used to drive to the Gaiety Theater in the smartest of dog carts, with a "tiger" behind. She was at the Gaiety Wednesday. She went behind the scenes, where her appearance caused a sensation. She had journeyed from Broad Stairs full of many reminiscences of her holiday. When questioned as to the prabability of her rejoining the chorus. She laughed and declared it "wasn't good enough" and that she had no need of work, but it was noticed there was a suspicion of hysteria in her flow of spirits, and that there were tears in her eyes when she bade an unusually affectionate farewell to her friends.

The St. James' Gazette, the Globe and other papers denounce the coroner's secresy. The Star, in its comments on the Gaiety girl's death, says: "When it was found that the girl were a diamond bracelet as a mark of princely favor, it was quite certain that everything that money could do would be done to prevent publicity at the inquest. Was it because there was a crime to constitute of the country of the count ceal, or was it because some exalted personage was involved—persons whose feelings could not endure the exposure?"

THE DARDANELLES DISPUTE.

Austris, Cermany and Italy Reply to the Porte's Circular.

Beelin, Oct. 5.—According to the semiofficial political correspondence, Austria,
Germany and Italy have sent an answer to
the circular note addressed by the Porte to
the great powers regarding the passage
through the Dardanelles of vessels of the
Russian volunteer fleet. The answer is
to the effect that they have taken note of
the communication of the Turkish Government. None of them intend to take any
diplomatic action. The answer of England
has not been sent in, but it is expected it
will be different from that of the other
powers.

The Central Bank, The Central Bank.

Toronto, Oct. 5.—The dispute over the assets of the Central Bank has been settled. The liquidators have accepted the tender of Geo. A. Hogaboom and awarded him the \$750,000 worth of bad debts for \$44,500. This will enable the liquidators to almost immediately declare another dividend of 6 per cent., making the total amount which the liquidation has now paid on the dollar 99½ cents.

Chaudiere Strike.

News comes from Quebec that Joseph Barondess, master workman of the Jews' League of Cloakmakers of New York city, charged with extortion, conspiracy and obtaining money under false pretenses, was arrested there on board the steamship Norwegian at Quebec outward bound. Barondess had fled from New York city on the 25th September, one week previous, to avoid the penalty of his crime. He was in the habit of calling on the employers of labor and informing them that a strike was imment among their employes, but that if they would give him a small sum of money—say \$500—he would have no difficulty in settling the affair satisfactorily. The employers, as a rule, to save torily. The employers, as a rule, to save further trouble gave him the required amount, which he generally appropriated to his own use, there being not the slightest indication of a strike among the laborers.

George Francis Train Disgusted with His Countrymen.

New York, Oct. 5.—George Francis Train attempted to deliver a lecture at the Grand Opera House, but was howled down by a mob. Mr. Train finally gained the attention of the crowd, and said: "This is the last time I will ever speak to an American audience; hereafter I am dumb, except to children. I shall not fast, but will pack up my things and go to Chicago, where I shall spend the balance of my days;—the American people anyhow. They do not appreciate me. and when the Postmaster-General was satisfied I do not much wonder that the Cabinet and the House were reluctant to enter on a new investigation in the last days of the session. But the second shrinks into insignificance beside the first imputation. With regard to it his own inaction and the action of his friends force us in the meantime to believe him "guilty," and if guilty what a glimpse is given into the depths of sin where we would expect scrupulous purity. Such a man should no! nger insult the moral sense of the community by remaining an adviser of the Queen. If he does not retire it will be ill for the Cabinet, for, though the women of Canada have not votes, they influence votes, and this is a sin they will neither forget nor forgive.

Russians on the Banks of the Pruth.

Berlin, Oct. 6.—Frequent communications have passed within 48 hours between Berlin and Vienna, and the subject is believed to be the operations of the Russians to the southwest. Everything is being prepared as if for war in that direction. The reserves are out ostensibly for drill.

Two hundred and forty thousand men are on the banks of the Pruth, or within ten miles of that river, the Rubicon of the Russian forces are amply fitted with ponteons and all the requisites of a rapid advance into the heart of the Balkan States. It is said that Austria is in some doubt as to whether to regard a Russian advance toward the Balkans as a cause for war, and also as to whether, in such an event, she could expect the co-operation of Germany.

A Strong Man Dies.

