## BILINGUAL SCHOOL A MYTH Legislature Brings Session to Close PREMIER RESENTS ATTACKS

### Reckless Journalists Confuse Study of French With Legal- ization of Language as Me- dium of Communication, He Says—Government Will Stand or Fall By Statute Law of Land.

With "three cheers and a tiger" for the King, the Ontario Legislature closed its legislative session at 7 o'clock last night. Sir James Whitney led the cheering. The afternoon was one of the most strenuous in the history of the assembly. The formal prorogation will be held on Friday afternoon.

Bilingual schools were discussed for a brief but spirited few minutes, when G. H. Ferguson (Con., Grenville), introduced an amendment to his original notice of motion, "That in the opinion of this house no language other than the English language should be used as a medium of instruction in the schools of the province."

The amendment read: "That the English language shall be the language of instruction and communication of the pupils of the public and separate schools, except where, in the opinion of the department of education it is found impracticable because the pupil does not understand English."

A Familiar Controversy.

The question of bilingual schools, he said, was a subject that loomed large in the destiny of the country. It had had a wide discussion and much publicity, and as the house was familiar with it, he did not propose to go into it at length. The brevity of his original resolution was only weakness. His sole object was to better the facilities for discussing the English language throughout the country.

He had not a word to say against any nationality or creed. They were all entitled to the same rights and privileges as the English; but it was admitted that it was an advantage to all the peoples to understand the English language in this country and the public school was the only medium of teaching it.

He wouldn't say that the abuses that were reported could be obliterated in one fell swoop, but they could be gradually got rid of without disadvantage to the country at large.

No Real Bilingual Schools.

Premier Whitney pointed out to the house that the amendment was in the exact words of the statute law of the land, and strange as it might seem to some people, there was no such real entity in the province as a bilingual school.

People outside the legislature and reckless journalists were apt to confuse the question of the study of the French language with the legalization of the French language as a means of communication. They were as far apart as the north and south poles.

"The position of the government is and will be," said the premier, "to stand by that mandate. Whenever it is found impracticable to carry out the provisions of the first part, the latter part shall be applied. We take our stand upon it and are prepared to stand or fall by it."

"The chief inspector of the province has made a thorough and complete examination into the situation, and we can't say what we will do till we can learn from him what the situation is."

"My own judgment tells me that in all probability, in a great many schools of the older part of the province; the working out of the principle of the act has been lost sight of by the trustees and other interested persons living on the spot. It may have happened that the intention of the law has been forgotten and it may be that where English pupils are in the minority, the French language has crowded out the English as a means of communication between teacher and pupil. I am not saying that this is the case, but it is possible that a continuation of the use of another language has been lengthened out in an improper way."

"If we find that any abuses have occurred, this government will take steps to abolish them. In other words, the government pledges itself to stand by the provisions of the statute."

The amended resolution carried unanimously.

Public Ownership of Rivers.

Hon. Frank Cochrane moved the house into committee on the bill for the protection of public interests in the bed of navigable waters.

W. Proudfoot said the bill was revolutionary in asserting public ownership of the streams.

Hon. A. G. MacKay: "It was always understood the other way, that the water was considered the same as land."

Hon. J. J. Foy pointed out that the critics of the bill assumed that the general opinion in Canada has been that the possession of land gave proprietary rights to the centre of navigable waters. This was not the case. When purchases had been made on such an assumption, the claims involved were protected by the bill.

Sir James Whitney said people sometimes believed things to be right where there was no right at all. There would

## CITY'S POWER BILL GOES THRU.

Power was yesterday afternoon given the City of Toronto by the Ontario Legislature to submit the question of purchasing the Toronto Electric Light Company's, and the former Toronto Incandescent Light Company's rights and property to the electors, and to issue forty-year debentures to cover the cost, which, on the basis of \$125 a share, would be \$5,000,000.

Power was also given the city to establish a commission to have jurisdiction over the civic electrical department. One commissioner will be appointed by the Ontario Government, thru the Hydro-Electric Commission, one by the city council, and the mayor will be, ex-officio, the third member. The two first named will receive \$4000 a year. There was no discussion on the bill.

## MACKAY MAKES OPEN ATTACK ON HYDRO

### Bill to Enlarge Commission's Powers Unfair to Competing Private Plants, He Declares—Premier Scores Critics of Railway Board, But Admits Inability to Handle Situation

Hon. A. G. MacKay made a vigorous onslaught in the legislature yesterday upon W. K. McNaught's bill to place the absolute control of all conduits, wires and poles under the hydro-electric commission. He argued that the commissioners could not be fair judges, as they were the operating head of a rival company, where competition existed between a municipal plant and a private corporation.

"Not another municipality except Toronto," he exclaimed, "would come to this house and ask for such legislation."

He held no brief for the Toronto Electric Light Co., but he believed the premier should insist that such powers be held by an independent board.

Such legislation went too far. It intimated that the court and judges could not be trusted. It might be used as a means to squeeze out a rival at a lower price than fair arbitration would warrant. The powers should go to the Ontario Railway Board.

Premier Defends Railway Board.

Sir James Whitney said that at first blush he would agree with the assumption of the leader of the opposition and he would say just a word respecting the "infamous and un-British treatment" received by the Ontario Railway and Municipal Board at the hands of a portion of the people of this city.

This particular bill dealt with a matter which, however, called for an expert opinion and experience. Not one word had he to say as to the controversy between the City of Toronto and the T.E.L. Co. He had had all he wanted to do with both of them. "They can settle their difficulties as they can," he said.

The claim made two years ago in the suit of the T. E. L. v. the City of Toronto had led to a state of affairs never dreamed of. It was from the point of view of the present, and not of the old misty ideas of the past, that the matters must be decided.

The T. E. L. Company, to his personal knowledge, claimed that their agreement with the city was a perpetual monopoly of the streets of Toronto. That was an impossible position to be allowed to exist.

The Dominion Parliament gave a railway, technically speaking, a monopoly of a pass thru a range of mountains, and it may be argued that the hydro-electric commission was a competing body. That was an impossible position to take. The members were particularly anxious to decide the matters to be brought before them being expert and professional.

There was no danger of injustice, as questions of compensation and damages would go under the Municipal Arbitration Act, the making of which was well understood.

A Necessary Course.

The bill was in exact accordance with the statement of Mr. Justice Middleton, in a time to come, the commission would have to exercise such powers, greater than that of any private interest, and that the active intervention of the legislature would be required to establish such a commission.

He did not say that the T.E.L. should not receive every dollar to which the company was entitled, that was, however, between them.

The bill gave the hydro-electric commission the legislation to do the work required and was the body capable of doing the work.

Hon. A. G. MacKay said if the Ontario Railway Board could not do it they should get off the earth. The T. E.L. did not take possession of the streets of Toronto.

Sir James Whitney: "They intended to take it."

London an Example.

Mr. McNaught said the commission had advised the conditions given to that in Toronto in the case of London. Hon. Adam Beck: "And by expert evidence."

Mr. McNaught: "The T.E.L. was not the only electric company in Toronto. There was the Erie-Edison Power Co., Ltd., and he had received a letter describing the dangerous condition of affairs in West Toronto owing to the uncontrolled wiring by different companies on the same poles. It had caused three fires and nearly cost the loss of two lives. Conditions without this bill would be chaotic."

Hon. A. G. MacKay put in another brief protest and the bill was adopted.

