## MURDER OF KNEIP IS ONE OF THE MOST BRUTAL IN THE ANNALS OF CRIME IN THE U. S.

### Woman Aided in A Brutal Killing Near Rochester

With Husband, She Murdered Her Former Lover, According to Their Confessions.

ROCHESTER, Jan. 10.—James L. Odell and his wife, Pearl, were charged with murder in the first degree yesterday. The alleged victim was Edward Kneip, whose body, lying from many wounds, was found yesterday beneath a culvert on Mesquite road, south of the city.

Charles H. Scheerer and Edward Odell, the former the driver of the truck in which Odell, his wife and the alleged victim drove to the scene of the crime, the latter and his companion, are held as witnesses. The police say they have confessions from both Odell and Mrs. Odell. According to these, the motive for the crime was revenge for alleged relations between the young woman and Kneip two years before her marriage to Odell in this city on December 15th, last.

In her confession, Mrs. Odell declares that Kneip wronged her when she was sixteen years old. After her marriage to Odell she told her husband of her former relations with Kneip. Both Mr. and Mrs. Odell were arraigned in county court yesterday before Judge Willis K. Gillette, on the charge of murder, first degree, pleading not guilty, waived examination and were held for the grand jury.

Odell was on the point of breaking down before the crowd which lined the courtroom, but his wife held him up. The story as told by Odell and his wife has a plausible ring, authorities are still investigating murder with every resource at hand. If the murder was one of vengeance with a sordid sex story woven into it, the evidence is complete. On other motive the two might be at present unknown. Robbins is hinted at by Kneip's mother, who claims that Kneip wronged her before their marriage may have been true, but so far the police have been unable to check up much corroborative evidence.

### KILLED AT PORT COLBORNE

Wah was killed while employed on the elevator at Port Colborne. He was an employee of the Union Bridge Co., and was an experienced worker. No one witnessed the accident, but when he was missed search was made, and the body was found at the foot of the elevator. He had fallen from between 85 and 100 feet. He was 29 years of age and survived by three sisters, one at Cayuga, one at Dundas and one at Hamilton, and also one brother at Kirkland Lake. An inquest will be held on the 13th.

### South Who is Wanted Here For Perjury

Yesterday afternoon Toronto detectives and plainclothesmen made a raid on a number of hotels, poolrooms, restaurants and other resorts. They visited with the result that several men were picked up on various charges. Among them was a youth named Griffin who is wanted in St. Catharines on a charge of perjury. He was in connection with the case given by Griffin at the inquest on Mr. Battisbie who was found dead in the Griffin Opera House.

Chief Greene said at noon today according to a Bolshevik wireless communication received here last night from Moscow.

### Falls Woman Claims \$5,000 Damages For False Arrest

NIAGARA FALLS, Ont., Jan. 10.—The suit of Dorothy Hyde of Niagara Falls, N.Y., against Jenns Bros., department store proprietors, for \$50,000 and a jury. The plaintiff claims she was exonerated in the Police Court after being arrested on complaint of Julius Jenns and charged with stealing a suit of underwear valued at \$5.

### FORMER EMPEROR OF GERMANY IS NOW INSANE

World Hatred of Him Preyed on His Mind—Year of Virtual Imprisonment at Dutch Castle Maddened Him, it is Said

Effects of Strain Are Shown in Appearance—Overtime Emperor Has Aged Considerably, Beard Almost White.

NEW YORK, Jan. 10.—The information in the following cable despatch was obtained by a trustworthy correspondent of the New York Sun who went to Amerongen this week to ascertain the facts of the former Kaiser's physical and mental condition, about which there has been many conflicting reports. He got information from reliable sources and the Sun publishes his dispatch without any further guarantee of the accuracy of the statements contained in it.

AMERONGEN, Jan. 10.—Former Emperor Wilhelm II of Germany has gone crazy in his exile here. What has been a secret among the intimate members of his entourage for many weeks now has become known to the diplomatic representatives of Germany at The Hague, from one of whom confirmation of the report has been obtained.

For more than a year confined to a solitary existence, the former Kaiser's mind has been constantly perturbed by the menacing attitude of public opinion among the Allies and uncertainty as to the future has had the natural effect of unbalancing him further.

It is sort of an unformed suspicion among the people of the little village that the occupant of the secluded castle is gaunt and those who serve the chateau's daily needs

### FACES SPLIT IN SCIENCE ROW

Massachusetts Injunction Obtained by Board of Publication May Be Applied

Christian Science circles in New York are seething as the result of a contemplated action by the churches of that faith in the city toward cutting off of all relations with the official publishing house of the church in Boston. Members of the Christian Science denomination who are not wholly in sympathy with the projected action are calling such a step suicidal and fraught with extreme danger to the church that owes its foundation to Mrs. Mary Baker Eddy and there seems imminent likelihood of a serious split in the organization itself.

