but, he added, this same privilege was open to any group, including farmers, if they wished to take advantage of such an arrangement.

Regarding the control of the New Brunswick Potato Exchange, Mr. McCain said that the exchange was operated purely as a brokerage proposition for the sale of potatoes in Canada and the United States. The headquarters was at Woodstock and those who used it paid so much to the exchange for each car of potatoes it sold.

With regard to the allegation about the control of prices, Mr. McCain said that never at any time was there a combine to keep down the price paid the farmer. The buyers paid what they thought fit, he said.

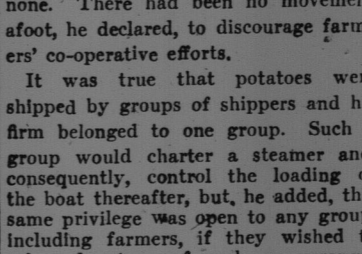

COMPANY DENIES

WOODSTOCK, N. B., June 11.—The firm of Hatfield & Co., Ltd., tonight in reply to a request made the following statement in part regarding the report of Harry Herford: "Mr. Herford held a so-called investigation secretly by star chamber methods, refusing parties accused the right to be present or to be represented by counsel or an opportunity to rebut any testimony given. No credible evidence can be produced to prove any of the material allegations contained in your telegram. There was no 'combine'; no activities to discourage farmers' co-operative movements. It was and is impossible to control export trade to Cuba, or the steamships, or the price of potatoes here. There are too many shippers, too many ships; too many brokers offering ships; too many buyers of potatoes in this country. The whole Cuban business was legitimately conducted. We are ready for any proper investigation or other action." (Sgd.) HATFIELD & CO., LTD.

SAINT JOHN, N. B., JUNE 12, 1925.

IN THE MEANTIME

In speaking of business conditions in Canada to-day, and of evidence of depression and discontent, the Toronto Globe recalls that things were much worse on several occasions in our history, and it says "there is evidence that we are on the eve of a substantial improvement."

associates employed a brigade of law-breakers.

Such a man, in Chicago at least, was not to be laid away quietly and without ostentation. On the contrary, if they could not cry his virtues from the housetops, a great number of his fellow-citizens at least thought it desirable to give him a striking funeral.

At the time of Sir John's death, the Globe recalls, conditions in Canada were very discouraging. It was a time of profound depression.

At all events there is no occasion for despair, or anything like it, to-day. Comparison with the earlier period is perhaps weakened by the fact that we are now suffering from the aftermath of the great war, but, on the other hand, the country has immense elements of strength now which it did not enjoy in the early nineties, and recovery will be slow is certain.

In the meantime there is much need that Canadians should make greater efforts to accelerate the pace of recovery. We shall gain little comfort from reviewing the past, though that may be good for our sense of proportion. Gradual world recovery will have its effect here. Fortunate there is fresh evidence that Europe is settling down and that world markets will improve, creating a growing demand for the products of this country.

The West is naturally disposed to resent an article of misleading character which recently appeared in the Edinburgh Review, containing statements likely to discourage immigration to Canada and to deceive prospective investors.

Homeicide is one of Chicago's most advertised industries, and perhaps that fact may account in some measure for a remarkable manifestation of public interest, a mixture of curiosity and affection, which marked the funeral some days ago of a king of the underworld in that city.

unknown territory lying between our possible line of profitable settlement and the North Pole. The Minister of the Interior recently told the House of Commons that Canada claimed everything right through to the Pole itself, and this statement, widely published, has given rise to some rather amusing arguments in the United States, where some, Donald MacMillan, the explorer, among them, are inquiring somewhat sharply how Canada hopes to make good its claim.

Letters to The Editor

Those Crossings

FAIRVILLE, N. B., June 11. To the Editor Times-Star: Sir.-Now that the Douglas avenue crossing matter is up again in the Council for discussion, if space will be allowed, I would like to say something in support of carrying out the overhead bridge idea, at Fairville, Douglas avenue and Mill street crossings, and also at the Sand Cove Road crossing, where a serious accident was barely averted last Sunday, the train men being so shocked by the close shave that they gave warning through the press that legal proceedings will be taken against any parties who fail to take the necessary precautions in approaching this dangerous crossing.

from the serious loss to the business interests of the city through having the traffic on the main thoroughfare tied up at these points every few minutes during business hours, which must run up to a considerable amount during the year. And speaking in a general or broader way, it may be said that both from the railway and street traffic points of view, the Fairville, Douglas avenue and Mill street crossings are, perhaps, the most important or most used crossings in the Maritime Provinces, especially the Fairville crossing. As owing to the almost continuous run of heavy freight trains during the winter port season and the shifting of engines back and forth from the round house at the Bay Shore, West Side, it is necessary to close the gates and tie up the street traffic at the Fairville crossing practically every few minutes during the 24 hours for about six months of every year, or during the winter port season.

