

GERMANS HURLED BACK FROM TRENCHES BY ALLIED ARMY

OFFICIAL STATEMENTS POINT TO VICTORY FOR ALLIES IN THE NORTH

French Reports of Satisfactory Nature and Tell of Advances Through Terrific Fire-- Germans Still Holding the Canal on Yser River.

FRENCH.

Paris, Oct. 22, 11.10 p. m.—The official communication issued by the French war office tonight reports a continuation of the great battle between the sea and La Basse, in which the Belgians and the allies are holding their ground. Between Arras and the Oise the Germans have met with similar opposition.

The text follows: "The activity which the enemy displayed yesterday did not slacken today's battle. Between the sea and La Basse the battle has continued with just as great violence, without the Germans being able to force back the Belgian army or the French and British troops.

Similarly, between Arras and the Oise, the enemy had made determined efforts, which have at no point been crowned with success. "In the Argonne region we have made progress between St. Hubert and La Four de Paris.

"To the north of Verdun we have gained ground at Heumont and Brabant on the Meuse. In the Woëvre region we have repulsed an attack on Champlon."

GERMAN.

Berlin, Oct. 22, by way of Amsterdam and London, 8.30 p. m.—The German war office makes public the following despatch received from General Headquarters of the army dated this (Thursday) forenoon: "The fighting on the Yser Canal still continues. Eleven British war vessels assist the enemy's artillery.

"East of Dixmude the enemy was repulsed. Our troops have advanced successfully in the direction of Ypres.

"The battles to the northwest of Lille are very severe but the enemy is slowly retreating along the whole line.

"Fierce attacks from the direction of Toulon Heights, south of Thiesscourt, were repulsed with heavy losses to the French.

"The fact is the British admiral commanding the fleet off Ostend wanted to bombard the town but finally was persuaded by the Belgian authorities to abstain.

"In the northeastern theatre our troops are pursuing the retreating enemy in the direction of Ossowitz (Russian Poland). Several hundred prisoners and machine guns were taken.

"Near Warsaw and elsewhere in Russian Poland, after several days of battle, no fighting was reported yesterday. The situation is still in a state of evolution."

Berlin, Oct. 22, via London (10.25 p.m.)—An official announcement issued tonight from chief headquarters, says:

"On the Yser Canal heavy fighting is still in progress. The enemy was reinforced by artillery fire from the sea at a point to the northwest of Nieuport, but in the engagement a British torpedo boat was put out of action by our artillery.

"Fighting continues to the west of Lille, and here also our troops have assumed the offensive and have repulsed the enemy at several points."

"The English have lost several machine guns.

"No decision has yet been reached in the eastern theatre of the war."

RUSSIAN

Petrograd, Oct. 22.—The official communication issued by General Headquarters tonight says:

"The rapid retreat of the Germans from Warsaw continued. The bombardment by the enemy's heavy artillery has caused no essential damage to the fortifications of Ivangorod or the bridges.

"In Galicia desperate engagements are still being fought. During the advance in the region between Przemyśl and the Vistula we captured more than thirty officers, 2,000 soldiers and many rapid-fire guns. To the south of Przemyśl, the Russian operations are developing, also with success."

CHIEF OF GENERAL STAFF REPORTED TO BE DYING

Lt. General Count Helmuth Von Moltke Dangerously Ill According to Private Letter Received in Amsterdam — Attempting to Keep News Secret.

London, Oct. 23, 12.10 a.m. — A private letter received in Amsterdam from a high official in Berlin says Lt. Gen. Count Helmuth Von Moltke, chief of the German staff, is dying, according to the Exchange Telegraph Company's Amsterdam correspondent.

"Everything, the correspondent adds, is being done to keep the news secret. Gen. Von Moltke is suffering from an affection of the liver. The cure he was undergoing was interrupted in July by the German mobilization. "He has now had to leave Em-

peror William's headquarters, Gen. Von Falkenhayn, the Prussian minister of war being left in charge.

"Many German officers ascribe the check to the German advance to the forced retirement of Gen. Von Moltke."

GERMANS RETREATING.

Amsterdam, Oct. 22, via London, 10.50 p. m.—The Telegraaf says the Germans are retreating from Middelkerke, on the North Sea, midway between Ostend and Westende.

NAVAL ASSISTANCE TO ARMIES IS EFFECTIVE

Report of Admiralty Tells of Splendid Work of Long Range Guns on Monitors off Belgian Coast—Blow up Ammunition Train.

London, Oct. 22.—The Secretary of the Admiralty issued tonight the following statement on the operations of the British warships in co-operation with the Allied army on the Belgian coast:

"On October 18, requests for naval assistance were made to the Admiralty by the Allied commanders. In consequence, a naval flotilla, amounting to a large number of powerful long-range guns, supporting the left of the Belgian army, and firing against the right of the German attack, which they were, by their position, able to enfilade.

"The Germans replied by shells from their heavy guns, but, owing to the superior range of the British marine artillery, practically no damage has been done.

"Three monitors, which were building in British ports for Brazil, and were acquired on the outbreak of the war, have proved to well suited to this class of operation. A heavy bombardment on the German flank has been maintained without intermission since the morning of the nineteenth, and is being continued today.

"Observation is arranged from shore by means of naval balloons, and all reports indicate that substantial losses have been inflicted upon the enemy, and that the fire is well directed and effective against his batteries and heavy guns.

"Yesterday a considerable explosion, probably of an ammunition wagon, followed upon a naval shot. The naval losses have so far been very small, considering the damage and the important assistance rendered to the Belgian land force.

"All reports received by the Admiralty show the courage and determination with which the Belgians, animated by the King in person, is defending the last few miles of Belgian soil.

"The naval operations are under the command of Rear Admiral, The Hon. Horace L. A. Hood."

BATTLE OFF HELIGOLAND DESCRIBED IN REPORT

London, Oct. 22, 10.05 p. m.—The reports of Vice Admiral Sir David Beatty, Rear Admiral Arthur Henry Christian and other officers of the British navy who took part in the battle off Heligoland on August 28, issued tonight, show that while the Germans did not succeed in destroying any British ships, they fought with great determination, and that before the arrival of the cruisers the situation, in the words of Vice Admiral Beatty, "appeared critical."

It was in this battle that three German cruisers, the Mainz, the Koeln and the Adalton, and two German destroyers were sunk.

The British fleet, when it went into action, was only 25 miles from two German naval bases, and the ships were manoeuvred in the hope of bringing the main German fleet out, but without success. The British were, however, attacked by submarines, destroyers and light cruisers, and one British cruiser, the Arcturion, which had only been out of the builder's hands 48 hours, was rather severely handled, and after the action was over had to be taken in tow.

Vice Admiral Beatty commanded the first battle cruiser squadron and first light cruiser squadron, while Rear Admiral Christian commanded the destroyers and the Arcturion.

A special report was also issued tonight on the work of the submarines since the commencement of the war. It says that three hours after the battle, two submarines, unaccompanied, carried out a reconnaissance in Heligoland, Bight, and "returned with useful information."

Submarines also stood guard night and day while the expeditionary force was being transported to the continent, and have been incessantly employed on the enemy's coast, in Heligoland Bight and elsewhere, and, says the report, "have obtained much valuable information regarding the composition and movements of his patrols. They have occupied his waters and reconnoitered his anchorages and while so engaged have been subjected to skilful and well executed anti-submarine tactics, hunted for hours at a time by torpedo craft, and attacked by gun fire and torpedoes."

Submarines took part in the Heligoland battle, but conditions were not favorable, the visibility being low, and the sea calm, and no opportunity offered at closing with the German cruisers within torpedo range.

Reference is made to the E-9's sinking of the German cruiser Hela and destroyer S-128. Dealing generally with the use of these craft, the report says:

"Against an enemy whose capital ships have never, and whose light cruisers have seldom, emerged from their fortified harbors, the opportunities of delivering submarine attacks have necessarily been few, and on one occasion only—prior to September 13—has one of our submarines been within torpedo range of a cruiser during daylight hours."

A large number of officers are recommended for orders and promotion, Commander Max Horton, of the E-9, for both.

REPORT GERMANS HAD A SUBMARINE BASE ON UNINHABITED ROCKS

British war vessels discovered, raided and destroyed a German submarine base in one of the uninhabited rocks of the Shetland Islands in the North Sea, according to a report from Scotland. It is said that there was a large stock of oil, battery plates and extra torpedoes stored there for the use of

submarines striking at the North Sea fleet.