## GREAT IS PORCUPINE AS F. A. HEINZE SEES IT

### Copper Magnate Impressed With Richness of Ore—Good Work on Railway.

According to the glowing statements of F. Augustus Heinze, the U.S. copper magnate, in an interview with The World last night, Porcupine will soon be one of the greatest assets of Canada, and a gold centre of certain paying value. He is largely interested in the West Dome Mines, Limited, and left Toronto last Friday on his second visit to the property, returning yesterday full of enthusiasm over the northern land. He found the reports of the diamond drill development so excellent that he immediately put in an order for a full mining plant—six drill compressors, two 40 horsepower boilers and one 40 and a hoist. All these have been purchased on the spot, which guarantees them at the mine in ten days' time.

"Two shot drills have been working for some time," said Mr. Heinze, "one of which was set to inspect the vein at 225 feet. Instead, however, the quartz was struck at a depth of only 160 feet, which was fully 160 sooner than was expected. The drill has continued thru this vein for 25 feet, and is still going. Several assays were made from this, which vary from \$120 to \$150 to the ton rock would be one of the bonanzas of the world, and I think that is much counts on the machinery getting in before the roads break up," continued the financier. "Orders have been given to sink the main working shaft as soon as the hoisting machinery is installed. A large office building and the superintendent's residence have already been constructed."

Other Rich Properties.

Mr. Heinze visited the neighboring "Vipond and Hollinger properties and was especially impressed with the ore currencies of the latter, which he thought unusually rich, and the extensive ore body. "Vipond is also knocking away," he said, "and both faces of the drift on the 100-foot level continue to show unusually rich values, particularly the south, which I am advised assays over \$200 to the ton."

"I was much impressed with the activities throughout the whole region. It is most intense regarding mining development, the building of residences, hotels and stores being only secondary."

The great question of the moment is how long the roads will last to allow the freighting by sleighs from Kelso to Porcupine. In my judgment, unless some extraordinary climatic occurs, freighting on the winter road may be counted on for two weeks at least. Judging from the conversation of the inhabitants, one would imagine they considered the breaking up of the road almost equivalent to the freezing of the Yukon in Dawson in the early days of the century. The only difference is that the cessation of communication will not be quite as relentless and as long continued as in the Klondike town.

The efforts of the government in connection with the railroad construction are most businesslike and in the six weeks which elapsed since my last visit wonders have been accomplished. I think the government promise of the government railway to Porcupine by July 1, can be relied on."

## Knocked Chip Off Uncle Sam's Shoulder

### PRESIDIO, Tex., March 22 (Via Marfa, Tex.)—Shortly after the crossing of supplies from Presidio, intended for the Mexican troops besieged in Ojinaga, directly across the Rio Grande, had been stopped to day, bullets from federal rifles fell among a detachment of United States troops guarding the American side of the river. An explanation has been demanded of Gen. Luque, in command of the Mexican troops.

## NEWMARKET CANAL TO COST \$1,100,000

### Exceeds Estimate by \$328,000—Laurier Rejoices in Anglo-American Arbitration Scheme.

OTTAWA, March 22.—(Special.)—In reply to a question by Capt. Tom Wallace (Centre York) the house of commons was informed to-day that the expenditure on the Newmarket canal for the past fiscal year had been \$125,824.16, making a total expenditure to date of \$459,832.76. The government expects that the canal will be completed in 1913, and the entire cost will be in the neighborhood of \$1,100,000. This exceeds the preliminary estimate of \$772,000 by \$328,000.

Laurier rejoices in Anglo-American Arbitration Scheme.

OTTAWA, March 22.—(Special.)—In reply to a question by Capt. Tom Wallace (Centre York) the house of commons was informed to-day that the expenditure on the Newmarket canal for the past fiscal year had been \$125,824.16, making a total expenditure to date of \$459,832.76. The government expects that the canal will be completed in 1913, and the entire cost will be in the neighborhood of \$1,100,000. This exceeds the preliminary estimate of \$772,000 by \$328,000.

Laurier stated that seventy-five men and five officers of the Northwest Mounted Police would be included in the coronation contingent.

With regard to the attitude of the government in connection with the recent speeches concerning a treaty of arbitration between Great Britain and the United States, Sir Wilfrid Laurier said: "The attention of the government, and it may be added, of the whole people of Canada could not fall to be attracted to the proposition now being discussed by Sir Edward Grey and President Taft of a treaty of arbitration between Great Britain and the United States, which would secure for them and their respective peoples the blessings of perpetual peace."

"Whilst the government of Canada could have no direct voice in the negotiations, it can be safely asserted that there is no part of the British Empire where such a treaty would be more welcome than in the Dominion of Canada, which is so closely connected with the United States by geographical proximity and ever increasing trade relations, and which is still more intimately connected with Great Britain by the strongest bonds of devoted allegiance."

## MURDERED ONE WOUNDED TWO

### Cold-Blooded Attack on Three Woodsmen Near Port Arthur—Murderer Took Their Time Checks.

PORT ARTHUR, March 22.—To set possession of three woodsmen's time checks, a man, whose name is not yet known to the authorities, held up a party of three woodsmen, all Finlanders, on their way out from the Pierson River Lumber Co.'s camp, near Silver Mountain, killing one of them and very seriously wounding the others, using a revolver as a weapon.

The men were on the road leading from the camp to a railroad, intending to take the train to Port Arthur, when they were met by a stranger, who offered to direct them to the railway by a short-cut. His offer was accepted, and at a convenient moment the stranger opened fire on the three, killing one and incapacitating the others. He took their time checks, which are of no value to him because he cannot cash them. The revolver was his only weapon. The murderer also used a hunting knife freely.

One man has nine cuts about his body. The revolver was fired at the sufferings, the assailant made off. The two laid out, wounded and bleeding, beside the dead body of their companion all night and to-day, managed to reach the railway and go the news sent to Silver Mountain, whence it was forwarded to Port Arthur. Provincial Constable Simons left for the scene this afternoon, but will not in any case be able to get on the track of the fleeing murderer before tomorrow.

## THE DOPE BILL

### Senator McMillan Will Move Amendment at Third Reading.

OTTAWA, March 22.—In the senate to-day, the government bill to prohibit the improper use of opium and other drugs was put thru the committee stage, with the addition of an amendment, proposed by Sir Richard Cartwright, enlarging the scope of the bill so as to make it a criminal offence to have not only opium, morphine or cocaine, but also any salts or compounds thereof, or to import, export, or deal in these drugs, except under strict conditions guaranteeing that they shall be for medical or scientific purposes only.

Senator McMillan gave notice that on the third reading of the bill he would move an amendment amplifying clauses four and five so as to make the penalty apply to any person who takes internally any extracts, derivatives or preparations of opium, and to exempt the use of these drugs as a home remedy in the case of emergencies or for use in treating cattle, providing that in the latter case the prescription of a veterinary surgeon was secured.

## TRUSTEES ARE UNDECIDED

### Offer to Purchase Carleton-Street Church Discussed Last Night.

While the offer of \$125,000 for the Carleton-Street Methodist Church is an alluring one, the board of managers at their meeting last night considered the issue too important to be settled off-hand. The matter was allowed to stand for a further meeting.

It is understood, as announced in The World last week, that the offer is being made by the Murray-Kay Co.

JOINING THE PROCESSION.