In this way it is easy to see that the present grade crossings at Fairville, Douglas avenue and Mill street constitute a public inconvenience of no small or limited proportions, apart from the constant liability to accidents through failure on the part of drivers to notice the gates or other danger signals, especially in stormy weather. With respect to the beginning of the movement in support of making these important railway crossings in Saint John and vicinity safe for public traffic, it may be said that some years ago, owing to the frequency of accidents at these crossings and investigations, the local courts finally advised that a committee be appointed to represent with the railway and highway boards to look over the situation and settle on some plan to make these crossings safe for traffic.

With reference to the financial side of the situation, it may be said that judging from the way recent issues of both civic and provincial bonds have been immediately picked up at par, and in some cases at a premium, both the City of Saint John and the Province of New Brunswick have never been in better shape financially than at the present time. Thus, in viewing the situation in a general way, it is

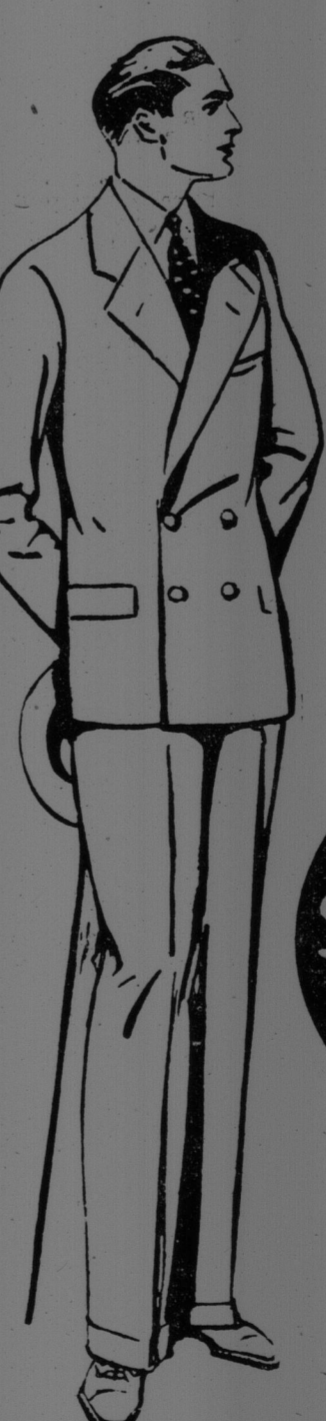

hard to see any reason why these much-needed public improvements should not be taken up and pushed along as a means of relieving the present strenuous unemployment situation, and still further in support of this work it may be said that either subways or elevated crossings are now compulsory in most all western towns and cities, whether the natural features of the ground are favorable or not.

Surely the unique position of Saint John as the winter port of Canada calls for the most convenient and up-to-date street traffic facilities and conditions that it is possible to have. Saint John, thanks to its progressive spirit, has borrowed and expended millions of dollars on harbor extensions and up-to-date facilities for changing the mode of transit of all Canadian trans-Atlantic commerce which may be routed by way of the port of Saint John, without any undue hitch or delay or avoidable loss to shippers.

Of course all this is fine and in the interests of Saint John, so far as the port works or business counts as a source of employment or source of livelihood to her citizens. But why not borrow and expend at least a few hundred thousands to make Saint John a more convenient and attractive place to do business in, and in the broader sense more attractive to industrial capital and enterprise, which, of course in turn would open up sources of livelihood to citizenship both present and prospective.

I remain, yours truly, DANIEL CAMPBELL. Saint John, June 11, 1925.

Lothiniere M. P. Accuses Bow River Progressive of False Statement

Ottawa, June 12.—A charge that a member of the House of Commons had made a false statement in the course of his speech precipitated a storm when estimates of the Department of Immigration were under consideration at an early hour this morning.

