OBITUARY.

James Quirk.

At an early hour on Monday morning death removed one of the oldest and most highly esteemed citizens of Bridgetown in the person of Mr. James Quirk at the age of eighty-six years.

Mr. Quirk had been in failing health for the past few months and on Sunday evening he took a bad turn and it was soon perceived that the end was near. He passed away at 5.30 on Monday morning. He leaves to mourn their loss three daughters, Mrs. (Dr.) J. P. Grant of New York, Mrs. Harry J. Crowe of Toronto, and Miss Mary Quirk, who resided here with her father. One brother Mr. John Quirk of Bridgetown also survives the last member of a large family.

Mrs. (Dr.) Grant arrived home on Wednesday and was thus able to be with her father at the end. Mrs. Crowe has received the sad intelligence of her father's death and is expected today. The funeral takes place at three o'clock on Thursday and service will be conducted by Rev. Gordon S. Warren, as Mr. Prosser will be absent from town.

The late Mr. Quirk was a native of Bridgetown and a life long resident here. Naturally of a retiring disposition he nevertheless took a keen interest in all movements tending toward the good of the town. For many years he was a partner with his half brother the late Robert FitzRandolph and they conducted business in what is now the Royal Bank building.

Mr. Quirk was a citizen who received and merited great esteem in the community and many there are who will miss his genial and kindly presence.

OBITUARY.

May Allison Crosskill.

Entered into rest at Edmonton, Alta., July 5th, Mary Agnes Allison, eldest daughter of the late Rev. John Moore Campbell, rector of Bridgetown and Bellisle, N. S. wife of the late Thomas Crosskill, leaving one son and three daughters, Mr. F. M. Crosskill, Secy-Treas. town of Edmonton, Miss M. Crosskill, Mrs. Robert Ince of Ottawa, and Mrs. Hylwin, Edmonton.

Service was held in St. Paul's church, Edmonton, by the Bishop of the Diocese, assisted by the rector of the parish. There were many beautiful floral offerings from Daughters of the Empire, W. A., etc., as well from private friends.

COL. POTTER WILL ORGANIZE LODGES OF KNIGHTS OF PYTHIAS

Colonel E. A. Potter of Springhill, was a visitor in town last week on a tour through the Valley. The Colonel is well known and has many friends here who remember his splendid work during the war, as a recruiting officer. Beyond military age himself he nevertheless made a splendid contribution in his work of enlisting men and his two sons went on active service overseas.

The Colonel is returning later to the Valley and will organize in various towns lodges of the Knights of Pythias one of the largest best and favorably known of the fraternal orders of America.

PORT LORNE MAN, MR. J. P. FOSTER MAKES GOOD IN BUSINESS WORLD.

The Editor had the pleasure of a call on Monday from Mr. J. P. Foster of Boulder, Colorado. Mr. Foster is a native of Port Lorne but has resided some years in the Western States, where he holds the position of manager of one of 571 in the chain of stores established from coast to coast by the J. C. Penny Company. He also owns a part interest in three others. Mr. Foster has made rapid advancement in the business world and among good and early habits still retained is the one of reading the Weekly Monitor which he has done regularly and consistently for the past twenty years and more.

CARD OF THANKS.

Mrs. Vernon C. Morse and family wish to express their grateful appreciation of all that was done by their many friends to contribute to the comfort of their husband and father during his illness as well as for the many expressions of love and sympathy extended to them.

A CLASS HAS GOOD RECORD

Out of Eight Candidates Six Pass With Good Aggregates—The Year a Most Successful One.

Eight members of the Bridgetown High School “A” class wrote at the Provincial exams. Of these six passed. Of the other two one unavoidably lost considerable time at school and this reduced his aggregate. Nine papers require to be written on but candidates took ten and in the case of James Fay and Edgar Bent, twelve Aggregates were as follows:

James Fay	758
Augusta Messenger	712
Edgar Bent	703
Janet Piggott	655
Annie Cornwall	617
Viola Tupper	549

Miss Mabel Fitch of Auburn, is visiting her sister, Mrs. M. Balcom. Miss Maud Crooks of Brooklyn, has been visiting Esther Baker and other girl friends.

B. Ella Patterson of Margareville, spent last week with Eleanor Gates.

Mr. and Mrs. B. W. Woodbury of North Kingston, spent Sunday with her parents, Mr. and Mrs. George O'Neal.

