the spell of her father's teaching she

had the same shrinking, the same

feeling of horror that a sensitive child

his friends spoke of history; they talk-

approved of secret societies; they saw

nothing wrong in Fenianism, in

Nihilism, or any other "ism" which

displaced authority and gave power

into the hands of the mob. Martin Ray

had spoken of his plans to his con

federates. They all agreed with him.

It was a novelty to have a beautiful

young girl to lecture for them one on

whose lips the very honey of elo-

quence lingered. She was brought into

her father's study where several of

his most intimate friends assembled.

It was a trying ordeal for so young

girl; one less sensible would have

been flattered into compliance with

their wishes. Leah 'shuddered with

dread. They were grim-looking men,

with determined faces; in many in-

stances with them "history" meant

murder, and the "rights of the people"

stand half that passed. Her father's

friends flattered her, and told her that

she would have greater and wider influence than a queen, and that she

would live in the hearts and memories of the people forever. But she was

frightened. She had heard strange

when he saw the girl's pale face; but

Marin Ray said that no one need fear his daughter she was one of them and would be stanch until death. So they spoke freely before her, and she pale, proud, and reserved, wondered

that they did not see the difference between what she was and what they

There was no nobility in their aims,

doctrines and strange words. More than one man cried "Hush!

The Broken Circle!

CHAPTER V.

"But why should he want a republic instead of our present constitution?" | would you not, Leah?"

what but civil war would ensue if they old enough and wise enough to teach government and set up a republic? My resented tyranny, to love peace, order. instincts are all against it, Hettie."

"My father must know best," said authority, not rebellion and discontent. the younger girl. "Perhaps kings and What would my father say to that, queens and rich people do great Hettie?" wrongs of which we know nothing;) some short time, "he is so wise and thought of these things before."

Tears stood in Leah's dark eyes.

"I know what he wants, Hettie," she of nothing else." said; "he wants a daughter like one of those girls of whom you read in novels | two bewildered heads that turned rest--'an inspired sibyl.' Now I do not feel lessly even in sleep. at all like a sibyl. I cannot understand talking of people in the mass," she continued; "to me the people are all individuals, and each one can best teach

Appetite Good, Gained 20 lbs. Could Not Feel Better

From a nervous wreck this man was restored to health, strength

He tells his own story in this

Mr. Ralph A. Roberts Loverna, Sask., writes:

"In 1917 I had lost all appetite, failed 25 pounds in weight, become very nervous and shaky and in fact given up all hope of recovery. For some time I had suffered from constipation, which kept getting worse, until I was fast becoming a total wreck. Doctors and their drugs were sending me to my grave at the age of 39.

"Then I read about people being restored by Dr. Chase's Medicines and after three months' use of 'Dr. Chase's Nerve Food and Kidney-Liver Pills I found that my bowels were restored to normal movement each day and the constipation was no more. I had a good appetite, had gained 20 pounds and could not feel better. I shall always be grateful for these benefits."

At All Dealers.

MEN'S

Soft and Stiff

HATS

ALL THIS WEEK

A Sale for celebration purposes only. Water reached very few of our hats. Spoiled all our delicate stuff, left our hats untouched practically. Anybody knows that water couldn't take the color out of a Stetson, a Christy, a Borsalino. Something we've spouted about for years. And here comes a grand, royal chance to prove it, and the water hikes right into another part of the store. Rotten luck! We had to celebrate the closing of this Sale. All our tinually firing at each other. The damaged stock was bought up, so we cut into the ranks of the armies, continues the correspondent, regulars. Every hat placed on the price-block. Prices we dare are gradually creeping closer and the any store to duplicate, even where the hats come from. And the hats are untouched, unharmed, perfect. Man alive, there never was such a chance for you to save money.

Crowds have already responded to it's appeal.

HAVE YOU?

It's success was assured an hour after opening.

And every day

NEW ARRIVALS IN WHITE

are being added to our display.

