Sanguinary Family—A Son Kills His Father in Self-Defence.  
(From the *Lancet*, the *Punch* and the *Illustrated London News*.)  
One of the most terrible tragedies that has ever fallen to our lot to recount took place near Montreal, Canada, last evening. Most of our readers will remember that some time in January Geo. W. Myers and his two sons, William and Isaac, were arrested near Montserrat on charges of being connected with a robbery at Carletonville, N. S., some nine days ago. A man named Day lost \$10,000 at that time, and Myers, who at that time was living at that place in rather moderate circumstances, soon became possessed of sufficient means to buy two acres of land, and among others the old Richardson farm, some four miles west of Montserrat, upon which a disturbance arose in the family which led to a separation between Geo. W. Myers and his wife, and two of the sons taking part with the father and the third with the mother. During one of the brawls, which were of frequent occurrence, it is said that James, the eldest son, bludgeoned the father in the presence of the other two sons, and the father, who was lying on the ground, was shortly afterwards arrested and taken back to Carletonville. On Saturday morning the father went to the house of James, and having called him out in the yard, informed him that one of them would have to die. James ran back to the house where his invalid wife was lying, and shouting the word "murder," he fled to his father's room, where he hid. The father, who was in a state of great excitement, seized a revolver and fired at James, who was lying on the ground. The bullet struck James in the chest, and he died at 7 o'clock p. m. The other sons, seeing their father's intention to kill them both, James, no doubt, believing that he would carry his share of the inheritance, and the other son, seeing that his father was bent on killing them both, pursued their father's murderer to town, and having their intention of killing him at first sight. He was, however, locked up in a cell, and a double trial probably prevented.

A hue and cry was raised yesterday afternoon on Brunswick street, and in a short time about two hundred men, women and children were in full chase after a man who was running for his life. Down Clarence street he sped, out on the railway works, and along towards the Marsh Bridge, followed by a crowd who yelled "stop thief!" He rushed into Smith's foundry, and the crowd who were at his heels surrounded the door, to the surprise of the workmen. When an explanation was being made the cut as well as bold thief slipped out an unguarded door and rushed across the shipyard to the Marsh Bridge, and out into the country. The man's name was John Mullin, and he had stolen a suit of clothes, a watch, and four bottles of brandy from Mr. Connor's store, Brussels st. Mullin is well known, and a few weeks ago was at the Police Court charged with stealing tools from his father.

Barabec.  
Fun draws the million. The man who makes laugh—either in the press, the pulpit, or on the stage—is the man who makes money and achieves fame. Barabec is not only a humorist, but an American humorist—one whose literary capacity for doing and saying laughable things has been developed, carbed and directed by faithful study until he has become an artist in humor. Some of the most accomplished of his class consist from their heavenly evidence of the fact that they enjoy the joke themselves. Barabec knows better than this. When enacting the most ridiculously solemn scenes, and expressing the greatest indignation, there is a humorous gleam in his eye, and a smile on his face, indicative or suggestive of the effort he is making to keep a severe countenance, that provokes the most unrestrained bursts of laughter. We question very much if St. John's greatest undertaker, even though seated between the nearest friends of persons supposed to be dying, could refrain from laughing at Barabec. As a singer Mr. Barabec has a bass voice of great compass and power, his lowest notes being indistinguishable half across the hall and his highest sufficient to take the roof of the house. As a comic actor he has a wonderful flexibility of voice and face, and as a stamp speaker and story teller he has few superiors on the variety stage. His character sketch of an Unprotected Female, a line in which many excellent artists have displayed their powers on the stage of Lee's Opera House, was a marvellous natural production—restrained, subdued, ludicrous—a real work of art with the art concealed. The Raven has been recited much better than by Mr. Barabec, but his rendering is much more natural—being entirely devoid of rant, such as professional readers usually favor their hearers with. Mr. and Mrs. Heine are musicians of great excellence, and won the warm applause of the audience. Mr. Heine's solo on an ordinary tin whistle was a marvel of sweetness. The house was packed from floor to gallery. The entertainment lasted nearly three hours. Mr. Barabec can count on as large a house when he comes again.

City Police Court.  
Six occupants of the dock this morning confessed to the charge of drunkenness.  
Andrew Mirra, an Indian, was the first to point out the place.  
Mrs. Ann Spellman denied being drunk in Prince Wm. street, but the charge being proved a fine of \$8 or two months' imprisonment was imposed.  
William Thomas confessed being drunk at York Point, and wanted to be excused as he had just come from sea. Fined \$4.  
Robert Normansel, arrested drunk in Sheffelt st., paid \$4.  
John Collins, a young man, was charged with drunkenness in the same street. A fine of \$6 was imposed.  
Ellen Hayes, a Sheffield street nymph, confessed to being drunk, and was fined \$8 or two months in goal.  
John P. Wells was yesterday afternoon fined \$6 for using abusive language to Samuel Mayes.

Peritland Police Court.  
James Arlott was charged before Justice Tapley with assaulting William Boyle with an axe. The evidence proved it to be an accident and the charge was dismissed with costs.  
Michael Cummings was found guilty of being one of a disorderly crowd on the City Road. He was fined \$3.