“Before giving you a final answer, she said, with a becoming blush, ‘I shall refer you to papa.’”

“But I am perfectly willing to take you without any reference,” he said indignantly.

“I beg your pardon, but you look just like a girl I know.”

She surveyed him coldly from head to foot and refused to thaw.

“Well, you look just like a man I don't want to know,” she retorted.

JUNIOR TEAM STILL WINNING

Defeat Bear River and Middleton in Well Fought Exhibitions.

The Junior baseball team of Bridgetown are continuing to add to their list of victories and since our last issue have defeated Bear River 3 to 1 and Middleton 3 to 2 in fast and interesting contests. The Bear River boys had their hands full trying to connect with Roberts pitching which gave them only one safe hit. The fielding was sharp and clean. Line up was as follows:—

Bridgetown—Gattie (3b) Todd (2b) Lockett (1f) Hoyt (c) Robinson (1b) Roberts (p), Burns (r.f.) Crowell (c.f.) Dorey (s.s.)

Bear River—Hirtle (1f) Reed (s.s.) Miller (1b) and P. Chute (3b) Parker (c.f.) Stevens (r.f.), Robinson (p and 1b.) Hubble (3b).

Runs by innings: **Bridgetown** . . . 2 0 0 1 0 0 0 0—3
Bear River . . . 0 0 1 0 0 0 0 0—1

At Middleton on Saturday afternoon the contest was still keener and very fast ball was played. Dorey and Wilson each pitched fine games. Baker at short was the special fielding star to Middleton. Hoyts batting was a feature on the work of the local boys. Strike out, Dorey, 13; Wilson, 5. Umpires, Boyne and Richardson.

Bridgetown—Gattie (2b) Todd (2b), Hoyt (c), Lockett (1f.), Mack (r.f.), Dorey (p.) Roberts (c.f.) Robinson (1b).

Middleton—Baker (s.s.) Bentley (2b) Langille (3b) Carter (c) Moore (1b) Chesley (1f.) Wilson (p) Kelly (r.f.) Coleman (c.f.)

Score by innings: **Bridgetown** . . . 0 0 1 0 0 0 0 1—3
Middleton . . . 0 0 0 0 0 0 0 2—2

It will be noted above that ten innings were required to settle this issue. The local boys have now got the best and smoothest working team playing here in years and all are amateurs. Now is the time for all ball fans who object to professionalism to turn out and give the boys a full measure of support. They are playing a good game and deserve encouragement on their merits, and this cannot always be said of ball teams.

Eat and Grow Thin

No longer need you surrender sweets when reducing! Listen to this, from the address of Dr. McLester to the annual convention of the American Medical Association:

“The effort of many obese people, said Dr. McLester, to avoid all starchy foods and to eschew all sweets is without

reason. Carbohydrates are the chief source of energy for the maintenance of body temperature and, in overwhelming measure, for the production of work. Not only are simple sweets, when credited with their proper caloric value, of no harm, but when taken at the proper time they will permit the patient to rest satisfied with a smaller quantity of food.”

There's the Emancipation Proclamation of those who have cut out candy in order to reduce!

Miss Hattie Anderson is visiting friends in Halifax and at Hubbards.

Miss Lennie McNell of North Range was a recent guest of her sister, Mrs. Chesley Forsythe.

Mr. S. N. Wear and son Jack, accompanied by Mr. Gardiner motored to Bridgewater on Thursday last returning on Saturday.

Mrs. Edmonds and Miss Smith of Halifax were recent guests of Mr. and Mrs. M. W. Graves, while en route to New York.

CROPS ARE GOOD IN P. E. ISLAND
More Labor Needed to Handle This Year's Harvest.
Charlottetown.—Nine thousand acres of certified seed potatoes, over three times the acreage of last year, were planted in Prince Edward Island this year, according to a statement made here Tuesday at the annual meeting of the Potato Growers' Association. The association last year transacted a business amounting to \$208,000, selling 281,000 bushels of potatoes which yielded \$275,000 and co-operatively purchasing fertilizer and spraying material valued at about \$250,000. The total operating expenses of the association according to the financial report was about \$5,000.

\$500,000,000 WATERWAY BILL IS WITHDRAWN
Ottawa.—The \$500,000,000 scheme for the construction of a St. Lawrence deep waterway to the Great Lakes was ended for the present session when the railway committee of the House today advised that the bill be withdrawn. It was the scheme of a company which sought incorporation under the name of the Confederation Canal and Power Company, with a capitalization of half a billion and with head offices at Montreal. The bill did not proceed beyond preliminary steps.