The present situation, has it is understood grown out of the sensational action brought by the trustees of the publishing house in Boston against the board of directors of the First church in that city to restrain it from interfering with the conduct of the publishing business established by Mrs. Eddy. By the terms of the injunction the directors of the church were enjoined from taking any steps that would tend to injure the publishing business, and the scope of this injunction was wide and its terms drastic. Once already the directors of the church and the directors themselves have been found guilty of a violation of the injunction and have been fined, with fair presumption that on any next occasion they might find themselves in jail.

Old Threats Recalled  
A number of Christian Scientists in New York who are neither adherents of the publishing house faction nor of the directors nor in fact any party to the action, have expressed their conviction that an old threat of the directors is to destroy the value of the publications of the church is about to be made.

That there is some ground for this is alleged because of two recent lectures in two of the churches in New York within a few weeks, one at the First Church in November, and the

### Seize Opium on Train Coming From Toronto

Hidden Under Unoccupied Seat—Customs Officials Are Investigating.

BRIDGEBURG, Jan. 10.—U. S. officials found a package containing eighteen pounds of opium worth \$2,000 in a Michigan Central train which arrived from Toronto. The package was found under an unoccupied seat in a day coach.

The opium was turned over to the Customs agents for investigation. The agents say they have been watching persons living in the northern section of the city who are suspected of making regular trips to Toronto and other Canadian cities crossing the international bridge. Agents say that no dens for habitual opium smokers are being run in Buffalo.

### REPORTED WORKMEN WERE INJURED

It was rumored in the city last evening that several men working on the Hydro Canal near Niagara Falls were seriously injured while shoveling snow during the blizzard yesterday, by being run into by a derrick engine used in hauling the loaded trucks.

### Showy Job Opens For Marshal Haig

LONDON, Jan. 10.—Rumor has it that Field Marshal Haig will be appointed to the decorative post of "Constable of the Tower of London" which has become vacant through the death of Field Marshal Sir Evelyn Wood. This position dates from the days when the Tower was a residence of the Kings of England. The uniform worn by the Constable on State occasions is one of the most magnificent and showy in the Kingdom.

President D. Bruce MacDonald of the Amateur Athletic Union of Canada has completed the appointment of the Union's committees for the ensuing year.

The Chairman of the National Baseball Commission to fill the post left vacant by the resignation of Garry Herrmann will likely be selected on February 11.

### Prohibition Will Bring Revolution

London Pastor Says People Will Begin to Think and Unrest Will Follow.

SYRACUSE, Jan. 10.—Revolution is likely to follow in the wake of prohibition, according to Rev. Dr. G. Campbell Morgan, pastor of the Westminster Chapel, London, now visiting in Syracuse.

London will be confronted with trouble by the uprising of her East End if England ever enacts it, he declared from the pulpit here.

"Whenever a great country banishes strong drink, it must prepare for a revolution. When a man stops drinking he begins to think. All that happened in Russia in the revolutionary line has occurred since vodka was abolished. Whenever London goes dry, her East End will arise."

Commenting on prohibition in the United States, Mr. Morgan said: "It will be wonderful when the country is entirely dry and adjusted to it, but it will be some time before you get settled down."

### New Board of Education Has A Get-Together

Members of the new Board of Education met in an informal gathering last evening in the Board room of the Public Library, to get in touch with some of the matters which would come before the Board, in advance of the formal organization, which will not take place until Wednesday, February 4th.

A committee will consider a code of by-laws, another will confer with the County Council at its January session, and another will report in the forward condition of the buildings now under erection.

### Mrs. Faulds Passes Away

A message was received this morning by Mrs. J. M. Elson of the death of her mother at her home, Harrietsville, Ont., after an illness of some length.

The late Mrs. W. M. Faulds had reached the age of 68 years. During visits to St. Catharines she had become acquainted with a number of persons in this city and district. Her husband, one son Aliver, now at home and her daughter Mrs. Elson survive.

The funeral will be held from the family residence at Harrietsville Church thence to Rochester cemetery for interment. Mr. and Mrs. Elson are leaving to attend the burial.

### ST THOMAS WANTS CIVIC ELECTION BEFORE CHRISTMAS

ST. THOMAS, Jan. 10.—The matter of increasing the Mayor's salary from \$500 to \$1000 will undoubtedly be one of the first questions that will come before the new City Council at its inaugural meeting next Monday. The increase is favored by a number of ratepayers of the city, on account of the increased duties of the chief executive.

It is probable that an offer will be made to have the election date changed to the middle of December, with the fiscal year ending November 31. Those who favor the change point out that it would give electors an opportunity to vote more intelligently, the present fiscal year not ending until after the election.

### Borden and Jellico Arrive in Havana

HAVANA, Jan. 10.—Admiral Viscount Jellicoe, former Commander of the British Grand Fleet, and Sir Robert Borden, the Canadian Premier, reached here yesterday on board the British cruiser New Zealand from Key West. The guns of Morro Castle, the French cruiser, Jeanne D'Arc and the Cuban cruiser Cuba fired salutes in their honor. The maritime officials immediately boarded the New Zealand to welcome the distinguished visitors.