Another report concerns a German wireless station near Loch Lomond. It is said to be a sending station, which is as difficult to discover as a receiving station, with its poles and wire antennas, is easy to locate. Messages have been intercepted constantly, but all efforts to find the apparatus have failed, so the rumor runs.

Some shipping men believe a story that the Oceanic was struck by a torpedo from a submarine, and ran upon the rocks of the Scottish coast to save the crew.

Such reports as these spread always during war times, but the suppression of news by the British censors leads to more than the customary crop of rumors.

Hardest Kind of Fighting Continues in Northern Area where Belgians, Led by King Albert in Person, are Putting Up Game Fight --- Germans in Repeated Attacks on British and French Positions Meet With Tremendous Loss -- Russians Claim Brilliant Victory in Poland, Capturing Numerous Prisoners and Supplies -- Indian Troops Will be On Firing Line in Few Days is Believed Now.

RUSSIANS ALL READY TO ADVANCE

Victory Before Warsaw Turning Point in the Tide -- Forward Movement all Along Line.

London, Oct. 23, 2.06 a. m.—Telegraphing from Petrograd the Daily Telegraph's correspondent says:

"The latest Russian success cannot be described as a decisive blow, but it may easily prove to be the turning point in the hostilities. It is clear that the German advance toward the Vistula coincided with the virtual completion of the Russian preparations for carrying the war definitely into the enemy's country.

"By pursuing the retreating Germans the Russians will not be merely following up a local success but taking the first step in the execution of a pre-arranged plan for the fulfillment of which the necessary degree of preparedness has only recently been attained.

"The participation of Siberian troops in the operations shows that Russia has concentrated at the front her best forces from the most distant portions of the empire and it may now be expected that the operations will take the form of a steady Russian advance right along the line."

DISGUISED AS WOUNDED SOLDIER

Tells How Lord Kitchener Returned to England After War Trip to France.

Winnipeg, Oct. 22.—N. G. White, consul for the Peruvian government at Vancouver, reached Winnipeg today on his way home from London.

He says that Lord Kitchener returned from his trip to France disguised as a wounded soldier. He says that wire netting has been placed over and around the London post office and many other buildings in the capital to protect them against bombs. He tells of the darkness of the streets of London, which are almost black at night, and how the sky is momentarily scored with flashing searchlights on the outlook for Zeppelins.

"It is fully believed in London," says Mr. White, "that an attack will be attempted by Zeppelins, but there is no great feeling of apprehension on this score. It is expected that the foggy weather at this time will make such an attempt impossible and at the same time they are fully prepared for the Germans."

"My brother-in-law is in the Intelligence Office," said Mr. White, "and I got first hand information from him about Kitchener's clever disguise when crossing the channel. This fact is little known in England."

CANADIANS IN OLD COUNTRY.

London, Oct. 22.—Major and Mrs. Hamilton Gault, of Montreal, registered at Claridge's Hotel today Harold Spence of Montreal is at the British Empire Club. Captain and Mrs. Walker Hall of Toronto have arrived at Pond Farm Camp, Salisbury Plains.

There has been no cessation of the battle in Belgium and Northern France. All the official communications declare that the fighting is of the fiercest character and that the British warships continue to aid the allies on land with heavy shelling from their guns. One report has it that the British fleet is being assisted by a French squadron.

The British Admiralty praises the work of the warships and reports great damage to the Germans from their fire. It adds that the naval losses have been small and that the German artillery is having difficulty in finding the range. The operations of the British warships are under the direction of Rear Admiral Hood.

On the other hand Germany officially reports that a British torpedo boat destroyer off the Belgian coast has been put out of action by the German shells, and refers optimistically to the progress of the battle along the whole front.

Evidently the Germans are taking a strong offensive, because the French official communication, in referring to the violent engagement which has been going on for several days, says that the Germans have not been able to force back either the Belgian army or the Franco-British troops.

From Petrograd comes a reiteration of the official report that the Germans are continuing their hasty retreat from Warsaw, and that desperate engagements are being fought in Galicia.

Emperor William and the German headquarters staff have retreated from Czenstochowa, Russian Poland, into Silesia, according to a London Daily News despatch from the Russian capital.

The Prussian Diet has passed war bills carrying an appropriation aggregating \$375,000,000.

In an address before the Prussian Diet, Herr Del Brueck, the Imperial Vice Chancellor, after declaring that Germany had been forced into the war by the hatred and envy of her neighbors, said that "Germany will not lay aside her arms until she has gained a victory that will guarantee lasting peace."

Large numbers of Germans and Austrians have been taken from London and interned in the detention camps, and an echo of the threatened invasion of the British Isles by Zeppelin balloons is found in the fact that Westminster Abbey has been insured against damage from airship attacks.

A private letter received in Amsterdam says that Lt. General Von Moltke, chief of the German general staff, is dying.

London, Oct. 22 (9.10 p.m.)—The hardest kind of fighting continues in West Flanders and Northern France between the German troops, which have been reinforced by virtually all the German forces in the occupied portions of Belgium, and the French, British and Belgian armies, which are aided by British warships.

Along the coast the Yser River still divides the contending forces. either side, apparently, has been able to make any advance, but in the interior, according to a German report issued tonight, the Allies are retiring from several important positions.

This statement of the Germans, however, is contradicted by the French communication issued in Paris this afternoon, which says the Allies have not been moved, despite the very violent attacks of the invaders.

It is the same all along the long front extending from the North Sea to the Swiss border. Each side claims to have repulsed the attacks of the other or to have made slight progress at various points.

Apparently the great battle is still a long way from its conclusion, the contending armies seemingly being so near equal in strength that neither can force the other back, pierce the front or get around the wings. To the military observers here the question seems to be which commander can secure the greater number of reinforcements and bring them up to a critical point at the right moment.

RUSSIAN VICTORY

In Poland, in the preliminary battle at least, things have moved a little more quickly. The Russians report that they have been able to drive back the first German offensive movement against the Polish capital, Warsaw, and the fortress of Ivangorod. All the Russian accounts refer to this as a great victory, and say that the Germans, besides losing many prisoners and guns, have left large quantities of ammunition and provisions in the trenches they had prepared for their defence.

German headquarters heretofore had made no reference to this battle, but today it says that after several days of battles no fighting was reported yesterday. Apparently there has been more fighting on

ALLIES GAINING TERRIFIC FIGHTING

BRINDILLA CASE NOT WORRYING AUTHORITIES IN THE OLD COUNTRY

London, Oct. 22 (10.42 p.m.)—While active negotiations are proceeding between the American embassy and the British foreign office over the seizure of the American steamship Brindilla, the case has attracted little public attention here.

The Brindilla was seized by the British auxiliary cruiser Caronia off New York, and towed to Halifax. It is not known whether the question raised by Great Britain concerns the nationality of the vessel, which was changed from German to American registry, or the ultimate destination of its cargo. The statement is made that the Brindilla and sister ships were changed from the German to the American flag with the sanction of the British government, which was consulted regarding its attitude toward the transfer.

Great Britain naturally desires to afford all facilities for the importation of oil into this country. The final decision in the case, which is likely to make an important precedent, it is thought, will rest with the British prime minister rather than with the foreign office. It is believed that the government will press for a declaration that petroleum is conditional contraband, since it is used as fuel for motor engines.

The Globe says: "There is a general feeling, based upon evidence from several sources, that up to the present Great Britain has been lax in allowing American oil to reach Germany through neutral countries."

"If more stringent steps are taken it would hardly become America, which rightly expresses horror at the infliction of injury upon non-combatants by incendiary bombs and flying machines, to complain if it is prevented by the Allies from supplying Germany with the petrol necessary to effect these dastardly objects."

Robbers and Posse Clash; Three Killed

Vancouver, Oct. 22.—Two robbers dead, one dying and two yet at large is the schedule of casualties on the side of the enemy in the battle between the Austrian bank bandits and the authorities near the international border at Blaine this morning. Clifford Adams, a young customs officer was the only official killed.