PUBLIC HEALTH SERIES NO. 9
200,000,000 CROWS IN U. S. BY CENSUS; LOSS IN BIRDS AND CROPS ENORMOUS
Costs Farmer \$1 a Year to Feed Each Crow, Virginia Expert Says.
By RAY, NOEL J. ALLAN.
Official Lecturer on Wild Bird Conservation, Richmond, Va.

Crows are one of the greatest pests and the most destructive birds which afflict the farmer. After thirty years spent in the field fighting crows, hawks and owls, it is my judgment, based on my experience that the crow has no redeeming features. I have often been asked the question, "Would you say that the crow is beneficial in any way to the farmer?" My answer is that the crow's range of diet is known to include six hundred and fifty-six different things. His bill of fare includes 51 species of birds and very naturally it comprises a few bugs and worms. But when the crow eats a nest of young quail or a nest of mocking birds, he has shut off the destruction of thousands of insects where he would have destroyed a few. Waiving aside the few insects he might eat, it is a most conservative statement to say that it costs the farmers of this country a dollar per head per year to feed the crow.

Damage to Farms.
As an instance of the damage they do to farms, the case might be cited of G. C. Williams, Rockcastle, Va., who came from the West and bought 560 acres of the rich farmland lying along the James River in Goodland County, Va. A year or so after his purchase he came to the Department of Game and Inland Fisheries of Va., located in Richmond.

TO AID SOLDIER SETTLERS ON LAND.
Ottawa.—Canada's soldier settlers on the land, if recommendations made by a special committee of the House of Commons are put into effect will be given a reduction on the price they paid for live stock purchased prior to October 1st, 1921. There will be an extension of the interest exemptions granted under the Act of two years ago and the soldier settler holder will be given power to re-locate soldier settlers.

PUBLISHERS RATES FOR "FREE PUFFS"
Some rather unusual editorial generosity has been shown by a publisher of a certain weekly newspaper in an effort to stabilize his service in the matter of free puffs so frequently demanded of editors. Here is his published schedule for such service:
"Here you will find a schedule of prices from which no deviation will be made, but we hope to donate a certain percentage of our earnings toward an asylum for those feeble-minded people who believe an editor has a soft snaf.
For telling Excelsior readers a man is a successful citizen when everybody knows he is as lazy as a bench warmer, \$2.75.
For referring to some gallivanting fellow as one who will be mourned by the entire community when he will only be missed by the boozers, \$10.18.
Referring to one as a hero and a man of courage and one who will stand by his convictions, when everybody knows he is a moral coward and would sell out for a dime, \$4.13.
Referring to some gossipy female as an estimable lady whom it is a pleasure to meet and know, when every man in town would rather see Satan coming, \$5.10.
Calling an ordinary preacher an eminent divine, \$4 cents.
Lambasting the daylight out of John Barleycorn at the behest of the local dregs, \$9.77.
Referring to a deceased merchant who never advertised and who was too stingy to contribute toward needed public improvements as a leading citizen and a progressive resident, \$344.99.