### PRINCE SAYS HE'S COMING BACK AGAIN IN THE FALL

CALGARY, ALTA., Jan. 8.—The Prince of Wales is determined to visit his ranch in Alberta during the coming fall on his way back from India, he told Prof. Carlyle, of Calgary, who has just returned from England, where he made arrangements for the shipments to the ranch of "thoroughbred" Dartmore ponies which the Prince is introducing into Alberta, also thoroughbred Short-horn cattle and Shropshire sheep. The name of the ranch has been fixed by the Prince as the "E. P. Ranch."

Prof. Carlyle, who is manager of the George Lane Ranches, will also manage the Prince's ranch.

### More Than 5,000 Persons Killed

CHILDREN, OLD MEN, WOMEN INCLUDED. AMONG VICTIMS OF PUBLIC EXECUTIONS IN MANY OF HUNGARIAN PROVINCES.

BERNE, Jan. 7.—Trustworthy and independent witnesses both Swiss and British, who have just returned from Budapest, give remarkable accounts of the barbarity of the present Hungarian rulers, who they all declare, are in no wise better than their Bolshevik predecessors. Whoever is suspected of the slightest socialist leanings, it is declared, is imprisoned, tortured and finally executed. Public executions it is said have become a daily spectacle in Budapest, for which tickets are sold at several hundred kronen each and yet tickets are always too few.

The National Zeitung of Basle says: "The most fearful atrocities of history and of wars of religion are being repeated in the Hungarian capital."

In the Hungarian provinces, says the National Zeitung, the terror is still worse, for there the Entente misdeeds are absent and war on all culture and delight in all brutality proceed unchecked. The number of victims is impossible to estimate correctly, but an estimate considered moderate puts them at more than 5,000, many of whom have been children, old men and women. In a wood in one of the provinces more than 100 mutilated corpses were found.

The opinion of impartial investigators on the spot is that the Allies must contrive to interfere immediately and vigorously.

### THE WEATHER

TORONTO, Jan. 10.—The disturbance which was south of Lake Erie yesterday has moved eastward to the Atlantic with diminishing intensity and the weather is now fair and cold from Ontario to the Maritime Provinces. In the western provinces it has been comparatively mild. A moderate snow fall has occurred in the southern district of Ontario and Nova Scotia.

FORECASTS: Moderate to fresh southwest and west winds, mostly fair today and on Sunday, not much change in temperature.

### Foreigners Found In Auto Was Fined \$50

NIAGARA FALLS, Ont., Jan. 10.—Mike Mokevritsch of Welland was charged in the Police Court yesterday with being drunk and being in possession of an automatic pistol. He was fined \$10 and costs on the drunk charge and \$50 for having the gun. Milan Jubovick, also of Welland, who was driving a car in which the other man was riding, was fined \$10 and costs for not having lights on the car.

### ONTARIO GOVERNMENT FINDS SEATS FOR TWO MEMBERS.

TORONTO, Jan. 10.—Constituencies have been found for women members of the provincial government who have not seats at present in the legislative assembly. Premier Drury will run in North Norfolk, where George D. Sewell will make way for him, and the Honorable Manning Doherty, minister of agriculture, will run in East Kent, where J. B. Clark is his present member.

No seat has yet been found for the Honorable W. E. Rasey, attorney general, and the government is reported to be having some little difficulty in securing a seat for Mr. Rasey.

New-York funds had a further advance, rising from 8 3-16 to 8 9-16 during the day.

### The Employees Good Wishes to W. R. Robertson

Men Presented Department Superintendent of the N. S. & T. With Club Bag and Victory Bond For \$100.

W. R. Robertson, general superintendent of the N. S. and T. R. lines who leaves today for Toronto to take over the duties of the new and important positions he has been appointed to, that of superintendent of Hydro Radial Lines, was early this morning given tangible evidence of the esteem in which he is held by the men under him.

About two o'clock this morning after all operations on the N. S. and T. R. ceased about three hundred of the employees gathered in the Odd-fellows Hall on Queen street to say goodbye to the popular superintendent and wish him success in his new field of endeavor.

First there was a musical program put on by the Lyceum minstrels and others and then Mr. Robertson was called forward and on behalf of the employees of the railroad presented by William Martin with a handsome club bag and a hundred dollar Victory Loan Bond.

Alan Darrah made the presentation address in which he spoke of the cordial relations which had always existed between Mr. Robertson and his fellow workers on the road.

Mr. Robertson in replying seconded this sentiment. He would never forget, he said, his friends of the N. S. and T. R. operating staff, his warm personal friends, men who were tried and true and had stood the test of friendship.

He had spent twenty four years on the railroad, coming to the N. S. and T. R. as a motorman and they were years he could always look back to with pleasure.

Many of the men gave short addresses in which they assured Mr. Robertson of their warm personal friendship and wished him all the best things in his new position.

After the presentation there was a luncheon and the pleasant affair closed about 4:30 with Auld Lang Syne and cheers for the departing Chief.

### Man is Arrested on Charge of Annoying Young School Girls

BUFFALO, Jan. 10.—Charged with annoying school girls, Edwin Houck, 36 years old, of No. 423 Broadway, who has a wife and three children, was arrested yesterday afternoon by Patrolman Braun of the Filmore avenue station. The complainants are Violet Hartnett of No. 568 Jefferson street and Eleanor Lichtenthal of No. 423 Adams street. The girls are fourteen years old and attend school No. 41 at Jefferson and Sycamore streets.