The five bandits who held up the Sedro-Woolley Bank last Saturday night attempted to cross the border into Canada this morning. In the first fight with the boundary officials Adams was killed while one of the robbers was also shot dead and a second wounded. The latter was taken to Cloverdale this afternoon. He was apparently disabled by the officers' shots and those probably fired at his fleeing companions, for he is suffering from a scalp wound dealt by a revolver held so close to his head that his hair was singed. Just after noon today another robber was wounded at Hall's Prairie. He drew his own revolver and shot himself while the officers raced forward to catch him.

At dawn the posses were still out, but it looked as if the remaining two or three had escaped.

The constabulary, however, well placed, not only by regular officers, but by members of the Home Guard formed since the startling of the war.

THREE DEATHS AT SALISBURY

One Soldier Was Killed by Being Thrown from Horse and Drawn a Considerable Distance.

London, Oct. 22.—The number of deaths among the members of the Canadian troops since they were quartered at Salisbury Plain has risen to three, two having occurred last night. The Record Office reports today that one of these deaths was that of a soldier who was thrown from his horse. His foot caught in a stirrup, and the horse dragged him a considerable distance before being caught. When released, the soldier was dead. The other case was that of a man who was found dead, the cause of death being as yet unknown. The Record Office promises to furnish the names of the victims and other details as soon as possible.

REPLACES VESSELS SEIZED

London, Oct. 22 (1 a.m.)—A Reuter despatch from Amsterdam says the Netherlands Minister of Marine yesterday asked the chamber for a credit of \$40,000 as the first payment for four torpedo boats which will be built in Holland to replace four German vessels.

The boats have been seized by the German government.

BELEAGUED IN CANADIAN HOSPITALS

About Fifty in Canadian Institution at Shorncliffe — Letters Asking for Aid Will be Investigated.

London, Oct. 22, (Gazette Cable)—Surgeon General Armour proceeded to Folkestone today to receive a further batch of wounded Belgians for the Canadian hospital at Shorncliffe.

The new arrivals include the number of patients at the hospital to about fifty, exclusive of a dozen Belgian officers who have been transferred to local convalescent homes.

Dr. Armour has received some thirty letters purporting to come from women dependent upon individual Canadian soldiers. He has handed them to Hon. Geo. H. Parley, who is investigating with a view to granting relief to bona fide claimants from the Prince of Wales fund.

MATTER OF CABETEENS FOR CANADIANS

Minister of Militia Has Had a Busy Trip and Will Return at Early Date.

London, Oct. 22.—Questioned regarding the new arrangements proposed by General Alderson for cabeteens supplying liquor to the Canadians in camp, Col. the Hon. Sam Hughes said that he did not care to express any opinion what seen by the Montreal Gazette correspondent today. He reminded the interviewer, however, that with saloons on the edge of the camp, difficulty was sure to occur, and that had been so placed in relation to the Valcartier Camp, he would have had to deal with the question on a different basis. The Canadian forces now being under the control of the Imperial authorities, he had nothing more to do with them, and he was well content to trust to the judgment of the commander of the forces.

The Minister of Militia has practically completed his task on this side of the Atlantic. Though his trip was taken as a much needed holiday, it has not been much of a vacation, as he has fulfilled numerous duties, both official and social. He and Col. Wilson were the guests of Lord Roberts at dinner this week, and he also received numerous other invitations of a similar kind. On Monday Col. Hughes went to The Mount, Beley Heath, to call upon Sir Charles Tupper, who has three grandsons and a great-grandson with the Canadian contingent.

Having concluded to his satisfaction all his arrangements with General Alderson for the withdrawal of the Canadian troops, the minister now plans to return to Ottawa at an early date.

INDIANS TO FIRING LINE

It was officially disclosed in a speech of Lord Crowe, Secretary of State for India, delivered last Tuesday, but only made public today, that the Indian troops in France have not yet taken part in any of the battles. The belief here is that they now will soon be ready to take their places at the front. The hospitals have been advised to get ready next week for their wounded.

INDIANS TO FIRING LINE

Again today it was reported that the Italians had landed marines at Avlona, Albania. Such a step, it is generally believed here, would not be resented by any power at the present moment, when the situation in Albania is so serious on account of the warring tribes and the strife between the contenders for the Crown of the country, which was taken off recently by Prince William of Wied, the ruler of a few months.

BYE ELECTION OPPOSITION NOT LIKELY

Believed Hon. T. C. Casgrain and Hon. Pierre Blondin Will Not be Opposed — Senate Vacancies.

Special to The Standard.

Ottawa, Oct. 22.—It is unlikely that any opposition will be offered to the return of Hon. T. C. Casgrain and Hon. Pierre Blondin. Contests in bye-elections would justify a general appeal to the electorate. Other bye-elections in Westmorland, Terrebonne and Jacques Cartier will be brought on shortly.

It is believed that the six vacancies in the Senate will be filled shortly. Five of these vacancies are in Ontario in succession to Senators Rogers and Ross, Coffey, Gibson and Cox, and one in British Columbia made vacant by the retirement of Senator MacDonald.

It has not yet been decided whether the House will be called before January or not. Many believe that the House will meet in November and if possible the session will not be of more than a month's duration. Of course the length of the session depends solely on the sincerity of the professions of the opposition.

MONTEAL EXPLOSION CASE WILL PROBABLY BE LAID TO OTHER CAUSES ALTHOUGH WITNESS STICKS TO STORY

Montreal, Oct. 22.—The coroner's inquest today into the death of Peter Dychtara, the Russian boarder at Peter Nick Bay's boarding house, 571 Frontenac street, whose dead body was found beside the ruins just after the disastrous explosion at the Frontenac street row of tenements about six o'clock Tuesday night, failed to throw any light on the cause of the explosion. Twenty-seven witnesses were examined, chiefly Russians, and the evidence showed that the deceased had been on friendly terms with the other inmates of the tenement houses. They were satisfied he had not blown up the building.

The bomb story of Tuesday night seemed to pretty nearly fizzle out of the inquest, although Geo. Germain, 502 Frontenac street, stuck to his original story that he had seen two men throw something into the hallway of one of the houses immediately preceding the crash, and he said he thought the dead man was one of the two in question. The inquest was adjourned until next Thursday.

Search of the ruins today did not reveal any dead bodies.

So far, no hints have occurred from the explosion, that of Peter Dychtara at the time of the wreck and Mrs. M. Jurjansky, who died the following morning.

OBITUARY

Mrs. Thomas Price

The death of Wilhelmina Keith, wife of Thomas Price, took place at midnight Thursday at her home, 146 Neckerburg street. ALLIES REPULSE ENEMY; INDIANS ON LINE SOON

(Continued from page 1.)

As though the Belgians had not already suffered sufficiently during the war, the little villages along the coast, north of Ostend, are suffering severely from shell fire. Lying, as they do, between the German lines and the British warships off the beach, some of them are reported to have been completely destroyed, and others badly damaged. It is believed, however, that virtually all the inhabitants of the villages departed from them when the Belgian army retired behind the Yser River.

SUBMARINE SUNK

Deep tracks are introduced in some of the new afternoon gowns, as in this gown of dark blue tulle chiffon posed over blue satin. The belt is of red, blue and gold; the buttons are also gold. Transparent blue chiffon sleeves is another modish feature of this gown.

London, Oct. 22 (12.12 a.m.)—The Secretary of the Admiralty announces that the submarine boat E3, commanded by Lt. Commander Geo. E. Cholmley, is now considerably overdue, and that it is feared she has been sunk in the North Sea.

A wireless despatch received here from Berlin Tuesday said the E3 had been sunk Sunday, October 15, by German warships. Her complement consisted of sixteen men.

ROUNDING UP GERMANS AND AUSTRIANS

British police combing country for aliens—Over 500 arrested in Manchester—No exceptions.

London, Oct. 22, 5.02 p. m.—The wholesale arrests of Germans throughout England has brought the German Benevolent Committee face to face with a problem equal to the first few weeks of the war.

The large majority of those arrested have been employed steadily, and their families will be dependent during the stay of the breadwinners at the detention camps. This was the ground up for the day of Germans, Austrians and Hungarians throughout the United Kingdom, only those having naturalization papers issued prior to the war being spared.

It is estimated that there are three thousand alien enemies in the United Kingdom, of whom a majority are in London. The burden of combing and its environs falls on Scotland Yard, but various long the forces attached to the metropolitan police stations will take some time to completely clear up, in spite of the fact that a majority of these aliens have been registered with the police since the outbreak of hostilities.

Five hundred have been arrested in Manchester during the last 24 hours, and the numbers elsewhere are in proportion.