E. J. Garland, Progressive member for Bow River, was protesting against the form of immigration propaganda distributed at the Wembley Exhibition to attract settlers to Canada, and described, at some length, a poster, which, he said, depicted conditions in Canada incorrectly.

SHARP PASSAGE

"Will my hon. friend deny that the picture is a true picture of many of our Canadian farms?" queried Thomas Vien, Liberal, Lothiniere.

"If my friend will possess his irritable soul in patience I will come to that in time," retorted Mr. Garland.

"I am irritated only by the false statement," retorted Mr. Vien.

"By the false statement?" Mr. Garland questioned.

"By your false statement," repeated Mr. Vien.

Mr. Garland immediately appealed to the chair. He had never made a false statement in the House; Mr. Vien should withdraw his unparliamentary statement.

H. A. Fortier, Liberal member of Labelle, was in the chair. On Mr. Garland's protest, Mr. Vien made an explanation and said he was prepared to substitute the word "incorrect" for "false."

Meighen Joins In. Acting Chairman Fortier ruled that the explanation was satisfactory and should be accepted. To this ruling Rt. Hon. Arthur Meighen took strong exception.

"Rulings of that kind simply make a farce of the rules of Parliament," he said. "Order," shouted the Liberal members.

"To rule that a member can explain what he meant by a false statement, and not withdraw it, is to make a travesty of the rules," said Mr. Meighen.

"These rulings are not debatable," interjected Lucien Cannon, Liberal member for Dorchester.

"They are not speakable," Mr. Meighen retorted.

VIEN EXPLAINS

Mr. Vien said that he did not want to charge Mr. Garland with making a false statement. He merely wished to say that Mr. Garland was not giving a correct impression of conditions in Canada.

Mr. Cannon said Mr. Meighen should apologize for his remarks in criticism of the ruling of the chair, but the Opposition leader replied that he had made no reflection on the gentleman who was acting as chairman.

Mr. Garland finally accepted Mr. Vien's explanation, and the incident closed.

G. M. M. during that period. They also ask that the Government assist in the establishment of an adequate service to Jamaica and other ports in the Caribbean Sea from Saint John and Halifax.

Funeral Arrangements Made, Man Wires That He's Alive

BANGOR, June 12.—After identifying the body of the man who was drowned at Hermon Pond Sunday as her brother, Walter Joseph Arsenault, Mrs. George Royal of Orrington received a telegram from her brother saying that he was in Portland and very much alive.

Plans had even been made for the funeral and the body of the drowned man had been taken to the home of Mrs. Royal from the undertaking rooms of Cassidy and Kane.

This identification was positive by all who viewed the body, and one who witnessed the identification said that it was instantaneous.

Mrs. Royal arranged with the undertaking firm for burial and had the body taken to the home in Orrington. The family arranged for the funeral to be held for their supposed younger son from their home Wednesday, at 2 o'clock in the afternoon.

A burial lot was purchased in Arlington cemetery and the grave diggers were at work when a telegram was received from the supposed dead man in Portland saying that he was very much alive.

A. M. Belding Addresses Women's Institute Annual at Moncton

Mrs. Lawrence and Mrs. Lawlor, of Saint John, Speak on Maritime Problems.

Special to The Times-Star. MONCTON, June 12.—At yesterday's session of the thirteenth annual convention of the Women's Institute of New Brunswick, reports and lectures were listened to during the day sessions and in the evening. A. M. Belding, editor of the Saint John Telegraph-Journal, addressed the convention on "The Maritimes and Canada." The audiences were deeply interested in the subject and paid close attention to the speaker's remarks. Discussions followed Mr. Belding's address.

Mr. Belding referred to the growth of women's organizations in Canada and said that he would address the convention not as members of the Women's Institute but as citizens of the Dominion. Mr. Belding deplored the absence of real national spirit. He spoke of the coming Maritime conference at Moncton and dwelt on the necessity of the Maritime people doing more for themselves in the development of our resources. Mr. Belding closed with a plea for such faith and work as will revive the spirit of the founders of the Dominion and carry on to success the work they began.

Mrs. M. E. Lawrence and Mrs. J. W. V. Lawlor of Saint John spoke to the Institute on Maritime problems and yesterday afternoon Mrs. Lawrence read a paper on "Immigration."