SANDWICH, March 22.—The city council has asked the hydro-electric commission for prices for Niagara power.

## N. YORK VOTERS' LISTS READY TO-DAY

### Diplomatic Denials the Result of a Storm of Protest by Ontario Liberals Against Opening the Seat—Fear Issue of Appeal to the People.

OTTAWA, Mar. 22.—(Special.)—Considerable excitement was manifested here to-day when it became known thru The World that the government proposed to open North York, Sir Alan Aylesworth's constituency, and make of it a test upon the reciprocity agreement. The result is that a storm of protest has been raised by Ontario Liberals against opening the seat. Government newspapers, in order to mark time until it is seen whether the minister of justice can be induced to reconsider his decision to retire at once, have issued denials of the situation. The fact remains, however, that the clerk of the crown in chancery has sent orders to the government printing bureau to have the North York voters' lists ready by to-morrow. These will be ready to-morrow.

The protest against opening the seat is because western Ontario Liberals are convinced that not only will North York be lost on the reciprocity issue, but so also will Hugh Guthrie's seat in Wellington, when he goes to the constituency for re-election as minister of justice, the people of his riding being absolutely opposed to reciprocity.

## DENIES WINNIPEG REPORT

### C. P. R. Not Planning Thru Service, Says Local Passenger Agent.

"At the present time there is nothing in the report from Winnipeg that in the new time card of the C.P.R., which goes into effect on April 15, trains 84 and 85, the Toronto-Winnipeg express will run thru to the coast, carrying only standard and tourists sleepers, and that the C.P.R. will also run a thru train from Toronto to Winnipeg by way of Chicago and St. Paul," said R. T. Thompson, district passenger agent of the C.P.R. to The World last night.

"An improved service will be established between Toronto and the west in the near future, but at a meeting of the C.P.R. transportation department held at Montreal on Tuesday, nothing was said with regard to establishing the service spoken of in the rumor."

## MANITOBA AGAINST PACT

### Stampeded Farmers Will Soon Change Views, Says Hon. Robert Rogers.

That Manitoba farmers are in the great majority strongly opposed to reciprocity, was the emphatic declaration made yesterday by Hon. Robert Rogers, Manitoba's minister of public works, who is stopping at the King Edward.

"The farmers of Manitoba have been stampeded by the officers of the west, the Grangers, who are Grits first, last and all the time, and ready to work for the Liberal party under any circumstances. But I look for a tremendous revulsion of feeling when the farmers of my province understand the reciprocity question as they will understand it," he said.

"The farmers of Manitoba are sensible men," said Mr. Rogers. "They realize that reciprocity would reduce the value of their products. They would be forced in everything they produce to go into the open market and compete against the world; for everything they buy they have to pay a duty."

## PAID IN FULL

ST. JOHN, N.B., March 22.—The depositors and creditors of the failed St. Stephen's Bank will be paid in full, according to a statement issued by the curator of the bank. A second dividend of 33 1/3 per cent. will be paid within ten days' time, and the balance on or before the first day of May next. The present arrangement obviates the necessity of a call upon the shareholders for their liability, that otherwise must have been made immediately.

## THE NEW FELT HATS.

The fashions this season in the new spring hats are considerably different in some lines than were worn last season. A wide brim and low crown Derby for young men is a striking item in the new blocks. The Dineen Company has all the latest designs by every great maker.

**HAMILTON HAPPENINGS**

**BOY MIGHT NOT HAVE BEEN KILLED IF FENDER HIGHER**

Motorman Had Not a Clear View of the Track—\$1500 For Loss of an Arm.

HAMILTON, March 22.—(Special.)—There were two inquests to-night. The first one was on the death of Bessie Clark, the 18-year-old girl whose funeral was stopped last Saturday afternoon by the crown-attorney, owing to rumors about concerning the nature of her death. The jury met to-night under Coroner Griffin and adjourned for a week, as the police court was being occupied by the inquest into the death of Richard Smith, the boy killed by a street car on the request of the Wednesday morning. Coroner Anderson presided at the latter investigation, and the jury returned a verdict to the effect that, if the fender on the car had been low enough and if the motorman had had a clear view of the track, the accident might have been avoided. It also recommended that the sides of the cars between the tracks should be protected. The crew of the car was exonerated of all blame. The public library board this afternoon further considered the tenders for the new library, and found them within the estimate. They will have to submit them to Andrew Carnegie for approval before accepting any of them.

At the assizes this afternoon the jury in the action of Crane v. the Laidlaw Engraving Co. awarded the plaintiff \$1000 damages for the loss of an arm in a press. The action of C. C. Baird against The Times Printing Co. for libel was laid over until to-morrow.

The controller of the Hamilton Municipal Association, decided to-day to join with the cemetery board in doing everything possible to discourage Sunday funerals. They began by jumping the price of funerals held on that day, with the exception of victims of contagious diseases. The Hamilton will likely apply shortly to the Dominion Government for the appointment of a harbor commission. The suggestion was made by the minister of marine and fisheries.

Cleo de Merode, who was the favorite of the late King Leopold of Belgium, is the interesting subject of the artist's pencil that will appear as the frontispiece of the Magazine Section of this week's Sunday World, printed in colors, and posing in her new environment. She looks back and regrets that the splendor has passed. She now has to work, and is depicted learning her trade.

**FOUND SELLING SILVER ORE.**

Henry A. Jones, a temperance hotel-keeper of Cobalt, Ont., yesterday afternoon in West Queen-street, charged with having silver ore in his possession, contrary to the provisions of the statute. He was attempting to dispose of about 20 pounds of bullion worth \$125, and his explanation of how it came into his possession did not satisfy the officer. He is held at the Court-street station.

**Instant Relief for Sore Feet**

Sore Feet, Tender Feet and Swollen Feet—Cured Every Time. TIZ Makes Sore Feet Well. No Matter What Ails Them.

**ASHAMED OF THEMSELVES.**

MONTREAL, March 22.—An official apology from the student body of McGill will probably be tendered to Hon. Mr. Sifton for the indignities to which he was subjected on Monday night by the rowdy element of the undergraduates. A memorial is being circulated in the university and largely signed. Civil actions for damages amounting to \$1400, including the cost of the carriage that was burned, may also add to the discomfort of the students, and somebody will have to pay. About a dozen students will be made the defendants. It is stated.

**G. T. R. Settled Claim.**

Charles P. Bagwell, a brakeman of the Grand Trunk, entered an action against his employers yesterday for damages resulting from a fall from a car in the yards. Before the suit was started, however, a settlement was made privately for \$400.

**Georges at Falls Contribute.**

NIAGARA FALLS, Ont., March 22.—(Special.)—At a meeting of Georges of the city, another link was put in the chain that has for its object the presentation of a coronation gift to King George from his Canadian namesakes. Mayor Dornes presided.

Mrs. G. W. Harrington, 44 Walker-avenue, will receive to-day, and not again this season.

**HAMILTON BUSINESS DIRECTORY.**

**AUTO HOSE WAGON CAN TRAVEL AT BRISK CLIP**

**Impressive Demonstration Given Visiting Fire Chiefs and Aldermen.**

There was another test of the new combination chemical hose motor wagon of the style Chief Thompson wants the city to adopt yesterday afternoon. There were a number of officials from London, Brantford and Guelph present, as those municipalities are contemplating putting in a particular style of fire-fighting apparatus.