At Northampton a prominent German, who was manager of the local street railway system, was forced to resign in spite of the fact that he had lived in England for 27 years. It is said that he did not take out naturalization papers until after the war began.

DETENTION FOR GERMANS AND AUSTRIANS

Ottawa, Oct. 22.—Customs and immigration officers are looking more closely than they have hitherto done into the credentials of the German and Austrian unemployed in Canada and are probing to see if they will be collected into various detention places throughout the country. It is difficult for these to get employment and they will have to be maintained. The possibility is therefore that they will be made to government work of some kind.

British and French unemployed are being deported but it is obvious that Germans and Austrians have to be kept in this country.

CHILDREN HATE OIL, CALOMEL AND PILLS

"California Syrup of Figs" best for tender stomach, liver, bowels.

Look back at your childhood days. Remember the "dose" mother insisted on—castor. How you hated them, how you fought against taking them.

With our children it's different. Mothers who think the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver or bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups. Beware of cheap imitations. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

Bombardment Near Ostend and Nieuport Becoming Still Heavier—French Squadron Aiding British Fleet—Enemies' Cavalry Being Mowed Down—Allies Strongly Entrenched.

Amsterdam, Oct. 22, via London, 10.10 p. m.—The Telegraph's Blus correspondent reports that the bombardment of Ostend and Nieuport is becoming still heavier. "The shells of the allies," the correspondent says, "are raining down upon the Germans, and causing terrible destruction. The battlefields are covered with bodies, but fresh German troops continue to arrive. Since morning the Germans have retreated slightly. A French squadron is supporting the English warships, which can only be reached with difficulty by the German gunners.

THE SOUTH AFRICAN GERMANS INTERNED IN JOHANNESBURG; INCITING NATIVES TO RIOT

Action as result of activities of agents among Zulus—Home Defense forces fighting enemy in East and South Africa—Reported much uneasiness felt.

New York, Oct. 22.—Over one thousand Germans of all classes, from merchant chauts to waiters, have been interned in a public park near Johannesburg, South Africa, by British authorities as the result of reported activities of German agents among natives, according to C. Eaton, of Tacoma, Wash., who recently left South Africa, and arrived here today on the steamship Adriatic from Liverpool. "The war has created a situation in Africa that can be described as alarming," said Mr. Eaton. "The native population outnumber the whites by about four to one. Early in the war England began withdrawing the regular troops, which were replaced by recruited bodies, termed home guards or a defense force. In the vicinity of Cape Town and Durban much uneasiness is felt, and Germans are openly charged with inciting the natives to revolt. Part of the defence force, as fast as it is recruited, is being sent to German East and South Africa, where it is reported that the Germans have a force of about ten thousand troops. I left South Africa on September 21, my departure being delayed by inability to get steamship passage, the regular liners having been pressed into service to carry troops."

THE PRUSSIAN DIET GRANTS AN ENORMOUS WAR CREDIT

Members Pass Bill for \$375,000,000 Unanimously—Galleries Filled and Vice Chancellor in Address Claims Ultimate Victory for Germany.

Berlin, Oct. 22, via Amsterdam to London (11.25 p. m.).—The Prussian Diet met today and passed war bills, including one granting a credit of 1,500,000,000 marks, (\$375,000,000). The house and the galleries were filled to overflowing. Many of the Deputies, some of them wounded, attended the session, dressed in their military uniforms.

After congratulatory messages to the emper had been voted, Clemens Del Brueck, vice chancellor, submitted the war bills. Herr Del Brueck said Germany had been forced into the war by the hatred and envy of her neighbors. He regretted, he said, that the Imperial Chancellor, Dr. Von Bethmann Hollweg, who had accompanied Emperor William in the field, was unable to be present at the session. "I am the bearer of the sincerest greetings of the emperor to you," continued Herr Del Brueck. He is following with lively interest your work, which will heal the wounds created by the war. He wishes you swift progress in your deliberations. "While our armies are fighting and

A VACATION FOR PREMIER OF DOMINION

Sir Robert Borden to spend three weeks at Virginia Hot Springs—Been working hard.

Special to The Standard. Ottawa, Oct. 22.—Sir Robert Borden leaves tomorrow for the south on a three weeks vacation. The Premier is much in need of a rest. He has been working hard for a long time and since the outbreak of the war he has been especially busy. He will probably spend a portion of his holiday at Virginia hot springs. Lady Borden will accompany him. It is unlikely that the vacancies in the Senate, of which there are six, will be filled until his return. During Sir Robert's absence Sir George Foster will be acting premier.

THE BLUFF DIDN'T WORK

Special to The Standard. Ottawa, Ont., Oct. 22.—A good deal of uneasiness has been caused here at the expense of some of the army of contractors who have been here in the last few days for the purpose of securing orders for British army supplies from Fred Stobart, the British commissioner.

Some of these contractors had conceived the idea that Mr. Stobart was a "green" Englishman who could be "bluffed." They soon had their eyes opened. Mr. Stobart is a Canadian who has been in the dry goods business in Winnipeg for thirty years. He has also large business interests in Great Britain where he now resides, but comes to Canada periodically to look after his Winnipeg concerns. He is a business man of exceptional ability.

OBITUARY.

John McGowan, Sr.

The death took place about 11.30 o'clock on Wednesday morning of John McGowan, a 57-year-old resident of Mac's Bay, after an illness of about four weeks' duration. He was a blacksmith by trade and was in the 74th year of his age. He was well known and respected by all who knew him and the news of his death will be received with sincere regret by a large circle of friends. Besides his wife he leaves three sons and three daughters to mourn. The sons are Andrew, William and John, all at home, and the daughters are Mrs. F. M. Shannon of Wright street, St. John; Mrs. John R. Corcadden at home and Mrs. H. Waycock, of Dipper Harbor. The funeral will take place on Friday.

THE GERMANS CANNOT MAKE IMPRESSION

Furious attacks repulsed all along the line—Bombardment between Ostend and Nieuport.

London, Oct. 22, 6.16 p. m.—"The furious bombardment between Ostend and Nieuport continues today," according to a despatch appearing in the Telegraph, of Amsterdam, and telegraphed to London by the correspondent of the Exchange Telegraph Company.

"The Germans are firing from Marlakerke and Middelkerke; the French from Nieuport, and the English from their warships. English aviators directed the fire of the allies on the German positions.

"The French and Belgians are persistently resisting the efforts of the Germans to cross the River Yser. The dykes of this river have been cut and the banks at high tide are flooded for considerable distances. Continual rains have made the land very swampy and the Germans, suffering from heavy losses, cannot advance. Large numbers of their wounded arrived at Bruges and Ostend Wednesday, and a body of Germans came from Ghent to assist in their removal. A further consignment of new guns for the shelling of British warships have arrived at Ostend. Zebrugge is still occupied by German marines."

SUCCEEDS WM. TAFT.

Washington, Oct. 22.—Peter W. Mel-drum, of Savannah, Ga., was today unanimously elected president of the American Bar Association, to succeed William H. Taft.

Geo. Whitlock, of Baltimore, Md., was re-elected secretary, and Frederick E. Wadhams, of Albany, N. Y., re-elected treasurer.

Soup and meat is given for dinner, and the other meals consist of meat, bread, cheese and coffee. The refugees wash their clothes and iron them and cook their meals in the school houses. At night they sleep on straw under the seats. Heavy cannonading was heard here this morning from the direction of Ostend.

BELGIAN REFUGEES WON'T RETURN TO THEIR HOMES

Over 8,000 penniless in Flushing and are being fed by civic authorities—Many going to England—Living in schools and churches.

Flushing, Oct. 22, via London, 4.30 p. m.—A total of 8,000 penniless Belgians quartered today in Flushing refuse absolutely to return to their homes in Antwerp, or Belgian cities in the hands of the Germans. It is true a hundred refugees did go back to Antwerp yesterday, and that an equal number left today, but the movement to get large numbers to return to the cities in the possession of the enemy has been futile.

All the schools and church buildings of Flushing are at the present time occupied by impoverished Belgians. The schools have been dismissed to accommodate them. The normal population of this city is 20,000, but it is today augmented by probably 10,000 Belgians, only 2,000 of whom have funds and are able to pay their way. The municipality is bearing the expense of feeding and sheltering those who are without means.

