S. S. Stevens, Kingston, lumberman, as usual has done an extensive business at South Harmony and at the Station. Miss Helena M. Holden of Windsor, N.S., spend the week end in Kentville visiting her sister, Mrs. B. H. Barnaby.

FOR RENTAL in Kentville, 4 rooms of a house. Apply at Advertiser Office. Rev. A. J. Prosser will preach at Steam Mill Sunday afternoon.

FOX HOUND PUPS FOR SALE—Apply to Shirley Forsythe, North Alton. 1 a-o-x

Mr. E. O. Wood, formerly of Woodville, is enlarging and otherwise improving his evaporating plant at Kingston. It looks as though he was anticipating doing some business next fall.

The Canning and Creamery Company, Kingston, are building a large ell to their canning plant. The indications are such that we look for enough apples to supply them.

The Japanese Tea Room will be one of the attractions of The Red Cross Bazaar. You will want to patronize that.

Mr. and Mrs. Harry W. Fowler of Fort Fairfield, Maine, were in town this week guests of Mr. and Mrs. W. W. Blockwell. They have been spending a fortnight at Bridgetown, Mr. Fowler's former home and were en route to Halifax.

Are you reserving a nice plant for the Flower Booth? The young ladies in charge are expecting your donation either in potted plants or cut flowers.

The engagement is announced of Miss Lois Mosher, daughter of the late Mrs. M. Kilcup of Kentville, N.S., to Sergeant Silsbee Emmerton of Salem, Mass. who is now with the 4th Field Artillery, U. S. Army, stationed at Panama.

The House Novelties booth at the Red Cross Bazaar will be managed by Mrs. A. M. Shaw and Mrs. D. C. McKay. You can donate any household article to this booth for the benefit of the Red Cross. Anything too large to send will be called for.

We want more Eggs—A large quantity. Highest cash price paid for strictly fresh ones. Supplies Limited, Kentville. sw

Mr. and Mrs. Alfred Skinner and family of Brooklyn Street, motored to Kingston Village last week to visit at the home of Mr. A. B. Graves.

The Misses Adelia Dingle, Bertha Banks, Nettie Bowly and Mr. Kenneth Bowly of Kingston Village were given a "joy ride" by Mr. S. A. Bowly in his auto on June 30th. They visited at the home of Rev. N. A. Whitman, Freeport, returning July 2nd.

Farm Boot For Summer Wear

Here at last is the perfect combination of boot and moccasin, and of Cromme-tanned and Oil-tanned leathers.

The general shape is that of a moccasin—but the boot is built on a last, with a long, solid counter to hold up the heel. It has all the easy, foot-fitting comfort of a moccasin, and at the same time it will stand up and keep its shape with any boot. They outwear any other boots of their kind on the market, and give solid comfort and satisfaction every day.

Suitable for farmers, dairymen, mechanics and carpenters, in fact for anyone requiring foot comfort

Fourth Spray

(Written by G. E. Sanders and W. H. Brittain at the request of the United Fruit Companies.)

The season of 1917 has proved in many respects similar to that of 1913 with abundant development of apple scab before the blossoms. Whether this will result in the elimination of the crop in the orchards not receiving the pre-blossom spray is still a matter of doubt. In any event the orchards that did not receive the pre-blossom spray or any spray will suffer severe leaf injury and will bear very inferior if any fruit.

With the advent of the new spray gun, which has resulted in halving the cost of application of spray as well as wetting the trees more thoroughly than any spraying device heretofore invented, still more dilute solutions must be used than with the old type of mist nozzles.

For the last summer spray we must have a mixture that will remain effective over a longer period than for any previous year, for the blossom of the coming year depends more on the trees retaining a healthy foliage than in any other single factor.

FOURTH SPRAY

Time—Ten days to two weeks after the third spray.

Material—First choice: Bordeaux 7-7-100, adding paste lead arsenate 5 lbs to 100 gals or powdered arsenate of lime 2 lbs to 100 gals.

Second choice—Lime sulphur 1,000 sp. gr. (1-60) adding 1 1/4 lbs of lime to 100 gals water.

APPLICATION—Use 200 lbs pressure and a calyx nozzle or a spray gun.

PESTS DESTROYED—Apple scab, Pit rot, Fruit worms, Codling moth, Fall webworm, Red humped caterpillar, Yellow necked caterpillar, fall feeding Brown-tail moth.

Ordinary Bordeaux mixture, somewhat weaker than ordinarily used, is recommended for the last summer spray on account of its better sticking qualities, as well as on account of the fact that the ordinary Bordeaux does not cause dropping of the young apples when used at this time. We have found that 7 pounds of copper sulphate and 7 pounds of lime (stone) to 100 gals of water is practically harmless as far as the foliage and fruit are concerned, when used two weeks after the blossoms fall, or later. The use of Bordeaux immediately after the blossoms fall will result in severe russetting, while the use of Bordeaux just before the blossoms will result also in slight russetting of the fruit.

We find that almost any of the common poisons can be used with a greater degree of safety with Bordeaux mixture than alone. There seems to be no objection in using Paris green on account of its high cost at the present time and danger from injury. Arsenate of lime, 2 lbs to 100 gals, makes a very satisfactory poison with Bordeaux mixture, but the best poison for use on the apple is probably paste arsenate of lead. We tested out various poisons many times with Bordeaux and, with only one exception, the paste arsenate of lead remained longer in suspension than any other poison used with Bordeaux.

In regard to lime, the fresher the stone lime the better are the results. For those not inclined to go to the trouble of slacking lime, the commercial hydrated lime in a convenient and satisfactory substitute. It is sold in powdered form and can be stored for weeks in the air without deterioration. For the greatest speed and ease in making Bordeaux mixture we would recommend the following formula.

In a cask or tank dissolve 1 lb copper sulphate to each gallon of water the tank contains. This is the stock solution and it may be made up several days in advance of spraying. Seven gallons of stock solution should be placed in the spray tank for each 100 gals capacity. The tank should then be filled up and 1 lb or more of hydrated lime added for each gallon of stock copper sulphate solution contained the solution being rapidly agitated as the lime is being added. All Bordeaux should be tested with litmus paper before being applied. If the paper turns blue on being dipped into the solution the mixture is right, if not add more lime until it does turn blue. Add the poison added and the spray is now ready to go on the trees.

We anticipate a slight amount of russetting from this spray. The longer the spray can be deferred the less russet-

ing will result. After the down has fallen from the young apples there is practically no danger from russetting. In case weather conditions are bad or one is anxious to avoid the slightest trace of russetting lime and sulphur may be applied at about one gallon of concentrate to seventy-five gallons of water, following this in a week or ten days with the Bordeaux according to the calendar.