The police say that within the last seven days they have received several complaints that a man was stopping girls while on their way home from school. It is alleged that he offered them money and candy if they would go to a motion picture theater with him.

Yesterday Captain O'Brien sent Patrolman Braun to Adams and Beckwith streets, where Houck is alleged to have accosted the two girls and asked them to go to a theater with him.

Elect Fire Brigade Always Same Men

NIAGARA FALLS, Jan. 10.—The annual meeting for nominations for the brigade officers of the Niagara Falls Fire Department was held and all the old officers were returned by acclamation. They are: Fire Chief, A. H. Newman; Asst. Fire Chief, W. Didemus; Secretary, A. F. Donald; Treasurer, R. J. Mitchell. All the officers have been in office for a great many years.

**A CANADIAN RACE**

In these columns of yesterday was published an opinion from the Farmer's Sun, suggesting that the time has come when there should be some knowledge of a Canadian race. The Registrar General demanded, in an Ontario constituency, that the origin of people be made known in returns that had to be filed. How people who have been in Canada for a century or thereabout and who have intermarried with various "races" can clearly set forth whether they are English, Irish or Scotch is not easily understood.

The Journal joins with the Sun in pronouncing the situation akin to an absurdity. Surely there should be some period of residence set forth which would qualify a family to be known by the nationality of the country in which they and their forebears lived. In other words citizens of today whose great grand parents settled in Canada a century ago should pretty nearly be entitled to be known as Canadians by the year 1920. There are descendants of score or families came out here from the British Isles or from France or elsewhere ninety or a hundred years ago. They have come into citizenship of the third and fourth generation and if there is such a place as Canada then these people might properly be called Canadians.

No doubt the Registrar General is technically correct in saying that there is no "Canadian Race" but time, custom and legislation can accomplish a good deal and here is a chance for them all to do their bit. The people of Ireland are known as Irish, of Scotland as Scotch, of England as English, and of France as French. It is not probable that the law set forth that a family had to live in either country through a thousand years before they could be called by the name that sets forth the country itself. A race properly speaking is of one common origin and this cannot be said of the population of Canada for it is comprised of many elements but there are enough descendants of old settlers in this country to allow usage to grant a distinctive term such as "A Canadian Race."

**THE INS AND OUTS.**

The cartoon which depicts Premier Drury now in office, with troubles aiming their darts at him from every direction, will be appreciated by quite a variety of persons. Those who have been in positions of responsibility and have labored with reasonable faithfulness to discharge their trust and who were heckled and criticized by the United Farmers will be disposed to chuckle quietly to themselves and say: "Ah, Ha! Mr. Drury is getting some of his own bitter medicine." There is a humanity about most persons that leads them to feel on the delicate morsels of revenge.

And then there is the element known as a political party which believes that the gods bestowed upon it all the rare and special talents

for government and leadership. The party which is elected can never have quite as many highly polished qualifications as the party which is defeated. This is the consolation the unsuccessful can take while the successful are picking the sweet plums off the office tree, whatever those plums may be. This kind of humanity can likewise sit back and fancy how much easier and better it would handle all the problems of state if the people only had sense enough to select it for office.

Not to be overlooked, either, is the United Farmer element itself, which had a sort of "Better than thou," air before the election. It had, to its own satisfaction, improved on all the expressed virtues and golden rules of the saints. It had happy visions of the heather it would set on fire if it ever dethroned the administrative novices, who sat in Queen's Park, and got into those seats itself. Now that the U. F. O. is in and the others are out, we'll wager a dime against a cooked peanut that the Farmers are finding the government of two and a half millions of people a bigger job than it looked.

So wags the world, and so the truth of the old saying is exemplified that "Foreign fields look green." But when you come to those fields there are enough cobble stones, thistles and farns to make the heart heavy at times.

Speaking soberly the experiment of putting into the ministry men who had little or no training for the task is democratic it is true, but also very doubtful. There will be quite a lot of water run under the mill before the Farmer-Labor group will be able to prove to the world that government is a simple and charming pastime.

**CITY MARKETS AND THE COST OF LIVING**

The operation of city produce markets is regarded as having a close bearing on the cost of living in the towns and cities. With a view evidently of bringing out the best systems of conducting city markets The Agricultural Gazette of Canada published by the Department of Agriculture at Ottawa, has brought together, in the December number, the systems by which markets are handled in eighteen of the larger cities in Canada. The statement provided by city mayors, city clerks and superintendents of markets show clearly that there does not exist in Canada any uniform system of city market administration. Each city has its own special rules and regulations. In some instances the market is subject to a sort of publican who buys from the city the privilege to collect tolls or fees from those who bring produce to the market. In other cases, as in Regina, we find a women's organization efficiently conducting the city market, on a business basis, while many public markets are directly managed by a committee appointed by the city council. The Hamilton Board of Trade has established a wholesome relationship between its urban and rural peoples by creating a farmers' section of the Board. The friendly co-operation and exchange of views between the two sections result in a better understanding of conditions, consequently the Hamilton market is highly esteemed by growers and buyers. It serves the interest of both. Special features adopted by various market administrations are giving excellent results, for example, the system adopted at Port Arthur for the selling of consignments of produce by the market manager on a commission basis. Besides securing to the purchasers fresh supplies of food at a cost, usually below the prices charged in the stores, these markets bring to the producer considerably higher prices than if the produce were compelled to pass through several hands each taking their necessary toll.