Many refugees are leaving daily for England, but the Belgian and British governments have not granted the request of Flushing for transports to facilitate this movement, and as a result the burden of Flushing has not been lifted. All the municipal officers, as well as the school teachers, are at work feeding the fugitives.

PATRIOTIC AND BELGIAN RELIEF FUNDS

The relief from the local branch of the Canadian Patriotic Fund is now being distributed in a systematic manner and a record of all relief and applications for relief is kept by the treasurer C. B. Allan.

St. John is represented in the first contingent by about 500 men but so far only about 150 families have applied for assistance. New applications are being received every day but the number has fallen off considerably since the first few weeks after the soldiers went away.

There has been some misunderstanding in regard to the families of volunteers for home defence, and their participation in the benefits of the Patriotic Fund. Some of these cases came before the local committee, and a communication was addressed to the head treasurer asking for a ruling. He replied that the fund was exclusively for the families of those men who were in active foreign service, stating that the men on home duty in Canada were receiving \$1.55 a day for seven days each week, and from this they were obliged to provide for their dependents. The reply further stated that in cases when men on home duty refused to provide for their families, the officers of the Patriotic Fund had power to ask the commanding officer of the regiment to which they were detached for their discharge, and they would be compelled to provide for their families. Members of the relief committee have made a careful survey of the situation of the families of soldiers at the front and aid has been given when needed.

In several cases where assistance was offered it was refused and the members of the committee were told it was not needed.

The following amounts were received by the secretary yesterday: Proceeds Patriotic Concert, St. Mary's Church, \$101.50; Mrs. D. Hunt, \$5; A.

GENEROUS AND COMES FROM KING'S COUNTY

Councillors grant \$2,000 to Patriotic Fund and \$1,500 for Belgians—\$86 for Red Cross.

Hampton, Kings Co., Oct. 22.—This morning Kings County Municipal Council held a special meeting to consider the granting of money to the Patriotic and Soldiers Aid Fund, and the Belgian Relief Fund. The Warden, E. A. Flewelling, presided, and stated the object of the gathering.

Messrs. P. M. Sprout and E. A. Schofield presented the case for the local committee, and Mrs. J. A. McAvity urged the claims of the Red Cross Society.

Councillor F. E. Sharpe, in a rousing patriotic address, stirred all hearts to a high state of enthusiasm, closing with a suggestion that the Council retire for a short time to talk over the whole matter and bring in a recommendation which would carry annually. This was adopted and just before noon they returned with two resolutions.

First—That the secretary treasurer forward a cheque for \$500 to C. B. Allan, St. John, treasurers of the Provincial Branch of the Canadian Patriotic Association, and notifying him that he can draw bills for an additional \$1,500, as required.

Second—That the secretary treasurer forward to Mayor Frink, St. John, a cheque for \$1,500 in aid of the Belgian Relief Fund.

Both resolutions passed unanimously with acclamation.

Councillor Sharpe intimated as the Council had not been called upon to consider a grant to the Red Cross Society, the Councillors should hand over their day's fees to the ladies of the Hampton Red Cross Society, the following members of which were present: Mrs. John A. McAvity, Mrs. J. J. Ryan, Mrs. J. E. Angerville, Mrs. A. March, Mrs. C. J. Mersereau, Mrs. G. M. Watson. This was adopted and three hearty cheers were given by Hampton men and women for the Council as a whole, and for the individual members. Everybody then sang "God Save the King" and "Tipperary," and the Council adjourned.

A Red Cross tea sociable held at the home of Mrs. Wm. R. Robinson, Everett street, on Monday evening, netted some \$18.75 for the purpose of purchasing a quantity of flannel to be made up into shirts for soldiers. Refreshments were handed round. There were records and an informal phonograph recital, and a program of songs, etc., making up a successful entertainment.

Rev. J. A. McKeehan, of St. David's church, St. John, will lecture here on behalf of the Red Cross Branch on Tuesday, Nov. 3rd, and offers are made to get up a girls' concert as an additional help.

The contribution of councillor's fees amounted to \$86, which was paid over to Mrs. J. E. Angerville, treasurer of the Hampton Red Cross Society.

WAR CHANGES THE COLOR OF NEWSPAPERS

Shade of newsprint changed from blue white to cream color—Scarcity of aniline dyes.

Recently St. John newspapers have been appearing in a shade somewhat different in color from that usually used. As a rule the shade of the newsprint, as the white paper is called, has been a blue white which with the black ink makes for clearness and ease in reading. The cream colored paper which now appears is not as satisfactory either to the readers of the papers or to those who do the work of publication and as a result of the action of the manufacturers in supplying paper of this undesirable shade complaints have been made.

These have brought forth the explanation that the war is the cause of the whole trouble. It appears that the aniline dyes used by paper manufacturers are almost exclusively imported from Germany and that there were no very large stocks carried in Canada at the beginning of the war. Since then it has been practically impossible to obtain additional supplies and the paper makers have had to send out stock lacking in proper coloring. It may be added that the paper manufacturers are no better satisfied than are the publishers of newspapers with the shade of the paper now furnished but it is a matter of this shade or none at all for the present at any rate, and readers will just have to put up with existing conditions until the manufacturers are in a position to revert to their former colorings.

Committed For Trial

James Mullin was before the police magistrate yesterday afternoon and said that he had nothing to say as to the charge against him of entering William O'Keefe's saloon on Union street and stealing. He was committed for trial at the next session of the County Court.

Assault Case Adjudged

A young Hebrew, named Friedman, has been charged with assaulting a Hebrew woman and the case was to have been heard in the police court yesterday afternoon but owing to the illness of the complainant the case was adjourned until Monday afternoon at two o'clock.

The Northern Area Battle Line

BATTLE LINES OF THE ALLIES AND GERMANS EXTENDED TO THE NORTH SEA.

The Germans have occupied Ostend and their line reaches to Veurne (Furnes), where it joins the main army's right wing, extending to Courtrai and Lille and thence south to the Aisne, west to Metz and south to the Swiss frontier. The Allies, too, have extended their line to the North Sea near Dunkirk from Tournai and Arras, near Lille. There it turns south and closely parallels the German positions. The German cavalry have been forced back on Lille by the capture of Valenciennes and Hamme-scamp.

Matter of Clarence Street properties overlapping will probably be settled out of Court.

In the police court yesterday afternoon Fred Galbreath and David Burrows were charged by Mrs. Sophia Stewart with malicious destruction of her property at 14 Clarence street. John A. Barry appeared for the complainant and Urban Sweeney for the defendant. It appears that the Galbreath and Stewart houses are adjoining, and there is a dispute between the two as to the boundary between them. Mr. Galbreath claims that the boundary is on the side of his house and that the Stewart house overlaps his property. Mr. Stewart claims that the boundary is on the side of his house and that the Galbreath house overlaps his property. The case is adjourned until next Thursday afternoon to see if some settlement could not be reached without the matter going any farther in the courts.

FUNERALS.

The funeral of Robert Butler took place at 2:30 o'clock Thursday afternoon from the residence of his brother, James, 211 Sydney street, in the Church of St. John the Baptist, where the obsequies were conducted by Rev. Monsignor Chapman, V. G. Relatives acted as pall-bearers and the funeral was very largely attended. Interment was in the old Catholic cemetery.

From her late residence, 160 Brussels street, the funeral of Mrs. Harry Nixon took place at 3:30 o'clock yesterday afternoon, to the Cathedral of the Immaculate Conception, where the funeral services were conducted by Rev. M. P. Howland. Interment was in the new Catholic cemetery.

Relief of Missionaries.

London, Oct. 22, 11:45 p. m.—A Reuter despatch from Alexandria says the American cruiser North Carolina returned to Beirut, Syria, yesterday and left immediately after embarking \$75,000 in gold for the relief of American missionaries and other American citizens in the Ottoman empire.

The cruiser will call at other ports in Syria and deliver relief money.

STOCK EXCHANGE SEAT SELLS FOR \$34,000

New York, Oct. 22.—A seat on the New York Stock Exchange was sold today for \$34,000. This is the lowest price obtained for a seat in many years. It was the second seat sold since the stock exchange closed on July 30, the other seat selling for \$42,000.