For those inclined to experiment, one or two tanks of the Thomson-Buchanan Bordeaux, consisting of 4 lbs of bluestone and 20 lbs of lime to 100 gallons of water seems promising. Recent investigations in France go to prove that a great excess of lime makes the full amount of bluestone unnecessary and makes a Bordeaux that is infinitely more lasting as well as safer on foliage and fruit.

The Thomson-Buchanan Bordeaux used throughout the season of 1916 resulted in the best crop of fruit in Nova Scotia during that season, what it will do in an adverse season remains to be seen.

SURFACE SUCCESS BY THE HUNS AGAINST FRENCH COUNTS FOR NOTHING IN THE LONG RUN

(Via Reuter's Ottawa agency)

LONDON, July 2—Telegraphing today from French headquarters, Reuter's correspondent says that the sudden return of the enemy to the offensive on the Chemin des Dames and on the left bank of the Meuse is probably to be explained by the German government's need of victories or rather local successes which can be magnified into victories to offset against the substantial gains of the Anglo-French offensives.

At the moment when the inspiring press of the fatherland in endeavoring to explain a way the latest British successes in Flanders and knowing that more must come requiring further explanation, and also knowing the fact that one vanguard of the American army is already on French soil spreading among the German army and the people, the high command feels that something must be done to counter balance the effect of all this.

In any event there is not yet any indication that a more serious intention lies behind the sudden resumption of activity.

Both in the Mort Homme and the Gerny sector the enemy in the event of success stands to win important local advantages, notably in the latter, where he would regain at least a portion of the observatory line on the Chemin des Dames crest to retain which he fought so hard.

By operations of yesterday and today the enemy regained a very insecure footing on the crest about a mile west of the Dragon's den, which he was expelled last Monday.

The small gains the enemy hitherto secured were obtained by means which either side can employ at will and which of course result in temporary advantage to the side which secures them. It is a case of heavy concentration of artillery against a narrow front, followed by an infantry attack. The value of such acquisitions lies solely in the power to retain them and the enemy has not yet been shown to possess this power. Hitherto he has been merely able to annex narrow belts of front without depth.

If he is counting in the slightest degree on the decline of fighting spirit in the French army the exploit these gains he is courting without his host.

KING AND QUEEN OF GREECE AT ST. MORITZ

ST. MORITZ, July 1—Ex-King Constantine of Greece and his family and suite arrived here today. Dowager Queen Sophia appeared to be in poor health. The party was received at the station by the local authorities and escorted to a hotel where rooms had been reserved.

THE "KILTIES" CAMPAIGN IN BOSTON

BOSTON, July 2—The "Kilties," members of the 236th New Brunswick regiment, who have been conducting a successful recruiting campaign here among British subjects, departed last night and today, Lieutenant Colonel Leland Reed, formerly in command of the 170th Canadian Overseas Battalion, today assumed charge of recruiting for the Canadian and British forces.

SPEAKING MILITARY

Mother—"I saw your father take you to the woodshed this morning, Willie. What was that for? Willie—He took me to meet a soldier friend of his." "Who was he?" "Corporal Punishment."

THE AMERICAN FLAG FLOATS SAFELY ACROSS THE ATLANTIC

This is good reason for our American cousins to be thrilled with pleasure at the arrival of their army safely in Europe. Their first transports have safely crossed the 3000 miles of ocean and soon their army will be assigned a part of the line on the Western front taking their full share of punishment and death from German guns, mortars and rifles.

It is not known whether the United States troops were conveyed by either British or French ships but it is more than likely that their own cruisers performed the task and hereafter most of the work of patrolling the waterway across the Atlantic will be given to Uncle Sam's fleet to look after.

This fine accomplishment has once more strikingly emphasized the failure of the U-boats as decisive factors in the war. Millions of men have been taken across the channel from England to France since the beginning of the war, and hundreds of thousands have been carried from Canada; and now comes the announcement of the safe arrival in Europe of a large force of United States soldiers without a casualty as a result of Germany piracy.

This could hardly have been done if the U-boats were all the German admiralty declares them to be. Obviously they do not care to take great chances with craft more heavily armed.

In due time thousands of other soldiers from the United States will be conveyed across the Atlantic, and there is at least good reason to believe that none will be lost through submarine activity. Although the transports must remain many days at sea in waters where adventurous submarines may well be lurking, the naval guard is likely to prevent loss of life and damage to ships. The success of the initial effort in this connection will give encouragement to all Americans who are to follow their countrymen now over European soil. It will dispel the fears of those who doubted the power of the United States navy to take care of its own. And it will give inspiration to all classes at home in their determined efforts in behalf of world freedom and civilization.

AMHERST WOOLLEN MILLS SECURE BIG ORDER

The Amherst Woollen Mills have closed a contract for a large number of army blankets for the American government and are now starting the manufacture of same. Orders for blankets have also been placed with several of the other large manufacturing establishments throughout Canada. The Americans are putting forth every effort to speedily equip their army.

ANOTHER 25 MILLIONS FROM UNCLE SAM

WASHINGTON, July 2—Twenty-five million dollars was placed to the credit of Great Britain today by Secretary McAdoo, bringing the loans to that nation up to \$585,000,000, and the total loaned all the allies to \$1,043,000,000.

WEDDING BELLS

The home of Mr. and Mrs. W. A. Strong, Somerset, was the scene of a most pleasing and happy event on Wednesday, June 27th, 1917, at 1.30 p.m. when their only daughter Lila Maude was united in marriage to Mr. Avar Murray Bishop, only son of Mr. and Mrs. Trueman Bishop of Kentville.

In honor of the occasion the parlor had been transformed by the girl friends of the bride into a bower of beauty and the bridal party stood beneath an arch formed of flowers in the centre of which was a handsome wreath tied with a true lovers knot.

Rev. W. Robbins, pastor of the Berwick Church, of which the bride is a member, officiated assisted by Rev. G. Smith also of Berwick the double ring service being used. Mrs. Blake Clarke of Lakeville rendered the bridal music in a most pleasing manner.

Messrs. F. W. Webster and Blake Clarke acted as ushers.

The bride who was given away by her father looked very charming in her wedding gown of white liberty satin with pearl trappings and chantly lace flounce. She wore the bridal veil most becomingly arranged with a pearl banding and carried a shower bouquet of white carnations and roses. She was attended by her little cousin Frances Olivia Webster of Cambridge who looked very winsome in a Kate Greenway frock of blue satin and carried the rings on a silver salver.

Eight of the girl friends of the bride wearing white silk gowns formed a ribbon lined path to the arch. They were Misses Lillian Halsey, Viola Bishop, Hilda Reid, Kate Killam, Grace Blenheim, Cassie Knowlton, Lavinia Webster and Hilda Bishop. After the ceremony the wedding cake was cut by the bride and delicious refreshments served to the many guests.