**THE 19TH REGIMENT**

The public naturally wishes to get at the bottom of the facts concerning the 19th Regiment finances. There have been a lot of ugly stories told and perhaps a good many of them had no foundation and were started by some gossipy body who passed it on to some other gossipy body until finally what started as merely a surmise or jest, turned out to be "sober truth," on "absolute authority." A lot of slander was indulged in anent the 98th Battalion finances. As far as anyone knows, there was nothing to the reports at all though a great many scurrilous things were heard about certain officers, men who were away fighting for their slanders at home. General Cruikshank is a good, conscientious officer and will probe this thing to the bottom and the public will eventually get the true facts.

Did you ever notice some men are well named. Charles Crooks has paid a \$500 fine for having an illicit still on his farm.

**The New Electorate The Women of Canada**

CHANGING conditions have given the Dominion a new electorate—the women of Canada.

Canadian womanhood, to take full advantage of its prerogatives, to take its proper place in the management of Canadian affairs, must keep informed on the questions of the hour—must have the knowledge of events that will be the foundation of definite opinions on public questions.

**Women Must Read the Daily Newspaper**

The extension of the franchise to women was the fulfillment of a policy consistently advocated by The Globe in season and out of season.

But this is only the beginning. Womanhood must serve as well as vote. They must advocate reforms that are badly needed.

There must be legislation for the aged, as well as for the young, pensions for mothers, educational improvements, unemployment and sickness insurance.

These are some of the questions on which the womanhood of Canada will now have to take sides. Therefore, in this respect, The Globe has a

special appeal for progressive, right thinking Canadian women.

The Globe is not a political organ. It never has submitted to outside dictation. It supports progressive liberalism, because it believes that true liberalism draws its inspiration from the needs of the people.

Its daily Women's Department and Thursday's Women's Section have a special interest for womanhood in the home. It was the first Toronto paper to establish a women's department, edited for all Canadian homemakers.

The Globe is first and last a Great Family Newspaper. It serves the women in the home, in public life, in business, in the professions and in industry.

What The Globe has been in the past is its guarantee of what it will be in the future. The aim of its publishers and its Editor is to take advantage of the tremendous facilities at its disposal—to make it even more worthy of a place in every Canadian home.

PROSPERITY ON 160 ACRE FARM

Raising Hogs On a Western Farm.

Can a man farm and make money on 160 acres of non-irrigated land in Western Canada? D. E. Baldwin, of Kingsland, answers "Yes," and he is speaking from experience. Before coming to Saskatchewan in 1906, and taking up his homestead in the Kingsland district, tributary to the thriving city of Saskatoon, he had pioneered in four states of the Union, his parents moving from Ohio, where he was born, to Iowa, when he was a small child. Later he homesteaded in Nebraska, near David City, and was a pioneer settler in the State of Kansas, where he lived sixteen years, and Oklahoma, where he homesteaded in 1896. After about ten years in Oklahoma, he came to the Canadian West and began again on a homestead in 1906.

Here he has prospered, though he has never farmed more than 160 acres of land, and he has constantly refused the advice of his neighbors to increase the size of his farm. He believes he can get more real living out of life on a smaller farm. His policy is "always to run his business, and not let it run him." He is finding the operation of what in Western Canada is called a small farm both a pleasure and a profit to him. Probably his previous pioneering experience helped him to form this opinion.

How he farms a quarter section and gets more money out of it than many a farmer with three or four times as large an acreage, he told a representative of the North-West Farmer, of Winnipeg, recently. "I never went into grain farming, but made my money out of cattle, hogs, horses and potatoes. I follow the rotation of barley, wheat and oats without any summer fallow whatever. I fall plow for all my grain crops and plow it again in the spring which, in addition to plenty of manure, has made the summer fallow absolutely unnecessary for me to practice. Instead of sowing rye on a separate piece of land, I intend to henceforth sow it with the oat crop when the oats are two inches high. This, I understand, has been tried in Manitoba and has been successful in certain parts. All the grain is used for stock purposes, and it is from that source that my revenue must be made to come."

"The summer feed for my sixteen head of cattle is sixty acres of pasture, and in the fall they run on the stubble and winter rye, which is usually sown about the first of August. During the winter they run out in the day time and are stabled at night, feeding on straw, hay, sheaf oats, and usually a few turnips. In the spring, winter rye offers early pasture, which they use until May 1st, at which time they are taken off and the rye allowed to ripen to be cut for opion."