At 2.30 o'clock Chief Thompson's big auto started in front of the Adelaide-street hall with the 80 horsepower wagon in close pursuit. Ald. Sweeney was in the driver's seat, and the chief of the car, and Ald. Yeomans followed the hose wagon in his own car at a speed which would call for an investigation before a magistrate if he had not been on city business. On the new fire fighting vehicle were the representatives of the three outside cities returned to a 20 mile clip. They came over to Yonge-street at the same high speed. Then they ran down the main thoroughfare of the city at a speed of 17 miles per hour.

The chief and the members of the fire and light committee were delighted with the test, which was made under most adverse conditions, as the roads were about as greasy and slippery as they ever are.

Among those present from outside points who enjoyed the run, were Ald. Ashplant and Fire Chief Attkin of London; Mayor Lees, ex-Mayor McLean, secretary of Waterworks James, Ald. Clarke and Ald. Gardiner of Hamilton; Mayor Stahler, Ald. Pearce and Ald. Bethel of Brantford; Mayor Thorpe and Fire Chief Pink of Guelph.

**FRONT-STREET BRILLIANT WITH HYDRO LIGHTING**

Street Effect Was Striking Last Night.

Bit by bit Chief Electrical Engineer Kenneth L. Attkin is getting the streets of the city illuminated with hydro-power. The cluster lights on Front-street between Yonge and Simcoe-sts. are the latest to be turned on. They were used for the first time last night and Front-st. for this section was illuminated in a manner such as never before on both sides of the street was burning, and barring the bill boards and a few unsightly corners which would be better enshrouded in darkness, the thoroughfare presented a scene which would rival the gay white way of the American metropolis for brilliancy.

Kings-st. between Bay and Church-sts. has been illuminated by the two rows of cluster lights for the past few nights, but the contrast between Kings-st. as it used to be and as it is now is not so marked as the transformation of Front-st. which has always had plenty of corners where the nervous could imagine a knight of the stuffed club and velvet tread to be lurking.

It is the intention of Mr. Attkin to illuminate the crossings leading to the water front and the wharves themselves so that visitors to the city will be able to see their way on arriving here after night. In fact, he plans to light up the wharves as extensively as any of the leading cities of the world. He expects to have this part of the plan in operation as soon as navigation opens.

**POSTMORTEM DISCUSSION OF ST. PETER'S RESERVE**

"Reeking With Dishonesty," Mr. Bradbury Declares—Indians "Better Off," Says Oliver.

OTTAWA, March 22.—(Special.)—The principal item of interest in the house of commons to-day was a post mortem discussion by Geo. H. Bradbury (Selkirk) on the sale of St. Peter's Indian reserve in Manitoba, which was aired in parliament last year. Mr. Bradbury introduced the matter as amendment to the motion to go into committee of supply, asking for a royal commission to investigate the matter. The amendment was finally lost on division.

Mr. Bradbury's criticism of the department of Indian affairs was severe and trenchant. The St. Peter's Indians had been the first to sue for the return of the white settlers. They were loyal to the crown during the Red River rebellion, at Fish Creek, and had protected boats on the river. General Gordon. He described the transactions as "reeking with dishonesty" and made a plea for British justice, and argued that the sale of the reserve to the Indians had no votes. Mr. Bradbury declared that bribery had been practiced to buy the support of the Indian leaders, Frank Pedley, to secure the surrender of the reserve. Only 200 of the band were present at the meeting, and the whole day's active canvass, the government managed to squeeze out nine of a majority, less than 30 per cent of the vote. He declared that it was not a legal surrender.

**Thrown to the Wolves.**

Mr. Bradbury drew a vivid picture of the loyalty of the band of Indians to the British people. Yet in return for their services they had been thrown to the wolves by this government. He described it as one of the most racially traitorous acts of the Indian department. The minister was afraid to let daylight in on it.

Hon. Frank Oliver, in replying to Mr. Bradbury's charges, said that it was absurd to say that the Indians had been robbed. For a reserve of 48,000 acres they had received a market value at the time of the sale, and had been given another reserve containing 74,000 acres in a situation much more remote to the Indian reservation than a material and moral point of view. The Indians had agreed to the sale of the lands under specified conditions, and these conditions had been fulfilled to the letter. Before the meeting about which Mr. Bradbury had said so much, the matter of the sale of the reserve had been canvassed for weeks.

He denied that there had been any attempt made to bribe the Indians. There was no occasion for such a charge because all the facts in connection with the sale of the reserve had been laid before the house. The department had nothing to conceal, and he apologized for, and he felt entitled to ask the house to refuse to assent to the request of the member for Selkirk, on the merits of the transaction.

**Segregation Better.**

Mr. Oliver said that it was a good thing for the Indians that they had been removed. Contact with civilization and the white man had not been a good thing for them, and they were no good men as they were 40 years ago. They were better off as they were doing better in their new surroundings.

The minister of the interior had some sport at the expense of the member for Selkirk by saying that the house was under some disappointment at having to listen to his speech, which had previously been reported in the Winnipeg paper. The speech was made up of such "unwarranted misrepresentations and inaccuracies, circumstances, motives and intentions," that the tendency was to prevent the proper progress of the discussion, and to interfere with the progress of the Indian reserves, as also the moral progress of the Indians themselves. The progress of what was called the "action" declared that the Indians had been conserved.

**Charges Bribery.**

T. W. Crothers (West Elgin) supplemented his vigorous arraignment of a year ago by another arraignment of the government. He charged the administration with playing upon the instability, simplicity and improvidence of the Indian, and said that Frank Pedley, superintendent of Indian affairs, had virtually gone to the St. Peter's band showing them the \$4000 cash, adding the words, "If you will agree to the surrender of the reserve, I will distribute this money among you." "That," said Mr. Crothers, "was substance and in fact a bribe to those Indians."

Hon. G. E. Foster said he was surprised that the government had no disposition to reply to the charge that the surrender had not been legally executed. He declared that the officials of the department had displayed either utter carelessness to the rights of the Indians, or that there had been open-eyed knowledge that the Indian was being disposed for the benefit of the speculator.

C. J. Doherty (St. Anne's, Montreal) declared that he would have remained silent were it not that the sublime indifference of the minister of the interior, as to whether the sale had been legal, had impelled him to enter into the discussion. The minister had not asked the department of justice for a legal opinion on the question, and said Mr. Doherty, it was not an exaggeration to say that Mr. Oliver had shown contempt for the rights of those Indians.

Dr. Holley (Provencher), who closed the debate with a brief speech, quipped the price of lands in the vicinity of the Indian reserve to fall value for their property.

**The Color Line.**

A. H. Clark (North Essex) drew the attention of the minister of the interior to the report that a party of negroes had been denied entry into the West Indies. He said that if these press reports were true, he said, it matter would require some explanation, because the West Indies are the most loyal citizens of the Dominion.

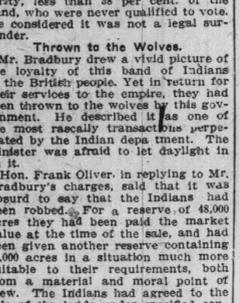

Mr. Oliver in reply said that no man was denied entry into Canada solely because of his color. The desirability of the man who wished to enter as a citizen was the main point considered. If he proposed to settle on

**MR. JUSTICE GIROUARD DIED FROM INJURIES**

An Eminent Member of Supreme Court Bench—An Author of Note.