PORT ARTHUR, Ont., Oct. 5.—Karl Gehl died in the hospital on Thursday night from a fractured skull. He was born at Innsprucken, on the Rhine, 57 years ago, and came to this country when a young man. He prospered in the county of Bruce, but in 1869 he came out here, and from then to now made the bush his home, following up an explorer's life. He discovered Silver Hill mine, the Uttawa location on Attik Lake, and a big bet of others of lesser note. Gehl was exploring in the State River county with his son when he accidentally slipped and fell over a blut, sustaining the injuries which caused his death. The deceased was a man of tremendous muscular strength and has been known to pick up a steel rail weighing about 600 pounds and carry it off the boat.

A few weeks ago a tourist among the mountains along the Canadian Pacific Railroad met young Mr. Pelly, who figured in the famous Birchall murder case in Canada. It will be recalled that Pelly came to Canada with Birchall to be his partner in the imaginary farm which Birchall's dupes supposed to be in Canada, near the American line. It was Yelly whom Birchall took to a high bank overlooking the Ningara River with the intention, it is believed, of pushing him over into the foaming river and thus adding another murder to his record. After the Birchall trial, in which Pelly was one of the principal witnesses, he went to England, but soon returned, and has been engaged in an excutive capacity during the building of the railroad between Calgary and Edmonton. When the tourist met him in the Selkirk Mountains he was on his way to Vancouver for a vacation.

A Dinner Pill.—Many persons suffer exeruciating agony after partaking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healthy nutriment it becomes a poison to the sytem. Dr. Parmeiec's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and conver the food partaken of into healthy nutriment. They are just the medicine to take if troubled with Indigestion or Dyspepsia.

At Tiverton, Thomas Vaughan, of Kinmilk sent to the cheese factory, was fined
\$10 and coats.
Donald McInnis and Thos.
Farquharson, of Bruce township, admitted
that they removed cream from their milk
and were each fined \$10 and costs.
John
Roppel, same township, pleaded guilty to
the charge of sending milk diluted with
water to the cheese factory and was fined
\$10, and Geo. Cameron, also of Bruce township, was fined \$10 and costs for removing
ship, was fined \$10 and the factory. At
Bargoyne, four magistrates sat on the
bench at the trial of William Boddy
charged with tampering with his milk. The
defendant did not deny the charge, but his
counsel held that Boddy did not tamper
with it himself, and it would therefore be
unjust to fine him (Boddy) for what others
had done. The statute, however, holds a
person responsible until the milk reaches the
factory. The presiding magistrates, R. M.
Hay, of Paisley, and Geo. Chambers found
Boddy guilty, but Dr. McArton and
Donald McIntyre found the prisoner not
guilty. He was fined \$20 and \$8.40
costs.

Complaint is made that it was sought to place the crime at the door of Catholics on the Roman Line, where the inhuman act was said to have been perpetrated. The act was committed, however, on the Biddulph and London townline, in a Protestant section. Mr. O'Shea says Mr. Krantz is a Protestant living among Protestants, and has been molested, while other Protestants live on the Roman line in a Catholic section and are never molested. The letter is written in a kindly vein, the intention being to correct the insinuation of the published article, and a strong plea being made for mutual forbearance between the two sections of Biddulph people rather than accusation and insinuation against each other.

The medical practitioner of Canada will tell you that one of the most prevalent and most common ailments of the present day is Indigestion. There are few individuals who have not experienced it oftener than once in their lives. Indigestion is an ailment that develops other serious and dangerous troubles, unless it is attended to with promptness. The ordinary Indigestion arises, for the most part, from ovecloading the stemach with food; or it may result from partaking too freely of wine, spirits or other intoxicating liquors.

Confirmed or chronic Indigestion may depend on debility or want of tone of the stomach, or it may be caused by the lining or mucous membrane of this organ being in a state of irritation or chronic inflammation. One of the most common causes of indigestic that the state of the contraction of t

THE FUTURE OF MR. MEREDITH adoners have evinced considerable interest in regard to the report that Mr. W. R. necessitate a bye-election. Whether or not there is anything substantial in the rumor, or whether the accession of Mr. Meredith to the Ottawa Administration as now stated would add to its that Mr. Meredith has not been a success leader in the Legislature, but we frankly confess that he would be an improvement on the majority of the men who now form the Dominion Government.

It is understood that if Mr. Meredith goes into the Ottawa Government he will be given a seat for one of the divisions of Toronto. In that city he has now centered all his business interests, and he has his home there, having removed his family from London over a year agq.

THE LISTER DEMONSTRATION. Tire popular reception to Mr. Lister, M.P. for West Lambton, which it has been will set in immediately. Remove decided shall take place at Sarnja on Tuesday, Oct. 13, promises to be one of the largest gatherings ever held in the county. It has been resolved that one of the Bands from surrounding towns will be in attendance and add to the brilliancy of the occasion. If the weather is favorable the speaking will take place in the open air; otherwise the town hall will be used. It is policy for low taxation and untrammeled commerces. expected that several prominent members | commerce,

of both Houses will be present on the occa n. Mr. Hyman, M.P. for London, has een invited to participate. Mr. Lister well deserves this recognition of his intrepidity in exposing wrongdoing in high places.