We have had many Sales of White in the past-other stores have had them, too; but we sincerely believe that our present White Sale is the most important that has been staged for years. Hundreds of women folk are taking advantage of the event to supply their entire white-wear needs for the coming season, and the buying has consequently been heavy.

Some Exquisite White Undergarments claim your attention to-day, as well as New Shirtings, Sheetings and Flannelettes.

It's Flavor that Makes the Meal!

And the sauces that the Libby chefs have adapted for you give flavor to the simplest dishes.

It may be eggs, or macaroni, or a cheap cut of meat—an unusual and delicious sauce will make it something you eat with delight and remember with pleasure—because of its flavor.

LIBBY'S CATCHUP and CHILI SAUCE are made from red, ripe tomatoes, grown in the fertile soil of Kent County, Ontario, picked when they are mellowed by the sunshine of long summer days, then rushed to the nearby Libby kitchen.

Here in sunny rooms the tomatoes are cooked with fragrant spices, onions, sugar and the best vinegar-cooked for hours until all the flavors are blended through and through.

Now the sauce is ready to give an appetizing relish to your steaks and chops, or a new piquancy to the meat gravy you serve with your roasts.

Your grocer has, or can get you, Libby's Catchup or Chili Sauce. Use it with your cold meat teas and note how quickly the second helping is necessary.

> The delightful flavor of Libby's Beans is due largely to the wonderful Sauce prepared by the skilled chefs. Have you tried them?

Sealing Owners' Offer.

WILL PAY AIRMEN TEN CENTS PER SEAL.

The sealing owners have agreed to offer Major Cotton ten cents for every seal which he is the means of finding for them. Half of this amount will be paid by the owners and half by the Government. Major Cotton's original demand was 40 cents for each seal but this could not be acceded to. The Government had, it is understood, ar ranged to pay half of what the owners offered. It is believed Major Cotton will accept this offer. The sealing captains are of the opinion that the seals are off to the northeast, but from messages received from Major Cotton it is apparent that he thinks they are off to the eastward. This belief is borne out by the fact that he says the dangers of not locating the pat daily increasing, as the seals are being

Lecture at St. Patrick's.

ST. THERESA.

Before an audience which filled the Riverhead Presentation Convent School Room, Mr. John Fenelon, B.A. delivered a very able address on an interesting life last night. Before the lecture there was much speculation as to the subject, but as the speaker unfolded his theme he held the rapt attention of his auditors. The subject of the lecture proved to be "Soeu Terese" of the Carmelite Order. Si Theresa, who lived during the life of the late Pope Leo, gained admittance to the order when 17 years old. A feature of the life of this holy woman was her pilgrimage from her home town in France to Rome to obtain the permission of the Holy Father to join the order she had set her heart on entering. After a virtuous life spent in Port aux Basques with passengers writings remarkable for their simplicity, Sister Theresa died at the age of 25. The lecture occupied over an hour in delivery, and so well pleased was the audience that there was general request to hear Mr. Fenelon again on the same platform. The lecture was one of a series being held The Feildians defeated the Terral every Monday evening during Lent

It is this Fishery are directly attributable a well known fact that the fisheries of to the very efficient way in which our

this reason there should have been will after a while become a thing of some definite reference made to the the past. I understand that a new future intentions of the Government loan of \$6,000,000.00 has been ne in this vitally important matter so as gotiated and as the interest on this to establish confidence in our business

community and start the wheels of commerce again revolving with some at least of its old time prosperity. It is gratifying to learn that the Government intend erecting a Normal School as a memorial to our fallen soldiers as soon as possible, and while it is essential to impart education to our rising generation it is only by havplace a harmless No-To-Bac tablet in ing well trained and well paid tutors from a Normal School that this happy result will be obtained. Turning to the paragraph referring to the Revenue it would be refreshing indeed to learn so simple. Get a box of No-To-Bac that the expenditure was within the and if it doesn't release you from all amount estimated and that the craving for tobacco in any form, your revenue slightly exceeded the estimate druggist will refund your money and that it was possible to leave a balance at the credit of Surplus Trust