Driver Gets 2 Years For Killing a Boy

NEW YORK, June 12.—A sentence of from two to four years in Sing Sing was imposed in General Sessions on Thomas Williams, an automobile mechanic, when he pleaded guilty of assault in the second degree. An automobile driven by Williams killed 14-year-old Paul Downing on the night of Feb. 20.

Williams had been indicted for manslaughter. He failed to stop after he struck the boy. In imposing sentence Judge Mancuso declared that the severity of the sentence was intended as a warning to "reckless motorists who are killing the youth of the city."

ATTACKS WOMEN

Novelist Declares They Are Only Sleek Jungle Cats—Should be Behind Bars.

LONDON, June 12.—"You women have not yet begun to exist. You have no brains, no poise, no balance, no morality—nothing. You are sleek jungle cats. You ought to be behind bars."

This criticism of women was delivered at a debate, organized by the Tomorrow Club at Central Hall, Westminster. His audience was composed chiefly of women.

"We live in a curious, vulgar world," he said, "which is principally ruled by women who have no morality. The first principle of morality is to like your work. Will the women who like washing-up kindly stand up? Not one of you. Dusted? Sweeping? Doing household accounts? Ah, two women have stood up. You have all proved that you loathe and detest your job—housekeeping!"

"You are not good mothers, most of you who are mothers, but of course you are charming. So are other things which have no morality. Leopards are, for instance. You purr when you obtain your way. You bite when you do not."

"Agnes, in 'David Copperfield,' is the sweetest character ever drawn by any novelist. She never used her nail scissors on her hair. She was sweet, maidenly, retiring, loving to the end. Not even she had any morality. She was, at any rate, neither over-exposed nor under-developed, like most modern girls."

"The easy way - wash clothes with less rubbing"

Mrs. Experience gives her method of getting clothes spotlessly white merely by soaking.

"It's so easy, really! There's no hard rubbing, so wearing on clothes—no boiling, no toiling over wash-tubs. Here's the way I do my weekly wash:

"I merely soap the clothes lightly with Sunlight Soap, roll them up tightly and put them to soak for 30 minutes or an hour. That's all. Sunlight dissolves all dirt and grease-spots, so that in rinsing, the dirt just runs away. A pure soap like Sunlight rinses away quickly and completely; an impure soap stays and injures the clothes.

"For dishes and all housework, Sunlight is excellent and really economical, too, because every bit of it is pure, cleansing soap. And more good news—Sunlight keeps the hands soft and comfortable." Lever Brothers Limited, Toronto, make it.

Forty years ago Slover was a prosperous farmer and lived with his wife on their little farm. They kept a cow and two horses and never knew what it was to want.

AT 78, SENTENCED FOR FIRING HOUSE

Thereafter Slover didn't give much attention to his work. There was no one to look after but himself, and though he didn't prosper, the farm provided for all his needs.

AT 78, SENTENCED FOR FIRING HOUSE

But two years ago he became hard pressed for money. It was too late then to begin all over again.

AT 78, SENTENCED FOR FIRING HOUSE

After the fire the insurance company investigated and Slover and the Crawbros were indicted.

AT 78, SENTENCED FOR FIRING HOUSE

The resolution was strongly opposed by the Liberals and Laborites.

AT 78, SENTENCED FOR FIRING HOUSE

By order, S. E. O'BRIEN, Secretary, Department of Public Works, Ottawa, June 8, 1925. 19779-6-15.

Take a teaspoonful of the powder or three compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which causes your food to ferment and burp, making gas, wind, flatulence, heartburn, and the bloated or heavy lumpy feeling that seems to follow everything you eat.

BREWERIES AND SMELTERS ARE ACTIVE ISSUES

Former Weakens on Account of Hopelessness of "Beer War" Settlement

OIL SHARES BUYING FEATURE IN WALL ST.

Reports of Declining Crude Production Stimulates Trade at Opening

MONTREAL, June 12.—Consolidated Smelters and National Breweries were the most active issues at the opening of today's stock market, the former displaying a continuance of yesterday's strength by advancing 1/2 to 2/3, while the latter was down 1/4 to 1/2. Fears for the common dividend, about which a directors' meeting is being held today, and the apparent hopelessness of a settlement in the local "beer war," are given as reasons for the weakness in Breweries. Other leaders to receive attention during the early trading this morning, were Abitibi, unchanged at 71, Brazilian, up 1/4 to 55, and Shawinigan up 1/2 to 100. The balance of the list was neglected.