ONCE A KNIGHT ALWAYS A

The theory regarding the conferring of imperial titles on Canadians is that the reipient has been worthy of honor and distinction. Though nominally conferred by the sovereign, these titles are really the gift of the imperial party leader in power at the time of bestowal.

We are not of those who believe that in this democratic country any custom which causes public men to look to another land for rewards is conceived for the best interests of the country. Canadians should have sufficient national spirit—independence-to enforce the rule that the highes honor which a Canadian can desire should be the approval of his fellows.

But so long as titles are conferred and accepted, surely it cannot be too strongly arged that two rules should govern the 1. It should be placed beyond a rerad enture that the recipient of an imperia title is really worthy of the distinction. 2. No title should be hereditary, and

its receiver should only be allowed to hold it under good behavior. Why should a man who has robbed the

people of Canada, or who has connived at the robbery of the public purse, for the benefit of his own pocket, or to swell the fund collected to bribe the electors to keep him in office, be retained on the list of knights and privy councilors? If the title of "K. C. B." is an honorable

one, if it is conferred as a distinction on public man, it is surely logical that the oment such a man is known to have besmirched his fame, he shall forfeit the right to be longer included in the ranks of the elevated ones. Nothing can better serve to bring the whole system of knight-hood into contempt than the knowledge that no matter how depraved a man may become, no matter how great the warrant may be for drumming him out of the service of his country, he can still claim the right to sit in a privy councilor's chair, while prefixing "Sir" to his name and

THE BRITISH BUTTER MARKET Now that systematic efforts are being nade to promote the production of cream ery butter in Canada for the British market, he question naturally arises—is there room there for a large Canadian output? Undoubtedly, if the quality is right and the supply is uniform in that respect, and also steady. When the dairymen of New Zeaand and Australia find it practicable and, we believe, profitable to push into that market, surely the Canadian can do so with better results by far. If it is such a good thing, how is it, someone asks, that the British cow-keeper does not enrich himself thereby? From shore to shore England is dotted with densely populated cities and towns, and the dairymen find so large and ready a demand for most of the milk they can supply, as a rule, that they do not care for the trouble of converting it into the more refined product, butter, and which might not yield them equal cash returns. Then, so great is the demand that they could not supply it were they disposed to try. Hence the foreigner must make the Englishman's butter. As Mr. Lister, of Dursley, Eng., a large manufacturer, and a The Advertiser and practicable. Nothing would so much purify electoral contests. Nothing not particular what it costs so long as it is to their liking. As a practical hint, he said the butter should get there as freshly made as possible, salted lightly-and the supply ould be constant. Canada, especially in winter, was peculiarly adapted, in every respect, to develop butter dairying profitably, and in fact all the people here had to do was to "go up and possess the land."

We are pleased to learn from one of the largest creamery men of the Province that he was able to sell this season for shipment to England a very large quantity of butter at a good paying price. hope that there will be a rush of immigrants to Canada when all the United strength, remains to be seen. It is certain States vacant lands are filled up and the republic is no longer in a position to provide homes for newcomers.

This is a left-handed compliment to the

Dominion that is calculated to do Canada a great deal of harm.

Why should this fine country have to wait for a vigorous development trough the settlement of its vant land and the profitable work ng of its rich mineral resources until such time as the United States is full to overflowing? Let us have equally good opportunities to improve our condition, and equally good chances for newcomers to make a living, and the era of development restrictions, throw down the barriers that put Canadians at a disadvantage while working alongside a combination of 44 nations enjoying free trade within them selves, and we will have such an era of It has been resolved that one of features of the demonstration will be a monster procession in which as many of the monster procession in which as many of the mounted. The country has waited long enough. It has given the high tax policy a chance, and

TOPICS OF THE DAY. THE average European monarch nowadays talks peace-with his thumb on the trigger. At what cost to the workers is this armed peace maintained!

A REAL, live Presidential baby in the White House would be a novelty. The event in the Cleveland home on Saturday last, followed by the election of the ex-President next year, may work wonders at Washington.

REV. F. E. NUGENT speaking in Mitchell recently, remarked: "I would rather die preaching the Gospel than wear upon my limbs bracelets and diamonds the price of boodleism. But why should we preach while the Governments of our land are going on with frauds, and bribes, and boodling? What we need at Ottawa is a Cromwell." The people will play the part of Cromwell as opportunity offers.