OTTAWA, March 22.—Mr. Justice Girouard, senior judge of Canada's supreme court, died here this morning, from injuries received over a week ago in a runaway accident.

The late Hon. Desire Girouard, who sat on the supreme court bench since 1885, was born at St. Timothee, in the Province of Quebec, on July 7, 1836. He was a descendant of Antoine Girouard of Montouillon (Allier), France, private secretary to Gov. de Ramezay, Montreal, 1730. He married first, in 1822, Mathilde Pratt; second, in 1828, Essie Cranville, and third, in 1881, Edith Beatty. He leaves three sons and four daughters. The late judge was educated at Montreal College, 1857, and received the degree of D.C.L. of McGill and LL.D. of Ottawa University. He practiced at the Montreal bar from 1857 to 1885, was made Q.C. in 1876, and was elected M.P. in the Conservative interest for Jacques Cartier, serving from 1876 to 1886. While a member of

**JUDGE GIROUARD**

Of the Supreme Court of Canada, who died yesterday as the result of injuries sustained in a runaway accident.

The Dominion house he was chairman of the Privileges and Elections Committee for 14 years. One of his notable achievements in parliament was the carrying of the deceased wife's sister bill, in 1882. A supplement was produced jointly with his son, Desire H., and in 1889 and following years, a series of historical essays, which in 1893 were embodied in a volume, "Leske St. Louis," etc., translated from the French by his son, Desire H., for which he received the confederate medal in 1895. In 1900 a supplement was produced, and in 1903 an enlarged edition of the same in English.

One of the sons of the late judge is Lt.-Col. Sir Edouard Percy Craywell Girouard, the eminent military engineer who built the railway which transported Kitchener's army over the desert of the Sudan, enabling the British troops to reach and smash the Mahdi's army at Khartoum, and who again, under Kitchener, was director of railways in South Africa from 1890 to 1902.

Tickets are good returning all trains Saturday, Sunday and Monday, and may be obtained from the committee or from any of the C. P. R. Toronto offices, or South Parkdale station. City ticket office, 15 King-street east. Phone Main 6580. 3456

**SCHEME OF MODERATE REFORM**

LONDON, March 22.—Lord Selborne made a notable speech in Glasgow last night on the reform of the House of Lords, in which he outlined the plans of the Unionist party for making the upper chamber a more effective assembly and one which will represent more adequately the feeling of the electorate.

He strongly advocated a scheme for moderate reform, coupled with a conference between the two houses in the event of a disagreement and the referendum as a reserve for grave occasions.

**Smuggling by Aeroplane.**

GENEVA, March 22.—The first attempt to use the aeroplane for smuggling will likely result in the death of an Italian aviator named Spergolo. He is in Geneva Hospital to-day with both legs and his collarbone broken, and suffering from exposure to the cold.

Spergolo came to grief yesterday while flying over Mount Cenis, with a cargo of dutiable goods, which he was attempting to bring in from Italy. His machine fell and was wrecked. Fortunately injured Spergolo lay all night in the snow, and was found to-day by custom officers nearly dead from cold.

ACCUSED ALTERNATELY CURSED AND SOBBER

Extraordinary Outburst of Feeling at Trial of Camorrista—Curious Torments.

VITERBO, Italy, March 22.—Angry exchanges between opposing counsel at the trial of the Camorrista provoked a demonstration from the prisoners' cage, beyond the control of the court officials, that necessitated a suspension of the proceedings. The accused men alternately cursed in a rage and sobbed hysterically, while their women friends in the audience screamed and fainted, the wife of one of the prisoners being seized with convulsions.

This morning Salvi was called for cross-examination. It is charged that he is the man who furnished the final evidence of Cuoco's treachery in the Camorra, and so brought about his sentence of death. In a letter written from the prison, where he was confined for robbery, he asserted that Cuoco had betrayed him, and that he had given a share in booty of his crime to another than Cuoco. He called upon his brother Camorrista to avenge him. It is asserted that, according to the rules of the Camorra, a ring was taken from the hand of the murdered man to be sent to Salvi in proof of the fact that his wish for vengeance had been observed.

Carabinieri claimed to have found this ring in the mattress of a bed at the home of a woman known as the companion of Salvi. Salvi protested that the ring was placed in the bed by the evidence for the purpose of manufacturing evidence.

Mariano Desgenaro, who is also accused of the actual murder of Cuoco, also took the witness stand. He declared that he was the victim of jealousy on the part of Abbatemaggio on account of women. He denied all participation in the murder. Several parties composed of English tourists and Americans arrived here today from Rome to hear the trial.

**Boston and Return, \$15.25, From Toronto March 30.**

The only through car service to Boston is via Grand Trunk Railway System; moreover, this is the only double-track route to Montreal. These points should be considered if you are taking advantage of the low rate excursion to Boston Saturday, March 30. Only \$15.25 return via Montreal. Return limit April 15. THURSDAY MORNING, MARCH 23, '11.

URGENCY OF WATER IMPROVEMENT.

Now that the experts have confirmed the report of the city engineers that the intake pipe was broken by an "act of God," by means of heavy ice and storm, Controller Church, who has got it wrong on this question, should change his base. His action has now swayed by the demoralizing influence of the system under which he works. What is needed is not reformations about what might, should, would or could have been done on some previous occasion, but a decision about the best thing to do now. The system always begets paralysis of present necessary action with accumulating evil results for the future. We are now suffering for what has thus occurred in the past. We will suffer in the future from the divergences of Controller Church and others. No sensible man of business spends two minutes howling over split milk. The system insists on howling all the time instead of getting to work.

The ice broke the intake pipe. Let the howling abate and let us get the pipe mended, and something settled which will put a similar accident beyond possibility in the future. If any business man's well went dry he would not wait a week before he started to sink another. How many wells must the city wait before we begin to put our water supply beyond peradventure?

Prof. Coleman says we should go to Scarborough Bluffs, build a reservoir there and run a pipe into the lake to fill it. Engineer Rust thinks we should build a tunnel. We believe one plan is about as good as the other, and that the question of cost should be the determining factor. The calculations should be available in a very short time. Under a business administration either the tunnel or the Scarborough reservoir would be under weigh in a month. According to the usual method of the system under which we now labor it will be left to the new council to decide in 1912.

Meanwhile we have more faith in the expedition of the engineers in making repairs on the pipe, than in the recommendations of the city council.

THAT WILL 'O THE WISP.

The Canadian Parliament is legislating on something (reciprocity) that it can't deliver! Sir Wilfrid Laurier has virtually promised the people of Canada something very different! Won't he in a mess should it turn out that when he had got it they paraded the Americans had still talked to pass it, or had passed something very different! Therefore, wouldn't it be wise for him and in keeping with the honor of Canada if he sat still and saved a little real wood while the Americans were finding out where they were on the question!

Can any country afford to have its national policy at the mercy of an outsider? And don't hitch your wagon to a will 'o the wisp. Reach for a star! Nationality, not reciprocity, is the Star of Canada!

GERMAN AND AMERICAN CITIES.