"My hog proposition is operated on a ten-acre hog lot, surrounded by woven wire twenty-six inches high, above which are three barb wires. I usually plan on raising two litters a

year, one litter coming in April, and one in September, and find that ten acres of pasture for five Duroc sows and their litters is sufficient to make a great reduction in the cost of rearing hogs, in fact, furnishing all the pasture they want to eat. The pasture consists of bromo grass, a little alfalfa, oats and wheat mixed and rape. I have tried barley, but find it kills out much easier than oats and wheat. The bromo grass is good in the spring and the early fall. The rape is usually sown in April, and along with the grain pasture furnishes good summer feed. The hog proposition is a simple one. They get oats and barley chop with more time, and they run in this hog pasture, having access to whichever pasture they prefer, there being no cross fences. The housing is simple and cheap, but has proven better than any elaborate hog house I could put up. It consists of eight posts put in the ground to form a rectangle eight by eight feet with a frame arranged over the top and straw threeeched over the entire frame work. A pig run three feet wide extends out a considerable distance from this pen, over which straw is also placed. This shelter will winter from thirty to sixty hogs. A short distance away I have a hog feeding house, twelve feet by twelve feet, in which the hogs are fed in winter."

He has a good income from potatoes. With this crop he has always

been successful in obtaining large yields. He plants six acres of potatoes every season and he has always had a crop of from 300 to 525 bushels to the acre. For all of his surplus he has found a ready market at never less than sixty cents a bushel, while he has received as high as \$2.50 a bushel.

His 160 acres are divided into sixty acres of pasture, ten acres of a pig lot, five acres for house, barn and hedges, and eighty-five acres in crops, consisting of thirty-five acres of oats, twenty-five acres of barley, nine acres of rye, and six of potatoes. Surrounding his buildings is quite an extensive hedge consisting of twenty rows of trees. The varieties are fox elders, ash, cottonwood, willow, osaragana and evergreens, planted four feet each way. With the exception of the evergreens, they are now from eight to twenty-four feet in height, forming a fine protection which the owner would not part with for a great deal of money.

It is not difficult to figure that Mr. Baldwin is deriving a very satisfactory income from his 160-acre farm. Since the day that he arrived in Saskatchewan, practically penniless, in 1906, he has broken the whole of his land, fenced his farm, built a \$4,000 house and a substantial barn and has acquired a fine herd of cattle, besides horses, hogs, and poultry, and is considered among his neighbors as a prosperous farmer.

ree with the Kansas sage that it certainly was a lemon that Eve picked.

# Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are especially prepared for babies. A baby's medicine is even more essential for baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

## What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. ## DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION, BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DISEASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS. The knowledge gained from many years' experience in treating diseases just like yours is of much benefit to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—that he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered specialist, in order to bring about the most satisfactory results in the shortest possible time.

### NERVE EXHAUSTION

A CONDITION AFFECTING MANY MEN—THE GREAT AMERICAN DISEASE—IT IS BROUGHT ON BY OUR MANNER OF LIVING—OUR WORRY AND HURRY—AMERICANS EXHAUST MORE NERVOUS ENERGY THAN ANY OTHER RACE OF PEOPLE.

There are a great many men who need treatment for their nervous system. These men do not know what is the reason they do not feel right—why they can't work like they used to—why they tire so easily and why they are irritable, nervous, despondent, weak, pale and lack ambition. These conditions require the expert knowledge and treatment of a specialist who has had many years' experience in just such ailments. A specialist learns by experience to know just the right treatment at the right time so that the patient can be dismissed at the earliest possible time. Men affected with nervous exhaustion have no endurance—no ambition—everything they attempt is an effort. Life to them appears as a long, gloomy future. Their appetite is poor and variable—they become irritable, cross and discouraged. They have pains and aches in various parts of the body and there is often indigestion and pain in the stomach. Sleepless, wakeful and restless nights follow.

### RHEUMATIC AILMENTS

SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO, PAINS IN BACK, SWELLING, ACHING, PAINFUL CONDITIONS IN ANY PART OF THE BODY—INFLAMED AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY OTHER SYMPTOMS.

Hundreds of men are suffering with some form of Rheumatism. Many of these men go from day to day suffering untold agonies thinking they cannot be cured. They have tried liniments, rubbing, massage, salts and other treatments without experiencing any relief, and they are now going through life thinking they are martyrs to that burden called Rheumatism. If these men could only know how easy it is to get rid of many rheumatic conditions I know they would not suffer another single day. Then all sufferers of rheumatism would be strong and healthy if they could get rid of the condition. Rheumatic patients are nearly all strong and robust before being attacked by this ailment, and therefore it is so hard for the man to understand why he should suffer the agonies of such a condition. When a man gets rid of such a condition he feels that a heavy burden has been lifted from his life, and he starts right out to make up for lost time both in money and pleasure. When a man comes to my office suffering with the above condition he is given a most careful examination, and he is given treatment that he feels is giving him great benefit.