WANTS COMPANY TO ERECT LOW PRICED HOMES ON EAST SIDE

The city commissioners have been asked to approve of a scheme for the formation of a company for the erection of low-priced homes in the vicinity of the city. Arthur H. Lilely submitted the proposition yesterday. The site selected by him is located at East St. John on what is known as the Davidson. Forks lots, where 1,000 lots sixty feet by 100 have been laid out. The houses and lots would be available to anyone on the initial payment of \$100 and small monthly installments.

The plans call for the formation of a company with a capital of \$100,000 with the city guaranteeing its bonds to the extent of \$75,000 as provided under the terms of the Housing Act, which was recently passed by the Legislature.

WANTED HIS FINES.

Chicago, Oct. 21.—Heinrich Zimmerman had his fighting clothes on Sunday. He was one of the Chicago Cubs who met at headquarters to obtain his share of the exhibition money and city fines. While there he conferred with President Thomas and demanded that the fines which were taken away from him this summer returned. Zimmerman was peeved and declared that "if I cannot be given a definite answer, and refer him to Manager Hank O'Day. If latter recommended that the fines returned they will be."

Manager O'Day was at the office but got out before Zimmerman arrived there. Zimmerman was peeved and declared that "if I cannot be given a definite answer, and refer him to Manager Hank O'Day. If latter recommended that the fines returned they will be."

Zimmerman put up the argument that he was on the field every day fighting as hard as anyone in the club, and that is why he was put of the games.

MORATORIUM DECREE EXPIRES NOVEMBER 4

British Moratorium Modified in Several Particulars—Russia Paid Bills Promptly When Ban Was Lifted.

New York, Oct. 22.—The time is approaching when the protective financial measures decreed by foreign governments will expire. The most notable instance is the British moratorium, which expires November 4. This decree has been modified in general particulars in the meantime, but it is understood to be the intention of the British government to arrange matters so that the complete ending of the moratorium can take place on that date.

In certain provisions of the French moratorium the suspension has already expired. Regulations regarding bills of exchange, etc., expire November 1. It is not believed there will be an extension of the French moratorium after that date.

The Russian moratorium expired October 3 and all demands upon the banks were paid promptly on and after that date.

The German moratorium on drafts made out in foreign countries was extended in the first place until October 1. It is not known whether an extension beyond that date has been declared.

Austria declared a moratorium on bills of exchange until the end of November.

The Italian moratorium on bills was postponed until November 10.

The Belgian moratorium expired originally October 2, but undoubtedly the decree has been extended. In the present chaotic condition of the country little is known what governmental action has been taken.

The moratorium in Denmark expired October 10. In Norway the moratorium was ended September 6. Sweden's moratorium has also expired.

The Portuguese moratorium terminated October 11.

Bulgaria—Original moratorium expired October 31.

Egypt—Moratorium expired September 15.

The Brazilian moratorium has been extended until December 14.

Most of the other South American republics declared moratoria of 30 days or more, but the government conditions in that part of the world were not unusually strained. It is not believed they have been generally extended. A recent cable from the Colombia government to its legation at Washington was to the effect that no moratorium had been necessary in Colombia on account of the European war, either for internal or foreign obligations.

Holland—No moratorium was declared here, but the government took certain steps to protect persons in temporary financial difficulties.

Switzerland declared a restricted moratorium until September 30.

China took some protective steps, the extent of which is not known.

Spain—Banking facilities here were temporarily suspended in sympathy with the moratorium in France, but it is believed that financial conditions are normal again.

The new railway line from Buenos Aires, Argentina, to Asuncion, Paraguay is equipped with restaurant cars which are provided with pianos, so that passengers may enjoy music while en route. These cars are handsomely designed, and are adorned with palms and decorative plants.

QUOTATIONS IN THE ST. JOHN'S MARKETS

There have been several recent changes in the prices of commodities. In the majority of cases prices have become easier, but sugar has advanced twenty cents a hundred pounds. On the other hand, has dropped about forty cents. Bran, in ton lots; middlings, in car lots; and cornmeal are all quoted at somewhat easier figures.

MARINE INSURANCE UNDERWRITERS MEET

American Institute Discusses War Risk Situation—Would Further Cut Rates—Fear Mine Fields.

New York, Oct. 22.—At a meeting of the American Institute of Marine Underwriters of War Risk Insurance the situation was discussed. It was the opinion that conditions tended more favorably toward the reduction of rates on shipments of freight in British and French steamers.

The spreading of explosive mines in the English Channel, resulting in damage to two steamers of the Holland-America Line and also the destruction of the British steamer Admont, is regarded by underwriters as being serious, and unless England takes steps to furnish pilotage through the mined fields, rates for war risk insurance to Rotterdam by way of the English Channel will go up.

For the east coast of Scotland and England, north of Dover, the institute decided that three per cent should be demanded.

Underwriters still think that there is an element of danger in the Bay of Bengal, where the German cruiser Emden made several raids a few weeks ago. Four per cent is the ruling rate to Australia, New Zealand, the Philippines, Straits Settlements, China and Japan, by all routes. This is a reduction from six per cent. While the capture of the Hamburg American liner Markomann, which accompanied the Emden, is felt to indicate that England is again giving protection to shipping in Indian waters, the fact that the Emden is still free acts to keep rates up.

The absence of reports of losses along the Brazilian coast has lowered rates from five to three one-half per cent, while to Argentina and Uruguay four per cent is asked instead of five per cent.

Reductions have also been made in rates to the west coast of South America, three one-half per cent, being the rate via the Panama Canal, and five per cent via the Cape of Good Hope, respectively previously charged.

CANADIAN LUMBER BANK CLEARINGS IN CANADIAN CITIES

Conditions Quiet—Little Prospect of Extensive Building During the Winter and Sales Will Be Small.

Toronto, Oct. 22.—Clearings of Toronto banks for the week ended today were \$27,516,978, as compared with \$20,956,255 last week and \$40,189,661 for the corresponding week a year ago and \$46,027,507 two years ago.

Montreal, Oct. 22.—Bank clearings for the week ended today were \$40,949,180, as against \$48,956,823 for the corresponding week in 1913, and \$61,778,012 for the corresponding week in 1912.

Winnipeg, Oct. 22.—Bank clearings for the week ended today were \$40,280,392 as compared with \$38,276,442 for the corresponding week last year and \$38,456,667 for the same week of 1912.

Halifax, Oct. 22.—Bank clearings for the week ended today were \$1,828,114.09 and for the same week last year, \$1,846,912.47.

Ottawa, Oct. 22.—Bank clearings at Ottawa for the week ended today were \$4,552,485 as compared with \$3,810,195 for the corresponding period last year.

Quebec, Oct. 22.—Bank clearings for the week ended today were \$3,706,983, corresponding week last year, \$2,968,730.

St. John, Oct. 22.—Total clearings week ending October 22nd, 1914, \$1,638,268; corresponding week, 1913, \$1,511,780.

Chicago, Oct. 22.—Wheat—No. 2 red, 1.13 1/2 to 1.15 1/2; No. 2 hard, 1.13 1/2 to 1.15 1/2. Corn—No. 2 yellow, 75 1/2 to 76; No. 3 yellow, 75 to 76. Oats—No. 3 white, 48 1/2 to 49; standard, 49 1/2 to 50. Rye—No. 2, 93. Barley—58 to 76. Timothy—4.00 to 5.50. Clover—11.00 to 14.00. Pork—17.00. Lard—10.62. Ribbs—10.50 to 11.50.

Montreal, Oct. 22.—CORN—American No. 2 yellow, 81 to 82. OATS—Canadian Western, No. 2, 58; No. 3, 57 1/2 to 58; No. 1 feed, 56 1/2 to 57. FLOUR—Manitoba spring wheat, patents, \$6.70; second, \$6.20; strong bakers, \$6; winter patents, choice, \$6.00; straight rollers, \$5.50 to \$5.60; bars, \$2.60 to \$2.75. MILLFEED—Bran, \$25; shorts, \$27; middlings, \$30; moultie, \$30 to \$34. HAY—No. 2, per ton, car lots, \$12 to \$13. POTATOES—Per bag, car lots, 65.

Conditions in not now apparent. Rather, United States lumbermen are curtailing heavily and waiting patiently. This tendency extends over to United States dealings with Canada, and there is a very small amount of dumping of southern pine, which was feared by Canadian lumber manufacturers.

SPY TOOK AMERICAN NAME FOR SAFETY

London, Oct. 21, 5.40 p.m.—The alleged German spy who was believed to be an American citizen, and whose case came up for a hearing at Wellington Barracks, London, today, is in reality a German subject by the name of Lody. This man assumed the name of Inglis and pretended to be an American.