account larger than the amount set forth in the Budget Speech last year. I repeat that it would be refreshing to learn these facts-but look at the price the public have to pay for them. How can the revenue be otherwise when we consider the colossal duties exacted from all classes of the community. At present we are called upon to pay a 60 to 70 per cent, tariff or in other words every dollar we spend to live the Government collars 60 to 70 cents of it for revenue purposes. Add

cents per pound or over 200 per cent. demanded on our sugar and it will be quite understandable why the revenu is slightly in excess of the expenditure. I submit, therefore, Mr. Pres ident that this is not a matter to boast or blow about but rather somethin to be ashamed of. As far as the estimate for public service is concerned I wish to say that while it was never before in our history more esse

to practice economy in the pub

expenditure it is to be hoped that the

Vital Revenue producing services will not be interfered with as they were last year. When I mention the Vital Revenue producing services I refer to such services as the Inland Game President would like to refer briefly

Transportation Rates

TOO HIGH FOR CHEAP FISH. ealers of France have asked the Minister of Public Works to prevail upon the railways to grant special reduced transport rates on various varieties of fish when they are being taken in abundance, comparable with the spe-cial rates granted by the French railways on vegetables when they are in season. The syndicate points out that the freight tariff on herrings or sardines during the special season for these fish would, it is claimed, enable the dealers to market surplus catches, which now quite often go to waste, in the interior cities, thus assuring the distribution of more money amon he fishermen and assisting in the

ation of the high cost of living.

instead of one

loaded.

are simply astounding. The losses on operation in the past few years have been tremendous, the line is badly in need of repair, and the sole remedy according to Mr. R. C. Morgan, is the abrogation of the contract. Several suggestions for economy and for the augmentation of the earning power o the railway are made in the report An expenditure of \$300,000 is advised MR. MORGAN'S REPORT.

This report of Mr. R. C. Morgan who has acted as General Manager of the railway and Chairman of the Railway Management Committee, and is now acting in an advisory capacity to the Government, is a most interesting document. It was tabled in answer to a question from Sir Michael Cashin. In a preface to the report Mr. Morgan gives the following reasons which, in his opinion, explain why the railway has been a losing

The traffic is too light. The train load is too low on accoun of the heavy grade, light engines, light rails and bridges

venture since its inception:-

The rates are too low. Branch lines were built withou hope of renumerative traffic.

Agencies are maintained when they are not warranted by business condi-

Labour and material costs have increased tremendously when freight rates have remained nearly stationary. that a competent instructor should be mittee. CONTRACT MUST BE MODIFIED. He concludes his preface by stating

that the existing contract for the operation of the railway must be modified, and in his accompanying report recommendations to meet this difficult problem would be found. Mr. Morgan makes some suggestions, which if put into practice, would augment the earning power of the railway. He thinks the mail subsidies are too low and should be increased to at ment, freight rates should be in- preface, for he suggests that it be abment should be allowed to use their that all claims should be waived in a own discretion in meeting traffic re- settlement to be made. TARTAR.

"Tartar" is a lime-like substance that forms on the teeth. It is com-posed of saliya, phosphate of lime, etc., and becomes attached to the teeth near the salivary duct. It is porous like a sponge and holds particles of food which decompose and taint the breath with an offensive odor. This tartar once formed increases, always in the direction of the gums; first inflaming them, then causing them to puff up and recede from the teeth, and finally by absorption of the bony sockets, to cause good, sound teeth to drop out for want of support.

Fish Propaganda in Norway.

One might think Norway was the Minard's Liniment last country in the world to find it necessary to embark on a propaganda It is an Enemy to Germs. Thousands conditions of the foreign markets at be carried on in the usual flourishing condition, and one of the means to be taken to help them is the institution of an active campaign to increase the use of fish amongst the Norwegians themselves. Cookery courses, including herring dinners, with demonstrations, will be held in various places throughout the land, especially in the valleys along the south coast, and also in those adjacent to the fjords, and in the northern parts of the country. The work will be mainly in hands of a number of fishery societies, con-trolled by the Central Department, which has funds for the purpose.