To the April number of Scribner's Magazine, Mr. Frederick C. Howe contributes a lucid comparison between the German and American cities. The most obvious thing about the German city, he says, is the orderliness and he attributes this to its age and traditions. Another, but less evident distinction is the fact that it has no mayor. The official who roughly corresponds to the mayor is known as the oberbürgermeister, and he is a professional expert. For in Germany, city and town government so far as the chief executives are concerned, is a profession which can be adopted, studied and mastered just as any other branch of human activity may be. In Mr. Howe's words, "they are like the managers of a great business concern and are employed by the city council for that purpose, much as they might be employed to manage a railroad."

The present head of the City of Berlin has held that post for many years, originally a lawyer in Breslau, he became so interested in the work that he resolved to make city administration the business of his life. Dr. Adolphe has occupied the corresponding position in Frankfurt for a quarter of a century and recently declined a post in the interior department of Prussia. If re-elected after their first ten or twelve years, the tenure of office of these mayorship becomes permanent. It is easy to see the advantage derived from continuity of management by men of proved capacity and ability, but it can

scarcely be obtained in this form in English-speaking countries. Something approaching this has been secured under the British system where the chairman of committees administering important departments and undertakings often hold office for many years and become identified with their special fields.

WOMAN SUFFRAGE.

Sir James Whitney's declaration that public opinion was against woman's suffrage was somewhat less ingenuous than we are accustomed to hear from him. If he chose to advocate the extension of the franchise to women, there would be public opinion enough in a week to warrant him in granting it.

ASSESSMENT REFORM.

Sir James Whitney opposed the bill to give municipalities local option in the matter of assessing land higher than buildings. He objected to it on the ground that it was the thin end of the wedge of single tax. Objections like this will be the thin end of the wedge between Sir James and the people.

Why indeed should women wish to vote when A. E. Donovan is available to represent the sex?

Hon. A. G. MacKay was on the whole rather in favor of woman's suffrage, he said. Why then does he not adopt it as one of the planks of a really liberal platform? Sir James Whitney throws away enough good material to make the fortune of a live opposition.

Dr. Smellie made the strongest plea that was advanced in the debate on the woman's suffrage bill, when he admitted that the foreign voters required to be educated up to the standard of the ordinary Canadian woman. Prejudice alone prevents women having a vote and prejudice is a poor basis for legislation.

We wrote yesterday: "It is desirable that the delegated authority of the city in the hydro-electric commission should be closely assimilated with the delegated authority of the city in the local commission." The printers made it "should not be closely assimilated," the opposite of what was intended.

CONFESSION AND ABSOLUTION.

Editor World: The Rev. Dr. Griffith Thomas has come to this country to assist our doughty pamphleteer of the legal profession, and our most popular Blue-street canon, in guarding the Protestantism of the Church of England, and instructing the lifelong holders of the Catholic faith as to its imbedded in the Book of Common Prayer, as to what they may and may not believe. Many members of the various Protestant denominations would rather wish interest at this time, not what are the views of this or that member of the Kempt party, but what is the prayer book declaration, in the words of a morning and evening prayer every time either the doctor or the canon officiates, he recites as a priest, to a kneeling congregation the words: "Almighty God who hath given power and commandment to his ministers, to declare and pronounce to his people, being penitent, the absolute and remission of their sins," and in the office for the visitation of the sick, "Here shall the sick person be moved to confess his sins, and to receive absolution from the priest who truly repent, of his great mercy forgive thee these offences, and by His authority committed to me, I absolve thee from all thy sins. In the name of the Father and of the Son and of the Holy Ghost." Dr. Griffith Thomas in his lecture at Wycliffe yesterday says that confession and absolution by means of a priest are "unthinkable to a man with the prayer book in his hands."

Through Trago to the West, via Chicago and St. Paul.

Personally conducted Grand Trunk special train will leave Toronto 11.00 p.m. April 4 for Edmonton, stopping at all points on Grand Trunk Pacific Railway west of Winnipeg. Pullman tourist sleepers will be carried, fully equipped with bedding, and porter in each car. Berths may be secured in the cars at a low rate. This is an exceptional opportunity for those wishing to take advantage of the remarkably low one-way section rates, or round trip homeseekers' excursions, through the American cities.

The Church Militant.

KINGSTON, March 22.—(Special.)—Rev. T. E. Bourke of the Brock Street Methodist Church, strongly condemned the barem skirt in an address before the young people of his church, and said he would shoot St. Paul, if he saw wearing one in Kingston.

350 More Immigrants.

A G. I. R. immigrant special came in at the Union Station at 2.30 yesterday afternoon with three hundred and fifty immigrants. One hundred of these went on to Chicago, another hundred are destined for points in the Canadian west, and the remaining hundred and fifty will locate in the city or on the farms of Ontario.

A Call From the East.

ST. JOHN, N.B., March 22.—(Special.)—An unanimous invitation has been extended to Rev. H. S. Mahood, B.A., of Paris, by the First Congregational Church of this city, to become its pastor.

T.E.L. GETS CITY'S OFFER DIRECTORS ARE MUM

Manager Macrae Sends Formal Note of Acknowledgment and That's All.

The formal offer from the city council to the Toronto Electric Light Company for the purchase of its plant was received by Manager H. H. Macrae yesterday at noon. It contained a brief note explaining that the enclosure of the extract from the report of the board of control dealing with the probable purchase and price was contained in the same envelope and that its contents had been approved by the council. It was signed by the city clerk.

About 3.30 o'clock the following letter was received to City Clerk Littlejohn, who was asked: "I beg to acknowledge your letter of 21st instant, enclosing the offer of the shareholders to be held," he was asked. "Your truly, H. H. Macrae, General Manager."

Manager Macrae was afterwards questioned as to the probable action of the corporation in regard to receiving the letter and declared that as all he had to say on the matter. "When will the meeting of the shareholders be held?" he was asked. "I don't know that myself," was the reply.

So far as can be ascertained no date has yet been set for the meeting of the offer by the shareholders. It is expected that it will be arranged for at a meeting of the board of directors which will be held to talk over the situation. It is understood, however, that Mr. Macrae and Sir Henry Pellatt have received the opinion that the offer of the city is too low and that they can hold out for more than \$125 per share. There is a possibility of the shareholders, at least, holding different views and when the meeting takes place there may be some fireworks.

OBJECT TO THE SMOKE.

BROCKVILLE, March 22.—(Special.)—Mayor Patterson was to-day served with a high court writ issued on behalf of Mrs. G. T. Purford and A. C. Hardy, seeking an injunction restraining the corporation from operating their water works and light department in such a manner as to be a nuisance to the plaintiffs and other residents in their locality, by emitting from their chimney volumes of smoke and soot, and also for damages by reason of injuries to surrounding property.

First Homeseekers' Excursion From Toronto.

May 23, April 4, via C. P. R. for Winnipeg and west. Through train of coaches, colonist and tourist sleepers will run through to Winnipeg, avoiding change of cars or transfer troubles. Round trip rate to Winnipeg \$33, Saskatoon \$7.75, Calgary and Edmonton \$11, good 60 days, with liberal stop-over privileges. Ask any C. P. R. agent for copy of Homeseekers' booklet, just issued, containing ticket and berth rates, train service, etc., or write R. L. Thompson, D. P. A., 15 King-street east, Toronto.

\$15.25, Boston and Return, March 30.