Many valuable presents were received testifying to the popularity of the bride and groom, among them being a beautiful silver casserole from the D. A. R. Accounting Office where the groom is employed. A sum of money in gold from the choir of the Cambridge Baptist Church, of which the bride is a member, piano from the parents of the groom, cheque and furniture from the grandparents of the bride, gift of gold from grandmother of groom, linen, china and two valuable oil-paintings from the bride's parents, also cut glass, silver, embroidered linen and many other beautiful gifts to the bride was a necklace to the little ring bearer a gold locket and chain with monogram and to the pianist gold coin.

The happy couple left on the afternoon express for a honeymoon trip to the Upper Provinces, visiting Niagara Falls, Toronto and other Canadian cities.

Mrs. Bishop went away in a blue tailored suit with hat to match. On their return they will reside at Kentville. The bride is a graduate in music of Acadia Seminary and has studied at the New England Conservatory of Music. She will be much missed in musical circles.

VIOLENT FIGHTING CONTINUES ON THE FRENCH FRONT

PARIS, July 3—The Germans made repeated attacks last night on the Aisne, on both sides of the Allies-Paisy road. The most violent fighting continued throughout the night. Today's official announcement says the Germans were thrown back each time and finally abandoned their effort this morning. The French also repulsed German attacks on the Verdun front, between Hill 304 and Avocourt Wood. The statement follows:

"After a renewed bombardment at about 6.30 yesterday evening began a series of violent attacks on the trenches we had recaptured on both sides of the Ailles-Paisy road. Very severe fighting continued throughout the night resulting in a complete check of the enemy. We maintained all our positions.

"Two attacks on small French posts further west, were repulsed with ease. "On the left bank of the Meuse, (Verdun front) the artillery fighting became very violent toward the middle of the night in the sector between Hill 304 and Avocourt wood.

"At about 2.30 o'clock this morning the Germans attacked on a front of 500 metres at the southeast corner of the wood. Their vain assaults were broken up by our fire and the enemy, unable to approach our lines did not renew the effort.

"In a raid on German lines in Champagne we blew up a blockhouse of the enemy. There is nothing to report from the remainder of the front."

Closing Notice

We beg to advise the general public that our place of business will be closed every Wednesday afternoon during the summer months. We will be open every Saturday evening.

MAKE A PAL of the "MASTER 17"

Have you ever ridden a motorcycle? Did you ever get out in the morning when the dew was still glistening in the fields and meadows along the road? Have you ever heard the song of the Harley-Davidson motor and felt the tingle of the morning air as you sat in the saddle and watched the ever-changing panorama of green and brown flit by? If not, then you have not sounded the keynote of outdoor sports. Let the

HARLEY-DAVIDSON

be your pal. Then you can get out under the open sky where the air is filled with the scent of forest, field and stream; with only the sounds of snapping twigs, whispering leaves and rushing streams to break the silence—that is motorcycling. That is what it will mean to you to own a Harley-Davidson, for more than 15 years the "Master Motorcycle" and this year better than ever. Greater power, more speed, beautiful military olive drab finish—and perfect in design.

NOTED MUSICIAN OF MONTREAL

Advice The Use Of "FRUIT-A-TIVES", The Famous Fruit Medicine.

MR. ROSENBERG
589 Casgrain St., Montreal.
April 20th, 1915.

"In my opinion, no other medicine in the world is so curative for Constipation and Indigestion as 'Fruit-a-tives'. I was suffering from these complaints for five years, and my sedentary occupation, Music, brought about a kind of Intestinal Paralysis—with nasty Head-aches, belching gas, drowsiness after eating, and Pain in the Back. I tried pills and medicines of physicians, but nothing helped me. Then I was induced to try 'Fruit-a-tives', and now for six months I have been entirely well. I advise any one who suffers from that horrible trouble—Chronic Constipation with the resultant indigestion, to try 'Fruit-a-tives', and you will be agreeably surprised at the great benefit you will receive". A. ROSENBERG, 589 Casgrain St., Montreal, N.S. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

ANY OTHER MAN SAID ABOUT CONSCRIPTION

OTTAWA, June 26—Col. James Arthur, of Parry Sound, who was at Vimy Ridge continued the debate on the compulsory service bill when the House opened. Col. Arthur said there were no two opinions at the front concerning conscription. If a vote was taken not a single man would be against it. The only condition the men at the front commanded was that reinforcements be sent forward with the least possible delay. These men did not care what the premier or the leader of the opposition or any other man said about conscription in 1914.

ALL GAS
"Yes, auntie; we took the first line trenches, and the French gained 400 metres from the Germans." "That was splendid, my boy. It ought to put a stop to those dreadful gas attacks we hear so much about."

WHEN USING WILSON'S FLY PADS READ DIRECTIONS CAREFULLY AND FOLLOW THEM EXACTLY

THE CORRECT WAY TO TREAT A COLD

A cough is not a distinct disease. It is the result of inflammation caused by a cold. Therefore, the only way to cure a cough is to allay the inflammation which invades the delicate bronchial tubes. All of the narcotics in the world will not correct the conditions which cause a cough—they simply deaden the senses and afford temporary relief.

Penslar White Pine and Spruce Balsam with Menthol will promptly soothe and heal the inflamed membranes and overcome the nervous irritation. Price, 25c and 50c the bottle.

WAR TIME COOKERY

The great war that is turning the world upside down is also turning old, accustomed diet lists wrong side out. The fact is shown in the exper- der the direction of the Food Con- trol Department. The itemized week- ly allowance per head recommended by the department is as striking as it is meagre; four pounds of flour, two and a half pounds meat and three-quarters of a pound of sugar. The ingenuity shown in changing the constituents of time honored mixtures is even more striking. Most note- worthy of all the prompt co-opera- tion of the housekeepers themselves. Under the high pressure of these strenuous times the British house- wife is getting heroic training in the science of home economics. She has found out lately which foodstuffs are imported and which are home grown what elements are interchangeable and what proportions readjustable, and she is learning to put her know- ledge to highly practical use. In many an English kitchen of hitherto rigid schedule necessity has suddenly become the matter of substitution, and half a loaf, skillfully handled, is almost as good as a whole one. The war housekeeper is pressing in- to service oatmeal, corn meal and ground rice to take the place of flour. Rice is the cheapest of the three sub- stitutes, but the oatmeal mixture, so a London paper states, "tastes the best." Vegetables in savory com- bined with stock, make an excellent substitute for meat, and glucose, syrup and prepared milk good substitutes for sugar.

