## PORT ARTHUR QUIET TODAY.

Report of Another Attack is Denied.

The Japanese Advance in Korea Has Begun — Russians Were Outnumbered in Recent Fight

**ANOTHER ATTACK REPORTED.**

TOKIO, April 2, 5 p. m.—The navy department has no information concerning the reported Japanese attack on Port Arthur March 31 and expresses doubt that a general attack occurred. It was possible that a few Japanese gunboats are in the vicinity of Port Arthur and that there may have been an exchange of shots with the Russians, but it is certain that the main Japanese fleet was not engaged at the time referred to.

**PORT ARTHUR, April 2.**—All is quiet here and there is no change in the situation. The weather is warmer and the sick and wounded are making good progress toward recovery. The Japanese who were killed in the last attack upon this place were buried this morning in the Chinese cemetery outside the town with military honors. It is hoped it will be possible to raise the Japanese ships which were sunk in the attempt to block the harbor.

**JAPS OUTNUMBERED RUSSIANS.**

PARIS, April 2.—It is said that the Russian forces in the engagement near Kanan on March 27 numbered 800 Cosaks and that the forces of the Japanese consisted of about 1,100 infantry and 1,200 cavalry.

**MORE RUSSIAN TORPEDO BOATS.**

PARIS, April 2.—The St. Petersburg correspondent of the Echo de Paris says that in accordance with a desire of Vice-Admiral Makarov, the Navy yards are sending to Port Arthur by rail 18 torpedo boats of the Cyclone type, capable of making 20 knots an hour. The same correspondent says Minister Plehve went out yesterday for the first time after a two weeks' illness.

**JAPS ADVANCING.**

LONDON, April 2.—Some surprise is expressed here over the rapid development of the Japanese advance in Korea as indicated by the seizure of Yong Chun, and although little is known of this movement it is supposed the right flank of the Japanese army is making a simultaneous advance and permission is being granted to newspaper correspondents at Tokio to start for the front, which is regarded as foreshadowing serious operations.

**THE DAILY TELEGRAPH'S** Wei Hai Wei correspondent reports that the Japanese steamer Haniwa (previously reported captured or sunk by the Russians) was sunk by a Russian torpedo boat, and that 25 persons on board of her were lost.

**UP IN A BALOON.**

PARIS, April 2.—A despatch from Harbin says that Lieut. Schroder is bound for Port Arthur with an apparatus consisting of a basket suspended from several kites which will enable him to fly above warships, to the mast of which he will be attached by a light cable containing a telegraph wire. By this means he will be able to take observations at a great distance and to convey the resultant information to the ship.

**THE CARINA IN EARNEST.**

NEW YORK, April 2.—The serious manner in which the press regards her duties in preparing the Red Cross Society's Bulletin for the war, says a despatch from St. Petersburg, has been illustrated recently, when Princess Dashkoff was asked to join the court ladies sewing class. She consented, but remarked that she would prefer to have twenty seamstresses, who could do more work than all the carina's two thousand aristocrats. This observation was related to the carina, who forthwith put the princess on the black list. The incident created some sensation, as the princess belongs to one of the best known families of the higher Russian nobility. The carina is said to be in poor health, and the czar is trying to tempt her, ineffectually, to divert her mind from the subject.

**PARIS, April 2.**—The Figaro's St. Petersburg correspondent telegraphs as follows: "A detailed list of the Russian troops in the Far East was semi-officially communicated to me today and though I am forbidden to betray the secrets of mobilization, I am allowed to draw up on the evening of March 28 by the general staff at Harbin. There were then in Manchuria 170,000 infantry, 17,000 cavalry, and 258 cannon. Of this number 20,000 infantry, 5,000 cavalry and 23 cannon have been sold off to guard the railway."

"Although the bulk of the troops is concentrated opposite Korea, the strategic front extends 1,800 kilometers from Vladivostok to Newchwang on the left bank to the Liao River, the right bank being considered neutral territory."

"By June 28, 125,000 more infantry, 25,000 cavalry and 250 cannon will have been sent out."

"It is estimated that the Japanese troops landed do not exceed 50,000 and that 100,000 are waiting until the commissariat is assured before being transported, as it is impossible to feed them in Korea."

**BAD MEAT SEIZED.**

Every little while Clerk Dunham, of the market is compelled to make a seizure of calves to prevent the public from being deluded into buying pork and in some instances tainted veal. Last Thursday he seized six calves sent to the market from Norton and Sussex. They were of the poorest kind of veal and not fit to be eaten.

Don't ask your friends to secure a job for you. You would not like to have them ask you. Be independent and advertise.

## STEAMSHIP LINES WILL DO WITHOUT STEVEDORES.

New System of Handling Freight Will Put St. John Stevedores Out of Business and Reduce Long-shoremen's Pay.

Some of the big steamship companies doing business in Canada have decided to do their own stevedoring this year. This innovation is brought about, it is said, owing to the very low freight rates and the desire on the part of the companies to save money which they believe they can do by looking after this end of the business themselves. The firms which have decided to try the new system are the C. P. R. Atlantic line, Manchester line, Furness line, Thompson line and the Donaldson line.