THE NET OF NIPIGON

The charm of freshwater, the charm of mirror-like surfaces... and the sweet smell of the woods.
Like a flower escaped from a garden is the fish-net found in inland Canada. Nets belong to the sea, to the sea-mists of the Atlantic shores and to the salmon-runs of the Pacific. What are they doing inland, out of habitat, "fish out of water," as it were?
But when you chance upon the "inland net" of the Indian, wound around a crude wheel whirled out of saplings, something inside, some inner sense, speaks out saying: "This is the original. The Seacoast nets of America came here long after this! These threads, these meshes—they run back, back, back to the Garden-of-Eden-time of this continent. And recent discoveries of fossil-skeletons are placing that period back much further than that 20,000 years to which we had become accustomed even if we couldn't understand or comprehend it.
The nets of Nipigon need no aid from men in order to write themselves as belonging in that class of simple things which appeal to the heart. When we happen on one of them in some clearing, its gossamer length thrown about the old wheel's throat it speaks to us with the same human touch as of some bright shawl.
What a vista of a world of the wild and free, it conjures up! The "Twine" so inanimate written on the page of the Government's "Indian allowance" becomes a thing of life, when you happen upon it changed by the handwork of the Indian into one of these inland nets. Nets of a lightness of quality to complement the frailty and mobility of the dainty canoe which is the hyper-sensitive fishboat of this world of inland lakes and rivers.
Like some lace veil is this Old... Inland... Net! You feel you might take it in hand and run it through a finger ring. Compared with it, how crude seems the coarse strength of tanned lengths that is the herring-trap of the Atlantic coast. How rude and strong the thick gunwale and heavy timbers, the long oar-sweeps of the fishboats that work these herring nets! These are fine paintings, jealously hung in an inner room... not many of them... rare. Those others, in the beauty of their strength, are the sculpture in the gallery of superlative only an interesting and very entertaining one of difference. Sometimes we are in a mood for the sculpture, for the strength of the sea; and nothing can satiate this hunger when it is upon us, but the way of the Maritime... East or West.
But these inland nets that stand for Canadian lakes and rivers, those wonderful water highways, or mere bridge paths, and canoe-trails of water, have their own charm... the charm of freshwater, the charm of mirror-like surfaces, the charm of the deep peace and the sweet smell of the woods.
What sort of world's work, someone murmurs, can be accomplished of these toy nets... more like feminine draperies than tools of an industry?
The filigree meshes woven about this old, weathered skeleton of a reel do not purport to be a Blue-Book of the immensity and range of the freshwater fisheries of Canada... and they are immense... so much as a point-finger of the hundreds of miles of lakes and rivers opened up to sportsmen following the beckoning of... "the nets of Nipigon."—Victoria Hayward.

U. S. DEVELOPMENT OF THE ST. LAWRENCE
In all the discussion of the St. Lawrence Waterways Scheme, the vital fact that the water in the St. Lawrence River and its tributaries is being reduced in volume from year to year, through the depletion of our forests, is entirely lost sight of. For while the Chicago drainage and power canal is accountable for the loss of ten thousand cubic feet of water and the consequent lowering thereof that source alone of the lake water levels by six inches or more, the far greater and more alarming shrinkage is caused by the enormous destruction of our forests.
In addition to this, every time a dam is erected on a river the flow of water is lessened below the dam through the increased evaporation area that has been created. Actual recorded figures on a large watershed over a 20-year period show that only 45% of the precipitation was available at the dam owing to loss from evaporation and seepage.
Deepening of the waterway is futile where there would not be sufficient water to fill the channel.

"But fishing isn't sinful."
"No, but lying is."

MARRIED.
Swanburg-Lantz.

Melvern Square.—The home of Mr. and Mrs. Ralph Lantz, Melvern Square was the scene of a very pretty wedding on Wednesday, July 15th when their daughter, Dorothy Lenore, became the bride of Mr. George A. Swanburg of Shelburne. Promptly at nine o'clock when the wedding march was being played by Miss Cora Lantz, of Kingston, aunt of the bride, the bridal party took their places on the lawn within a natural arbor of maple and lilac which had been decorated for the occasion the color scheme being white and yellow. Roses daisies, lilies, pansies with ferns made a floral carpet for their feet. The bride wore white baronette satin with lace veil orange blossoms and silver ribbon and carried a bouquet of white sweet peas and carnations. Miss Margaret Lantz, sister of the bride acted as bridesmaid and was gowned in white silk crepon with white satin hat to match and carried a shower bouquet of pink and American beauty roses. Little Miss Delma Wilkins, cousin of the bride, was flower girl and carried a basket of white and yellow roses which were strewn in the path of the bride. The groom was attended by his cousin, Mr. Wm. Walsh of Shelburne. After the ceremony which was performed by Dr. M. W. Brown, of Port George, the party returned to the parlor where beneath a beautiful white bell they received the congratulations of their friends. A sumptuous wedding breakfast was then served. The bride's travelling suit was sand potret twill with hat to match. The party left by auto amid showers of confetti, rice and good wishes for their home at the Pines, Shelburne, where they will spend a few weeks, after which they will visit Boston, New York and other cities, returning in the late autumn.

THE CAUSE OF SICKNESS
Almost Always Due to Weak and Impoverished Blood.

Apart from accident or illness due to infection, almost all ill-health arises from one or two reasons. The mistake that people make is in not realizing that both of these have the same cause at the root, namely poor blood. Either bloodlessness or some other trouble of the nerves will be found to be the reason for almost every ailment. If you are pale, suffering from headaches, or breathlessness, with palpitation of the heart, poor appetite and weak digestion, the cause is almost always poor blood. If you have nervous headaches, neuralgia, sciatica and other nerve pains, the cause is exhausted nerves. But run down nerves are also a result of poor blood, so that the two chief causes of illness are one and the same.