RIOTING FOR POTATOES IN AMSTERDAM

AMSTERDAM, July 2—The Hand- sblad prints a report of disturbances over the supply of potatoes in Amster- dam. Hundreds of women and youths collected in the cruise, where a few potatoes had arrived, only a small por- tion of the crowd could be supplied. Later thousands of persons the news- paper adds besieged a dock where a small barge with potatoes for hospitals had been tied up. The crowd was driv- en off by mounted police, but they went their fellings on the police building, where all the widows were broken. Several mounted policemen were severely injured by the stones thrown by the crowds.

Minard's Liniment Co., Limited.

Dear Sirs—This Fall I got thrown on a fence and hurt my chest very badly, so I could not work and it hurt me to breathe. I tried all kinds of Liniments and they did me no good. One bottle of MINARD'S LINI- MENT, warmed on fannels and ap- plied to my breast, cured me com- pletely.

C. H. COSSABOOM,
Rossaway, Digby Co., N. S.

English Rector (to parishioner)— "Good morning, Thompson. I hear you have a son and heir."
Parishioner—"Yes, sir; our house- hold now represents the United King- dom."
Rector—"How so?"
Parishioner—"Why, your see I am English, my wife, Irish, the nurse Scot- tish and the baby walls."

HOUSEKEEPER WANTED—By the subscriber. Also half his house on Beech Hill Road To Let. Perry Bishop, Kentville. 21 a-o

THE RUSSIAN ARMIES STRIKE AGAIN AND LEMBURG IS THREATENED

LONDON, July 2—The resumption of the Russian offensive, with the capture of the town of Konichy and more than 10,000 prisoners is the most cheer- ful news the British have had for some weeks. References in recent German official communications to the activity of the Russians have given hope that something really serious was about to occur but the public was hardly prepar- ed for such immediate and successful re- sults, as it was thought it would take a few days for the artillery to destroy the Austro-German defences which were under construction for so many months. The scene of the Russian success between the Stripa and Zlota Lipa riv- ers, was the battle ground of much heavy fighting after General Brussiloff's offensive of a year ago, Konichy being on the ater river.

This, like the other demonstrations, is in the drection of Lemberg, the cap- ture of which would be of the greatest strategic and political importance. General Brussiloff apparently has re- vived his concentric manoeuvre, which was interrupted by the advent of winter and then by the revolution.

PETROGRAD, July 2—The Russian official announcement today says that the Russians have advanced to the Kon- ichy stream, have taken 8,400 prison- ers, and also have captured seventy heavy guns. Teuton prisoners continue to be brought in. The official announce- ment reads as follows:

"Western (Russian) front: In the di- rection of Kevel (Volhynia) in the re- gion of Rudkasitovchskaya, our scouts under command of four officers, af- by mines, penetrated the enemy's tren- ches, killed some of their occupants and captured a number of prisoners. According to the testimony of prison- er-destroying the wire entanglements oners, the Austrians knew of our attack from two deserters, Senior Commis- sioner Officer Karsokin and Private Kolotuinov. An investigation is being made by the authorities of the govern- ments to which the soldiers named be- longed.

"In the direction of Zlochhoff after two days' artillery preparation, our troops attacked the Austro-German positions on Konichy Bysski fruit. After a severe engagement they captured three lines of trenches and the fortified the Konichy stream to the south o. village of Konichy and advanced to the village of the same name.

"As a result of the engagement on Sunday, 164 officers and 8,400 soldiers have been counted so far as prisoners. We also took seven guns and seven ma- chine guns. Prisoners continue to come in.

"Southwest of Brzezany, after artil- lery preparation, our troops attacked the strongly fortified positions of the enemy and after stubborn fighting oc- cupied them at places. Germans and Turks made counter attacks and formid- able positions changed hands constantly.

"On Sunday, we captured on this front nine officers and 1,700 Germans, Aus- trians and Turks. Some of our deta- ments sustained severe losses, especially of officers.

"Although on Sunday we took 173 officers and more than 10,000 soldiers. We also captured seven guns and seven machine guns."

PETROGRAD, July 4—The brilliant Russian advance, the news of which has sent a wave of rejoicing thru the en- tire country, was led by War Minister Kerensky in person. For the last four days of war minister has been contin- uously at the front, spending every ef- fort to urge the troops to advance. He finally rode to the front line trenches and placing himself at the head of the troops, gave the order to advance.

The spectacle of the popular war minister on the firing line accomplish- ed what toratory had failed to do, and the Russian line swept for ward into the German trenches.

WHOLE FAMILY WAS BURNED TO DEATH
MADISON, Me., June 30—George B. Rowe, 37; his wife, 33, and their six children, ranging in age from one to thirteen years, were burned to death early today in a fire which destroyed their home at Anson, near here. None of the occupants of the house escaped. Investigation failed to show evidences of foul play and the county medical examiner decided an inquest was un- necessary.

New York, June 30—Signor Marco- has taken up his residence here to pur- sue scientific studies connected with the war.

ALL WORKING TOGETHER

The Germans. The Austrians. The Turks. The Canadians who talk about re- volution.

The Canadians who say that we owe nothing to England—meaning the Empire The Canadians who say that Canada has been done enough in the war.

The Canadians who demand a general election or a referendum before we have the selective draft as they have it in the United States.

The Canadians who say there should be a conscription of wealth, despite the fact that wealth is being drawn upon for war purposes to an extent never before known in this country.

The Canadians who denounce the excess profits and other war taxes.

The Canadians who denounce the high food prices in one breath and in the next call for free agriculture im- plements, etc.

Some would like to see Confedera- tion smashed and the British Empire disrupted. Others have merely political objects in view and would like to see a change in the Governments.

But all are working together. They are enemies of Canada and the Empire.

THE FRENCH LOST FRONT LINE TRENCHES THIRD OF MILE EAST OF CERNY

FRENCH FRONT IN FRANCE, Sunday, July 1—The Germans succeeded in occupying today French front line trenches a third of a mile in length to the east of Cerny, north of the Chemin des Dames. This local success, worthless from a military viewpoint, followed a terrific, pile driving artillery bombard- ment at the beginning of which the French abandoned the line, the trenches of which were flattened out.

This forward step leaves the Ger- mans still without their coveted ob- servation posts. Apparently there was little backbone in the attack, as the success was not followed up.

The same lack of push has charac- terized all the German attacks recently along the line stretching from the east- ward of Soissons to Verdun. Evidently the enemy, after his recent defeat in the Champagne feels the need of local successes in order to encourage the men, who, according to prisoners, are greatly depressed. It is comparatively easy for them to concentrate many heavy guns at any given point and thus drive the French out of small sectors. Hitherto, however, whenever the Ger- mans attacked with their specially se- lected troops they did not penetrate to any depth, all their attempts to do so meet- ing with the energetic resistance and usually being followed by French coun- ter attacks costing the German oc- cupants of the demolished positions great losses.