A prominent stevedore told the Star this morning that this change would practically put the foreman stevedores out of business, although the different lines would have to supply shore captains or superintendents. It seems that the Donaldson adopted this plan this season and a shore captain who was brought from Montreal has been doing the work that formerly was done by a citizen who contributed over eighty dollars a year in taxes.

The Star's informant pointed out that the probable effect on the laboring men would be a general reduction in wages. Two rates of wages are now being paid for the work being done on the West Side. Seventeen cents per hour is the rate for loading cargo, while for the discharging of the ship 24 cents per hour is paid. The same class of men do both work and as a result there has been considerable trouble in a quiet way. It is believed that the companies are taking this present step to overcome this, and as a result the seventeen cents an hour rate may be increased slightly, but the 24 cent rate is bound to come down.

## FOUL PLAY SUSPECTED

Frederick Girl's Death Blamed on Criminal Operation — An Investigation Will be Held.

**FREDERICTON, April 1.**—Attorney General Pugsley has ordered an investigation into the death of Mary Duncan, a domestic up to the time of her death on Wednesday last in the family of Dr. Bailey, University avenue. The investigation is the result of certain suspicious circumstances surrounding her death, brought to Attorney General Pugsley's notice by the clerk of the peace. The young woman belonged to Lower Pictou, and immediately after death her remains were taken there for burial.

Today Coroner McNally, accompanied by Dr. McGrath and Constable Robinson, drove to the locality, and Dr. McGrath held a post-mortem examination, the result of which has not been made public. Coroner McNally empanelled a jury, who viewed the remains. If the post-mortem warrants the facts suspected by Pugsley's notice will be investigated. So far no incriminating facts have been made public.

**MANY CHANGES.**

WILLES, the C. P. R. agent at Pictou, who is under arrest with eighteen charges against him, including forgery, was up before Police Magistrate Ritchie this morning and several witnesses were heard.

The witnesses examined were Chas. W. Burpee, Frank A. Cousin, E. F. Reed, James H. Reed, Edward Conway and William Fair.

James H. Reed and Wm. Fair swore that they had received money from Willes for extra work having been paid twenty-eight dollars in all.

Wilkes was remanded till Monday. The evidence was of an uninteresting nature.

**PIPES ALL THAWED.**

The thawing operations which the water and sewerage department has been carrying on for the past two weeks are so about ended. The service pipes throughout the city are nearly all freed of ice. There are now only two boilers in operation and these are located along Mill street, they will probably be withdrawn this evening.

Last Wednesday the department broke the earth on Brittain street and a fractured main was repaired. There was little or no leakage, and the water pressure was not affected.

**BEN LOMOND HOUSE SOLD.**

Auctioneer Potts did not succeed in getting a satisfactory bid for any of the Ben Lomond property, which he offered for sale at 12 o'clock on Chubb's Corner. The eastern portion of the property on which the buildings are situated was withdrawn at \$4,500. The cottage lot was withdrawn at \$600.

**U. S. NAVAL OFFICER SUICIDES.**

PANAMA, Fla., April 2.—Lieut. Commander Edgar Townsend Warburton, chief engineer of the battleship Maine, now in this harbor committed suicide in his cabin yesterday by shooting himself in the head. The bullet after passing through his head went through the door and just missed the executive officer, who was passing. Officers on the battleship are inclined to believe that the shooting was an accident.

**FUNERALS TODAY.**

The funeral of Mrs. Jane Stewart was held this afternoon at 2:30 o'clock from her late residence, Smyth street. Rev. Mr. Phillips officiated. Interment was made in Fernhill.

At Loch Lomond at 2:30 o'clock this afternoon the funeral of the late James W. Pelly took place.

The late Robert S. Normansell was buried at 2 o'clock this afternoon from his residence, Brittain street.

## THIBETANS DIE PILED IN HEAPS

The General and High Officials Among the Slain.

They Fought With Savage Bravery Until Riddled With Bullets But Were Hopelessly Handicapped

**TUNA, Tibet, April 2.**—The Thibetan general, the whole of his personal escort and five high Lhasa officials were among the hundreds killed in the fighting of March 31 at Churu, Tibet. The losses are accounted for by the fact that the Thibetans were so huddled together that they could not use their swords. The students in the front rank could not reach the Sikhs, who had fixed bayonets, while men in the middle of the mob could not reach the enemy, but many of them probably killed each other in the mad excitement.

The scene recalled old time fights in cock-pits, the grim determined faces of the Thibetans, lighted with devilish savagery, expressing contempt for the Sikhs, whom they outnumbered six or seven to one. When the Lhasa general fired the first shot, a dozen Thibetans with wild shouts drew their swords, fired their matchlocks and surged forward in all directions. About a dozen swordsmen made a desperate rush in the direction of Col. MacDonald and a small knot of officers. Four Thibetans attacked Mr. Candler, the correspondent of the London Daily Mail, but Col. MacDonald seized a rifle and shot down two of them at a few yards, and another officer killed the other two, thus saving Mr. Candler's life.