### "MAYTIME"

Announced as the biggest popular success yet produced by the Messrs. Shubert, "Maytime" a genuine dramatic and musical novelty, by Rida Johnson Young, with music by Sigmund Romberg, will be seen for the first time at the Grand Opera House, Monday night, January 12th to those who keep posted on the more important theatrical events, "Maytime" is by no means an unknown quantity. News of its exceptional worth as a "distinctively dicerent" entertainment has already travelled far and wide from New York, where it was seen and heard by over a half million patrons during a record run of two years. In Chicago the vogue of "Maytime" for six months rivalled the patronage accorded it in New York. Boston found it equally delightful. It ran for five months in that city. Certain it is that "Maytime" in no wise resembles the recent musical offering. In fact, it marks a real innovation in stage fare. All of the scenes are laid in Manhattan Island and the action, starting in a Washington Square garden in 1840, carries on for almost a century, reaching the climax in the busy times of to-day. The fact that each of the four has depicted—1840, 1855, 1880 and 1919—are accurately reproduced as to costumes and manners makes for a picturesqueness in staging "Maytime" that will delight the jaded theatregoer.

### A STEADY INFLUENCE

(Buffalo News.)  
A home is a steady influence. Affairs are not well ordered when opportunity is not given every young man to marry, established and possess a home. And there is no denying that the opportunity for a young man to find himself in that state is not what it was. The housing situation has not had proper consideration in its social and moral aspects. It has had consideration only when it has concerned industry.  
The man married and a home builder is a responsible citizen. He has made an investment in the government. It is his concern to protect and defend American institutions. For fortune depends on the stability of things. Radicalism gets comparatively few recruits from the ranks of men of this class.  
The first semi annual One Big Union convention is to meet in Winnipeg on the 26th inst.

### AMERICAN COLONEL SAYS IT'S SHEER BOLLY FOR ANYONE TO SUFFER THESE DAYS.

Rheumatism can't be cured so long as your system is weak and run down. You must first build up and get strength of fight off the disease. Ferrozone cures because it builds up, because it renews the blood and dissolves the Uric Acid and the poisons that cause rheumatism. It is proved right here that Ferrozone does cure.  
Col. H. M. Russ, of Edwards, St. Lawrence Co., one of the fine old heroes of the Civil War, was completely restored by Ferrozone. Read his statement:  
"I couldn't get around without a cane, and then only with difficulty." "Rheumatism took complete control of my limbs."  
"Suffering was more intense than hardship on the battlefield."  
"When my doctor had done his best I got Ferrozone."  
"Then came a quick change."  
"Ferrozone gave me comfort at once, eased the pain and took the stiffness out of my muscles."  
"I am well today. Ferrozone cured me completely. I can jump and run like I did forty years ago."  
Be sensible about your case. If your present medicine is useless give it up.  
Don't experiment again. Ferrozone is known on all sides to be a cure that does cure. Why not get a supply to-day. The sooner you begin Ferrozone the sooner you will get well. Price 50c. per box or six for \$2.50, at all dealers, or direct by mail from The Catarhozone Co., Kingston, Ont.

On the second occasion, at the Seventh Church, some of those in attendance have said that Mr. Jackson quite positively stated that no such decision as that expected from the Supreme Court of Massachusetts within a few days, could possibly stand and that Christian Scientists would be unwilling to submit to it. This statement construed as a tacit notice of revolt against the decision of the highest court in Massachusetts, has deeply offended many church members here on the ground that Mrs. Eddy, they say, always taught that one of the prime requisites of her church members must be to obey the laws of the land. ## FARM LOANS FOR SOLDIERS

### Agricultural Training For Soldier Settlers

A SOLDIER is entitled to the benefits of the Soldier Settlement Act if he can satisfy the Agricultural Qualification Committee in his district that—

- He has performed the required military service;
- He is sincere in his intention to make farming his permanent occupation;
- He is physically capable and is fitted in general to make a success of the farming business.

If he is otherwise qualified, but has not had sufficient practical agricultural experience, the Committee may recommend that he be given agricultural training. A generous scale of allowances for soldiers in training has been adopted.

### Training Centres For Soldier Settlers

The applicant who is recommended for instruction in agriculture may first be sent to a Training Centre, specially operated for the purpose, where he will learn, by practical experience, how to handle and feed horses and other live stock; milking; the operation of farm machinery, ploughing, etc.; general farm building work; farm blacksmithing; the different kinds of soil and rotation of crops; the selection and judging of live stock and the marketing of farm products. Short lectures on the business management of a farm will be given.

### With A Selected Farmer

After the course at the Training Centre, the length of which depends on the progress of the individual but will not exceed three months, the man is placed with a carefully selected farmer in the district in which he intends to settle, to complete his training. During this period (not exceeding one year), the soldier is visited from time to time by representatives of the Soldier Settlement Board, who check his progress and recommend when he is considered qualified to take up a farm of his own.

It will be evident that by this system of preliminary training the soldier settler will gain a thorough practical knowledge of farming without expense; will learn to appreciate the responsibility involved in the venture, and at the same time gain a clear conception of just what farm life means.

### On His Own Farm

When a settler is deemed qualified by the Agricultural Qualification Committee, the Board will assist him to become established on a farm of his own, and will, through its Agricultural Advisers, continue to co-operate with him in his work, thereby ensuring his success and consequent ability to discharge his obligations and become permanently established.