NOTED EDUCATOR DEAD

NEW YORK, June 30—Almon Gun- nison, a noted educator, died today at his home in Brooklyn, aged 73. Mr. Gunnison was born in Hallowell, Me. He was president of St. Lawrence Un- iversity, Canton, N. Y., from 1898 to 1914.

THE ADVERTISER

H. G. HARRIS
Editor and Publisher.

KENTVILLE, FRIDAY, JULY 6, 1917.

By special arrangement, on Monday night, July 9th, the Boston English Opera Company will present the opera "Il Travatore" at Wolfville Opera House. This is the greatest musical event in the history of Nova Scotia. The same cast of principals, the same splendid chorus and the orchestra that has just finished a week's engagement at Halifax. Dominion Atlantic Railway are running an extra train, and are offering reduced fares to give the public a chance to hear this wonderful Company. See Ad in another column for fares and special train service.

KENTVILLE BAPTIST CHURCH

The usual service will be held on Sunday morning next. In the evening Capt. Asa Raymond Minard of Aldershot will give an address. Capt. Minard is one of the executive of the Baptist Laymen's Missionary Movement and treasurer for some time of the Social Service committee of the Baptist churches of Ontario and Quebec. Capt. Minard has been a frequent and much appreciated speaker in many of the churches of Ontario and his address Sunday evening will be along the line of social service.

The Annual Congregational Picnic of St. Paul's Church will be held at Kingsport on Saturday of this week, weather permitting, leaving by the 11 o'clock train.

DEATH OF MARION WALKER

The death of Marion, aged thirteen, youngest daughter of Mr. and Mrs. J. E. Walker took place at Kentville, June 27th, after a short illness of two weeks. She was loved by all who knew her and her early death is a sad blow to all, especially in the home. She leaves to mourn besides her parents five brothers and six sisters all who were with her in her sickness. The floral offerings were very beautiful. The teacher and scholars in her grade marched to the grave. Not now but in the coming years, it may be in the better land, we'll read the meaning of our tears, And there sometimes we'll understand.

A presentation of two beautiful brass collection plates has been made to St. Pauls Church by Mrs. Wm. McKittrick and family in memory of the late William McKittrick. These will be dedicated at the morning service next Sunday by Rev. R. B. Layton. Red Cross Bazaar, July 19th, and 20th. Keep the date open.

NOTICE

It is now three years since I introduced Cement Brick into the county, during which time I have endeavored to supply the public with a uniform good article, and am glad to state that this result is attested to by the mass of my customers and friends. My success in Concrete products have not been attained without strenuous effort, but it is satisfactory (I hope mutual) to know that the result registers progress and finds me better equipped now to meet your requirements. I am now making Cement Brick in Kentville from my sand and gravel pit on the Meadow Road, where with more machinery and the finest material in practically unlimited quantity, machine mixed, can promise you products of unvarying high quality. I thank you for your custom and hope to be of further service to you.

WEDDED AT BOSTON

Marriage of Mr. and Mrs. George M. Farrington (Miss Nancy C. Publicover) at Copley Square Hotel, Boston, June 30, 1917.

A very interesting event took place at the Copley Square Hotel, Boston, at noon on last Saturday, June 30th, being the marriage of the third daughter of Mr. and Mrs. John P. Publicover, Kentville, Nancy C., to Mr. George Farrington of New York.

The ceremony was performed by the Rev. R. T. Loring, Rector of the New-tonville, Mass., Episcopal Church, and the short form of the Episcopal service was used. The bridal suite at the hotel was beautifully decorated with flowers. The bride was charmingly dressed in white silk and Georgette Crepe and was unattended, the wedding being quite informal.

In the absence of her father, the bride was given away by her uncle John F. Masters of Boston, the well known insurance broker.

After the ceremony a very delightful and sumptuous wedding breakfast was served at which the relatives and friends of the bride and groom were present including, Mr., Mrs. Farrington and Miss Edna Farrington (father mother and sister of the groom) of Montclair, N. J.; Mrs. John Publicover, (mother of the bride), Miss R. W. Masters, John F. Masters, Rev. A. T. Loring, Mr. and Mrs. Gordon F. Jackson, Mr. and Mrs. O. R. Widder, Mr. and Mrs. Henry Thomas, Mr. and Mrs. C. H. Stewart, Mr. George Morrison and Miss Caroline Simpson.

The wedding breakfast was given in the beautiful ballroom of the hotel, and a pleasing feature of the occasion was the reading of over twenty-five telegrams of congratulations from New York, Montclair, Canada and elsewhere, showing the friendly and high esteem in which the bride and groom are held. Congratulatory and pleasing toasts were also presented to the happy couple by those present.

Mr. and Mrs. Farrington left immediately after the breakfast for a month's trip through the Canadian great lakes and after visiting the groom's parents at Montclair, N. J., will reside at Boston.

The wedding presents were many and valuable.

MAGNIFICENT PRODUCTION OF IL TROVATORE COMING TO WOLFVILLE, MONDAY NIGHT, JULY 9th.

When Joseph F. Sheehan, America's greatest Manrico, and Nellie Gardini Europe's greatest Leonora, decided to join forces it was only natural that they should choose for their initial Co-Star vehicle Verdi's Masterpiece, Il Trovatore.

Opera singers, like people in other professions, have certain preferences. Some are great in one opera some in others, therefore, in selecting the cast to support these two famous stars, special attention was paid to get only artists who have won renown in their respective parts in Il Trovatore.

Joseph F. Sheehan is said by competent critics to be one of the greatest Manricos in Il Trovatore the world has ever known.

Mile Gardini is without a peer as Leonora, in fact it is doubtful if any other living artist equals her in the role. Elaine De Sellem has won her biggest laurels as Azucena, the Gypsy Hag in Il Trovatore, and so on down the line, every artist was chosen because he or she was eminently fitted for the one particular role they were assigned to.

The result—well suppose you picture for yourself what such a cast together with a specially selected chorus and augmented orchestra and beautiful scene production would do in Il Trovatore. If you have any imagination at all you will not miss it.

We will be offering Clearance Bargains in some lines during the months of July and August.

THE AMERICAN TROOPS HEARTEN ALLIES

LONDON, July 2—Lord Derby, secretary of war, in a statement to the Associated Press said:

"The arrival in France of the troops of the United States to take their place by the side of the French, Belgian and British troops, is an event of the first importance. The moral effect of this reinforcement will be far-reaching, as the accession of a great army of which this is the vanguard, enthusiastic for the restoration of peace and liberty throughout the world will be welcome to all fighting for the sacred cause on French and Belgian soil.

The promptitude with which our kinsmen across the Atlantic have given effect to their pledges of co-operation is no surprise to us, who know their energy and resourcefulness. But it is an earnest of their determination to hasten the victory which will reward our united efforts, and therefore moves us deeply."