Those of the Thibetans who tried to climb the wall were met with the terrible magazine rifle fire, but they did not falter, those behind springing over the heads of dead and continuing the fight until riddled with bullets. A mountain battery was brought into action and tore the retreating lines with shrapnel. A terrible trail of dead and dying marked the line of march. At length the last wounded limping Thibetan turned the corner, some four grim tragedy where the scene of the grim tragedy where he best of the Thibetan army had perished.

## DEATH AND ACCIDENTS.

Old Monoton Man Dies from Effects of Fall — Expert I. C. R. Trackman Passes Away.

(Special to the Star)

**MONCTON, N. B., April 2.**—John H. Marr, one of the oldest residents of Moncton, died last night from the effects of a fall on the stairs of his house about a month ago. He was seventy-five years old. The deceased was a native of Annapolis, N. S., but came to Moncton and engaged in the boot and shoe business from which he retired several years ago. He is survived by a widow and two sons and two daughters. The sons are H. G. Marr, of Moncton, and F. A. Marr, of Halifax.

George Wilmet, a well-known railway man, died at Salisbury on Thursday night, aged fifty-three years. The deceased was considered one of the most expert trackmen on the I. C. R. and much of the special work done between St. John and Moncton was done under his supervision.

White enroute from Halifax yesterday W. M. Dalrymple, a young man, was going to Riverdale, Albert county, fell off the train a short distance from Moncton and was badly injured about the head. He was taken to the hospital and this morning is reported to be doing quite well.

**RENOUNCES A MILLION.**

Denver Doctor Doesn't Want Fortune He Did Not Earn—It Goes to Portland, Me.

**DENVER, Col., April 2.**—Dr. Wm. A. Harroun, of this city, has renounced all claim to a fortune of \$1,000,000 left by his father's brother in Kilkenny, Ireland. In doing this he gives his sister, Mrs. J. M. Lewis, of Portland, Me., the sole right to the money. Dr. Harroun gives as his reason for refusing the fortune that he wishes nothing he does not earn by his own efforts.

**A GREAT SALE.**

A Record Breaking Advance Sale For Nordica's Concert.

At six o'clock this morning many of those anxious to purchase seats for the Nordica concert were waiting for the Opera House doors to open. At half-past seven the number had increased rapidly and at eight, when the first ticket was sold, those waiting were standing in a line which reached well out on the street. Then followed a sale of tickets which kept the capable card-board shuffer, Harry Clark, guessing until noon, when the largest one-day advance sale in the history of the Opera House was reached. Not one seat was sold to a non-subscriber and no crowding or unnecessary delays were apparent.

Monday morning at ten o'clock the plan of the concert for the accommodation of non-subscribers, when good seats will be purchasable, although it would be well for intending patrons to call early. The success of Nordica in St. John is now more than assured.

**C. A. E. HARRISS THANKED.**

**MONTREAL, April 2.**—Charles A. E. Harris, director of the McGill University conservatorium of music, has had the honor of receiving through his excellency the governor general, the cheques of the king and queen for presentation copies of his Cornation Mass, Edward VII, which their majesties have been graciously pleased to accept.

The death occurred yesterday after a brief illness of Malcolm G. Steele at his mother's home, Haymarket square. The funeral takes place tomorrow.

### WINTER PORT

The Donaldson liner Marina, Capt. Taylor, will sail Monday for Liverpool and Glasgow. She will move 147 cattle.

Sir. Concorde of the Donaldson line will be due here Sunday. She was two days late leaving Glasgow. Capt. James Martin is in command now. He was formerly first officer on the Lakonia.

The Donaldson str. Lakonia, Capt. McNeill, from St. John for Liverpool and Glasgow, sailed from Halifax at 4 p. m. Thursday. She took in there 375 standards of deals, 1,500 bbls. of apples, 777 cattle, 18 horses and 51 sheep. Capt. McNeill, who went to St. John yesterday, will return to St. John tomorrow.

Capt. Barker of the str. Manchester Commerce, which arrived at Halifax Thursday from Manchester, remained ashore this voyage and a new man is in command. She comes here as soon as possible to load.

There will be three more Donaldson line steamers here this spring after the Marina departs. The Concordia is due tomorrow. The Aldeida will reach this port about a week later. The Kastalia, the last one of the lot for this season, sails from Glasgow today.

THE CRUISE OF THE THISTLE.

Will sail from St. John for Labrador on April 20th.

St. John is honored just now with the presence of R. W. Strong of Vancouver, B. C., who with Mrs. Strong is stopping at the Victoria hotel. This gentleman, who is at the head of the Labrador Gold Mining Co., recently purchased from Peter McIntyre of the 2nd and, the str. Thistle, which is being fitted up to proceed to Labrador on the coast of Labrador, about the 20th day of the month. She will carry a crew of 18 men, all the men of the Labrador Gold Mining Co., a capable Newfoundland master mariner. The idea of sending the Thistle there is to develop the gold fields of the coast of Labrador, which is a very rich field.