Tickets to Boston and return at \$15.25 are on sale at all Canadian Pacific Railway Toronto offices, good going March 30, via Montreal. Tickets are good for return up to and including April 15. Tickets are good to stop over at Pittsfield, Springfield, Palmer, Worcester and South Framingham. The Canadian Pacific Railway Montreal route to Boston is the shortest line and provides the fastest time. Canadian Pacific Railway Toronto city office, 16 King-street east. Phone Main 6380.

AN ALIEN VIEW.

The possibilities of Hudson Bay, the great Canadian inland sea, ever being utilized as a waterway for the transmission of western Canada's products to the marts of Europe have been exploited by writers innumerable. It rests with an alien to approach this subject from a new standpoint, and in picture and prose he describes it as the northern Mediterranean in this week's Sunday World.

AT OSGOODE HALL

ANNOUNCEMENTS.

Motions set down for March 22, 1911. Thursday, 22nd inst., at 11 a.m.: 1—Kelly v. Kenora. 2—Gerry v. Water Commissioners. 3—Anstrutts and Guarantee Co. v. Boake. 4—Blyth v. Canadian Malting Co. 5—Re Quigley and Bastard and Burgess Townships. 6—Moses v. Becker.

Peremptory list for divisional court for Thursday, 23rd inst., at 11 a.m.: 1—Maltross v. Brouse. 2—McCutcheon v. Traders Fire. 3—Forbes v. Forbes. 4—Clarkson v. Antipitzky.

Master's Chambers.

Before Cartwright, K.C., Master. Metal Shingle Co. v. Anderson—F. H. Petre, for defendant. D. V. O'Connor (Lindsay), for plaintiff. An appeal by defendant from the County Court of the County of Victoria of 2nd February, 1911. An action for damages for the death of plaintiff's mare alleged to have been caused by the negligence of defendant. At the trial judgment was given for plaintiff for \$150 and costs. Appeal dismissed with costs.

MAGISTRATE APPROVED

INSPECTOR ARCHIBALD

Later Held That Policeman's Word Was Enough Evidence to Convict Evener.

There was a lively set to between Magistrate Peter Ellis sitting in police court yesterday morning and Chief Inspector Archibald. It arose this way: A policeman had sworn that John H. Marchmont and Archibald Rigoletti, charged with being drunk, had abused a drunk in the street. Marchmont swore that he had merely protected himself. This is no evidence to show this man was disorderly," remarked the magistrate. The chief inspector was on his feet in a moment. "I beg your pardon, A. policeman has sworn otherwise. If you won't believe his word, all right," he said. "It don't wish to be interfered with," from the bench. "I am not interfering." "You are." "You're not conducting this court. I'll dismiss this man—they are both drunk. This has gone the limit," snapped Mr. Ellis. "It certainly has," was the caustic rejoinder. "You don't try my cases," retorted the magistrate. "I do not. You needn't get annoyed," was the unformed reply. "It's going to be stopped. I'll try my own cases, understand that," was the last word from the bench and of the discussion.

FIXING A STANDARD FOR BREAD

Eight Prominent English Physicians Join in Asking That a Standard Be Fixed for the Nutritive Value of Bread.

We are making wonderful progress along the line of safeguarding the public health through the regulation of bread and confectionery under which men and women work. This progress is more marked, however, in the many efforts that are being put forth to educate the public on the nutritive value of foods. The good educational work has been going on, however, until it has finally reached the point where the right of health officers and food inspectors to actually set a standard for a nutritive value of foods. The English physicians and surgeons, including Dr. Sir Alfred Fripp, surgeon-in-ordinary to the King, have issued a jointly signed statement expressing the opinion that there is a national necessity that a standard be fixed for nutritive value of what is sold as bread, the same as is already done for milk. We quote one sentence from this statement, as follows: "In view of the inferior nourishing qualities of the white bread commonly sold, we urge legislation making it compulsory that all bread sold as such should be made of unadulterated wheat flour, containing at least 80 per cent. of whole wheat, including the germ and semolina (bran coat). There is no doubt about the drift of public intelligence toward bread that contains a larger percentage of the whole wheat than is ordinarily found in the white flour. There is, however, much controversy regarding the digestibility of much of our whole wheat flour which is made into bread. Much of the whole wheat flour bread found upon the market in this country is improperly made and not wholly digestible. In the case of shredded wheat biscuits, however, there is no question about its nutritive value or its digestibility, for the reason that the whole wheat is steam-cooked before it is shredded and baked. In making whole wheat flour bread the whole wheat is steam-cooked and hence a good portion of the nutrients of the whole wheat grain pass through the stomach undigested. In the case of Shredded Wheat, however, the starch globules in the wheat are broken down and made soluble by the steam-cooking. The shreds also expose a vast surface to the action of the digestive fluids and the baking makes the shreds so crisp and delicious as to encourage thorough chewing. This is a very important process in digestion."

Sunday School Convention.

The Ontario Sunday School Convention will open to-day when Miss Phoebe A. Curtis of Columbus, Ohio, will speak in the Friends' Church on "The Call of the Child." The section to-day is for workers and mothers under five. To-morrow evening Dr. W. K. Griffith Thomas, D.D., will speak on "Generalship."

Ex-Warden Dropped Dead.

KINGSTON, March 22.—(Special.)—Alexander Stuart Munro, aged 67, ex-warden of Frontenac, dropped dead at his home. For many years he was grocer and postmaster at Ardoch. His widow and a grown up family survive.

Building is Active.

No less than 16 building permits have been issued by the city architect's department in the past ten days. The money involved in the operations to date is \$48,000. Two of the permits are for apartment houses.

Death of Baptist Pastor.

BROCKVILLE, March 22.—(Special.)—The death occurred yesterday at Frankville of Rev. Mr. Wingle, Baptist pastor at that place. Deceased was only 22 years of age, and came from Toronto.

ber of actions between the parties

found that there was due plaintiffs on their mortgage, etc.; herein the sum of \$25,318.66, at the end of the six months allowed for redemption. Arguments of appeal resumed from yesterday and judgment reserved.

Shine v. Connolly—G. H. Hopkins, K.C., for defendant. D. V. O'Connor (Lindsay), for plaintiff. An appeal by defendant from the County Court of the County of Victoria of 2nd February, 1911. An action for damages for the death of plaintiff's mare alleged to have been caused by the negligence of defendant. At the trial judgment was given for plaintiff for \$150 and costs. Appeal dismissed with costs.

Had Certificate From Mayor of Quebec—Morgan and Carnegie Among His Customers.

NEW YORK, March 22.—Alexander Hollander, 5016 member of the firm of Alexander Hollander and Company, customs brokers, pleaded guilty in the U.S. Circuit Court this afternoon to a charge of forgery in connection with customs frauds aggregating \$500,000. He was arrested in Naples last July and after a long fight was brought back to this city in December. Hollander was sentenced this afternoon to fifteen months' imprisonment in the federal prison at Atlanta. When Hollander, who is native of Austria, and has had a distinguished business career in Germany, England and New York, was discovered defrauding both the government and his customers in January, 1910, he ran away to Montreal and Quebec. When finally caught at the Park Hotel, Naples, it was found that he had a certificate from the Mayor of Quebec, setting forth that the bearer, Jacques Bonhomme, was a resident of Quebec and a British subject. He fought extradition thru all the courts of Italy, but gave up the fight when brought before the federal courts here.

Inspector Dr. Struthers Says Several Cases Have Come to His Notice.