A POINTER FOR LABOR LEADERS OF CANADA

COPENHAGEN, July 2—The German authorities broke the recent strike at the shipyards in Stettin by the same means they used to crush the April strike. They threatened to muster the strikers as soldiers and subject them to punishment method to mutineers unless the men resumed work.

Note—Those labor leaders who are so frantically opposed to victory by means of Compulsory Service should proceed to educate their followers on the beauties of the wider "freedom" and greater "benefits" enjoyed by "labor" organized and unorganized in Holland, as compared with the unappreciated privileges enjoyed by labor men in Halifax, in Nova Scotia, in Canada and throughout the British world.

TORCH AND BLOODSHED IN EAST ST. LOUIS

EAST ST. LOUIS, Ill., July 2—Race riots tonight have resulted in great loss of life estimated at midnight at probably 250, virtually all negroes. The torch was applied to the negro settlement and the district is in flames.

CHINESE BOY EMPEROR PLACED ON THE THRONE

General Chang Hsun Has Been Appointed Premier: He is Maintaining the Strictest Order and No Trouble in Peking is Feared.

Peking, July 1—(delayed) Early today Hsun Tung, the boy emperor, was taken into the imperial palace under the protection of General Chang Hsun and placed on the throne. The legation quarter of the city is under a heavy guard and the troops of General Chang Hsun are intermingling freely with the Peking soldiers.

Tien Tsun, July 3—Reports reaching here from Peking say that the emperor has issued an edict appointing General Chang Hsun premier and vice-roy of the province of Chili, and that he has named members of the new cabinet, including Kang Yu Wei, president of the progressive party, to which missions of Chinamen belong, and Hsu Shih Chang, former secretary of state for China, who will head the ministry.

It is reported that General Chang Hsun has forbidden the appearance of newspapers for three days. Li and Chi, the famous reformer, declares General Chang Hsun's coup suicidal and says that it cannot succeed.

Peking, July 1—(delayed) The imperial emblem is everywhere displayed marking the restoration of the Manchu monarchy. There has been no disorder in a long edict, Emperor Hsun Tung, who was restored to the throne today, explains how, being youthful, he was forced to relinquish sovereign power of Yuan Shih Ki, late president of the Chinese republic. The country being threatened with disintegration and party strife and the people appealing to him to take over its administration to save the people from suffering, the young emperor says he was compelled to take action.

LONDON, July 3—King George has directed that the American flag be flown from the tower of the House of Parliament on the fourth of July, American Independence Day.

GREECE PREPARING TO SEND TROOPS INTO MACEDONIA

Venizelos Calls Army to Athens for Conference—How Relations Were Broken.

Athens, July 2—Premier Venizelos has invited the chiefs of the Greek army corps at Peloponnese to come to Athens. Most of the officers have accepted the invitation, and are arriving in the capital. The premier will discuss with them the question of sending forces to Macedonia.

Vienna, via London—The rupture of diplomatic relations between Greece and Austria-Hungary was preceded by a statement which the Greek minister at Vienna handed the foreign office on Saturday. The statement reads:

"Now that unity has been restored between the two parties which have hitherto divided Greece into two camps and the Greek troops fighting on the Macedonian front, the government of Greece sees itself obliged to break off relations with Austria-Hungary."

The minister then asked for his passports. He said the Greek interests would be entrusted to the Dutch legation.

Germany Notified.

Amsterdam, July 2—According to the North German Gazette the Greek charge d'affaires at Berlin has handed the German government a statement notifying the foreign office that Greece felt herself obliged to break diplomatic relation with Germany."

THE BERWICK CAMP MEETING

The Camp Meeting at Berwick, N.S., will open this year on Aug. 7th at 7.30 p.m., and continue for a week, closing on the evening of the 15th. The Evangelist will be Rev. C. T. Scott, D.D., Pastor of Bridge Street Methodist Church, Belleville, Ont., a man of personal magnetism and exceptional power. The Rev. L. J. Birney, D. D., Dean of Theology, Boston University, will give a series of lectures on Evangelism. Everything is being done to make the meetings a success and fruitful in results. The Association has issued a booklet giving full information about the meeting and accommodations and reduced travelling fares. Any person can have this booklet free by dropping a card to Rev. J. A. Smith, Granville Ferry, N.S., Secretary of the Association.

THE COAL SHORTAGE

THE anticipated shortage in hard coal affecting thousands of Canadian homes may become a reality next winter if consumers delay their orders to the dealers till fall.

This is the opinion of railway men who say that while they are doing everything possible to assist Mr. C. A. Magrath, Controller of Canadian Fuel Supply, the co-operation of the consumer also is necessary to meet an undoubtedly serious situation.

The hard coal used in the east for the average furnace is imported from the United States, and the problem of supply is largely a question of transportation. Owing to the shortage of labor and a very hard winter, the Canadian railways last year faced a severe congestion of traffic which was accentuated during the winter months by the demand for furnace fuel.

In order to meet if possible a similar condition next winter, the railways are concentrating their effort on the use of a special equipment. The Canadian Pacific for instance, has decided to add once and concentrate a considerable portion of additional freight capacity during the next six months by equipping of haulage over a million additional tons during that period. It is withdrawing a large number of cars from other services, is adopting other types of cars and has just put into force a new rule under which every foreign coal car is once returned empty to the mines.

for fresh coal instead of being delayed by loading with return freight, although this move means added expense.

Within a few days the coal merchants will thus have prospect of rapid deliveries, but unless consumers co-operate by giving their orders to the merchants now for their winter supplies, then unloading cars quickly, the congestion experienced last winter will be accentuated and prices may rise to unheard-of heights. Consumers are also recommended to be exceptionally careful in the use of coal avoiding heating and burning wood where possible. The merchants themselves are also being asked to co-operate by having cars loaded to a maximum capacity and by promptly unloading the cars as soon as received, thus releasing them for further use.

The Canadian Pacific is also concentrating its effort on the use of a special equipment. The Canadian Pacific for instance, has decided to add once and concentrate a considerable portion of additional freight capacity during the next six months by equipping of haulage over a million additional tons during that period. It is withdrawing a large number of cars from other services, is adopting other types of cars and has just put into force a new rule under which every foreign coal car is once returned empty to the mines.

THE FUEL SITUATION

Present Difficulties Attributed to a Number of Causes—An Important Statement

THE following statement is sent out by Mr. A. D. MacTier, General Manager of the C. P. R.:

It is realized in most quarters, some more than others, that this country is faced with a coal shortage of very alarming proportions, and that by next winter, if conditions under which fuel may be obtained do not alter in the meantime, a great many industrial concerns and householders will be unable to supply themselves with sufficient coal to carry them through the severe weather.