The commander of the Thistle will be Capt. W. H. Le Drew, a capable Newfoundland master mariner. The idea of sending the Thistle there is to develop the gold fields of the coast of Labrador, which is a very rich field.

It was discovered by Mr. Strong. Last summer this gentleman again visited the place and removed alongside pounds of ore. The ore was free mill and this 600 pounds went from \$1,000 to \$2,000 to the ore on the property.

It was ascertained in England, Canada and the United States and was given. The Thistle is taking in large quantities of supplies at St. John and all appliances needed for the development of the property will be despatched to Labrador on this vessel. There is no trouble in getting the ore away from Labrador, as the schooner selected for the accomplishment of this task will be the str. Thistle, which is the rocky shore within 50 yards of where the ore will be got out. The property is on a grade of 25 feet and is one mile square. There is no dirt on it, being all ready to be quarried with great despatch.

HAMPTON POST OFFICE.

Sometimes troubles about unpopular post office changes blow over. But the Hampton trouble grows worse and worse. The people of the town, who went to party, are almost a unit in condemning the government for removing the office from the building. They do not blame the postmaster general for originating the idea. All they say against it is that it should have been taken into consideration before the government in the neighborhood before acting on the request of outside politicians. The most violent hickers are men who have been the most active supporters of the government in the place and who think that their opinion might have been asked, and their interests consulted.

FAIRVILLE NEWS.

The special meetings in the Baptist church will be continued next week. Good Friday was quietly observed by the readers of the Fairville News. Only two or three exceptions, all places of business were closed. Cushing's mill did not shut down.

Frank Townsend and family have removed to Boston.

The love feast in the Methodist church last evening was well attended despite the bad walking. Only a few from Milford were able to attend. Rev. W. J. Kirkpatrick, pastor.

Mr. Smiley, principal of the Milford school, and Mr. Lord of the Fairville school, are spending the Easter holidays at their homes in Milford.

Mr. Mackay will move next week into the old residence on Manawagash Road.

THE ABELL ARBITRATION.

The matter of Abell and Henderson against the city of St. John was heard Friday before the arbitrators, J. G. Taylor, Attorney General Pugsley and J. R. Armstrong. One of the arbitrators said to the Sun that as yet there was no finding. C. N. Skinner, K. C., appeared for the city; W. B. Wallace, K. C., and W. H. True-man for Messrs. Abell and Henderson. Arguments have been heard and the arbitrators are now considering the award.

EASTER SERVICES IN TRINITY.

Holy Communion, 7 a. m.; Holy Communion, (choral) 8 a. m.; morning service and Holy Communion at 11:05; Sunday school service, 2:30; evening service, when all seats are free, at 7. Mr. MacDonald will preach in the morning and the record in the evening. Offerings throughout the day will be given to diocesan missions.

BAVARIAN ARRIVED.

HALIFAX, April 1.—The Allan mail str. Bavaria with the Canadian mails arrived at 11 o'clock tonight. She has 1,494 passengers, 18 first class, 220 second class and 1,075 steerage. She also has 1,750 tons of freight.

The steamer made a record day's run for the Bavarian, having in one 24 hours reeled off 384 miles. She will sail for St. John Saturday morning at ten o'clock.

WANTED—A case of Headache that KUMPORT Powders will not cure in from ten to twenty minutes.

#### OTTAWA NEWS.

OTTAWA, April 1.—Heavy rain all day drove people to cover, and this was a most dismal holiday. Unless the weather changes devastating floods will follow.

#### PROPERLY DESIGNATED.

(From the Brooklyn Eagle). "I don't understand it. 'What?' 'Why, he's got some trouble with his throat or his tongue and he can't hardly speak.' 'That's not so unusual.' 'No; but he insists that he has writer's cramp.' 'That's all right, too. He dictates his stories.'"

#### ST. ETHELBERT'S DEPARTURE.

BOSTON, April 1.—The Episcopal church authorities of New Hampshire are investigating Rev. St. Ethelbert, priest in charge of the church at North Conway, who disappeared recently. Miss Mina Burroughs is ministering and the couple are said to have been married in Halifax, where they are still supposed to be.

#### C. W. A. OFFICERS.

At the annual meeting of the Canadian Wheelmen's Association, held in Toronto yesterday, J. M. Barnes, of this city, was elected chief consul for the maritime provinces. Another New Brunswick boy who was elected an officer of the association at yesterday's meeting is J. A. Winslow of Woodstock.

### FACTORY ACT.

Some Changes Proposed by the Joint Committee.

Following are some of the changes proposed by the joint committee of the Fabian League and Trades and Labor Council to the Factory Act: Section 1, which relates to the enforcement and administration of the act should be changed altogether. It is asked that the government appoint one of the executive ministers of labor, to administer the factory act; also an inspector of factories and a sub-inspector, the latter to be a woman. Both these officers to have their headquarters in St. John, and to be paid by the government.

The section requiring a lunch room to be provided wherever four women and boys are employed, to be amended by making the number ten, and including men with women and boys.