If your health is poor; if you are pale, nervous or dyspeptic, you should give Dr. Williams' Pink Pills a fair trial. These pills act directly on the blood, and by enriching it give new strength to worn out nerves. Men and women alike greatly benefit through the use of this medicine. If you are weak or ailing, give Dr. Williams' Pink Pills a fair trial and you will be pleased with the beneficial results that will speedily follow.

If your dealer does not keep these pills you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

THEIR HOME BURNED

Savings of Lifetime Goes up in Flames at Stellarton.
New Glasgow.—A house in Trenton owned and occupied by Essie Martin, was completely destroyed by fire this afternoon, with contents and building a total loss. The fire started about three o'clock this afternoon. Mrs. Martin had been baking and went over the road to visit a neighbor. Coming back a few minutes later, she found the house in flames and before the firemen arrived the building and contents were burned and the savings of a lifetime went up in flames. Mr. Martin is an employee of the Eastern Car Company. Practically all that was saved was what the family were wearing at the time of the fire. The New Glasgow firemen were called out but could do little.

AVERAGE POTATO CROP IN NEW BRUNSWICK

St. John, N. B.—That the outlook at present indicated an average potato crop in New Brunswick was the opinion advanced by Guy G. Porter, of Perth, N. B., general manager of the Guy G. Porter Co., Ltd., of New Brunswick and Cuba. He said conditions were very favorable to a large growth this fall. Rain was needed at present. The crop had advanced to such a stage, however, that he did not doubt it would be well up to it in advance of the growth of last season even if rain did not come immediately. The success of the present crop is assured in New Brunswick.

Trail Riders Hold First Pow-wow

PLenty of guides and pack horses on island at Yoho Valley Camp

July of this year witnessed the first annual Pow-wow of the Trail Riders of the Canadian Rockies in Yoho Valley, the wonder valley of Canada's mountain playground where, in addition to the accommodation at Yoho Bungalow Camp, a camp of tents is being put up with capacity for one hundred guests. Last year a group of outdoor lovers made an initial trail ride and found it so fascinating that they decided to form an organization to foster riding in these mountains. Anyone who has established a record for riding in the Canadian Rockies to fifty miles or more, is eligible to membership, irrespective of race, creed, sex, age or color. So far as the Trail Riders' Pow-wow is concerned, all that is necessary is that intending members should ride in on horseback.

THE INCEPTION OF THE ASSOCIATED PRESS.

The Pony Express that in 1849 Forwarded European News from Halifax to Digby, to be Conveyed by Vessel to St. John, And Thence, Telegraphed to New York.

By JOHN W. REGAN, Halifax, N. S. (Read 6th, January, 1912).

(Continued From Last Issue.)

One of the oldest printers in Canada is Alexander West of 32 North St., Halifax, for many years a familiar face about town, but now confined to the house through old age. He will be ninety in April. Interviewed recently by the writer, Mr. West says he entered a printing office in this city at eleven years of age. He was forty years in the "Acadian Recorder" office and fifteen years in the "Chronicle" office. He worked for the Howes. At the recommendation of P. S. Hamilton he was selected by D. H. Craig to board the mail steamers and to transfer, so he claims, the despatches to the express rider on shore. Mr. West vividly recalls the small boat he kept at the market wharf in which he rowed out to meet the incoming steamers at George's Island, whenever the weather suited, in order to save waiting for the Cunard liners to dock. He says the despatches were made up in sealed packages in Liverpool and given into the custody of the pursuer. West arranged to make himself known by displaying a small flag of particular make. Showing this, he drew his boat alongside the mail steamer and received the despatches from the pursuer on the paddle box. On some occasions the despatches came in sealed tin cans and were dropped overboard in the harbor in sight of West and picked up by him. He declares that in the end, the government prohibited delivering the despatches until arrival at the wharf. Mr. West says the packages often contained news of immense importance to the public. As a rule the same news was the common property of the officers and passengers on the steamer, but there were occasions when this was not the case. Mr. West mentions a supplementary despatch handed to the pursuer at Queenstown, where the steamer touched, which was probably sent to Ireland by special boat and courier to intercept the mail for America. This despatch related to an important occurrence that had taken place after the steamer left Liverpool, which was not known on board the liner. At this point Mr. West's memory seemed to fail him. He says he read the despatch, and was startled that it contained an announcement of the death of the Queen. The