### Fair To Both

The procedure outlined not only gives the soldier an opportunity of first becoming familiar with his environment and of acquiring the experience requisite to success, but ensures adding to the nation's fundamental industry only competent and satisfied producers.

Detailed information regarding the provisions of the Soldier Settlement Act and further particulars regarding agricultural training may be obtained from the Provincial Superintendent, 32 Adelaide Street East, Toronto, Ont.

Damages of \$1,000 to Mrs. Elizabeth Dugas and \$200 to her husband, Charles Dugas, were awarded in judgment rendered yesterday by Chief Justice Falconbridge, in the action brought by Mr. and Mrs. Dugas against the City of St. Catharines. The claim was for compensation for injuries received by Mrs. Dugas when she fell on a sidewalk claimed to be in a bad state of repair and for consequent medical expenses incurred by Mr. Dugas. The amount claimed by Mrs. Dugas was \$3,000. The Judge directs that Thos. Nihan shall pay the damages.

Ald. Russell Nesbitt, of Toronto, has put in a notice of motion asking that application be made to the Provincial Government to place the Municipal Jail Farm on the same basis as Burwash Prison Farm in regard to shortening the terms of prisoners for good conduct. Previously, prisoners at the Municipal Farm were allowed five days off a month for good conduct. This concession was cancelled yesterday by the Government. There are a number of men serving two year terms at the farm, whose sentences would be shortened by four months if the good conduct applied.

Crown work of inferior quality is one of the most dangerous pieces of Dental work that can be placed in the mouth.

A crown that is so thin that it is soon punctured, consequently allowing leakage, or one that is inaccurately fitted, permitting food particles and the acids of the mouth to enter, will cause decay of the roots and often serious infections of the gums and jawbone

For the sake of sparing a tiny mite of money are you willing to be served with this kind of Dentistry and run the risk of the serious results that follow?

We believe that you would much prefer to have our Crown work Specialists serve you with crowns of extra heavy, finest gold quality—at cost that are moderate to pay and cheapest in the end.

Tyrus Cobb Shows Them All

NEW YORK, Jan. 10.—Batting records amassed by the stars of other days pale in comparison to the marks already set up by Tyrus Raymond Cobb, who is still the foremost batsman in baseball.

The famous Georgia Peach was crowned king of the American league batsmen for the 12th time in thirteen straight years when the official American league averages were published recently, but the end is not yet—not if indications count for anything.

As far back as three years ago some few "wild guessers" opined that the great Tyrus was ready to start on the downward trail; that he had reached his zenith as a star of the first magnitude. Perhaps Cobb has now reached his zenith. If he has we'll say it is some zenith. But as for signs of the great Ty going back with anything that resembles haste—there aren't any.

Not Quite as Fast Perhaps Cobb is not quite as fast as he was five or six years ago. The weight of years always takes its toll first in the legs of a ball player. Cobb may be two or three steps slower getting to first base than he was a few seasons back. But his batting orbs are apparently just as bright as ever. His 1919 record proves that he can still look at all kinds of good pitching and consistently hammer the horsehide for a better average than any other player in either league.

There is but one player in the upper strata among American League batsmen who might overhaul Cobb and beat him out if he should happen to have a poor year at the bat, barring, of course, the chance that some newcomer might go crazy and hit away above his speed or some veteran like Joe Jackson who has long been an unsuccessful rival of the "Georgia Peach," should take a flyer in batting and surprise even himself. George Sisler has proven himself a consistent start in every department of the game, especially in batting, and he has youth on his side. He is the player in mind.

Brilliant as Sisler looks as a possible batting champion of the future, however, he will probably never even approach the marks that Cobb has carved in baseball annals with his murderous bat.

The American League has been operated for twenty seasons. Out of this number Cobb has shown all batsmen the way to the championship of his league for twelve years, and for the last three seasons he has batted better than .380. This mark is the high figure reached by Honus Wagner, who established an average of .380 in 1900. Yet out of his twelve seasons as batting champion Cobb has batted better than .380 seven times, and twice his averages were better than .400. His best batting average was accomplished in 1911, when he hit .420.

Anson, Dalrymple, Kelly, Brouters Keeler, Burkett, Wagner and Lajoie were all wonderful batsmen, and of this constellation of one time stars Wagner and Lajoie stand out brilliantly. But the operations of T. Cobb are so far above the best marks set before his time during which modern records have been kept that there is no comparison that shows in favor of the stars of other days and no argument that can be advanced successfully to take anything away from the lithe Georgian.

Frank Coffee writes to The Welland Telegraph from Sidney Australia, under date of Dec. 9:—"I can see the gentle zephyrs wafting across the canal, but I suppose the natives will thaw out in the Spring and shed their wool and fur. To contrast the climate I may tell you that we are picking peaches, apricots, oranges, lemons, and my bulldogs gambol on the lawn, while you Wellandites are freezing to death." The pain of freezing to death is disagreeable enough without the laceration of the letter from the antipodes, where peaches are ripening and bulldogs are frisking on the lawn. Bulldogs in Welland are taken out only twice a day, and even at that they are blanketed.