In place of the section providing for a half-holiday, the committee ask for a section providing for a nine-hour day. No factory is to begin work earlier than seven o'clock, nor work later than six o'clock, and all overtime is to be paid for at the rate of not less than time and a half.

Another change is that no person under 18 years shall be allowed to manage machinery moving other machinery, unless he has had at least three years' experience.

The word "ten" to be substituted for "three" in the clause requiring fire escapes in all the rooms above the ground floor where more than three persons are employed.

#### IN THE WRONG CELLAR.

(From the Brooklyn Eagle). Mike is a good old Irish watchman at one of the large office buildings in Brooklyn. Improvements recently made there left a considerable quantity of wood which was used for building but to burn. Mike made a careful estimate of its value as kindling and concluded that it was worth the trouble to burn. So he went out and engaged a team and wagon at a neighboring livery stable for \$2.00. He then took the wood to a man to take the wood to his home and put it in his cellar. For Mike was on duty and could not leave the time to do it himself. The man seemed quite willing to do the job for 50 cents, but asked the special favor of Mike in advance, saying he wanted to get something to eat before undertaking the work. This seemed reasonable, so Mike paid him and while the man was away at his meal Mike loaded the wagon himself.

When the watchman reached home some hours later he found the team in front of his house. "Look at 'em now," said Mike, "look at 'em now. Well, you Irish fool didn't have sense enough to take the team back to the stable."

"Oh, I don't mind the team, but if the man had kept the wood properly, but not a word of it was there."

#### THE APPLE BUSINESS.

A. D. Welton, of Port Williams, the well-known fruit dealer, is in the city, looking after the shipment of 10,000 barrels of apples to London. He estimates that there are about 20,000 barrels for shipment to England, and that the total shipment this year will be about 40,000 barrels, nearly all of which amount has been forwarded via Halifax. Mr. Welton estimates that, taking the home market figures into consideration, over half a million barrels of merchantable apples were harvested in the Valley last autumn.

Five spots of the seven looked out for this year, he said, was excellent. The snow, which came on early in the winter, remained protecting the roots, and a result the trees are already beginning to put forth strong, hardy buds. — Halifax Mail.

#### BRIDGES CARRIED AWAY.

CHAMBLEY, Que., April 1.—An ice shove carried away the two bridges spanning the Richelieu River at this point this morning. The first to go was the bridge on the Waterloo branch of the Central Vermont railway.

It went out at seven o'clock, just five minutes after the St. Censaire local had passed over it. The second bridge, the one below the railway bridge stood the fine steel highway bridge erected several years ago by the St. Lawrence railway.

Five spots of the seven looked out for this year, he said, was excellent. The snow, which came on early in the winter, remained protecting the roots, and a result the trees are already beginning to put forth strong, hardy buds. — Halifax Mail.

There were fears that this would be carried away once more, but the costly improvements made during the past summer demonstrated their value, and the dam still stands, though the danger is not yet over. There still remains a large quantity of ice to pass down. Men have been working all day in an effort to protect it. Should the dam go out the loss would run well over a million dollars.

ST. JOHN, N. B., APRIL 2, 1904.

EASTER.

To the old Saxons Easter was the

feast day of Eostre, their goddess of

Spring; the day when they hailed with

gladness the going of winter and the

advent of the season of homing birds,

soft breezes and budding green things.

To the eastern Christians it was the

sweetest, solemnest day of all the

year; the day when the wonder and

the beauty of their religion filled their

hearts as at none other time. Nowa-

days it is chiefly noted as the day of

release from the dullness of Lent, the

first day of spring when one, with pro-

priety, may flaunt a new hat or new

sown in the face of a poorer and

envious neighbor. We have gained a

good deal, we who live in these prac-

tical twentieth century days; but we

have also lost something.

THE OBJECTION THAT KILLS.

Whatever may be the financial faults

of the Grand Trunk Pacific contract

—and they are many—they are in-

significant, at least to the eyes of a

maritime provincialist, in comparison

with the one great object—that the

promoters of the company to whom he

government has entrusted the task of

building a Canadian transcontinental

railroad have the privilege of building

that road in the interest of an Ameri-

can port, have avowed their intention

of so doing and under the present con-

tract they cannot be hindered.

The government's plea that the good

faith of the company was committed

to the maintenance of Canadian ports

is finally destroyed by Mr. Hayes'

open declaration at the recent London

meeting of the Grand Trunk share-

holders that any winter export traffic

of the new road would, eastward of

the Great Lakes, be carried by the

Grand Trunk to Portland, Me.

Against this action of the company

we have no protection. True, there is

a clause in the contract calling for the

export of all the new road's unrouted

freight from Canadian ports, but this

is worthless, as the company can and

will always induce every shipper to

route his freight in the direction best

served to its interests. And even if

this clause were binding upon the

Grand Trunk Pacific Company, the

Grand Trunk, which owns the

road to Portland, Me., and is in

possession of the new road is not by any

means so bound. The only obligation

imposed by the contract upon the

Grand Trunk, as pointed out by Sir

Charles Rivers-Wilson to the share-

holders, is the guarantee of the bonds,

representing one-fourth of the cost of

construction of the western division.