IN WALL STREET
 NEW YORK, June 12.—Heavy buying of the oil shares apparently influenced by reports of declining crude production, featured the opening of today's stock market. Large blocks of Royal Dutch, Pacific, Simms and Marland being taken at advancing prices. The first sale of Maxwell B certificates was a block of 4,600 shares at 115, up 2%. American Republics opened two points higher at 70, a new top and initial gains of a point or more, were recorded by Remington Typewriter, C. P. R. and May Department Stores.

 The Inevitable Penalty of Leadership

There is only one genuine Sheathed Wire Element

THE phenomenal success of sheathed-wire has resulted in the introduction of elements with cast iron surfaces so constructed as to resemble the patented Hotpoint element.

The sheathed-wire element is the result of continuous research and experimental work extending over a period of 15 years. Each feature is covered by patents. There is nothing "just as good" as sheathed-wire. It is a Hotpoint innovation which has revolutionized electric range construction, and rendered obsolete all previous types of elements. For your own protection, insist on Hotpoint—the Range with the Indestructible Element.

BABE RUTH DRIVES OUT HIS FIRST HOME RUN OF THE SEASON

KING OF SWAT'S DRIVE FAILED TO WIN GAME

Veteran Players Are Still Shining In Majors

NEW YORK, June 12.—The twinkling of young baseball luminaries from the minors has brightened the play in the major leagues this year, but veteran stars are still shining. Cobb, Speaker, Eddie Collins, Wheat, Fournier and Ken Williams each hit hard and timely yesterday for victories.

HIS FORST HOMER. Babe Ruth, with his first homer of the season, matched a similar clout by Speaker in the New York-Cleveland game, but Babe's swat was after the game had been sewed up by Tris. Two runners were aboard the bases when this banged the ball into the stands, and the three runs gave Cleveland victory, 4 to 1.

Wheat and Fournier saved the Robins from a shut-out in their series with the Cards by lusting clouting in the seventh inning. Like Speaker and Williams, Fournier closed the rally with a four-punch amash which settled the contest, 7 to 5. Cobb led Detroit on a batting rampage with a triple and two doubles before which the champion Senators went down to defeat, 7 to 4. Walter Johnson being driven from the mound.

ON BATTING RAMPAGE. Wheat and Fournier saved the Robins from a shut-out in their series with the Cards by lusting clouting in the seventh inning. Like Speaker and Williams, Fournier closed the rally with a four-punch amash which settled the contest, 7 to 5. Cobb led Detroit on a batting rampage with a triple and two doubles before which the champion Senators went down to defeat, 7 to 4. Walter Johnson being driven from the mound.

SEVENTH STRAIGHT WIN. Cincinnati ran its winning streak to seven straight by winning the fourth consecutive contest from the Phillies yesterday, 8 to 3, while the Pirates got an even break in their series with the Braves by a parting volley of 15 hits, which won by 11 to 3.

The Chicago Cubs evened the series with the Giants by winning 7 to 4, despite Hank Gowdy's homer with one on base.

JOE IRVINE WINS BY WIDE MARGIN

Defeats Danbois in Bout Staged Last Evening in Fort Fairfield, Me.

Special to The Times-Star. FORT FAIRFIELD, Me., June 12.—The winning streak of Kid Danbois, Maine lightweight, was rudely halted last night at Libby's Theatre, here, when Joe Irvine of Saint John hammered him badly in a double six-round bout. It was evident from the start that the Canadian was the class of the pair in the ring and after a round or two of work so impressively did Irvine act that many were predicting the stopping of Danbois' victory record.

Maine Man Game. Irvine met a tough customer in Danbois and while the Canadian was always the better, Danbois was game to the core and took the worst cutting up that has been witnessed in a local ring. Irvine played for his face most of the time and his opponent's nose and mouth quickly showed the results. The bout could have been stopped in the third as the only value of the last rounds was to show the loser's game-ness.

Irvine, although he did not knock his opponent out, gave his best display in over a year and is in better shape than for a long time. His crosses had Danbois floundering off balance about the ring.

Saved By Bell. The bell saved Danbois in the ninth after he was knocked down three times. It was one of the most satisfactory bouts staged in Fort Fairfield in recent years. The men met at catch weight, Irvine going in at 148½ and Danbois at 154.