The present and prospective difficulties in the way of bringing coal into Eastern Canada may be attributed to a number of causes, principal amongst which are dearth of mining labor and shortage of coal carrying equipment at the mines. The situation in some of the mining territories at the present time is that even with the labor shortage, mine operators are able to turn out coal at a greater rate than they can obtain cars to carry it away. It therefore, naturally follows that more coal cars be brought into Canada if the car supply is increased.

Unfortunately, it is out of the question to obtain any number of new cars at this time, and the situation can be met only by obtaining more service from the present rolling stock. To do this cars must be moved promptly between the mines and destination, and must be unloaded as soon as they reach consignees.

Railways must have coal in order to discharge their obligations to the country, and for their own preservation, then in using closed cars. When, in their patron's, they are putting forth their utmost efforts to minimize delay to cars while en route to and from the mines.

All efforts in this direction, however, will be of little avail without the whole-hearted co-operation of the man who unloads the coal and releases the car after it gets to its destination. Some consignees, who thoroughly appreciate the situation, have almost a hundred per cent record in the prompt unloading of coal cars, but there are others who are helping to create the prospective shortage of coal by keeping the equipment out of active service. To-day there are fifty-two coal cars, comparatively small size fifty-two coal cars awaiting unloading. The arrival of these cars was spread over a period of thirty-one days, an average of cars received per day of 1.68. They are assigned to three organizations who have the facilities for unloading a large number of cars each day. These fifty-two cars have been out of service a total of 1028 car days. Coal cars that are not held for storage purposes as these cars are, average at least fifty miles per car per day. Had the fifty-two cars been unloaded promptly they would have, by this time, travelled 51,456 miles. The distance from the point where they are now located to the coal mining territory is approximately four hundred miles. It follows, therefore, that had the fifty-two cars been in active service they would have been available to bring into the country sixty-four carloads, or about thirty-two hundred tons, of coal. The quantity is not very large, it is true, when the total demand is considered, but it would have kept over three hundred families warm for the winter or heated the boilers in an industrial plant for some little time.

Unfortunately, the case cited is not the only one of its kind. It is one of the worst at present, but there are hundreds of cars at this moment that are lying idle, waiting to be relieved of their loads, so that they may go back to the mines for more coal. The coal dealer and consignee can do the country an immense service by promptly releasing rolling stock and helping to reduce car shortage at the mines.

There is also the man who has always called for open top cars for the handling of his goods because the loading and unloading with that class of equipment is more economical than in using closed cars. When, in their patron's, they are putting forth their utmost efforts to minimize delay to cars while en route to and from the mines. All efforts in this direction, however, will be of little avail without the whole-hearted co-operation of the man who unloads the coal and releases the car after it gets to its destination. Some consignees, who thoroughly appreciate the situation, have almost a hundred per cent record in the prompt unloading of coal cars, but there are others who are helping to create the prospective shortage of coal by keeping the equipment out of active service. To-day there are fifty-two coal cars, comparatively small size fifty-two coal cars awaiting unloading. The arrival of these cars was spread over a period of thirty-one days, an average of cars received per day of 1.68. They are assigned to three organizations who have the facilities for unloading a large number of cars each day. These fifty-two cars have been out of service a total of 1028 car days. Coal cars that are not held for storage purposes as these cars are, average at least fifty miles per car per day. Had the fifty-two cars been in active service they would have been available to bring into the country sixty-four carloads, or about thirty-two hundred tons, of coal. The quantity is not very large, it is true, when the total demand is considered, but it would have kept over three hundred families warm for the winter or heated the boilers in an industrial plant for some little time.

Unfortunately, the case cited is not the only one of its kind. It is one of the worst at present, but there are hundreds of cars at this moment that are lying idle, waiting to be relieved of their loads, so that they may go back to the mines for more coal. The coal dealer and consignee can do the country an immense service by promptly releasing rolling stock and helping to reduce car shortage at the mines.

Where Will You Spend Your Vacation? WHY NOT ON A FARM

The farmers are short of "hands" now and will be in greater need of them at haying and harvest. In these war times no crop must go to waste because of labor shortage. Two or three weeks spent on a farm means a healthful money-saving vacation, and at the same time you will be giving a patriotic service to your country.

HEAT FLASHES, DIZZY, NERVOUS

Mrs. Wynn Tells How Lydia E. Pinkham's Vegetable Compound Helped Her During Change of Life.

Richmond, Va.—"After taking seven bottles of Lydia E. Pinkham's Vegetable Compound I feel like a new woman. I always had a headache during the Change of Life and was also troubled with other bad feelings common at that time—dizziness, nervous feelings and heat flashes. Now I am in a better health than I ever was and recommend your remedies to all my friends."—Mrs. LENA WYNN, 2312 E. O Street, Richmond, Va.

While Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound.

Such warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, specks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness.

For these abnormal conditions do not fail to take Lydia E. Pinkham's Vegetable Compound.

TO TURN OUT THOUSANDS OF VESSELS

NEW YORK, July 1—Rising from the barren sand lots of New Jersey here today is Uncle Sam's first wooden ship-building plant. From this place, where an army of laborers hammer, dig and build carefully, efficiently and speedily, will emerge the first of America's fleet of a thousand 3,000 ton wooden boats. Their job will be to carry food to Allied Europe despite the Kaiser's submarines. From lumber mills somewhere in the south a mountain of dressed and measured timber is rolling northward on flat cars to this spot. A great yard for its reception is being rushed to completion and will be ready when the supply arrives a few days hence.

As fast as government engineers construction experts of various kinds and a battalion of laborers can do it, these 56 flat, gray faced cars are being transformed into a miniature city whose population's only task will be to turn out ships. Two thousand men will be employed.

A comprehensive system of flood lights is being installed, and the plant will run 24 hours a day.

The keels of the first two wooden ships will be laid early this month, if all goes well. These twin submarine breakers should slide off the ways ready for service by mid-November. Keels for two more vessels will be laid every two weeks after the first two until the unit of ten for this plant is in full course of construction.

Mr. F. C. Wade visited his home at Belleville recently.

THE CANADIAN OUTPOSTS ADVANCED ON FRONT OF MILE AND A HALF WITH LITTLE OPPOSITION

CANADIAN HEADQUARTERS IN FRANCE, July 2—On the sector of the front to the west and south of Mericourt during the past two nights our outposts have been advanced almost a thousand yards along a front of over a mile and a half, practically without opposition from the enemy. There has been on this part of the plain a wide stretch of "No Man's Land" between the trench systems of the opposing armies. Encounters between patrols occasionally have taken place out there, but the territory was not effectively occupied either by the enemy or ourselves.