MRS. ANDERSON TELLS WOMEN

How Backache and Periodic Pains Yield to Lydia E. Pinkham's Vegetable Compound

Leslie, Sask.—"For about a year I was troubled with a distressing down-bearing pain before and during the periods, and from terrible headaches and backache. I hated to go to a doctor, and as I knew several women who had taken Lydia E. Pinkham's Vegetable Compound with good results, I finally bought some and took four bottles of it. I certainly do recommend it to every woman with troubles like mine. I feel fine now and hope to be able to keep your medicine on hand at all times, as no woman ought to be without it in the house."—Mrs. OSCAR A. ANDERSON, Box 15, Leslie, Sask.

Mrs. Kelsey Adds Her Testimony

Copenhagen, N. Y.—"I read your advertisement in the papers and my husband induced me to take Lydia E. Pinkham's Vegetable Compound to get relief from pains and weakness. I was so weak that I could not walk at times. Now I can do my housework and help my husband out doors, too. I am willing for you to publish this letter if you think it will help others."—Mrs. HERBERT KELSEY, R.F.D., Copenhagen, N. Y.

Statement Relating to Mail Riders.

The following few items received from correspondents, doubtless refer to the contract in the early days, and have nothing to do with the pony express, but are appended here, as they may be of interest in other respects.
It must be remembered that Dr. Atkins, in his "History of Halifax" Page 89, says that a regular post communication was opened with Annapolis in the summer of 1786, and a courier was engaged who went through once a fortnight with the mail between Halifax and that town. John Howe was at that time postmaster, and continued so at least until 1808.
Gilbert O. Bent, of 101 Leinster St., St. John, informs me that his mother, grandmother, John Bath, a native of Hull, England, landed at Halifax about 1770 or 1774 with an uncle, William Clarke, and took the latter's horses, which he brought with him across country and settled in the township of Granville, Annapolis County. He was the first to carry His Majesty's mails to Halifax across Nova Scotia on horseback. Previously they had been taken on foot. Bath died 3rd Nov., 1816, aged 65 years. Mr. Bent refers to Calne's History of Annapolis County, Pages 158 and 475 for further details. This is said to have been the beginning of the mounted post in Nova Scotia.
Frank A. Boiser, of Spa Springs, Annapolis Co., sends an interview with Richard W. Hians an old neighbor, whose father rode a dispatch horse in the early days, but this was a government mail contract. This rider, William Hians, was employed by the post-office department of Halifax, which was in charge of John Howe, a half brother of Joseph Howe. John Howe married a sister of Wm. Hians. Richard Hians says King of St. John was the chief contractor for this mail service and he re-let the work to the riders. The mail was carried by swift packet service across the Bay of Fundy from St. John. The vessel pulled into the wharf at Annapolis Royal near Boggs Island, so-called, where the mail was handed to the post-office official to distribute the packages to the proper couriers. The despatches were in leather sacks. These were very large and were handed to the riders just as taken from the packets. Without being opened, and were carried through to Halifax, and never opened on the road. Some riders carried local mail also. William Hians rode to Windsor, and his brother Richard from Windsor to Halifax, where the dispatch mail was delivered direct to the office of John Howe. The horses

employed were about 1200 pounds, as lighter animals could not carry the immense weight of the English mail. They were tough, trappy horses, supposed to be thoroughbred. Two horses went ahead, fastened by their bridle to one another, also attached behind the shoulders by some form of surcingle. Pouches were thrown across their backs, and the rider followed on a saddle-horse, generally smaller, and directing the pair of carriers. Relays were about fifteen miles apart. The stops and changes on Wm. Hian's route were: Bridgetown, Wilcox, Ayresford, Kentville, Windsor. The horses were ridden as fast as they could endure when carrying dispatch mail; but slower at other times. Wm. Hians stopped at Sangster's, in or near Windsor, at the end of his route. The whole distance from the Bay of Fundy to Halifax was covered in less than a day. These riders were armed, carrying two pistols. Upon William Hians wishing to go to the city for one trip, he and his brother Richard exchanged routes. This change becoming known, Richard was assailed by a highwayman at Elm Brook, just east of Middleton, Annapolis Co. The robber stopped the head horses, and rode in close to Richard and stabbed him with a knife. Fortunately the knife struck a brass button and did little harm. Before Hians could get his pistol to bear, it being dark, the robber disappeared. The narrator of the above facts, possesses one of the pistols carried by his father. It is marked "Hutton, Liverpool," and seems to be as good as ever. The barrel is threaded on, and to load it, it has to be unscrewed, exposing a chamber in which to place the powder and ball. The weapon is fired by a percussion cap and hammer. The bore is very large. At the last of the service, William Hians drove a four-wheeled wagon said to be the first in the province. It was sunk at low-water mark at Mararetville, on the Bay of Fundy shore, to avoid impôts, being one of several vehicles imported from the United States. The vehicles were discovered and seized and sold. Hians obtained one of them, and drove the mail after that with two horses tandem, until the regular coach line started, when he went to the Shelburne route and from there to the St. John and Fredericton road and finally retired to his farm at Spa Springs, where his son still lives.