GRAHAM WON DECISION. ALBANY, N. Y., June 12.—Bobby Graham, Utica, won the decision over Larry Goldberg, Brooklyn, in a 12 round bout here last night.

Famous Negro Athlete Will Make Supreme Effort For World's Records

Along The Sport Trail

By RAY HANSEN

IF THE MEMBERS of the West Saint John Progressive Association persevere in their plans to make many improvements and additions to their play grounds they will soon be in a position to boast of having a site second to none in the Maritime Provinces. They are certainly making a name for themselves and their activities should do much to boost good clean sport of all kinds. Saint John has been badly in need of an up-to-date athletic grounds where track and field meets could be held. This city has a wealth of material that, with proper training, should be able to more than hold their own with any centre in eastern Canada. Perhaps later on the Association will be in a position to secure a competent instructor and coach for their members.

DESPITE the lateness in the season it is surprising to see the amount of interest which is still taken in bowling. Some of the local alleys are enjoying a patronage which would compare favorably with the mid winter months. Candle pin bowling has certainly taken a great hold on local enthusiasts.

IN ANOTHER couple of weeks local baseball fans should see some real good professional games. Efforts are now being made to line-up some of the barnstorming nines around Boston and the New England States. So far this year the patronage at the local pro league games has been small, but this is largely attributed to the unfavorable weather conditions. It is expected that these conditions will improve in the near future and that the attendance will greatly increase. In order to bring visiting teams here the support of the fans must be assured for nearly all the teams demand a guarantee with a privilege of a percentage of the gate. Up to the present time it would have been impossible to finance a visiting club, but when the weather gets warmer it is expected that fans will be eager to see a change of faces and style of play and they will be ready to do their bit to keep the game alive.

MANY OF THE ball players who were attached to teams in the New Brunswick league last year will be playing with clubs in the Border League this season. As a result the games will undoubtedly create considerable interest in Saint John where these players are well known.

JIMMY SLATTERY, the sensational Buffalo boxer, went down a peg in the estimation of Boston fandom Tuesday evening in his bout with Johnny Gill of York, Pa. The bout went 10 rounds and was considered one of the worst business staged there in years. Slattery apparently could have put away his opponent at any stage but was content to dance around tapping Gill with open hand punches. The crowd in attendance boomed, hissed and whistled, but to no avail. This is one of the regrettable occurrences which go to kill sport. Slattery is conceded to be one of the cleverest and most aggressive boxers in his division and is touted as a coming champion. He has been a popular drawing card throughout the eastern States, but a few more exhibitions like his recent one with Gill and his popularity will quickly go a-glimmering.

WILL HOLD PICNIC

A grand picnic under the joint auspices of the Saint John Power Boat Club and St. Mary's Band will be held at a meeting of the executive of the Power Boat Club held last night with Commodore F. M. McKelvey presiding. It was decided to hold the picnic on July 1 at Crystal Beach. The Power Boat Club members were to go up to the grounds in their own boats and arrangements were to be made with the steamboats for carrying the general picnic patrons. The details of the picnic will be arranged at a later meeting.

JOHNNY DUNDEE AND SID TERRIS WILL MEET IN 15 ROUND CONTEST

NEW YORK, June 12.—The postponed 15 round fight between Johnny Dundee and Sid Terris, New York lightweights, will feature the delayed opening of the new Coney Island Stadium tonight. Rain prevented their clash Tuesday night in a return bout, Terris having won the decision in their initial meeting at the closing show of Madison Square Garden.

SETS NEW RECORD

Swedish Runner Better Time of Paavo Nurmi in 2,000 Metres Run. STOCKHOLM, June 12.—Edvin Wide, Sweden's champion runner, yesterday established a new world's record for 2,000 metres. He covered the distance in five minutes 25 9-10 seconds, which is four tenths of a second faster than Nurmi's time, made in 1922. (On June 8, Wide made a new world's record for the 3,000 metres, of 8 minutes, 27 5-10 seconds.)

RELAY RACE TO BE FEATURE OF ATHLETIC MEET

Programme for West Side Playgrounds Tomorrow

Another programme of athletic events will be conducted on the new west side playgrounds tomorrow afternoon and will include a running brook jump, a running high jump and a senior one mile race. Several athletes have been training faithfully for these events and as a result competition is expected to be keen especially as the team winning the highest number of points will receive the Kenney shield. The Trojans have 26 points and the Alerts 31. In addition, Trojans honours are still undecided and several athletes have a chance to win out. Albert Monteith of the Trojans is leading with 10 points. Donohue of the Alerts, of the Y. M. C. A. have eight points and Yoemans of the same institution has six.