THE Anneke Jans heirs are like the cente of population. They are steadily going further west. A few years ago, the headquarters of the men and women who were prosecuting the will o' the wisp search for possession of the big formine was in Hamilton, Ont. Now it has been established in Kansas City, where, on the 6th of this month, a meeting will be held to once more send round the hat, and employ lawyers to hunt up the big fortune, now elevated to the enormous sum of \$300, 000,000. It is fun for the lawyers: bu the heirs get no nearer the estate than they were twenty years ago.

BRITISH OPINION ON THE SCANDALS.

SCANDALS.
[Newcastle Journal, Conservative.]

"But it is to the Minister of Public
Works the scandal is really traceable, for
'passive connivance'—though too strong
phrase to meet the view of the majority or phrase to meet the view of the majority of Parliament—is probably as near as so very vague a phrase can be to an accurate description of the 'it's all right, as long as I'm not in it,' sort of sentiment that is at the bettem of a good many scandals in this world. It is hard to believe that Sir Hester Largerij was not in some wave and Hector Langevin was not in some way and to a certain extent cognizant of the acts of McGreevy. Many men have notoriously owed their escape from detection in complicity with frauds simply by taking care to appear ignorant of acts which it suited their pupose to permit; and it is never very easy to decide when such ignorance is accidental or willful and intended to serve ulterior purposes. There is no question at all, however, as to the blame attaching to the Minister, even if he be acquitted of guilty knowledge. He ought to have known, and at once to have stopped and exposed McGreevy's tricks." Hector Langevin was not in some way and

There is a gentle-man at Malden-on-Dyspepsia. the-Hudson, N. Y., named Captain A. G. Pareis, who has written us a letter in which it is evident that he has made up his mind concerning some things, and this is what he says:

"I have used your preparation called August Flower in my family for seven or eight years. It is constantly in my house, and we consider it the best remedy for Indigestion, and Constipation we Indigestion. have ever used or

known. My wife is troubled with Dyspepsia, and at times suffers very much after eating. The August Flower, however, re-lieves the difficulty. My wife frequently says to me when I am going to town, 'We are out Constipation of August Flower, and I think you had better get another bottle.' I am also

troubled with Indigestion, and whenever I am, I take one or two tea-spoonfuls before eating, for a day or two, and all trouble is removed." (9)

Damon and Pythias.

The above drama which is to be presented at the opera house on Thursday evening promises to be a great success. The large cast is composed of the best local talent, under the guidance of the eminent actor, Mr. Harry Townsend, who has been engaged to direct the stage and play his great part of Damon. Handsome and appropriate Grecian costumes have been purchased and the play will be put on in an elaborate manner. People are advised to secure their seats early as there is sure to be a crowded house. The plan opens this morning.

Mathias Bowron, a laborer, who lives near Lambeth, drove to the city yesterday morning with a very old, lame and wornout horse. The poor animal was little else than skin and bones, and had two bad sores on its shoulders. It had very few teeth and could eat but little. A veterinary surgeon was of the opinion that the horse was entirely unfit for work and that it was a case of cruelty. On promising horse was entirely unfit for work and that it was a case of cruelty. On promising never to work the horse again, the magistrate allowed Bowron to go on suspended sentence. Humane Society Inspector Minhinnick laid the complaint. Chrysanthemums.

The popularity which this the queen of the autumn has attained is shown by the number of exhibitions that will take place during the next few weeks, no less than 37 being announced. The weather has been unusually favorable to develop fine plants, and from present appearances the City Hall will be taxed to its utmost to hold the number of exhibition plants that are being grown, and which, without doubt, are far superior in quality and variety to those exhibited last year. The committee of arrangements have the details well in hand. A day will be set apart for school children, when they will be admitted at a reduced rate. With a view of increasing a love for horticulture, and the popularity of this world-renowned and justly-popular flower, the Florists' and Gardeners' Society intend distributing next spring several hundred plants to school children, for which prizes distributing next spring several hundred plants to school children, for which prizes will be offered at the next fall exhibition.

Change for the Better Can Only be Brought About by the Pocket Argument.

To the Editor of the ADVERTISE

I have read your columns teeming with "cures for corruption," furnished by the clergy. What do they all amount to? Nine-tenths are recommendations to place in Parliament "men of character," to inculcate in the schools and at home "reliament is short to render present the schools and at the property of the schools and at the property of the property culcate in the schools and at home "religious principles," in short to render presently effectual the moral and religious teachings of the pulpit, which have been in vogue for centuries. These cures may begin to take effect half a century hence; although, judging by the past, half a century is too short a space for the medicine suggested to operate. What we want century is consisted. What we want is an immediate cure, not the inauguration of treatment which will culminate in the

days of our grandchildren.

