NEW JUDGE .- We believe that the present Attorney General, Hon A. R. Wetmore, The House of Lords to night gave assent to the Irish Church Bill. The announcement of this fact in the Commons was received with doubt some of our contemporaries will put it that "the Standard is reviving the report, A colision in the Bahie on the night of the &c.," be this as it may, we generally have good grounds for publishing such information. The question arises who is to be appointed sto Mr. Wetmore's office? Some two or three gentlemen have been named, and a good deal of bancombe written as to "the claims of cer tain sections" to fill seats at the Council Board There is altogether too much of this village politician argument, in matters of Provincial import, and we are sorry to add a disposition also to make unfavorable comparisonsit is generally acknowledged that "comparison are odious." Candidly speaking, there is o meet some gendemen from Halifax a few be decied, and it generally follows that the their supporters in preference to those of their stager, possessing the necessary abilities is u-ually selected to fill an office when it be comes vacant. This brings us to the consider ration who is to be Mr. Wetmore's successor

The question can be easily answered. On of the Government's most powerful supporter's last Session, was W. H. NEEDHAM, Esq. whose legal, political, professional and admin istrative standing is equal to any of those per sons we have heard named for the office, and in some cases beyond them. It has been re ported that Mr. Needham has been promised the office ; we trust the report is correct; his Provinces together by a three-fold bon of the Government; and we may add that he is of the country, and no other total celipse will familiar with the duties of the office having be visible in America during the present continuous and other leading men are also and the duties of the office having be visible in America during the present continuous and the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country and no other total celipse will be visible all the country are constant. in several counties, and was the active secre performed to their satisfactions

Have appointed J. F. STICKNEY, of S. . ANDREWS, N. B. ole Agent for the sale of their CLLEBRATED PERFECTED

SPECTACLES Which have been extensively used in the New England States, the past eight years, and for which they claim the undermentioned advanta-ges over those in ordinary use, the proof of which ay be seen in their constantly increasing busi ess during a residence in Hardord of 8 years. 1st. That from the perfect construction of the lenses, they assist and preserve the sight, render-ing frequent changes unnecessary.

2d. That they corfer a brilliancy and distinct-less of vision, with an amount of ease and com-ort not hitherto enjoyed by spectacle wearers. 3d. That the material is in which the Lenses are ground is manufactured specially for optic parases, and is pure hard and brilliant and not hable to become scratched,

whether good, silver or steel, are of the fines; qua-tity and finish, and guaranteed perfect in every respect.

by One of the ram will visit St Andrews, at the Stare of their Agent, every four mouths, for its purpose of fitting these having difficult sights then any spectacles sold by their Agent during the interval will be exchanged free of citargo if, not properly fitted, STWE EMPLOY NO PEDDLARS.