Dr. Struthers, chief medical inspector in the schools, states that in a number of scarlet fever cases, the affected children have been admitted to the schools too soon. One pupil, who had been sent to the office whose case had never been reported to the health department, this pupil showed the dangerous decaying stage of scarlet fever. Three other cases have been reported. A case of mumps has been reported when the affected pupil, after sent home from school, was playing on the street with the school children after four o'clock in the afternoon. Dr. Struthers held a conference with the educational committee of the Dental Association, discussing the establishment of clinics in the city. "I would like to see about eight or ten chairs established in different schools as centres," stated Dr. Struthers. "That plan is followed in Chicago, and works to good advantage."

FARMERS AFTER HIRED MEN

Newly-Arrived Immigrants Are Being With Offers of Employment.

The shortage of farm help for Ontario is greater this year than ever. A great number of farmers are coming into the city in search of recruits from among the new arrivals from the old country, there are dozens that will not obtain even one man. Many are under the impression that the majority of the new comers arrive here with no set idea of how or where they are to obtain employment, while the truth is that nearly everyone who comes knows exactly what he is going to do before he leaves the old country. The wages being offered are not very high. An experienced man of ordinary physique will be offered from \$12 to \$15 per month and board, while one who can plow, milk, and in every way fulfil the duties required of him can get from \$25 to \$35. G. L. Stewart, Dominion Immigration superintendent, has applications from over two hundred farmers requiring in the neighborhood of 250 persons, some as beginners, others as experienced men, and also married couples, and further applications are being received daily.

Notice to Inventors

Inventors or others interested in life-saving devices are hereby invited to submit to the Company plans, rough drawings or models of any device to be used upon the cars for the prevention of accidents. All communications on this subject should be addressed, and plans and models submitted, to the Master Mechanic of the Company, at his Office, foot of Sherbourne Street, Toronto.

JAMES GUNN, Superintendent, The Toronto Railway Company.

# Porcupine Gold Camp

## Hollinger Keeps on Advancing Porcupine Issues Are Strong

### Premier Porcupine Stock Market's New Record at \$9.15—Cobalts Depressed Under Realizing Sales

World Office,  
Wednesday Evening, March 22.  
Continued strength in the Porcupine issues and further depression in the Cobalts was about all that could be added from the transactions on the local mining markets today. Trading was of an active character in such securities as acted as the leaders, but outside of these special instances there was nothing in the dealings of more than passing interest.

Hollinger made another spectacular movement, the shares moving up to a new high record at \$9.15, 65 points above yesterday's top figures. The stock was decidedly active, but the individual trades were limited to small lots, and the advance was held well at the close.

There was an almost all-round appearance of strength to the other Porcupine shares. Preston East Dome advanced over two points from yesterday's low price, and closed around the high for the day. Porcupine Gold (Vipond) was another strong spot, these shares selling as high as 62 1/2, or 4 points over the opening sales. Other gold issues showed moderate buoyancy, but no material movement was evolved.

The various Cobalt mining stocks were still under pressure, which was taken to indicate the transference of holdings into the Porcupine securities. Beaver, Hargraves, Peterson Lake, Great Northern and West Dome were of large fractions, and Timiskaming nearly a full point to 75 1/2, under heavy realizing. McKinley sold as low as \$17, a loss of three points from yesterday.

In so far as the gold mining stocks were concerned the market was a decided improvement on that in evidence of late. Cobalts, on the other hand, showed no outstanding change of tendency. Good buying was noted on the reactions, however, but the liquidation was so pronounced to warrant any turn toward higher prices.

### WIRES TO NEW YORK.

The growing interest in Porcupine and the securities at the various incorporated companies in New York has necessitated quicker interchange between New York and Toronto brokers. It is expected that several special wires will be operated between Toronto and New York when the gold camp gets into full swing. Messrs. Scott, Dawson & Patterson are among the first to get in direct touch with New York. This firm yesterday had a wire working out to both New York and Toronto, giving quotations and executing orders.

### Mining Bulletin.

Messrs. A. J. Barr & Co., 43 Scott street, have issued the first number of Barr's Bulletin, a publication to be continued fortnightly. It will deal with the Porcupine and Cobalt mining stocks dealt in on the Toronto mining exchange. Extensive information relative to both mining camps, the various issues are dealt with in a comprehensive manner.

### HALL MARK OF PORCUPINE

Hollinger made a few high price yesterday, the stock selling up to \$9.15, another new high record and an advance for the day of 65 points. Buying on the Toronto market came from all quarters. New York was much interested, as were other American cities and also Montreal. London has made many enquiries for the shares, and it is expected that in a short time Hollinger will be one of the recognized issues on the London market. Hollinger is the hall mark of Porcupine, and has already become famous in a very wide area.

The Boston News Bureau in an article says: "The Hollinger will be the first regular producer in the Porcupine camp; \$75,000 of ore has already been shipped from development work, and on June 1 its 30-stamp mill, with a capacity of 150 tons daily, will be in operation. Interests associated with the management state that the average value of the ore runs \$50 per ton, so that monthly operations should result in a yield of \$200,000, or at the rate of \$2,400,000 per year. The stock has been offered in the following shares:

In treasury	50,000
London holdings	50,000
General holdings	125,000
Timmins-McMartin holdings	375,000
Total	600,000

## GREAT NORTHERN BUY LOTS IN CRIPPLE CREEK

### Six Dixon Claims Taken Over—Wide Leads on Property—Active Work Going On.

Porcupine City, March 20.—(From Our Man Up North.)—The Great Northern Mining Company, with holdings in two corners of Whitney, the southeast and the southwest, have ventured into Cripple Creek and today took over the Dixon six claims near the Jowsey-Woods-Carleton, a prominent group. Three tons of provisions have been rushed to the Matagami River by teams and from there dogs will be used to get the supplies in. Two tons more of supplies, explosives, tents, etc., will be taken in to-morrow when Supt. Wm. Woodney leaves to personally supervise the work. "Actual mining," says Supt. Woodney, "is what the company is going to do. The claims have been well prospected on the surface and now we propose to sink on them. The leads are wide and run well in assays."

The Dixon claims have long been known to the prospectors and miners here as a very promising group and three weeks ago Supt. Woodney for the Great Northern Company made careful examinations and sampled the veins. The results were highly satisfactory. Quartz veins in the schist are reported and in some places the leads run as wide as 20 feet.

A force of men will be kept on the properties all summer and shafts at various places along the veins put down to the depth of 100 feet. While this work is proceeding on the Cripple Creek holdings, the prospecting and developing work on the company's Whitney holdings will also be rushed. Sinking is now going on, and with the coming of spring more striping and uncovering will be resorted to.

Chas. Fox.

## Pearl Lake Gold Mines Limited

We Advise the purchase of this stock at the market.

This Porcupine property has rich gold showings, and is one of the best known holdings in the district.

# HOLLINGER

During the flurry that has attended the offering of Porcupine issues of lesser merit, attention has been diverted from the shares of Hollinger Gold Mines, Limited. We learn from reliable sources that ore to the value of several million dollars (much of it ready for milling) has been mined or blocked out on the property. A world-wide market is being developed for the stock, which is, assets considered, worth \$15.00 a share to-day. It will in the very near future sell at a figure far above \$15.00 a share. It is the best buy in Porcupine, and the time to buy is NOW.

Your order will receive our prompt and careful attention.

We are specialists in Porcupine stocks, and will be glad to furnish full information relative to any Company.