Board of Trade.  
The Board of Trade met this forenoon to hear the report of their delegates to the Dominion Board. The report, which was quite lengthy one, was read by the Secretary. It contains the report of the Committee on Insolvency, as adopted by the Board. The various subjects discussed were also referred to. It had been proposed to memorialize the Government in regard to a Graving Dock at Quebec. By the influence of the delegates the memorial was made to read "for Docks in the principal ports of the Dominion."  
The discussion on the tariff question, and reciprocity, with all the other questions that came up, were referred to. The President of the Board spoke of the pleasure which his trip to Ottawa had given them, and the universal hospitality with which they had been greeted, and of the active earnestness of the members and the interest taken in their deliberations by the members of the Government. Sheriff Harding also spoke of their visit. It was voted that the report be referred to the council, who shall, as soon as possible, report to the Board.  
Mr. Dunn took the delegates to task for some of their acts. His special object of attack was Mr. Marshall and his paper on Canadian Loyalty.  
Sheriff Harding moved a resolution to the effect that it was for the interest of the city that the Board should be more generally composed of manufacturers and producers, especially as the framing of a tariff was of great importance, and also the necessity for fuller information in regard to reciprocity. The motion passed and the President urged the members to place the subject of joining the Board more fully before eligible persons. A communication in reference to the Balto Verte Canal was referred to the Council.

Mr. Marshall suggested that at the meeting of the Dominion Board of Trade in July, the Chamber of Commerce Newfoundland be invited to attend. The President promised to remember him and bring the subject up again.  
By request of Mr. L. H. DeVeber the President vacated his chair, and a vote of thanks was passed to the delegates. The Board then adjourned.

HOUSE OF ASSEMBLY.  
FREDERICTON, March 26—Afternoon.  
After dinner Mr. Adams said there was no fraud in the petition, as the corporation who had not signed it applied to Mr. Tweedie, a lawyer of Chatham, to get it up, and as their names were placed in the first paragraph of the petition, they had not thought it necessary to sign it.  
Hon. Mr. Kelly moved to make the rates not exceeding eight and four cents. Carried.  
The bill was then agreed to.  
Hon. Mr. Crawford presented a petition from Robert Pusey and others, in favor of dividing the Parish of Sussex.  
Mr. McPherson committed a bill to change the polling place in Bright. Agreed to.  
Hon. Mr. Stevenson committed a bill to authorize the Justice of Charlotte County to divide certain lands held in trust by them, between the towns of St. Stephen, Millville and Upper Mills, and the Parish of Dufferin. Agreed to.  
Dr. Alward committed a bill to provide for simultaneous elections in this Province. Mr. Palmer in the chair. Progress reported.

Mr. Hibbard committed a bill to incorporate the Victoria Red Granite Company of St. George. Agreed to.  
Mr. Landry committed the report of the committee on the petition of Francis White. The mover explained that White, owing to a mistake in a grant by the crown, was deprived of some thirty acres of land near Sheldale station; much of it had been improved by him before he discovered that his title was not valid. The special committee had thought White should have some \$600, and he moved resolution that the House adopt the report of the committee, and recommend the motion be that the House concurs in the report of the committee and recommend the same to the consideration of the Government.

LEGISLATIVE COUNCIL.  
The House adjourned till to-morrow.  
FREDERICTON, March 26.  
Hon. Mr. Jones introduced a bill to prevent frauds by secret sales of land, and a bill relating to apothecaries and druggists was committed. Hon. Mr. Balfour in the chair. Three sections passed when progress was reported. A bill to amend and continue Madawaska Boom Company was committed. Hon. Mr. Seely in the chair. Passed.

Circuit Court.

At 10:45 last evening they broke out a house at the corner of Canterbury and Church streets, belonging to Mr. E. Maher, and occupied by John Allen as a stove warehouse, Mr. McDougall as a furniture factory, and Mr. Myra as a clothing manufactory. The engines were soon on the spot, and in a few minutes streams of water were thrown into the building. The adjoining house, owned by Mrs. Mahoney, and the next building in Church street, were soon on fire. The efforts of the firemen were directed to prevent the fire moving up Church street or back into the stables in rear of Mrs. Mahoney's house. There was a perfect tinder box in the rear, and if the fire had caught it, the damage would have been great, as it would have extended to Germain and King streets. The house owned by Mrs. Mahoney was completely gutted, and the one above it had the roof burned off, and was estranged with water. The corner building, owned by Mr. Maher, was burning all the time, dense volumes of smoke issuing from the roof, while the unseen flames were gradually extending to the adjoining building in Canterbury street, owned by G. V. Nowlin, Esq., and occupied by B. Bronnina as a residence and liquor saloon. Fire issued from the Maher and Nowlin buildings about the same time, and streams of water were directed on the flames. The progress of the fire was stopped after it had burned the gable of Mr. Nowlin's house, which was completely saturated with water. Mr. Brennan got nearly all his furniture out of the building without much damage. Mr. Maher's stock was nearly all saved, but being stores and tinware, is much damaged by leakage and water. The stores and other property removed from the building were placed in Canterbury street, and the crowd who were at his heels surrounded the door, to the surprise of the workmen.