Now, let me ask you this: Is it not the westerday.

—Bad boys are a nuisance on St. James street west, stealing papers from the steps and ringing door bells being frequently complained of by residents.

Many a woman shrinks from consulting a physician about functional derangements and weakness, and prefers to suffer in silence. She is sad and pensive, and her silence is silence. She is sad and pensive, and her silence to the ailments will prove expensive. It may cost her her life. One of the most skillful physicians of the day, who has had a vast experience in curing diseases peculiar to women, has prepared a remedy which is of inestimable aid to them. We refer to Dr. Pierce's Favorite Prescription, the only remedy for woman's peculiar weaknesses and ailments, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case or money refunded.

CURE

HEAD

THE INCIDENT IN THE NIGHT.

During the drive from Lady Heron's Esther Wilton found her mother's eyes fixed upon her two or three times with something in their expression that made her uncomfortable, and she moved uneasily. You would have said that the look was one of pity. Esther had been talking merrily of the dinner-party. It was her first in London, and she was a little elated with her own success. Mrs. Wilton did not respond to her gaiety. A certain depression seemed to have settled upon her, and the lines in her face became strongly marked. Esther saw them, and, almost for the first time in her life, she remarked how great a look of suffering and anxiety her mother's face wore. Then came also as a shock the sudden knowledge that this sadness to which she had grown accustomed was habitual. She was so used to the look of care that she seldom noticed it. He opened his newspaper, but he did not read. He watched his servant bring in his coffee, his toast, and the silver dish that contained kidneys perhaps, or an omelet, or a sole. The steam was curling up from the hot rolls. His letters lay in a little pile beside his plate.

"Breakfast is ready, my lord."

But my lord did not hurry. To Johnson's annoyance he seemed to have no curlosity as to what was under the silver cover to-day—an unhealthy sign, thought Johnson, who ostentatiously pulled out his chart and stood behind it.

"That will do," said Rutherford presently, waking out of a brown study; "you use in wait."
"And it's my belief," said Johnson to his which people in run-down state of health derive from Hood's Sarsaparillia conclusively proves that this medicine "makes the weak strong." It does not not all the a stimulant, imparting fictatious strongth, but Hood's Sarsaparillia builds up in a perfectly natural way all the weakened parts, purifies the blood and assists to healthy action those important organs, the kidneys and liver.

"And it's my belief," said Johnson to his fellow-servant a few minutes later, "it's my belief that he's in love. Never even looked to see what you'd cooked for his breakfast, and I'm sure the smell of those mushrooms made my mouth water. If he was to marry, I should have to leave him. I couldn't live with any but a bachelor, and I should be sorry to go, for I don't know how ever he'd get on without me."

The military men drove the civilians back. Ketch was roughly handled, his face in particular showing signs of hard fistic collision. He was conveyed to the barracks hospital and is getting around all right.

Costumed as it is, the risk is great, and it is claimed that such a magnificent lot of dresses was never collected before.

On the Street Cars. Four young ladies in a Richmond street

car.

They occupied one side of the car. A solitary masculine on the other side, and he reading a paper, but couldn't help hearing the vivacious prattle of the four graces.

A couple of children were observed on the sidewalk.

"Who are those?" said one. "Who are those?" said one.
"O, those are the so-and-so's."
"And they must be a little better off," said the other; "for they seem now to be dressing better."
What! thought the reading person, can it be that the Argus-eyed public scan our every action, our every appearance, so closely as this!
Presently one of the young ladies got out at a corner.
The three remaining discussed her.
And now the third got out.

The active co-operation of the lairy of both sexes in the work of the church has re-ceived a powerful impetus during the pas-few years in the Diocese of Huron. The kindergarten in Askin street school is filled to overflowing, there being nearly 80 pupils enrolled, and 20 more, duly qualified, are waiting for admission. —In about a fortnight Mr. Guy Magee will be back from Europe with a quantity of old books. He has been prowiling about the London shops for many weeks gathering in treasures wherewith to tempt Chicago collectors. It is Mr. Magee's purpose to establish himself in the trade as soon as he returns home. He will carry only a limited stock of wares, it being his intention to devote most of his attention to hunting up special editions and rare volumes ordered by customers. Himself a veteran collector and intelligent bibliophile, Magee is particularly qualified for this line of business in which he is about to engage. His private library, though by no means a large one, includes perhaps as fine a collection of old dramatic works as is to be found elsewhere in the West.—[Chicago News.