London, Oct. 21, 5.40 p.m.—The alleged German spy who was believed to be an American citizen, and whose case came up for a hearing at Wellington Barracks, London, today, is in reality a German subject by the name of Lody. This man assumed the name of Inglis and pretended to be an American.

United States lumber associations are holding their members remarkably well in hand, and the tendency of many years ago to slash prices in a mad effort to overcome poor market conditions is not now apparent. Rather, United States lumbermen are curtailing heavily and waiting patiently. This tendency extends over to United States dealings with Canada, and there is a very small amount of dumping of southern pine, which was feared by Canadian lumber manufacturers.

PASSENGER RATES

Since the war began the rates on the Atlantic passenger steamships trading to Canada have fluctuated considerably. At first the rates were advanced and afterwards dropped again. The C. P. R. and the Allan Lines have just increased the above passages \$10, while the Dominion and Cunard Lines have advanced second rates \$5 and the steerage \$2.50, this change bringing the Montreal to Europe rate nearer to the New York rate. What change will be made in passenger rates on steamers coming to Portland the coming winter as yet unknown, as everything in relation to the season's schedule is uncertain, and immigration will certainly be very light during the first part of the winter.

ANIMAL SHIPMENTS

Portland, Me., Oct. 21.—The Bureau of Animal Industry has just issued an order modifying the shipping regulations relating to the exportation of cattle, horses and the like. These new regulations are so stringent in comparison with the requirements from Canada that cattle shipments have practically ceased from most Atlantic ports and are sent from Halifax by the new railings cattle may be carried on the upper decks and there is some easing in the sanitary requirements. The order was made to apply to New York and New Jersey ports, but on application Portland would doubtless be given the same privileges should there be any cattle shipments from this port during the coming winter.

TONY BIDDLE TALKS ABOUT THE FIGHTERS

(By Grantland Rice)

In view of what has recently taken place through September and the few days of October, three certain citizens of the peaceful commonwealth will be very much in the limelight next April—4 not a few weeks before.

The citizens we refer to are George Stallings, John McGraw and Connie Mack. Among themselves they will work out the most interesting problem that baseball has known, with almost every element of the game involved.

No. 1—Stallings

Has Stallings launched a machine that will be another three times winner as Giants, Cubs, Tigers and others were when first thrown into the shade of the plive?

Stallings is more than passing confident that he has just such a machine—a machine that will predominate next season just as it predominated from July of this last year after it obtained its proper physical condition and its morale.

We discussed this point with Stallings after the recent series, and it was his belief that the Braves would be unbeatable again next year. "We have already proved," he said, "that we had no joke club, but one of the best that ever played. And most of my men are young—younger than any other championship club on record. Bill James is only twenty-two; Rudolph is but twenty-five; Tyler is but twenty-three; Gowdy is but twenty-four; Schmidt is under twenty-five, and Maranville is only twenty-five. Evers is a veteran, but Johnny has shown that he is still far from being company. My outfielders are all young, averaging under twenty-five. In addition to all this, I have two grand young pitchers—Davis and Strand—coming in to join the Big Three, and by next spring they will be as much improved as James was this year over last. I have a club fully protected now against accident or hard luck. And from July of last season, when my club was at last rearranged and molded, we played at a .750 clip. Suppose next year we drop 100 points to a .650 clip? What club is there to beat us? We've come to stay a while at the top, and next October we will be out there protecting our world series title as well as the Mackmen protected theirs until they bumped into the buzz saw."

No. 2—McGraw

McGraw has a tougher problem ahead than any other manager in the game. Almost his entire lineup slumped this year, and it will be a rasping job for him to tell which men were merely in an off year break and which were slipping for good in the direction of the beckoning bush. It is possible that the Giants are through now for some time as champions—just as the Tigers finished after their three-year run up to 1910. It is also possible that they merely had a one-year slip, as the Cubs had in 1909 and the Mackmen had in 1912. The Cubs won in 1906, 1907, 1908 and were beaten in 1909, only to come back in 1910.

The Mackmen won in 1910, 1911, 1912 and 1913, and came back in 1914 and 1915. It may be that the Giants bolted here and there with Mathewson, Marquard, Pezreau and Demaree in 1913 form and with others added, may discover the difference between getting \$400 in a city series and \$2,000 in a world series and swing back with their old-time rush. The Braves are great fighters, but it is just as well to remember, too, that the Giants did some fighting on their own hook for three years in a row.

Through July, August and September the Braves looked better than the Giants in almost every position—in at least eight out of nine places.

Semi-ready Tailoring

Dare to be different in Dress. Different breathes out from the Special Models of Semi-ready Suits and Overcoats this season.

Differentness radiates from the guardedly exclusive cloths and trimmings in the new Topcoats.

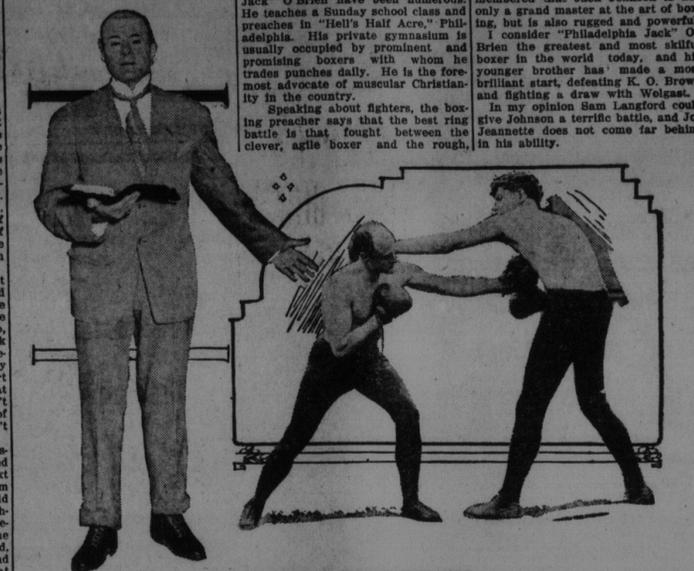

And it is the "difference" which bestows quiet distinction.

STALLINGS GIVES CREDIT OF BRAVES VICTORY TO MITCHELL

George Stallings declared after the series that "Fred Mitchell deserves as much credit for what the Braves have done as any man on the team."

Who is Fred Mitchell?

Mitchell is "the power behind the throne." Mitchell, veteran catcher, who worked with the Yankees in 1910 and who drifted to the minors later was the first man signed by Stallings when he was given the job as leader of the Braves.

"Mitchell is one of the brainiest men in baseball," said Stallings. "He is the greatest developer of pitchers in the game. He took Dick Rudolph in charge and developed him from a good pitcher to a wonderful pitcher in less than a year. Mitchell took 'Big Bill' James in hand, showed him how to use his spit ball, showed him how necessary and conserve it when it wasn't, and in less than a year he transformed James from a raw, inexperienced pitcher into one of the best in the game."

Mitchell has been teaching Strand and Davis, my youngsters, a few new tricks. He has been teaching them control and how to mix them up. When next season opens I'll be ready to send both those boys along as regulars and you'll find that under Mitchell's teaching they soon will jump into stardom.

"Mitchell's name didn't figure in the world series. It didn't figure during the regular series, but Mitchell, more than any one man, is responsible for what the Boston team has accomplished."

It will be remembered by the St. John fans of the good work that Mitchell done when he was a member of the Alerts in this city some years ago. He was then known in St. John as Fred Yapp and had many admirers. Jope was his catcher and when Yapp and Jope was the battery there was some fast ball.

ACADIA DEFEATED MT. ALLISON

Wolfville, N. S., Oct. 22.—In the Intercollegiate match here this afternoon Acadia defeated Mount Allison by a score of fourteen to five. The game was clean and well-contested throughout. At the close of the first half the score stood eight to five in favor of Acadia. Leaman scored the first try, and McCurdy the second, which Parker converted. Anglin scored the try for Mount Allison, and it was converted. In the second half Harlow and Parker scored tries for Acadia, neither of which were converted. Mount Allison kept Acadia hard on the defensive in this half, but was unable to cross the home team's line.