HOW TO BUILD UP YOUR TOWN.

Building a community is everybody's job. The home owner, the landlord, the merchant, the housewife, the minister, the doctor, the civic societies, the policeman, the firemen—in fact, everyone with school principal, the school board, a distinct home interest must play his part. The local newspaper is the point of contact through which these various elements must function and express themselves. The home town publication is a mirror of the life of the community, inspiring, suggestive, helping and usually sacrificing a great deal to the general work of upbuilding. It is the concentrated reflection of the home town interests, as opposed to activities in its midst, whose sole aim is to take the home town dollar out of town and attach it to the bank account of some foreign corporation.
The appeal for the home town dollar is usually an appeal to cupidity camouflaged as safe and economical buying. For the most part it is made in secret—direct by mail—the circular, the booklet, the disguised mimeograph letter systematically prepared by expert mail salesmen, with the usual "follow ups," destined to extract and carry away to the distant bank account the money of the unthinking. The very secrecy of the appeal is its own condemnation.
It is amazing to note how slow is the average newspaper reader to appreciate the value of frank and open newspaper advertising. Not only in this way is the housewife enabled to learn what the market has to offer, but in the frank open advertisement lies an absolute security from exploit. Newspaper advertising is the housewife's weekly insurance. The day has passed when the advertiser dare be dishonest. The statements in an advertisement are shouted from the housetops. They are too easily checked up. They become the guarantee of service and honest dealing.

SHAD AND STRAWBERRIES.

When the angels made shad The devil was mad. For it seemed such a feast of delight; So to ruin the scheme He jumped in the stream And stuck in the bones out of spite.
When the strawberry red First illumined its bed The angels looked down and were glad; But the devil, 'tis said, Fairly pounded his head, For he'd used all his bones on the shad.

Here and There

British Columbia's agricultural production last year increased in value \$4,000,000 over the 1922 period, figures compiled by the provincial Department of Agriculture show.
A steady increase in the volume of wheat exports from Canada is noted in the monthly statement just issued by the Dominion Bureau of Statistics. In April, 1924, 6,685,465 bushels in all were exported, as against 5,142,301 in April, 1923.
It is anticipated that hundreds and thousands of visitors to the beautiful Annapolis Valley, Nova Scotia, will help to celebrate the famous fruit-district's "Apple Blossom Sunday," which falls on June 8th this year. The entire orchard belt, extending from Annapolis Royal to Windsor, a distance of about 80 miles, is always white and pink with blossom in the first part of June.
Hon. Honore Mercier, Minister of Lands and Forests, speaking of arrangements made in the province for forest protection this year, stated: "I really believe that the way the service is organized and with the good-will manifested by all classes of the community, who realize the importance of protecting your national domain, the year will be a good one and the losses reduced to a minimum."

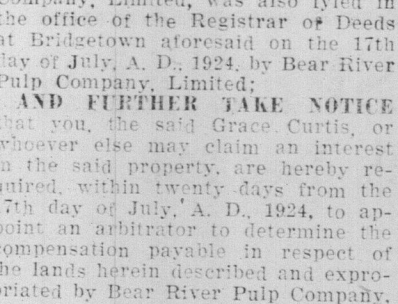

THE REPORT OF THE STATISTICIAN

The report of the statistician to the board of grain commissioners for April, recently issued, records the heaviest spring great lakes shipping season on record. The report says that there are indications that all the surplus of the western crops will be moved as fast as transportation facilities permit, as export purchases are to be heavier than usual and all ocean tonnage out of Montreal for May and June has already been engaged, as well as part for the July loading.
Something new in the way of railway equipment is the new storage battery car now operating over Canadian Pacific lines between Galt and Hamilton. The car attains a speed of 35 miles per hour and makes two trips a day in each direction. It has three compartments, general, passenger, smoking and baggage, is of all-steel construction and will accommodate 50 passengers. The service is reported to be giving every satisfaction to the people of the district.