The Grand Trunk is at perfect liberty

to transfer every pound of freight that

comes east of the lakes, to its own line

and export it from Portland, Me.

And the manager of the Grand Trunk

has avowed his intention of so doing.

It is possible that any man interested

in the welfare of Canadian ports can

support the government which en-

gendered that deal?

COX, HAYS, PARENT.

There is no longer a doubt that

Emile Parent of Quebec will retain

the membership at the close of the

season. The government organs in

Toronto and Montreal have made an-

ouncements semi-officially that he is

to be head of the commission to build

the railway from Montreal to Winni-

peg, for which the government pays

Mr. Parent will have the handling of

some fifty millions of dollars. Every

family in Canada will pay some \$40

into the pocket from which this politi-

cian and promoter will pay contrac-

tors and suppliers. He will have more

cash patronage than was ever handled

by a single public man in Canada.

Probably he will have expended or

bargained to spend many millions be-

fore the public will have opportunity

to criticize his first accounts. The

general election has been deferred

until this enterprise is under way. Mr.

Parent is a pretty good promoter of

subsidized enterprises and he has also

been a pretty good election campaign-

er.

The one cause of anxiety in the

matter on the part of the government

is the lack of enthusiasm in the party

and the country for the gift enterprise.

It is plain that the people do not want

it, and the members are returning to

parliament with even less enthusiasm

for this Cox-Hays deal than they had

last year.

But if it goes through it will be the

greatest thing yet for Mr. Parent. And

with his bridges and other ventures

Mr. Parent has had several great

things.—Sun.

There is a strange variance between

Mr. Hayes' letter asking for the reserva-

SATURDAY SERMONETTE.

"Parvam parva decem."—Horace.

"Lowliness is the base of every vir-

tue, and he who goes the lowest builds

the safest."—Bailey, "Festus."

Humility, modesty and lowliness are

splendid virtues for holiday and Sun-

day use; but for every day wear in the

world where every man has to "paddle

his own canoe" he needs virtues that

have more push in them. There is

not much chance for the "umble"

man in this world, whatever his

chances may be in the next.

When you come to think of it, the

men who are doing things, the great

captains of industry, are the men who

were never conspicuous for their mod-

esty. As boys I have the impression

that they often heard the musty pro-

verb quoted: "Boys should be seen and

not heard." They spoiled as boys,

while learning how to do things, good

material, but they learned how and

why, while the modest boy, distrust-

ing his own powers, went through life a

ne'er do well.

Who has not known men who were

successful, not because of eminent ab-

ility, but because of their assurance.

And who has not known men who were

than average ability who never accom-

plished anything commensurate with

their ability, because of their modesty

or self-depression.

Modesty is all very good theoretically,

but modest, unassuming men, never

build reputations for their services, or

their humility becomes a man in the

presence of the mountains, and of those

who are wiser than himself, but the

modesty that makes a man self-con-

scious and prevents him from doing his

best work, will as surely handicap him

as incompetency.

GOOD STORY ON JUSTICE FRASER	GOT THE PRIZE.
------------------------------	----------------

In the Canadian house of commons one of the most interesting personall-

ties is the Honorable D. C. Fraser, of Nova Scotia. As a stump speaker he is eloquent, persuasive and ready-witted. But once at least "D. C." found his resources to fail him. It was on the eve of a bye-election in Ontario, and "D. C." had been sent for to assist him. His friend tells this story of him:

He had been collecting all kinds of tags and coupons bearing premiums some time when he one day noticed an advertisement of a New Jersey company that on receipt of fifteen of their

sist the government candidate. It was an "agony" call, for the candidate was a poor platform speaker; and so Fraser went well prepared. The man spoke this: "Fellow citizens, you know me—I'm a self-made man—you know me." The rival candidate was a non-resi-

dent and a stranger to most of the audience. For some reason he was able to appreciate the evening, and was fortunate in his substitute, a little French-Canadian lawyer, "I'm verria sorry," he began, "ma friend could not coom—I'd lak mooch you haf seen hem. He verria deefrent from dis man dat haf jooht sit down."

But man—God made hem! And, man frends, dere is jost as mooch difference between de men as dere is between de makers!"

That was all his speech; but that was enough for the audience, and too much for "D. C." and his friend.

**A HOUSE BUILT FOR A BET.**

The late Sir Richard Wallace's well-known place, Bagatelle, a famous royal hunting lodge in the Bois de Boulogne, Paris is to be sold by auction. The house, which is situated in one of the most charming and wooded portions of

The boys, was bullheaded by the designs of Belanger in the eighteenth century, as the result of a bet between His Royal Highness the Count of Artois and His Royal Highness the then Prince of Wales. The bet was that a villa could not be built on the spot in sixty days. It was finished in fifty-eight days, and the prince lost his bet.

The number of births in St. John this week was eighteen. The girls were in the majority this time, only four of the new citizens being boys. Four marriages were recorded this week.

The C. P. R. express was reported about two hours late today and the Boston express twenty minutes. The delay to the Montreal was occasioned in the eastern division.