At that time the score was 5 to 2 in their favor. O'Connor replaced him and pitched well, Lawlor was on the mound for the losers. The game was interesting throughout. HUBBARD WILL TRY TO BREAK TWO OLD MARKS

Will Compete In 100 Yards and Broad Jump

CHICAGO, June 12.—De Hart Hubbard, the University of Michigan's noted negro athlete, broad jumper de luxe, and one of the leading college sprinters in America, will wind up his intercollegiate career here tomorrow in a supreme effort to establish a new world's record in the running broad jump, and also to tie the world's mark for the century dash.

Hubbard will compete in both these events in the national collegiate track and field meet at the University of Chicago. Was to Meet Locke. Hubbard was to have matched his speed in the 100-yard dash against Roland Locke, of the University of Nebraska, each having tied the world's record of 0:09.2-3 for the event this season. Advice from Nebraska, however, were that private affairs had called the Corn Husker sprinter to his home at North Platte and would prevent him from competing here.

The negro sprinter set a "big ten" record of 25 feet 3 3/8 inches in the running broad jump, making the eighth time he will be able to track the world's mark of 25 feet 6 3-16 inches, made by R. L. Legendre of Georgetown, last year.

Has Odd Style. The dusky flash has a style of springing all his own. The high knee action of the usual sprinter is absent, the knee, in fact, being almost locked. Because of this, his feet hit the ground differently from other sprinters, leaving only the spike marks on the surface, without "cupping" the track surface as the average sprinter does.

Hubbard also makes his start with the same drive that he does at the start of his broad-jumping run. This drive, which in jumping has carried him beyond the 25-foot mark eight times, a distance heretofore reached by only two other athletes, shoots him into the lead in the first five steps. It is this drive that makes him virtually unbeatable in the distance shorter than the century and which may yet enable him to force his body down the pathways faster than any human being has raced.

TRANS-ATLANTIC AIR SERVICE SOON

Company Planning Daily Trips Between London, Paris and New York. LONDON, June 12.—Daily air services from London and Paris to New York may soon be put into operation by a fleet of steel seaplanes capable of carrying 40 passengers. A novel system of travel is projected by a recently-formed company, which aims at establishing the first trans-Atlantic air service. Specially designed ships will be stationed at regular intervals, with facilities for ascertaining data relating to aerial conditions. Through the information conveyed to them from the station-vessels, the seaplanes will be able to keep clear of storms and step off the nearest ship. It is claimed that at 12 cents per letter-mail matter can be carried from London to New York in less than two days, and in one-ton loads at a time a net profit of over \$20,000 per trip. The seaplanes designed for the route are of new design. Built of steel and aluminium, they will be of varying size, some accommodating 10 passengers and others as many as 40 passengers. TWO THOUSAND POULTRY BURN

Samuel Stern of South Bay Suffers Heavy Loss in Fire

Saint John Department Sends Aid in Early Morn and Residence is Saved.

Samuel Stern, South Bay, met with a severe loss this morning when his three poultry houses, a quantity of farm machinery and a stock of firewood were destroyed by fire and more than 2,000 chickens and hens and 200 ducks were burned to death.

DOG GIVES ALARM

Mr. Stern was awakened about 4.30 this morning by the barking of a dog. He called the other members of the family. Horns were blown to arouse the neighbors and a call was put through to Commissioner of Safety Harding for help from the city.

SAVE DWELLING

It was soon seen that the three buildings comprising the poultry plant could not be saved and the efforts of the fire fighters were directed to the saving of the fine dwelling house, which was only a short distance away.

The city firemen left for South Bay at 8 o'clock and got back to the station again at 8 o'clock. After the fire Mr. Stern expressed his deep appreciation of the labors of the city department, to whom he gave credit for saving the house, which, he said, must have fallen a prey to the flames without their aid.

BEACONSFIELD FIRE

The Fairville fire department was given a run this morning about 1.30 to Summer street, Beaconsfield, for a fire in a vacant barn owned by David Riley, of Salisbury. Damage to the extent of about \$100 was done.