The line-up: Acadia—Fullback, Gregg; quarters, Archibald, Parker, Richardson; halves, Leaman, McCurdy, L. Harlow, Eagles; forwards, Attacks (Captain), Steves, McKay, Spencer, Bishop, Rooco, R. Harlow.

Mount Allison—Fullback, Redding; quarters, Ferguson, Gregg, McAlle; halves, Anglin, Heaz, A. Eaton, Wisdom; forwards, Poole, McDonald, Burns, Sealey, Baxter, Durant, (Captain) Whetmore.

JOHN "HANS" WAGNER WORLD'S RECORD BATSMAN

Two sad-faced young men were among the Boston Braves who attended the dinner that Mayor Curbey gave to the new world champion team and other guests. They are Cottrell, least of the club in July, a pitcher who joined the team in July, and Martin, the Georgetown university shortstop, who became a member of the Braves' outfit on August 1. Each played in just one game and each is very sore on his team mates.

Though both were eligible to play in the series, and though the commission's rules provide for a full share for any man who is on the eligible list, Martin and Cottrell were given only \$500 each. They were cut out of the big "divvy" by a committee of the veteran players of the club, which was named to consider the matter of the sharing of the spoils, and of gifts to the ground keeper, mascot, club secretary and other attaches whom it is customary to remember.

Both players are roaring, but each will accept what he got and offer up praises that the Braves didn't lose the series. It is probable that they will be allowed a share in some other soft coin that is to be secured. A moving picture concern was at Fenway field taking pictures of the Braves in action and will exhibit these. The money goes to the players.

has many hours of leisure now. "The most pleasant of these," she says, "are those I spend in knitting while the Victrola sings for me, the old, old songs I used to love.

"There's 'Love'e Old Sweet Song,' 'Silver Threads Among the Gold,' and 'Sweet Genevieve,' sung by such splendid singers as Clarence Whitehill, Richard José and John McCormack. Those are my favorites, but there are so very many other splendid pieces all by such wonderful artists that it is a constant source of wonder and pleasure to me. The best of it is, the rest of the family are just as fond of it as I am. The Victrola surely has brought sunshine into our lives."

THE WEATHER. Maritime - Moderate north and west winds, fine and cool. Washington Forecast: Oct. 23 - Forecast: Northern New England - Fair Friday and Saturday. Toronto, Oct. 22 - Showers have occurred today in parts of the western provinces with the temperature much the same as yesterday, while from Ontario eastward the weather has been fine and somewhat cooler.

Around the City To Halifax Twelve members of the Army Service Corps, two of them corporals and ten privates have been selected and will leave in a few days for Halifax to join the forces in that city. Still Alarm About eight o'clock last evening a still alarm was sent in to No. 2 fire station and Chemical No. 1, responded to put out a chimney fire in Stephen Bettie's residence on Exmouth street. Beaconsfield Conservatives. The Beaconsfield Conservatives will hold a meeting in the Tower school house on Tuesday next at eight p. m. Officers for the coming year will be elected and delegates and substitutes to the next Conservative convention will be chosen. Speeches will be delivered by Commissioner R. W. Wipmore and John A. Barry. Steamship Notes Messrs. Wm. Thomson & Co., the local agents for the Allan Line, have announced that the first winter sailing of the line will be the steamship Tunisian, which leaves Liverpool on November 13th, and on return sails from St. John on November 23th. Purvis liner Kartha will sail today with general cargo for London via Halifax. City Road Improvements. Commissioner Potts has men at work filling in the bad places in City Road and streets in that vicinity. The depressions are first cleared out down to a fairly solid foundation and the holes are then filled with broken stone and asphalt. This is expected to remain in place much better than broken stone alone. Formerly it was the custom to fill in these hollows with small pieces of broken stone but the first heavy vehicle scattered the stone and left the spot as bad as before. The asphalt will form a cohesive for the broken stone and by spreading to the road bed near will help to improve conditions generally. A pie social, dance and concert in aid of the Patriotic Fund were features of an entertainment given by Mr. and Mrs. R. M. Burden at Leona Water Park, Westfield, last evening, when \$121 was secured for the fund. Pies sold from \$1.75 to \$3.00 and the bidding at times was extremely spirited. Mr. and Mrs. Burden have been active in connection with the raising of funds for the Patriotic Fund and among other things personally donated a kit of surgical instruments for ambulance work. Mr. Burden has also given ten pigs to the soldiers on Partridge Island, who are to fatten them and sell them for the benefit of the Patriotic Fund. At Christmas, Mr. Burden will give ten more. He has also given the proceeds of his apple orchard for this year to the fund. STREET RY. EXTENSION Steel laid as far as Three Mile House - Stone crusher to be erected. Good progress has been made on the street railway extension towards Rousesay and already the steel has been laid as far as the three-mile house. Some more ballasting will have to be done before this section of the road is completed. The tracks run close to the eastern side of the roadway and the work has so far interfered little with the ordinary traffic. When completed to Glen Falls the trolley line will give access to the Glen Falls property on the rear of which it is understood will be placed a monster stone crushing plant and broken stone in any desirable size will be sold for use in concrete and other work. Already it is said contracts have been signed for the first two years' output of the plant. It is understood that the machinery for crushing stone is already in the city and that as soon as the railway line is completed the machines will be transferred to the site of the quarry. The street railway people will likely transport the products of the plant to the city and otherwise assist in marketing the stone. The Ludlow. The ferry steamer Ludlow is being overhauled for her annual inspection, and will be put in commission for the winter service. PARK HOTEL, KING SQUARE.

ASSAULT CASE WAS DISMISSED. Interesting Case Settled in Police Court Yesterday Afternoon - Defendant Should Have Moved When Told - Charge Against Officer McLeese Thrown Out. In the case where Constable George Blair was charged with refusing to move on when ordered to do so on Charlotte street by Policeman McLeese, and the case where Policeman Leese was charged with assaulting Walter Campbell on Charlotte street, was concluded before Magistrate Ritchie yesterday afternoon. Blair was fined \$20, and in default of paying the fine to spend one month in jail. He paid. The case preferred against the policeman was dismissed. The two cases were the outcome of an occurrence on Charlotte street on Thursday night, the 8th inst. Constable Blair with Walter Campbell, Frank Coleman and George Lawson, were standing on Charlotte street and when ordered to move by Policeman McLeese they did not move as soon as they were instructed to do so with the result that the officer having received Blair's name reported him. About the time that he took the name Campbell claimed that the policeman assaulted him by pushing him away, and accordingly he made the charge of assault against the guardian of the peace. In reviewing the case yesterday afternoon Magistrate Ritchie said that the evidence went to show the officer ordered the men to move, and that they did not obey the order. As to the charge of assault, was it the intention of the officer to assault Mr. Campbell. There were circumstances where if a man puts his hand on another it was an assault, but the circumstances in this case were different. If a man was ordered to leave the court room and refused to do so, and the court sergeant took hold of him to eject him, this could not be termed an assault by the sergeant. His Honor said that only a short time ago he was standing on the street and was ordered to move along with others, and he did so. If he had not moved the officer would have had a right to put his hand on him and say "Move." In this case everything was in the favor of policeman McLeese, who, from what could be learned, was one of the most efficient of the force, and from the evidence he was doing his duty. Some people had the impression that back up the officer, and it is unfortunate that he did not move right away when ordered. Blair was then fined \$20, and requested the court for a copy of the proceedings. An officer could be respected and obeyed, and if there was to be an efficient police force, the people must be behind the officers. The other night when a police officer Roberts, an arrest about three hundred people gathered around him and he was kicked about and there was no one of the three hundred appeared to step in and assist him. "I hope that after this all citizens will feel that they do not wait until they are called out, but to offer their assistance to the policeman. In this case Blair as a constable should be the very man that back up the officer, and it is unfortunate that he did not move right away when ordered. Blair was then fined \$20, and requested the court for a copy of the proceedings.

STONE CRUSHER. REPAIRS TO SIDEWALK. The section on Garden Street without asphalt pavement will be fixed up. Men from the City Public Works Department have done considerable work in connection with the repair of the sidewalk in Garden street. The sidewalk had been laid without an asphalt covering after the curb had been raised and it was thought that a permanent walk would be placed there. This meant a bond issue and Commissioner Potts was unable to have the amount voted by the City Council. Repairs, however, are now underway and it is expected that within the next few days the sidewalk will be in much better condition than it has been during the last year. Purchase goods made in Canada.