The rates on grain and grain products between western points and Point de Chene and Pictou for P. E. Island over the I. C. R. went into effect yesterday. This means a reduction of about six cents per hundred from the winter rates.

J. R. Cowans, of Springhill, has sold his beautiful mare, Rock Farm Grace, to Mr. King, of Montreal. Mr. King wanted a driver, combining beauty and speed. When she retires from the speedway, she is to be returned to Mr. Cowans to be used as a brood mare.

The International Musical Brigade, under the leadership of Stuart-Caplan McLean, will conduct a great musical meeting at the Carleton Salvation Army barracks tonight; also all day tomorrow. Very interesting things are expected. The public are invited.

W. A. Freeze, of the general superintendent's office of the C. P. R., has been transferred to Brownville, and will leave for that place in this evening's express. Mr. Freeze, who is very popular with his fellow clerks, will be generally missed.

Residents near the corner of Camden and Acadia streets are complaining of a muddy hole in the sidewalk. The ground was broken there last fall by the city for the purpose of repairing a water pipe and it is complained that it was never properly filled in.

Messrs. Clarke & Usher the other day out, on Mr. Evans' farm in Grand Bay, 12 cords of long wood into 16 inch lengths, in six hours with a 4 h. p. Leonard engine and burning green wood for fuel at a cost of less than 5c. per five foot cord. This record seems hard to beat.

Only one steamer is being loaded at Deep Water today, the St. John City. The longshoremen engaged on the Manchester Commerce are observing the holiday, but will resume work at 12 o'clock tonight, and it is expected the ship will be ready to leave for St. John Sunday morning. — Halifax Mail, Friday.

## LABORERS AND THE FRANCHISE

Prominent Labor Men Say All are in Favor of Bill Now Before the House.

So far as the Star is able to ascertain, there appears to prevail among the labor unions a strong opinion in regard to the practicability of the Franchise Bill, which is at present before the legislature.

Michael Kelly, who represented the ship laborers in the deputation which waited on the government in connection with the Franchise Bill, said this morning:

"The members of the government committee accorded us a good hearing. They seemed to regard favorably our views of the need of such legislation, and on the whole we feel assured that the bill will become law in its original form. All the labor unions have expressed their approval of the bill."

William Coates, of the Printers' Union, said: "The printers are in favor of the bill. It enables many to vote who may not be in a position to have their taxes paid before the election comes off. Printers, as a rule, are good tax payers, but often fail to pay their taxes on time. I cannot see for the life of me why they should be disfranchised because they are unable to pay their taxes before election day."

Gustav Langbein, a prominent union man, said: "Not a single voice has been raised against the bill by the labor unions. They all want it."

John Kilien said: "I am probably as well acquainted with the opinion of labor people in regard to this matter as most union men. I can tell you straight that all the labor people receive it with delight. It will be the means of allowing hundreds to vote at the civic election who have probably not enjoyed that privilege for years."

## PERSONALS.

Ald. W. C. R. Allan left last night for Halifax.

Charles Pawcett, of Sackville, has gone to New York to consult a specialist in regard to his health. He is accompanied by his son, H. E. Pawcett.

Mrs. N. Louis Brennan and Miss Lina A. M. Rowe are spending Easter with their sister, Mrs. John T. Steves, Hillsborough.

C. C. Blackadar, of Halifax, registered at the Royal yesterday.

D. J. Evans, of Macaulay Bros. & Co., arrived home from England yesterday.

Miss Florence Perry, of the west side, who is a student at the Fredericton Normal School, is spending her Easter vacation at home.

John A. Johnston, formerly of M. R. & Allison, but of late years with F. W. Daniel & Co., leaves for Winnipeg on Monday, where he will join his brother who went west last spring.

J. J. Chappell, Jr., of Charlottetown, P. E. I., is spending Easter in this city and will leave on Tuesday for Fredericton to take a short course in the military school.

Miss Mary Campbell, of Sackville, came to St. John on Thursday.

Mrs. Charles Cahill, of Sackville, is spending the Easter holidays in St. John.

The Misses McLaren, of St. John, N. B., are spending the Easter holidays at Government House, Fredericton.

## LIQUOR LICENSES.

The Commissioners Will Decide on the List on April 16.

On Saturday, April 16, the liquor license commissioners will meet to decide upon the licenses for the present year. The meeting will probably be interesting, as delinquents from various sections of the city which are opposed to the sale of liquor in their vicinity will be present and state their views. The temperance societies against another violation of the law by the issuers of more than 75 licenses. The number of applicants is 82, but it is believed that the commissioners this year will endeavor to keep the list within the legal limit.

## A STRONG PLAY.

On Easter Monday night the Daffy Company re-open their engagement, and that they have made a wise choice in choosing Arrah-Na-Pogue for the reopening is proven by the large sale of seats for that night. The play is a very strong one, and it is doubtful if there is another one that has so much comedy, pathos and true human nature as has Arrah-Na-Pogue, and it is a play that can be enjoyed by all classes of people. To those who intend going Easter Monday night, we would advise an early application for seats, as they are being rapidly taken up.