To the west of Lens in the sector north of the River Souchez, where there had been almost continuous artillery duel since Thursday, varied by infantry thrusts, affairs have settled down a bit this afternoon. The cannonading has become less violent.

In a former despatch I spoke of the splendid valor of the British troops engaged in these operations. Later information indicates that in the fierce house-to-house fighting which has been the chief feature of the advances, they enhanced their already high reputation.

The Dominion Day sports were most successful. The weather was that of a cloudless July day. There were baseball and football championship games, tugs of war and foot races between teams representing the various divisions. A Pierrot show in the open drew a great audience. It was a flawless day, but for the absence of girls and ice cream.

BRITAIN CUTS IN HALF PROPOSED TOBACCO TAX

LONDON, July 2—Discussing the finance bill in the house of commons today, Andrew Bonar Law, chancellor of the exchequer, announced that from July 16 the increased tax on tobacco, instead of 22 pence, as proposed in the budget, would be only eleven pence.

GENERAL SWEETZER IS COMING AFTER CANADIAN RETURNED OFFICERS.

Boston, June 30—Acting Adjutant-Gen. E. LeRoy Sweetzer left today for a Canadian city, where he will try to arrange for a visit state of returned officers of the Canadian overseas contingent.

General Sweetzer desires to have such officers as instructors of officers and non-commissioned officers of the National Guard at a training school to be held at the Wakefield rifle range.

HUSBAND NUMBER 5

London, Ont., 30—Mrs. MacFarbin, arrested here yesterday with her husband, Sergeant MacFarbin, who recently enlisted in Windsor, admitted to Inspector Reynolds of the Immigration department, Ottawa, that MacFarbin was her fifth husband, the other four now living in the United States. The pair were remanded for a week. They are charged with violating the immigration regulations.

GERMANS THINK DEFEAT IS COMING

CANADIAN HEADQUARTERS IN FRANCE, Tuesday, July 3—via London (By Stewart Lyon, Special correspondent of the Canadian Press), Accumulating documentary evidence corroborated by statements of fighting men along this front who come into daily contact with the enemy, gives the impression that the German Army is now rapidly deteriorating.

Up till the beginning of the April offensive there was still general confidence among prisoners that Germany would win this year. This was the basis of that decent self-respect which forbids that a soldier lay down his arms so long as he has even a slim fighting chance. Now it is an unvarying testimony that recognition of coming defeat has taken much of the giger-out of the rank and file of the enemy, and has even caused the arrogant Prussian officer to carry his haughty head less thoughtfully.

Prisoners taken during the past few days no longer care to conceal their satisfaction at being captured. None of them is greatly interested in terms of peace. They concede that Germany must in the end accept whatever conditions are imposed by the Allies.

A German non-commissioned officer captured during the present operations, said that the cheerful bearing and high morale of the men of the titude of the German troops of 1917.

This change in sentiment among the enemy soldiers has not been brought about by a lack of food or of war material. The rations of the Germans lack variety, it is true, but are undoubtedly sufficient to keep them in good physical condition.

The scarcity of artillery ammunition has been emphasized in enemy documents recently captured, but for important actions there seems to be as yet no lack. The decrease in the activity of the enemy artillery is chiefly of the sort known as "harassing fire," in which shells are directed on roads, trenches, villages and other positions where human targets are supposed to be gathered. In repelling attacks and in preparing the way for counter-attack the German artillery is still formidable. Other weapons most used by the enemy are machine guns and bombs. Prisoners captured immediately after they had concluded a course of instruction said that bayonet exercises are no longer taught in the training of men for the enemy line. Recruits are instead trained in the use of the various sorts of bombs.

REDUCES THE NECESSITY OF SIGNAL CORPS

A one man portable wireless outfit, weighing but twelve pounds, recently invented by Guglielmo Marconi, and now being used with great success on the Italian front is America's for the asking, Marconi announced. The apparatus is capable of sending or receiving messages a distance of two or three miles. The invention reduces the necessity of signal corps in the dangerous front line trenches.

BRINGS RIVAL DOWN, HIS OWN MACHINE FIRE

AMSTERDAM, July 2—The Frankfurter Zeitung reporting the death of the German aviator Riessinger, who had previously accounted for four adversaries says that during his last flight he succeeded in setting fire to his British opponents machine, but the latter seeing he was unable to escape death rammed Riessinger's airplane and both airmen fell to earth.

JAPAN MAY SEND FLEET TO THE ATLANTIC

TOKIO, July 3—If necessary, Japan may send a fleet to the Atlantic, said Tomosaburo Kato, Minister of the Navy in the Diet today. The Minister was replying to the criticism of the Opposition that the dispatch of Japanese warships to the Mediterranean was not required by the terms of the Anglo-Japanese alliance, and was merely for the benefit of the Entente, and not for Japan.

M. Kato declared that the Government was justified in co-operating with the Allies to bring about the defeat of Germany.

Rev. F. H. Bone will preach at Sheffield Mills on Sunday afternoon, July 1st at 3 o'clock.

For Delicious Strawberry Preserves

tell your grocer to send you

Lantic Sugar

"Pure and Uncolored"

Packed in original sacks or cartons

The accurate weight of LANTIC SUGAR in original packages is a great help in preserving as it enables the work to be done without weighing the sugar. For strawberry preserves in light syrup use 4 quarts of berries to a 2-lb. carton of LANTIC SUGAR. For richer preserves increase the proportion of sugar according to taste.

PRESERVING LABELS FREE—Send us a Red Ball Trade-mark cut from a bag or carton and we will send you a book of 54 ready gummed printed labels.

2 and 5-lb. Cartons—10, 20 and 100-lb. Sacks

Atlantic Sugar Refineries, Limited
Power Building, Montreal

WASHINGTON, July 2—President Wilson promulgated the regulations to govern exemption from service in the new national army of the United States. This marks another step in the preparation for the mobilization of the new army and will permit the local and appeal exemption boards to organize immediately for their important work.

CANNED SALMON ORDER IS REINCEDED

LONDON, July 2—Robert P. Skinner, the American consul-general was informed today that Great Britain had re-issued the order prohibiting the importation of canned salmon from the United States and Canada. Fifty per cent of the amount imported in 1916 of this commodity will be permitted to come in.

GAUTHIER'S IDEA OF THE COMPULSORY BILL

ST. HYACINTHE, July 2—"The government's Military Service for Victory Bill when it comes up in committee in the house of commons on a third reading, will be fought to the limit," declared L. J. Gauthier, M.P., addressing a meeting of his electors here today. The bill, Mr. Gauthier declared, will never be enforced.

During his speech, Mr. Gauthier asserted that it was the wish of politicians of the conservative party to have rebellion in the province of Quebec, so that the English provinces would return the Borden government to power to hold this province in leash.