DR. VERNON C. MORSE. An Appreciation.

The county of Annapolis has lost in the passing of Dr. Vernon Chipman Morse, a valued friend, a skilful physician, and a loyal, dependable citizen.

He was graduated from Acadia college, and later pursued his studies in Harvard University, from which institution he graduated in medicine in the year 1903.

In the year 1909 Dr. Morse married Miss Mable M. Elliott of Clarence, N. S., a daughter of the late Deacon Edwin J. and Mrs. Elliott of that place.

Miss Elliott, a talented musician, pursued instrumental and violin courses at Acadia Seminary and was graduated in piano in the year 1903.

After their marriage Dr. and Mrs. Morse resided in Cambridge, Mass., where Dr. had an extensive practice.

FIRE FIGHTING WORK APPRECIATED BY MR. FRANK J. BARNJUM.

The letter quoted below shows that Mr. Barnjum appreciated the work done by fire fighters in the vicinity of Paradise Lake and is a fine tribute to the work of Mr. Walker, accompanying the letter was a cheque for \$25.00.

Mr. Grant Walker, Bridgetown, N. S. Dear Mr. Walker:— Please accept the enclosed as a slight appreciation of the splendid work in fighting the recent forest fire near Paradise Lake.

I can assure you it is refreshing and encouraging to have anyone take a real interest in this beautiful country of ours.

With kindest regards and best wishes, I am, Very cordially yours, FRANK J. BARNJUM, Annapolis Royal.

Local Happenings

The town of Pictou quite recently announced a new series of regulations relating to the operation of motor vehicles within the town limits, and if the newly accepted law is enforced Pictou should experience very little difficulty in keeping crooked chauffeurs straight and all else that makes the auto a dangerous thing to meet or own.

Too much cannot be said about the necessity of carefulness in brewing tea, for even the best tea in the world, MORSE'S SELECTED ORANGE PEKOE, will not give fullest satisfaction if improperly made. In brewing a pot of tea be sure that the water is fresh, and be sure that you pour it on the tea just when it comes to the boil. If you do this and steep your tea for 5 1/2 minutes, you will be assured of a beverage that is fit for the gods.

Three dogs last week sought the power of the porcupine quill. Two of the canines departed this life, while the only one of the trio to escape gladly bowed to the will of the quill-pullers who undoubtedly saved his life.—Hants Journal.

On Thursday of last week the Rev. Canon Underwood accompanied by the Trail Rangers of the Anglican church returned on the S. S. Valinda from a few days camping at Goat Island.

The outing was greatly enjoyed by all the boys. The party wish to thank all those who in any way assisted them, in making the outing such a success.

An American tourist inquired of the clerk of a local hotel last evening the time of the departure of the ferry for Digby. On being told the time, he then asked if the ferry was rowed across or was it steam driven. He was greatly surprised when he was informed that the Empress was an honest-to-goodness steamer and that the trip was of three and a half hours duration.—St. John Times-Telegraph.

Mr. Wm. Cossabom of Smith's Cove has recently installed a Delco plant, in having all his bungalows lit with electricity. Mr. Cossabom has made a marked success in catering to the tourist traffic and is pursuing the only methods which can make for complete and lasting success in this line in Nova-Scotia.

This way clever women resist the years The simplest beauty secret known—but the most effective

Every day you see women well along in years, who still retain the charm of youthful, lovely skin. They are not unusually fortunate—just clever enough to resist the years! They know and follow a simple method, which you may employ as successfully as they do. This tells you how. Authorities advise this: Cleanse the skin regularly, au- Palmolive Soap. The simple, correct way You cannot find a more effective beauty treatment. Because Palmolive Soap is blended of rare palm and olive oils—famous for mild but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive. Be sure you get Palmolive Soap—which is never sold unwrapped. All dealers have it. Then try this method. Watch the improvement in your skin. It is very economical. So let Palmolive do for your whole body what it does for the face. THE PALMOLIVE COMPANY OF CANADA, LIMITED Winnipeg Toronto Montreal Palm and olive oils—nothing else—give Nature's green color to Palmolive soap. 10c