## SALVATION MUSIC.

The famous Congress String Band, under the leadership of Lt.-Colonel (Mrs.) Sharp, will (D. V.) conduct a great musical meeting in the Salvation Army barracks at Brindley street to-night (Saturday), April 2. The following officers will take part: Adj. Jennings, Edna Martin, Captains Riley and Ogilvie, Lieuts. Selig and Smythe. Mrs. Sharpe will deliver an address.

## FREE KINDERGARTEN.

The free kindergarten closed yesterday for Easter vacation to re-open April 18. Miss Burditt will visit the kindergartens of New York. The following donations are gratefully acknowledged: W. C. T. U., \$10; a friend, \$10.00; two or three girls, \$1.50; Mr. Vaughan, half a dozen pairs of rubber; Senior Girls of Stone church, clothing.

## THOUSANDS FOR EASTER FLOWERS

About Seven Thousand Dollars Spent in St. John for My Lady's Bouquets This Year.

The amount of money that changes hands at this season every year for flowers, if it could all be gathered together, would total to a figure that would make Pierpont Morgan and Rockefeller envious. In New York City alone it is estimated that three million dollars will change hands, while in St. John the amount will run to probably seven thousand dollars; at least this is an estimate made yesterday by a leading city florist.

The demand for flowers and plants in this city is increasing year by year and no effort is being spared by the florists to encourage this demand and in several cases it has been found necessary to import roses at a big expense from large American dealers. This is done at almost a loss to the local dealers, but is necessary to hold the business.

From year to year the favorite flower changes. Years ago it used to be the rose and camellia, but during the last few years the most popular has gone to the front and in this city today is the leader, but the price is such that only the wealthy can afford to purchase many. The rose is second with the carnation close behind. Easter coming considerably earlier this year than usual has made quite a difference in the supply of roses, but the dealers say there is sufficient to meet the demand. Three dollars a dozen is the price asked.

For bouquets and potted plants there is a steadily increasing demand that is opening up even a larger field than before for the dealer and is bound to result in enlarged greenhouses and show rooms.

In New York the popular flower is the azalea.

## HOT CROSS BUNS.

Large Quantities Sold Yesterday — The Origin of the Custom.

The English custom of eating hot cross buns on Good Friday is popular in St. John and the bakers disposed of large quantities of the rolls yesterday.

The custom is an old English one, having been handed down through ages as the proper article of food to be eaten on Good Friday when the strict observance of Lent ends little. In early times the Friday and Saturday preceding Easter were days of strict fasting and it may have been then that the great desire for some sort of food was met by the hot cross buns as being a simple form of food and enough to meet the pangs of hunger—sort of a compromise between actual fasting and the eating of the usual allowance.

The hot cross buns of Good Friday are descended from early English times, when the superstitious belief that bread baked on that day was a specific for all ills. It was the custom for the family to dry and save buns and other bread made on Good Friday to use throughout the year, varied in water, as a remedy for various complaints.

It is asserted by some authorities that hot cross buns can be traced back to an ancient heathen custom of eating small sweetened cakes as a part of the worship of the "queen of heaven."

Similar customs are to be found in ancient Mexico, Egypt, China and other countries.

## CHARGED WITH THEFT.

Serious Accusation Against James Lenihan.

James Lenihan, a character well known to the police, has got lots of trouble ahead of him and at stake as it would do some work for the municipality for some time to come.

Lenihan was arrested on Mill street last night, charged with drunkenness, also with stealing twenty-four dollars from George Turner, an express driver, in a barn off Pond street. In court this morning Lenihan admitted that he had been drunk, but denied stealing the money from Turner. He was fined eight dollars or two months with hard labor for being drunk on Good Friday and was remanded on the charge of stealing.

## LAKE CHAMPLAIN SAILS.

The Big C. P. R. steamer Lake Champlain sails this afternoon at two o'clock for Liverpool, via Halifax. She takes away a large cargo and it is expected will have a big passenger list, as many have booked to take passage at Halifax. Mrs. H. G. Rogers and child, of this city, will cross on the Lake Champlain.

At Halifax eighty army officers and men have booked the passage.

## EGGS AWAY UP AGAIN.

Eggs in the market today are selling nearly as high as they were in mid-winter. In some instances they brought as much as 25 cents a dozen. Early in the morning they were offered at 25 cents, but soon went above 30 cents. The supply of eggs is extremely small, but the demand is brisk and consequently they are bringing big prices.

## SUICIDE OF A MARQUIS.

PARIS, April 2.—The Naples correspondent of the Journal says that the Marquis Giuliano Serra, the third son of the Duke of Casano, committed suicide by shooting today because of the objection of his parents to his marriage to a girl of a distinguished family.

## LOTS OF SEALS.

ST. JOHNS, Nfld., April 2.—The steamer Grand Lake which has returned from the icefields reports that the sealing steamers have captured 250,000 seals, which will probably be increased to 300,000 during the present month.

## LORD DUNDONALD'S SISTER HERE.
